

## First Strong 2421

### Chapter 2421 - Re-enter Hanze

The wind will be their mermaid family, they have a geographical backhand, and they will not fall into the army. If they are not injured, they will immediately sneak into the bottom of the water.

However, the barbarian came here this time, and it was directed at the Pearl of Hanze, and it was prepared to be hard. Of course, it was also prepared for all aspects, so it was under the leadership of Meng Hao and went directly to Hanze. The past!

Because of some bans in the cold waters, further conditions are not felt.

However, after understanding one, Shen Lang's heart will have a bottom.

Meng Meng wants to engage him, he has already made the barbarian his goal. As long as you don't run away, then everything is easy.

As for the mermaid and barbarians who win and lose, it doesn't matter.

Originally, Shen Lang came out from Hanze, and he also gave the head of the patriarch, and he would not go to the invaders again.

But just now the wind will bring people first, and it is to provoke the barbarian to start, and then hide and wait for profit, this Shen Lang of course to calculate with them.

When I first came over, Shen Lang was fascinated by Han Ze, and it was necessary to explore.

But now it is different, not only has it gone through it, but also because he already has the memory of Fengqiu, Fengqiu is the identity of the welcoming guest, and understands the whole situation of Hanze.

Of course, if you just want to go in, he can transfer directly to the island from the door of the Three Realms.

So at the moment when the dog \*\*\*\*\* looked at it, Shen Lang pointed to the waters in front!

“Inside, let’s go in too!”

Shen Lang’s hand waved, just like the patriarch, made a water table, and then went up with the dog god, and went straight to the inside of Hanze.

Although he is now in control of the situation inside, but after all, it is the first operation, it is not as good as the ancestor Yuanshen using the patriarch’s body manipulation, the speed is much slower.

But now I am not in a hurry. He rushed over and can watch the show!

He predicted that there will be a battle between Hanze and the barbarian. This refers to the wave of people in the wind. The barbarian has the upper hand and the pursuit is inside. The situation is different.

After all, this is Hanze, the site of the mermaid, and the number of mermaid people is much more than that that has just appeared. Although the patriarch is seriously injured, the strength cannot be underestimated.

And there are more levels like the wind autumn and the wind.

Before Shen Lang had seen it, and even suspected that the wind would break away from the army, would it be intentional to lure the enemy deeper!

Because the barbarian has already got the pearl of the cold, the fishermen will not do their best. Once they find it difficult, they will run first.

And leaving Hanze, it is difficult for the mermaids to find barbarians again.

Therefore, by deliberately showing weakness, numb the barbarian, let them think that they can take the whole Hanze, and then lure them into the interior of Hanze to kill, this is entirely possible!

When they were in the three-way match, there might be more mermaid, but it was hidden under the cold water, so that everyone did not perceive it.

With these judgments, Shen Lang is not trying to save the lives of the barbarian. Of course, don't worry about rushing over, just wait for them to fight after they die.

Of course, the dog \*\*\*\*\* is completely obeying the arrangement of Shen Lang.

The speed before it was too fast, and the feeling of rapid changes around it, now you can enjoy the scenery of Hanze.

The dog \*\*\*\*\* is full of admiration!

Because it has not experienced the period of the wind and the wind, thinking that Shen Lang was the one that the patriarch sent them out, learned the method of operation, and understood all the routes!

It didn't think so much at the time, and when it came back, there was no clue.

The goal of Shen Lang is directly on the island in the middle.

Meng Hao was prepared this time. No matter what method he used, he should have got the method, route, or just part of entering Hanze.

But his goal must be on the middle of the island, where it is possible to find the patriarch and get the beads of chill.

Just now they "winning the pursuit", naturally also want to enter the mermaid's lair.

When they came to the middle island of Hanze again, they immediately felt the atmosphere of killing and fighting!

Shen Lang with a golden mask, the way the soul swims, is to instantly understand the situation on the whole island.

In terms of scope alone, it should have been understood by the whole Hanze, but the cold waters are special and there are some restrictions that will be blocked.

So now I am here on the island to understand the situation on the whole island.

The first thing that Shen Lang paid attention to was the ancestral shrine of the island.

The ancestors of the ancestors, after the detachment of the gods, hid in the temple, and when the patriarch came in and attacked, it was attached to the body of the patriarch.

At that time, the whole temple was collected and put into the waters of Hanze.

There is no doubt that it was to protect the temple from being destroyed like a god, so it was first settled.

After sending them to the waves, the ancestor Yuanshen should restore the temple as a patriarch, thus giving the fish people a comfort.

Now all the mermaid is gathering in another place on the island, probably the place where the barbarians landed.

It is also on the edge of the island, and it is not on the land of the mountain in the middle of the island. Shen Lang looks like his guess. It is the wind that will inform other people to ambush!

On the edge of landing, on the one hand, you can maintain your own dignity and prevent the enemy from setting foot on the island will not cause more damage on the island.

On the other hand, it is also because of the coldness, you can use the water of the cold to attack.

Under the leadership of Meng Pu, the barbarians were long-distance and straightforward. They thought that the mermaid family was almost the same as the owner of the sand country.

I didn't expect to come here after giving them a head-on blow.

Although they are slower, they will not be too late. There is no final victory here. The two sides are in the middle of the battle.

Close to it, you can clearly understand the specifics.

Because the barbarians are big and the number is limited, it is easy to count. There are forty-eight in addition to Meng Hao, but now there are two fewer.

The two bodies were not seen at the scene, and it seems that they should fall into the waters of Hanze.

In terms of mermaid, in addition to the advantage of geographical advantage, it depends on the quantity and the restraint in the practice.

However, the patriarch did not personally lead the people to fight. Under the suppression of the elders of Meng Lu, who are close to the barbarian patriarchal level, they are now very hard and it is difficult to turn the enemy over.

There is no doubt that the mermaid is also dead and wounded, perhaps more, and it is also possible that the body has fallen into the waters of Hanze.

Shen Lang and the dog \*\*\*\*\* follow the previous route, first to the direction of the temple, and then along the edge of the island.

Not waiting for it, so that the two sides of the decisive battle were discovered, they were taken aback!

Chapter 2422 - Left and right battle

When they were outside, the wind would watch them and the dog \*\*\*\*\* left.

When Meng Hao was to confront Shen Lang positively, he slipped away, and he felt that he was not hurt.

That has already run away, will it come back?

Naturally, they also set their goals on the barbarian.

As a result, when the mermaid and barbarians fought, the owner of the sand country returned with his beast!

It's a surprise, everyone is secretly complaining!

Even if the Lord of the Kingdom of Shah was injured, his beast could still exert a powerful attack. And he can still have a spell to summon a bug army.

The tens of thousands of worms and squadrons, covering the sky and covering the sun, are not afraid of death and are not afraid of killing, and they will directly trap the weaker people.

The key point is that now they are two parties, it is impossible to say anything about cooperation, and it is impossible to cope with the owner of the sand country.

And with their own thinking, they will not be eager to shoot, but will be watching at the same time, waiting for the moment when they lose both.

Shen Lang is also true. After he and the dog god, he was only supported by the water platform, suspended above the surface of Hanze, and did not continue to come in, so they watched the battle between them.

In this melee crowd, Shen Lang also saw the wind and autumn.

Before on the desert island, Shen Lang gained his memory, did not kill him, but fainted him, then learned and experimented with the method of manipulating the water of Hanze, then left there to go here. The island of the settlement comes.

Looking at Shen Lang at this moment, Fengqiu is undoubtedly the most complicated one.

He understands that Shen Lang can find the island and can find the temple, including the ability to come back now, all related to his memory.

But after he woke up, he returned to the mermaid team and did not dare to admit that his memory was read.

In particular, he knew that the ancestor statue was destroyed, the patriarch was injured, and many ethnic groups were killed or injured...

If he admits, the tribe who can't vent to the enemy will inevitably blame his head, and then he can't stand on his own.

Fortunately, he did not personally encounter it. After he woke up, the Lord of Sand State had left.

He was attacked first, and naturally no one would blame him. This matter will not be mentioned again.

When he wants to fight against the barbarians again, he is brave enough to kill the enemy, in order to make up for the feeling of guilt in the heart.

As a result, I now see the Lord of Sand Kingdom again!

He is now more desperate to fight, but the whole person is actually a little embarrassed.

Shen Lang saw the autumn of the wind, but he did not glare at him when he saw him. Instead, he looked away from him, as if he had not seen him. After thinking a little, he understood the way.

The memory of Fengqiu still has a lot of help for him, so he doesn't mean to ruin the autumn, and of course he did not open his mouth to thank him.

Then one of his other concerns is the great elder of the barbarian Meng Meng.

Because the patriarch of the mermaid is not there, Meng Hao is the strongest on the scene.

Meng Hao is close to the strength of their patriarchs, and in terms of mermaid, no one is close to the strength of the patriarch!

However, this is in the mermaid's own territory, the advantage of many people is still very obvious.

A wind will not be Meng's opponent, but there are a few more advanced than the welcoming division, the mermaid elders level, a single can not deal with Meng Hao, united together, he resisted him.

It is precisely because of this that several of their elders have imprisoned Meng Hao, so that he does not have the opportunity to crush, Feng Qiu, Feng Hui and others, together with other core ethnic groups, all ethnic groups, all the invasion of the barbarians The people are fighting against it.

However, the two sides are generally evenly matched, in fact, it means that the mermaid is in a disadvantage!

After all, this is their home.

The mermaid certainly understands this, but they are supported by anger, have the temperament against foreign enemies, and have the responsibility to recapture the beads of Hanze.

They also have a source of confidence, that is the patriarch!

It was because the patriarch was injured and the injury was not light. So after the temple was restored, the patriarch simply settled down and let other responsible affairs healed in the temple.

After the wind will pass the letter, the barbarian will be led, and there will be no direction to the temple, but another place on the island. The purpose is not to disturb the healing of the patriarch.

But now that it is difficult to take the other side down, their hopes are pinned on the patriarch.

I feel that as long as I can hold on for a while, the patriarch should have finished the healing. As long as the patriarch is shot, it must be able to annihilate all the barbarians!

This is a great belief!

But now, the Lord of the Kingdom of Sand is coming again, everything is different.

Before this is this guy ruined the statue, injured the patriarch, but also summoned the army of insects!

It is said that the patriarch also forced the price of the sacred pearl to withdraw the worms!

Such a person, although everyone hates, but more is dominated by fear.

Even in accordance with the analysis of the Wind Society, the Lord of the Shah State was injured, but now the other party dares to come again, but also come here, it must be sure.

Not to mention the barbarians.

Just when Meng Hao was tempted to attack the crowd, they disappeared directly and they were stunned!

When I saw it again, it was already firmly restrained. If the guy puts in a bug and puts the beast into the attack, the consequences are unimaginable.

“The Lord of Sand Kingdom!”

The wind will suddenly scream.

“The barbarian wanted to attack you before! We really can’t see it, we can’t help but look for you, and he even wants us to fight!”

“Before you have left peacefully from us, we can see that we are still friendly. Let us join hands now and kill all these barbaric barbarians!”

The wind will be so loud and screaming The mermaid people are a bit ugly. But in the current situation, you can’t afford to be offended by two enemies. You can only combine one to destroy the other.

Therefore, even if you are unhappy, everyone has to admit that the wind will do the right thing.

In terms of barbarians, it is also shameless to be a dark wind.

However, Meng Hao has already repeated it once, and this time it is really impossible to let go of the old face to win over the waves!

What he chose was not to snoring. He felt that the Lord of the Shah State would not be able to promise them, and he would certainly wait for them to lose both.

Although they have no good results after losing both, they can still delay, and a little more time, so that he can think about countermeasures.

“What you said makes sense. These barbarians are too ignorant. I have helped them a lot, but I want to kill my life, I don’t care too much!”

As soon as this statement came out, the mermaid family breathed a sigh of relief, and the barbarian was shocked!

Chapter 2423 - 1 under the fly

The wind will ignore the face to pull the waves, the fishermen are uncomfortable, but they are expecting that Shen Lang can play barbarians with them.

The barbarian thinks that Shen Lang should be watching them fight to lose both sides, and take advantage of the profits. Although the results are still not good, but there is more time to think about countermeasures, there may be other turning points.

Now Shen Lang’s condemnation of the barbarians is tantamount to a statement.

“I will work with you to destroy this group of barbarians!”

The statement that has just been made has made the barbarians feel terrified. The direct decision at this moment is to let the barbarian heart sink.

Meng Hao has just had no openings, and is already thinking about countermeasures quickly. When Shen Lang expressed his condemnation, he even took the time to deal with it.

At the moment, when the words of Shen Lang came out, Meng Hao immediately took the lead!

He just had a hard fight with the elders of the mermaid, but at this time they gave up a few of them and went straight to the side of Shenlang!

In just a short period of time, he has already thought about it. The owner of this sand country, whether he has not gone far or returned, has seen the battle scene between them and the mermaid family. He guessed this possibility, so he wanted to catch up. Come over and get cheap.

Of course, he still firmly believes that Shen Lang was seriously injured. Otherwise, how can he cooperate with the wind?

Just the wind will take the lead to attack them!

It is difficult for him to defeat those elders in a short time, but to seize the victim of a seriously wounded country, the chances are much greater.

Therefore, he really ignored the mermaid elders and tried his best to attack the past!

He has another layer of deep meaning. The owner of the sand country himself was seriously injured, but he has the method of summoning!

Still can summon the army of insects, and there is also a fierce animal.

As long as the Lord of the Kingdom of Sand is controlled, it will control all the worms and his beasts!

In the attitude of the wind just now, for the army of insects, it is much more taboo than the barbarians, and there is a psychological shadow.

By that time, you don't need to do it yourself. By controlling the king of the country, you can indirectly manipulate the worms and beasts, and cooperate with other barbarian warriors to completely annihilate the mermaid!

The idea was suddenly thought of by him. Immediately, an idea spread to the minds of other barbarians, allowing them to cover him.

Several patriarchs of the fishermen, who had previously fought against the army of insects, did not have any good feelings for Shen Lang.

But they live a lot of age and naturally have a wealth of life experience.

When Shen Lang stated that he had to deal with the barbarians, the elders of Meng Hao suddenly separated, and in the latter case, they could guess one or two.

In other words, even if Meng Hao did not think of this layer, they would also worry about this layer. If there is another army of insects, in this base camp, the mermaid casualties must be the worst.

Therefore, Meng Hao wants to get out, they are all entangled, not letting him have the opportunity to get away.

The other barbarians who received the instructions, the recent direct abandonment and the mermaid battle, quickly topped up and sacrificed themselves to cover Meng Hao!

This time, the barbarians are not only elite, but also prepared for the “dead”, so no matter when, Meng Hao’s instructions are more than everything, even if they want to give their lives. Also do not leave.

Originally, everyone maintained a balanced battle. They were elders and elders. At this moment, the purpose was to attack Meng Hao. I did not expect other barbarians to suddenly come up.

And the front is covered by the body, as well as the back, other directions, it is a desperate full attack!

If the elders continue to attack Meng Hao, it is unlikely that they want to kill, and they will stop it.

But they themselves may also be seriously injured!

Of course, those barbarians who are gathered together will be injured by others, and some will be injured by other mermaids.

This is equivalent to a small range of two losses in advance.

These mermaid elders certainly don't want to see this result.

If Meng Hao just got out and was going to attack the patriarchs of their mermaid, the elders would ignore all the consequences. But now it is obvious that it is going to attack the head of the sand country.

Although the Lord of the Shah State now expresses his intention to attack the barbarian with everyone, it is also an enemy. If Meng Meng attacks him, it may be that the sand country and the barbarians are both injured in advance.

It was at that moment that they were all instinctive and made the most favorable decision for themselves. They chose to go back to other barbarians and did not try to stop Meng Hao.

Of course, in terms of specific performance, they are also doing very natural, it seems that the situation is very crisis, they have to go back to the defense, it is impossible to stop Meng Hao.

Just after the words of the waves, it is equivalent to igniting the war!

Meng Hao is the first reaction, and then the barbarian warriors he summoned.

The elders of the mermaid, the other core people, also reacted with it. They all rose up and hardened each other.

However, no matter whether it is a mermaid or a barbarian, they have left a big eye on the worm army of Shen Lang, the owner of the sand country.

Meng Hao's speed is very fast. This is the third time he wants to smash the thief first. He must be successful and must not fail. Otherwise, he may be overturned in this cold weather today.

For now, his chances are all desperately covered by other barbarian warriors.

Therefore, he played a 100% super fighting power. Although his body is huge, his speed is fast, and he has a lot of reddish energy. It is a step forward than his body and directly covers the deep waves!

In addition to having to win, he also did not believe in evil, the first time was fooled, and the second time he ran away, this time will definitely not let the target slip away.

At this time A big claw suddenly came out from the side, and directly flew Meng Meng out!

Although everyone is strengthening the attack on each other, Shen Lang is the most important person on the scene, and everyone's attention is still on him.

Meng Hao is another key figure. He wants to attack Shen Lang, which is naturally the core of everyone's attention.

Originally, whether it was a mermaid or a barbarian, I wanted to see how Shen Lang responded. If I still escaped, it would basically prove that he must have been seriously injured!

For the barbarians, if Shen Lang escapes and runs away, it means that they will win, and they will be imposing, and at the same time, they will fight against the fishermen's fighting spirit.

Under such a premise, everyone wants to see the response of Shen Lang.

Because the dog \*\*\*\*\* is standing on the water platform, it shrinks smaller than the horse they have seen before. Even if it knows that it is a giant beast, it will ignore it at this moment.

I didn't expect Meng Hao to be shot directly by a paw!

Chapter 2424 - Pre-judgment

This paw of the dog \*\*\*\*\* has both the factors of neglecting the light enemy and certain inevitable factors!

Meng Hao's goal is Shen Lang. He feels that there is a rule that does not become tacit.

For example, before Shen Lang summoned the army of insects, the beasts, and the warriors who met the satisfaction, and as the leader of this, he was listed separately and played against the owner of this sand country.

It is basically the same when it is mixed with the mermaid.

The strongest patriarch of the Hanze mermaid did not appear. He dealt with the strongest squeezing of several elders. The other party also had such a tacit understanding.

When he attacked Shen Lang, it is natural that everyone will follow such a tacit understanding, and the big brother is against the younger brother.

So he is not a light enemy and neglect, but he never thought that the dog \*\*\*\* would attack him!

Besides, when the dog \*\*\*\* fights before, the body becomes bigger and restores the original Emperor.

Now he still shrinks into a small appearance, and of course he doesn't think much.

But for the dog god, it was the barbarian who used to absorb the refining and eating in the space of the Tianshu space. On the other hand, according to the reminder of Shen Lang, he wondered how to deal with them.

Although there is not a systemic thing out, it is basically a little different from the purely instinctive attack. It is a summary of the experience, plus various predictions.

Just then, the dog \*\*\*\* knows that Shen Lang is able to deal with it, but since Shen Lang has not ordered it to fight with others, it will play a protective role.

Its body is still small, but this paw flies out, but it quickly grows bigger and bigger, and then shoots Meng Meng who is coming.

The strength of the dog \*\*\*\* is unquestionable. In the identity of the Emperor, the power is its special feature. The powerful barbarian is comparable to it. It is a small witch.

Before the barbarian can fight with it, it depends on the quantity and cooperation, but it should be counted in the category of intelligence and tactics.

Therefore, it was a single blow, and it was prepared. The attack was not prepared, and Meng was directly shot by him to the side of the cold waters!

However, Meng Hao's strength is also very strong. Just the blow hit it to the side, but he still returned to the air before falling into the water.

Just then, let everyone be shocked, and the importance attached to the beast is not enough. Now it is found that its strength is stronger than they think!

And Shen Lang and the worm army did not release it!

What everyone did not expect was that Meng Hao had just fixed in the air when he had just returned to the air from the surface of Hanze!

In such a desperate battle scene, it is impossible to fix it in the air, and the whole person will suddenly fix it. There is only one possibility – it is forbidden!

Of course, the barbarian did not say it, it was the mermaid family, and they had to admit that their patriarchs did not appear. Meng Hao was the strongest one on the scene.

But this is Meng Hao, just a barbarian elder who can deal with several elders of them, first being shot by a beast and then being imprisoned in the air!

This is definitely not something the beast can do, and there are no other people. It can only be done by the Lord of Sand.

Originally, everyone thought that the Lord of the Shah State had been seriously injured. Now, when I look at this scene, where is it like being seriously injured?

At this moment, Meng Hao was imprisoned in the air, naturally it was shot by Shen Lang.

If it is normal to fight, it is not so easy to smash the waves, so Meng Meng's strength is also very strong.

However, when I was playing against it, Shen Lang had already observed Meng Hao in various aspects and had a little more understanding of him.

And just after Meng Hao's shot, Shen Lang has already prepared for defense and attack.

The dog god's preemptive shot was not arranged by him, but he was beaten by Meng Yu, and he was ready to take care of it.

With Meng's strength, even if it falls into the waters of Hanze, it will not be injured, and it will be able to get up.

But in his capacity, he will certainly not let himself fall into the waters. It is a matter of losing face, but it will also affect the morale of the barbarians.

With this in mind, Shen Lang does not have to wait until he returns from the edge of the waters, and has begun to calculate the position of his return.

Although the reaction of each person on the spot may be different, in some cases, some judgments will be the same.

For example, if Shen Lang and the dog \*\*\*\*\* did not move, Meng Pu, who was shot to the surface of the water, returned to the air, and naturally they would target both of them.

At the very least, it is necessary to defend them both.

Through this, Shen Lang can judge how far he is flying in that direction, how much angle, and how high.

Then the field of his \*\*\*\*\* spread over the past and locked a large piece of the neighborhood.

Basically, Meng Hao was shot and flew to the surface of Hanze. At the moment of folding, Shen Lang had already arranged the net.

Both sides of the battle have a part of their mentality to pay attention to the situation here.

They originally focused on Shen Lang, followed by Meng Hao.

However, because of the sudden incident, Meng Hao was shot by a dog god, and naturally he managed to steal the mirror and let everyone focus on him.

Especially the barbarian people are worried that he will fall into the waters of Hanze with serious injuries. In that case, everyone will have no sand in the first place.

So the focus of this time is with Meng Hao, and even if they are concerned about Shen Lang, they are not aware of the changes in the realm of God.

The whole process is very rapid. The result is that everyone has not figured out what the situation is. The Meng Meng, which just flew up, crashed into the realm of the gods and was banned in the air by Shen Lang. .

Since Shen Lang is a heartless layout, of course, he will not give him the opportunity to struggle. When he comes in directly, he will encounter the strongest imprisonment and he will not be able to move completely.

In fact, Shen Lang can do this. Reactions, judgments, and arrangements made in advance are very rare. It is very difficult to do.

However, in Meng Min's opinion, it's not a matter of Shen Lang's own. He felt that it was the owner of the sand country who arranged the beast to attack him and then sneaked himself again.

This is very shameless, obviously everyone's level is the same, should be single-handed, sneak attack and not say, even combined to play two dozen!

Unlike the elders of the mermaid family, he is the lord of the sand country, but in terms of identity, it is to be above his elders in Shibuya.

This is too much to pay attention to!

It is a pity that the imprisonment in the field of Shen Lang is to suppress all of his entire people from the inside out. Not to mention the sound of screaming, the consciousness is controlled, and no command can be made.

## Chapter 2425 - Are you damn?

“The barbarians in the district, would like to challenge me? It is simply not self-reliant!”

When Shen Lang’s words came out, a scene made everyone almost exclaimed!

After successfully banned Meng Hao in the field of God, Shen Lang controlled the golden flying sword and quickly flew out, directly cutting off one arm of Meng Yi, who was fixed in the air!

And everyone’s exclamation has not yet made a sound, a turning point in the air, the golden flying sword has cut off the other side of the arm!

Since you want to stand up, you can’t have any politeness. After you directly break Meng Xi’s arms, even if he can still struggle, the strength will be a discount, not enough.

The two arms were out of the body, and they had not waited to fall to the cold waters below. The tongue of the dog \*\*\*\*\* flew over and directly swallowed them.

The barbarians on the scene were directly shocked, and they were paralyzed!

The elders who depended on them, Meng Hao, even had no chance to be close to the Lord of the Kingdom of Sand. They were directly imprisoned, and they had no arms to resist!

If they are, can there be better results?

This is the true strength of the owner of the sand country!

People don’t need to summon a bug army, it’s still so powerful!

No, the bugs are big, they can still fight, but the amount is a bit too much, and they will be tired in the end. Now he personally shot, but there is no chance.

Even the elders are so, can they fight against it?

For a time, the morale was so high that the barbarian warriors who were crazy against the mermaid were so discouraged.

The mermaid is just the opposite.

Just after the wind has successfully pulled the head of the sand country to his own camp, no matter what happened before, for the time being, everyone is an ally.

Now, as the ally of the sand country, as the ally, the most powerful Meng Hao of the other party is shackled and the arms are cut off. Of course, they greatly boost their confidence.

At the same time, the information of the barbarians was low, and they even took the opportunity to storm!

Not to mention the general mermaid family, just a few elders before, they are to be stronger, and they can unite with Meng Yu.

They deal with other barbarians, and naturally have more power and surplus. At this moment, all of them broke out, and there was a victory and pursuit effect. They led everyone to beat more than forty people in the barbarians.

“The Lord of Sand! You have helped your enemies!”

“I want to compete with you, I am telling you. But what about them? Don’t you remember? It was just that they attacked you first, and they intentionally provoked us to fight!”

“Wake up! You kill me, it will only be cheaper for their mermaid!”

Before Meng Min’s thoughts had not been completely banned, he sent out several thoughts about Shen Lang.

He can still send ideas now, but if you want to have a greater effect, you can’t do it.

However, when his idea was just finished, he felt that he was being pulled into the front of Shen Lang.

“I just agreed to deal with you just now. You also reached the goal of coming to Hanze. You not only did not see it, but did not thank you for helping me. Instead, I wanted to kill me and took everything of me...”

“Do you think you should die?”

The idea of Shen Lang makes Meng Hao very embarrassed.

Now I am facing the deep waves in such a close distance, especially since he can't move at all. His eyes must be opposite to Shen Lang, and he has a dim sum.

But in fact, his embarrassment is the embarrassment that is now being forced to face, rather than feeling that his previous behavior was ashamed!

Since he will make such a decision, he is naturally pursuing the principle of weak meat.

Now the enemy is stronger than him and can't resist.

For safety, he didn't say anything, but did his best to see if there was any way to get out.

Of course, he thought about summoning all the barbarian warriors to attack the Shenlang. As long as he can save him and sacrifice some people, it is not a bad thing! It is an acceptable price!

It is a pity that his thinking is also very strict. In short, he has just been able to talk to Shen Lang. In fact, it is Shen Lang who gave him this power. Otherwise, this is impossible!

Realizing this, Meng Hao immediately had a tangled problem.

Do you want to admit that you are damn?

If you firmly refuse to admit it, will it intensify the anger of the other party and let the situation have no room for turning.

If you admit that you are damn, you will dare to dare to do it, but it will be more responsible.

“I am damn.”

“If you are sure that you are damn, then say it out loud and let everyone hear what you say!”

“...”

Meng Hao is very embarrassed.

If it is only a private exchange at the level of consciousness, there is no problem in saying anything, but now that he wants to speak out loudly, nature is equivalent to publicly admitting mistakes.

He is now more than just a person, representing everyone in Shibuya!

Once he publicly admitted that he was damned, no one else could raise his head.

But this request will be raised, and he also understands what the outcome will be. If he publicly asks for mercy, perhaps his life alone, you can talk about the conditions for the other barbarian life!

But if you don't satisfy each other, you don't need the king of the country to take it out. It's just that he is on the sidelines, and the fish people will kill all the people of the barbarian one by one.

Whether it is the effect of attacking him or being alone, it is already true. He has been imprisoned, has been smashed his arms, and wants to do something big, it is extremely difficult.

Now Meng Xi's only hope is to sacrifice his life. He can change the other people of the barbarian to leave. It is best to leave with the beads of Hanze...

“I can publicly admit it, but I hope that you can spare other barbarian life, as long as you let them leave with the beads of cold, I can offer everything I have!”

“You talk to me about conditions?”

Shen Lang ridiculed: “You need to do is to please me as much as possible, beg me to open the net! Talk about the conditions, you are not qualified! Are you publicly acknowledged, is it important to me?”

“...”

This words directly let Meng Xi’s heart sink to the bottom!

Originally thought that the other side wants him to bow, is a very important obsession, I did not expect to be dispensable for others.

This is awkward...

The condition is that there is no way to talk, what can I do?

Can only please, beg!

And others may not open the net, just “maybe”.

But at this moment, he has no other way!

Because he is firmly suppressed in all aspects, even if he wants to explode and die, it is impossible to do it. If someone else wants to kill him, he can continue to cut off his feet at any time, or poke him with a knife!

Chapter 2426 - Continue to take profits

And now it is giving him this opportunity. If it changes in a while, then he wants to ask for more, it is impossible!

“I am damn! The Lord of the Sands helped me get the Pearl of Hanze. I shouldn’t be willing to report it to him!”

“This is purely my personal unwise behavior, and has nothing to do with the other people of the barbarian! I hope that the great king of the country will spare others!”

Meng Hao’s opening speech turned out to be \*\*\*\*\* for himself, and then he begged for his life. Let the barbarians on the scene be very wrong.

But it is natural to be able to choose the elite here. I know that if there is no way, the elders cannot make such a request.

The intention of the elders at this moment is undoubtedly to sacrifice themselves to preserve them!

If they are angry and resentful, they will only let the elders die in vain!

However, because they are still fighting with the mermaid family, the anger and anger at the moment, so that they have been stunned, soared up, and angered all the anger to the mermaid!

Meng Hao has already finished, and for him, this is already a great pleading. Then I looked at Shen Lang. If there is no way, he must have more pleadings without the bottom line.

“I realize that my mistakes are very good. I am also a very good person, not a demon.”

When talking about Shen Lang, I read the memory of Meng Yu directly!

For him, Meng Xi’s memory is equal to most of the information of the Digu Valley, and with Shaguo and Hanze, he can learn more about the world.

As for the enchanting beads and sun beads that Meng Hao still has, it is nothing. He has four in his hand and has not paid much attention to it.

When Meng Meng’s memory was read, Shen Lang immediately released his imprisonment and used the field of God to push him to the place where the barbarians were concentrated.

“If you admit mistakes, I will spare you.”

Hesitant to Meng Meng's state, he did not know what he had experienced. He suddenly gained freedom and did not realize that Shen Lang read his memory, but the pain of his arms.

Then he realized another problem.

It's just that Shen Lang has spared his life and bypassed the lives of the barbarians, but it does not mean that they will be protected!

If you want to leave safely from here, you still have to fight with the mermaid family in Hanze!

He immediately realized that this was a conspiracy!

The Lord of the Shah State does not need to kill him, nor does it need to destroy the barbarian, but as long as it is not, they will be the continuation of the war. After he was seriously injured, it will affect the performance of every barbarian. The best result is that both lose.

If the two sides lose both sides, then this sand country is only next to the Lord, it is still cheap!

Then everything went back to the previous track...

When he just came over, don't you think he will wait to take advantage of the profits?

I knew that the final result was still the same. Why did he just attack the attack first!

If you don't attack the king of the sand country, then the battle with the mermaid will not fall into the wind at least. Under the balance of everyone, you can think more about the countermeasures.

Now, probably the mermaid family can't wait to destroy them right away!

Other barbarians can't take care of that much. Just because they were very wrong, anger and anger, they all worried that the elders would be killed like this!

Compared to being killed, it is very good to put it back after the injury.

And Meng Hao is the leader of one of their main bones. If they are finished, even if they persist, they may collapse.

Therefore, at this moment, the barbarian who had just reversed the pressure to the upper hand was immediately confronted by the fisherman, and the other part rescued Meng Hao and protected him.

And the mermaid family, no doubt in the dark, screaming!

If Shen Lang is here, he will keep watching the scene of sitting on the mountain and they will still be able to accept it. But what is that?

Don't you condemn them? Don't you want to kill them with us?

How can I apologize?

The principle? What about the force field? Don't you face?

They all understand that the owner of this sand country is really treacherous, clearly knowing that they want to let each other consume each other!

The wind will be very entangled at this time. It is just the result of his request. He wants to use the other side to attack Meng Hao. It is also a successful wish.

But now the problem has been thrown back, and he can no longer say it again with just the reason.

He also understands, why is it just that the other party is so good to talk, it is not a good fool, nor is he saying that he has a level, and he does not want to let them go!

But even in such a situation, they would not dare to speak at this time.

The Lord of the Shah State just came over and made trouble, that is, the patriarchs could not deal with it, that is, they were injured each other. From the point of view of the situation, he did not have much problem.

Just because of Meng Hao's hand, no one can compete!

Not to mention the beasts and the army of insects.

If he then sinned the king of the country, he gave him an excuse to attack the mermaid!

The mermaid, who is weaker, is not qualified to say anything. It is also an attack that supports the barbarian.

The wind will fall in the middle of the autumn, including the elders, and this time it is also see through, dare not say anything.

The result is that everyone maintains the current situation. The only thing that can be done is to clean up the barbarians first!

At this time they want to join forces with the barbarian, it is impossible, and the joint hand may not be the opponent of the king of the country.

Just the brutality of the barbarians broke out because of the tragic and grievances, so that both sides barely tied. Now in order to meet the injured Meng Meng, and then part of the barbarians to go out.

This makes the fishermen once again have the upper hand.

However, Meng Hao's strength is much stronger after all. Although he was beaten with his arms, he was given a discount, but the restriction was just on him.

After getting out of trouble, even if his arm is injured, his fighting power is still stronger than the mermaid!

Meng Hao is not too delicate to wait for someone to help, he is out of a fierce state, once again attack is a dead hand!

In the situation just now, he has already seen it very clearly. If the Lord of the Sand State wants to take away his hobby beads, including his life, it can be done easily.

The reason why they didn't do this is to watch them and the mermaids kill each other!

So he must do this now, or else the other party will be upset. If you are unhappy, you may be finished again.

He is injured now, and naturally he can't hold it for so long, so he must kneel down!

Chapter 2427 - Barbarian memory

“The mermaid friends of Hanze, don't say that I didn't remind you that the barbarian now has your ancestral pearls. If you let them take away, you will see your fight.”

Shen Lang slowly reminded me.

Although the two sides have been fighting, they are thinking about killing each other, but he feels that it is still not enough. They must be re-ignited to make them burn more.

The mermaid family actually knew such a thing, and it was one of their fighting spirits. Now Shen Lang re-raised, and Meng Hao's arms are gone, no doubt more exciting them.

The barbarian is roaring!

They all want to stink, but they dare not open this mouth.

Shen Lang just provoked them to fight, and they didn't pay much attention to it. He was calmly watching the crowd.

In fact, it is a fusion of Meng Yu's memory!

Through the memory of Meng Yu, learn about the situation in Shibuya and learn more about the world.

He does not care about security issues, let alone his own powerful, that is, the dog \*\*\*\*\* is here, and will not let people sneak into him.

Through Meng Xi's memory, Shen Lang quickly learned what he wanted to know.

The specific location of Shibuya, the number structure of barbarian, etc., need not be said, the key is a situation he had guessed before, which is confirmed!

The patriarch of the barbarian, it is indeed a crisis of cultivation!

The patriarch of the barbarian generation is a genius who has broken through to the realm that his predecessors did not reach. Finally, he wants to make a big breakthrough.

Probably because of the excessive absorption of solar energy, and finally can not control, there has been a major crisis.

The way the patriarch thought of the solution was to carry out a neutralization through the Pearl of Hanze, in order to eliminate the crisis.

As for whether it can be done or not, there is actually no experience to follow.

This matter is very important, so the barbarian side, Meng Meng personally came to Hanze, the friendly hope and the Hanze mermaid to trade, whether they are the most important sun beads, or something else, can be traded.

However, on the side of Hanze, he did not give him a good face. The last time was the welcoming of the identity of the welcoming guest, and he was sent away with enthusiasm.

Meng Xi did not have an episode at the time, but after leaving, he began to do more comprehensive homework!

The mutual understanding between different settlements is limited. For example, the Hanze mermaid knows the mask of the king of the sand country, but it is not clear about the pyramid in the sand country.

But the barbarians in Shibuya are different.

They are barbarians, not barbarians. On the contrary, they are very savvy and very good in every respect.

They live in Shibuya, a hot environment. They were originally a strange place in this ancient cold world, and they are also special places.

For other settlements, they are also generally understood, but for Hanze, it is a special concern for generations!

Because of the environment here, the cold waters and the mermaid's exercises are, to a certain extent, restrained by the barbarians.

This is equal to a natural enemy!

Because the two sides are far apart, there is no direct competition. Therefore, the attributes of this natural enemy are not clear, but as a restrained party, the barbarians have to guard against it.

So for thousands of years, they have used a variety of methods to collect a lot of information in a variety of ways, in the case that Hanze may not have found it.

This information is also a defensive reserve information on a daily basis, but this time, Meng Hao decided to attack!

The Hanze mermaids have no interest in the sun beads, and the zephyr beads are their roots, so no matter what exchanges are used, they will not be tempted.

This is understandable. It is Hanze who trades with them, and they will be greeted with politeness.

But now that you need it, you won't be able to manage it.

Because Shen Lang copied his memory, all the thoughts in his heart are clear.

Meng Hao is actually entangled.

His heart is this “Shibuya No. 2 character”, he has always wanted to be the “first person.”

It was impossible to catch up with the patriarch before, which is a limitation of talent. He feels that he has the talent and strength of other patriarchal levels, but he is a genius!

I can only think that if I am strong enough to deal with other patriarchal levels, the status will not be worse than the patriarchal.

After the barbaric patriarch’s crisis of cultivation, he can only support it.

He also thought about this problem at that time. If the patriarch hangs, then he can take over the patriarch!

Even if he does not want to take over as the patriarch, the other successor will come up. His great elder will be the number one of the barbarians in strength and status.

These ideas have been entangled in him, but in the end, the overall situation is heavy!

He feels that even if he is the first, he can only be the first after the family is no longer, and can not lead Shibuya to a higher level.

But now the patriarch can!

Therefore, he is still willing to save the patriarch, which does not affect him to continue to prove himself through strength.

This time, it is the time to do both.

As long as he fights with the mermaid patriarch of Hanze, he can win or level off, forcing the Hanze patriarch to trade the sacred pearl, which can save the patriarch and prove his status.

Therefore, on the one hand, he got some of the patriarch's authority and fully understood the situation of Hanze. On the other hand, he summoned all the elite warriors of the barbarian.

Everyone is fighting for the patriarch, this time is directly prepared to die with the mermaid.

Because of this, if they do not encounter the Shen Lang, they will be a battle with the wind, and then directly into the Hanze, the first to fight with the patriarch!

Through Meng Meng's memory Shen Lang also understands that there are some valuable things in Meng Min's body.

There is the essence of heaven and earth!

The sun beads that Meng Hao brought are two. If you are willing to change one, he will exchange with the sun beads. This is the case when trading with the "Loss of the Kingdom of the Sea".

However, because the sun beads have no effect on the Hanze people, and even the reaction, people will resolutely refuse to accept, so he also made a second-hand preparation.

That is part of the essence of heaven and earth.

The reason is to use the sun beads first, of course, because this is where they can be produced in Shibuya. The essence of this world is the treasures they collect, and it is not a waste of time.

Of course, Meng Hao is also self-aware. He thinks that he can fight with the patriarch of the Hanze people and be able to draw peace. If you want to defeat, chances are still awkward.

So not to grab, but to trade!

Chapter 2428 - Please be the master

With the memory of Meng Xi, Meng Yu's attitude towards him and his attitude towards the mermaid after he disappeared are basically the same as Shen Lang's guess.

Just when Shen Lang arrived, I looked at the basically flat scene here. In fact, Meng Hao still has spare time!

Although Meng Yu guessed that the patriarch of the mermaid should be being healed urgently, the patriarch was the patriarch after all, and he was still worried that he would suddenly come out to attack, so he spared no effort.

This is another reason why Meng Hao can just come out and attack him. Even if the mermaid patriarchs want to stay with him, they may not be able to stay.

After I learned about this, after Shen Lang looked at the scene, it was a bit strange.

Because in the eyes of him, almost all the barbarians have grown almost the same, but now with the memory of Meng Xi, other barbarians, it becomes very clear, who is who, each name, strength Wait, it's all clear.

But once again, looking at the memory of Fengqiu, carefully identify, are these fish people not familiar with it?

Now this is equivalent to watching two groups of people familiar with each other in life and death, still a bit strange.

“Receive it! Dear Lord of the Kingdom of Sand.”

Suddenly a consciousness was transmitted, and Shen Lang immediately locked the other side.

It is windy autumn.

“You can come and go freely to Hanze. It is because I have my memory. I am sorry for everyone. Originally, whether you are the owner of the country of Sha, or the Suigu barbarian, it is our friend to come to Hanze.”

“It really makes Hanze blood flow into the river, so that all mermaid and barbarian are dead, and you have no benefit.”

“You have ruined our ancestor image, attacked our temple, and seriously wounded the patriarchs. We also have many people who have died.”

“The patriarch also compensated the Pearl of Hanze. Isn’t this enough to calm the grievances of your beast?”

“If it’s not enough, then use my life to pay back! Please let go of all the innocent people of Hanze and Barbarian.”

Fengqiu was already full of guilt. The intervention that had just come from the swell of the waves seemed to solve the problem of the barbarian. The mermaids could survive and he was a little gratified.

But now it is still necessary for them to lose both sides and lose the same, and the wind can no longer ask for it, and Feng Qiu asked for it.

He just said this, it is not a big talk. Before he was ashamed and embarrassed, he had the opportunity to die. He still had the feeling of atonement.

Because of his memory, Shen Lang also had a general understanding of him, so he did not interrupt him at this moment, let him send the idea.

Fengqiu still has to fight the barbarian now, and it is a bit hard to send this idea to Shenlang.

Shen Lang is giving him a sentence.

“Let you let me close, do you think I want to let you all die? I just didn’t come, you are already in this state.”

“...”

This sentence, immediately let the wind fall without words.

This is true, because these things have appeared since the beginning of this sand country, so he feels that they are all manipulated by the king of the country, and they can solve these problems.

It can be reasonable. I didn't say it before. It's clear that these people are mermaids and barbarians, and they want to kill each other.

The question of the Lord of the Shah is just that they thought it would be managed, and the result was left unchecked!

"The Lord of Sand Country! I am wrong, not caused by you, but now the strongest here is you, the most distinguished is yours, only you can stop this!"

"I beg you to be the master! For so many lives, everyone has lived in peace for thousands of years and thousands of years. This world is already very dangerous. It is not easy for everyone to live."

He played the emotional card and let Shen Lang laugh and cry.

It's not easy to keep me alive? I am not a god!

However, Shen Lang's thoughts did not stop.

Before the mermaid patriarch was injured multiple times, he was the clearest, naturally he could no longer fight against him.

But now the patriarch, not only the patriarch, but also the ancestor of the gods!

This may have variables!

For example, there are some lost works, or some resources that have been forgotten by future generations. It is not always possible for the patriarch to recover quickly, but if there is any big killer, there will still be a crisis.

Especially the two sides are fighting here, the patriarchs are not coming out, which is not in line with his style!

When the former army of the scarab was used, the ancestor Yuanshen would be willing to give the pearl of Hanze and let Shen Lang close it.

Now that he has not come out, a situation may be a special retreat, isolation of contacts, and not knowing what is happening here.

There is also a possibility that the patriarch has everything in mind, waiting for the last one to kill!

Although Shen Lang does not think he will be pitted, but with this possibility, you still need to be careful.

As for the situation of Hanze and Shibuya, he already understands that now that both sides are the same, he will not get any benefit.

Just letting them continue to fight is to let them consume each other. Now the pleading of Fengqiu should be equal to the mentality of other people. They have reached the point where they can't afford it.

The key is that he is not the owner of the real country of Saudi Arabia. It is meaningless to get the site! Or exchange for some practical benefits.

"I don't want your life, I want to benefit!"

Hearing the swell of the waves, Feng Qiu immediately agreed.

"Good! The patriarch is not there. I immediately persuaded the elders that there is no such thing as the Pearl of Hanze, but we will try our best to get the best things!"

Shen Lang immediately gave Meng Yi an idea.

"It's not a way to go on like this. Give me all the resources you have. I will keep you out."

Meng Yiyi.

He naturally does not believe in Shen Lang. He feels that the shameless owner of the sand country is also trying to get a sneak peek.

But the problem is that the current situation is really not optimistic, it is difficult for him to take everyone out.

More importantly, the Lord of the Sha State is watching it from the side!

Even if you win, can you go, or he is a word.

The conditions have already been opened and he has to agree immediately.

“Thank you for the Lord of the Kingdom of Shah! In addition to the zephyr beads that we need to save our lives, I will be willing to offer everything!”

After getting the promises from both sides, Shen Lang is not afraid that they will not give, direct opening.

“Friends of mermaid and barbarian, you will fight like this, everyone will die, and the result is cheaper! If you don’t want to be the food of my beast and worm army after you lose both, let me stop!”

The words of Shen Lang are not fierce and domineering, but they involve the most core interests – life, more than anything fierce and domineering.

Fengqiu and Mengxi should also have a letter, and everyone soon stopped, but still kept on guard.

Chapter 2429 - Eat 2

Even if Shen Lang did not say it, they are also worried about such a result.

But they have no way. If they don’t attack or defend, they have to be killed by the other side.

Therefore, even if I know the final result, they will be cheaper after being defeated by both of them. They will have to continue on the bar and try to find another way.

Fengqiu's pleading for Shenlang is even the way to think of it. Others have ideas for them, but they have no action.

If this is the case with Shen Lang, they certainly don't dare to stop, because if they stop, they may take the opportunity to die.

However, the mermaid got the hint of the wind autumn, and the barbarian got the hint of Meng Yu, and they all understood that this should be an intention with the owner of the sand country.

Therefore, under such circumstances, everyone stopped at the same time after Shen Lang said that he had "stayed at the hand", but he was still highly alert.

Shen Lang glanced at the audience and immediately let the audience be silent.

Everyone seems to be waiting for his trial. His strength is the strongest. There is no way to do this.

"I will talk about it! You Meng wants to kill me, the wind will want to kill me, other barbarians and mermaids are also the same mind. So, I originally wanted to make you both lose. Even let you all die."

Everyone can only listen silently.

Who makes people a big fist? The sound can only be heard.

And this is the fact that everyone wants to kill him, but there is no way. He wants to kill everyone, and he can see it.

"You want to thank Feng Qiu, he begged for me, willing to sacrifice his life, in exchange for letting me let go. Of course, strictly speaking, I did not do anything, you are going to kill each other, not let me let go. You, I am here to let you stop and save you!"

Shen Lang said this and let them hear it very badly.

I feel that this is a sophistry. It is clearly what you are manipulating. But if you think about it, you can't say it completely. If the Lord of the Kingdom of Sand does not come, they will be the result of both losses.

Therefore, even if they are reluctant in their hearts, they have to admit that it is really a sinking wave to save them.

When Feng Qiu was named by Shen Lang, he did not feel too glorious, but his face was burning.

He still feels ashamed, because he was the one who originally received the Lord of the Kingdom of Sand. If he is well handled, there may not be so many things behind him.

“The mermaid family, no longer obstructing, let the barbarians leave; barbarians, don't try to make any attempt to the mermaid family, now leave Hanze. Are you satisfied with this treatment?”

Shen Lang only stated the arrangement of this mediation, but after he finished, he felt that he felt quite a trial.

Barbarian and mermaid, what else can you say?

Of course, the mermaid wants to kill the barbarians and take back the sacred pearls.

The barbarian also wants to turn the mermaid over and make a bad breath, but now it can't be done.

“The lord of the ruling country, our barbarians have no opinions, so they will withdraw from Hanze, and will not enter Hanze again! I am guilty of blood!”

Meng Hao's public voice immediately supported the proposal of Shen Lang and made a statement.

He was shackled because of his arms, even if he is now forced to stop bleeding, there is still a lot of blood, can be said to swear by blood.

And such a statement is because Meng Yu's mind is meticulous.

The immediate problem is that both sides must eliminate the other side, resulting in a situation that will inevitably result in both losses.

But why is this specific? It is related to many aspects.

For example, one of them is because the barbarian can enter the cold!

For the barbarians, this is a defensive preparation, and it is used today.

For Hanze, this is an aggressive preparation. Will he sneak in and come in again?

At this point, Meng Hao can think that the other party can certainly think of it, so he has to preempt the loophole before the mermaid has been proposed.

He swears by blood and will never step into Hanze again. Hanze can no longer stay with them for this reason.

In the moment just after, the mermaid's key staff only communicated quickly.

Although they have all kinds of unwillingness, but now they are not able to retain the strength of people, even if everyone is not dead, but still have to cover the face of the Lord of Saudi Arabia, what else can be done?

“Since the barbarians have vowed, then we will not be unreasonable, it will give the face of the king of the country. But we are also ugly to say that if the Japanese barbarian dares to commit again, we will not stop!”

Now the opening represents the entire ethnic group. Of course, it is not the autumn, but the most senior elder.

The elder's words are also straightforward. For the swearing of Meng Hao, they will not believe more. After all, it is only a verbal blood swear, there is no binding effect, and he intentionally swears Meng Meng, saying that the barbarians swear.

Now directly mark, give Shenlang face, and if the barbarian dares to commit again, will not stay.

Shen Lang listened to these words without nutrition, but actually did not care, because no matter how word-by-word considerations, nothing more than a scene, then, in the future, who knows.

In the future, it will not be his responsibility. Have you introduced male and female friends, but also to have a son?

Now as long as the matter is solved on the spot, it is to give him face.

The two sides have agreed that they were originally on high alert. At this moment, they are retreating from each other. From the state of the previous melee, they became the confrontation between the two camps.

Meng Hao bowed his head to Shen Lang and now has the result. It is already the best solution he can think of.

Immediately, he sent the essence of the heaven and earth that he carried with him to the front of Shen Lang.

Shen Lang was unceremonious directly received, and then waved, indicating that they can go first.

Looking at this scene, the people of the barbarian also understand that it is not just the elders' low-headed pleading, but it still pays the price of interest!

But what is the solution? Staying in the green hills is not afraid of no firewood, first save and leave to say.

The key members of the mermaid family are also quickly and privately discussed.

Feng Qiu had already said the conditions just now, and said that he replaced the promise and asked the elders to care.

But they are still a bit controversial. I think it is a great humiliation to suppress the mermaid on their own territory.

Now I see Meng Meng who has been smashed with her arms, but she has to bow her head and pay for it. Everyone feels better.

Although the owner of the sand country eats two at a time, it is even more shameless, but for them, the feeling is balanced.

So everyone is still silent, let the barbarians leave, and prepare their own “ransom.”

Chapter 2430 - Really want to help?

Under the leadership of Meng Hao, the barbarian quickly withdrew from Hanze.

The mermaid is far from watching, and there are many unwillingness to endure.

“The Lord of the Sand State, thank you for mediating our grievances. We mainly rely on the water of Hanze, there are no more special products, this is a little bit of our mermaid, I hope you can not mind.”

The elder who just spoke, also sent a little bit of heaven and earth to Shen Lang.

This should be a reference to Meng Hao’s contribution, but the number is much less than that of Meng Hao.

However, Shen Lang can understand, as he said, the whole cold water and environment, for their mermaid family, is a good cultivation aid, but this is of no use to others.

The most precious of them is the Pearl of Hanze, but it is only the patriarch’s custody, and it has already given him three, and it is difficult to squeeze.

The essence of heaven and earth, perhaps there are a few discoveries here, perhaps from other places. The number will be less than that of Meng Hao and it is normal.

Because Meng Yu is specially brought, like the Sun Pearl, it is ready to be traded with the Hanze mermaid.

One is to go out to do big business, the other is to be at home everyday, and the cash is naturally different. Just the wind autumn is also said to try to make up.

“do not mind.”

Shen Lang received it directly, and then looked at the wind.

“Be good, some people are you can’t afford it!”

The wind will feel a lot of pressure at this moment!

This pressure is not given to him by Shen Lang, but other mermaids come over and everyone’s eyes are brought to him!

In the eyes of Shen Lang, he is nothing but awkward. It is very simple to kill, and he will not care about anything.

But other mermaid, will it feel that he has provoked a strong enemy and almost brought disaster to the genocide? After all, this is the \*\*\*\*\* that the patriarchs have to send away!

Feng Qiu still has the responsibility, this time he successfully persuaded Shen Lang, it is completed a redemption.

At this moment, I will stand up and share the pressure with the wind.

“The Wind Club and I are both welcoming guests. We have a lot of responsibilities. We have different positions and different identities. It is inevitable that there will be misunderstandings. We also hope that the owner of the country will be Haihan! You are a big man, and you will have to go through the cold in the future. We are also very welcome.”

He is also worthy of being humble, and the welcoming guest is not only welcoming guests, but also refusing to hackers.

Shen Lang has just been overwhelmed here, and of course it is impossible for people to be respectful to him. Now there is no way.

The words of Fengqiu are also very good. “You are a big man.” If you say this, it will make people feel bad about them.

Let’s talk about passing in the future, and it will be reminded in disguise – you can leave the big man!

When Shen Lang re-entered this time, it came for the sake of profit, and did not want to tell them anything.

Although they originally wanted to let them lose both hands and lose their hands, but now they can let both sides take the initiative to offer treasure, the purpose is also successfully achieved, and he did not continue to think here.

“I am coming in again this time, I am afraid that you will be bullied by barbarians...”

The opening remarks of Shen Lang immediately made people feel secret in their hearts: Hey! Not being bullied by you is not bad!

“Since the barbarian has already driven you away, I can also retire.”

Whether they are elders or Fengqiu, they have not spoken, and their faces are obviously expected.

For those who drive away the barbarian, now you only need to go quickly!

Fengqiu does not dare to politely set the guest, if the guest sets the other side, he will take the opportunity to stay?

Shen Lang saw that they were waiting for him to leave, deliberately not saying goodbye, but turned a topic.

“What about your patriarch? Is there anything wrong with him? Would you like me to treat him?”

The faces of the fishermen have become ugly.

really! The owner of this sand country will not be willing to give up, still looking for an excuse to stay.

“Thank you for the concern of the Lord of the Shah, our patriarch is very good.” Fengqiu can only reluctantly deal with it.

“I really don’t need me to help him? If he has any problems, you may not be able to help.”

For their intolerance, Shen Lang did not know, but also sneered.

“Our patriarch really doesn’t need help...”

Fengqiu can only answer with a hard scalp, and the tone is harder.

Because he began to doubt the intentions of Shen Lang!

He knows very well that in the eyes of the Lord of the Shah, these mermaids and barbarians are nothing, so he will ask for the waves.

The patriarch is very likely to be the target!

The patriarch is healing, and if he is disturbed, the consequences are unimaginable!

The situation here has been a crisis, the patriarchs have not appeared, and the situation is not good. If the main opportunity of the country is bad for the patriarchs...

If this is the case, then they must be protected if they fight hard!

“Do you really want to help?”

Suddenly, a voice came from the waters of Hanze!

It seems to be integrated with all the water, and it is difficult to tell where it came from. But this voice, everyone is familiar, is the patriarch!

When the patriarch spoke, all mermaid families were inspired.

The patriarchs are their patrons, the backbone of the heart, and the patriarchs, even if they can't beat them, they won't collapse.

Now the patriarch is open, and even if it is injured, it will increase their confidence.

However, this is just an ordinary mermaid, and Fengqiu is secretly worried.

The patriarch was seriously injured, just like the barbarian, and did not participate in anything, it shows that healing is not easy.

It will open now, no doubt because the Lord of the Kingdom of Sha is too strong, and the patriarch must come out.

But even if there is no trace, the gaze of Shen Lang is still accurately pointing in one direction!

Suddenly, the calm water surface broke through a crack, and the water was separated directly on both sides. Then a figure came quickly from the water.

It is the patriarch of the mermaid.

But at a moment, the patriarch had already come to the scene and stopped at the surface of the water watching the waves.

Shen Lang has always been concerned, he has just had two discoveries.

One discovery is through the eyes of the patriarch, who can confirm that this is still not the original patriarch, but the ancestor of the ancestor.

This is also normal. The ancestor Yuanshen now has no statue of a stranger. It is not so easy to reshape it. In a short time, it will not find another suitable body. It will continue to be in the body of the patriarch.

Also found that its wound seems to have completely healed!

The patriarchs were also covered by scales. Shen Lang was concerned about the wound that was pierced by the gold dagger between his waist.

Now I don't know how the intestines that have been twisted by the gold dagger are like, but the wound that the dagger broke into and flew out has no trace and seems to have completely healed!
