

## First Strong 260

Chapter 260 - The shore of the cloud lake

The person who started the Chu family, in addition to using such a one-time attack props, is also a very powerful master.

At the moment of the explosion, his gaze was staring at this side. The speed of the Shen Lang flying with desolateness was very fast, but he was still aware of it.

Can do a few of them in the Chu domain, Chu Chuxiong, and with such props can still calmly get out, let him realize that the waves are not simple.

So I didn't stay at the scene, but I immediately started to escape.

At that time, Shen Lang locked him, and then Yuanshen gave feedback to the desolation.

Desolately held the sword, and immediately chased it out.

Now Shen Lang's time to save people has been around for about a minute, and the two of them have left the distance that his gods can sense!

This shows that the bleak has not caught up with the other party, or else it can be entangled even if it can not be quickly killed.

However, the desolation is different from the average person. Her \*\*\*\*\* is branded with Shen Lang, so even if it is beyond the sensory area, he can still feel it by the god.

With anger, Shen Lang is chasing out.

This bastard, his attack, almost ruined the hotel owner, and six dead, that affected six families! There are also those who are frightened, and there will be shadows in the future, which will affect the happiness of the lower half and the sexual blessing of the lower body.

After the person did not attack, they did not come to chase them, but fled directly, which shows that the other party is very clear, which means that the other party is likely to want to introduce them into an ambush!

Their speed is not slow, and they have already left for a minute, so Shen Lang does not dare to neglect. Basically, just like the fire sea rescuer, the “Phantom Meteor Step” has reached its limit.

Purely speaking, he is now a little faster than just saving people!

Because saving people is not only in the fire of the explosion, but also in the collapsed frame floor, from one room to another, if it does not collapse, he needs to open the door, but also to transfer people, etc. .

In general, the speed of saving people needs to be played in all aspects. And now is another speed, just the speed of the road ahead.

He was almost on the street, and even the people next to him didn’t notice it, let alone see it clearly.

But the Chu family who came to attack is not an ordinary person. The desolation is not an ordinary person. If they are converted, they should all be strong in the late stage of the virtual world. Once they run at full speed, the speed is not slow.

So even if the speed of Shen Lang is fast, and looking for “positioning”, it will take a few minutes to catch up with them.

This catching up is not the physical catch, but they have already appeared within the scope of his knowledge.

However, even this is the case, so that the goal of Shen Lang is clearer and the distance is constantly shortening.

After a few, Shen Lang caught up with them, because the speed of running ahead also slowed down.

The Chu family did not ask for the building of the Dachu Group, nor did it go to the Chujia House, but to the Yunhu Park, the largest public park in the city.

This is a park that does not charge, and the floor space is not small. There are roads leading to the inside in multiple directions.

The place where the Chu family stopped was in front of an artificial lake Yunhu in the center of the park.

There was a river passing through here, and there was also a pool of water. Later, on this basis, it was developed into an artificial lake, and this Yunhu Park was built around the Yunhu Lake.

Bsp; Yunzhou people do not know this place, and here is said to be sponsored by the Da Chu Group.

The legend of the older generation, this cloud lake was not in ancient times. Later, this was a strange and chaotic, and there were immortals passing by, and the monsters died there, forming a large water pool, which is now the artificial lake Yunhu Predecessor.

In the realm of comprehension, according to the Chu family has been entrenched in Yunzhou City, this legendary immortal alien, should be a generation of comprehension strong on the Chu family, it is possible to smash the monsters, and high level It is also possible that the traces of the comprehension battles are left behind.

Now the Yunhu area has developed very well, not only the antique pavilions, but also some modern style things.

For example, the place where the Chu family stays is a Ferris wheel by the lake.

Of course, this Ferris wheel has not reached the level of the country and the world, but in Yunzhou, it is undoubtedly a conspicuous huge building. Especially in the Yunhu Park, where there are no high-rise buildings around, you can see far from the landmarks.

Since it is already December, the temperature in the morning and evening is already very low. At night, the Ferris wheel is not open, just decorated with lights as a landscape.

Now the Chu family is standing, waiting for the bleakness of catching up all the way, waiting for the back waves.

“Shen Lang! Zheng Yumeng, tonight is your death!”

Shen Lang followed the scene and he immediately found that there were no people in the vicinity. It should be arranged by the Chu family. I didn't want more people to discover that in the name of park maintenance, many people were temporarily cleared out.

The weather is cold, and there are fewer people walking in the evening, which should be one of the reasons.

There is no nonsense in the bleak, and the sword is attacked directly.

She dares to call herself a sword fairy, of course, not by blowing it out. Even if she uses this body to play limitedly, she still has the style of a strong kendo.

For example, when she grabbed it, she used chopsticks as a sword and directly nailed the Chu family. Later, with a short knife as a sword, he quickly killed Chu Weiwei.

What is now in her hands is not her own sword of the year, but the sword is not used by Shen Lang, but also a good sword. At the moment, the sword is drawn, and the momentum is not exactly comparable to the knife.

The park that had been swaying in the night winds suddenly became murderous, and the swordsmanship directly swayed the lake near the edge, and the people did not arrive at the sword, and there was already a net of swords that shrouded the Chu family!

Shen Lang and Desolation have a limited understanding of each other. Although they have killed dozens of people in the Chu family today but most of them are of average strength, it is very easy to do. It's also a good match for the Chu and the Chu Chuhai, and it's also a limited attack.

Now that I have arrived, Shen Lang will not worry that the stagnation will be dangerous. I will be able to take a look at her play.

The bleak moment at the moment, the frost on the face, and even a little anxiety.

Shen Lang gave her the sword and let him kill the murderer, but she was chasing it all the way, and there was no chance to do it. Even now Shen Lang has arrived, she has not taken the other side, so she feels a little faceless.

Just as the sword was stirring, Shen Lang looked up fiercely and looked at the Ferris wheel.

On the top of the Ferris wheel, there is a person standing, looking down at the ground!

As he guessed, the Chu family is to bring them here. The one above the Ferris wheel is the real main force tonight!

At the same time, there are people on the four sides of Yunhu Park that are rapidly approaching, and they are treated as a circle around the lakeside Ferris wheel.
