

First Strong 31

Chapter 31 - Turn face

Seeing Liao boss's careful observation, everyone thought that he was a professional habit, and some people thought that he was pretending to help the boss.

I didn't think of it. After some identification, he really recognized the price of 150,000!

Wait... Fifteen thousand dare to accept?

In order for them to earn a lot of style, it means that they can sell more money!

"Liao boss is really joking, hahahaha..." Qu boss hit a haha, just thought that Liao boss to join, now I feel that this guy is deliberately to tear down the Taiwan.

"Liao Boss, you said this incense burner, worth 150,000?" The one who called him, is even more incredible.

Just past his bronze pavilion, in order to attract Liao boss, it is inconvenient to say that it is a worthless incense burner turned a hundred times, but that there is a copper incense burner to offer more than 100,000 yuan, let him identify it.

So at this time, Liao boss thought that this young man was going to sell this thing to Qu Bo, and that the boss was not sure, and he did not dare to accept it, so he said his opinion.

"I still can't judge completely, I have to carefully identify it. But as far as my experience is concerned, 150,000 is acceptable, there is no risk."

Boss Liao has not noticed everyone's surprise, and his eyes are still on the incense burner.

Everyone was stunned, this time it was confirmed, not a joke! Although it is conservative, it basically recognizes the value of this incense burner.

“Since Liao boss feels that he can accept it, then you will receive 150,000!” Qu boss’s face is not very good.

This Liao boss, everyone bowed their heads and saw them. As for the dismantling of the stage?

What made me lose face and what did you win?

He was so welcome to come back, so that Liao boss felt a bit wrong. I looked up at him and saw that his face was not good and he smiled.

“Qu Bo boss misunderstood, I will also look at it. Some people are going to sell it to you, of course I will not win the love.”

Jubaoju is not a franchise, but it does not sell copper.

This made the boss listen to it, and it was even more uncomfortable. He felt that he was deliberately confused.

“I don’t like this thing, I feel far from worth it. If you want to think of value, you will accept it on the spot!” Qu boss also began to regain his anger.

Put a few dozen pieces of things, say that the value is 150,000, and let him buy, is not to dismantle his desk? You said yes, then you buy it!

Liao Boss still kept his smile, but his face changed slightly. In terms of bronzes, he still has a lot of accomplishments. He dare not say experts, at least in this small South Gate antique street, it is numbered!

Just now he said that the 150,000 yuan is not lost, but the boss said that it is far from worth, which is equivalent to questioning his professional level in public!

“Do you mean this?” he asked a faintly.

Qu Bo returned with a sentence: “You have to accept it, my brother invited you to drink tonight!”

Seeing that their two bosses were on the line, the other people who were busy were excited.

I have seen the whole process from the beginning, but I feel dramatic.

What does Liao boss mean? Do you have a grudge with the boss? Still really think this thing is valuable?

Originally, Liao Boss was invited to come to the appraisal. Now, in this situation, he is not coming to Taiwan. He immediately looked down at the incense burner.

Qu Bo boss will say so, there must be a reason. However, from a professional point of view, he can be sure that this is an antiques for hundreds of years. If it is specific, it still needs information.

“Yes! Young man, since Jubao is not, then I will accept the bronze pavilion! You will transfer money with me in the past!”

In the case of being watched by everyone, Liao boss made a decision on the spot, and he did not believe that he would leave.

Let's say this, let everyone be surprised again!

Liao boss will definitely be worth 150,000, which can be said to be spoken verbally. And actually I am really willing to pay for it, this is not the same, indicating that it really has this value!

“Old Liao, you won't come true?” Qu boss took it seriously. “Don't say that I didn't remind you that this incense burner was used by me here. He just bought it for a thousand and five!”

After listening to it, Liao boss stunned.

“You said this is...” Then his eyes looked at the gods, and it was empty, and there was no new incense burner.

“Now you understand why I don't accept it.” Qu boss smiled. He felt that it was not a big deal to press Liao boss. This is to help stop the loss of more than 100,000.

Boss Liao looked at Shen Lang again, then looked down at the incense burner carefully, and then asked a little puzzled: “Why did you sell it in a thousand and five? You don’t care if you don’t care.”

“What do you mean?” Qu Bo boss suddenly felt.

Just the reaction of Liao’s boss has already made him nervous, and now this attitude...

“This incense burner... If you shoot, I will dare to accept 150,000.” Liao Boss finished, and looked at Shen Lang with a complex look.

At this point, the customers who have been watching the excitement before, can’t speak.

They also laughed at this before, this is a little white that does not understand anything, saying that he is a poor worm that has been fooled by the novel, and advised him to pay tuition fees even if...

However, it has now proved that is really a success!

Is this still a person who doesn’t understand anything?

Or is luck really patronizing newcomers?

I felt that the bodyguard who was so shameful with Shen Lang was close to the side of Shen Lang. When I felt that I was honored, I announced that he was together. This change is so big that he is very excited.

“Go, transfer.” Shen Lang urged a cry.

It is a bit embarrassing for Liao boss to figure out the situation now. Although he is sure that he can make a profit, if he accepts it, he will inevitably offend the boss, and he will not be guilty.

“Haha, maybe I’m leaving, this will not be received.” He hit a haha, and returned the hot incense burner to Shen Lang.

Everyone knows what is going on here, even if he says it is an eye-opener, others will not really question his level, and this is to maintain the face of Qu Bo.

The onlookers are horrified, but the excitement is that the ups and downs seem to be cool.

The old man is the boss, and his mood is very beautiful.

A good thing worth 150,000, maybe even hundreds of thousands, is facing every day, and I feel that I have made a big profit when I sold it for a thousand and five! If Liao Boss came, it would be a big loss, and it would be laughed behind!

“This is your money! Return the incense burner to me!”

Qu Bo directly turned his face and handed the one thousand five that had just been collected to Shen Lang.

“I understand it. You started to use the idea of this incense burner from the beginning. I also said that I want to buy a gold urn. It is all intentional. How old is the heart, how is the heart so dark? I want to think of money crazy! Unscrupulous!”

As soon as he spoke, he quickly occupied the moral high ground and described Shen Lang as a villain who was deliberately trying to seize his treasure!
