

First Strong 2281

Chapter 2281 - I am used to it.

Li Wei was a misfiring. Mobile phone

That night, it was because they couldn't do the cold autumn, the Shen Lang and the white, and they had to retreat.

I will come back again because the door is hollow, because I can't bear to see the martial art being deceived, but there is no unwillingness.

After the cold autumn and Shen Lang came back, they embarrassed to drive them away.

Just because they were justified, this is their martial art, and they can't be smashed by the outsider.

But is it straightforward and strong?

The question of Shen Lang's remarks extinguished his momentum.

Now their imposing manner is based on the Jianlin Jianzong. They are all their own people, and they are treated as ancestors. If you know that the behavior of killing the door before is what they do, even if it is easy to do not have the strength, it will be desperate!

That is their master, Shi Shubo, and brothers!

Compared with the distant ancestors who have never been in contact with it, these doormen who teach them and live together are more real and more sincere.

Of course, whether it is Lin Biaozi or Li Wei, in fact, they don't care if they really support them.

So many people have done it, and will they care about some distant relatives?

But now they have to enter the Qiulin swords, they must be justified, which requires the support of the disciples of Qiulin.

“What do you want?”

An idea was sent over.

Shen Lang looked at Lin Biaozi, this is the story of Lin Biaozi who did not speak.

It seems that I have regained the support of the autumn forest Jianzong for a few days, and I don't want to be discouraged by the disciples.

“What do you want?”

Shen Lang asked one sentence and sent his thoughts to him.

Seeing that Shen Lang is willing to communicate with him secretly, Lin Biaozi immediately responded.

“I am not malicious! To deal with the robbery alliance, they must have paid a heavy price for Gao Hanqiu; that is not just twenty gods, there are more than twenty sects behind them!”

“They will definitely gather right away. Does Qiu Lin Jianzong deal with more than twenty martial arts?”

“Even if you are still here, I am not at ease. Qiu Lin Jianzong is also my hard work, I can't sit back and ignore!”

The idea of his big pass was transmitted, but it was only a moment, and it didn't take a lot of time to talk.

Shen Lang is still inconvenient. “What do you want?”

Seeing that the paving was useless, Lin Biaozi said, “We stay in the mountains and guard the Qiulin sword with you. You can rest assured! We will not occupy the swords, as long as the storm has passed, we will leave.”

He looked at Shen Lang’s eyes and he was very sincere.

Shen Lang showed a smile.

Just when Lin Biao thought it was a friendly signal and thought that Shen Lang would be loose, Shen Lang refused directly!

“You don’t need it! You and Qiu Lin Jianzong have already broken their minds, and you don’t need to go through history. If you are cold and fall, Mo Feiliu will be killed if you are injured. Even if the Qiulin swords are to be destroyed, you don’t need to guard.”

“I have a deep wave, I will protect Qiu Lin Jianzong!”

“You don’t want to bully too much! This is the martial art I founded! Everyone still recognizes my ancestor!” Lin Biaozi has always been more friendly than Li Wei, but now his temper is coming up.

“Oh! You are half created, and you have destroyed at least 80%! From this point of view, Qiu Lin Jianzong has nothing to do with you, you still owe the cold autumn!” Shen Lang sneered.

“Everyone recognizes you, it is because we are kind and trustworthy, and we have not broken our promises to break your scandal.”

“...”

Lin Biao’s dumb voice is speechless.

From the perspective of co-founding, in terms of extensive, he can only have half, and the ruin is indeed far more than half.

Shen Lang said that there is also reason. On the same day, he said that he would not reveal his scandal. People have done it, but they have not done it.

The reason is this, but it is said that it is very uncomfortable to listen to!

When you were not there, Qiu Lin Jianzong was deceived by the door. We came forward to rescue, but became untrustworthy?

Is this to say that we use your hot face to post your cold ass?

“You don’t want to be too mad.”

This sentence is what Lin Biaozi said with his mouth.

Everyone didn’t know that they had just exchanged consciousness, just like a sentence that Lin Biao’s silence said after a moment.

This is just the beginning of the smashing of Li Lan, and it does not seem inexplicable.

“You know, I am used to it.” Shen Lang laughed.

Lin Biao’s look is complicated.

When Shen Lang dazzled the world, he could only look up. From that time, it was indeed mad.

He is now consciously not inferior to Shen Lang’s previous rumors, but Shen Lang reinvented and rebuilt, and he has reached a level that is not inferior to him!

He had to blame the unfairness of the sky, which is obviously a preference for Shen Lang.

Looking at the back of Shen Lang, Bai Yu, the dog ***** and the Count of Dracula, vaguely each strength is not inferior to him, so Lin Biaozi can not be tough.

He can only give Shen Lang a “walking” look.

“go!”

He took Li Wei and the two, not waiting for the closure of the mountain guard, directly crossed the guardian mountain and went out, and then disappeared into the distance.

It's easy to sneer.

The current Shen Lang is not the Shen Lang that he just saw. The exchange at this level is not something he can interrupt.

Even if you are a little bit guilty, don't dare to ask questions.

Shen Lang waved his hand and motioned that they all went back to each other, and then looked at the easy side.

“Easy general manager, you just have to remember a little. I can't be wrong. If you think I am wrong, it must be that you are wrong.”

“.....Yes.”

Easy to be speechless, but can only nod.

Shen Lang glanced at him and suddenly remembered. It is not easy for Lin Biao's feelings to be different, not only because he is low in class but does not understand the situation.

Moreover, because he and his master, this is the apprentice of Lin Biao!

Perhaps Li Wei is the master of his master Yang Baotian. In the two branches of Gao and Lin, it is the one of Lin.

Therefore, when Lin Biaozhi and Li Wei came back, they would make him more psychologically close.

Mo Feiliu also came back as a teacher and Lin Shibo.

Originally this past event Gao Hanqiu feels that the ugliness can not be promoted, and does not want to split in the door.

But now it seems that this matter does not let them know, but it is easy to make a split.

Even if it is not necessary to make it known, at least Mo Feiliu should know that it is easy to know the successors of cultivation.

“You... what else do you have to tell?”

The day before, Shen Lang was able to attack seven great gods in one stroke, but he could imprison 13 big gods by hand. If he was angry, he could not be an opponent.

“No, I am a passenger, Gao Hanqiu, Mo Feiliu is also old, and Qiu Lin Jianzong still wants you to be in charge. I will not be jealous of you.”

Shen Lang directly infused the memory of the night to the easy.

Chapter 2282 - successor

It is easy to guess that it is the difference between the two ancestors, which led Lin Zushi to leave the division door for many years, until he was in trouble.

Such conjectures can't help but feel that Lin Biaozi is very affectionate.

On the contrary, Gao Hanqiu, as the founder of the partnership, drove the partner away and monopolized the martial art. When someone came back to solve the problem, he would drive people away, which is very unpopular.

The memory that was just suddenly infused, let him understand the cause and effect!

Although there is only one paragraph in the memory, he can still get it right away.

What happened in the past few days, he is unforgettable for life. The entire division was destroyed, and he responded quickly. Some of the brothers and sisters of Tangcheng were summoned to escape.

For the murderer who almost wiped out the Qiulin swordsmanship, although he did not experience it, it was also suppressed at the moment, and it was a huge shadow.

At that time, it was Shen Lang and Gao Hanqiu, and Mo Feiliu came back. On the edge of everyone's collapse, they brought hope to everyone.

After that, a group of local factions came to blaze, and then the ancestors were angry and let the lords personally lead them to fight back.

Those who stayed in the mountains at that time were Gao Zu Shi, Shen Lang and Bai Yu. Later, they learned that the problem had been solved, but did not elaborate.

As survivors of these, I really want to see the true face of the murderer. It is best to be able to make the murderer a thousand!

However, the ancestors said that they have already solved this. Although they are a bit disappointed, they think that it is not what they can deal with. It is normal for the ancestors not to give them the opportunity to face them.

This is all right, and now I see the scene after they left that night.

It turned out that it was really not harmonious, and this disharmony actually came from this!

Whether or not he is the ancestor of his department, after all, Master is more dear, after all, it is the uncle who is getting along for decades, the brothers and sisters are more dear.

These relatives have been killed by the three Lin Zu Shi. After knowing the truth, how can they maintain their closeness and respect to them?

Between the time of the moment, I was so excited that I was a little trembling, and I was in front of Shen Lang.

“Sir, sorry!”

He slammed his head on the ground and solemnly apologized to Shen Lang.

At that time, although he did not say anything against it on the surface, he had already argued against the waves in his heart. It can be said that it is daring to say that it is daring to say that Shen Lang is screaming at the power and is here to take the lead.

He believes that Shen Lang can definitely see it, so he will let him know the truth.

Regardless of whether Shen Lang cares about his care, he must apologize!

At this moment, the state of being unscrupulous is not apologizing for being afraid of the waves, but from the heart!

People have helped solve the heroes of the murderers, and they have certainly not been exposed for the reputation of the sect, but they have been convinced that they are the shackles.

Shen Lang can feel the sincerity of his apology, a little thought, and directly asked him.

“Now, can you understand the heart and pain of your high ancestors?”

“Understand! Sorry, it’s me too.” It’s easy to be ashamed to cry.

Even people who have never seen Lin Biaozi will be close to each other because of their identity. What about the high-grandfathers who have met for hundreds of years?

They can create a martial art together, and they can name Qiu Lin Jianzong by two people, indicating that they must be brothers’ general rebellious friendship.

When the high ancestors knew the truth of the annihilation, they were not only purely angry like them, but also a heartbroken heart of brothers, a desperate despair!

As the ancestor of Qiu Lin Jianzong, he still has to support, and he really wants to say it, everyone may not be able to accept it, and the reputation of Jianzong is stinking!

Shen Lang is serious: "Okay! Pick up your emotions, you have to understand why I let you know the truth!"

Easy to stand up straight, body solemn, took a deep breath, and tried to suppress this huge emotion that is difficult to suppress.

"On that day, I suggested that Gao Hanqiu personally improve your strength. After this retreat, he will take you back again and raise you again! Why?"

Easy to be a little surprised, then very grateful.

Before Gao Hanqiu helped him to ascend to the realm of Daxian, Mo Feiliu was also helping other disciples, forcing everyone's strength to be upgraded by one level.

That is the dying of the sword, we must let everyone improve their strength. He is the strongest one among the rest of the people, and he will be personally shot by the ancestors. It seems to be a matter of course.

Now I know that it is a proposal for Shen Lang.

He is very clear that with the current realm of Shen Lang and the relationship with Gao Hanqiu, he does not need to care about his attitude. Just said this, it is really this layer, not to win his favor.

"Because you represent the future of the sword of the autumn forest!"

"This is what I just said. Gao Hanqiu and Mo Feiliu are all older. You were originally a successor to Mo Feiliu. Now there is no substitute for successor, but also to speed up the process."

"Know what to do?"

The identity of the successor is easy to understand, but Master and Shi Shubo also educate him. The brothers and sisters also see him like this. But after all, Mo Zong's main strength is high, and he can live for a long time.

His personal strength is also limited, so he has always felt that it is a very distant thing, at least for the next few decades, he will still be the successor to exercise.

Now, Shen Lang, who has an equal status with Gao Hanqiu, is directly responsible for his responsibility to the successor. This is the first time to get the "upper level" hand-picked, which makes people very excited.

"Understand! Thank you, Mr., I will not let you, let the ancestors and the lords disappoint!"

At this moment, Shen Lang felt that it was easy to create a strong belief.

The day before yesterday, he and the robbery alliance played against each other. He was forced to pull the wind. He did not expect to let the people around him see the lively people. Some of them respected the degree of faith in him. It also included some people in the Qiulin sword.

Just because of the bitterness of the unscrupulous completely because this is not convenient for the cold autumn, so he came to help stabilize the rear, to avoid burying the mustard.

Unexpectedly, his heart and mind, in exchange for the power of easy to believe.

It's easy to do it, and it's easy to find ways to influence other disciples without kicking.

As for Mo Feiliu, it is actually not so important. Because he is a close-knit disciple of Gao Hanqiu, he is absolutely loyal to Gao Hanqiu. No matter how he decides, he will not doubt Master.

Even if he suspects that there is disharmony, he is definitely standing on the side of Master, and will not stand in Lin Biao. Of course, in order to prevent him from being deceived by Lin Biao and Li Wei in the future, Shen Lang felt that it was necessary to let him know the truth.

"Why do you think they are back?"

Shen Lang suddenly asked a question.

Chapter 2283 - What is the purpose?

Shen Lang will drive them away, not only because of the grace of the words, but also because of the previous grievances.

In fact, when I came back that day and found out that they were not there, when Qiu Lin Jianzong was in danger, Lin Biao could put everything down and maintain it. It was already a relief for Shen Lang and Gao Hanqiu.

But today they came over, what is the purpose?

This is a bit embarrassing.

If Lin Biao really cares about Qiu Lin Jianzong and cares about the cold and cold autumn, then it will certainly not go far, and when the war is on the previous day, it will be watching in the distance.

That should be true to the whole situation.

As a result, they all have nothing to do and easily break the alliance. That is to say, Lin Biao should be able to leave with confidence.

If you are still worried about whether there is any injury in the cold autumn, it should be on the same day, after other people leave, come and ask.

Or just just pass the sound and commemorate it in the distance, it won't be until today.

After they left, Zhou Zhentang came again to Qiu Lin Jianzong. Even if they didn't know that the robbery alliance would come to more people, the latter things would be spread, and it would be clear that there would be time to come back.

Looking at these factors together, they come here today, when there is another purpose!

“They should want to visit if the high-grandfather is injured?”

Because he had no doubt before, Lin Biaozi and others, of course, there would not be too much interpretation.

Now that I have understood the truth, I can't help but think about it again.

“Did they want to see if Gao Zu Shi was injured?”

The two sentences are basically the same, but the meaning is completely different.

What I thought of in the front was a normal and friendly visit. Later, I was skeptical that they were interested in spying!

According to the memory of the last paragraph, that night, it was Shen Lang, Gao Hanqiu and Bai Yu, so that Lin Biaozi could not cope with it and had to leave.

After dealing with the robbery alliance, if the cold and cold autumn was seriously injured, if they were also injured, then Lin Biaozi can completely recapture the Qiulin sword!

And from the sovereign to them, they don't know the truth, they don't doubt, they really want to be killed by Lin Biao, they will also support the Lin Zu Shi!

With such a thought, let the eternal shudder.

He also admired Shen Lang more. Fortunately, it was just that Shen Lang had seen it and expelled them. Otherwise, the sovereign and the ancestors might be in danger!

Shen Lang actually has his own ideas, and he will ask if it is easy, just because he is just around and see if he can inspire his thinking.

I haven't said much now, I've dealt with it a bit, and I'm leaving.

Of course, the one that is easy to be suspicious, Shen Lang can of course think of it. To be exact, this is his first reaction, so I will come over immediately to stop them from staying in the Qiulin.

But now chewing, Shen Lang thinks it will not be that simple!

If you do not include the cold autumn, Mo Feiliu, the resources they have mastered, the Qiulin swords that have been destroyed by them once, it is equal to an empty shell, the value of easy to wait for others is not enough to let Lin Biao's heart move of.

That is to say that he is to inquire about the injury of the cold autumn, the purpose is not the Qiulin sword.

Zhou Zhentang and other 14 kings of the robbery alliance!

Before the analysis of Shen Lang and Gao Hanqiu, this may be a major resource for the ancestors of other famous schools.

Lin Biaozi, may not have this mind!

Other great gods are far away from tens of thousands of miles away, and they receive news, and then internal discussions, joint allies, and then rushed over Qiu Lin Jianzong, the time needed will be more.

In comparison, the Lin Biao, who is lurking nearby, is near the water.

If the facts prove that the previous war, in fact, Gao Hanqiu, Shen Lang and other people have also been seriously injured, then Lin Biao's now is the fisherman's profit.

The two of them, the dog god, the white scorpion, and the fourteen great gods, all together, are undoubtedly the great benefits that Lin Biao could not get again in his lifetime.

This interest is not comparable to the ten Qiulin swords.

That can completely push Lin Biao to a higher level, and also allow Li Wei to push the two gods into the realm of the gods.

Such a big interest is enough for them to put down their minds and let go of their past feelings.

Besides, the past sentiment has now become a burden. In the face of Shen Lang and Gao Hanqiu, they are the dogs of the funeral family that were driven away. They are the murderers of Tu Yu's own martial art!

It is a very uncomfortable feeling. It will always be with them. In the face of the cold autumn, it will not be able to lift the head. It must be avoided for life.

But if you know the cold weather and the deep waves of the inside, they are dead, then the secret is only known to them.

In that case, they can re-establish the identity of the ancestors of the Qiu Lin Jianzong ancestors, glamorous and standing in front of the stage, and re-launch the Qiu Lin Jianzong to a peak, once again the name of the history!

In this way, they have a lot of motives.

Shen Lang relived a bit. Before he did not say that they were in the cold autumn, they only said that even if they were seriously injured, he would also guard the Qiulin sword, and they would not need them.

This pair of Lin Biao's, maybe it will be a message!

They will feel that the cold autumn, Mo Feiliu they are rehabilitating.

However, the timely appearance of the Count of Dracula, the dog **** and the white pheasant also shows that the Qiulin swordsman now has strong strength.

This made Shen Lang a little regretful. I knew that they would not have to appear, so Lin Biao thought they were all injured.

In that case, Lin Biao's three of them may not just leave, and they will directly turn their faces in the name of Qiu Lin Jianzong.

However, these interests are too great, and they have more to do with Lin Biao, they certainly can't help it. I even think that he is also hurt, but it is just a strong support then it is fun.

Shen Lang does not need to be told that it is not easy. This is not a war at their level. It only needs him, and you can take care of the dog gods.

In fact, it is not necessary for him to squat again. It is easy to go down immediately. The guardian mountain array must be open at all times. Some people come and go, need to be temporarily closed, and must be very fast.

Although this can't prevent the strong people in the realm of the gods, but for them, how much is a layer of protection.

Other powerful enemies that are inconvenient to say are handed over to Mr. Shen.

Although Shen Lang feels that the calculation is almost the same, and they have enough strength to cope, and even hope to hide the strength to let the other party first shot. But after all, I still feel that I should be safe first, so I used the wheel of the sky to make a specific prediction.

Chapter 2284 - Invade again

Prepare for war!

After the prediction of the wheel of the Heavenly Machine, Shen Lang immediately became alert!

After the prediction of Lin Biao's this aspect, it was a deep sense of crisis, which made him have to pay attention to it.

However, before this, his personal premonition did not show a sudden warning, indicating that Lin Biaozhi may have no specific action before he came to spy.

Just left here, let them think that Gao Hanqiu and other people are seriously injured and retreat. They feel that they are also bluffing and they are discovered by them, so they refused to stay in Qiulin.

Therefore, this change made them determined to attack.

Of course, in fact, it can also be regarded as a warning sign of premonition, which will allow Shen Lang to use the wheel of the telescope in a targeted manner.

Before it was to deal with dozens of robbery alliances, he did not have such a warning sign, it was calculated, and it is sure to have a chance of winning.

However, Shen Lang does not feel that Lin Biaozi can dislike any storms.

The reason why he will be warned and predicting the danger is precisely because he does not pay much attention to Lin Biao.

Because they don't feel that they are strong, they will be underestimated, but they are more likely to be dangerous.

After all, he is now hosting the Qiu Lin Jianzong. This danger also includes all the disciples of Qiu Lin Jianzong. It is not necessarily that he is personally dangerous.

Gao Hanqiu and Mo Feiliu, Xu Haoyue, this time are still in the space of Tianshu, Shenlang is not convenient to call them out.

He also felt that they had not reached that level and they were able to cope with it.

Although there is one cold autumn that can fight against ten great gods, Lin Biaozi is only a great god, plus two big fairy peaks.

It is only necessary that they will not be attacked by Qiu Lin Jianzong. If they are in front of each other, Shen Lang does not even need to be hands-on. Dogs, Bai Yu and Count Dracula can easily suppress them.

At this moment, he has paid attention to it. In addition to transmitting a few signals to them, it is also passed to the easy.

Shen Lang pays attention to it and calms down. The dog gods are a few of them. They are more excited. Before the big war, they felt that they were not enjoying themselves.

It's easy to be frightened!

He had just been cautious and cautious. He did not expect Shen Lang to issue instructions for preparing for the war so quickly.

Although he does not understand the specifics, he understands that Shen Lang will certainly not be targeted, and must be aware of it.

As for who is going to prepare for the war, do you still need to say it?

After he considered it, he also understood the intentions of Shen Lang and Gao Hanqiu. It was inconvenient for the following people to know the specific situation. So what we need to do now is to make arrangements.

In the final analysis of this preparation, they are still preparing for the battle. For them, what they have to do is to gather together.

They don't need to cheer and cheer together, but they are more convenient to protect them.

Of course, it is also very clear that this level of fighting is not something they can participate in, so it cannot be said that the **** defending home, it is the courage of the husband.

Listening to the arrangements, try not to burden them with the waves, this is the best.

In the next moment, Yi Yong also received an instruction from Shen Lang, let him directly shut down the guardian big array!

This order is not a bit hesitant.

This is the legacy of the ancestor, which was also upgraded by the ancestors, and it is still very effective. Being open is a layer of security in mind.

However, he can't question Shen Lang and think about it. If it is Lin Biao's, just like they can just break open directly, the Hushan array can't stop them.

It doesn't make much sense to open it, it doesn't make much sense. Perhaps the meaning of Shen Lang is that it is more open to highlight confidence!

When he executed the order and then assembled everyone, there were already enemies invading!

When they are easy to find, they are already very close.

Shen Lang learned from the first step, and he also came out with the dog god.

The reality is much more serious than his previous analysis!

I thought it was the three of Lin Biao, who wanted to take them seriously and thought they were seriously injured. They took all of them and those captives.

But now I found out that in fact, Lin Biao's union has brought many people together!

These are the ancestors of other great sects!

This is also a wave of imaginary enemies that were counted before Shen Lang and Gao Hanqiu. The result is not only true, but they did not expect them to come so fast!

It is no wonder that the wheel of the celestial plane will have a strong sense of crisis. The original point is not only the importance attached to Lin Biao, but also so many enemies.

If they are the three of Lin Biao, don't mind the opening of the city gate, let them come over, and have full confidence to crush them.

But now this situation is a bit different.

Shen Lang passed a thought to Yi Yong, and when they went out, they reopened the Hushan Grand Prix!

Then he and the Count Dracula, the dog **** and the white stork, leaped to the top of the mountain that shoveled the peak.

This is the battlefield before. There are many enemies coming here, and it is impossible to fight in the Qiulin Swords, or to come to this battlefield.

It's easy to realize the seriousness of the problem, and Lin Biao's, they have colluded with more people!

In his opinion, he thought it was the remnant of the robbery alliance. Hurry to follow the arrangement of Shen Lang, and then what you can do is to secretly pray.

Due to the lack of pre-judgment, it is no longer the same as before. Shenlang four reached the summit platform, and the other army is not far away.

"You, what is this wanting?" Shen Lang's cold mouth, spread directly around.

Although there are not a large number of people watching today, there are also a large number of people coming here.

In addition to Lin Biao's three, there are also some ancestors of the great gods, a total of seven, a total of ten people.

They also landed on the platform of the peak, and they did not destroy the several roadblocks of Shenlang. They could not go to the Qiulin swords to harvest.

"Shen Lang! You can't take advantage of the nest, you are holding my friend Gao Hanqiu injured, I want to take the Qiu Lin Jianzong to seize the occupation, I am not satisfied with Lin Biao, today I have found some highly respected seniors, to comment together Evaluation!"

The disciples of Qiu Lin Jianzong are a bit stunned.

They all recognized the founder of Lin Biao, and when they heard this, they were also a bit suspicious. Because the high ancestor and the lord did not see it, now the mountain has a final say, is it really necessary to win the Qiulin sword?

When it's easy to drink and make everyone, it's also a cold sweat.

If it wasn't before Shen Lang let him know the truth, then he would have to be as skeptical as everyone else, and he would squat inside.

Shen Lang glanced at them.

The seven great gods who came, he is not very familiar, but they have all seen it. I have seen it at the Yaochi event, and later in the Yungong Holy Land.

At this moment, seven of them avoided the gaze of Shen Lang and did not say hello, as if they did not know him.

Chapter 2285 - Everyone gets it

Shen Lang secretly sneered.

If the meeting was seen in the Yaochi event, this attitude is normal. After all, he was only a new "outer card" type of newcomer. If it was not in the cold autumn, no one could afford him.

But the Yungong Holy Land is not the same. All of them who can come out are considered to be stained with his light. Otherwise, they may die in it. They may be trapped and do not know the Year of the Monkey.

Now, in order to avoid embarrassment, all pretend not to know!

Originally, Shen Lang still wanted to keep in touch with them. If he could be peacefully dismissed, he would not want to do it anymore.

Now it seems that both Lin Biaozi and these great gods have all made up their minds!

But then again, Lin Biaozi was only driven to Qiu Lin Jianzong, so he brought people back so soon, it shows that they are already ready, just waiting for Lin Biaozi's information.

"Lin Biaozi! You colluded with the embers of these robbery alliances, you want to encroach on the Qiu Lin Jianzong, but instead of playing against me? Gao Hanqiu they are retreating, I will entertain you!"

The words of Shen Lang immediately made Lin Weizhi's preemptive system lose its effect.

The disciples of Qiulin Jianzong are the groups that do not know the truth. One of Lin Biao said that they feel reasonable. Now Shen Langyi said that they feel very reasonable.

If it is really only about the Qiu Lin Jianzong, Lin Zu Shi can completely discuss it, and wait until the Gao Zu Shi is out of the customs.

I just came here, and I immediately came with a large group of people. Is this purpose pure?

The day before yesterday they saw a large group of great gods coming over, that is, the great gods of the robbery alliance. Now there are seven. In addition to the robbery alliance, where are there so many great gods?

But in addition to Lin Biao's not wanting to carry the stigma of the gang of the robbery against his own martial art, the seven great gods, by default, this identity!

The main purpose of their coming is to make resources, in order to get fourteen prisoners, even if they are part of it.

But whether it succeeds or fails, spreading may affect the reputation of your own sect.

So they will not disclose their identity and will not recognize their identity.

Now Shen Lang has characterized them as the embers of the Alliance, which is an excellent cover for them. This stigma makes it easy for the robbery alliance to be backed up. Their martial art is a big name!

“Hume has a mouthful of female yellow! You have colluded with a bunch of fierce beasts, and it has already ruined my high brother. I have been murdered by the hooligans. I know this information, and I must not sit back and ignore it!”

Lin Biaozi once again made a sound.

This time, once again, some of the people of Qiu Lin Jianzong will be suspicious.

Now this situation is indeed a bit different. Did not see the high ancestor, did not see the lord, did not see the guest Qing Xu.

Another guest, Elder Dracula, this is followed by Shen Lang, and he ***** blood! Most likely not human, but also alien!

The other one is a behemoth, and the pretty girl is also a nine-tailed fox.

On the whole, Lin Zushi said that it is correct!

Will it really be that the waves are colluding with these fierce beasts and aliens, and they have been murdered by the high ancestors and the lords and the elders?

In addition to stabilizing the military, it is also secretly sweating for Shen Lang.

Shen Lang's identity as an outsider, as well as several other identities, put him at a disadvantage. If it wasn't for Shen Lang to infuse him with memory, it was a verbal explanation, and he could hardly believe it, let alone other people.

But in fact, Lin Biaozi said that he did not want to win their support. They would not care about the disciples of Qiu Lin Jianzong.

Lin Biaozi just wants to stand on the moral high ground and let his teacher be famous. It is a party of justice.

Shen Lang shook his head: "A group of jumping clowns. No need to talk nonsense, what do you want to do, let the horse come over! You don't even need me to take the garbage!"

As he spoke, the dog ***** had quickly grown bigger, and the body of the Emperor's behemoth screamed again, and immediately shocked the nearby mountains.

The change of his physique has not scared these people, but the momentum that has just erupted still makes Li Wei a little nervous and squeezes a cold sweat.

Lin Biaozi and other ancestors of the great realm of the gods have remained calm.

Seven of them are able to form alliances. Naturally, they are trustworthy and talkative friends. They naturally have a familiar tacit understanding.

I don't know what it is, let them contact Lin Biaozi, but today I will let Lin Biaozi test Qiu Lin Jianzong, which shows that they have some guesses.

And dare to act quickly, when they feel that the guess is correct, it is sure.

Under the premise of such a preconceived premise, Shen Lang's words, when they heard it, are another kind of interpretation!

Shen Lang said that he does not need him to be hands-on, it should be that he himself was seriously injured, and now it is bluff!

The state can be masked in many ways, but it is really hands-on, and there is no exposure to expose it.

Gao Hanqiu was injured, and Shen Lang must have been injured. After all, they have dealt with 20 great gods!

Now he is afraid to shoot, let the beast gods shoot, just to cover up the truth of the injury, this is to play with them psychological tactics!

Therefore, the words of Shen Lang are said, but they are more confident in their hearts.

"Collaborate with the evil beast, this person must be a different kind!"

"This swell is probably an alienation, the purpose is to subvert our right path!"

"For such a sinister martyrdom, everyone can get it!"

"Don't talk nonsense with him, take him down first!"

These great gods have seen Shen Lang twice, and some have invited Shen Lang to help them open the ancient organs, which was registered in Gao Hanqiu.

Even if Shen Lang just described them as the people of the robbery alliance, but if they are uncomfortable, kick their identity one by one?

They know each other internally, there is nothing, and the Shenlang party is going to be destroyed. Those who can spread it out are the disciples of Qiulin's swords.

When will it be necessary to kill the Qiulin swords?

Therefore, taking advantage of the "heterogeneous" entrance, everyone slammed together and did not give Shen Lang more opportunities to speak, let them go out and say!

Lin Biaozi also understands this. The hat that has just been buckled has been deducted. As long as the sinking wave can be extinguished, he can be nailed to a different kind.

Don't talk nonsense now, lest you lose more.

"Hands!"

When Lin Biao's big drink, was a look at Li Wei.

He and the other seven great gods, the target is eyeing the three gods.

Before he watched the war from a distance, he had a certain understanding of their respective strengths. The Earl of White and Dracula can only fight a great god, and the Emperor is much stronger.

Therefore, they have had tactical totals, three contain the dog god, one to hold the day, the other three together, as soon as possible to kill Count Dracula! Then kill the white cockroach!

As for Shen Lang, they all feel that they are bluffing. In fact, they are fighting in the past few days. The injuries are very heavy and costly.

Just the eyes of Lin Biaozi, let Li Hao and two people take the opportunity to start against Shen Lang.

Chapter 2286 - Misunderstanding

Sorry, I set the update to go home for the holiday last night. I missed three chapters and wish everyone a happy Dragon Boat Festival.

Among the ancestors, some of them also arrived in advance, and they watched the live broadcast from a distance. Of course, Lin Biao is also.

These two days they have targeted research!

On the day of the situation, everyone was fighting all the time. Only Gao Hanqiu had dealt with ten great gods, and then Shen Lang dealt with seven, including the last thirteen.

In their view, Gao Hanqiu and Shen Lang are too relaxed!

This is not in line with normal logic.

You are stronger in the cold and autumn, everyone knows; Shen Lang Fabao has seen more. But why not be so understated.

After the end, they went back to the Qiulin sword, and then Qiu Lin Jianzong opened the guardian big array, which is equivalent to closing the door.

Shortly afterwards, Qiu Lin Jianzong issued an announcement, claiming to be discussed with many seniors who were highly respected by the famous big-name sects, and all the prisoners of the catastrophe in the chaos were executed!

After detonating this news, Qiu Lin Jianzong was a low-key crouch.

Everything makes them feel suspicious.

On these two days, they also lurked on the road to Qiucheng Jianzong to Tangcheng. It was not convenient to get close to the Qiulin swords, nor did they directly touch the disciples of Qiulin.

But there are disciples from Qiulin and Zongcheng in Qiulin, all of them listening to them and seeing what they said. Including the information before the delivery, they are also the first to know.

They don't need an official announcement, they want information that is revealed from everyone's chat.

The disciples are naturally proud and proud, and the whole process is also discussing this hot spot. And Lin Biaozi, they also got information from their chats:

Gao Hanqiu took Mo Feiliu and Xu Yuyue to retreat; the behemoth, the white stork and the Count Dracula were also resting like a retreat. The swordsman was handed over to Shen Lang for escrow, and Shen Lang seemed to be retreating.

This is completely true, but it is limited to what they can understand. The dog **** and the Count Dracula are digesting and absorbing the harvest they have just made, and the white baboon would not have been with their disciples.

As for Shen Lang, he administers Jian Zong, and it is also a major event, such as the expulsion of Lin Biao. Specific affairs, or easy to be responsible.

The disciples below certainly did not see him doing things, and thought he was also in a state of retreat.

But these unintentional messages have come to the ear of the suspected Lin Biaozi and others, and there is another completely different interpretation!

Mo Feiliu and Xu Haoyue did not appear at the time. What do you need to close?

Cultivation? This unsafe time, retreat, and entrust the sect to outsiders? This is not true.

Gao Hanqiu needs emergency retreat. It is understandable. Even if there is no injury, it needs to be quickly restored after consumption. After all, he is the strongest main force.

However, the high-cold autumn with Mo Feiliu and Xu Haoyue is intriguing.

Others do not know the relationship between the cold autumn and the deep waves, Lin Biaozi is clear, it is absolutely safe to worry, even if the cold autumn is very heavy, it will not be against the waves.

So you don't need to take them with two guards to defend yourself, and the answer is ready!

High cold and autumn injury is extremely heavy, in addition to medicinal herbs, Lingmai and the like, you also need Mo Feiliu and Xu Haoyue to help treatment!

Giant beasts, foxes, vampires, this can not help the cold autumn, normal, the first choice should be Shen Lang to help him treat, Xu, Mo two people look after.

It will be the result of the present. It is only because Shen Lang has been seriously injured, or it is extremely depleted. It can't help the cold autumn, and the same cold autumn can't help him.

Therefore, the high cold autumn retreats and seeks the second, let Xu Haoyue and Mo Feiliu assist him to heal; Shen Lang himself retreats to heal, and several others are also healed.

At that time they were relaxed, and their good state was disguised!

People are always subjective, and the truth that people want is often not the absolute truth, but the "truth" that fits their expectations.

It is the same for ordinary people. If you don't meet the truth of your expectations, you feel that you can let the bullets fly for a while and wait for the reversal. In the end, I was not satisfied. I felt that there was a conspiracy and there was a behind-the-scenes transaction.

Lin Biaozi is actually the vision of the ancient times of the earth. It has been limited to expand here, and it has been trapped for two hundred years. In terms of mentality and other aspects, it will not be faster than the rapid transition of technological civilization and the globalization of a large population. Where to go.

Other ancestors, even if the realm is high, have the same limitations of communication.

So they all identified the results of this analysis.

At the same time, they also formed a private alliance, and others quickly rushed over. I have been able to act after I have gathered all the people and repeatedly inferred the situation of Gao and Shen.

But they are still cautious. The attraction of the 14 big gods, plus the high-cold autumn and the dark waves, is very attractive, but they also don't want to fall into the end of the league.

So today, Lin Biaozi took two disciples and went to Qiu Lin Jianzong personally to get a close look at the military and spy on the military.

The result is the same as they suspected. Shen Lang really did not let them stay and directly expelled them.

What does this mean?

There are ghosts in my heart!

If you are not afraid of them understanding the truth, why should they stop them at the door?

If not all of them are not hurt, do you need to call the behemoths and other demonstrations on the premise that they are not hostile?

The dog god, the white priest and the Dracula counted out consciously. In the view of Lin Biao, it was Shen Lang who deliberately called them out, deliberately pretending to be unharmed!

Lin Biaozi's swords in Qiulin, did not sense the three breaths of the cold autumn, which is even more evidence that they were hiding somewhere and were shielded by arrays and the like. This shows that the situation is serious!

In addition, he seemed to be irritated at the time, but he was very calm and noticed every detail of the thoughts sent by Shen Lang.

"Cold and cold autumn, Mo Feiliu, even if they are injured, they are going to die. Even if the Qiulin swords are to be destroyed, you don't need to guard them. If I am in the waves, I will protect Qiu Lin Jianzong!"

This sentence under his thoughts, I think it is very likely that Shen Lang unintentionally revealed the truth information.

Even if the cold autumn is not going to die, it is also a serious injury, so it will make Shen Lang Yan Yan refuse, fearing that he won the Qiulin sword!

Shen Lang claimed to be mad, and chewed it later, and felt that there was a problem with this.

He has been trapped for two hundred years, and he will not make an example. Just watching the cold autumn is a fairytale style of a generation of masters. Shen Lang's past life was mad, but in the end, he had already passed the mad stage.

Now the two worlds are human beings. If it is not a guilty conscience, is it too mad to him?

Because of the pre-emptive "analysis", letting him see, hear, and guess everything has become a clue, and it has become evidence to prove the inference.

Come back to discuss with everyone, and take action.

Chapter 2287 - This is a long time

The day before the battle, there were twenty people in the robbery alliance, but Qiu Lin Jianzong had an extraordinarily high cold autumn, and everyone was in good condition. The robbery alliance was extremely underestimated, so the battle was defeated.

Now they have absorbed the experience and summed up the lessons of others. Although there are only eight people, they still feel confident.

This time, they focus on the dog god. Because it looked like the last time, it was not hurt, even if it was worn out, the body advantage of the beast gods may have recovered.

As for the Earl of White and Dracula, whether they were injured or not, they did not pay much attention to it. As long as one person was restrained first, the other three must be able to kill, and then together they would kill another one.

As for Shen Lang, he said that he does not need to be hands-on, and let Lin Biaozi and others feel that he is a bluff of serious injuries, then he can dry him to the end.

At the moment before the hands-on, Lin Biaozi's eyes implied that Li Wei and the two had dealt with Shen Lang.

At the moment of the "hands-on" order, the dog **** once again roared together, and immediately the whole mountain seemed to be shaking, and it spread far and wide.

In addition to its strong momentum, it is also very fast. The battle of the day before, it is still strong after adapting to the retreat for a long time, and now it is more handy.

The day is the most serious one on the scene. She knows that her strength is limited and she can't deal with more enemies.

Count Dracula found that this time he was dealing with three people, and he could not help but sneak up. Its experience and strength are not enough to deal with three!

However, he did not panic because there were deep waves.

Like Lin Biao, they have seen the battlefield of the previous day. They know something about the magic weapon in the hands of Shen Lang. Although the analysis feels that Shen Lang is seriously injured, it may not be able to use the tower-like magic weapon, and it was collected later, but it must be careful.

Quick battle!

This is the common idea of all of them, because after the cold autumn, they still let them be jealous. Lin Biaozi has seen this once or twice. Those great gods have been seen in the Yaochi event. This is recognized as the first ancestor. .

In the realm of the cold and autumn, even in the healing, it is possible to attack directly from the depths of the sword. And if he fights hard, it is still possible to kill or even kill them.

Although they have eight great gods, they can still win, but no one wants to be the one who is destroyed.

Therefore, no matter who they attack, they still have a glimpse of the mind, guarding the direction of the sword of the autumn forest, guarding the cold autumn without appearance.

The scene changes, this time the people watching the battle, only the disciples of Qiu Lin Jianzong.

Their emotions are also more complicated. One side is Shen Lang and others with Gao Zu Shi. On the other hand, they are Lin Zu Shi. They don't know who to believe, and they don't want them to die.

Easy to do is to squeeze a cold sweat.

The founder of Lin Biao, this time is really colluding with outsiders, and it is a number of sects, prepared. Obviously, the goal cannot be the Qiu Lin Jianzong that was destroyed by them, but should include Shen Lang, Gao Hanqiu, Zongzhu and others!

If Shen Lang can't defend them, the three high-ranking teachers who are retreating are also in trouble. ——He also felt that Gao Zu Shi may be injured, and Xu Elder and Sovereign are helping to heal!

It is a pity that he is powerless and can't help if he wants to help. He can only control the situation of Jianzong.

Li Wei and the two, got the instructions of Lin Biao, they are staring at Shen Lang.

After everyone's action, they can't wait to get started.

In particular, Li Wei, who was pointed at the head by Shen Lang last time, said that he would poke his head and make him feel shameful!

Now that the other party has been seriously injured, this is the best chance for his revenge.

But when their two bodies rushed to the sinking waves, they found that suddenly everything seemed to be slow!

They can feel that they are rushing out quickly, but there seems to be something intangible in the surrounding area that wraps them up. It seems that I thought it was put into the clear water, but the result was invested in the glue.

The same thing happens to other people.

The other eight great gods attacked the three targets, and everything went according to their plans. According to their plan, three people attacked with all their strength and it was easy to kill Count Dracula.

After killing one, it is a good breakthrough, and the next one will be easier. The last eight to deal with the behemoths together are also hand-to-hand.

Shen Lang can only stand on one side, there are Li Wei and two people, they can't run.

But now there is a bit of a mistake...

The three great gods who attacked the Count of Dracula felt that they had been greatly restrained, and the speed of the enemy was so fast that they could hardly see it clearly!

They are all masters, and naturally they understand what is going on.

Someone controlled the entire peak, and everyone was trapped in the field of others!

Because they are all beasts and aliens, they have never thought about this layer. According to their plan, they can get it quickly and quickly, and they can't use field attacks.

The last time the robbery alliance field attack was also to contain the cold autumn.

The only thing that is possible to make a field now is the wave.

But shouldn't Shen Lang be seriously injured?

Didn't he have fought with the thirteen gods through the field before?

The Earl of Dracula, who was already very fast, was even more incredible with the help of the field of Shenlang. The three great gods who were suppressed have not yet figured out the situation, and one has directly bitten his neck!

The speed at which he sucked blood was also incredibly fast. He grabbed the great **** and so quickly sucked it up.

However, the battle on the scene has not been completely drained by the people. He feels that the body has been pushed to the opponent of the white.

Count Dracula naturally understood that it was Shen Lang who was manipulating him. It is both a tactic to help him to be faster and a slap in the face.

If it is his own, it is to be surrounded by three. Now under the control of Shen Lang, the enemy is slowing down and he is getting faster. Under the circumstance, even if he wants to besiege him, he can't do it.

The white-eyed opponent , although it feels, but wants to dodge is a slow half.

Count Dracula has already dropped the great ***** before, biting the neck of this great god!

And Bai Hao also got the bonus of Shen Lang. This time she didn't even need to turn into a nine-tailed fox. When the Count Dracula bit the throat of the man, her arm also penetrated the heart of the man. !

The ancestors of the normal big gods have their own defensive capabilities, but according to their previous estimates, even if there is no enemy, they will not overestimate their opponents.

In fact, the day can only be like him, it is impossible to hit his heart.

It's just now in the realm of God, under the control of Shen Lang, he hit his heart faster, and he can't dod it. It's its own defense. It's gone when you bit your neck.

Chapter 2288 - Easy spike

When the Count of Dracula and the White Pelicans collaborated, the dog **** was even more powerful.

Its original strength is far better than these great gods. The normal three deal with it, and it can only hold back for a while, and it will eventually be killed by it one by one.

Now everyone is in the realm of Shen Lang's gods, the enemy has been suppressed, and everyone has been promoted and helped to make this situation one-sided!

The three gods that are a little slower seem to have been attacked by the dog **** at the same time!

One of them was riddled with poisonous grass and could not move completely; the other was pinched by the dog's claws; and one was bitten by his head and swallowed in!

Originally, with their strength, even if they can't kill the dog god, they can also have certain threats to him. It will not be so easy to recruit.

However, they were distracted by the high-cold autumn behind the scenes of Qiu Lin Jianzong, and there was no defense against the deep waves in front of them.

Before Shen Lang did not fight the field with the 13 great gods, but pre-judgment in advance, to control them. And his use of the field of God is already more than the cold autumn!

All of this adds up, so that even if they defend against the deep waves this time, they will still be recruited. Without the field of defense against the waves, it will be more thorough.

When their speed and their attacks are slow, they are already deadly for opponents of the same strength, not to mention the dog gods who are stronger than them.

There are still two problems at the moment, one of which is Lin Biaozi.

They were the three who attacked the Count of Dracula. When Count Dracula turned to help the day, he succeeded in getting the gods off guard, and the two of them were easier.

This time, they are also aware of the seriousness of the problem.

The root of the analysis is wrong!

Even if they pay more attention to the enemy, they have big problems.

This is tantamount to seriously undermining the Shen Lang!

Lin Biao was anxious because he was telling two disciples to catch Shen Lang in the first moment. It is now found that Shen Lang is not only not injured, but also has strong field control ability, far better than their expectations, which is very troublesome.

Li Wei and the two are directly crushed by the waves!

The two of them, the minds of this time are the same, realizing that Shen Lang is the key, and hurrying to attack the past when the Count Dracula has not yet returned.

It's just that Lin Biao's want to kill the waves, or to protect two disciples.

Shen Lang is calm and standing, there is no such thing as dodge.

For the two of them, there was neither dodge nor blocking, or even suppressing them through the realm of God to reverse their attacks.

This situation is a bit wrong, but time has not allowed them to ponder, and more judgment.

Because the results appear directly...

Li Wei, who rushed to Shen Lang, because his strength is weaker, there is no resistance in the field of God. It is almost the effect of being imprisoned in the air.

But just at that moment, their speed was rushing out quickly!

This is the speed at which they used to go out, and it has been accelerated a lot. Only the angle has changed, from squatting to sinking into the front.

That is, they are two, “coincidentally” blocked before the attack of Lin Biao’s two!

Before Lin Biao’s two, Qiu Lin Jianzong was the strength of random crushing, but this time the whole body prepared for war, but also used his sword!

He was able to create a “sword sect” with Gao Hanqiu in the past, naturally on the swordsmanship, with extraordinary accomplishments.

Even if he does not have such an artifact as the sword of the king, but the power of a sword that has just been fully attacked is also a thunderous trend.

Another ancestor, but also because of the need to attack the sinking waves, can break the passive situation, and perhaps there is still a glimmer of life, so there is no slightest privacy, and do everything possible to attack.

Under such circumstances, Li Wei and the two were shot one by one, and there was no chance to make a sound...

The two of them are the strength of the Great Xianfeng Peak. It is not so easy to strike a killer. But just then, Lin Biao’s two are a blow to all efforts!

Because you do your best, you may not be able to hit the waves, you must work hard. The two of them, without normal defense against the defense, were thus “thrown” in the past, and the effect was naturally different.

The one who was hit by the great ***** directly stunned the past and then rushed to the front of Shen Lang. And Lin Biao’s two has burst into the body of Li Wei because of a fast and awkward sword, and directly opened the torso with a large hole!

Both of them have been seriously injured and killed.

“Do you really want to kill me?”

“You just wanted to kill me.”

“Unfortunately, you were killed by your master’s sword. He is not good at seeing you!”

Shen Lang looked at Li Wei’s eyes and directly transmitted this to his consciousness.

Li Wei had always been stunned and perceived the ridicule of Shen Lang, which made him anxious, especially the last sentence. This is an insult to his master. His master is not going to kill him. He is going to kill the waves!

He wants to argue, but a mouth is a lot of blood squirting out.

“Don’t waste it!”

With the swell of the waves, the blood he squirted and the large amount of blood he was wearing were still under the control of the field, still around his body, and then the two bodies were sent to the front of Count Dracula.

Just this moment, Count Dracula completely sucked the ***** who was smashed through the heart by the white scorpion, and immediately smothered Li and the two.

The two of them have been severely wounded and wounded, and they have no need to bite the blood vessels and quickly drain the blood.

At this moment, Bai Yan was stopped before Shen Lang. Although she knew that Shen Lang’s strength was strong enough, she still felt that she was a good maid.

Count Dracula also came to the front of Shen Lang, blocking the two of Lin Biao.

As he came over with him, there were two people who were floating in the air and were drained.

Lin Biao’s ambiguity!

“Shen Lang! You are a beast! I am not wearing the sky with you!”

Li Yu and his two are not only his pro-disciples, but they have been trapped for two hundred years together. They died together. That is the feeling of transcending the general mentoring.

“Do you really have a face to say this?” Shen Lang looked at him coldly.

For a while, the dog ***** swallowed all three opponents!

At this moment, it is coming to the back, staring at Lin Biao's two people.

There is another big ***** ancestor This has already been panic.

Just the best blow was his last fight. If he didn't succeed, he would have no chance.

Just eight people have no effect, and they have been reversed in a short time. Now there are two left. How is it an opponent?

“Shen, Shenlang brothers... We also met together at the Yaochi event, and together with the Yungong Holy Land. I also looked at my hand, and I was tempted by them.”

“It's all they have united Lin Biaozi, saying that they can kill you all. I'm going to cross the robbery alliance and catch up with the cold autumn and you. I'm really blind, please spare my dog!”

Chapter 2289 - Surrender damn

In the midst of wealth and danger, he has taken risks with him since he has acted with everyone.

It will be so fast to move over, it is nothing more than a small chance of risk, want to gamble, anyway, there are so many people, not one.

I really want to lose, so there are seven big sects behind them. They don't dare to do anything in the cold autumn.

Unexpectedly, Gao Hanqiu did not show up at all. The whole process was the mysterious Shenlang in the position, and he did not show mercy, and directly made them one by one.

Looking at the couples, they were quickly sucked up, broken, and swallowed, reminding him of the distant memories of the young. When they were young, they went to the forbidden place to try, and they had brothers and brothers. They were like this, and they were torn by the beasts. Broken, swallowed.

As the ancestors of the door, they have been smashed for at least a hundred years. They have been done by the heads and elders. After becoming the realm of the gods, they are even invincible.

At the same level of the gods, there are few confrontations. In addition to the special environment of the Yungong Holy Land, they will not let them encounter any danger.

Today, they are like a teenager.

Therefore, this ancestor directly collapsed. It evokes the shadow of his youth, but he doesn't want to be eaten by the behemoth!

Lin Biaozi, because both disciples have already lost their lives, the whole person is hysterical and does not want to reconcile.

For the patriot's petition, he directly angered.

"He has killed so many, will leave you? It will only kill you! We must fight to the end!"

The great ***** has just been instinctively begging for mercy. Now, when I hear Lin Biaozi's words, my heart is also a bitter smile.

Yes, the people who walked on their trip left two of them. The apprentices including Lin Biaozi were killed and will they remain?

This is definitely to kill them!

However, his confidence has collapsed. Just now, there was no effect. At this moment, it was controlled by other people's fields. There were also many counter-measures. In the end, it was death.

If you ask for mercy, there is still a little hope!

Thinking of this, he secretly bite his teeth and directly sneak out, slamming down to the ground!

Although he is within the control of the realm of God, Shen Lang can clearly identify the specific, whether he wants to attack or other, can feel it.

Therefore, when he was kneeling, he did not hold him in control and control, but he was shackled by him.

Seeing that Shen Lang allowed him to go down, the great **** felt a little more hope, and quickly slammed his head against the ground, and then the five bodies cast.

“Shen Lang Da Shen! You are the greatest genius, I have always admired it! At the beginning, I sincerely invite you to help us crack the organs! Other people such as Ginkgo Valley disrespect you, we are also deeply rejected!”

“This time I was tempted by traitors and made me fascinated. It is really a crime to die! I am willing to offer everything, I am willing to follow you, please give me a chance to redeem!”

He still has the opportunity to speak, and he has not been killed yet, and he hastened to explain his petition.

First pull the relationship, then admit the mistake, and emphasize that it is tempted by others, and finally sincerely expressed the willingness to pay all the redemption, willing to be the younger brother of the waves, in order to get the opportunity to redeem.

The value of resources in a great realm, and the exhaustion of all vitality and spiritual strength, is also one-off. But as a living resource, there is a great possibility.

In the simplest terms, it can also be an excellent hitter. Whether it is the daily site, the division of resources, or the help of the forbidden treasures, it can bring long-term benefits.

Moreover, the light is to make a strong person in the realm of the great gods, a ancestor of a famous big school, can bow down and bow down to the minister, itself is the resources can not buy.

Seeing that big ***** is so, Lin Biao is disappointed and angry.

The ancestors of the great realm of the gods, or the famous big faction, even made a pleading for mercy!

Everyone fights together, but you want to surrender?

Lin Biao's moment is that he can't wait to kill Shen Lang, but Shen Lang has taken the lead. Under the control of the field, it is difficult for him to attack Shen Lang, let alone kill.

This anger is angry, even when it is transferred to this great god.

The two of them are not far apart. At this moment, the other side is a five-body cast. In order to show sincerity, it is completely undefended.

This is undoubtedly an excellent opportunity for Lin Biao!

"hateful!"

Lin Biao's sword violently seems to be desperately fighting with Shen Lang's last!

The great ***** was lying on the ground, and this time it was instinctively looked up and looked up. There was a thought in his mind. If you help the wave to block this blow, should you be more sincere?

But now it is the main control of Shen Lang. There are people in front and behind who are guarding them. They have not attacked Shen Lang, and they have taken the initiative to resist. Will it seem too deliberate?

The result was that he was thinking about the problem in his mind, and he just lifted it up and saw the sword of Lin Biao's violent attack, not to mention attacking the waves, even the white princes and the Count Dracula who were in front of them. Attacked.

Just just found a reason to let them defend, so that he did not think much, the result is directly to his head!

This picture, so that he can not help but cold sweat, and then regardless of the rolling up, in order to avoid this sword.

But in his heart, there is a deep sense of fear and crisis!

Because the strength of him and Lin Biao is almost one level, no one has much lead, then whoever starts first has an advantage.

At this moment, Lin Biao is attacking him. He is unprepared; Lin Biao is a hand-held weapon. He is a five-body caster who is undefended and kneels on the ground!

Under such a state, rolling is only an instinctive reaction, and it is difficult to avoid the fierce sword.

His heart at the moment is very depressed and desperate.

He has already placed the following to ask for mercy, and he feels that he has made the greatest sacrifice. He is worried that he will not let him go, but he did not expect that Lin Biao will not let him go!

At this moment He also had a kind of sorrow. Originally, their cooperation with Lin Biao was considered necessary.

It seems that it is almost a plot with the tiger, unless they are able to remain uninjured, otherwise, Lin Biao may be able to do it to others in the morning and evening.

Not a familiar person in the end.

The power of the Great God and a sword does not need to wait for the shackles, but also the space that has been covered by the swordsmanship.

The only thing he can do is to let himself do his best to defend the whole body. In this case, even if it is hit, how much may still leave a life.

At this time, a strong sound wave penetrated the eardrum, directly causing him to almost break the eardrum. And in the process of rolling, the body also saw what kind of situation is specific.

Chapter 2290 - 1 read 1 student

A long sword stretched directly from the middle of Count Dracula and the white pheasant. It was not the sword-bearing man who approached it. It was a very long sword that came directly to him.

Just the right one blocked the sword of Lin Biaozi.

After the long sword, such a block, directly let the sword smashed, and the rolling of the great **** finally rolled out farther, which is to escape the scope of the sword.

At the moment he got up, he also saw the situation behind.

The long sword was shot by Shen Lang. He did not come over. It was such a long sword that went straight to the place and blocked Lu Lin's.

From the perspective of force, the longer the sword grows to the back, the more difficult it is to control. The same is the point of the sword, the longer the blade will suffer.

Like weapons like long guns and long sticks, users are holding the middle, instead of just holding one end to attack.

But with such a sword, Shen Lang easily resisted the deliberate blow of Lin Biaozi!

Lin Biaozi is also very clear. Just this time, it shows that the strength of Shen Lang should be above him, even stronger, to be able to do so.

However, his subconscious mind is unwilling to admit it. He feels that Shen Lang is holding a sword and taking control of the field. Otherwise, it is impossible to confront him.

But no matter whether you admit it or not, there is no possibility of getting out of it now.

With his strength, even the last ally has not been there. There is no possibility of turning over.

If you don't want to be humiliated, there is only one way!

suicide?

Do not! It is impossible for him to commit suicide. Even if he is dead, he must go with them and pull the back!

After having this idea, he did not continue to attack the Shen Lang, and did not pay attention to Bai Yu and others, but a large return to the sword, seemingly want to swear to his neck!

And because it was originally controlled, it was shown to be restricted by the field, and the speed was not fast.

What he needs is only a moment of deception. When everyone sees the sword in front of him, suddenly the sword is united and it breaks out!

Lin Biaozi does not want to be a prisoner. Under the premise that his disciples and allies are dead, he will want to commit suicide to retain his dignity. This is actually understandable.

And here is the Qiulin swordsman's far-sighted look, Li Wei they are dead, and his ancestors were forced to commit suicide by Shen Lang, still very able to incite the disciples' emotions.

This factor is also extremely confusing.

But unfortunately, the opponent he is facing at the moment is not an ideal opponent.

If it is the cold autumn and Mo Feiliu, easy to wait for others, naturally it will work, maybe it will go up to save him, not let him commit suicide, there is nothing to say.

But now his opponent is Shen Lang!

He is in the realm of Shen Lang's god, and all changes can be keenly perceived by the slight movements. Therefore, he has a slower movement, and in Shenlang, it is the most obvious flaw.

If it is not to commit suicide, what will it be?

In addition to Shen Lang, Count Dracula and Bai Yu did not have any contact or feelings with him. Not to mention the dog gods, they were all unmoved.

Therefore, his “performance suicide” has given Shen Lang more time to react!

Shen Lang directly sent the idea to the dog ***** and other three, and took out the tower!

He has had experience with the gods, and now he can be more comfortable.

When Lin Biao’s swordsmanship completed the blast, the three of them were white, and under the direction of Shen Lang, plus the control of the field of Shen Langshen, they spread out beyond the normal speed. It is.

And the tower of the tower also promptly presented, showing a super absorbent!

Lin Biao thought he was suicidal, and he could fool the waves.

He felt that Shen Lang might save him, but he did not care about his life and death, but wanted to live and want to humiliate him.

Therefore, whether Shen Lang is pulling him to his side or coming to take his sword in person is the result he wants.

It is of course best to blame the smashing of the waves. It is impossible to kill the two princes and the Count Dracula. It is also a back.

At the last moment, he showed a sly smile.

This ending is the ending he never thought of!

It's hard to come out. It's the first time I'm looking for troubles in the cold autumn. I'm going to whip my body when I die, and then do it again.

It turned out that the disciples of the original disciples all depended on the high and cold autumn, and even their own descendants were also bullied by the cold autumn. They pressed the extreme tyranny of two hundred years and sent them to the Qiulin sword.

After that, I made it clear, and I was driven away. I could have retired, or another achievement, and the result of the robbery alliance.

He came back for Qiu Lin Jianzong, but in those days, he also thought of more possibilities. One of them is to join the robbery alliance and stir up the world!

It is a pity that his plan has not yet begun, and the alliance of the robbery was caught by the waves and the cold autumn.

Then he found that his ancestors were watching in the vicinity, and they got in touch. They all had the idea of robbery, and they hit it off. You don't need to be familiar with it, you don't need to have a good relationship, the purpose is for the benefit, not for making friends.

I did not expect the result to be defeated!

Now that the two disciples are dead, they have no chance to escape the palm of the hand. He has not looked forward to any future. Now he only wants to drag and drop as many as possible.

At the last moment, he knew that he could not see it, but the brain made up a picture like this:

The sword storm after his self-explosion is enough to smash the whole mountain into a powder, which is enough to destroy all the people and things in the vicinity, even if it is the strong man of the realm of the gods.

Shen Lang has the protection of the field, it will not die, the giant beast has a huge advantage of the body, and there will be no problem. But the other two, certainly there is no way to live.

In the distance, Qiu Ling Jianzong will also be seriously affected. This is the gift he left to the sword of Qiulin!

He can't get it, it's ruined together!

This moment, for him, seems to have a sense of eternity.

Throughout the life, it is a magnificent life, it seems to have quickly emerged in the brain. He felt that there was no regrets. When everyone went overseas hundreds of years ago, they did not think that they could still live. The same was true when the Jinyun Palace was holy.

I can still live until now already earned.

Just as his consciousness is about to be lost, everything seems to become more acute. It seems that people like Bai Xi and others have been withdrawn, and they are going to the waves!

He didn't move, Shen Lang found it wrong, and he couldn't pull him over.

Then he saw a tower-shaped magic weapon.

He has a big heart and a heart

But in fact, all his thoughts were only at that moment. The slight time was too late to change. The tower had already inhaled him in time, and then he blew himself up in the tower!

This self-destruction is the great **** that was inhaled into the tower of the tower, including the extraterrestrial demon and the pope, all of which were heavily bombarded, and the surging bombardment, for the tower itself, But it is a great supply!
