

First Strong 2271

Chapter 2271 - Entice

Being worn by the Golden Flying Sword, it is not necessarily dead. For example, Zhou Zhentang is just injured.

The key is to look at the location!

For example, just the one that was pierced through the throat, it must die.

Now, the angle at which Shen Lang suddenly appears is already well counted. There are also Count Dracula and two other great gods around the other side. The direction of being able to dodge is very limited.

So this is equivalent to prejudged the direction in which he left, and the gold dagger came from that direction.

A fast fly away, a fast fly, like two high-speed collision cars, the speed is doubled, want to avoid the harder!

In addition to the general direction of the gold flying sword under the control of Shen Lang, it is also possible to adjust the angle at any time.

At the moment of the collision, the position of the hole of the golden dagger is accurately aimed at the heart of the great god!

As a result, it is conceivable that this unavoidable blow directly penetrated his heart and suddenly there was no resistance!

Shen Lang has caught up again, and the tower is once again displayed, taking his body into it!

This is the second time that everyone has perceived the tower, although the two enemies are actually seriously injured, but in the eyes of the enemy, it is different.

They don't think the key is to be heavy first, but the key point is to be close!

This time, although I also felt the attack of Feijian, they would think that it was not the focus. It was just to stop the big ***** from escaping. The real fatal blow was the income into the tower!

Therefore, they are once again afraid of the tower.

For the first time, there may be a lucky ingredient. If you come back again, you can easily get people into it. This is indeed a very powerful magic weapon.

It should even be said to be an artifact!

The most stressful is the two remaining opponents of Count Dracula.

Because of their recent distance, from the situation just now, Shen Lang may charge them at any time!

The instinct of fear allowed them to give up the attack on Count Dracula for the first time and turned to the dog god.

In fact, they want to attack the day, because the day is also weaker, but the day has three opponents, and the two of them have been together.

When the time comes, the five will definitely be captured.

On the other hand, the behemoth should be a little more relaxed, and isn't the Shenlang transferred from there?

Now the situation of the dog ***** is also more critical, because it is just two waves, and it is very dangerous to press two opponents.

At the moment, two past reinforcements, Count Dracula came out, and he immediately reinforced the past with Bai Yu.

Originally, the situation of three to one became the dog ***** against the four, and the white and the Dracula counted together to three.

In fact, it is necessary to balance a lot, four synergies, so that the dog ***** is also difficult to have the opportunity to crush. And the two of them combined to deal with three, it is equal to half before, can be supported.

However, the changes in the situation are not as good as those of the great gods of the Alliance.

Because three partners have been dead in succession, they are all related to Shen Lang. And they have an extra layer of defense at this time, that is the golden flying sword!

The fear is not its power, but it can match the tower of the tower. Once it stops, it may be absorbed by the tower.

Everyone is dodging, not afraid to get close to him, let the swell of the tower of the tower, ready to change ideas.

Now that they have experience, even if they want to hit the West, it is not so easy to be effective.

It is not bad that the tower can achieve this effect. But the mission has been completed, and it continues to scare the enemy, but it has a side effect.

Therefore, Shen Lang immediately took the tower of the tower!

As soon as I saw this scene, all the seventeen enemy gods were secretly relieved.

What made everyone most jealous just now is that this does not know how much scope will be sucked in. Now the biggest threat is gone, it is time for them to play!

Originally, for Shen Lang, everyone is still a bit jealous. Those who have such a magic weapon must be important disciples of the super martial art.

But now he has killed a few of them, and no wonder they are.

And just that tower-shaped magic weapon, not only makes everyone afraid, but also makes everyone jealous!

This thing is in the hands of others, it is a weapon of danger, in your own hands, then let yourself be more powerful.

So after the tower was closed, everyone's mind changed and changed.

First relieved, then the idea of playing the waves!

Whether it is a live catch or a kill, as long as you can take the tower-like magic weapon, you will stand out in the robbery alliance!

As for whether or not to offend the super martial art, that is another matter, that is the future. Besides, the big deal is not to kill the waves, just grab him.

So the time of the moment, including the ten battles with the high-cold autumn field, is heart-warming, and I want to kill the waves!

At that time, the ten people, how much is a little regret. Because everyone else can abandon the target attack, they are trapped, and if they want to get out, they may collapse.

Just watching the good things, I have no chance to get it, or a little unwilling.

They all have such a mind, the other seven people don't have to say it!

"He killed a few of our partners and killed him together!" Someone immediately screamed and found such a legitimate reason, and immediately attacked Shen Lang.

The other few people have to look at it, this opportunity can not be preemptive!

In addition to the amazing magic weapon, the Shen Lang should not be very strong in itself. Whoever goes first, whoever has the opportunity will be big!

For a time, the other six people did not shout slogans, but when the slogan of that person was finished, they had already attacked the past together!

Dog gods and white pelicans are a bit puzzled by human thinking I don't know if they are avoiding the waves, how suddenly they all attacked Shen Lang.

Earl Dracula and Gao Hanqiu understand an approximation.

At this time, the cold autumn is also unable to move, and the same is being held down. Earl Dracula immediately took the lead in siege!

The dog **** and the white donkey are actually not slow. Although they don't understand it, one is the life and death of Shen Lang, and the other is when Shen Lang is the master. The degree of concern for Shen Lang is even worse than that of Count Dracula.

For all of their reactions, Shen Lang is very satisfied, this is his strategy to lure the enemy. Collapse the tower, for this purpose, is to lead them all.

If you take out the tower again, there will be no deterrent effect. Because others will think that he has just put away, because after using it twice, it can no longer be used in a short time, naturally not so scared.

Chapter 2272 - 1 injured 7 people

Just as they were besieged together seven times, Shen Lang's hand suddenly appeared in a sudden, and then quickly moved up!

Obelisk!

This is already integrated with the temple, part of the temple, and of course in his palm.

This thing is a weight of one or two hundred tons, and it is not only a problem of granite. The spelled characters on the above, together with the original construction, are all in order to absorb the essence of the sun.

Even in the lost thousands of years, this is not interrupted, just the difference.

Shen Lang got it and the temple, and did not take time out of their energy. The temple was regularly extracted by the snake ***** Kemrisu. This obelisk was always intact before the Temple of Light.

Therefore, now Shenlang is not only the power of one or two hundred tons of super-weight, but also the amount of solar energy. Even if it is blocked by defense, it will not be broken.

This is like a weapon of heavy weapon!

Its weight is even worse than the previous iron bars.

The seven great gods who had been besieged, even if they increased their emphasis on Shen Lang, were still not enough. No one thought that he would release such a heavy weapon.

The impact of this sweeping out directly hit the seven of them and flew out!

Of course, after all, they are the strongest in the realm of the Great God. Even if they are not defended, they can quickly protect themselves. Such a huge impact has not caused them to be hit hard.

However, this picture of light, for them, is extremely shocking to the monks who watch the lively around!

Who is this sinking wave?

How can he have so many magic weapons?

What is his magic weapon?

Just like a huge stone pillar as a weapon, and if it is a stone pillar, it can not withstand such power, and it will be crushed by the great gods.

But this seems to everyone like a “Thunder” blow, but it is just a slap in the air.

This is just a cover-up, and it is not expected to have great results.

His real blow is under the obelisk!

Because of the size and power of the obelisk, everyone's attention was attracted. The initial bombardment also knocked them out.

But actually under the obelisk, there is a hidden triple attack!

The first weight is the golden flying sword.

The gold daggers had already flew out as they were hit, and directly chased one of the great gods.

The second is the sword of the king.

The sword of the king is hidden behind the obelisk, and then the moment they hit them, it is extended longer and farther, followed by sweeping.

The third weight is the gods!

Shenguang is the last point-to-point attack.

Whether it is the big gods of the robbery alliance on the spot, or the crowds watching the battle in the distance, they did not expect that Shen Lang would still hide the triple attack.

And almost in a flash, all the effects came out.

The great gods who have defended the obelisk are holding up the impact and trying to stabilize the body. Don't let yourself be knocked out on the top of the mountain. It will not hurt, but it will also hurt your face.

But without waiting for stability, they immediately felt the attack that followed!

The golden flying sword is coming quickly, avoiding the inevitable, and the target one is directly penetrated.

The sword of the king is swept out with the obelisk ring. They cut directly on the bodies of many of them. Some just avoided it, and some were cut open.

Finally, the light of the gods shot, but also hit the body of several people.

After all, although there is no fatal, but seven people are injured!

Everyone is incredible!

It was just a lap that was knocked open and it has already shocked everyone, but as a result, everyone can guess that it is impossible to get everyone injured.

Why did you stop, but every one was injured?

Shen Lang this son, can actually hit the seven great gods in one fell swoop?

Is this... still a young disciple who relies solely on magic weapons?

Who is he? How can it be so powerful?

This strength is estimated to be so cold in autumn!

And the dog god, the white priest and the Count Dracula, did not stop!

After their opponents took off the siege, they chased them together, but it was just a rapid change between the moments.

At the moment they are attacking from behind!

The seven great gods who have just stabilized their bodies have to face another round of attack while they are shocked.

The blood of the strong gods is a great attraction for Count Dracula.

The three who had just killed, although they were all injured and bleeding, but the two were immediately taken to the tower by Shen Lang, and one was swallowed by the dog god.

At that time, he himself was self-sufficient, and naturally there was no chance to be cheap.

But now he just attacked and found that seven people were injured by the waves.

Immediately instinct attack, absorb the blood from the air!

If it is blood in a normal blood vessel, Count Dracula wants to absorb it unless it is weak. It is impossible to absorb the great ***** like this.

But they are all injured, it is different, and the blood is pumped from the wound.

He is like a strong absorption, the blood of the wounds, with their great realm, even if not controlled, can quickly stop bleeding.

But the wound could not be recovered immediately, so under the absorption of Count Dracula, the blood could not be coagulated, and he was sucked a lot.

After the seven great gods reacted, they have lost a lot of blood, which is also a good tonic for Count Dracula.

The dog ***** has not played for a long time, but it is the heart of repaying the waves, just killing one, it is still extremely dissatisfied.

Just seven of them attacked Shen Lang, which has already made it scary, so it broke out the strongest power!

When it came over, the dog's head skyrocketed, and it quickly became bigger. The tongue quickly rolled out very far, and immediately slammed into a big ***** in its direction, and got involved in the mouth!

When the great **** was caught Its tongue has been filled with thick venom, and a lot of venom is coming down in the entrance, and people are swallowed and swallowed!

And it still didn't stop, the claws continued to attack the great **** next to it, and the poisonous grass spread again, and immediately let it wrap it!

It is now completely integrated with the poisonous grass seed, has a stronger toxin, and has evolved to have that plant function.

For it, it is not only stronger, but also has more possibilities.

As a result, seven of the blood were absorbed by the Count Dracula, and with their injuries, the strength has already been discounted. One was swallowed and the other was tied with poisonous grass.

There are five left in the seven, and they are starting to panic!

Chapter 2273 - Run away!

When they died two times, they didn't have much impact on them, because compared to twenty people, it was only one tenth.

But now that four are dead, the basics are equal to five, and the effect is different.

This is not a quarter or a fifth of the problem, but it will let them re-examine it.

Although they had a total of twenty-one, Zhou Zhentang was trapped, and another ten people were held up by Gao Hanqiu. In fact, they should be counted as ten.

This is four dead, and the fifth is going to die, that is half the loss!

Half of the death rate is terrible, especially if they feel that they have not yet played an advantage.

Ten people will be killed by half. Now there are only five, can you win?

Don't say win, how long it will last is a problem!

The remaining five people panicked, and the other ten people who were deadlocked began to sink.

If they give up the battle of the field and let Gao Hanqiu control the field above the mountain, then they will be in a quagmire, and they will be greatly discounted in all aspects.

But if they don't give up, they are held back, and the remaining five people are even more unable to hold the attack of the other four. When the five of them were taken, they couldn't escape ten!

For a time, all of them were very depressed and grievous. It was a good hand. Why did they get rid of it?

Obviously, they have taken an action that is stable, how can they get this situation?

However, Shen Lang does not give them time to consider and have no time to discuss with them.

After completing a thunder blow, Shen Lang manipulated the golden flying sword, hovering around and looking for an opportunity to attack. In his hand, he is holding the sword of the king, far from the few who have not been killed!

At this time, Bai Yan also took the hand and used the practice of Qingqiu. When the Count of Dracula sucked blood, he managed to control one.

“Withdraw!” One of the great gods couldn't help but scream.

The one attacked by Shen Lang used his weapon to resist. He thought that even if Shen Lang had the realm of the Great God, he could stop it. He did not expect his weapon to be cut off directly. The long sword became longer. Directly penetrated into his body!

The dog **** also swallowed that one at a time.

The situation has gotten worse, not five, but three!

The five can't hold the four waves, such as Shen Lang, and the three words are directly hunted!

When the man shouted “Withdrawal”, he immediately flew out into the air!

After the other two heard and felt his movements, where did you dare to hesitate?

This is the time to run faster and run slower, and it will be the role of procrastination. Just the other people died so fast, they have not dared to hold any more fantasies.

And the escape of the three of them, so that the ten people could not help but sneak up!

Everyone has a tacit understanding – escape!

This is actually not a tacit understanding, because no one believes that others will be hard, and everyone thinks that others will escape, so they can not be stiff, but also must escape the fastest, otherwise they will die at the end.

Everyone is such a mind, and it has achieved the same effect.

As long as one person leaves and leaves, they will give the opportunity to the cold autumn. If everyone withdraws from the “tacit understanding”, it will give up control of the peak field.

But this is not a big deal, because everyone has to flee, and there is no control here.

Although ten of them are a little slower than those three people, because they are not physically injured, everyone’s speed is still the same!

They are thirteen, although there are still successive points, but in general they are still flying in the air.

Just like the Olympic Games 100 meters, everyone is a master, although there are still gaps, but the overall gap is not large, are in a circle, and there is no situation that far away from others.

Their escape, Shen Lang, of course, is also an immediate emergency, but everyone is slow!

The day is to control a great god, the dog ***** and the Count Dracula are preparing to rush to the sky to catch up.

They pulled away and the fastest response was of course the strongest cold autumn on the scene. Moreover, he immediately has control over a large field of the entire peak, and does not even need to do it himself, a thought, can be traced to the field.

But he still is slow!

This slow step is not that the other party has escaped, nor is there anyone who comes to meet it, but that Shen Lang is faster than them!

Yes, it is Shen Lang.

Just after Shen Lang hit them a bit, they were the three attacks of the dog gods.

At that time, Shen Lang has already guessed, they will definitely escape!

This is not because he has read the other's thoughts, but based on human speculation. Especially the gods who have been trapped for two hundred years, it is reasonable to say that they should not be afraid of death, but in fact they are suffering by despair, and even more fear of death!

Seeing that two, five, and seven are now, they must be panicked.

If you panic, you won't talk about loyalty.

Not to mention that they have been robbed of alliances. It is simply a temporary loose organization that has not been established for a few days. It is far more than letting them speak loyalty, and it will not let them have a degree of life and death.

This is the first person to scream "withdrawal". In fact, it may not be how loyal, but if he is afraid of running alone, he will directly become a target.

It is to run away, but also to run together, more people can cover themselves.

So when he spoke, Shen Lang had already guessed all their actions and had already deployed it in advance.

His deployment is simple and still a way of field.

Because the scenes are all in the realm of the gods, the effect of just fighting is so good, in addition to the enemy of the other side, it is because of his many means, the original martial art of these great gods is limited, and his personal experience is limited, not his Really crush each other.

So When you join ten new forces, it is from just dealing with ten and turning into thirteen.

Although I have also joined the high cold autumn, but after all, I want to get it quickly, after they are on the alert, it is not so easy.

In this case, he certainly chose a more labor-saving solution.

When the frontal attack, the field is relatively ribbed, it is likely that the situation has not been controlled, it has already been hit.

But as long as the field can be controlled in advance, and the surrounding area is blocked, it will be more than enough.

Shen Lang wants to shoot, to trap the other party a dozen, of course, can not be the general field.

What he uses is naturally learned from the dragons – the realm of God!

Chapter 2274 - Super god

On the frontal battlefield, the ten have high cold autumn to deal with, these three also have the dog god, Count Dracula and the day.

So after the King's sword was killed, Shen Lang did not follow the action, and did not cause anyone's doubt.

The result is that he calmly deployed the field of God ahead of time.

The area he controls is not the battlefield of the current peak platform, but the sky above. Controlled a large piece of air, and an invisible setting!

It is true that the scene is a great god. If the normal state, such a powerful space control field in the field of God, will be perceived by them.

But now it's different, now they are the time to escape.

The early layout of Shen Lang is slightly faster than them. When he is arranged to act, it may be only a fraction of a second.

These little time, plus the urgent situation, let them these gods, there is no time to consider whether there is an ups and downs in the air.

Moreover, from the common sense above speculation, the strongest cold autumn in the field is controlling the field of the peaks, which is tied with them.

Even if you want to use the field to limit the attack, it is also a pursuit. As long as everyone is fast enough, the field can't catch up. The scope is limited, and the farther the control is weaker.

Other dog gods and white pelicans are beast gods, Count Dracula and Shen Lang. They don't feel that they can have this degree.

Therefore, even if they are worried, they are also worried about the pursuit of the cold autumn; or worry about the magic wave of Shen Lang!

Whether it is the former or the latter, there is only one way to avoid them, and that is fast!

As long as you leave the scene faster and pull away faster, it is safe.

If you want to be fast, you can't have more time to analyze it. You must escape in the simplest way.

result

They are thirteen, and they have smashed into the realm of the gods of Shen Lang!

The realm of Shen Lang is not as good as the cold autumn, but in terms of mental strength, it is the cold autumn and his three points.

And he also absorbed the powerful spirit of the dragon, and the mysterious energy in the cloud palace holy land, he is also the most harvested one.

The realm of the gods at this moment is even more advanced than the field control of their great gods.

The way is more advanced, the power is more powerful, and with the opportunity to grasp the opportunity, they are unprepared and crash into the field of God. What can be the result?

The result was thirteen great gods, all of which seemed to crash into the quagmire. The rapid flight became a slow struggle, and the surrounding space prevented them from moving.

The field of Shenlang is based on the field of the dragon gods, and then the energy of suppression is added, so the effect is very good.

Of course, the effect of this kind of repression is that it is a kind of bonus that he has been transformed by the mysterious energy. Other people can't copy it even if they learn it.

The ancestors of these dozens of great gods were suddenly fixed in the air!

The dog god, the Count of Dracula and the white pheasant, including the high cold autumn, were all ready to rush to pursue the battle. After discovering this scene, they knew that they were slow.

In addition to the cold autumn, others have not even figured out what this is, but it does not hinder their understanding of things.

The dog **** and the white donkey are unconditionally trusting Shen Lang and deeply know that he has an infinite miracle.

The level of familiarity of Count Dracula is almost the same, but in addition to the high cold autumn, the earliest known Shenlang was seen when Shen Lang's young boy's strength was low, and he also walked together for a while.

It can be said that he really looked at the process of growth, the general speed of the entire rocket, so he also had to serve.

Not to mention that this giant beast, which is even stronger than him, isn't it called by Shen Lang?

Therefore, they have a few scenes, all of which are the first time to make sure that this is a masterpiece of Shen Lang!

The lively monks around the mountains are truly stunned.

Twenty great gods!

In addition to Zhou Zhentang, the Ferry Alliance has also come to twenty great gods. But for a while, it was broken by the Qiu Lin Jianzong side.

And just that "withdrawal", still ringing in the ear, their escape, everyone is also seeing.

It is already very unbelievable that a few people in Qiu Lin Jianzong can fight the robbery alliance of more than 20 great gods.

As a result, the thirteen escaped gods have not ran away and are still in the air!

What kind of strength is this?

For the monks of many of them, the Daxian realm is not necessarily accessible. It is the level of the ancestors of all factions. The realm of the gods is the legendary existence.

This time, I can see a large number of great gods appearing. It is already a very shocking and life-like spectacle.

But now, when someone raises their hands, they ban 13 big gods!

They are far away, relatively speaking, or bystanders are clear, they all see that including the cold and autumn, are prepared to pursue again, only Shen Lang is a popular person, and there is no change in behavior.

It is impossible for the super ***** to ambush at the scene. The one that does this step should be Shen Lang.

Shen Lang

Everyone feels that their brains are not enough.

Especially in Tangcheng local, or before the Tangcheng Qun Yinghui, then Shen Lang was under the support of Master Zhian, publicly charged and opened, everyone knows about his strength.

I didn't say that, and the information appeared in public again the previous time, that is, in Tiandu, the Chaotianmen and Bao Puzong's half-sex peaks were killed.

That is already incredible for everyone. Later, he was rumored that he even killed everything in Zhou Yucun, the realm of Daxian.

The outside world thinks that Zhou Yucun's big immortals should be killed by Qiu Lin Jianzong Mo Fei, just to avoid suspicion, and at the same time, in order to create momentum for Shen Lang, people dare not ask him for trouble, only to say that it was killed by Shen Lang.

Anyway, it happened in the ruins of the past, and no one saw it with his own eyes. It may also be that Shen Lang himself boasted.

But now, what do you see?

Shen Lang can ban more than a dozen gods!

What makes everyone feel unbelievable is that they implicitly believe, and the subconscious is more normal!

This should have been a very abnormal thing, but this time they felt very impossible, but they felt contradictory and normal.

This is not a schizophrenia, nor is it because the eyes are seeing the truth, I have to admit it, but because I have shot from the previous wave, it is a heavy and heavy show of his strength.

At the beginning of the rapid change of architecture, it can be said that it is with the help of magic weapons, but behind?

It is still still using the magic weapon But the magic weapon also needs people to operate, if they are replaced, the magic weapon has not played the effect, it has been robbed.

Just before the ban, Shen Lang also held a huge “stone pillar” and hit the seven great gods.

Therefore, it seems not surprising that he can ban more than a dozen gods.

What is the realm of the sinking wave?

Is he the super **** of the Great God?

Everyone couldn't help but take a breath!

How long has it been!

How old is he!

Do you want to love him so much?

Chapter 2275 - Strong worship

After Shen Lang successfully controlled them, they did not give them any chance!

Everyone seems to be calm, but in fact he is also highly nervous at this moment. Mobile phone

The field of God is very powerful, the consumption is not small, and in terms of control, there is no slight loss.

And they are unlucky and unfortunately encountered in the waves!

Shen Lang is not only the world that has grown up and died, but also has experience in past life.

He will not be lucky at all, and will not forget his true strength at all, and will not be forgotten.

Just the field of God can work, because of the ambush in advance, plus the result of the escape of the other side.

If you give them a little more time to slow down, there will still be a strong rebound force.

To ban one or two great gods, it is not a problem to sink the waves, but to ban 13 big gods, he is really not confident enough.

After successfully blocking them, their high-speed flying body continued to move slowly, but then it was impossible to move.

This is that Shen Lang immediately made adjustments!

His previous predictions were not certain that who had just flown to that point could not be so precise. If you want to successfully ambush them, you must block all of them.

His field of gods is even bigger than the alpine autumn and the entire peak platform area where they compete for ten!

The larger the range, the greater the likelihood of fishing, but the lesser the degree of firmness.

So after successfully catching them, Shen Lang immediately searched the scope of the field of God, turning the large space above the mountain into a space that locked them.

The effect of such “concentration” is naturally a great increase in power, and the result is that they are prohibited from moving.

Similarly, he also strengthened the effect of repression, so be sure to let them not break free.

But now this situation cannot be sustained.

Not only because of the consumption of God’s field, but also because control needs to be careful, and because you don’t know if others will not use it.

For example, if any big ***** is not afraid of death, and willingly blew himself up to complete everyone, it will suddenly have a huge impact. It is possible to scatter some of the space constraints in the realm of God. At that time, other people will be relieved.

Although Shen Lang is judged that they are all afraid of death, if all the results are going to die, there will always be people who blew themselves.

Therefore, he strengthened the effect of repression, then reached out and recruited a group of people from the air and landed on the summit.

This is of course a show, a show for the people around.

The control of the realm of God is his spiritual power. He only needs to be able to do everything, and he does not need to raise anything.

But the force can not be loaded to the blind!

Look around the lively, not all masters, most of them are low-level, they must be able to understand.

The mind controls the realm of the gods to capture them. The magic is magical, but it is a bit puzzling.

He grabbed them with this beckoning, and seemed to pull the wind more, as if these great gods were being played by him.

more importantly.....

This limelight has already come out, you have to enjoy the effect, or else someone might think it was done in the cold autumn.

This is not because Shen Lang is afraid of the cold and autumn, and between their brothers, it is not accounting for this, it is purely the inertia of the limelight on the earth.

And this picture has really achieved this effect.

Looking around the crowd, the mood is very magical, and I have contributed a lot of faith to Shen Lang in time!

The road to practice is the road to the sky.

Only the strong can only be against the sky.

So don't look at everyone's gloom, you have to look down on all the minds, but in fact they are still worshipped by the strong.

And this strong worship is also different.

Gao Hanqiu is obviously the strongest on the scene. He does not need to use weapons and magic weapons to fight against the group of ten great gods. This is the embodiment of strength.

But who is he?

One of the founding fathers of Qiu Lin Jianzong!

How many years have the Qiulin swords been? No one knows it for a while, but it has been in the impression for hundreds of years.

That shows that the cold autumn is at least a character who has become famous for hundreds of years!

And being able to create a martial art is inherently stronger than the average person, even if it was founded with other ancestors.

Such a character is no longer described as an “old ancestor” and is a true “grandfather.”

What kind of strength will there be for the ancestors who have lived for hundreds of years? Everyone thinks that it is normal and should be.

Therefore, for the cold autumn, there will be a respect for the seniors, but there will be no worship.

Shen Lang is not the same, even if he has not experienced his leaps and bounds, in the past two years in Tangcheng, I also heard a lot of things in the past, this is simply a miracle figure.

It can be said that he is not breaking through the promotion, or on the way to break through the promotion!

Looking at the age, but only in his twenties, hasn't there been such a young ***** in history?

This is the first genius in history, the youngest ***** in history, the fastest-growing strongman in history...

It seems that all the words of Meimei are used to describe him.

Such a person is naturally able to make everyone very admired.

Worship seems to give you strength as well, so everyone will unknowingly worship the strong, and the more they worship, the more they worship.

In fact, it is true. If you worship idols, you will have an example and you will have an inspirational effect.

For example, if you are prepared to slack off and lazy, think of the idols you admire, the speed of cultivation is so fast, and you will practice harder.

This indirectly gives strength, the power from the heart to the body.

All the worship in the world is not as good as it is.

Shen Lang feels the power of faith and is very satisfied.

But this time, it is not just the time to absorb the power of faith, it is the icing on the cake, and more importantly, the handling of these thirteen people.

After landing, it was not just the realm of God, but the addition of spiritual restraints, etc., really confined them all thirteen.

“How to deal with it?”

Shen Lang looked at the cold autumn eye After all, this is in the Qiulin sword, the other side is also directed at the Qiulin sword, Shen Lang played the biggest effect, but he can not take the lead.

Gao Hanqiu also nodded slightly.

He is willing to listen to the arrangements of Shen Lang, but this is not under the private state, but in front of so many people. It is up to him to preside over the big picture.

This is the role of his identity as the master of Qiu Lin's sword.

“Everyone! Qiu Lin Jianzong has always been a person who does not commit me. I don't commit crimes. Everyone knows that we used to destroy several sects in Tangcheng, but you may also know that they first killed us!”

This is what Lin Biaozi did. The Tangcheng factions are robbing with the bonfire, but of course they can't say that the high-cold autumn will be unified under the cage, so that the Qiulin sword occupies a moral high ground.

Chapter 2276 - captive

“The alliance of the robbery, their establishment is immoral, it is aggressive, and everyone knows that they directly oppress many sects and want everyone to offer the spirit!”

“We Qiulin Jianzong, the chicken they used to kill chickens and monkeys, you are coming to live today, of course, not to preside over justice for us, but to see what we are going to end.”

Gao Hanqiu gave a speech to everyone, and this made everyone very embarrassed.

“I don’t blame everyone, this is a very normal situation. I just want to tell you that we are not a good man or a woman!” When there are enemies coming to the door, we will definitely rise and fight back!”

“Someone wants to crush us and want to destroy us. We must fight back ten times!”

Such a saying is far from being passed out. All the disciples of Qiu Lin Jianzong, although they are inside the Hushan Array, they also saw the situation here and heard the words of the ancestors.

Everyone is very excited. Of course, they also have a lot of faith, but they are suffering from the cold autumn.

“I am not a good person, they are not good people. They want to kill us, I want to kill them, of course!”

“The robbery alliance, want to challenge the whole world, then we will become an obstacle to them first!”

“There are still people who are coming, even though they are coming over!”

“The thirteen, and that Zhou Zhentang, they are now the captives of my Qiulin sword!”

“For the captives, we have to get back to the custody, and then discuss with some of the most respected seniors, and see how they should be dealt with!”

“Everyone can go back first. After we decide how to deal with them, we will definitely tell the world!”

Gao Hanqiu did not think that he would win so thoroughly today. Even if he and Shen Lang have already analyzed it, he feels that it is good to be able to keep it. The result is likely to be fierce, and everyone is likely to be injured.

Therefore, this declaration is fully played out temporarily.

He did not say that he would kill them, nor did he say that he would let them go, but the captives used!

When the captives go out of this position, they can greatly raise the status of Qiu Lin Jianzong.

Moreover, the result of such a temporary treatment will not let Qiu Lin Jianzong bear the murderous name, and will not be threatened or demonized.

But he also stressed again and again that Qiu Lin Jianzong is not a good man and a woman, he is not a good person!

This also made a foreshadowing. The teachers of these great gods don't think about using moral paradoxes to force him to let go.

After he finished speaking, he accepted Shen Lang and blocked the 13 great gods, completely imprisoned, and prepared to bring them back to Qiulin.

But there is still one more thing to solve now.

Zhou Zhentang.

Zhou Zhentang has been trapped inside the temple!

Originally with his strength, it is still possible to get rid of difficulties. But this is not just the temple to fight with him, but the manipulation of Shen Lang participation.

So on the side of this mountain platform, no matter what kind of attack, the building of the temple is constantly changing. You knock down a wall, and there is a wall behind it waiting to be combined. Anyway, it is consumed with him. .

Zhou Zhentang's problem is that he can't completely defeat this temple in one fell swoop, so under the control of Shen Lang, he can't get out of trouble.

Of course, the temple now has a repressive effect, but it is not so obvious, not so strong.

In addition, Zhou Zhentang was also hit by the Golden Flying Sword yesterday, and the injury was not too light, so there was no breakthrough, and it was always trapped.

At this moment, Shen Lang collected the temple and all the buildings disappeared into his palm.

In fact, for the crowds watching the crowd, this hand is more cool and looks more powerful.

The overall time is not long, so even if Zhou Zhentang is sleepy, it is far from being collapsed.

The situation outside, in fact, he just explored the gods, but after the temple suddenly disappeared, the picture he saw still shocked him.

The seven great gods have disappeared—the one that Bai Bai controls, the one that Shen Lang killed, has been eaten all by the dog god, and the traces are gone.

The other 13 great gods were all imprisoned at this time.

Then Shen Lang, Gao Hanqiu, Emperor Beast, Jiuwei Hu, Count Dracula, everyone looked at him.

This picture of light, Zhou Zhentang has been guilty.

Don't say that he is injured now, even if he is not injured, he can still hold one at most. No, in the case of the recent war situation, one is seriously overestimated. In fact, he may not be able to deal with one!

So now, what more can he say?

Can he be stronger than the twenty great gods of the robbery alliance?

Anything is nonsense, it will only be more shameful.

“How do you want to deal with me?” For a moment, he still asked.

“Of course you are also a prisoner!”

After Shen Lang’s words were spoken, Gao Hanqiu raised his hand and directly arrested Zhou Zhentang. Together with other great gods, he was completely imprisoned.

Before the cold autumn, it was a field battle. It was not cool at all. It seemed that nothing was done. Now this is a show.

Of course, he is also very happy to let the wind out.

It’s not just to grab the limelight, but most of the enemies are solved by Shen Lang. I’m sorry to let Shen Lang start.

As for the Emperor’s beast to do it... If you don’t do it, you can swallow it directly!

This is a temporary dust settled, Bai Hao immediately changed back to the appearance of a person like a flower fairy, the dog ***** is to shrink the body, like a dog, silently follow the side of Shen Lang.

Just after the first battle, although it is still not enough, but it has made it feel the strength of its present, the most important thing is to use the new skills after the integration of poisonous grass seeds.

It also makes it safer and does not become a freak, but it dominates and absorbs that kind of power.

Of course, just after eating a lot of strong people in the realm of the gods, this is also a great tonic.

It faintly felt that the unfamiliar man – Count Dracula – envied it!

It was originally a swell of the waves, but now I feel that everything is given by Shen Lang.

If you don't touch Shen Lang, then it is now a landlord in the world of giant beasts.

What a wonderful world, how surpassing evolution is it If you continue to be in the world of giant beasts, it will not meet and feel these, the horizon will not be broadened, the experience will not be enriched, and it may last a lifetime. Can't evolve to the present level.

Therefore, it is to treat Shen Lang as a noble person, a benefactor, and to save each other's lives. It is already a life and death.

After cleaning up Zhou Zhentang, the enemies here have been completely settled.

These are just to see the excitement, even if there are some of the major sects, or even the ancestors hiding in the dark to observe.

Since you haven't stood up to help, it's just watching the fun.

If you look at the excitement, why bother to treat them as guests?

As a cold autumn, I have just spoken to them. It is already rare. Of course, they will not be invited to Qiu Lin Jianzong as a guest. It is not bad to anger them.

Chapter 2277 - Rise of opportunity

The people returned to the Qiulin swords together, and Mo Feiliu was excited to close the guardian mountain array. The disciples shouted together and greeted them back.

Everyone has just seen their war, and the words of the ancestors, let this sect that has recently experienced trauma, and have the confidence to stand up again.

After returning, the Hushan Grand Array was reopened, and other people who watched the excitement refused to go outside.

In addition to the faction of the various factions, perhaps Lin Biao's, they are also secretly observing the situation today.

But they have already split with the Qiulin swords, and the cold autumn has also been put down, will not wait for them to come back.

Simply encouraged everyone, Gao Hanqiu took the fourteen captives together and brought them to the abyss of the back mountain.

The day, the Count of Dracula and the dog god, all stayed in the mountains to rest, and the Count of Dracula and the dog gods absorbed a lot, and this time you need to digest it.

After the abyss, the cold autumn is of course to discuss with Shen Lang.

I said before that I would like to discuss how to deal with the high-ranking seniors who are highly respected. In fact, it is Shen Lang.

Shen Lang is the eldest brother of his previous life, and he is fully worthy of the high morale and the seniors.

As for the ancestors of this world, when Qiu Lin Jianzong had something to do, no one took the initiative to stand up. Of course, Gao Hanqiu would not discuss anything with them.

Today, and the Qiu Lin Jianzong life and death together, only one Shen Lang only! The dog gods and the whites are all counted on Shen Lang's body.

So how to deal with them, it is only the two of them to discuss, mainly to see the meaning of Shen Lang just fine.

“Lang brother, I think we should deal with them as soon as possible!”

Gao Hanqiu did not say how to deal with it, but it was proposed to deal with it as soon as possible.

“Well?” Shen Lang glanced at him and immediately thought of what he did not say.

The situation just here is that so many people have seen it together. There are some small and medium-sized sects that can only be passed on by word of mouth. But there are some sects with subtleties, such as signaling cards in the martial art.

And some of the major sects have come over, and the sects of the great gods of the Alliance have been ignorant.

The identity and role of each of them is similar to the role of Gao Hanqiu and Lin Biaozi in the Qiu Lin Jianzong.

The contemporary head is definitely not willing to kill the ancestors.

There was no appearance before because the robbery alliance was a sure success. The robbery alliance is just a loose organization of these great gods, but the actual beneficiaries include the sects behind them.

It is a vested interest, and certainly will not come out to uphold justice.

But they become victims, it is not the same, it is sure to come out and shout!

If it is just a two-door sect, I can't look down on any storms.

But behind the twenty-one great gods, there are twenty-one sects, and the heads of twenty-one sects can form a paradox.

And they also have friends, that is dozens of sects. At that time, it will be a famous school like Yaochi, and it is not good to comment.

Of course, they are not threatening to occupy the moral high ground. But you can use the way of pleading!

Today, Gao Hanqiu also said that these are prisoners, and they will discuss how to deal with them.

Since it is a prisoner, there is a possibility of putting it back. Since it is a business, you need more people to play with one.

After they formed a paradox, those highly respected old predecessors could not fail to pay attention to the voices of dozens of sects.

Even if they are only medium sects, even if the various big names are bent on them, they can't be too obvious.

In the end, it is very likely that pressure will be applied to let Qiu Lin Jianzong put them out, at most let them compensate for a little spirituality.

Obviously, being bullied to the front door, Gao Hanqiu did not want to let them go so easily!

Especially fast, fight for time, before the martial art has not been united, and before the public opinion has been formed, the results will be announced to the world.

"Your concerns are right, so what do you want to do? I can do it."

Shen Lang directly stated that he was originally helping the boxing, and solving the crisis of the Qiulin sword was the most important.

Gao Hanqiu has been thinking about this problem since he came back to the present, and now he has directly said his thoughts.

"The major sects do not want to see the emergence of the tyrannical alliance. They don't want them to rise. They don't want to be more equal to everyone. They will share the interests."

Shen Lang nodded, and Gao Hanqiu was able to enter the circle of the Yaochi event, which was discovered in the last two hundred years, and even though his personal prestige is extremely great, Qiu Lin Jianzong is still not seen.

To say the most realistic, if the cold autumn is dead now, Mo Feiliu has not advanced to the realm of the Great God. The next Yaochi event will not invite Mo Fei to flow! Qiu Lin Jianzong also removed the circle.

Another key point is that the high cold autumn is also one, and the distribution of benefits will not lose too much.

This time, there are more than twenty great gods, which means there are more than 20 sects behind!

Not only high-level resources, but also ordinary resources will have a great impact.

It's not the sects of them, how should the 20 gods be treated?

And they have already formed an alliance, with more than 20 great gods of the robbery alliance, it will almost become the world's first big force!

How can those big-name factions, which have deep roots, allow this to happen?

Whether it is interest or face, it is not allowed!

Therefore, they took Qiu Lin Jianzong and regarded Gao Hanqiu as a knife, let him try the bottom of these people. Based on further information, determine what to do.

When necessary, these famous schools can also form alliances!

They will also form a temporary alliance, the purpose is to kill the robbery alliance and then return to the previous state.

The reason why there is no such suggestion with Gao Hanqiu, no one stood up to join him, because they still did not count Qiulin swords as the same level!

These swells can be clearly thought out, and they have a warm and cold autumn, and they can think more clearly.

So now, he is also thinking about how to deal with it. This group of prisoners is, in a certain sense, a big resource!

Including how to deal with these prisoners, it is an opportunity for Qiu Lin Jianzong.

An opportunity to increase influence and increase the right to speak!

It is also an opportunity to rise to become a famous school!

“I mean kill them all! When the announcement of the world, it is said that the highly respected seniors of the various factions decided together!”

Gao Hanqiu directly said his thoughts.

It is impossible to put it directly.

Fourteen great gods!

Putting it out today is tantamount to putting the tiger back to the mountain.

Today can win, not the Qiulin Jianzong is more powerful, is not the guardian of a cold autumn, the main force is still the waves, the Emperor behemoth and the white scorpion, are the soldiers of Shen Lang.

It is impossible for people to stay here for a long time, that is, Gao Hanqiu himself can't let this trivial matter.

So be sure to cut it out!

Chapter 2278 - Preemptive announcement

If Zhou Zhentang and others let go, there will never be anyone who is grateful, they will only find opportunities to retaliate!

Qiulin Jianzong can't stand the revenge of the great god!

But Qiu Lin Jianzong can not afford to kill more than a dozen big gods!

Killing is a must to kill, but since it is the result of the expectations of the famous faction, the famous big school has taken the cold autumn as a knife, and Gao Hanqiu will certainly bear with their reputation.

Shen Lang nodded. “That would be the case.”

“Whether it is necessary...” Gao Hanqiu stopped talking and pointed to the top.

Shen Lang understood what he meant. Just now the dog **** ate a few, this is asking if you should give them all to the dog god!

In fact, there is a deeper meaning, that is, whether you want to let Shenlang all earn the tower!

It's just that it's hard to say it. Anyway, everyone understands this.

Shen Lang smiled. “The harvest of the Emperor's behemoth is not small today. The Count of Dracula has also gained something. My 昊天塔 also received two, and it doesn't matter if it is white. It's all for you!”

“Lang brother...”

The cold autumn is a bit awkward.

Because these people are caught by Shen Lang, although he also played an important role, it is indeed the biggest credit for Shen Lang.

There are fourteen here. If all is given to him, it is equal to the benefit of two-thirds!

Qiu Lin Jianzong is already in the reputation, status and other aspects, will benefit.

Shen Langzheng Road “No need to quit. I have a lot of resources now, you should add a little more. Qiulin swords also need to be upgraded, including the flow!”

Gao Hanqiu nodded silently.

A few days ago, he followed the advice of Shen Lang, personally helping the easy to upgrade, Mo Feiliu also helped other young disciples to improve, everyone's strength has been raised a lot.

However, Qiu Lin Jianzong suffered a severe break in the generation, which can not make up for it.

Especially in the cold autumn, his life is very high, who knows how long it will live!

Even the age of Mo Feiliu is not small. If you can't help Mo Feiliu improve to the realm of the gods, maybe he will die before the cold autumn!

In that case, the Qiulin swordsmanship will not fall.

Now that we have such an opportunity to turn "crisis" into "machine", we must make full use of it!

"It was so decided."

"Okay, let me deal with it!"

How to implement it specifically, you don't need to discuss it carefully, everyone knows.

Gao Hanqiu will treat all the fourteen great gods that are now banned as resources, and will fully utilize them. Their vital energy and their spiritual strength will be absorbed and taken away, instead of simply killing!

After making the decision, or after receiving the permission and support of Shen Lang, Gao Hanqiu immediately notified Mo Feiliu.

Let Mo Feiliu as the sovereign, and report the results to the world!

It's time to grab it. Now everyone is just leaving, the teachers of these great gods, because they didn't even think of this result, and they certainly couldn't respond. At this point, I should still wait for the news, even if I receive the information, I will be caught off guard.

Before they can respond, they will publicize the results of the "discussions with the seniors and the seniors, so that they can't change anything."

Gao Hanqiu had a sneak peek at Mo Feiliu, and clarified the essentials. Mo Feiliu as a close disciple brought out by him, of course, is also very clear about his mind.

In this respect, it is easy to arrange the flow of Mo Fei, and then the layout of the layers will continue, corresponding to different levels of propaganda.

Gao Hanqiu told him to go down, it was only a medium martial art, he would not come out personally. Like all the big names, he still has to come.

He is much simpler, through the messaging token, in the public channel, to make a concise briefing to other parties.

Dear ancestors will have their own opinions, and they can understand the deep meaning. You don't need him to say too much.

The ancestors of the famous big factions, some also received letters from the frontline personnel of their own sects, some did not get news, and some even came to see them in person.

At this time, I learned about the war situation. Everyone immediately expressed their congratulations to Gao Hanqiu and praised him.

The robbery alliance of more than 20 great gods, this is which of them is a big name, and they can't cope with it alone. Kunlun can't, Yaochi doesn't work either.

But now, Qiulin Jianzong has done it!

Undoubtedly, everyone knows that this is actually not done by Qiu Lin Jianzong, but it is done in the cold and autumn, but it is done with the help of the mysterious and wonderful wizard.

But what about it?

For the world, this is what the Qiulin swordsman did. In the days that followed, Qiu Lin Jianzong must become a famous sect in the world.

For them, they have already accepted the cold autumn, and they all defaulted to the strongest ancestors. Now there is nothing unacceptable.

Of course, a sect with a qualification that is younger than them is rising, and it is still a bit uncomfortable.

But this is also a “self-person”. Everyone is a circle. It belongs to the “famous big group”. It is better than the rise of more than 20 medium-sized schools. It is more like the rise of the barbarians. It’s too much.

From another point of view, this is the risk of life in the cold autumn, exhausted his resources, for everyone against the murderous barbarians, the rise of the family.

So no matter how true or not, at least everyone is very enthusiastic.

Xue Feixue also congratulated Yao Chi. She privately sent another letter to Shen Lang to ask about the specific situation. The whole process was solved so easily and whether they were injured.

After all, that is the robbery alliance of more than 20 great gods!

Even in the cold autumn, there are still the help of Shen Lang, the Emperor and the White Emperor, and it is also a minority to deal with the majority. Winning should also be a bad win.

In this regard, Shen Lang simply responded to a sentence without injury, and easily solved them!

But Snow is still not convinced, and then sent a message saying that if you need any assistance, whether it is medicinal herbs or other can open to her.

Shen Lang also thanked him. He estimated that other ancestors would be such an idea.

Unless you see it on the spot, if you don’t, other people will not believe it if they send a letter back.

Even those who have seen it with their own eyes will feel that they are not in the realm of the world and do not know a lot of behind-the-scenes details.

However, Gao Hanqiu and Shen Lang are too lazy to pay attention. Snow is not good for snow. This is a response. Other people don’t care if they care about it.

For the cold autumn, it is imperative to “handle” these fourteen great gods!

As for how to deal with it, there is no need to teach it.

But this has a time problem...

Chapter 2279 - Open space

The last time that Shen Lang refines Nangong’s energy is a year’s time, because in the world of Tianshu, the outside world is the past three or four days.

The Count of Dracula, who also absorbed Fan Tianxing, is still far from being absorbed.

Shen Lang is the most special, and most people can’t achieve this effect. The realm of the cold and cold autumn is higher, and the power of these great gods and ancestors may be absorbed.

In that case, it takes more than ten years to absorb all of these dozens.

The high cold autumn will not be all personal absorption, it is necessary to inject some of the power into Mo Feiliu and easy to wait for others, the process will take longer.

This makes Shen Lang a little hesitant.

With the strength of the cold and autumn, it is not difficult to do it for more than ten years. But in general, it is a time bomb. If the cold autumn is helping Mo Feiliu and others improve, what happened?

This is an inherent hidden danger, and there are hidden dangers!

The external hidden dangers include two aspects, on the one hand, the more than 20 sects.

The sky is a powerful ancestor who has been missing for two hundred years. Who is not happy? If this benefit has not been gained, it will be endless. Who can afford it?

A single sect does not dare to seek revenge, and more than 20 sects are added together, that is, there are many people.

When the time comes together, how can I cope? Can't all kill it?

This requires high-cold autumn to come out of the town, perhaps Mo Feiliu can still not live.

On the other hand, those big names are also the imaginary enemy targets of Shen Lang!

What the cold and autumn must do, other ancestors can naturally think of, captured the fourteen great gods, that is a huge resource.

Once the time is given to let Qiu Lin Jianzong calmly digest, then it is really necessary to rise up a Optimus Prime.

Gao Hanqiu was stronger than everyone. Mo Feifei is not inferior to other heads. This is a good echelon. There is no ambition because Gao Hanqiu knows nothing.

The experience of almost destroying the door before was a heavy blow to Qiu Lin Jianzong, and Gao Hanqiu will inevitably change the strategy and will not hesitate to promote the seedlings.

And just like the rapid elimination of the various factions of the Tang Dynasty, it will definitely be a gentle change and become more fierce.

When the Qiulin sword grows to a giant who cannot be shaken by everyone, it is equal to the emergence of a robbery alliance, which will affect everyone's interests, and even... survive!

These famous schools are often thousands of years old. In the long process, everyone used the Yaochi event as a tweak to maintain a fixed circle that would not be too big.

Usually everyone plays with each other, or there is a competitive relationship.

However, if there are new groups, it will threaten the survival of everyone. Naturally, they will first throw away the others and fight together first.

Gao Hanqiu and Qiu Lin Jianzong are likely to threaten them. Now, the best chance for the soldiers to kill this threat!

Because even the snow that is more familiar and fighting together, they feel that they must be injured. Others are even less convinced that they have captured 14 of the great gods and can still be intact.

There are threats and interests, and there will inevitably be many sects.

Compared with their thousands of years of history, the common friendship between thousands of years and the ordinary friendship with the cold and autumn is not worth mentioning.

Two external threats, one more and one less, one bright and one dark.

These famous schools, no matter the means or the experience, are far better than the current robbery alliance in the sand. Once they join hands, they will be even more dangerous.

Qiulin Jian is not optimistic!

Of course, Shen Lang can still help the cold autumn, and open the space of Tianshu to them.

He didn't let Gao Hanqiu know before, because it was not necessary for the cold autumn, and the dog **** was also necessary to bring it in.

And other people in Qiu Lin Jianzong, of course, it is best not to know so many people.

Now is the situation here in the cold autumn, it seems that the trouble has been solved, there is a big opportunity, in fact there will be a bigger crisis!

It is time to open up to the cold autumn, and Qiu Lin Jianzong can only be enjoyed by some people.

It is related to the core secret of Shen Lang, so he also hesitated.

He can give all fourteen great gods to the cold autumn, and can also consider all aspects for them and open up the space of heaven. This is the testimony of the brotherhood of the two worlds.

When Shen Lang followed the cold autumn and entered the space of Tianshu, and explained the situation with him, Gao Hanqiu realized that every time Shen Lang left and returned quickly, it was not transmitted to other places, but entered here.

For the magic here, in addition to the singularity of the cold autumn, there is no thank you to Shen Lang.

They are truly life-long friendships, and there is no need to thank them. If it is needed by Shen Lang, Gao Hanqiu will also support it.

Gao Hanqiu did not absorb their energy first, the first is Mo Feiliu and Xu Haoyue!

Shen Lang took Gao Hanqiu and Mo Feiliu, Xu Haoyue, and brought two great gods to let them retreat inside.

When they were not there, Qiu Lin Jianzong was managed by Shen Lang.

The time that Shen Lang gave them the expected time was also a year of retreat.

But this time, the cold autumn is not absorbed by myself, but it is necessary to help Mo Feiliu and Xu Yuyue to advance. It takes a long time to know how long it will take.

This is for the outside world, just a few days, the thing that Shen Lang needs to do is to watch the remaining twelve great gods.

They were both imprisoned by Gao Hanqiu and Shen Lang. In order to ensure safety, Shen Lang used the Tianluo network and tied them together.

As for the security issue on the mountain, Shen Lang has nothing to worry about.

The ancestors of the famous big factions, even if they have action, will not arrive so soon. They also need private appointments, need to deploy plans, and then rush to Qiulin Jianzong, which takes time.

Besides, there are no more of them, as well as the dog god, the white priest and the Count Dracula. There is no problem with security.

But there is a change that he did not expect to appear!

Lin Zhizhi.

The three of Lin Biao, when the cold autumn was absent, stood up and withstood the pressure of the Zhou Chaotang representative of the robbery alliance, which is also a redemption of his death.

But after they came back is also simple to leave, after all, it was said that the grace is absolutely good.

When Zhou Zhentang came for the second time, when the 20 great gods of the robbery alliance came together, the three of Lin Biao did not appear again.

According to everyone's expectations, they should still look at the Tangcheng area, but Qiu Lin Jianzong is all right, they do not need their photo.

The result was that on the third day after their retreat in the cold autumn, the three of Lin Biao came back.

Because he had already returned as the ancestor of the ancestors, it is easy to wait for people to know. And what happened here that night, only the high cold autumn and the white waves know, it is even Mo Feifei did not tell.

So when I saw Lin Zushi coming back, they were very happy, and naturally they would not be prepared for anything. They directly shut down the guardian big array and let them enter the Qiulin sword.

Chapter 2280 - Get out?

Shen Lang is the actor of Qiu Lin Jianzong, but this is to greet the ancestors, and Lin Biaozhi also met with everyone on the mountain, they will not be outsiders.

Really count, Shen Lang is an outsider.

Therefore, it is easy to turn off the guardian mountain array, put them in, and arrange for people to inform Shen Lang.

Shen Lang is because he and Gao Hanqiu have strengthened the guardian mountain array, and they are not always concerned about the situation outside. At least some people want to be hard-hitting, he will pay attention to it.

When he discovered that the guardian mountain was closed, he immediately noticed that the gods had sensed the past and had seen the three of Lin Biao flying.

At this time, people who are not willing to report to him have not yet arrived at him.

Immediately after the Hushan Grand Array was reopened, it was easy to welcome the ancestors.

Shen Lang's body flashed, and immediately rushed over, blocking the three of Lin Biao, who had just landed.

It is easy to meet and see that Shen Lang has arrived, and he is not surprised.

Shen Lang was not the Shen Lang who needed their shelter in the past, but the great **** with super strength. He is a respected friend of Gao Hanqiu.

“Mr. Shen, Lin Zu Shi, they are back, we can be more at ease!”

It's really exciting and exciting.

Before the three of Lin Biao left, they were a little lost. If both masters are there, isn't it stronger?

But they dare not say anything. The ancestors arranged them in such a way that they must have their reason. Maybe it is not necessarily ambush in the dark.

Today, when they saw Lin Biao's return, he was of course very happy. This is also a testament to the previous speculation.

For his words, Shen Lang did not pay attention, just looking at the three people in front of Lin Biao, did not say anything.

He stopped in front of him, but did not speak, naturally not to warmly greet.

Lin Biao's three people also looked at Shen Lang and did not speak.

It's easy to be embarrassed.

On the one hand, it is the master of the ancestors, and on the other hand, the straits of the escrow, it is not that he can offend. But now it seems that Shen Lang does not welcome Lin Zu Shi back!

His generation is counted as a young disciple, but in fact the age is not small, there are objects to be cultivated, and there are many experiences in various fields.

As a dark glimpse, there is a conjecture.

When the high ancestors were absent, Lin Zushi came back. When the high ancestors came back, Lin Zu Shi left them, and even seemed a bit like being driven away?

Is it true that the two ancestors did not agree?

To be true, Shen Lang is a good friend of Gao Zu Shi. It is okay to welcome Lin Zu Shi back.

This made him secretly complain, his master Yang Baotian, is still a grandson, where is he qualified to intervene in the disagreement between the two masters?

However, as far as the current situation is concerned, Gao Zu is not here. As a younger generation, he still has to welcome Master Lin.

After all, this is called Qiu Lin Jianzong, this is the teacher who was founded in the same year!

"I don't want to welcome Lin Zu Shi, and the two masters."

Not to mention Lin Biaozi, it is Li Wei, who is also the brother of his ancestors. Now the Mo Feiliu lord is just a younger brother with a lot of age.

It's easy to be a low-ranking person, and you have to be respectful.

Seeing that the three of them did not speak, Shen Lang could not directly drive away, but first asked one.

“How come back?”

The opening of Shen Lang, everyone's look is a bit complicated.

Li Wei and his two are unhappy and feel that Shen Lang is not qualified to talk to his master.

But the last time Shen Lang threatened to poke his head, Li Wei was uncomfortable and did not dare to say anything.

It's easy to be surprised, because he still doesn't know the identity of Shen Lang. Although the lord is also respectful to Shen Lang, it is obviously because of the relationship between Gao Zu Shi.

According to his normal understanding, he will also feel that Shen Lang is the year of the cold autumn.

However, Shen Lang actually called Lin Zushi as “樾之” !

Even if you talked with Gaozu Shiping, not the old generation, there is a huge gap in your age, and you should also be called “Lin Brother”.

“樾之” sounds like Shen Lang is a predecessor.

But what makes it even more unbelievable is that Lin Zushi accepted this name quite frankly.

“This is my martial art. Is it OK to come back? You want to drive me out?” Lin Biao's tone was calm.

Although I said that I had been ruined on the same day, I have come back once last time, and there is nothing embarrassing.

The white pheasant, the dog **** and the Count of Dracula, in the moment when the big squad closed, also felt that there was a great **** who came to the mountain.

Then I sense that Shen Lang has already appeared. Although it is slow, it has already come out. It is waiting at the back. If there is a need for Shen Lang, I can handle it at any time. I will not be able to do it before I open it. Opening interference.

It's easy to be uncomfortable, but it's already cold and sweaty!

Shen Lang is a good friend of Gao Zu Shi, and this behemoth and the nine-tailed fox are all his men. The Count of Dracula, who came with him at the earliest

This means that the Shenlang faction dominates the scene. If you want to reject Lin Zu Shi, he has no right to speak.

He already felt a very wrong atmosphere, and he didn't dare to say anything. People were light.

"Of course, I won't be rushed out. It's just that Gao Hanqiu and Mo Feiliu are retreating. I am here to entrust me to escrow. So, I want to ask, are you coming to visit, is there anything?"

The words used by Lin Biaozi are still polite, so Shen Lang is also polite to him.

Lin Biaozi slightly frowns, "I came back to Jianzong, there are two things, one is the attack of the former robbery alliance, although you do not need me to intervene, but still do not worry about the results; the other is to find a cold private autumn a little private"

It's a bit moving, but it's true! Lin Zu, who was able to stand up on the same day, did not give up and left, but the Gaozu division, they did not let him intervene.

Although Gao Zu Shi and Mr. Shen are extraordinary in their ability, why should they reject Lin Zu Shi?

“The results are very good. We naturally protect the swords of Qiulin. Anyone who wants to make an idea will be the one who will follow.”

Shen Lang said in a pun, his eyes also scanned the most hostile Li Wei As for the cold autumn, you are in a hurry, you can tell me, I will convey. If you are not in a hurry, then wait until there is a chance to talk about it in the future! ”

In this case, with the attitude that he did not invite to enter, it has clearly expressed “rejection.”

Lin Biaozi is still calm, but Li Wei can't help it.

“Shen Lang! What are you?”

When something came to his lips, he was forced to hold it down and changed his mouth a little.

“No matter what relationship you have with Gao Hanqiu, you are an outsider after all! Our masters and apprentices are the heroes of this Qiu Lin Jianzong! You are an outsider, why should we go out?”

“What do you say?” Shen Lang asked coldly.
