

First Strong 2231

Chapter 2231 - Devil's temptation

Shen Lang is multi-purpose.

On the one hand, it is analyzing these situations, on the other hand, it is also “observing” the energy body of the suspected troll soul.

He also pays attention to the movements around him. Since the “seventh devil” may still be alive, it is also possible that the eighth and ninth...

In addition, he also sent a message to the outside of the cold autumn, let him in.

At the same time, with one heart and four uses, there is no mutual delay in time, but this tests the spirit, just like the multi-threaded work of multi-core cpu.

In addition to analyzing an ins and outs, the continuous observation of Shen Lang has made new progress.

The reason why it is “observation” is because he still has confidence in himself and is confident that he can extinguish the soul that has entered his body.

The soul of this seventh devil, on the one hand, disguised as energy, spread as much as possible, on the other hand, it still maintains a very low-key, it seems that it has no consciousness at all, just a kind of energy like mental power.

Observed that it is in such a situation, I guess it still still wants to stand still and sneak attack. I have already analyzed the ins and outs of the ins and outs, and I have begun to think about more detailed and targeted plans.

Gao Hanqiu was originally outside, and he will also pay attention to the situation inside.

Shen Lang's situation here is what he knows, but he can only understand the external appearance and not know the internal situation.

Just before Shen Lang did not have any screams or nervousness, this scene can also be interpreted as when he read the memory of Loulan Wang, directly stunned Loulan Wang.

Therefore, he waited until the idea of Shen Lang's transmission, and he knew that something was wrong and immediately came in.

The strength and experience of the two are equal, and they have an extraordinary tacit understanding. Therefore, after coming in, Gao Hanqiu will not care about the situation of Shen Lang, which does not help.

What he did was to defend the surroundings on the one hand and to check the body of Loulan on the other hand.

In this case, he is equal to sharing the responsibility of half of Shen Lang. What Shen Lang needs is to concentrate on dealing with this troll soul.

Shen Lang's work on the cold autumn is of course an absolute reassurance. It is a brother who can be completely delivered by the back.

So while he continued to observe, he began to implement the plan.

If it is true, as guessing, this is the soul of the "seventh devil", then this troll that can qualify to stay here, attached to the king of Loulan, should be stronger than other trolls who go out to kill. !

Therefore, it still maintains a disguise state, and wants to surprise the attack, indicating that the real strength has not yet fully erupted.

Shen Lang is also a regular imprisonment. It has information to break through, so it continues to be disguised. If you want to strangle directly, then it will definitely break out.

But this is a bit of mutual consideration, and certainly will not last long. So he has to be arranged more fully!

This troll is a very aggressive creature. Once you enter the body, it will affect the host from the body to the heart. If it has reached the realm of the great gods, the human beings of the same level are estimated to be very difficult to resist. .

However, Shen Lang is not an ordinary god!

He is hard-pressed with the demon dragons. For the extraterrestrial monsters, they have also hunted a lot.

Empiricism is not desirable, but the experience itself is still of reference value.

At the moment of the layout, he directly used the repression effect of the mysterious energy of the Yungong Holy Land, and began to succumb to the devil's soul of the scope of imprisonment, and began high-pressure suppression!

At the same time, he also greatly strengthened the conventional imprisonment on the basis of the current encroachment.

On the other hand, Shen Lang's own spiritual strength is also highly condensed and begins to make a positive impact on this potentially powerful devil soul!

In the moment of the three-pronged approach of Shen Lang, the devil's soul is probably predicted in advance, or feels murderous, and it is an early explosion!

Originally it seemed to be an energy. Under the imprisonment, it was also a little bit of penetration into the surroundings. Now it is like a bomb, and it has directly erupted an unstoppable embarrassment, which has spread greatly.

Before it entered from the hands of Shen Lang, I wanted to continue drilling along the inside of his arm. Now I pumped to the big half of the trunk!

The three-pronged approach of Shen Lang was originally a stable arrangement, but the other side, as he suspected, was also very strong, very embarrassed, and succeeded in taking the time.

Originally, the conventional imprisonment, under its pretense, can also be eaten away. The power of the explosion at this moment is directly unstoppable. Not until the strengthening of the imprisonment comes, it has completely broken away.

Not waiting for the positive confrontation of Shen Lang, it has already attacked the waves in a comprehensive way.

The soul of this devil, concealed by the king of Loulan, is intended to win a stronger sinking wave (or high cold autumn), has now been discovered, of course, a blow to the boat.

It broke out at this moment, not only its powerful energy, but also a huge impact on the body and mind!

Shen Lang has not shown any changes at the moment, but he has not been able to take care of it. Although he was robbed of the opportunity, his plan continues to be implemented.

There is no way to imprison the ban, but the suppression can still continue, and the spiritual strength that is united together is also a comprehensive war.

If the other party is still disguised as before, Shen Lang can directly crush it under the three-pronged approach.

Now the other party has broken out the original strength, and the imprisonment cannot continue. But Shen Lang is still a strong double click!

The repression effect of mysterious energy can make the strength of the other party a discount. Even if the scope is much larger now, it still has an effect.

It's just that Shen Lang's comprehensive mental counterattack is much harder than expected, and the scope of the attack is large.

This is in the body of Shen Lang, and it involves the spirit. As a battlefield, both physical and mental, whether it is the place or our side, has an impact on Shen Lang.

A more important question then appeared!

The influence of the devil soul!

In an instant, Shen Lang felt a strong desire in the body, wanting to swallow all the living life, the stronger the better! That will give you a feeling of control that is powerful.

In terms of psychology, there is an unprecedented ambition!

Simply swallowing everyone on the planet, the billions of energy, enough to grow to an unprecedented level of power!

Simply refining the entire planet and turning it into a part of the body!

With the energy gathered by billions of people, the earth has become a part of the body. This is the super **** that can cross the universe. This is the power of true god!

Chapter 2232 - Full force strangulation

Its ability to influence and confuse is very strong, but it will still be combined with the individual.

For example, Mo Qi, I was very grateful for Shen Lang, because Shen Lang made him reach a level that he could not have imagined, far better than his master, and did not expect too much.

But after the troll, I felt the power of the troll, the influence of the body and mind, and his mentality changed greatly.

He felt that saving the life of Shen Lang's parents only helped him to a certain extent. The woman around Shen Lang was so young, but he was far better than him.

He won't think about his talents far below them, nor will he consider that he is a lot older and grows much smaller. I only feel that the waves are unfair!

The savior of the parents is far better than the woman around them.

So he is mad, and he is unwilling to return to the identity of the former Mo Qi, willing to become a troll and enjoy a powerful force. It is best to be able to pack up the waves!

Then you can take a sigh of relief – without your help, I can still be strong, but also stronger than you!

As for becoming a troll, under the influence of the troll on consciousness and mind, it does not think that this is a monster, and even this kind of form is more powerful and more powerful.

Aesthetics was directly reversed.

Now the impact of Shen Lang is also catalyzed by his memory of life.

Why do you think of billions of people? That is because the goal of the **** of light is to unite the earth and let all billions of people believe in the gods of light, thinking that they contribute to the power of faith.

This premise, combined with the influence of the devil, has turned into the engulfment of these billions of people, and the energy of the power of faith has become direct energy.

The return of Shen Lang this time has already reached the top of the earth and is beyond the limits of space rules. The foundation of this reality, after being enchanted by the devil, is even more inflated and exaggerated.

The result is that the earth can't hold me anymore, and all the earth creatures are swallowed up! Just think of ways to refine the entire planet into a part of yourself!

The space of the book, the tower of the sky, and so on, will be the basis of this crazy thought.

Whether it is carrying the earth as a back garden, or really refining the earth into a part of the body, it is a very incredible crazy idea.

These thoughts appear in the mind, so that Shen Lang can not help but secretly scared. Have to admit that this guy is really a devil!

The goal I wanted before was only Loulan. I have not yet spread to the Central Plains, to the whole country, and to the whole East. This actually wants the world directly!

And even the unification of the whole world is not in the eyes, it is directly to turn the earth into a ball of its own!

At the same time of the shock, Shen Lang is highly vigilant.

In a way, this is also the performance of the demons.

If these thoughts really reach into his consciousness, it will affect him later. Even if this troll is wiped out, these thoughts will not be destroyed!

It's true that one day, there will be crazy things on the earth that make him unacceptable. Maybe it will be such a thought!

So now he must be highly vigilant and let himself deeply understand that these crazy ideas are not from his subconscious mind, but the devil's confusion.

This influence is the power of this devil, quickly and overbearing.

But the effect of the suppression of Shen Lang has already appeared!

Originally, the pump sent him to the majority of his torso, trying to engulf the entire devil soul, which seemed to pollute him half of his body. At the moment, the suppression, on the one hand, made it difficult to continue to expand, on the one hand, it was alleviated.

At the same time, the spirit of Shen Lang's full-scale war has also been attacked swiftly!

His spiritual world is far greater than the general god, and the sturdy spiritual power is also the first comprehensive enemy.

So the soul of the devil, in the face of suppression, but also encountered the general storm of the storm, suddenly a little bit smothered, as if it is difficult to match.

Shen Lang will not be confused, whether it is really unbearable, or want to paralyze him, he will not relax.

The compressed liquid belief in divine power, this time is the constant backup energy of Shen Lang, he can fight the devil soul with no scruples!

Of course, this long-lasting battle will last for a long time, but it will be relatively long. After all, consciousness is faster than electric light and flint.

The soul of the devil has only one chance to break out. It felt the crisis and broke out the most powerful attack.

The scope of the body that has captured the wave has been expanded by a dozen times, which is already very powerful.

But without taking the Shenlang once, it will not have a second chance!

When Shen Lang was fully suppressed, even if he wanted to break out again, he could not do it.

And the turbulent spirit of the swells began to eat into it!

It is like a polluted water source, a lesion in the body, which is constantly spreading to the surroundings, and now the Shenlang is constantly shrinking.

This process is a process of continuous attack and defense. It is who is stronger and longer, and who is more durable.

Shen Lang was originally more powerful than the general god, and the two-degree expansion of the dragon was to make him several times larger than the general god.

It is the high-cold autumn that the realm is higher than him. In terms of mental strength, it may not be much stronger than him.

More importantly, now in this small world, whether it is vitality or spiritual strength, Shen Lang can exert its full strength, do not worry about attracting catastrophe!

On the earth, when individual strength reaches the realm of great deity, it will lead to catastrophe. This is a space law speculated by Shen Lang.

But this does not mean that the earth can not withstand this power but it will be very different from the general creatures, so the catastrophe given is more like an upgrade assessment.

Kindergartens have the level of kindergartens, and primary schools have the level of primary schools. If a child has reached the level of a high school student, there is no need to stay in the kindergarten. I will pass the exam to confirm the level, and then ask him to skip the grade.

But if the student disguise well and behave like a kindergarten child, the teacher who manages many children may only be aware that he is better, and he does not necessarily know his true level. He will not let him take the exam. .

This is the spatial rule that Shen Lang understands.

But in the small world, there should be no such rules!

Unless it is strong enough, this small world will not be able to withstand and collapse.

But this is definitely not true, so he can go on hard and he can do his best. It can continuously release the highly compressed mental power, use this continuous ammunition, and bombard the devil soul with strong firepower!

Chapter 2233 - Devouring

This battlefield is the body of Shen Lang!

There are obvious disadvantages, regardless of the opponent's offense, or their own counterattacks, the exchange of fire between the two sides ... will have an impact on his body, it is his uncomfortable.

But it also has obvious advantages. After all, it is the body of Shen Lang. It has the advantage of home court. It is a coordinated operation that can combine physical and mental health.

When Shen Lang continued to maintain high-pressure output, the "land" occupied by the devil's soul began to shrink more and more obviously.

It strongly influences the body of Shen Lang, affects the spiritual consciousness of Shen Lang, and wants to demonize it. That is to compete for the control of the body. If it succeeds, like its will, it will become like it. The home is average.

It is a pity that the will of Shen Lang is rock solid!

This of course also benefits from the insights of Shen Lang.

At the beginning, Mo Qi was easily confused. Because of his low strength and limited knowledge, he was easily attracted.

Devouring billions of people and refining the earth into one, this is a very heroic and spectacular ambition.

If it is a strong person on the earth, a hero who is unscrupulous for the purpose, will inevitably become a confidant, and will feel that this is the goal of struggling for a lifetime.

And this goal is gradually realized, and it can also achieve the effect of immortality.

However, Shen Lang is a world in which the two worlds have been human, have seen different stages of development, and even have a mystery of the future of 80,000 years. These have greatly broadened his worldview.

Therefore, even if his consciousness is enchanted by the devil and there is such a spectacular ambition, he can still look at it calmly.

The devil's soul continues to confuse him in other ways, and the effect is much worse.

Shen Lang himself is the master of his own!

He steadily continued to suppress the soul of the devil, and the high-spirited output of power, constantly smashing and encroaching on the target.

How about the dragon?

What about the magic?

After a long and sustained attack, the devil's soul has shrunk to the size of the hand that has just entered Shen Lang.

But this situation is already a different day.

At the beginning of the entry, it was intentionally disguised as a spiritual energy, and there was no burst of strength and ambition. What I want is to numb the waves, take advantage of the opportunity, and take the next step.

But now, it is step by step to the extent that it is already on the edge of inability to defend.

“Let me go! I can give you everything!”

I pretended to come in, and then the two sides began the battle. Shen Lang and the devil's soul did not communicate at all.

But now, it has reached the point of inability to parry, this devil soul, proactively released a sense of consciousness, and ask for mercy with Shen Lang.

“What else do you have?”

Sinking and disdainful response, continue to suppress with all efforts.

This devil soul is obviously controlling the king of Loulan, and everything that is said is also a small world.

Not to mention that Shen Lang does not possess the interest here, even if there is, it will be fine, but also need it?

“I can take you to another world! A world you have not seen! I promise you will definitely be interested!”

This soul is very eye-catching. From the response of Shen Lang, it has already sensed the approximate meaning and immediately made another promise.

They come from another world, and it is possible to go back to another world.

For those who have reached the top level, all the fame and fortune are at your fingertips, and there is no interest or challenge, especially the self-cultivator.

Another world that has not been seen before means that something completely new is completely unpredictable, and it is possible that there is a peak of everything, and it is more likely to have something better than ever.

This is very attractive.

But it is a pity that now it is not the average person, but the Shen Lang!

The world that Shen Lang has been to, certainly more than it, how can it be attracted to it?

Moreover, from the past information, these extraterrestrial demons, no matter in which world, are all smeared, and the world is squeezed out, and a new world will be explored.

In other words, even if it can bring others back to their former world, it is nothing but an abandoned world and has no value.

And its current attitude, to put it bluntly, is to delay the time, leave the life first, and find another opportunity to escape.

In their strange parasitic way, they will encounter Shen Lang, and when they meet other people, they will not be able to cope.

Loulan Wang has no resistance, Mu Xiu and other Loulan people, not to mention!

As long as Shen Lang has left it a life, it may escape to other people's bodies at any time.

With its realm, even Shenlang and Gaochunqiu are not aware of each other, and can control the influence, and will not let the host immediately change into a troll appearance. If it is to be searched again, it must be verified one by one, then it is very troublesome. It is.

And if you leave this small world and go to the vast world outside, under the goal of countless people, it will be even more sea.

“Another world, what do I want to do?”

Shen Lang just communicated with it, in fact, it is also a means to give each other a glimmer of hope. At the moment when he expressed this meaning, his suppression and mental attack, at the same time broke out to the strongest!

Just after the continuous, it is the full wave of Shen Lang, the devil soul thought that he could hold a wave of attacks, defended, and there is a chance to fight back.

Because it is already in the body of Shen Lang, even if its defense, it is equal to attack, but the attack is getting smaller. Once it counterattacks then the effect will increase.

Unexpectedly, the attack of Shen Lang is not a wave of waves, but an endless stream!

I did not expect that the strong attack to the present, Shen Lang has not yet become the end of the powerful, but can also explode more powerful attack than before!

On the contrary, it is struggling to support, or else it will not ask for mercy.

The result was completely wiped out under such a strong impact!

When it was annihilated, Shen Lang's body had a very special feeling...

This feeling is unspeakable.

Because this devil soul has entered his body, and the outbreak has infected a large area. The process of his counterattack was the process of continually encroaching on each other.

In other words, the final annihilation is actually a process of completely consuming this soul!

This is the same as the early phagocytosis of the giant rhinoceros beast, the swallowing of the scorpion, the ironclad red dragon... until the dragons of the previous period, it is a process of absorption and utilization.

To a certain extent, he can inherit some advantages. What is the disadvantage of the defect, of course, is to abandon the elimination in the process of melting.

So at this moment, he did not become the host of this soul, but instead swallowed it and absorbed some of its advantages.

There is also a huge change.

Chapter 2234 - Another way to use

After the devil's soul broke out, it invaded the majority of the trunk of the Shenlang. Although it was gradually suppressed and contracted, the destruction of the body of Shenlang still existed!

When Shen Lang was behind the attack, he used a steady stream of faith. In addition to attacking him, the power of these beliefs was enough to repair the damage while "recovering lost ground".

Because the devil's soul is the body that wants to occupy the deep wave, its purpose is to become the host and become its body. So even after the outbreak, it is just occupied, not wanting to destroy it.

This damage and damage is only an inherent impact, and the damage to the body during the tug-of-war between the two sides is not particularly serious.

The Shenlang is already powerful enough, and the resilience is very strong. Coupled with the constant supply of faith to supply the supply, the effect of the repair is almost the speed of his attack.

After destroying the devil's soul now, all the injuries were repaired.

Only a small part of this process is the self-healing ability of the body itself. Because it is self-healing, it is not so fast, and most of it is the energy transformed by the power of faith.

This gives him a big change in his body.

Because the power of faith, itself is the spiritual power, just in the process of attacking the suppression, while transforming and repairing his wounds, it is equivalent to another form, integrated into his body.

This is of course a good phenomenon!

Shen Lang did not think about it, but the specific implementation is that the conversion rate is extremely low. It is difficult to integrate the spiritual power into the flesh. Otherwise, he can directly absorb it without using so much. It can only be compressed first.

There is still a lot of liquid belief in power, which is directly reserved.

I just got the unexpected result, not only let his injury recover quickly, but also a special change.

Now his compressed beliefs are collected from Gang Rinpoche, and the spirit of the dragon is also compressed and not used.

If these can be integrated into the flesh, what kind of effect would it be?

Shen Lang himself is not known.

Because the previous life, he did not get so many beliefs at all. It is this population with a population base that has this effect, and only discovers the great benefits of dripping it into the sea.

But at the moment, he is very decisive!

Now that he is using it, he has not stopped, and continues to let the mental power of these reserves continue to be infused into the body.

The injury involved just now has half the size of the trunk, but it is still a small part compared with the whole body.

Now he wants to let spiritual energy penetrate every part of the body!

Just entering that state was spontaneously formed. Waiting until today, a hostile and injured state is gone, and sure enough, it is not so well integrated.

But after all, there is a beginning, and if he does not stop, it will keep the instillation.

Because there is no injury, the speed is slow, but it also begins to spread out to other places!

Shen Lang has divided some of his mind and continues to maintain such a situation. Slower and slower, even if it is slower and slower, is much better than his previous attempts.

Then he “wake up”.

“Nothing?” Gao Hanqiu is staring at Shen Lang.

After he came in, he saw that Loulan Wang’s head was pulling his head, and then looking at the way of Shen Lang, he had already guessed a rough idea.

While keeping his alert, he is watching the state of Shen Lang, and he can help if he needs his help.

Shen Lang really has a mind to pay attention to all around, just let the cold autumn come, and fully trust him.

Judging from the time of the record of the Holy Grail, in fact, it has not been too long, and their long battle is relative to the time of consciousness.

“I’m all right.”

“You just...” Gao Hanqiu wants to stop.

Shen Lang guessed a possibility, and immediately took a look at the record of the holy environment.

Looking at the record, and then zooming in on the close-up, you can clearly see that in the previous process, the part of the torso he was occupied, the body is obviously changing.

The exposed back of the hand is obviously able to see the magic, become thick and blue.

Gao Hanqiu is definitely paying attention to this point, even more than the objective record of Shengjia.

Shen Lang shook his head. "I'm fine."

It is also more troublesome to tell the story. He directly transmitted the memory of the previous paragraph to the cold autumn.

Gao Hanqiu has just come in, I have already guessed a general. When I checked the help of Loulan Wang, I also read his memory and first understood all the processes.

Now Shen Lang's statement is only to let him know about the situation.

He is very worried about whether Shen Lang has been infected or not. Now he can confirm his peace of mind.

"I have checked it. He is very weak now, but he is not dead. I have already injected him with energy and strength, and he has recovered a few."

Gao Hanqiu said that Loulan Wang, he has not been idle, but also doing a few things at the same time.

While listening to him, Shen Lang's eyes also looked at Loulan Wang on the throne. At the same time, he will be free at this time, and understand the complete fusion of Loulan Wang's memory .

This is actually not the memory of Loulan Wang.

Because it also contains the memory of the "Devil" after occupying Loulan Wang!

The memory of Loulan Wang, including the memory after the devil's occupation, is left in the Loulan King. Even if the devil's soul disappears, these memories will not disappear.

So what Gao Hanqiu learned, and Shenlang learned, is consistent.

Even after Lou Lan Wang is awake, he will find all kinds of memories in his mind after he loses control.

The purpose of Shen Lang's trip is only to find the answer here.

Now, he is actually not too curious, because the "seventh devil" has been killed, and the ending has appeared, that is, to understand the process.

However, in the end, it is related to the eternal death of the ancient Loulan countries, and there is still interest.

Lou Lan Wang's memory of their history and present is not comparable to that of Mu Xiu.

As for the history of their destruction of the country more than a thousand years ago, as a king, each generation is familiar and in-depth understanding.

At that time, the last king of Guloulan did not protect all the nationals, but it was indeed leading all the soldiers, ***** battle in the end!

At that time, the devil appeared at the end of seven. After all the people and the soldiers were swallowed up, the seven devils gathered around the king of Loulan.

Chapter 2235 - Loulan legend

At that time, the seven devils did not satisfy the 10,000-plus population of Loulan. They wanted more people and more space!

This is also the intention to leave the King of Loulan, because in such an era, the king is the most concentrated of all the big information, so that they can get more information.

Of course, it is also because the strength of King Loulan is the strongest one, and it is the best host in the population of Loulan.

At that time, the seven devils were growing rapidly in the process of killing and killing the Loulan. The generals were not interested, and only the Loulan King let them stay.

King Loulan is leading the ***** battles of all the soldiers, trying to delay the time so that the prince can carry the young men and women to escape further.

But after all, he is hard to support, and he can only stay here.

Finally surrounded, but it is also the intentional guidance of Loulan Wang, he is interested in attracting these devils.

Because Loulan Wang can lead the rise of the tribe, establish a country, and stand on the Western Silk Road for hundreds of years, relying on a cultivation.

This cultivation is not coming out of thin air. There are no sects in the Western Regions more than 2,000 years ago. The Central Plains comprehension will not run to such a distant border.

The root of it is the ancestor of Loulan Wang, and the excavation has got a mysterious iron box!

On the iron box, there are some patterns, and no one knows or understands. There is nothing in that place. Studying the iron box is also killing time.

Later, a child imitated the pattern and played with it. After a long time, the imitation was so skillful that he found that it was beneficial to the body.

After generations and generations, I finally found out a set of cultivation methods. This is a long process of decades, getting stronger and stronger, and making them naturally the leaders of nearby households, leading in hunting and so on. effect.

When it became stronger, it also gathered more scattered people, and then developed into villages and tribes, and eventually built Loulan.

After becoming the Loulan King, the general hunting work is no longer needed. Only when you fight with other tribes and encounter fierce beasts, you need to play.

As a king, there will be more time.

The bitter cold of the Western Regions has always been a difficult life. Even if the king has more privileges, he will eat a few more pieces of meat and more women. It is far from being as chic as the emperor of the Central Plains.

And as the beginning of the development of just a few dozen people to a few hundred people, the crisis awareness is very strong, casually may be destroyed.

Loulan Wang constantly cultivated, and constantly studied the iron box, and learned the methods of honing and improving cultivation.

He is becoming more and more powerful, and it has made Loulan more secure and proliferating faster. More people are coming to the market. The population has grown to the scale of 10,000 people and has become one of the powerful countries in dozens of small countries in the Western Region.

Don't look at the size of the 10,000 people. You must know that when the two superpowers were established, the Han Dynasty was only over 10 million people, and the Huns were only a million. It is a vast country with a vast territory, and Loulan is only the country of the city, and there are many smaller countries in the Western Region.

The growth of Loulan is inseparable from the Silk Road. It was because of the trade and prosperity of the nodes above the Silk Road that it grew stronger.

But in turn, it is also because Loulan Wang is strong enough to protect the site, so that the Silk Road can pass through Loulan.

The generation of Loulan Wang, who was not satisfied and proud, still went to the merchants and collected the culture of other places, mainly like Handi.

One of the most important reasons for the study and communication of culture is to learn more about the posture of comprehension!

Therefore, learning Chinese characters can understand Handy's books. Later, in combination with the Western Region and Chinese characters, a simple Loulan script was created.

After hundreds of years of evolution, each generation of Loulan Wang is already a very strong monk, and has increasingly consolidated his rule.

The mysterious tin box is the core secret that the royal family does not pass on the girl, and the child knows it.

The iron box is not big, the pattern above is limited. After hundreds of years, it has already been thoroughly understood. The latter mainly relies on the content of learning Han Chinese books, and there are also some Western things.

But after all, it is every generation that has to learn and understand from a young age, and the last generation of Loulan Wang, talented, on the basis of the ancestral experience, actually realized more things.

He found that this iron box should be an ancient magic weapon!

The concept of magic weapon, of course, is also the Silk Road, which has been brought from Han Dynasty for hundreds of years.

According to his speculation, this magic weapon has incredible power!

So combined with some legendary experience around the world, he chose the blood sacrifice, and sacrificed this magic weapon with his own blood.

This is something that has not been considered by generations of ancestors. No matter the earliest toy, the baby is behind, and I have never thought of using blood to smear.

The result really made him open!

However, the opening time was short, just let him get some information. This thing is very powerful, but if you want to play it out, you need more sacrifices.

That is this little world!

The iron box gave him such a message, Loulan Wang thought there was a treasure there, so that one person found it, and found the eternal door they met with Shen Lang!

The Loulan text above is not carved by Loulan Wang, nor is it built by him. It should be said that the simple Loulan text created by the former generation Loulan Wang was created in conjunction with Chinese characters in the text box on the iron box .

So this is actually an older ancient text than Loulan. Whether it is a two-thousand-year-old Lop Nur civilization, and whether there is no connection with the Sun Tomb, it is not known.

After all, this is also the history of dictation from generation to generation. There may be deviations and omissions, and it may be that the later generations will beautify.

At that time, Loulan Wang came in and found nothing, not the treasure he imagined, or very disappointed.

But he also found that the environment there is very good, and it is hidden, there will be no aggression by strong enemies.

When he even thought about arranging a group of young people to make a wasteland, let this be a back garden of Loulan, the prince who is responsible for this character.

Considering that this will be a long-term abandonment, young men can't just eat it, and they must have a woman to be harmonious. There are also women who work, so the selection of a group of strong young men and women.

He also arranged for people to send a batch of stocks and personally sent them to store them, ready to be used by the men and women in the wild.

Later, how did the devil appear, and the root cause was not found, but it was already very harmful when it was discovered.

Loulan Wang is a very strong monk. I will understand that this is not a battle that ordinary people can win. It is only a matter of time. So he took the opportunity to let the prince escape with the young men and women!

Since the prince was brought first, everyone knows that they have to go to a secret place to make a wasteland. Under the advent of danger, they are still on the road as fast as possible.

Chapter 2236 - Another history

[..], the wonderful novel has no pop-up window for free reading!

The history passed down from generation to generation, what Mu Xiu and others have learned, and what Mr. Lou Lan has learned, is also partly biased.

For example, Loulan Wang in the back of this small world is to teach others to practice together. Everyone has become stronger, but the iron box is still the secret that the royal family has mastered.

In Mu Xiu's memory, the history they knew was that when the ancestors of the young men and women arrived at their destination, Loulan Wang had already caught up, but he was alone and he was very hurt.

Loulan Wang opened a passage for the prince to lead everyone into hiding, and he himself stayed to seal the troll.

In other cases, they are not clear about the specifics, and the guess is the same as the troll.

According to this clue, the history they understand is that the troll has been tracking out of this small world.

The history in the memory of Loulan Wang is that Loulan Wang has sealed all the trolls!

When the active and passive are surrounded by seven giant fangs and huge devils, Loulan Wang sacrificed the mysterious iron box!

He used to be a **** sacrifice. This time he gave his entire body and mind a complete sacrifice to the mysterious tin box.

Ever since, the iron box broke out of the unbelievable power, a dazzling ray of light, directly received the seven trolls, all received in the tin box!

After the completion, Loulan Wang found that he did not have broken bones, but it was also seriously injured.

He felt that he had more than half of his body's blood, and most of his soul had disappeared. He guessed that it should be the price of sacrifice, and it was used to "feed" the iron box.

Loulan has become a dead city. He dragged his body and chased it all the way.

He is a strong man in the end, the dead camel is bigger than the horse, and the young men and women who escaped before are completely ordinary, so they are still here.

He opened the channel, let everyone in, and said to stay to seal the troll.

But it is actually the last will of the prince.

Therefore, only the prince at that time knew that the seven devils were sealed in the iron box, and Loulan Wang was ready to use his body's last energy to sacrifice to the iron box and let the iron box put seven Devil kills!

The most unfortunate, but also to seal it in it can not come out.

But after he died, the iron box needs someone to deal with.

In the end, they all went in. Loulan Wang sacrificed with the remaining energy, and died directly. The blood and soul spirits were all drained.

There was a ray of light in the iron box, and the results of the final seal were not known.

The prince did not dare to bring the iron box inside. If the devil unwinds and reappears, then everyone is completely extinct!

Therefore, he placed the iron box in this institution – that is, the similar underground palace that Shen Lang discovered.

According to the understanding of the Prince Loulan, even if the seal was not dead, it should have died in a few decades.

In the later days, Loulan re-emerged in it, and everyone did not come out again.

It was only the prince who succeeded Loulan Wang, and later came out again.

After he cultivated powerfully, he took time and effort and made a lot of mud, covering up it.

The later Lou Lan Wang, who also carried this lesson, did not say this secret, and everyone was living in peace with the days of paradise.

The grief of the country's extinction and the extinction of the country is only a generation. The second and third generations are slowly weakening. After waiting for the back, this is a history and legend.

The world inside, under the support of a large amount of materials, also used the seeds and tools in the materials to complete the abandonment, and the world that was later re-established is also very peaceful.

Without the control of a big country, everyone is very stable. Although there is no trade, it will be even more poor. But apart from the first generation, the Loulan people who have been behind for more than a thousand years are born here. They have never felt the Silk Road. The prosperity of the times is also very safe to live here.

Later Loulan Wang, who will go out alone, understand the big information of the outside world, and there are some scarce substances, such as salt and medicine, which are also brought back by him and distributed.

So in the people, the king is not only very powerful, but also omnipotent.

The population density here is also controlled by the king. It maintains a certain scale and will not continue to proliferate indefinitely.

As for the issue of intermarriage, although there is no circulation in a large area, it will not be too good, but the scale behind it will not be so close to the pro-independence.

Later, the king also had a few men and women who brought back from outside to enrich the reproduction in Loulan.

As for the guests who are personally entertained by Loulan Wang, of course, they are all self-cultivators.

It was Lu Lan Wang Yuan who went to the Central Plains and other places, and some of the comprehensions he had contacted attracted him here, but the purpose was not pure.

Of course, it is not just a visit. The caves of the Central Plains and the famous mountains and rivers have been occupied by the major sects. It is found that there is such a paradise, who can not be moved?

If you come here, you will want to be your own and don't want to share it with others.

Loulan Wang also took advantage of the other side's mind, not afraid that they would scream out, and after the visit confirmed, he also pretended not to see the other party's heart, a warm hospitality, happy to send customers.

The result is that those guests who want to kill him to replace, are prepared for him, successful anti-kill!

At the time of Guloulun, Loulan Wang relied on the merchants on the Silk Road to contact the local cultures of the Han Dynasty, learn from books, and exchange information from business people to understand the information.

Here the descendants of Loulan Wang slowly evolved into a hunting mode!

The goal of hunting is often someone who has a certain strength and origin, but not as good as them. Although they don't know how to read memories, they don't go to that realm, but the things that those guests carry, the content of conversations and talks, are what they use to learn.

Because they are deep in the Tianshan Mountains, they usually have no traces at all. This kind of hunting may only happen once in ten or eight years. Not to mention the major sects in the Central Plains, it is the Jianzong and the Ice Palace in the Tianshan Mountains. This is the case.

The rivers and lakes are sinister, and the world of cruelty is extremely cruel. Some people are missing and some are dead. This is too normal, but it has not attracted anyone's attention.

Don't look at it, it's not a big man, a big disciple, and you don't have to look at it for a long time. But their inheritance is very stable, there is no war, the enemy is lost. After the millennium has accumulated, the harvest is also very impressive!

Of course, the side harvested, after all, is fur, can not touch the avenue. Just relying on different styles, they also gave them reference and enlightenment.

Up to now, the Loulan cultivation method, which incorporates many sects, has its own set, which is far better than the ancient Loulan era.

Chapter 2237 - Version 3

Things have passed for more than a thousand years, and the first few generations of Loulan Wang are still vigilant against the devil who suppressed the tin box seal.

This can be seen from the fact that they will get a lot of mud buried in it.

However, there have been no abnormalities in the past few hundred years, and gradually peace of mind.

Although there will be some Loulan Wang, for the sake of profit, I want to get this mysterious iron box back, in case I can understand more good things myself?

However, the first generation of Loulan Wang who came to this small world, the prince of that year, set up the ancestral training, forbidding future generations to move the thing, and regard it as the supreme taboo.

Although the younger generation also felt that it was needed in the past, it has been a few hundred years, indicating that the devil has already been eliminated, and it can be taken out.

But when this kind of suggestion is issued, it is generally younger. It is the prince's identity to his father Loulan Wang, and naturally he will be reprimanded by the more old Loulan.

In the era of the ancient Loulan countries, the ancestors used the groping for seven or eight hundred years, and naturally they have completely understood. Do you have a hairy boy who is more intelligent than countless ancestors?

This is also true. Ancient ancestors were groping from generation to generation, but now they have been broken for hundreds of years, unless they are really super geniuses, or else there may not be more gains in decades.

Now, it is necessary to bear the pressure of violating the ancestral training, but also to bear the pressure of releasing the devil. Even if there is anything that can be done, it needs blood and even sacrifices for life.

That is to say, after that, I started another way, went outside to find the immortal, and tried to learn more exercises, but in the end I was attracted to kill.

After another thousand years, to the next generation of Loulan Wang, although I still fully understand this history, know these secrets, but also as an ancient history, remembering the lessons of history, and never thought that the devil would unblock. one day.

Today, Loulan Wang has a kind of restlessness and can't say anything because of it.

He quickly patrolled everything in Loulan City, and everything in nature was as usual, without any danger.

The result can only be pointed out!

The outside world is still too big for him, and the risk of unknowing is too much. But from the restlessness to the more and more uneasy, he still can't wait.

Finally came out, the results just came out, they lost consciousness!

These are the memories of the real contemporary Loulan Wang.

After he was replaced by the devil's soul, the body is equal to the devil's soul, and it has a double memory, just like the lord of the light ***** occupied the archbishop of Paul.

In this layer of memory, Shen Lang sees another layer of “history”!

These are called devils, trolls, and extraterrestrial demons. They really come from another world. Their world is really on the verge of abandonment, and then try to travel to other worlds.

They are not chosen, as long as they have a world in which creatures survive, that is their goal.

When I was more than a thousand years ago, I didn’t know why there was a faint space crack and let them come seven!

But because it is very weak, their original body can’t come. So in order to continue, they abandoned the powerful body of the shape and came in the way of the spirit.

Their souls are very powerful, but after they come, they need to reshape the body, quite a bit like the reincarnation of Shen Lang.

However, their way is much faster, they directly find a host, and then they begin to engulf other animals and humans!

Because they take into account the cycle of growth, they have not, and can not do, start to kill, can only be step by step, eat one to eat two, eat two to eat four...

It was not so easy to be found when eating out on the road to eat past merchants and eating camel horses.

Later, when the locals of Loulan State were “disappeared”, they were noticed. After the king arranged a strict inspection by the soldiers, they began to discover clues and found that there were devils who ate people...

The memory of Loulan Wang is completely dictated by generations. It has already been possible to miss a lot. These devils have experienced the era of their own!

Later, the story of the devil in Loulan State began to spread out, allowing some merchants to bypass Loulan, or after emergency replenishment, they would not leave if they dared to stay.

The history of Loulan for hundreds of years has also been moving southward because of the changes in the natural environment of the Peacock River and Lop Nur. During the period, it was also eliminated, and Xiaowan was one of the top seven in the Western Region. It has been surrendered to Handi.

The last Loulan Wang also tried to find ways, including sending people to the Northern Wei Dynasty for help, because he realized that this may not be a problem he could not solve.

After seeing it, I couldn't hide it. The Seven Devils let go and speed up the evolution. Loulan Wang also ordered the prince to take some people to flee, and then personally led the sergeant to pursue the devil.

The end result is that most of the Loulan and the sergeants have been swallowed up, at least they have eaten tens of thousands!

But it is not completely extinct as they have told, because Loulan Wang also can't count it. In fact, some people have fled and fled, and they have not chased after running early.

In the Northern Wei Dynasty, I received information on asking for help and realized that this is a good opportunity! Immediately dispatched the generals Wandugui led the elite ride five thousand, and quickly entered the army to Shanshan (loulan).

Wei Shu records that the Shanshan people are covered with fields and are grazing and grazing. Wandu returned to make the autumn without any crimes. The good soldiers and the people were deeply touched, and the good king also automatically went out to the city to meet. The Northern Wei Dynasty assigned Han to be the king of Shanshan, and implemented the county-level system governance like the mainland, and collected taxes. After more than 600 years of martial arts, it has perished.

But the fact is that at that time, the traffic was difficult The communication was slow, even if it was going to speed into the army, when it was Loulan, it was already a dead city!

The seven devils at that time really wanted to leave the body of Loulan, which is much better than the other ones they also cultivated, and would like to know more about the world.

As a result, when the seven were surrounded, they were really sacrificed by the king of Loulan, using the mysterious iron box magic weapon, all of them were collected, and the suppression was firmly suppressed!

Of course they are not reconciled, they are desperate to break free. In the style of their race, it is not convenient even for this magic weapon, it is ready to swallow the magic weapon from the inside!

The result came again later. Loulan Wang completely sacrificed his life for the second time, and provided the energy for the mysterious iron box magic weapon, once again completely sealed them.

After that, it was a very long dormancy process. When they were conscious, they did not know whether it was a few hundred years or a thousand years later.

Chapter 2238 - Ant image

When the souls of these trolls are once again conscious, they are not unexpected in themselves, because their races have evolved very tenaciously and can adapt to very harsh environments.

Awakening may not be simultaneous, but no matter how many times, if you wake up, you will not blame others, but continue to lick the thing that traps them.

The mysterious ancient magic weapon of the iron box shape is obviously exhausted. It was not until the last generation of Loulan Wang discovered its magical use, not necessarily because of his most genius, not even because of blood sacrifice!

The ancestors of his predecessors may have had similar or other ways, and may just have no success. The reason why he was able to succeed in blood sacrifices is more likely to be due to the accumulation of hundreds of years, and later he learned the method of cultivation in the Han Dynasty because of the Silk Road, which made him the strongest Loulan king!

Using the modern hierarchical method to make an analogy, the beginning of Loulan Wang is only slightly understood, stronger than ordinary people, and then began to get started, and then slowly cultivated to the Yuanyuan, and then to the virtual world.

And such a level of monks, whether it is intentional injection of energy, or the energy contained in the blood, is still not strong enough.

Later, Loulan has become one of the seven heroes of the Western Region. It has also moved south from the Lop Nur generation, closer to the Han Dynasty, and the Silk Road has been circulating for

a long time. Central Asia, Arab civilization and the like, and more extensive exchanges with the Han Dynasty, perhaps also Dan Medicine and the like!

Even if there is no form of comprehension, there are a lot of high-grade medicinal herbs at that time. With the financial resources of King Loulan, you can still buy a lot.

Of course, it is not necessarily completed by a generation. Whether it is experience, practice, or resources such as medicines and spiritual stones, it will be accumulated from generation to generation.

Finally, to the last generation Loulan Wang, as long as the talent is better, it is a chance of mutation. Perhaps he has reached the realm of existence, even the gods!

The sacrifice of his blood, including the injection of vitality and spiritual power, provides the energy effect that the predecessors could not compare, so there was an unprecedented discovery.

But the mysterious magic weapon, after all, is still lack of energy. After he used it once, he consumed it again, and he dared not use it again.

It is also possible that it is possible to achieve a sacred state and be able to fight with the seven devils of the time.

But these seven devils, when they finally faced Loulan Wang, had swallowed up to two thousand humans, and a large number of animals, which have rapidly evolved to a very strong level.

In addition, their bodies are arrogant and powerful, and the practice of Loulan Wang's veins is all explored, and with the help of hearing, there is no such thing as attacking spells.

The enemy can play super, but he is very primitive, and he can't play it at all.

In the end, by sacrificing part of the body energy, the iron box magic was activated, and it completed the process of absorbing the seal.

But after completing this step, perhaps the energy is consumed, so the devils are not dead, and they can continue to succumb.

And Loulan Wang should have guessed or perceived this, and this will catch up with other people, confess the aftermath, and finally use the whole body for sacrifice.

He sacrificed everything for himself, gave energy to the iron box, and completely suppressed the devil.

Then there is an embarrassing process.

According to the normal logic, even if the iron box energy will consume light one day, as long as it can be sealed for decades or hundreds of years, then these devils can't hold it, and they are starving to death.

But in fact, their vitality must be too strong!

And their pattern of mad predation is a bit like a rumor. Once swallowed up enough, it is possible to eat for a long time without the need for energy replenishment.

If there is continuous predation, there is enough energy, they are used to grow, to evolve, to become stronger.

If there is no energy supply, then they will use all the reserves to survive and minimize consumption.

Basically it is such a process, and eventually they do not know how many years have passed.

When Loulan Wang made all the energy gradually consumed, the effect of the iron box on them was gradually weakened, and finally there was no seal effect.

After waking up, they are everything, and what continues is to smash the iron box and treat it as a predator!

If it is outside, facing the existence of the tin box, perhaps there is no way to go. But they are already inside, and that is another effect.

Of course, if you want to smash a powerful ancient magic weapon, even if it is more convenient to open from the inside, it is not so easy to complete.

The seven devils are awakened, and they can only be a long and vast project.

This has another problem. This mysterious tin box is itself an ancient magic weapon, and may even be an artifact level, so the use will consume a lot of energy.

But this magic weapon itself also has extremely powerful energy!

Therefore, even if the sputum is very difficult, the process is very slow, but as long as you can sneak a little bit weak, for them, it is a good energy supplement.

It's like raising them, letting them survive on the iron box, and licking it.

How long is this long process, and they have no concept. Anyway, their purpose is to devour everything and live!

This may have been going on for hundreds of years, even a thousand years.

That is the same as the ancient magic weapon, so they are used by the “ant phagocytic” way, through countless times of sputum, through the long years, bit by bit completely ruined!

Their souls were very powerful. In the era of ancient Loulan, on average, every troll also swallowed more than two thousand people and animals, so that they have grown to a certain extent.

This long process of “ant phagocytosis” not only allows them to survive, but also because of the energy contained in the magic weapon, so that they have achieved excellent growth.

Although this is just a magic weapon, the seven together have a benefit. But the energy contained in the ancient magic treasure is far from being comparable to ordinary mortals.

They are not just enough to get rid of the iron box magic weapon. In fact, it has been a while, but they also understand that it has been a long time, and do not understand the situation, so they still crouch here.

Originally, according to their thoughts, they were prepared to wait until there were humans or animals passing by.

But I did not expect that it was also inaccessible, and no one came over. They did not know that there is a small world entrance and a new Loulan country.

When they were impatient and ready to break out, there was a change!

They sense that two powerful presences are nearby!

It was the day that Shen Lang and Gao Hanqiu returned to Tianshan Jianzong.

This is far from being comparable to that of Loulan Wang, so they dare not act rashly, completely converging, buried for more than a thousand years, so that they have tempered the habit of low-key crouching.

Chapter 2239 - Troll survivor

Later, when Shen Lang left, the cold autumn was left in the Tianshan Jianzong. It was transmitted directly from Pingzong to Pingxi, and they did not know.

Waiting to sense that Gao Li and Gao Hanqiu have left, they have thought about it, do you want to attack another (Shenlang)?

Because it is both a huge threat and a huge temptation, if you can become a host, it will save a lot of trouble. Even if you can't be a host, everyone can get rid of it, and you can get great benefits.

Two super-powerful people, they are afraid to think, the millennium of the sensibility, so that they can restrain the instinct.

But there is only one, but still want to make an idea.

I also guess and analyze that there may be some that are not so strong, and that would be an excellent goal. But there are two super strong people, and the others seem uninteresting.

So continue to lie for a while, until today, high and cold autumn back.

They feel that they should act, and attacking that one (Shenlang) does not know the specifics, but these two, if they can attract here, there is still a chance.

Ever since, the trolls used their way to confuse the cold autumn.

It is also because the high cold autumn is so powerful that it can be sensed. Like high or weak, it may not be able to sense it.

When the cold autumn came over, they joined together and prepared to raid the cold autumn.

That is, the cold winter is in the moment of patrolling the surrounding conditions.

As a result, a situation they did not expect happened, because the energy of that magic weapon was absorbed, and the evolutionary growth of more than a thousand years ago made their strength already high.

These seven combined forces have not been attacked yet, which has caused a catastrophe!

Originally, this will definitely be discovered by Gao Hanqiu, but because the catastrophe is too eye-catching, it is also expected by Gao Hanqiu.

At that time, he thought it was caused by him, and he did not continue to explore the underground. Since he had provoked the catastrophe, he would have a good experience and see that there was no such thing as the raging gods in the past.

This situation is also to let the devils do not know how to be good.

There are countless days of thunder, so that they do not dare to take the lead again, still low-key crouching.

And this countless thunder is to bombard a large piece of the above, the original goal is them, but they converge and squat, but the high-cold autumn high-profile greet.

“Positioning” is correct, and it is indeed a standard, so the robbery will be the target of the cold autumn.

In the underground, they are by the way!

The thunder has undergone the digestion and dispersion of the thick ground, but it is not very strong, but the energy is still very large, so they are absorbed below.

Because there are countless days of thunder, it is also a normal situation to dissipate deep into the ground. Whether it is the cold autumn or the new rushing waves, I have not noticed this problem.

Not to mention the high separation, his level can not be found.

The two strong men who were afraid of them were here, and they did not dare to move.

But after the thunder is reduced, they are worried. If there is no cover for this thunder, if you can't handle these two superhumans, you will find them. It is even harder to escape at that time.

They have experience of crossing the space, and the moment before the crack in the void, it is already felt in advance.

Really realized that this is an opportunity!

If you grasp it and kill these two powerful human beings, it will be a huge gain.

If it can't be done, then this space crack will be their best escape opportunity and can enter another new world.

They thought that Shen Lang and Gao Hanqiu didn't understand this. The upcoming space cracks are equivalent to one of their back roads.

The migratory nature of their races for many years has made them evolved to be very sensitive to space. When space gaps appear, they can be sensed far and far, and can quickly pass.

Even if there is no way, you can abandon the flesh.

That was the case that year, and the trolls of Licao County came over like this.

Just now, they also used their characteristics, and they immediately teleported to the space crack.

If they are running away from the idea, even Shen Lang and Gao Hanqiu have not noticed it, they have already crossed the mainland of the island!

However, because they regard this as a hind hand, they still squatted on the two waves of Shen Lang and Gao Hanqiu. Therefore, they teleported to the cracks in the space, and did not go to the opposite side, but directly turned back.

This effect appears out of thin air, just as they come from space cracks.

At that time, Shen Lang thought that the first one came out first, in order to serve as a cover, to sacrifice the troll behind him, and the second batch of five together was to share the space impact.

But it is actually a mistake.

Their real tactics are to go out one first and stop one of the super strong ones – Gao Hanqiu or Shen Lang can. The next five are united to deal with another one!

Because they are very clear, and will not be the opponents of these superhumans, they must be divided into three ways, one to hold one of them, while concentrating firepower to do another.

And the last one is to continue to lie in the ground below, which is to find the opportunity to achieve the purpose of sneak attack and pinch.

As a result, the strength of Gao Hanqiu and Shenlang was extraordinary, and they cooperated with each other. Together, they first cooperated and smashed the first one, which also served as a cover for cannon fodder and could not contain them.

The last five have to act on the plane.

And they underestimated the extent to which they themselves swallowed up the evolution of the ancient magic weapon for thousands of years, and did not understand the rules of the catastrophe. As a result, when the five attacks occurred, they also attracted a wave of strong thunder!

They really don't know what it is, and they think it is manipulated by this powerful human.

In this way, the third road under the ground, the last one, was originally looking for an opportunity to attack, because the sneak attack often only has one chance, otherwise it will be passive when it comes out from below.

Perceive this situation, let it not dare to act rashly.

The combination of Shen Lang and Gao Hanqiu, together they were extinguished, and even the flesh was closed.

This similar effect, and the last one, is remembered by the fear of the millennium seal for thousands of years. It doesn't want to go inside, it's a long process, and God knows it can't be smashed out!

So it keeps itself low-key and low-key Just like ordinary people are afraid, even breathing will hold it.

Later, Shen Lang and Gao Hanqiu entered the space crack and went to the mainland of the island.

The trolls are gone, the cold autumn is gone, the thunder is also a sudden stop, and then the space crack is closed.

Originally they used it as a hind hand. Now they find that these two super powerful humans know this layer and go in. Even before the closing, it can use the characteristic teleport to pass through the space crack. I dare not do this.

When there is only a high separation, it has a moving mind.

Since the two superpowers who are afraid of it are not there, it is also an attractive plan to devour the remaining human sneak attack and flee here.

As a result, Loulan Wang came out!

Chapter 2240 - Remaining problem

The appearance of Loulan Wang gave this last troll a new idea.

Although it does not understand how this person came out, what is its identity, but the place that appears is under the ground near it, which is not normal.

Therefore, it changed the sneak attack on Gao Li as a sneak attack on Loulan Wang.

Loulan Wang was upset, though he suspected that there might be any changes outside, but for a time he did not think that the troll was unwrapped and the seal was resurrected.

Now the troll is even more powerful. Under the sneak attack, he has no room for rebellion, and he is controlled in an instant.

The troll's particularity allows it to replace a new host, without having to abandon the original flesh, it can be merged into one.

For example, it directly eats the contemporary Loulan Wang, that is, the predation of predation, and regards him as a tonic resource.

If it is to make the body of Loulan Wang a new host, it is the soul and the present body, together into the king of Loulan. The equivalent is that after the defeat of Loulan Wang, and then swallowed the original body, the effect is even better, that is, the effect of fusion.

Therefore, for the weaker ones, they are predators. For a stronger and better body, they will be merged into new hosts.

During the period when Shen Lang and Gao Hanqiu left and came back, Gao Hanqiu was on the top, but mainly focused on the distance around, so as to avoid human beings coming close, you need to block in advance.

He never thought that there was something going on under the ground.

When the trolls have won the battle, they will understand the memory of Loulan Wang himself, which is of course a huge surprise for it!

Originally, I thought about sneak attack and swallowed high altitude, then quickly fled, and then went to other places to prey.

I did not expect that there is a hidden world in the distance, and there are so many human beings inside.

These are still descendants of Loulan, but each has cultivation, which is much better than the people they swallowed in the past.

And this troll, immediately thought of a good program!

Pretend to be a king's role, don't create panic, all Loulan people can eat slowly, but also eat and breed.

According to the King's memory, there are a large number of people outside, including those who are not weak, these are excellent food!

There is a Loulan people to protect the bottom, you can also go out to prey, and then come back to hide. That is the long-term way!

In fact, they were similar programs in the past, but they were not active plans. Instead, they needed time to grow.

But after all, there are as many as seven. One person who eats one person and one animal, and seven of them are more likely to be discovered. After growing up, they are unable to control their instinct.

Now it is different. On the one hand, it is a sneak peek at the magic weapon, so that they are all greatly affected, and can better restrain the magic.

On the other hand, the crouching of the millennium has tempered patience and can calmly restrain the instinct of predation.

Immediately, he returned to Loulan in the small world.

For anyone in the palace, it wants to swallow it. But sensible restraint, if swallowed, will soon be found to have fewer people, which in turn caused panic.

Even if all the Loulan people can be eaten in the end, it is not a long-term solution.

But it has just been won, and hastily merged, but it is still not perfect. If one does not control well, reveals a green face, or becomes a big body, it will be discovered by close people.

So he immediately found an excuse to drive everyone out.

Originally everyone was very respectful to the king, and the royal family was the same. For the king, no one doubted it and it was executed immediately.

The trolls began to make themselves better integrated as soon as possible so that they could pretend to be better kings.

The result did not expect to go to the cold autumn and Shen Lang and chased it!

Shen Lang, they came back outside, how to dig, it is also not felt, and there is no feeling of rest in the sixth sense of Loulan.

But Shen Lang, they just entered the world, it immediately felt it!

The troll who was thinking about a good life immediately became afraid again.

The two human superpowers who had caused him to fear were actually going to another world. After the space cracks were closed, they could return!

What is the ability of this?

And they actually found it here, and they must have found out!

It is to let yourself maintain extreme convergence, does not present the slightest troll atmosphere, let yourself fully present the identity of Loulan Wang.

When the two talents just arrived outside the city, Mu Xiu took the initiative to welcome the past.

Loulan City is not too big, and Mu Xiu is responsible for the diplomatic aspect. Just Loulan Wang hurried out and hurried back, he has noticed.

Then everyone on the side of the palace came out and made him surprised.

He realized that this was not right, so the person who had been comprehending was personally received by the king. He also took the initiative to take it and brought the two people to his place of residence.

He doesn't know what the situation is. After all, if there is no king to allow it, it is difficult for outsiders to enter it.

After that, I will be able to take charge of Shen Lang's own memory.

Mu Xiu, Lou Lan Wang, the devil, three aspects of the three aspects of memory, but also let Shen Lang know the secrets of the ages.

Now that everything has settled, the soul of the last troll has been wiped out by the waves, and only seven are confirmed. There is no new channel, but a legacy of more than a thousand years ago.

It's just that there is a descendant of the ancient country of Loulan. There is nothing to say. When people are here, there is no Tianshan Jianzong.

But now there is still a problem, that is Loulan Wang.

The troll's soul took the initiative to leave his body. He wanted to occupy the deep wave in this way. If it succeeded, then he would try to get rid of the cold autumn, and finally he could still control life as the king of Loulan.

Therefore, Loulan Wang did not suffer any damage. On the contrary, he was previously merged by the trolls, and even if he did not have 100% tolerance, he also took a huge part.

It was the beginning of Yuezhen South, after the recovery, it also received great benefits, the strength increased, and the physical quality also changed.

Now this Loulan Wang, who has taken over most of the trolls, even if there is no troll consciousness, can't be demonized, can't play the strength comparable to the realm of the great gods, and will completely push the big fairy, even the big fairy peak.

It's not that Shen Lang is not willing to let him take advantage of it, but he is afraid that he can't stand it!

Yue Zhennan was able to withstand it at the time, because it was the troll that had just come, and the degree of growth was limited. The magical Mo Qi finally needed to become a fire and self-burning to erupt.

But now this is not the same, the contemporary Loulan Wang, probably also the look of the gods, suddenly undertake the power of at least the big fairy, it will be a kind of upside down!
