

## First Strong 249

### Chapter 249 - The oriole is behind

“It’s not a mistake to be beautiful! When you see someone beautiful, you use power and means to possess it. This is Tian Jingwen’s fault. Shen Lang has no shackles and a small punishment. The Chu family has no reason to intervene, and Shen Lang still has room for it! The Chu River is going to kill me directly.”

The calm and calm answer, unconditional help for Shen Lang is one thing, and the source of traceability is originally the problem of Chu.

“Who is right or wrong with you?” The Chu family was disdainful and sneer: “What I want to say is that you have to catch up with the water and you should chase you overseas to get rid of you!”

“You remind me, should we squander the children of the Chu family?”

The bleak and cold questioned, she is not Zheng Yumeng who has never seen the big winds and waves, killing a few people in Zheng family, that is, a number!

“You won’t have a chance!” Chu family said coldly: “You can rest assured that it will not make you die so easily. People who have been killed by you, they are family members, will take your meat in one bite.” Bite down!”

“Just by you?” looked at him with contempt and contempt.

The Chu family is very upset, because according to their predictions, the enemy may still be in the early days of the virtual world. He is still in the middle of the virtual world. According to the statement, it should be sure.

But now a young girl like “Zheng Yumeng” is so despised by him, and it is not pretending to be a real-looking gesture, which makes him very uncomfortable.

“I am not enough, isn’t it?” he said, clapping his hands.

The young man who just opened the door yelled at the outside: "Do it!"

After the coolness came back, the other doors were already open, and now, as soon as the command was heard, a large number of quickly opened the door, followed by fast footsteps.

For a moment, there were more than a dozen people at the door, and the weapons in each hand!

They don't know whether they are well-trained or rehearsed in advance. After rushing in, the station is very particular, some are attached to the wall, some are in the middle, the front row is under the armpit, and the middle half is squatting.

In this way, the guns of more than a dozen guns were not obstructed by their own people, aiming at the bleak back from different angles.

In addition, it is also available at the door and corridor.

"This lineup, catching you a little girl, is also a lucky life for you." Chu family said coldly.

In fact, he still wants to do it himself, but in order to prevent it, or obey the arrangement, directly suppress Zheng Yumeng with great firepower.

"I was a little disappointed, Chu family came to you one." Shake shook his head.

"If you don't have a hand, you will be sifted into a sieve!" The Chu family raised his arm: "Of course, in order to keep you a dog, I won't really cut you into a sieve. Their marksmanship is very accurate. Will crush your hands and feet, but will not accidentally hurt you!"

All the gunmen are superb warriors. Even if they are aiming at powerful comprehensions, they are not shaking at all. The muzzle has a target. The insurance has already been opened. When the gun.

At this time, the floor-to-ceiling glass behind the Chu family had a harsh sound, completely broken!

The process of fragmentation is like an explosion shock wave, and all the fragments are flying inside!

The Chu family is the first to bear the brunt, but he is facing away.

The gunmen were facing, and their eyes just looked at them, and they saw countless pieces of glass \*\*\*\*\* flying over. Everyone instinctively raised their hands to protect their faces. If the eyes were shot, it would be embarrassing!

Desolation was prepared, and a protection had been formed in front of her. At the same time, her hand shook and slipped a chopstick from inside the sleeve!

—>>, the fastest update to the latest chapter of the first strong!

After the chopsticks started, they immediately became a sword and stabbed the people in front of the Chu family!

The Chu family was just taken aback. I didn't expect that there would be an attack in the back. It was screaming bad. In front of the window, he became an enemy of the back, and the result was already attacked.

Although this seems to be just a chopstick, the speed of the stab is very fast, and there are countless changes hidden, as if he is dodging or defending, the chopsticks can immediately stab him from different directions!

His only way is to back off.

But behind it is the floor-to-ceiling glass window that has been broken. Below is a window of more than ten floors!

“shot—!”

He could only face the scalp and display the Chuan's Tenglong technique while making an order.

At this time, a strong attraction came from behind, and he sucked him out of the window and fell directly to the ground!

The bleak body has followed, and flew out of the window. The chopsticks in his hand went from top to bottom, and in the air, he cut into the back of his neck like a tofu, and pierced his throat directly!

The gunmen inside and outside the room just heard the “shooting” order, they were about to shoot, but they found that the target had disappeared!

At this time, a harsh voice came. Immediately let them hug their heads and then stunned.

“Lion 吼! Through such a wide distance, it can be directed to not hurt others, and it is absolutely impossible to practice the sound wave method to your degree.”

Someone screamed at the top of the building opposite the hotel.

Shen Lang came back with Desolation. When he went downstairs, he had already sensed the situation with his knowledge.

When letting a person drop in, he first touched a passerby’s mobile phone, called an alarm phone, and directly explained the hotel and the floor. There were a number of strong firepower on the report.

Then he came to the opposite side of the building.

He has been to the room and can lock the room accurately. He is on the opposite side, and he also sees the situation inside the room.

Their plans will be counted, that is, they should be combined with each other, and the Chu family who have come to grasp “Zheng Yumeng” will be killed.

As a result, Chu had only one, and the other was a group of gunmen.

Attacking the glass and taking the Chu family out of the air, it is the shot of Shen Lang on the top of the building.

Although the strength of the desolation is strong enough, the combat experience is also rich, but like himself, the last life has not experienced the gun heat weapon afraid of the stagnation has been neglected.

After the Chu family fell out, Shen Lang did not care, I believe that the desolation can be successful. But for dozens of gunmen who added up in the house and the corridor, they used a “lion lion” sound wave method to directly stun them all.

The Sonic method is an indiscriminate attack that spreads from the center of the human body. The front is subject to the greatest impact, but Shen Lang has just compressed the sonic attack all in one range, only attacking the inside and outside of the opposite room.

It is hard to add to the level of sound wave exercises.

The reason why Shen Lang can do this is because he practiced in the dead forest. If the normal spread of the four sides, who knows will not be alarmed by any powerful beast! So from the beginning, he chose a difficult orientation.

“I said that the Chu family came to one, and it was ambushing outside.”

Hearing the sound behind, Shen Lang did not look back.

“Will your self-investment nets be counted? We must be prepared fortunately! After the squid, the oriole is behind, we are the hunters aiming at Huang Quan!”
