

## First Strong 2341

Chapter 2341 - Human advantage

“Experience and inheritance.”

Shen Lang did not resist, although it was difficult to accept, but he knew that recalcitrance was useless. And he is not the same as the light god, he just gives him the horse, it is unlikely to kill him directly.

“Jokes! How old are you? You have my experience? You have a few years of inheritance, can you compare with me?”

For this sentence of Shen Lang, I couldn't help but sneer. For his pressure, there is still no reduction. I still feel that Shen Lang is a pastime.

This reason is not enough to convince him!

“How many similarities do you have? How many generations have you experienced? How many worlds have you been to?”

When the three questions of Shen Lang were asked continuously, the first sentence was the feeling of anger, but the latter two problems made it clear.

“If the number is useful, the ants will dominate the world!”

Although it is still not convinced, the few problems that Shen Lang just made let it move, so the pressure on Shen Lang was suddenly eliminated.

Because Shen Lang did not resist, he relied entirely on the natural ability of the body. His mental strength was very strong, and his body was excellent. Otherwise, it would only collapse at this moment.

Because the last time the \*\*\*\* of light was teasing him, he followed his endurance. After he was weak for a while, he weakened a little, but always kept him on the verge of collapse.

The trick is to give down Ma Wei, it will be very fierce as soon as it comes up.

At this moment, the pines can't help but burst into sweat.

However, his heart was greatly reduced in pressure, because he was already in the right place, and he has succeeded in attracting his attention.

"The ants have a huge number, but they are the weakest species. Unlike the human race, the Terran has long been the master of the world!"

On the right track, Shen Lang can be more emboldened.

I didn't pass the meaning again, maybe I just thought that this metaphor was too extreme.

"The human race dominates the world, and it has been a long time. The life of the human race is very low for you. For a thousand years, for the gods, you may be a generation; the human race is more powerful, Maybe a hundred years, two hundred years, that is fifty, one hundred!"

"I have been to another world where the Terran is much weaker than what you see in Yaochi. Their lifespan is not long. They raise a generation to raise adults, and they will be twenty or thirty years. 10,000 years is a very long generation of hundreds!"

"The longer the time span, the more lost in inheritance; but if the number is sufficient, it will save the time of inheritance because of more communication. For example, a computing power, or a practice, may initially It takes ten generations to study and perfect. In the next generation, it will take only one or two years to learn."

"With more time, you can study more new things."

"While you have lived for a long time, there is no such kind of inheritance, and there is not much communication. There is a lot of what you have seen in the ancient times of mankind. The small part is updated, and it is only limited to Yaochi."

"I live a short time, and I don't necessarily have more things to experience. But where I have been, I know more things than you!"

These are the expressions of the conscious level. They don't need to be told one sentence at a time. It is very quick to let everything know.

This has the advantage of allowing it to quickly grasp all the information, without being misunderstood because of one or the other.

Shen Lang immediately stopped and let it digest it.

After a moment of silence, I passed a thought.

"Is this the key to the hegemony of the region?"

"Good. Reproduction is a war!"

"The natural survival of the fittest, in order to spread its own genes, all species nature will be as much as possible, including all flowers and plants."

"In the human population, there are many civilizations and the decline of the country. It is often replaced by races that are more proliferating. The direct factors may be wars, plagues, etc., but they also suffer from these natural disasters and man-made disasters. Who can breed faster? More, it will be able to recover more quickly and replace others."

"The Terran is aware of this, so it will suppress the space for the proliferation of other races; some do not realize it, but inadvertently suppress other races. For example, in the world I just exemplified, the population has reached a very large amount. To the point!"

"The population is huge, the space for survival is crowded, and the snake worms, which are also very fast-growing, will be suppressed. Some races that are slow to breed will be directly extinct!"

"The Terran uses drugs to kill snake worms and ants to control their numbers, but because they breed very quickly, after a few years, it may be dozens of generations of changes, and then the same drugs, the same dose, have been on them. It has no effect."

“The process of reproduction itself will be an evolving process, and even to a certain extent, there will be a sudden leap of evolution.”

“In addition to word of mouth, there are books and other ways, the people can keep the inheritance longer and reduce the loss.”

Shen Lang is another piece of information in the past.

In fact, if you want to be better convinced, he can provide a lot of data, literature, and even the city of the river.

But he must consider the extent to which he can understand, so he can only be simple and simple.

And this part of the heart, but also must be spent, because we must first convince you to have follow-up. If the letter is doubtful, it will be difficult to carry out later. After these past, I have not responded.

Shen Lang estimates that he has basically convinced it, even if there is not much trust, at least let it accept the human body's knowledge system is greater than it.

“Now, are you willing to tell me about your situation?” Shen Lang slammed the iron and directly threw the problem out.

Before the 鯤 had not responded, Shen Lang added another sentence.

“If the situation is really bad, then can I help, at least not worse.”

He guessed that he could see him, that is, the meaning of a dead horse as a living horse doctor, so this sentence is added, that is, there is nothing to say.

Silence for a while, the sly voice reappeared in the consciousness of Shen Lang.

“My life is going to the upper limit. I thought it would last for hundreds of years. The current situation seems to be only a few years.”

The situation it said is the same as that of Xue Feixue, because it is also the way to inform snow.

“So, it’s not because of the recent injury, it’s because it has lived for a long time to reach the upper limit?”

Shen Lang still couldn’t help but confirm it.

It seems a bit unpleasant: “Who can hurt me?”

Shen Lang is dumb, and it makes sense. If there is a strong attacker who can hurt the shackles, then Yaochi must have suffered a big problem, and it is impossible to be so calm.

“In this case, then I have a solution!”

Chapter 2342 - Give me small

When Shen Lang’s sentence was just finished, he felt that a sneer-like voice appeared in his mind.

Obviously, you will feel that he is not vocal.

Even if you live so long, you have such an innate advantage and the shackles of the day after tomorrow, you can no longer continue Shouyuan, this is the fate of life, has reached the limit of the sky.

How can humans in his area work?

Even if... humans have evolved so fast, there are ways to do it, and it should be done with great effort. It’s not possible to just talk about it.

Shen Lang is not bragging, but has a more accurate targeting.

If it is a cultivation problem, or an old disease, a new injury, etc., Shen Lang is really difficult to say, after all, this is awkward!

But as soon as the end of life is over, and the oil is running out, there is still a way to think about it.

The most basic point is to continue to live through Tiancaibao!

Xue Feixue also has this idea, but as the head of Yao Chi, she must consider cost-effective.

Because it is too great, it must be a huge expense to make it last; if it is not extended, it will not be able to make it.

But for Shen Lang, it is another problem.

He does not need to contribute his own treasures, but can help find ways.

“I really have a way! Now, how long you can live, you decide to be with me, and you can see that God can match it.”

Shen Lang’s words began to be slightly unkind, although they did not give orders, but they were tougher.

Naturally, it is uncomfortable. A small ethnic group in the district has dared to be so attitude to him. I really don’t know how to be tall.

But it has no way!

The pressure on Shen Lang has already been used. Others are not afraid at all, and they can’t really kill. Regardless of whether Yao Chi is good or not, at least it is hopeful.

If you can continue your life, what do you think of this aristocratic temperament?

Silence for a while, the snoring sounded: “How do you want me to cooperate?”

This is equivalent to agreeing to the words of Shen Lang, but it is not straightforward because of its face.

Shen Lang is not going to be soft according to its head, and the gesture is over.

“Your body is too big. I have no problem communicating with you like this, but I have to give you treatment and the like, but I can’t do it. Should you be able to reduce your body?”

Shen Lang intends to stimulate the attitude of the law.

If you say it normally, I still don’t want to do it, but now I can say it. If I don’t do it, it doesn’t seem to be unwilling, but he can’t.

Therefore, with the screaming coldness, there was a huge fluctuation in the surrounding waters.

After an instant, in front of Shen Lang, a big fish appeared.

He is now in the waters, and this fish is now in front of him, although relatively small, it is already very small, but in the eyes of Shen Lang, there are also whales.

“It’s still too big, inconvenient, continue to shrink, and it’s fine to shrink to this level.”

Shen Lang gave it such an idea and stretched his hand about two feet or so.

Naturally, it is very uncomfortable, and I have repeatedly pointed it at it.

It is oh!

It is the greatest race in all races, that is, the ancient dragons are in front of them, but also the insignificant little points – just the volume.

But it has just been greatly reduced once. If it is not done now, isn’t that just a performance in person?

If you really want to be angry with this human being, it’s not too late to wait until he can get angry.

“You’d better be prepared!” I have to shrink again.

Shen Lang smiled a little, this is not ready to see it, but there is no way, then be prepared to die!

“Wrong! You have to be prepared, I want to take you to a place! Let you see it. Right, can you still become a bird?”

“Why don’t you become a bird?”

Shen Lang shrugged, he asked this question, after all, Peng Peng! There is a fish in the north, which is called 鯢; it is a bird, and its name is Peng...

Looking at you, you are ready, and he has not delayed the time. He took the shackles together and used the door of the Three Realms to transfer to the burial dragon valley.

This time he sent it directly, and he didn’t need to start from the periphery again. It was directly inside.

The place where he is positioned is naturally chosen.

“Where are you taking me?”

He still saw the world, knowing that it was transmitted to another place by the magic weapon of human beings.

But the environment here is to make it uncomfortable.

After all, it is a big fish. It is already in the waters of Yaochi. I don’t know how many years.

“Try it out!”

Shen Lang’s cold drink made a cry.

He was not only transmitted to the interior of the burial dragon valley, but also to the weird bone mountain that had been seen before.

I feel uncomfortable because there is an invisible and innocent poisonous substance, which is the root of the murderous land.

Shen Lang and Gao Hanqiu, snow and snow are all fine, because of the transformation of the body in the Yungong Holy Land.

Therefore, I just didn't have the heart to understand what it is now. When I heard Shen Lang said, I was distracted to pay attention.

"This is the battlefield of the ancient dragons and dragons. The murderous land is buried in the Dragon Valley! What you see now, and what you can see in the distance, should be a skeleton!"

I heard the words of Shen Lang

After an instant, its body has spread out and become very large, but it has not yet fully revealed.

With this hint, the other does not need to say more.

It has already felt right away, this is really the skeleton of the skeleton!

It has long known that it is the only flaw that exists and there is no chance to see other traces.

Now, Shen Lang actually took it to the ancient Dragon Slayer battlefield to bury Long Valley, here is the real skeleton!

"This may be your father's and ancestors. Their remains have been going through 10,000 years. It doesn't make sense to stay here. If you give it to you, you may be able to make up for you and make your life last."

This is the way that Shen Lang thought of.

The inspiration comes from the Qingqi Fox.

The foxes always wanted to get the skeleton of the ancestors of the nine-tailed fox in the Dragon Valley. It contains the code of life, which is something they have lost.

Oh, maybe the same.

But Shen Lang can't be sure. If these skeletons are not of much value, then he will continue to go inside with him and let him eat a little more keel.

Shen Lang's own things will not be given, but you can bring it to the Dragon Valley to eat. The dragon is definitely not inferior to the embarrassing race. If the keel is eaten for it, it should have great effect.

However, now watching on the bone mountain, he has been relieved. Look at the reaction of cockroaches, it should be useful.

Chapter 2343 - Swallowing

After feeling the remains of the ancient shackles, I have no reason to sink the waves.

As it got bigger, it began to vibrate.

"Don't make too big a move! This is the funeral valley! I don't know what the danger is!"

Shen Lang quickly passed a message to it, this guy can not regard this as its pool of water and play.

Although he has already smashed a burial dragon valley, the encounter has met, but who knows what is the situation? This is a land that has always been passed down.

I still didn't pay attention to the sinking waves, so I shook it up. I started to fly sand and walk around the stone. The bones of the mountain where the waves were high were also shaking.

To be on the safe side, Shen Lang first flew away from the bone mountain, floated in the air, and pulled away and pulled a little distance to avoid being smashed and pond fish.

Not long after, with the flying of countless sand and dust, more scorpions buried in the sand were exposed.

What I could see before was the big bones that were erected in the air. Nothing else could be seen. The ground was a horse, and tens of thousands of years, everything was buried.

After the sand was scattered, the exposed cheekbones began to collapse!

Including the bone mountain that Shen Lang just saw, it collapsed directly into a large number of fragments, and these fragments did not fall to the ground, but flew in one direction.

That direction is a sly mouth!

At this moment, it has opened a large mouth of at least ten miles, and swallowed a lot of pieces of the bones!

Looking at this picture, Shen Lang is speechless. With such a huge body, in the waters of Yaochi, even if you don't need to eat every day, you don't know how much to eat every year.

However, this is the matter of Yaochi. You can become their guardian beast for thousands of years. It is definitely not just because it is old with their founders. Even if it is raised by the Yaochi ancestors, it needs daily support.

People act as bodyguards, even if you don't need expensive wages, you still have to eat enough!

Now I watched it devour a lot of these broken bone fragments and I was relieved.

He had this suggestion before, that is, he was using this idea. It is very difficult for him to take the mountain-like skeleton bones out of the funeral valley.

But after taking it down, let it be full, and it will achieve its goal.

Snow and snow are tangled and worrying, nothing more because the resources brought back are still limited, and they are not used.

You don't need to take care of it now, just eat it.

Because the speed of cockroaches is very fast, these ancient sacral bones, which are tens of thousands of years old, were originally strong as mountains, but after being shaken by the cockroaches, all of them were shattered, and they were eaten very quickly.

Shen Lang saw the sly eating in the air (tonic?), and felt that “whale swallowing” and “squatting” are far from being comparable.

However, this speed made him start to worry a little bit about the effect.

If the effects of these bones are not, do you want to take them all the way?

The people of the Red Dolphins also know that they want sustainable development and will not be exposed at one time. But this kind of action is all the way through, all will dry up.

However, he was brought with him. He didn't know anything about the situation here. He said how to do it, without it, is it not going to run by himself?

If Shen Lang is not happy, he will leave here and he will be trapped in this funeral valley!

Judging from the situation when I first came in, it is still uncomfortable here, and I can't stay here all the year round.

With this layer of care, the Shen Lang will be calm down, so look down on the engulfing of the cockroach.

After a while, no bones had collapsed, and after some scattered pieces were absorbed, they stopped.

After the giant python was swallowed up, there was no further vibration, and the surrounding sands began to slow down.

“It turns out that you have been to the Dragon Valley and have seen the skeleton of your body. It is no wonder that you have the confidence. I am a little girl!”

The sound of snoring sounded in the mind of Shen Lang.

“But it has no effect on you, only you know it. Can you go back now?”

Shen Lang did not brag about himself at this moment, lest he should raise his disagreement.

The knowledge in the brain is also a resource!

When this is topped up, it is dangerous. For example, the vultures of him are trying to capture his memory, so as to master the secrets of the ancient organs.

How he used the artifact to transfer from Yaochi to here, this is his secret. But if you want to know, you can also take his memory directly, and you will be able to master everything.

Compared to the one-time treasures, the method of finding treasures is definitely more valuable.

Therefore, when the show is displayed, the low-key is low-key.

The urging of the last sentence of Shen Lang is to intentionally remind you that this is to bury the Dragon Valley and not to stay longer.

At this moment, I still have a direct feeling.

It came here and it was very uncomfortable. But discovering the bones is a huge excitement and can't take care of that much.

Just as it became bigger, it was mostly exposed to the toxic substances in this burial dragon valley; and the exertion of power and massive phagocytosis naturally absorbed more toxic substances.

Now its feeling is to be more uncomfortable. It is also because of the inability to stay for a long time, let it want to complete as soon as possible.

At the moment, under the advice of Shen Lang, he immediately packed up and stopped, directly reduced his body and came to Shen Lang's side.

Shen Lang looked at the cockroach that became a fish, and did not stop, immediately started the door of the Three Realms and took it back to the waters of Yaochi.

If the fish gets water, it is said that it is in such a state.

The environment that left the funeral valley has made it a lot easier, and entering the water is even more comfortable.

Although it has absorbed a lot of poisonous substances before, it can still withstand it and can be slowly eliminated.

“You human beings, let me look at each other, it’s not simple.”

At this point, 鯢 finally acknowledged the extraordinaryness of Shen Lang.

This is because it notices that in the burial dragon valley, the swells are calm and have no influence at all.

Even it will feel uncomfortable. Normally, a human with a much smaller body can’t support a few breaths.

But it seems that Shen Lang is even stronger than it!

Even if he has been there, he is prepared and able to adapt, but it also shows his strength.

“God has this harvest, rest in peace, should it be innocent for a hundred years?” Shen Lang did not feel flattered, but asked critical questions.

He will come to see you, just to help Yaochi solve problems, not to make friends with you.

“There are no more problems for hundreds of years and thousands of years.”

Shen Lang can hear that this is still a conservative estimate. These remains of the ancient Yi people will inevitably have a great supply to it, and perhaps it will evolve. It should be only basic to live for hundreds of years.

“Then I can say goodbye.”

He wants to leave, he did not leave him, it recovered a huge body, and then sent Shen Lang back to the gimbal.

Chapter 2344 - Dedication

When it appeared on the gimbal, I immediately saw snow and snow.

When Snow and Snow were not able to see the waves, there was no previous worry and it was a little excited.

Shen Lang will naturally understand that this is when he sent him over, or just returned to Yaochi, he passed this information to Xue Feixue.

“Da is not thankful. But I still have to solemnly thank you, because this is not my personal grace, but the importance of our Yaochi.”

Xue Feixue seriously bowed to Shen Lang.

In her capacity, this is a big gift, and the attitude is very correct.

Shen Lang also received this gift from her, because it helped her, it was really a great grace for Yaochi, and he was heavier than helping the head.

“Is it going to tell you? I took it to the funeral valley.”

Shen Lang directly sent the picture he saw, and sent the idea to Xue Feixue.

I will definitely not elaborate on it. I just said it about it. But if you want to make Snow Snow safe, you must let her know what it is.

She also went to the funeral valley, and this situation will be understood at a glance.

Snow is not snow, I know that 鯢 is expected to extend the life of hundreds of years, she is already very excited, this time can make Yaochi make better arrangements.

Now, when I saw this scene, I realized how Shen Lang did it, and I couldn't help but admire him.

The bone mountain was so huge that even though it was guessed that it was the skeleton of the skeleton, it never thought of moving it away.

Such a mountain is so huge that it can be pulled up. It is another matter. The key is how to bring it back?

The magic of storage, there is not such a huge space, and the door of the Three Realms can send people away, and it is impossible to contain such a large range.

They are also for the same reason, so even the resurrected dragon can not bring all the skeletons back, but try to pick the essence.

She had been entangled for a long time, that is, the problem of bringing back the items that I brought back. Because I was so huge, I never thought about sending it to the funeral valley.

In addition to being unable to do so, it is even difficult to persuade.

Now Shen Lang, an outsider, but with such a long time, he has gained the trust of the shackles, and it is very difficult to let the cockroaches greatly reduce the body and follow the strangers to the dangerous places.

“So great, just words and thanks, is not enough to express. Please tell what you want, we can promise everything in Yaochi, everything will be willing!”

When Xue Feixue said this, his eyes were fixed on the eyes of Shen Lang.

Although she didn't say anything specifically, she just said that she could thank her, but Shen Lang always felt that it meant something...

Especially when people are above this gimbal, he can't help but think of the time when he came here last time. Because of the sudden appearance, he bumped into the snow and snow that was not closed.

Her words, with her eyes, seem to have some hints!

This idea makes Shen Lang a little awkward, but it is not abandoning her old age, because the realm of the gods can really keep youth. Just as everyone looks at the deification, it is not going to treat the fairy as an old woman.

And Shen Lang is also a person with two life, and there will be no problems like "generation gap".

But the problem is that when you are here, you first know Van Gogh. It is a friend with Fan Xueyu, and Xue Feixue is naturally an elder.

Although he and the "every elders" of the cold autumn, you can talk about the peers, but their own relationship is clear, or else the age span is so large, it can only be regarded as forgetting the year.

For example, Xue Feixue really has the meaning of giving in to pay for it. If Shen Lang accepts it, see how the Fan Xueyu is!

If you really want that, then Van Gogh is more suitable.

However, people did not explicitly say it, and he was not able to directly ask for it.

"Cough... The snow palm is heavy. I thought that when we were seriously injured and fled back, it was the shelter of Yaochi, the kindness of Xuezhangmen, which gave us a hiding place and gave us the opportunity to recuperate."

People didn't say that Shen Lang had to open his mouth and refused, naturally it was a bit embarrassing. But when it comes to the back, it is already natural.

"So, if you really want to talk about it, it is Yaochi who is first to be kind to me. I will return to Yaochi. It is entirely appropriate and it is still human."

Snow is not snowing slightly.

“You are very pleased to say this. Because you are much better than before, but you have not forgotten it. But there is one to say that the original human feelings, you have already returned. You helped us open the ancient treasure chest, not owe What are we?”

“If I want to go on again, I have got a lot of help from you in the Yungong Holy Land and in the Dragon Valley. I have gained a lot.”

“Oh, that’s nothing.” Shen Lang modestly.

“Yes, those are things that have passed. It shows that you and I have both.” In the past, I didn’t say it. Then we have to thank you this time alone.”

Everyone said this, if Shen Lang is more modest, it will be too fake.

So he is also getting right.

“Then I will say it clearly. I am retreating. I just heard about it and I immediately rushed over. I don’t want Van Gogh, or any female disciple of Yaochi, out of frustration.”

“Don’t misunderstand, I don’t want to interfere with anything. I mean, if this is their own will, then of course respect. If it’s just because of helplessness, it’s not guilty now. Especially Van Gogh, she is a genius, It is someone who should be able to inherit Yaochi!”

Shen Lang said here Xue Feixue has sighed.

She can hear that Shen Lang really has no selfishness. When I come here, I am afraid that Fan Xuexue is out of helplessness.

But there is no intention to take Van Gogh!

In the last sentence, I named the name of Shen Lang on Fan Xueyu. She will inherit the head of Yao Chi in the future.

“If you talk about this, then I will say it straightforward. If you say, I will do it, the association will continue, but it will be just friendship, there will be no more factors.”

Shen Lang nodded, waiting for the turning point behind her, since it was straightforward, it was just a foreshadowing.

“I want you to bring the little sister around you... You listen to me, although you have a day, I don't mean that the nine-tailed fox of Qingqiu is not good, but after all, it is alien, sometimes it is not as good as the human race. If you and Xiao Yan... there is more possibilities.”

She said it was straightforward, but there seemed to be some implicit words in the back.

What more possibilities? Are all human beings, is it convenient to have children?

Shen Lang is a bit crying and laughing.

“You should be clear that this is not a delay for her, it is also good for her.”

Shen Lang can only sigh: “You have said something similar before.”

“Yes. So I will say it again, do you want to be a kid? You want me too!”

It's so direct!

Chapter 2345 - Do you want to go to the magic domain?

Originally, Shen Lang felt a little embarrassed. She asked directly, so that he did not know how to face it.

Even she said it directly, how can she pick it up?

I refused to be a fan, because she was not there, not embarrassing. Snow is not snow, but if you refuse, it is tantamount to being disgusted.

But he can't agree.

So under this question, Shen Lang simply chooses to go!

“Oh, the problem is solved, I will go first.”

When I spoke, I had already run the door of the Three Realms, and then immediately transferred and left, directly from this Yuntai, went back to the Qiulin sword.

If it is a normal channel, he will go out to Yaochi, and he needs to send snow and snow, or even if he leaves forcibly, snow and snow will not stop.

However, under the transmission of the gates of the Three Realms, it disappeared directly. The moment was already unknown to hundreds of thousands of miles, and she could not stop and chase it.

After returning to the Qiulin swords, Gao Hanqiu and others are quite concerned.

Yaochi is also a friendly martial art. If you have any troubles, you can still help.

And if it is the case of Fan Xueyu and Shen Lang, then of course it should be more concerned.

They are not outsiders. Shen Lang simply told us that he had encountered a problem, and now he has helped solve it.

This makes everyone very surprised!

Because Yaochi has the guardianship of the beast, it is a well-known legend, but it is limited to the legend, and there are very few that have actually been seen.

Or... I have seen that I have already been swallowed like a shrimp, and I can't come out to testify.

In general, everyone is holding a mindset that Ning is credible. Yaochi can stand for thousands of years. This gold sign makes everyone worry, and the legend will come true.

Including the cold autumn, I have not seen it. Before they had seen it, they had seen the secrets of Yaochi, and they could not say anyone.

Now I heard that Yaochi is really awkward, and I have encountered problems, and Shen Lang can help solve it!

This really makes them stunned.

Xu Haoyue, Count Dracula, they are aliens, and they don't know much about this legend. Gao Hanqiu and Mo Feiliu are completely known.

This involves the secret of Yaochi. For the same reason, they did not inquire about the specific situation. Just know that there is no problem in Yaochi.

"Then why are you coming back so soon? Even if you don't wait for the association, you should be with Van Gogh..."

"Don't mention it!"

Shen Lang is a little helpless, telling the story of the snow and snow. However, he still has reservations, but said that he intended to let Fan Xueyi talk to him, but did not say anything about Xue Feixue himself.

This will undoubtedly lead to a joke in the cold autumn, they are all kind to him.

"Don't say this, are you interested in going to a magic field with me?" Shen Lang forced the topic.

After discussing it again, he was afraid that he would accidentally bring the snow out of the snow. If they accidentally said it, it would be bad.

"Dream domain?"

The other few are also face to face.

What is the magic domain, we are not clear, but it can still be as the name suggests, it is estimated to be the same as the domain.

Shen Lang shook his head: “Some of you are still in the mountains, do a good job of cultivation, this is still two of us to ponder.”

His words are equivalent to a direct order, and they are driven out by Xu Yuyue and Mo Feiliu.

There is the cold autumn and the dog god.

The dog \*\*\*\* does not need to pay attention to it, Shen Lang is the master of it, and it is the cold autumn that needs to be discussed.

“What resources are we looking for?”

Gao Hanqiu also came to the spirit.

In the past year, it was actually a retreat for a hundred years. He can have the achievements of true immortals that he has never thought of before. In addition to time, the resources brought back by the funeral dragon valley are consumed seven or eight.

Therefore, no matter what you need, for the accumulation of martial arts, in order to help the waves, you need to get more resources.

Before that, he had the name of the first ancestor. Now the realm is stronger, but he can't rob other famous big factions. So it's better to go to the magic domain.

Shen Lang nodded.

“To the realm of you and me, I want to continue to improve, I need a huge amount of resources. Just because the Qiulin swords can't afford it, you can't rob others. What is the difference between them and the previous robbery?”

“That is, the basic principles still have to be.”

“So, we have limited goals. I used to think about the evils. I also learned reliable information from the vultures. Now I have thought of the demon domain!”

Shen Lang then said the situation of the magic domain, and Gao Hanqiu said it again.

The demon domain said that it is related to the “pyramid gold suit” of the ancient civilization of the earth. The golden dragonfly, according to the snake \*\*\*\*\* Kemrisu water monster, and his personal experience, should be a channel that can be combined with the demon domain!

Gold masks, gold scarabs, are similar.

When I was on Earth, Shen Lang didn’t have much exploration, because he was afraid that if he accidentally opened a passage and released a lot of devils of the demon domain, it would be a disaster.

Of course, it is not that I am not afraid to release the devil here, but now his realm has improved, and the real fairyland of Gao Hanqiu has already had a strong control.

Now whether the devil comes to or they go to the magic domain, they have confidence to control the situation.

Gao Hanqiu became more excited.

For them, it is very difficult to get excited.

If you are going to rob the evils, even if you can convince yourself morally, there will not be much expectation, because the resources that the other party can use are probably estimated.

But the magic domain is different, no matter for Shen Lang or for the cold autumn, it is completely unknown.

Regardless of the legend of the ancient civilization, or the sermon of the snake \*\*\*\*\* Kemrisu, it is extremely shallow, is a mythical story, often with a single clue and a simple content.

If you can’t afford a true testimony, you will feel that it is a legend.

But because of the simpleness of the single, there are more possibilities and more imagination space!

What kind of world is that? Is it a scorched earth, or is it a world of heaven and earth? If that is really a barren world that is not even as good as the earth, is the devil itself a resource that can be refining?

“Of course I have no problem, I can fight alongside you, regardless of the domain, the magic domain, I am very looking forward to it. But...”

Seeing the cold autumn and the words stopped, Shen Lang frowned, indicating that he did not want mother-in-law.

“But... how do I feel... The main purpose of your visit to the Magic Field is not to find resources, but to avoid the girl in Yaochi?” Gao Hanqiu laughed and laughed.

“Roll!”

Chapter 2346 - Enter

Just just telling the history of the gold suit with Gao Hanqiu, for the various kinds of Pharaoh Tutankhamun, Gao Hanqiu actually does not understand.

The last time Shen Lang was to show the five gold suits of sacrifices.

The gold chariot and the golden flying sword are not too rare and can be used.

The gold scarab is also operated, although I don't know where the scarabs are summoned, but the effect is very good.

So the simple display, the focus is the golden dragonfly and the golden mask.

The last time Shen Lang had a simple attempt, when I showed it, I also said the last time, and I talked with Gao Hanqiu.

That is the pattern logo on the top, and the cold autumn is also a meticulous look.

When the cockroach opened, it immediately felt the chilly air spread out quickly and drove the surrounding temperature down.

Gao Hanqiu also further blocked the surrounding, so as not to disturb the disciples of Qiulin.

After all the cockroaches were opened, the normal openness was revealed, and there was no special thing in the inside. The chilly atmosphere was more intense.

Deathly Hallows!

Summon the Devil!

Exile the magic domain!

Shen Lang emphasized these keywords and then took the golden mask.

“According to the logic of storing the mummy, it should be lying in the coffin, and then wearing this mask, which may be used in combination.”

“The last time I looked at it, I didn’t go inside the coffin. The mask was worn and then picked up quickly.”

After wearing the mask last time, the front was immediately black, and then there was a strange feeling, as if wearing the mask, it communicated another world.

In that state, he sensed another situation in all aspects, and it seems that he is no longer in place, but in a dark world.

At that time, Shen Lang was afraid to get in, and soon he removed the mask.

“The ones portrayed above are the gods worshipped in the era of their civilization. This is the representative of Pharaoh and the Pharaoh’s sacrifice to God.”

After listening to the story of Shen Lang, Gao Hanqiu smiled lightly.

“I will come first! See if it is really exiled to the demon domain, and what kind of situation is it.”

He will go in immediately!

“Wait! Let’s change a place!”

Shen Lang immediately stopped.

This is the sword in the autumn forest!

How is the situation after they have passed, it is completely unknown, and is this still there? Will someone crawl out of the devil army?

Wouldn’t that dig a big hole for Qiulin Jianzong?

He dares to use it here, in addition to the ability to control now, but also because this side is much better than the Earth.

After that, Shen Lang took them up again, and then they ran the Kunlun mirror of the Three Realms, carrying the cold autumn and the dog god, and sent away from the Qiulin swords!

In their capacity, they do not need to report to Mo Feiliu. They just said what it is, so they left Mo Feiliu and others as usual.

Gao Hanqiu did not ask Shen Lang where this is going.

And he probably can guess that the dog \*\*\*\*\* is completely indifferent.

Space fluctuations, Shen Lang once again came to the funeral valley today!

“Here.....”

“This is the area we just came over. There are some very high mountains like this, which are the bones of the skull.”

“Oh!”

Gao Hanqiu understands it. Before the Shenlang did not elaborate on it, it is estimated that it is wearing the Yaochi's shackles. Here, the remains of the ancient battlefield were taken away.

He didn't care much about these things, and he never thought about taking away the remains of the donkey.

Shen Lang will come to the funeral valley, he just guessed a probable, since there is risk, then leave the risk in this murderous place!

Even if there is something out of the Mozu, it can be trapped in this burial dragon valley, and it will not go out to be a disaster.

“I will bring you together, then go in?”

Shen Lang re-released the golden plaque and held a golden mask.

What he meant was naturally to bring them into the space of heaven, so that as long as he passed alone, they would be taken over.

Gao Hanqiu is shaking his head.

“You need to understand how this thing works. You need to observe what it is. I am advanced!”

He is actively asking himself to be a guinea pig. In that case, what is the status of the gold scorpion?

Shen Lang did not have a guest with him. Gao Hanqiu now has a real fairyland. If this can't help, then he will be even more uncomfortable in the past.

Therefore, Gao Hanqiu is the first to smash him. He just needs to observe it well.

“As for this... you will wear it later, I will experience it in the first place!”

Gao Hanqiu has been a bit eager to wait.

Re-opening, the chilly breath with an attraction, let him want to go inside the coffin.

Of course he can control his own will, but he does not need to control, because they are doing this to go to the demon domain.

“Ready.”

After Shen Lang finished, Gao Hanqiu jumped directly, and the body became a flat posture, and then slowly fell into the golden urn that opened.

This has a strong chilly scent, and when his body enters the coffin range, he immediately feels completely wrapped in chilly breath!

This is a full-scale package is also an infiltration from the outside. It is like a snowy day, wearing a thin dress standing in the snow, the cold will quickly penetrate into all directions, people can not help but fight the cold.

Gao Hanqiu naturally does not fight chills. He conveys all these feelings and his feelings about these feelings to Shen Lang quickly, so that he can observe his deep waves outside the coffin, and he can feel a little empathy.

The speed at which he landed was not fast, but the coffin was so big that it would soon be over.

In addition to feeling the feelings that he passed over, Shen Lang is also staring at everything he sees in front of him. The holy armor is also open to all aspects, recording all the details.

Just when the body of the cold autumn was completely at the bottom of the scorpion, when his body was placed at the bottom of the scorpion, the black mist was faintly filled!

Then, the body of Gao Hanqiu disappeared!

At that moment, the thoughts conveyed by Gao Hanqiu disappeared, the eyes could not be seen, and the gods could not sense him.

And the ultra-high-speed ultra-high-definition recording of the sacred armor, super slow-motion playback, can be much clearer.

When Gao Hanqiu came into contact with the bottom of the coffin, it seemed to sink suddenly. The bottom of the coffin seemed to have the same thing as the organ.

As for the faint black mist that is pervasive, it is just a blind eye.

There are no other changes around, and you are still embarrassed. just.....

Chapter 2347 - Double magic domain?

There is no other change in the golden dragonfly. It is still only a chilly breath, but it has not sensed the slightest breath of the cold autumn!

Shen Lang knows very well that this sacred device of death is a sacristy that connects the other world. It does not require more organs, and lies directly in the coffin and will be sent away.

In this burial dragon valley, there will be no one coming in for thousands of years. Shen Lang does not need to worry about whether he will take away the golden coffin after he enters.

Besides, the artifact of the Kunlun mirror of the Three Realms, in any world, he can still come back.

Just in the cold and autumn, I have to go ahead. Naturally, if I consider any risks, I will block the first wave for him.

When others talk about loyalty, Shen Lang is of course also loyal, so he does not stay much, no matter what kind of situation there, the brothers must go together.

However, in the realm of the cold and autumn, no matter how much risk, how can it survive for a while, but it does not need him to hurry.

Therefore, at this moment, he is just like the cold autumn, let his body float, lie in the air, and then land in the raft.

The dog \*\*\*\*\* is letting it step on his chest, so that it should be able to come together.

Before he landed into the hustle and bustle, he put the golden mask on his face.

This is the second time I put on this mask, still connected to a dark world, the feeling is different around.

The burial of the Dragon Valley has not been felt, and this dark world is also unclear.

The last time Shen Lang was afraid of something unexpected, this time I was prepared to go and experience it.

So he was very patient, and in the next moment, he felt that his body was covered with a chilly breath, and a lot of chilly gas penetrated into the body!

When Gao Hanqiu was in, he sent his experience to Shen Lang, and he felt the feeling of being in the same situation before the transfer.

At this moment, Shen Lang will understand that his body has fallen into the scope of the gold coffin!

If this is the case, it means that his body is still in the Dragon Valley, or is descending above the golden coffin, and has not reached another world.

Why is this mask another feeling?

Is the mask letting his spirit enter another world?

Or is this an overdose?

He just couldn't feel everything around him, but his body feels there.

Under the yin air, Shen Lang quickly sensed it, and his back fell to the ground and fell on something.

You don't need to feel it, you can naturally know it. Just a few tens of centimeters away, it has fallen from the top of the coffin to the bottom of the coffin.

According to the situation of the previous cold autumn, the next moment he was to be sent away.

Shen Lang is of course ready.

But soon, he felt that something was wrong!

The cold autumn was transmitted and left at the moment of contact, but he felt that he was lying solid, and there was no meaning for it!

It is an extension of the dark world, it seems to be getting farther and farther!

Is Shen Lang's heart moving, is it related to the golden mask?

Just after the disappearance of the cold autumn, this golden dragonfly has nothing else. Under the open state, there is still a chilly breath.

That means not a one-time channel, or a continuous transmission.

Now that others are inside, it is the same way, and there is no coffin board. The only difference is that the golden mask is brought.

It is a gold coffin and a golden mask that can connect to other worlds, but not a world?

This possibility is not big. After all, being able to connect to another world is already an extremely rare situation.

These “golden suits” are all in the era of Tutankhamun’s pharaohs. At the same time, the same sanctifications created by the same batch are unlikely to involve two worlds.

That is another possibility: contradictory!

The golden coffin, lying in, is the gateway to another world. And wearing a golden mask, just the departure of the “soul”, the body is still in this world.

Although this seems very strange, but I can’t think of more possibilities.

Shen Lang decided to try it.

This time, he has worn the mask for more than the last time, and there is still no one. And Gao Hanqiu has already gone there, of course, he has to leave the past.

So, he quickly picked up the mask.

As soon as the mask was taken off, I immediately felt that I was separated from the dark world. The five senses and consciousness can feel the present.

But just for a moment, I feel a heavy sense of falling!

In this instant time, Shen Lang seems to feel the three worlds in general. That dark world, the burial dragon valley, and the new place that is now.

If it is not a completely different atmosphere, Shen Lang is very skeptical and has come to the old place!

After a heavy sense of falling, he has already reached another world, the so-called magic domain.

The first feeling of the magic domain is the general area outside the funeral valley.

It is the two thousand miles that are spurting everywhere with flames. Now it is also a variety of flames.

And when you look closely, there are some obvious differences in the flames here. It is not just a spray from the ground. There are many inexplicable in the air, flying through the arc in the air, or burning or falling into the ground.

The reason why I feel that it is completely different is that these flames are not flaming, but blue and blue, and there is no hot high temperature, but with a chilly atmosphere!

In other words, the scene that I see now is very similar to the two thousand miles outside the Dragon Valley, but it is a warm warm color, here is the cold and cold color.

This picture is awkward.

Shen Lang has seen many flames, whether it is the flame of a fierce beast such as the Iron Dragon, or the fire of a few kilometers of the killing warrior, or the flame of the Dragon Valley, including the fire of the Earth. .

All flames, regardless of temperature and level of danger, are generally hot and hot.

In the chilly place, he also saw more, but it is the land of ice and snow, or the land of extreme yin.

The shape of the shape looks like a flame everywhere, but it is blue and chilly. It is the first time I saw it.

“This place... very special.”

When Shen Lang looked at it, the dog \*\*\*\* had already said it.

It is more curious and feels that following the waves, it is really a wise decision to see a lot of places that have never been imagined.

Now that the two of them are still floating in the air, there are still a variety of blue flames flying across the arc in the air, which is extraordinarily careful.

Chapter 2348 - disappear

Shen Lang just appeared, the first time to observe the surrounding situation, see the dog gods are also together, a little relieved.

At the same time, the knowledge of the gods is a quick search for the traces of the cold autumn!

Now the situation around has been observed, but the knowledge spread to a large extent, and did not sense the breath of the cold autumn!

This is a bit abnormal...

Shen Lang and Gao Hanqiu have a tacit understanding. Just like going to the Yungong Holy Land before, this time everyone said that they came together.

The cold winter comes first, in order to block the possible dangers. This is the case now, although it is awkward, it is not an urgent danger.

According to their tacit understanding, or normal reason, they should be here waiting for Shen Lang and the dog \*\*\*\* to come.

If you want to explore this world, don't rush for a while, the three together, you can have better arrangements and more powerful support.

Now the cold autumn has not appeared here, only one possibility!

Everyone sent to you is not a place!

A certain degree of random transmission is a very common situation.

For example, when the ruins were opened, they came to the entrance of a relic that was not in the middle of the mountain. Everyone took the space and sent it to a different place.

The Cloud Palace Holy Land is the same. When you go in, it is obviously the same place and the past, but because the location is slightly different, the time before and after is slightly different, it is transmitted to a different place.

As for the different light column channels in the Yungong Holy Land, it is similar to the thousands of caves on the earth, and it is different passages to different places.

They are now entering the same gold coffin, the same channel, the difference is time.

If the space channel of the connection is also randomly changing, then it will not know how far it is to go.

In the ruins and the Yungong Holy Land, there is limited space, so soon everyone will be able to find it again.

But now this magic domain is just a name. What kind of world is this, there is no clue.

In other words, the cold autumn may be just a few hundred miles away, or even nearby, just because of the special isolation. But it may also be hundreds of thousands of miles away!

If the territory here is very huge, under the premise of not knowing about it here, it is a bit of a haystack to find a person.

And both sides may be mobile, and there is even more uncertainty.

Can be so randomly separated, Shen Lang can not wait here.

Moving, it will increase the difficulty, perhaps more difficult to find.

But if you don't move, both sides are waiting in the place where they appear, and you will not encounter it!

“Hey? That high ancestor? Why didn't you wait for us? So impatient?”

The dog \*\*\*\* also found that he did not see the cold autumn, could not help but ask.

Shen Lang shook his head and immediately said his guess.

The dog \*\*\*\*\* does not have enough trust for other human beings other than Shen Lang, including his own people like Gao Hanqiu. Even if there is no low trust, it is because of the relationship between Shen Lang.

Therefore, it does not have the confidence of Shen Lang, and directly suspects that the cold autumn is because of what ran.

I felt the idea sent by Shen Lang, and I felt that it was reasonable for all kinds of analysis, and I put up a joke and became serious.

“Do we have to find him first?”

Shen Lang shook his head again.

“I have just explored the surroundings, and there are no traces of his appearance. It is extremely difficult to find someone without any clues. We can only search for the situation while looking for the cold autumn.”

The dog god's feelings for the cold autumn are naturally not special. The retreat for a hundred years is also a rush, the true meaning of getting along, that is, the Yungong Holy Land to the funeral dragon valley.

So it will not worry too much, and there are no more plans, just follow the arrangement of Shen Lang.

Shen Lang is still very calm.

The means he has are very much. For example, there is one that can be used – the wheel of heaven!

His proactive use of the prediction of the round of the sky can be very precise, such as predicting the situation related to everyone.

You can also have a good understanding of the danger level of the surrounding environment.

At this moment, of course, he will not be polite. He will use the wheel of the sky to predict it. He predicts two aspects. On the one hand, there is no danger here, and on the other hand, it is aimed at the cold autumn.

As a result, his face has changed a little!

The wheel of the heavenly machine is actually invalid!

That's right, it's not without danger, it's not predictable!

He quickly returned to the round and carefully sensed the specific changes.

Soon, it was re-confirmed, not because there was no danger at all, but that there was really no manipulation at all.

The wheel of the celestial plane that merged with him did not have any signs of "starting up", and nothing could be predicted.

This is not very good...

If only the wheel of the sky is not predicted, Shen Lang is not worried. After all, even if it is predicted, he still needs to face it himself.

His current realm is already very strong. He is not afraid of any danger, and the number of dangers will be greatly reduced. It is not expected to be normal.

What makes him feel wrong is even the predictions can't be done!

This is because there is another world, so the "signal" of the wheel of the heavens is not good? No "big data" reference?

No matter what, what really makes him feel bad is the chain of speculation.

The wheel of the heavenly machine is one of the four great artifacts of the ancient times, and the gate of the Three Realms is also. The new artifact restored with the Kunlun mirror has been called “the Kunlun mirror of the New Three Realms” by Shen Lang.

This is naturally very different from the original three-gate of the artifact, but it is still a large category.

If the wheel of the celestial being is controlled by the unknown existence of the magic domain, or by the space laws of different worlds, then the gates of the three worlds cannot be used!

Shen Lang can safely come to the magic field to explore, as a general tourist, and even to avoid Yao Chi and other factors, in the final analysis is because the door of the Three Realms can bring him back.

According to the current situation, if the door of the Three Realms can not be used, how can I go back?

At this moment, he took back the knowledge of the gods, looked at the air, remembered everything around him, and made a scanning model and marked the detailed trajectory through the sacred armor.

If the door to the Three Realms is no problem, he can be very convenient. No matter where you look for the cold autumn, you can leave directly.

Now I have to do my best to come back and find the way!

No matter when you can find the way back here, there is at least one possibility.

But he is not good at testing now!

Chapter 2349 - God tour

If the door of the Three Realms can't be sent away, it will be very troublesome. This is a temper to take the risk to the magic field.

So after thinking about it, Shen Lang decided to test first.

He directly used the door of the Three Realms and brought the dog god. The goal is the golden shackle just before coming over!

The door of the New Three Realms, he has been used in different worlds, there is no problem. I never thought that it would have a day of failure. Now I have to say that there is still a slight tension.

If you can't transfer it properly, then you can't talk about exploring the magic domain. You have to look around here to see how you can find a way out.

But most likely there is no way out!

Because of the random transmissions that have been tried before, it is necessary to find another exit.

Fortunately, this tension is only maintained for a moment.

Then Shen Lang had a familiar feeling, and people also sent back to the original place.

Looking at the gold coffin in front of me, confirming that this is the funeral dragon valley that has come several times, and finally I can breathe a sigh of relief.

The coffin is still in the open state, and there is a chilly breath coming out, and Shen Lang looks at it.

He now has two choices, one is to put the gold coffin away, do not need to stay here, so as to avoid other changes.

Because it has just been tested, it can be sent back normally through the door of the Three Realms, which in turn can be transferred to the place just now.

Another option is to come again!

Once again from the gold coffin, you can confirm whether it will be sent immediately after entering.

With a little thought, Shen Lang has already made a decision.

Since the door of the Three Realms can be used normally, and with his current strong mental power, this loss is negligible, it can be done again!

“Do you not worry about it here? If you are afraid that this box will be lost, let me guard it!”

The dog \*\*\*\*\* followed him in, and now he is back together.

Seeing Shen Lang staring at this “box”, I guess this may be very precious. Shen Lang is probably afraid of losing it, so I will go back and look at it.

Although I have seen a whole new world, it is very eager to explore again, but Shen Lang needs help, it should help first.

The deep thoughts of Shen Lang, falling in the eyes of the dog god, I feel that he is embarrassed, may want to let it stay, and embarrassed to open!

When I heard the words of the dog god, Shen Lang couldn't help but feel the reaction. Then the guy understood it.

Because the dog \*\*\*\*\* does not know much about many human things, and does not care at all, so what specific things, Shen Lang does not need to explain so much with it, anyway, how to make arrangements just fine.

Unexpectedly, this time, it actually began to think about it, and wanted to share his worry!

“I am not afraid of losing, just afraid that I don't know when I will come back. In case something changes... but I don't need to guard, I have already decided how to do it!”

After that, he did as he did before, let himself lie flat in the air, then fell to the coffin, and at the same time beckoned to let the dog \*\*\*\*\* go together.

At the beginning of the day, Shen Lang had the feeling of sending over the cold autumn, but after all, he could not compare with his own feelings, but he had half of the experience.

Now, with one and a half years of experience, you can be more calm and focus on all aspects.

When the body entered the coffin, the dog \*\*\*\*\* stepped on him, and he quickly took out the golden mask and put it on!

I have experienced it for the first time, wearing a golden mask, as if I have arrived in another world, but that is the way of “soul worship”, the body is still in place.

Anyway, it is a test. I don't know enough about the two death sacs of the gold coffin and the golden mask. Not to mention the magic domain.

The previous time I was thinking about the cold autumn waiting, I was afraid that there would be any danger, so I need to hurry up as soon as possible.

It is now time to study a little more.

When the mask was worn, Shen Lang sent an idea to the dog god.

“The Emperor helped me to look at it. If there is anything wrong with my state, wake me up!”

Although there is no detailed explanation, it cannot be explained, but the dog \*\*\*\*\* knows how to do it.

Shen Lang can take off the golden mask twice, but it is still short. If God swims too far, who knows what will happen? Still have to be more prepared.

With the experience in the arrangement, Shen Lang can let his reassuring gods swim out.

After the mask was put on, not only did it cover the eyes, but even the gods were completely isolated. For the outside, even the coffin itself could not be sensed.

The only thing that can be sensed is the touch of direct contact, such as the dog \*\*\*\*\* still stepping on him, such as the back falling on the bottom of the coffin, these are the direct feeling of the body.

The darkness allowed him to spread out in the “soul out”. He felt that he wandered in the boundless darkness, as if it were tens of thousands of miles in an instant, as if he had never moved anywhere.

He did not pay attention to the reality of the gold coffin and the burial of the Dragon Valley, this time let his thoughts chase the feelings in the dark.

But even with the utmost care, there is nothing to gain.

This feeling is a bit like the feeling of an ordinary person closing his eyes.

Ordinary people close their eyes and can imagine themselves going to the rest of the world, even the space of the universe, but the picture is embarrassing and unrecognizable, because it is only a phenomenon, not a real feeling.

Shen Lang thinks that this mysterious golden mask, even if it has such a magical ability, can even be regarded as the power of the transmission of gold coffins has been suppressed, or at least connected, it will never be just as simple as covering consciousness The soul \*\*\*\* swims farther and farther, and the feeling is getting longer and longer, but Shen Lang is not worried. Let's expand and explore as I feel it, because as long as I have a thought, I can still recover it.

But in the end it was disappointing!

God swims for a long time, but there is no gain in it, and it has not entered a new world, or what new situation has emerged.

He can only give up first, regain his thoughts, prepare to take a mask, and then go to the magic domain to say.

I have just experienced it. Now that people are lying at the bottom of the gold coffin, as soon as they pick up the mask, they will be sent to the magic field.

Shen Lang still has some data to collect, so after regaining consciousness, he intentionally let his body float up.

He can't feel the bottom of the coffin except the one he touches, but the whole environment is clear and straightforward.

In order to ensure that it will not be transported away, after a foot or so, Shen Lang continues to float up about a foot.

So I took off the mask.

“Do I have any special circumstances just now?” Shen Lang immediately asked the dog god.

The dog \*\*\*\* asked a question: “Are you just wearing a mask and taking it off?”

After a glimpse of the sneak peek, I immediately checked the time of the sacred armor and found that it was so good. He felt that he had been swimming for a long time. In fact, it only took a few seconds. For the dog god, he just licked it and put on a mask. Then take off the mask.

Chapter 2350 - Sketch map

The information that Shen Lang had to sort out included time and found the situation and made him very satisfied.

This is a little different from the time in the space of the Bible, which is a hundred times longer.

Although there is no specific comparison here, it must have exceeded 100 times. But this is not necessarily a real relative time, but a feeling!

This is like the average person can imagine that he is in the space of the universe, and even feels very clear and realistic, that is, the distance is far away, but it is a feeling, not real.

In other words, Shen Lang just felt that God had been swimming for a long time, and it was just a feeling, and the thought changed his feelings.

However, after such a temptation, I have already learned a little more about the golden mask.

Next, continue to go to the test!

Shen Lang went on again, along with the dog god, once again sent to the magic domain.

I have been to this world before, and the sacred mark of the sacred armor can now be confirmed in the same world, and it can be confirmed that it is not in the same place.

“I am going to go back and test it.”

“Again?”

The place where I am now is still chilly, and there is a blue flame everywhere. The dog \*\*\*\*\* is ready to feel the fresh environment, but I don't think it's going to be tossed!

“It looks the same, but in fact it is not the place we just appeared. The cold autumn is also in another place. I want to see more times to see if I can find out the law.”

The dog \*\*\*\*\* heard that the cold autumn is also in a different place, so I want to stay, but it is not easy to open.

“You can explore this place first, I will give you a locator, and I can find you when I get there.”

Shen Lang sees what it means. There is no danger in burying Dragon Valley. He does not need the dog \*\*\*\*\* to accompany him.

The dog \*\*\*\*\* feels a little embarrassed, it seems to be throwing away the waves.

However, Shen Lang did not give it more opportunities to express it. He released a high-precision positioner from the Holy Grail and then sent it back using the door of the Three Realms.

Before coming to the gold coffin, Shen Lang will follow the same method and continue to come once!

I just felt that God had been swimming for a long time, and there was no uncontrollable situation. I didn't need the dog \*\*\*\*\* to wake up, I could control “back”, and the time passed only a few seconds.

Shen Lang is more sure, and spent more time to continue studying the golden mask.

Lying in the gold coffin, already two times, you can wear a golden mask directly outside to see if there is any difference.

This has been repeated many times, and I am more familiar with the golden mask.

Then I started again through the gold coffin, and went to the demon domain again and again!

The first time I guessed the randomness, the second time it was confirmed, but combined with the positioning of the sacred mark, random appearance again and again, it is equivalent to the emergence of one point after another.

So many times, even if they are randomly appearing, and through more positioning trajectory information, there is a rough general map.

Purely just testing, neither side will consume too much time, and the total time will come down, and Shen Lang will not delay the time.

Gao Hanqiu has a tacit understanding with Shen Lang, and he has seen various scenes. If they do not appear, they should be able to guess random transmission.

In this way, Shen Lang can use the positioner to roughly grasp the orientation of the dog \*\*\*\* and then pass it closer to be precise.

But in the cold autumn, it is really only through the carpet search.

But there is still a plan, that is to search for some special places on the magic field!

Whether it is the place where the resources are produced or the place where the Mozu live, it is the goal of their exploration. If you see it in the cold autumn, it should stop.

And everyone has such a consensus, it is easier to see.

Shen Lang also thought of a problem in the process of testing.

According to the legend of Tutankhamun, or the snake \*\*\*\*\* Kemrisu, the golden coffin is the sacred sacred device. It is the alien of Unicom. It can summon the army of the demon and can also exile people to the demon domain.

Judging from this time and again, there is no problem with the “exile of the demon domain”. If you lie directly in, you will be exiled to this side.

But how do you summon the Mozu army? That should be said that the Mozu came to the Earth World through that passage!

However, this random transmission did not find any channels to return to the gold coffin. How was the Mozu summoned by the Deathly Hallows and climbed out of the gold coffin?

Is there a golden mask?

Whether it is representing Pharaoh or offering sacrifices to God, it is a bit of a conflict with the gold coffin.

According to the unearthed set – the Kemrisu water monster said that it is a fake set, the mummy of Pharaoh Tutankhamun, wearing a golden mask, lying in the gold coffin.

It was also confirmed that wearing a golden mask lying inside, it will not be transmitted away, then how to summon?

Such a thought, there is no clear result, can only continue to explore.

Although the use of the three-gate door to Shenlang’s mental power consumption is nothing, but the short-term continuous use, it still has a little impact.

Now that most of the information has been confirmed, and then continue the test, that is, a few more points on the map, now the Holy A can already simulate a rough, and then a few more is just rich, not too critical effect.

So at the last time, Shen Lang took the gold coffin and then went to the world through the door of the Three Worlds. Every time it was randomly sent to a different place, the environment was almost the same, both The chilly temper and the faint blue flame have basically understood the tone of the world. This is the most common environment.

Because a rough map was simulated based on one point, and there was a locator in the dog god, Shen Lang did not have no target at all. He chose the direction of the dog \*\*\*\*\* and rushed over there.

However, the speed of the road is not fast. Because of those blue flames!

The flames in the outer area of the burial dragon valley are ejected from the ground. The range is roughly fixed and can be avoided.

Here is not the same, in addition to the flame sprayed on the ground, the air is even more blazing.

The flames appearing in the air sometimes burst open, some are arcs, some fall from top to bottom, and others fly upwards.

In short, there is no rule to follow, and the sudden emergence of unruly air has greatly increased the risk.

If the speed is too fast, maybe it will directly hit the flame!

In this environment, it is actually running on the ground, which is relatively safer than flying in the air.

But it is only relative, less than the airborne variables, but in addition to avoiding the flames on the ground, it is still necessary to pay attention to the flames falling in the air and falling in the arc.

Not far away, Shen Lang stopped at a large flame on the ground.

He put the heart fire out!
