Chapter 279 - Tianshan Jianzong

Shen Lang ran after the exposure, as for the reaction of the Chu family, they got them.

He did not rest for one night, but continued to take the oral medicine, plus absorb the energy inside the stone, and strive to recover as much as possible.

But Lingshi did not dare to run out of it, because the black technology of the blue sea, the energy spar, is the Lingshi. This thing is still very helpful for him at this stage, and can not consume the source of power.

I left early the next morning and flew to the high altitude area again. According to yesterday's aerial observation, I tried to overlap with the memories and try to get a more accurate seat.

But it is still very difficult. After all, he did not think about it for a day, and did not deliberately write down the detailed picture. It can only be the terrain near the Tianshan Jianzong, or it can be pulled out from the memory.

The next day, there was nothing to gain. Shen Lang did not go to a lower altitude place. He just searched for a place with a leeward wind and still practiced rest.

With his bird's-eye view of flying fast in the air, the scope can be reached a whole day, so he does not worry, even if it is a carpet search, there is a chance to find it.

At noon on the third day, I finally found a place that matched his memory!

It is not all snowy, there is a snowy peak. Below is a Tianchi that is not too big. The altitude of the surrounding peaks is much lower. It is not covered by snow and ice. If it is not winter, it may be green grass.

Shen Lang stopped at the edge of the Tianchi Lake, while observing the surrounding terrain, while recalling the mountain gate of the Tianshan Jianzong.

When he walked around the Tianchi for about a few tens of meters, there was a loud voice coming!

“Where is my friend visiting?”

Then, on the surface of the Tianchi Lake below the snow peak, a person appeared on an exposed stone.

Shen Lang looked carefully. This is a man in his twenties who is looking at him through the Tianchi.

“This is Tianshan Jianzong?” Shen Lang asked a fist.

“Who is you?” The man is not only skeptical, but also with a hint of vigilance.

Shen Lang had already thought about the rhetoric. Of course, he could not say that he had been here.

“The ancestors of the division had been old with the Tianshan Jianzong. There was an allusion about the Tianshan Jianzong. So when I came to Tianshan, I would like to look for it to see if there really is such a presence. No interruption! ”

The man doubted it and continued to ask: “What is the door of your teacher?”

Shen Lang shook his head: “There is no name, it has been a single pass, and now I am one.”

“Which master of the division, when is it old with us?” This is heard, the disciple of Tianshan Jianzong feels perfunctory, but still asks again.

Shen Lang said faintly: “I want to avoid the name of the founder. I used to be old with the nobles of the nobles. I also gave a sword to the seniors. It seems to be Qiu Shuijian.”

“What do you mean? Who are you?” The disciple of Tianshan Jianzong changed his face.

“It’s just a fame. It’s a great honor to let me go in and visit one or two.” Shen Lang gave him a smile and said that he was not malicious.

The disciple of the Tianshan Jianzong, who was more vigilant, then did not speak, and disappeared directly.

His appearance has already made Shen Lang clear the entrance to the mountain gate, but unlike the previous trip to the Tianshan Ice Palace, he could not just enter it.

According to his estimation, just the person, should go to the request

So, wait patiently for a while.

About two minutes ago, on the rock, there was another person. This time it was two people. In addition to the man, there was a man in his forties.

“Tianshan Jianzong praised, this friend who came from afar, do not know how to call it?” Middle-aged man held a fist.

“My name is Shen Lang.” Shen Lang is not hidden.

According to the environment here, they also have no network signal, and they may not know about him. If they are so smart just to make good friends with Chu Mo, they can only recognize it.

When I heard the name of Shen Lang, I didn’t react, as if I had never heard it.

“Shenlang Xiaoyou, I heard that the ancestors of the nobles had been old with the Gaohan Qiuzu. I don’t know what proof can be given?” Yang Yang still kept polite.

Shen Lang raised his hand. “This thing is a token of yours.”

After the explanation, he waved again and let things fly over the Tianchi and came over the rock.

When the thing flew over, he stared carefully and kept a high degree of alert so as not to attack him.

Waiting to see the speed of flying over is not so fast, it does not seem to be an attacking item, it is to reach out and pick it up.

However, he was still cautious. When he reached out, the elbow was shrunk and the sleeves were on the palm of his hand. Even if it is poisonous, it will not be touched directly.

When he got to his hand, he looked at it carefully, but he frowned.

“Sorry, this token is a matter of fact, I can’t tell, I hope you wait a moment.”

After he finished his fist, he disappeared and left the young man waiting.

The young man stared at the sinking waves across the Tianchi. It was better to talk about surveillance than to accompany him.

“Tianshan has thousands of miles, you can’t pass by. It’s not easy to find here, you can’t just meet it. Since you are looking for it, why can’t you say it clearly? You should just want to enter our swords, you What is the purpose?”

For a series of problems with this young man, Shen Lang smiled and shook his head.

“Wait for your parents to see it again! If they think this is a fake, then it doesn’t matter. In a word, I don’t have a purpose, it can’t be bad for you. I am a young man, and I will challenge you one.”
The big door, my brain has a problem?”

Shen Lang’s answer, let the young man calm down It makes sense to think about it. As for him, how can he not dare to challenge Jianzong?

But then he doubted it again. If one person can’t, would there be other people ambushing?

When I think about it, I have to double the alert, and I don’t dare to ask questions, so as not to stun the snake.

Shen Lang waited quietly, and what he had just taken out was really a token of the Tianshan Jianzong!

The hundreds of thousands of square kilometers of the Tianshan Mountains are so vast, he will come to find the Tianshan Jianzong, in addition to this relationship know that they have this heritage, but also because there is such a stepping stone.

This token is found in the storage ring, because it is a token. If you don't take it here, it will have no effect on Shen Lang. It can't help him improve his strength, and he is not aggressive. There is no value in giving people.

So when I went to Yunzhou to find a revenge on the Chu family, this thing did not enter his vision at all, that is, this time people in Tianshan, will think of this layer.

But hundreds of years have passed, he does not know the current Tianshan Jianzong, and he still does not recognize this token, and he does not recognize it!
