

First Strong 219

Chapter 219 - Mysterious strong

It's a bit strange to find people here!

Shen Lang can clearly determine that this will not be the person who comes in together.

There are another 17 in total, and there are eight who have been killed by him. Others will not go deep into this place.

To take a step back, even if someone gets lost, going farther and farther here, it is impossible to be so fast.

To know that Shen Lang broke through the third weight last night, the strength has been greatly advanced, this morning, the knives and small test, for these talented teenagers who are at the peak of the Yuan dynasty, almost casually slam the spike.

Just that person, it must have been observed in the vicinity for a while, but he did not notice it, showing the strength of the other side! When he used the knowledge of God to detect it, the other party was gone soon!

This is by no means the level of the peak of the Yuan Dynasty. Shen Lang estimates that he should have no problem with the mid-term fight. Just that figure, you should at least reach the realm of the mid-reality!

Thinking for a moment, he did not act immediately, the other party did not come directly to him, did not shoot him, perhaps indicating that there is no hostility.

If he followed the past, he might misunderstand the other party.

But frankly, if you encounter such a strong person here, don't look at it, his curiosity is hard to satisfy.

Who is he? Where did he come in?

If it is really in the middle of the virtual world, or higher, then the age cannot be less than twenty years old, and it will not be transmitted!

If it is also under the age of twenty, but it has reached this realm, it is really a genius.

Or is it just that the death valley's transmission array limits the age, and there are no restrictions from coming in from other places?

But at least it is now certain that it is not the Death Valley, nor the Stonehenge that was sent in.

They have already arrived here, and the other party is not malicious. Shen Lang is curious, but he has checked it in the past. He is not malicious anyway.

In the direction of the disappearance of the figure, I rushed over. Not long after, I saw a simple wooden house in the forest!

Sure enough, someone will build a house, albeit very simple.

Just saw the wooden house, waiting for him to come close, there is a figure appeared in the doorway, long hair shattered, the side can not see the appearance, he directly pointed his finger to the direction of the sinking waves.

I can feel it, which means letting Shen Lang come from where to go.

“Sorry to bother, but I am not malicious, just preparing to rest for a night.”

Shen Lang kept the distance and stopped, saying that he was holding a fist.

“roll—!”

When a sharp voice sounded, the man had a shadow, and as the voice came, the man had already reached the front of Shen Lang, and the whole face was very embarrassing.

Shen Lang was slightly surprised, this person is very fast!

In the instinctive retreat in case of unclear whether the other party will attack, in order to maintain a safe distance.

But the other party is following closely and is getting closer. Even if he uses the “Phantom Meteor Step”, he will remain in front of him.

Such an instant, Shen Lang also saw the face in the middle of the long hair, is a thin middle-aged man’s face, no **** white, and looks like a foreigner!

Sure enough, not young people under the age of twenty, this can explain his strength.

But where did he come in?

Shen Lang, while observing and interrogating, his foot is very fast retreating, and the sensitivity and speed of the “Phantom Meteor Step” have been played out.

In a few seconds, I couldn’t see the wooden house, and I retired to the place where I just found this figure.

The middle-aged man stopped and went tens of meters away from Shen Lang, then extended his finger and pointed to the distance.

This shows that the person is still not malicious, just do not let Shen Lang close to his residence.

Shen Lang is not only curiosity, but also a competitive mind!

“Phantom Meteor Step” is also a very good growth method. As he gets higher, he can play faster. But just that person, but can follow him in front of him, seems to be faster than him!

He really wants to try this stranger and see who is faster.

However, the other party did not shoot, nor was it malicious, so that he was not good at finding it.

Shen Lang nodded helplessly, saying that he would not bother him, and then back a few hundred meters back.

There are towering trees everywhere, he just found a tree, jumped up to a large branch like a human body, ready to spend the night.

However, it was originally planned to practice for a few hours before going to sleep. Now there is a strong person with unknown origins nearby, of course, I dare not concentrate on practicing.

When he just took out a bottle of water and drank a little, he found that the middle-aged man came over again!

First appeared under the tree, then a flash has stood on the trunk.

“roll!”

He screamed again, obviously more than just anxious.

Shen Lang frowned. “You are there first, let me go, I will not bother. But there is already a distance here. The whole forest is not your own place...”

His words have not been finished yet, and the other party is approaching quickly!

Shen Lang was sitting on the trunk, and at the moment he saw the other party, and immediately jumped to the ground.

He has not yet landed, the other party has landed faster, and one hand directly hit his neck!

In the morning, Shen Lang quickly caught the neck of Hai Rui in the same way. I did not expect that someone would use the same method to marry him.

He just moved the heart of competition, but he was not provocative and provocative. Now that he is coming again, he is not welcome. Immediately put the “Phantom Meteor Step” to the extreme!

Suddenly, two people flashed quickly in the forest, the speed is getting faster and faster, and the running track is getting more and more trajectory.

What surprised Shen Lang is that even if he keeps accelerating, the other party can always keep up!

Although every time the opponent's shot is almost a little touched, he was flashed off, but relying on the magic of footwork.

In other words, if it is not a quick change of the body, purely catching up, he will soon be caught up!

When the expert takes a shot, he knows if there is any.

Using the "Phantom Meteor Step", I can barely level off and let Shen Lang's first horror. This is a terrible powerhouse!

However, he did not fear, but instead he was so excited that he did not passively dodge.

When the person was once again close to the side, Shen Langhua was passive and took the initiative to fight out in front of a boxing and went straight to the palm of the other hand!

He also used the "Da Shou Mi Long Xiang Shen Gong", and after the "Yin and Yang Bo Ruozhen" broke through the third weight, he used the "Da Shou Mi Long Xiang Shen Gong", the power is more than before, I don't know How many times stronger!

However, the Yuanyuan Jingfeng monk can directly punch a punch, hit the palm of this person, just let his body pause, not to mention hurting people, do not fly people out.
