

First Strong 2311

Chapter 2311 - Fairy shocked

They left immediately, and quickly left the road, and soon disappeared into the distance of the sea of flowers.

Everyone's friendship is limited, and Shen Lang does not praise the way people handle things.

“Things have come to an end, and nothing has happened. It will be better to have a heart after the fairy. Leave!”

After Shen Lang finished speaking, he said hello to Bai Yu.

Bai Hao is respectful to him, she is also a bit tangled.

It is a long-term dream to follow the Shenlang and follow the Baihua Fairy.

The dog **** did not have anything to insert, but it seemed to be just a dog.

“You have to be more careful.”

The flower fairy changed a little, and then the huge petals below opened again. She went straight down, and Bai Hao nodded to Shen Lang and quickly followed.

Looking at the eternal life of the huge petals of the eternal life, Shen Lang could not help but laugh at himself.

It seems that no one can be underestimated!

Judging from her recent performance, she still feels that her heart is soft, her complaints are simple, and she is relatively simple. Now it seems that she is also an old fox.

In the situation just now, the Baihua Fairy is obviously all see through!

It's just that she may have her principles, and she doesn't want to kill them a few directly.

And by Shen Lang, Bai Yu and the dog ***** here, the strength of the board, let the purple ancestors they dare not do it.

They don't dare to start first, and she has no reason to shoot.

So simply behave generously, point out their own attitude, disguised them to leave, and sent a bottle of nectar – even if it is very precious, she is certainly not lacking!

But she also saw it, the purple ancestors, vultures, they will not let go of the waves.

They left first, and if Shen Lang and the dog ***** followed, they might wait in front of the ambush!

Because when they came, Shen Lang was already above the Baihua Valley, and Bai Hao followed her from below.

It is not difficult for others to analyze it. He has already visited the flower fairy, which is when he is about to leave.

Then they are five, can you wait?

Even if Shen Lang leaves in one direction and walks in the opposite direction, can others guess? Will you not be guarded by a few roads?

She just said this is really reminding Shen Lang, it is really happening!

But leaving Baihua Valley here, she will not care, the grass is so huge, how can she see it.

To count this, it is equivalent to transferring this disaster to Shen Lang!

However, Shen Lang can not directly blame her, because she is a normal treatment, the enemy does not dare to do it, maintain a respectful attitude, it will not become an enemy, she can not be destroyed in advance, this does not meet the Baihuamen in principle.

She can't follow the protection of the sinking waves. Besides, even if it is protected, it can only protect him from the sea of flowers. At most, he will leave the entire grassy area. Is it difficult to send it home?

They are not fuel-efficient lights!

Shen Lang is secretly funny.

Five of them, can you really block him?

If he really wants to leave, don't say thousands of miles to sea, let alone hundreds of thousands of miles of grass. Even within a small area, he can go straight.

He wants to leave the dog **** first, for example, to leave the flower sea first, at least to leave the Baihua Valley, and then use the door of the Three Realms to send away, that is, she is also a little wary.

Otherwise, he can now transfer directly from here to Qiu Lin Jianzong. Let them wait for five, and then they will not come back to Baihua Valley, and they have nothing to do with him. His human feelings are already on the list.

However, Shen Lang did not leave like this directly.

He even knows that there are tigers in the mountains, and he prefers to go to Hushan!

The direction in which he left with the dog **** was the direction in which they left.

Quite simply, no matter what method and clues the Kunlun School has to find Baihua Valley, one of the reference points is the place where the Baihua Fairy was last seen.

Shen Lang was also looking for it from there.

They just left, or in that direction, Shen Lang is leaving now, and he is going there.

After they left, the eternal life was under the huge petals, and the flowers and fairy were looking at each other.

“Does this sinking wave, say that he is stubborn, or is he proud?”

This is like talking to Bai Yu, but also like talking to himself.

She just gave him a reminder that the five people might ambush him. However, Shen Lang not only did not go in the other direction, but also chased their direction.

The day is very calm.

“I believe he won’t have anything to do.”

“Do you think he can deal with the five people?” The flower fairy fell slightly.

She will leave a day, in addition to such a chance to be continued, the natural talent is also recognized.

But now this sentence has made her a little disappointed.

This little white fox talent is good, but the eyes are really bad!

Of course, she can fully see the difference in the strength of all of them. In the age of Shen Lang, it is indeed a genius against the sky, but in the realm, it is similar to them, at most a little stronger than them. It is impossible to deal with five!

And Bai Hao is full of confidence in Shen Lang, it seems that he is determined to win, can only show that her eyes have problems.

“The fairy did not know. On the day before, the master and the chilling autumn ancestors, led us to deal with the 20 ancestors of the great gods – all and just one level of white. When I stated the statement, I was afraid that my expression was not clear enough, and I explained it specifically.

“Just today, there are eight other gods of the same level. This time there is no high ancestor, that is, the master took us a few and solved them all.”

“Right, one of them is begging for help, let him go. I guess... the master knows that someone is offending the fairy, the clue he got from the big ***** that was let go, so we rushed over.”

The Baihua Fairy is able to see through the strength of everyone, but also to see through the true intentions of the five people. The cause and effect of the Zizu ancestors can also be guessed.

But he does not know the record of Shen Lang!

At the moment, she simply said the record, she is absolutely unbelievable!

Twenty, eight, and even the same as the five, even Shen Lang with white 媿 and the beast god? This is definitely impossible!

She estimated that it should be dominated by the icy autumn ancestors, and Shen Lang just followed the light.

However, after the White Man is still respected by Shen Lang, he is called the “master”. It can be seen that he will continue to ask questions, and he will still be facing the Shenlang and beautify the Shenlang.

Therefore, Baihua Fairy did not ask her anything, read her memory directly!

The flower fairy is not only far better than the white, but the white is not the slightest defense for her, that is, she wants to kill, and the white may not resist the frown.

Therefore, in the absence of any discovery in the day, Baihua Fairy has already read her memory.

She is looking for evidence to prove that the power of Shen Lang is nothing but a bragging!

As a result, the strength of Shen Lang surprised her!

Although the time of Bailu and Shenlang is not long, the key places such as Yungong Holy Land and Funer Valley are not involved in the visit, but it is only in the last two wars that they have not lied. I was completely shocked by her.

Chapter 2312 - fishing

When the Baihua fairy was shocked by the sinking waves, Shen Lang took the dog ***** and returned to the place that was sent before, that is, the last time he encountered the Baihua Fairy.

A hundred miles away from Baihua Valley, Shen Lang sensed that several of them were watching him in the distance!

The five ancestors of the sable ancestors did not stay away, but after leaving for a period of time, they dispersed, and the purpose was to capture the route that Shen Lang left.

They are separated by a large area, almost forming a large ring just outside the Baihua Valley. The first one is not perceptible to the fifth, and even the third cannot be perceived.

But it can be done one by one, in the form of a fire relay.

For example, Shen Lang is in the third direction. The third can't contact the fifth and the first, but he can contact the fourth and second, and they will send another letter to the other side.

In the absence of a phone call or navigation, they blocked hundreds of miles in this relatively primitive way.

After perceiving the Shenlang to leave, they are only concerned, not swaying, but because of the collection.

Because no matter which direction Shen Lang goes, it can only be close to one, or just happened to be in the middle of the two. And what they have to do is to quickly pass the information one by one, so that everyone can come together in the direction of the target.

The speed of these great ancestors is very fast, and the speed of the rushing road is also very fast!

When I came, Shen Lang was pre-feeling a general position. I didn't know the specific location, so I searched all the way, and the speed was still much slower.

Now leaving, although almost all the way is the same flower sea, but because of the trajectory of the holy armor, he can return to the specific origin accurately.

However, even though it was a lot faster than it was, he did not fly as fast as he could, but kept the level of attention that the other party could pay attention to.

After all, he is not afraid of the five of them. If they are really worried about their ambush, they will be sent away directly, so that they can't see the shadow.

It is equal to saying that he is interested in fishing.

Just like this, Baihua Fairy is not taking him to attract firepower. He can also take care of it, but Shen Lang is very clear about the follow-up!

This time, the Zizu ancestors invited the ancestors and Lu You ancestors, but there are also vultures and Kuntu. This is a joint effort with the evil faction, saying that going out is spurned!

The invitation was for Lu You, because he had seen them at the Kunlun School last time.

That time can not be regarded as Lu You and other people colluding with the vultures, because everyone's goal is to sink the waves, and finally become the same camp in disguise.

Of course, they will not say anything to them afterwards. This time, regardless of whether the ancestors used the last opportunity, they were invited to join them. In general, it is inconvenient to disclose.

The variables of Shen Lang, on the one hand, disrupted their plans and prevented them from attacking Baihua Valley. On the other hand, if this is leaked out, it will have a big impact on their reputation and the reputation of their martial art.

In this way, you don't need vultures, and all three of them will want to keep the waves in the grass!

Vultures and Quintu don't feel the reputation is damaged, but they are from Tuli. Baihua Valley can't take it for a while, and taking down Shenlang is also a good make-up.

After all, when the light was the secret technique that opened the ancient organs, it was worthy of being vultured. The value of Shenlang has been much greater.

In this way, the mentality of the five of them is the same, and they all want to kill the waves.

Even if Shen Lang is now transferred from here, the monk can't run the temple, and they will look for the past.

Since it is a plaster that cannot be opened, it is better to solve it earlier. In the grass sea battle, it is more peace of mind than the battle of Qiu Lin Jianzong.

He is now heading in one direction, to catch them and to lead them all.

And five people, including the sable ancestors, did not follow. On the one hand, we have to wait for five people to come together. On the other hand, we also want to leave Baihua Valley a little further.

Because they are jealous of the flowers and the Shenlang, they all join hands, as long as they are separated, no matter which side, they still have confidence.

When I first saw the place where the flower fairy was, it was already a thousand miles away, and it was the best place to do it.

They also don't want to pull away the distance any more, so as not to have a long night dream, and there are still many ways to sink the waves. If they leave directly, they will have more trouble to search again.

Therefore, a few people who were originally adorned were the fastest speeds they had exhibited, and they quickly pulled closer to Shen Lang until they were blocked.

Being able to "block" is naturally intentional.

“Purple ancestors, are you not sick enough? Isn’t it going to die? Why, do you want to come to me for medicine?”

Shen Lang ridiculed a satirical Ziyan ancestors sullen face, although the worst results before, but the best results, still very far away, so they are very unhappy.

“Shenlang, not as much as you talk nonsense, you interfere with our actions against Baihua Valley, you have to pay the price!”

When he finished, the vulture immediately added one.

“The price of the sable ancestors is not to kill you. You only need to make compensation. You can hand over your tower and we can do nothing as it happens.”

His sentence immediately attracted the reconciliation of several other people.

“Yes! You have to take out the tower to pay for it.”

“Although the same magic weapon is limited, we will not care so much about you.”

“Otherwise, don’t blame us for killing you! When the time comes, we will return to us, everything you have will be ours!”

The words of the ancestors of the sable are too practically binding. The condition of vulture is full of confusion.

There are two pairs of five on the bright side. Normally, the great possibility is to lose.

If you lose, the beast ***** or the deep wave will become a resource for others to divide, and the towers and all other magic weapons and resources will be taken away by others.

If we balance, we can abandon the tower and exchange for a living road, which is a wise move to lose the car and protect the handsome.

But can this be useful for Shen Lang?

He can also think of it with his toes. This is simply that the vulture wants to set him up. This is the power of the tower, so that the vulture is overwhelmed!

The vulture feels that it can be used to get the tower of the tower, which is equivalent to breaking the left and right arms of Shen Lang, which makes it easier for them to destroy him.

Shen Lang smiled a little: “Do you really think that if you are a few scum, are you qualified to scream with me?”

Chapter 2313 - Situation reversal

His understatement, Zhangkou is the contempt of scum, so that the sable ancestors have a hot face!

Even if it is a vulture and a Kuntu, it does not mind being regarded as a sect, but it is also a famous big scorpion. Before the smashing of the waves, it was blamed as a dog thief, and now it is a scum, so that they are also angry and tempted.

“Give you a way to live, you have to choose a dead end!”

The vulture looked cold and cold, and the tone and voice began to get cold.

“The same thing, you should say it to you.”

Shen Lang shook his head: “The Baihua Fairy has just spared you a life, but you don’t cherish it yourself, you have to come to me to find death.”

Having said that, his tone is cold.

“In addition to this Kuntu, you a few, I have spared you once, but no more patience!”

Just say a hundred flowers fairy, they have nothing to say, just outside the Baihua Valley, Baihua fairy plus Shen Lang three, plus the mysterious eternal flower, they may be very dangerous.

But Shen Lang actually said that he had bypassed everyone’s life before, and no one was convinced.

“Big words! Shen Lang, last time in Kunlun, but you escaped with your own tail, or else, you still have today? We have been killed!”

“Everyone noticed that this kid has the door of the three kingdoms of artifacts, which can be quickly transmitted to the distance. This time he can’t let him run!”

Happy old ancestors and Lu You ancestors, there is nothing to entangle now, directly to kill the sinking waves as the goal.

On the same day in the Kunlun Mountains, Shen Lang was in the face of their six or seven ancestors, so they fled directly, so now must be guarded against the sinking waves!

In fact, when they came to block the Shenlang, they had already joined hands to control the field in different directions. This is to block all the surrounding areas and not give the opportunity for Shen Lang to enter the land.

This kind of blockade has been directly around the Shenlang. Even if the field can’t hold back Shen Lang’s use of artifacts to send away, he can also be involved.

With everyone’s strength, as long as you pull a little bit of time at a critical time, you will be sure to attack him before he disappears!

“Is it? It is still late!”

When Shen Lang said this, they already felt the space fluctuations!

The last time was unprepared, everyone was temporarily on the same front, but this time there was an ally with tactical discussions, and on the way just chasing it, it also targeted Shen Lang, and secretly had exchanges, including just sending him a message. get away.

So at the time of the fluctuation of space, the control of the field by five people reached the strongest!

The comprehensive synergy of the five people is that they can completely imprison a great powerhouse!

The power of the field lies in being stronger and taking the lead. The five combined forces are much stronger and have already taken advantage.

As expected, this time is sure to be able to take the Shen Lang to the side, while the five people also each face the Shen Lang in the field, issued a fatal blow!

They can be restrained to live, but if the artifact is unfolded, there is still no way, because it is transmitted directly from this space, and it is forbidden.

However, the high-pressure imprisonment is able to control the play of the sinking waves, and it can slow down the speed, which is enough for them.

However, since Shen Lang has the heart to let them block, and does not seize the advantage of the field, is it to give up?

Of course, I have only prepared for it long ago. The door of the Three Realms has already started to operate, but it will only leave now.

When they feel that the space is fluctuating, they are already signs of transmission.

Therefore, no matter whether they are strengthening the imprisonment or the full-scale attack, they have no effect. They can only watch the Shenlang disappear faster and disappear from the front!

At that moment, the vultures, the happy, the three quiet, are very annoyed!

Before Shen Lang had already been in front of them, it disappeared once. Now that it is fully prepared, it has once again disappeared from their presence. This is very unpleasant.

The sable ancestors saw it last time, but he is watching the fun, this time it is related to himself. This made him sink in his heart. No matter where Shen Lang sent it, they couldn't catch up soon, and they were spread out!

Kuntu has not experienced the last time, although he knows a rough, but he is still the purest one.

I am annoyed that he also has it, but it is still clearer than others that the slight energy fluctuations are coming from the rear!

His knowledge immediately sensed the past, and immediately discovered that it was not an illusion. Shen Lang took the beast ***** and appeared behind them!

“Shen Lang is behind!”

It's too late to talk to the police. He spread the sentence in a way that was quickly spread around and let the five people feel it.

But after all, it is still slow!

Other people, no matter what their thoughts, are only a little slower. When Kuntu warned them, they also sensed the anomaly behind them and immediately discovered what it was.

It's just that they all slowed down as a whole, and when the waves appeared, they attacked with the dog god!

The last time Shen Lang really did not beat them must be transmitted to a distant place. But this time it is different. After passing through the Yungong Holy Land and the Funer Valley, after two recent big gods, he is very confident in his own strength.

Even if it was calculated, it was not transmitted back to Qiu Lin Jianzong. If this is the case, there is no need to keep up with them.

The goal of Shen Lang is just behind the back, that is, leaving their field control circle.

In the twinkling of an eye, he was turned into an active attacker by the besieged!

Before he transmitted, he had already communicated with the dog god, so at the moment, two attacks were launched at the same time!

Hesitant to smash the waves, the dog ***** has been suppressing the strength before, they will not think of a beast ***** can leap in such a short time, and did not pay much attention to it, calculate its combat power, are in accordance with the previous level.

Shen Lang is also the second time that the Great Gods have been destroyed. They have never seen each other. They have never seen the Dragon Valley and the Dragon. The only thing I know is the Yungong Holy Land.

However, in the Yungong Holy Land, they did not see Shen Lang and who worked hard, and more felt that he had special talents for cracking organs.

Cui or both will not count on the head of Shen Lang, it is performed by the dog god, and there is a cold autumn.

Therefore, for the strength of Shen Lang and the dog god, they are considered to be seriously underestimated.

Since Shen Lang decided to take the shot, he will not give the opportunity to the other side!

When the moment of transmission to the rear, Shen Langxin moved freely, the sword of the first hand, the hand of the dead water whip, directly to the side of Kuntu.

The goal will be Quintu, not because Quintu first discovered it, but because it knows the least, or kills it first.

He is close to Kuntu, and the stagnant water whip is directly entangled in the past, while the sword of the king is attacking the vulture!

Chapter 2314 - Dead water can't be broken

The five of them were formed by encircling the waves, and each of them was at least tens of meters apart.

The power of the stagnant water whip is ok, but the disadvantage is relatively short, can not be stretched, must be melee attack to play the effect, and wait until the realm of the gods, often do not need to be close to solve, it is more chicken, and the waves may be long useless.

The sword of the king is not the same. In addition to the powerful bonus of the sword sword, it can be extended and enlarged rapidly.

At this moment, Shen Lang chose to use these two together, which is to use their respective strengths.

Near Kuntu's body, he attacked him directly with the dead water whip, while the sword of the king attacked the vultures that were tens of meters away!

Kuntu is the old brother brought by the vulture. He has never seen the tidal wave. Of course, the vulture will pay him a lot. In particular, it is the artifact that needs to be guarded. It is a blood lesson.

I just found out that they had reached the rear, not just Kuntu, including a few of them. The first reaction was that Shen Lang would collect them in the back with the tower!

It's too late to get back to the field, so their first reaction is – do you want to escape?

But don't wait to look back, the gods have clearly realized that Shen Lang did not sacrifice the tower, but rushed to Kuntu!

This makes them pressured, this kid is equal to giving up their strengths!

And also verified a guess!

Their purpose in this trip is the flower fairy, not the layout for Shen Lang, but the coping of the purple, is also the variable, the variable is not necessarily a wave.

But in such a small amount of time waiting for Shen Lang and following him, it is already through the communication of consciousness, and there are some speculations.

The last time Shen Lang used the Tiantian Tower, it was able to successfully absorb it, which was basically a situation in which the opponent was hit hard. Does that mean that if the state is at its peak and its strength is not inferior to that of Shen Lang, is he unable to absorb it, or is it difficult to succeed?

Shen Lang just needed to send away and then attack them from behind, which seems to them because the two can't fight them five.

In the case of strength and disadvantage, the tower is so good, why not? Are you afraid of suppressing them too fast?

There is only one possibility – they are in good condition and not worse than Shen Lang, and it is difficult for Shen Lang to successfully accept them!

It confirms everyone's conjecture, and it is also the effect of two aspects. On the one hand, it is a bit disappointing.

After all, like a vulture, you really want to get a tower. If you have such an artifact, you can absorb the enemy. Is it not a fight?

However, if you want to make your opponents hit harder, you can absorb them more easily. Have been hit hard, isn't it better to kill directly?

In addition to disappointment, there is also peace of mind.

They used to be jealous of this magic weapon. If they were able to absorb one of them, then the five of them would not suck. This is the reason why they just wanted to escape.

Now that I want to understand this point in a flash, they have no jealousy.

Without the tower of the sky, Shen Lang and the beast god, it is only by the advantage of sneak attack. They have five people. If they are in front of each other, they will play one, and one will be free to help. Is this not one-sided?

Seeing that Shen Lang is attacking Kuntu, he still does not forget to wave his sword to himself, and the vulture is not good!

This is to think that the district is savvy and can hit him?

The strong man of the realm of the great gods, the power of the sword is naturally able to spread very long, not to mention tens of meters, a few hundred meters are no problem. But that depends on who the opponent is, and his vultures are not weaker than Shen Lang!

Therefore, his comprehensive defense, directly on the front of the “sword gas” of Shen Lang!

The body of the dog ***** is also rapidly becoming bigger, and then pounced on them, because it is big, one directly restrains the three people of Xiaoyao, Luyou and Zijing.

Quintu was the first to discover the sinking waves they sent to the back, and of course he was the first to respond.

When he showed his warning to everyone, he had already prepared for the battle, gave up the layout field, and prepared to attack the waves directly.

As a result, Shen Lang came to him at the speed of ghosts, which made him feel that he was sent to the door!

The close-knit Shen Lang was attacked by a soft whip to his body, and also distracted from attacking the vulture!

This makes Quinto feel that she has been despised!

He has no other tricks, let his full-power defense defense, and then put 10% of the power in one hand, directly grabbed the soft whip with the palm of his hand.

His way is very simple, and it's hard to hit it directly with Shen Lang!

He has already done a full-scale defense, and Shen Lang has to be distracted to attack the vulture. There should be no other way to attack him.

The hard-acting corner field is this soft whip. The two people gather together in the past, and may directly destroy this weapon. Even if it is a magic weapon, it may not be worth the two great gods to fight against each other.

But... what about it? If it is ruined, it will be a deep wave. He will not feel bad. He has no idea about this whip weapon. If it is destroyed, it will be ruined. He feels that with 10%, it is hard-headed. It can also hold the waves firmly. And Shen Lang has to be distracted to deal with vultures, and it will inevitably be crushed by him!

When it was said that it was too late, when the vultures rushed over, Kuntu's hand also seized the "soft whip".

It feels like...

Why is it not right?

Ordinary weapons can't afford him, and it is impossible for Shen Lang to attack him with ordinary weapons. It must be a magical whip.

It should be reasonable to be able to withstand his grasp, and to collapse and wait until the full wave of the waves.

Besides, if Shen Lang is only half the strength, it is not a collapse, but it is crushed by one side of him, and it is bombarded to Shen Lang through this soft whip.

But just started... It felt unspeakable. He didn't seem to be catching an entity, but it was like a pool of water, and then he felt the pain of corrosion!

In a moment, the place of contact has directly rotted the meat!

His strength is very powerful, but what about crushing a water? Liquid stagnant water does not "crush", but is squeezed and deformed, and then added to the swing control of the sinking waves, in addition to palm contact, and even around the back of the hand, wrist and so on.

At the same time, the vultures have already rushed in half, and then he found a scene that made him horrified!

The sword of Shen Lang does not rely on Jianqi to attack him. The sword in his hand has actually expanded into!

Plus his own initiative to meet, both accelerated, this almost reached his front!

It is Jianqi, he is confident to be able to defend, but the sword has come to the front, so strange, it is obvious that this sword is not the same, which makes him dare not tough, quickly dodge to the side.

However, Shen Lang only needs a slight movement of his wrist, and he has been chasing him over!

Chapter 2315 - 1 heart 4!

Shen Lang is actually a single-minded one at the moment!

In addition to attacking them both left and right, he also used a mind to manipulate the realm of God, but only for defense.

Just defense, the range he controls is not big, just a few feet around. In this case, not only is it easier to control, but the effect is also optimal.

Moreover, it is also very concealed, that is, the Kuntu figure that catches the water whip, and has not touched the scope of the field of God, and will not be aware of it.

Such a single operation is not easy, and it is even more difficult to use it with one heart and one mind. But now Shen Lang's mental strength is more than enough, just like multi-core cu, multi-threaded processing is not a problem.

Because the speed of the entire attack is very fast, it is not between minutes and seconds, but it will be a subtle gap.

So what Kuntu has just been able to do is to do everything in his power and put his power in the palm of his hand, ready to burst into the waves through the soft whip.

But his condition is like a boxing champion's gravity punch. If it is hard to beat, it can break the board and break the bricks. It can knock people down and stun, but the moment they hit, they find that the target is a beach of sulfuric acid... ...

After the stagnant water rushed into the hand, it was discovered that this was a mysteriously condensed liquid. He immediately slammed it and nowhere to release it. It was directly against himself.

The super-corrosive nature of the stagnant water immediately made the place where he touched began to rot!

Normally, stagnant water is actually not corroded by the great gods.

The body of the Great God can be said that the water and fire do not invade, but there are also levels. For example, ordinary flames can not be burned, and the spells of the three fires are not burned, but the fires like the heart fire can not stand.

Generally, the sulfuric acid venom and the like cannot be corroded, but the stagnant water cannot withstand it.

However, in the normal state, the great gods will not let the dead water touch the edge. For example, with the protective cover, the dead water can be opened. Spiritual power can also be manipulated to separate, and the speed can be avoided.

When Shen Lang deals with Kuntu, he can only use this one time. When he comes into contact with it, he will naturally be prepared. Others will see it and will be prepared.

But Shen Lang wants it once, just after this, he is pitted to him.

Of course, Kuntu is only being pitted, and will not be continuously corroded by the stagnant water. He immediately wrapped his hands around his hands, isolated the stagnant water, and quickly healed.

But he immediately discovered that this stagnant water could continue to infiltrate and rolled over to him!

Before Shen Lang verified, the stagnant water can penetrate even the gods, and the general vitality defense is naturally nothing to say.

However, this depends on the specific individual. Last time he was able to infiltrate the gods because it was “borrowed”. The avatar of the light god, attached to the archbishop of Paul, is not at the level of the gods.

In other words, Kuntu’s vitality protection is inferior to the protection of the gods, but his own realm is higher, so he can hold it.

But it is also two-way. Just like defending against other people’s attacks, even if you can defend against it, others may continue to have time strength, and it may break open.

Only with a layer of protection, the stagnant water will corrode his flesh and blood, it is necessary to break through the protection.

At that moment, Kuntu’s life was not good. After his full blow, there has been a part of the counter-attack, although not to the extent of serious injuries, but also very uncomfortable, all aspects have discounts.

While defending the stagnant water and healing, it is found that the stagnant water can continue to attack and must be strengthened.

When his state was a little worse, and he put his attention on the back of the dead water whip, he did not expect another sword to deal with the vulture of the vulture, and then added an attack!

Shen Lang’s hands are not stopped, but it is a condensed light, from Yintang to Kuntu’s head!

Originally, Kuntu felt that there were vultures with him, even if they were sneaked, they would have to regain their upper hand if they slowed down. I didn’t think of it, Shen Lang was able to burst out of the light!

He found that it was too late to defend again.

He also has a vital body, but the focus is on the defensively flexible and corrosive stagnant water. Who can think that Shen Lang will explode him at this time!

The protective cover of the element only slightly blocked the power of the front end of the light, and the light was continuous, and immediately hit his head, and immediately began to explode his head!

When the head is hit, Quintu certainly can't take care of the dead water whip, while the power defense resists the light, while speeding up and wanting to leave!

But after all, it is still slow, and the constant attack of the gods is the head!

If the limbs are broken and the torso is worn, they can still live, but the head does not need to wait until it breaks down, and it will lose consciousness.

And Shen Lang is now a single-minded, full firepower!

When Kuntu fled, there was no stagnant stagnant water whip, and immediately trapped his body.

With the corrosive force of the dead water whip, the bundle is quickly penetrated into the vitality protection, and then rotted clothes, skin, muscles...

On the other side of the vulture, he found that after the change of the sword of the king, on the one hand, it raised the importance and defense, on the other hand, it was also very exciting!

This is obviously a very good sword!

His purpose is to benefit, that is, resources. The ancient mystery of Shen Lang's mind is a resource. Shen Lang himself is a resource. The artifact is also a resource Now it is natural to find more resources.

But he soon discovered that it was not so easy to attack the waves!

This young man dared to use the "two" to attack Kuntu and him, not only carrying weapons and magic weapons, but also his own experience is very rich!

Looking at his one-handed sword, he is very experienced, and he is said to be a great **** ancestor of sword repair. But how old is he?

A person can be genius, can't understand everything?

And then he found the tactics of Shen Lang!

I thought that the young people were attacking both of them at the same time, but from the situation in Kuntu, it can be found that Shen Lang's fast running sword style only restrained him first, so that he could not be close and could not attack. The point should be to kill Kuntu first!

The strangeness of the stagnant water whip also made him see it. It should be a good magic weapon to think of this.

The vulture feels that he has grasped the source of confidence in Shen Lang. This kid dares to be so arrogant, because the magic weapon is much more!

He is not afraid of the sun and the magic weapon, the more he gains!

Since Shen Lang is holding him down, the focus is on Kuntu. He doesn't need to be so conservative!

When it was said that it was too late, the vulture side was actually carried out simultaneously with Kuntu. When the light hits Quintu, the vultures also avoid the sword of the king in a strange way, and instantly invade the side of Shen Lang!

This is actually not too much, because everyone's distance is less than tens of meters, and the sword of the king can be long or short, but the longer the flexibility will have a little impact.

As long as he is fast enough, as long as he is brave enough, he can still come close.

While the vulture is close, one hand has already caught the head of Shen Lang!

Dealing with such characters as Shen Lang, the swords and whip of the artifacts are useless. There may be other magic weapons, only to control him!

Chapter 2316 - Between feet

The idea of vulture is not wrong. It directly grabs the head. The multiple suppression of vitality and mental strength can instantly break the enemy.

Then he can take the opportunity to read the memory of Shen Lang and absorb his mental power.

The last time he went to Kunlun to slam the waves, the value of Shen Lang at that time was the ancient secret technique in his head. If he masters the secrets of Shen Lang to open the ancient organs, and then destroys the Shen Lang, it becomes his unique patent!

At that time, those sects that had not been opened by the ancient organs in the past, had to ask for help.

Is there a righteousness to help?

At that time, he would just talk about the conditions. For the long-term interests, he would not have been too arrogant, but he opened an organ with 10% interest and believed that everyone would still be willing.

That is a win-win situation, the major sects are giving up one-tenth of the benefits, in exchange for the treasure chest can no longer see the day. Vultures can accumulate a lot, and if you open dozens of treasure chests, he will be equal to a few treasure chests.

And the treasure boxes of different sects, the accumulated time is not the same, some may be obtained two thousand years ago, and some may be a thousand years ago, some of which are obtained from this wave.

These treasure chests are not necessarily found in the same place. It is possible that one batch is a super resource and the other is a chicken rib. When he is divided into 10%, he will be able to balance, and there will be no bad luck.

By now, the value of Shen Lang is getting bigger and bigger. In addition to the harvest of resources outside this body, the vultures want to get the memory of Shen Lang.

How did this kid improve quickly? Where did you get so many babies?

Compared with the ready-made magic weapon, if you can get the golden finger of treasure hunt, it will be a longer-term and broad benefit!

The vulture is a vulture. He does not have the burden of a big school. He has no high-spirited burdens. What are the ancestors of the purple scorpion? They also want to find a reason for being crowned, and they are self-deprecating.

The vulture has always been the clearest target, and his purpose is to benefit! As much as possible!

Otherwise, he is a sinister singer, why should he run to cooperate with the Orthodox ancestors?

So just when the Baihua Fairy had no hope, he put his target on Shen Lang, and he thought more about getting the biggest one!

Now their three ancestors are being held back by the giant beast, and Shen Lang is focusing on fighting with Kuntu. This is his best time!

The vulture even felt that Shen Lang was because the last time in Kunlun was too smooth, so he was underestimated to him and he would be placed behind to deal with it.

Of course, he will not be angry, but he will be surprised and excited. He is going to take advantage of this wave and quickly take down the waves.

As long as he gets everything in Shen Lang's mind, he is the biggest winner. Other magic weapons are indifferent, and it is better to absorb all the spiritual power.

So it seems that he is very adventurous now, but in fact it has been well thought out along the way, and now there is this opportunity, or else he has no chance to create this opportunity to achieve.

And strictly speaking, adventure is the premise that the enemy is stronger than him and is the same as him.

The last time I met, Shen Lang was the highest level of the Great Xianfeng. Even if it broke through to the realm of the Great God, it is impossible for the vulture to be stronger than his old god!

Shen Lang is so arrogant, it is entirely because after the promotion, the strength of the rapid advance, let him expand, plus the magic weapon, the young people floated, I feel that they can kill them.

In addition to this, Shen Lang has to be distracted to focus on Kuntu. Isn't it equal to him as long as he is part of Shen Lang?

In the eyes of the vultures, this move is not just an adventure, it is simply ten. And the opportunity is fleeting and must be grasped.

It's too late to say it!

The vultures grabbed the head of Shen Lang, which was very fast, and it was in the same moment that Shenlang Yintang shot at Kuntu.

The vulture's hand looked at the head of the wave, but suddenly found that the speed of the front became slow!

There is nothing in the front, but his hand is like being stuck in a super glue, and it is extremely sticky and dragged.

There will be a protective cover around the Shenlang, which he can imagine, and he prepared it.

He is not simply "reaching his hand", but it has a powerful force. It is the extent to which the steel can be crushed. It is the budget to pierce the shield of the waves, and there will be no delay.

But now this situation is obviously not a problem with the protective cover. The general state of the super glue is not only difficult to pierce and crush, but also a counter-attack along his arm!

Field!

At that moment, the vultures already understood what was going on.

Everyone's use of the field is generally to control the battle, relying on advance layout, or joint shots, directly control the battle scene, so that you can do whatever you want, and the enemy will be greatly restrained.

If you have entered the battle state, the field is too late.

They just used the example. They first used the control of the field. They were sent to the rear by Shen Lang using the magic weapon. It also lost the value of continuing. It must be fast and fast.

Shen Lang and the behemoth are also the first to attack.

So he did not think that Shen Lang would actually use the field above the defense around the body. Control to such a small range, and such a form, is not the usual way of the field.

I didn't even think that the scope of Shen Lang was so powerful. He could almost be a full blow, but he couldn't cross this rule!

Of course, vultures are not good at both, but also have a wealth of practical experience, all of which are based on the battle of life.

Just give him a little more time, he will be difficult to break through the field of the gods in front, there will be other ways to attack the waves.

But Shen Lang is impossible to give him time.

Just when his hand entered the realm of the gods, it was the moment when Shenlang Yintang hit the Kuntu.

When Kuntu wanted to escape, he took a moment to wrinkle Kuntu with a stagnant water, and his head shifted a little.

Above his eyebrows, at the forehead, the light that radiated, directly to the front, pierced through the palm of the vulture!

The reason why I chose to use the forehead to seal the light, the inspiration for Shen Lang is actually from the intention of Erlang.

He is now like Erlang God opened his third eye, and in the case that his left and right hands are busy, this “third eye” is very effective.

More importantly, others are not guarded!

It is necessary to start with the fierce beasts, and people will naturally prevent them from spurting fire and poisoning. But the strong people in the realm of human beings outside the world can't spurt water?

Really involved in the head, but also a direct mental attack, no one can think of a white light from the forehead.

And when I saw the white light, I couldn't think that the power would be so big...

Chapter 2317 - Has it been withdrawn?

Kuntu did not expect the white light to be so powerful, as was the vulture.

When I feel it, it is already late.

Qintu does not have to say that the vulture is because the hand is to catch the head of the swell, now in front of him, facing the forehead.

So when Shen Lang turned from Kuntu, Shenguang shot directly at his palm!

In fact, at that moment, Shen Lang also considered whether to attack the vulture head directly, and the effect is definitely much better.

But he still gave up, because considering stability!

Unlike vultures and Kuntu, Kuntu was firstly wounded by stagnant water, and vultures did not. And although it was followed, Kuntu was hit hard by the light, and vultures were likely to be perceived and reacted.

So when the second wave of Shenguang attacks, he may be defensive and dodging.

But this one arm is different. This is involved in the realm of God. No matter how he evades and defends, it is difficult to take this hand away for the time being.

And this is a weak point in time, and the hand may be taken away later.

To this end, Shen Lang chose to stabilize and shoot the light against the closer vulture palm.

The field of God is controlled by his mind, only in the place of the light, leaving a passage, so as not to block the speed of his attack, the whole is still locked with the vulture arm.

This time, because the distance is closer, it is fixed again. When the vultures are found to be wrong, it is too late. I can only watch the whole arm smashed in an instant!

The vulture's arm was directly shattered, and Kuntu was only opened up with a "brain hole" and had not shattered his head. This is not because Kuntu is higher than the vulture.

But because of the difference in importance, the instinctive defense and resistance are different.

Kuntu also did not focus on defending his head, but when this would endanger the moment of life, it was also inductive. The instinctive gathering spirit and the cohesive spirit together went against it, and the dead water whip did not matter, and at the same time made dodge.

All these recalcitrants still opened a brain hole in his head, but there was no direct headshot.

The condition of the vulture is because his arm has just been a full blow, and then falls into the realm of the gods, unable to release the power. Realizing that the problem started to pull hands, the power did not reverse, it is already good.

The moment of force and re-energization, coupled with being trapped in super glue, the natural reaction is more retarded, the distance is closer, and it is no longer necessary to pull it. If you want to resist it, you can't do it. It was crushed.

but!

Shen Lang did not stop!

Shen Lang just did not choose to attack the head, but attacked the arm closer, in order to be successful. But that only takes a moment, and after hitting the arm, no matter whether it is pierced or shattered, it doesn't need to last.

So after he had it, his head had turned slightly a little.

After the ***** shattered the entire arm, it was almost at the position of the shoulder. As the waves of the waves turned slightly, the gods continued to shoot at the vulture's torso!

The vulture is a cold sweat at this moment!

With just a little light, let him smash the whole arm, and the light of Shenlang's Yintang swept over again. Wouldn't it be necessary to cut him along his neck?

Cut your head, even if it is as strong as a god, you have to die right away! At most, it is able to shell the gods.

And he still remembers the situation in Kunlun before, Shen Lang will definitely use the Tiantian Tower immediately, and directly income him into it, so that the mental strength can not escape, the Yuanshen shelling has no chance to find a physical remodeling.

This point does not need to wait until it happens, see the re-reaction, it is too late!

The vulture is the moment when the arm is attacked, and consciousness quickly thinks about this aspect. Similarly, he also had a distracted view of the overall situation. Kuntu had just been attacked by white light and then tied up. He also received it.

So he immediately determined that the tactics of Shen Lang are very powerful!

It is the main attack on Kuntu, but also the opportunity to lure him close, and then the field to contain his arm, ready to kill him!

With such a plan, so many means, let the vultures act decisively!

withdraw!

In the state of his grandeur and Kuntu, it was only a moment that he was almost killed by two people. Is there a chance to turn over after the injury?

The beast and beast god, dare to deal with three, there is also a strong self-confidence, expecting the purple ancestors to help them, it is not realistic.

Now that he has saved the Kuntu map, it is too late, and it is the best ending to be able to save himself.

And he decided to retreat, there was no warning, and it was too late. When he said a word, he could change everything.

So the thoughts together, he immediately flashed back with the strange body before!

The vulture has just been locked in the field of God is an arm. When the arm is smashed, he has no shackles.

Coupled with his keen sense of smell in the ***** battle, the ability to respond immediately, let Shen Lan immediately move the light of the light, has already hit an empty!

The heat is less than an arm of the vulture fast flashing back, there is no rule, suddenly up and down, suddenly left and right, even if the light is difficult to track.

This speed is not faster than Shenguang, but faster than Shenlang's head.

The performance of vultures at this moment is to give up everything. Even his so-called "old brother" Kuntu gave up, not to mention the three ancestors of the right path.

He hopes that Shen Lang will go to clean up Kuntu first, and the other three will drag the beast god. There are four kinds of cannon fodder, and he has a chance to escape!

But... has it been withdrawn?

He forgot the use of Shen Lang!

They attacked both of them, the gods and the realm of God. He also saw it. Normally, the vultures felt the multi-purpose of Shen Lang.

But because the time is too short, the first thing he must consider is to evade the horror white light attack, and there is no time to analyze more situations.

Shen Lang's first-hand stagnant water whip is still tied to Quentula, and white light is chasing but it is difficult to aim at him's irregular dodge. But there are two more!

Both Kuntu and the vultures have already been, and the Shenlang has also lifted the risk of being attacked. He does not need the strong defense of the realm of God.

So in an instant, he spread the scope of the field of God, the focus is still in the direction of the vultures.

As the scope expands, the intensity will be weakened, and the degree of control is not as good, but Shen Lang does not want to confine the vulture through the field of God.

Only now that vultures are in the realm of God, all the trajectories are more acutely grasped by Shen Lang.

Although his fast flashing is irregular, in the realm of the gods, Shen Lang is sensitive and extremely accurate. When his body shape changes slightly, he can already infer the new one before changing. Route track!

The sword of the king is not idle!

Chapter 2318 - Cut off

The words and expressions of Shen Lang let the lord secretly frown, but immediately sensed the direction of Qiu Shuijian.

Inside the Tianshan Jianzong, there is a sword altar, which is enshrined in some magical-level swords. It is often the sabre of the ancestors of the past generations. If you do not encounter big problems, you will not be asked to do so.

The Qiushui Sword is the sword of the Gaoshan Qiuzu who left the Tianshan Jianzong to be named after Hehewei. In the sword altar, it is also the premier status of respect.

Shen Lang let him feel the autumn water sword, so that the lord is a bit restless, is there anything unusual in the sword altar?

But he is an unnamed junior in his district, and even the sword altar is not close. How could it be possible to move the sword altar?

Just when he was full of suspicion, he felt that Shen Lang was in the midst of a mystery, and felt that the sword altar had changed, and it was a big change!

He couldn't help but sharpen his eyes and looked back at the past.

"Glory! Go and see what happened to the sword altar!"

"Yes!" Far from the sound of the promise.

The sovereign turned back and faced Shen Lang: "What have you done?"

"Do you believe that I did something?" Shen Lang still smiles, but now it is in the eyes of the lord, it is a bit embarrassing.

"You give me a little more honest! Qiu Shuijian is our Tianshan Jianzong! You want to get rid of it..."

As I just said here, the Sovereign felt a strong mismatch. He wanted to look back, but he told him rationally and he couldn't see anything.

"I still kill you first!"

This young man named Shen Lang is very abnormal. The Tianshan Jianzong has been calm for a long time. The secret of Qiu Shuijian knows that it is good. I don't know if it will affect the peace of the sword. Compared with the uncontrollable risk, it's no problem. Gong!

Just when he was going to kill the waves and ask for peace, a feeling of incomparable danger approached!

The lord is not able to kill the waves, this is just a small role, ready to kill.

The person who moves the sword in the back, who wants to move him now, is the first danger to be solved!

But the lord just turned around and was shocked to discover that the danger has arrived!

And this danger is not a person, but a sword, a sword that has been squirted – autumn water!

Just the feeling of danger is precisely because Qiu Shuijian flew out of the sword altar and quickly flew over here. He thought that someone was coming over, and now that he found out that it was too late, Qiu Shuijian directly smashed him into a breakthrough!

In the next moment, Qiu Shuijian fell into the hands of Shen Lang. He directly swayed the sword and cut off the lord who had just penetrated!

The lord fell to the ground, his eyes widened, and although he was pierced and shackled, he was still out of breath, and he was incredulously screaming at the waves.

He is the lord of the Tianshan Jianzong!

He is the great master of the real world!

Was it so inexplicably killed by this nameless pawn?

This will also lead too suddenly, right?

He hasn't reacted to what is going on now!

"You...in the end...what is it...why...the autumn will, will..."

The tip of Shen Lang pointed to the throat of the lord and said calmly: "I have already told you that the Qiushui sword is presented to you. After the cold autumn has died, the original owner still has the means to control it. "

"Oh... it's true..." The lord smiled, and a lot of blood in his mouth poured out.

He thinks he should be the most awkward lord in history! Not only Tianshan Jianzong, but other sects, there is no such thing as hanging up.

"The thief dare!"

A high-spirited violent drink came from a distance, and as the sound reached, others followed the cave.

He was originally in the Jiange, and after discussing this matter, he asked the lord to come over. Just after the advent of the sword altar, let him know the senses, all concentrated in the altar of the sword, people are also going to the altar.

It was a high degree of disappointment, and even connected with Shen Lang, did not think that the Qiu Shui sword would fly away.

And this is the Sovereign here, the strength of the Sovereign is completely crushed, he does not need to worry. Waiting outside the sword altar, after discovering that Qiu Shuijian flew over here, it was already late...

Gao is still not close, and God has already discovered everything that happened here, but now it is unbelievable to see the remaining half of the sovereign and the hole in the middle.

"I used to ask for the Qiu Shui sword according to the agreement. But I choose a mutually beneficial transaction. I only need to borrow it. I will help you to open it... I emphasized it! But you are grabbing me and asking, even killing. I sold Chu Mofeng people..."

The tip of Shen Lang's sword is still in the throat of the sovereign. This is what they said to both of them.

"You killed me!" The lord made a hard gesture.

In fact, this does not mean anything. This is not an ordinary sword. It is difficult for the speed to make him unable to resist, the power of the autumn water sword that he can not resist, crossing a sword, and then erecting the body, it is very difficult to survive. Even if he is high, he will save him, and it will be a waste.

It's hard to see the face, but he suppressed his anger.

"The Sovereign is just a threat to warn you, as long as you honestly confess, it will not really kill you!"

"You ask him, is this really true?" Shen Lang smiled ironically.

Gao Li did not ask, in fact, with their understanding, naturally know. Even if he does not have clear support, it is actually a tacit attitude.

However, it is a foreign nameless pawn. In the territory of Tianshan Jianzong, who knows who killed it?

This kid is still too naive to think of relying on a token, and is qualified to negotiate with a big sect, and he can ask for the weapon of the gods!

Now he understands that Shen Lang is not naive, it is really sure!

Qiu Shuijian, really can listen to his command!

"What do you want? First let the Sovereign!" Gao Gao slowly raised his hand. "I will treat him first, otherwise he will not be able to continue!"

He first declared it, and the speed was slow, so that the Shenlang was frightened and killed the lord directly.

The waist is cut off, even if it will be abolished, it can still maintain a life, but the throat is cut off, there is really no way.

Shen Lang nodded and allowed his treatment.

Just able to penetrate the Sovereign in one fell swoop, the key is of course relying on the raid, did not think that Qiu Shuijian can kill him.

Even with the Qiu Shui sword, it is very difficult to compete with Gao Li, not to mention that this is in the Tianshan Jianzong, killing the sovereigns of the people, and everyone naturally comes to take revenge.

With the life of the Sovereign, he has one more hostage.

Gao Li did not approach the past. The air stopped him from losing blood. He temporarily slid his broken body. Basically, he delayed a little more time and needed more detailed treatment to save his life.

The sovereignty is saved and its value is no longer his strength. It doesn't make sense to keep a few points.

But he is the sovereign!

This layer of identity determines that there are still many secrets in Zongmen that he has mastered. The incident is sudden and there is no time to pass the position. The fault of this layer of identity is more than the loss of a sect. loss!

And his cultivation experience, etc., can still point to the disciples.

Chapter 2319 - escape

Lazy and broken into two paragraphs, it is undoubtedly a slap in the face, but it will not be killed immediately.

When I thought about it, I was stunned by Shen Lang, and I still managed to save my life. It's just that I've been repaired, and it's not long before I can live. Later, Shen Lang was through the Nantian family's medicinal herbs, he continued his healing, and later passed the sea pearls to make him re-cultivate.

The vulture is not the same. He said that he can't compare with his finger, but he can't match a fingernail. His level was blocked by two sections, and it was not the strength of the great immortal.

However, the vulture is not comparable to the sage, and the sword of the king is not comparable to the Qiushui sword.

When the waist is cut off, it is not only a sharp cut, but also the power contained in the cut, while blowing the flesh and blood on both sides.

After the waist is broken, it is equal to at least a few inches of muscle bone blood and internal organs are smashed, not just disconnected.

This is because the vulture is strong enough, just the full defense, or else it is replaced by other people, the effect is even greater.

But don't forget, there is also God!

The sinking waves of one heart and four uses, but the three-pointed mind is used on him!

Before he was fast enough, he could not avoid the chasing of the light. The moment he had just been solidified, he had given the opportunity to light the light. Even if he could avoid the sword of the king, he could not avoid the light. .

Now that the sword of the king has broken two pieces, so badly created, there is no chance of dodging.

Still in the air, the vulture became a living target, the upper part of the torso, and was immediately shot by a ***** to wear a few holes!

By this time, he had no room for rebellion, and he could not escape if he wanted to escape. He was directly imprisoned in the air by the field of God.

The whole process is actually very short-lived. Shen Lang is simply standing still. The first-hand dead water whip has bound Kuntu to the side. At this moment, through the field of God, the vultures, including his lower half, are given together. come.

昊天塔祭 out!

The smashed blood is still falling into the sea of flowers, and the main part of them is not to be wasted, and it is completely taken in.

During the time of Shen Lang and their two wars, the dog **** and the purple ancestors were few of them, and they were not idle.

In fact, Shen Lang's three actions are smaller, more tactics and strategies, and the dog **** is a simple and rude rampage.

Three sabres, Xiaoyao and Luyou, around their huge heads in the air.

From the beginning, the dog gods rushed to the three of them, and then they continued to surround, not wanting to let the dog **** escape. But soon it became a dog **** chase, let them not run!

Every action of the dog gods disregards the destructive wind, swaying the flowers below, and when the lower and stronger ones are encountered, a large number of petals and branches are destroyed.

This is because Shen Lang has been secretly stunned in advance, so that it should not destroy the flower field below. So it is so head-to-head and keeps flying in the air.

Otherwise, if you fall into the sea of flowers, you will be ruined by a lot of flowers.

But it is for this reason that the dog **** is a little bit tied and can not play the full strength.

When Shen Lang took both of them into the tower, the dog **** and the three of them were still in a state of struggle.

Mutual assistance and containment makes it difficult for dog gods to kill them, and they want to hurt the dog god. It is also very difficult.

This belongs to the balance of the dog ***** occupying a little advantage. If the dog ***** is desperate, not afraid to trample on the sea of flowers, or the three of them also use magic weapons, secret techniques and the like, and will make the situation change.

But even if there is no big change on both sides, the changes in the light and waves can affect the change of their mentality!

Just a little bit of fighting, just just warming up, they are three pairs of dog gods, still a stage of temptation, still surprised that this big guy seems to improve significantly than the last Kunlun.

Shen Lang has already ended the battle!

Because they are not so intense in the war situation, everyone is also distracted to pay attention to other situations. For Shen Lang to complete the process of Kuntu and vultures, it is also a spectator's clear understanding.

The field of God is not directed at them, they can't feel it, but the dead water whip, the sword of the king, the light of God... Everything is so strange, the power is so powerful, so that they are all worried.

While Shen Lang attacks Kuntu, attacks the vultures, and then completely controls Quintu and kills the vultures. Although the overall speed is very fast, the time is not much, but the process is to use many tactics, changes, and very A thrilling battle.

If they are against Shen Lang, can they play it?

Looking at the two men's end, the three of them are very fortunate, fortunately their opponent is the beast god, or else, maybe they will die now.

But fortunately, it is only a moment, and the whole is not easy.

Shen Lang has already used the tower to collect them two Will it be busy watching the fun next to it?

A giant beast is already difficult for all three of them, plus a sinking wave...

Shen Lang can kill Kuntu and vulture so quickly, and they can actually analyze it objectively. I feel that everyone knows enough about Shen Lang; Shen Lang has many treasures, and they are very powerful and very strange.

But the problem is, even if they see it now and know it, how many points can they deal with?

They still feel that Shen Lang can still deal with getting both of them!

Two may be all-defense, perhaps reluctantly leveling, and one is absolutely impossible to prevent.

And this behemoth can now level them three!

The result is very pessimistic...

All three of them are quick to communicate ideas.

When the five people were just now, everyone was full of confidence. Now they have quickly killed two and let their three confidences have collapsed.

It's no longer meaningful to be recalcitrant. From the previous point of view, Shen Lang will not accept their surrender and concede.

Now you have to take a break before you join the battle, and then leave and leave!

They are good names of famous people. If they are like vultures, they will not be able to pass the face.

On the other hand, no one wants to be the one to be abandoned!

Under such circumstances, it is the best result that everyone can communicate and escape in different directions.

Great God's idea of communication is very fast, and a consensus is reached in an instant. Everyone has no hesitation, even if they fly away in different directions!

According to their plan, only the desperate escape, the distance can be opened as fast as possible, so even if the white light attacks, the power will be weak.

But they did not think of it, just in the moment of leaving in different directions, there was a big change!

Chapter 2320 - Sinister dog

Whether it is the sable ancestor or the happy and the secluded, they all count the key dangers on Shen Lang. If there is no Shen Lang, they will think that three people can kill the dog god.

To put it simply, the dog ***** is a stupid big man in their eyes!

Even if it is not inferior to the strength of the human god, even if it has wisdom, it is still looked down upon.

Just as many animals have greater strength than humans, but in the eyes of humans, they are still lower animals, and tend to be more clumsy. It can be done by intelligence, just how much time it takes.

For example, the beast ***** has a physical advantage, but it does not, and can not use the magic weapon.

Tools are a great weapon for human success!

Therefore, their defense against the dog ***** is purely its strength. It does not feel that this stupid big man will understand tactics and the like.

The result is just the moment, the moment they want to escape, feel the layout of the dog god!

In the course of the previous fight, the dog ***** did not step down in the sea of flowers, but as its claws moved differently, the strong wind also brought a lot of flowers and foliage.

Compared to its huge physique, these flowers and leaves are inconspicuous, and they have not noticed.

In particular, the fierce battle on the side of Shen Lang made them thrilling and finally panicked. It is not easy to continue to mediate with the dog god, let alone pay attention to the flowers and leaves that dance with the wind.

But at the moment, when they were going to run away, the flowers and leaves that seemed to fly in the air, but they swept their legs and feet fiercely!

Strictly speaking, there are things that are covered by flowers and leaves. At this moment, it is a sudden skyrocketing. After they are negligent against the leaves, they have successfully caught their legs and feet.

Everyone is an old fox. When you feel it, you know what is going on. This is definitely not a problem with the sea below, but another plant that quickly becomes thicker like a vine.

If this is a flower fairy, it is acceptable in the dark to control it through the sea below.

But now these plants are actually from the body of the behemoth!

It's a wonderful situation when a dog grows grass. But the body of the dog god, like a hill, there are some vine-like poisonous grasses, just like the same mane, it will not be more eye-catching.

Feeling the wisdom and tactics of the behemoths, it just makes them a bit uncomfortable, but in their impressions, let alone the vines in the area, even if they are fine steel ropes, they can break free.

However, they are struggling at this moment. The vines are not only not broken, but they are locked tighter, and they have already felt uncomfortable.

And the place that came into contact with it seemed to break the clothes and directly make the skin feel itchy and itchy.

poisonous!

The strongest in the realm of the great gods, the water and fire are not afraid, the poison is not invaded, and the iron rope can not bring them traces and pain.

There is only one possibility, and that is, these vines are toxic and very toxic, even they are not immune.

Then, further discovering that these vines not only become thicker, but also grow fast, from the binding of the legs and feet, and soon become the whole body entangled!

The vines seem to grow a lot of tentacles with hooks, and they quickly penetrate their bodies and drill into their flesh!

This made them start to feel horrified!

A fierce beast, even a long grass, or a poisonous grass, seems to be planting grass for them...

This weird scene made them realize that this behemoth was seriously underestimated.

This is not just a stupid big man, it is the sinister beast who knows the design to frame them.

really!

There are no good things to follow with Shen Lang, even the behemoths have become insidious...

They are squatting in the belly, but what they have to do is to break the game quickly, or else they don't need to break the waves and they will soon become the food of this behemoth.

The vines are tighter and tighter, the more they are entangled, the more the tentacles invade, and the shortening, so that they can not only fly away, but also to the inside of the dog god!

All three chose the same way, that is, using all the power to the body's epidermis, in the strongest way, against these poisonous grass vines collapsed.

Among them, Lu You's ancestors are even more special. His face has become purple, and his body is filled with a purple sigh of gas. It seems that the singularity is to break the vines.

The scorpion ancestor is a mouth, actually spit out a flying sword from the mouth!

Feijian quickly circumvented, and the vines directly behind him were smashed in the past!

The Kunlun School still has its foundation. This flying sword is also a magic weapon for his life. It was not used last time. At this moment, it is the stage of life-saving, and I can't take care of it.

As long as the connection between the vine and the behemoth is cut off, it will not deliver energy and will not be controlled. Then the **** on his body will be solved without any effort.

The sable ancestors were not selfish at this time, because he was very clear, leaving two other delays, and he couldn't escape alone—and Shen Lang was watching!

Want to escape still have to let three people live.

Even if they are to be used as cannon fodder, they can't be in a state of being settled like this. They must be allowed to flee in different directions to attract firepower.

So after Feijian licked the poisonous grass behind him, he immediately swung over the vines tied to the other two people.

Purple ancestors are enough!

Lu You and Xiaoyao ancestors, this time are all praised. Whether they can break free or have the help of external forces, it is naturally much better.

But the sable ancestors themselves, this time is ugly!

Because he found a very depressed problem, just flying a sword is a knife, it is indeed a real vine, but with his magic weapon flying sword, with a full blow, actually failed to cut the vine!

He thought it was a blow, so he immediately manipulated Feijian to help the other two, and he was ready to get out of trouble. The result is still tied!

His knowledge of the gods is also concerned, Feijian magic weapon is not lazy, smashed, and the place in the shackles is broken half.

It was just that there was no continuous cutting, and half of the vines were almost instantly restored, and they immediately became thicker.

Lu You, Xiaoyao two, the same gods are concerned about this. This is certainly not the sable ancestors who did not care for themselves, but did not completely cut off!

So both of them are uploading to the ancestors of Zi Zi: "Zi Zixiong! Please be sure to cut it off! I will help you right away!"

The sable ancestors couldn't care so much, and quickly withdrew the flying sword and cut the vines behind him.

Lu You and Xiaoyao are ugly, and white praises him!

But at this time, they found that the happy ancestors put another flying sword over, and immediately a relief, the original strange blame others, people must first save themselves, but did not give up their no matter!
