

First Strong 2571

Chapter 2571 - Leaving the Shadow Forest

The phantom demon demon, who had a depressed stomach, wanted to take revenge as soon as he came out. In addition to ordering all the demons to work together, it also directly killed the past.

It certainly knows that Shen Lang is a phantom master, but it is very confident about his own way, and feels that it may have been a big idea before.

And just in the illusion world, even if it is angry, it is still full of attention to the waves.

So it feels that this time I know myself and I can't let the other person slip away from the front. Wrestling again and again in the way that I am good at it, this can't be tolerated!

Fast enough, plus more Devils to work together, it believes it can still be successful.

To make it a little depressed, and it's a level queen, there is no first time to kill the past, but come over it, this is a waste of the best chance!

But no matter what, the man who used the five senses is too arrogant. Probably the victory in front made him proud, and still calmly received the shadow of the shadow.

This time you will be able to destroy them all!

Let these outsiders of this batch become a rare foreign food!

As a result, when the rushing is very close, the opponent still has no signs of dodge and defense, making it realize that this is a bit wrong.

But it was too late, and I immediately rushed over and found out that nothing was gone!

Other demons, including the Queen, were discovered very quickly. All the outsiders were gone, as if they had completely disappeared in a flash!

This kind of disappearance is the disappearance under their attack, and it does not sense the direction and trajectory of leaving!

They are all unbelievable. Looking at this familiar underwater city, there is no one outsider. It is still unaware of the search for the surrounding area.

“It’s counted!”

Wang is angry, but what is the solution?

It’s only now that I’ve found out that the others have already used an unknown method and left quickly.

The queen and the other demons are also angry, but they can save the king, but still enough comfort.

At that moment, Shen Lang deceived them to attack the real fantasy, and he himself started the door of the Three Realms and instantly transferred all the people including the two barbarian and the dog god.

The positioning of the transmission is directly to the edge of the shadow forest, that is, where it enters.

In this way, in addition to the slight spatial fluctuations, and the underwater city of the phantom demon family, it is no longer known how far apart, naturally it is impossible to trace the direction and trajectory of their departure.

Because all of them are done in an instant, as the most important trader of this wave, Shen Lang is also secretly sweating.

The process just seems to be calm, but as long as there is a little bit of difference, the result will be completely different!

Fortunately, his current mental strength is very strong, there is no problem with multi-tasking, and the speed is fast enough, everything is achieved as he planned.

“this is.....”

“We... came out?”

Meng Jin and Fu Wei were surprised.

Although the dog ***** and Gao Hanqiu did not get a reminder before, but at the moment of transmission, they are already familiar with it, knowing what this is all about, and no surprise at this moment.

Before I used to hurry in the Tianmo Lin, the thick fog that blocked everyone’s knowledge and vision made them very uncomfortable. The thicker and stronger, the more invisible.

But after entering the Shadow Forest, everything has become more difficult, not only the fog, but also the all-round shadow, it is really a little light can not see, can not understand the surrounding.

Losing the waves can “create light”, so that everyone can breathe a sigh of relief.

But even if the light is dispelled to the maximum, outside the light, it is also the fog of darkness. So there is always a feeling of enemies and darkness, as if only one of his own people, in the dark, lit a lamp, and was noticed by others.

Now I will see those fogs, and then see the fog that can’t be seen in the distance, but it is no longer suppressed, but let them have a feeling of great joy.

Finally left the dangerous shadow forest!

Although the real danger is that you have met a demon king of the phantom demon, the other is nothing. But the strength of the demon, and the shadow of the environment, have allowed them to give up and continue to explore the shadow forest.

“We have come out. The Shadow Forest is too dangerous. It is much harder to imagine something to gain. Just they want to fight with us, so I left with you.”

A word of Shen Lang confirms what they saw. This is not his illusion, but he has really left the forest of shadows.

Because this is where you enter the forest of shadows, you can see the shadow forest in one direction not far away.

“Thank you for the great king of the country! If you don’t save your life, we will all die inside. If you didn’t bring us out, we couldn’t escape it.”

Fu Wei immediately took a flattering.

Meng Jin immediately followed the appreciation.

In their hearts, of course, the mood is a bit complicated. Because they are nothing!

If Shen Lang is harvesting a lot of things, then maybe give them a little bit. For example, there are so many green monsters in the ridiculous land. It doesn’t matter how they eat.

But now that this is not the shadow of the shadow of the effect, it just got one, it will certainly not be given to them, they have no face to ask for something.

And if you think about it, you will be caught by the Mozu. They are also worried.

They have a certain understanding of the settlements of different ethnicities in the ancient cold world, especially the symbolic wandering around the year, to learn more.

However, the understanding of the Tianmo Lin is still limited. The area of the shadow forest is much less understood.

This encounters the phantom demon, and perhaps everything they see everywhere can be a phantom created by others, so they don’t feel anything when they crash into one.

Can be caught once will be able to be arrested for the second time.

This time, the head of the sand country rushed to save them in time, will they be saved next time?
Can you arrive in time?

Compared with these dangers, nothing has been gained, at least no loss, no casualties, and that is excellent.

“Don’t thank you, now ask you a question.”

When Shen Lang was serious, Meng Jin and Fu Xi were immediately nervous.

Although this is a young age, it is a mercenary figure! In order to get Meng and Meng out of the mirror world, I took the initiative to offer my baby.

It is the queen of the Phantom Devil, who wants to save the king, but also put them on the basis of the two, but also have to send the collection to treasure.

The biggest possibility for this question to ask now is to ask them to ask for compensation!

They almost all thought of how to ask Shen Lang back: How much is your life worth?

Chapter 2572 - Scattered

“What problem, the Lord of the great sand country, please say.” Fu Wei tried to keep his attitude sincere.

When Shen Lang felt it, they felt their mind, which made him laugh and cry.

But he is too lazy to explain anything, straight into the subject.

“You have already seen that the dragon is gone.”

“Yeah, Lord Dragon... that is...”

Of course they found out, but this is not what they dare to ask.

Whether it is the Lord of the Kingdom of Sand or the Dragon, they are untouchable. If the two sides are out of the way, they will certainly be grateful for the disaster, but they dare not ask.

If this is asked, will the Lord of Sand State directly anger them?

Now that he heard him take the initiative to speak out, he dared to follow the question, but he did not dare to say his own guess.

“It has already gone. Our team is temporarily put together. It has its ideas and is gone. It is you now.”

“what?”

Fu Yi and Meng Jin could not help but exchange their eyes.

Originally thought that the main reason of the sand country asked them to ask for help, but did not expect to listen to this meaning, actually want to disband?

They don't know why the dragon left, but said that it is gone, how can they not believe that it is a friendly departure, of course, it is a strong departure of the dragon.

But they can't be strong!

Even if the dragon only has the form of shackles, in this day, the magic forest will certainly survive. They are two, but they may not have this grasp.

“Now is the time for the gang, it is gone, I will not crush you to work. Give you freedom, let yourself leave!”

Looking at their shocked look, Shen Lang said a little more clearly.

Meng Jin and Fu Wei were anxious.

“The Lord of the Great Sand State, no matter what the Dragon Lord left, we will not leave! We are your faithful followers!”

“Yes! Although we have been disrespectful at the beginning, it is our ignorance. We have been completely convinced by you and we deeply admire you!”

Not only is it a sign, Meng Meng is also quickly following up.

If it is the beginning, they are eager to be free. However, after the shadow forest has gone, they have been courageous.

Being able to leave here safely is the first goal, and then follow Shen Lang and be satisfied with the ability to drink a little soup.

The ambition of coming is already defeated by reality.

At this moment, it is the arrogant Meng and Jin, and I can't take care of the face of the patriarch, and I am pleading with the sleek symbol.

But Shen Lang still shakes his head.

“You have also seen that everything in this magic forest is too difficult, and the harvest is far less than imagined. The ridiculous land is quite dangerous, but it is still good, it can be seen, but nothing gains.”

“The forest of shadows needless to say, there is no way to know when there will be danger, and the harvest will be disproportionate. So we have to go, don't play.”

Shen Lang raised his hand and motioned to continue playing.

Meng Jin and Fu Yu are very anxious.

If Shen Lang takes them to play, they only need to help out. The big problem will be solved by people. Even if the harvest is limited, there is still a hope.

Now I have to go, leaving them two, there is no hope directly, only to leave. Reluctant to leave with them, they are very dangerous to retreat.

When they came, they had a transmission array directly, but in the vicinity, they did not find the way to send back!

Without a transmission array, you need to identify the direction yourself and go out from this day.

Before the dragon helped to scare away the dangers of many beasts, if they were two, they would not achieve this effect.

“But...but you can’t do this!” Meng Jinyi was anxious and blurted out the accusations.

“Can’t you? What do you mean, I should give some of the benefits to you? It is true that it is correct, but I have not gained much. We are not enough.”

Shen Lang faint smile, directly said: scattered gang can, split production is impossible!

“No, no, we don’t mean this.”

Fuxi rushed to round the field. “The patriarch’s meaning is, I hope you don’t abandon us. We are loyal to follow you, let’s talk a little more straight, if you don’t take us, we may not go out!”

“Yes! Save the people and save the end, I hope you will take us away again, and wait for you to leave the Tianmo Lin, we will definitely repay!”

Regardless of what is rewarded, everything is waiting to leave here.

Safety first!

They all said this, and Shen Lang must face this problem.

At this time, I said that it's a disgrace. In fact, for Shen Lang, it's already done right.

Because everyone entered the forest of shadows, even if they were arrested, they were rescued. And at the crucial time, no matter how big they are, they are sent together.

Although it is still the scope of the Tianmo Lin, it is much safer than the Shadow Forest.

But they are like him, and want him to leave the range of the devil forest!

This decision is also correct. The crisis in the Tianmo Lin is the confusion of the surrounding forest. If they leave, they don't know how long it will take to go out, or whether they will lose their lives.

For Shen Lang, he used the door of the Three Realms to send away, and he would treat two people more. It does not affect or delay anything.

The problem is here, by what?

You have made a lot of efforts along the way, but if you two of your actions, you need them. Follow them and save your lives.

There is no direct benefit to pay now, but I want to follow the ride, of course not so good!

As they feel, Shen Lang is indeed a profit-seeking figure at certain times.

This wave of Shenlang does not interface, the atmosphere of the cold field, let the barbarian two understand.

This is not willing, the key is that there is not enough interest to impress him!

Meng Jin and Fu Yu's heart at the moment is very depressed.

What did they do to Tianmo Lin?

This is the same purpose as Shen Lang is to get more good resources, in order to get some rare baby.

This did not get anything. The last time I had offered a gift, I still have to be crushed!

Is this a visit that pays a high price?

But don't buy this money for the money, the other party obviously does not mean to take them away.

Although they didn't react in the first time, they have already come out of the Shadow Forest, and naturally they can guess a rough.

In the hands of the Lord of the Kingdom of Sand, there is a super magic weapon that can be transmitted away from a long distance.

It can be sent directly from the Shadow Forest to the outside of the Devil Forest!

This is also a great attraction for them.

But... if this super magic weapon is in their hands...

Chapter 2573 - Evil to the gallbladder

Meng Jin and Fu Wei, these two red giants, in this team, played the role of awkward, along the way to please everyone.

But this is the relationship that was suppressed by the dragon.

One of them is the patriarch of the barbarian, and the other is the ancestor who is stronger and more knowledgeable than the patriarch, and they are all prominent heroes.

For the sake of benefit and for life, they can plead their temper and seek for mercy.

The same can also be murdered!

They did not dare to move the waves before because of the existence of the dragons.

Although I saw more afterwards, I have found that these three strengths of the Saudi state are very strong, especially the means of the Lord of the Sand State.

This also allows them to actively seek cover, but now this is a dead end.

Then evil is born to the gallbladder.

They don't feel that they have problems at all, but they feel that we are all begging you, and you can take us away with your hands, but you don't want to, but we must throw us away in this dangerous place, so as to crush us last. Items!

Since you don't want us to live, then we can't blame us!

It's all about dying here, it's better to beat it!

Anyway, fighting with them, the worst is just death, stay in the Tianmo Lin, the chance to go out is very small, it may be dead, then fight!

Shen Lang, everything that made them jealous, has become something of attraction at this time.

For example, the magic mirror that everyone has seen together, the magic weapon that I don't know, and his memory!

If they have mastered the magic of transmission and can leave at any time, then there is no need to fear any danger.

If you get a magic mirror, you can also put the demon king into it.

In the case of the Mozu before, they all saw it. As long as they got the Devil, all the demons could be driven.

If you seize the owner of this sand country, then another sand country, and this huge beast, can be driven by them!

This light is to think about it, let them be very excited!

Let them be guilty before, explore the road ahead, there is danger to go first. If they are gaining power, then let this huge beast be a mount and let the sand people go to the front to explore the road.

The decision-makers of this team are the two of their barbarians. When they encounter the enemy, they can let the sand country go first.

Just think about it, this is a very wonderful ending.

So at that moment, both people had a common idea, and they all realized that they had to do it right away. If they missed it, they would have no chance!

They are all very savvy. Once they have created the opposite, they will soon converge and will not let themselves be reflected.

Then the two sides have a very good understanding and are ready to find an entry point.

“Respected Lord of the Kingdom of Shah! I understand that we have nothing to help. If you want to take us away, it is really inappropriate. But... we are willing to pay the price!”

When the symbol is open, it directly breaks the situation.

Then the expression on his face was very sincere.

“I dare not say how many rare treasures I have, but for a very long time, I have not been in Shibuya. When I wandered around, I also got some good things.”

“I have already presented you with a batch, and now I am willing to offer everything in the end!”

He said that while bending over, there seems to be something to be given to Shen Lang.

Gao Hanqiu and the dog ***** did not say anything on the side. This is what Shen Lang can handle well, and they are not concerned about anything.

And the barbarian two, from the ridiculous land to the mirror world, and then to the shadow forest, everyone is considered a comrade-in-arms partner who fought side by side.

So neither of them doubted the barbarians.

And according to their understanding of Shen Lang, they also feel that Shen Lang should be willing to take them away, but they have to pay a little cost.

“I also have a little bit of gain, although the value you may not be able to see, but this is our most sincere heart!”

Meng Jin is also bent over and seems to be a treasure.

The two of them just wanted to follow them, and they said that they were very sincere and sincere, so they would give up the treasure again, and let Gao Hanqiu and the dog ***** think that this is under the pressure of Shen Lang, let them surrender further.

Don't say them, it's Shen Lang, and that's what you think!

Because he did not hide his attitude along the way – Laozi is to benefit!

The most obvious is the negotiation of the Queen of the Mozu, if the benefits are sufficient, then the Devil can be released.

These barbarians have had several lessons.

Just now he has already stated that the barbarian will think of giving another gift for peace. This is their experience and it is normal.

Shen Lang originally felt that there were enough things from the barbarians, and there would be no more sun pearls, heaven and earth essences that they could get.

But people are always curious, and there are also waves.

On the one hand, he is curious as to how much the other party can produce. On the other hand, he also wants to see how much he still hides!

Because Meng Jin was in Shibuya, he had been squeezed again and again, and it seemed that he had given it all; the time before Fu Yu, it seemed to be all given.

And these are also confirmed by reading them to their memory.

But there is still a time lag, the memory of Fu Xi, is the magic forest until this day. Meng Meng's memory is to Shibuya, and after leaving Shibuya, do you know if he has any symbols that do not know what happened?

These can't delay any time, so Shen Lang did not say anything, did not move anything, just wait to see what they can give.

As a result, the two murderous barbarians converge very well, contributing the best acting skills of their lives, suppressing the murder and attack intentions that did not show the slightest.

Because Shen Lang and Gao Hanqiu are still standing on the head of the dog god, the height is now higher than them.

The gesture of their two barbarian stoops seems to express a pious and respectful gesture.

It is equal to this ceremony, then raise your head and present a gift.

At this moment, the two of them have a very tacit understanding of both hands, and a large amount of hot energy has soared out, covering all aspects of the swell!

Everyone was a partner, and they were just sent back together. Shen Lang was pulling them nearby.

Under such a close distance, Shen Lang is unprepared, and their two sneak attacks have already attacked him in an instant!

And because Shen Lang and Gao Hanqiu are standing on the head of the dog god, according to the heads of their two Red Giants, this attack is only a target, but it can attack them three!

Even if the Lord of the Kingdom of Sand can be fooled, the other two will be hit, as long as they are hit, it is effective.

Of course, the result they hoped for was the combined sneak attack of this mutation. It was able to successfully bring the two people and the beasts of the sand country together and stunned the attack together, so that everything was worthy of them.

Chapter 2574 - Mirror power

Gao Hanqiu and the dog **** did not think that these two barbarians who were just talking about their loyal followers would suddenly kill.

However, their strength is very strong, and the actual combat experience is also very rich. Even if they are attacked, even if they lose their chance, they will not be killed.

Being able to hit and hurt them will be the best result.

The most important goal, the key figure of their attack, Shen Lang, although not thought of, but still very calm!

This calm, not that he is sure to crush them both, but he is not only quick to respond, but also has the opportunity to “wait for the rabbit”!

Mirror!

This is no coincidence, nor is his speed as fast as it is.

When he was in the Shadow Forest, he first created a real fantasy in the pen, and then collected the pen and collected the pearl of the shadow.

The mirror that just released the devil, of course, is also to be collected, but it can not be lost once.

At the same time, the gates of the Three Realms were prepared to be sent away.

When he appeared outside the Shadow Forest, he still controlled these two artifacts.

If the two of the barbarians have finished speaking, and the two of them are willing to leave by themselves, then he will not be busy with anything more, directly at the gate of the Three Realms, with the dog **** and Gao Hanqiu.

At that time, the mirror will be put away.

But he hasn't finished it yet, so he still holds both.

This is also an unconscious defense.

When the two of them bent over and came to the ceremony, Shen Lang was curious as to what gifts they offered, and naturally they were always watching them.

When they suddenly attacked, Shen Lang immediately greeted with a magic mirror!

From a certain perspective, the world of magic mirrors is similar to the real fantasy. It's just that the real fantasy is a fantasy, and it's real and fake.

The mirror world of the mirror is a completely real space. It is not an illusion, but a world in which the space follows, and the changes made immediately.

A illusionary tree, turned into a stone, is just an illusion. But the mirror world is turned into a tree and turned into a stone. It is just a change in shape, and it is completely true.

The picture that the mirror once saw was the underwater city where the phantom devils lived. The mirror world is a mirror image of a part of the underwater city.

Now Shen Lang is still holding, but in the face of the two barbarians who attacked, the world in the mirror will change immediately. It is to reconstruct everything in the mirror world.

This is to immediately block the surrounding area. If Meng Jin and Fu Yu suddenly see the picture of the underwater city, of course, they will immediately be alert and know that the front is the mirror world.

But what is happening now is the shining of the neighborhood. As they saw it for the first time, it is almost the same as the surrounding environment. If you don't look carefully, you don't know how to mirror it.

The two of them are sneak attacks, the speed has been maximized as much as possible, and the distance is short-lived. Even the cold and cold autumn can't be reflected, and the time is short.

So the two of them just found that Shen Lang seemed to block it, and it was too late to see the specifics.

In an instant, Meng Jin and Fu Yu two, they found that attacked an empty, the hot energy they attacked, including their arms, all entered the mirror world!

But their own bodies are still outside, because they are very close and don't need to rush.

Attacked an empty space, arms extended to the mirror world, people also came to the near, naturally see the situation inside, let them understand what is going on.

Suddenly, they were all shocked by a cold sweat, which almost went into the mirror world!

They had gone in before, and there was no way to come out there. The last time for Meng Jin, they had already asked for the waves.

This time I wanted to attack him and go in again. It was impossible to be released.

The devil of the phantom demon can't come out!

It was also at the moment of discovery that they instinctively withdrew their arms so as not to get out of it.

They are instinctive reactions, they are very fast, they don't have time to think, and they don't have time to prepare.

The results were as they expected, and the arms were withdrawn.

But only half of what is expected...

Because, with the arms pulled back, the front end is gone!

This seems to have been cut off directly, and stayed inside.

Because they were too fast, they didn't feel it, and even the pain came out before they felt it.

This picture makes them even more chilling.

Just this is the mistake of the two arms into the body, if the whole person goes in half, and then pull back, then half of the body does not cut!

This kind of result is even worse than the whole person going in and out!

This example also makes them understand that this invisible dividing line, which is the surface of this mirror, is very powerful. I can go in, but I can't get out, and the devil can't come out.

If you get half of it, it will be cut off and crushed directly!

Just Shen Lang used the magic mirror to block it, because the mirror is in the hand, can you put them into it and say that at least they can block their attacks.

The strengths of Shen Lang, Gao Hanqiu and Dog God will not be weaker than Meng Jin and Fu Wei.

Just because they still used them as partners, they were confused by their pleading gestures. They did not expect them to suddenly turn their faces.

But as long as they are a little more time, they will be able to react.

At this moment, the mirror has played this role, eliminating their attacks, blocking their persistent attacks, and cutting their arms off, with better results.

At this time, a few of them reacted.

You don't need to sneak out and shoot again. The cold and autumn are all swords, and they have all hit the two of them!

And the dog ***** also shot a vine on both of them!

Just after the two sneak attacks, all the advantages that can be almost successful have now become a disadvantage, becoming the advantage of the cold autumn and the dog ***** attack.

The distance is short and the time is short. It is too late for Meng Jin and Fu Yu to escape.

Just the sneak attack of the other two, it is a blow to fight, is the attitude that wants to annihilate them three, and Shen Lang has first blocked and achieved the effect.

Gao Hanqiu and the dog god, will you be merciful?

Although the body of the barbarian is very powerful, the two of them are the most powerful of the barbarians. They are placed in the history of the barbarians.

But Gao Hanqiu is also a true realm of immortality. Even if you don't have time to get out of the sword, the sword is already more powerful than the sword of the average person.

Their thick skin, like the armor of the armor, was pierced by the sword and penetrated directly into their bodies, and the blood exploded.

All the vine attacks of the dog gods, like tacit understanding, are to be wrapped up so that they can't leave.

Chapter 2575 - Give it to the dog god.

But these vines are not only the role of the hook, but also drill into their bodies at any time, and inject the toxins into the past!

Originally, with the skin defense of their two barbarians, the vines rely on the skin to break through the skin, and it takes a little time.

Now the cold autumn is a sword, and has already opened a hole, which saves the dog ***** a lot of time. The head of the vine root is directly penetrated into the wound like a tentacles.

And the wounds of their arms are of course indispensable, and the tentacles have already entered the past.

It is light vines that have been touched from the wound. It has been like a yellow scorpion and a snake into the body. It is very painful and uncomfortable, let alone the tentacles of the dog god, which can be changed at will and with toxins.

Its vine thickness can be changed. In order to lock the enemy, a lot of tentacles will stick out from the vines into the flesh and blood.

Then these vines continue to drill inside, and more and more tentacles appear to grasp the flesh and blood.

On the one hand, these tentacles will ***** their blood, and on the other hand, they will inject toxins so that the enemy can be controlled more quickly.

The barbarian's body is very large, and there is no need to say resistance and physical strength, but it can't bear a lot!

Just like a large number of green demons who are not afraid of death, they can give the dragons a sneak peek. These vines have the same tentacles and achieve deepening effects.

The attack of the dog ***** is only part of the cooperation. The sword attack of the high cold autumn is only the first wave. Then, in a high-pressure posture, the two of them are confined!

Originally, the two barbarians wanted to defeat them three in one fell swoop, and then controlled the sinking waves and occupied everything.

But in the next series, they were completely passive after the broken arm.

They don't need Shen Lang to take the shots themselves. They have been controlled by Gao Hanqiu and the dog ***** at the moment.

But in an instant, the two of them could not move.

Spiritually suppressed by the cold autumn town, the body was pierced through a hole, and then the dog's vine tentacles penetrated deep into the body, absorbing blood, eroding the internal organs, almost collapsed, but unable to resist.

Shen Lang is still standing on the dog ***** of the dog god. After blocking the effect, he took the mirror and collected it. At this moment, he stared at Meng Jin and Fu Yu.

"No need to talk nonsense! To kill you, you are free!" Fu Yi sneered.

At this point, he already knows that the general trend has gone. It is impossible to recover it by asking for mercy and offering treasure.

Meng Jin is still not reconciled. He feels that the other side is carrying a magic weapon. If he has the ability, he should fight against him.

But this needless to say, before the devil is also such a radical method, Shen Lang is simply not moved.

Shen Lang is not ignorant of human nature. He wanted to sneak up on him when he was so angry that he had thoroughly seen it.

I didn't expect them to do it, not only because of the gesture they showed, but also because of the absolute strength advantage!

He can conquer the dragon, can capture the devil, can capture the magic mirror, all of which add up, according to the truth, it should be able to make Meng Jin and Fu Yu both afraid, and even more cold autumn and dog god.

They have always shown a gesture of fear.

But now it seems that the dragon's influence on them is still very huge. There are old dragons in it, so that they don't dare to move. The dragon is here, and they feel that they can still fight for it.

Now look at the two of them, do not need to ask more, everything can be thought of, nothing more than benefits.

Without taking them both together, they simply grabbed the magic weapon and they will be able to grasp the initiative in the Tianmo Lin. If you can suppress the three towns of Shenlang, if the dragon is the same, it can be driven.

Everyone knows the truth of the defeat of the king, but before he tries, anyone will hope that he is the king.

Of course, if the situation does not reach that level, perhaps it will not go out of that step. Once there is no better way out, it is likely to be unscrupulous.

Shen Lang's sneak attack on them, even if they didn't think of it, would not be an accident. They thought they would be anti-water.

Above the team's partner level, they are still behind the old dragon.

However, he will still be emotional in nature, especially the previous efforts to the old dragon, in exchange for the fruit of the dragon heart, is also gratifying.

Two of the barbarians, if they continue to plead, or for any better reasons, he will probably take them away.

But even the symbol, also chose to sneak attack.

There is no room for turning.

“I can save you from the hands of the demon, or you can send them back.”

This sentence is said to let Fu Xi and Meng Jin both have a shock in their hearts, secretly cold sweat.

For a few of the sand kings, or the dragon, how to deal with the two of them, or can have some expectations. But for the Phantom Devils, they don't understand, and they don't know how they will eventually deal with prisoners.

It's just a matter of eating it directly. If you want to take medicine, or if you want to study them as samples, it will be a long and painful death.

At this time, Gao Hanqiu spoke up. “You don't need to do this. If you send them back, you will pay too much attention to them. Or just give it to the Emperor!”

Gao Hanqiu is still sensible. Before Shen Lang used the gates of the Three Realms, everyone took them from the underwater city to here because they couldn't do it with those hard-working devils.

But fundamentally, it is because the strength of the phantom demon family is not weak!

If it is an enemy that can be crushed casually, of course, there is no need to run, destroy them and then leave with ease.

In this case, it is not necessary to go back and take risks for the two barbarians.

In the end, it is the territory of people. Usually there will be no outsiders coming in for hundreds of years, so it will be a lot of slack, but just suffered serious setbacks, naturally it will upgrade the defense, and then it will encounter more The challenge of difficulty.

The dog **** did not ask for anything. It now absorbs their blood and is also a kind of nutrition.

Shen Lang nodded. "Then work hard, eat them all!"

Shen Lang said that he would send them back to the phantom demon, let Meng Jin and Fu Yu chill, and the advice of Gao Hanqiu also made them a bit hairy.

Because this behemoth is now by the side, the big mouth seems to be waiting to bite them.

If you really eat them like this, it is torn to life.

These two decisions are not good choices. They would rather kill them directly, or shut them down in the world of mirrors.

As a result, Shen Lang not only agreed with the advice of Gao Hanqiu, but also said that the beasts are hard!

Even food, you must be rejected!

Chapter 2576 - Go out, or go back

The two barbarians are all red giants. To eat them, it's really awkward!

But the dog **** is the least afraid of eating!

In the world of giant beasts, generally do not know how to cultivate, eating and passive absorption of aura, is the main way of evolution.

The Emperor's behemoths stood at the top of the food chain because they understood the cultivation methods of the human race.

But cultivation is still a slower way than eating fast.

Only after the evolution to the beast god, the general eating has been difficult to replenish, and it is necessary to devour an individual with a large energy to have a replenishment effect.

This also allows it to eat once in the Great World of Yokoyama.

Just follow the Shenlang, and then continue to eat, and the grade of eating is getting higher and higher...

Like the green little monsters in the past two days, it has had a limited effect on it. It is purely a quantity heap, and it is also a way of attack.

Now these two barbarians, one is the patriarch of Shibuya contemporary, one is the ancestor level, is the top figure in the ancient cold world, is a feast for the dog god.

It is not to be dismissed. It has already locked the two of them with a vine of vines, and it is now directly swallowed up.

The dog gods are not picky eaters, but there is also a sequence. Now it is necessary to take back the vines tentacles that have penetrated into them, and bring a lot of flesh and blood back.

At the same time, I also dig some wounds and take the internal organs out to eat!

This is to think of eating these first, and finally can't eat it, the skin of the appearance is not needed.

But after all, it is still the nature of the beast for food.

Still can't help but open your mouth, bite the big mouth and big mouth!

In order to facilitate the dog ***** to eat them, Shen Lang floated in the air, did not continue to step on its head.

The same is true for the cold autumn, and two people are monitored in the air to prevent them from having a chance to escape.

Meng Jin and Fu Yu two people, originally felt that they are desperate to fight a battle, even if they are not successful, they can also show the **** nature of fighting, let the other party know that they can not be bullied.

Unexpectedly, their sneak attack, there is only one such opportunity, even once there is no success, there is no more, and this is the way to die here.

The death of a sword is still quite happy. Now it is going to be eaten by a huge beast. It tastes so simple...

Although there is no humanitarianism in the dog god, it is not murderous. It is purely a process of eating, and it is not intentional to abuse them.

So the whole process was still relatively fast. Under the action of its minions, mouth and vines, the two barbarian cockroaches were quickly swallowed up.

In the process, Shen Lang did not idle, but studied the magic mirror in his hand.

When dealing with the demon king, this thing has already been built for emergency defense. It is still a very practical magic weapon. It must be clear about its various details.

In front of the cold autumn, the suppression of the monitoring of Meng Jin and Fu Yu two, to avoid their chance to escape, to the back is to pay attention to the surrounding environment, to avoid sudden danger.

Shen Lang uses the door of the Three Realms to quickly transfer everyone from the underwater city to here, but this distance is not too far away!

They spent a lot of time in the Shadow Forest, but that was because the progress was very slow, and they were groping forward, and the overall speed was not fast.

Then it was the battle with the Phantom Demon. After the completion, it was a circular carpet search. After finding the mysterious lake, it went deep into the water.

In this way, the straight-line distance alone may not be far.

Shen Lang relied on the magic weapon to complete the rapid transmission.

But this is still only on the edge of the Shadow Forest. If it is still the scope of the phantom demon, if they have similar magic weapons, or they are in the shadow forest, you can get the environmental bonus.

That is possible to track here!

So until the dog ***** eats dry and clean, it is still safe, and the cold autumn is a sigh of relief.

Two huge barbarians ate and ate, and the dog ***** really felt a little supportive. It has a point that it doesn't want to get smaller, so it's quite cool in the state of the body.

When I first came to Tianmo Lin, they were three of them. According to the clues in Meng and Jin's memory, come here to see if there is any gain.

In the past few days, there have been a few more players, fighting together and now returning to their three own people.

"How are we going out? Going back or going back?"

Shen Lang is different from Meng Jinfu, to the old dragon, to Gao Hanqiu and the dog god.

They not only came to Tianmo Lin together, but also accompanied him to this ancient cold adventure.

So this is sincerely asking for their opinions.

Going out or going back, this is two concepts.

Going out is the devil forest, still in this ancient cold world.

Going back, it means leaving the world and going back to the mainland world of Nakajima.

“I don’t have any opinions, I completely listen to your arrangement.” Gao Hanqiu directly stated.

The dog ***** followed and nodded: “Me too.”

Their attitude has been confirmed from the beginning. After all, they can come to this world, which is the clues and channels of Shenlang. They don’t understand at all.

On the other hand, the more people participate in the opinions, the better they can promote each other. If they are not good, they will pull each other out.

Fighting, they are experienced, you can express your opinion, just like Gao Hanqiu suggested not to send back to the Mozu.

But the big direction is still determined by Shen Lang.

“Go back! Although the time is not long, but the gains in all aspects are not small, you don’t need to continue the adventure. If you are interested, you can come back for a while.”

Shen Lang did not spurt and ventured, choosing a conservative plan.

From Hanze to Shibuya, to this day, the magic forest, the harvest is more than a wave, the sand country is a smaller harvest.

However, Meng Jin and Fu Yu have always been called the head of the sand country let Shen Lang have some habits, and unconsciously regard the sand country as their own and have a sense of intimacy.

Gao Hanqiu and the dog ***** did not know how much the Shenlang had, but some of them were visible. For example, magic mirrors, such as the two barbarians who have just swallowed.

Shen Lang said that the harvest is not small, it must be harvested.

Just as the two of them were going to support the waves, a voice sounded.

“Since you have harvested so much, of course you can’t let you go, leave it all!”

This voice is not resounding in their minds, but is actually spread, but it is impossible to confirm where it came from, as if it were everywhere.

It feels like the sky, the ground, the surrounding forest... even the surrounding air, there are a lot of speakers, it is not stereo can be described.

When the first word sounded, the cold autumn was highly alert and quickly searched around.

Chapter 2577 - Unknown enemy

Gao Hanqiu is just a high alert when the dog ***** eats.

Because at that time, once there were enemies, they would have lost one-third of the combat power and one.

When the dog ***** finished eating, he relaxed a lot and was full.

But he did not completely give up the alert, but it was not so high pressure.

Because the scope of the sense of God can be sensed, under this dense fog, it can only reach about 100 meters. He is slightly distracted and can pay attention to it.

But when this sound sounded, he was not aware of it!

Not only that, but when the first word appeared, he was once again highly alert, and searched in all directions. After the last word was finished, there was still no clue, and no search came from where it came from. sound!

When Shen Lang and the dog ***** heard the first voice, they immediately entered a state of high alert and defense.

They are three, and naturally it is a region that faces one direction and is in charge of one hundred and twenty degrees.

The dog ***** who just took the support and didn't want to shrink the body was quickly reduced to the size of the dog.

The other party can hear their words, naturally observe for a while, and they can't find them, at least some aspects are stronger than them.

Therefore, the dog ***** does not need to use a huge body to shock, reduce the body and the waves, the cold autumn together, everyone can better defend together.

"You can't find me? These fogs are enough to block your vision and affect your mind. How can you find me?"

The voice didn't seem to be anxious, didn't care about their defenses, still said nothing, and satirized them.

Shen Lang immediately got a message from this sentence.

Mist!

The fog affects their detection. They feel and know when they enter this place. The other party will mention this point, which shows that they can clearly know the approximate range of their perception!

And this vocal person is in the fog outside the scope of their perception. So they are all guarded by the gods, and they can't find the other's place.

According to the range that can be sensed now, the other party is more than 100 meters away, they can not perceive and can not see.

But this fog should be different for different races and different realms. Perhaps this person can see them clearly in a farther place and can perceive their every move.

This situation is the enemy, I am clear.

Even more severe, the enemy attacked, just out of your line of sight, how to fight this battle?

When the other party mentioned it, Shen Lang thought of the key, and immediately had a response, and secretly sent ideas to Gao Hanqiu and the dog god, made arrangements.

When the sentence is finished, they have already acted!

The line of sight and the sense of sensing are about 100 meters. When three people are together, it means that three people can only sense a circular area with a radius of 100 meters and a diameter of 200 meters.

However, if the distance is pulled apart, the edge of the sensing and viewing can be elongated to a circle of 300 meters in diameter; if it is extended to the limit of the respective sensing, it is not necessary to be able to view the other party. Pull the diameter up to four hundred meters!

Although there will be many areas that are not covered by this area, as long as you circle in one direction, this range is completely covered.

The purpose of this is to search for the hidden enemy and determine in what direction.

But this requires a very good understanding, and it needs to be very fast!

When the diameter is pulled to four hundred meters, the range is large, and it can cover all of them, but they cannot be seen or contacted with each other.

Therefore, when Shen Lang directly conveyed the plan to them, they had already made detailed arrangements to avoid confusion.

Ever since, when the voice was just finished, the three of them quickly spread and turned in one direction.

After searching for a diameter of 400 meters, it quickly retracted to a diameter of 300 meters. In this way, each other is 100 meters to each other, and each distance is 100 meters. It is the edge that can be seen and sensed.

This will pass the message and then further search along the enemy's direction.

The arrangement of Shen Lang was very good. The cooperation between Gao Hanqiu and the dog **** was also perfect. Three rapid spreads opened two hundred meters, then turned up, then retracted back to 100 meters, and kept each other about 100 meters. Distance, then pass the information you see.

“No!”

The information of the three people is none!

Originally, one direction was determined, and the other two immediately followed the past. The three successively covered the past, as long as the speed was fast enough, it could still be blocked before the enemy left.

Of course, if the enemy reacts fast enough and the speed is fast enough, whether it is in other directions, or continue to retreat to the back, go to the shadow forest, they are difficult to track.

This is the time for a bet.

However, the range covered by the three directions did not detect the enemy's trace. After feedbacking the results to each other, the three who were all ready to go in other directions were stunned.

They are all ready to move, which is part of the plan to arrange for the waves. Now they have no goals and can only stay where they are.

The idea is that Shen Lang is out, and of course everyone is waiting for Shen Lang to decide what to do.

Shen Lang's mind has already had the corresponding data immediately. It has just increased from a radius of one hundred to a radius of two hundred, but it has not searched for the existence of the other party.

With their sudden changes and speed, the possibility of the other party being aware of it and then withdrawing is much smaller.

That means a greater possibility that the other party is two hundred meters away!

The limit of about 100 meters is largely a reflection of their strength.

Originally, according to the speculation of Shen Lang, if the other party is 100 meters away even if they are higher than them, it is also acceptable, and may even have ethnic factors, or live in this environment. .

But now the result of the verification may be two hundred meters away, and I don't know how far it is outside. That would be at least twice the gap, which can no longer be explained by other factors, and there must be an absolute gap in strength!

Not to say anything else, just this scene, they are three-in-one tacit layout, but the result is no way to see where others are, everything is under the eyes of others, others are like watching clown performances.

Receive!

This is a command issued by Shen Lang at the same time as the analysis.

Now they are returning a distance of about 100 meters, which can be viewed and perceived by each other. In addition to transmitting information, this can also be a reference.

But it is also on the edge, and the enemy is very strong. This is equal to being scattered. It is very dangerous.

Regardless of how the other party observes, they are quickly regained, and the three people are brought together and brought together to face this unknown enemy.

Chapter 2578 - Pinched

“Don’t be nervous, tension is useless. Just because of you, I haven’t got the ability to find me.”

The other party really was watching their excitement, a little sarcasm.

“Who are you? What do you want?”

Shen Lang asked what he said.

Since you can’t find the other person, what you can do now is a high degree of defense, and then look for opportunities!

When he was just retracting, he thought about preparing the doors of the Three Realms and sending them away when necessary.

But in the end it was dismissed from such a decision.

Because if the other party is at least doubled in strength, then when the door of the Three Realms starts, the slight fluctuations in space will be noticed.

The consequence is probably that it has not yet had time to send it away, and it has been won the door of the Three Realms!

For this unknown enemy, Shen Langning can be estimated to be high, and he does not dare to underestimate the enemy.

But he still has a means of reservation, that is the space of heaven!

This is also the reason why the people have just regained their chances. As long as everyone is together, when they are in danger, he can bring them both to hide in the space of heaven.

The space of Tianshu is not the same as the door of the Three Realms. This is his manipulation of ideas. It is completely equal to blending with him. There will be no fluctuations, or there will be, and when he is aware, he has disappeared.

To some extent, Shen Lang is still very adventurous, or else it will not come to the “magic domain” with the gold suit because of the legend of the zombie.

After harvesting in Shaguo, Hanze and Shibuya, they still have to come to Tianmolin.

After the demon dragon got the dragon and the fountain of eternal life, the mirror, and will go to the shadow forest.

All of this proves his adventurous spirit.

He will have a certain amount of greed, but it will not be greedy!

When he feels that he should close his hand, he will promptly leave, or even go back directly.

However, there are now such unknown enemies. In the current situation of self-protection, he also wants to see what kind of existence is there and what kind of situation it will bring.

“Who am I, you won’t know, you don’t need to know. Now, leave all your harvest in Tianmo Lin, I can let you leave.”

Then added another sentence: “Of course, if there is any left, then don’t blame me for leaving you.”

Shen Lang listened to this and felt a little familiar.

The style of the other party is very similar to him. What is needed is the benefit. As long as the benefits are offered, everything else is easy to say.

This seems to be reasonable, but it is ambiguous!

What is the harvest in the Tianmo Forest?

Like the old dragon, the barbarian, this is together in the Tianmo Lin, you can know which ones have been harvested.

This unknown enemy is not, so what is obtained by Tianmo Lin, they are determined by Shen Lang.

But after saying it, whether the other party approves it is another matter.

When I don't believe it, I have to take all of them out and check them out. What is valuable is the harvest of Tianmo Lin. What should I do?

After all have been defamed, even if they can leave them and leave without anything, how can they accept?

If you don't approve it, then hit it. In the end, it is the big fist that has the final say. If you want to resist, you will be beaten, or even give the other party an excuse to eliminate it!

From the perspective of the speaker, it can be said that this is your problem. I originally wanted to let go of it. You are blacker than me.

“Why? Why don't you dare to appear in front of us?”

Shen Lang's lips are opposite, although it can be inferred that the enemy's strength will be much stronger, but before he officially fights, the deer's death is still unknown.

Anyway, he is sure that he can escape, that is, let the other party show up before saying something.

“I don't show up, it's for you. If you see my true face, it's not to leave all the harvest, but to leave your life!”

The voice did not feel offended by the waves, but the words were still a lot cold.

“Sorry, we will come here to take risks. It is a bunch of desperate desperados. If we want to take all our harvests away, it will be even worse than our lives.”

“If you want to move our things, then come out to face the battle, let us see if you leave our lives, or we will leave your life!”

This is a further initiation of the gauntlet. Although Shen Lang does not perceive the specific direction of the enemy, it is also fully divulged and ready to fight.

Gao Hanqiu and the dog **** are also ready to shoot at any time.

“As long as you are also worthy of a battle with me? Look carefully!”

When the voice was finished, Shen Lang, Gao Hanqiu and the dog **** all found out that there seemed to be something about 100 meters that they could see.

They are nervous, this is the moment of the war!

But soon, they were surprised!

Just looking at one direction, it seems that there are huge trees, pillars and the like moving around, but through the knowledge of the overall situation, but found a horrible situation.

There seems to be a palm or a paw, and it is slowly catching!

The huge pillars that are seen are the fingers of one root, and they are at the center of this palm.

They have seen the Phantom Devil, is this also a kind of illusion?

But at the same time, they felt that the earth under their feet was slowly rising, and it was raised along with the palm range.

The place where they settled was in a big palm with a two hundred meters closed!

How big is the body of this unknown enemy? A few kilometers, more than 10,000 meters high?

They had a similar situation before, and it was between the claws of the dragon, because it was too long, it was like a stone.

Is this the same now ?

I just couldn't perceive each other, not because I was too far away, but too big, and integrated with the whole earth. The light palms exceed the range they can sense, so they will be ignorant?

"I want to kill you, it is no different from pinching a few bugs. In this way, what qualifications do you have for me?"

After revealing one hand, the unknown enemy laughed again.

The three Shen Lang are waiting for it.

When the giant palm appeared, their bodies had been lifted, and their fingers were slowly gripping, seemingly intended to put pressure on them, not afraid that they ran.

When Shen Lang was just in defense, he had already secretly controlled the range of 100 meters around him in the realm of God.

Just this change has already let him experience it directly. Within the scope of the palm, whether it is a finger, or the ground below, and the air, there is an invisible enchantment, like a copper wall, a comprehensive pressure!

Chapter 2579 - 3 crit

Because of the relationship in the realm of God, all the changes, Shen Lang is clear to the heart.

If you want to fight, he can use the field of God to fight against the past when the palm of his hand is pinched.

But he did not, but gradually withdraw the scope of the field of God!

Shen Lang has not decided to fight hard, then continue to observe.

If confronted, it will directly detonate the battle.

Now, if the scope of the field of God shrinks in advance, there is no stunned snake. Once it is attacked, it can also serve as the first layer of defense, delaying their time for their departure.

But purely bigger than the big, Shen Lang is not afraid, this is really a giant of 10,000 meters, they can also resist it. The limit of killing warriors is released, and there are also several kilometers!

So at this point, Shen Lang still has not decided to escape.

“Pinch it? Then try it!”

Shen Lang responded with a sentence, the sword of the king appeared in his hand, directly pierced into the ground!

The sword of the king can be made bigger and longer. There is no problem in cutting the huge fingers in front of it, but it will take a little longer.

If you go directly to the ground, it is definitely a lot faster.

According to the ground just being looked up, under the soil, this is the big palm.

When Shen Lang was at the moment of the shot, Gao Hanqiu was also very tacit and immediately shot!

At this moment, he is already a sword, and he quickly throws it out. There are already thousands of swords, and he has become a sword net, exploding toward all the fingers that have been pressed!

The whole area is still covered by the field of Shen Lang's gods. Normally, these swords will be first resisted by the energy of the domain of God.

But this is controlled by Shen Lang. Of course, it will not block the attack of oneself, but it will give help.

The dog ***** also has a tacit understanding. The three people are together to prevent accidents. This enemy is also stronger than expected.

If it rushes out of the way, or becomes huge, it will disrupt the plan of Shen Lang. When it is time, Shen Lang will save it, but it will be delayed.

Therefore, under the convenience that it did not have a close-range attack, it did not point out the hand to the surrounding hand, but chose the same ground as the Shenlang.

Its four claws, almost at the same time, shook the ground!

Don't look at it, it's just the size of a dog. It just shrinks and changes. The power that erupts from it is still the power of its behemoth, and it is no different from a huge body.

On the contrary, the power it attacks now is even more concentrated!

For example, the attack power of 10,000, its behemoth state, the attack surface may be a thousand, the attack surface is wider, but the power will be scattered. Now that the attack surface is ten, it will be a hundred times stronger.

Of course, the actual situation is more complicated and will not really be a hundred times. Because it attacks the ground to the past, in addition to the point of contact, it will spread to the surrounding.

And it has to be shocked, but also to go down and around, or else it is like a nail, directly nailing a few of its legs.

In general, the power of its current outbreak is not weaker than the behemoth.

Such a blow, although there is no visual shock, but the actual power is equally huge.

The sword of Shen Lang is pierced into the soil, and then continues to extend downwards. Deeply nailing it down, the nails and the big palms below are completely nailed.

The dog's heavy step is to shake it down.

The attack of the three people was carried out at the same time. Shen Lang was still multi-purpose, and the field of God helped the sword of the cold autumn.

Not satisfied!

This is the mind of all three of them.

How to say that they are also the top existence, the high cold autumn reaches the real fairyland, the dog **** is not too much to let, Shen Lang also has a great **** peak.

They have been confronted with dragons, mermaids, giants, barbarians, demons, and all races.

The only one that lost so badly was that Shen Lang and the dog **** faced the battle of the gods of light.

It was that time, and it also killed many apostles, even the apostles, and gained a lot of light.

It is the scene of the Light God, and finally it is to find it back.

In this shadow forest, the phantom demon family, from the ordinary demon to the devil, are fighting.

This super giant who doesn't know where to come out, can't he dare to fight?

Therefore, the outbreak of the three is emotional, and it is a strong blow.

Shen Lang took the lead in this wave of attacks, but there is a taste of temptation.

Is it really a giant of thousands of meters that can reach a few hundred meters in the palm of your hand?

Or the phantom of the phantom demon?

The illusion of the demon gods is completely real, and the world that the mirror is quickly shining is also true.

So even if I was lifted up now, I saw that my huge fingers were pressed, and even the real world of the gods felt strong enchantment. He still had doubts about whether this was something that was made.

When it was said that it was too late, everyone's attacks were very rapid, and the results were already there in an instant.

The swords of the realm of the cold and the real fairyland and the sword as the medium, coupled with the help of the realm of the gods, are really strong and iron-like, and their power is almost as fast as the light.

His face is all-round, full of swords, and all his fingers have been attacked.

But the enchantment sensed by the field of Shen Langshen really played a huge role!

In the range where these fingers are gripped, the enchantment is also corresponding to the contraction. At the moment, countless swords are all on the enchantment, and there are countless energy fluctuations. Small impact.

But... did not shred this enchantment, and did not directly attack the huge fingers around!

If it is not for safety reasons, Gao Hanqiu will even have to fly directly to challenge with the sword!

On the other hand, the dog's heavy footsteps also directly caused all the soil below to be trembled, and the power was transmitted to the depths below.

But obviously, these have not played a key role.

The sword of the king, deep into the nails of a few hundred meters, fast and embarrassing, and is an invincible artifact, it is the real nail of the “super giant”!

Going deep into the mud, Shen Lang can't see if there is any nailing. Anyway, he just directly is the strongest outbreak, letting the sword of the king grow bigger and longer.

The sword of the king pierced anything, like cut tofu, which would have been undetected.

But he still felt it because he felt a block and resistance!

The hard rock will also be cut by the sword of the king; the tough soil will not resist.

So there is only one possibility, it is to pierce the palm of the hand below!

Chapter 2580 - Focus on cutting it

If a palm reaches a few hundred meters, then Shen Lang is piercing the palm of his hand with the sword of the king, but it is just like a needle.

This little bit of damage is nothing to say for a super giant who may be 10,000 meters.

So even if I feel the hit, Shen Lang is not excited, but quickly makes the sword of the king more deformed!

The tip of the sword is directly wider to several tens of meters! And it is turning.

To this extent, it is not a needle, but a knife.

But this is only part of it. Shen Lang has another hand and has taken out the small shovel!

Under the use of the shovel magic weapon, he instantly went to the bottom!

As he slid down quickly, the sword of the king followed the contraction length, but the pointed end was still nailed to each other.

When he got to the bottom, the sword of the king was not only simple to nail, but more calmly waving in the dirt, a lot of rapid cutting!

In this way, Shen Lang turns a wound in a thorn into a hole, and then smashes a large piece!

Even if it is a super giant, there is enough time, fast enough, or you can completely smash it!

Obviously, the super giant is still very confident in his control. The enchantment that continues to gather is the representative of its pressure.

The attack of the cold autumn and the dog god, the effect is stronger, and they have not broken it, it is within its expectation.

However, the sword of the King of Shen Lang directly penetrated into the bottom, which was not thought of. The first instinctive reaction was resistance and obstruction.

For example, the infusion of strength, forced the piercing sword out.

As a result, one of the conditions beyond its expectations occurred. The sword of Shen Lang was not only forced to go out, but also became bigger, and further his whole person went directly below, and he came to a slap in the face. cut!

This can't be tolerated, can't continue like this, or else, the scope of the smashed will expand from tens of meters to the entire range!

So at this moment, it was completely closed, and it was all the whole soil in the wide range!

This is mainly from the bottom of the soil, because the Shen wave is the primary target of its pinch.

However, Shen Lang left below and could not control the field of the upper gods, and naturally disappeared.

When this was about to burst, he did not choose to fight hard with the enemy, but to take care of his friends!

Under the bandit of the shovel, he returned to the ground a little faster than the pinch.

Now the ground can't be called the ground. It has been carried into the air, and the pinch explosion is followed. In addition to the mud that is supported by all the two hundred meters in diameter, the huge fingers above have already been pressed. !

In the cold autumn, the Jianqi attack did not tear open the enchantment. It is already preparing for the sword, but for the safety of everyone, there is no movement.

When the Shen Lang disappeared below, he immediately woven a net of swords and protected him with the dog god.

When this smashed the huge impact, when Shen Lang came back, although there was no first layer of defense in the field of God, there was a sword net protection in the cold autumn.

Gao Hanqiu and the dog god, without any inquiries and suggestions, everything is listening to the arrangements of Shen Lang. Shen Lang did not say retreat, they continued the hard top.

The three of them have been to a lot of places together, and they can be completely trusted after a hundred years of retreat. They are different from the old dragons and barbarians who have two hearts.

“Come on it!”

At the moment when Shen Lang came out, the ideas have been transmitted to their consciousness.

He put away the small shovel, and the sword of the king became bigger and longer and went straight to the front!

Now the fingers are close enough, the fingers are not separated, and they are directly close together like a copper wall.

Shen Lang took the lead and came out directly to the front.

When Gao Hanqiu received his instruction, he immediately responded. The whole sword net was originally defensive, and now all counterattacked in the past!

Shen Lang said that he concentrated on cutting, naturally there will be his truth, so Gao Hanqiu did not analyze so much, the long sword followed the Shenlang and went to the same place.

The dog ***** is not a slow half beat, but they can use a sword to cut, but it has nothing to cut!

If it is to be better, for example, the attack area of the minions is larger and the stinger vines are thicker and thicker, it is necessary to have a bigger body.

But now the huge body will be a state that attracts firepower and is more easily hit.

Therefore, it did not rush to participate, so as not to interfere with the Shen Lang and the cold autumn, it is followed by them, waiting for opportunities.

If there is danger of approaching, you can cover the defense, and when you get close, they cut the wound and it has room to display.

The combination of Shen Lang and Gao Hanqiu, whether it is a copper wall or a very strong scale, can be deeply broken.

The sword of the king is an indestructible artifact. It has been able to penetrate into the palm of his hand just a few hundred meters apart, let alone no other barriers.

After the sword of the king cut and torn open, the cold autumn has more room to play.

Gao Hanqiu is not as good as a sword, but he is worse than Shen Lang in the creation and realm of the sword, so this is not inferior to the power of the sword of the king.

With the cooperation of the two, a large hole in the tens of meters is opened in front of the moment!

The dog ***** followed, and when it was time to inject a powerful venom, Shen Lang was faster than him!

Shen Lang is very busy!

When he was just out of the bandits, he gave them instructions to attack, took back the shovel, and then took out the heart fire.

Because the speed is too fast, they are not noticed by the side. After the wall of the copper wall composed of this finger was exploded into a hole of several tens of meters, Shen Lang had already released the fire of the earth, and screamed at the wound!

The heart fire is the activity that devours everything Even if it is a perfect finger, it is quickly burned and burned at a visible speed.

Now that I have a wound in a big hole, I burn it directly from the inside!

Shen Lang will arrange this way because the sword of the king has pierced the palm of his hand, and the other party will resist the block. When it breaks, it will break out, which means that it is also painful and hurt.

Is your finger tens of meters thick?

How about cutting it off?

How about burning it?

It is enough to have his own attack. With the help of Gao Hanqiu, it is better and more secure.

Therefore, without waiting for the dog ***** to play, a large piece of finger has been swallowed up by the ultra-high temperature flame of the heart!

The range of incineration is rapidly expanding as it continues to eject high temperature flames.
