

First Strong 231

Chapter 231 - Mysterious origin

The blue man frowned. "I asked you to come here... What is this forest! And your identity, what is your name, which city-state person? Who abandoned you here?"

Shen Lang screamed: "City State? Are you talking about the city? I am a small place, Pingxi, have you heard of it?"

"Pingxi?" Both of them are a little confused, it seems that they have never heard of it.

"My name is Shen Lang, I came in with the Tiandong Xie family. I abandoned it here... It should be counted on the Chu family!"

In order to go out, Shen Lang does not mind revealing his identity.

"Tiandong?"

"Xie Jiachu home?"

Both the blue man and the purple woman are facing each other, and it seems that even this has not been heard.

"No! Xie Jiachu did not know, Tiandong City has not heard of it? Which country are you!" Shen Lang could not help but ask.

"We are..." When the purple-red woman had just said it, she was immediately stopped by the blue man.

"You don't need to know! Given that your language is unknown, the information you are talking about is vague, obviously it is lying! Go, I don't want to kill you!"

Shen Lang is a little crazy, he wants to come hard, but still hold back.

“Does that have this?” He took out the medium Lingshi: “If there are ten such things, I might still have a chance to leave. What do you want, I can exchange with you! Don’t look at me like a beggar, In fact, I have been here for a long time and have already harvested a lot of resources!”

“Spar!”

Both of them were surprised and then stared carefully.

“Although the level is relatively low, it is indeed a spar. How do you have it? Do you know the usefulness of this thing?” The blue man said with a little surprise.

Shen Lang is full of black lines, which really treats me as a wild man!

“Do you want to exchange? I really want to leave here. If you can take me away, I am very grateful. If you don’t want to, there is this... Spar, exchange with me, I am also grateful.”

“Do you have anything worthy of us to change?” The blue man snorted and looked up and down with the waves, completely looking down.

“Speak your true identity, maybe we can take you out, you are not honest.” The purple woman shook her head.

Shen Lang is speechless again. He has already made his identity clear, and he is still said to be not honest!

This may indicate that his popularity is far from enough. After a long time, everyone has forgotten it. Either they are really people and overseas.

“I don’t honestly say my identity. What about you? I don’t even dare to say that I will not be a criminal!”

Seeing that they will not be exchanged, Shen Lang is not polite again, big deal to grab them and **** it!

“You are a criminal!” The purple-red woman glanced at her and then pointed at him: “Listen, we are the city of the river, my name is Bihaihuan...”

The blue man was busy reaching out to her and prevented her from continuing.

“Sister, he is a radical law, you count.”

Hearing his whispering reminder, the purple-red woman who claimed to be Bihaihuan snorted: “Insidious! It seems that you are a criminal, maybe you will throw it here to punish!”

“The two wait first, the river city-state... What is the ghost place? Which country belongs to me, I have less reading, I have never heard of it.”

Shen Lang is thinking about it for a long time. I don't have to say it in previous lives. I have never heard of it in many places overseas. This world has not heard of the watershed city-states at the level of high school geography.

“You are the place to be a ghost!” Bihaihuan said with no anger.

The blue man who looks at the sinking waves is not like deliberately talking about it, but it is more serious: “Do you mention the country?”

“Do not belong to which country? Oh! I know, you are a pirate city in Bermuda, the Caribbean, Somalia!” Shen Lang guessed whether it was an independent regime in some pirate areas and not a city of any country.

“You, you are a pirate!” Bihaihuan pointed to sink.

“Country!” The blue man caught the key point: “You said again and again, is it the place you came to... What do you say about Tiandong, not which city-state, but belong to...the country?”

“Crap! Of course it belongs to the country, more than 200 countries in the world...” Speaking of it, Shen Lang was amazed. “You...you and me are not from a world?”

This discovery, even if it is a deep wave, is really a surprise!

It's called Death Forest, and other names. He's been here for hundreds of years, and Count Dracula has come in from another place, but these are all understood to be the same world.

But now these two people, strange to the concept of the country, are all city-states, they are completely different. Combined with their black technology, maybe another world is coming in.

Hearing this, even the woman in the purple tights Bihaihuan was surprised, and she looked at her brother, and then the two men looked at each other.

“You don't pretend to be a ghost! You can't lie to us.” Bi Haihuan said another.

Shen Lang smiled: “It seems that this may be the biggest, so I honestly said that I have never heard of it. And you said that the river city, I have not heard of it. Yes, we are here... Hey, We are a state system, not a city-state concept.”

The blue man exchanged a look with Bi Haihuan and looked at Shen Lang again.

“Whether you say it is true or not, take you back and check it out! This just happens to take you out.”

The blue man said, he didn't know how to operate his black tech suit. The sword in his hand shrank and disappeared. Another metal rod appeared in his hand. As his hand trembled, the arc flashed. .

Look at him, it is to take away the waves!

For the technology, Shen Lang knows a limited amount, but seeing the level they have just shown should be beyond the earth technology, so I dare not care.

When the blue man shakes the metal pole, Shen Lang raises his hand directly and throws it out in the air!

He threw the blue man to a big tree nearby. He wanted to go to a huge stone, but in order to leave a chance, he threw it at the big tree.

But the tights on them, but the black tech suits that can be launched into armor and aircraft, just throw people away, certainly not hurt people.

To this end, after throwing it out, his fingers slammed a sigh of relief, and concentrated his brain in the air before the blue man had fallen.

With the protection of this suit, other places will not be injured, but the head is exposed, it is still an opportunity.

After the blue man was thrown out, he immediately put away the metal rod, and the battle suit quickly unfolded his armor, including his head. He would not be injured and could immediately fight back.

It is a pity that the backhand of Shen Lang was very timely. At the moment when his armor had just come out, he had already stunned him.
