

## First Strong 2301

Chapter 2301 - Moved, refused?

At this moment, the white eyes are wet, and the tears are full!

She has always felt that she is very lonely.

Because of the very deep shadow of childhood, she was insecure about everything, and the flower fairy was invisible in her mind.

Even if the patriarch is attached to her, it is also a real old predecessor.

The more she cultivated, the more she opened up the distance with others!

When the gap is gradually opened, everyone will inevitably be envious and hateful, and it will become a kind of exclusion.

When the gap widened, everyone started to look up.

Envy and admire will have, and will not regard her as a competitor of the same age, it is another level of feeling. But naturally, it is impossible for her to have a simple friendship, but there will be a gap between the general and the larger.

As the saying goes, "I don't envy the rich, but I will envy the higher income than his income." The day has become a genius, and it has left everyone's level.

Her peers of the same age and peers began to respect her. Or because of the gap and the relationship between the patriarchs, it is not very likely to want to be close.

At this time, I began to hate the white envy, but it was the nine-tailed fox demon of the older generation.

Those who have cultivated to the end of the nine are the pillars of the Qingqiu. After the elders of the original family, the new generation of patriarchs will be among them.

Especially among the younger ones, the “middle-aged” generation has the opportunity to be bigger than the old nine-tailed fox.

But now suddenly a genius is much younger than them, and the patriarch is personally teaching, is it unclear to build for the successor?

This has become their strongest competitor, naturally they are envious of hatred, they are the object of crowding resentment. Of course, it will be a part of the seniors’ draw and use.

All these, the patriarchs are clear, but did not stop anything, nor did she help her to resolve anything.

Since it is necessary to go to the patriarch’s successor to train, these small problems are just one exercise. They don’t need to pay attention to it. They are the thorns that help her grow on the road.

But for the day, it is a little bit of accumulated scars, making her more and more lonely.

At that time, the patriarch asked him to follow the service of Shen Lang, followed by the time to leave Qingqiu and go to humanity.

For the daytime, the mood was complicated. On the one hand, we can avoid some of the troubles of Qingqiu, including her exclusion, squeezing, and courtship for her.

On the one hand, there may be a chance to see the flower fairy. But on the other hand, just like the first child who traveled a long way, it was a little confused and panicked. It felt a bit like the taste of being driven away by the patriarch.

Followed by Shen Lang, it is also good for her, she is also doing her best, together with the Yungong Holy Land, looking for those black robes and so on.

But when she got better, the last time she was going to go and the cold autumn, she had to send her back to Qingqiu!

White 嫫 once again has the feeling of being abandoned...

It was as if Shen Lang had never regarded her as her own, but as a guest brought back from Qingqiu, she was sent away when necessary.

She also clearly felt that her relationship with Shen Lang is still far less than that of the Emperor.

She was unwilling to leave at that time and insisted on staying in the Qiulin sword. Shen Lang did not find her desolate and uncomfortable.

For her somewhat sensitive, it is equal to the patriarch who gave her to humans, and humans returned her back!

Going back to Qingqiu, of course, it is still a familiar environment and is my home. But in terms of emotion and face, all aspects are also difficult to accept.

So she made up her mind at the time and stood on the mountain. If Shen Lang really didn't come back, it would be inconvenient to stay in the Qiulin swords in the long run. She would go out alone and go back to Qingqiu.

When Shen Lang came back, she was very happy, but also bitter.

Happy is to say that Shen Lang did not abandon her, knowing that she is here, or coming back. Bitterness means that Shen Lang was really trying to let her go, and deliberately said that she might not come back again. She had to abandon her heart.

Until today, until now!

From the words of Shen Lang's sincere words, Bai Yu understands that she has always felt lonely. In fact, she does not know enough about others, so that there are more misunderstandings!

The patriarch allowed her to leave and give her the opportunity to choose the path of life. This is the treatment that all Qingqiu people do not have!

The patriarch knows that she is tired of the green hills, so that she can live the life she wants, and live a life that is different from that of Qingqiu.

Only the old patriarch, there is no one to say anything about her.

The same is true for Shen Lang. I really want to abandon her. When is there no chance? In the holy place of Yungong, it is just a matter of throwing it in, and there is no need to bring her out.

It is also to follow the adventure again and again, let him want her to go back to the safe green hills, go back to her familiar home This is deliberately hard to say no, let her go back!

Today is even more so, he is to guard the Qiu Lin Jianzong, but because of listening to her and the flowers of the fairy, I immediately decided to bring them over, and he will not hesitate to commit crimes, but also to fulfill her wish.

Now it is better to help her analyze clearly, but do not make any direct guidance, let her make a decision.

As for the Baihua Fairy, it is from her childhood, she is the perfect sustenance of God. Now she will accept her and let her choose. That is normal.

Let her move to tears, mainly because of understanding the patriarch and Shen Lang.

“Thank you for the love of the fairy! Bai Yu will always be grateful to you forever! You have created me now, and will give me a more extraordinary future...”

Bai Yu said to the Baihua Fairy while licking his head.

The Baihua Fairy and the Shenlang are slightly a bit strange.

They all can see that the day is very eager to stay with her. Just giving her choice, telling her about the pros and cons, etc., is also a little more respect for her.

They all hope that she can face it more cautiously, rather than rushing to agree.

But in itself, they all feel that white must be promised.

Isn't this the goal she has been pursuing?

Tired of all sorts of troubles in the green hills, will become a flower fairy in the future, isn't it very good?

But she did not directly agree, not excited to call Master, but a grateful discourse, it naturally shows that there will be a turning point.

This is the prelude to rejection!

"You don't want to stay in Baihua Valley?"

The flower fairy is very calm, but she said the meaning of the apprentice. Other words, expressing sincerity and generosity, really want to be rejected, or feel uncomfortable.

So I saw the signs, and when she had not refused to speak, she asked her first.

Chapter 2302 - Registered disciple

The day has just been so paved, that is to express what to say next.

Now she admires the love of the Baihua fairy and asks, she is naturally a sincere response while respecting the girl.

"My heart is that I am willing to follow the fairy and become a member of Baihua Valley. But the patriarch is so external, the master is so against me, but I don't think it is true. I really have no way to enjoy the fairy tales, or I have to return the master and the patriarch first. ""

Her words sounded like rumors and rejection.

But just because of the words of Shen Lang, and full of tears, the flower fairy is also in the eyes, so it is also heard, she is from the heart.

Staying in Baihua Valley and practicing with her is a very willingness to be fair. But Shen Lang and the patriarch were very good to her, and she wanted to repay her.

From another point of view, looking for her, following her, why do you repay the childhood encounters from time to time?

The flower fairy couldn't help but sigh.

“A good little white fox with a feeling of gratitude.”

In her life, although it is rarely active in the human world, but in the style of Baihuamen, it will not be forced to provoke the door, no matter whether it is a human monk or other beasts, it will not attack. Kill and take repairs.

Even in the case of some forbidden places, she has encountered human beings, beasts, etc., and she has been rescued.

She didn't know if she was grateful, if she remembered, she didn't remember it herself, because she just did it.

When I met a group of foxes near Qingqiu, they were scared to escape. The little white fox that ran the slowest was almost scared to death.

She “grabbed”, and it was just a smooth appease, injecting vitality into it, and also wanting to let it not be scared to death, to alleviate great mental stress through physical changes.

Then she said that she would not go to Qingqiu to catch the fox demon, just let it go, and never thought of this little fox.

I did not expect the little white fox to remember, grateful.

It was not easy, and it made her a little touched.

“It's rare that you have the spirit of repaying your heart, and I can't be close to human feelings. Since I have continued my chance, I am still willing to give you one or two. Stay and study for a while, in the future you want to follow him again, or return to the future. Qiu is your freedom.”

Baihua Fairy, after being rejected, made a concession!

This is very rare, and Shen Lang is letting her choose, and she can't help it anymore.

After this village, there is no such store!

The white pheasant has a fairy tales with the Baihua fairy, the former cause, today's fruit; today's cause, the future fruit.

If Bai Hao resolutely refuses, just follow him and leave, which is to completely break this opportunity.

As the Baihua Fairy said, the chances between them are not so much, because of his sake.

This is a beautiful thing. If it is broken because of his relationship, is it not regrettable?

So he also spoke immediately, giving a more direct suggestion to the day.

"The fairy has said this, you promise it soon!"

Shen Lang does not think that this affects or interferes with her choice. This is actually a delay in the choice she is about to make.

In the process of learning the art of the flower fairy, she can have more time, slowly thinking about and considering this problem.

If you are willing to stay in Baihua Valley in the future, you will not be able to return to Qingqiu. At that time, it was the real choice.

Bai Hao is of course grateful and excited, but she is still honest and tangled.

"But... I am sorry for the fairy."

Hundred Flowers Fairy said faintly: “There is nothing sorry for me. Since I am not staying in charge of Baihua Valley in the future, it is not my true disciple. The time for studying here is limited. I will limit your teaching and you will need to do it. Live.”

This is even more obvious!

If she becomes a disciple of her clothes, she will stay in Baihua Valley in the future and become the successor of Baihuamen, which is the flower fairy who is called by the outside world.

Otherwise, it can't be a regular disciple, just get some of her guidance, and stay here is also a need to help. Or it can be regarded as a registered disciple.

But whether it is Shen Lang or Bai Yu, in fact, they all understand that Baihua Fairy said this, in order to make Bai Hao better accept.

Since she has repeatedly emphasized the “opportunity”, it is natural to take the opportunity to round the day, not just to find a temporary worker to do the labor.

For thousands of years, Baihuamen has been a single-passage generation from generation to generation. It can also manage this hundred flowers and valleys, and it is necessary to rely on the labor force.

“Thank you Master! White must be careful!”

I am grateful for the gimmick again.

“Okay! Go back to the human form before you.”

Baihua Fairy did not correct her “Master” name, but also regarded the identity of the named disciple. And this sentence is also equivalent to authorizing the use of her “Portrait Right”.

Bai Yu was originally inconvenient to show in front of the people, now Master, and the Master also allowed, and then continued to squat a few times, restored the appearance of the person.

Many people don't blame, even the high-profile people who are so dusty, such as Baihua Fairy, are still very useful for the short time of the white. It is a genuine look at high imitation, but it can be high to this level, and she is satisfied.

"Thank you for the opportunity given by the fairy, we will not bother again. Goodbye in the future..."

Shen Lang also immediately quit, but remembered one thing.

"Right, the last time I was a portrait of a fairy, I am happy today, I am willing to record another portrait!"

The last time he gave a gift to the flower fairy, he took a photo. For the flower fairy who has never seen it, he also liked the "realistic" portrait.

Now Shen Lang took the camera directly from the storage space and then asked her to take a photo with Bai Hao.

Bai Hao has not seen this thing, Baihua Fairy has experience, but still very calm.

Shen Lang first took two of them and then stood next to them and took a photo with them. Although the dog \*\*\*\* is now a pet dog, but the flower fairy can see its fierce beast god, and did not pick up the dog, only one is outside the lens.

Wait until it is arranged right away, print the photo out, the day is very surprised, and the flower fairy is also very satisfied.

The appearance of the two of them is quite similar, but the look and temperament are different. It does not seem to be twins, but also obviously has the taste of sisters.

This gift of commemorative value is not expensive, and after the completion of Shen Lang, he will leave again and leave, leaving Bai Bai to study in Baihua Valley.

That huge flower also opened the petals and let them fly out.

Pause in the air for a while, Shen Lang secretly recorded everything through the Holy Grail. Not to say that in order to find it again, the endless flower sea of light is also infinite scenery.

Just as he was about to leave, he felt a direction in the distance, and someone was coming quickly!

Really come?

Chapter 2303 - Strike team

The shivering wave that was supposed to go, stayed in the air with the dog \*\*\*\* and looked at who was coming.

He actually has a guess of a target person, and now I see if it is.

It's just not convenient to explore the Baihua Valley, but for those who come here now, there is no such scruples.

There is no need to wait for them to come close, Shen Yang's knowledge has locked them all, and they are not afraid to reveal their identity.

The number of people coming, less than the tone of Shen Lang, only five, of course, are also the strongest in the realm of the gods, are the ancestors of the various factions.

And there are a few of them, and they have all been seen by Shen Lang.

One of them is the mastermind that Shen Lang had conjectured.

Kunlun sent Zizu ancestors.

I will think of the purple ancestors, too simple, because that day he and the purple ancestors saw the flowers and fairy.

For a hundred flowers fairy, it is often a hundred years, the next encounter, is not knowing when. The purple ancestors will have ambitions and can be imagined.

After the last Yaochi event, they also wanted to move the waves. The result was that the head and the younger generation's outstanding disciples were damaged. It was also because he had to fight back early and attacked the elk team's Shen Lang in time. He himself Kunlun did not suffer from the crisis.

Shen Lang also helped them open the box of the ancient organs, and the specific gains are unknown.

At the time of the Yungong Holy Land, the sable ancestors also traveled, but in the end they were injured and found nothing.

Perhaps in this environment, let him put his idea on the head of the flower fairy.

The information about the Baihua fairy is all told by the ancestors of Ziyan, and how many of them are hidden, Shenlang is not clear.

The Kunlun predecessor ancestors, who have personally seen the Baihua fairy, and warned the younger generations not to provoke the flower fairy, this should not be fake, but people will always have greed!

The Baihuamen is a single pass, and the Baihua Fairy is generally not showing up. It will not trade in the daily city, nor participate in the Yaochi event. That means they rely on the exotic flowers of the sea of grass to be able to maintain the resources they need!

For thousands of years, they did not know how many magical flowers they had harvested, and they did not know how much resources were reserved.

If you can end the Baihua Fairy, then in addition to the Baihua Fairy itself will be a huge harvest, all the benefits of Baihuamen, including the vast territory of Caohai, belong to them.

The Kunlun faction can live in peace with Baihuamen for thousands of years, that is, there is no strength to eat this neighbor, not how kind they are.

This time, it may be the ancestors of the sable, who want to make up more benefits, and also contacted everyone else for all actions.

Anyway, for other sects, Caohai is too far apart, and it is such a huge scope, it is also a one-time split, and finally the resources of this large site of Caohai will be taken over by the Kunlun.

And this is a long-term harvest!

It is inconvenient to annex other sects, because everyone is a “big name”, and they all have heads and faces. Although the Yaochi event is not an alliance or a framework, it is also a circle threshold.

But Baihuamen is not the same. They didn't have many people, and they didn't participate in the Yaochi event. They didn't have any friendship with any famous group. They were eliminated, and no one would come out to denounce them.

For thousands of years, the Kunlun School may also have a targeted study of Baihuamen from generation to generation, and will summarize the executable solutions they understand.

No one has actually performed it before. This time, the ancestors of the sable, they stood up.

No matter what method they have, they can pass through the last meeting, the traces of the clues, and then explore here. But after all, the scorio ancestors are not sure that they can swallow the flowers and fairy singers!

So he also needs the alliance.

At this time, the emergence of the robbery alliance also disrupted the situation and attracted everyone's attention. No one would pay attention to them.

The chaos gave everyone the opportunity to fish in troubled waters, and after the chaos, it was often a big reshuffle!

The ancestors who returned from the alliance, want to unite to ask for resources, and ask for the right to speak. The best result is to rely on the power of unity to order the world to become the biggest force.

The most unsatisfactory, their alliance can also leap into a major force, with a greater voice, and then let them themselves, can also go up a step.

The purple ancestors, they obviously want to take advantage of this opportunity to divide the Baihua Valley, so that everyone can grow up.

The allies who share the interests and act together have more tacit understanding and trust. After the round of the robbery alliance and other sects, they can come back again.

In that case, they will become new giants! Can dominate the world!

The Snow Mountain faction was heard from several of them, but it is not clear which specific sects are involved. As for whether or not you know that the Kunlun School's ancestors took the lead, it doesn't matter.

Shen Lang is of course not clear about the specific can only guess one of the purple ancestors.

As for the other people, he felt that no one was surprised.

Because when he ambushed him outside the Kunlun School, in addition to Zhisheng and Tongxian Weng, they had a good relationship with He Lanchun. On the contrary, the Song invincible, which had a bad relationship, did not appear with them.

Unpredictable.

At this moment, Shen Lang basically understands who is coming.

In addition to the purple ancestors, several others are also known. Bailudong is the ancestor of the ancestors, the ancestral ancestors of the purple house, and the sect of the evil spirits.

These people were involved in the ambush of him at that time. Shen Lang was not in the realm of the gods at that time. The dog \*\*\*\* was also seriously injured and recovered. It is far worse than now, and there is a two-year-old elk.

Although that wave killed a number of great ancestors, but relying on others under the enemy, using the magic weapon artifact to win.

In the end, Tong Xian Weng, Zhi Zhi, vulture, Xiaoyao ancestor, Lu You ancestor, Helan ancestor and Yu Yu, are the strongest of the seven great gods. Even if Helan's ancestors do not do it, there are still six.

He was impossible to play on the front, so he left with the dog \*\*\*\* and the elk.

At that time, the vultures suspected that Shen Lang would definitely go to Lijiang to vent their anger. Because Yu Yu was successful in making an appointment, Shen Lang would have helped them open the organs, but even ambushed with others, how can they not?

The vultures contacted Tong Xian Weng and Zhi Zhi, and rushed to the Lijiang River, but they did not show up before, and they were ready to wait for Shen Lang and Yu Yu to fight for a fight.

Yu Yu and He Lan's ancestors can also think of this point. Helan's ancestors felt that they were stunned by Shen Lang, but he had a close relationship with Yu Yu, and he went along with Lijiang.

At that time, Xiaoyao and Lu You's ancestors left the Kunlun Mountains and returned to Bailu Cave and Zifu Wonderland, fearing that Shen Lang would attack their teachers.

Chapter 2304 - 2 mindsets

Later, Shen Lang did not go to the Lijiang River, nor attacked all of them. After all, his personal strength is limited, and when people are prepared, they can't find anything cheap.

Then, because Snow and Snow are talking about the Emperor's behemoth, they mentioned that in the great wilderness, there is a Kuafu giant, and Shen Lang goes to the Great Wilderness.

Later, when he went to the Yungong Holy Land, Shen Lang also specially commended the praise of Song invincible, and sent him a spiritual vein in public, because Song invincible did not come to ambush him – although it may also be Zhisheng, Tongxian Weng He plays.

Helan ancestors and Yu Yu once again apologized to him. Many other people are jealous. Zhizhi and Tongxian Weng are a few of them. They are in the Yungong Holy Land. They want to kill Shen Lang and rob him. The small shovel was killed by the sinking waves.

Happy ancestors, Lu You ancestor two, that is, after coming out, together with other people, thank you very much, there is no other special exchange.

The vultures did not appear in the cloud palace holy land, perhaps because of Cui or through the communication token, and the major sects even brought other sects that did not reach that level, they also made their own good, no one put Information to the vultures.

After all, vultures are evil schools, and they appear in the activities of the right way, which is not harmonious. The last time they ambushed the waves, they also took masks. Everyone was under the table. If they didn't kick the blast, only a few people knew that it was different from the public.

This time, the vultures are among them. This should be the scorpion ancestor can not contact more reliable people!

The elk like him has already hanged, and the Ginkgo Valley will be lost. Some of them were killed by Shen Lang, and some of the Yungong Holy Land did not come out, including Shen Lang's killing.

The vulture is different, his strength is enough, and he is not injured in the Yungong Holy Land. Moreover, the so-called righteousness and evil, that is, everyone's notion of morality and other concepts does not affect "taking money to do things."

They introduced vultures and introduced the same vultures as the last ambush. I just need to let him come to work, and when I get a benefit, I can't get a tabletop anyway. The vultures don't need anything on the table.

Working with the bad guys, only talking about interests, sometimes it may be more pure.

In addition to the four of them, there is another one, Shen Lang has not seen.

I have reached the realm of great deities, and I have not participated in the Yaochi event. It is not a famous person. From this point of time, it will not be the one who returned from the group.

The answer is also self-evident – a vulture partner.

The vulture had brought two partners last time, and was absorbed by Shen Lang using the tower, including the self-explosive.

This fully shows that the evil masters who are active in the dark are not one or two. Even if they are not as good as the number of famous people, they still have some.

The famous vultures that are more and more popular with everyone play a role as a tie.

The last “mission”, he can find two helpers, this time can find one, it is very normal.

When it was said that it was too late, Shen Lang’s analysis of Zi Zi’s ancestors and their group of people was completed after the discovery of the gods.

Then he passed a message to the dog god, let it converge, not too aggressive, so that the other party can not understand its true strength.

The beasts can go to the beast level and want to go further, often for centuries or even thousands of years. There are external resources for the accumulation of natural resources, the speed will be a little faster, but how can not be a short-term leaps and bounds.

The great change of the dog \*\*\*\*\* is because the poisonous grass seed was swallowed in the burial dragon valley, and a lot of resources were given to it, and it was retired in the space of the book for a hundred times.

These outsiders don’t know, and see it again, of course, thinking that it is still the original strength.

Shen Lang is not a low-key, Yungong Holy Land, and dealing with Cui or, this is a public display of his power.

The realm of the other side is also not low, and they have been searching for Baihua Valley. When Shen Lang can sense them, they are basically inferior and feel the waves.

This discovery has made their speed slightly lower, and perhaps through voice and consciousness communication.

They came to ambush the flower fairy, and the result of Shen Lang appeared here, which is a big variable.

In a short while, everyone has come from far and near.

In addition to Shen Lang and the dog god, Baihua Valley also has a panoramic view. At this moment, the five people have no need to fear that the flower fairy will escape, and the need to face is Shen Lang.

For the strength of Shen Lang, everyone's understanding is different. The vultures are the deep waves that have been seen in the last Kunlun Mountains. They have nothing to do with Shen Lang. They will certainly not describe the information of Shen Lang for no reason.

But the three of them are involved in the Yungong Holy Land and have a deeper understanding of Shen Lang, knowing that his strength has skyrocketed, far better than the original.

So at the moment, they are also two mentality.

Three sable ancestors, I feel a little tricky, do not know what the meaning of Shen Lang, can pull him into the gang, if you can get involved, although the pain, but still willing to sacrifice some of the benefits.

Vultures are a surprise!

Because the last time in Kunlun Mountain, it was proved, except for Helan's ancestors, including Yu Yu, they left five people. Shen Lang did not dare to face it, only to escape.

He can fool both Zhizhi and Tongxian Weng to go to Lijiang, which means that he thinks that three people can crush the waves!

Shen Lang is not simple, his hand is an artifact, the tower, and the secret of the ancient organs! These are all great benefits.

As for the Yungong Holy Land, although the vultures did not qualify for participation, they certainly got the wind afterwards. This time, they meet with the ancestors of the sable, even if they don't specifically describe the situation of Shen Lang probably will talk about it.

Not to mention what other people don't know, Shen Lang got the shovel of the shogun's shovel and got the shovel of Cui or the celestial nets. These are all publicly used.

For vultures, all are benefits!

The interests contained in the Baihua Fairy are basically legends, and may have been exaggerated by the deification. But Shen Lang, is the real benefit!

Originally, he was worried that he would attack the Baihuamen. What he wants is not to divide up a lot of exotic flowers!

Now that I see Shen Lang here, he is very satisfied.

Even if there is no meat in the flowers, you can find it back in Shenlang.

“It turned out to be a big god, how come you are here? Could it be that you want to be a guest?”  
The purpose of all of us is the same, we can unite together!”

The sable ancestors immediately made a surprised look, and then gave a suggestion of cooperation immediately.

Chapter 2305 - Torn face

There are nearly twenty people coming from the nine sects!

Because this is the arrest of the Qiulin swordsman, there is not enough qi, it is not enough to pressure the Qiulin sword.

Basically, every family has two come, and they are all headed, plus a senior-level master.

The three previous and easy-to-follow confrontations also came together. They were witnesses on the spot and they were able to complain that Shen Lang was the murderer.

For them to come so fast, it is easy to guess.

After the three elders and other three left, Yi Yong and Shen Lang did not wait too long in the VIP building, and then directly rushed back to Qiulin. Then they are coming over now, the time is very tight.

This also confirms that the fact that they sent out the “enforcement” of Shen Lang today is not the decision of the “sponsor”, but the factions behind the organizers have already reached their intentions.

And it is very likely that the heads of the eight factions, the elders, and the like, have gathered in one place, waiting to see the outsiders personally.

Otherwise, after the three of them go back, they will send the news to each family again, and each family will report to the head of the family, and then after the family’s consultation, and then negotiate with other parties to act... absolutely not so fast!

Realizing this, it is also easy to be dark. It seems that their emphasis on Master Shen Lang even exceeds Shen Lang’s own guess, and that is not good.

Originally, they had to start with the end. Now they have killed seven disciples, and they have given them a reasonable excuse to “catch the murderer.”

“I don’t care if you misunderstand or conflict. What do you mean by running to our Qiu Lin Jianzong?”

Mo Feiliu was directly asked by cold face.

The main room is a whole layer on the top floor of the sword building. In order to highlight the respect, it is done in privacy. You can see the bottom on the balcony, you can overlook the mountains, but from the outside, below, it looks like Empty, visually obstructive.

But Mo Feiliu himself is the sovereign who lived on it for a long time. Shen Lang, they are now on the balcony to watch the situation below. Can he not know?

Master looked at him on it. Can this process still require Master to come forward?

“Mo Zongzhu! Are you insisting on defending the murderer?” Bai Yucun’s face changed.

Other people’s faces are also slightly sinking.

From the attitude of easy and unreasonable, it can be seen that Qiu Lin Jianzong attaches importance to this son, so they unite all the heads together at the same time, and do not hide the momentum of anger, ready to come down to Ma Wei.

Qiu Lin Jian Zong Zai Niu, did not dare to offend the Tang Dynasty nine big sects of the big family at the same time, this is their daring to directly ask for the murderer.

But now Mo Feiliu, but it is directly to fight against you in the end!

It is possible to apply pressure to make Qiu Ling Jianzong soft, affecting the relationship, and repair it later. But if you want to fight in front, the movement will be bigger and the consequences will be more serious.

The best result, that is, the nine factions jointly destroyed the Qiulin sword. But that is obviously not very likely. Once the fish and the net are broken, the Tangcheng factions will also receive a heavy blow!

In the days of this group of heroes, it was a great opportunity for the generation of the Tang Dynasty. Another battle, the final result is also lingering.

In other words, the worst result is that the Tangcheng forces have shuffled their powers, and even the strongest part of the entire Chinese nation has been hit hard.

Then again, this result, Mo Feiliu can't think of it!

It's easy to just listen to the command, but as the old-fashioned Mo Feiliu, all of them defend this and do not hesitate to break with the nine factions, which proves the value of this alien.

“We are not directed at the Qiulin swords, but the nobles of this class are not only masters, not only on the scene to maintain the murderer in your name and your name, but also carry the murderer back to the Qiulin sword. We should not come? ”

The doorkeeper of Zhentianmen once again questioned this time. This time it was an excuse to say that it was easy and unreasonable, but it was Mo Feiliu.

“Pay attention to your words! Not what carries the murderer to escape to the Qiulin swordsman, Master Shen Lang is the guest of our Qiulin sword!”

Under the gaze of Master, Mo Feiliu must of course maintain absolute protection for the master who is called the brother.

“So to say... Mo Zongzhu is the iron heart must guard the murderer?”

“Mo Zongzhu, this son first hurts and Fan family, and then provokes us to Yangzong. But when we read our host as a group, we have to endure it and let people say that we bully outsiders.”

“Yes! It is unbearable! It is unbearable to kill seven core disciples in public today. This is not a contemptuous challenge to all the family sects in Tangcheng, but a manifestation of inhumanity and inhumanity!”

“Qiu Lin Jianzong has always been one of the great schools of Tangcheng. I have been adhering to justice for centuries. It is impossible for Mo Zongzhu to violate the purpose of the founder and go into the evil way?”

Seeing that the more they say the more severe, they directly attacked the lord, and they couldn't help but fight back.

“Everyone is in charge! Don't say so grandiose, constantly buckle the hats of Master Shen Lang, and constantly pressurize us Qiulin Jianzong. After all, you are from the opening of Master Shen Lang, and realized the essentials, trying to It captures and monopolizes its wisdom!”

“You think that our Qiu Lin Jianzong is the same idea. You are really wrong! For us Qiu Lin Jianzong, Master Shen Lang is a distinguished guest, we do not figure out any interests.”

“Here, I also advise you! The wisdom of others, that is someone else's. If you want, if you want, you can worship, repay, or even plead, and deduct a stigma. That is the evil path!”

In the tough front, it is a first-class guest who can easily come to the forefront, so he is very strong in the skills and momentum of the conversation.

This powerful statement made the other party angry and angry.

That is their true intention publicly said, it is equivalent to their fig leaf.

“A good general manager, it is a top-ranking profiteer! Who is the buckle in the end? We are here to catch the murderer, but you are stigmatized by us!”

“Everyone is the right way to Tangcheng. Today, you will have the Qiulin swordsong as the right path for the unselfishness. Are we all evil?”

“Mo Zongzhu! You said, if it is easy, does it mean that you and Qiu Lin Jianzong’s attitude? If it is, we will be the founder of Qiu Lin Jianzong today, clean up the gateway to your unspeakable children!”

“We are today’s nine martial arts families, together here, on the blue sky, under the heroes of all parts of the country!”

Since the face was torn, then all their heads immediately took the trouble and stopped the flow of Mo Fei from the momentum.

Just one sentence is equal to fighting directly with the Nine Gates!

They made trouble first, but they threw the ignition to Mo Feiliu.

Chapter 2306 - Virtual reality

These famous schools in the Yaochi event level seem to be full of gods and ancestors like dogs, but in fact this is the degree of the whole world.

Really careful, even these famous schools with thousands of years of history, not every head can reach the realm of the gods.

The reason why the ancestors will be called “the ancestors” is because of their age, their high scores and their strength. If a martial art can have a big vote in the big realm, it will not be called the ancestor.

To put it simply, these people who are now honored as ancestors are basically the strongest ones of their generation, even two or three generations, and often have very high talents.

This is not easy to convince people, older, and even more unknowingly will have the mentality of relying on old and old, and it is even more difficult to serve a young genius.

Shen Lang's strength and talent are far from being able to look back. It's the strongest in history.

That kind of contrast, they are proud of the talent of a lifetime, is it not ordinary?

That is hard to accept.

However, if it is another situation, Shen Lang's peerless genius is a pile of high-cold autumn resources, which is self-infusing, and it's better to accept it.

Losing to the cold autumn, they are easy to accept.

Because even if there is no historical connotation in the cold autumn, it can only be regarded as a medium martial art, but it is a figure of the founding school. And the age, seniority, and strength are much larger than those of the ancestors.

They are not as good as the cold autumn, it is very normal.

In this way, the magic weapon and artifact of Shen Lang, when they go to the Yungong Holy Land, from the quicksand slaves to the holy places, to the battle with Cui or so, may be the manipulation of the cold and cold autumn.

Shen Lang is just a shackle at the front desk. Of course, the strength of this shackle is not weak and genius.

Such a story is in line with normal logic, in line with the logic of everyone's expectations, is the reality they can accept.

Of course, this is also a factor of information asymmetry. Except for the cold autumn, only Lin Biao recognizes Shen Lang and knows that he is a reincarnation, but this information has not spread.

So now, at this moment, these big guys, like the vultures, are firmly convinced that if Gao Hanqiu is not here, it is only a dog with a wave, and five of them are able to pack at will!

And just tore his face, even if Shen Lang wants to act with them in a joint operation, it will only be used once, and after that, he will have to pack him up.

As for the cold autumn, will it be here?

Lu You has a trace of concern, it will be a temptation, but basically do not believe it.

Because of the news of the robbery alliance in the Qiulin swords, they were received.

The robbery alliance has surpassed the 20 big gods and made them shocked more than expected. But a war of this size can be assessed without the need to see it. Even if it is said that Gao Hanqiu and Shen Lang underestimated the win, it is impossible to convince them.

That is totally illogical!

Therefore, they are the same minds as Lin Biaozi and others. They feel that they should be hit hard and suffer greatly.

And there are a number of martial art behind to join the Qiulin sword, they also received a bit of wind.

However, the news of the failure of others, such as Lin Biaozi, has not been passed to them.

In everyone's opinion, regardless of the state of Gao Hanqiu, it should be tired of coping with the attack of the second wave of many great ancestors!

"How can Gaochunqiu be here? Gaozuo should be very busy? And... Shenlang God can't come here alone for no reason." Happy ancestors, and then speculated.

The vulture immediately sneered, and then finished.

“The cold autumn has been unable to hold back. There are many enemies to be confronted by Qiu Lin Jianzong. This Shen Lang God is trying to ask the Baihua Fairy to help?”

The sable ancestors said that he and Shen Lang met the situation of Baihua Fairy, and they were able to give their friends a hundred flowers and nectar, which can be regarded as a part of their Kunlun neighbours.

But behind the Baihua Fairy, I said that Shen Lang is a bit special, but I don't know what it is because of it. I also specially sent a sachet containing the seeds of flowers.

How the value is impossible to know and estimate, but it is obvious that Baihua Fairy is different from Shenlang.

A few days ago, the problem of Qiu Lin Jianzong, Gao Hanqiu publicly stated that without the assistance of others, Qiu Lin Jianzong can deal with the alliance of the robbery.

Waiting for this second wave of attacks, this time I came to be a famous person. Where does Gao Hanqiu ask for help?

Other famous big factions, when the robbery alliance appears, will choose to wait and see, now how can they shoot? This is likely to encounter an acquaintance!

Therefore, Shen Lang will hit his idea here to the Baihua Fairy, which is a matter of course.

Shen Langyuan came here, and Qiu Lin Jianzong must of course have to be guarded by the cold autumn.

This means that there is no other helper for Shen Lang.

Just tearing the face like this is equal to the people they have to deal with, including the flowers and the sun.

To deal with the Baihua Fairy, everyone has not fully grasped it. Dealing with Shen Lang alone, I have confidence and confidence.

But with the addition of the sun and the fairy, the risk is even greater.

The best solution is to first attract the Shenlang to help solve the Baihua fairy, and then everyone join forces to attack the Shenlang.

When everyone spoke together, Zi Zi's ancestors also thought about this problem.

“Shen Lang, God, you and I have also worked together. Everyone has some trust. If you are good or evil, you still have to win, right?”

“I mean, everyone first puts down the ideology problem of righteousness and evil. The most important thing is to join hands!”

“I can promise you on your behalf If you join us in action, then after completing the Baihua Valley, we can all follow you up with Qiu Lin Jianzong and solve the problem of Qiu Lin Jianzong together. !”

“If there is a violation, the sky is thunder!”

The attitude of the sable ancestors is very simple, and it is also a direct swear.

He spends more time with Shen Lang than other people, and he has more jealousy, so this sentence is directly mentioned.

Since Shen Lang will appear here, it is to help Qiu Lin Jianzong.

The key now is to resolve the contradictions between the two sides. If they are a few, and Shen Lang teamed up, first get the Baihua fairy, and then go to help the cold autumn, it is also a win-win situation.

Shen Lang himself is sure that the harvest is not small, and he does not care about the general interests. However, Qiu Lin Jianzong is supported by a group of great ancestors, and it should be the result that Shen Lang needs most!

After Zi Zi's ancestors said this, everyone looked straight at Shen Lang and waited for him to make a decision. He also believed that he should not make the wrong choice.

Chapter 2307 - 1 arrow 3 carving?

Hearing the words of the ancestors of Zi Yan, Shen Lang is also a bit surprised. I have to say that these old guys are still relatively easy to see through.

It's just that on the surface, he's very easy to be bloody, and he's a young man with strong rights and evils. Therefore, the ancestors of Zixiao, instead of using the interests of Baihua Valley to attract him, but to use the human feelings!

Buying people is based on the weakness of people.

And people always have weaknesses.

Some people think that they will not be bought and will not betray. In fact, nothing more than not being targeted at weaknesses, not giving enough price codes.

The most common weaknesses, the easiest entry point to buy, are money, color, rights, and interests. For those with some high quality, these can all be rejected.

Someone can reject countless money, beauty, supreme power, and interests.

But what about the name?

Love?

Righteousness?

Personal loyalty can't move, what about the home country? Human race, the world survives?

It is not easy for ordinary people to face such a choice, but in the movie, the answer has been given again and again.

Those strong heroes can ignore the threat of life and can refuse to attract the world, but they cannot ignore the survival of the world!

This is a correct value orientation, a civilized choice, but it also proves that as long as the weakness is given to you, as long as you pay a large enough price, anyone can be bought, and it is possible to betray.

The scorio ancestors are fancy this point. Is Qiu Lin Jianzong now facing the siege of seven or eight sects? Is the cold autumn not hurt and unable to fight again?

You Shenlang personally can not care about the interests, but also disdain those of us who cooperate with the evil factions, but the five great realms of the realm of the gods, together to help Qiu Lin Jianzong solve the urgent need?

Hundreds of thousands of years have not participated in the world for thousands of years, even if this generation of flowers and fairy, see you as it is, then what? Will you really fight for the big name for you?

Compared with inviting an imaginary fairy, it is of course more reliable to talk to them about the conditions and the interests of the real villain!

“You are very good at it. I don’t know how to refuse you when I listen.” Shen Lang shook his head and sighed softly.

This sentence makes them a little more stable.

The scorio ancestors cut the key, and Qiu Lin Jianzong and Gao Hanqiu may be hanging on the line, waiting for the Baihua fairy to help!

At this time, they are willing to go out, it will be easier to convince than the flower fairy.

As long as there is no problem with Shen Lang’s mind, this choice should be made.

The sable ancestors also said their conditions – “first solved the Baihua fairy.”

As for whether or not to fulfill the promise in the end, it is very easy to handle.

It was just the promise of the sable ancestors, and they did not agree?

Is this not finished?

With such a mind, no matter whether it is the ancestors, the ancestors of the land, or the vultures and Kuntu, they are silent.

The gesture on the surface is that they are a camp. Although they are a bit uncomfortable with Shen Lang, Zi Zi's ancestors made decisions on their behalf and they will cooperate.

In fact, of course, it does not leave any words.

After all, what they are not sure about is the flower fairy, which can solve the fairy flower. Just the words of Shen Lang, let alone four, three are sure to solve.

Even the vultures have begun to think about it: they have laid down the Baihua Valley, and then controlled the Shenlang. They went to the Qiulin swords in the name of Shenlang's recruits, and finally took Qiu Lin Jianzong and Gao Hanqiu together!

Already in their hands, there are no other ways to join the other martial arts.

This is an arrow and three carvings!

Now I am waiting for the sun to get hooked.

And Shen Lang just said, obviously already on the edge of the bite, what else can he do?

“But, the Baihua Fairy and I are a side of the edge, but there is also a gift to me. If I am with you guys and scum, attacking Baihua Valley together, then I am not adult scum? How can I be worthy of the flower fairy? ?”

The turning point of Shen Lang immediately made everyone's face sink.

“Young people, you are very talented, but your life experience is too little. When you reach our age, you will understand that many things, whether you want or not, must be done. Principles can also be flexible. Adjusted.”

The sable ancestors have not given up, resisted the nickname of “human scum” and continued to persuade.

“I know that Qiu Lin Jianzong has encountered a lot of trouble, otherwise you will not come to a stranger with only one side. In comparison, we have not only seen one side, but also walked together and fought together, you can believe me! ”

“In the end, I will ask you again. You insist on the principle. You are worthy of the flower fairy. Are you worthy of the high cold autumn that you are expecting from you? Can you afford the Qiu Lin Jianzong who is waiting for you to return to the rescue army?”

The words of the ancestors of the sable ancestors played the experience of an old man’s life. They used their emotions to reason, reason and excuses to help Shen Lang find it. Let him join them. Burden in my heart.

If the strength of Shen Lang is not strong enough, if Gao Hanqiu and Qiu Lin Jianzong really come to such a dilemma, Shen Lang really has to get from them, even if they attack a friendly and irrelevant outsider.

But because of the fact that the information is true, the very persuasive words of the sable ancestors are all based on their presumed predicament.

The reality is that Shen Lang easily solved the problem of Qiu Lin Jianzong, and left people to take care of Jianzong. He came here this time, the purpose is to pay attention to a person of Baihua Fairy.

So even if he is too arrogant, he won’t let him shake.

Shen Lang has dealt with the style of the enemy. It has always been as fast as possible. The sneak attack will not slowly set the battle. He knows the truth that “the villain died in words.”

I will be here today, telling them so many words.

I didn't want to persuade the ancestors of the sables to return to the shore This is impossible.

I didn't want to see if they had any conditions to open.

His purpose is a flower fairy!

Because he was with the oldest ancestors last time, and today, the purple ancestors brought people to attack a while ago, he arrived first. In exchange for him is a flower fairy, you will also wonder if this is a group, is it deliberately sing a double spring!

He really wants to go straight to war. If you can't do it, when you fight, they will shoot everyone together and count him as an enemy.

Therefore, he needs to be self-incriminating and innocent, to let the Baihua fairy understand that he was together with the scorpion ancestors, but not a friend. It is also necessary to understand that this time they are several to attack, he really got the news. Come help!

Since Shen Lang decided to help, he would not ask others to be grateful, but he could not let others misunderstand.

Whether Baihua Fairy needs his help, he will help if he doesn't need him to help him. The reason must be clear first.

Chapter 2308 - Seeking medicine

It is already clear when it comes to this part.

Under the giant flower, the flower fairy is naturally clear about the above situation. She did not take the first shot, but also to understand more.

Shen Lang has no interest and they will go on.

But this has another problem.

He came to help. Helping doesn't mean picking up all the enemies!

After all, the relationship with the flower fairy is not comparable to the cold and autumn.

Bai Hao may try his best to help, but Shen Lang will not.

He can only assist the blinds, help solve some of the enemies, and will not block the five enemies alone.

Not to mention whether he can hold it, at least the human condition is two-way.

The hundred flower nectar presented by the Baihua fairy is part of the human condition, and the other part is the sachet. The sachet is a gift for a photo!

Because he didn't think about the role of the sachet, the photo is also the only thing that doesn't feel asymmetrical. Hundred flower seeds on the flower fairy should also be very ordinary items.

The sachet will become a part of human condition because of its relationship and play a role as a bridge of trust in Qingqiu!

It is because of the breath of the flowers and fairy on his body that he has to pay attention to it, and he has the cooperation behind.

Bai Yu became his maid, but it can only be regarded as a small part. It is even more important to come to the periphery of the funeral dragon valley. I have learned a lot about the ancient information and got a lot of treasures from the Dragon Valley.

Including the sword of the king's sword, which is used very well.

If Bai Yu has no trust in him, he will not be selected to go to the funeral valley. The pair of Qingqiu is for the remains of the ancient ancestors, and also received this return. For Shen Lang, it is a great harvest of the great wilderness.

From this point of view, it is the human condition that Shen Lang needs to return.

But for the Baihua Fairy, she just happened to meet two people, looking at it is pleasing to the eye, just give a little gift, nothing more.

From her point of view, Shen Lang can come to report, can be regarded as a return of human feelings. It's already more sincere to stay and help.

If Shen Lang really wants to help her to get all the enemies down, it will become her feelings of owing the waves.

Those who have reached the realm of the Great God are not willing to owe others. Because there is no such thing, the future will affect the state of mind and will indirectly affect the higher level.

Therefore, Shen Lang must balance this point, and help can't be too much.

He is not the same as Gao Hanqiu. The two sides are like one. Whoever does what they do will not feel what they are helping, and they will not feel guilty.

Even so, it is because the two people are relatively equal now, and each other can help each other.

For example, in the past few hundred years, Gao Hanqiu owed regrets that Shen Lang's feelings could not be repaid. That is still the separation between life and death, the separation of different worlds, and the regrets that have certain influence.

"Fairy, what do you think about these atrocities that are coming to the offense? Do you want me to knock them back for you?"

Seeing that the Baihua Fairy has not yet appeared, Shen Lang asked what he said.

This sentence was publicly asked, so that the Baihua fairy in the Baihua Valley can be heard and made available to five other people.

As soon as this statement came out, five people, including the Zisong ancestors, stepped up their guards.

They just wanted to persuade Shen Lang to join forces because they have already reached the top of Baihua Valley. If the flowers are running away, they can stop it in time.

If it is still in the distance, it will not waste so much tongue.

Now Shen Lang is directly calling out the flowers and fairy, which is the legendary high-ranking person who makes them jealous, and naturally attaches great importance to it.

When Shen Lang went in, it was the flower fairy that released a bridge of petals, which led them to enter.

At the moment, after the opening of Shen Lang, the central part of the “pan” type of Baihua Valley suddenly opened.

That is, the huge petals of a few hundred meters are separated from each other.

But in fact, it only opened the upper layer, let the stalk of this giant flower stunned, still can not see the bottom.

At the moment, Baihua Fairy flew up from the opening.

Then the huge petals were re-closed, and they settled on the petals.

These petals are so large that they are surrounded by a circular platform with a radius of several hundred meters.

With the appearance of the Baihua Fairy, the exotic flowers and flowers on the hillside around Baihua Valley are vivid, as if they have lived and greeted their owners.

This kind of atmosphere spreads out quickly, and countless flowers around Baihua Valley have come alive and made all of them turn to this side, forming a wave of general changes.

This has spread far and wide, surpassing the limits of visual inspection. It is not known whether it can reach hundreds of miles away and thousands of miles away.

The changes in these exotic flowers and plants are actually quiet, but because of the huge number of changes, there is actually a feeling of “vigorous silence.”

And even if they don't understand the flowers, they can feel it. These strange flowers and plants are as if they are rushing to release their energy and contribute their energy to the flower fairy!

This shows her appeal and declares that this is her territory.

But this is not a deterrent to the ancestors and vultures of the sable.

Everyone has seen the big world, and they are not surprised by the ability to control flowers. In turn, they have an extra peace of mind.

How much is a bit worried about the original, there is no resource for the 100-year-old flower valley?

It's just a catch of a fairy, but it's also a resource, but there's only one one. If you don't get a lot of it But just like this, think about it for at least a few thousand miles. Huahai, these are high-quality, high-quality exotic flowers that provide energy for a long time.

In addition to personal absorption, Baihua Fairy will inevitably have other ways to reserve it, such as flowers and nectar.

And the moment that just started, a petal can reach this huge flower of hundreds of meters, certainly a priceless treasure, is the foundation of Baihuamen and Baihuagu!

Everyone was a little excited when they thought about getting control and having it all.

“Kunlun sent Ziyun to see the fairy, the last time there is a side, today special visit to the fairy. Shen Lang misunderstood us, in fact, we did not have the slightest malice, but Kunlun Mountain encountered a plague disease, urgently need the flowers of eternal life to solve , special to seek medicine!”

The sable ancestors immediately put on a sincere gesture, and when they say it, it is completely different from the previous conversation with Shen Lang.

According to him, it is really troublesome. I want to come here to discuss some medicines, and it seems to be justified.

#### Chapter 2309 - Count down 1

The flowers and fairy also naturally heard their previous words. Now she has not made a statement, and the words of the ancestors of the purple singer make her a little surprised.

“Kunlun suffers from plague and malaria?”

The Kunlun Mountains are in the past, although they are not aware of the huge range of hundreds of thousands of miles, but in general, it is still the nearest neighbor.

The Kunlun School is also a long history, and the predecessors of Baihuamen also have an intersection with the Kunlun predecessors.

When I heard that the Kunlun Mountains suffered from plague, the Baihua Fairy was still a little concerned.

“Don’t dare to deceive the fairy. We have thought about various methods. We have used all kinds of herbs and have no effect. If we can’t control it, we may go to the grass and sea, and it may spread to the world. In desperation, think of it.” Everlasting flowers, so I am looking for a fairy...”

The sable ancestors said very sincerely.

In the Baihua Fairy, there was no opening, and Shen Lang couldn’t help but sneer.

“When you come to seek medicine, do you need to bring four masters from different sects? Also include the evil sects?”

“Moreover, even if your Kunlun faction encounters a plague, it is only a thousand miles in the Kunlun Mountain area. It is only a drop in the ocean. You Kunlun is completely destroyed, and it will not affect the Kunlun Mountains. How to spread it to Caohai How to spread to the world?”

This is not his wish, but the lie is too fake.

Shen Lang is not familiar with Baihua Fairy, but since she has never been in contact with outsiders, life experience should not be too rich. Those who can care for flowers and plants should also have empathy for human beings.

She doesn't care about a person, a martial art, more creatures in the whole area, or it may make her stunned.

Besides, Baihuamen and Kunlun School are finally neighbors with historical intersections and congenital trust.

So without waiting for the flower fairy to make a decision, Shen Lang first kicked the lie of the purple ancestors.

At the moment, Shen Lang also has a doubt, eternal life?

The scorpion ancestors told him the last time about Baihuamen, but did not say eternal life. And looking at them a few without any surprise, should also be some understanding, perhaps the purple ancestors said.

Everyone's relationship is not familiar with that level. Shen Lang is completely ignorant of the Baihua Fairy, and can't blame the Zihao ancestors for not saying it at all.

But he quickly moved.

Perhaps other people are not the ancestors of the sable, but a common-sense legend?

Shen Lang immediately searched for some memories of the dust, and immediately found information about the eternal flower in the memory of the elk.

That is an ancient legend, the legendary eternal flower is a kind of \*\*\*\* flower, with great magical effect, and even can be brought back to life.

But the specific looks like nothing, but no one has ever seen it.

Generally speaking, the interpretation of this legend thinks that the ancient ancestors actually encountered some kind of high-level heavenly treasure flower, which is more like a \*\*\*\*\* than the source of the legend.

Therefore, this is just a legendary flower, and there are some wonderful flowers and flowers that have been proven to be legendary eternal flowers.

It is such a legend, and it is not too shocking, far from being comparable to the Cloud Palace Holy Land.

Recalling this point, Shen Lang is also very understandable.

Just like the special fruit of the Yaochi jade peach, even the cockroaches turned to the earth, the very powerful effect, also let the ancient monks, turned it into a “xian peach”, and then spread to the general public, further exaggerated, evolved into Eat a longevity fruit that can add thousands of years of life.

The ancients who first circulated the “immortal flower” did not know who it was, and did not know the strength.

Not to mention the low-level monks, even the half-sex-level monks, the feelings of treating the same things, and the monks in the realm of the gods, there is also a big difference.

In Yuxianmen, Yuanling Stone is a very rare good thing. They don’t necessarily have the spirit, they may not dare to think. If you see a higher level of spirituality, it will be like a fetish.

Shen Lang also had a personal experience. The place that was suspected of being a warship city-state warfare warehouse was the “underground fairy palace” in the 80,000-year-old relics.

When he got a lot of spirituality from the warehouse, when he went out to sprinkle the spirits, the beast \*\*\*\*\* in the valley directly regarded him as a god, as long as God had so many spiritual threads.

But now, the words of the ancestors of the sable, there is another interpretation.

It seems that there is such an eternal flower, and the Kunlun School seems to know further that the eternal flower is in the Baihua Valley in the depths of the grass!

The answer is further coming out!

These thousands of miles of flowers and seas are planted with countless exotic flowers. The hillside down the Baihua Valley is the treasure of the Huan class.

And just showed that the petal reached hundreds of meters of this huge flower, and is it more in line with the “God Flower”?

Zi Yan ancestors sighed: “You misunderstood. These are all old friends, they are coming to help. According to the rumors of the ancestors, Baihua Valley has flowers of eternal life, can relieve all suffering, so I Do not hesitate to go to the door to seek medicine.”

“But the grass is huge, you know it too. The mystery of the flower fairy is even more known to everyone. I can’t finish it very quickly. In order to save time, let everyone look for it separately.”

“Fortunately, I found the flower sea before I saw the fairy. We guessed that it might be a clue. I found it together The scorio ancestors were obviously prepared, and they all made a Rationalized explanation.

The purpose is self-evident, nothing more than trying to paralyze the flowers and fairy, so that she is not prepared for the sneak attack, it is easier to succeed.

He can also guess that Baihua Fairy will question, Shen Lang is more likely to spray him, and then added a sentence.

“The words that I just said to Shen Lang’s \*\*\*\*\* are because we are not familiar with him. I don’t know the purpose of his coming here. I am worried that he is not good for the fairy, so I will set his words first. Hey... don’t look at his young age. In fact, my heart is very deep, and I am very embarrassed. I have already killed many of our friends and I have to guard against it!”

He will hit it first!

Both are unfamiliar people, who is more credible?

At this time, the “Kunlun School” with a long history and close neighbors can endorse the Zizi ancestor platform with the reputation of the martial art.

This is also why the scorio ancestors dared to directly persuade the Shenlang cooperation in the Baihua Valley, because he had second-hand preparation.

But even though the appearance is very calm, his heart is a bit guilty.

Because I saw the white beard around the Baihua fairy!

The vultures and Kuntu have not seen the day, and the three of them went to the Yungong Holy Land together and saw the day.

When it can be seen that the white pheasant is a nine-tailed fox, her appearance is a bit like a flower fairy, and there is no doubt about the scorpion ancestor, because it is a morphological human form.

He would think that Shen Lang is obsessed with the one-eyed fairy who has seen it. He wants silver in his heart. He wants to circle the fork and can't, so let the fox demon become the appearance of the flower fairy, so instead let him get it. Satisfy.

They are all men, he can understand.

But now, the nine-tailed fox, who is the servant of Shen Lang, comes out with the Baihua Fairy!

Chapter 2310 - Resent

From this point, he can guess that Shen Lang has not just arrived, but has already met with Baihua Fairy!

The Baihua Fairy can hold the fox demon, which means they should talk about it!

The sable ancestors saw it at first sight, and then analyzed this, so the attitude was very sincere, and the implementation of another set of plans did not show any hostility.

Now he has to do, on the one hand, paralyzed flowers and fairy, on the other hand, it is to divide the flowers and fairy waves as much as possible!

Can't let them join hands!

A hundred flowers fairy, let them have the biggest taboo.

A sinking wave, they don't care.

But now carefully counted, it is not just a sinking wave. The dog-like thing beside him is a giant beast, a dragon that looks like a fairy, and a nine-tailed fox.

Together, these three strengths are much stronger than Shen Lang.

And if they are united, then the five of them will most likely have no confrontation!

Not only the sable ancestors thought of this, but the vultures thought of them, so everyone did not have any pride, all with the purple ancestors.

Now, he looks at the influence of the Kunlun School and how much he has just influenced the Baihua Fairy.

If Baihua Fairy believes in Shenlang, then the plan will fail today. They can't fight, can't escape, can only accompany the smiling face, and repeatedly explain that this is a misunderstanding, and it is determined to seek eternal life.

Finally, being driven away by the flower fairy is the best ending.

Of course, they can also anger the sinking waves, and then attack the Qiulin swords, but that is the latter, now must first deal with this layer.

At this moment, Shen Lang did not speak. He wanted to see what the Baihua fairy meant.

If everyone else believes and is willing to open up any eternal life, then he does not need to be a villain.

Under the expectation of the sable ancestors, the Baihua fairy opened his mouth.

“Eternal life flowers are the treasures of Baihua Valley. It is impossible for you to get close. If the Kunlun School really has any plague, it should not come to me first.”

Her words are not fascinating, but the attitude is also expressed.

Yongsheng flowers don't borrow, don't let you get close!

And it is the intention of suspicion of the ancestors of the sable.

“Of course, the eternal flower is the baby of Baihua Valley, and we are just asking for such a fairy medicine. If the fairy is not willing, we will certainly not be reluctant.”

Zi Yan's ancestors smiled and said: “The fairy said it makes sense. Maybe we really shouldn't come here. This is another way to find it.”

Just the statement, basically set the tone!

If Baihua Fairy believes in him, it will naturally be another attitude. He should also ask what the evil is, what kind of symptoms, and so on. He is also ready.

However, the Baihua Fairy did not care at all, indicating that he was directly suspected. Just looking at the face of the Kunlun faction, did not say more confession.

On this part, he must also retreat.

This is also a resentment of the wave of this unexplained variable!

According to their normal plan, it is also considered that the Baihua Fairy will refuse. At this time, it is just a matter of direct action, and the other party may not think that they suddenly turn their faces.

But now because of the Shen Lang, the other party has four, and the five of them can not do it!

The result of the hands-on is that they are a few dangerous and may even hang here!

Shen Lang three can be calculated, Baihua fairy can not be estimated, this is her territory!

Nowadays, you can only avoid the front, and take advantage of this time, find a step down yourself, and leave here to say.

Shen Lang looked at the purple ancestors, and secretly sneered.

He is very clear that the purpose of the other party is to come for the flower fairy, to come for everything in Baihua Valley.

What excuses for seeking medicine, and what to ask for medicine elsewhere are all contingent.

But at this time, he can't say anything.

Does he want to force the other party to do it directly?

Even if it can make a success, in the eyes of Baihua Fairy, this account will count on his head.

Now it is outside the Baihua Valley. The great range around it is the sea of flowers. If you really want to fight up, no matter who wins or loses in the end, it will definitely make a lot of exotic flowers and plants!

These can be planted to this scale, even if Baihua Valley has its own set, it has been accumulated for thousands of years.

Cutting trees is easy to plant trees, and that kind of destruction is a loss to Baihua Valley.

According to the rumors left by the Kunlun predecessors who were told by the ancestors of Zizi, for the sake of these flowers, the historical flower fairy can directly crush a great god!

This is the matter of the flower fairy, and Shen Lang still respects her decision.

“I’m disturbing the fairy, let’s say goodbye!”

The sable ancestors said that everyone has a tacit understanding. The situation is different. They can’t try it now. The variable of Shen Lang makes them very passive.

The only thing that can be done at the moment is to take the opportunity to leave, so that it is better to leave the self-step than to be expelled.

Including the vultures the other four people, also put away the dissatisfaction, unhappiness in the heart, the veritable novel gas with the Baihua fairy to say hello, they are ready to leave.

“And slow!”

The flower fairy suddenly opened.

Shen Lang could not help but secretly smile.

This flower fairy is also, can’t you say it directly?

They were the same before, they were ready to leave, and they stopped living. Now, they are also the ancestors of the sable, why bother?

“What else does the fairy tell?”

The sable ancestor still maintains a respectful attitude and respects the face of the flower fairy.

Baihua Fairy said faintly: “No matter from which angle, I don’t want Kunlun to have a bad disease. I don’t want to have a bad disease in the world. I will give you a bottle of nectar. Although I don’t dare to say that the medicine is sick, it will be revived, but the general problem, Still able to solve.”

During the speech, she had thrown a bottle of nectar to the ancestors of the sable.

This is the confidence of their family's flowers and nectar, I believe that this nectar can solve most problems.

From this point, we can also see that the flower fairy is relatively simple, but not stupid, but also shows that she is still very kind.

"There are people who complain about it, and you guys are so self-sufficient!"

The flowers and flowers are good to talk, and the waves are ironic to them.

"We will naturally be self-sufficient, and I hope that you can do it yourself!" Zi Yan ancestors shook his head and sighed, a pair of Shen Lang is very speechless.

He still wants to divide, does not trust him, but also let the flower fairy do not trust the waves!

"The landscape meets, we will meet again." The vulture smiled a little in a haze, this is what Shen Lang said.

There is no doubt that they all count resentment on the head of Shen Lang. If there are no waves, they will succeed.

Shen Lang sneered.
