

First Strong 245

Chapter 245 - Salvation, rapid progress

Desolation, don't say that Chu Yunfei, who enjoys the ice fire next to him, is hard to believe, and Shen Lang also feels unimaginable.

The people who went to the Chu family, even if they were not Chu Yunfei, must be self-cultivators. After all, they killed the two comprehensions of Yue Baichuan and Yue Bailun.

And Mo Qi, even if Shen Lang helped him improve, remember that it is also the seven-segment of the extraordinary warrior, not a level at all, how can I save two people from the hands of the comprehension?

Desolation is a retelling of Mo Qi's words.

When Mo Qi went to the factory, Shennan and his wife thought that he was arranged to look at the rain, and he was very respectful to him. He also paid much attention to his opinions.

But Mo Qi knows his identity, just to protect them, so he never participates in anything in the factory, all the time, is used for protection.

After his arrival, the township and village enterprises that had not been monitored were all arranged for monitoring; all the safety aspects of machines and wires were well supervised.

This fell in the eyes of the Shennan couple, and they felt that it was a big family. They paid great attention to safety awareness, not just the benefits.

In addition to internal security issues, Mo Qi also took the external situation to the bottom. Such as the surrounding shop neighbors, competitors and so on.

Some town cadres couldn't hold back the shackles, and they wanted to extort the factory, and they were also smothered by him.

In short, his time is used to protect the Shennan couple, followed by the protection of the factory. When he was familiar with his outsiders, he came to a few other foreigners one day, and of course he immediately attracted his attention.

As he carefully followed and eavesdropped, he found that their goal was to build a factory in Shenlang. It seemed that they wanted to create a fire, and the key point to be confirmed was that Shennan Han Fengying and his wife had to burn!

This discovery scared Mo Qi, and he realized that Shen Lang had a foresight and knew that someone was going to do something.

But what makes him very depressed is that a few people who come are all self-cultivators! It is not what he can beat at all!

The reason why he did not find it, on the one hand, he was careful to cover up very well, and those who thought he was a native. On the other hand, because he is not a self-cultivator, he treats him as an ordinary person.

After discovering this, Mo Qi tried to contact Shen Lang, but if he could not communicate, he could only rely on himself.

Since the other party is going to engage in a fire, it will definitely be done!

If the other party wants to kill the Shennan couple, they will definitely reach it!

Burning is not dead, there will be other accidents such as car crashes!

Based on these two points, he only has two roads, one road is not protected, and he ran. The other one is to let the other party think that success has killed!

The other party's plan was to be carried out during the night shift, and Mo Qi had a little time to arrange.

If a fire breaks out, it is not enough to replace them with workers, so that the other two are less. It is also impossible for him to kill two people instead and kill others. Some people will also be missing.

In the absence of a solution, he hit the target to the morgue of the hospital!

That night, two bodies of men and women were stolen, and the face was burned in advance. When the fire broke out, the Shennan couple was stunned and their clothes were changed to the body.

Taking advantage of the chaos of fire and smoke, Mo Qi deliberately shouted that the boss and his wife were still fighting inside, and gave a concept to everyone including these people – the Shennan couple did not escape!

And he himself was careful to transfer the two people away.

Of course, I dare not send people home, and not to mention those people, the police will look for the past.

The result was to hide the two people in the place where he rented. After he came, although he was only a person, in order to live conveniently, like Shenlang in the county, he lived a self-built house.

The fire that night was too big, and dozens of deaths and injuries. He could only rescue the Shennan couple. Others have no choice.

Many people were sent to the hospital without being rescued and sent to the morgue. Because the matter is too big, and it is the hottest time in July, it is even worse. So when the cadres mediate and pay compensation in the Yue family, everyone agrees to a unified arrangement of cremation.

It was because of the relationship between so many corpses that the hospital had stolen two bodies and was not found.

Perhaps the relevant personnel of the hospital were discovered, but they were afraid of taking responsibility, so they took advantage of this time and angered.

In the days that followed, the Shennan couple were hiding in Moqi, where they were brought back and eaten, and they stole back to help them pack some clothes.

At this time, in order to allow them to follow the arrangements, Mo Qi also revealed a bit of Shen Lang's identity, and these people are asking for their lives, or want to fight against the waves.

The Shennan couple was originally a factory in the heart of the heart. For so many people being hurt, it was also a tearful guilt. But in the end I heard that they would use them to fight against the waves, or they couldn't help but go out.

After encountering the stagnation, Desolation suggested that they should be transferred overseas, and they were immediately recognized by Mo Qi. He is also afraid that one day he will not be able to go down. As long as they show up, it will be a big storm in the local area, and these enemies will also receive the wind.

This time, I did not pass the Yue family, but used the relationship of Zheng Jia. I have already paid a lot of money to help them get a fake passport and get abroad.

After this incident, Desolation took a more active initiative, rather than hiding behind it, to avoid Zheng Yumeng's inexplicable and doubtful presence in front of Zheng Yuqing.

->>, the fastest update to the latest chapter of the first strong!

In other words, the owner of the body becomes her, she is playing Zheng Yumeng, and Zheng Yumeng's consciousness is hidden.

More than a year has passed, and both of them are crazy cultivation.

On that day, Shen Lang came out from the transmission array, and the first one was found in the bleak.

This made her very excited, and Shen Lang did not die, and she really came back!

She bought the ticket back in the first place, and then went straight to C County, Pingxi City.

Mo Qi was still there waiting for Shen Lang to come back. After seeing her, she was very excited to learn that Shen Lang might be coming back, but Mo Qi said that Shen Lang did not return.

Desolation estimates that Shen Lang may be looking for a revenge for the Chu family! However, his mobile phone may not be available anymore, so he did not contact him and went directly to Yunzhou.

She also confessed that Mo Qi continued to guard, and once Shen Lang appeared, be sure to let him contact her.

Because she was trying to get the plane, the next day when the sun was still in the taxi, she went to Li County to see Mo Qi. When Shen Lang returned to Pingxi, she had already arrived in Yunzhou.

Yesterday, when Shen Lang shot in Tian Luning in Yunzhou, Desolation began to work on the children of the Chu family outside.

On the one hand, she wants to attract Shen Lang to find her. On the other hand, she also attracts firepower for Shen Lang and avoids Chu's attack on him.

Unexpectedly, Shen Lang was acting in secret, her shot, but the Chu family was wary in advance.

Today, after killing the manager Chu Huanrui, she did not leave, and wanted to see the reaction of the Chu family. The result was that the three people came over.

She did not find the sinking waves, nor did she follow up like Shen Lang. It was after a while to come in. So what I saw was that Shen Lang had already killed Chu Yuncheng and Chu Yuntian, and was about to kill Chu Yunfei.

She saw the captain who was not stunned outside, and heard the words of Chu Yunfei. It was confirmed that it was a deep wave, and the excitement came straight out.

After listening to the cause and effect, Shen Lang was a long breath, finally settled down and determined that his parents were safe.

And Chu Yunfei is unable to support, the body is already on the verge of collapse, the stimulation of revenge supports his spiritual strength, but listening to the bleak, it is not like casually written, which shows that there is no harm. To the sea!

“he died.”

Looked at the bleak.

Shen Lang nodded: “Desolation, thank you! Your great grace, I will remember. Now lift the previous contract...”

“Wait a minute!” Desolation stopped him: “First of all, it is Mo Qi who saved people. I just took care of it. Secondly, you saved me and warmed me with the gods. I should be reconciled. And...”

Shen Lang thinks that what she said makes sense. This time, Da En is Mo Qi! I really should thank you very much. I didn’t expect a chess piece arranged at the beginning to play such a big role.

“What else?”

“I am helping to take care of it, but I also violated your arrangement. Basically, it is equivalent to replacing Zheng Yumeng... This is me wrong.”

Shen Lang thought for a moment. “You are also a cheaper one. If it is Zheng Yumeng, her decision is definitely far behind you. Some of them will be missed. I can understand that you are not trying to replace it maliciously. This is enough. “”

“Thank you for your understanding.”

“Leave it here and talk about it!”

The Shenlang gods took a look at it, and the workers were on holiday, leaving the captain and the security guards. He immediately released a flame and ignited the entire factory!

Then he left the factory with the desolation, and the security guards had enough time to save the team captain, but there was no way for the body inside, and the factory had no way.

Shen Lang arrived today. Desolation arrived yesterday and stayed at the hotel.

After they came out, they rushed to the hotel where they were staying.

It's easy to talk when you arrive in the room.

Shen Lang looked at her: "You...who...what strength is it now? How do I feel that the progress is very big."

Desolation and truthful telling: "With the current classification, it should be until the end of the virtual world."

Shen Lang was speechless for a while.

The speed of his progress has already been regarded as the speed of the rocket. I did not expect them to be better than ever!

Before they left, they went to but they just adjusted Zheng Yumeng's body and raised it to the beginning of Yuanyuan.

This is only a year and a half, returning to the middle, late, and peak of the Yuan Dynasty, and then to the early, middle, and late stages of the virtual world... This is a breakthrough in six realms!

On average, it breaks through a realm in three months!

"The master has adjusted the body well, taught well, and the resources are good. Plus we are two people working hard at the same time, this speed is normal." Desolation is not arrogant.

In the end, she has seen the big world, and she is completely reasonable. This is the body of a pure woman who is hard to come by. After Shen Lang has reconciled her for her work, she has also helped to improve to the Yuanyuan, and then it will be a thousand miles.

Liuyang has no merits and is also a pure Yang method for this body. Desolation is the soul of Jianxian. At the beginning, it also gave a lot of Lingshi, plus the resources of Zheng family. The same-person fellow initiates are more than twice as fast as others.

“With this strength, you can leave it for me.” Shen Lang nodded gratifiedly, but also in the late stage of the virtual world, self-protection is no problem.
