

First Strong 259

Chapter 259 - Speed first aid

Shen Lang is not a sage, nor a compassionate Buddha or Bodhisattva.

What he pursues is that there are hatreds to report, and there are graces to report.

Because of the distinct grievances, he will not hurt the innocent, and he does not want to be tired of others.

He also did the explosion like this. I thought that their attempt at Dong Wenbin was to detonate the gas tank.

However, he has his measure and estimated the strength of the gas tank. At that time, only three of them were there, and they would not be tired of the innocent residents of the whole building. Afterwards, it was proved that only Dong Wenbin was killed, and the other two were still alive.

He retaliated with Dong Wenbin and did not kill his father Dong Dawei or the whole family.

This time, I sought revenge from the Chu family. On the one hand, it was because the Chu family not only harmed him, but also killed his parents. Although Mo Qi was replaced with a corpse in advance, he also killed it.

On the other hand, it is because they have done a fire accident in order to avoid the mistakes, directly causing dozens of deaths and injuries!

This is the shackles of the Chu family, so he will directly say to Chu Yunfei that killing them is not an exaggeration.

Like today and Desolation, killing dozens of people, they all keep only the people who kill Chu, do not hurt innocent.

For example, in the factory, the smashing killing manager Chu Huanrui, Shen Lang went in to deal with Chu Yunfei three people, but also the security captain stunned. Finally, I set fire to the factory and opened the team captain.

But the explosion that just happened once again proved that in the eyes of the Chu family, as long as the goal is achieved, a group of ordinary people will die, nothing at all!

Moreover, by their means, they can be investigated without traces, and finally they will not be held responsible for any of them, nor will there be any paradox.

The explosion just here has not been able to investigate the evidence at all, and it is estimated that it can only be classified as an accident such as a gas leak.

The dead person will die in white!

If you have the power and strength, can you be so unscrupulous?

If the Chu family pursues such a truth, can those who are stronger than them, can also be unscrupulous?

Although Shen Lang came out in time, he also came out with a bleak, and there was no injury. But his anger has gone straight into the sky!

He left the self-owned Chu family to the desolation to start, and he rushed into the sea of fire.

He is not a hero, but he is tired of him. He tries to get people out for a long time!

Because the previous knowledge of the search has been repeated many times, for the construction of the hotel, which rooms are people, it is clear. Although the flames and smoke were scattered after the explosion, there were many collapses, but these did not have much problems for him.

How to rescue these ordinary people? Shen Lang actually has three methods in his mind.

The first is to use the spell to transport and create rainwater, but the explosion that has just formed is not small, and it takes time to destroy it.

The second is to blow away all the thick smoke and let everyone escape.

Because of the death in the fire, most of them are not directly burned, but smoked by smoke. But the problem is that the flame is now booming, the wind can blow away the smoke, the fire will be more prosperous, and there will be more smoke.

So he chose the third method almost the first time, that is, he is racing against time! Before people are burned and smoked, try to save them!

This time, Shen Lang is playing the “Phantom Meteor Step”

At the extreme, I went into the room and threw the awake panic, and immediately threw it out and threw it on the street. With his control of power, they can be sent directly to the ground without falling.

In places where the flames are stronger and the smoke is thicker, direct throwing will also burn people. Whether they are awake or fallen, they can only fly with them, throw them into the ground, and then re-enter the fire.

He saw it before, and there are a lot of couples in it who are embarrassed. Suddenly after such an explosion, it is not scaring or scaring. I don't know how to do it, and where to wear clothes.

Although they are a little troublesome, Shen Lang still cares about their face and can't throw people out. If the quilt was not burnt, the person was rolled up with a quilt; if it was burned, the quilt was thrown away, and they were rolled up with sheets, and then they were sent out.

If the clothes are not burning, his losses will also be caught and thrown around them.

The speed of Shen Lang has been very fast, and the average person in a room is saved for less than a second!

On the opposite side of the street, running nearby to see the excitement, I saw a constant stream of people flying out of the sea of fire, and whether it was awake in a coma or wrapped in a sheet, there was no fire, no fall. !

The picture is very magical, so that everyone feels that there are superheroes who save people in the sea of fire, but they don't even see the shadows. The quick response also helps people who have been thrown out in the past to leave the street, so as to avoid other accidental injuries.

That is, one of the bodies has already caught fire, and the Shenlang also directly forced the air around him to reach the effect of fire extinguishing and then rescued people.

But he was stronger and faster, and he had no choice but to change if he had already been crushed to death by a collapsed wall, or just pressed into the bed and burned.

In less than a minute, no matter whether it is fire or smoke, there has not been much damage, and Shen Lang has saved dozens of people. But there are still six, and it's already a dead body...

In the crowd at the scene, some people called the police, including fire and hospital calls. Shen Lang does not have to worry about the follow-up assistance of other people, including the spontaneous firefighting around, plus the fire, it should not be a greater threat.

But in the midst of the fire, he realized that one person fell to the ground.

That is the owner of the hotel, because it is the front desk on the first floor, after the explosion, the first time can run out. Originally, they were not trapped, and Shen Lang did not need to save.

But now, when I look at his reaction, I understand that This is not a big business, that is, a private boss. All of them are invested in this hotel. Now it is all over!

Not only that, although most people have been rescued and more serious incidents have been avoided, but six more people have died, and this boss will inevitably be held accountable!

This discovery made Shen Lang not immediately leave the scene to help the bleak, but shouted in the sea of fire: "Who dares to save people? This is the Dachu Group is doing things!"

"Can the Da Chu Group be able to kill people? Roll!"

Shen Lang plays two people, changing voices and talking loudly, so that everyone in the vicinity can hear it. Then, after making some big movements in the sea of fire, it is not letting people leave clearly.

When the fire broke out, everyone still did not come over. When I saw someone coming out, many people took out their mobile phones and took pictures. They took pictures of people in various states and flew safely. .

And the conversation just happened, not only everyone heard it, but also recorded it in the video...

Shen Lang is offended by the boss and can only do this.
