

First Strong 2511

Chapter 2511 - Soul strategy

Shen Lang is a person with rich experience in the struggle of “soul”. He wants to win him again and again, and he is finally killed by him. The spiritual power and the soul consciousness are crushed and blended by him to become a supply. Product.

So just the situation, let him understand what it is all about, nothing more than this thing wants to take possession of his soul.

But it is not necessarily that he wants to win his body, but more likely to use him as a threat to destroy, but also to use him as a supplement.

Not long ago, the scorpion dragon was also in this state of mind.

The way the other party uses is also tactical. First, it is a complete demonstration of weakness, making yourself like a stone, without spirituality, powerlessness, and death.

This purpose is tantamount to risking the risk of letting the target relax.

Then, at the moment of contact, with the speed of lightning, the spirit of the other party is directly taken over, so that the other party wants to defend against it, and then it is brought into the field that it is good at.

It only takes a moment to make the consciousness blank, and accepts that kind of integrated feeling, which is assimilated.

And this purpose is to let Shen Lang forget his own consciousness and get lost in the spiritual world of the other side.

However, Shen Lang is experienced. In the moment of taking his spiritual consciousness, he has already determined that this is the goal he is looking for, and the other party is also very spiritual.

The other party wants to swallow him up. He needs to do it. One is to take it away, but to suppress it in reverse!

Shen Lang said that the three-pronged!

On the one hand, I am awakened by the general withdrawal. On the other hand, the field of God exerts the strongest pressure on this stone, which is to crush it into a general high pressure.

In the third aspect, it is a powerful willpower to rush to the past, combined with the sense of just withdrawing, to a strong counterattack!

The reason why I did not go all out is not because I am underestimating the enemy, but just need to test it out. After I understand the situation, I can make a better attack. Otherwise, I will directly break it into waste, which is also harmful to Gao Hanqiu and others.

Now is the time to go to the frontal battle.

When Shen Lang once again fully attacked the past, the realm of God was also from the outside, imprisoned with the highest pressure.

The existence that just wanted to capture his consciousness did not have an entity. Instead, when Shen Lang was killed, he began to feel a little bit fleeing.

But now it is in its field, and it is completely blocked outside. It wants to escape and there is nowhere to escape.

“Get rid of it! Fight with me, you are not enough. Whether it is an artifact, a spiritual thing, or a super-existence of the dragons, it is not my opponent!”

When Shen Lang was in the all-round high-pressure mill, the idea of such an influence also affected the past.

Whether it is a spiritual thing or a spiritual artifact, it can reach this level, it is not completely open, and it has certain wisdom. It can understand his approximate meaning.

At this time, the spiritual strength of Shen Lang is a strong source of perfusion!

The other side is in this piece, it seems that he has to be a lot worse. He just wanted to sneak attack and the result was not successful. After he was fully crushed, he couldn't bear it very quickly.

Escape and nowhere to escape, playing and hitting, the existence quickly surrendered.

After a long time before and after, Shen Lang felt an idea.

This can't be translated into a clear word, but he feels a rough idea.

Just like the thought he just sent, a clear sentence, presented to the other party's induction, can understand the approximate meaning of a few is not bad, and it is impossible to accept his sentence completely.

After receiving the information of the other party's surrender and forgiveness, Shen Lang did not accept it immediately, but continued to maintain a high-pressure attack on both inside and outside.

This is his strategy!

If the other party shows his willingness to surrender, he immediately agrees and revokes the attack. What if it is a trap?

Then the other party will take the opportunity to counterattack!

Even if it is not a trap, he will feel that he is just like this. He can't hold it anymore, and he wants to stop.

Naturally, there is no way to conquer.

Far away, just two times in this day, in the magic forest, for the old dragon's acceptance, everyone put the cards out.

With the wisdom of the old dragon, you can clearly confirm that he can't beat him, plus he has the opportunity to take it away and fix it to the real body, so he does not need direct force to succumb.

The surrender of the barbarian two is the strong pressure of force!

If it is a smashing wave or a cold autumn shot, it should be able to beat them, but it is still difficult to do both.

Just to see that their barbarian is jealous of the dragons, they do not understand the true strength of the dragon.

So when Laolong personally shot, Shen Lang chose to help it, making it seem more powerful than its actual strength.

This is the use of the tiger to reject the wolf, so that the barbarian two fear the strength of the dragon, and the dragon listened to his words, naturally he would have to serve him.

Now, for this unknown thing, Shen Lang can't solve it, but must make it feel fear!

Therefore, he ignored it and continued to exert pressure on the past.

Now he is more smoothly, quite a bit of a long drive.

The other side, as he suspected, did not respond after the intention of surrender, and immediately resisted, there is still a surplus.

Such a confrontational attack lasted for a while. The specific time is too much, and it can't be calculated at this time. Shen Lang must concentrate on it so as not to overturn the ship in the gutter.

The experience of many soul confrontations has made him not only very good at many aspects such as ability, resistance and strategy.

In the end, that consciousness once again sent out the idea of begging for mercy.

This time it will be more earnest and earnest.

“If you want me to spare you, you can also but you must obey my order!”

Shen Lang responded strongly, which is in line with his previous sentence and showed a domineering posture from beginning to end.

The thing naturally hesitated, and the endless attacks of Shen Lang did not stop, letting it realize that fighting again would only be completely crushed and swallowed.

So after a while, it responded by agreeing to obey the order of Shen Lang.

Shen Lang is not so easy to be fooled, agree that this can not be verbal, nor can it be just a conscious consent, you must come up with actual sincerity!

Therefore, he did not have the slightest sense of pause, and the powerful mental power continued to crush the other side.

As a last resort, the existence of one can only send out the meaning of pleading, and then said that Shen Lang can control it.

It gave up resistance and it really released sincerity.

Feeling this, the spirit of Shen Lang is the strongest, and it is wiped out in one fell swoop!Chapter 2512 - Spirit of the Mirror

For this guy, Shen Lang is completely distrustful, and this is not controlled by surrender.

Just in that situation, if he does not own the door of the Three Realms, the world in this mirror may not be able to come out again, it is really a ship in the gutter.

After this contact, it was the second wave that almost killed him, that is, he was experienced and changed other people, perhaps he was confused.

So the strategy at this time is to press it first and press it to surrender completely.

But the follow-up is two-fold. On the one hand, it is used after receiving it. On the other hand, it is now.

If you have the opportunity, kill it directly!

This existence is forced to have no way. If it persists, it will only be annihilated by the waves. Therefore, it can only release sincerity and allow Shen Lang to control.

This time it should not be a trap, but a choice.

But Shen Lang chose the safest decision!

The surrender of the other party is a last resort. Like Meng Jin and Fu Wei, this is not a true return, nor is it a relationship of interest like the old dragon.

Two barbarians, anyway, are temporary partners, so there is no need to consider such a long-term. But if this thing is conquered, Shen Lang will take it away, and he will have to be careful.

From the current situation, no matter what it is, you already know that you are hunting, knowing how to pretend, strategy, etc., and now it may be a matter of expediency.

Once there is a chance, it may still be the Lord.

Now that there is this opportunity, Shen Lang will fall in one fell swoop!

This is also a temptation. If the other party is further deliberately showing weakness and wants to kill him when he wants to control it, there will be no problem.

When this power smashed the past, Shen Lang immediately encountered the strongest wave of counterattacks!

Sure enough, as he was wary, this thing just left in the final submission, still left a hand. If he closes his hand and gently controls the other party, he will encounter a shipwreck.

Although the strength of Shen Lang will not necessarily be attacked by this sneak attack, it is extremely uncomfortable to have a traumatic mentality.

Especially now in this day, in the magic forest, everything is still unknown, there may be various dangers, and must always be in the best state.

Now this blow is equal to the fact that the other party really yields and waits for a sneak attack.

The decision made by Shen Lang was right!

When both sides are fully attacked, it is a hard battle. Of course, the one who is stronger and the more powerful is will eventually win the final victory.

But there is another problem that has to be played. The key to winning is not exactly equal to 100% strength, but depends on how much strength can be exerted.

Both sides are prepared, but Shen Lang is a direct attack and also takes the lead.

The other party is because of the concealment of the sneak attack, and when it is to be promoted to full strength, if it loses its chance, it will not reach the best.

So this process is faster than the previous confrontation. It lost the resilience of confrontation, and the way of dodging and other evasive, the frontal hard hit, the force is not directly caught, it is suppressed!

“I have surrendered to you! Why are you killing me! I am not convinced, you are too treacherous!”

Shen Lang sensed an idea, probably such a consciousness, that the other party expressed its dissatisfaction.

This is the final complaint, but Shen Lang did not pay attention.

Again, in the movie, the villains often die from words.

Under the state of life and death, there is no need to force it, you don't need to let the other person pay attention, just kill it!

“why!”

His lack of response has angered the existence.

Unfortunately, it can only express its angerful thoughts. Shen Lang does not care about it at all, and directly flattens it completely!

When the whole consciousness was wiped out by the waves, the whole feeling of Shen Lang was completely different.

Still, as before, he can feel all about the mirror world, but now it is not being pulled by others, but he is completely in control.

He also naturally mastered this thing, as he suspected, this is an artifact that can create a mirrored world.

Before hunting them and wanting to swallow him, it is the spirit of this artifact.

But because the spirit has been wiped out, so a lot of information has also been cut off, and what is specific, it is not known.

Can only be sure that this is an extremely ancient thing, but also master the method of application.

Now it is equal to the formatted computer. Shen Lang is its master. He has mastered it completely and mirrored everything in the world. He can “see” or manipulate it.

This is the harvest of Shen Lang, of course, it is also a little lost, or less harvested.

There is the spirit of the past, if it is really accepted and controlled, then it can control this artifact very well!

This is an excellent helper when used to ambush an enemy or fight.

This is also the value of its “surrender”. If it is not of great value, yielding is meaningless, and it will not be such a thing. From the very beginning, it is stubborn.

Just like Meng Jin and Fu Xi, if they are very weak, and they are dragging their feet, what should Shen Lang leave them?

The current eradication will naturally destroy the value of the layer of the spirit. But because it is itself the spirituality of the energy body, it now erases its spirituality, and its own energy is still in itself.

There is nothing to lose in this regard.

Shen Lang is waiting for it, confirming that it has completely erased the consciousness of the instrument, then this is relieved, and carefully examined the world in the mirror.

This thing does not know what it is called, and Shen Lang is casually called a magic mirror, because it is like a mirror, and it is also acquired in this day.

The method of using the mirror is to turn on the illumination, you can turn everything in the projection range into a world.

This world is between real and illusory.

If it is purely illusory, like it just closed the “mirror” general “entry”, does it mean that the world has disappeared directly?

But in fact, there is no, but instead they are inside, they can't see the mirror, and the place where the transparent dividing line is, just like the searched boundary, becomes blurred.

So everything in it is still real.

But this is true, and it is not equal to complete truth. In short, you can feel the same outside the mirror, but in fact everything in it will not change.

For example, those trees will not grow taller after a hundred years; rivers are like loops, and there will be no living water coming and no flow.

Those who enter the inside will be completely trapped in it. No matter whether you look outside or can't see the outside, you can't leave, torture to death!

Chapter 2513 - Anxiety within

At this moment, the mirror is already in charge of Shen Lang, which is equivalent to a small world of his own.

Although the spirit of the mirror has been eliminated, but in the case of the mirror, this time should be really for their hunting.

And because of the fog-blocking relationship here, the world that is presented is only a few hundred meters. If it is in other places, it can be bigger, even infinite.

“What are you panicking?”

Shen Lang directly injected a consciousness into the magic mirror.

A few people in the world of magic mirrors, just starting to wait for the good news of Shen Lang, can still see him outside.

A lot of white fog suddenly appeared behind, and then disappeared, and then became a lot of red smoke. These smokes are not only appearing, but also overflowing from the dividing line!

That picture made everyone highly alert.

Although I don't understand what it is, all the way to this day, the magic forest, those faint fog, have extraordinary effects, can isolate everything.

Is there any red fog now, will there be no other effect?

In general, there will be bright colors, or black and the like, which are easily associated with poison gas.

So this red smoke makes everyone worry about whether there is any poisonous smoke.

Because of the barrier of this mirrored world, they can't sense the outside situation. They can only see everything outside through the naked eye, and only a little closer.

At this moment, the red smog is filled, and a lot of smoke is coming directly, so that everyone can't see clearly. I don't know what Shen Lang is doing.

The outside world is not clear about the situation, and it is not known whether the Shenlang is safe.

For the personal safety of Shen Lang, Gao Hanqiu and the dog ***** are concerned and worried. The attitude of the two barbarians, including the old dragon, will not worry about the safety of Shen Lang himself, but worry that he has an accident and cannot save everyone!

Before the cold autumn also said that everyone can wait for peace of mind, and then it is necessary to cooperate.

Therefore, at this moment, Meng Jin and Fu Wei feel that it is time to cooperate. The two of them claim to be a pawn, and of course they have to do these rough work.

So the two of them directly drove the red smoke coming in from the front line above the river.

Because this environment is not very large, even if these red smokes are diluted evenly, it may affect a certain line of sight.

And if it is a poisonous gas, it will take a wide range and windy conditions to dilute.

Now this is equal to a larger sealed space, the poison is not diluted, but scattered into a full range of attacks!

So the two of them worked together and made a compression of all the incoming red smoke, so that they were in a small range, and then pressed along the edge of the surrounding forest.

Their approach is to not let the smoke dilute.

In this case, regardless of whether they are toxic or effective, they are concentrated in a small range and will not spread to them.

Although in the long run, this is not the way, but for the time being they need to delay the time, these are distracted manipulation.

Originally, under such circumstances, they remained calm.

But when I got to the back, there was no red smoke coming in, and there was no outside!

What this is not, is that the whole “outside” is gone!

In addition to the red smoke coming in, they also saw a lot of red smoke outside the dividing line, so they couldn't see the waves.

Now I can't see the outside directly, the red smoke is gone, the transparent invisible dividing line seems to be gone, and the front becomes a flaw!

This embarrassing situation, they vaguely feel a little familiar. Is it just the situation that has just been explored at the end?

According to everyone's wisdom, even if there is no relevant experience, you can guess a general.

The incoming area is gone!

Although this area is one-way access, they can't quit after they tried it. Apart from visual inspection, they can't feel the outside. It is an invisible barrier.

But I can still see it, and confirm that this is an entrance.

With an entrance, there is naturally an exit. If you can't get out, it's just that you don't find a way to go out.

In a short time, it will not make people feel heart-wrenching.

But now the entire entrance area is gone, this change happened after the Shenlang went out, then there was red smoke, and then disappeared.

If they are not related, they don't believe it.

Everyone's attitude is different. Gao Hanqiu and the dog ***** are guessing whether Shen Lang has already found the key. Fu Xi and Meng Jin, it is doubtful that Shen Lang has ulterior motives.

The old dragon is somewhere in between...

"Can you explain the predecessors of the sand country? Is this going to be related to the king of the country? Your king, will not be trapped here?"

Meng and Jin have been squatting, and now Shen Lang is not there, he is difficult to raise the cold autumn.

Maintaining the courtesy of the title, but the tone is questioning.

Gao Hanqiu just responded with a faint response: "Patience."

Meng Jin and Fu Wei are unable to bear!

There was still a hope of export, and now it is even more desperate. If you follow the analysis of the front of the country of the sand country, if this is an artifact, if he goes out, is it directly taken away?

However, after all, the time is still short. They can't stand it and still have to withstand it. Without a longer time, it hasn't messed up.

It's just that Meng Jin and Fu Wei are a little impatient to walk around. If they are not afraid of any problems, they may even want to destroy them.

It was at this time that a voice appeared in the air.

“What are you panicking?”

The sound is actually not entirely in the air, but the whole space is reverberating, as if it is ubiquitous.

However, it is still recognizable. This is the voice of the Lord of the Kingdom of Sand!

Since it has not ran, it will make people feel at ease.

Fu Yi and Meng Jin both want to ask Shen Lang to see what happened outside.

However, when the words came to the mouth, Fu Xi stopped, and promptly blocked Meng Jin's opening.

At this time, people who are not able to take the status of their “pre-pawn” are asking for questions. The question is also the predecessor of the country.

So their eyes looked at the cold autumn.

Gao Hanqiu is a bit hesitant.

Because it has been proved before, the sound is here, and the outside can't be heard, and the consciousness can't be transmitted.

So now he can get in touch with the waves?

Shen Lang was talking outside, they heard it, but he was politely speaking, can the outside waves be heard?

“Are you comfortable inside? Or are you staying inside?”

This is followed by a sentence that makes the Fuxi and Mengjin, who are looking forward to the good news, even the old dragons surprised!

Chapter 2514 - Trembling

Fu Wei, Meng Jin, and Yan Molong, they are not familiar with Shen Lang.

There are two relationships between Gao Hanqiu and Dog God. Everyone has had a lot of life and death.

So when they heard this sentence, they could guess a general and very happy.

Although the specific process is not understood, it is obvious that Shen Lang has successfully obtained this spiritual object and artifact!

Just the words are the ridicule for them.

And if you let them continue to stay inside, it means that he is directly carrying this artifact, and they don't need them all together.

But the other three are completely unfamiliar, and naturally understand that they are not in place. When they hear it, Shen Lang is going to give them up!

He went out from here, but now he can yell at the outside, and it should be that he has successfully controlled the situation.

But this means, but I don't want them to come out. Isn't this a net?

Whether they are barbarians or dragons, they are buried in this strange place.

Perhaps the other person feels that they are cumbersome, perhaps after they want to kill them, and then take away their only resources.

As for the one person and one beast of the sand country, it may be saved in another way.

Shen Lang is of course a joke.

Leave them in this space, he is driving with a magic mirror, of course it is convenient, but that is convenient for them!

For Shen Lang himself, he will have to work ***** his own.

Why?

Isn't the old dragon caught as a coolie? Isn't it necessary to be a rider?

Fu Yi and Meng Jin, this is to be a pawn, to lift the role of the sedan chair.

How can they let them sit in the sedan chair, and he will lift the sedan chair?

So this is just a sneak peek, let them fluster.

Then he did not explain so much, and did not delay for too long, directly extracted the dog ***** and the cold autumn!

The two of them are on the dragon's spine, and they will get them out separately. On the one hand, the dragon is too big.

On the other hand, of course, because the two of them are the closest, if there is any problem with this process, Shen Lang must first rescue both of them in time, and others can be adjourned.

So he started out the two of them separately.

This situation, in conjunction with his words, let the barbarian two directly blow up!

“What’s the matter! Take them away from the sand country and trap us here!”

“Pretty dragons! Look, you are friendly to them and you get such a treatment!”

“The owner of this sand country, I have long said that I can’t rely on it!”

“We should unite and fight against them in the end. We must never listen to their command. Otherwise, there will be no life!”

After all, the dragons have lived for a long time, especially after the shape of the dragonfly, and the body has turned into a mountain.

Being able to withstand the existence of loneliness, and giving control to Shen Lang, of course, will not be as irritating as the two of them.

Even if it has a similar feeling, but more is that Shen Lang has not regarded it as his own person, or is close to him, that one person and one beast is the first priority.

But it has not forgotten the high hat that Shen Lang gave it. It is powerful and has great value!

It is impossible to simply ruin it here, even if you really don’t want these two barbarians, you will still have to bring it out.

Just when the barbarians couldn’t help but complain about the swells, the huge body of the scorpion dragon disappeared out of nowhere!

This result can naturally be guessed. It will not be that it has disappeared. It is not the case that there is any change. It must be that the Lord of Sand State rescued it from the outside.

Fu Xi and Meng Jin could not help but laugh.

They have put everything down, including the most important dignity, but they still can't change their attention. They still regard them as unfamiliar white-eyed wolves.

Now that the people of the sand country and the beasts have been taken away, and the dragons have also been taken away, leaving them two barbarians, is not enough to explain everything?

"It's over! The Lord of the Sands has left us!"

"I know that this beast is not well-behaved. He can kill us. If you don't kill us, you must humiliate and torture us!"

Meng Jin is full of hate. If they are released outside, or escape, they still have the opportunity to return to Shibuya, or there is something to do in this day.

Now trapped in this mirror world, they are really finished! If you can't find the key, you will always be trapped inside.

"You two, seems to have an opinion on me?"

When I was outside, the dividing line was to distinguish the two sides of the mirrored world. When I was near, I could see the inside of the mirror and the outside of the mirror.

But what you say is inaudible and undetectable.

Now it is different. They are still in the same place, but Shen Lang can sense all the moves in it, because this mirror artifact is now in his control.

Just after their two unsatisfactory words, Shen Lang is clear.

This sentence was asked, and the complaints of Fu and Meng Jin were paused.

"Respected Lord of the Kingdom of Sand, I guess that you are like God now, you can hear our voices, then I am not afraid to tell you!"

Fu Wei is afraid that Meng Jin's words are even more ugly, letting him suppress his emotions and actively negotiate with Shen Lang.

He does not know at all the direction in which Shen Lang is in the same direction. He can only speak in the air like ordinary people to the gods.

"We just asked ourselves that we are completely reconciled. Although we don't have a long time, we are also doing our best to follow your arrangements, including entering this mirror world. It is also our patriarch's first step."

"But you have to banish us in this place, not ready to take us out. Is this a bit too much?"

There was a sneer in the air.

"Who said that I want to exile you? This place is mysterious and strange, but it will not kill people right away. It may be a long process of hundreds of years..."

Hearing this sentence, Fu Yan and Meng Jin's face changed greatly.

This is a threat!

They can actually not be afraid of death, but they are not willing to die without value. It is not easy for individuals to practice and evolve to this extent. Individuals are no longer individuals, but representatives of barbarians, responsible for the entire barbarian...

These reasons are all supporting their idea of pretending to be a grandson.

It's a long process to hear that it's going to be stuck here for decades and hundreds of years to die!

In a small place that cannot be left at all, for decades and hundreds of years, I have been dying to death, and I can't see any beginnings. This fate has made them panic.

This is equivalent to giving a sentence without a sentence!

I still want to be a bit hard, I am stunned, what do you want? It is a fact!

But now I dare not say it again. This is much more tragic than killing their fate directly.

“I want to kill you, let you occupy such a place for decades, hundreds of years, let you live so long, is it cheaper for you?”

Listening to this, let them have a little more expectation in their hearts, is it not to keep them here?

But now they are not sure about the routines of Shen Lang, and they dare not talk indiscriminately, lest they say more mistakes.

“I want to save you out, it takes time, and it needs to be in order!”

“The little ones in our country, the closest to me, are of course easier and more important.”

“Don’t look at how big you are!”

When they heard this, they couldn’t help but surprise.

Was it going to come in order? Then they have no problem in the back. As long as they can save it, there will be no problem later.

Although it is secretly vomiting, even if the one person is much smaller than them, the dragons are much bigger than their heads. Why go out in the middle?

However, they dare not say this. Who knows if the dragon that is already outside can hear it?

If you hear it, isn’t this a crime to offend the dragon?

For the dragons, they still have deep jealousy.

“The relationship between the dragon and us is of course closer than you. People are still working hard to be my mounts. They contribute more than you, and they are in the middle. Is there any problem?”

“No, no problem!”

Fu Wei finally reacted, and quickly stated.

“Respected Lord of the Kingdom of Saudi Arabia, I am very sorry! We are too nervous, too, too... too afraid of death, and as you said, our contribution is not great, so I am worried about your abandonment!”

“Now we understand, although our size is huge, but our mind is too small, and I have pushed people, thinking that your heart is not big, I did not expect you to be a great person, is a person with extraordinary mind, It really makes us feel ashamed!”

Fu Yan began to flatter again.

This time Meng Meng did not feel disgusting, but admired the reaction of Fu.

And as long as he can take him out and say a few good words, even if he is disgusting, he can accept and do it.

“Yes, yes, the lord of the respected country of sand, we should finally come out, we just lost it, but I hope you don’t mind, still save us.”

Meng Jin has opened his mouth, but he still can’t do the embarrassing gesture of Fuxi He feels that he is a patriarch, or he has to have a little patriarchal dignity, and he can’t be too low.

“Don’t! Where is my respected Lord of the Shah, I am a beast who has thrown you down and is not well-intentioned.”

The words of Shen Lang taunted and said that Meng Meng suddenly felt the pressure.

This means anger!

Just as he vented his anger, he had already annoyed the other party. Now it is to settle with him.

Compared with his words, Fu Wei does not seem to be so ugly, and the complaints are still in the normal range, so I have not been ridiculed for just explaining the pleading.

Finished, he is finished!

Meng Jin has been unable to withstand the dignity of the patriarch at this moment. When he thinks that he may have been locked up in this strange place for hundreds of years, until he finally died, he could not help but tremble.

“I was wrong!” He slammed!

Chapter 2515 - Gift

Although Meng and Jin have the arrogance of the patriarch, they are not without experience.

He is also very clear in his heart that the value of his resources and information has long been hollowed out, and what remains is the value of dignity.

He can't figure out what makes the other person's heart move, the memory is read, and there is no secret to exchange. The only thing that makes the other person feel good is watching him bow down as a barbarian.

And this bow, the lower the miserable, the more refreshing the other side.

They just bowed their heads, but mainly because Fu Xi was bowing his head and offering memories, and submitted all the secrets before they won the space for survival.

Now he must have come in person. It is him who just smashed the waves, and Fu Xi can't replace it.

So he fell to the ground directly, then hoeed!

Words can't express anything, only bowing to the head, let yourself be as humble as possible, or let the other person happily and spare him.

Looking at Meng Jin's movements, the symbol next to it is not a taste.

It is said that he looked at Meng and grew up, or slightly exaggerated, but he is indeed older than Mengjin, and he is also interested in the same cast. He has influenced many Meng and Jin, and Meng Jin also gave him a lot of freedom.

Just now he took the initiative to take everything to apologize. First, he was afraid that Meng Jinao would be upset, and he wanted to keep the dignity of Mengjin.

At this moment, Meng's sorrowful slogan is undoubtedly putting down his last dignity.

Fu is both uncomfortable for Meng and Jin, and uncomfortable for himself. Because Meng Jin is a patriarch, the patriarch represents the barbarian.

Although they do not have the temperament of "the death of the tyrants," he is a member of the barbarian. When he looks at the humiliation of the patriarch, he feels humiliated and should take the initiative to solve the problem.

Seeing Meng's sorrowful bow, he did not win the lenient of the king of the sand country.

Fu Wei feels that he must add a fire, otherwise Meng Meng may not really save!

He took the initiative and did not hesitate. He would not discuss anything with Mengjin, but acted directly.

"The lord of the honorable country of sand, I have traveled all over the years, and I have a little reward. I am willing to offer it to you. In good faith, you may not see it, or I hope you can laugh."

When he said something, he had already presented several items in his hand.

There are two sun beads, and then there is a vessel, which is full of heaven and earth essence!

This is to save Meng Meng, but it is also a kind of self-protection.

Because his memory has been read by Shen Lang, and what he has, Shen Lang knows it. If he wants to win him, and now the people are strong, he and Meng Jin have no way to resist.

The reason why I didn't move was probably that I didn't really see it. I felt that the information in his memory was more important, and it might just be that I hadn't moved yet, or I wanted to use their combat power.

Therefore, at this time, his initiative to give out is a kind of interest.

In this case, it is possible to avoid the other party pulling down the face to grab, and to continue to act as a member of the combat power, it should be able to make the other party more satisfied.

Anyway, you may be robbed, it is better to be personal!

The shingling outside, of course, did not think about extorting them. After all, the dragon has already clamped two of them before, and you can smash them all.

They will have another attitude in the back, and Shen Lang is also expected, and they have not made them convinced.

But now this result, he is also satisfied.

Really can only be a small punishment, there is value in use here, can not keep them in it.

Meng Jin has put down the patriarch's dignity and bowed his head. Fu Lu and his initiative to offer the collected items, what bicycles do you need?

He did not pretend to hold anything, and directly collected the essence of the heavens and the sun beads.

He has the memory of Fu Xi, and knows that this is indeed a good thing to collect. The sun bead is still a gift from the elders he used to be. There really isn't much.

The essence of heaven and earth is his own harvest outside, but he has not turned in.

Of course, there are other items in Fuxi, not just this, but the Sun Pearl is a barbarian treasure, representing sincerity, and the essence of heaven and earth is the treasure that anyone can use.

So he didn't offer the other ones, they used them directly.

After Shen Lang received it, he let Fu Fu breathe a sigh of relief.

What he is most afraid of is the Lord of the Kingdom of Shah!

No, what is often represented is all!

If you have already thought about killing both of them, then all of them can be collected. Why do you offer the same?

So now I can accept his gift, saying that I can forgive the disrespect before.

Then his body left the mirror world.

In the end, there is still a man and a man who is still on the scene. His whole heart is empty.

Just the value of the gift of the gift, he is very clear and very painful.

At the same time, he is also very regretful!

Just because he did not control the emotional anger, Fuxi had to pay for these to redeem him, otherwise he might be finally dealt with here.

The other party will accept the words without saying anything, and he will be able to understand it. This is to give him a warning. If you still have disrespect, you have to pay the same or even more!

But after Fu Xi first went out, Meng Jin still had a dim sum.

After all, he didn't know about Shen Lang. Even if he felt that the opportunity was already saved, but he was still unhappy with him?

Don't say that it is a very uncomfortable thing to shut him down alone for a few years.

This is not the same as retreat. It is in a safe environment that you are familiar with. It is planned to carry out. Even if it is ten years, it will soon pass.

But this is imprisonment...

Fortunately, he did not suffer for too long, and then Shen Lang put him out.

After coming out again, Meng Jin secretly took a deep breath.

"Thank you for the forgiveness of the Lord of Sands Shen Lang faintly snorted: "You made a mistake, thank you, not my forgiveness, I saved you from that world. "

Meng Jin secretly smiled, isn't it? This is not the other party's entry, just decided to save him.

"Thank you for your help! I am very embarrassed, I am not good at exploring the road, but instead bring everyone into danger."

After bowing again and again, his dignity has been repeatedly lowered, and this is a natural review.

Shen Lang made a snap, "Continue to go!"

Others have arrived on the back of the dragon.

Gao Hanqiu and the dog **** are also following the past, Fu Xi is still in front, and pulls Meng and Jin together to explore the road.

In front, the river of tens of meters is still a river, but the feeling of being a little wrong before has disappeared. The situation on the other side is not a mirror image of this side.

Chapter 2516 - Ridiculous land

Without the “magic mirror” of hunting, the river is an ordinary river, and the river of tens of meters, both for the dragons of the year and the ancestors of the barbarians, is plundering and insignificant.

Going forward, Shen Lang will begin to interfere with the direction of Meng Jin and Fu Wei.

Meng Jin is following the symbol, and the path of Fu Xi is because of the content above the stone.

Stone carving is also the information that the barbarian ancestors got very likely to be the ancestor.

These twists and turns again and again may have deviated from the real many. And the information of their first parents is not the same as the dragon.

Shen Lang is now the one with the most information and can be judged comprehensively.

It would have been good to follow the Fu, but there was nothing to gain along the way – in addition to the mirror, and the two of them are also rewards.

In the end, Shen Lang decided to go to the ridiculous land first to see if there really is a fountain of eternal life.

The fountain of eternal life is the yearning for the dragons. If you can get it, it should be regarded as the biggest gain of this trip.

If there is still a harvest in Tianmolin, it will be excellent, even if there is no other, it will not be a glimpse. It is already full of rewards.

However, this route is not clear, so Shen Lang will interfere to guide his direction.

Fu Wei certainly can't have any opinions, and he doesn't dare to ask.

The other party has long said clearly that the owner of the decision-making power is the one of the king of the country. Even the dragon has no objections. Of course, he is also obedient.

I don't know if the route that the dragon left was safer, or because it has changed for thousands of years. This road has not encountered any other aliens or beasts.

But the state of the dragon is a bit wrong.

When it left, it was a single intention to smash the green monster on the body, and did not care about the route, so it came back later, it did not have much familiarity.

Shen Lang is also digging deep into its memory to determine the route.

But as it approached the ridiculous land, it became familiar, and began to evoke the mood of the year.

It was originally a large number of green monsters licking the body, the inability to open the bite, and finally the result of eating it into a skeleton, naturally it also has a psychological shadow.

In addition to the shadows, the long years of his career have filled him with resentment and want to take revenge.

In addition, there is a hope that the Fountain of Eternal Life may have the opportunity to make it grow again!

When these emotions are added together, bringing it closer to the barren land, the mood becomes complicated.

Shen Lang is feeling the emotional change of this point, but the existence of the dragon is not required to do psychological construction.

Now that the dragon is already in a state of paralysis, it is not afraid that the green monster will be ruined.

Instead, they are a few, need to be more careful, and the green “small” monster, aimed at the body of the dragon, for the Terran, is relatively short.

“Everyone noticed that there will be a ridiculousness in the forest, and there is a goal we are going to!”

“There may be a green monster in that place. The speed, endurance, and attack power are very amazing. The number is also huge. If you are not careful, you may be ruined by them.”

At this moment, Meng Jin and Fu Wei are partners, and everyone’s interests are one. Shen Lang needs them to deal with the Green Devils, but they don’t want them to be fed the Green Devils.

Therefore, his wave of reminders is very serious, so that all of them can hear, not just the cold autumn and the dog god.

“Thank you for the guidance given to us by the Lord of Sand, we will be careful...”

When Fu Xi’s words were not finished, they were interrupted by the sound of the dragon.

“If you don’t pay enough attention, the best end is that I am!”

It can be sensed at a time, and Fu is certainly a respectful answer, but more is to express obedience to Shen Lang, rather than really paying enough attention.

Fu Xi and Meng Jin are awesome enough for Tian Mo Lin. Even if the waves are not sorrowful, Fu Xi has long been ravaged by Meng and Many.

So just that sentence, when they heard it, it was just the case of the actor before the arrival of the destination, it was really not enough attention.

When I heard the dragon at the moment, it was a deep earthquake.

They don’t know how the dragon became awkward. Later, it is speculated that the owner of the sand country saved the dragon and got it.

Now that I heard this, I know a little more about it.

The dragons in the remaining state can crush them. How powerful is it when it is full?

And such a dragon, but by this green devil to smash into a skeleton, it shows how amazing these things.

They are also very clear, the dragon is right, even the state, it is the “best end”, if they are smashed, they are likely to die on the spot.

The magic dragon is really enough to pay attention. It kills it again and wants to take revenge. It is not sure about it. It also needs a few of them to help, including the barbarians. It will be an important boost.

Therefore, it does not hesitate to expose its ugliness, but also to make them highly valued.

The atmosphere at the scene became tense.

When they arrived at this time, the dense fog around them was even worse. The basic visual inspection and the range that could be sensed were more than 100 meters.

When Shen Lang read the memory of the dragon, it was rampant and didn't care.

But now they don't dare to do so. They need to be step by step. The closer they are, the more they are kept on high alert.

Under such circumstances, the front suddenly became brighter!

This is also close to the ridiculous land along the edge of more than 100 meters, the ridiculousness that appears, there is no thick fog covering.

Originally, Shen Lang has already had the memory here. At this moment, I will see something more clearly.

This ridiculous place range is not too big, visual inspection can see the end.

Without those fogs, the knowledge of God can be fully arrived. Basically, there is a large circle around, with the original forest state, and then extending more than 100 meters, there will be thick fog.

This day, the magic forest has not been cut down, and there is no special environment like cold fire. It can grow very well and the vegetation is very lush.

The sudden appearance of such a ridiculous open space is very strange.

The dragons came here to have their information, and they came here all the way.

The last time the old dragon flew directly into this ridiculous land, but had not had time to search, and did not find out whether there was a fountain of eternal life, there was a group of green monsters.

And these green demons with amazing lethality and number will appear so awkward here, so that the old dragon feels that there is nothing wrong with the place, and the fountain of eternal life is here.

These green demons are nothing more than wanting to monopolize!

Chapter 2517 - Green Devil appears

At this moment, I have already reached the edge of this ridiculous land. When the half body of the dragon is coming out from the edge of the forest, in front of the two giants Meng and He Fu, the body is almost in the ridiculous land.

Because it was warned before, everyone is guarded by God.

But including Shen Lang, there is a hint of surprise.

The empty barrenness in front of it did not have the slightest movement!

If you don't say it, it is the induction of their whole gods. They can't find the slightest abnormality. There is no shadow of the green monster, and there is no spring of eternal life.

Of course, this is the special place of the ridiculous land.

Just like the previous times, entering the scope of the confused forest, Shen Lang feels too comfortable, and feels abnormal; when the world of the mirror is normal, but can't say where it is wrong.

The same here, it looks too normal, no special.

But there is no special, no creature, in the depths of this day, it is a special kind.

Now everyone is ready to fight, especially the old dragon's appearance, so that they have maintained the highest level of defense.

"The last time I came over, there was no abnormality on this side. Once I entered the inside, there would be some green little things to attack, which was very difficult."

The old dragon once again made a sound and said his experience.

Then, while maintaining the alert defense, everyone dropped their attention on Shen Lang, waiting for his command.

Gao Hanqiu and the dog gods don't have to say that they are completely obeying the arrangement of Shen Lang.

The emotions of the old dragon are very complicated, with shadows and even a hint of fear, but the attraction of the heart of vengeance and the fountain of eternal life must have prevailed.

Meng Jin and Fu Yu are two, but now it is a bit embarrassing, but it is difficult to ride the tiger.

When they come here, they have their route. It is the arrangement of Fu. But now it is changed, completely in accordance with the waves.

This place, but even the dragons have become the horrible existence of the bones, will their barbarians be self-defeating?

But in turn, this is where the dragons are fascinated, and there must be a treasure!

– Of course, this is because Shen Lang and Lao Long have not said the secret of the Fountain of Eternal Life.

Because everyone is full of thoughts, Meng and Fu are both thugs, which is their use value. Not yet a partner who can share secrets.

If you finally get the spring of eternal life and give them two, it depends on their contribution.

If they are fighting bravely and playing a role, it can be given to them.

If they are in danger, the two of them will run, even if they are against water, so naturally don't think about it.

“Be prepared...on!”

Shen Lang was a slow opening. After he finished speaking, he paused and gave them the preparation for the final reorganization. Then he gave orders.

The three of them are still on the back of the dragon, but no one is sitting, all have stood up, maintaining a high degree of defense, ready to dodge and enter the battle.

At the moment of the charge, although I did not see any enemies, except for Shen Lang and Gao Hanqiu, the four of them all made a scream!

This is a self-improvement morale.

Memory can be read, but it can't be felt.

Shen Lang has the memory of the dragon, and for the original situation, you can understand a rough thought through deep thoughts.

But the feeling of the dragon at that time could not be realized.

So for Shen Lang, the information is still not complete, and even some key missing.

At the moment of rushing into the ridiculous land, Shen Lang and Gao Hanqiu, the dog god, all left the dragon's back and left in the air.

Shen Lang immediately experienced the feelings here, but...

In fact, it has entered the scope of the ridiculous land, and there is still nothing special!

In other words, he can't know the original feeling from the memory of the dragon, but in fact it is very likely that there is no special feeling.

Is it because you just entered, do you want to go deeper?

However, the situation on the spot has changed!

When they rushed into this ridiculous land, they immediately appeared in a group of green demons!

These are the little green monsters in the memory of the old dragon. When it comes to the head, it is also a little more than a meter, like a relatively small human.

It is not known where they are hiding.

What is certain is that when alien creatures enter the ridiculous land, they will be motivated immediately.

And for whatever purpose, they are all desperate for the guardian here!

In the memory of the dragons, they are very difficult to get rid of, and they are constantly eroding their flesh. In fact, there are some neglects. Even if these green devils are killed, it is not dangerous in the dangerous situation.

And there are a lot of them coming, a part of them dead, and there is no meaningful meaning.

At the moment they appeared, Shen Lang had a familiar feeling!

This familiarity is not what he has seen, nor is it because of the familiarity of the dragon's memory. But this way, he feels a little familiar.

He thought of a scarab!

He used the golden scarab to summon a large number of scarabs, and it was such a void.

The scarab is also a huge number, and then crazy predation, as if it is a state of extreme hunger.

Now that these green devils appeared, they made him feel a sense of "hunger", and then combined with the magic dragon finally smashed into shackles, it is almost the same.

However, this can only be said to be similar, but it is not the same, and it is even more impossible to manipulate these green demons with the gold scarab.

When a large number of green demons appeared out of thin air, and then went to the group of them, they suddenly flashed.

Between the time, the latest batch of Green Devils was shattered, and the other Green Devils were forced to retreat a certain distance.

It is high cold autumn!

Gao Hanqiu directly defended them with an invincible sword, and cleaned up the Green Devils who came close.

This power is extraordinary and the effect is excellent, but the result is to make the cold autumn frown and wait.

His first blow, although a defense-based counterattack, is enough to wipe out a large number of enemies.

The first wave of Green Devils was also directly crushed into powder, but more Green Devils behind them just forced to go out and not be killed continuously!

This illustrates two problems. One is his strong sword wave. The range of effects is limited. Only the one that has just been touched first, and a little further away, may be significantly weakened.

The other is that these Green Devils have a high level of defense. A weaker attack power will only be able to knock them back and hit them, but not kill them.

This also fits into the experience of the dragon!

Chapter 2518 - Not afraid of death

These two points are thought of by Shen Lang. Others have no experience of the experience of the dragon, but they all know this, so it is also thought of.

Originally, they have all prepared for the battle and strengthened their defenses to the strongest.

At this moment, it is a spirit of twelve points, and I dare not care about it.

Especially in the cold autumn.

His realm is higher than Shen Lang, and it can be regarded as the strongest one on the scene. Just the sword of the same wave, he did not have the slightest mercy.

It is a group of beasts of super beast ***** level, and it should be completely annihilated!

But now only the first wave, crushing them, has achieved his expected results, a large number of green demons are only shocked out, far from the effect of killing.

Shen Lang can think of two points in an instant, Gao Hanqiu has a clearer understanding!

The speed of the sword air wave is extremely fast, and it can be very large in an instant, but these green demons are piled up!

This means that at most, only a few meters in front of it are crushed. If they spread to a few meters, they will be greatly weakened. It is impossible to kill them and they can only be pushed out.

That is terrible!

In the fog of the Tianmo Lin before, the limitation is the sensory induction, but if you want to attack the battle, you can still be normal. And if you are not afraid of danger, you will not get a noticeable impact.

This ridiculous place does not have any restrictions on the knowledge of the gods. They can be seen at a glance and can sense the distance, but now it is found that there is a strong limit on the attack power.

Gao Hanqiu did not open the door to remind everyone, I believe that the scene can be experienced.

Others are next to Shen Lang, the dog ***** is on the other side, they are all suspended in the air, then one dragon, two barbarian.

Everyone is a whole team, but concretely, it seems to be three teams.

Once you encounter the danger of being unable to confront, the high cold autumn and the deep waves, the dog gods and the three of them, naturally will give priority to mutual protection. When there is more than enough, other things will be considered.

Two barbarians, and the old dragon, of course, also consider themselves.

But now the Green Devil has not attacked the side, Gao Hanqiu does not need to care for them a few, his attack range is smaller and bigger, the impact is not big.

When it was said that it was too late, just after the first attack of the sword air wave had a result, at the same time of analysis and summary, he had already attacked the second attack!

The second sword air wave is still the defensive priority. It protects them around the six, mainly the size of the dragon, but in the end it is a group, and it can't be left because it has no meat.

So this is erupting from the edge around them, which can prevent them from being attacked by accident.

The first is the same, the second is the same, but now it confirms the first wave of summary!

That is to say, just the first time, you can also smash a wave of green demons, because these green devils are already close.

But except for the recent few meters that have been crushed, others have been pushed out, and there may be different degrees of injury, but the individual is still there and there is no death.

They are also counterattacking right away, but now the second wave is coming again. It is still the last few meters!

This batch is not shocked and counter-attacked, but continues to emerge again!

The result is that they have been crushed to the nearest, and others have been shocked to fall to the distance.

But because the latter ones have re-pushed over, they are a kind of counter-pushing, and they are all pushed up, and they are forced closer.

Plus there are still a lot of outbreaks, and the more piles!

The advantage of this is that because of the accumulation of more, you can crush more quantities when you attack again.

The downside is that because of the accumulation of more, the synergistic thrust of the strong rush will be greater, and the impact of the weakening will be more difficult for them to launch. The more the green devils, the impact of the green devil behind. The smaller it is.

The Green Devil who is injured in the front may be slower, but on the one hand, it will be rushed by the back, and if it is far from being injured, it will fly faster and faster.

And such a result, you need the attack of the cold autumn to keep the moment!

One wave after another must be attacked to ensure that they will not be broken through. Even so, the pressure behind the accumulation will be a rapid climb!

Even if the attack power of the cold autumn can continue to remain the same, the pressure to be broken will be bigger and bigger!

Shen Lang looked in his eyes, and there was a quick rehearsal in his mind. He also had a vivid analogy – the zombie siege in the movie!

Fast, not afraid of death, not afraid of pain, hunger instinct, crazy attack, these green demons are similar to the threat of zombies to ordinary people.

When the zombies attack the defensive position, if there are guns, they can hit the front of the bang, but the latter will continue to surge, even if the number of guns is more, it will be because the pile is higher. Zombies, and become more and more stressed.

Therefore, you can't rely on one's defense and attack, but you must strengthen more attacks while defending, and you can't let the other side pile up!

This includes several other people who are involved in the battle, including the colder and stronger attacks.

In the next moment, the third and fourth attacks of Gao Hanqiu continued, and they were able to maintain balance for the time being.

The old dragon and the two barbarians are still a little warm for the cold autumn to protect them together.

In particular, Meng Jin and Fu Yu, they are very clear in their hearts, the other side keeps them, that is, they feel that their combat power has value.

Normally, at this time, when they are letting them take the lead in consuming enemy firepower, they can protect them together. It's really a partner rather than a cannon. Since the people of Shaguo, It's time to see them as partners, and the two barbarians certainly feel that it's time to reflect their value!

In such a dangerous environment, only by proving that you are strong and have the value of use can you be retained and respected.

If they really let them be cannon fodder, they must also go all out. There are still others who are helping cover, and of course they are more reassuring.

The old dragon was once ruined by these green little monsters. It is a resentment that has been backlogged for at least a few thousand years. Even if Shen Lang does not use it to lead the show, it is directly rushed out!

The three big heads form a Y-shaped rush, which is directly over the cover of the cold autumn sword, going inside the Green Devils!

The dog **** originally wanted to protect the Shen Lang. Later, I thought that the Shen Lang was not only strong, but also smart, and more means. It was safer than everyone, and there was a cold autumn.

So it also rushed down, its body has become bigger, but it is like an elephant, to reduce the area of attack, while maintaining flexibility.

Chapter 2519 - Toxic attack

When everyone attacked together, the sword wave of Gao Hanqiu was not so convenient.

Because each is mobile, the speed is very fast. If he wants to protect their surroundings, they must be more distracted and unable to attack.

However, he is also aware of the strength of the other four, so he immediately made adjustments in tactics.

Originally he was the first to attack the main attack, and now it has become a defense and assists.

Let them attack four, he condensed a lot of swords to swim around, in their vicinity, once the Green Devil broke through their respective defenses, Gao Hanqiu will kill them.

In this way, it is better for him to play. Since the power is greatly reduced, he does not make a positive assault role and changes to a sniper shot.

Together they are divided into three camps, and they don't get along with each other, they can't talk about tacit understanding, and even trust is limited.

But after all, they are top-level existences. Even if there is no cooperative combat experience before, it is a moment of hands-on, and it has reached a relative tacit understanding.

This is because everyone's realm is so high, the brain is running very fast, whether it is shot, dodge, or collaboration, etc., can understand the intention in an instant, and cooperate with their own state.

That is, everyone can enter the same rhythm.

Just like the All-Star Game or the national team, everyone is the core of each team. It is played by others, but they can be selected as all-stars and national teams. They are all elites. Everyone can greatly reduce the running-in. time.

The power and quantity of these green demons, as well as the special nature of this environment, make everyone concentrate and must maintain the best condition.

Naturally, no one is going to control what Shen Lang is doing. On the other hand, it is not available. On the other hand, Shen Lang is like their leader and is detached from them. I can't care about how he didn't participate in the fight...

Of course, Shen Lang is not idle, and does not want to see everyone as cannon fodder.

If this is an All-Star team, then he is the coach behind him. He must look at the overall situation and make the best analysis and pre-judgment for the various situations in front of him to avoid their sudden situation.

If everyone has already hanged the line, he will of course take the shot directly, but now the battle has just begun, everyone is still in a state of full prosperity, and there is no need for him to go to kill the enemy.

Because of the thought of the scarab, the natural wave of the Shen Lang took the gold scarab out, he could not directly use the gold scarab to manipulate these green demons.

But you can let the scarab go to kill!

Attack with poison.

The best, of course, is the ability to find this “switch”, just like the mirror, if you can find the root cause and “control switch”, you can end this continuous attack ahead of time.

The last time the old dragon was here, it was smashed by countless green devils, so that it didn't take long for it to go back into the forest.

The idea at the time was that they could not be opened, but they were knocked open and detached by the impact of trees and stones.

After all the Green Devils have been opened, it will of course come back.

It's just that the back is not only not solved, but it has been solved...

Shen Lang looked at the lessons before, of course, can not appear such a scene.

Before looking for flaws, he first began to manipulate the scarab to defend against this amazing number of green demons!

After the operation of the Golden Scarab, tens of thousands of scarabs burst out!

Shen Lang's consciousness manipulated and excluded one of his own six. Although the old dragon had no meat, it was also included.

These scarab beetles are also not afraid of death, do not die, only crazy insults, must first do a good job of rejection.

Where the scarab appears, it is among the countless green demons!

These are the smallest scarabs of the size of a bowl. They are not picky eaters. The Green Devils are something that they can't manage. As long as they are fresh flesh and blood, let them madly smash.

And now the number is so much, they don't need to look for it at all, and it's okay to go crazy.

Shen Lang continued to release, thousands, 10,000, tens of thousands...

Later, he made a little control, and did not dare to let it go indefinitely, lest his own mental power be greatly affected, and it would be worth the loss of neglecting other changes.

These tens of thousands of scarabs are already a great force, and all of them are death squads!

At this time, Shen Lang felt a strange...

Because there is no need to look for it, there is no need to chase it. If there is a direct appearance, there will be raw meat that can be ruined. Let the scarab beast appear more exciting than any previous one!

The excitement of a scarab may be faint, but tens of thousands of people come together and continue to become very strong.

This directly affects the Shen Lang and makes Shen Lang very excited!

When Shen Lang first began to control the scarab, the number was only a few dozen, but with a little focus, he has clearly understood the various situations.

For example, their kind of hunger and madness can make him feel it too.

Now this intense excitement, which in turn affects him, is not too much of an accident.

What makes Shen Lang feel the same is that these excitements seem to provide him with energy!

Originally, to control such a large number of scarabs, it is necessary to consume a lot of his mental strength, but now the intense excitement of these scarabs, gathered together, not only affects his excitement, but also seems to feel a kind of spiritual power. !

To put it simply, the super excitement of these scarabs is similar to the power of providing him with faith, which is directly accepted by him.

This was something that I had not experienced before, and I did not think of it.

Shen Lang does not now call for more scarabs to come out, but to experience the “excitement” of these tens of thousands of scarab beetles.

In his spiritual control world, there are tens of thousands of light spots. A few light spots are stronger. Those are as big as the washbasin, and most of the small spots are small.

But these spots are also a lot of extinction!

Because the Green Devil is not vegetarian.

The scarab is desperately smashing the green devil, the same style as the green devil.

Although the scarab meat is less, the attraction to them is far less than the two barbarian red giants in front. And they seem to be more than just to satisfy their appetite, but to annihilate life into this range.

But these scarabs are also life, but also invaders, and they are still directly threatening their lives.

Therefore, in addition to the recent impact on Meng Jin, Fu Xi and the dog god, most of them are instinctively stunned by the scarabs.

The Scarab is much weaker than the Green Devil who can sneak out. Even if the defensiveness of the shell is not weak, once it is smashed by the Green Devil, it will be finished in an instant.

It's just that the scarab is dense, especially small, more flexible, and it's in the heap of meat. Although there were mass kills, there were also many Green Devils who were smashed.

Chapter 2520 - Insect

How many people have died in the Green Devils, Shen Lang can not accurately know, and tens of thousands of Scarabs are hundreds, hundreds of deaths!

This loss rate is naturally nothing, he doesn't even need to add it back at any time.

The other five, in the process of the attack, also need to spend a considerable part of the self-defense to avoid being contaminated.

The innumerable scarabs came out, and they all started to startle them. If these smaller bugs are also with the green monsters, it would be a very headache.

Then I discovered that even if they attacked the worms because of the treasure, these worms did not attack them, and they attacked the green demons completely.

God knows about Shen Lang again, and you can confirm that these should be manipulated by Shen Lang.

This is also because Meng Jin and Fu Xi, have not seen the side of Shen Lang summoning the scarab.

The dog **** has no scruples, and the direct charge is in the air.

The appearance of the scarab on the one hand has a great impact on the attack of the Green Devil. On the other hand, it is the most green monsters involved, so that several of them can play better.

Especially the dragon.

It's time to come back again, it's experienced, there's no flesh and blood, it's not going to be smothered by green monsters, but the black bugs that suddenly come out are not known.

When the confirmation is "self", it can be released.

It is now a skeleton of the whole, no need to worry about being smashed, and when the paws are swept and stepped, they can crush a batch of green demons.

The barbarian two big cockroaches, this time is even more fierce, those green demons are caught and thrown directly inside the mouth, chewing and swallowing one by one!

Their fire system exercises seem to have been suppressed, and they can't be transmitted too far, but in the vicinity that has just been released, the power is still huge, and the Green Devils can be quickly scorched.

Compared with their big size, the dog **** is now more flexible. In addition to the quick dodge, it can spray a nearby green devil in one mouth, and then take a few swallows.

And the green devil near it, has not yet smashed into its body, has been rolled up by the vine-like poison. Or be taken out, or strangled directly.

On the whole, their attack effect is very good, but because the power of the attack spreads rapidly, the utilization rate is extremely low, and it is difficult to achieve a good group attack effect.

The result is that the old dragon, which was attacked solely by the force of the scorpion, is the weakest one.

And because of its huge physique, the speed of the attack is fast, and the speed of harvesting is the fastest.

Of course, Gao Hanqiu still acted as a cover to prevent the four of them from being attacked and to protect the Shenlang, so that the Shenlang was attacked because the attention was on so many bugs.

Otherwise, if he joins the war, he can kill more.

After fighting for a while, the Scarab controlled by Shenlang is also dead nearly 10,000!

This is already a fraction of the damage!

However, the situation has not become severe, because these green demons are constantly appearing, and they are still increasing while being killed. Therefore, when the damage is reduced to several thousand, Shen Lang will release a wave to make up.

And now, let the big green devils go crazy!

They were originally crazy creatures that smothered everything, and they were not afraid of the dragons.

But now this time, they are crazy, not only kill each other, but also hurt themselves!

Shen Lang is naturally a clear understanding.

They don't kill each other, they are not self-harming, but the scarabs, not just attached to the surface, but after opening a wound, they quickly drill inside!

Drilled into the epidermis underground, licking the flesh and blood, to be more relaxed.

In fact, the Green Devil is also like this, it is an instinctive wisdom. When they first got into the body of the dragon, they would have no way to do it, and finally decided to be squandered.

Now these green demons, once broken and broken, are immediately drilled into their bodies by smaller scarabs.

These scarabs are not lying quietly, small is only relative to their individual, from the size of the green devil compared to the size of the person, in fact, the danger is even worse.

After entering their bodies, if they can't be expelled, they will soon be ruined by the inside and outside!

In the body, how bad it is, look at the old dragon to know. It was originally intended to scrape them down, and then tried to kill them, and finally they were drilled in and out of the inside.

And since it has left so far, it can be seen that the whole process is not very fast, and it is completely struggling to survive.

Now these green demons are suffering the same experience!

Their defense is very strong, but a large number of scarabs lick, only need to have a break, they will immediately drill inside.

When they enter the body, they naturally become crazy. For example, if you want to catch the flesh together and get the bug out, it will cause self-harm to yourself.

And because everyone piled up and watched the other green devils around them have bugs, they would help each other to kill, which is better than killing them alone.

But because of the constant emergence, and the accumulation of all the flushing in one direction, it is too dense, and it is almost impossible to dodge and turn around.

If all of them are rushing to the front, as long as the front leaves and is killed, it is better to continue to make up the past.

Now there are attacks in front, and there are countless bugs around. That's a big limitation. These bugs are much smaller. They fill the gaps around them and bite them.

The attack has been going on for a while, including the Scarab, which has been killed by nearly 10,000, but the other ones that are still alive and supplemented are tens of thousands, of which only one in ten have penetrated their bodies. The effect is extraordinary This is the time when this consequence broke out!

The Green Devils are far superior to the Scarabs in all aspects, but no matter which aspect, they can't compare with the Dragons. They can smash the Dragons. It is the mouse that can kill the

elephant. It is under the enemy of the other side and sacrifices a lot. The numeration below the number.

It is difficult for the scarab to deal with them alone, but as long as they enter the body, the desperate eating is the speed of strangulation, especially if more than one enters.

Shen Lang still maintains the balance of the overall scale, and then put a batch after a few thousand deaths and injuries. Anyway, the Green Devil is also a constant source, no matter the first come or the new Scarab, you don't have to worry about no goal.

After another moment, thousands of Green Devils collapsed!

They haven't been smothered so quickly, but after the inner nuclear heart device has been smashed, it is not going to struggle.

Everyone was very shocked. I still thought that so many bugs in Shen Lang were really effective. As a result, it's such a big fall! And there are countless bugs in the fight!
