

First Strong 2381

Chapter 2381 - Fire experimenter

The blue birds, called the fire in the ancient cold world, they feed on the cold fire.

The world is full of cold fires, which lays the foundation for the breeding of fire, they can also survive anywhere.

And other races are trapped in one place, and it is hard to build a settlement. Everyone must strengthen protection for thousands of years.

For the fire, naturally, some of the predecessors saw that they swallowed the cold, and felt that this must have a deliberate ability. If you eat it, you may be able to greatly increase your skill. Starting

Because other races have not heard of anyone who can directly swallow the cold, it is almost looking for death.

The fire sizzling and not dying, the ability to cool after the digestion, may be gently absorbed.

To this end, many races in history have been hunting for fire.

The result is that there are not many successful precedents. The objective reason is that the fire can survive anywhere, and there is no fixed address to search for. The world is so vast, and the chances of encountering it are extremely small.

Going straight to search for fire without any clues may lead to more dangers and more than gains. Starting

The subjective reason is that these fires can not only swallow the cold fire, but also spray the cold!

The cold fire in the nature, there are rules on the ground, there are irregular in the air, but the fire is sprayed out, it is naturally controlled, it must be more preventive.

More importantly, they can also be linked to the natural fires and create a lot of movement.

There used to be some ancestors who went hunting around the fire. As a result, the casualties were not small, and the fires that were obtained had specific effects, but they did not spread.

What the later generations know is that the fire has been eaten by some people, but it seems that there is no effect. The cost of arresting is too great, and it is not cost-effective.

So there is no race to hunt and kill the fire, but also lose this kind of strange creature. It is not so easy to breed. Otherwise, there is no shortage of food, and it has not become a part of the food chain. Yes.

In general, the number of fires is still very small. Even if no one is going to hunt, it is very difficult to meet.

The memory of the king of the world thousands of years ago, the memory of the wind autumn, and the blue bird fire, are similar, which proves that there is really no change.

The Wind Autumn Festival will understand these things, just like the mask of the Lord of the Sand State. This is the responsibility of his welcoming guest department. He has learned the world common sense more than others.

Shen Lang immediately said the information about the blue bird fire to the dog god.

But it is also a background knowledge, without too specific reference. He also felt that he felt like the consciousness was locked and plunged into it, talking to the dog god.

In the end, what kind of state is it, what kind of consequences will it be, or the dog ***** himself will experience and bear it.

The dog ***** is not a stupid dog who was suddenly swayed in the world of giant beasts. Followed by Shen Lang to eat incense and drink spicy... Hey, follow the Shenlang to the south and go to many worlds, but also to see the world.

In particular, the combination of the mysterious poisonous grass seed that wants to rob it in Long Valley, it is already a special beast of “animal and plant combination”, but the chair is hot, and it has not worried about it.

Then it asked about the situation after Shen Lang.

Shen Lang simply said it, including the situation in the sand country – in this day's book space, Shen Lang certainly did not wear a golden mask.

The two sides have summed up a bit, and it is considered to have a general context.

The dog ***** was in the cold, and was isolated by the water. It was not far from the shore, and it could not sense the shore. It lost its sense of direction, so it was in vain.

But let it sleep is the blue bird fire.

However, after it fell asleep, it should be said that it fell into the cold.

With the low temperature of this cold water, it should be able to give it a certain stimulus and let it wake up.

However, Shen Lang used three lightning bolts to wake it up, and could not expect the water of Hanze to work.

But even if you don't wake it up, you won't freeze it, you won't drown it, and it should be at the bottom of the cold.

When Shen Lang found it, it was at the bottom of the tiankeng in the middle of the island, and it was naturally transferred.

When Shen Lang came in, he flew into the waters for ten miles – now, there may be problems with the distance, there may be a repetition of the bend and not knowing it – and it has encountered the wind and autumn.

The dog ***** and the fire come together, the movement will not be smaller than him, the mermaid will not know.

According to Feng Qiu's memory, he did not lie. He did not really see or know the dog god. Hanze had several welcoming guests. Everyone was also guarding under different waters.

Perhaps it is the dog ***** that the mermaid in other people's areas has greeted and salvaged.

However, after Shen Lang came over, Feng Qiu passed the information directly, but no one told him the specific situation.

If it is discovered by another welcoming guest, this matter will be reported immediately, and then the core management will be notified.

A few of them welcome the guest, in fact, they are already the core management personnel, which is equivalent to the external personnel.

However, from the wind autumn to pass the information, to Shen Lang left the desert island, he once again blocked, to Shen Lang controlled to read his memory, there is no information about the dog god.

He reported that he went up to this point. The information about the king of the sand kings looking for a potentially important beast has aroused everyone's attention but no one gave him feedback!

These are combined and the answer is already coming out!

When I first felt that the fire and the dog ***** came over, it should be the patriarch of the Hanze mermaid!

At that time, the patriarch might observe underwater. Maybe the dog ***** could not catch the fire and swallow it, and he also intervened to help. The dog ***** can't leave Hanze, or it may be that he has joined the blind eye.

When the dog ***** was sleeping and coma, he took the dog ***** away and then sent it directly to the bottom of the tiankeng.

Its purpose is not a dog god, it should be a fire!

Finally, there is a legendary fire that has come to Hanze. The opportunity is rare. Even if there is no price/performance ratio, it is inevitable to try it.

Since the dog **** wants to swallow, then of course he is uncomfortable, you can use the dog **** as an experimental object.

If the dog **** has no problem eating it, then he will eat the dog **** again, and naturally there is no problem.

So he will participate in the promotion, and then take the dog **** through the place where no one is, and carefully observe all the changes.

If you don't announce it, you may want to enjoy it yourself. It may be that you are afraid of the fire and attract others to worry.

This can explain that the dog **** did not have any external injuries under the pit, and was not controlled.

Because the patriarch is watching the experimental goal there!

When the wind and autumn sent the information, the head of the sand country personally came to ask for it, thinking that the wind can not deal with it, he will go out personally.

Chapter 2382 - Reflexive patriarch

In such a state, when Shen Lang came over, he did not think of it at all.

I thought that the dog **** would just turn around casually. I didn't expect that it would become a test piece of others because of a bird.

After thinking about this, Shen Lang was associated with it.

When he entered the dog **** consciousness before, he felt the kind of consciousness lock, let him fall in, is it known to the bluebird, or is the mermaid patriarch?

There is not much information on the fire, and no one knows what kind of state it will be.

However, combined with the analysis of the patriarch's analysis, it is entirely possible that he did it, because he had to observe the experimental goal of the dog god, naturally he could not let it run.

If the Hanze patriarch's understanding of the fire is as much as the autumn, then it will not know what the situation will be if the fire is eaten.

Whether the fire is burning the beast from the inside out, or if the beast has completely digested and absorbed the fire, it may be to leave.

It is also possible that the patriarchs will take control in advance to prevent them from running.

It's just that there is nothing to do with the memory of Fengqiu. Maybe it's not the patriarch's secret, or the secret law of the patriarchal movement. It's not what Fengqiu can know.

After thinking about this layer, Shen Lang also immediately said something to the dog god.

He had already said it before, but at that time he thought it was the aftermath of the fire, just said his feelings.

If this is the secret of the Hanze mermaid, then the dog **** will have to pay more attention, instead of being wary of the fire.

All of this is a clear idea, and the overall time is only an hour or so.

According to the time of the book space, one minute can be equivalent to one hundred minutes, and now an hour or so, it took thirty or forty seconds.

Before Shen Lang came in, he had already released the detector first, and then he wanted to stay here for a while, waiting for the mermaid patriarch to come here, waiting for them to think that the dog **** had been saved, and then kill it.

It's only been a minute before, maybe the patriarchs haven't come yet, and they don't have to hurry to go out.

The dog **** understood the experience after it was comatose, and it was also very annoyed. If it was not the sinking wave that saved its life again, it was a shamrock here.

Therefore, it is very much like to go out as soon as possible, and to bring the mermaids here to do something that they have not seen before.

However, Shen Lang said that he is still not allowed to go out. It can only continue to rectify his own body and solve the problem of fire.

After all, it just took an hour, just a little suppression, whether the fire is completely absorbed, there are no other abnormalities, the suspected mermaid patriarchal lock, etc., these still take time to slowly Solution.

It is also very easy to calm down, since now Shen Lang is not allowed to go out, its body has not recovered, then rest assured to stay in the body.

Shen Lang is watching the time, this is a hundred hours, to ensure that the outside is an hour.

During this time, the dog **** was in treatment, and he was not idle. He turned the memory of Fengqiu into a sacred day, and completely made the history, practice, status quo, etc. of the Hanze mermaid family clear. .

This is to know ourselves and know each other. In order to understand the enemy, it can be said that he now knows more about Hanze than the sand country!

Of course, the sand country is not idle, and Shen Lang has a deep understanding of the memory of the king of the world. It is also an upgrade of the two pieces in the gold suit, injecting more energy.

The reason why it is two pieces is because of the gold coffin, but China Unicom has returned to the world. Now it has no effect on Shenlang, so there is no waste of resources.

And the golden mask, before the king of the world has absorbed a lot, let it get restored. The golden chariot, on the desert island, has already recovered.

So now the deliberate upgrade is the gold dagger and the gold scarab.

In comparison, these two waves are more expecting!

Because the gold coffin is a space transfer tool, the golden mask is a status symbol plus a soul tour, and the golden chariot is a flying magic weapon.

Gold daggers and summoning gold scarabs can be considered as aggressive weapons.

Although his realm is very strong, there are many magic weapon artifacts, but these things become powerful and can have great practical value.

An hour after the outside world, Shen Lang and the dog **** appeared in the crater out of thin air.

Shen Lang immediately used the sacred armor to collect the detectors and read them.

In fact, these black technology products can completely record a wide range of information around, not just a camera.

The reason why Shen Lang will release a few, is not to take a shot of multiple angles, but to spare, so as not to be accidentally destroyed.

Now that the detector is fully incomeed, all the information is presented in the Holy Grail.

Through the sacred armor immediately made a screening, intercepting the signal without change, leaving a situation of change here, and then making a fast forward, so that Shen Lang can get the overall situation as soon as possible.

In terms of time, after they left less than a minute, the mermaid patriarch of Hanze quickly rushed to the bottom of the crater.

It should be like Shen Lang suspected that he could not block the waters and could not cross the soil. He could only bypass the island and come here, so he would slow down a little.

What the patriarch did here is also completely recorded.

In fact, the comprehensive record of the detectors, can not know the feelings of the patriarch's heart, can only record the external changes.

However, Shen Lang can already guess a general estimate by looking at the expression of the patriarch inside the monitor screen.

When the patriarch came over here, he should have monitored the crater. He found that Shen Lang came here and found that they disappeared, but there was no clue that they left!

This makes the patriarch a little confused expression, where is the man and the beast going?

From his induction, it is an instant disappearing from here, and his induction, his reappearance at the moment, proves that the two of them disappeared without warning!

He naturally does not know the existence of the space of the Bible does not know the artifact of the door of the Three Realms, but a similar transmission method is definitely known.

This reaction to the expression on the face, after the confusion, became helpless.

Then the patriarch became a bit frustrated. He went to the point where the dog **** was living, and carefully sensed the situation there.

This also confirms the speculation of Shen Lang, who should have observed the sizzling dog **** here before!

Now that his experimental goal is gone, he can't continue to observe. He can only use the last few clues as much as possible.

However, the goal has disappeared, and the traces of that little can not withstand how he tumbling.

So I stayed for a few minutes before and after, and the patriarch of the mermaid flew out of the tiankeng.

Chapter 2383 - Extinction

Shen Lang and the dog **** came back again. At this moment, the dog **** has basically solved the problem. It is a rejuvenation and wants to do a big job.

Shen Lang is because he has a very good understanding of Hanze, clearly know that they appear, the patriarch will certainly know!

Therefore, when he quickly analyzed the information in the holy armor, he and the dog **** had flew directly to the top of the tiankeng.

This tiankeng is similar to the existence of a dungeon. It is banned around, and it is generally difficult to leave. Shen Lang uses magic weapons to go straight through the soil from the waters outside the island. This is a situation that has never been encountered before.

Now, two of Shen Lang's direct departures from above are positively opposed to their ban.

When they were about to reach the top of the tiankeng, both people felt that there was an invisible big net at the mouth of the tiankeng above, which had already covered it.

If you don't know the secret of opening, you can't open this invisible big net. If they collide, they will be blocked by the invisible net.

And it can be said that the big net is associated with the entire tiankeng, and it is all the way to the bottom of the tiankeng.

In this case, the difficulty of breaking through violence will be much greater.

The mermaid family has the advantage of home!

When they appeared, the patriarch immediately felt it and had not left. This of course made him very excited, and immediately took advantage of the home court and rushed over at the fastest speed.

Shen Lang also took the detector, and then it was the little time that the mermaid had come to the top of the tiankeng.

“This is a net, a net for hunting. We don’t want to hunt the king of the country, but you are actively coming in! You are looking for death!”

Hanze’s mermaid patriarch, originally on the surface, still has a privilege with Shen Lang, but now it is a direct tearing of the face.

Because the past hour is enough for him to see the coma.

A good thought of Shen Lang did not kill the wind and autumn, and when he was found by the patriarch, he revealed everything to him.

In other words, the current patriarch knows that Shen Lang has read the memory of Fengqiu, and that he knows many secrets of Hanze. Such an enemy cannot be left!

Since it is necessary to kill the mouth, there is no tearing face and not tearing the face, it is directly to leave people here.

Shen Lang paused in the air, under the invisible big net, and then looked at the mermaid patriarch on the edge.

“You obviously arrested my beast and partner, but lied that you didn’t know it at all. This is already very shameless. I still want to leave me and kill us all together, even more shameless.”

When Shen Lang paused, the dog ***** directly flew out in the direction of the patriarch, and flew out directly!

It does not have an ontology now, that is, an elephant’s almost large body, and it is very fast.

As a result, it has not yet appeared above the tiankeng, and it was directly hit by an invisible big net!

It seemed to be like a net full of resilience. After hitting it, it directly bounced its body back and flew far away.

Shen Lang was in the air, and did not look at the behavior of the dog god, nor did he care about its current situation, as if everything was in his expectation.

“What about that? Since you know that I will kill you all here, there is nothing to be shameless, and no one else will know about it.”

The mermaid patriarch, but it is a generous acknowledgement.

This kind of bachelor's little man's face, Shen Lang does not feel resentful, at least dare to dare to do, did not find any excuse for the grandiose.

But I don't feel resentful, it's just a way of dealing with it.

The specific thing falls on his own body, of course, it is still uncomfortable!

Plus how to deal with him before, how to the dog god, all together, this account is to be counted.

“Cold mermaid patriarch, don't blame me for not warning you. If you provoke me, the consequences are very serious, you want to destroy me. I am not afraid that I will kill you?”

“Jokes! Just rely on you? Let us destroy the family? Who is the prisoner now? Do you believe that I will destroy you, then go to the sand country?”

The mermaid patriarch naturally does not believe in the “big words” that Shen Lang said.

Because they have appeared again! Starting

Before the mermaid patriarch came to the scene, he carefully surveyed the scene. The two of them are really gone!

But if it disappears like this, it is in line with his speculation, and the magic weapon that can be transmitted leaves, and may not come again in the future. For the time being, he also decided not to kill the sand country.

But now that the two of them have reappeared, it means that they have not left at all. Before that, they used only the secret method to hide invisibility!

Originally he would put the dog ***** in this tiankeng, because this crater is very reliable, just like a huge magic weapon, the people hidden inside can not escape.

Now they can't leave, they can only continue to show up, and they want to talk to him about the conditions. This is where his strength is!

Who destroys who? You are the prisoners. If I don't open it, if you want to come out, you can only bump into it. No one knows.

Shen Lang smiled lightly: "I still have a good speech, even if you are not good to me I will not be unfair to you. But my good friend, you have been plagued again and again, but you have a temper!"

When I spoke, the dog ***** that was playing down had already come back to him.

"If you want to let it get rid of it, if you don't, you will really kill the mermaid in your area."

"Destroy us? You have the ability to come out!"

The Hanze mermaid patriarch seems to be deliberately delaying the time!

Shen Lang suspected that the patriarch thought that they could not leave after waiting for so long. They should be impatient or have to leave, so they showed up at a high price.

That being the case, now, at this time, delaying time is to let them despair, let them realize that the world is so big, but they can't go out and helpless.

"Go out... what's the big deal... big deal?"

Shen Lang has already walked the door of the Three Realms. After the dog ***** bounced back, he has already returned to him.

So when he said this, he brought the dog ***** and sent it out to another place on the island.

The gates of the Three Realms need to be memorized to locate them. Shen Lang can now be manipulated in such a way that because of the memory of the welcoming passengers in the mind, it is natural to get the key things.

The Hanze mermaid is listening to the words of Shen Lang, and then watching them disappear together!

This time, he also felt a slight spatial energy fluctuation. But this time, is it hidden invisible?

Chapter 2384 - Ancestral temple

Before the Hanze mermaid patriarch was not aware of it at all, but it was not at the scene at the time, it was felt at the scene, and there was no difference.

However, it was previously disappeared under the tiankeng cage, but it appeared inside, which gave him a misleading thought that this time Shen Lang and the dog god, still invisible.

In this regard, he is very calm and calm. As long as it is still here, it is not afraid that they will escape. The attempt of the fierce beast has proved this.

What he needs is to be resistant to the temper, and to guard it, then it is foolproof.

He left now, but proved that the other party did not leave at all, but it was invisible, so that he is now full of confidence and has no intention of leaving. He is directly guarding here.

And his attention was placed in the crater below.

At the moment, the waves and the dog ***** have arrived at another place on the island.

This place is a holy place for the mermaids and their ancestral temple!

The ancestral home of the general human sect, or the tribe's temple, is often at the top of the most majestic mountains, and will be in the middle of the position, so more stable and vital.

But this ancestral temple of Hanze is above a sharp corner of the island.

This sharp corner is the island that suddenly came out and reached the place in the waters of Hanze. On the island, there is a spacious and straight continent, and the waters on both sides are cold.

This scene will certainly not be born, even if there is such a horn in nature, it is also artificially modified.

Shen Lang is because of the memory of Feng Qiu, knowing that this is the temple of their Hanze mermaid family, so I came here specially.

He wants to retaliate against the patriarch of Hanze. In addition to directly working with him and crushing him, the best way is to dismantle the temple!

The ancestral halls of the same ancestors of human beings on the earth often make the descendants highly valued. For the ancestral temple of a racial tribe, it will make them more important than life.

Especially as the patriarch, guarding the temple, this is even higher than the guardian!

Just as Mo Feiliu was destroyed in the Qiulin Jianzong Foundation, he also blamed himself for death. If there is still Master who can rely on it, he really does not know what it will be.

The reason why Shen Lang came here with the dog ***** is also a thoughtful consideration. There are several considerations.

First of all, if you fight hard with that tribe, you may not be able to win!

At this point, Shen Lang does not say self-knowledge, at least calm and rational. He was able to destroy the Lord of the Shah, because the king of the world, he was hit ***** the earth thousands of years ago, and the surviving soul has been in the mask for thousands of years.

The king of the sand country, when he arrived at the earth, was God's own. It is very likely that they are one level with the light gods, only because they are limited by the rules of space. When the earth has to suppress its strength, it will eventually be degraded.

In their ancient cold world, there is no such restriction. The mermaid patriarch of this cold sea should be the owner of the sand country when it is not inferior to the peak.

If they are the same generation, it is more practiced for thousands of years!

In the memory of Fengqiu, the patriarch is also supreme, just like the existence of God.

Therefore, even if you have been confronted before, but Shen Lang still feels cautious, do not fight the unsatisfied embarrassment, especially has not retaliated to the other side.

If the revenge is completed, then you can fight a battle. If you can't win, you can run.

So he came directly to this temple!

This temple is directly connected to the cold waters of the island, and it is a choice for the mermaid.

In fact, Shen Lang also has a goal, they are the residence of the patriarch under the Hanze.

Normally, their most valuable resource should be the head of the patriarch. That place has also been visited in the autumn, and it can be transmitted in the past.

However, the patriarch must have a magic weapon such as storage space. If there is no such thing, it will also seal the resources. Fengqiu does not know the specifics. In the past, he could not find it quickly.

If you can't get the resources, then you will run away. His personal residence will be destroyed, and the patriarch will be blazed, but he will not be as stressed as the temple.

At this moment, I chose the temple. Shen Lang is not welcome. It was just a sneak attack. The purpose is to destroy the shacks before the patriarchs come forward!

The ancestral temple is very sacred, and the mermaid is not able to enter it casually. Even for ceremonies, it is usually worshipped outside. In rare cases, everyone is allowed to enter the service.

Fengqiu is a welcoming guest, and has a duty. When there are some ceremonial activities, the patriarch is used to fight, so the number of times entering it is more than others, and the memory is clearer.

At this moment, Shen Lang is the dog god, directly positioned in the temple!

The temple is naturally a guardian fisherman. If they come from outside, whether on the island, on the water or in the air, they will be blocked in advance.

But directly transferred to the temple, the person guarding outside, is not responding, and found that there is something wrong with the change, the first reaction is still strange.

Because it is a mermaid family, this is the ancestral temple of everyone, all mermaid people, are very revered, no one dares to go half a step.

The usual identity of this layer can already be used to keep everyone, the guardian of the tribe, is just a symbolic taste.

So they found it wrong, and did not realize that there was an enemy going in, but it was a bit strange, not knowing what was going on inside.

The dog **** has been instructed by Shen Lang. When it appears, the body immediately becomes bigger. If it is not too big to display, it can easily fill the whole temple!

There is such a fierce beater as the dog god, and Shen Lang does not need to be hands-on, naturally lurking at the door.

The dog's paws fluttered, and in an instant, all the things in the temple were destroyed. After finishing other things, he put the core goal on the top of the fisherman's ancestor statue!

After destroying the statue, the next step will be that its body will skyrocket again and the whole temple will be demolished!

“Let's relax!”

The guardian of the outside, although the first is a bit strange, but after all, the temple is very important, no matter what the situation will immediately patrol, appeared at the door, watching a giant beast inside the destruction, could not help but anger to drink.

There were two guards coming over. When the violent screams, the clothes on them were shattered, revealing a scale, holding a weapon in their hands, and smashing it toward the dog god!

For thousands of years, the guardian temple here is only a symbolic work, an honorable work. Even those who want to guard against it are mainly sneaking into prayers and sneaking out of the rules, and never have any foreign enemies.

I did not expect that the invasion of foreign enemies would happen when they guarded.

Chapter 2385 - The **** is alive

These two guards, at that moment, broke out the strongest fighting power and encountered big problems that have not been encountered for thousands of years. They must be desperate!

But... For the same reason, the guards of the mermaid family will not be too strong.

It is the people who are guarding, but they will need to sneak into the worship and pray. Naturally, it will not be strong, and it is often unsatisfactory.

A group of the mainstays within the tribe will be eligible to be brought in by the patriarch to worship, meet, and so on.

Therefore, this work is a kind of glory in itself. It is a kind of reward arrangement for the diligent and obedient people, but it is never the strongest.

For example, Feng Qiu, he is considered to be a mass of the mainstay, but it will not be arranged to guard the temple here, but as an welcoming guest in the periphery, guarding the cold and welcoming foreign enemies.

Although the possibility of invasion by foreign enemies is extremely small, it is still more practical than guarding the temple.

Therefore, the strength of these two fishermen is equivalent to the level of human beings.

When they explode the scales all over the body, it is equal to a state of transformation, reaching the strongest peak.

However, the outbreak of the Great Fairyland is so strong that it is too far worse than the current dog god.

I want to be a dog ***** who has just come out of the world of giant beasts. In mainland China, it is also a slap in the middle of the island.

Now the two fish strongmen rushed over, the dog ***** did not even return, and immediately slammed the tail, they both stunned both, and then flew out of the temple.

Shen Lang is still watching quietly, but this “喽啰” level does not require him to shoot.

On the contrary, this contrast makes him quite embarrassed. Starting

When the dog ***** fled from the world of giant beasts and came to the mainland of Nakajima, he still had no resistance to the strong man in the realm of the great fairy. He could only rely on the dog ***** to settle.

Now the same is true for the dog god, but it is no longer necessary for him to flicker, but it is already powerful and does not know how many times the dog god, willingly to settle.

Moreover, even if he did it himself, the realm of Daxian was in front of him, and he only had a slap in the face.

When the tail flew them out, the dog ***** also destroyed everything in the temple, and the ultimate goal was the ancestor of the mermaid in the middle of the main hall.

This is intentional to stay until the end is done, after finishing it is to break through the entire temple, such a progressive, there is a sense of destructive ritual, or else, it can completely bang together, ruin everything together. Starting

Just when the dog's claws almost reached the statue, the mermaid ancestor statue, which was originally a statue, suddenly gave off a golden light!

The claws of the dog ***** can easily crush the rocks. Some other iron and stone buildings in the temple have just been destroyed.

But now, it is blocked by that layer of golden light!

“Bold!”

There was a sound that suddenly rang, but it was not a direct spread of voice, but it entered the consciousness of everyone, at least covering the temple.

Shen Lang also sensed this voice, with majesty and anger.

The dog ***** couldn't help but condense himself. Just this majestic voice, as well as the momentum of the envelope, and the golden light in front of him, reminded it of the shadow of the bottom of the heart when it was remembered by the light ***** before the temple of light!

“Dare to dare!”

The sound was upgraded again, and at the same time, the spirit of high pressure rushed over. The dog ***** and the swell wave were all overwhelmed.

It should be said that it is not necessarily aimed at their specific goals. It is to cover everything around them. If there are other living things, they will also bear this pressure.

However, the mermaid family may be removed.

This escalated repression, so that the dog ***** is back to God, it issued a roar, confrontation, and the claws rushed forward to catch the past, once again attacked the statue!

It certainly has a psychological shadow, but it has already undergone tremendous changes, and it has been greatly improved. In time, it has been cultivated for more than 100 years, and the shadow has already faded a lot.

At the moment, it has inspired its fighting spirit and blasphemy? Then fight again!

The sinking waves at the door played a role in the sweeping.

If it is only awkward, he will not intervene, standing next to the door, there are certain factors, it is prepared for the patriarch to quickly catch up, can be attacked with ease.

The gods “open” and actively attack them – or defensive counterattacks against the dog god, which makes Shen Lang also surprised.

But he is more than a variety of situations, and he has already understood a general.

On the earth, I feel the ***** of light and the true God. It is a projection from another space. Even if it is so strong, it does not have attack power, and more is psychological pressure.

Of course, because the strength of the other party is too strong, it is impossible to make an attack across the space. It can be called “divine punishment”, but when it arrives specifically, it should have been greatly weakened.

The situation here is different. It is not the attack of God across space, but it has indeed existed!

The ancestors of their mermaid family should be the mighty who created this settlement. Those who can accomplish such a feat in this ancient cold world can definitely be called GodThe power of true God.

But the ancestor did not know how many thousand years or even 10,000 years of death. The existence of this statue is purely a glimpse of thought.

However, God’s thoughts are still very powerful.

And its current situation is equivalent to attaching to this statue, and then accepting the offerings of all the descendants of the fish. From a certain point of view, this God’s idea is equal to the birth of a avatar!

Because of the closed nature here, the mermaid family has not been replaced, and the worship of faith has never been interrupted. After such a long period of time, it has not faded like the king of the world, and may even be warmed up and grown!

On weekdays, there are things for the mermaid family. They will settle themselves. The children and grandchildren will have their own sons and grandchildren. The ancestor of the gods in this statue will not be able to come out.

But the destruction of the dog ***** to this place naturally shocked it. When the paws explored the statue, it was equal to destroying its incense and destroying its possession.

This made it have to be taken in person.

As soon as you shoot, you will realize that the enemy you are committing is not weak, so you immediately upgraded the attack while you swear by your thoughts!

Shen Lang instantly analyzed these, and the psychology has a bottom.

It's just that there's a huge gap between the gods and the real gods. It's not a big problem for the dog ***** to deal with it.

But the dog ***** may not be able to think of this layer, perhaps it will be like the existence of the ***** of light!

Shen Lang decided to take his own shot.

Chapter 2386 - Double click on the avatar

Although the dog ***** has a psychological shadow, it also arouses fighting spirit, because this time, it also feels that the pressure is not as good as the previous confrontation with the light god.

That time it was completely crushed, and it was understated by others. It was the body's refusal to resist, and now there is a chance to confront.

But when this second claw passed, it was still blocked by that layer of golden light!

However, this does not make the dog angry. Its other claws continue to claw forward and vow to break it.

At this time, the sinking wave that was originally at the door was a quick flash before the affirmation of the gods. At the same time, the sword of the king had already stabbed the statue to the gods!

Yes, now whether it is a dog ***** or a sinking wave, this statue is used as a living person to attack the past!

At this same moment, the idol will have to deal with the paw of the dog ***** and the sword of the king.

The golden light that has been released from the whole body is undoubtedly like a protective cover, which can withstand a huge attack and show its power.

And from this scale, it doesn't need to be focused on one point, but it can achieve this effect in the whole body.

It's like having a bulletproof glass around it.

But the attack of the dog god, and the attack of Shen Lang, is a little different!

First of all, when the dog ***** has just been destroyed, the body has become very large. This statue is very large, but the dog ***** is in the same height in front of it.

Shen Lang came in front of it, in fact, in front of the dog god.

The difference in size will naturally result in different contact points, the force area will be larger, and the pressure will be smaller.

The contact area of the dog god's large claws is much larger than the sword's tip of the king's sword!

Secondly, the sword of the king is originally an indestructible artifact, even if it is a lot of swords, it will be cut off.

This is like the difference between a big hammer and a bullet. As a destructive force, if it hits a person's head, it can all be headshot.

But the same force is struck on shields, bulletproof glass, walls, etc., and the effect is much worse.

Shen Lang did not explain anything, nor did he need to cooperate with the dog god, because at this time, there is no chaos in the rules, but it may be more miraculous.

The attack of the dog's gods and paws can disperse some of the defensive power of the golden light, and when the Shen Lang comes over, the sword of the king has been driven straight into the statue.

When the tip of the sword touched the golden light, Shen Lang also felt strong resistance.

If it is a real thing, the sword of the king will directly destroy it and cut it, but the golden light is different.

But above all, it is still the confrontation of energy.

When the deep waves continue to penetrate into the past and let the sword of the king extend forward, the resistance of the golden light energy can not be encountered!

Unlike the real thing, the energy of golden light will not be broken and shredded, but it will be squeezed out to the side.

It is also equal to the sword of the king is not to destroy this protective energy, but it is pushed away.

But this is enough for Shen Lang. What he needs is to hit the other side, not to care about the specific way.

When the sword of the king penetrated into the moment of the god, the remaining ***** of the ancestors could not help but be amazed.

“Let’s go! It seems that I have to destroy you first!”

Because there is a dog god, its attention is first placed on the dog god. It is also the dog **** attacking it, attacking the sinking wave, but it is the indiscriminate attack of mental power on the surroundings.

But now, it is beginning to pay attention to the waves!

And it is the focus to take care of the waves!

At the moment, Shen Lang felt the suppression of his mental strength and soared at a high speed. ア
新ヤ~8~1~中文网 ωωω.χ~8.~1zщ.còm

Of course, he is also multi-tasking. On the one hand, he opposes the suppression of mental power, on the other hand, he pays attention to the surrounding situation, so that the patriarch and more mermaid strongmen are not aware of it.

On the other hand, it is the sword of the king who drives the hand!

For the attack of the sword of the king, the biggest problem, that is, the moment of penetration, the strongest protective energy is on the surface.

When you tear a gap into it, it is much easier to move in the golden light.

Of course, this movement is also about looking at the direction. Moving in the direction of the blade, it is slim and sharp, of course, it is easier. If it is to move the blade, the resistance will be even greater.

And when it penetrated into the statue, it seems to have a fixed point, it is better to move, because there is no golden light inside the statue.

Therefore, under the driving of Shen Lang’s sword, the sword of the king stretched forward, piercing the statue completely, and agitating and cutting it. After piercing into the image of the god, the broken hole was dug.

The dog **** is still attacking the image of the golden light protection continuously. Although it is not discussed, it also has a certain tacit understanding.

It found that the successful penetration of Shen Lang Tingjian, regardless of whether his own attack has no effect, continuous attacks, help Shen Lang achieve a cover effect.

And this idol is not a living thing after all.

The attachment of the ancestor Yuanshen can only exist through the image of the gods, and can not let the gods move like a living person.

Therefore, its attack is mainly a mental attack, because it is the existence of the soul of the gods and the golden light shield, can also be regarded as the defense of the gods.

For a body like this, it penetrates its body and cuts off its body. It does not feel pain or hurt. This is a shaped idol!

But the bottom line is that this image cannot be destroyed.

Because this is the object to which it depends, like the body of a stranger. If this statue is ruined, then it has no attachment, it is like a soul.

Furthermore, the growth, warmth, etc. it receives are derived from the beliefs of future generations.

This belief is for one person, but it is divided into three.

Of course, one person is the ancestor of this mermaid. In one part, it is part of the ancestor who has no longer existed. The part is the idol of the elephant. The rest is the **** of the ancestor. Separated.

The three points can be counted as two, one for the ancestors who did not exist, and one for the statue of the first ancestor.

The sacred gods attached to the statue are divided into the power of faith on the statue.

In the specific process, they are interdependent. With its existence, this **** without soul can absorb more power of faith.

With this carrier, it can also absorb part of the power of faith.

Chapter 2387 - Gold light competition

When the idol was pierced by a sword, the ancestor of the ancestor was attached to it, and he had already attached importance to it. He realized that this human being would be more difficult than this behemoth.

And then it was even more surprised by the opening of a hole in the sword of the king.

Its continued repression has no effect?

The continuous attack of the dog **** is also a great help to Shen Lang, so that it has to be distracted to cope, and can not concentrate on dealing with Shen Lang.

At this time, something that did not come to mind by the ancestor Yuanshen happened!

The swaying waves that are constantly being pressed by it are not only without embarrassment, but instead approach the statue.

Such an approaching approach is not to make the sword of the king more thorough, but has actually been worn.

The purpose of his doing this was to go directly to the golden light and then reach out to touch the golden light.

This golden light is neither like a real thing, but it is like the real existence on the real side.

Shen Lang can be touched directly, but he does not want to fight, but directly absorbs the golden light!

This is the presentation of the energy body, which is the embodiment of the energy of the spiritual power. Then he only needs to absorb it according to the purest spiritual power, and there will be no confrontation.

However, this golden light is against the defense. If the external strong attack, it is against the outside, but ***** it out?

It is not considering this layer.

When I felt the moment of leakage, the ancestor Yuanshen paid more attention to it. If you just crack its defense in this way, it is unpleasant; if it is to absorb all its energy for its own use, it is even more uncomfortable.

Shen Lang's experience of absorbing and compressing the power of the spirit before, at this moment, has a very good effect, this golden light is directly absorbed by him into a light reserve!

Jinguang comes from the power of spiritual power and faith, but it has been transformed into a form of golden light.

To put it simply, the golden light and the white light are basically the same, but the colors are a little different.

So this allows Shen Lang to absorb it. After a simple acceptance and debugging, the speed is getting faster and faster!

When this flow rate is fast, the shock of the dog god's repeated attacks becomes more and more obvious.

The ancestor of the ancestor is now not only a matter of attention, but it has become very serious.

If the gold shield is evacuated, then the statue can be destroyed and there is no foundation. The power it can play is very small, and it will be destroyed here!

As the founder of this settlement, as the ancestor of the Hanze mermaid family, although there is only one sacred ***** remnant left, it is here to be the incense of future generations, and if you look after the children and grandchildren. 新ヤ~8~1~中文网 ωωω.χ~8.~1zщ.còm

It is very clear that it is impossible to always do this, but just because its body and soul have long since disappeared, and now relying on the image of God, without any energy consumption, it can survive for a long time.

Now, this calm day has been interrupted and it has to be shattered directly!

Under the absorption of Jinguang, it is obvious that it began to become weak. This aspect makes the attack of the dog ***** more shocking. On the other hand, let the sword of the king move more easily, and the more the temple is bigger, the bigger the jar is. Now!

The ancestor of the ancestor Yuanshen must be decided immediately!

Support, it can not last long, the result must be finished.

But there is still a hope for support, that is, hope that future generations come to rescue!

However, it does not care about the daily chills, and it is not clear what is going on now.

According to common sense, if future generations are very strong, will people come to this ancestral temple? Will people make it smash it?

There will be a scene in the present, and only other mermaid descendants have encountered or are experiencing more suffering, and there is no way to save him!

Perhaps the descendants of the mermaid family are praying that this ancestor will be saved!

Therefore, it is impossible to choose to continue, but must make a change!

This change is of course a huge adventure.

The ancestors of the ancestors of the Yuanshen avatars immediately took all the golden light, and concentrated the defensive golden light scattered around the image of the gods into two powerful golden lights, and actively attacked out!

This is the same as the attack of Shen Lang just now.

Its golden light is scattered around the statue, naturally it is diluted a lot, and some places are not attacked, but also the same level of defense.

But based on defense, it is impossible to know where the other party is attacking, or where you are not defending, where others will attack, and you have to have a comprehensive defense. Starting

It is not the same as attacking. It is the ability to gather all the power at one point. The power is naturally improved. I don't know how many times!

These two golden lights are naturally a bunch of stabs to the sinking waves, and a bunch of stabs to the dog god!

The dog ***** and Shen Lang, when they first came to the Guangming Mountain, they were attacked by the gods, and they were still impressed.

At this moment, when the mermaid ancestor Yuanshen contracted to defend the golden light and re-agglomerate against the golden light, they realized what it would be and immediately responded.

The dog ***** was originally a constant attack. When the golden light around the statue dissipated, it could tear the statue directly.

But it also understands that when this golden light attacked it so close distance, it is very likely that it is too late to dodge.

For the consciousness of just attacking, it has not yet seen the thoroughness of the waves. Naturally, it is feared that the statue will be destroyed, and it will not affect the people behind the scenes. It is just a vent.

It is not worth the price of paying for injuries or even serious injuries.

So even if it is a pity, it is still at a critical moment, quickly shrinking the body and then quickly flashing it up.

In this case, the chance of being hit is much smaller, and it can still be destroyed by approaching it.

Besides, Shen Lang, he is absorbing these golden lights. When these golden lights are shrunk, he certainly knows the first step.

What the other party wants to do, without analyzing anything, can be guessed directly.

If you let the other party attack them with golden light, although you don't know what the image looks like, it will definitely be very passive!

Because the idols are incapable of moving, naturally they will not attack them by moving them. Just now, the golden light can be spread around the idols, and it can be completely condensed.

In that case, it will be impossible to prevent!

Therefore, Shen Lang must go first, he must attack in advance before the opponent has not been defensively attacked!

In fact, whether it is a dog **** or a sinking wave, this time has been subjected to greater mental stress than before.

The ancestor of the mermaid has realized that it is difficult to crush them by spirit, but the continued increase will still allow them to distract themselves, so that its golden attack can be more effective.

Chapter 2388 - Collapse

In the interim, Shen Lang continued to wave the sword of the king, while the other side looked up, and the eyebrows released a wide range of divine light, directly shining to the head of the god!

The other party must attack them in the form of divine light, then he will be the first to attack with the light of God!

The reason why I didn't use the light just now was because the other side's golden light was defending and attacking, but it was also blocked, and maybe it was assimilated.

Now that the protective cover of Jinguang has been retracted, the other party is to defend itself. As long as it can seize the time difference, it is the best attack opportunity!

The sword of the king is constantly waving, and is stirring up the inside of the body of the god. And now there is no golden light blocking, it is able to move quickly and very large, and it can be unloaded in an instant!

Shen Lang's own use of Shenguang is also well-versed.

He fired directly through the eyebrows, raised his head slightly, and the light was already illuminating, and the range of illumination was past the fan-shaped rays, directly covering the head of the statue.

This is not the flesh, nor can it be said that crushing the heart and crushing the head will definitely solve the enemy.

However, Shen Lang is a two-pronged approach. Shenguang destroys the head of the idol. The sword of the king has unloaded the torso, which is equivalent to completely destroying this statue.

Under the microsecond competition, Shen Lang completed the attack immediately because of the early prediction and the quick response.

When the two golden lights just condensed out, they did not aim at Shen Lang and the dog god. The head of the statue was completely destroyed by the light of Shen Lang!

The sword of the king who waved the operation was a little slower, but it also smashed the already hollow idol into several large pieces and fell.

The image of the ancestor is just a god.

But it is more than just a god.

It is a temple of the Nile civilization. It has a spirituality for a long time, and then it can be cultivated with certain intelligence. What's more, this older mermaid ancestor statue!

In addition to its body, as well as the possession of the ancestors of the ancestors, they have already live together.

The ***** image is the root of the existence of the gods, and the gods are the soul of the gods.

Now that the collapse of the idol is destroyed, it is equivalent to destroying the flesh, and the soul is nowhere to be placed.

Between the time, not to mention attacking the waves, the two golden lights that have just condensed are about to dissipate and cannot continue.

Shen Lang does not need to wait for the other party's attack to manifest itself. Almost synchronously, I feel that the mental stress is greatly reduced. It is undoubted that the other party has suffered a heavy blow.

Therefore, he directly ventured to absorb the two golden lights that were slowing down and will soon be absorbed, so that the collection of all the golden light had just reached a perfect ending.

Dog God for Shen Lang, once again admire the five bodies!

Just under such a situation, its instinctive reaction is to quickly dodge and then find another opportunity to attack this statue.

However, Shen Lang does not care about himself, directly grab advanced attack!

That courage, that discouragement, and the speed, experience, etc. of the attack are all unparalleled!

It admires Shen Lang, and of course he is embarrassed to drag his legs.

Its body has shrunk, and it's a little too late to probe the paws, just snarling directly.

The powerful air waves swept through the past, and the statues of the gods that had just been dismembered by the sword of the king were all slammed into the back.

If it is a normal wall, it is made of stone, and it may be shocked at this time.

But this is the ancestral temple of the Hanze mermaid family. It was improved and strengthened from generation to generation. In addition to the building, it has strengthened a defensive array, which is a ground that extends out and is even integrated with the island.

The dog ***** can easily destroy all kinds of things inside, because it is single, but if you really want to demolish the house, it is not that it can expand the body when it is bigger, nor can it be easily torn with claws.

At that moment, it was also clearly felt, the threat of Jinguang was removed, and the pressure on mental consciousness was greatly reduced.

Naturally, it is said that Shen Lang has disintegrated the statue, so its body is also following the past, tearing apart the pieces of the idol that just hit the wall and tear it again!

The spurs that have just rushed to attack and have smashed the enemy, while absorbing the golden light, have already maintained a high degree of alert.

He is very clear that even if the idol is shattered, it does not mean that the ancestors of the ancestor are destroyed!

Because that is the way of the gods and souls, just lost the attachment, let it overflow in the air, without landing, the strength will be greatly reduced, but it still exists.

Therefore, his alert is not only a defensive alert, but also the use of the field of God in an instant, the entire temple space is full!

This is the land of others. It is the temple where people enjoy the incense for ten years. Even if many things are destroyed, they may be attached to any small objects.

He did not let the other party have the opportunity to escape, and did not allow the opportunity to counterattack, so he took over the entire temple directly, so that he could detect it with any change.

The dog ***** just shredded the idol and immediately began to “demolition the house.”

This is no matter what it is, not to leave room for it, but it is still in the realm of God, but it does not affect and control it, let it continue to play without any obstacles.

Under such a state, if there is any attack on the dog god, Shen Lang will also be aware of it in advance, and can help it solve it in time.

But he is a bit suspicious.

Because at this moment the mental pressure in his mind continues to decrease sharply, and then disappears completely, and there is no energy fluctuation in all the ranges in the temple.

Within the control of the realm of God, let alone direct action, even if it exists in the way of the soul, as long as there is action, it can be discovered.

But now it is gone!

Combined with the sudden drop of mental stress to complete disappearance, it is revealed that the ancestor of the ancestor is separated, and it seems to be destroyed with the collapse of the idol, and the smoke disappears!

This is in line with what he is currently observing, but it does not meet the analysis of Shen Lang.

Without the foundation of the idol, the ancestor of the ancestor may not be established, but it will still exist in the form of a lost mind.

Shen Lang did not ruin this remnant. It must be still there, and it did not have time to escape and what form would it exist?

After thinking so fast, Shen Lang was shocked!

Chapter 2389 - Where is it hidden?

Shen Lang was not long ago, in the sand country encountered the murder of the king of the world.

Because I didn't think about the golden mask at all, I actually possessed a soul, so I was almost successfully attacked.

So for this, he is more vigilant.

I just didn't feel the movement of the ancestor's remnant thoughts, but I felt that it had no traces, and he had a bad guess.

The moment that he had just broken the idol was done first, but in a little bit of time, the ancestor of the mermaid, still had time to make other reactions.

For example, it was originally intended to use Jinguang to attack Shen Lang and the dog god, but when the statue collapsed, would it be directly involved in the golden light?

If that is the case, the golden light that was supposed to be an attack is the best layer of cover. Shen Lang will not think much, but instead takes the opportunity to collect the golden light.

It is more relaxed to receive the golden light. It may be because the foundation of the **** image is gone. Can it be because of the intention of the ancestor Yuanshen?

If its remnant of the gods is melted into the golden light, then it will not fight again, and naturally it will be absorbed more easily, and will it not enter the body of Shen Lang?

When the other party feels that it is going to collapse, it has made such an arrangement. It is not a rout, but a use of the defeat as a cover, and another sneak attack!

In a shock, Shen Lang did not dare to neglect, and quickly locked in the two golden lights that just earned. The golden light that was absorbed before was directly integrated into the Shenguang reserve. After the two golden lights, it was just income, and there was no integration.

He immediately made an isolation of them.

Because the light is originally the cohesion of spiritual energy, whether it is spiritual power, the power of faith, or the soul of the soul, is essentially a kind of energy.

Therefore, he must make a rigorous screening to ensure that there is no glimpse of the ancestor's sacredness in the golden light.

Although this is just a slap in the face, it is a god-like power. If you let it have the opportunity to linger, maybe when it will jump out and counter him!

Shen Lang is confident and still able to control it, but has to make more rigorous considerations.

When not talking about daily cultivation, sleeping, etc., for example, if he is due to fight with the mermaid patriarch, does the ancestor's remnant jump out for blasphemy?

Or if one day was seriously injured?

Like the last time it was suppressed by the Light God, when it was in the holy place of Yungong, or when it was fighting with the dragon consciousness, it was a fragile state, and it was easy to be broken by the inherently lurking crisis.

Everything is time to make a wedding dress for others.

Of course, Shen Lang did not withdraw the domain of God, but only put the main mind inside.

For the golden light after these two enrichments, he and the dog **** just felt the crisis. This is not inferior to the attack of the gods. It is really concentrated, and it can penetrate everything.

But now it has been absorbed by Shen Lang, this energy is another different way of existence.

According to the way of absorbing the golden light before, Shen Lang is directly integrated into the Shenguang reserve.

But now that there is more suspicion, he must go through some procedures without any trouble.

The first is to refine them one by one, and then re-concentrate them into gods.

The process of refining and refining is like a furnace!

If this golden light energy hides the ancestor's god, it will directly enter the Shengguang reserve, and it will be intact.

But if the golden light is refining, then it is re-refined as an energy body. It is similar to the principle of directly absorbing one's spiritual power and refining the human soul.

Because of the importance attached to the ancestor's remnant Yuanshen, Shen Lang did not dare to delay more time, and could not wait for the time to do it again, lest the other party hide in the depths of his consciousness, and now he began to work.

This process is much slower than the previous one, but fortunately, Shen Lang is also quite experienced, and his current spiritual volume is large enough that everything can withstand it.

These golden lights are like the things of the Lord, and they are quickly disintegrated, refining, and relocated.

Although the whole process is cumbersome, it is still the same.

I feel a bit skeptical about the smoothness of the waves...

After a while, under the full force, Shen Lang smashed all these golden light abilities, and then re-entered them into the Shengguang reserve.

This makes you feel a little relieved, whether you are hiding in this golden light, you can now feel at ease.

Just did not encounter a little resistance, and the remaining soul did not escape from the golden light, a big possibility that it is not hidden in the golden light!

Of course, there is also a possibility, that is, at the moment of absorption, after it comes in with the golden light, it immediately hides deep into the consciousness of Shen Lang.

However, Shen Lang is also an experienced person. If he is hiding in the golden light, because this is a very powerful cohesive energy, he may not be aware of it.

But if you come out from this and drill into him, it will definitely make him discover, without waiting for vigilance.

A false alarm? In fact, it is not in the golden light?

Where will it be?

In the time when he had just refining these golden lights The realm of God still controls the surrounding environment, and still does not notice any fluctuations.

Explain that this is also not possible to stop somewhere.

Then there is one more left!

Temple!

Judging from the previous situation, I felt that the surviving Yuanshen was attached to the image of the gods. Therefore, when it was destroyed to the gods, it was shocked to shoot, and at the moment of collapse, it was paralyzed.

However, this statue is shaped in this temple. The temple is the center of worship for everyone, and it is the target of a larger layer!

In other words, when the **** is broken, the soul attached to it is likely to be drilled along the place of contact below.

This is not to get under the ground, but the ground.

The ground is also a part of the entire temple. The whole temple is integrated. Once it enters the ground, it does not need to remain in the air, nor need to be attached to the fragments of the gods.

In that case, Shen Lang's control over the realm of the gods in the temple is not aware of its existence, because it is no longer within this scope, but outside this range!

The experience of the former temples proved that the whole temple can be integrated, and the scope in which it can exist is more extensive than before.

Even when it was just busy, it might have escaped from the temple through the temple!

Chapter 2390 - The patriarch is stunned

When thinking about this, Shen Lang was a little bit sorry, but he was relieved.

The purpose of his coming here is to ruin the temple and to retaliate against the mermaid patriarch.

Before the dog ***** destroyed the statue, they did not know, and did not think that there would be such an ancestor Yuanshen's avatar.

So it is that it has escaped, it has not been completely eliminated, and it is only a little regrettable, and it is not awkward.

On the other hand, they just dealt with this "Idol" together, and they were able to take the gods and run their souls, which means they won.

This is also a happy thing, but also absorbed a lot of golden light.

The other party ran away, that is, escaped, which means that they are safer, and do not have to defend this soul.

But if this soul is integrated into the temple, it may still be their enemy!

Of course, I have already verified it. The idol is the most important. The temple is just a temporary hideout. Even if it is really integrated into the temple, it may not dare to fight hard again.

And even the gods are broken, the temple is just bigger, the energy is weaker, even if it fights again, Shen Lang and the dog ***** can also defeat it.

But at this time, just a sigh of relief, and the spirit of the spirit.

The mermaid patriarch is coming!

From the memory of Fengqiu, the Hanze mermaid has some masters, basically the Shenlang is clear.

Only everyone is in charge of their duties, some are responsible for guarding, some are retreating, some are dealing with daily teaching, management, and so on.

One of the most powerful ones, as they exist in their minds, is undoubtedly their patriarch.

How long the patriarch lived, the wind and autumn are not clear.

This is not only because their way of dating is different, but also because when the autumn is still small, the patriarch is already the patriarch.

So this is a huge figure that he is unfathomable in his mind from an early age.

In fact, Shen Lang had hardened a wave of patriarchs before, and under the “swords under the sword”, he still cut off the arms of Fengqiu and took him hostage.

Later, the patriarch will be more cautious, precisely because I read the memory of Fengqiu later, and have a deeper understanding.

The patriarch was just at the crater in the middle of the island. Because of the misunderstanding, I thought that they were invisible in the tiankeng, so they would be slower. Starting

Otherwise, in the speed that he appeared above the tiankeng, it can be said that within this cold, you can still do whatever you want.

He didn't expect the waves to go, and the other didn't think they would go directly to the temple!

Because the dog ***** is carrying him to the tiankeng, and Shen Lang is crossing the half island to the tiankeng in the cold waters of the Hanze. He has not had any contact with the temple and has not seen it, so he will not Think together.

But he is the patriarch after all, and he has to be more attentive and understanding than the others in all aspects of the Hanze mermaid.

In a place like the Temple of the Ancestral Temple, he is the most familiar one and is the one who enters the most.

It is also the true guardian of the temple who shoulders the responsibility of protection.

When an outsider entered the temple, he immediately felt it. It was just because the scene changed everything very quickly. When he sensed the situation here, when it came over, the dust had already settled.

He has tried as fast as possible, but this is because Shen Lang has just been refining Jinguang, or else he and the dog ***** have to leave the temple, and have time to run away.

Now, when Shen Lang put down the ancestor Yuanshen, he found that the patriarch had come quickly, and the people had already arrived outside the temple!

The dog ***** is still ruining the temple, but this temple is as strong as the array, but more like a unity, so under its strong tearing claws, it only breaks a hole in the back, and does not take this temple. Demolition.

“Dragons dare!”

The patriarch was originally coming quickly. He sensed the general situation on the tiankeng side. The two guards flew out and are still in a coma.

At this moment, the door of the temple is open. He can even see the situation directly. It is clear at a glance at the destruction of the behemoth inside.

Everything in the temple was ruined, including the ancestor statue, and now the behemoth is still trying to dismantle the entire temple!

This is a shameful shame for the patriarch of the Hanze mermaid.

This is something that has never happened before. In the hands of his patriarch, it is simply unforgivable to see such a thing.

His anger is about to spurt out directly. When he flies in, his body has been wrapped in a thick scale, like a fish, the target is directly opposite the dog god.

He is now the **** of the beast that wants to destroy this big cockroach, shredded on the spot to hate!

Although Shen Lang was the main force to kill the ancestor Yuanshen, on the way he came, the sense of standing was quiet, so more anger gave the dog god.

This is also because the moment of chaos is so fast that he did not make it too clear in the distance. The destruction of the dog **** is too obvious.

The patriarch was originally very fast, and when the sound was transmitted, the man had already reached the temple.

Although his main target is the dog god, but because the Shen wave is in front, it is also incidentally attacking the waves.

However, after flying into the temple quickly he immediately found that his speed became very slow, as if flying slowly in the air to the enemy!

He immediately figured out what happened, although everyone's name may be different, but it is similar in nature, and the space field around it is controlled by others.

This is awkward...

Before the Shenlang, the field of God was displayed to prevent the soul of the ancestor from escaping. Because I wanted to lick a little, I didn't stop the field of God in the refining of gold.

The result is now good, did not capture the ancestor of the ancestor Yuanshen, but the patriarch who just rushed over to the network live!

After the analysis of the ancestor Yuanshen, Shen Lang has already paid attention to the patriarch's coming, so for the realm of God, now is the focus. 新ヤ~8~1~中文网 ωωω.χ~8.~1zιι.còm

He had thought that the other party would attack outside, or control the temple, and he did not expect to hit it directly.

This is of course even more cool. Now, this scene is directly controlling the other party. It has come quickly, but it has become like a slow motion. With the angry expression, it is a bit funny.

The dog **** also heard the roar and listened to it. Looking at the situation inside the temple, it also understood what was going on.

From Shen Lang, it already knew the follow-up situation after the coma. It was the patriarch of the mermaid. Grasping it as a test article also contributed to its result.

At this moment, it is also an enemy meeting, and immediately revealed the fangs!
