

## First Strong 2361

Chapter 2361 - Have you won again?

Shen Lang just because of excitement, so many energy groups, if collected completely, is a huge gain, this trip is not white, even if the cold autumn and the dog \*\*\*\*\* did not get anything, can also give them a part .

And because there was no protection against the golden mask that had been used for a long time, and received those energy groups, there was no reaction, and they thought that they were directly placed.

Now that he had this conjecture, he immediately inspected the induction quickly, and confirmed exactly that he was not absorbed into his body.

Then there is no need to say more!

It seems that this soul attached to the golden mask is also because it was too weak, hiding in this sacristy, waiting for a chance to come out again.

Or because the energy of the golden mask has been consumed for thousands of years, causing him to become weak, so he never dared to reveal anything.

Until this moment, the energy group has just been absorbed, so that he can quickly recover and recover.

As for why it should be revealed at this time, it should not be because of the unbearable relationship, it can be so thousands of years, naturally there will be great patience.

It should be worried that Shen Lang will find out, so take the initiative in advance.

In fact, it is also true. Shen Lang was negligent because he did not think about this layer at all, so he did not notice abnormalities for several energy groups.

But in the end, it will be a little while, and when he absorbs a few more, he will be aware that something is wrong.

When it comes to defense, it is even harder for him to control the situation, so he will speak. In the opening... In fact, he has launched a comprehensive attack!

The gold mask that I just felt embedded into the face of Shen Lang, but it is only one of them, even just attracting attention. The real attack is that his soul has already invaded the brain of Shen Lang!

Shen Lang just checked the next moment of those energy groups, he checked this, and added a soul into his mind!

This is no longer a defense against Shen Lang. The defense is now late!

From the beginning of the test of the golden mask again and again, the soul of the dark world swims, is to establish a channel of contact, in this ancient cold world 23,000 miles, to the pyramid, the whole process of the waves are Wearing a mask.

The whole process is almost in the state of keeping the soul swimming, exploring the farther places by the power of the mask.

This process naturally allows the other party to take advantage of it.

For example, the “sacred armor” commonly known as the watershed city state, this bionic micro-combat system is directly connected with consciousness, which is to present and control everything through consciousness.

Now Shen Lang has been used for a long time, and has been accustomed to and trusted in its existence. Even in some respects, it is somewhat dependent. At this time, if it is consciously invaded and rebelled, it must be prepared to be far better than the enemy of the outside world.

An ordinary person, will he be wary of his cell phone, computer, car or his shoes invading him?

So at the moment when Shen Lang discovered it, it was too late.

He just reached out and took off the golden mask, which was achieved directly. But it is no longer important to take the golden mask off.

The ghost and ghost soul hidden inside the golden mask has been successfully transferred to Shen Lang.

Now, this is the body he wants to take away!

At this moment, Shen Lang flashed another thought, and he realized that he was still inflated!

Although he spent a long time in the Tianshu space, he spent a long time on the foundation and did not blindly rush, which is conscious.

But his personal safety awareness has not improved to this extent!

If the enthusiasm is in other places, the dangerous wheel of the heavens can be predicted in advance, but here, the wheel of the heavenly machine can not be used.

When I was on the earth, I carried the obelisk back, and it was a once-in-a-lifetime. It was a pit dug in the temple. The purpose was to get him over and then give him to the occupation.

That time it was solved, and the obelisk and the “Kemrisu” were also conquered. But for the regained gold suit, there is not enough caution.

Time flies, thousands of years, the sea of sangtian, even a temple can be refined, not to mention other holy devices?

But now is not the time to regret, what should be done is to quickly kill the other party, this is the battle of life and death!

Take the lead!

Shen Lang did not take the initiative to win the body of others, but he has too many things to deal with, and he has to deal with it!

The king of the sand country succeeded in invading the brain of Shen Lang even by sneak attack, but would he be stronger than the dragon?

When I was in the funeral of the Dragon Valley, it was a soul of the ancient people and a dragon. They entered the mind of Shen Lang and formed a melee.

The past successful experience can make Shen Lang more confident and more clear about the way to fight.

Compared with before, he has now repaired for more than a hundred years and reached the peak of the Great God!

The king of the sand country will be eager to attack in advance, originally intended to sneak as soon as possible, that is, the expression of lack of confidence, so it will take this best opportunity to complete.

Therefore, even if Shen Lang loses the opportunity, he is still full of confidence Do you want to occupy my body? My body is really good, I also feel very good, young and strong. But unfortunately, you have already died for thousands of years, but now it is only a soul! ”

Shen Lang is distracted and multi-purpose. On the one hand, he directly closes the golden mask. If the other party does not want to escape, he will not give him another hiding place!

On the other hand, it protects all aspects of the body in all aspects.

In theory, the other party wants to occupy this body, it should not hurt the body, because it is equal to hurting their own things.

But if it's hard to get, it's not necessarily because it's not your own. If you can't get it, you can get all the damage. It's worth starting.

On the other hand, it is a high concentration of consciousness, capturing this incoming soul and his positive confrontation.

In addition to these three aspects, Shen Lang also released such a layer of ideas, using the dialogue to stimulate each other.

It is now in his consciousness, it is very convenient and convenient to communicate, and an expression can express the words he wants, and they do not need to be transmitted.

“Your body? This is my world, this is my country, my home! Everything is mine, this body will be mine!”

The king of the sand, also did not let it back. Perhaps he also knows that masters’ attitudes, attitudes and momentum often affect determination and confidence, thus changing the situation.

Chapter 2362 - More than the momentum?

The consciousness of the two people is in the opposite direction, but they have not stopped to test at all. Both sides are violently attacking and seize the control of this body!

As the “host” of the body, Shen Lang has the advantage of home game, but it also has disadvantages.

His body is his master, more familiar, more understanding, and can also mobilize more “resources” to attack and defend.

The foreign soul, originally, will suffer the rejection of the body, and naturally it is impossible to compare with the “original soul.”

This is the advantage of the home court. The disadvantage is that it is fighting in his body. Whether it is his own attack, the attack of the other side, the confrontation between the two sides, all the pains caused by it are all carried by Shen Lang.

The pain of the body will affect his soul.

This king of the sand country is naturally deeply aware of this, and he must have been an extraordinary figure and rich in experience.

Therefore, as a soul, when fighting with the soul of Shen Lang, he did not forget to attack all aspects of Shen Lang, and created various kinds of pains for Shen Lang.

In the blink of an eye, Shen Lang immediately felt a darkness!

That dark world!

He had been used to it before, and he knew it, but now he understands that it is intentionally created by the other party. In fact, what he feels is the feeling of the other side.

And now I will feel such a dark world. There is no doubt that the other party has used the previous experience, or when I used to test the golden mask in the burial dragon valley, the dark world experience once and for all, the other party has already buried the present. Foreshadowing.

The whole consciousness entered the dark world, and the home advantage of Shen Lang was immediately curbed! The new 81 Chinese network updates the fastest mobile phone: <https://>

This is not the darkness that is invisible on the eye level, but the state in which the soul enters the darkness.

This is the other party's success in dragging the battlefield into its own field, eliminating the home advantage of Shenlang, and suffering from all kinds of shocks and pains, Shenlang still has to bear.

Before I realized it in the burial dragon valley, I entered the dark world. His senses of facial features and gods were disconnected, but the direct touch can still be felt.

Now even the touch is not needed, this is inside his body!

This is the same as toothache, stomachache, migraine, etc. It is the pain inside people. There is no place to escape if you want to escape.

After entering the dark world, it is equivalent to the opponent's home, the soul that does not need to bear the burden, in the dark world he controls, the massive crushing of the waves, in an attempt to completely crush the soul of Shen Lang!

"I am the king of the world! The king of the world is for my people. In your world, I am God! You are not saying that I have been dead for thousands of years? Then I am your ancient god!"

This consciousness emerged in the mind of Shen Lang.

When he said the identity of the king of the world, he undoubtedly had the glory of the past, was very proud, and also took the courage of the world.

He has been to the earth. He understood the Nile civilization thousands of years ago, and perhaps created the civilization directly and indirectly.

So this is not to brag, nor to belittle the other side, but at the time he was really God, and he was very clear about the level of the earth.

“God? And the ancient gods?”

Shen Lang couldn't help but sneer: “You also know that it was ancient, and there have been many changes in thousands of years! What do you think of our world? I will show you what our world is like now!”

When the mouth gun was sprayed, Shen Lang recalled a lot of pictures in his mind. All the pictures flashed quickly, but the other party was also in his mind and could be clearly perceived.

What he presents is a variety of river-states, both high-rise buildings and high-tech ships.

There are even some pictures in the sci-fi movies, all of which are presented to him quickly.

“A world that is thousands of years later, is it a world you are familiar with? In such a world, there is no place for you to exist. Can you still be a god?”

The images presented by Shen Lang include those huge warships, including the manipulation of numerous mechs to attack the demon outside the field, as well as the bombing of alien spaceships in many science fiction movies.

Even the special picture of Transformers on the pyramid was shown to him. The new 81 Chinese network updates the fastest computer: <https://>

He is in the mind of Shen Lang. Everything that Shen Lang has just presented to him is naturally a memory from Shen Lang. It is a large number of pictures. This is not a virtual concept.

And most of those situations are scenes that he has never seen before.

This made him not to be shocked. Didn't the backward humans really develop to such a large extent for thousands of years?

He has always been in the golden mask, and it was collected by the zombie in the desert under the desert. For these two or three thousand years, for him, it was a leap.

Even if he knew the earth and influenced the creation of the Nile civilization, he knew nothing about the current situation.

Whether it is the words of the king of the world to Shen Lang, or the memory of Shen Lang. It is to fight against each other's confidence and show their strength.

The posture of God is the foundation of the king of the world.

However, everything that Shen Lang is presenting now gives him a heavy blow.

If the human beings nowadays are really strong enough, there are so many tools that are completely incomprehensible but very powerful. The human beings who can make these are naturally not weak.

"You call yourself a god, nothing more than you were stronger at the time, deceiving some weaker humans. Are you looking at the opponents I have encountered, are you weaker than you?"

Shen Lang felt that it had an effect and continued to destroy his confidence.

The memory picture released this time is some of the battles he has experienced, such as the behemoth, the Kuafu giant, the dragon, the extraterrestrial demon, the killing warriors in the flames, and... Hey!

These are in his memory, he has been involved, but this is his brain "clip".

For example, to deal with the behemoth, it can be all that he killed, including the dragon elephant behemoth. For example, the killing warrior shows that he is at the scene, and he and the mountain

are used to compare the three-meter flame giant. If you don't let Gao Hanqiu "show out", it is equal to him.

As for the embarrassment, although there is no battle scene, when I was buried in the Dragon Valley, I swallowed a lot of "mountain peaks" and finally narrowed my body under the order of Shen Lang. Isn't that he is controlling this huge monster? ?

In the burial of the Dragon Valley, Shen Lang also tested the golden mask there and again, and even more trusted in the king of the world, to make him convinced that it was really a memory of Shen Lang, rather than a temporary fantasy fabrication.

Not to mention the powerful attack power they display, the light of their head can give people a huge shock.

The three-kilometer-high flame giant, the giant python that is dozens of miles away!

This is his "God of that era", can you deal with it?

Chapter 2363 - old man

Seeing that he did not respond, and the momentum has been obviously a lot of smashing, Shen Lang knows that he succeeded in scaring him!

Of course, it is impossible to really scare him, but he will temporarily suppress the opponent on the momentum and let his confidence weaken.

If you can't seize this opportunity to attack, wait until the other party has passed, and you want to suppress the momentum and confidence again, it will be difficult.

Those who want to win the waves are basically just waiting for such an opportunity. For example, having a spiritual temple, such as a dragon, is extremely long and has such an opportunity.

The king of the world is also the same. It was collected by the snake \*\*\*\*\* Kemrisu into the treasure house. They are all piled up in a pile and have not been valued at all.

The strength of the Kemrisu water monster two or three thousand years ago, which may be invisible to the king of the world, is not invisible, so he did not win the zombie, or it may be because he was too weak at the time.

And now to the Kemrisu, he did not have this opportunity, was turned out directly to give Shen Lang.

Shen Lang is of course a better target.

Missed Shen Lang, he did not know when there is a chance.

No, it should be said that now is the situation in which you live and die, either that he succeeded in winning the sinking waves, or that he was wiped out by the sinking waves, and it is impossible to leave him a chance. The new 81 Chinese network updates the fastest mobile phone: <https://>

Therefore, the long-cherished wish of thousands of years will inevitably make him desperately attack!

Shen Lang immediately gave a condition!

“I have a relationship with you in our world. I can’t deal with you. You just want a body, ninety-nine outside, you can pick it!”

The King of the Kings, who had been hit by confidence, couldn’t help but feel a little embarrassed when he heard this suggestion.

If you really want to continue fighting, there is a great possibility that it will be eliminated, and even if you can survive, perhaps this body will be hit hard.

If you really let him pick one from his own people, he will be resurrected, it will be much easier, it is familiar, there will not be too many reactions.

As for whether Shen Lang is a trap, he thinks it should not. Because of the fight to this moment, Shen Lang also saw his power, it is estimated that he is afraid of death, afraid of both losses, so choose a plan to step back.

The ninety-nine outside, equivalent to the strength of the Great Fairy, certainly can not be compared with the body of Shen Lang.

But Shen Lang is so strong, he has to have a way to win it. If the two sides fight together and lose their bodies, it is better to choose one of the ninety-nine outside.

Shen Lang gave this advice at this time, of course, just tactics!

His recent memory picture has already taken the lead, giving him a suggestion to continue to shake his confidence when he is a little fluctuating.

When the king of the world is really considering it, Shen Lang has already launched a comprehensive counterattack!

Just because it was dragged into this dark world, this is the place where the soul of the King of the Kings takes the lead. The Shenlang is still conservative and passive.

Now it is different. He directly blasted his past with his powerful spirit!

His spiritual strength comes from the absorption of several dragons and ancient powers. It also absorbs the mental power of many other strong people, as well as a lot of religious power. In purely spiritual power, he is definitely far better than The same level.

Moreover, after being rehabilitated by the mysterious energy in the Yungong Holy Land, after a hundred years of retreat, it has already been completely absorbed and transformed. One of the manifestations is that his spiritual power has a strong repression effect! The new 81 Chinese network updates the fastest computer: <https://>

In this dark world, the enemy is hiding deeper, but under his repeated stimulation, it has been successfully locked because of a little change.

The comprehensive counterattack at the moment comes with a strong confidence and momentum.

He also did not forget to continue to fight each other!

“I don’t want to?? Let you see my true strength! I will look at your so-called god, you have been degraded for thousands of years old guys, can you bear my anger!”

The king of the world is once again shocked!

The more and more huge existences just now, those who have been defeated by Shen Lang, have allowed him to reassess his strength against Shen Lang, who thinks he knows well.

Just saying this sentence, saying that you want to see the real strength, does it mean that you have not exerted your full strength before?

And this last sentence, for him, is a bit of a heart!

Old guy who has been degraded for thousands of years!

Yes, hiding in this sacristy, he wants to keep the soul intact, it will consume the energy of the holy device. Without the body, he does not want to practice.

There is no master of the golden mask, and it is not refreshing and making up for energy. It is also eating old books. After thousands of years, not only has he repeatedly degraded, but the golden mask has become more common.

If it wasn't just succeeded in absorbing a few "global" energy groups, he really didn't dare to scream.

Now the words of Shen Lang are tantamount to debunking the banner he is pulling.

The soul that had been evenly matched with him suddenly suppressed it with powerful power, and made him feel the pressure.

"Your suggestion, I can consider..."

"Consider? Do you want to delay the time? Funny! Is the delay time useful to me? Does your attack have any effect on me? Do I feel a little pain?"

Shen Lang continued a series of presentations, with the suppression of the soul of Gaowei, so that the king of the world will immediately feel the feeling of retreat. He also thinks that this is the truth,

he is such a foreign soul has entered Shen Lang's body, it should be the pain of a splitting headache, but they fight each other for such a good fight, but the waves are nothing!

Not only is there nothing, but it can also calmly talk to him, show him memories, and continue to strengthen the offense!

Everything, everything seems to be a little bit of pain and no pain.

This makes him a little desperate!

Are humans now so powerful?

I am also a \*\*\*\*\* of yours. It is the \*\*\*\*\* of your human worship. Can a young human being kill me now?

Of course, this kind of despair is only a moment. After all, he himself knows that Shen Lang is definitely not a fake ordinary human. Even if human beings are very powerful now, Shen Lang is definitely the peak of humanity!

Now he said that there is no pain, is it true? Maybe it's just hard!

If it is hard, then it will be said, is it not a bluff? As long as he is fighting against it, he may be able to smash the other party!

Thinking of this, the king of the world can not help but feel the spirit, once again let this dark world become more and more turbulent, this is the environment he controls, has a huge advantage.

Although he could not suppress the sinking waves, he reversed the situation that had just been suppressed and turned into a state that was basically balanced.

More importantly, his confidence has begun to recover, and he feels that he can get rid of the waves!

Chapter 2364 - Please "God"

They are the battle of the soul, but the two sides use the strategy, including the use of discourse pictures, to achieve psychological impact, in order to compete for momentum and confidence.

Just because everyone is not an ordinary person, it is necessary to pay attention to these. Shen Lang directly took the upper hand by affecting the other side.

And this king of the world quickly restored his confidence and fighting spirit, and immediately surged and began to balance his wrestling.

At this moment, he has already firmly believed that he will be able to kill Shen Lang, and he will naturally resist stubbornly.

He has already figured it out, even if he is also accepting the proposal of Shen Lang, it cannot be like this!

When Shen Lang stabilized the upper hand, he did not believe that he would be reassured to find someone to resurrect, and it would certainly be a slow-moving plan.

If he forced the hope that Shen Lang didn't win, he would only have two losses in the end. At that time, it was really possible to talk about conditions equally.

Although Shen Lang has the upper hand, but because this dark world was created by him, he did have a home advantage before he broke open, so he quickly pulled back.

“Do you feel pain? Then feel it!”

The king of the world sneered at the cold, and then the soul ransacked in all directions. Anyway, for him, it was in the body of Shen Lang, what kind of collision, the injured are the waves.

Shen Lang certainly has a feeling, it is painful, and a powerful soul is madly stimulated in the brain, and the head will explode, is it good?

Only he has come all the way, has suffered a variety of pains.

Especially the two powerful forces of the ancient Terran strongman and the magic dragon, Shen Lang has already suffered the most extreme pain, and it is a thing before the “hundred years”. He has not experienced any major troubles recently.

So these pains, he can still afford it.

He is worthy of the past!

Just after his suppression, it has already had an effect, but the confidence of the other side has recovered, and it has been able to pull back most of it so quickly, so that Shen Lang is a bit surprised.

He suspects that this should be related to the environment of this dark world. This is a trick of the other soul.

Before he was in this dark world, many of them were unacceptable. If they were not strong enough at the time, they might have attacked him long ago.

At this time, it is not the time to study the weakness of the other party, but the safety first, we must first solve the problem of the other party! The new 81 Chinese network updates the fastest computer: <https://>

The last time was his crisis, Leiyuan helped.

This time, Shen Lang decided to take the initiative to ask Leiyuan to help!

He didn't feel any embarrassed because it came to a new world with Ray Source and gave it more insight. Usually living in him, but also with travel, how to pay rent, travel expenses!

The enemy that he usually encounters, he can do it himself, and he does not need Leiyuan. Now it is rare to have a chance to show it. Should it be happy?

Besides, Lei Yuan did not take the initiative to intervene before the death of the Light God in front of the Temple of Light!

Say something nice, maybe it feels like the light \*\*\*\*\* did not kill him; say it is ugly, is it not the opponent of the \*\*\*\*\* of light?

Now that you can deal with this soul, you can shoot it?

Mind this, Shen Lang directly issued a request!

“Raytheon! This guy calls himself God, and he is so unruly in front of you. I think you still have to give him a slap!”

The king of the world has also sensed the thought of Shen Lang, and immediately sneer.

According to his understanding of human beings, he worships the gods and fears the worship of the power that cannot be understood.

Therefore, the first reaction was that Shen Lang was a little afraid of him, so he wanted to use the way of asking God to prosper.

However, I felt that it was a bit wrong. The memory pictures that Shen Lang had just seen him were not like humans who had never seen the world, and they had developed to the point where he could not understand. How could it be... ...

But even if the mind is very fast, I can't let him think about it, and I immediately feel an indescribable feeling!

Shen Lang is now more powerful, and Lei Yuan is of course clear. If he does not encounter a strong enemy of life and death, it would not have participated in helping the waves.

When it was not strong enough before, please help it. It's still okay. Now it's obviously a chance to win, at least it won't be defeated, let it help!

Lei Yuan is a bit uncomfortable, but it is also clear, Shen Lang took it to explore some fresh places, this is a world that it has not seen before.

This is the taste of asking for it.

Although it is not as complicated as the human mind, the general mood is still a bit similar.

For example, if you help the problem with help, it is that Shen Lang owes it, and it does not need to remember so much.

But if Shen Lang took it to visit more places, it would be a bit owed to the waves.

Compared with the stagnation, it is more willing to succumb to it.

Therefore, after the opening of Shen Lang, it did not have any response, and without any hesitation, directly attacked the soul of the king of the world!

It is a heaven and earth spirit, an unusual existence. This attack is not a thunderstorm, but it is also a similar effect. The target of the attack is directly the soul!

The king of the world has always been scornful of “Raytheon , I did not expect to really feel the thunder!

It feels very uncomfortable and irritating, but it gives him more shock and fear.

Because he has no physical body, he should not have felt this kind of lightning strike. Even if he strikes him, it should be the body of Shen Lang.

But just then, he seems to have been hit by the soul, this is an indescribable feeling.

In the next moment, Shen Lang’s powerful counterattack has come over and directly suppressed him!

Shen Lang does not need Lei Yuan to help him clean up one by one, just need a key to come and create an opportunity.

Just then, for the soul of the king of the world, it was a heavy blow, but it also disrupted the rhythm of their balance, so Shen Lang immediately pursued the victory, and he did not react to it, and completely suppressed it.

Between the time, the dark world quickly receded!

Originally, this is a dark world created by the King of the Kings. When he was first hit by Lei Yuan and then thoroughly suppressed by Shen Lang, he immediately disappeared.

After the restoration, it means that he wants to turn over more impossible. He has no advantage at home, and now he is back to Shen Lang to enjoy the home advantage.

He has already firmly suppressed him. When the normal moment is restored, Shen Lang is full of confidence and continues to crush the past with all his strength.

This is because he has no slightest soft heart. For this soul, it must be completely extinguished. Otherwise, it will be a big problem!

Chapter 2365 - God's past

Shen Lang is a person with rich experience. Once the overwhelming victory, the subsequent crushing is very fast.

This powerful soul was completely crushed by him, and his consciousness was completely annihilated, leaving only two.

The same is to read his memory first. In addition, nature is pure spiritual power.

The skinny dead camel is bigger than Ma, although it has been weak for thousands of years, but hasn't it just absorbed a few energy groups?

This is the pure energy group of the "Star"!

The realm of Shen Lang is already very high. For the spiritual power, it is far better than the people of the same level.

Therefore, all the spiritual powers of this soul, he completely accepts, there is nothing to bear.

While absorbing such awkward spirit, he quickly learned the memory of the king of the world.

His understanding of the world is still unclear, and it is still understood by the memory of the sand people who read it outside.

Therefore, the memory of the king of the world is very important to him and very urgent.

After this memory fusion analysis, Shen Lang suddenly has a lot of historical information, it is really a long-span story...

This world is really called the ancient cold world. But the ancient cold world is not just a country of sand, there are some other races.

The concept of time when they live here is different from that of the human earth. Just like after everyone's desertification, they can have a long sleep and practice. The new 81 Chinese network updates the fastest mobile phone: <https://>

A long time ago, a former King of the Kings, the leader of the Kingdom of Sha, did not know why, for some reason, he had flown to another world, the ancient earth.

There he experienced something specifically over there, and later generations did not understand very well, just behind him, feeling his distress signal!

Everyone followed the signal of asking for help and wanted to find out where it was. But I feel that it is in another time and space, even if there is a little signal, there is no clue, it is impossible to rush.

After several generations of kings, he was the king of the world. He was a very outstanding king. After he grew very strong, he felt that it was necessary to challenge him and find the king of the previous generation.

Even if it has been in the past few thousand years, it has not been found, and it may have been missed before it is found, but there may be many valuable things.

After all, the king in front, that is to explore a new world, certainly has a lot of discoveries, so I will find ways to pass the information back, but I can't come back.

For the sake of profit and the reputation of building a career, he first made preparations before he set off.

There are a lot of things to carry, and the so-called "golden suit" of Shen Lang is what he brought from here!

The golden mask is the identity symbol of the king. This is what he must bring. It is equivalent to a token. Before he can pass the new king, only one of them can be worn.

The gold coffin is a cross-sacred device that is built for return. Its function is only one, one-way transmission array!

No matter what time and space, as long as you enter the gold coffin, you can transfer back to your home.

Since the former king can't come back, he doesn't want to repeat the same mistakes, he must prepare the retreat before he goes!

Others understand that the gold dagger is his magic weapon of attacking weapons; the gold chariot is just an aircraft, and the gold scarab is one of his attacking props, which can summon some giant beetles in the ancient cold world. attack. Starting <https://https://>

Of course, in addition to these, he actually brought other things, but Shen Lang did not see it, or has lost it.

He is indeed not simple, but he really let him find a space crack, and according to the clue, came to the earth world.

After he came to the Earth World, the information that came over the king the previous time was also picked up.

The king went to the Nile River, and directly and indirectly influenced the creation of the Nile civilization. He did not leave a big name, but he was innumerable.

On the one hand, he himself became a high priest, affecting the state and the people. On the one hand, he has shaped himself into the sun god, the zombie god, the eagle god, the thunder \*\*\*\* and so on.

It is him who makes God, and who is manifested.

The gods that make up the gods are naturally spread from generation to generation. But the high priests are life-time and live longer than the average person. It is a normal miracle. If you live for a long time, you will be doubted.

And his life is much longer, so he has changed his identity many times, sometimes it is a high priest, sometimes a general, and sometimes even a pharaoh!

The pyramid is an important trace of his message!

He couldn't go back to the ancient cold world, but he needed to pass on the information, so he built the same pyramid and used the pyramid to convey information across time and space.

The sand country in the ancient cold world also really received his information, but he could not come over and could not return information.

When the pyramid was established, he could not build it himself alone. Although he spent enough time, he could do it, but it was really a miracle, and it would be feared by the world!

He has already understood human beings, proper manifestation, fear of being like God, excessive manifestation, and fear of being like a demon!

So the construction of the pyramid is to find a lot of grandiose excuses to convince the king of Pharaoh, using hundreds of thousands of people to build, some of the key places, is his own participation.

And this thing is indeed a great invention. When there is one, the later Pharaohs regard this as a goal, and become a symbolic thing for a successful Pharaoh.

When I came to the stage, I started building the pyramid tomb...

The pyramid built behind, of course, also has the shadow of the king. Although it can't pass the information back, it can assist the original pyramid.

By the time the King of the Kings came over, it has been two thousand years, and the king has disappeared.

He is also not sure whether he is old or dead, or he left the Nile civilization and went to other areas. Or went to other areas – such as China, and then was killed by the local god-level powerhouse.

In this case, his purpose can not be achieved.

But he revised his goal and prepared to occupy the world!

At that time, the earth was still not exhausted, and the population and other aspects were still very few. It was very beautiful. It is much better than the ancient cold world where the fire is over the sky.

They don't need to leave their homes, but they can develop a branch here!

Did the former king have already shaped a group of myths? He just needs to follow these influences on it!

In order to promote, in order to better affect all people, spread the information even more.

He made himself a pharaoh, that is... Tutankhamun Pharaoh!

Chapter 2366 - Being squatted

When he lived as Pharaoh Tutankhamun, he also took control of the greatest power in the land. He also began to build the pyramid, but with some amendments.

The pyramid built by the former king was to convey information. The pyramid he built is not only transmitting more coordinate information, but also hoping to establish a spatial channel directly!

To put it simply, it is to build a space-like array, from the pyramid there, directly to the pyramid here.

Because he was only a person in the past, if this space channel is open, then more people can be sent to the past.

The power brought by Pharaoh's identity, but there are also some restrictions, such as the inability to publicly expose too powerful forces.

However, he used the “invention” method to make the golden chariots appear, and the talents were shocked!

And he himself is a god. When he meets and prays to God, it is easy to “feel”.

So everyone thinks that this is the true child, the pharaoh who is blessed by God, has a very high reputation.

On his hand, temples, obelisks, etc., were also built a lot. In the eyes of him, snakes like the Kumli Su water monsters are not influxed, they are hot.

He directly hunted the monsters, spirits and beasts on the land in the name of God!

For a time, many of them fled to the distance, and Kemrisu also hid far away from the Nile River and was able to escape.

Although he is a pharaoh of Tutankhamun, he shows the talents of the talents. But it has violated the interests of too many people!

For example, religion, although the former king has already guided the emergence of religion here, but also shaped the recognized god. But as time goes by, reaching a thousand or two thousand years, there will naturally be many changes.

Even the gods of the last king, the whole country, have changed. Tutankhamun is directly and powerfully reversed. He can't allow other hot, cheap, and must believe in their “god.”

The time and life of ordinary human beings are different. It has been passed down for generations or centuries for them. Suddenly, they have to be reversed. Some people have opinions, especially some nobles who have the power.

As for the civilians, it goes without saying that the construction of pyramids, temples, etc. is a huge project for the people and the people, and many pyramids are completed in the length of several decades.

In his capacity as Pharaoh Tutankhamun, he forced everyone to build as soon as possible, and in terms of difficulty, it was bigger than other pyramids in history.

Because he has no feelings for the human beings of these earths, and the identity of Pharaoh is only a use, and will not really be regarded as his own people.

Just like the landlord of mankind, it does not care about the feelings and life of the animals.

In this way, the nobility, the civilians, the aliens, and the comprehension community were all offended by him.

After a period of time, all kinds of dissatisfaction will grow and spread.

Only the aristocrats could not do anything even if they had a plot. The civilians would at most curse him, but prayed to God, but instead increased his faith.

The variables are appearing on the aliens who have escaped!

The snake \*\*\*\* and the like are all shaped by the king. Shen Lang combines the golden mask and thinks it is a zombie, but in fact it is just a pretending to be a zombie.

After it survived, it became more low-key, not visible, and did not dare to pretend to be a zombie. In the end, it simply called itself “Kemrisu.”

There is also something like it that has escaped and went to a farther area.

At that time, the earth was also a stage in the outbreak of the cultivation of true civilization. In other areas, there were civilizations, and there were also beasts and savage beasts.

When there are tyrants who have evil spirits, they have also spread out, and there are also strong men in other regions who have a sense of justice and have come to the Nile Valley.

Many of the strong men who challenged him were killed by him, not his opponent at all.

But in the end there was a very powerful monk who fought with him and reached a double defeat!

Is it from the strong of the East, from the memory of the King of the Kings, it is already invisible, I don't know where it comes from.

When he was devastated, the aristocrats in power discovered this anomaly. When the opportunity came, they passed a wave of plots through the high priests who were changed by the changed beliefs, often the most powerful comprehensions of the time. Facing the position.

The final result is that Tutankhamun was heavily squashed, but it was actually hit by a squat.

But the skinny dead camel is bigger than Ma. He is a person who thinks of God. Even if he is seriously injured, the general comprehension is not his opponent.

So for the niche, he also eliminated a large number.

But the problem lies in the gold dagger!

The gold dagger, like the golden chariot, he first showed it out. It was his personal harvest, and he was the weapon of God.

But more is a symbol. It is a cover that can be used to publicly display power when necessary. He himself has to deal with the human beings at that time and does not need to use weapons at all.

Because there was not enough attention, the planned aristocrats bought the next person and stole it. At the end of the melee, there was a priest who fought hard and took the gold dagger into the heart of Tutankhamun!

The result is that he can no longer use that body, and everyone else is eager to kill him, plus the original is seriously injured, and another wave of war...

In desperation, his soul is in the golden mask.

The golden mask is a symbol of the king of the world. It has a special meaning for him and a magic that others cannot understand. It is not like a gold dagger. It can only be manipulated by him.

As a result, he was buried on the grounds of serious illness and violentness, and because his pyramid had not yet been completed, and for the burial as soon as possible, he was buried with a mausoleum prepared by the prime minister. gold coffin, gold dagger Gold chariots, golden masks, and scarab beetles, these saints that he once showed in various ways, should naturally become funerary objects.

The gold coffin is the sacred device of death, the Unicom magic domain, the ability to banish people to the magic domain, summon the magic army and the like, is a rumor that he released before.

The aristocrats who are in power are naturally loved and afraid. Since I am worried that I can't control the big problem, I want to master the mysterious sacred device that I don't know where to come from.

As a result, they created a set of basically identical gold suits to be buried, ready to replace these items of Pharaoh Tutankhamun.

At that time, the Kemrisu water monster came back, and it took away a whole set of sacrists and other funerary objects.

But because it can't use the golden mask, the gold dagger, the golden chariot and the scarab, it doesn't make much sense to it. If the gold coffin, the legend is not true or false, and dare not try it.

The result turned into a chicken rib, which was always thrown at the treasure chest.

Chapter 2367 - "Charging" saint

The body of the king of the world, Tutankhamun, has been destroyed and hidden in the golden mask. It was originally intended to recuperate!

Because this golden mask is the symbol of the sand king here, he can control it, and he unites with him.

To put it simply, that is, his personal body is gone, and the golden mask is also the power to absorb the contributions of pyramids, obelisks, temples, etc.!

Just relying on it to absorb it by itself, the time will be a little longer.

But he doesn't care, as long as he can recover better, he will re-kill and find a suitable candidate to win. Anyway, it is just a body.

After the result was taken away by the Kemrisu water monster, it could not study one thing, and they put them together in the treasure house under the desert.

There is a secret treasure trove, not directly dug, but transmitted.

That is an isolated little world!

Ever since, the light is a golden mask, and it is impossible to absorb the power of faith from the outside world.

Without energy supplements, he couldn't even recover, let alone re-find people to kill and go back.

It can only recover as much as possible, wait patiently, and wait for opportunities to emerge.

As long as there is a chance, even if it is not visible, it can be used first, occupy its body, and have the opportunity to change a better human body.

As a result, the Kemrisu water monster itself is a bit of a collection of cockroaches. Many of the good things that it can't use are collected and collected first.

There are more and more people in the treasure house stuffed in, but it has not been in it for a long time, so that the king of the world wants to take it away without a chance.

Without energy sources, he relied on the original energy of the golden mask. After two or three thousand years, he actually consumed it.

It is because the gold coffin, the gold dagger, the golden chariot and the scarab are all in the space, so he follows the golden mask and absorbs these homologous energies.

It is equal to relying on four pieces of holy devices to "charge" the golden mask, and let him continue to the present.

At that time, when Shen Lang put on the mask, he really couldn't help but wanted to start, but he couldn't do it at all, and he had to hold back.

Behind Shen Lang's retreat in Tianshu Space for a hundred years, for him, it's a torment!

Although compared with the previous two or three thousand years of suffering, a hundred years is nothing.

But that is a different mentality. Before that, the more desperate, the more the Buddha will follow.

Now that someone has brought it out, and it is an excellent goal, he certainly hopes to get people down as soon as possible.

Shen Lang tried to put it on and put it away. He is patient, this is normal. He also needs more time to absorb as much energy as possible.

After the results came out, Shen Lang was placed in the storage space, and the Nile civilization in the world has long since fallen. Many pyramids have been weathered and destroyed, destroyed by war, and destroyed by tombs and archaeological development. It is basically difficult to supply them with energy.

Then Shen Lang went to the mainland of Nakajima and no masks. This made him look forward to the night, and the feeling of a hundred years is longer than the previous thousand years.

What is even more depressing is that he does not know that this new person who has received the golden mask will not give it away. If it is forgotten, it will be thrown for hundreds of years, thousands of years, then he will I really can't wait.

Finally, in the funeral dragon valley, I waited until Shen Lang used the golden mask. He was very excited. He quickly applied his ability to attract the deep waves and let Shen Lang become interested in the golden mask.

Now that he has his memory, Shen Lang understands that when he was buried in the Dragon Valley, he was very weak, but after returning to the ancient cold world, he was already beginning to absorb energy!

Because of the appearance, Shen Lang put on a golden mask, and the state of the soul that he feels is actually the manipulation of the king of the world.

He can help Shen Lang Shen to see thousands of miles away, and also use the golden mask to absorb energy for his own use, instead of waiting to return to the sand castle.

It is equal to saying that Shen Lang has always used masks, and the mask is “self-charging”.

After arbitrarily more than 20,000 miles, I bumped into this huge castle. Of course, it was not really completely random, but his intentional “navigation.”

The situation that came in here is almost the same as his guess. The door can be opened because his manipulation is similar to the “identification and unlocking” of the mask. Otherwise, Shen Lang is estimated to use brute force.

After entering the desert, it can only sense a few hundred meters. Of course, it is a restriction on the outsiders of Shen Lang. He can actually understand all the movements of the whole country.

However, he intentionally let Shen Lang feel only a few hundred meters. In this case, he can delay a little time and let Shen Lang slowly come to the pyramid in the middle.

This process, of course, is also the process of his “quick charging”!

This is back to his site, the sand country he is familiar with. The abundant energy inside is what he needs most, and it can be absorbed naturally. Here is a much faster “fast charge” than the entire ancient cold world.

In the end, the sand man appeared, and so on, he also wanted to delay a little more time. When he reached the top of the pyramid, it was the time when he absorbed the fastest!

It's just that there's not a long delay, and I'm afraid that Shen Lang's doubts are coming, so he just enjoyed it for a while and then took the Shen Lang into the pyramid.

When it comes to this, the golden mask has absorbed a lot of energy, and the soul of this king of the world has been partially restored.

At that time, he was seriously injured in the flesh. Although the soul was also damaged, it has been repaired for a long time, but it lacks energy loss.

So from the return to the ancient cold world, he absorbed energy supplies in a wide range, until here.

Attracting the waves to observe and touch the energy group Naturally, he is also controlling, in order to have a cover, otherwise it will directly absorb these energy groups with a golden mask, and will immediately make Shen Lang doubt.

When Shen Lang touched it, the homeopathic absorption, Shen Lang thought it was his own absorption.

After absorbing a few energy groups, on the one hand, he was supplemented and repaired. On the other hand, he realized that if he continued, Shen Lang would find out.

In order to avoid night long dreams, it can only be started.

After combing out these things, Shen Lang was finally relieved.

In addition to these, in his memory, it also talks about the various countries of the sand country. But the attraction to Shen Lang is not so great, because now the energy group of the entire space is a huge harvest, he does not need to occupy this sand country.

But I also understand that whether it is a gold coffin or a gold dagger, in fact, the previous energy is used to supply the golden mask.

That means that if he injects energy into them again, the power should be greatly increased!

Chapter 2368 - Going on the road again

The spiritual power of this king of the world has been absorbed by Shen Lang. Naturally, it is a powerful supply, but it does not make him feel uncomfortable.

Because it has been weak for thousands of years, the temporary supply has been much worse than his heyday.

Of course, it is because of this, so that Shen Lang can easily compete, coupled with Ray's shot, quickly solved him.

Even if it is called God, it is really a very powerful person!

Shen Lang now has all the memories of the King of the World, and understands the way they absorb and store these energy.

Similar to his speculation, the general energy clusters of these planets are due to the large concentration of concentrated energy, which is already as materialized as the liquid beliefs and the condensed heavenly essence.

This is a cumulative accumulation of the entire civilization for thousands of years. If the whole wave is to be absorbed, it will not be able to bear it.

However, since I have come here, I have suffered a lot of defeats. He will not be soft. It must be taken away.

According to the plan of the king of the world, he began to absorb these little energy groups, regardless of size, all absorbed and taken away!

The methods they use are similar to creating a storage space for themselves, gathering these energy groups inside, but they can be isolated separately. If you need it, you can take it out. If you want to absorb it, you can also call it directly.

After completing this step, it looks like a starry sky, and it becomes as dark as the night.

But because they have plans, the dark world is one of their usual means, and now the waves have already learned everything.

This is a completely hollow pyramid, a base of energy reserves, these layers of concentrated and concentrated surge energy, and finally the physical reserves here.

If the king of the world is here, he will retreat here.

The energy that comes in from the tip of the pyramid will be absorbed first, and if it absorbs surplus, it will form an energy group.

And the energy here can also be given to other sand people, it can be taken out for trading!

That's right, the deal.

This ancient cold world is not just a country of sand.

The size here is similar to a city. In the case of a single building of a castle, it is undoubtedly very huge, but in a country, it is very small.

There are many such places in this ancient cold world. It is not necessarily called a country, or a tribe, or a race. It is possible.

They are very far apart from each other, and the density is even lower and the number is even smaller than that of the mainland.

And the outside world is full of cold fires, it can be said that the road is dangerous.

It is because of this environment that everyone is concentrated in a little gathering, not scattered everywhere.

Often, at the beginning, there are god-level powers, opening up a gathering place, and then taking in some scattered people, eventually forming a settlement.

And their world has a year and a month that they don't know for a long time. Although the number is small, life expectancy and history are far better than the human beings of the earth. Naturally, they also have some unique features.

Now Shen Lang has merged everything about the king of the world. He has completely mastered how to investigate the distant places. He also has an accurate understanding of the map here.

Of course, this king of the world has disappeared for two or three thousand years. The map in his memory has not been updated in two or three thousand years.

For the earth, two or three thousand years have already had a huge historical change, and it can even be said that the rise of civilization is a process.

Even for the mainland of China, two or three thousand years is a very long process, enough to make many famous people rise and fall.

There is not a huge change here, and Shen Lang is temporarily unknown.

However, when he first came here, he simply wanted to explore the “magic domain”. Everything that was seen and everything that is now is completely unexpected.

Therefore, there is now a map, even the “old map” thousands of years ago, which is of great help to him. It will be of great help to the search of the dog \*\*\*\* and the cold autumn.

Now he has successfully absorbed all the energy here. The rest of the installation, the pyramid, the desert outside, the entire sand country, he did not want to destroy.

The world here is still going by them. If there is still a chance to come in the future, maybe there will be another wave of harvest.

It's like cutting a leek, it's just growing up, just hit it, then you can harvest a wave, but you don't need to dig the roots.

Digging the roots will not be of much benefit to him, but others will have no future.

Since the memory of the king here has been mastered, he should have something. Some of their resources and distributions have already been distributed, and the practice does not need them.

So Shen Lang came out directly from the pyramid.

He still wears a golden mask and still maintains the attitude of the king of the world.

Hesitated that he had entered the pyramid normally before, and now it is normal. The sand people who were sent out did not feel any abnormality and did not run out.

After Shen Lang came out, he patrolled the entire country.

But this tour does not require him to go through it personally.

Because his gods were restricted before, but the king of the world did not have it, but his intentional restraint did not allow Shen Lang to see so much, deliberately delaying time.

Now that Shen Lang is directly thinking, he can cover all aspects of the entire desert.

After confirming that there was no abnormality, Shen Lang did not have any good nostalgia, and immediately left again.

For the king who had been in the news for a long time, he just came back and left, and the sand people did not dare to jump out of doubt.

After coming out of this huge castle in the sand country, Shen Lang re-entered the road.

This time he was more comfortable.

Because of the “soul \*\*\*\*\* tour” style of investigation, now is his own control!

Although the effect is the same, now and before, you can see everything thousands of miles away.

But after experiencing the previous situation, let him realize that what he saw before was only what others wanted him to see. What he saw now is what he saw.

Nowadays, there is also a general map strategy in mind. Shen Lang combines the approximate orientation of the dog \*\*\*\*\* now. In general, it can confirm which direction to go, and even can calculate a rough distance.

As for the cold autumn, because it was completely random before, I don't know where it is. If you want to find him, you can only try your luck.

However, because he now has the map information of each gathering place, but also has a clear screening, Gao Hanqiu will certainly not run wild in this cold fire, naturally it will also search for places where people gather!

Chapter 2369 - Hanze mermaid

Originally, the world, after Shen Lang entered, it was a bit of a headless fly, and the previous temptations confirmed that it was just a random transmission.

There are no traces of people in the back, and there is no living thing. It is really easy to be desperate.

But now it is different. He has the world map here, and with the reference position of the sand country, you can have a clearer direction and route to any place.

If you want to go in the direction of Shen Lang, you should first meet with the dog god.

From the map, the dog \*\*\*\* is not too far away, there is a place of cold, it is also a settlement, the dog \*\*\*\* may search there.

Because the dog \*\*\*\* does not understand the situation at all, if it is a past, it may be ambushed.

This is different from Shen Lang. He is because of the relationship of the golden mask. The sand people here treat him as a king, and the real king just wants to win him.

Other places are different, it will be regarded as the enemy of the invasion directly, plus the leader of other places, there may be no such fault, the strength may be much larger than this sand country!

With this in mind, Shen Lang is also speeding up.

Because the king of the world knows more about the cold fire, it is more calm to let the Shen wave dodge. Even the cold fire in the air can be seen in the front. As long as the speed and reaction are fast enough, it is fast in the air. The flight can also be avoided.

The Shenlang is also a constant acceleration, going all the way to the dog god.

In the vicinity of Hanze, which was rushing all the way, it was confirmed by the traces of the holy armor that the dog \*\*\*\* was in the cold, and then the positioning disappeared in the vicinity!

This fully shows that the dog \*\*\*\* is also mobile searched here, but entered the cold.

There are many reasons for the disappearance of the signal. For example, if you enter the huge castle in the sand country, the signal will be cut off, especially if you enter the pyramid, it is even more impossible to sense.

Although it can't directly represent the dog \*\*\*\* has been killed, but it is certain that it must have entered Hanze!

Hanze is actually a big lake. The lake is very cold. In this ancient cold world, there are many names related to the cold.

In the middle of Hanze, there is an island, which is a historic settlement.

However, Han Ze lives, but not the average human, but the mermaid!

They don't feel anything special here. Shen Lang didn't feel too surprised. After all, the people of Shaguo can also be regarded as sand people, which is also different from ordinary human beings.

Because the water in Hanze Lake is extremely cold, the range is not small. It is also a bit troublesome to get through once, and Hanze is to isolate the cold fire, and it is necessary to face the cold fire when coming out.

In addition, they can be self-sufficient in Hanze, so the mermaid rarely comes out to the outside world. Specifically, it lives on the island in the middle of Hanze, or simply lives in the cold water, and everyone is not very clear.

Although the king of the world knows Hanze, he does not know much about the specific conditions of the mermaid. Because when he was there, he did not come and Han Ze had a direct dealing with the mermaid.

In fact, the situation here is the same, just like the sand country is also closed by itself, and rarely communicates with the outside world.

Far away from the road, coupled with the dangers of the cold, in addition to the necessary transactions, the average person will not be idle and boring.

This pair of Shen Lang is enough. After the dog \*\*\*\*\* came to Hanze, naturally there is no clue, and it is found to be a little different from the surrounding. He now has more confidence.

Shen Lang is still wearing a golden mask and flies directly over Hanze.

Before you know where the dog \*\*\*\*\* has gone, you can only go to the middle island first.

When he was close, he also monitored the temperature of the cold lake water through the holy armor and found that it was a low temperature of tens of degrees below zero, but there was no sign of freezing!

Combined with the cold fire and the cold fire approaching the absolute zero, it can be seen that the laws of physics on earth cannot be directly applied in this world.

Because the king of the world has never been to Hanze, the impression of this place is a sign on the map. I know that there is a lake and an island. It is a long-established settlement.

How far is Huxin Island from the shore, and from which direction is closer to the island, there is no clue.

And because there is no cold fire above Hanze, there is no interference obstacle, and the speed of Shenlang flight can be accelerated a lot.

Now his speed, there is still great restraint, in order to collect more information.

It is not enough to know the geographical information that Shah State knows. He has personally experienced it and let the information collected by the sacred genre can be used to calculate the situation as much as possible.

Soon, when Shen Lang flew out for ten miles, I felt the water in front of the lake suddenly popped up.

He immediately slowed down the speed, and in the slow past, the rising water has formed a person in the air.

I can't help but make him a little surprised.

Not a mermaid?

According to the most common mermaid legend on earth, the basic image is the human tail, the upper body is a person, there is no foot from below the waist, but the tail of the big fish.

The legend of mermaid is often combined with beautiful women, also known as "mermaid."

This is in line with human aesthetics. If it is the upper part of the fish head and the lower body of the human leg, it is not in line with the human perception. Naturally, there will be no such legend. The literary works will not be set like this.

Shen Lang recognizes that this is Hanze. When I think this is the place of the mermaid, the first impression is also true. Since it is a racial settlement, it will not be a female mermaid alone, but also a male mermaid.

Seeing this now, it is not a "mermaid", it is obviously male. But the appearance looks like humans, with noses and eyes, hands and feet and heads.

Isn't it a good mermaid? What about the tail?

"This is the cold of the mermaid family?" Shen Lang could not help but ask.

Is it that the king of the world has been in the memory for thousands of years , this is not Hanze, but which other lake?

“The lord of the ruling country, here is the mermaid Hanze, I don’t know what it is like to come here?”

That fish fisherman is very polite.

Because Shen Lang did not show any hostility, after he took off, he slowed down the speed, and near him he also saw the mask of Shen Lang.

The pattern of this golden mask represents the king of the sand country.

The horror of Shen Lang was just a moment. At this moment, others have admitted that this is Han Ze, and that this is where the mermaid is.

Shen Lang also observed it carefully. This mermaid looks like a human being, but can see scales on the back of the hand, the instep, the neck and other places where the leather is not wrapped.

Mermaid does not necessarily have to be a human fishtail.

Chapter 2370 - Simple fish man

Since he is regarded as the owner of the sand country, it is easy to do, and Shen Lang also said directly.

“I have a spirit beast. I came here and I am very likely to get into Hanze. I want to get it back.”

During the speech, Shen Lang projected the hologram in the air and presented the appearance of the dog god.

That individual fisherman will be blocked in advance, and certainly not their patriarchs, so in the face of the king of the country, they still maintain the respect they deserve.

Now the attitude of Shen Lang is directly superficial, and it also shows the scene to prove that he is very satisfied with listening.

“It turns out that. But it seems that this little little beast may not enter the cold, and may not be able to cross the cold, and the possibility is not high...”

He is also very serious and has one to say one.

Then a small beast, running outside will be very flexible, can avoid the cold and the like, but it is not the same as entering the cold, unless it can continue over the top, otherwise it will fall into the cold water.

The coldness of the cold water is felt on the edge, and any beast should have a self-knowledge.

Shen Lang has presented another picture, which is the original picture of the dog god. It is reflected by Shen Lang as a reference object.

“I am a beast, not a small beast, but also has extraordinary power. I rushed over here, that is, I am afraid that it will misunderstand Hanze, and misunderstanding conflicts with the mermaid friends.”

The mermaid tribes still pretended to be a bit. They couldn't find a reason for the other party to say that there was a spirit beast coming in. They opened up and let people come in and search.

But the picture that was released again now surprised him.

It is not known how powerful this beast is, and the body of the body is very huge. And let the head of the sand country personally look for it, surely the value is extraordinary, and perhaps it is really afraid of destructive power, causing misunderstanding conflict with Hanze.

But everyone has selfishness and everyone has doubts.

Shen Lang saw that his attitude was very good. He also wanted to find the dog \*\*\*\*\* as soon as possible. He couldn't do it with the irrelevant Hanze mermaid.

Therefore, his attitude is also very sincere and true, and the original form of the dog \*\*\*\*\* is directly revealed.

But his attitude, it will inevitably make this mermaid people have doubts!

The lord of the sand country is so good to speak? Will it be so friendly and patient?

With this suspicion, he felt that this can change the huge beast. In fact, it is not the Lord of the Sha State, but the spirit beast that the Lord of the Kingdom of the Kingdom is chasing and wanting to hunt!

Just so good attitude, it should be to know the whereabouts of the beast as soon as possible, take it away, so as not to have a long night dream.

To put it bluntly, I am afraid that Hanze will discover its value and find that it is actually an object of no ownership and will grab it!

The Lord of the Shah State will have such a heart, and its value is huge!

Hanze is self-sufficient, but it is not a lot of resources. There are such good resources. If you can win it, it is of course a good thing.

On the other hand, if the sand country has to go, it may be that they have grown stronger, and it is not good for Hanze.

This mermaid will be arranged in Hanze, and dare to come out and block it. Naturally, it is not a whistle, but a duty to guard, and it will have a certain weight.

Especially when he faced the head of the sand country, he could not be humble or humble. It was a training experience and a knowledge. For all aspects, it is also possible to have a judgment of a big pattern.

So at this moment, he immediately and sincerely agreed.

“It turns out that since we are in the cold world, we should help find it and avoid misunderstandings.”

After expressing his attitude, he immediately asked.

“The lord of the honorable king of sand, I will pass the information out, so that everyone in Hanze pays attention to the information of the beast. Before you find the beast, are you waiting outside Hanze, or are you visiting Hanze?”

When this question is asked, it has been seen that he is not a general embarrassment.

This statement is to express the willingness to cooperate with the search and will immediately release the news. He threw it to Shen Lang, a question to stay.

Normally, if you have something to do with other people's boundaries, people are willing to cooperate with help. If you are polite, you should wait outside for news.

But he gave two choices, waiting outside, or visiting the island?

This is because the Shenlang has become the king of the sand country, so it will be such a guest, and there is an option for a guest.

If you really want to be a guest, you should have a visit attitude, not to mention the gift, at least to meet the patriarch of Hanze.

This is not agreed in advance. Hanze's patriarch may not know the news in time, so he needs to report first and wait for the news.

In this way, although two options are given, let Shen Lang choose himself, but in fact, whether it is polite or avoiding trouble, it should be chosen to wait outside.

When Shen Lang made a choice, on the one hand, Han Ze does not need to entertain him. On the other hand, they can deal with it more calmly.

But the people who come now are Shen Lang, not the owner of the normal sand country.

In the view of Shen Lang, this is even a simple fisherman. Everyone and the temperament have solved the problem. Isn't it good?

Therefore, he will be wary, but he does not know that this mermaid has so many ideas.

Waiting outside, he is not at ease, the dog \*\*\*\*\* is coming first, and maybe it is already logged on to the island. If there is any conflict, then he is outside, it is not perceived, and naturally it cannot Help me.

Besides, coming to this world is to see more different existences. Since it's halfway to Hanze, people have invited them. Is it polite?

“Since I came to Hanze, it would seem impolite to go through the door. If the mermaid is inviting, then I will be welcome. I am willing to go to the island. If there is anything wrong with my beast, I will also It can be stopped in time.”

“...”

He readily agreed, let the mermaid people speak for a while.

How thick is this person?

Is that a warm invitation? Is that a rumor to decline?

His recent rejection of is also packaged into two options, so that guests will not have the feeling of being rejected, the natural choice of a situation that everyone is not awkward.

Now that others have promised directly along him, if they want to change their minds, they need to refuse positively.

“What? Don't you welcome?”

Shen Lang just didn't think much about him because he thought that the fisherman should be relatively simple, and the other party said it was good from the beginning, and he regarded him as the owner of the sand country. He should not dare to fool him.

After agreeing now, the other party hesitated, which made him think deeply.

This thought immediately shunned a lot of situations. Hanze and Shaguo did not have any friendship, and that the owner of the sand country was a polite guest.

The other party does not actually want him to be a guest! Even the other party will be tempted by his enthusiasm and suspect that he is looking for a dog god.
