

## First Strong 2291

### Chapter 2291 - Emotional balance

Before the Shenlang was outside the Kunlun School, it was already the ancestor of the Great God who used the Shutian Tower to absorb a disintegration.

But the situation at that time was different from the present one.

The great god, already hit hard by him, was traced by the tower of the tower, and was already absorbing his flesh and blood and other fragments.

Therefore, even if the ancestor of the great \*\*\*\* is self-destructive, the power is not so inscribed.

When the blast broke out, all the debris, including the bursting wave, was completely absorbed by the tower, just like a powerful vacuum cleaner.

But this time is different, Lin Biaozi has not been injured, even if it is suppressed, but only attack defense and so on have been suppressed and pinned, and its own energy is not lost.

However, Shen Lang did not wait until he blew himself before he began to absorb it. Instead, he absorbed his whole person into the tower of the tower before the explosion.

This is not caused by the outside world. For the inside of the tower, it seems to have gotten into a bomb. Just after entering the moment, it exploded.

The greatest power is that the shock wave that bursts open that moment has already exploded. It is a broken energy for the tower of the tower. It will not have too much impact on the inside, nor will it have a What role?

But in the inside burst, all the attack power is inside, the first thing is that there is no refining inside, and then spread to the inner wall of the tower, it is like a powerful attack on the tower.

When it was originally called the Ba Tian Tower, it was too much in every respect, and it was upgraded all the way.

Later, the elk that had been in it was made out, and Shen Lang passed his memory and had a better understanding of the situation in the tower.

Originally, it was also guessed that this tower was an ancient artifact that was extremely depleted. It was thought that it was due to the relationship of elemental stones, and the repair was partially restored.

It was only learned last time that the key to the recovery of the tower is that it can absorb the impact.

The more powerful it is, the more powerful it absorbs, and the more it recovers.

Just the accurate self-explosive income of Lin Biao has been brought into it, which is the excellent use, which maximizes his final role. And the heavy blow to those who earn income can also help the speed of refining the tower.

Shen Lang calmly accepted the tower, and there is no trace on the scene.

Others, such as Li Wei's bodies, are swallowed by dog gods. A part of the blood was absorbed by the Count of Dracula.

In addition to the last Lin Biao, there is the ancestor who has been begging for mercy.

He just got out and got out of defense.

Just the blast of the sword of the Lin Biao, he also shocked him. Because the distance is not very far, even if he defends, he will be greatly affected.

He was blocked by the field of God and wanted to fly away, not to do it, nor to dare.

The result is calm!

Shen Lang had a tower-shaped magic weapon in his hand. This was what Lin Biao saw before. The people who robbed the Alliance, because of the limited resources, did not understand what it was.

After they met, they discussed it. Among the seven ancestors, some people recognized or guessed that this is the ancient artifact.

This is even more attractive to everyone!

Because according to Lin Biao's scene, the ancient artifacts are extremely powerful, and they can directly absorb the strong people in the realm of the gods, without any resistance.

However, because Shen Lang has been used twice, it may be greatly consumed, and it is not used later. This is also one of the evidences that they have determined that Shen Lang was seriously injured and was extremely depleted.

Now this ancestor is clear, and whether Shen Lang is injured or not, it doesn't matter. The key is that he still has strong control over the field and can use artifacts.

In addition, these "hands" are so strong and strong, I know that...

It is too late to regret it. He is very glad that he is begging for mercy in time. Otherwise, there will be no him on the spot, not being "eaten" or earning income into the tower.

In the end, what is the situation inside the tower, everyone is not clear, but certainly there is no good life, and certainly will not come out, maybe it is tormented inside.

Thinking of this layer, the ancestor once again bowed down.

"Thank you for the life-saving grace of Shen Dashen! Lin Biao's sin is too sinister. As a person of Qiu Lin Jianzong, he even eats inside and outside, sees forgiveness and forgets the righteousness, does not stand up to resist the robbery alliance, but incites more outsiders to kill. It's shameful to come to the door!"

"I just repented and abandoned the darkness, and he immediately became murderous and directly wanted to kill me. Fortunately, it was a sword of Shen Da Shen's god, which saved my dog's life."

"Then he wants to disintegrate himself. Once he succeeds, his realm, not only the entire mountain will be destroyed, but the nearby mountains, including the Qiulin sword, may be destroyed and hit hard!"

“It is still the sacred \*\*\*\* of Shen Dashen, promptly cleaned up his scourge, saved me and saved everyone!”

He is pleading for mercy, and before Shen Lang has not officially opened him, everything is unknown.

So hurry up and now have life, try to beg for mercy, Shen Lang did not stop, you have to temporarily play, racking your brains to continue.

Lin Biaozi's performance is obviously like a big villain. Others who were killed early and pushed their responsibilities on them will not have much effect.

Therefore, he did as much as possible by slamming Lin Biaozi.

In the distance, there are many disciples of Qiulin in the distance, and they are actually very tangled.

On the one hand, today there are a lot of strong enemies, just one, they all can't cope with it. I have to admire the Shen Lang, and I am grateful to them to stand up and protect the Qiulin sword.

On the other hand, Lin Biaozi is one of the founders of Qiulin Jianzong. He also stood up and protected the division a few days ago.

Therefore, Lin Biaozi's words have a great influence on them.

These two also conflict, making them very tangled.

Especially after the receipt of Lin Biaozi, this is equivalent to Shen Lang destroying their ancestors!

And immediately after this ancestor, for them, it is like the same sound!

Yes If Lin Zushi really cares about the teacher's door, then there is nothing wrong with Gao Zu Shi, is there any other factor, the robbery alliance of more than 20 great gods on the day, he Should be standing out.

The problem has not been solved, and anyone can guess that he has not gone far.

When dealing with such a strong enemy of the robbery alliance, it is Shen Lang and his partners. Now, with the outsiders coming to the door, it is Lin Zushi.

In the near future, Lin Zushi also came to the door once, and then he took people to commit crimes. Isn't he just exploring the real thing?

Lin Biaozi is the emotional connection of the ancestor's identity, but in fact, he talked about it, Shen Lang was obscured from the beginning, and this time he took the lead; the dog \*\*\*\* helped them to do Long Yao and Mu Xiyang earlier; Degu La Count has been playing the role of elder with Xu Haoyue;

This allowed them to finally and have to put the emotional balance on the side of Shen Lang.

Chapter 2292 - Invisible control

The key to this kind of thing is to look at it.

They are not known about the situation behind the scenes, but as far as I can see, Shen Lang is deeply related to Jianzong. This is not the first day, nor the recent days.

And whether it is Shen Lang, or his heterogeneous partners, they have contributed to the Jianzong.

The last time the 20 gods came, it was a fight!

If it is not because of the friendship with the Gaozu Division, the Qiu Lin Jianzong in the district, or the broken swordsman who was once killed, is it worth the trouble?

Now that Lin Biaozi has been destroyed, according to his description of the same party, it is indeed not a good person. Of course, he is completely convinced of Shen Lang.

It's also a matter of worry, and he's not good at explaining it. Just now it's only to stabilize everyone's emotions.

Now listening to the words of the ancestors, paying attention to everyone's reaction, I feel that the emotions have been reversed, and he immediately whispered momentum, so that everyone is ready to welcome them for the triumph of Shen Lang.

Can not be cold, the heart of others!

At this time, the ancestors and the lords were not there, and they all depended on others to protect them.

People have friendship with Gaozu, and they don't have much friendship with their specific disciples. And the high ancestors do not need protection, the most need to protect, is not their weak disciples?

Shen Lang did not speak, and sincerely humiliated the ancestors.

As a ancestor of a famous school, he even joined other people to attack Qiu Lin Jianzong. It is too ugly to eat!

Before I had the ability, I would directly target the alliance of the robbery. That is also a matter of course and righteousness.

If there are many people in the alliance, they will not dare to have an idea. They are waiting to see the swords of Qiulin. They have settled the alliance of the robbery, but they want to rob the fire. This is unforgivable.

Shen Lang is able to know all of their sects. It is only the ancestors who have killed them. They have not been angered by their disciples and grandchildren. They are already very kind.

Death is one of the biggest punishments, and everyone else is dead. This ancestor alone is alive, and he will not accept the lesson if he insults his face.

When there are no more words to say every day, Shen Lang has a slow opening.

“Get up. As long as you are really tempted, not because you are tempted, I can still forgive you.”

When I heard this, the ancestors were as big as they were!

As the ancestor of the famous school, his original face and dignity are extremely important, but it is the hardest time to let go of the first time. When it is put down, there is nothing difficult.

Just let him beg for mercy because of the fear of death.

It's already squatting, and it's nothing to squat again and ask for mercy.

Not to mention that Shen Lang also saved him, it is twice, this is a reasonable factor of self-comfort.

So he just said it out with a slap in the face, and he didn't feel uncomfortable at all. Now Shen Lang said that he can forgive him. He is also relieved from the heart and will not feel ashamed.

“I am really just being tempted. I am very respectful to Shen Dashen and Gao Laozu. I have respected you before I met. I can also offer all of our teachers... ”

It's just a slap in the face. “Can forgive” does not mean that it has been formally forgiven, so he quickly hits the iron and does not get up, or keeps bowing to express his sincerity.

“Okay, I will spare you a life, because you are going back in time, I don't want to annex your martial art, I don't want you anything.”

When Shen Lang waved his hand, the old ancestor was immediately controlled.

Waving is the show for the distant audience. Otherwise, the other party does not resist. In the realm of God, Shen Lang wants to let him know, just a thought.

The old ancestor is excited!

Shen Lang just said that it was to lift him up, and also directly expressed his life, this hanging heart, finally put down. And you don't need him to offer the resources of the teacher!

"The cliffs and horses", "in time to turn back", these two comments, let him decisively ask for mercy, very gratified.

"My life is yours, as long as there is a need, no matter how dangerous, how difficult, I will not frown!" He immediately stated.

Anyway, it's just a beautiful word. If you say it again, it's a thing of the future. It is now safety first. He does not feel safe without leaving here. Or even if the life is back, you may not be free.

"Go!"

"what?"

Shen Lang will let him go. In his opinion, it must be because he is alive, he is worth more than death, but this premise is to be controlled.

He is also prepared to see how Shen Lang controls him. If he only expresses his position and swears, then of course it is the best.

I didn't expect it to be so simple, he hasn't swear yet, let him leave!

He is a bit skeptical if he is wrong.

"What? You don't want to go? Please also invite you to Qiu Lin Jianzong to entertain?" Shen Lang snarled.

"No, no, don't dare to work, I, I am just..."

The old ancestor smiled, he just couldn't believe that Shen Lang would let him go so easily!

Shen Lang does not control him personally, nor asks his teacher for the benefit of revenge. This in turn makes him just let go of his heart and squats again.

This must be fraudulent!

But he can't say where the scam is, and Shen Lang plans him.

"I want to follow you..."

The weak one said such a sentence, his heart is still empty.

At this moment, I hope that Shen Lang promises him, then I can feel at ease, without suspicion of others; but that is equal to losing freedom, and I don't want to follow Shen Lang like this.

"You want to follow me, I have to accept you? Not rare, let's go!"

Shen Lang frowned, a little impatient.

In the status of the ancestors, who wanted to follow others, they were dissatisfied and disqualified, and they were also accused of "rolling". It was extremely uncomfortable in the face.

But this time, he is inexplicable pleasure!

It seems that Shen Lang really has no conspiracy, this is disdain to engage him!

"Thank you for Shen Da Shen! I will roll it..."

After he finished, he bowed and then quickly left the mountain.

In fact, even if this is the case, at the moment he left, he was still worried, for fear that Shen Lang would use the tower to collect him at the back of the until he left, a heart is considered to be Let go of it, then dare not stop at the slightest, continue to go to the distance, far away from the Tangcheng area!

Today, he is alone, and everyone else has been ruined. It is up to him to tell the story.

Of course, he dare not arrange anything, but for his own experience, he can be diluted and beautified.

“Just let him go?” On the top of the mountain, Count Dracula asked Shen Lang.

“Let him live more value.” Shen Lang said faintly.

This value is not necessarily specific, absolute strength, plus Enwei and Shi, and let the other side suspicious, this is the invisible control. He will naturally want to tell the best version of the story, so that others can dispel the sorrow of the cold and autumn.

Chapter 2293 - After the horse

Tears, the first few chapters are all chaotic...

Earl Dracula originally reminded Shen Lang.

He still knows a little bit. The eastern country on the earth, worshipping is a big gift, a good way to express sincerity, so I am afraid that Shen Lang is confused.

Since Shen Lang understands this situation, he has nothing to worry about.

As for the white pheasant and the dog god, it is totally unrelated. If Shen Lang is arranged, they will do it. It's good to think about everything, and they don't understand it.

Solved the problem here, everyone returned to Qiu Lin Jianzong.

The disciples of Jianzong, under the leadership of Yiwu, warmly welcomed them and expressed their gratitude and support.

However, Shen Lang is clear and clear, except for the easy to be unscrupulous, other people are enthusiasm for strong outfits.

He did not pay attention to it. In the end, Lin Biao is their ancestor, who can pass the psychological barrier. It is already the complaint of the former ancestor, let them accept Lin Biao's eating and drinking.

It is almost impossible to reverence to the extent of the power of faith. It is not bad to not hate him.

Other things are still handed over to you.

Shen Lang also manages big things. For example, today, Gao Hanqiu and Mo Feiliu are not there. It is not timely enough to wait until they leave the customs.

Not to mention the news, but to lose the shock to the little ones.

However, the communication token of Gao Hanqiu was also placed here in Shenlang, so it was released by him.

He published this information directly in the public passage in the name of Gao Hanqiu.

Directly said that there are a number of ancestors of the great realm of the realm, the group came to Qiulin, and wanted to rob the fire.

This time, there was no personal shot in the cold autumn, but it was only shot by Shen Lang, and there was no first captive and then dealt with it.

When everyone is in the same way, they don't even sit down. They don't want to go to the relevant sects, they don't kill them, they want to retaliate, and they hope that these sects will do their best.

This information is passed out in order to give other people with awkward heart an alarm and let them be self-respecting.

Therefore, the wording is strict, and they do not hide these sects. They are famous people who can receive information.

But there is no direct naming of which martial art, so as not to directly tear the face.

Shen Lang is not afraid to tear his face with any of them, but he represents the high cold autumn, you must think about Qiu Lin Jianzong.

Before the situation in Tangcheng, they have already eliminated all the forces in Tangcheng. What about these big names? Are the seven sects also annihilated together?

It is not impossible to do it. Even if it is a cold autumn, it can kill all seven of them.

But if you really want to do it, it will become a public enemy!

Again, these famous schools are deep-rooted and deep-rooted. Everyone has coexisted for thousands of years, and all aspects have reached a harmonious balance.

Even with local friction, a small range of personal grievances will not affect the unity of the general direction. Unless someone can subvert all the famous schools at the Yaochi event level, otherwise it will inevitably usher in a boycott.

The current robbery alliance is such a existence. Only Qiu Lin Jianzong has not received deep recognition from everyone, and they will still have to fight.

Qiulin Jianzong has been able to kill the alliance of the robbery this time, and has been able to get the respect of everyone and prove the strength.

But the huge benefits still make many people want to destroy them! Perhaps not every martial art will act, but there are certainly other sects who know or guess, but will not come to assist Qiulin.

This time, killing all of them in this unrelenting manner is the real thing that makes these old aristocrats tremble!

What is the history and the depth of history?

After all, I still want to speak with contemporary strength!

In the long river of history, there have been many long and powerful martial art, and it has already vanished.

Now the Qiulin swordsman, how history and strength, do not need to judge, we only need to know a little, there is the cold and cold autumn dominate, plus the help of Shen Lang, is free to destroy any of their martial art!

Two, three, four... can be.

This is really a good thing.

When Shen Lang sent the message out in the cold autumn, someone soon began to respond.

Everyone seems to have never heard any rumors before. It is very “shocking” for the fact that there are sects who want to smash and blame. Then they condemn these sects and express themselves without implicating them.

The related sects are of course shameful and embarrassing.

Because they are equal to being pulled out to show the crowd.

However, others have not named them, it is already a slight face for them.

Of course, this is the communication token in the hands of the head, in order to know. There are also some because the token is on the ancestors, directly swallowed by the dog god, and do not know the specific situation.

Out of such a thing, in terms of reason and morality, they are in a loss of power. If they dare not say anything, they must also condemn themselves with others, so as not to highlight them.

They will really be self-sufficient in the future, let alone find Qiu Lin Jianzong revenge, even if the cold and cold autumn is not awkward, they have to guard against other martial art will annex them.

Without the guardian of the great gods, you must be careful to survive and spur the great gods as soon as possible, or else it will die for a long time.

Shen Lang can predict how it will be, and it is necessary to maintain a bad attitude. Anyone's response, whether it is solidarity, condemnation or condolence, will be ignored.

These are all after the horse!

If the Qiulin sword is destroyed, it will be destroyed, and no one will jump out to preside over justice!

He did not pay attention to the public passage, nor did he view the private passage information of the Alpine Autumn Token.

But his own token also has a private letter...

He knows that he will be in contact with him, except for the cold autumn, it is snow, so he checked it.

As a result, private letters came, but it was not snow, but another person.

The great ancestor who just let go!

That guy is the ancestors of the Snow Mountain School.

Because of this world, huge mountains more than 10,000 meters abound, snow mountains are not rare, so only their family called the Snow Mountain.

The token of Shen Lang, which belongs to the Ginkgo Valley, was obtained from the Elk.

Many sects were originally associated with Ginkgo Valley, or with elk. It's just the end of the elk. Everyone guessed it. I guess this is in the hands of Shen Lang, so I dare not contact any more. It is.

Only Xue Fei and Gao Hanqiu and Shen Lang personally contacted.

The relationship between the Xueshan School and the Ginkgo Valley, the elimination of the elk and the elk is good, and there is also this personal contact.

After the escape from the escape, it is clear that I also saw the information sent by Shen Lang in the name of Gao Hanqiu.

Therefore, he hurriedly contacted Shen Lang in private. On the one hand, he thanked him once again, thanked his men for not loving him, and thanked him for not being named, so that the Xueshan faction would not be nailed to the shame column.

This is the case, private default is one thing, public display is another matter.

And he was so let go, always unreliable, so I would like to offer a confidential message!

Chapter 2294 - Capture 0 flower fairy?

Can not say the psychological peculiarity of the extinction, according to the normal logic, others are dead, he let go, and did not let him pay a price, this is not normal, it makes him unable to peace of mind.

So after reading the information, he and the Xueshan faction did not burst out, and no face was lost, it was a great blessing.

In order not to owe the waves, he took the initiative to find and provided a confidential information.

He feels that confidential information, of course, may not be of any value to Shen Lang, and may even want to hang him!

Shen Lang will not think that he has let go of the other party, the other party will really be grateful to Dade.

But out of curiosity, he also carefully looked at the information sent to the end.

The elimination of sending a few messages, expressed his so-called confidential information.

What surprised Shen Lang was that it was related to Baihua Fairy!

According to the end, the situation is very chaotic. In addition to the chaos of the robbery alliance, there are several sects. It is said that it is known that the appearance of the flower fairy is ready to be taken down!

The mysterious flower is always mysterious. It is the Kunlun faction that is very close to Caohai, and there is not much to deal with.

The last time Shen Lang and Kunlun sent Zizu ancestors across the grass sea back to Kunlun, in one of the places where a hundred flowers deep, met a hundred flowers fairy.

At that time, it was the inexplicable induction of the wheel of the heavenly machine. A strong touch made the Shenlang stop.

At that time, the Zizu ancestors were in a good posture. The Baihua Fairy looked at the Kunlun School and gave them a bottle of nectar. Then, before leaving, I felt that Shen Lang had a special taste, and she said that she was not clear.

In addition, Shen Lang was sent a sachet containing flowers and seeds, saying that he might see you again.

After the separation, from the ancestors of Zixiao, Shen Lang knew the origin of Baihua Fairy.

In the words of the scorpion ancestors, it is the existence of “almost close to God”!

It is said that there is a great \*\*\*\* ancestor, because the collection of exotic flowers and grass, spoiled the sea of flowers, was directly broken into powder by the flower fairy, and turned into the nutrients of the flower field!

That is what the Kunlun School’s ancestors saw with their own eyes, so they must not be tempted by the disciples’ disciples. Spreading out, also let Baihuamen become famous, and some people have encountered a hundred flowers fairy in Caohai.

In general, Baihuamen has always been a mysterious existence. Basically, there may not be someone who can meet the last time. This time someone encountered it. The next time someone encountered it, I don’t know if it was the same generation.

Of course, many people are legends.

But whether you believe it or not, for some legendary things, you will still be fascinating, such as the Cloud Palace Holy Land.

Putting an end to it does not say the specific time and place, because he knows so much.

If the non-flower fairy is very mysterious, he can't provide this as confidential information.

But specifically, which martial art jointly arrested the Baihua Fairy, he could not directly say it, and perhaps it is not very clear.

Just like this time, their actions have been known and guessed by some ancestors, but there are several sects, and which sects are not necessarily clear.

In this underdeveloped area, it is possible to provide a piece of information that has great value, so that many people can grasp the opportunities and don't expect to get all the information.

Put an end to this clue and let Shen Lang think about it.

The meaning of his message is obvious, so that Shen Lang has the opportunity to participate. Shen Lang may not have enough face, but with the cold autumn, it is definitely enough.

Gao Hanqiu can also find out the specifics, they can participate in the past, just like the previous Yungong Holy Land.

More than two of them, the other party's grasp is also greater, it can be regarded as a win-win situation, put an end to themselves, there is no chance to join.

But for Shen Lang, he wouldn't want to arrest the Baihua Fairy. The question now is whether to save the Baihua Fairy!

If you talk about friendship alone, he and Baihua Fairy are just one side.

But from the legend of Baihua Fairy, there is no one who can see them once in a hundred years. Even if they can see it, it is a fate.

And on that day, the family was very friendly, and sent him a hundred flowers and nectar, and also sent a special sachet.

In addition, his round of the special plane will have a special hunch, and the Baihua Fairy feels that he is a bit special, so that everyone still has some kind of connection.

Hundreds of flowers and nectar, the purple ancestors said that it is the level of heaven and earth, and Shenlang has not used it.

However, the sachet sent by Baihua Fairy was originally a commemoration, and did not feel any value. The seeds of the flowers inside, even if they are very good flowers and grasses, he does not need it.

I once thought about it, if I don't want to bring it to the earth, I think that the more the treasure is, the more it consumes the aura, and the aura on the earth is already very bad.

Later, in the Qingqiu period, Bai Yu wanted to exchange his sachet with the best bluestone. After the experience, Shen Lang chose to exchange with her.

Now the sachet of the flower fairy is where is the day.

As for the intersection of Bai Bai and Bai Hua Xian Zi, Shen Lang did not ask.

After thinking for a moment, he immediately called the white singer and asked to ask her to see what they were.

Because he is a bit tangled now.

In the daily state, he will not participate in anything, but will choose to go to the grass sea, perhaps people can solve these enemies easily, after all, this is almost the existence of God.

If necessary, he is also willing to help, it is still a human condition. Last time he just returned a photo, even if it wasn't there, but he knew the value of geometry.

Tangle and then, Gao Hanqiu and Xu Yuyue, Mo Feiliu, still retreat in the space of Tianshu. If he is gone, who will protect the Qiulin sword?

In theory, no one should come to death, but I am afraid of it.

"Master, are you looking for me?" Bai Hao came over quickly and asked seriously.

If it is not really something, Shen Lang rarely calls her.

"When I saw you in Qingqiu, you insisted on trading a hundred flowers with me..."

"Do you want to go back to the sachet?" Bai Hao was a bit embarrassed. Everyone was strange, and they were wary of each other, and they traded purely. But now it is different, whether it is nominal or her own psychological, Shen Lang is her master.

If she wants to get back now, she really can't refuse.

Shen Lang shook his head: "I am not going to ask for it. I want to ask, what is the intersection between you and the flower fairy?"

"Ah?" Bai Hao was a little surprised. I didn't expect Shen Lang to want to ask this.

"Your appearance is changed according to the flower fairy. I knew it from the beginning. Now it is a hundred flowers fairy who may be in trouble, and I am only a side of her, so I want to hear your situation, then See if you want to help."

Shen Lang directly said.

Chapter 2295 - White fairy

When Bai Hao heard the trouble of Baihua Fairy, he couldn't help but move, and there was no concealment. He began to tell the story of 151.

Can make her unprepared, of course, because she has been with Shen Lang for a long time, and has some understanding of him.

It turns out that the reason why Bailu can become a talented nine-tailed fox is because of the point of the flower fairy!

Before the specific time, she also said that it was not clear, because it was calculated differently from humans.

Probably when she was young, she and a group of friends came out from Qingqiu and then met a human.

Being able to come to the Great Wilderness and go deep into the wilderness to the Qingqiu area, there is no strong strength that can't be done. Coupled with the deterrence that human beings manifest, it is also very terrifying.

At that time, all the fox family partners were all desperately running away, and none of them took the day.

She was the youngest and the weakest at the time. Everyone intentionally or unintentionally took her as a victim!

The fox family has also been taught since ancient times, saying that humans will hunt down the foxes, take their inner dan, drink their blood, and lick their skin.

This human being appears near Qingqiu, can there be other intentions? Naturally want to hunt fox!

If there is a bottom, humans will hunt first. For other foxes, it will delay a little time and let them have a little more time to escape.

At that time, Bai Yu became this abandoned child and became a victim of delaying time for the little friends.

Of course, she also heard about the ferocity of human beings from an early age. All elders used the Terran to scare young people, far more than other aliens.

At that time she was crying desperately, very fearful and scared. But no matter how screaming, no other partners lend a helping hand, everyone is desperately rushing back to Qingqiu.

When she feels that she is in the hands of humans, it collapses!

In her young heart, there were various \*\*\*\* pictures, including being bled, being licked, and being smashed...

At this time, she felt an unprecedented love!

With the palm of her hand, she felt a warmth coming into her body, which calmed her down quickly, without collapse and no panic.

Then she turned her head and saw a beautiful face.

This human being who made her desperate and fear told her that she is a flower fairy, and that she is going to the wilderness, just looking for exotic flowers and plants, and will not kill the foxes.

Probably seeing that there was fear in her eyes, and appeased her, and with the caress, there was warmth flowing into her body.

Waiting to confirm that she was not scared, the Baihua Fairy put her down and left.

Perhaps the Baihua Fairy has the idea of going to Qingqiu to find the seeds of exotic flowers, but the little foxes reacted in horror, and the white cockroaches almost lived to be scared to death, let her hide, and did not go to Qingqiu.

Although Bai Hao only saw the face, but will never forget this to give her the warmest human being when she is most desperate.

The figure that the flower fairy has left is also deeply imprinted in her mind.

Returning to the Fox family, her talents began to show up. The longer they grew up, the more obvious they were. At the end of the age, they cultivated to the end.

She is very clear about herself, and she is by no means a gift!

Otherwise, she will not be the weakest one in the small partner, and it must be related to the warm current that the flower fairy sent her.

Perhaps she was injecting energy for her at that time, but she wanted to appease her, but because the flower fairy was so powerful, the two warm currents directly transformed her body and made her talent far better than other foxes.

Bai Hao did not say to other foxes, except the patriarch.

After she showed her extraordinary talent, the patriarch personally taught her and even cultivated her as a future patriarch.

Bai Hao also told the patriarch about this layer. The patriarch did not understand the specifics. It was only her creation. She had this singularity and met a good person and met the fairy.

The fox-like friends of the same age think that she is because of her good talents, she is favored by the patriarch, and her strength is higher than that of everyone. Therefore, she is far away from everyone, thinking that she is proud to see everyone.

Only she knows it because the shadow of childhood was too deep!

When faced with danger, no one pulled one, and they all wished to sacrifice her to delay the escape time, so that she could see through it early.

How fearful and desperate at that time, how strong the comfort and warmth that the flower fairy gave her.

Therefore, when she can be adult, it is naturally based on the flower fairy. However, it was only seen in childhood, even if it was impressive, it would be embarrassing for a long time.

This is why Shen Lang feels like a fairy, but it is a little different. Because clothes, shapes, and appearances can all be illusory, but the expression is difficult to simulate.

Therefore, when she saw Shen Lang, she did not have strong hostility towards the Terran. After she perceives the breath of the Baihua Fairy, she has a special feeling.

It is precisely because of this that the patriarch let her follow Shen Lang as a waiter, she is also willing. Because the fox family has long let her not hope, but to the mouth of the cruel human beings, let her more affectionate.

The patriarch will have this decision. It seems that the decision is the same as that of Snow and Snow. It is to get the benefits of the white squatting with the side of Shen Lang.

But in fact, it is because of the leading edge of the flower fairy!

Because of the sake of the Baihua Fairy, the genius of the current fox genius was created; and the body of Shen Lang was a token of a hundred flowers fairy, so the patriarch concluded that this would not be a bad person.

The white pheasant has brought back the remains of the ancient ancestors in the Dragon Valley, and has made great contributions. She is still so young, she can have a lot of things, she can let her go out and take a trip.

In the event of an organic relationship, with a white glimpse and goodbye to the flower fairy, the white pheasant may be another creation! In the long run, the stronger the day, the more powerful it is.

The same is true of the day, and her heart is also hopeful to follow the Shenlang. One day, I will see the fairy flower again Of course, her thoughts will not be as ambivalent as the patriarch, just want to express her gratitude. The stronger she is, the more clearly she is. Without the energy given by the flower fairy, she is the ordinary fox.

When I heard the information of Baihua Fairy from the mouth of Shen Lang, Bai Hao was actually very excited. And may be related to trouble, she did not dare to conceal, all of the 1510 is with Shen Lang and the disk.

After listening to the story of Bai Yu, Shen Lang has already had a care.

At first, everyone was just an adventurous partner, and the separation was separated, but after the day was arranged to follow him, he was also doing his best. No matter whether it is the service of daily life or the needs of various battles, there is no problem.

The last time I went back to Earth, I also sent her back to Qingqiu, but even if she didn't know when or maybe she would return, she stayed in Qiulin and asked him to make Shenlang feel impeccable.

Chapter 2296 - Logical trap

So now, it has already been regarded as a person.

He has a good relationship with Baihua Fairy. He is willing to help him, but that is not enough to let Qiu Lin Jianzong go to help. After all, this is a small high school, and has been hit hard once.

Now that I have heard the words of Bai Yu, I know that she and the Baihua Fairy have a good relationship, which is different.

For the Baihua Fairy of the year, to appease the little white fox that is going to be scared to death, it is just a matter of raising her hand and turning her head and forgetting.

But for Bai Yu, that is the change of life! Without a flower fairy, there would be no her present. Naturally, there will be no encounters with the waves, and it is impossible to have such strength to help.

In this way, Bai Hao is definitely going to help, Shen Lang himself plus white, should also help.

But even if the weight is heavier, how to coordinate the safety of Qiu Lin Jianzong is still a problem.

“Master, you said that the flower fairy is in trouble, what is the trouble?”

Bai Yan saw that Shen Lang did not speak, could not help but ask, her meaning is obvious. I had the chance to go to see the flower fairy, let alone the trouble, and it is even more necessary for her to help. It is a good opportunity to repay.

“I have arrangements, you will wait a little longer.”

After Shen Lang sent the white shackles, what used the communication token to send a message to the Xueshan ancestors, and further asked them how to arrest the flowers, how many sects there were, and when.

After the message was sent to Shen Lang, he was waiting for his reply.

He thinks this is a confidential message, but he does not know that people can't see it. If you can see it and have value, then he can be relieved.

If Shen Lang can't see it at all, or feel that it is playing with him, it will be even more troublesome.

So he is very anxious now, I don't know how Shen Lang is an attitude.

Finally, I saw the information of Shen Lang back and let him breathe a sigh of relief. No matter what, no misunderstanding and ignorance!

After carefully reading the information, he was more reassured, and was able to further ask specific clues, stating that Shen Lang is paying attention to this confidential information.

But the problem is that the information he gets is limited. If you can't provide more valuable information, wouldn't it make you feel bad?

just.....

To put an end to it is not one of the partners invited by others, he can not know so much insider. It is also because this time the seven ancestors gathered, and when everyone exchanged, there was no mention of this information.

The person who said it also heard about it, and did not give a specific source of information. It may be word of mouth, or it may be a rumor.

Just answering does not know, Shen Lang is certainly not satisfied; for the content that does not know, compile an answer, once found to be inconsistent with the facts, Shen Lang will be even more dissatisfied.

However, when he was anxiously waiting, he had already considered these words, so he quickly replied to Shen Lang.

He made himself look as sincere as possible, and then telling the truth, they are here to come to know this information, and they did not participate or understand the specifics.

But from his point of view, there must be a solid clue. In order to have a long night dream, you must start as soon as possible. And the desire to move the legendary flower fairy is not a two-door genre can be completed.

Daxian and Daxian Peak are unbearable, and they are qualified to play. It is very likely that they are like the gods, so it is estimated that at least six or seven ancestors will work together!

From his wording attitude, it is estimated that this should be true, and Shen Lang will ask one more question. He did not expect him to have too much material.

The analysis that is eliminated is similar to his analysis.

The Baihua Fairy, which is the ancient ancestor of the Kunlun School, is almost close to the existence of God. Even if it is only the generation of the flower fairy, the Baihua Fairy of the contemporary Baihuamen may not have this strength.

However, Baihuamen has hundreds of thousands of miles of yarrow sea, and the resources are also very abundant. Another pulse is single-passed, and it is not inferior to the ancestors of the general sect.

If you want to capture the flowers and fairy tales, you will get all the resources accumulated by Baihuamen. It will not be easier than attacking the Qiulin swordsman who has useful cold autumn. Six or seven ancestors may still be underestimated.

However, before the Yungong Holy Land died, the emergence of the robbery alliance, the changes of Qiu Lin Jianzong here, they have seven sects combined with Lin Biaozi.

At such a point in time, it is difficult to pull more people into it.

Just the six or seven great gods in the district, the Baihua fairy should be able to solve it easily?

But the key is information asymmetry!

The alliance of the robbery alliance and Lin Biaozi and the elimination of others are all due to information asymmetry. The serious mistakes made by Qiu Lin Jianzong will lead to a comprehensive disintegration.

Shen Lang still attaches great importance to information and intelligence. Be careful when you are unable to confirm.

Nowadays, the information about their group is based on conjecture, and it is also his analysis and speculation. There is already a bias, and there is nothing more to know about the situation in the flower fairy.

What is the 10,000-flower fairy because of serious injuries?

They dare to read, certainly not only because they found traces of the activities of the flower fairy, but may have something to make them feel confident!

Shen Lang has no need for more analysis, he decided to go for a trip!

Gao Hanqiu and Xu Yuyue, Mo Fei flow them, but still continue to retreat in the space of Tianshu.

What needs to be arranged now is the safety of Qiulin Jian!

After two rounds of attack, before and after the addition, almost 30 ancestors of the Great God level committed, and they were all cleaned up one by one.

This is undoubtedly a very brilliant battle. There is no problem in the history of the history.

Including the elimination should also spread a version out, let everyone realize the power of the cold autumn and the deep waves.

But the problem is that people always fall into the “logical trap”!

Their seven sects, including Lin Biaozi, are coming again because they are logically speaking, they are able to deal with the alliance of the robbery, which is weak and strong, and less wins. It is very expensive and heavy.

So they can rob the fire As a result, their bonfires were robbed and they were dried up again.

What about other people?

It would have been more prudent to think that Gao Hanqiu had been ruined by the tyrannical alliance, so it did not appear again; and after dealing with the seven and eight of them, should they be miserable?

This time, there is no audience. Except for being put away by Shen Lang, no one can see it with his own eyes. It is even more suspicion.

The endangered version will definitely benefit him and will also tout Shen Lang. But in the eyes of others, if you don't work well, you will feel that Shen Lang has exhausted and you have to let it go! Maybe even what agreement was reached!

Under such a premise, it is very likely that there will be some people who have no intentions, and they will be jealous of the Qiulin swords after two rounds.

Chapter 2297 - Back to the grass sea

These are just analysis, and there is no accurate information, but it cannot be prevented.

The decision of Shen Lang is very simple – the soldiers are divided into two ways!

The white pheasant is definitely going to see the flower fairy. If the sun is not going, it may not be found.

In addition to the two of them, Count Dracula and the dog \*\*\*\*\* can be left to guard.

However, Shen Lang decided to leave only one of the Counts of Dracula and bring the dog \*\*\*\*\* together.

Because he decided to leave the token to the easy.

With a communication token, it is easy to pass information to him at any time. After he receives it, he can return it at the fastest speed through the door of the Three Realms.

Easy to grasp, Shen Lang can return quickly as long as it is not in danger.

So there is no need for Count Dracula to be a manpower to turn the tide. It only takes a few seconds to support it. This is certainly no problem.

As for him to bring a dog god, of course, for a more powerful combat. After all, there may be enemies on this side, and there must be enemies there!

After making the decision, Shen Lang directly sent the idea to them and made arrangements for the deployment.

Although he did not elaborate on what was temporarily left, everyone naturally followed his arrangement.

Count Dracula did not feel that he was left alone and would feel a little bit lost. He felt that this was enough trust for him and his confidence in his strength.

The dog \*\*\*\*\* does not need anything, how does Shen Lang tell him how it will be executed.

I don't want to come over in person. Shen Lang gave him the letter of communication for Gao Hanqiu. This is the representative of Qiu Lin Jianzong. The specific connotation does not need to tell him so much. He only needs to let him I know how to communicate with Shen Lang alone.

It's easy to try to give a message to Shen Lang's message. He can also receive the message from Shen Lang, and he is relieved.

As for whether Shen Lang can come back in time, he is also full of confidence.

And in his feelings, Gao Hanqiu, they are all retreating in the back mountain abyss, when they can't hold it, they will definitely break out.

After so settled, Shen Lang will not wait any longer.

If you know the specific place, the opposite is a prepared battlefield. If he goes directly, then he can take advantage of the key points.

But he didn't really know the exact time and place, he could only go to Caohai and start searching.

In the Cao Caohai, hundreds of thousands of miles away, Shen Lang had a purple ancestor leading the way, and only took a route, it was not enough to completely step through every area.

No one knows where the Baihuamen are. People are small and large, so they may not be able to bump into outsiders for decades.

In the absence of more information, Shen Lang can only rush to the past, try to search for a little space.

He brought the dog \*\*\*\*\* and the white pheasant and sent it directly from the Qiulin sword to the Caohai.

The place where he was positioned was the place where he saw the fairy flower before.

This is not his superstition of past experience, but there is no clue, only to come here first.

From the place where they settled, looking around, it is a boundless feeling, and the eyes are full of flowers, as if connected directly to the sky.

Bailu used to live in Qingqiu. Qingqiu is in the vast wilderness. It is a bitter cold. On the whole, everything is much worse.

Now suddenly in the sea of flowers, the environment also gave her a surprise.

The dog \*\*\*\* has the world of giant beasts, an infinitely broad territory, and it is nothing to it, but so many flowers, it has not been seen.

And they can all feel it. These flowers have an extraordinary aura, no matter the year or the effect of the medicine.

The white stork will have a romantic feeling of being in the sea of flowers, and the dog \*\*\*\* has the imagination of cow chewing peony. If all these flowers are smashed, it is also a good appetizer!

“These flowers are all taken care of by the flowers and flowers. Everyone should try not to trample on them, and don’t deliberately destroy them! Otherwise, the flowers and flowers will go out and you will be destroyed!”

Shen Lang bluntly confessed a sentence, lest they be inappropriate.

However, the dog \*\*\*\* did not mean a word, but gave him a thought.

“If you destroy these flowers, the flower fairy can appear. Isn’t it much easier to find it?” The dog \*\*\*\* gave a suggestion directly.

A “destructive suggestion.”

Shen Lang thought, it seems a bit reasonable.

According to the legend, if the big cockroaches destroy a large area of the grass and flowers, the flowers and flowers will be noticed.

Now where she is, there is no clue at all. The last time I met here, but it was a completely random route. I didn’t know the scorpio ancestors. I was not sure if the flower fairy was still nearby.

If you look for it now, which direction is not clear in the northeast and northwest, you may go out very far in that direction, and the farther you extend the larger area.

By doing damage, let the flower fairy come to the door, it seems to be a faster way.

However, Shen Lang is here to help, not to find fault.

According to Zi Zi's ancestors, Baihua Fairy is extremely caring for Huahai, even if it is for her good, this will make her feel bad, and she may not believe what they said.

It is obvious that she also thought of this. She is admiring the love of God for the flower fairy, and naturally does not want to do things that make her unhappy.

"I will try it."

When she spoke, she had already taken a rare bluestone.

The last time I searched for the robes of the Longmen, the technique of the white sapphire and the technique of the Qingqiu stone was a great achievement. Later, Shen Lang learned it.

However, Shen Langxue is using the method of Qingqiu stone, which is based on his own characteristics. It is not the original method of Qingqiu So for the advice of Bailu, he also nodded immediately.

Her bluestone and green hills spells should have a better effect.

However, Shen Lang did not have the light to make her alone, and he himself used the wheel of the universe.

The last time I just passed by here, the wheel of the sky has a strong sense, let him stop.

Generally, the wheel of the special plane will only spontaneously predict the reminder when it encounters great danger. Otherwise, it is necessary to take the initiative to use it to predict, and it is better to have a directionality in order to more accurately predict the target.

Since the Baihua Fairy can have special characteristics, maybe the wheel of the heavens can predict her whereabouts!

Looking at the reaction of both of them, there is no doubt whether it is the advice of the dog god. It doesn't care too much. Anyway, it is already eating very full. These exotic flowers are just like eating vegetables after the big fish.

They are busy, and the dog \*\*\*\*\* is paying attention to the surroundings and be alert.

Chapter 2298 - 0Rika

Shen Lang uses the wheel of the heavenly machine to predict the direction of Baihua Fairy, and actually has a general direction!

The wheel of the celestial plane can be very specific. This is what Shen Lang has already experienced. For example, even the elk's hiding place was predicted.

But that is mainly because of danger!

Shen Lang's strength at the time was not as good as that of the elk. If they were ambushed by them, they would probably die. So under such a difference, when he keeps his predictions and vigilance, he accurately marks out the dangerous enemies.

However, the wheel of the celestial plane does not know who it is. It only knows that this position is dangerous. Others are speculative.

The last time I felt suddenly here, there was no danger. I just thought that I would meet someone, and it was not clear that my friend was an enemy.

But then again, since the wheel of the celestial plane can be targeted and specific, it is not surprising that it will be known as long as it is proactive.

"No... no one has been here recently."

Bai Hao also completed her perception, which made her a little annoyed.

She used the mysterious technique of Qingqiu and the best green hills to perceive what happened in the past. It was a while. If she manipulates it, it will be longer than Shen Lang can perceive.

But the premise is that there is not much change in the scene!

This is in fact the same as the police detective recovery case.

If it has not been destroyed, the most common is to extract traces such as footprints and fingerprints. Just like if you are on the sand, ordinary people can see the footprints.

And if the crime scene is washed away by the rain and carefully wiped, it is likely to erase the traces.

Their perception of using spells is the same. If a person stays here, it will leave a weak trace. The higher the realm, the shorter the interval, and the more clearly it can be perceived.

The day is able to make this situation more clear, realistic, and longer.

But the premise is that the scene has not been destroyed.

Just like the former gantry black robes, there are no other people who have set foot in the past, it is a place to pass, so even if it has been a long time, there are traces left.

However, if there are thousands of people moving around every day, such as train stations, airports, shopping malls and other places in the bustling metropolis on the earth, all traces will be disordered. It is extremely difficult to restore them.

Shen Lang thinks that this is the same.

White enamel can't feel it, maybe it's not been the recent flower fairy, but there are other possibilities.

For example, the segment of the flower fairy is too high, has already converge very well, will not leave any traces; or the traces left by her, it is the level of white 也 can not be perceived.

For example, this large piece of flower sea, all the exotic flowers and plants, seems to be spiritual, both energy absorption and energy production, which will also interfere with the environment.

“It doesn’t matter, I perceive a rough.”

After Shen Lang finished speaking, he took them to the direction of one direction.

The dog \*\*\*\*\* and the white donkey are not surprised at all. No matter how amazing the Shen Lang is, it seems normal to them.

Shen Lang took them to fly above the sea of flowers, this walk is a thousand miles away!

Originally, I only saw what I saw. The flower sea may be dozens of miles or hundreds of miles. It’s so big that it’s so big. But now that it has flown a thousand miles, it is still above the sea of flowers, and it can be seen that it is huge.

The same can be seen in the scope of this grass sea!

Not before, Shen Lang has felt a special atmosphere in front.

In the depths of this vast sea of grass, in this large piece of exotic flowers, it is a valley that is sunken.

Inside the valley, it is also full of exotic flowers. Compared with the entire continuous flower sea, the flowers in this valley are not at all a level!

This gap is not the difference in breeds. After all, this is a sea of flowers that is not on the edge for thousands of miles. There are countless flowers and countless varieties.

These flowers are also very vintage in nature, and they can be used for alchemy and medicine.

But in this valley, every plant is a wonderfully chosen one. It is both a treasure and a long year.

For example, like the nine times of Zijinlian, this is really the nine-time peak, thousands of years of efficacy, and in this valley, it is not the stars to hold the moon, just plain and unpredictable existence.

More exotic flowers and plants, Shen Lang is completely unable to name, and can not see the specific effects of the drug, how many years have been specific.

The special breath comes from this.

But this kind of breath should be said to be a feeling. In fact, this flower sea has come all the way, there are all kinds of flowers, but this valley, it is better to be controlled by what is shrouded, and there is no floral fragrance.

Shen Lang thinks this should be where the roots of Baihuamen are.

It's just that the grassy sea is huge, but the sea of flowers, at least a thousand miles, is enough to make people curious. Searching along the sea of flowers is always much smaller than the entire grassy area.

How come it is, no one is looking for it here?

The answer may not be very beautiful...

Perhaps in history, there are also many powerful people who have found this place and want to invade everything in Baihuamen. As a result, they have become flower fertilizers, and naturally no one knows.

Think better, maybe these thousands of miles of flowers are also controllable. Control the environment, change the environment, the scene I saw this time, the next time I can't find it, naturally there is no reference object.

Shen Lang can accurately return to the place where he saw the Baihua Fairy last time, because he did not look for it from the grass sea, or even rely on the trajectory of the holy armor, but from the Qiulin sword, the direct door of the three worlds. Come.

So he can reach the original place no matter what the illusion or change of the environment, there is no obstacle.

Looking for it again, it is also based on the prediction of the wheel of the heavenly machine, will not be spent by the sea, nor will it be disturbed by the floral fragrance.

When I was close to it, Shen Lang was naturally full of speed, dog \*\*\*\*\* and white pheasant, and it was followed by his steps. Everyone felt the valley surrounded by the sea of flowers.

At a closer distance, Shen Lang opened his door to the door.

“Dare to ask here is Baihuagu? Is the Baihua Fairy of Baihuamen? Is there a relationship with the fairy? I have something to do today, and I will visit it.”

Next to the day, this time the mood is a little excited, for the valley below, they are not allowed to look down, so as not to have a sneak peek, all the sights are not visual, do not know what is the specific Baihua Valley situation.

Here, can you really see the benefactor of the year?

Chapter 2299 - Goodbye fairy

From the above, I can't see the specific situation in the valley below. Shen Lang is guessing that this is Baihua Valley.

But after his voice just fell, immediately from the valley, the petals began to swirl, and soon, a large number of petals formed a bridge, extending directly to their place in the air.

Looking at these petals, Shen Lang could not help but secretly.

It's really a big business!

Although he can't recognize them one by one, these petals are undoubtedly the petals of some very precious flowers. Taking out Tiandu City is a rare raw material, but now it is a paving bridge to give them a lame!

But this is also a form, and they don't really need to take the petals with them.

This is equivalent to getting permission from the owner, who can follow this arc and slowly enter the valley from the air.

As the petals cleared, they entered the valley and found that the degree of depression in the valley of flowers was more than that seen above.

When they landed a little further, they were surprised to find that there was no hole in the sky!

The bottom of the valley seen above is not really the bottom of the valley, but the petals of a huge flower in the middle!

This sunken valley is a pot-like concave shape with the deepest in the middle and the shallower sides. There are a large number of high-grade flowers.

Because the middle is covered by the petals of a huge flower, the valley that looks like this is the shape of a pan, so it doesn't look so deep.

Now when they were brought over by the bridge of petals, the huge flower was the petals that opened and closed, and let the road open before they let them enter.

Shen Lang initially estimated that the petals should be a few hundred meters in length!

And below the petals, in addition to the huge rhizome, there are of course a layer of petals.

This is simply not a flower, and the tree, called the giant wood, feels inadequate to describe it, like a giant building with a radius of at least a few hundred meters!

The white cat is dizzying, and the dog \*\*\*\*\* is shocked. A flower that is much larger than its head, this is in the world of giant beasts, and it has not been seen.

If you want to eat...

At this time, on a petal, stood a hundred flowers fairy, greeted them.

The petals that had been led by the road all flew to other places. They landed on the petals, which is equivalent to a large platform of several hundred meters.

“You can find a hundred flowers valley, it is not easy. What is it for me?”

Shen Lang, they are out of courtesy, inconvenient to detect the situation in this hundred flower valley, so it is not clear.

But the Baihua Fairy is the master here. Naturally, there is no such taboo. When they open their mouths, they should even be aware of them when they are far away.

Just because he recognized Shen Lang and knew that he was not hostile, he could get them close.

“Hundreds, hundred... Fairy! I am honored to see you again. I was the white fox that you had ordered!”

When Bai Bai came over, it appeared in a human form and grew a bit like a flower fairy. Of course, she is also clear. This is waiting for the explanation of Shen Lang.

And Bai Hao's goodbye for many years, I'm already excited, and now I'm not in trouble, so she can't help but scream.

After that, she immediately changed back to the Fox family, but it was not the appearance of the nine-tailed fox now, but the appearance of a little white fox.

Of course, Baihua Fairy can't remember the tricks of the past, but with her realm and a little trace, she can evoke memories.

“It turned out to be you, I didn't expect you to be an adult in this little white fox.”

The Baihua Fairy has no appreciative meaning. After all, when she saw the white pheasant, it was just a young fox, and she was scared to death.

“With your grace, I am fortunate enough to see the fairy again. It is already a great luck.”

Bai Hao knows very well that people do not need her reciprocation. Some of her, others are more.

But this is a long-cherished wish. It is rare to have this opportunity and cannot be missed.

She is still a little white fox, but she has already been erected, and then she is serious, and then bows and bows.

So she also understands that the day will be like her, because she was impressed by her childhood, she used to imitate her, and she didn't need to explain anything.

“Get up.”

To put it simply, she swept the dog \*\*\*\*\* again and could see that this is also an unusual alien beast.

She did not ask about the dog god.

The dog \*\*\*\*\* is also very convinced at this moment, although the flower fairy did not show hostility, but it has made it feel extremely powerful.

Among the strong people it has encountered, after the light god, the second makes it so taboo.

When Shen Lang looked over the eyes of Baihua Fairy, she didn't need her to ask, and she talked.

“I met her in Qingqiu. She felt that there was a sachet from the fairy. I later became an adult. It was a bit like a fairy. I later learned that you have had such a good relationship.”

“But categorically not because of this, but deliberately disturbed the fairy. Today, I got a message that there are multiple sects joining forces, wanting to be unfavorable to Baihuagu, special letter “”

In order to avoid unnecessary misunderstandings, Shen Lang opened the door and said the purpose.

“The world can't find Baihua Valley, you are the first one. I am here, naturally not afraid of someone who is not good for me.”

Hundred Flowers Fairy faintly returned, although he did not say anything, but also showed confidence and pride.

“I am a bit curious, how did you find it here? You said you should not be able to find it here.”

Shen Lang also tells the truth: “I came to the place where I saw the fairy the first time, and then I found it all over here.”

As for the past of the Three Realms, and using the wheel of the Heavenly Machine to predict the specific position, then it is not necessary to say it, in case the other party wants to grab it?

“I still think you are a bit special, but I can’t say where it is.”

The flower fairy looked at the eyes of Shen Lang and seemed to want to see through him.

Shen Lang slightly smiled: “Would you like, the fairy directly enters my consciousness to investigate?”

He can hear that Baihua Fairy is very wary of what he can find here, and he is still defended against him.

The strength of the other side is stronger, and the three of them may not be able to compete with each other, nor can they commit evil. So he generously invited the Baihua fairy to enter his consciousness.

The flower fairy moved her head slightly.

“I don’t need to enter your consciousness. You can come to report, I also thanked you.”

Although the Baihua Fairy has no intention of entering the consciousness of Shen Lang, this is equivalent to the order of rumors.

People are not afraid of the enemy, and do not feel that your letter can have any value. Oral gratitude is enough, what else? Is it difficult to leave a meal?

Chapter 2300 - Continued fairy

Shen Lang shrugged slightly. The purpose of his coming here is actually a very important part because of the white shackles.

Looking for a hundred flowers fairy with a white day, let her fulfill her lifelong wish, so that she can make a contribution to the benefactor.

His own rational analysis is also very clear. If the Baihua Fairy has not encountered any major problems, generally six or seven ancestors will not be her opponents at all.

Now I have come to this Baihua Valley. From the flowers and seas of thousands of miles, it is not easy to find it here. Even if she can really get here, she has enough strength to cope.

He and Gao Hanqiu, they are able to cope with the 20 gods, not to mention the stronger flower fairy?

Even if she has no other helpers here, this is her place!

This site is not only a hundred flowers valley, not just thousands of miles of flowers, even the entire grass sea, can be regarded as her site!

The grassland boundaries of hundreds of thousands of miles are not likely to be well known, but it is sure to know that this is the most beautiful flower plant.

And they came with a letter and have reached the goal of warning. With the strength of the flower fairy, I really want to do it with her, only the sneak attack.

Once she is prepared, the effect is completely different.

This has already happened, and there is no need for nonsense.

“Farewell!”

After Shen Lang finished, he was ready to leave with the dog \*\*\*\* and the white donkey.

The dog \*\*\*\* immediately came to his feet. It was still a little stressed in front of the flower fairy. It didn't like it.

But the white scorpion is a faint look at Shen Lang, full of reluctance.

It is no wonder that her goal has always been to see the flowers and fairy, and even the looks are imitating the flowers and fairy, just like a shadow and a substitute.

It's hard to see the real body now, how rare it is for her.

The benefactor has no big troubles. She is glad and happy, but she will leave, and she will not have the chance to see the flower fairy again in the future. It is a great sorrow for her.

However, she also understands that this is not Shen Lang to take her away, but the Baihua Fairy indicates that they are leaving. If you don't leave, it will make the benefactors unhappy.

The little white fox, once again erected, and bowed again to the flower fairy.

Just thank you for your gratitude, but now it is a farewell.

After the day, Bai Hao was finished, and like the dog god, he left with the feet of Shen Lang.

Her appearance is from the Baihua Fairy. When she came here, she was still not ready. After seeing the real person, she was naturally embarrassed to use the face of others.

She can also be transformed like this afterwards. It is a kind of commemoration, a way that will never be forgotten.

But in this way, others are certainly not happy and not polite.

“And slow.”

It was at this time that they heard the words of the flower fairy.

“This little white fox...”

When they heard the opening of the flower fairy, they all stopped and turned, still on the huge petals of a few hundred meters.

Now I heard the Baihua fairy saying the white fox, and the white ear was erected.

“I was originally with me. I am no longer going to the Great Wilderness. I will not be involved in Qingqiu again. The chance is broken. But because of your relationship...”

The eyes of the flower fairy are watching the waves, and this is naturally what he said.

“To keep this opportunity, my relationship with her is more than that.”

This is what Shen Lang said, and then her eyes looked at the day.

“Little white fox, are you willing to stay and practice with me?”

In front of her, Shen Lang has already guessed a presumpt, and her heart is also happy for the white, but he can not show too obvious, or wait until the Baihua fairy is now said, this is a bit of a surprise look at the day.

Of course, Bai Hao did not think so much. He was very excited when he heard that Baihua Fairy was willing to stay with her.

“Will! Willing!”

She said that she once again smashed the flowers to the fairy.

“You don’t want to be too happy.” The flower of the fairy is flat, but it is only a slow statement of the facts, and there is no excitement.

“If you stay, no matter what your identity, you will eventually be an identity. That is to become a disciple of my Baihuamen. In the future, I will inherit my clothes and become a fairy.” You can think clearly.”

This sentence is said, Shen Lang is also slightly surprised.

However, this thing, he is not good how to interject the suggestion, or look at the day, let her make a decision.

The look of Bai Yan, I looked at Shen Lang here.

Although she was still a fox, she did not send her thoughts, but Shen Lang read the meaning of her eyes at a glance.

“You just have to pursue your own inner feelings. This is of course a great opportunity for you. But the fairy said that it makes sense. This is equivalent to asking you to give up the green hills, give up your ethnic groups and homes, and the long years later, Will be in Caohai and countless flowers together.”

“So, you have to think clearly, and promised the fairy to fulfill, can not run after learning the skills in the future. As for me, it does not matter at all, the Qingqiu patriarch entrusted you to me, Just let me take you out.”

Shen Lang said very seriously, and did not directly give her any advice, the pros and cons, have told her about it, so that she can clearly consider, and can not be affected by a moment of excitement.

After all, what matters is the fate of the future life.

Then he laughed again.

“I understand now! For a genius like you, the patriarch must be trained to be a successor. Putting you out is equivalent to putting fish into the sea and flying the birds. This is because you have already done for Qingqiu. A generation of ancestors have not completed the contribution, so give you a broader space!”

“He is using me, let me bring you out, and I have a side to the flower fairy, maybe I have the opportunity to see you again. This should be what he wants, give you a choice!”

Bai Hao does not have such rich life experience as Shen Lang, but it is also very highly intelligent. When it comes to this, it also understands more.

Being able to come out and encountering Shen Lang is a key opportunity!

However, the foundation is still due to the completion of the responsibilities of the patriarchs of the past, and the ancestors of the ancient ancestors. The role and significance of Qingqiu is much larger than that of a generation of genius patriarchs.

Let her fish into the sea, birds into the sky, not give up and expel, is to give her a choice.

This choice, including her turning around boring, including her no longer going back, and the best result, of course, is that she learned more skills, became more powerful, and finally went back to Qingqiu to lead the Qingqiu future.

Now, the opportunity for this choice is in front of her.

The patriarch, Shen Lang, including the Baihua Fairy, gave her the power of choice.
