

First Strong 2601

Chapter 2601 - Shock of God

What is the realm of Shen Lang and the dog god? Perhaps the light **** will never remember. For him, it may be an ant, or a cockroach.

After a few years, or how long it takes, you may not care.

Of course, if he really noticed it, even if he didn't remember it, he could still remember it.

But no matter what, the gap between the present and the present is still very huge.

Even if you just look at it, you can see the difference between them.

“...It seems to be improving the strength and wanting to take revenge.”

The Word of Light God is full of playfulness.

No matter how much progress has been made, or how many people have come. In his eyes, that is nothing.

If you make quick progress, it will not be able to make up for the gap in five years. The people who can challenge him are almost non-existent.

“We are here to settle accounts with you.”

Shen Lang faintly returned a sentence.

This is a simple sentence, but the effect is very simple!

Where the light gods were, they were not known at all, only knowing that they were in this temple.

Even if the last time Shen Lang received the test of the long and arduous steps, he was able to enter the Temple of Light and did not see the God of Light.

Not qualified!

Just the light of God's speech to them is also a bird's-eye view of God.

Normally, their words, responses, and light God can be heard and seen.

But now it is different. The reply from Shen Lang is not waiting for the light ***** to hear it, but directly to the ear of the bright god!

This made the light ***** somewhere in the temple directly shocked.

At that moment, the sound was not outside the temple. It was not his active hearing. Instead, he penetrated the heavy wall building of the temple and entered it directly into his ear.

This shows that because he just made a sound, others have already locked him accurately!

This is in his temple, he has a great home advantage, he wants to lock others, it is in another world, and even a moment to think about the past.

But others want to lock him, it is almost impossible to do.

Just that sentence, normal should not be introduced into the temple, this will be protected by the temple.

But now it has not only been sent in, but it has passed over the walls and passed directly to his ears.

This is dangerous!

An outsider, coming to his home field, locked him in an instant, as if he was staring at him, making him very uncomfortable.

“It is to be settled, the power of faith below us, you are helping bring it.”

The light **** is not so light, and the tone begins to be severe.

God Water, who had accumulated thousands of years of faith in the Temple of Light on Earth, was taken for granted. He certainly knew and could guess who did it.

It's just that you can't go in person, and then arrange someone to go, and the result may be bad.

But now that Shen Lang has come here, he can take all the faithful waters he has taken away from him.

This is a good thing!

Because it will accumulate so much before, because the transmission is limited, although it is continuous, but too little is too slow, only the benefits of long-term flow.

Now that Shen Lang is here, he got it. If he got it back, it would be equivalent to taking back the one-time one that didn't pass.

“The power of your faith, of course I have used it.”

Shen Lang bluntly, then threatened one sentence: “Since it is to settle accounts, then don't blame me for being rude. If you don't show up again, I will give you this nest.”

Although he is very calm, but come here, watching this step, will inevitably ring the last grievance.

Others play him like an ordinary person who plays with an ant.

The dog god's resentment was even more hooked up. When Shen Lang spoke, it slammed a foot, and immediately the ground around the temple exploded.

This is the Temple of Light, in addition to the building is very good, but also has a strong guard.

If the power is not big enough, there will be no direct impact on the impact of the ground, and all will be consumed by the guards.

Just the foot of the dog ***** is to show its strength and vent their anger for the humiliation of the year.

If they appear, it is such a threat, and the light ***** will not pay attention to it.

But just after Shen Lang can lock him, he has given him a great sense of uneasiness. The dog ***** has come back so much, and he has realized that the two returning are all great strength!

There is another person, obviously the strength will not be weak.

In an instant, the light and shadow flashed in front of him, and the light ***** came out directly.

This temple of light is the top priority of the Guangming Mountain Park. It is not only the place where the light gods live, but also the place to absorb the power of the other world ***** religions. It is also the place where the ancestral home is located!

If this is destroyed, it will be a huge loss to them.

Therefore, when the sentence of Shen Lang was threatened, the light ***** did not dare to support the big, and immediately appeared in front of them.

When Shen Lang entered the temple last time, he did not see the deity of the ***** of light.

At the moment, it is also unremarkable. It seems that there is nothing special like the statue of the ***** of light.

“you guys.....”

The bright ***** has just said a word, has not had time to express his meaning, immediately felt a huge mental pressure!

This made him look awkward and his face became a bit hard to look at.

Actually it was an attack on his spiritual strength. Seeing this meaning is to report the revenge of the year, trying to crush him with spiritual strength!

This makes the **** of light very uncomfortable.

At the beginning, he was able to crush the other party because the other person was in front of him and he was a trivial little character.

Now that the other party is going to treat him in the same way, does it mean that he is also regarded as a trivial little role?

Unhappy, he was immediately absorbed.

This is on my own site. This is the first time this confrontation. It is absolutely impossible to overturn the ship in the gutter.

And the other party is so inferior, he should give him a horse, let him know how to advance and retreat.

In the blink of an eye, Guangming God has distracted against the suppression of Shenlang's spiritual strength.

With the level of strength of the light god, of course, it can be "multi-threaded", he still faces the three of them, as if nothing is wrong.

but.....

Shen Lang is not only the same as anyone else, but also continues to exert pressure on words.

"My spiritual strength can be today, and I have lost the power of faith that your gods have taught hundreds of millions of believers for centuries."

The light **** listened as if it had a knife...

These things should have belonged to him. Now it's not just that the person has to go, and it's really fully utilized!

Just like the money is out of bounds, you must slowly come a little bit, but it has been stolen, and the thief is out of the country, and find the thief, not only can you come back, but also avoid the trouble of restrictions, it is very cool. of.

As a result, it was learned that the money had been used up by others, and the gap was large.

Chapter 2602 - Just by you

Shen Lang attacked with spiritual power, that is, he wanted to crush him and wanted to report the hatred of the day. This light is very clear to God.

At this moment, knowing that the other person can be so powerful, it is all caused by stealing his own wealth, which makes him very unwilling.

Just as soon as I shot, I already felt it. This is the lower bound of the earth, and it has already undergone tremendous changes. It can be regarded as a reborn.

If he doesn't pay enough attention, it is very likely that the ship will be overturned in the gutter!

Not to mention two more besides, obviously also very strong.

Therefore, at this moment, Guangming God has no time to be dissatisfied, but uses stronger spirit to counter the pressure of Shenlang, while maintaining strong momentum in the momentum.

"Since it is the power of our faith, it is time for me to take it back! I will take it back."

He stared at the sinking waves, showing his attitude, still not looking at the three of them.

Shen Lang is also staring at him.

Bright God, I feel that his momentum is not weak, but in fact it has been weak!

Because when he came over last time, he didn't need to show up, and an idea would suppress the waves and the dog god.

Now it is not only necessary to deal with it personally, but also to force a very strong look, even if it can suppress a wave, compared to the last time, it is already weak.

Shen Lang and the dog **** are just the opposite.

The previous oppression was to make them have a psychological shadow for a long time. When they came back, they could fight with each other.

This represents their power!

This one is strong and makes them full of confidence.

In the past, I felt that it was truly like God. It was powerful enough to be an incredible light god. It was also touchable, and it was not invincible.

Although they have been retreating for four hundred years before and after, there are big differences in the realm, but the shadows left here in that year still have not disappeared, which is why they insist on coming back.

There is no need for revenge, but this knot must be resolved.

The positive confrontation at the moment is to let them truly appreciate the strength of their own strength.

“Do you collect it back? This Guangming Mountain, this hundred paradise, there are many believers, apostles, and perhaps more faith accumulation. I am also interested...”

The words that Shen Lang responded to made the light of God's mind slightly.

This is the base camp of their light gods. They teach in many worlds, and this is where their **** country lies.

If only a few believers, even apostles, are dead, he will not be in the heart.

As long as the core temple of light is not shaken, as long as the foundation of the hundred paradise is still there, the death and injury are nothing. Even the damage of the dark and bright apostles can be indifferent.

So the last time he was interested in Shen Lang, he was more interested, not revenge.

With the realm of both sides at the time, he wanted to destroy the Shen Lang, and Fan Xuexue and the dog god, all of them are easy, so there is no interest.

Someone has come to the Temple of Light, which has never been seen before, at least he is not in office, so the incident itself makes him more interesting.

It is also like teasing ants to tease them. Finally, I want to see how they escaped. Otherwise, even if there is a door to the Three Realms, it is still going to be destroyed.

Now it is different. The threat of Shen Lang has already made him able to listen in and has really felt the threat.

If the other person is involved with him, the other two have the strength to kill all other apostles and believers one by one!

When the believers of the Hundred Paradises were killed and the temple was occupied, the gods were completely destroyed!

But apart from himself, there is no way to fight.

Because the structure of the Light God is so, there is only one unique “God”. Other apostles, no matter what level, are already very powerful compared to the average person, but they cannot be compared with God.

To maintain the uniqueness, there must be no near-god existence, and this will avoid the possibility of guilty powers such as robbing power.

Normally, the strength of the dark and bright apostles, plus the top ten Stuarts, placed on the entire mainland of the island, is also a top existence, and it is possible to keep the Guangmingshan Park.

In other words, Guangming God used to be a transcendental existence and a gesture of God. Their eyes are extremely ambitious, reaching out to other worlds, with resources that other sects do not have, and they do not bother to compete with other sects.

Otherwise, they have to fight for the world, far more powerful than the Dragon Gate of the Dragon Valley.

But the current situation is very bad for them.

The three in front of him all surpassed his expectations. They are far better than the dark and bright apostles. If he can't keep up, the gods will be subverted.

“Just by you?”

The light **** responded coldly and coldly, and at the same time, he had already released a mindfulness and spread it far away.

Guangmingshan Bai Paradise is originally a paradise. No one is visiting to disturb. The defense of all parties is more symbolic.

But the Temple of Light is the most important thing in the teaching of God, or whether all the apostles are focused on defense.

Someone has come here, the apostles of the distance may not know, but the dog god's foot is full of power, directly destroying the defensive array and smashing the ground. This movement is far from being transmitted.

When Shen Lang spoke, some believers who were already close to the apostles came over here.

The light god's move is to give them orders to let them not come.

This is not a battle they can participate in. If it comes, it will only make it easier for the enemy to slaughter.

Just the battle between Shen Lang and his mental strength, Gao Hanqiu can also know, but he did not participate in the past, this does not require two people to play one together, let Shen Lang to solve it. Like Liwei, who is just a dog god, Gao Hanqiu can't be idle, and he must show his strength.

When the words of the **** of light are spoken, Gao Hanqiu holds the sword of the king and is very casual to insert into the ground.

It seems that it is very easy to make a stroke on the ground, but the sword of the king touched the ground that had just been destroyed by the dog god, but it bursted directly into the ground with a surging force!

It took the sword of the invincible autumn and cold, and rolled out crazy. The high cold autumn suppressed it from letting it burst into the top, and suddenly made the surrounding like an earthquake, and countless impacts made the ground behave like a beating.

In the next moment, the turbulent impact under the ground began to impact the Temple of Light!

The protection of the Temple of Light is not only the above, but the entire building, including the foundation below, is protected. So just the impact of the first layer, it still does not move, including the foot before the dog god, just let the front surface of the ground, has not impacted the building.

Now that this is a raging sword, it begins to attack the foundation of the Temple of Light from below!

Chapter 2603 - God purification

“presumptuous!”

The light of God's slight foot, immediately has a vast power, and the entire temple of light, together with the entire environment, quickly spread the sword of the king's sword, firmly suppressed.

Just like this, all the raging swords were wiped out in the ground. The general fluctuations of the earthquake immediately recovered.

Bright God is very aware of the current situation. He has to deal with three people alone. This will show the Thunder.

Shen Lang is a slight smile.

“What are you going to do?”

He was just a light finger, and immediately had a powerful force, going directly to the top of the Temple of Light!

The light of God’s gaze moves, does not require him to personally express anything, the distraction spreads a force, and immediately blocks.

The normal temple of light is a realm of great immortals. If you want a direct attack, perhaps there will be no situation.

But now the strength of Shen Lang has already shocked him, and he dare not blame any big enemy.

It is a pity that although he intercepted the past with invisible temperament, the power of Shen Lang’s finger is still not blocked by him.

The strong momentum broke through his block and continued to blast at the top of the Temple of Light.

Suddenly, just like an ordinary building, the bombardment of the shells, the top of the temple, was directly destroyed!

Although the scope is not very large, for the entire temple building, only a slight loss is lost, but for the light god, it is a heavy blow!

It was the believers and the apostles who got orders in the distance and did not come closer, and they felt it, and they were deeply shocked.

The Temple of Light is the most important place for them. The whole building itself is an indestructible fortress and a complete whole.

In order to attack the temple, in addition to the defense of the light god, it is necessary to break through the protective array of the temple of light, and then encounter the impact of the whole unity. As a result, the effect that can be achieved in the end is very limited.

The normal situation should be that after the bombardment, it can feel a huge impact, but there is no loss. It is also a test for Shen Lang.

But now, the situation is that he broke the defense of the light **** first, then broke the whole protective array, and blasted a corner on the integrated building.

This is already an incredible situation, and more importantly, this is just a wave of casual waves!

Just the high cold autumn is also a sword, there will be a surge of power, the light God in the process of suppression, can be regarded as a secret process, has a certain understanding.

If it is the cold autumn holding the sword of the king, these artifacts can break through the corner of the Temple of Light, he can accept, it is the strength of human beings plus the power of artifacts.

But just the sinking wave is just a casual finger, and it is still under the circumstance of his mental struggle, which makes him unbearable.

This also made him have to raise the importance of Shen Lang once again.

Originally, Shen Lang's mental power attacked him. Guangming God was still defensive, because he had to figure out the strength of these people first, and later realized that they might attack the entire paradise, and it was more distracting.

But now, at this moment, he realizes that he can't continue this way, he must first carry this sinking wave!

In the realm of the ***** of light, there should be no more combat experience. There are no enemies here, and no one is his opponent. It can be crushed at will.

However, it is not a simple experience to measure the realm of him. Many things can directly understand the essence.

For example, now, he will not be angry at the destruction of the Temple of Light. He did not care about the Temple of Light, but instead focused on the person of Shen Lang. It is the key to solve the problem.

In an instant, his mental strength permeated the past, directly to destroy the smashing waves!

Suddenly, Shen Lang once again felt the situation he encountered on this step.

The current attack power is naturally far better than the day. On the same day, the other party was completely playing with him, and he was pressing the limit that he was allowed to bear.

Now, the attack power that the light ***** has erupted is really the feeling of going all out. It is really going to hit his limit!

However, the current Shen Lang is no longer the day's swell, the retreat of four hundred years before and after, and various encounters, so that he does not know how many times he has changed.

When this wants to rush to the extreme spirit of his coming, he immediately strengthened his attack power, and the front was hard to beat!

Last time, he was only able to struggle with stubborn resistance, but this time, he was completely ***** for tat.

While the spirit is in the opposite direction, Shen Lang's palms are slightly instigated, and there is crazy energy to roll out and directly rush to the Temple of Light!

In a moment, a huge palm of the sky appeared in the air, directly to the temple of light to suppress the past!

Guangming God immediately felt a pressure. He went all out, not only did not quickly suppress the other side, but the other side had spare power to attack the temple, which is not easy.

There are two more in the side!

“Let me purify your sin with light!”

As the light of God sang the general words, his body instantly exhaled the bright light, just like a sun, the light is very glaring.

Shen Lang and the dog gods have all played against the apostles of the Guangming gods. They are deeply impressed by the light. Shen Lang absorbs and learns the methods of reserve use.

The grievances and conditions here with the light gods are also detailed with the cold autumn, so that there is more preparation.

So when he spoke, when he began to shine, Shen Lang three realized that this is to release the light!

According to the methods used by the gods and the apostles to use the light of God, it is not their own possession, they are borrowed from God.

Now I have to face the light **** all the superb gods, are from him!

Is he personal, or does it include the Temple of Light?

Or is he equivalent to the Temple of Light?

There is no answer between the temporary, they do not have time to consider these answers, but must face it immediately.

“Light, I also received it!”

The moment when the ***** of light bursts into the light of the gods, there is no need to look at which enemy alone, it can cover them all, and the speed is very fast.

But to his surprise, the other three, even if they were wary, did not escape!

If you escape, you can give him more time to prepare. Every time, he can have a chance to breathe, or he can go back to the Temple of Light, use the temple to guard it, and so on.

But the other person not only did not mean to leave, but in the moment before the words of Shen Lang, there has already been something, this is what shocked him.

Chapter 2604 - Temple collapse

Shen Lang had already acted before the words were spoken. A presence like the halo was actually the first step in the light of the light of the gods!

Immediately after the halo, it quickly closed the past, and the dumplings were the same as the light gods.

The light of the gods is white light, and the halo is also a slight white light, which is a powerful energy of materialization.

But when the two sides play against each other, there is a point of integration that is difficult to distinguish between each other.

The light that God released by the Light God is all systemic, except for three, the light temple behind it is also shining!

When the light passed through, he quickly took it, avoiding not hurting the enemy, and hurting his temple first.

The result is a comprehensive glimpse of the three people in the Shenlang, stronger than before.

But the halo of Shen Lang is not only blocked in front of his face, but also wrapped in the past, almost as if he was locked in the envelope of this halo.

Even the gods can block it, and it is to encircle him. This situation makes the light gods horrified, and can only strengthen the light, trying to break through this circle of halo.

It is a pity that just as his mental power can't defeat the broken waves, now the halo can't be broken.

Then there was a loud noise!

The huge palm of the virtual shadow, sturdily shot on the top of the Temple of Light, made a loud noise, shocked the protective array, and shocked the entire building.

And this suppression, directly let the Temple of Light almost tremble.

Shen Lang has a three-pronged approach, and both sides have been hard-pressed, and the third aspect has also been strong in the past!

This is not only the shock of the gods, but the dog ***** is also very excited.

This is the crit of strength!

Shen Lang really changed a lot, and this maneuvering ability has completely surpassed the light god.

“Do you want to come again?”

The words of Shen Lang are not said to be spread out in the way of ideas, so that everyone can understand quickly and do not need the fallacy of words.

Bright God understands what he means, this is to let him surrender!

How could he surrender?

He is a bright god!

Around his aperture, he began to shrink in a steady and steady manner, even if he released a lot of light, it was blocked, and then withdrawn.

The palm of Shen Lang's shadow has already been photographed again.

This time, the whole temple of light was trembled directly, as if it had to be collapsed at any time.

The sword of the Alpine Autumn King is still inserted on the ground, because the whole process is very fast, he has not been pulled up.

At this moment, seeing that Shen Lang has the upper hand, he is not proud, but helps one!

He swung his sword and made the sword of the king go to the direction of the Temple of Light!

This sword is no longer a casual sword. It is mixed with the energy of the cold and autumn, and the sword of the king begins to extend.

Mixed with great power, and the sharpness of the sword of the king, starting from the ground, broke through to the Temple of Light!

The dog **** also cooperated in time, and it was once again, with a strong impact, rushed to the Temple of Light!

This is a three-pronged approach. The three people attack the target from different angles and in different ways.

The light **** is angry and shocked, but he is now very passive, proud of the extraordinary strength, this can be crushed by the enemy, and now suppressed by the other side, there will be no use.

Shen Lang and the dog god, the light temple is above and below the squeeze, both shocks, but also directly to kill the temple of light.

At this moment, the sword of the cold and cold autumn king's sword began to have the best effect!

In an instant, the indestructible temple of light, the sword of the king who is invincible, opened two halves from the middle!

However, the Temple of Light is a very solid thing, but also a combination of all aspects, rather than a single individual. So even if it was opened, it did not destroy the collapse.

However, the bombardment of three layers of power was encountered, and this sword opened and began to feel a little crumbling.

“dead!”

Their attack on the Temple of Light has completely angered the God of Light!

At the same time he burst into this anger, the whole body of the gods, all concentrated together, like a dazzling lightsaber, directly smashed out to the front, actually to break the circle of halo that could not be broken. Then come to the side of Shen Lang!

Under the Supreme Sword of the Light God, the front of the Shen Lang, was quickly opened, the enormous power of the lightsaber, the time to destroy the Shen Lang!

And he did not stop, and turned to the side of the dog ***** and the cold autumn, at the speed of lightning speed, the two of them were equally destroyed!

The three strongest ones were solved by the sword of the light god, which made the light ***** who broke out with a full blow and felt satisfied.

But he is still very angry.

Temple of Light!

However, just as he paid attention to the Temple of Light behind him, he seemed to see a huge fist and squatted directly on the crumbling light temple!

The Temple of Light, which had been hit by several layers of bombardment, is already the end of the tyranny. At this moment, it is a heavy blow, and it is directly destroyed!

Temple of Light – Collapse!

Bright God is incredible.

He clearly has destroyed all three enemies, why? It is impossible to have an enemy hidden in the dark!

And this speed has made him want to resist again.

But all the doubts are only between one thought.

He already has the answer.

Because he just discovered that although the enemy was destroyed, the mental power against him did not dissipate.

This can't be destroyed by the flesh. There is only one possibility, that is, just destroyed, just a phantom, the enemy is actually in another place!

Finding this can also explain why it can continue to destroy the Temple of Light.

The whole time was very short, and now he wants to search for the enemy again, it is too late. Because of that mental power, it has already poured over!

It has always been his way to suppress the enemy in this way, and now it is the enemy's strong suppression of him.

Because the shadow of the enemy can't be seen, his compressed lightsaber have no use at all. If you want to distribute the light of the whole body, you will be surrounded by the aperture.

Under such passiveness, the ***** of light has been secretly cold and sweaty.

This time I kicked the iron plate!

Even if he is highly valued, he still has not estimated the strength of the other side.

It is impossible for him to keep the Temple of Light. What you can do at this time can only be as self-protected as possible, and don't let yourself be destroyed.

Therefore, at that moment, his lightsaber was blindly guarded around, and the mental power was a comprehensive attack against the waves.

Chapter 2605 - The first strong (end)

“Do you think that you are still my opponent?”

This idea appeared directly in the brain of the bright god.

In an instant, the ***** of light completely understands that the realm of the other side is above him!

In fact, even if he is not willing to admit that Shen Lang can have such strength, just after fighting all the way, he understands that he is not under him.

This is why he will put his goal on top of his own.

But still still underestimated, the other side is just like him, it is much stronger than him!

Don't look at him just as an enemy three, but when Shen Lang dealt with him, it was also a multi-layered attack.

At this moment, the comprehensive confrontation between the two people's mental strength is unfortunate, and it is the most direct hard-hitting.

At first he was like a funny ant, but now he has the feeling of ants!

The other party is not only fully rolled over, but also has the strength to pressure him through consciousness!

“We don’t have any grievances... You have a lot of benefits for us, I haven’t found you to seek revenge.”

Bright God decisive choice!

Although he believes that it is very unbearable for him to be a god.

But compared with life, life is more important. If life is gone, then the face of dignity will no longer exist.

The Temple of Light has already been like this. If he does not hurry up, he will not have the initiative to wait for the two to come together.

“The last time I was against you, it was just a test and a temper, and I finally let you go.”

“Let me go! We can cooperate, I can help you get everything in the Temple of Light...you...”

“You can be a new light god!”

“This is a true god. It is a **** that can command all walks of life and has hundreds of millions of believers!”

These words of the Light God are communicated through consciousness and Shen Lang, because in the state of high pressure, in the absence of a reply, he quickly rushed to fill the sentence.

Originally, I wanted to talk about the truth and said that I would take a step back. The latter thing began to show the true sincerity, the light temple, the light god, all hands to Shen Lang.

Shen Lang is an outsider. If you want to destroy the temple and destroy the entire paradise, you can do it.

But if he wants to take over the light gods and want to unite the gods, he must light the “Zen” of God, he needs his cooperation and assistance, and transfer all relevant secrets.

The strategy of the gods is originally that God is high, and the others have huge gaps. No one else can take over.

Therefore, putting these out is already the last bottom line of Bright God.

He has no other more to offer.

The temple and the gods have been enshrined. In fact, they have already forgotten their ancestors. They are already evil, they have no face to see all the believers, and they have no face to see the gods of the past.

But in his own heart, this is also the curve, it is to stay in the green hills, to save the life first, and also to the side of the first to save the foundation of the gods.

But unfortunately, Shen Lang did not respond to him at all!

Some only have the spirit of continuous pressure, this powerful spirit, so that his head seems to burst open.

“why?”

“No, I don’t need your gods, I just want you to always have the same taste.”

“...”

The **** of light is very speechless. Of course he understands that the suppression of them on the same day, he is just playing, they are tremendous pain and shame.

But is the interest not going to be?

Compared with the great interests of the entire Guangshen, what does it count?

“Without me, you can’t take over the light gods! You will encounter the curse of the gods and millions of believers!”

He has already retired.

Shen Lang sneered: “Hundreds of believers are sucked by you, what have you done for them? Without you, they may be better. If I don’t bother with your way, how can you take over your god?”

During the speech, a huge fist smashed again.

The temple of light that had collapsed was immediately ruined like a ruin!

Bright God was originally a hard support, and the foundation is still his last conviction.

But now the Temple of Light, the other party does not look in the eyes, do not take this eternal life as one thing, do not take the billions of resources inside as one thing, directly kill him!

“What do you want!”

He sent out a sense of shouting.

But there was no effect at all. The consciousness of Shen Lang continued to be suppressed and directly hit him to the edge of destruction.

“I admit defeat! I lost!”

“I have served! The universe is the only ***** in the world. It is the first strongest of the supreme! Can I still confess?”

The ***** of light has completely collapsed.

He is a bright god, never thought that there will be such a day, but he did not expect that the war will be so fast and short.

He even suffered from such a devastating blow without even exerting his strength!

Perhaps it is because of such a quick blow that the **** of Light God can be defeated. If you fight for a long time, it will make him show great resilience.

Just like a school scum, it has been used to various kinds of blows in school, and how bad the test is, it can be accepted.

A medium-sized student can still receive and analyze the reasons.

But a top-ranking tyrant who has always been far ahead, suddenly being tested by a simple test, instantly scored a zero, and that kind of blow would be a state of doubt about life.

If the time is longer, he can also figure out why he will take the test and why it will be zero.

But the short-term appearance of this result, coupled with the greatest beliefs, etc., was all destroyed in an instant, and the combination of body and mind made him completely desperate.

He now regards Shen Lang as the first strongest in the universe, which is equivalent to completely smashing down.

This state is no longer a condition, it is a deep collapse of the begging for mercy.

“I am the first strongman in the universe, I know.”

“...”

A reply from Shen Lang directly caused Guangming God to be hit again.

What is this?

Shen Lang is actually a bit embarrassed in my heart. Because of the ruins, I found that the ancient relics of 80,000 years ago are the future world of the city.

In the “future world of a long time past”, Bihaihuan, the world’s strongest goddess, is regarded as the only **** of the world.

He practiced all the way, in addition to the early memory of the past, the biggest one behind is the space of the heavenly book.

The book space that day, when Bihaihuan became a goddess and searched for him, left behind in the ancient world.

This is a reincarnation and a chance.

Perhaps he will follow the same path, and he will find the Golden Bible in the midst of it.

It was only that it was not encountered before, and the memory was not passed down.

This world, he is following this road, all the way to the present. The space of the Bible is so, the ancestors of the Emperor’s behemoth are also the same source.

All of this is like a day of destiny.

After this retreat, Shen Lang knew his realm and had reached the level of true God. The two of them were also true peaks. After coming here, after officially fighting, he also confirmed that the **** of light, in fact, is the peak of true fairy, has not yet reached the realm of God.

Therefore, no matter how he resists, Shen Lang can even help him without the help of Gao Hanqiu and the dog god!

Looking at the way of the bright god, Shen Lang thought of himself who was struggling to support it at that time. He did not torture him again and wiped it out directly!

The light of God is fallen.

The Temple of Light collapsed.

These two changes directly made the paradise feel, and spread to the light gods of many worlds.

Countless believers I don't know what happened, I just feel that I have lost something, and the connection with their faith is missing.

But apart from the gods, the lords, and the general believers, there is no deeper understanding.

Everything will still be the same.

Without the light god, it will be better, but it may not be.

Shen Lang looked at the cold autumn and the dog god, smiled and said: "Go! I will not become a new ***** here."

Both of them laughed.

They really have the guess, according to the style of Shen Lang, will not take over all the resources of the gods.

The power of the light god, they are feeling, this is wiped out by the waves, it can be seen that Shen Lang is already the strongest in the world!

"Go back, we have been closed for hundreds of years!" Gao Hanqiu laughed.

Go back, go back to Qiulin, and return to Earth!
