

First Strong 2491

Chapter 2491 - Group of strange dragons

Those little green monsters don't know how to do it. They can find a breakthrough in the gap of the dragon scale. From the very beginning, they madly smashed. Although there is no new influx, the rest has already gone inside. The deeper.

When the old dragons can't shake them to the inside, and they can't crush them with mental power, they can only look for help.

When the help is not found, it is the feeling of being eaten by the big and big pieces!

When you have eaten the fleshy muscles, then all the internal organs are inside.

When you feel that you are in danger, you can't find a partner, and you can't do it, you can only use the last way to save your life!

It puts the spirit of the spirit into the inner dragon. Prepare to escape, when there are any beasts, races want to swallow Dragon Ball, it takes the opportunity to occupy the body, even if it can not be re-for the Dragon, can also be reborn.

Later, it discovered a problem. These green monsters smashed everything that they could sneak, but some of them couldn't be ruined, but they ignored it.

In fact, there are only a few, such as dragon scales.

They are invaded from the gap, and they quickly bite and bite. The dragon scales are pieces of falling off, and scattered throughout the forest as it flees.

There are dragon teeth and keels.

Probably this is a meat-free thing, and all other foods can be eaten.

So it finally changed the way to transfer the Dragon Ball to the head in advance and sealed it into the skull.

In the end, it is like watching the fire on the other side of the bank, watching yourself being squandered!

The little green monsters, after they had finished licking them, the body swelled a lot, and then they all left, and it was estimated that they had returned to the ridiculous land.

Although the old dragon has been ruined, but still relying on the Dragon Ball, relying on the spirit of the spirit is still still alive.

It is precisely because this power is still there, there are some beasts and the like who want to come and lick the keel, they are still afraid, not afraid to approach.

I used a lot of time that I didn't know how long, and finally I refining myself into a form of scorpion, manipulating a dead bone.

In this form, it also knows that its strength is very weak. It is estimated that it is more difficult to rely on its own ability to pass the absurd land.

It can shock the vicious beast, but it is only a low-level beast nearby, but if you want to go far, there are some powerful beasts, races, and dare not provoke it before, now I am happy to regard it as a prey!

Its biggest expectation is to wait for another partner.

If a dragon's partner passes, it must be safe. When it comes to the ridiculous land, you don't need to be afraid of those little green monsters. You can directly rush to the fountain of eternal life!

At that time, perhaps with the help of the resurrection of the Fountain of Eternal Life, it can grow again.

It is this belief that makes it not collapse and chooses to stay here to wait.

I don't know how many thousands of years!

Later, it began to realize that the partner of his own is also the same fate. Or find the fountain of eternal life in another place, always the chance to reunite is getting smaller and smaller.

Its waiting is just a obsession.

And as time goes by, some low-level beasts nearby will not be able to keep up, or if you don't know the depths, or the alien races, you will want to move it.

The result is that it devours those creatures and becomes a supplement.

Later, when I was a little tired, I hid myself and pretended to be a mountain. In this case, it was getting harder and harder to find it. It was too long, it was full of vegetation, and there was no breath of life. It seems to have become a mountain.

The general food, it is not in the eyes, only the higher quality, will be swallowed up.

It's been a long time since the waves have passed, and they have waited until the arrival of Shen Lang.

Because of its camouflage state, coupled with the particularity of this forest, it is not early to find them.

It was until Shen Lang that the three of them entered the space where their claws were closed, and this was felt.

I found out that this is almost a high-quality food that I have never encountered before. It instinctively wants to swallow it, so that a tonic can make it last a long time.

Later I found that I kicked the iron plate.

After understanding this, Shen Lang is also very speechless.

This guy is really unlucky and has been messed up by a small group of people who don't know anything!

This is definitely not a question of ability. In addition to the arrogant and light enemy of the dragon, there is still a shortage of on-the-spot experience. In the end, it is not easy to survive in a decisive way.

Shen Lang also learned another layer: the inner dragon of this dragon is still in the dragon, the spirit is hidden in it, and sealed inside the skull.

But now it's a little bit regrettable. People have already returned. They are the masters, they have sacrificed their souls, and they have to break the skull and take the dragon beads. It is too insignificant.

The two conditions before the old dragon, in fact, the biggest goal is to restore the dragon body. If you want to leave, it still has a lot of confidence. Just take them to the edge and leave the confused forest and go out.

But if there is no way for Shen Lang to restore it to the dragon's body, then it must go to the ridiculous land to see if the fountain of eternal life can be miraculous, and then it is very dangerous.

Now that I understand all of this, Shen Lang naturally has another idea.

He came to the magic forest this day because of the obsession of Meng Jin. Meng Meng's yearning for Tianmo Lin is also limited to legends. The information he collected, more is based on rumors, hearsay, and not enough like the confused forest in that area, it is Meng know nothing, or they do not need to explore too much.

But now it is different. The fountain of eternal life is something that even the devils are bound to gain. Even if it is legendary, it is worth exploring.

The magic dragon can see the spring of eternal life. This day, the magic forest can breed such a thing. The territory is so big, and few people can dig it. There must be more and more good things.

Whether the Fountain of Eternal Life is in that ridiculous land is a very important clue. There are so many places where the guardians are guarding, there must be a place with heavy treasures!

Of course, they are not out of justice, nor are they natural guardians. They are desperately guarding a place, naturally for exclusive enjoyment, and not letting outsiders get touched!

Even the dragons came, they could kill each other regardless of their lives, and they squandered the dragons, and they were not afraid of revenge. It shows how important it is to the green monsters.

Inside the old dragon memory, there is a limit on the Tianmo Lin, but it is a specific one, you can go directly!

Chapter 2492 - Best defense

Shen Lang merged the memory, and passed the relevant part over and became the memory he owned, and then sent this paragraph to the cold autumn and the dog god.

They are partners together, not to mention the cold autumn, it is the dog god, but also has many times of life and death, is a partner who can be life-related.

It was just that they were able to conquer the dragons and demon, and they also helped them to help.

So sharing this information with them is not a generous thing, which is a matter of course.

This is the situation in the Demon Dragon. They are all seen and can be imagined. For a long time, it must have suffered a big loss.

However, because it is known in advance that it is called Tianmo Lin, it is said that there is a demon inhabited, and the natural association is that the devil is doing, and they all want to see what kind of demon is.

Gao Hanqiu also saw the extraterrestrial demon outside the Tianshan Mountains. He also thought that it was a kind of thing.

It turned out that the demon dragon, turned out to be smashed by a group of small monsters, is also stunned.

Of course, those green monsters are relative to the body of the dragon. According to the Terran, it should be the same as a relatively small human.

So there are actually not thousands of them, but in the impression of the dragon, all the corners are covered with these weird little monsters, and it feels much more.

For this little green monster, Gao Hanqiu has never seen it. There is no such thing in the world of giant beasts where dog gods live.

So after the surprise, they are also highly valued.

If you want to go to this place and look for the fountain of eternal life, you may have to pass the level of these little monsters.

And these little monsters, even the dragons can kill, it is not easy!

What I feel from that long memory is that they are not afraid of death, and then their ability and speed are very amazing.

But in fact being able to get close to the dragons is already very difficult!

Even if the old dragon was arrogant and underestimated, there was no manipulation of the realm of God, but its own protective ability is still there, let alone the dragon scale defense that is proud of everything.

It can also be penetrated by people, and it can be smashed by people. Its bodyguard Longwei has no effect, and dragon attack, mental attack and so on have not worked.

It can be seen that these little monsters are amazingly fast and powerful, and the defense and blasting power are also extraordinary.

The Dragons are still like this, and humans who have not been able to protect themselves from the skin of the skin are even more dangerous.

When dozens of hundreds of piles come over, you can't kill them, kill them, and for a few more seconds, you might get rid of the big flesh.

The same is true for dog gods. It is thick and sturdy, and its defensive ability is very amazing. The only thing that has made it fear so far is the invasion of poisonous grass. Now it has been refining and refining it.

But it asks the skin of the behemoth that it cannot compare with the dragon scale of the dragon.

And if it comes out, the huge body is a huge goal, it will make more green monsters hang up, which may be even more dangerous.

However, they all looked at Shen Lang. If Shen Lang said to start, they did not have two words. If Shen Lang feels that the risk is too great, they will agree with another plan.

Just from now on, I met this scorpion dragon, did not encounter other good things, it is really a biggest goal.

“Old dragon, how can you shrink your body now?”

Shen Lang suddenly asked.

Upon hearing this, both the dog **** and Gao Hanqiu knew that he was ready to leave, and he was ready.

“Why do you want to shrink?” The dragon is a bit puzzled.

The body of the dragons is originally a place where they are proud of themselves. The dragons in the world are arrogant and arrogant, narrowing down and not being mistaken for lizards and the like?

“Well! Then you are riding, everyone is sitting on your back, you just take the road, go to the ridiculous land. Pay attention not so fast, don’t push us!”

Shen Lang waved his hand and gestured to the old dragon. Everyone put it on his back.

It is said that it is on the back, in fact, it is above the spine, there is no back of the fleshy scales. However, its bones are big enough to sit up without any problems.

After listening to the dragon, it was very speechless.

Didn’t you say that you are a good partner?

Doesn’t it mean that you will respect it?

I don’t want to be a slave to me, it’s a mount, and even a slave is not as good!

However, Shen Lang is so open, and it is not only his personal sitting, but also everyone, this makes the old dragon think more.

It feels that the owner of a bloody, close relative should be deliberate!

In this way, to discard the scruples and taboos of the Alpine Qiu people!

Only if they are allowed to receive it will not reject it and will not find a way to harm it. When necessary, it can be saved.

Shen Lang, this is not to be a guest, let it be the mount of everyone, in order to bring it closer to everyone.

This shows that the owner is really taking it as his own person!

With such a thought, it does not have any resentment, honesty, so that Shen Lang and Gao Hanqiu, the dog **** that has been reduced, has reached its back.

Then it began to recognize the direction, and finally left here for many years, and thought about searching for the direction of the ridiculous land.

At the beginning of its heyday, it was so miserable by so many green monsters. Can you have a chance to avenge this time?

Things don't know how long it has been in the past. The little green monsters that had smashed it in the first place must have died. What is the ridiculous land now?

In the past years of its crouching, are there other races looking for it? What about the dragon's partners?

These problems It feels that it has already been put down, and now it is starting again, but it is all in my heart.

When the old dragon feels guilty, Shen Lang communicates with the dog ***** and the cold autumn consciousness.

Although it is a matter of a long time, a place where a race occupies an advantage is often difficult to be shaken. For example, the red porpoise outside the burial dragon valley is the same, this is especially true in the ancient cold world, and the settlements have remained unchanged for thousands of years.

There are few people in Tianmolin who dare to come in and sway, and the ethnic groups of green monsters may live more stable.

The words of everyone in the past must first be a hard battle. The dragons still have such an end, they must be uplifted, and it is best to discuss the good plan first.

In this regard, the recommendations of the dog ***** and Gao Hanqiu are the same, and there is attack on the other side!

The old dragon is arrogant and underestimated, not in the heart, when it is time to pay attention, it is too late. Now that you know the result, you won't be able to wait until they are crazy.

Attack as soon as you see it, kill them, it is the best defense!

Chapter 2493 - Accident

The old dragon is now awkward, and there is no domineering power of the original dragon, and dare not rushed.

Now the visibility of the fog has been shortened a lot. It has no visible view, and the range that can be sensed is also a few hundred meters away.

At the beginning, they were rampant, and they were not afraid of encountering any powerful races. Later, they were taboo.

There are now a few of them walking in the waves, so that it has more confidence. Although I once again travel to the ridiculous land, I still have to face countless green monsters.

But now it has no flesh and blood to smash, no need to be jealous, afraid of the road to meet other strong.

This piece can have a wave of them to deal with, but the nest does not know how many years of habits, or let it be careful.

Of course, this is only relative. It depends on the standards of the beasts and human beings. It is still rampant in this forest. Many trees are broken when they move.

The weak races are even far from being sensed, and they will tremble and rush to escape.

It's a lot of sorrow for the three of them. Although it is still necessary to pay attention to the surrounding environment, so as to avoid any danger.

But now it is riding a dragon!

The feeling of light is very cool, and obviously it is more powerful than the way you are on the road. The risk factor from other races will be greatly reduced.

After all, adding a dog to two humans, even if it is a beast, will make people feel awkward. But if you ride a dragon, it will be daunting.

For the dog god, it is psychologically more cool.

Originally, when riding, it was a heart-wrenching, and there was no opinion in the cold autumn. But now that there is a new entrant, it can enjoy the camel.

As a beast, Shen Lang did not let it run with the dragon, but let it sit up, just like it is like the cold autumn, it is the same respect.

So under the shackles of the scorpion dragon, he walked a few hundred miles.

After a long walk, Shen Lang asked the dragon to slow down a bit.

Because the fog is still in the state of enrichment, the range sensed is still slowly contracting.

When they were three, the radius was 500 meters, or two hundred meters. Although it is difficult to calculate the safety distance, there is still a little buffer. Now riding the huge dragon body of the dragon, it is a bright and big target.

This is a dragon that can be conquered by reason and other means. Shen Lang does not want to use the previous point and is thrown away.

If the dragon can fight against the strong enemy, if they can't fight it, then they must participate. That is not a big deal, it is a partner of the same industry.

But if there is any special creature, directly defeat the dragon, and dig the dragon ball in the skull? Then make a wedding dress for others.

They are at the spine of the dragon, at least tens of meters from the skull. This safety should be considered.

Besides, from the foggy state, it should be closer and closer to the core area, and there are likely to be other situations.

“It seems like a bit of a situation in the front. Wait a minute, I will look at it!”

This is a close move, only to see a hill in front, like a dead volcano, but only recently found that the scale is extremely small.

Shen Lang will make such an arrangement because the movement of the dragon is too big, and it has not yet approached. Others will first discover it. If it is set up, what should be escaped, it can be done first.

He alone is much more flexible, even if the other party can sense the approximate range, then the dragon will attract attention and will not pay attention to him.

This is equivalent to directly giving orders to the old dragon, and the old dragon can only stop immediately.

Gao Hanqiu and the dog god, of course, are interested in letting them run this leg. But since Shen Lang has already gone first, he will wait patiently.

This is a test of information, no need for more people, more and more easy to expose, but not beautiful. Only when you wait for the front to fight, you need to be together.

After Shen Lang came down from the dragon's spine, there was no direct heading, but the road to the side of the road.

This is not safe at close range, at least in the range that everyone can take care of, so he can be very fast, with the magic of the “Phantom Meteor Step”, almost flashing a few times, it has been sideways around the dead volcano heap .

When I got close, I found a situation. The volcano was much larger than I expected. He accelerated several rounds before he reached the top.

There are two vigilant eyes staring at Shen Lang in the past.

Obviously, the other party also felt his movements, just because he did not stop to observe, directly came over. Therefore, the other party has just made a precaution, and has not had time to figure out his situation.

At this moment, it is the two sides are wrong!

“It’s you?!”

The two sides can’t help but be surprised at the same time.

Shen Lang was really surprised. I didn’t expect to meet Meng Jin here!

Of course, Meng Jin did not expect to encounter a deep wave here!

Because of the memory of Meng Jin, another person who is together with Meng Jin is also looking at it and knowing about it.

It was also a barbarian. It was only a long time ago that I went out to travel in the clouds and rarely stayed in Shibuya.

This person is called Fu Wei. From the identity point of view, it should be regarded as the elders of the previous generation. In recent years, Shibuya’s news about the outside world, especially Meng and Jin’s information about Tianmo Lin, comes from him.

Fu Wei resigned as an elder, and can go out without any restrictions, and do not have to come back regularly. Therefore, in the memory of Meng Xi, Meng Jin, he did not appear in the identity of today’s elders, nor in a very important position.

Now I see Fu Xi, Lenovo’s many information about Meng Lin today comes from him, opponents they can appear here is not so strange.

Even if you pay attention to the situation of the two of them, how is Meng Jin’s body? What kind of strength does Fuxi have?

Meng Jin is also very suspicious. His surprise and doubt have two points.

The first one is the identity of Shen Lang.

The Shen Lang that he saw before was wearing a golden mask, so he recognized the owner of the sand country, but now Shen Lang did not wear a golden mask, he saw the true content.

It's just that they are people at this level. Of course, they don't need to rely solely on the face to identify them. Clothes, body shape, demeanor, temperament, breath, etc. are all part of the composition and can be comprehensively identified.

He was surprised that the Lord of the Sand State turned out to be such a young look!

The second is why Shen Lang is here.

This day, the magic forest everyone is forbidden to go, the time is counted, the Lord of the sand country is leaving from Shibuya, came here, what else can it be? Is it not the information from his memory?

Chapter 2494 - Barbarian wants revenge

Both sides were mistaken and blurted out because of surprise. Then they pondered each other and thought of the deeper factors.

So when the two sides looked at each other again, their eyes became complicated.

In addition to looking at the strength of both of them, Shen Lang has another problem, that is, how did they come to the front?

According to the memory of Meng Jin, he is going to complete that wave of breakthroughs and reach the realm that the former patriarchs did not reach.

When he met that day, he was still in a state of weakness. He did not even dare to fight against the waves.

Can come to Tianmo Lin, in addition to the factors of Fu Yu, it must have absorbed the beads of Hanze, so that his problems have been solved, even after the integration reached a new height!

From the current situation, this point is also confirmed.

That is related to the time problem. Meng and Jin combine with the Pearl of Hanze. Normally it may take a long time. Even if it is very genius, or the effect is wonderful, how can it be two days a day?

The clues in the memory of Meng and Jin are deviating from the Tianmenglin, and there is certainly no closer path.

Then they can appear here in advance, it should be Fuxi brought back new information. This information is not accurate, not near, and is likely to be transmitted directly from the valley to the magic forest!

This will be explained to them and they will be sent first.

Through observation, not only Meng and Meng may have recovered their status, reached a new peak, and the strength of Fu Xi may not be under him!

When Shen Lang pondered over these things, Meng Jin also wanted to understand why he was here, and then quickly sent ideas to inform the situation.

In the previous situation, Fu Wei must have known it. Now it is to let him know the Terran in front of him, that is, the barbarian enemy – the king of the country!

“It turned out to be the head of a new successor to the country of sand. The young people are more than the sky. It’s no wonder that you are arrogant. But it seems that your luck is running out!”

When Meng Jin said this, he and Fu Xi were already ready for the battle.

The two barbarians looked at Shen Lang’s eyes and were filled with hatred.

Meng Jin has no need to say that he was deceived by the door and got almost all his belongings. It was an unprecedented humiliation.

Originally thought to be revenge, he had to kill the country on the day, did not expect the opportunity to come to the front, this is simply God's will!

Although Fuxi does not often return to Shibuya, it can be regarded as the highest among the survivors of the barbarian. The use of the mainland side of the mainland is the level of the ancestors.

Meng Jin will certainly not say his problems. The ban on melting, the death of Meng Xi, the robbing of treasures, the killing of the tribes, etc., will be deducted to the head of Shen Lang.

Of course he has to make this head for the barbarians.

"I have run out of luck? Then you met me, is it unlucky?" Shen Lang shook his head.

Meng Jinxiao smiled.

"The Lord of Sand Kingdom! The evil thing you have done to us in Shibuya is to smash your corpse, not enough to vent your anger! Before my state was very poor, for the safety of the whole family, I could only bear the burden and plead for it."

The more he said, the more impassioned he was, as if he was really a painful and humiliating fighter.

"You take my memory away, and I want to encroach on my dreams. I will come to the Devil's Forest to win the treasure! I will return to the old and return to see you today, it is the day of my barbarian revenge!"

Shen Lang continued to pick it up: "Revenge? Is this your soft-footed shrimp? You forgot the stumble when you were scared out of the forbidden land by the melt. If I didn't bring you out, you would have been drowning in the forbidden place!" If it weren't for the Pearl of Hanze that I gave you, you would still stand still!"

Basically, it has been confirmed that the problem of Meng Jin has been fully utilized and solved after getting the Pearl of Hanze.

But Shen Lang doesn't mind disgusting them.

"Kids! I have no enemies in the valley and your country in the past, and you have no harm to my barbarians. You can't bear it! The patriarchs care about the people, not fighting with you, it is kindness!"

"Today meets in the magic forest, it is God wants us to destroy you!"

Ginger is still old and spicy. When Fuxi screams at the waves, he does not forget to blow Meng and Jin, who is a patriarch, although his own strength may not be inferior to Meng Jin.

"You should be able to see that my ills have healed, and the enchanting beads let me reconcile, the strength is skyrocketing! And the old is my barbarian, the strength is far better than me..."

Shen Lang exaggerated and slammed, and stopped to stop.

"You are all barbarians, you want to face, so you can brag about each other, don't you feel sick?"

"Don't let me go! I want to tell you that once the old man is shot, don't say that you don't have a chance to survive, it is easy to destroy your sand country!"

"It's just that our barbarian is a benevolent family. If you are young and ignorant, as long as you return the sun beads and other things that you have cheated, I can ask for the old feelings and spare you a life!"

This set of roads is too obvious, Fu Yan sings a white face, Meng Meng came out to sing a red face, a look for you, the purpose is to get things back first.

"Hey, do you want to marry me? Don't forget that I have your memory. In your memory, Fuxi is a district informant who inquires about the news. There is no real combat power. This time, it is far better than you. Can you scare me?"

Shen Lang said this, their faces turned hard to look.

After reading the memory, Meng Jin must definitely use the way that is beneficial to him.

In this way, what Shen Lang said about his memory can easily be regarded as the truth, such as the name of the symbol. Even if this is a bit sensible, I can think of the other person as a provocation, but it will always be uncomfortable.

“Little thief! Don’t want to marry me! Fu is my extremely respected elder, can you let me provoke? If you don’t want to take the initiative to return the goods, it is to find death!”

Meng Jin is afraid that Shen Lang will say the provocative words Give up the baby, such as the sun beads, and you have to fight hard!

He has recovered his state, even the peak of the leap. When the confidence is full, the demon forests dare to swear, why fear the Lord of a sand country?

Not to mention that another Sha national (high cold autumn) and the beast are not there, the other party is single. And there is still a big master on the side, it is a good opportunity to revenge!

“The patriarch! Mo and him nonsense, after taking him down, it should be our Shibuya thing, no less!”

Fu Wei still maintains a respectful attitude towards the patriarch, but obviously he is very vocal, and there is some truth to it.

At this time, everyone felt that there was a clear movement, and the movement appeared on the edge of the fog that everyone could sense, that is, a few hundred meters away.

In this sly Tianmo Lin, there is any movement, which makes everyone highly vigilant, just like the appearance of Shen Lang.

Meng Jin and Fu Wei, looking at one direction, in the fog, there was a large skull...

Chapter 2495 - Reverse the situation

The barbarian's size is already very large. It is a red giant, but the size of the skull is much larger than their entire body. This shows the size of the body.

In the next moment, the body of the dragon is almost completely in their field of vision.

They can be regarded as a giant relative to the human race, but the old dragon is a dragon in their eyes!

If the light is huge, the barbarians are not afraid of who, they are big, the body is still very flexible, and the speed is also very fast.

Just like before on the edge of Hanze, encountering a big dog god, the barbarian elites, will not rush to any fear, ready to cooperate to kill it.

But now the scorpion dragons appear, let them have no temper.

This is a dragon, a dragon in a state of paralysis!

To put it simply, there are many ethnic creatures in the ancient cold world, but there are also contempt chains. Like the vast territory of Shibuya, the ethnic individuals are also strong, naturally it is not so much to put the level of settlement in the sand country in the eyes.

The mermaid family of Hanze will not be put in their eyes. However, the environment of Hanze is placed in the ancient cold world, and it is still particularly chilly. All aspects are restrained by Shibuya, so they will get their attention.

And the dragon, even if the number is very small, even if it does not show up for a long time, may even have lived in the ancient legends, but still high and high contempt for the top of the chain.

It's very strange to see the dragon at the moment, or the state of paralysis, so that they don't know what it is.

And their knowledge of the gods is almost at the same time, a huge squat on the spine, carrying a person and a beast.

This person is another person in the sand country he has seen in Shibuya.

This beast is a beast that has seen the Lord of the Kingdom of Sand in Shibuya.

Even if he did not personally see it, he did not get the memory of Meng Jin. But there are still Shen Lang in front, and with the situation mentioned before Meng Jin, they can also correspond one by one.

For a time, their emotions were complicated, and their attention and gaze shifted to Shen Lang.

The lord of this young sand country is their king, their master, and this dragon can be willing to let this man sit on his back. Is this not obvious?

If it is not already accepted by the owner of this sand country, how can you marry them?

Further, it is not difficult to analyze. Originally, this dragon was brought up by the two kings of the sand country, but the Lord of the Sha State came here one step at a time.

Under the silence of their complex mood, the old dragon has already reached a few steps to the side of Shen Lang.

It is also very interesting, and there is no overstepping, and the body does not exceed the waves. Because its body is like a hill, it is also active to collapse.

Although this is still much higher than Shen Lang, but this is a gesture of it.

Shen Lang is also not polite, naturally floating up, falling on the faucet bones, and then overlooking the two red giants of the barbarian.

“What did you just say? Say I am looking for death, what should I do? Please say it again.”

“...”

Meng Jin and Fu Wei are depressed!

Originally, I only saw one of Shenlang. They didn't have any surprises. Because it was very dangerous here, the Lord of Sand Kingdom dared to come in. It was young and angry and not afraid of death.

But another old man of the sand country will certainly not take risks together. Once there is no hope in the sand country, he will take it with the beast.

Before the change, Fu Xi did not dare to accompany Meng Jinjin to take risks, or let Meng Jin accompany him to venture.

It is thought that Shen Lang has settled down. They have enough strength to take revenge and dare to be so arrogant. The solution to the problem has restored the peak of Mengjin, and it has become more powerful, and with Fuxi, it is a sure thing.

But now, can it be stable?

The situation just happened to turn around!

Meng and Jin had seen it before, the strength of Gao Hanqiu and the dog god, he felt that Shen Lang and at least one level.

In this way, even if he feels that one can do too much, it certainly can't do three.

Coupled with a symbol, perhaps two dozens will be a level of a draw.

But there is still a dragon!

Even if it is now just a sinister variant, the dragon is a dragon, and even if it is a big recession, it is no small feat.

The situation has become very bad for them.

How did he do it?

How can he conquer the dragon?

How long has this come in!

What kind of character is he?

“Who are you talking about?”

The old dragon has just been conquered, and this soul mark has been laid, equal to being controlled by others. And also expect to take it safely away, it is best to have the opportunity to reshape the body.

It has already recognized this life, and of course it is time to please the waves.

Compared to the sacrifice of the mount, to help deal with several enemies, it is nothing!

Besides, it is a Terran mount, which is a matter of losing face. It is impossible to do it yourself. Don't think about this layer.

But when people are seen, it may be ridiculed, and it may be spread out!

The best result is to kill them!

The races encountered in the magic forest this day can be killed. Just this sounds like an enemy of Shen Lang, and it can kill even more.

At the same time of destroying the mouth, you can also please the Shenlang, killing two birds with one stone.

When the old dragon came out, it was a heart with a strong pressure that directly shocked their hearts.

It is already a sly form, and naturally it is not the way the dragons originally sounded, but it is still with a strong dragon.

Originally Meng Meng and Fu Yu guessed this situation, it is already silent.

Now with the words of Shen Lang, Yan Julong immediately came out, but they took their guesses and let them have a headache.

Compared with the people of the sand country, they are of course more afraid of the dragon!

Because of the people of the sand country, how strong is the sand people. But the dragons are infinitely They don't know how powerful the dragons are!

“What are you doing, dare to say that we are looking for death?”

Lao Long once again stressed that it could have been felt. Even if they followed them, they could not integrate with other people's groups.

This moment is both an opportunity for loyalty and an opportunity to close the relationship. Use “you” to refer to others, and then use the opposite “we” to indicate that you are also one of them.

This dragon has already spoken twice. On the one hand, it proves that it is still alive, and it has its own consciousness, not a skeleton that is purely utilized.

On the other hand, this is further irritating it, and if you don't respond, it may run out!

“The friends of the Dragons, we are also compelled to do so. The Lord of the Sand State is really bullying us too! We have robbed all our reserves in Shibuya...”

The silence just now is measured in secret. Originally, I had a strength, and I wanted to harden Meng Meng, and now I have to reconcile it again.

Chapter 2496 - Drama overplay

“Take up your reserves?” The old dragon repeated it.

Fu Wei did not speak at this time, thinking about better countermeasures.

Meng Meng has no retreat. He has just opened this mouth and can only persist.

He did not understand how the young owner of the sand country accepted this dragon, but in his heart, the weight of the dragon still exceeded that of the sand country.

Therefore, this is a pleading for the whole, and it is also a request for the dragon. If you can convince the dragon, the dragon should directly affect the sand country.

This also makes him feel psychologically good, and it is not so shameful to bow to the dragon.

“Yes, we were originally very peaceful. We have never provoked the sand country. It is purely an aggression against us. We will have a little bit of emotion. Is it normal?”

Anyway, others are a group, so after just reversing, now he takes a step back.

“So, do you want to kill you all?”

“...”

Meng Jin was stunned.

What is this nonsense? Not to be the master of us?

Listening to this meaning, I feel that all the reserves are not worth mentioning, but also killing the light?

Fu Wei said coldly next to him: “The patriarchs, they are a group, you are kind, and they can’t discuss one with them.”

When he finished this sentence, he said directly to the old dragon.

“Dangtang Longzu, even for the sand people to drive, but also become a man’s mount, don’t you have a little shame?”

“presumptuous!”

If the old dragon is a person, if there is still a face, it is estimated that the old face is red, and this time it is a little angry and angry.

Originally, it was just for the beginning of Shen Lang, that is to report the heart of the mouth, and they were stared at them!

“Why, do you feel ashamed? If you feel ashamed, you should kill these sand people who use your tricks! Otherwise you will kill us and you will not be able to kill them. Do you want to see one kill one? ?”

Fu Wei is still a very contemptuous gesture, and he has erected himself into one of thousands of souls.

“Killing me, there are thousands of me,” but it is an excellent protection for him.

Although the other party may be angry and anger, directly kill him to vent their anger, but may also feel that killing one does not make sense, and will not do it.

At the same time, he has already found a reasonable explanation for the other party – “use tricks for you”, this will make the other party feel that it is not that I am incompetent, or that the people are strong, but use tricks.

The old dragon was suddenly caught.

Originally, he used the high profile of the dragons. What do you think of robbing you? What about killing you?

Will you feel a psychological burden when you step on an ant?

But Fu Wei's contemptuous posture now makes it feel completely humiliated.

But it can't be done!

If you don't do it, you can still seem to disdain the other person, and it doesn't make sense to indirectly look at each other's words.

Once you start, it is equal to acknowledging that the other party makes sense.

Shen Lang is standing on the head of the old dragon at this moment. The dialogue between Meng Jin and Fu Yu and the old dragon is equal to talking to him.

He just didn't interrupt, just want to see how this scorpion dragon is a gesture.

The alpine autumn and the dog ***** on the dragon's spine are also inactive, but they are ready to shoot.

Hearing the response of the old dragon's domineering, Shen Lang still nodded secretly, so that there is nothing to say about Meng and Jin.

However, if it is Fu Yi, the situation will be reversed immediately, so that the old dragon will be ashamed and difficult at this moment, but he does not know how to vent it.

This makes him have to blend!

Fu Xi is to lead the disaster to him. If the old dragon is stimulated, it will really be shot.

Although there is control of the soul mark, if the other party is ready to die with the excitement, it is not fun.

"Seeing a kill one doesn't need it, but killing both of you and killing all of your barbarians. It can be done very easily. Is this the result you want? Anyway, you are not a patriarch."

The swaying word of Shen Lang was thrown out, and immediately the atmosphere of the scene showed a turning point.

Just before the old dragons did not come, they had already provoked the relationship between the two of them, but that is to say that Meng Jin, now it is said to be a symbol.

Meng and Jin have just used the plan to seek for the whole, try to make concessions, and hope that the old dragon can preside over justice.

The symbol used is another method of radicalization, which is originally a method.

But now, when I listen to it, I feel that Fu is pushing the barbarian to a very dangerous edge!

Fu is not a patriarch. He is not in Shibuya all the year round. He does not need to consider the life and death of all the tribes; the genocide does not have such a heavy burden, but he must consider these as patriarchs.

Even conspiracy theory, does Fu Xi intend to make him a historical sinner?

Fu Wei certainly understands the provocation of Shen Lang, but he is not a patriarch! It is possible that the patriarch is suspicion.

So at this point he has to be rational!

“The Lord of the Kingdom of Sand! Do you dare to have a quality with us? What do you do to our barbarians, what do you do for the Dragon friends, depends on your strength? Not all are abducted?”

Standing in his seat, the problem that has just been thrown over by Shen Lang, how to respond is not appropriate, and the defense will only be more and more black.

And then follow the rhythm of others and miss the point.

So he is very decisive to continue to return the topic to the dragon!

Just using the radical method, now speaking for the dragon, they all point their finger at the sinking waves, and they are willing to let the dragon and the sinking waves turn against each other.

Meng Jin can become the patriarch of the barbarian. Of course, it is not only relying on the strength of talent, even if it depends on this position, it has already had a big picture.

He understood it in an instant, and he was almost singled out. At this point he had to stand firm with the elders.

Immediately cooperate with the performance.

“The dragons are a very respected race of our barbarians, and they are powerful races that are high above. We are very distressed to see that the dragons are driven by the enslavement of the people of Xiaosha.”

“Respected dragon! As long as you say it, we are willing to work with you to fight this sand country! You must not let them drive you again, but you are free!”

With the cooperation of Meng Jinyi, Fu Yi immediately added a fire to the righteousness.

It is said that this time is not the contradiction between them and Shen Lang, it seems to be transferred into the contradiction between the dragon and the sinking waves, they are helpless.

But they are wrong!

The play was overdone...

The most deliberate thing about the dragon is that it is lightly watched.

So when Fu Wei said that it had no shame, it was very shameful, but now they have two words, one to help it get back to justice.

From another point of view, it is equal to the side saying that it is weak, it is necessary to help them, in order to resist a human race.

Doesn't it mean to look at it even more?

It is clear to itself that Shen Lang did not blame it, it was its own decision after making everything clear. The two of them, treating it as a weak person who needs to be saved, makes it very uncomfortable, and the sense of shame is also weakened.

"I want to kill both of you."

Chapter 2497 - 1 claw

The dragon once again voiced, this time did not bring a strong majesty, but it made their hearts sink.

Meng Jin and Fu Yu are secretly wondering, and the situation that they just said is very good. Seeing that they should provoke the initiative of the dragon and the sand country, how can it suddenly turn over?

Just after the demon dragon was said to be speechless, they all felt it, so they added a fire.

"Dragon's friends, we are all really willing to help. No matter what handle you have in their hands, we are willing to help you take back!"

Meng Jin is trying a sentence, lest the dragons are afraid that they are not sincere.

They are provocative and others can feel it. This should let the dragon feel that the enemy of the enemy is a friend!

It is a pity that he will be wrong. This re-emphasis, listening to the ear of the old dragon, is once again despising it.

It was just smashed down, and now suddenly stood up, a paw has swept to both of them quickly!

Meng Jin did not expect it to stop talking directly, and quickly evaded.

He is a rare genius in Shibuya, and may be the first patriarch who ventured into the Pearl of Hanze, which allowed him to reach his personal peak.

As for the fact that it has not reached the strongest of the previous generations, and even has not yet opened the symbol, it is only because of such a short period of time, in time, if resources are sufficient, he can still improve a lot.

Under such circumstances, it is a world apart from the state that I have seen before in Shibuya.

I have to face the waves of them, and the fearful dragons. Can you be unprepared? It has long been secretly defensive and dodge, and even the attack plan is ready.

Not to mention Fu Xi, he has more than a blackmail than Meng Jin, just the attitude of the dragon has already made him scream bad, when Meng and then fight for another time, he has been highly vigilant.

At this time, when the dragons and their paws were swept over, the two of them were quickly dodging, and the empty mountain was pulled up by a large piece.

The old dragon just had that, did not hit them, and there was no accident. Because it was smashed before, this time is very fast, but some of it is to support the body, which is destined to be slower.

But compared to the sinking waves, the barbarian has a large body and a much larger target, which is suitable for its continuous attack.

Ever since, at that moment, just after the dodge has not yet reached the ground, Meng Jin and Fu Xi found that the dragon's claws had already attacked the place where they settled in advance!

They still have a certain tacit understanding. When they just flashed quickly, although they didn't have time to discuss anything, the two people naturally went in different directions to avoid becoming more obvious targets.

But at this moment, they were all attacked by the dragon claws in advance, and the scope of the cover was at least one hundred and eighty degrees, so that they had to turn back and flee in the air.

The result was like being surrounded by dragon claws, forcing two people to come together.

But just after closing, I felt a huge dragon claw cover, and a large space around it was blocked. This is the realm of the dragon god!

Then, the bodies of the two Red Giants were pressed to the ground by the dragon claws.

In such an instant, both of them are a little bit swaying.

Just the dragon was supporting the body, the front paw supported, and the other paw swept directly.

Why is it just so fast to get around in advance?

And when they forced them to close, it didn't have that fast speed, and they came from a paw above.

Just that feeling, as if to force them to vote for the net.

In other words, it seems that three paws have attacked them from different directions, but in fact the dragon seems to have just moved a paw and clamped them.

Meng Jin and Fu Yu are very unbelievable.

Their fear of the dragons is only a psychological one, a kind of jealousy that does not want to be hard-hitting. But if they really want to do it, they will not feel that they have no resistance.

Especially when they are ready to dodge, how can they be pressed down?

But after all, they have never met the dragons, they have not played against the dragons, whether they are fear or self-confidence, they are a kind of presupposition, just the real positive confrontation.

Perhaps this is a strong place for the dragons, and it is so understated to deal with them. Even with one paw, the speed can reach the effect of three claws attacking at the same time.

At this moment, they are very desperate.

For Shen Lang, it is even more puzzled and more depressed.

He is only the owner of the sand country, how can he conquer the dragon?

Judging from the experience of the dragon power, it is impossible to force the military to conquer.

Then they all thought of a possibility:

This dragon should be trapped under certain conditions. It has not been known for thousands of years. Because no one has passed, it has finally become a state of paralysis.

The Lord of the Shah State, this accident passed to the place where the dragon was trapped, and because they had not known for thousands of years, the organs and arrays that were trapped were very weak, which made them save the dragon. Come out.

Thinking of this possibility, they are depressed and annoyed.

What is depressing is why such a good thing, why not be met by them? More importantly, the Lord of the Shah State was able to find the Tianmo Lin because of the memory of Meng and Jin.

Does that mean that this opportunity is originally theirs? This was won by the owner of the sand country!

The annoyance is that just now they saw that the dragon was only left behind, thinking that its strength was greatly damaged and it was forcibly conquered. This is also the most common state.

According to this line of thought, the dragon is irritated. If you guessed it was grateful, you have to change the other way. At this moment, the old dragon is deeply shocked!

Even if it is not visible to the naked eye, it has just been perceived. It is really two more dragon claws, which attacked from the left and right, forcing them to close together in the middle, so that it can strike it.

Others think it is the effect of its speed, skill, and the like, but it is very clear to itself, this is not its shot!

And because it is a powerful dragon, plus there is no interference from the naked eye, but it is through the truth, just a wave of anger created a fantasy!

It has created the effect of dragon claw attack on both sides, and all aspects are very realistic. Under the urgency, they are too late to see through, and the instinctive rapid dodge gives it a chance.

At that moment, it was noticed that it was made by Shen Lang, and it was noticed that Shen Lang was only able to perceive that he held the same object in his hand, and that it was achieved through it, but it was not known.

This human race has been able to create such a realistic illusion, which really surprised it. If it is negligent or observed by the naked eye, it may even be affected!

Chapter 2498 - I am the decision maker

In the moment of this rapid change, Meng Jin and Fu Yu were shocked by the dragon.

The dragons are the dragons, and even if they only have a state of paralysis, they are still far better than them!

The old dragon was shocked by the sinking waves. This human ability exceeded his expectations.

Before it was yielded and matched, it was not because of the Shenlang one, because there were dog gods, high cold autumn, and killing warriors, each of which was very powerful.

At that time, it showed a hand, let the killing warrior grow out of the physical changes, giving it great hope.

Now it is able to create such a powerful and realistic illusion, which shows that his means are extraordinary.

It was still ashamed of it. Now I feel that even surrendering to this human race is not unacceptable. Besides, everyone is still a partner, not a master servant.

These are disdain to explain to the two barbarians, but the barbarians disrespect it, and just want to provoke their relationship, which can be vented and sent to them!

“District strength, but also dare to call me?”

Now the old dragon’s mentality is more peaceful, and it is not ashamed to help Shen Lang.

From a certain perspective, it is a kind of strong recognition. When you are strong enough, you can get the recognition of the strong, beyond the boundaries of the race.

Just like the dog god, the attitude towards Shen Lang was totally different from the current attitude toward Shen Lang.

The old dragon has not yet reached this level, but it has already recognized the strength of Shen Lang, and will not disdain a weak race.

The two of the barbarians are not recognized on the one hand from the momentum or the strength of the hands.

Now it is directly presented, it is the two dragons who pressed them to the ground, but actually bound two people, or the use of the field of God.

This field of God is controlled even under the ground, and there is no way for both of them to drill down to the ground.

“Lord Dragon, we are not enemies, we have no conflicts of interest, we can cooperate!”

“With the grievances of the Lord of the Shah, we will not care again, we are willing to offer the information we have!”

The opening is a symbol, perhaps without the burden of the patriarch’s identity, he made a decision faster, but also opened the conditions.

It's not convenient to say anything about Meng and Jin at this time. Everyone must unite and talk about the troubles before them.

It's simply not too late for discussion, and it's only a matter of shackles. Before the other party gives back the opportunity, let's say the conditions and demands.

When the old dragon had just shot, he was venting his anger with himself. After realizing that Shen Lang is more powerful than imagined, this becomes a loyalty.

At this moment, they are firmly restrained by both of them, and they are not given any chance to counterattack, but they are not directly eliminated.

This decision should be handed over to Shen Lang!

This is a kind of respect and the purpose of achieving its loyalty.

Therefore, at this time, the symbol has the opportunity to finish the conversation. The old dragon did not interrupt, nor did he start, and even did not ask or urged Shen Lang to make a decision, waiting for the instructions of Shen Lang.

"Fu, you made a mistake. Some of them are my partners, but even if they are partners, everyone has a decision maker. This person is me!"

Shen Lang refused to emphasize the sentence.

Dog God and Gao Hanqiu will not compete with him for this position. This is both an emphasis on the outside world and a deliberate attempt to deepen the understanding of Laolong.

"So, no matter what you ask for, or ask for mercy, you should tell me. The dragon will only listen to my opinion, or will you tear it apart."

He is now standing on the head of the dragon, and the two people who are pressed against the ground by the dragon claws are a high-up posture.

What he said in his words is to explain his leadership position. No one has any opinions on this, indicating that everyone is also so recognized.

Meng Jin and Fu Yu secretly complained!

They have not been very friendly to the Lord of the Kingdom of Sand. They may have to talk to the dragon. With the owner of the country, it is estimated that the other party will not say anything to them.

Just now they also want to be clear, the dragon will be angry because it is very powerful, and can be with the people of this country, because of the gratitude of getting out of trouble.

So whether they are controlling their actual point of view or from a macro perspective, they should be negotiating with the dragon.

The grievances of the Lord of the Shah is only one of the conditions that can be brought out of the talk, and it will not be the key.

Now Shen Lang's public statement emphasizes that everything is different.

Now he is the master, he can stand on the head of the dragon, can say this, it is equal to the dragon also defaulted to his decision-making power!

This means that the two of them have once again made a mistake!

The succumb to the dragon now, rather than the surrender of the Lord of the Shah, is equal to the sin of the king of sand.

Everyone's relationship has already been like this. Before, there was a grudge in Shibuya. It was almost impossible to make a wave of friendship. It is almost impossible to be friendly again.

It is not the key to give in to the king of the sand country. The key to the attitude of the other party is to see the difference in how much benefit is given.

Once again, the wrong situation will not close the channel of surrender and summation, but it will definitely allow the other party to ask for more benefits.

“Yes! You ask for mercy, you shouldn’t ask for me, he has the final say!”

The old dragon naturally cannot be dwarfed as a shrine to lift the sedan chair like a dog god, but is also willing to admit the leadership position of Shen Lang.

Shen Lang just emphasized this point. Now the voice of the old dragon is equal to confirming it again.

As for the cold autumn and the dog god, when Meng Jin was in Shibuya, he had already seen it, knowing that they were obeying the head of the sand country.

On this part, they must make a quick statement and submit their submissions to the Lord of the Kingdom of Sand!

“The lord of the sand country is our fault, because my expansion, I am so arrogant that I can challenge you, and made a mistake and ridiculous move, I express a deep apology to you!”

It’s Fu Lu that just opened his mouth to the dragon. It’s only Meng Meng.

Although the two of them are still higher, but Meng is the patriarch, he is higher in his identity. At this moment, he came to represent the barbarians, and it became more formal.

In other words, if you just follow the words, you can be regarded as a personal attitude, and he is the ultimate attitude.

Just after saying this, Meng Jin felt the suppression of the dragons and strengthened a few points!

This is very obvious. Don’t say that the owner of the sand country is that the dragons are too lazy to listen to his grandiose rhetoric.

He had to give specific sincerity right away!

In fact, Meng and I have just apologized in this way, but they feel that they are humiliating, but he needs to delay a little more time and spend more time thinking about what kind of benefits to sacrifice.

Chapter 2499 - Competing with each other

“The esteemed Lord of the Kingdom of Saudi Arabia, we are willing to give up all demands, write off your grievances, and be willing to...”

“Wait a minute, what are your claims, what are your complaints?”

Shen Lang interrupted his words.

Meng Jin stunned.

“When you are in Shibuya, I am dealing with you. Everything is yours. I am trapped in the forbidden land. When you are to be swallowed by the melt, I brought you out and saved your life. !”

“This is the result of trading with the Sun Beads, so I don’t need you to repay the help. The sun beads you gave me, and other items, I didn’t steal you, you used to trade me with me. of.”

“You haven’t gotten a great benefit? If it weren’t for me, you are still waiting for the dead waste, where can you achieve your current achievements in less than a few days?”

The words of Shen Lang are well-founded and directly make Meng and Meng dumbless.

“We have entered your Shibuya, but it is not broken in. It is Meng Yu who lied to us. And Meng Yu’s death is what you killed. You don’t want him to want to kill you in the forbidden area. I After taking you out, you will be the first to kill Meng!”

“What other grievances? Did I kill your barbarian in Silicon Valley?”

If this comes down, it will make Meng Jin face red!

In his version of the barbarian and the singer, whether it is the death of Meng Xi, or the loss of the sun beads and other treasures, is the owner of the sand country.

He was because the body was in the weakest state, unable to keep Meng Hao and more babies, and barely won a chill.

Then it is the power of grief and indignation, letting them ignore the risks and quickly absorb the power of all the beads of the cold, restore their strength, and reach a higher level.

This is a humiliating and inspirational version, which has brought the barbarians up and down, and reached a new height for his support.

Everyone's hatred, grief, and pity have been transferred to the foreign enemy of the country. Everyone thinks that the sand country must be destroyed in the future, to avenge the elders and to recapture the sun beads belonging to the barbarians.

The Fuxi, who has been practicing in the field for many years, is also the great elder of the previous generation. It is far better than the ordinary barbarian, regardless of his knowledge or wisdom.

However, the information he obtained was limited, and the situation that Meng Jin said was basically in line with the facts – his dilemma was not a day or two, and he really could not fight against a strong enemy.

So in his view, the version of Meng Jin said that there may be some fake elements, but it is just a little more sensation, and it has diluted his own face.

Meng Pu is a great elder of the barbarian. In the case that the power of the patriarch of Meng and Jin cannot be played, it is equal to the pillar of Shibuya. Everyone is a community of interests, and Fuxi doesn't think that Meng Meng has killed Meng Hao.

At most, I feel that Meng Jin used the death of Meng Xi to incite emotions and consolidate his position.

He was a great elder before, and he understood and supported the means of leadership.

But now Shen Lang said one by one, since the family is long, there is nothing to say, a rebuttal can not say, this is not a dragon's ban, but can not refute!

At this moment, Fu Xi understands that this version is the fact!

The mouth said that there is no reason. In fact, if Meng and Jin have to say a pass at this time, it is entirely possible, because Fuxi and the dragon have no experience, and there are no third-party witnesses.

But what is the situation in front of you?

They are being pressed by the dragon under the paws, there is no room for resistance.

Under such circumstances, intelligence information is still useful to others, or else they can be directly crushed and killed.

Is it still guilty of fabricating lies to convince them?

And they only have two, Meng Jin is a party, which means that he is only one.

The owner of the sand country, who fully occupies the upper hand, can be the master of the dragon. Do you still need to care about the feelings of his prisoner?

Therefore, under this state, even if Meng and today have a well-founded rebuttal, Fu Xi will not believe it. He already believes that Shen Lang is telling the truth.

Especially about Meng Hao!

Mentioned the forbidden land, molten pulp, if not experienced, outsiders do not know the secrets of these barbarians.

As a former elder, he went in and understood these things. Everything is also logical:

Meng Pu deceived the king of the country into the valley, but with the power of the king of the country, Meng Yi's personal strength was unbeaten, and the design was introduced to the forbidden land.

Meng and Jin are still retreating in the forbidden land. After the swindling of the king of the country, Meng Hao himself ran out first, which means that they were blocked in the forbidden land, waiting to be filled with molten mud.

It is entirely possible that Meng Hao wants to kill his superiority after Meng Meng's strength in the fire. By the way, you can also annihilate a strong enemy, and finally you can throw the charge on the head of the Lord of Sand.

Everything is so perfect!

No one has thought of it, that is, the means of the Lord of the Shah State can come out of the forbidden land where the barbarians themselves cannot escape.

Meng Hao did not think that he might be dealing with another person and a beast in the sand country, and he was killed by the angry Meng Jin.

The exchange of other interests is too normal. What Meng and Jinne need most is the Pearl of Hanze. If it wasn't brought by Meng Hao, it was brought by the Lord of Sand State, then he could only choose to exchange.

In the unsuccessful seller's market, he must accept the price. Even if someone else is strong and strong, and you can't force you to rob you, trading at an unreasonable price is normal.

But in the end, others are still trading, not grabbing!

"The Lord of Sand State, I am really blinded by Meng Jin, misunderstood you! He can restore strength so quickly, we can come here so quickly, because of my relationship You don't care about the suspicion, you are willing to let us go, I am willing to report this information, and there is more information about Tianmo Lin."

"If you don't disappoint us, our strength is limited, and we are willing to be a pawn, and take the lead for you!"

This time, Fu Wei's opening directly pushes everything to Meng's head. Then he crossed his patriarch and he personally talked to Shen Lang.

His subtext is obvious: information and intelligence are all from him. He knows that Meng and Jin know that Meng Meng does not know, he also knows.

He is the most valuable one!

The experience of Meng and Jin at this time is very sour. I have just been slammed by Shen Lang. The body has been rubbed according to the ground, and the face of dignity has been rubbed again.

As a result, he abandoned himself from the opening of his family, pushed the problem to him, and said that he had no use value!

In this day, the magic forest can have the value of use, and it is a chance to live!

Chapter 2500 - value

However, Meng Jin still resisted, and there is no swearing.

Because he noticed that even if Fu Xi was pushed to his body, he still used the "we", and he asked for mercy.

At this time, they are all enemies of others. One of them will bear more resentment firepower, and the other one may be able to fade a lot, and negotiations will be more favorable.

He was originally full of black spots, and when he faced the situation, he couldn't wash it.

He has not forgotten that the Lord of the Kingdom of Sand has a method of recording all the truths that can be directly presented.

This is also the reason why he has just been speechless and unable to refute. If he refutes, others will only hit his face in a more realistic way.

Now he simply recognizes it and sets it off by himself. Let Fu Xi see if he can gain trust.

“What value do you have? He can restore his strength. The most important thing is the Pearl of Hanze. This is what I brought with me. As for you can come here faster than me, you know that you have an ancient transmission array. What is the value to me?”

Shen Lang directly disdained a sneer.

I used to emphasize that I have the value of using the symbol, and I was stunned by this.

After they left the valley, they went all the way. Because there is no special way, plus search and other factors, it is also a few days.

If you are on the road, the two of them will be faster than they are. Unless they are trapped in the forest for a long time, they can quickly pass through the confused forest.

Therefore, the truth is very simple. It is that this time, Fuxi brought back a better message and found a channel that can be directly transmitted to this day.

Only in this way can they let them go ahead.

He originally thought that this was an excellent situation. He was able to exchange some initiative. He did not expect to say anything, and others already knew it, and it was not worth a trip!

“What methods and articles do you have for Meng Meng? What is the use for me? I am not a barbarian. I am not practicing your exercises. There will be no problems. The same is true for the transmission. I don’t need to go back to Shibuya. This is just a shortcut for you.”

Every word of Shen Lang is like a bullet hitting the face of Fu Yan.

He felt that the extremely valuable information related to the secret information of the Tianmo Lin, but was approved by others.

Originally, he was full of confidence. Even if he was suppressed under the dragon claws, he felt that he still had the value of use. He was able to get away from the value. The so-called horse pawn, that is, the value of working with them, but with less distribution of benefits. Just a little.

Now he is in the eyes of others, but it seems that there is no use value!

Is it not a very valuable piece of information to enter and leave the Devil Forest and leave quickly and far away?

If this doesn't care, then can the intelligence of this day's magic forest exceed the information that the dragon said to understand?

Meng Jin is also very awkward.

He just gave up everything and counted everything on Fu Wei's body. I didn't expect it to be worth mentioning.

The scorpion dragon keeps the suppression of the two of them, and then does not participate in the opinion, because these do not care, and it has nothing to do with it.

Whether it is the barbarians, or the sin of the sin, in it, it is not a small matter worth mentioning, who is a big fist, who is the final!

But just heard the words of Shen Lang, the barbarian actually found a transmission array that can leave from here, which is a great attraction to it.

One of the reasons to know that it surrendered to Shen Lang is to take it with you.

This departure does not mean the place before, but the entire Tianmo Lin!

What it is worried about is that it is in such a state that it is difficult to leave alone. If there is a transmission array near this, leaving the magic forest directly, it is certainly an excellent choice.

But listening to the meaning of Shen Lang, does not regard this as important information, which makes it a bit anxious.

It has just been acknowledged that the decision maker is Shen Lang. It can't have more interference. It can only be tolerated first.

“What else do you have to say?”

Shen Lang looked down at them again.

This is a psychological look down.

When Fu Xun's proud intelligence information, when he has no value here, he naturally cannot grow up, and must look up to him humbly, waiting for his decision.

“Respected Lord of the Kingdom of Sand, I also have information about the Tianmo Lin, which is the latest collection, which was not available before, including the information of the demon!”

“Of course, Lord Dragon definitely knows more and only hopes to have a little complement to everyone.”

When it comes to this, Fu Yu has another bite and further sincerity.

“If you want to know, please read my memory directly, lest my statement be vague.”

This is what made Meng Meng a surprise.

On the same day, Shen Lang wanted his memory, he still resisted, and forced to have no way to surrender.

I didn't expect Fu Xi to take the initiative to make this suggestion. It is really a bold and bold move.

In this regard, Shen Lang did not respond immediately, seems to be considering, it seems to be discussing with the dragon.

Meng Jin and Fu Yu can only wait patiently.

Fu is still a little better. After all, he still has value in use, only the value of the high and low.

Meng Jin, there is no use value!

His memory has been read by others, and more, as Fu Xi said, valuable symbols know and know more clearly.

He is not only waiting, but also trying to save himself and find other solutions that can save himself. Otherwise, it will only be a symbol!

The abandonment of Fu Wei to him may be a gesture, let him be lame, and actually count him.

But if necessary, it is really possible to abandon him!

Because Fu is also a barbarian, he sacrificed Meng and I, and he can go back as a patriarch to lead everyone or set up another patriarch.

In other words, he did not use the value, and the identity of the barbarian patriarch here does not make any sense.

Shen Lang is actually only considering a moment, it is as long as they are.

“As you said, your intelligence information does not know how many hearsays have been transferred. The dragon is the first-hand information. But your attitude, I am very satisfied, more than Meng Jinqiang.”

A negative affirmation, so that Fu Xi is also secretly smile.

He is a barbaric old man, but at this time he is being manipulated by a young sand country to control his life and emotions. It is really sad!

“Your sincerity makes me feel that you are confident. I should give you a chance. If your information is valuable, you can let go of you, including Mengjin.”

This was originally the result of Shen Lang's want, but it was suppressed and turned into a charity to the enemy.

This makes the cold autumn and the dog gods stunned, the wave brother is the wave brother!
