

First Strong 223

Chapter 223 - Amazing identity

The experience of Shen Lang's previous life is not white!

Today, the tens of thousands of fights with the mysterious powerhouse, including being hit two thousand times, are not white!

The golden giant screamed out the fireball and it was continuous, and then it rushed over, but the time was only a few tenths of a second.

When it was said that it was too late, Shen Lang quickly slid out to the front, supported on both knees, and the upper body leaned back, almost folded over the calf.

So directly opened a number of fireballs flashing above, and at the same time slipped to the bottom of the gold giant body.

When a plurality of fireballs were dispersed, the unsold sword in the hands of Shen Lang was directly attached to the neck of the golden giant cymbal from below, and was directly drawn to the tail, and the abdomen completely came to a big opening!

The golden python was attacked by their fists and was hit by the huge trunks. There was not much damage, because its muscles and skins were very strong, and the general sword could not hurt it.

Its abdomen is of course the key, not so strong bone protection. But this is within the protection range of the minions, and usually does not let people reach the abdomen. Just like the previous wave hitting the abdomen, it claws up and goes up the trunk.

Just as Shen Lang has no way to go, risking to slide forward on the ground, just got the best chance.

The sharpness of the sword is not born, and the sword that pervades the vitality of Shen Lang is directly cut into the belly!

“Roar!”

The golden giant could not help but utter an angry roar, trembled the entire cave and shattered.

Its body fell down, under the flame, turned and attacked the waves!

Now that the two have changed a seat, it has fallen into it, and the Shenlang has slipped from underneath it. It only needs to display the “Phantom Meteor Step” to escape from the cave!

Although the golden giant is still not dead, but a sword is broken, light bleeding will also make it less powerful, as long as it is safe to go out.

But Shen Lang did not go out immediately!

Since you already have the upper hand, there is no reason to escape!

With his hands on, the man has quickly stood up and turned into a sword to face the retreat of the golden giant.

And just as he turned over, there was a wind blowing from the side!

When he got up, he saw that the mysterious powerhouse finally came in and directly drilled into the belly of the golden giant!

Shen Lang was relieved while he was relieved.

With this strong man coming in, he is absolutely safe. However, the opportunity for such a fierce beast, for him at this stage, is still inaccessible, and the two people jointly killed and killed the opportunity.

But since the strong shot, he can only cooperate.

The man came in directly to the abdomen of the golden giant, and it seemed that he was found to have broken his nose and knew that it was not so easy to die, so he ventured into its belly again and directly hit the heart. Broken, or smash the internal organs!

The golden giant has a strong fighting power. It was originally angered by the swells, but now it is dangerous, the claws and teeth are gone directly to the people below!

Shen Lang quickly stabbed the sword and used the tip of the sword to pick up its claws!

It needs to maintain the balance of the body. At most, only the teeth and the claws of the two legs can be used to catch people. The speed of the sword is completely blocked.

In fact, this is still the feelings of Shen Lang, the sword is only to protect the strong, or else this will swing the sword, throat, stab the eyes, the success rate will be very high!

The golden giant is wise, not only very angry about Shen Lang, but also deeply jealous of the sword in his hand. Knowing that this is not the previous trunk, it is also more difficult to resist if it is attacked.

So it gave up the person underneath, screaming at Shen Lang, and the fierce body rushed over!

Shen Lang estimates that it should not last long, and finally desperately must be very fierce, but since the strong is so attached, can not let it escape.

He immediately stepped back and swung his sword at the same time, and the man had been out of the cave.

The outside space is bigger, and it is more convenient for him and the mysterious strongman to pack this beast.

Of course, the golden giant rushed out, which is the only chance to escape.

But after coming out, Shen Lang couldn't help but laugh, the mysterious powerhouse, this time it was actually hanging directly under it!

Sure enough, it's a weirdo! I can't figure out what he wants to do.

After the gold giants came out, they screamed again, but they did not have the strength, but like the last wailing, no strength to attack the waves, no fire, no escape!

It took a few steps and it was getting slower and slower.

Soon it fell down directly!

Shen Lang took the sword up. Since it fell, it is natural that the mysterious powerhouse has succeeded.

When he looked at it recently, the whole person couldn't help but take a breath!

The golden giant has not only fallen, but the breath of life is losing at a visible speed. It seems to be hung up and there is no strength to struggle.

But it is a very powerful beast. It can still last for a long time even if it is laparotomy. If you give treatment, or give it a chance to cultivate, you may still heal.

What caused it to die so quickly is not that the mysterious strongman tore out its vital organs, but... the rapid loss of blood!

Its abdomen was broken, and it should have flowed into the river. The mysterious strong man was under his belly. It should have gotten a blood, but now there are not a few drops on the ground, and there is not much blood on his body.

Where did the blood go?

This is to surprise Shen Lang – the mysterious strongman in his service greedy bloodsucking!

He didn't know what to say, and he understood that this person is a golden giant, and what he wants is its blood!

Shen Lang retreated to the side and did not bother him.

But this is not very good, he simply went to the fire.

The trees that were previously hit by the fireball some leaves are burning. This is the virgin forest that no one cares for. There are so many deciduous weeds on the ground, it is easy to be a big fire!

Fortunately, they have not been fighting for a long time with the Golden Giant. At this moment, although there are many fire sources, the fire has not yet formed.

Shen Lang kicked a lot of mud in the past and extinguished the flame one by one.

After he finished, the mysterious strongman over there had already stood up.

Although it was a weirdo, but the people just helped him to practice for so long, Shen Lang did not evade, went over.

The eye can see that the golden giant is dead. Originally, the body is bigger than the lion and tiger. Now it has become very dry and flat, and it looks a bit scary.

“You are not afraid of me?” He licked the blood of his mouth and satisfied his face.

“Why are you afraid?” Shen Lang asked.

“Because I am... Count Dracula!” The mysterious powerhouse proudly introduced himself.
