

First Strong 2261

Chapter 2261 - Waiting for the Great Gods

For Qiu Lin Jianzong and others, this is a time to continue to open their eyes.

Yesterday's World War I and Zhou Zhentang's battle, although it is a big god-level master's trick, but because it is too fast, in fact, there is nothing to see through.

However, after the high cold autumn volley, a mountain was flattened, and the whole mountain head roared around and the mountain suddenly became a large platform. The picture was very shocking.

Everyone is witnessing the emergence of this miracle, and there is also an infinite sense of pride and yearning.

Today, everyone was originally on this side of the mountain, watching the four ancestors and so on, so that they went to the mountain platform on the other side, waiting for the arrival of the enemy.

This back is also a great incentive for everyone, thinking that in the future, he will become a protector of the division.

At this time, Shen Lang suddenly "nothing"!

Everyone can't really see how the waves are actually operated, but when he waved his hand, a large temple building appeared immediately, and everyone was shocked.

Even if you don't look closely, you can see that the building is very good and will not be inferior to the reconstructed Qiulin sword.

This is unbelievable. As a result, the entire building has changed rapidly, and it has become like a huge pavilion. The surrounding walls do not know where to hide, and become transparent.

All these changes are all under the watch of everyone, as if they are fully automatic and fast!

This shock is like a child seeing a car person for the first time into a Transformers...

It's the young disciples of Qiulin's Jianzong, including Xu Yuyue and Mo Feiliu, and several other people who are already on the scene are also surprised.

The high cold autumn is strong enough, and the white pheasant is also the source of the green hills, while the Count of Dracula and Xu Yuyue have a certain understanding of the development of the earth.

However, just after the sudden break of the waves, the direct "change" of a building, or let them all shocked, I do not know how this is done.

Shen Lang manipulated the temple, directly wrapped everyone, and did not need to move anything. The high platform rose from below and propped them up in the middle of the huge pavilion.

Shen Lang laughed and said, "Come on the tea, prepare the seeds, you can wait slowly."

If Mo Fei is here, I might really go back and prepare for the refreshment. Because he is a host or a "senior", you must do these things well.

But now they are a few, knowing that Shen Lang is joking.

They also know that no matter how they do it, they are secrets of Shen Lang. He is willing to say it. If he does not want to say it, it is not convenient to ask.

So everyone praised a few words with a thumbs up, and then sat on the high platform, closed their eyes and raised their spirits, waiting for the arrival of the alliance.

Tangcheng is very big. Besides the cultivation of the true forces, there are many ordinary people living there. In order to train and select young talents, the group will be held in Tangcheng every ten years. At that time, people from different cities and sects in the Kingdom of China will come to see the fun.

Compared with the time of the group, the current Tangcheng city is much more deserted. But in recent days, especially yesterday, there are also many outsiders.

Moreover, although there are not many times in the group, at the level of the realm, today can be regarded as an unprecedented lineup, the most powerful time in the history of Tangcheng!

In addition to some people who came to see the excitement first, the sects of the sects rushed in after the cold autumn.

The action of Gao Hanqiu is equivalent to exploring the martial arts and the robbery alliance. If he can successfully solve the alliance of the robbery, it is naturally a good thing.

No one cares that Qiu Lin Jianzong will take advantage of the opportunity to expand, because the strength of the robbery alliance is not the same as the small, the Qiu Lin Jianzong with the cold autumn, only the defeat and the two defeats are both solutions!

Even if the situation is a little better, not to the extent of both losses, the settlement of the robbery alliance, Gao Hanqiu should also be badly hurt.

This is good news for other sects.

But the reality is that the high cold autumn is more likely to be a big defeat!

If you are defeated, no one will be shocked and unbelievable, but what happens after the defeat is what the parties need to know in the first place.

The defeat of the fight to the end, the outcome may be the direct destruction of the Qiulin swords, the cold autumn fall.

But the question is, can you survive in the cold autumn? He can hard-top and is consciously powerful. After the face-up, I found that the robbery alliance could not fight, and he could not touch the stone with eggs.

So there is another ending in the defeat – admit defeat in advance.

The obedience of the previous obedience will be twenty threads. When the matter comes to the forefront, it will surrender and concede, and it will definitely pay more. But there is nothing wrong

with the cold autumn. Other disciples have not sacrificed, and they have to pay a little more resources. It is not a big deal.

Therefore, regardless of the outcome of this war, it will change the pattern of the world, which will indirectly affect other famous schools.

At the beginning, there was only a relatively close sect, and some disciples were sent in front of them. After the sound of the cold and autumn of the day before, it was more martial art, and the more important people were dispatched, and even the ancestors came over!

They work day and night, come early, first rest in Tangcheng, inquire about the news. I arrived today, and I asked about it directly to the Qiulin sword.

The most important thing for everyone to pay attention to is the “big **** group” of the League of Legends!

But beyond everyone’s expectations, until today, I have not seen signs of their presence in Tangcheng!

Everyone is aiming to inquire about the news. If you really tell Zhou Zhentang that there will be dozens of great gods coming, then such a team should be a mighty team.

A big ***** can make Tangcheng shake and shake, and the team of dozens of great gods should come over, and it should be able to make the comprehension of the whole city feel like a chill.

Today, we have not waited for their arrival, and everyone has begun to become two major categories.

Part of it is to stare at Zhou Zhentang.

Zhou Zhentang is an advance force. When he comes to the Alliance, he will naturally find him to understand the situation. If you are optimistic about his inn, then you will definitely not miss it.

The other part of the people set off in advance.

These people are more than one mind Everyone can think of staring at Zhou Zhentang, the Qiulin swordsman who is the head snake, will definitely see it even more!

However, Zhou Zhentang seems to be injured, and may not participate in the battle of today. He and the ancestors of the tyrannical alliance should have other contact methods.

In that case, he waited quietly in Tangcheng, and he would be able to paralyze the swords of Qiulin, and the great gods of the Alliance, who directly killed the Qiulin swords, could be caught off guard!

Although on the board, there are dozens of great gods in the robbery alliance, there is no need for a sneak attack, and Zhengda Guangming can also be crushed.

However, Zhou Zhentang has already frustrated twice. This time, it is necessary to win it, and it will definitely be safe.

Besides, what if Qiu Lin Jianzong ran? They may not have this time and energy, and they will occupy a place here for a long time.

Chapter 2262 - Strong enemy pressure

Being busy is always anxious, and action always drives more people.

The self-cultivators who had been guarding around Zhou Zhentang Inn saw more and more people rushing to Qiu Lin Jianzong in advance, and they could not sit still. As a result, more people were on the road ahead of time.

They don't know when the robbery alliance will come, so what they can do is advance in advance.

However, when they came from Tangcheng to Qiu Lin Jianzong, they soon became shocked!

It's just that the newcomer is over. Anyway, there is limited local knowledge about Tangcheng, and I have not seen the specific environment with my own eyes. But those who have come long ago, followed by Zhou Zhentang twice, are dumbfounded.

They passed by here yesterday, how can it be changed now? A mountain peak in front of the Qiulin sword, the entire peak was directly flattened!

There is now a huge pavilion on top of this flat mountain.

Far from being able to identify it, the young man sitting in the middle of the pavilion, among the few people sitting there, there was the young woman who played against Zhou Zhentang yesterday.

This means that although the sect of the Qiulin swordsman is not flying, this is definitely the lineup of Qiu Lin Jianzong!

But how is this done?

Cut the mountain overnight?

Even if the ancestors of the realm of the gods can do this, what about the pavilion?

Can't Qiu Lin Jianzong have a ancestor of the great realm of the gods, but also a construction worker?

Even a builder in the realm of the gods can quickly build such a frame, but the flying arch, the top ground, and the high platform in the middle look very delicate, not simply rough.

Have the ability, can do it, but also have time!

The two round trips were four times, let them confirm that this place was a mountain before, even if I didn't pay attention to the specific details, but there is no such flatness, without this pavilion, it is absolutely certain.

When those people who have been there yesterday have said this shocking scene, others who have not been there will also be suspicious.

If not so many people together, it will definitely be felt by everyone that this is the artificial scare of the Qiulin sword.

The facts are in front of you, and everyone is unbelievable and has to believe.

At the same time, I realized that this is not just a battlefield to open up a battlefield to meet the enemy, but also a show of strength!

This situation means that there is no need to go further to Qiulin Jianzong, which will be the main battlefield of today.

However, those who watched the lively and inquiring news, whether it was the small and medium-sized sects that were nearby, or some of the new sects, did not dare to go up to the flat cap!

Everyone is consciously watching around the mountains, what if they are angered?

The two sides that are about to fight are all unbearable to everyone!

However, compared to Qiulin Jianzong, I have felt that it is much better today. Because the peak of this mountain has been flattened, there is no obstacle in its implementation. From the height of the surrounding area, no matter which direction and angle, you can look at the whole situation.

The current situation makes the people who eat melon very satisfied.

Qiu Lin Jianzong not only did not run, but also opened up the battlefield ahead of time, waiting in advance to wait. This makes them look at the fun and have a good seat.

Now wait for the people of the robbery alliance to come over!

Time passes by, one minute and one second.

There are more and more people watching the bustle. Yesterday, Zhou Zhentang came more than the first time. After all, the road is far away and many people can't arrive in the first time.

Today, in terms of quantity, it is directly doubled!

Many of them were just yesterday, last night, and even today.

With more people, everyone will start to talk about it.

Although in the Qiu Lin Jianzong here, I dare not speak loudly, but after all, it is outdoors, whispering, it will not appear noisy.

There are several points of discussion in the discussion. One is how the Ferry Alliance has not arrived yet? Zhou Zhentang has no specific time. This is the highlight of today. If they fail to arrive in time, they will wait.

The other one is a few people in the pavilion. What is the identity?

In fact, many people do not understand Qiu Lin Jianzong, but in combination with Zhou Zhentang's two visits, Mo Feiliu as the lord, has been publicly debut, also represents the Qiu Lin Jianzong, is everyone recognized.

Today, Mo Feiliu did not appear here, but still looked at the back of Jianlin Jianzong Mountain.

The first time and pressure to let Zhou Zhentang leave, Lin Biaozi and others did not appear.

Everyone is not familiar with Lin Biaozi, but it is said that it is the founder of Qiu Lin Jianzong, and the light is very important.

Who are the few people on the stage now?

Those ancestors and heads who are eligible to participate in the Yaochi event, or are not qualified to participate in the Yaochi event, but the previous visit to the Yungong Holy Land has been taken with participation, of course, it is clear.

Only, the level of the head, the ancestors, even if they come over, will not watch the fun on the side with everyone, but will hide in the trees in the mountains farther away, and will not discuss these with everyone.

Finally, there is a focus, that is, the odds of the Qiulin sword and the robbery alliance.

After all, this is a big move that will not be encountered once in a few years. Everyone is not qualified to participate, and they want to participate indirectly.

This indirect participation is the gambling victory!

As a result, no matter whether someone is sitting in a village or gambling with each other, basically no one is optimistic about the Qiulin swordsman win!

According to the current wind, especially Zhou Zhentang said yesterday, if the robbery alliance came to dozens of people, Qiu Lin Jianzong only had to be crushed.

Even today, the Qiulin swordsman has put on a big battle. Everyone is shocked and feels that this is a bluff.

If it is really powerful enough, do you need these exaggerated actions?

Therefore, their rational analysis is to count the four people on the pavilion as the realm of the great gods, and that is only four. How do you compare with dozens?

Moreover, there are two young ones, and it is impossible to be strong.

The result is that the singer Qiu Lin Jianzong can persist for a long time, if the robbery alliance gives them a single game, the Qiulin sword can win a few games.

However, in general, it is still warming up, even if everyone's view is so, but before the people of the robbery league are present, they are just playing, no one is willing to make a big bet.

What if there is a reversal?

If Zhou Zhentang said yesterday all bragging?

Everyone was impatient, and it was almost noon. From the direction of Tangcheng, there was a mighty team!

“The people of the Alliance have come!”

“The Great Gods are coming!”

“I am going! The light of this battle, the Qiulin sword will be smashed!”

“It looks very powerful.”

They haven’t come close yet, they still see it through the high ground, but there is already a sense of tension in the face of strong enemies. The powerful momentum has already spread first, so that they all have some suffocation and rapid heartbeat.

The great gods of the Alliance!

Chapter 2263 - 1 group

I have to say that these great gods are very loaded.

They are trapped in the suspected Yungong Holy Land and cultivated into the realm of the Great God. Before they get out of trouble, they are almost all days of asceticism. There is no hope even if they go out, let alone show off their strength.

This time I can come back, and I will inevitably show off where my doorman is, but it will not last long. If you want more sense of existence and vanity, you will have to be more people.

Therefore, they joined forces to form a robbery alliance, exerting pressure on many sects, and it is likely to be a need to brush the sense of existence.

For example, when Zhou Zhentang came over yesterday, he was exposed to domineering on the road, and one person came up with a mighty momentum.

Today, the Great Alliance of the Rugby Alliance, which is a group of people, is a must-have. Together, it has the momentum of a thousand troops.

They haven’t come yet, and they have already felt the oppression of all the fun around them.

In comparison, the four waves in the pavilion are calm and calm.

After they sat down, they waited for the silence of their eyes.

If it is Mo Feiliu, Xu Haoyue is there, because of the pressure, it will be nervous and anxious. But the four of them are true calm.

It is not necessary to say that Shen Lang and Gao Hanqiu are both powerful and diverse, and they are not afraid of anyone.

The day is a great confidence in Shen Lang. It is because she protects Qiu Lin Jianzong, there will be pressure, but when Shen Lang comes back, she is completely relieved.

The Count of Dracula is because of his special identity. The vampires are extremely resistant to fighting. They can resurrect as long as they are not killed at one time, and they can absorb blood and replenish their strength.

He has evolved to an unprecedented level of power, and he wants to show his talents.

Under such circumstances, the process of waiting, they are very calm; feeling the enemy's pressure, still very calm.

However, under the calm, the knowledge of the realm of Shen Lang's great gods also spread to a far-reaching place. The great gods of the Alliance of the Robbery Alliance were discovered earlier than these onlookers.

There are a total of twenty big gods coming from this group. Zhou Zhentang, who was injured yesterday, is also among them, plus he is twenty-one.

Think about what he said yesterday that there are dozens of them coming over. Is this counted?

Of course, Shen Lang will not correct this word, and exaggerate the momentum, which is also very normal.

What he needs now is to secretly analyze the strength of these enemies and their own, and ultimately they can stand up.

In addition to the four of them, there are also behemoths.

In addition to Zhou Zhentang, there are twenty others.

This is equal to a pair of four!

But in fact, it can't be such a direct average. For example, the count of Bailu and Dracula, the strength may be enough, the combat experience may not be sufficient, they can deal with a great god, even if the task is completed.

This is equal to the three of them, you need to deal with six to be safe!

One to deal with six great gods, is there a problem?

Shen Lang feels no problem!

They also had a similar analysis in Gao Hanqiu, so everyone is still calm.

The Ferry Alliance is the same style as Zhou Zhentang. It is extremely windy and spreads out along the way, but it is not in a hurry to come over.

In their realm, nature can also sense the condition of this pavilion. This is equal to the fact that people have not yet arrived, and everyone has already fought from the momentum first.

Under the breath of everyone, the Great Alliance of the United States, the powerful come over.

From the time they approached, the lively comprehensions around the mountains were afraid to speak and were ready to escape.

They flew in the air, and the speed was not too fast. After arriving here, they did not stop and went directly to the flat mountain.

The pavilion that Shen Lang released was in the middle of the mountain. They were not close, but kept a distance of 100 meters.

“Mo Feiliu, Lin Biaozi! Are you going to be a turtle?”

Zhou Zhentang immediately sighed.

He was pierced by Shen Fei with a golden flying sword yesterday. He was not killed by the timely escape and treatment, but the injury is certainly not so easy.

Today, he is here again, not the main force, just because he has already dealt twice, can communicate better.

And there are twenty great gods on the side, Zhou Zhentang is also completely peace of mind, which makes him drink directly when he comes over.

Mo Feiliu did not dare to appear, he can understand.

Lin Biaozi did not appear, he felt that he was still hidden in the dark.

As for the few sitting on the table, even if the Qiu Jianjian invited the boxing powerhouse, it will not be the opponent of the robbery alliance, he simply ignored.

“Who is the leader of the robbery alliance? Is it your representative of Zhou Zhentang?” Gao Hanqiu’s slow opening, pressed Zhou Zhentang’s voice down.

And with his words coming out, even the crowds watching the surrounding mountains have a feeling of spring breeze. It seems that the pressure brought by the great gods of the Alliance has suddenly disappeared.

Zhou Zhentang was stunned.

Of course, the robbery alliance is not his decision. Before there are other people, he can represent the robbery alliance, but now there are twenty great gods who are not inferior to him, and cannot say this.

“We are a fair and great organization, and we don’t have a leader of power. No one has the final say. Everyone says it!”

One of the great gods slowly opened the door for Zhou Zhentang.

His words are also very likely to be true, because everyone is out of trouble, and they have been out for a long time. Their age and seniority are not small, and their strengths are similar. It is really not easy to launch a leader of the service.

“That is a slap in the sand? Give yourself a fair and great, all small scorpions!”

Shen Lang smiled and added a sentence.

Originally, he should be represented by Gao Hanqiu, because Gao Hanqiu is one of the founders of Qiulin Jianzong, and all aspects are the highest.

But after considering it, he decided to use his young identity to stir it up.

Because the cold autumn must be scrupulous about the influence of identity, and he can just say it.

A loose sand!

A group of yo!

Twenty-one gods, immediately became angry!

Today, they came from Tangcheng, the most moment of pulling the wind. Everyone in the subconsciously enjoys such a moment of loading.

The other party is prepared, but on this point, they are not in the eyes, if a good apology can also discuss, anyway, to meet the spread of reputation just fine.

Now they are taunting them directly!

“Fuck! Are you looking for death!”

“What are you counting? When Lao Tzu was in the world, your grandfather was still not born!”

“You are fighting with Qiu Lin Jianzong today, and we are enemies with our alliance. We will make you feel uncomfortable!”

Everyone will pick it up.

This can't help but make the sweat around you feel sweaty. Isn't this the super power of the great **** level? How do you open your mouth to the level of the street?

If it weren't for the strong momentum they had come out, would you like to wonder if this is the childcare that Zhou Zhentang hired?

Chapter 2264 - Want to fight early

It would be such a surprise, of course, because they have not been trapped for two hundred years!

Other ancestors have not been trapped for two hundred years!

Just like the cold autumn, in fact, in the past two hundred years, a lot of time is also retreating. Do not teach the doorman, do not participate in daily affairs, only the exchanges with the famous people, and all kinds of major events will appear.

His mentality is completely different from that of Lin Biaozi. There is no extreme and very peaceful. At the Yaochi event, it is a high-ranking ancestor that everyone feels very friendly.

This is because he is free, and retreat for ten years, fifty years, or even one hundred years, is his own decision, not forced to help.

Wherever he wants to go, where he wants to go, what do you want to do.

The ancestors who are trapped are different. They have no hope, they are completely in a desperate environment. There are no adjustments, no more resources to replenish, and hard work, just to be able to live longer.

Living longer, it may be suffering for a longer time...

Can people who come out in such an environment expect them to be the style of the sacred bones?

“My name is Gao Hanqiu!”

Gao Hanqiu said this, everyone immediately quieted down, thinking about who is the cold autumn?

“Qiu Lin Jianzong was founded by Lin and I. Two hundred years ago, I and some of you have also seen it, but now everyone is old and not knowing.”

Gao Hanqiu further self-reported the door, so that everyone knows his identity.

The great gods and grandfathers on the scene were slightly surprised.

In those days, everyone was a generation, or the cold and autumn is still a little older.

They came back this time, and the people they met in the past were basically dead. I did not expect that Gao Hanqiu was still alive!

Lin Biaozi is still alive, they have learned from Zhou Zhentang here, it is the same experience as them, this is not a big deal.

Gao Hanqiu is still alive, and the two ancestors of Qiu Lin Jianzong are still alive, and it seems that the two hundred years of high cold autumn have accumulated a high reputation and contacts, which can pull several ancestors to help boxing.

“What about that? You are still alive in the cold autumn, Lin Biaozi is still alive, we are still alive. Can you fight against our alliance?”

One of them responded coldly.

Don't say that people who only know or know two hundred years ago, even if they are good friends, are two hundred years old!

That is, they went to the Yungong Holy Land together, and many of their friends will die nearby, and may even die for the benefit!

They are all more extreme, and this little face is not enough to make them care.

Gao Hanqiu will take the initiative to self-report the home, and really want to see if it can be resolved peacefully.

On history, he is the founder of Qiu Lin Jianzong; on contemporary, he is almost the strongest ancestor; on the relationship, Lin Biao and they are also out of trouble...

With such multiple combinations, Gao Hanqiu felt that they might let them put a horse. Everyone couldn't fight, he could even make concessions and give a certain spirit.

Of course, instead of giving twenty threads, it makes nothing meaningful.

He can give a few symbols, such as five spiritual veins. For him now, this is not too much.

But it is obvious that people are not giving a little face!

"When the ancestors came to see you, you have a way to live. But the representative of Lin Biao refused, and did not put our alliance into the eyes!"

"Yesterday, you even started to fight against Zhou Xiong and wound him. This is to fight against our alliance!"

"We are all brothers who die together. If you hurt our old brother, there is no condition to talk about!"

These ancestors continued to squirt one by one.

At this point, the cold autumn is considered clearly, this is not good!

They need this war to erect their prestige, and they need to let them come here. I feel very uncomfortable. If I can hurt them again, I feel more provocative and offensive!

Zhou Zhentang has just been inconvenienced to represent the alliance of the robbery. It is just awkward and it is hard to say anything.

Now I heard that everyone is defending him and I can't help but get excited.

“Don't be nonsense! Yesterday I said, waiting for us to rob the coalition forces, it is not a question of twenty threads. We are going to level your Qiulin sword today!”

Zhou Zhentang shouted loudly.

In addition to the face of the robbery alliance, he still has to avenge!

Qiu Lin Jianzong really wants to give 20 spirits, he still needs to find another excuse to find opportunities, and now confrontation, he will not let them reconcile!

“After all, it's awkward, there's nothing in the big picture. If you guys, can you level the Qiulin sword? Do you believe that I am going to level you up like the Heaven Gate?”

Shen Lang was unkind to go back first, and then glanced at the scene of the great gods.

“What are you doing yourself?”

The crowd on the scene, dare not say anything, but I feel that Shen Lang is the act of looking for death!

Originally in accordance with the attitude of the cold autumn, and perhaps the opportunity of peace talks, he was so intensified, the contradiction is not reconcilable!

Shen Lang is really not talking to them. They have come together with the 20 great gods. Can you still be good before the strength of two great gods, Lin Biaozi and Bai Yu?

These urgent need to prove their great god, ten times the strength of the rush to come over, will tell you reason?

Since the reasoning is useless, then what is nonsense, just start playing early!

“What are you doing?”

Someone immediately angered.

They just didn’t target Shen Lang, just because watching him young, this is definitely not the person of Qiu Lin Jianzong, but may be invited by a famous big group.

The martial art that can cultivate such a young ***** is definitely a very powerful sect, and they can’t offend.

But now this kid doesn’t know how to lift it up, and he is disgusted with them again and again.

“It is necessary to popularize common sense with the old guys who are out of date, and the high ancestors are one of the strongest ancestors in the world, and you don’t even need to use one.”

“I, Shen Lang is the strongest young man in the world! We are here, you old ghosts, can not afford to wave. You apologize, compensation, sincere attitude, read you one When I am old, I can let you go, or else...”

Shen Lang said in front of the status of Gao Hanqiu, and then he said that everyone should listen carefully, because these are really out of touch.

And it really didn’t go to that circle, I couldn’t get in touch, I didn’t hear about it.

I can hear the back, it is not right!

The old guys and the old ghosts will stop, even if they want them to compensate, apologize, but also look at the sincerity, read a young age, you can put a horse!

This is really deceiving too much!

“You are the sinking wave! Go to hell!” Others have not yet erupted, Zhou Zhentang first angered.

Chapter 2265 - Raise your hand

Others don't know what the “Shenlang” is, but Zhou Zhentang knows!

After Zhou Yucun died in the mountains, some people brought the information back, and then told them not to provoke the waves.

Even the heads of the previous generation were not opponents, and no one in the Chaotianmen dared to seek revenge. And know that Shen Lang and Qiu Lin Jianzong cover, they are trying their best to inquire about the information of Shen Lang, try to avoid this fierce god!

After Zhou Zhentang returned, the news that was heard by the avoidance was told to Zhou Zhentang.

Zhou Zhentang has never even seen Zhou Yucun, let alone Zhou Wei and Zhou Shaojun, but that is his direct descendant, and in Zhou Shaojun here, it is broken!

This is a great hatred!

The culprit is Shen Lang, and according to the information, Shen Lang is so unscrupulous because of the shelter of Qiu Lin Jian Zong Mo Feiliu, so Mo Feiliu and Qiu Lin Jianzong also went to his list of enemies.

However, many disciples of Chaotianmen have never seen Shenlang, and there is no photo or the like.

So even if I saw Shen Lang himself at the scene, he and other great gods felt that this is the same as the woman, which super martial art invited to help the boxing.

It is not a last resort, they do not want to offend these famous people for the time being.

After listening to the words of Shen Lang, I realized that this is not a disciple of the super martial art, that is, the enemy he is looking for, the smashing wave that makes him break the grandchildren!

Originally, he wanted to publicize the vengeance of the communique, and controlled the flow of the rain of Qiu Lin Jianzong, and then forced to ask the information of Shen Lang.

It's just that the first two failed, and I can only wait to finish it today.

I didn't expect the smashing of myself to jump out!

Is this not looking for death?

Under the anger of other ancestors, they felt that he dared to say such a thing, it should be a big deal, so there was no first time to shoot.

Zhou Zhentang is not the same. If it is not Mo Feiliu, it will not be the Shenlang of Zhou Yucun's opponent. Where can the cow go? It won't be his opponent at all!

Even if he was injured yesterday, his strength would be a little discount, but he didn't think it was a big deal. And the gap in the realm is there, let alone Shen Lang, that is, Mo Fei is here, he can kill.

So when he spoke, he had already shot directly!

Zhou Zhentang's speed is extremely fast, he is going straight to the waves!

Because he is carrying a private enemy, and if this enemy is hidden, where to find? So you must seize this opportunity!

The other great ancestors, at the moment of his shot, although he felt that he was reckless, but immediately acted, and attacked them from all angles!

Twenty of them are naturally negotiating. Others dare to challenge them. They must have invited the masters to help them. There is a certain battle.

Then they must have more people coming over, and they can't challenge in batches, that is to give up their own advantages.

The robbery alliance is a great god!

This is their advantage and their core competitiveness!

Then directly crush the past, turn them over and say it!

Originally, I saw the age of Shen Lang, and I was afraid of the forces behind him. However, Zhou Zhentang had already taken the shot, and everyone had no retreat. They must do it immediately.

Otherwise, it is not Shen Lang who turned over Zhou Zhentang, but the other four will jointly attack Zhou Zhentang!

Zhou Zhentang has been injured, and certainly will not be the opponent of the four combined attacks. Once he is won, the momentum of the robbery alliance will be gone.

So at that moment, they are twenty together!

Looking at the lively comprehensions around the mountains, I have come to see the battle between them and me. It seems that they are not playing so fast.

When Shen Lang said his name, even among the middle and lower monks, it was even bigger than the high cold autumn. Because he is in Tangcheng, in Tiandu, it is out of the limelight.

However, for the impression of Shen Lang, everyone feels that it is only a young genius. It is very counter-intuitive to the level of the semi-Xian and Daxian. Why do you want to compete with the ancestors of the realm of the gods?

As a result, this kid actually detonated the gunpowder barrel and let Zhou Zhentang directly deal with him!

Some people also remembered that when Shen Lang was in Tiandu, wasn't it the grievances of Chaotianmen and Baozong?

Later, it was said that in the mountains of Zhoushan, he also killed Zhou Yucun, the ancestor of the Datian Realm in Chaotianmen!

It is no wonder that Zhou Zhentang is so angry.

Everyone can figure out the behavior of Zhou Zhentang, but they didn't expect the 20 great gods to work together!

Just a bit of a war of words, I went into a decisive battle!

This stimulating change made everyone excited, and he was ready to escape to the back of the mountain at any time.

The changes on the mountain platform are even more shocking!

Originally, they were in a huge pavilion. They were sitting on a high platform in the middle, and the people who robbed the Alliance were hundreds of meters away.

Just after Zhou Zhentang attacked the Shenlang and crossed the distance of 100 meters, it was very short and short for him, but because everyone is a strong man in the realm of the gods, the relative speed is the same.

This is also why other people haven't taken the shot, or else that distance and time can cause four people to push the siege attack.

But at the moment, it was in the range of Zhou Zhentang's mobile pavilion. With the wave of Shen Lang's wave, the whole pavilion quickly changed, and the direct contraction was pressed down, and then it became a dense building, and immediately I sealed Zhou Zhentang inside!

The shots of the twenty great realms of the realm of the gods were originally very spectacular pictures that were hard to see for a lifetime.

But at this moment, it was still being robbed of the limelight by Shen Lang!

This huge pavilion appeared on the top of this flat mountain. When everyone came, it was amazing.

Now it has quickly shrunk and changed, and it has become a square building, and Zhou Zhentang has been trapped in it. This is a subversion of everyone's imagination!

Could it be that this huge pavilion is a magic weapon that has changed?

But how can someone refine such a magic weapon?

I have never heard of it, and the function is also awkward... chic, right?

Zhou Zhentang certainly did not expect this layer of change was directly trapped a solid!

This is the spiritual temple of Shen Lang refining, more dexterous changes, can be manipulated as desired. More importantly, even if he attacks, this temple will not feel pain, you can consume it with him!

Originally, the 20 ancestors of the great gods, also following Zhou Zhentang, have already attacked the pavilion. The pavilion suddenly changed and made them suspect that there was fraud!

The other party is sitting in the stable position, there is no way to prepare for the battle. This is very abnormal. This is a trap!

Before they figured out, their instinct to succumb to their instinct did not move forward faster, but quickly withdrew. The changes that appeared in front of them also surprised them.

As a result, the temple trapped Zhou Zhentang alone.

Chapter 2266 - 1 sleepy 20

Shen Langyi shot, is a building, such a weapon magic weapon, everyone has not seen it, did not act rashly, want to see the results of Zhou Zhentang.

After all, even if they are a group, the relationship is not so good. I just acted together, not because I was worried about Zhou Zhentang, but because of others taking the lead and losing momentum.

Now, before I figure out the power of this magic weapon, no big ***** is willing to desperately save Zhou Zhentang.

At the moment, Zhou Zhentang, who was trapped inside the temple, felt that the walls were all in all directions, and then quickly squeezed him over!

Although he was surrounded, he was not controlled, and he could continue his offensive and defensive.

It's just that the walls in all directions seem to have spirituality. When his attack is over, they will quickly retreat, but they will not break apart.

It was he who attacked the past and the walls were rapidly expanding and expanding into a big house. After unloading his main attack power, he quickly squeezed it.

This makes Zhou Zhentang very arrogant!

It's just that these walls are nothing, even if they can freely change the combination, can zoom in and out, and even resist the attack, but he will not be so easily crushed and killed.

Just no matter what kind of change, it is a confined space!

The place where they were previously trapped, although the space is large, but can not leave, it is equivalent to a huge confined space.

And there, it is two hundred years of sleep, there is a deep psychological shadow!

Now when the surrounding walls become bigger, let him think of the trapped place, and squeeze it, there is a clear sense of oppression, from the actual to the psychological.

If it is not his realm is strong enough, if there is no experience, the general monk is squeezed by the wall, and maybe he will panic and fear.

But he did not panic, but it evoked a psychological shadow, which was very irritating and anxious.

Shen Lang controls the temple. On the surface, he still faces the twenty great gods in front. He is actually familiar with the situation inside.

Zhou Zhentang's reaction immediately gave him a heart.

"It's all guests, I can't be more than one."

When he said this, Shen Lang smiled and looked at the front.

The twenty great gods immediately realized that Shen Lang was going to do it for them!

I was sneer!

They just retreated because they felt the strange changes in the pavilion and had not figured out what the ambush was.

It is now basically confirmed that this is a building magic weapon, although it is quite different, but it is nothing.

This Shen Lang wants to use this to trap everyone, it is simply an idiot to say a dream!

However, even if they are not afraid, they don't think they can trap them, and they can't be preempted by a young boy!

Now that Zhou Zhentang is trapped, it is already a lost opportunity. They have already lost their face and can no longer let Shen Lang take the lead.

Even they vaguely felt that the cold autumn made Shen Lang take the lead, the purpose is to want to combat their morale.

But this thing depends on the operation, and Shen Lang is trapped in Zhou Zhentang, which will affect their morale and fall a little. In turn, they rushed to kill the waves, and they will hit their morale in the cold autumn!

The great gods of the robbery alliance have already met and discussed before, and now the same problems can be imagined, and there is no need to discuss, and there is a tacit understanding!

They have just shot quickly and retired quickly. Now it's the same time, it's still very fast.

Before the pavilion was large, the scope of the pavilion changed, and it felt like an ambush. Now it is different. Shen Lang manipulated the temple and trapped Zhou Zhentang. They also knew this thing and they avoided it.

Because they have twenty people, and they don't need to be completely targeted at Shenlang, they can work together for them.

Just after their body shape just went out, a high wall appeared suddenly in front of them!

The temples tied with Zhou Zhentang quickly expanded and blocked them, and quickly built walls in all directions, and immediately wrapped up the twenty great gods that had been rushed!

In the current situation, Zhou Zhentang is still trapped in a "room", and twenty of them are trapped in another larger "room."

Shen Lang originally did not use the temple to deal with them, and Zhou Zhentang only verified the effect.

However, Zhou Zhentang's anxiety was just discovered, and they immediately thought of their psychological shadows, so they once again showed them.

These twenty great gods, of course, have different effects from Zhou Zhentang alone. Because of the many people, they not only did not inspire psychological shadows, but also stopped without stopping, directly rushing past.

A Zhou Zhentang attack, the temple must be retreated, let alone the twenty gods together attack the front!

However, Shen Lang did not expect this to trap them, just want to see if they can make them trapped.

So when they were rushing, the walls had moved back quickly, but they still kept a big house and trapped them in a closed building.

This mountain is very big, but it can't stand the Mercedes-Benz of such a great realm. It will instantly reach the middle of Shen Lang and others.

Shen Lang's actions, Gao Qiuqiu, a few of them, are in the eyes.

The Earl of White and Dracula still don't know so much, and the cold autumn can clearly feel. Although the magic weapon of Shen Lang is very beautiful, it can't be trapped by these great gods.

But this can give them more initiative!

His experience is also very rich. When he saw the lineup of the other team, he has made adjustments. At this moment, there is further fine-tuning and a more detailed plan.

At that moment, Count Dracula and Bai Yun received the idea of his transmission, arranged how they shot and fought. The two of them were also convinced of Gao Hanqiu, completely obeying orders. Don't think so much why.

As for Shen Lang, Gao Hanqiu is not convenient to arrange him, and also knows Shen Lang's own decision, the effect will be even better.

This division of labor can make the cooperation of four people more complementary.

Looking at the crowds of people in the distance, there is quite a feeling of being overwhelmed. Just shocked the architectural changes in their eyes, it seems that they have not stopped for a moment, quickly trapped Zhou Zhentang, and further trapped the twenty great gods!

Everyone is unbelievable. When did Shen Lang become so powerful? Is this him alone, has he trapped all the robbery alliances?

In the time when a large number of tall walls with rapid changes have changed, Shen Lang suddenly disappeared!

Chapter 2267 - Full force

The disappearance of Shen Lang was to go to the space of Tianshu.

It only takes a fraction of a second, and there are ten seconds in it, which is enough for Shen Lang to convey consciousness to the dog **** and let it know what is going on outside.

The dog ***** has already been notified in advance, and is ready. When Shen Lang comes in, it will be ready soon.

Therefore, the outside world is less than a fraction of a second, and the disappearance of the waves has reappeared.

The time is so short, the outside world has no feeling at all.

The temple is different from the general magic weapon, such as the golden flying sword. He left the space. Without support, he will naturally stop falling, even if it is only a moment.

The temple is a large entity, it is spiritual, just lost the control of the Shenlang, just let it lack more timely changes, it will not disappear, still still trapped these great gods We.

When the Shen Lang reappears, the one that comes out is the Emperor!

“Don’t have any scruples! Do them directly!”

When releasing the Emperor’s behemoth, Shen Lang directly directed the dog god, Count Dracula, and Bai Yu.

This is a signal!

Before the day of the Qing dynasty in the Qiu Lin Jianzong, still maintain the strength, do not use the practice of Qingqiu, nor the fox community. This strength will naturally make a discount.

Now this is to let her go all out without scruples, and Count Dracula is to tell him that there is no problem in sucking blood when necessary.

As for the dog god, I have already said it to him yesterday.

Shen Lang also wants to see how far it has evolved. This is a hidden big killer!

After this arrangement came out, Shen Lang also made a change in manipulating the temple.

The tall buildings that could not stop the 20 great gods quickly disappeared, but Zhou Zhentang was still trapped, and he was led aside through the movement of the walls.

However, although the walls of the temple building have a rapid spiritual change, it is not a special situation like the Yungong Holy Land. Zhou Zhentang's knowledge can still sense the outside situation.

But it is also the induction of this one that makes him even more arrogant!

When I was just getting stuck in other people, I didn't put him and everyone in a space, which means that he was alone in the **** house and enjoyed a small black house.

At the moment of the moment, the wall of the "big black house" disappeared, and he was still being locked in the "small black house"!

This is what he is for him!

At that moment, Zhou Zhentang quickly printed, and the control broke out with a huge eclipse, directly above his head, spreading out to the surrounding!

Although this is a sinister print, it is a gathering of energy, and it is completely capable of destroying these walls and buildings!

As a result, these walls have changed rapidly, and they have quickly dissipated in the place where the sky was shining. Then, under his foothold, he quickly covered it and completely trapped him.

This can trap ordinary people, of course, can not stand Zhou Zhentang, but when his body rises, the wall also follows quickly.

Basically, it was still the previous routine. When he attacked the sky, the temple disappeared and avoided. When the attack dissipated, it quickly closed and did not give him the opportunity to leave. Even if a wall is broken, there is already another interception in the back.

Of course, if you want to squeeze and crush him, you can't do it. It is a stalemate.

Zhou Zhentang was very depressed, but in fact, the situation on his side is not dangerous. On the other side, it is already a life-and-death battle!

Originally, the wall building was slightly occluded and could not stop the twenty gods.

At this moment, the walls of the temple disappeared, and everyone was directly connected.

Zhou Zhentang is still trapped, and they have no one to pay attention to, let them pay attention to the scene and another monster!

After the dog ***** came out, the body quickly changed and returned to the extent of the body.

Such a giant beast came out like a flat mountain. Suddenly a small hill was set up, and the monks who watched the bustling surroundings were nervous.

Because such a big head seems to attack them, that is, a claw and a flying pounce can be achieved. It is not always possible to run when it is time to run.

Even if it is attacked by those great gods, it will collapse the mountains and crush them down.

What shocked them even more was that the young girl before turned into a nine-tailed fox!

Are these guardian beasts of Qiu Lin Jianzong?

As one of the most eye-catching ones, Gao Hanqiu, one of the founding fathers of Qiu Lin Jianzong, did not participate in the rapid attack, and looked at the scene in a special way.

It gives people the feeling that he seems to be rushing to see who can't support and help.

But in fact, only those people on the top of the mountain and in the battle can understand what is going on!

Although the twenty great gods are rushing to the top, they want to seize the opportunity, but they do not, of course, do not have the same fists and kicks as ordinary people.

Just because they are only trying to get closer, in fact, some of them are already secretly united in the field!

Controlling the field, it controls everything, and even does not give the opponent a chance.

But to achieve this effect, you need absolute control, and to achieve absolute control, it is best to have a disparity in strength.

In the case that the strength of both the enemy and the enemy is similar, using the field to fight is not a good solution, and may even appear to be tasteless.

Only one side is stronger and the other side is weaker and the effect is better. Of course, the stronger side, there will be more attacks to defeat the other side, the field is just more pressing.

These are the realms of great deity. If one-on-one is to control the cold autumn, it will naturally not be used in this way.

Yesterday, when Zhou Zhentang was white, he felt that he was much stronger than Bai Yu, so he was the field defense. As a result, he was injured by Shen Lang's golden flying sword.

Now they have twenty great gods. If each attack is used, only five enemies will be played.

So they had a tactical arrangement before, some people attacked normally, and others part of the field.

A person can't hold the cold autumn ten people?

Ten people work together to work together, even if they can't directly achieve ten times the effect, there should be several times the effect, which can make them unable to move.

In that case, the other ten can be killed with ease.

When they were just inside the temple building, they had already had such a layout.

Gao Hanqiu is the strongest one on the scene, and the layout of the entire peak is made in advance.

When he sensed that the other party jointly controlled the field, he immediately began to resolve the tit-for-tat.

So at this moment, he seems to be inexplicably wandering, in fact, it is just a distraction to attack, the focus is on the power of one person, resisting the control of the other ten people on the field!

Chapter 2268 - Inconvenient to spare you

On both sides of the bar, it will be clearly perceived immediately.

Ten of them immediately discovered that the strength of Gao Hanqiu far exceeded their expectations!

This is to be stronger than each of them. If you give him a chance to fight alone, they will be broken down in batches.

Therefore, while they passed this information to the other ten people, they strengthened their competition for control of the field.

Gao Hanqiu is stronger than them, and he can't give him a chance to single-handedly. Ten people besieged, and they can't do the superposition of power, but there are ten kinds of attacks in parallel at the same time.

But now on the field control, they can work together to be consistent, that is, the effect of stacking!

Even if the cold autumn is stronger, it may not be ten times stronger. It has already been so hard to fight. Of course, they will not give up. They have the opportunity to crush the cold autumn.

And even if they can't crush the cold autumn, at least they will hold people back, and they can create opportunities for others.

Shen Lang, they are completely in the eyes, the architectural magic, but an alternative raid. Give a little more time, Zhou Zhentang should be able to break the magic weapon and clean up him.

Incarnation of the nine-tailed fox's white scorpion and the emperor's behemoth, they also feel that it is only a super beast god, can reach the level of human beings, it is very difficult to get, only one person can deal with, two people can be stable Win.

The Count of Dracula is left, and in their view, there is at most one level of the Great God.

Even if you divide another person to deal with Shen Lang, you can also deal with one of the three, absolutely crushing!

After killing them a few, the ten men then besieged the cold autumn and stabilized.

With such a plan, the ten people have been holding back the cold autumn, not giving him the opportunity to pull out.

The fields of the two sides have been merged together. Without the external force to join, they rely on the two sides to compete for control. The complete suppression of the loss, or even direct bombing!

I don't know, it is the same idea to play in the cold autumn!

He and Shen Lang have already combined together. They are the main force and others are the assistants.

The enemies of this time, excluding Zhou Zhentang's words, are twenty. Gao Hanqiu can hold ten people alone, he is already very satisfied, which will share half of the pressure.

The other eleven, Zhou Zhentang has nothing to say, Shen Lang will certainly be able to kill him easily.

The Earl of White and Dracula use their superiority to deal with a great ***** without problems. The remaining eight, Shen Lang and the Emperor's behemoth, should be able to solve it.

In fact, Gao Hanqiu has inexplicable confidence in Shen Lang. Even if the realm of Shen Lang is not as high as he is now, he still feels that the enemy that Shen Lang can kill will be more than him.

Therefore, he can hold half of it alone, and he does not escape, but he is circling with them, and the ten people are not allowed to withdraw.

Under such circumstances, half of them are deadlocked, and there are not many people who seem to have a lot of fires on the scene.

Because of the mutual restraint of their eleven people, the field has affected everyone, but it has not been restrained.

The rest of the great gods will not use the field again, but will make their own housekeeping skills come out.

They are all medium sects, and there is not much advantage in the practice. Perhaps they are the first martial art to practice in the realm of the Great God, at least for a long time.

Therefore, their combat effectiveness is mainly based on the strength of the realm of the great gods.

When the melee began, the white scorpion of the ninth-tailed fox did not need to bind the feet, but also played an exclusive physical advantage. When confronted with a big god, it also had confidence to prevail.

Count Dracula also has the advantage of speed and strength, but they all have a problem, that is, the other party is not alone with them, but three to deal with them!

Although the Emperor's behemoth has a huge physique, when it is already in the realm, it is no longer to look at the size of the body, and even too large a body will affect speed and flexibility.

Therefore, they did not pay attention to it, but because they did not pay more attention to the waves, there are still three people to deal with the dog god.

When it was said that it was too late, the scene was changed instantaneously. Gao Hanqiu and several of their battles were quickly made clear.

Shen Lang found that there was only one person to deal with him, and there were three to deal with the day!

This makes him angry and funny, this is sorry for Lao Tzu!

“Kid! To be honest, I can spare you a life!”

Assigned to the great **** who deals with Shen Lang, of course, this is the easiest job.

Because they can't see the strength of Shen Lang's strength, I thought that there is something secret to conceal the strength.

Originally because of the white, I think he should also have great strength.

But now that I see the lineup of the white scorpion, it is easy to understand that it is not the young woman who cultivated into the realm of the gods, but the transformation of the fox gods.

It naturally feels that Shen Lang is so young that it is impossible to reach that level, and the magic weapon he used, coupled with the injured Zhou Zhentang dare to start with Shen Lang, there is no high opinion.

They still think that the super-gates are asking for help, so if they don't figure out the details, they are not very good at killing the waves.

This person is just this attitude. If Shen Lang gives up resistance, he can just ban it and wait until he finally understands the situation and decide how to deal with him.

In that case, he is also a lot easier. You can release Zhou Zhentang and help others.

“Thank you. But I am not convenient to spare you.”

Shen Lang, this is a direct transmission of a consciousness to him, when he perceives “thank you”, he is a little bit smirking, and Shen Lang actually said “inconvenient to spare him a life”, let him laugh and laugh.

This kid is not aware of the height of the sky!

When I was trying to ridicule a few words, I found that Shen Lang had several lights in his hand and came directly to him.

He still hasn't figured out what the situation is, and he was immediately pierced through several holes!

Shen Lang just sent him an idea directly, instead of speaking it out, it is faster. At the same time, he shot the gods!

The speed of the gods is already incomparable to the weapon magic weapon and he is approaching, everyone is very close, and is under the situation of serious underestimation.

Therefore, the gods completely worked. After piercing his body, the fingers of Shen Lang were moved, and the gods directly cut his body into a large number of pieces!

That ***** is almost a bit stunned!

With the strength of his realm, the general sword is also stabbed. If you want to hurt him, at least it must be a very powerful weapon.

Even so, it is not easy to pierce him.

But his body was not only pierced by a hole, but the light was cut tofu, and his torso was cut!

Shen Lang did not give him the opportunity to fight back, holding the serious injury of the Shenguang raid, and the tower was already in hand and directly ingested him.

Chapter 2269 - Tower of fear

That great ***** is undoubtedly even more embarrassing than Zhou Zhentang. Although Zhou Zhentang is very wrong, but now there is no danger to life, just a little trapped.

But he was different. Under the smattering of the enemy, he had not figured out the situation. He was smashed into a large number of holes by Shenguang, and then he was taken in by the tower.

Although everyone is fighting, although the whole process is very fast, the battlefields are all ancestors of the realm of the gods. In addition to their own battles, they can also distract themselves from the overall situation.

Although Shen Lang is the weakest link they can't see, the changes here are still noticed.

This makes everyone almost stunned, what is the situation?

Why is the weakest and youngest kid who has killed a partner so easily?

They are almost unbelievable, and they all doubt that it is just an illusion.

But after paying attention to the past, I found that there was nothing wrong with it. Just that partner, there was no residue, it disappeared directly, and it was absorbed into the tower.

Before the change of Shenguang was too fast, and I did not think of this power, so at the moment they all thought that the key is the tower!

This has already been lost to the Earth China. For the artifacts of the tower, these medium-sized sects may not be known.

But this time it was confirmed, this tower-like magic weapon is able to collect people!

And even the ancestors of their great ***** level can directly accept it!

This deterrent is different.

Especially those big gods who are in a stalemate with the cold autumn field, their movements will not change so much. If they come directly to collect them, wouldn't they have to flee quickly?

It is now a state of stalemate. If there is a two escape, the pattern will change immediately.

It is easy for the cold autumn to prevail, and they have to move back again, which is much more difficult. With the help of the Alpine Autumn control field, everyone else is very dangerous!

Originally, the other offensives were three to deal with one, even if the cold autumn field assistance, it would not be so passive.

The problem is that the power of this tower-like magic weapon is terrible!

If the cold autumn passes the control of the field, let everyone slow down, or directly put people in the range of the magic weapon, it is absorbed one by one.

Under such fears, the ten and Gao Hanqiu maintained the field battles, and they all moved very tacitly, keeping a long distance from Shen Lang.

They are not yet targeted at them. They don't need to move quickly, so they keep the field deadlocked and let them be safer.

As for the field, with their realm, there is no problem in controlling the entire peak, let alone ten people joining hands, and the personal position is not much.

There are also nine, originally dealing with Bai Yu, Count Dracula and the dog god, their degree of emphasis exceeds the emphasis on Shen Lang.

At this time, I found that there was a powerful magic weapon in the hands of Shen Lang. I felt that the previous guess was correct!

Shen Lang, a young man, must be a disciple of a super martial art! Otherwise, he can't be so calm, or how can he have so many different magic weapons?

The ten people were nervous, shifting positions, and nine of them were speeding up the attack on three targets!

The scruples about Shen Lang's identity made them feel that they should not be tempted. The guy had just been taken because of the attack. As long as they don't attack Shen Lang, should they have no problem?

On the other hand, the magic weapon that Shen Lang possesses exceeds everyone's imagination. If you really want to attack, you must greatly increase the importance.

And one has already lost one person, of course, you should seize the battle and try to get this person and the two beasts. When the nine people together, they are not afraid of his magic weapon.

The pressure of their three is a sharp increase.

The Earl of White and Dracula are able to deal with one without problems, and the two can barely support. The three can't support it for a long time.

Now that they stepped up their attacks, the two immediately became the most dangerous two in the game.

The dog **** is different. Originally, its strength is very extraordinary. Now, after this "long" retreat, it has evolved to an unprecedented height.

It is shaped like a mountain, but after confirming that there is no deterrent to these enemies, it is also a free change that makes the body suddenly big and small, without a huge body.

Because the bigger the body, the more obvious the target, the easier it is to be hit.

Now it is not only a big change, but also a fast speed, others are against its claws, but it has more means.

Every roar that is made has a shocking effect. It is not just an opponent. It is the people on the platform who will be affected. The people around the hills watching the lively are even more shocked.

And its tongue, mouth and mouth erupting, all faintly containing poisonous fog!

After a while, the dog's claw caught the side of one of the great gods.

The great **** is also the key defense against his minions, and will avoid the claws that he swept away, but no one thought that the claws of the dog gods quickly spread out the vine-like objects!

The claws of a beast god, even a crazy plant-like problem?

The other party has not figured out what the situation is, and was immediately **** with a solid!

Then I found a struggle, but did not shake the vines, but let the vines into the flesh, and even felt the intense toxins immersed in the blood of the flesh!

Then he discovered that the penetration of the toxin was not only to control his body, but also to take his energy in turn!

This is very scary, but how he struggles, has been entangled in him, the more tightly the tighter, unless there is a weapon of the gods at this time, can be cut off.

His experience also made the other two great gods scream, and did not dare to support them. They took out their weapons and continued to attack the Emperor's behemoth. They also wanted to see if they could save him.

In the process of their battle, Shen Lang is certainly not idle.

After he absorbed the first great **** with the 昊天塔 he walked up the tower.

He did not expect that the tower would make everyone fear, but he also found out that no matter who he was fighting with, once he was found close, he would avoid a range as soon as possible.

After a few times, Shen Lang discovered the law, and everyone noticed that they were concentrated on the tower!

It seems that before the scene, they left a huge shock, which is guarded against the tower to collect them.

Originally, Shen Lang was going to collect the tower of the tower. If it was a simple battle, the tower would have an advantage in dealing with weaker and more injured. The powerful enemy is difficult to inhale. If it encounters a strong one, it may be Take it back.

After all, Shen Lang was the way to get the Ba Tian Tower from the hands of Tang Banshan!

But now this discovery makes him feel very interesting.

Chapter 2270 - Multiple magic

The problem with the tower is that Shen Lang knows it himself, and others are not clear.

The power of the tower is just what everyone has seen. From the reaction of everyone, we can see that everyone else is afraid.

This is good, it is an advantage.

On the contrary, if he collects the tower from the sky and attacks other weapons, others will guess this, or at least feel that it cannot be started at will.

With this discovery, Shen Lang is no longer a casual walk.

Just now he was looking for an attack. If he could attack, he would only take the shot.

Now he continues to swim, but instead of looking for opportunities, but creating opportunities and creating pressure on the enemy, it is equal to creating opportunities for partners.

Now, regardless of whether he has a chance or not, he will not even attack, but he will rush to the enemy!

Those big gods, no matter which one, suddenly approached him, whether in attack or defense, they quickly evacuated a distance.

They saw the results before, but they didn't know the specific scope. Just from the perspective of Shenlang, this tower-like magic weapon should be in a relatively short scope to play its role. Otherwise, Shen Lang must have long been The large area is closed up.

Therefore, they do not give the opportunity to approach the waves now. Once they come close, be sure to first open the distance.

Other attacks can be defended, can be evaded, or can be resolved by counterattack. But once the magic weapon absorbs people, it seems that there is no chance to escape.

With the impact of Shen Lang, the pressures of the Earl of White and Dracula have been alleviated. Although it is difficult to get the upper hand, it is not dangerous, and it can still be supported for the time being.

The ten and the cold autumn match, Shen Lang of course also hit them several times, although it did not affect the pattern, but also let them carefully guard against him.

After a while of the squid, Shen Lang was not satisfied with this state.

At this moment, he also explored the mentality of the other side. Others think that he is relying on the magic weapon to fight the world, and his strength is still underestimated.

For his magic weapon, it should also be insufficient evaluation!

Because he is still manipulating the temple, but also carrying the tower.

This is equivalent to manipulating two magic weapons at the same time. It is not an ordinary magic weapon. Who can believe that he can have more magic weapons? Can you manipulate more magic weapons?

This gives him more room to operate.

The tower of the tower, now only used to scare them, will not cost him much mental power. The temple is spiritual, and he is also simple to manipulate. The key is that his mental power is super strong.

That being the case, there are a few other things that can be done again!

Gold dagger!

After this thing was refined into his flying sword, the first attack yesterday was very effective, and Zhou Zhentang was pierced.

But yesterday was actually because the other side was confident, and with the attack on the white face, he was the result of the sneak attack.

But then again, there are now twenty enemies here. The optional targets are much larger. If you can't attack this, you can attack that. No one can succeed, and it can greatly interfere with their current state!

The tower is a passive disturbance that is close to forcing them to retreat.

Gold flying swords, can be active interference, is to chase them to interfere!

With this idea, Shen Lang immediately acted. On the one hand, he continued to carry the towering tower to the gods. On the other hand, he manipulated the golden flying sword to cooperate with the attack!

The one that bears the brunt is the enemy that the dog **** is tied!

He has been trapped by the poisonous vines released by the dog god. It is ineffective to struggle, and the toxin is infiltrated more and more. Through the poisonous grass, the dog **** absorbs his energy.

Such a situation, so that he has been as seriously injured, it is the real tower to collect him, it can also be done.

However, Shen Lang can see that this is a prey that has been caught by the dog god. Of course, he is not convenient to grab.

Therefore, he took the initiative to rush to that person, and at the same time according to the direction he evaded, manipulating the golden flying sword and waiting for the stab!

The great **** was already dull under the influence of toxins. He was controlled by poisonous grass, and he had to face the attack of the dog gods, and the Shenlang approached.

Under such three or four factors, he did not find the gold dagger at all.

The result is that when the dodging wave is over, the golden dagger is wearing a throat!

The dog **** is also very neat. When he was pierced by a gold dagger, he paused and ducked. The dog **** immediately bite and swallowed it directly.

The two people are very tacit, and continue to attack the second one without stopping!

The dog **** swallowed the second great god, and it also made the people of the robbery alliance nervous.

Counting two is only one tenth, they still stand a deep advantage. But from another angle, the two powerful ancestors of the great gods were killed so easily, which is also a very serious problem.

The dog **** has prevailed. After killing one, its opponent has two left, and the situation will undoubtedly continue to fall to its side.

Together with the powerful Shenlang assistant, its two enemies immediately screamed.

Shen Lang and the dog god, this is a strong team.

But there is no interference from Shen Lang to other people. The situation of the Earl of White and Dracula is in a hurry!

In these cases, Shen Lang is naturally aware of the heart.

His strategy was to assist the dog ***** to kill as many as possible, so that the dog ***** can help them both.

But this premise is that the two of them can hold on, otherwise they will be injured and die, even if they kill the opponent, the tactics will fail.

Ever since, after he helped the dog ***** to kill one, he was superficially chasing the two runs, so that the dog ***** can face them more calmly, but in fact, he is secretly looking for opportunities.

The gold dagger that had just been built has already quietly arrived in another direction!

Suddenly, Shen Lang's body quickly came to a big turning point. He thought of the dog god's opponent and quickly moved to an opponent near Count Dracula!

That big ***** was shocked!

Of course, they are also analyzing the situation at any time. Shen Lang went to reinforce the dog god, and immediately killed a partner. Obviously, the other two partners will also be under great pressure.

But for them a few is an opportunity.

The best solution, of course, is to try to get rid of one, or both, to concentrate on firepower.

However, I did not expect that Shen Lang would come to a sound!

He was already ready to kill Count Dracula, and suddenly he was caught in the waves, so that he could not catch up.

At this moment, the attack has already been shot, and with a moment of work, it will be able to hit the Count of Dracula who was attacked by two others.

But he still chose to interrupt and leave!

Kill an enemy, if you have to pay for the price of the tower-like magic, he will certainly give up!

At this time, the golden flying sword that had already come over, compared with his escape, pierced his body at high speed!
