

First Strong 331

Chapter 331 - Trophy

Of course, it can be so easily killed, in addition to unexpected and strength improvement, but also related to the strength of the other side. This should be the A-level superpower, which is equivalent to the beginning of the real world.

For this result, Shen Lang is already satisfied. Going back to Xie Dao Ling is also sure.

The old vampire did not chase, and after Shen Lang received the sword, he came to the A-class superman.

“Who are you... Why kill me...”

Although he cut it into two pieces from the chest, he still has consciousness.

“Because you are going to kill.”

Shen Lang carefully examined his body, because the blood was cut off from the chest, except that the spray was all blood, and there were a lot of internal organs left. It was a bit disgusting to watch.

The clothes were all contaminated with blood, and he was not interested in searching.

But there are still things that can be used!

Shen Lang reached out and took Dorothy's body, and then held her lips open. In addition, the A-class superman squirted out the blood that had not flowed, and it was absorbed and absorbed. The blood line was introduced into Dorothy's mouth.

“What are you doing...” The A-level superman felt very humiliating.

In fact, he cut off the heart, and could not supply blood to the brain. With a trace of the god, the time that can be persisted is also calculated in seconds. But this time, watching Shen Lang actually feed his blood to the vampire, still very angry.

“Don’t waste it. Didn’t you kill her and use her blood to open the door to the restricted area? Now this is a chance to repay you.”

“You, you are...”

From Shen Lang’s shot, he realized that it would not be as simple as the indigenous people here, but it was a little shocked to hear that Shen Lang knew their behavior completely.

Shen Lang did not answer him, focusing on the blood transfusion of Dorothy.

This A-class superman can’t keep going, and his eyes are not willing to squat.

Dorothy was reactivated by a drop of blood from Count Dracula, and absorbed a few drops of blood and a few drops of blood. It was just when it was working, suddenly injected. The blood, which she desperately needs, has been absorbed quickly by instinct.

Soon, all the blood of the A-class superman was absorbed and absorbed, and the ground was clean, and his body was dried up a lot.

These are not just fresh, warm blood, but also the blood of an A-class superman!

For Dorothy, it is simply a big supplement.

However, she was hurt too much before, and she still did not wake up.

Shen Lang opened her blood-stained clothes and looked at the wound, which is almost the same as he expected. This has no **** wounds and healed automatically.

He put Dorothy down, let her recover, and then checked the A-class superman.

After the blood was condensed and absorbed, the situation that was terrible was much better than before. But basically I can see that the pockets on his body, that is, the mobile phones and the like, do not contain any good things.

But he came to the old restricted area. This is where he pursued for decades. He also got the cooperation of vampires at the cost of sharing. So he must be fully prepared. Don't say how many things come in, at least get ready to go back. ?

It is inconvenient to go there once. It is very likely that it will only come in once. It will definitely not rely on hands or pockets to see their situation. The people who brought it will also stay there.

The goal is very clear!

Shen Lang took a ring from his hand.

I checked it carefully and determined that it was a treasure of storage. It was originally a Class A superpower, but now that he died, he became an ownerless thing.

Shen Lang immediately opened it and checked what was inside.

This ring is a little smaller than the space of his ring, but it is already very rare. And now there are a lot of things inside, it seems that he should carry all his belongings with him!

Imagine if he had been investigating the secrets of this ancient restricted area for decades, and he has gone through one county after another, and it really should be all the good things to carry with him.

There are many people outside the entrance to the restricted area. Most of them are superpowers. It can also be seen that this old A-class superman has a considerable power.

This is also helping him accumulate a lot of wealth!

In this storage space, Shen Lang saw many Lingshi, some of which are elementary Lingshi, some of which are medium spirit stones, and some exquisite bottles and jars, which seem to contain some potions.

It is estimated that Dorothy did not wake up so quickly, and Bihaihuan did not arrive so soon. He also counted one by one.

There are more than forty elementary spirit stones, and medium spirit stones are close to eighty!

And those medicines, because they are not labeled, can only be opened for identification. What Shen Hai can distinguish is a part of the medicine used for healing recovery. It is estimated to be prepared for the trip to the restricted area. Some of them seem to be potions that stimulate potential, and are stimulants that are fortified in a short time when they are in danger. .

In addition to these specially prepared, there are still some that make Shen Lang excited, it is Lingquan!

I don't know if they are also high-ranking people using the Gathering Method to condense Lingquan, or to find a natural spring, these values are not small.

In addition to the things that Shen Lang is most concerned about, there are of course some things that are used in the world. Including a pistol, cash, documents and so on.

However, they only came in for a while, and there is nothing to gain in this mountainous area.

It is not surprising that this is a deep wave. He has long felt that the aura here is actually very full, and can even be said to be no worse than the forest of death!

But from the view of the city of Tallo in front of know that it has been highly developed, the population will be a huge existence. No matter whether it is a strange flower or a grass or a beast, there will not be much room for survival.

They are also developing science and technology civilization, and the spirit is full, because they are called Lingshi's spiritual mines here!

Shen Lang did not disappoint, but he was very satisfied. He did not want to take this "old forbidden zone" adventure. He just wanted to take Dorothy's body away and see if he could save it. Now the purpose has been reached.

Moreover, it was discovered that it was a city in the river basin, and it was also a friend who met in the dead forest. If it wasn't the spiritual stone of the blue sea, he was still a savage in the dead forest.

After picking up things, Shen Lang was guarding Dorothy next to him, keeping his alert, lest the old vampire kill a carbine.

When Dorothy has not regained consciousness, Bi Haihuan has arrived!

This speed is more than the prediction of Shen Lang, but it is not surprising to look at her posture – she is driving a fighter armor!

Chapter 332 - Bihaihuan's site

Bi Haihuan, a purple-red tight-fitting suit, rushed over immediately after coming out of the cockpit.

“Teacher! You really come to the city, I am so happy!”

Shen Lang pointed to the mech behind her and raised her thumb: “Yes! It looks very powerful. You are a soldier...”

Bihai shook his head and shook his head: “No, but I also received combat training. I was training myself. I found that the teacher came and I came straight.”

Then she saw Dorothy on the ground, and the A-class superman who broke into two sections, and quickly asked: “Is this someone going to attack you?”

“It's all on our side. This is my friend, to save her, and I came in. This is the enemy. When I attacked me, I was killed.” Shen Lang said briefly.

“Well, the teacher is a super savvy master, certainly not dangerous.”

Shen Lang originally thought that Bihaihuan would come over, then stayed to see the situation of the city. But now she is driving a fighter jet, it is a person's cockpit, can not take him away, not to mention A Dorothy.

Then I met and talked about it, and then he looked at Bihaihuan: “It seems that you are a little upgraded.”

Referring to her mention of the situation, Bihai was excited and said: “Yes, the teacher taught me the practice, it is really very good, so that I have made obvious changes in the whole person, and all aspects have been improved.”

At this time, there was a slight noise in the air. Shen Lang looked over and saw that a dish-shaped spacecraft flew quickly.

“Teacher, please wait.” Bi Haihuan said to Shen Lang, then communicated with the flying saucer. “Brother, trouble you to drive me back, my teacher and I will go back in the spaceship.”

The flying saucer landed, opened the hatch, and came out of the young man in the blue tights that had been seen in the dead forest before.

After he came out, watching the eyes of Shen Lang, how much is somewhat hostile and dissatisfied.

However, the last experience, let him understand that Shen Lang is the psionic master he can not afford, can only be bored in the past mech.

“Teacher here please! I will bring this girl to you.”

Bihai reverently invited Shen Lang to the UFO, and took the initiative to hold Dorothy on the ground.

She was wearing a tights, and she just came out with a boot. Now I can hold a person directly without any effort, and I feel quite refreshed.

This dish is not very big, but the space inside is still enough. After taking the sun up, Bihaihuan set up an automatic navigation flight and then came to talk with him.

“You should go back to your country... is everything alright?”

Bi Haihuan sees Shen Lang again this time, and the perception is different.

Last time he was like a wild man, his body was dirty, his hair was messy, his clothes were smashing. It is also said that people have a good impression on him, because he is a “psent master” and is willing to teach the secret of not passing, and has nothing to do with people.

This time is different. I went out shopping in the past few days. Zheng Yumeng also took him and gave him a few sets of fashion-oriented brand-name services. There are quite a few people who look like dogs. When I first met, I still wore the holy armor. No matter which one, it was completely different from the original external image.

Compared with two months ago, it has now broken through the fourth weight, and its strength has been greatly improved. The inner spirit is also different.

The huge contrast between the two, of course, the impact of Bihaihuan is not the same, if it is not the positioning of the holy armor, or on the road, she really will not recognize it.

“Everything is fine, I can go back, thanks to the spar you gave. I thought I didn’t have the opportunity to thank you personally. I didn’t expect to be able to come to the city.”

Bi Haihuan is also very happy: “I can see the teacher so soon, I am very surprised. You taught me the exercises, which made me harvest huge.”

Simple chat, she also revealed her situation.

The Bihai family is an important gatekeeper in the river basin. The children of Bihai’s family will not be first-line fighters, but they will be arranged to receive various trainings. Just like the last time they went to the Death Forest, it was also a trial test.

And now, during this time, she is training in mechs. This is in a training base. She just flew directly from the base, and let her brother immediately fly the ship to pick up the waves.

The speed of the flying saucer was very fast, and it came to a base that was far from Tallo City. It was on a wasteland.

After the UFO was automatically navigated, it automatically landed without replacement instructions and human actions.

“Teacher, you can only entertain you here first. I have to leave here, I need to ask for the home first, it takes a little time.” When asked to break down the spaceship, Bi Haihuan said with apologetic apologetic.

The environment and conditions of the training base must not be compared with those in the big cities.

Shen Lang shook his head: “I don’t have to ask for it, I came by accident. I got in touch with you, I saw you, I didn’t have much time to stay here.”

“Would you like to go soon?” Just arrived, and said that he had to leave, so that Bihaihuan was a bit sad.

Shen Lang smiled and shifted the topic: “This is the training base. Is it convenient for you to bring me a person of unknown origin?”

“It doesn’t matter, this is not a military camp. It is the training base of our Bihai family.”

“...”

Shen Lang was speechless for a while. When the UFO landed, he had already seen the following situation in the sky. The landing was already in the base. Now it is also a detective.

This vast area of the wilderness has no other buildings, it should be assigned to this training base, and the base is also very large, exactly like a military base stationed in the army.

Actually said that this is the training base of the Bihai family, showing the power of their family.

After they came down, the brother was also back in driving the mech, but after landing, he returned the mech and did not come and greet Shen Lang.

Bi Haihuan still holds Dorothy and leads Shen Lang to go inside.

The base is huge. There are a lot of conveyor belts on the ground. It has a bit of image with the airport, but the speed is fast. It is transported to a few hundred meters when it goes up, and it is still stable.

The elevator on the upper floor was also very fast. Bihai quickly came to her residence with Shenlang.

Shen Lang refers to the training base, thinking that it should be a general dormitory. Knowing that this is the base of the Bihai family, the expectations have been raised. The big lady of the Bihai family Jinzhiyue should enjoy a much higher salary than the general soldiers.

But after entering her “dormitory”, she still couldn’t help but marvel.

This treatment is good, it is just luxury!

Her dormitory area is about 1,000 square meters. It is not only a sleeping bedroom, but also a fitness area, a leisure area, and an indoor swimming pool!

One side of the swimming pool is against the wall. The entire wall is a large screen, and the resolution is extremely high. There is no grain. The picture is realistic and not dazzling. Now it is the image of the sea. It looks like it is even in the company. The same as the borderless swimming pool on the sea.

Chapter 333 - Help, offense

Look at the situation of people!

Shen Lang can’t help but be really rich enough. This is the training base, not your own resort.

“Teacher, sit down first, I will wash the girl and then treat her.” Bihai hugged twice, of course, seeing the blood and coma.

Shen Lang stopped her: “No, you just throw her on the ground. I have already treated her. Now she needs rest, no need to toss.”

“Okay, the teacher has treated it, and it will definitely work very well.” Bi Haihuan is very confident in him, but he did not really throw Dorothy on the floor, but put it on a rest sofa.

“Come, let me check your body...”

Shen Lang has waved his hand and he will not stay here for too long. Previously, I thought that I would not meet again. There was nothing to send a set of exercises. I didn't expect to see it again now, and people were so enthusiastic about a teacher. The attitude of the disciples was much more respectful than Zheng Yumeng.

So he also wants to help her and help him.

But it's a little weird to say to a girl to check her body...

Bi Haihuan didn't think much, and he came over to Shen Lang with joy.

Back indoors, she has already collected the sacred armor, but the clothes on her body are also thin tights, still showing the graceful body.

Shen Lang reached out and pressed her hand on her head. She sensed it with her strength and immediately understood her situation.

She has been practicing for only two months, but she can see that she has worked hard and is also using the resources of the spar. However, as far as the current level is concerned, it is equivalent to about seven paragraphs of the extraordinary warrior.

If she is to continue her cultivation, it will take at least half a year or even longer to reach the return of the Yuan.

Shen Lang asked her to sit down and prepare for cultivation. He wanted to help her and promote her to the Yuanyuan.

Not long ago, Shen Lang upgraded Mo Qi to the early days of returning to the Yuan Dynasty in Pingxi, and also upgraded Yue Zhennan in the middle of the Yuan Dynasty to the late Yuan Dynasty.

A few days ago, he broke through the fourth weight of “Yin and Yang Bo Ruozen”, and now it is even more trivial.

The foundation of Bihaihuan is not strong enough, and the knowledge of comprehension is limited, but like Zheng Yumeng before, the more it is, the easier it is to help improve. – White paper is good for drawing.

It didn't take long to go, Shen Lang raised Bihaihuan to the beginning of Yuanyuan, but he didn't stop, but he grabbed a few medium Lingshi in his hand, absorbed and instilled it, and continued to help her to attack the middle of the Yuan Dynasty. !

This time, it is more difficult than to upgrade Yuezhengnan to the late Yuanyuan.

Because Yue Zhennan is a mid-term cultivation of his own, he has a solid foundation. The current Bihaihuan is just the one that he took the breakthrough to return to the Yuanjing. If he has not stabilized, he will continue to attack the next realm. It is of course difficult.

After trying it for a while, Shen Lang felt that it was still not enough. I took the bottle of Lingquan, which was collected by the A-class superman, and let it go, and then continued to use Lingshi to infuse her.

Now the realm of Shen Lang is already comparable to the real world. It is not difficult to help her cultivate the foundation. However, a large amount of aura is poured in, and then through his refining and refining, the foundation of Bi Haihuan is quickly stabilized. stand up.

At the crucial time, the sound of the doorbell sounded.

Shen Lang did not pay attention to it, afraid of disturbing the blue sea Huan, immediately added a layer of barrier.

After the continuous doorbell did not move, I did not know what contact method was used by the outside person, and a voice came from inside the house.

“Sister, please open the door. Feng Yue adults are here!”

Shen Lang heard the voice of the former blue brother, what is the guy called? Bi Haihuan seems to have said that it is a regular reading or something.

Now there is another Feng Yue adults, it is estimated that this is the leader of this base!

Shen Lang ignored it and continued to help the blue sea.

Waiting for a while, there is still no response inside, but the door suddenly opened!

When I came in, Shen Lang saw it. This door is also high-tech. Bihaihuan opened it with a single voice. It is probably related. It is definitely not authorized to open the door.

Now that the door is open, it should be that this maple moon has permission.

The Shenlang **** swept the past and saw Changyou accompanied a middle-aged man in a military uniform at the door.

After the door opened, they also quickly checked the situation inside the house. When they saw Bihaihuan sitting quietly on the ground, Shen Lang grabbed her head with one hand.

The two were shocked and rushed in.

“Stop! Who are you? How about you Miss Bihai?”

“Quickly let go of the sister!”

Talk, have experienced reading, and immediately equip yourself with the Holy Grail.

The maple moon man, there is a gun in his hand, aimed at Shen Lang.

Shen Lang raised his hand and grabbed the two of them directly, then threw them out!

After they came in, the door was quietly waiting for a while, then it was automatically closed. It was just after Shen Lang threw them out and closed the door.

Feng Yue adults also understand, “holding” Miss Bi Hai is a psionic master!

Considering that they will definitely come again, Maple Moon has the authority to open, and the door has no meaning.

Shen Lang didn't want to have more conflicts with them. He could only speed up and continue to take the impact of Bihai Huan in the middle of the Yuan Dynasty.

Under his efforts, the impact that had already reached a critical moment was quickly completed.

Suddenly upgraded to the middle of the Yuanyuan, let Bihaihua enjoy an unprecedented feeling, she seems to be in a dream, just do not want to wake up.

Shen Lang guided her to continue to practice and then received the work.

This time, I consumed a lot of medium Lingshi, but it didn't ruin. After all, Bihaihua gave him more than 30 medium Lingshi, and also had the Holy Grail.

The door was opened again.

Feng Yue and Chang Yue are behind, and there are a few armed fighters in front of them. The red lines they are aiming at all point to Shen Lang's body.

“His Master of Spirits, I don't know what you are from, but this is the Miss Hua of the Bihai family. If you have any disrespect for her, you will inevitably suffer a disaster in the city. I promise!”

Hearing his shouts, Shen Lang looked impatiently: “Who gives you the courage to talk to me like this?”

Feng Yue adults are not humble and say: “I am Feng Yuegu, the commanding general of this base! I don't want to be a rough master of the psionic master, but I also need to affirm that we have

enough weapons and warriors! We Every one is a loyal warrior of the Bihai family, we are not afraid of any sacrifice. And you, there is only one person! This is at my base!”

Chapter 334 - Sword

Shen Lang is a little impatient: “The gun is pointing at me, the price is great!”

As soon as he raised his hand, he directly smashed out the gunmen at the door and knocked them out at the door.

Although Feng Yuegu was very fierce, Bihaihuan was still inside. Of course he did not dare to order shooting.

“And, is it a regular read and leave? I think you still have to catch the ***** first.”

Shen Lang is already very restrained. Looking at the face of Bi Hai Huan, as a guest, he did not hurt them.

But the reaction just arrived, in the eyes of Feng Yuegu, is a warning to him! Under such circumstances, I dare to shoot, isn't it necessary to continue to work on Miss Bihai?

He immediately ordered it!

The result was that several upturns were opened, and then more soldiers poured in, and two rows were placed in the direction of the doorway, and there were twenty or thirty fully armed targets aimed at Shen Lang.

“Master of Psionics! Can you solve a few, can you solve dozens? Can the gun not hurt you, the shells? We are also equipped with equipment, can you stand this room? You can escape from this base. Go out?”

Listening to the stern words of Fengyuegu, Shen Lang was so angry and funny, he just came to be a guest. As a result, dozens of guns pointed at him, and he was still equipped with shells and organic armor!

Is this treating him as a star?

At this time, a person stunned and quickly appeared next to Shen Lang.

Dorothy woke up.

“You saved me? You really came! Thank you!” After Dorothy woke up, she found that the situation was wrong and she got up.

She still didn't understand the situation. The scene only recognized Shen Lang. Those were armed with guns. There was a girl in front who seemed to be healing.

So the plot that her brain made up was Shen Lang to save her, resurrected her, and brought it here. However, it was followed by the pursuit of two people, even his female friend was injured, and now surrounded by guns.

“It's okay?” Shen Lang looked at her, it should be no big deal.

“I'm fine... Hey? How do I feel much stronger than before?”

Dorothy sucked the blood of Shenlang that day, so now she has been made up a big meal. Of course, it is thought that Shen Lang has given her a lot of blood for her, and she is very excited!

It would have been very difficult to save him, and it would be a big risk to meet each other.

Now not only saved her, but also gave her a lot of blood to resurrect her!

“Thank you! I am your person, your servant!” Dorothy said solemnly, then looked around.

Feng Yuegu looked at a woman who was said to have been injured and woke up. Seeing this posture, it seems to be also a psionic master. I couldn't help but frown. With one more psionic master, the threat increased a lot.

“These little scorpions, give it to me!”

Dorothy took the initiative to ask, after Shen Lang nodded, she quickly moved. Although they rely on advanced technology instruments, they can capture her movement, but it is too late to react.

In the blink of an eye, the two rows of guns were quickly kicked out by Dorothy.

“Don’t mess around! The outer armor is ready!”

This time called the regular reading, Feng Yuegu looked at the soldiers without weapons, and quickly rescheduled.

“Noisy!”

Shen Lang raised his hand and grabbed the regular reading directly from the air.

This time I have already equipped the holy armor in advance, but still have not had time to escape, or I was arrested. However, he opened the shield and shrouded his whole body.

When caught in front of Shen Lang, it was also a quick shot, and the hand stretched out to Shen Lang!

When he shot, he appeared a sword from the cuff and directly stabbed the chest of Shen Lang!

Can be so strained, indicating that he is still a bit strong, but for Shen Lang, this reaction is the rest of his play.

When the sword came to him, he had already clamped his fingers!

“You want to kill me?” Shen Lang said cold. “You know very well that I am a guest of Bihaihuan, you encourage them and want to kill me?”

“You are a foreign thief, close to the sister is not good, you must kill you!”

Regular reading is also a sneer, he is now protected all over the body, not as stunned as last time. Originally, this is self-protection, but since it has been caught here, it will be defended!

This is also in front of everyone, in front of General Feng Yuegu, the opportunity to show your face!

The usual training, even in actual combat, is simulated, and now is the enemy that can really kill!

When he spoke, he immediately released the sword in his hand, and a gun slid into the hand from the space of the armor equipment. He shot directly in a row!

Feng Yuegu at the door was taken aback. Although he mobilized the gunmen, he still wanted to force the other party to submit, and did not order a shot.

Surprisingly surprised, as an experienced soldier, he is also a recognition of the usual reading, in the case of being caught by a psionic event, it should be desperate to kill!

Dorothy was also taken aback. After she had just kicked the guns, she grabbed a person from Shen Lang and was completely unsuspecting. She suddenly shot out of the sword and it was a change she did not expect.

His sword was loosened, but the tip of the sword was still clamped by the fingers of the sinking wave. At this moment, the finger was slightly forced, and the handle of the sword was hit against the hand of his gun, and the muzzle was directly biased to the side.

The continuous gunshots sounded on the wall.

Then Shen Lang raised his hand and threw the usual reading in the air. The hilt fell into the hand, and a sword slashed through him with a sword.

The defensive function of the holy armor, Shen Lang is experienced, and indeed has some extraordinary. However, it can block not directly injured, but the impact, but there will still be a lot of people inside.

Shen Lang now has two words, one is fast and the other is heavy!

He is almost the same as the sword as an axe, each sword contains a powerful force, and in the moment of contact, is the use of “shock” approach.

Ever since, in a second of time, throwing up the regular reading, I received dozens of critical hits, although the holy armor protected him was not cut off, but the giant earthquake again and again Directly let him faint after a few swords!

After one round, this sword has been jagged and cracked.

Shen Lang is afraid of hurting the sword. Otherwise, if you use the Qiu Shui sword, dozens of swords will come down, and the sacred armor will be opened directly, and the person will be smashed!

Just this scene, let everyone on the scene look at it!

Shen Lang is completely sitting still, swinging the sword with one hand, so that the regular reading has been smashed dozens of swords, and they are very afraid of reading. While waiting for the usual reading to fall to the ground, they also saw that his body is much higher than their high-end sacred armor, has been fragmented and scrapped!

This can be blocked even by the mech shell attack, and it was smashed by the sword!

This is still the sword carried in the holy armor, not the sword of super weapons!

Feng Yuegu immediately understood that this is not only a master of psionics, but also in proportion to the age of his appearance, is a very powerful psionic master!

Chapter 335 - I can kill all of you.

Although Feng Yuegu felt a lot of pressure, he still said with a hard scalp: “I admit that you are a very powerful psionic master, but can you be stronger than our entire base? Our weapons and fighters can win a city!”

Shen Lang glanced at him, did not respond, but shook his hand, and the long sword that had been serrated in his hand immediately shattered into countless pieces.

Then he waved it!

Those fragments immediately shot at them, so fast that they could not stop. And as if they all have eyes, they all pierced the eyebrows of these warriors!

They are equipped with protective gear, but their faces are still exposed, so they are all pierced by pieces.

The scene immediately sounded an exclamation, and some even scared to sit down on the ground.

The scenes that have just been made let them know that they are facing a psionic master. General Feng Yuegu can hold his breath, and these soldiers are much more afraid. So I felt a pain in my eyebrows, and the first feeling was to die.

When Feng Yuegu saw this scene, he still wanted to speak out, but only an opening, he found that it was stuffed into the mouth by the hilt!

There was still a blade of sword on the hilt, and although it did not reach his throat, it also caused a pain in his tongue.

Shen Lang said in an understatement, "Do I need to be stronger than all the weapons and equipment in your base? I can kill all of you!"

Feng Yuegu pale face, quickly pulled out the hilt, only felt that the entire teeth and lips to the tongue, and even the gangs were numb, so that he could not speak when he wanted to talk.

The soldiers who had just screamed and found the pain in their eyebrows, but the people did not die!

They quickly gave each other their comrades out of the blade of the sword. The eyebrows were bloody, but they only pierced a little bit of skin trauma and did not hurt the brain.

However, the hand of Shen Langlu has completely convinced everyone, and this is of course the mercy!

Even if they are not masters of psionics, they know that it is much harder to control the strength and let the pieces penetrate only a few points, far more than to completely penetrate the body. Just as they fired and fired, it was the same.

Seeing this scene, Feng Yuegu, who couldn't speak, couldn't help but feel a long sigh of relief.

Just now he really thought that Shen Lang was annihilating all the soldiers!

Although there are backups in the outer corridor, although some people are really prepared for the mech, these are all elite. If so much damage is in his hands, he can't explain to the Bihai family.

"Thank you for your genius master's mercy!" Feng Yuegu had to be convinced.

Dozens of scenes, but also slowed down, and quickly screamed at Shen Lang, "Thank you for your psychic masters!"

Shen Lang never stood up, just sitting, just solved them with one hand.

Don't say that here is a deep fear of the psionic master, that is, next to the vampire Dorothy, watching is also a star.

"This is to look at the face of Bihaihuan." Shen Lang raised his hand and pulled Fengyuegu directly into the room. "I still can't see if I am a guest of Bihaihuan? You are smashed into a room of Miss Bihai by an idiot. It seems that you have already wanted to do this already?"

"No, no, I don't. I am very respectful to Miss Bihai. I just worried about her safety. I often care about Miss Bihai, so..." Feng Yuegu quickly explained it.

Just now, Shen Lang's attitude towards regular reading has already made him feel that something is wrong. This is being used as a slap in the face.

He is the highest sergeant here, so he has all the rights to the base. But if you want to say that he has a picture of Bihaihuan's mortuary, if you are so heart-wrenching, how can you deal with him?

"Take this idiot away! Let him lie for a few days."

Shen Lang waved his hand. Just when he started, he still had his mercy. Otherwise, you don't need to open the sacred armor. You can completely kill the inside!

However, it is clear that the current coma is often heavier than the soldiers with these skin injuries.

There is no more words in Fengyuegu, a psionic master who can destroy everyone in the base. What else can he say?

After a sigh of smashing, I quickly waved people to take them away.

These soldiers are also well-trained, do not need to be told by the ancients of the moon, have quickly packed up the pieces of the sword on the ground, and their guns, almost got along the traces of the intrusion, and then retired.

“Cool! You are too powerful!” Dorothy raised her thumb.

“Your speed is also okay.” Shen Lang also praised, of course, the speed of Dorothy, compared with the Count of Dracula, is still much worse.

“Is it okay?” Dorothy is a little dissatisfied: “To say that my strength is not as good as you, then I am convinced. But to speak speed... I am still a little confident.”

When she had just finished speaking, she found that one hand touched her on her chin. When she reacted, Shen Lang was still sitting there, as if she had not moved.

“You are a sneak attack, I am not prepared...” She is still a little dissatisfied.

“It's the same as if you just attacked them.” Shen Lang smiled faintly. “Ready, come again!”

Dorothy immediately retired a few meters to the back, and the space was large enough for her to dodge.

She kept a high level of alert, staring at the sinking waves, her eyes stunned, and she was ready to dodge.

When she saw the body of Shen Lang, she immediately evaded the other side!

Her speed is very fast, and she has been dodging a few times in a row, but it is not seeing the waves!

When she just stopped, she felt a hand touched her chin, this time it was touched from behind.

She was taken aback and turned back to Shen Lang to catch the past. If she can catch it, she will be able to pull back.

However, Shen Lang has returned to his seat, as if he had never moved.

“You... how did you do it?”

This time Dorothy had to take it, the speed of Shen Lang was too fast, and she couldn't get out of her way until she could see it clearly.

“Vampires are very fast, but they have to look at who.” Shen Lang responded faintly.

Dorothy sat over and said helplessly: “Really, you are really not an ordinary person. It should be comparable to the A-level superpower. I am also convinced to lose to you, be your slave, I am willing of.”

Shen Lang glanced at her: “I am talking about who I am talking about, not your opponent, but a vampire! Not only me, but you are not fast enough!”

Dorothy is a bit hit, she can accept the strong waves faster than her, but she is not fast enough, and this is awkward.

“When I am far from the realm of the present, I can play with the Count of Dracula in a short time. You are much slower than him!”

This wave of Shen Lang is still calm, but this sentence is a bit of a blow, because the Earl of Dracula attacked him! It is landscaping to say that it has been played for a long time.

Chapter 336 - Peach blossom is a bit prosperous

Count Dracula!

When I heard the name, Dorothy's eyes widened.

"You are talking about Count Dracula? How could you have seen Count Dracula! That is impossible!"

Obviously, in the vampire race, Count Dracula is also the most famous legend.

"You are dead. What do you think I used to resurrect you?"

In the words of Shen Lang, let Dorothy smash.

She just woke up, she felt that her body was recovering, and it was dangerous to see it, no matter how much, hurry up and help.

Now I heard Shen Lang said that I only carefully felt the body and found that in addition to many large blood, there is indeed blood of vampire blood in the body. That is the blood that is more pure than her. This is the key to resurrecting her and will give her a better evolutionary future.

"Thank you for your master! Just Dorothy is rude, should you be such a rule?"

Dorothy first stunned, then reacted and became squatting in front of the sinking waves, bending over and hoeing.

She was not convinced that she was not convinced. It was Shen Lang's speed to comment on her. It is not disrespectful to Shen Lang, and it is not that you don't want to accept it.

"You don't have to do this. I have my considerations. I didn't save you in advance, but I will raise you up after you died, or rely on the gift of Count Dracula. If you have a chance, thank you!"

Shen Lang is not reserved, a blonde is a slave, in fact, still quite cater to the man's face. However, it is also attractive to take care of the side, but also to take care of her, but also trouble.

“I may not have the chance to meet Count Dracula. He is a legendary character. This time it is the master who saved me and gave me a lot of blood to let me recover.”

She is a blessing in disguise, it is already stronger than before, and this is still not absorbed, and perhaps a large upgrade and evolution.

“You are free. Go there and find a bathroom to wash it!” Shen Lang pointed his fingers.

Dorothy is misunderstanding. “Does the owner want Dorothy’s body? Ok, I will wash it right away...”

Said and leaned over again.

Originally, there was no confusion at all. When she said this, she remembered that she had said before, and if she saved her, everything was his. And now he leans over his head and can see the two hemispheres rolling in front of him from the angle of his sitting.

“What do you want!” Shen Lang is a bit speechless. “You have blood on your body. I just said that I want to wash it for you. I am letting you wash your blood. I don’t think I want to do anything to you! Also, don’t use this kind of hoe, you are naturally, be an assistant. The attitude of the followers is good.”

“Okay.” Dorothy agreed, then got up and looked for the bathroom.

After she walked away, Shen Lang kicked the sea and kicked it.

“Yes, don’t install it.”

Bihai opened her eyes and then turned around and sat on the ground, just in front of Shen Lang.

“I just woke up, I don’t bother the teacher and your... slaves, nieces?” Bihai squinted and blinked, obviously it was a bit of a direction.

Shen Lang slightly white eyes: “You should wake up when you often read the gun.”

Bi Haihuan had just made a small joke, but she was very respectful to Shen Lang's study of disciples. She immediately learned Dorothy and squatted in front of him and bent over her head.

"Thank you for seeing the teacher in my face. They are really innocent. I often read my brother... I didn't expect to do anything like this. This is too disrespectful to the psionic master, you just want to kill him, I I dare not plead."

Upon hearing this, Shen Lang realized that the psionic masters are really few here, and they are very powerful! It seems normal to kill people who regularly read and kill bases!

With Shen Lang's life experience, can you not see the usual readings?

Since the Bihai family is a gated family, Changyou can be commensurate with Bihaihuai's brothers and sisters. No matter which aspect of the teacher, it means that he has a family that is equal to Bihai!

To take a step back, even if he does not have this powerful family, this Master teacher has raised his worth. This is also why he can make a successful victory in front of Feng Yuegu, and change to the average person, can you speak up? Do you believe in Fengyue Ancient Society?

This is why Shen Lang did not directly kill him. He will soon leave. Bihaihuan is a person in this world, which may cause great trouble to her. That is to help people not to be a victim. For a beauty who regards him as a teacher and has helped him, he certainly will not harm her.

But now she just said, it seems that even if he kills them, it is okay, because he is disrespectful to the psionic master!

And she did not "wake up" just now, in order to avoid the scene of pleading for Shen Lang.

This makes Shen Lang unwilling to be curious. In this world, what other important role should psionic masters have? Otherwise, it is impossible to have such a privilege in the face of highly developed scientific and technological civilizations, only by the power of personal ability!

Just like Feng Yuegu said, a lot of guns, mechs, warships, etc. How did you win alone?

Even if he can kill all the operators, the general comprehension can not do it!

Shen Lang reached out and helped her up: “Is it felt? Now, you are also a master of psionics!”

When I talked about this, Bi Haihuan became a happy and happy self from the blame, and said with excitement: “I am very grateful to the teacher! You not only teach me the secrets of my secret, but also directly turn me into Master psionics, I really don’t know how to thank you!”

“Let’s get along with you!” Dorothy is not an ordinary person. Shen Lang did not isolate the conversation. She listened carefully and of course heard the conversation here.

When I heard this, Shen Lang screamed and snorted: “Take your bath!”

The blue-green joy of the heroic style, this time is also a blush: “This... should not be able to go You are a respected teacher...”

“Don’t listen to her.” Shen Lang coughed.

He also took a breath and kept himself serious. Recently, it seems that the peach blossom is relatively strong. The 20-year-old body is almost unable to hold it!

“So what... You have a little ability now, and you will practice yourself later, and you will grow faster. I should go back.”

“So fast?” Bihai was shocked: “You just came over and you are busy helping me. I haven’t given you anything yet.”

“You have your training, I also have my business, eat and drink what to play, you can wait for a chance to talk later!” Shen Lang smiled.

Bi Haihuan is very sad. The things that Shen Lang taught before have already made her very beneficial. Now she is promoted to become a superior spiritual master, and she is even more grateful.

“That... do you still need spar? Now I can send you a lot!”

Chapter 337 - Helium delivery

The last time Shen Lang would find them, it was to find Lingshi, so now Shen Lang is going to leave, Bi Haihuan immediately said that he would send him Lingshi.

In their world, it is called a spar, much more than the earth, and she is also a special product.

Shen Lang thought for a moment, and he was not polite: “Well, this thing still works for me. Remember, it is very helpful for you to practice!”

“I remember.” Bihaihuan took the waves to the bedroom.

Her home is a thousand meters, but there is another room in the bedroom.

After arriving at the bedroom, she opened a safe as big as a wardrobe.

“These are all spar. After you tell me, I tried to absorb the energy of it, but I can’t always do it.” Bi Haihuan opened a box.

Shen Lang saw, good guy, this box is afraid of not having hundreds of medium spirit stones!

The last time I saw the medium Lingshi that he had brought out, he said it was a spar with a quality that was not very happy. Just like these, for them, it should be the energy for all kinds of equipment, so there will be so many, but not too high-end.

“I will teach you some more ways!”

The last time, Shen Lang did not want to owe human feelings, and taught the basic exercises. Seeing it again now, Bi Haihuan’s enthusiasm and respectful attitude made Shen Lang feel a little more affectionate and treated her as an apprentice.

This time it was directed at her already rushing practice, but she did not teach the “Yin and Yang Bo Ruzhen”, and there is a key, how to teach her how to absorb the energy of Lingshi!

There is a method of sinking waves, which is much faster than the general comprehension. Not to mention here, she does not lack Lingshi, and may be able to greatly help her improve.

Bi Haihuan carefully wrote down, and gratefully gave him that box of Lingshi. It is no more than a dead forest. At that time, they can only carry a small amount of supplies in the holy armor. There is a warehouse to replenish.

I think that her family is big, and Shen Lang is not polite, and she has taken it down.

“Do you have anything else you need?” Bihaihuan pointed to the things inside the safe, and introduced them one by one.

Shen Lang’s interest is that there are some precious things that belong to the river basins. For example, some weapons, if they are brought back, they are one-off and cannot be replenished. There are also secret documents and the like, which are even more ineffective.

“This is a training base. I don’t have much to be here. Next time I go to my house, I have a lot of things to give to the teacher. Mechs and spaceships are all right.” Bihaihuan is a little regretful, she doesn’t know Shenlang is coming back. Come here to train the mech operation, of course, there will not be many good things.

She is like a simple child, and she can’t wait to share all her good toys.

“Oh, that’s not easy to carry. Thank you!”

Shen Lang is trying to get a mech or a spaceship. It is really very popular. However, aside from the technical replenishment and other aspects, once the thing appears, it will be blocked by countries!

Not only will you have to rob the research technology, but he will also be forced to ask these black technology sources.

He doesn’t want to provoke so much trouble, compared to the magic weapon is more appropriate.

“How is this?” Bi Haihuan took out a necklace in her jewelry area.

From the point of view, she likes this necklace, but now she still gives it to Shen Lang.

“I wear this?” Shen Lang couldn’t help but laugh: “Where do you wear a necklace here? Even if someone wears it, it should be a very thick one. It is not good to wear this women’s fine chain.”

Bihaihuan is a bit embarrassed: “It seems to be oh... but it is a pity that I am not thicker here. This heavy metal is rare and rarely made very thick.”

Shen Lang is a bit strange, pick it up and look carefully. Isn’t that gold?

“This metal...rare?”

“Yeah, this metal has no other value, but it is very beautiful. It is a rare precious metal in the jewelry category...”

Bi Haihuan did not introduce it, and saw a gold bar in the hands of Shen Lang.

“You look at the same kind.” Shen Lang’s face is a bit odd.

Bihai has a big eyes: “You are... so big! Can I touch?”

Shen Lang is a little sweaty. What makes me so big? Dorothy can’t see it now. If I hear this, I think I am talking about something, but I can’t touch it...

He quickly stuffed the gold bar into her hand.

After all, Bi Haihuan was born in the giants, and rare things have been seen and owned. She looked at it carefully and confirmed it.

“It’s this kind of metal! But it’s the first time I saw it.” She was amazed again and again, and made a joke: “If it wasn’t for the teacher, I really doubt whether it was robbing the jewelry. The raw materials of the workshop...”

“Give it to you! Let’s make jewelry, give you some jewelry!”

It's just that when people send Lingshi, it's so generous. Now it's rare to make a rough wave. If you want him to take a pile of Lingshi, there is no way. But gold is going to be too easy!

"No, no, this is too precious. I can't accept it, you keep yourself making a thick one...and for your friends, prostitutes or something..."

Bi Haihuan quickly quit, to put the gold bars back.

Shen Lang took out ten gold bars and put them all in her safe.

"These are for you, the teacher gave it, you can't stop it!"

For the first time, he set up Master's shelf, and he was shocked to reject the blue sea, and he couldn't say anything.

"But... I can accept it, but I buy it, I have a lot of money, I want to give you the normal market price! After all, this is a good thing with no price, I can't take you so much cheap..."

Shen Lang laughed and said: "I don't always be in your world. I will come and see you as a guest. What do you need to do? Do you call me a teacher? Then I will send you some gold to make some beautiful jewelry. Very normal."

Can be in this highly technologically advanced world of local tyrants Shen Lang is still very enjoyable to force it.

Through the contrast between Lingshi and gold, he also sighs that things are rare.

"Thank you teacher! You are so good!"

"Like this, how much you have, you can sell it, or replace something that is useful to you. Next time, I will give you a little more!"

There are still a few hundred pounds of gold bars in the ring of the Shenlang storage, but they have not been taken out at one time. This time, I will finish it, what should I do next time?

“That... I can try it and see if I can change some good things for the teacher.” Bi Haihuan immediately thought of a good idea. Since the teacher does not need money, she is not lacking in the spar. Then I can see what can be changed. good stuff.

“Right, I was accidentally coming this time. Do you have a passage to come over?”

Shen Lang remembered that they could enter and leave the forest of death, and certainly there is another way. In order to avoid suspicion, I added another sentence: “Reassure, I will not bring people to invade, it will only be our own to see you.”

Chapter 338 - Return, destroy

Bihaihuan, born in a big family, as a girl, will receive military training, and education in all aspects will certainly not be bad.

When I saw Shen Lang on the edge of Tallo, there was still a body. But she didn't ask how it came from, nor did she ask how he came.

This does not mean that she is not aware or suspected, but she has absolute trust in Shen Lang!

Now when I heard the words of Shen Lang, I immediately shook my head: “The teacher is the best person, certainly not!”

Then she smiled and let Shen Lang wear the armor.

After Shen Lang put it on, she began to point him out and, under his own control, called up the map. Among them are high-right maps, including some space channels!

Their world is indeed not ordinary. They have mastered many clear channels, but they are still exploring the world they are leading to, and there is no complete information.

Like last time they went to the forest of death, it was an experience of an inspection.

Shen Lang could not help but sigh, just said that he would not invade, this must be careful that their world invades the earth!

With the degree of technological civilization in their world, if they want to invade, all countries on the planet will not resist for a long time. Fortunately, in the hidden darkness, there is still the existence of the real world!

And their lack of development on this side is also a kind of balance.

In addition to letting him mobilize the map and teach him how to open the channel, Bi Haihuan also pointed out a lot of operations.

However, many functions will not be able to play out of the scope of the river city, because there is an invisible light brain network. Just like he had previously inquired about the information of Talo City and the city of the river basin, I thought about it and mobilized it. When it comes to the earth, it is useless.

But there are still some functions that he didn't know before, and then they came back. The main thing used before Shen Lang was the flight function, which was an aircraft. After getting the magic weapon of the gods, it is even less expensive to fly.

After they came out, Dorothy also took a shower. She saw that her clothes were stained with blood and there were signs of puncturing. Bi Haihuan gave her a set of clothes and replaced Dorothy.

Then entertain them to eat.

Bi Haihuan also contacted Fengyuegu to let him know that this is a guest she valued so much that she would not be allowed to make a hand or foot in the food.

After the meal, she reluctantly sent Shen Lang and they left.

Although I told the secret of Shen Lang's high authority, Bi Haihuan did not say anything at this time. With the previous UFO, they were sent back to the foot of the mountain outside Tallo.

"Teacher, come see me. I will wait for you!" When they were separated, there was a little flash in the eyes of Bi Haihuan.

Although it was only the second time to meet, it was only half a day. However, the impact of Shen Lang on her and her help is still very huge.

However, in the view of Shen Lang, it is actually a distance to produce beauty!

In places like the Death Forest, if you meet someone, you will be very close, as he and the Count Dracula. Of course, it may become even more embarrassing. Like the few people who went in, it is not only that the two families have hurt him. It is a few people in Haitian Town and two sisters who want to return to the Ice Palace.

For Bihaihuan, it is because in a special environment, I met a special person (Master of Psionics). She helped the masters of the disaster, and the master rewarded her magical exercises.

In this way, the appearance of the savage savage is more like a person from outside the world! Perhaps these days, in her mind, naturally beautified.

Just now it was revealed that it was directly the strength of the earthquake. It is more common with her daily readings, that is, the force of the sacred armor is also smothered by one hand, and the contrast is more sturdy.

It has also turned her into a psionic master who is awe-inspiring. This is not a beautification, but an idol-like deification!

“Go back! Do a good job, don’t wait for me to see you next time.” Shen Lang touched her head.

“I will definitely!” Bi Haihuan nodded.

“Those gold don’t save, create some beautiful jewelry, wear it yourself, give away. Next time I will bring you more!”

“Ok!”

After watching the UFO leave, Shen Lang and Dorothy continued to drive to the mountains. The body on the ground has disappeared.

Before Shen Lang had already prepared, for that entrance is remembered in my mind, at this moment and Dorothy is on the road, and did not fly with the gods.

When they came over, the two guarded before were gone.

Shen Lang is actually not sure, because they seem to use the blood of the vampire to sacrifice to open the transmission array. He has taken Dorothy and brought it here, in case the film is closed, before Old vampires are estimated to be unable to go back.

Fortunately, after the scene was tested, the two of them were sent back to the cave!

But after it came out, it was dark.

Shen Lang took out the ore that was illuminated by the ice palace, and took a light that was not very bright.

“this is.....”

Although there is no chance to ask Shen Lang, it is not convenient to ask Bi Hai Huan, but from what I have seen, Dorothy has already known that he is in another world.

Now, when she got here, she felt a bit uncomfortable, as if it was a place for her heart.

“You will die here.” Shen Lang jokingly pointed to the big stone.

“Yes... they are here to ban me, then kill me and bleed.”

Dorothy has already been on the top, looking at the dried blood, thinking that if it was not the timely arrival of Shen Lang, and the blood of Count Dracula, then she really died!

Now she is completely ruthless about her family.

“Say... can this blood be used? What effect would you have if you sucked your own blood?” Shen Lang pointed to the blood on the top and made a joke.

Dorothy is a little sweaty, sucking her own blood...

“Let’s go, it seems that they buried it here.” Shen Lang looked at the blocked hole. But the old vampires went in a hurry, which was not buried enough.

“I am going to dig it up!” Dorothy still has the servant’s consciousness.

“no need!”

Shen Lang stopped her, and then took out the Qiushui sword. A sword opened a passage and let her go out first. Then put the big stone and open everything in the cave!

He used the external force directly to destroy the destruction of the transmission array that did not know how many centuries ago!

Bihaihuan will not invade people, but there may still be people searching in Talo City. Although this is in the West, Shen Lang does not want to leave a back door to the human world. Once invaded, the war will spread throughout the world.

After he came out, he collapsed the piece into a pile. The vampires and superpowers who are guarding outside have already left.

Something went out today, and the four chapters that were written all night long were sent out. Wait until the evening to continue the code word.

Chapter 339 - Pursue desolation

After coming out, Shen Lang directly drove the gods and quickly ascended from the top of the jungle. Through the aerial view, it was confirmed that the two previous people had left, including those vehicles.

He immediately flew to the place where Zheng Yumeng stopped at the foot of the mountain. Zheng Yumeng said that he would wait here, and they must have returned. If she asks, or is suspected by them, it is very dangerous to be alone.

Under the flight of the gods, they soon arrived where they had stopped. When the air slowed down, Shen Lang saw Zheng Yumeng’s car still parked there, and he was relieved a little.

As long as she is still waiting here, even if she is desperate and worried, it is better than an accident.

But the face of Shen Lang immediately changed!

He looked at the past and found that there was no one in the car!

This made him no longer slow down, flew directly and landed next to the car.

Dorothy had just seen the spaceship of the city of the river basin. It was not too exciting to ride the magic weapon at the moment, but she immediately saw it. It should be that Zheng Yumeng was gone.

Before her resurrection, Shen Lang told her that the A-class superman was killed, but her father escaped.

In Dorothy's view, since Shen Lang can easily kill the A-class superman, if he wants to kill her father, it should be able to do it. "Escape" should be seen on her face.

She died and resurrected, and she has completely separated from her family. At this moment, I guess that Zheng Yumeng may have been caught by his father, and he is also standing on the side of Shenlang.

"how about it?"

When she asked, Shen Lang had used the knowledge of God to inspect the surroundings, not to mention the neighborhood. In the area where his knowledge can be explored, there is no shadow of Zheng Yumeng!

He did not answer Dorothy, but carefully examined the surroundings.

Here is in the wild, her car is not parked on the side of the road, but deviated from a big tree. If the ground is not asphalt cement, it is easy to leave traces. It can be seen now that there are many footprints appearing here, which is outside their pedaling.

After careful discrimination, it can be seen that there are some footprints that are different from the soil here, which is the dirt that was dug up the mountain before!

At this point, I can basically confirm that Zheng Yumeng and the old vampires have encountered them, and they came directly here. The car is not locked, and people are leaving in a hurry.

as a result of.....

Shen Lang took a deep breath and did not panic. Instead, I took out my mobile phone and dialed a video call. Open the door and immediately check the down vehicle recorder.

Through a quick retreat, I saw the information similar to his investigation. They parked the car on the side of the road and then directly surrounded it. Later it was a noisy, it should be started to fight here, and then there was no picture taken.

The footprint of the ground and the reverse of the driving recorder's picture, Shen Lang locked in one direction, brought Dorothy, and immediately chased the flight there.

He is not confused, but he is still worried and anxious. From the time above the driving recorder, it has been a few hours!

After all, before the sea was happy, the old vampires fled, and they went to the base, stayed at her residence to help her improve, and finally ate and returned to the city of Tallow.

A few hours is enough to happen a lot!

But he is associated with the bleak Yuanshen, and it can be confirmed that she is at least not dead now.

If it is just other superpowers, Shen Lang is not too worried. Since it is the A-level superman, it should be B- or B-level, and if it is B+ or B++, it may not be so reconcilable. Give people a thug.

That kind of bleakness can be dealt with. Other C-levels, let alone, even Zheng Yumeng can clean up.

But the old vampire can maintain a balance with the A-class superman, indicating that the strength is not the same! It is equivalent to the level of the real world, and that is not what the desolation can deal with.

He has regretted it now!

At that time, I didn't think so much. If I thought about the possibility of playing against Zheng Yumeng, I would like to catch up with the old vampire!

It is said that the old vampire does not know, even if there is a comprehension in the vicinity, when fleeing, it is impossible to directly provoke.

But I thought about the Dorothy next to me and I immediately figured it out!

At the airport that day, there were several superpowers who picked her up. Those people have seen Shen Lang and Zheng Yumeng. These should also be reported to the old vampires and A-class superpowers.

In the city of Tallow, I only met Shen Lang, I wouldn't associate anything, but I just saw a male superman, and then after I came out, I found a female superpower who would naturally be connected and let that After confirming a few people, you can get the number.

The video call has been dialed, but no one answered.

If everyone is very close, he can communicate directly with the gods and desolation. But if the scope is large, it will be blurred and only confirm its existence.

Just like when he went to the forest of death, Desolation lost contact; after returning from the dead forest, he immediately sensed his existence, but returned to China to find him, and did not know where it was.

That is, both of them arrived in Yunzhou, and they did not know each other. It was later met.

So at this time, Shen Lang still had to find it by himself. Although he was anxious, he did not dare to fly too fast, so as not to fly over. When he was flying in the boat, he also extended his knowledge to the limit, and a large piece of rapid scanning.

After the phone continues to have no echo, he speeds up a bit of speed, ensuring that the carpet type searches for a larger range as much as possible with the scan of the gods.

In fact, the farther away, the easier it is to deviate. If the parking place is the core, even if it is a straight line, it is a fan shape. As long as the angle deviation occurs, the gap will be large.

Not long after, he has already chased out hundreds of miles away!

“found it!”

The spirit of Shen Lang is alive!

He has already sensed the bleak Yuanshen, indicating that the direction is right, everyone's distance is not as far away as before. And although it is still a bit fuzzy, but still has a general direction, so that he can directly accelerate to catch up.

Underneath them, there is a river. The direction of the current flight is down the river. The sinking waves can't help but frown slightly. Is it so desolate that it is forced to go nowhere, jump into the river, and drift away under the ice?

The answer soon appeared! The goal is not moving, and it is almost a matter of seconds in the speed of the boat.

Shen Lang has seen the situation on the river below in the air.

Desolation is there, and those vampires and superpowers are there.

At this moment, the bleak hair is messy and full of wind and frost. Like a female war god, standing on a sandbank in the middle of the river, the sword fights against dozens of superpowers and vampires on both sides!

Chapter 340 - Give me a kneel down

The temperature is relatively low, and there is a thin layer of ice on the river. The water level is not high in winter, so a small piece of sandbank is exposed in the middle.

Standing on the sandbar at this time, obviously not Zheng Yumeng but desolation, she should have escaped all the way from the hundred miles away in the past few hours. It has been difficult to escape here, so it is difficult to fight against it. stand up.

But this can be said to be a good place, it can be said to be a dead end!

She is in the sandbar in the middle of the river. Others are going to step on the thin ice. Even if they don't sink, they are "like a thin ice". Without the flatness, she has the opportunity to attack.

But in turn, it is even harder for her to want to leave. In particular, they have people on both sides of the river, and they have blocked her way to shore.

At the time when the gods flew past, they just launched an attack from both sides. The attack should be a superman of the B- and B-levels, which is equivalent to the initial and mid-term of the virtual world.

Two years ago, when I was fighting side by side with Shen Lang, I had already had the strength of the late stage of the virtual world. Of course, this would not pose much threat to her.

The sword was not in her hands, but she also got a lot of play. She didn't have to wait for the enemy to come close, she just swayed the sword, and immediately broke through a lot of thin ice, and went out with the thin ice as if she had a sharp arrow.

Then, with the sword, the river under the ice is also stirred up, and it is also scattered into an arrow net!

By relying on these, it is impossible to defeat the enemy. But relying on such terrain, it gives her a barrier. Before the enemy approaches, it forces them to defend, and it is even harder to get close. This will also give her a The real attack of the sword is even more effective.

The two people who had just attacked were forced to return to the shore with a little embarrassment...

"How long do you think you can persist? Surrender! Just confess everything about your party, we won't be a woman!"

The old vampire was persuaded to drop the cold on the shore. Obviously, he has not yet shot, otherwise it would be difficult to insist on it until now.

“Master Nicholas, please also personally take the shot to avenge Lord Costner!” Another B-level superman asked him.

The old vampire is about to quit, and immediately looks up into the air.

Others followed the discovery of anomalies, but when they looked at the past, they could not see the magical state of the gods, and saw the sinking waves and Dorothy that had fallen from the magic weapon.

“Dorothy!”

“You actually... still alive!”

Immediately several vampires were screamed, and some were excited and more shocked and puzzled. What Dorothy experienced, they are all clear.

The old vampire Nicholas is staring at the sinking waves, and even his daughter’s resurrection has not seen much.

Shen Lang was landing on the shore, but did not look at them, but nodded to the bleakness of the sandbank in the river.

Desperate and licked the messy hair, and revealed the relief in the shortcomings.

She is able to persist in fighting, that is, she believes that Shen Lang will definitely return!

“It’s him! This inferior yellow-skinned monkey is that he killed the Costner sneak attack! You join together and avenge Costner!” Nicholas pointed at the waves and screamed.

However, his words did not play a full-fledged effect. Not to mention that he was not the leader of these superpowers, just the one sentence, it is not hatred, but fear!

The A-level superpowerer Costner, who is much stronger than them, can kill the Eastern Powers. Are they opponents? They are up to the B and C levels. Isn't that a part of life?

Their attachment to the strong, that is, a boss and boss who cover them, not like Chu family, Xie family, such a **** kinship, even the teacher does not count. How could it be that they have a strong hatred?

Just like Shen Lang's shot on the Chu family, the comprehension of the Chu family, the super-martial warrior, of course, will not be desperate for the Chu family, and will run away directly.

Or the B-level superman who spoke to Nicholas before, in the cold field, whispered a suggestion.

"Master Nicholas, we are not the opponent of this lord. Only you are the strongest, you can't dare to avenge Lord Costner."

Just everyone's focus is on Shen Lang's body. For such a young Oriental, they will not be in the eyes.

But just a girl who was bleak, let them chase after a few hours of hunting, but have not yet won, and then listen to Nicholas personally said that he killed Kostina, naturally do not dare to take a nap.

Now that I have heard this, everyone's eyes are on Nicholas, and across the river, they have already begun to retreat.

"..."

Nicholas's old face was completely gloomy.

He is not a life of friendship with Costner, and he is not a subordinate, he is a hateful hate! Just like these superpowers, they just want to fight for a little time, so that he can escape with a few vampires.

Now these sly guys are not only not picking up this hot potato, but also throwing it back into his hands. Let him want to tear the person directly!

“Hahaha... Just kidding! Just kidding! Costner, the old guy, is really mean and shameless. I almost hurt me. This brother from the East saved me and saved my baby daughter! We How could it be done?”

Nicholas, who was stunned, turned his face in a moment, smiled warmly, then opened his hands and walked over to Shen Lang. He looked like he was going to have a hug.

This change, so that several other vampires are full of shame, this is no bones! Just a little bit of face!

The superpowers are sinking their hearts, and Nicholas’s indifference is ruthless. They all know a little. This time, for the treasure of the restricted area, you can even sacrifice your own daughter! What about their irrelevant people?

The pressure on this side is huge, and there is a little more barrier and distance across the river, and they are ready to escape. The reason why I have not started to escape is to wait for a lead.

Shen Lang looked around: “Want to live give me a sigh!”

When this statement came out, the scene was dignified, what wouldn’t it be? They didn’t have the habit of swearing, even if Costner didn’t let them go down.

But if you don’t, you may be dead!

Nicholas is almost ready to go to the front of the waves, Dorothy suddenly flashed in front.

“Nicholas! My life has been returned to you, and from now on, it will be irrelevant!” Dorothy said coldly.

Nicholas stopped and heard her words and laughed again: “Okay! Since it’s a good thing, it doesn’t matter! Then let’s go!”

He changed his face again, his enthusiasm disappeared, he said he left, and he flew straight back! When several other vampires heard “we walked”, he had already flown a few tens of meters!

On the other side of the river, those superpowers also came to see the opportunity. Someone took the lead and fled to the opposite side.
