

First Strong 371

Chapter 371 - Xiejia secret room

In addition to all the bombardment, Shen Lang also bombed the mixed elements into other houses without people, causing the entire community to collapse and burn.

The attack time before and after was very short, but the Shenlang gods shrouded the entire Xie family, and all the conditions inside were vivid.

This was to prevent someone from escaping. As a result, the most central villa was found. The people who gathered originally had the most. After being bombed, one of them did not escape. Instead, they rushed to a study and quickly opened an office.

A bookcase was moved in and there was an entrance through the basement.

The man had just jumped in and had not waited until the entrance was closed, and there had been a lot of collapse.

Originally, it was just a fish that slipped through the net. Shen Lang didn't care. It couldn't be done all over the net. Just like at the hotel, there is Xie Jun and so on.

But the man entered the basement, but it reminded him of the secret room of Chu Mo.

Is this the secret room of Xie's family?

In the secret room of the Chu family, he was not a small gain. Now this time is tight, and I don't want to search for it. When Xie Daoling comes back, it is difficult to go.

However, only a little hesitation, Shen Lang flashed into the sea of fire, directly to the entrance to the basement.

Even if the Xie family is gone, it is just a bad smell, and nothing is gained!

On the contrary, the smashing bullets consumed a lot of his vitality, and the sacred armor was also rushing to consume the energy of the stone.

So he decided to take the risk!

When the Shen Lang arrived, the entrance was almost closed. He quickly jumped in. When the organ was closed, the Shenlang people had quickly descended along the steps.

As the institution closed, the fire did not come in, and the light inside was dim, but when he was down, the light was lit below.

“Come on, let the smoke come in and we will be finished!”

The Xie family, who had just stepped in first step, just opened, and was screaming at Shen Lang on the steps.

The steps are the height of the first floor to the bottom. The construction of the basement has already considered the explosion-proof bomb.

“you are.....”

If the words have not been finished, the person will find something wrong. It is not a brother who is coming in, but a strange young man.

Look again, is this not the current big enemy?

He did not scream, Qiu Shuijian has already pierced his throat!

After Shen Lang received the sword, he did not pay attention to him, but began to search the basement.

This is not a secret room hidden in the house, but a complete basement, which is much larger than the Chu Mofeng.

But the overall look is tens of squares. The wall is surrounded by a locked iron cabinet, and there are leather pads and other items in the middle. It seems that in addition to storing valuable items, it can also be used for retreat.

Time was tight, and Shen Lang quickly observed it and immediately began to act.

These are placed on the wall with huge iron cabinets, all of which are locked, with dark locks and locks.

Shen Lang directly waved the autumn water sword, just like cutting the tofu, tearing the door lock of the iron cabinet.

After several iron cabinet doors were opened, they appeared inside, but they were precision safes, all of which were password locks.

It is difficult for others to do things. For Shen Lang, it is a matter of several swords!

After cutting the safe, he did not have time to count, and directly received all the items inside the storage ring.

After the entire underground chamber was completely cleaned, the sinking waves were ready to leave.

It was only a minute or two before and after, but at this time, there were a few strong breaths on the top!

Xie Dao Ling Ximen seals a few of them to come over!

In front of the scene of Xie's family, they did not know what to say to Ximen. They are in Tiandong, just to help the boxing to protect the Xie family, but now they are in front of them, the Xie family is destroyed!

Especially in Ximen, just on the rooftop, he also told Xie Daoling that Shen Lang would not attack Xie. If it weren't for his advice, Xie Daoling would come back first, not necessarily to catch or kill the bastard, at least there is the possibility of saving people.

“The sorrow! Let’s check if there is a live mouth...” Ma Shibin comforted a speech that could not be said.

Ximen seal coughed and said: “The mixed-capture bomb is not a casual use. It needs the support of the vitality. He has just slaughtered it here. It should not be far away, even in the vicinity, we all...”

“No need! Thank you, Xie has already done this. You still have to go back, don’t be beaten by Shen Lang!”

When Xie Daoling said that he was giving away, he was obviously resentful.

Although Shen Xie’s home is Shen Lang, this game tonight is followed by the will of Ximen. Otherwise, maybe he and Shen Lang can talk.

More importantly, before Shen Lang escaped, he invited them to come and protect Xie’s family. It was Ximen Feng who said that Shen Lang would definitely not come and delay the fighter.

Ximenfeng smiled a bit, did not say anything, but joined Miao Zan, Ma Shibin together, everyone cast spells, the fire of this community was destroyed.

However, they can do this too. If there is a living mouth, they can’t escape their feelings. Xie Daolin can also be saved.

And Xie’s family is already like this. There are not a few left in the hotel. Shenlang’s does not need to be done anymore. They stay here and there is no point.

So after the fire, all three people left to leave.

Xie Daoling did not send them, Xie Jun was still in the hotel, destroying the two floors of the family, there must be a saying.

Just when they fired several times, Xie Daoling called Xie Jun, let him hurry to find a place to hide, don’t come back, don’t stay at the hotel, and confess to others to do it.

Xie Jun still doesn't know the situation here but still immediately obeyed the arrangement of Xie Dao Ling.

He had another phone call. He was loyal to the family of the Xie family and confessed to several tasks. One was to deal with the hotel, let Xie Jun hide it, and the other was to arrange for people to handle the family, and then to hide in relatives. The old and weak women and children of the family must assist Xie Jun in handling it.

After the three of them left, Xie Daoling came to the villa in the middle of the room. He looked at the inside and outside of the villa and broke it into several pieces, letting him get angry.

When he came to the original study, he waved his hand and vented his grievances on the broken wall.

A few palms lined up the collapsed wall and stone, and also drained the fallen bookcase.

It's not that he is cold-blooded, but the situation of thanking the family is already like this. It's sad and hateful, and then regretting it doesn't help. What you can do now is to get all the family out and finally reduce a little loss.

He does not fantasize about revenge. He asks to use the rest of his life to cultivate the young Xie's children. After a few decades, perhaps the Xie family still has a comeback.

Chapter 372 - Secret of the Masters League

Just entering the basement, Xie Dao Ling immediately felt abnormal!

I didn't realize it at first, because it was so big outside, the time was short, and there was definitely no situation in the basement. Now I came in and smelled the **** smell and found someone in the basement.

I know that this institution can be opened, and there are not many people in the family. Maybe it can really escape in time...

As he flew into the basement, he immediately understood the situation.

It was indeed someone who had hid it, but he did not escape it, but was killed inside.

Now, some people are waiting for work. When he comes in, a sword has quietly blocked him, and the sword tip has reached the throat.

“You didn’t actually go.”

Looking at the sinking waves, Xie Dao Ling sighed, and he kept himself relaxed, without any resistance.

The indirect direct confrontation between these two days has already made him realize that he has underestimated the strength of Shen Lang before, perhaps the escape in Yunzhou is not afraid of him, but does not want to confront each other.

“Last night, I have already revealed my attitude. Looking for Xie Youxie to avenge, I am not going to destroy the home.” Shen Lang said a faint sentence.

“Yes. I am confused...”

Xie Daoling smiled bitterly: “In my position, it is also a normal choice. You come to my site to kill my children and destroy my industry. I can’t be without resentment.”

“Why then why use the ice palace again?”

“No! I first invited the Lord of the Palace, I hope to mediate, but she only arrived today. Yesterday has happened, plus Ximen brother...”

Xie Daoling looked at the waves and the whole person calmed down.

“I don’t have much reason to find out, you can’t let me go. The king is defeated! You can take everything here, you can kill me. Tonight we want to kill and win the treasure, be killed If you are taken, you can’t complain.”

“But?” Shen Lang stared at him, and did not relax.

“But... I hope you let go of the other people in Xie. Others are really useless old and weak women, most of them are not self-cultivators, not even talent.”

“Xie’s family has been defeated, and my death is almost the same as the elimination. The rest can not be swallowed up by other competitors. It is not easy to survive. I hope that such a strong person will stop shooting.”

“I can promise you. I didn’t mean to scribble the roots. I have to find out all the old and weak women who are hiding in relatives. It is also a small project. I only have one person.”

Speaking of Shen Lang’s eyes, he gave a slight glimpse of the top. “The things that have been here can be avoided, but you have chosen to collude with Ximen.”

“Yes... and your grievances are because of Xie Xun. But it is my reason for the situation today.”

In the eyes of Xie Daolin, there was a burst of pain.

He is a real master and an old man!

He wants to have more resources, in addition to trying to break through, and more importantly for the continuation of the entire family.

After all, his age talent has decided that it is difficult to enter this level. But if a family wants to continue from generation to generation, it will have to be carefully calculated in the long run.

Now because of his “gambling”, the family has been introduced into the land of annihilation, it can be described as a sinner!

“People don’t commit me, I don’t commit crimes; if people commit me, I will kill!”

After saying this, Shen Lang took the sword back. “I don’t kill you, you have the consequences to bear.”

Xie Daolin was a little surprised. “You... want to make me regret? This is more painful than killing me. But you are not afraid of me looking for revenge?”

Shen Lang smiled a little: “Do you think that I just relied on a sneak attack? Do you think that you have to get out of your four people, just rely on tricks?”

Xie Dao Ling stunned.

“To tell the truth, with your fair singles, I will be able to kill you! It is the four of you, I can at least kill two loses. I just can’t help but have a little injury!”

Shen Lang said proudly.

This is not a bragging. It is against the four of them. There is indeed hope for victory. At the very least, there are two losses, not a murder.

But from the beginning to the end, he has carried out a goal – to improve!

Because he is the person who has reached the peak, of course, he is not satisfied to climb slowly underneath. Needless to say, death is absolutely impossible, if not, there is no chance to be born again.

Injuries are also a great drag, and it is a waste of time to heal the healing time;

His body is not a million-minded genius. Originally, the speed and potential are limited. Now, relying on the experience of past life, there are still a lot of resources piled up.

If the injury leaves a sequela, it is very likely to affect the breakthrough in the future, which is unacceptable for Shen Lang.

“Thank you...”

Speaking of this word, Xie Daolin is very ironic. The person in front of him has just killed Xie, but he has to thank him for not killing!

“Leave your life, when you bless others to grow up, the roots of Xie’s family are still there.”

Shen Lang said this, and said it.

Xie Dao Ling's thank you is not for his own life, but for his opportunity to continue to protect his family.

There is a fault now, and it is impossible to grow to the point where it was before, not to mention decades. But there is at least a glimmer of hope that without it, the roots may not be able to protect it.

“You...be careful! I am desperate, and they will not. Especially the Ximen seal... He is not only savvy, but also has absolutely strong strength, reaching the middle of the real world, and there is a master alliance behind him.”

When Xie Daoling spoke, he had carefully walked to the corner and left the way to Shen Lang.

Shen Lang knows that this is a reward for not killing, and he is not polite: “Master League... What is it? I really don't know.”

“Master League, in fact, is the real realm of comprehension!” Xie Dao Ling is a bit embarrassed: “The family sects like us seem to be quite beautiful, but actually rely on the secular. Those who are really powerful, disdain to participate.”

“When we have reached the realm of , we are qualified to be absorbed by the Master League. Of course, a few days will be obsolete. And like us, in the Master League, it is the lowest level of existence.”

“Don't believe it! In terms of the level of your Pingxi, can you still traverse a virtual world? It is impossible to imagine the realm of truth. The same is true of the Master League. We are called real people, masters, and can be real. In front of the comprehension, it is nothing.”

“I believe.” Shen Lang nodded.

He is the one who has reached the peak, and of course he will not feel that the real thing is the peak. I also believe that super powers exist, but they can't escape the world.

“Right, Simon is ready to kill the few who challenged you and plant it on your head. You were at the hotel last night, tonight, and of course now. They will say that you have killed hundreds of people. Innocent people, pushing you to the opposite of the whole world, you better have a mental preparation.”

Xie Daolin also reminded me.

The latter Shen Lang can guess, master the public opinion, but did not expect Ximen Feng actually want to kill Zhou Yumin, Huang Zheng and Shen Ye to plant!

Chapter 373 - Reward counterattack

Shen Lang has no good feelings for Huang Zheng and Shen Ye.

If you don't feel good, they won't feel good. If they die, he won't care. But if you kill them and use them to frame them, this is not the same.

Besides, that Zhou Yumin is still quite principled and moral, and he is quite appreciative. It is a pity that the West Gate Seal is going to frame him and kill people.

After leaving, Shen Lang immediately logged into WeChat and found that he had been kicked out of the group!

This should be the beginning of the West Gate seal, master the public opinion, not let him speak. But he did not care so much, directly dialed Zhou Yumin's video call.

Zhou Yumin quickly connected his video, but it was obviously a bit surprised.

“Shen Lang? Are you looking for me?”

Judging from the Shenlang that I saw before in Shenmu Cliff, it is very embarrassing, and I don't care about them.

“where are you?”

“Uh.....”

“Hide it!”

“what?”

“Notify Huang Zheng to stay in the night and hide it!”

“What do you mean?” Zhou Yumin frowned.

In the video, he couldn't see the picture of Shen Lang. It was not a good time, but the expression was serious.

“West Gate Seal is going to kill you!”

“Why?” Zhou Yumin was shocked. This information is really strange. “How can Simon's predecessors kill us?”

“In order to plant me!”

“what!”

Zhou Yumin was even more shocked. Ximenfeng killed them three in order to plant him?

At this time, the call was interrupted.

This made him frown, and Shen Lang was being chased by the seniors of Ximen?

In the style of Shen Lang, it should not be such a joke. but.....

Ning is credible!

He immediately made a decision, first contact Huang Zheng and Shen Ye, so as not to have anything in order.

The Shenlang signal is not good because he is flying in the air, just interrupted. He cut off the call and flew into the hotel from the balcony.

After entering, I redeployed the past.

“Shen brother, what you just said... is it true? I just tried it and didn't contact them both.”

“Ximen Feng knows where you live?” Shen Lang asked immediately.

He has already calculated that he and Xie Dao Ling have only talked for a few minutes. The Ximen seal they left after the firefighting of Xie's family. It is only ten minutes until now, and it should still be possible.

“Oh... when I came back from Shenmu Cliff, the seniors of Ximen asked us where we live.”

Zhou Yumin didn't feel very good. Originally, the inquiry of Ximeng was not unusual. It was like a predecessor's concern for the younger generation, and he followed the same question, “I haven't eaten.”

But if Shen Lang is telling the truth, then the West Gate Seal may be intentional and already know where they are staying!

“You are not in a hotel?”

“No. Just came back together after dinner, they are in different hotels. But I know where, I am going to find...”

“You have to hide first to ensure your safety!”

Shen Lang thought for a moment: “The wicked or I will do it! You pull me into a group of comprehension people. The more people, the better. I have been kicked out of the original group by them, there is no channel for vocalization.”

When Zhou Yumin had just eaten, he had already seen other people from the other groups, and saw that some of the screenshots were flowing out of the Shenlang. He said that Xie's family also

asked people to seek peace. He did not say who it was, but it was not the West Gate, but also the hotel. The name allows people to go onlookers.

They did not go onlookers, but they knew that Shen Lang had to go to the appointment. Now that I heard the news, he immediately linked all aspects.

The peace talks must have collapsed!

Xie Daoling estimated that they were jointly sealed by Ximen and wanted to kill Shen Lang. But let Shen Lang run, in order to stop the news leak, they kicked him out of the group, so that he did not have the channel of exposure!

He immediately thought that just before Shen Lang called, he was looking at the information. There was exposure in the group that Shen Lang attacked the Xie family industry last night and killed many innocent workers.

Looking at it this way, it is the Xie family that is building momentum!

Shen Lang didn't have a voice channel, and the West Gate seal buckled the three of them, and he couldn't argue with it!

“Good! I am right.” He immediately hung up the call and immediately added Shen Lang to the WeChat group with the most people.

This group is not restricted to add people, because many people are discussing intensely, and pulling people into it has not attracted attention.

Then Zhou Yumin saw the hot spot just now. It was not the matter of last night, but it was just that Shen Lang had destroyed Xie Jia! Everyone has been killed, and Xie's family is also buried in a sea of fire!

This is not the group before, everyone has no sense of identity with Shen Lang, especially people with rhythm, are denying this killer!

“I am Shen Lang!”

This one was sent out and was immediately brushed onto it, but many people still saw it and immediately asked.

“Who are you? When did you join in?”

“Don’t change your name, it’s not a joke!”

“Please respect the dead!”

“I am Shen Lang, kicked out by the group I had exposed before. They let me have no channels for vocalization, and then everything you see will be announced by one of them. You can not believe me, but you can listen to it, you can One more confrontation. If the group is not welcome, I will change another place.”

Typing is too late, and Shen Lang is speaking out of voice.

Many groups of people are cross-over, why the information of that group will flow out, which is the screenshot of the group friends, and some of them are also in this group of people.

After they heard the voice, they immediately came out to testify.

“This is the voice of Shen Lang!”

“Lang brother! You were kicked out! There is still saying that you have no face to see people retreat!”

“What the **** is going on, what happened?”

Some people brought up the rhythm, plus some people who wanted to see the Shenlang exposure, and now found that he went to this group, and immediately warmly welcomed and embraced him, let him be exposed.

“I attacked Xie’s family because Xie Dao Ling, together with the West Gate of the Promise Gate, Ma Shibin of the Tamar School, and Miao Zan of Haitian Town, surrounded the four people.”

“But last night I didn’t hurt an innocent worker, it was they who smeared me!”

“And In the evening, I met three friends from the heroic list. I won the eighth Huang Zheng and the ninth night. But I have no reason and want to kill them. It is very likely that they will kill them and plant them for me!”

When I said this, I immediately screamed in a “slot”, and sure enough!

Everyone needs the explosive material, and the sinking wave is already dark enough. There is no sense of freshness. The black Ximen Gate is highly hopeful, it is really fierce!

In the face of everyone’s questioning, Shen Lang continued to respond.

“What is the West Gate for? Of course not for justice!”

“Huang Zheng they invited him, and when the gambling chips, my money was revealed! And I won them, I won 50 medium Lingshi! Ximen seal is for the benefit!”

“I am not afraid to say clearly, because I can kill the master, I am not afraid of robbing me. But the momentum is weak, ready to give everyone a chance to earn a spiritual stone! No need to move masters, Promise Gate, Haitian Town Miao, Tama Under the door, return to the Yuanjing, a 20-to-fifty-first stone, and a virtual one to three medium spirits!”

Chapter 374 - Tiandong is a thing

Shen Lang broke the Ximen seal, so that everyone would be suspicious, and continue to say that it is because of Lingshi, everyone basically believes.

Because the active group is basically a young monk, fifty medium-spirited stones, basically a reserve of their family and martial art. In their capacity, getting two ones is very important.

Shen Lang can win 50, which means he has to get fifty of the capital, which adds up to a hundred!

Ten or eight, the West Gate is not in the eyes, a hundred reserves that can double the door of the Promise, can you not be moved?

This is already a buzzing news, and the latter part of the voice is even more exciting for everyone!

Shen Lang can kill Chu Mofeng, today can defeat Huang Zheng, and under the siege of the four masters of Xie Daoling and Ximenfeng, they can get out and gradually gain their strength.

Even if these young monks are blind, they can only be stunned. Even if they are ten or eight, they are not opponents.

The encounter between the Chu family and the Xie family is that the elders and patriarchs behind them are not willing to take risks.

But the rewards that have just been opened are really giving them a chance to earn resources.

Return to the Yuan Dynasty for 20 to 50 elementary Lingshi!

Also one to three medium Lingshi!

The specific value is not worth it. In fact, it is hard to say. The key point is that there is no such channel. Now there are three gates, such as the Promise Gate. At least there are hundreds of targets, as long as you can kill a few...

For a time, everyone has had more thoughts, playing their own little ninety-nine, especially those who have the strength of the medium-term and above, they all want to earn this hanging red.

But if this is to be done, it can only be done secretly and cannot be said publicly.

After all, even if the West Gate is so highly respected, if you want to get rid of the waves, you must first give him a hat of evil. Some of them are now with personal grievances, and others are not known for their rewards.

“Thank you for your brother!” Zhou Yumin sent a private letter to Shen Lang.

Shen Lang publicly said in the group that the West Gate Seal will start with them, and the conspiracy will be announced first. The West Gate seal will be confirmed by the hands-on, and I believe that this plan will be cancelled.

Huang Zheng may not believe in the night, but Zhou Yumin believes.

In the words of Shen Lang, there are some people who have not experienced it, but in Shenmu Cliff, he is experienced. It is not dozens of pieces, there are hundreds of medium-spirited stones, Huang Zheng and Shen night directly exposed the face of killing and snatching, and the West Gate seal also has this meaning.

“You still have to change places.”

“Okay, I will consider it. But...” Zhou Yumin thought about it and gave his suggestion: “I feel that there are grudges and only a few of them. The reward of Xiongtai is that it will make three Many innocent disciples of the martial art are afflicted, and they are still young.”

“Anyone who does anything has a price. I didn’t hurt anyone yesterday. Today, the family is destroyed. It is the price of Xie Daolin’s work today. The same is true for Ximen.”

“If you want to prevent young disciples from getting involved, they must admit their mistakes and apologize, instead of asking me for high standards.”

Shen Lang’s words made Zhou Yumin have nothing to say. He also inquired about the previous events and knew the consequences of Shen Lang’s family and friends being hurt.

Because Shen Lang was in this group, the former group of friends sent this information back. The people in the group were resentful. They couldn’t kick the group, and some of them retired from the group. Find someone to pull into this group.

For a time, Shenlang’s exposure platform became a group of more WeChat groups.

Shen Lang is mainly to save Zhou Yumin from the three of them. What he said has already been said, and he is not reading the information.

The reward is a strategic step for him.

Under the reward, there must be brave husbands, some who do not rely on the sects, or who are not attached to the family, can not get more resources, and it will be normal for the spirits to take risks.

However, Shen Lang believes that most monks still abide by the principles of morality, but they may not act.

However, he needs to use this hand, causing the hearts of the three martial art insiders, even if the restraint does not seal them. It also allows them to take care of themselves and not become a minion.

The news spread quickly, and the raft was immediately asked by WeChat, and Shen Lang responded briefly. In fact, she is not stupid, a group of old masters, talking about taking the sun to the nightclub, it is too deliberate.

But she is the palace owner of the Ice Palace. She has the heavy responsibility of the teacher. One can't compete with them. She can only leave first.

Then I heard the news of the rain and called to ask about the safety of Shen Lang. I learned that he was fine for the time being, but after the Xie family was wiped out, there was no worry. I suggested that he go back to Tianshan first, and stay in that place. The average person will not look for the past.

Shen Lang didn't want to be tired of her, but she only had to deal with it. She did not explain her arrangements.

The time difference plus the relationship of the transfer channel, when Zheng Yuqing received the wind, it lags far more.

After Zheng Yumeng learned, he immediately asked if he would bring someone to kill and help!

She now has a man, although the loyalty is limited, but there are also Dorothy association constraints, I really want to pull back to help the dry waves.

When Shen Lang received her information, it was already the next day, and he had already left Tiandong City.

For her suggestion, it is directly decisive, let them manage those superpowers on the one hand, and on the other hand, try to cultivate and improve their strength.

And when his parents moved back, let them deal with it, lest they be hurt again because of his relationship.

Tiandong is a thing, and Shen Lang does not really have a family to pick the Promise Gate, the Miao and the Tamar. Some of them are not so easy to be killed, killing some of them and returning to the virtual world. He has not much of a nature.

What he wants is a good cultivation to further enhance his realm!

As Xie Daoling said, the Master League is the real realm of comprehension, indicating that there are still many strong people who can't avoid the world. It's only been less than two years in the end. It's already against the sky, and it's impossible to fight the Quartet too arrogantly.

Leaving Tiandong, Shen Lang chose to go all the way to the west target Tianshan!

However, he is not going to the place where he was healed last time, nor will he go to the ice palace, and he will try not to owe it.

For transactions, you can choose irrelevant.

Tianshan Jianzong.

The last time I took back the Qiushui sword from the Tianshan Jianzong, the key was to rely on the understanding of the Tianshan Jianzong and the connection with the Qiushui sword. But this time back, Shen Lang is not only stronger, but also has more resources to trade.

The Tianshan Jianzong can be regarded as a refuge from the world. It is the master league, and it may not be found there. It is a good place for him to retreat for a period of time.

Just when Shen Langqi turned to the west, he received a call, which was a call from Qingtian Medicine Bank Wu Bowen.

Wu Laotou said that he was invited by a top trade fair this time. It is not organized by Qingtian Pharmaceuticals. It is truly top-level, and it is a transaction in the realm of resources. He felt that only Shen Lang was worthy of it, so he asked if there was any interest in Shen Lang.

Chapter 375 - Is this a blind date?

When I was in trouble in the past when I was looking for Qingtian medicine, Wu Bowen said that they just had a trade fair and wanted to invite Shen Lang to participate.

I learned about it at the time. It was only the Qingtian Pharmacy. The purpose was to sell some rare medicinal herbs, including the ginseng that he sold to raise the road fee. The ginseng became a treasure, and Shen Lang was not interested.

After Wu Bowen knew that he was a self-cultivator, he did not dare to persuade anything, but this time he called, but he emphasized the top trade fair of the resources of the comprehension.

On this node, Wu Bowen called to invite, frankly speaking, Shen Lang is full of doubts.

It is not that difficult to find out the past of him and Qingtian Yaoxing with the qualifications of Ximeng.

With his ability, it is easy to make a game and let Wu Bowen completely play the chess piece without knowing it.

However, Shen Lang still has a little bit of movement.

Because he lacks resources!

Before the fall of the year, I barely laid down the rebirth, and nothing left. Fortunately, I was given the legacy of Zheng Man at the Tomb of King.

All the way to the present, relative to genius, is also a very fast leap, but in fact it is quite rough.

Now he seems to have a lot of them, in fact, mainly rely on the spiritual stones presented by Bihai.

The medium stone is of course good, but if it is more than a certain degree, it will not be used.

For example, if someone absorbs one, he can absorb ten at the same time, but he can't absorb one hundred at the same time.

If you can get some other resources, like the Millennium Sangyang, the effect will be very different.

What makes Shen Lang more helpless is that in the past few hundred years, the world has changed tremendously, and he can use it very limited.

For example, Tianshan Jianzong, the resources he can find, or the original and the cold autumn left.

The traces left behind the Tianshan Jianzong in the cold autumn, except for the Qiushui sword, are not much.

Seeking for wealth!

If you really want to have any intrigues, you can count them and find opportunities to slip.

After considering it, he replied to Wu Bowen and promised a past trip.

Wu Bowen was very happy. He immediately said the place and asked if he would arrange for people to pick up the waves.

The place to meet is not the city where he was before, but the city of Qingchuan.

Shen Lang refused his kindness.

Since it may be a trap, of course, you should go one step at a time and know yourself and your own.

He was originally turning to the west, but now he is diverted to Qingchuan City.

According to Wu Bowen, this time the top trade fair will be held in Tangyuan.

Tangyuan is a private clubhouse in Qingchuan City. It is close to the river and there is a manor. The environment is very good.

It is not developed when it is developed, and it is basically an occasion for the consumption of nobles.

This is a rumor that can be found on the Internet. It is said that there are no people, and it can still maintain such a large Tangyuan. It is definitely a high price.

Shen Lang now seems to estimate that the real guests are still based on self-cultivation.

After he came to Qingchuan City, he noticed that he went to Tangyuan, but did not go to visit.

Tangyuan is on the riverside, while the other side of the river is the bustling city.

The choice of Shenlang is a hotel on the opposite bank, directly on the highest floor of the hotel.

When he arrived, he used the previous telescope to carefully observe Tangyuan.

Without knowing the direction of Tang Yuan, he did not fly near, or use his knowledge to investigate.

Shen Lang once booked two Riverview Suites, and there was no requirement to be adjacent.

The rooms that were finally given were in the same batch, separated by several rooms.

At the time of check-in, he himself was living in the elevator near the past, and then told the other room number to Wu Bowen.

Wu Bowen also booked the residence in advance, but said he would come over to visit him immediately.

Not long after Shen Lang observed the opposite Tangyuan, he received the information of Wu Bowen, saying that he had arrived at the hotel and immediately came up.

The Shenlang gods explored and saw that Wu Bowen was not alone, and there was a young girl with him.

However, there were no other unusual people in the entire hotel lobby, including the outside.

The two of them went from the elevator to the top, and did not call, send messages, or other abnormal conditions.

After confirming that they were ok, Shen Lang went out one step at a time, and in the past, the other room opened the door.

Wu Bowen and two people came over and saw the door open, and then saw the deep waves inside.

“Haha, Mr. Shen, you have to open the door and wait for us.”

The young girl closed the door while she was talking.

“Wu old, hard work for you.” Shen Lang smiled faintly: “But I have nothing to entertain here.”

“Isn’t this chilling me? Call me Lao Wu.” Wu Bo warmed and angered, then smiled and introduced.

“This is Su Meizhen, my teacher, young but very capable, beautiful and beautiful, all aspects are excellent...”

“Shi Bo...” Su Mei raised her brow.

Her voice is very good, very su very charming, with her name.

But the tone is not very good, a bit rushing.

“Haha, I shouldn’t boast of myself, but Xiaosu is really good. This time I came with me.”

Shen Lang raised his hand and gestured to Wu Bowen and Su Meizhen.

“Old Wu, listen to your tone... Wouldn’t it be a blind date with Xiaosu?” Shen Lang made a joke.

This is not his frivolity, but Wu Bowen has just boasted that it is really inconvenient.

Wu Bowen just sat down, Su Meizhen has not yet sat, and at this moment is a dissatisfied cross-over.

“Do you call Xiaosu? You should be Miss Su!”

“Ha ha,” Wu Bo warmly rounded the round: “Of course not a blind date, you are all young talents, I hope you have more contact.”

Then he said to Su Meijun: “Small Su, pay attention to courtesy. Mr. Shen is a powerful person!”

“Shi Bo!” Su Meizhen lowered his voice, but the tone was still a bit rushed: “It is obviously rude.”

“Small Su, I am talking to your teacher, but you don’t have to call my uncle.”

Her attitude and tone made Shen Lang interested, and smiled and teased.

“Be free, don’t be cautious. Go to the water and soak two cups of tea!”

“What?!” Su Mei squinted.

Just said that when she didn’t call her uncle, she was almost blind. Who wants to call you a teacher?

It’s better now, actually telling her to burn tea! What did you take her?

“There should be free tea, pay attention to hot water and hot water bottle and teacup.”

Shen Lang sighed and waved.

“Old Wu, let’s talk about business.”

Wu Bowen is also very embarrassing at this moment.

Originally, he felt that two very good young people don’t talk about it, there should be a lot of topics, I didn’t expect to see it on the bar.

Su Mei sighed, but I didn’t say anything about the teacher. In order to maintain courtesy and manner, I could only find the kettle in the past.

“what’s the situation?”

Wu Bo warmly smiled and watched her take the kettle to the sink, only to whisper.

“Little brother, you are still polite to others. I really don’t give you a blind date...”

Then he was a little helpless and confusing to reveal the truth.

The original invitation letter, this is his younger brother Su Datong, can carry two people.

Su Datong didn’t have time, so he let his daughter come to see it.

Seeing that there is still a place, Wu Bowen contacted Shen Lang.

Chapter 376 - Anonymous transaction

Shen Lang looked at Wu Bo warm to bring the younger generation to see, blind date is just a joke.

It was only now that the original invitation was Su Meizhen’s father. No wonder she was so proud.

After watching Su Meizhen did not come over, he was boiling water and washing the cup at the sink.

“Talk about the situation.” Shen Lang asked again.

Wu Bo warms his face and is not talking about Su Mei.

Through his introduction, Shen Lang knew a rough idea.

This top trade fair is basically involved in the realm of comprehension. He is a medical national, and his teacher’s door also has its origins.

Wu Dawen’s younger brother, Su Datong, is also a self-cultivator, and specializes in refining medicine, so his identity is special and he is valued by many people.

This invitation, can carry two people, is also the face of Su Datong, and some can only be one person.

Tang Yuan’s trade fair will be an anonymous way. When everyone goes in, they wear masks, some of them are big, and they will even hide behind the scenes.

This is to protect customers, the money is not exposed, whether it is bought or sold, they are afraid of being targeted. Although hiding can not completely eliminate the risk, it can also be reduced.

As for the owner of Tangyuan, it is just a platform for trading, not involved in rake, nor will it organize auctions.

Of course, in the Tangyuan area, the same transaction will be bought and sold, and it is also a hidden way.

There are also those who can’t come, and believe that Tangyuan will entrust Tangyuan to trade on behalf of the Tangyuan, and arrange for people to trade according to the requirements of the original owner.

It sounds good. Shen Lang's identity is still a bit sensitive. Follow Wu Bowen. He doesn't want to be conspicuous. It's better to be anonymous.

After two days of dissemination and fermentation, public opinion escalated, there were supporters, and there were also three people, including Ximen, and their martial art, who did not come out to declare anything.

Huang Zheng and Shen Ye were not killed. They also came out to blame and blame Shen Lang's predecessors.

And Zhou Yumin did not speak with them, it made people suspect that there is another mystery.

However, some people still use the smashing of the waves to kill the door and make a fuss, and slamming the smashing waves is a bad way. If the group is attacked, it is now necessary to start with the three steps of the Promise Gate. The next time, more people will be started.

In general, the popularity of Shen Lang has been higher. Everyone has accepted that he is the first place in the "Top Ten Outstanding Young Scholars"!

The tenth gave up, the eighth and ninth joint defeats, and the other few who challenged, also died down.

Su Meizhen had already burned the water and brewed two cups of tea. One cup was placed in front of her teacher, and another cup was placed in front of Shen Lang.

"Small Su is polite, I don't drink tea, just let you give old Wu tea."

Shen Lang said that as soon as he raised his hand, a force lifted the cup from the air and sent it directly to Su Meizhen.

"This cup of Miss Su is just fine."

Shen Lang face with a smile, the tea cup was also sent to her.

Wu Bowen is not a self-cultivator, watching this scene stunned.

Seeing that Su Mei did not pick up, he coughed aloud: “Small Su, then, Shen Laodi is joking with you.”

In his view, Shen Lang changed his mouth to Miss Su, and respected tea. It was already a face and a step for Su Mei. It was very interesting.

Su Meiyi looked at him and then looked at Shen Lang again.

She silently took the tea cup in front of the air, but she also sat down and put the cup on the coffee table, did not drink.

Just after the dark waves of tea, in her view, but she wants to show her a hand, let her secretly disdain, feel naive.

But this tea, she can not drink, because...

Just the attitude of a pair of elders, she was very upset, so after washing the cup, deliberately took some water to one of the cups!

Her hand is certainly not dirty, and doing so is a sigh of relief.

I didn't expect the sun, but did not drink tea, but sent the cup of tea to her!

At this moment, she regretted not having a cup of tea...

I don't know if Shen Lang is not selling to attract her, but God has observed her little movements, which is deliberately let her drink her own hand washing water!

“The ugly words are in front, this time just bring you in, you want to trade what you buy, you have to pay for it yourself, don't count on my teacher.”

Su Meiyi opened his mouth and his tone was still a bit rushing, directly blocking the road that Shen Lang might take advantage of.

She is clear about the resources of her teacher. If you really want to “borrow”, then you still have to borrow her head!

Shen Lang smiled and nodded: “Reassured, I will be a countryman, and I will see the world.”

“...”

Shen Lang directly put the gesture to the lowest, but let her have nothing to say.

“That’s it, people have seen it, Shibo, let’s go?” Su Meizhen turned to Wu Bowen.

Wu Bowen is a sigh of relief. He hopes to be closer to Shen Lang and see if he has any better medicine.

It is not just for Qingtian medicine, but he loves himself.

But look at the two young people who don’t deal with it, and then continue to swear.

“Shen, my brother, I will arrange a car to pick us up at the Tangyuan Garden in the evening. I have to eat it earlier. Would it be better to have it together? I made it unpleasant before, let me do it... Yes, what you let me do is already done. !”

What Shen Lang asked him to do was to give the money to the hotel owner who was involved in the hotel. Before the year, Wu Bowen responded to him.

Now, it’s just a little more topic.

“Thank you. Rice will go back and eat again! I am also prepared and take a break.” Shen Lang smiled and refused.

Wu Bowen was helpless and could only leave.

At the time of going out, Wu Bowen walked in front, and Su Meiyu was a little behind.

“You are the swell of the recent turmoil?”

Before Shen Lang did not introduce the identity with Wu Bowen, and later helped him deal with the matter, there is a way to stay in contact, it is simply to stay in the waves.

Wu Bowen is not a self-cultivator. He should not be very clear about the recent incident. He just said that he is called Shen Lang.

And this Su Meizhen, not only her father is a practitioner of refining pharmacists, she is also a comprehension.

“Don’t be afraid, I won’t eat people.” Shen Lang smiled lightly.

Su Meizhen gave him a blank eye and caught up with Wu Bowen.

“Ah, yes! Xiaosu, do you want to add a WeChat to Shen Laodi?” Wu Bowen suddenly stopped.

“I am old, and many of the contact methods are not familiar to you so it is convenient to contact.”

This is said to make Shen Lang and Su Meizhen are quite speechless.

Also said that it is not a blind date!

Ok, even if it’s not a blind date, is this a good introduction?

Although speechless, both people are generously adding WeChat.

Watching them go, Shen Lang’s thoughts were released.

For the time being, it is not a trap for him, but will Su Datong, who is not known later, a part of it?

If it is informed, Su Datong will certainly not let her daughter come. If you don't know, even if you can open him, he may not look for Wu Bowen, Wu Bo warm may not be early.

Unless it is bought Wu Bo warm!

At this time, the mobile phone sent a message, it is Su Meizhen.

Chapter 377 - Counting harvest

“You don't want to harm my teacher!”

Looking at the information sent by Su Meizhen, Shen Lang could not help but laugh.

She estimated that she began to know the name. She was suspicious. When she saw him sending tea in the air, she confirmed it.

When I left, I asked another question.

Now that this attitude is revealed, I don't want to be tired of Wu Bowen.

It seems that the two of them will not come to frame him.

“Oh.”

“Oh? Oh, what!”

This reply made Su Meizhen very dissatisfied. If it wasn't for Shi Bo, she would be screaming.

Shen Lang did not reply to her, but really made some preparations.

He has to count the materials he owns and which ones can be traded.

The items I had previously received in the Xie's underground secret room did not take care of them for the past two days. It was originally prepared to check the Tianshan Jianzong retreat.

For the sake of caution, he left the suite that had just been a visitor and returned to the suite in front.

In the underground secret room of Xie's house, Shen Lang took all the items in the safe and took away all of his brain.

It must have been classified and stored, but now it is mixed.

After some inventory, Shen Lang learned about Xie's reserves.

Compared with the Chu family, Xie's family is almost a grade, but there are no small differences.

Chu family has always been relatively high-profile, in addition to the character of Chu Mofeng, but also because of the mixed magic bullets and the magic boat two magic weapon!

The magic weapon is the treasure of the house in Chujia Town. Of course, it will not be invited.

However, Chu Mofeng collected materials and made some imitations. Although it is only a one-time use, it can also greatly protect the children of Chu.

The Chu family is also a generation of talented people. Chu Yuxiong has reached the peak of the virtual world, and many of them have reached the late stage of the virtual world.

The younger generation of Chu Yunlong is also about to break through and still in the late stage of the virtual world. Chu Yunfei also reached the early stage of the virtual environment shortly after returning from the death forest.

Their complete pyramid ladders, of course, are not all natural talents, and have a great relationship with training.

To put it simply, it is to select talents from the same group of people to cultivate.

This requires a lot of resources, drugs, Lingshi and so on, which is why they have to go to the dead forest.

Xie's family is a lot worse, although Xie Dao Ling can hold it, and there are a lot of differences between the middle and the bottom.

Training also needs to consider cost performance. Eight points, you can cast a lot of resources, six points to cast very much, but not twice as much can be achieved.

Because of this, the Xie family reserve that Shen Lang sees now is far better than the Chu family in Lingshi and Dan medicine!

They are all rich families, and they are not fighting for the day. This generation has no talent, just wait for the next generation, resources will not be wasted.

But this time, it is cheaper.

For Shen Lang, it is a pity that Xie's family has no magic weapon. The biggest gain is that they have more than 70 medium spirit stones and nearly a thousand elementary stones.

Plus the ten medium spirits that Xie Daolin gave him before, the harvest is nearly one hundred!

In terms of medicinal herbs, Shen Lang has no interest, mainly for the returning monks.

In addition, in terms of medicinal materials, there are quite a few harvests, which are some precious herbs with years.

In the dead forest, they found and guarded the millennial first yang ginseng for decades, even if they were exaggerated, and the time was long.

These herbs should be collected in the dead forest, or in the general medicine line for many years. The purpose is to wait for the millennium first yang ginseng to harvest, you can refine a batch of high-quality elixir!

Shen Lang looked at it, no matter whether he brought back the rest in the dead forest, but also Chu family, Xie family harvest, these herbs can be traded.

His own refining medicine can also be used, but to refine the high-level elixir, not only the medicine, Dan furnace, fire and other requirements are high, it takes too much time.

Those who are ready-made, but keep it first, maybe when it can be used to be human.

After finishing the package, he saw the mobile phone prompt message and checked it.

After he did not reply, Su Meijun sent a few more messages, warnings and even coercion, and wanted him to withdraw from this trade fair, so as not to get tired of Wu Bowen.

Seeing that he has not responded, she is leaving and looking for an excuse to come back!

Shen Lang thought about it and found that she really came out of the elevator and was coming over here.

He hesitated, decided to go see her, or else she was troubled.

At this time she was already in the hallway, passing through the door, it was not convenient to open the door.

Some hotels have a design balcony, and some floor-to-ceiling windows open the window. This hotel does not have a balcony and the floor to ceiling windows are fully enclosed.

Shen Lang wants to go to the balcony and it will not work.

He thought for a moment and sent a message in the past: "I went to the western restaurant of the hotel. No one in the room, come over!"

Su Meizhen from the outside corridor saw the information, which made her frown, but pressed the doorbell several times, there was no reaction inside, only to give up.

When she returned to the elevator and entered the elevator, Shen Lang opened the door.

"Forget it, I am coming back, you wait a little longer."

After this one sent out, I quickly received a voice: “Do you play me?”

Shen Lang walked to the elevator, waiting for her elevator to come back again, and then slowly walked back.

Su Mei came out to see his back and quickly chased it up.

“Kids! Don’t play tricks!”

Although Shen Lang is going back, she still feels that she has not just come from another elevator, but from the guest room.

“Let’s come back to me so soon? Think about me?”

Shen Lang raised his eyebrows and tweeted.

Su Meizhen snorted, just staring at him, not talking.

When I entered the living room of the original suite, Su Meizhen immediately worried!

“You have offended a lot of people now, and there will be a sensation when you appear. I am a singer of medicine, I don’t know the grievances of these rivers and lakes, you use him!”

“He is old, do you want to hang him? Are you conscience?”

“Then you are young, are you pitting?” Shen Lang smiled and motioned her to sit.

Su Meizhen is of course not interested in sitting: “You will tell him now Say you don’t want to go, have to go ahead. You come to Qingchuan City, the toll, hotel accommodation, etc., I can give you Reimbursed!”

She took out her cell phone and signaled that she would transfer money to Shen Lang.

With a wave of Shen Lang, he immediately covered a lot of herbs on the coffee table.

“Small Sue girl, let you see the world first, lest you be shameful at night.”

Su Meizhen was surprised to say that she couldn't speak. She also met the world. It was not a surprise to appear in the air, but Shen Lang actually had a lot of medicine.

“These I am going to sell, look at the face of Lao Wu, give priority to you to choose. You are young, you will not be uneasy and uneasy.” Shen Lang said with a smile.

Su Meiyi looked at him and knew that it was testing whether she had real knowledge.

She did not dare to despise, and carefully looked at it one by one.

Chapter 378 - You can't afford it!

Shen Lang originally wanted to tease her, but watching Su Meizhen soon became fascinated.

Just like the first time Wu Bowen saw the ginseng, it was really devoted to it. It was so serious that he was not ironic.

After a long time, Su Meizhen was sitting opposite the Shen Lang, the whole person was a bit stunned.

“These... I am not sure...”

Shen Lang dared to take out her test, of course, there is something a bit weight, but even with such psychological preparation, she still can not fully identify.

“I can only be more confident about these...”

She refers to the precious herbs collected by Xie's family, but if it is not sure, it is brought back from the dead forest.

“It's already good.” Shen Lang applauded gently.

Something brought back by the dead forest, she did not go there in person, there is no reference object, and it exceeds the common sense of the land of all parties. It is normal to be unsure.

Su Meizhen looked at the herbs and took a breath, then picked up a cup of tea in front of him and drank a large cup directly.

“These, we want to buy it!”

She seems to be drinking alcohol to give herself courage, but Shen Lang is a little sweaty.

The tea she had just brewed, and both of them left without drinking. Now that the tea is cold, she has just drunk most of it, the cup she had wanted to drink for Shen Lang.

“What’s wrong?” Seeing his look is different, Su Meiyi frowned and asked.

“Do you think I am kidding?”

“I was just thinking... Would you like to remind you...”

“What? Mother-in-law!”

“Well, you just drank the cup of tea that I had bubbled before.”

After Shen Lang finished speaking, Su Meizhen looked at it and realized that she had just had tea, otherwise it was purely an unconscious movement.

The cup of tea was added, but it was a little bit of hand washing water. It was cold and sweaty.

It was purely a psychological prank. Drinking it myself did not make her feel sick.

But it is fortunate!

Fortunately, I just took a little washing water, if I was thinking about spitting, even getting some water from the toilet...

“After we left, have you drunk?”

Su Meiyán’s face changed, and it was nothing. But if Shen Lang drank, the cup didn’t wash, she continued to drink, isn’t it...

“No.” Shen Lang smiled and shook his head.

His attitude made Su Meizhen more suspicious.

But she just paid attention to the medicine, and did not notice whether the tea was drunk.

“Speaking right, I said that I can take care of you first. But you may not know, these things... can refine the high-grade medicinal herbs, which are of great value, whether for personal use or for sale.”

“Of course I know! Hey? Do you know medicine?”

Su Meizhen was very surprised. Perhaps Shen Lang was giving her a big wicked impression before, but she did not expect to know it.

“That doesn’t matter. What I want to say is that the value is extraordinary. Apart from Dan and refining, it is very difficult. Raw materials are rare.”

“I understand, you can’t just say it is expensive?”

Su Meizhen couldn’t help but look at the eye, is it so elegant, isn’t it just wanting a big opening for the lion?

“So, this is not something you can decide.” Shen Lang beheaded.

“10 million! Packed for you.”

Su Meiyi waved his hand: "Sister can be the master!"

Shen Lang looked at her with a sly look: "Let's ask you about Shibo, how much money was used to help Qingtian Yaoxing, a medicinal herb in my hand."

"What do you mean? Ten million is still too little?" Su Meiyi frowned.

"You can't afford it!" Shen Lang raised his hand and put things together.

"Let's wait!"

Su Meizhen hurriedly stopped, and then carefully observed it again.

She gave a sigh of relief and gave him a deep look. "I contacted Shibo!"

Shen Lang nodded and collected all the herbs.

Contacting Wu Bowen, just let him prove the value. If this business is to be done, it will be decided by Su Datong.

Even if Su Meijun has a lot of authority, he can mobilize tens of millions and hundreds of millions of funds, and Shen Lang does not need money.

In the beginning, Shen Lang needed money. But after a certain amount of use, the value of secular money is not great.

For example, Lingshi, the first class of Lingshi, a million will not be sold, according to this calculation, the medium Lingshi 100 million is also worth, then he is the value of tens of billions.

If the money is bought, some families with large secular industries will pay for it. Just like the Yue family, after being deprived of the qualification of the Tomb of the King, it is to make a fortune and not to buy resources.

Of course, on the other hand, it is necessary to sell a medium-spirited stone of one billion yuan to the rich, and others will feel neuropathy.

But in general, Lingshi is easy to exchange money, and money is difficult to change.

Shen Lang has not been exposed to Su Datong, but from Wu Bowen's view of Qingtian Medicine, it is estimated that they will not have the good things he needs.

Those herbs, it is best to change the Lingshi, more Lingshi, to choose space more tonight.

Su Meizhen is going to the bathroom to close the door and call Wu Bowen. In the face of Shen Lang, it is not easy to ask the price.

But she also knows that this is a psychological effect. With the strength of Shen Lang, you must hear it.

“Shi Bo listened... very excited, come over soon.”

After Su Meizhen came back, she looked at Shen Lang again, with a little more surprise and mystery, and her tone was not so rushed.

This piece is the most prosperous part of Qingchuan City. The scenery along the Yangtze River is also good. Many luxury hotels are here for summer vacation.

They are not far from each other, and Wu Bowen will not be able to use it for a long time.

But I can't come over again. Before Wu Bowen came over, they were a bit cold.

“You... can you show me another?”

Su Meizhen is not only looking for words, but also really wants to look more, add a little experience, and later can discuss with Shi Bo.

Shen Lang looked at her, did not speak, seemed to be thinking.

Su Mei wrinkled her frown, and immediately went to wash the glass of water, and then gave him a cup of tea, and soon came to him.

Although it is not willing, but this time there is a demand for people, at least the attitude is already much better than just now.

Shen Lang re-ingested the medicine I don't want to show it to you, you are not sure if you look at it, the level is not enough! ”

Su Meizhen was still very confident. I feel that those who are not sure are likely to be artificially pretending to be good.

The change in her attitude is because there are still many good medicines. However, after contacting with Wu Bowen, he realized that he was just a few million in the past, and he was in desperate need of money.

“Or... you introduce it? You also need to recommend yourself for selling things.”

Shen Lang shook his head: “I don't want to boast about selling melons? This sells people who are close friends, who don't know the goods, and don't buy them.”

“You, you...who are you talking about?” Su Meiqi almost jumped up.

Her attitude has been put down very low, but this guy is not reasonable, a pair of high-profile people look at the white.

Also use “coward” to describe her! It's just...

Chapter 379 - Offer price of 500 million

Shen Lang looked at her and asked a question.

“Will a lady jump up and down like this? You have to come up with the ability to know the goods.”

“How can I not do it?”

Shen Lang closed her eyes and was too lazy to talk to her.

Su Meizhen was depressed for a while. If he continued to quarrel with Shen Lang, wouldn't he respond to his "coward"?

Her temper began to study again, and she sneaked her eyes and took photos and videos on her mobile phone.

She was sure to sweep through the simple, the focus was that she was not sure, and sent it to her father.

"If you want to shoot a bright shot, you are not forbidden. Do you need to sneak?"

The sudden opening of Shen Lang made the Su Mei, who was in the low-hair figure, startled.

"Who is sneaking? You didn't say no to shoot!"

Shen Lang allowed her to take pictures and send them to others, that is, to pass the information of these herbs to Su Datong!

Wu Bowen's eyesight is no problem, but there is limited contact for understanding the resources of comprehension.

Besides, even if he is accurate, he must give the price. The real target for sales is Su Datong.

"Hey? You are not sleeping? You didn't secretly look at me, how do you know that I took pictures?"

Shen Lang directly leaned on the sofa, too lazy to pay attention to him.

Although they have dispelled most of their doubts after going back and forth, he is still cautious first.

At this time, I closed my eyes and raised my spirits. I used the gods to cover the entire hotel directly. If there are unusual people coming below, I can find them in the first place.

If the river is attacked remotely from the other side, it can be found in advance and avoided.

Although this possibility is very embarrassing, what if someone used a cannonball?

Su Mei snorted and felt that Shen Lang was deliberately dressed up in front of her, and did not care for him, and continued to study those herbs.

It didn't take long for Wu Bowen to come over.

When Shen Lang knew that he was in the lobby, he ran trot, and in the elevator, he was also uneasy.

“Go open the door, your teacher is coming.”

Su Meijun listened to this and looked at him.

“You are the master, shouldn't you be the one to open?”

But Shen Lang didn't return to her again, which made her look a bit.

In any case, Wu Bowen is her teacher, and she is not arrogant with Shen Lang.

When she went to open the door, Wu Bowen was coming quickly.

“Shi Bo...”

Wu Bowen just promised, and did not care to see her, and rushed in directly.

After coming in, I didn't say hello to Shen Lang, and I stared at the herbs and identified them.

Shen Lang opened his eyes and looked at him. He did not think that he was rude. Instead, he appreciated the little old man.

This is the realm of reaching the idiot!

It is worthy of recognition and praise that a person can really be obsessed with professionalism and forget others.

Su Meizhen closed the door and looked at it.

She has seen the medicinal herbs many times. Now it is to see Wu Bowen's expression more than seeing the medicinal materials. Through his reaction, she confirms her analysis.

It turned out that Wu Bowen did not care too much about the rare herbs that she was sure of, but more thoughts were used on those she was not sure.

She couldn't help but sigh, it seems that this wave is not a swindle, these are really good things!

What is the result of Shi Bo's identification? She doesn't care about it for a while, and naturally has results after a while.

The problem is, if these are rare herbs and the years are long, then the value is great!

She looked at the phone and just gave feedback on past pictures and videos. Her father had already seen it and immediately returned her information.

"Let your posture be lowered, don't offend people! Everything is left to your teacher to decide, he hesitated, contact me immediately."

For his father's jealousy, Su Mei frowned.

What is this? Why do you say that I will offend people?

Looking at the old **** is drinking tea, she immediately changed her mind.

It must be that Dad knows that this guy has a bad temper!

“Shen, brother, you are really a god!”

After seriously reading it, Wu Bowen seemed to have spent the same effort to sit down and sigh.

Shen Lang faint smile: “Qingtian medicine line temple is small, you are a big god, where it has been for a long time, it also limits your horizons.”

Su Meizhen also blindly turned his eyes, this guy is very vocal, actually said that Qingtian Medicine Temple is small! Actually said that the teacher’s eye is limited!

“You are right.” Wu Bowen was a little emotional.

“Shi Bo!” Su Meizhen thinks that Shi Bo is too good to talk about it? This is going to follow him?

“I will always be in Qingtian Medicine. On the one hand, their bosses have the right to know me. On the other hand, they have more resources.”

“How much more! Don’t look at Qingtian Pharmacy is not famous, but they control a large number of pharmaceutical, pharmacy and medicinal materials bases. Some people are laymen...”

“Small Su!” Wu Bowen interrupted the show of Su Meizhen.

“The Shen brothers are very interesting, and I am very fond of you, but there are rules and regulations.”

Maybe I have never said her before, and I heard it in Su Meizhen. This is a bit heavy, biting my lip.

“Sir, Mr. Sorry!”

She was full of grievances and apologies. She did not expect that Shen Lang only waved her hand. It seems that she was not offended, and she did not care about her reaction!

“As Xiaosu said, they have an industry chain from start to finish.”

“I can get in touch with the medicinal materials I planted, combined with modern scientific research, clinical trials, etc., and the treasures I have acquired from all over the world... can help me a lot.”

“It is also that they have made me a national player.”

“Oh, I don’t care about the vanity of the famous doctor, but it is really convenient for me to have this head.”

Listening to his explanation, Shen Lang nodded: “For example, this trade fair, if there is no prestigious qualifications, it is probably not enough for the brothers.”

“Yes!” Wu Bo warmed and nodded.

When Shen Lang met for the first time, he tore up his famous qualifications. He did not dare to rely on any old sellers.

Su Meizhen is very unwilling, this is her teacher! Shi Bodu this attitude, she can not be lower posture?

“Haha, my careful thoughts will definitely not escape your eyes. Being able to see so many good things at one time has already made me dream. If I can study further, I can say that there is no regret in this life.”

Shen Lang pointed out: “I believe she has already told you about it I am willing to give up, give priority to you, and it is impossible to find a chance tonight.”

Wu Bowen’s eyes are shining again.

“I am not representing Qingtian medicine for this time. I will take the lead for my younger brother – five hundred million!”

With the experience of the first transaction, Wu Bowen’s offer price is obviously more reliable, which is the largest price of medicine he has purchased.

Su Meizhen heard this and could not help but tremble.

Five hundred million!

Not to mention that the father did not give this money, just more than her offer, increased to fifty times!

So much money?

Shen Lang smiled a little: “You still discuss it with your younger brother!”

Su Meizhen once again trembled, this guy is still not satisfied with the look?

Chapter 380 - Deal! Shape

Wu Bowen has already opened a sky-high price, but Shen Lang is still this attitude, and he is also taken aback.

“Yes.” He gave a serious reply.

Su Meizhen saw that he wanted to take the phone, busy dialing his own phone call, and then handed it over.

Wu Bowen smiled at Shen Langqi, then took the phone to the bedroom and closed the door.

“Kid, don’t be greedy! That’s 500 million! It’s already dozens of times the price I opened. How much do you want?”

For Su Mei’s whispered warning, Shen Lang shook his head and ignored her.

Su Mei was too angry to speak, and simply waited for it to change.

She doesn't believe that Dad will judge that the value is not worth it. Even if it is the best thing, it can't be seen if people like to sit on the ground.

Soon Wu Bowen came back and returned the phone to Su Meijun.

“Shen brother, can you see this?”

Wu Bowen pulled out a flannel bag that was close to the body and opened it on the coffee table.

Shen Lang looked at it, it is ten medium Lingshi.

He did not have any opinions on 500 million just now. The psychological price is not too high. After all, these are the medicines that he does not see.

The key he wants is Lingshi, which will let Wu Bowen and Su Datong discuss.

Su Datong can give ten medium Lingshi, he is already very satisfied. The Chu family came down from generation to generation, and the reserve was only about 50.

“In addition to these ... plus 100 million in cash?” Wu Bowen saw that he did not immediately agree, added another sentence.

Su Meizhen looked around and couldn't help but screamed.

“No! These are very precious Lingshi, my dad is not much! Give so many Lingshi, but also a billion? Grab!”

Shen Lang smiled and said: “The deal. These are my hands, the medicine is yours. Cash! Even if it is.”

Wu Bowen heard him promise, and the heart that had been hung was dropped.

“Haha, the last time it was Wang Jun, the little boy came here. This time it was traded for my younger brother. He has the ability and financial resources. Of course, he will not do anything about money. This one hundred million is to make friends. ”

Anyway, it is not his money, this is the price that Su Datong can make concessions, so he is also very generous.

Su Meizhen was amazed and anxious.

Surprisingly, Shen Lang actually gave up one hundred million in cash!

One hundred million, this is not a small number. How can anyone who regards money as dirt?

To be honest, ten medium-spirited stones, in her value system, have not had a big cash shock.

Anxious is that Shen Lang said that it is not necessary, Shi Bo actually sent a hundred million!

If the father did not trust the teacher, she really wondered if she would confess her father with Shen Lang.

She is entangled in money, and Shen Lang understands the purpose of Wu Bowen and Su Datong.

Such precious herbs are very rare, and the people they get will be collected. They want him to get it later and sell it to them.

“We are already friends. Next time, we will give you priority.”

When I heard Shen Lang say this, Wu Bowen was relieved. “That’s really thank you!”

“Haha, I really want you 100 million, a friend has to jump.” Shen Lang made a joke.

Su Meizhen gave him a look at the side.

She can rest assured that she can save one hundred million. However, I was afraid that I would ask for it, and I would not dare to argue with him again.

In her heart, I feel that this swell is a weirdo, and it is understandable that there is a need to receive only the Lingshi. But a hundred million!

How can a detached mentality be given by a hundred million?

“You made me look a bit stunned.” Su Meizhen said seriously.

“I am honored!” Shen Lang returned a sentence and said to Wu Bowen: “How do you take it away?”

Wu Bowen screamed again: “That... I am an ordinary person. Although Xiaosu is very powerful, it is a girl. There are many people coming to the fair...”

“Nothing, I can take it first. You can arrange a reliable person to pick it up!”

Shen Lang raised his hand and collected all the herbs.

“I will contact Su Shidi later, let him arrange for someone to come over immediately. This is your first move!”

Wu Bowen stuffed the bag of Lingshi into the hands of Shen Lang, fearing that he would sell the herbs separately this evening.

“...” Su Meizhen opened his mouth next to him.

“You are not afraid that I will take it when I take it? Let you have both goods and goods?” Shen Lang seems to laugh and laugh.

Wu Bowen said naturally: “I believe that the Shen brothers are not such people. Besides, with your ability, I really want to rob me, we can't stop it.”

Su Meizhen still drums in her heart: Shi Bo, Shi Bo! You have seen this person twice, how can you trust unconditionally?

“So you are at ease?” Shen Lang collected the Lingshi.

When I met for the first time, Shen Lang took the ginseng out and used it in a convenient bag.

Now that there are so many herbs, it's gone straight, so Wu Bowen is even more amazing.

Then Wu Bowen left with Su Meizhen, and he would contact Su Datong to meet.

Shen Lang has recently used hundreds of medium-sized Lingshi, which is quite a bit rich and financial.

Now I look at so many rare medicinal materials, all of which are self-cultivating resources, and only change to ten medium-spirited stones, so that he can re-recognize the value and incompetence of Lingshi.

Wait until the evening, Su Meizhen found it again, let Shen Lang go to Tangyuan together.

After the hotel came down, there was already a luxury commercial car waiting, the window glass was filmed, and the inside could not be seen clearly.

After getting on the bus, Wu Bowen was already inside, let them all sit behind.

In this case, even from the front, you can only see the driver.

Then I took the cloak that had already been prepared, and the three were put together.

“After wearing this again, everyone will really be anonymous.”

Shen Lang took a look at it, it was a black mask, only showing his eyes and covering his face.

After all three people were replaced, they were covered up. At first glance, there was only a difference between tall and thin, and even men and women could listen to each other to recognize.

“This is the unified preparation of Tangyuan. Everyone is the same, which increases the difficulty of distinguishing.”

Wu Bowen explained it again and then let the driver drive.

The driver did not say much, but apparently not the car rented but the person they can trust.

Bypassing the Qingchuan Bridge, from the other side of the river, to the Tangyuan.

At the gate of Tangyuan, there were already many security guards. After verifying the invitation, the car was allowed to drive in, but the parking lot was designated.

After parking, the driver refused to let the passengers with the invitation, and then the battery car was taken in.

After arriving here, don't say Su Meizhen, it is Shen Lang also looked around and looked forward to it.

Sure enough, in addition to the staff, the guests were all ***** cloaks with hoods and black masks on their faces. Can not see the appearance of identity, this shape also allows everyone to avoid communication.

“Which is anonymous, it is like a secret gathering of evil sects...”

Su Mei can't help but whisper.

“Hey! Don't talk indiscriminately, all the people here are high people.” Wu Bo warmly reminded him.
