

First Strong 411

Chapter 411 -

Highly separated and praised, it was very opposed to Shen Lang to share the secret map of Gao Zu Shi.

Only one is completely convinced of Shen Lang, another power without interference can only be expressed with eyes and expressions.

But just for a while, let them see the magic of Shen Lang!

Up to now, nothing has been paid, and it has sold 500 medium-spirited stones!

The last time Shen Lang gave them 50 medium spirits, they have already shocked them, and now it is ten times the harvest, which can make the Jianzong reserve for a long time.

At this time, there are two opinions, but there is no opinion. It is worried that when Shen Lang can't get the real secret picture, it will push the Tianshan Jianzong to the opposite of everyone!

It's so cool to make it, it's bad to lose it!

In order to support the scenes in the dark waves, Gao Li has not exaggerated a realm and has not corrected it.

There are ten places left, one will have fifty medium spirits, which shocked the audience.

However, everyone is also wise. "The rapist" has conditions to open it, and they also have countermeasures.

A channel can only be transmitted once, but it seems that there are no restrictions on how many people, as long as it is not too large, more than a few should be no problem.

Now the family wants 50 medium-spirited stones, and does not say that it is not worth giving, and it is very painful to give up. But when the two are combined, is it not twenty-five?

Twenty-five was originally a price that made them feel painful, that is, twenty is difficult to accept.

But after a group of people bought 30, and now the price rise to 50, then twenty-five becomes a cheaper thing.

So soon, the relationship was good and they were united. The two companies invested in a quota.

For such behavior, Shen Lang is in the eyes, but does not care, this business is worth to go out, or else the price of one hundred is equal to zero.

This time it took a little longer, but it still got ten places.

In this way, it is equivalent to selling forty family sects. Basically, it is basically half. The rest will not be sold except for the Promise Gate. Others will really not be able to get the money, or hold the luck.

Others are also looking at their operations, which is cheaper than the second batch, but the second batch is not too concerned.

After all, a channel is transmitted to one place, and twice as many people are theoretically less likely to get resources.

And if there is really something good against the sky, it is twice as dangerous!

So even if it is cheaper than five Lingshi, it is impossible to compare with them.

Not to mention the time is in order, they will still be in front.

After completing the transaction, Shen Lang will harvest a thousand medium spirit stones. If converted into elementary Lingshi, it will be 100,000!

These lights are thought out and have already made many people blush.

Needless to say, I know that many people are going to fight the idea of sinking waves. If you kill him, don't say how much it is. The thousand spirits of light are much bigger than the harvest of Qiangjialing!

Shen Lang reveals the information that breaks through the peaks of the real world. It is this role. Even if everyone has the heart, they dare not act.

Grab is a rush to grab, and forty, I bought it. Now I can only hope that Shen Lang really has the secret picture of the cold autumn, which will allow them to enter successfully.

Otherwise, even if you return to Lingshi, plus more than half of the compensation, it is still uncomfortable.

Ximen Feng and Miao Zan, who have enmity with Shen Lang, are dismantling them around, saying that Shen Lang must be deceiving them.

They even said that the Tianshan Jianzong was deceived by Shen Lang. It has never been heard that Shen Lang was the Tianshan Jianzong. Everyone can know that he came from the small place Pingxi Li Cao County.

These words are of course also confusing a lot of people, but only those who have not bought, I hope that everyone can not get.

And bought, of course, don't listen to these.

Originally, Shen Lang came late, after such a toss, it was noon.

Everyone is waiting for the appearance of Qiangjialing. The specific points and the location, in fact, there is no spectrum.

Now this place and time are also derived from comprehensive experience.

However, most of the people bought the "admission ticket" of Shen Lang, not so embarrassed, how much is a little hope.

Just when everyone was looking forward to it, the valley suddenly changed!

Suddenly the landslides cracked, and the whole valley seemed to open its mouth!

Everyone rushed over to the top of the mountain to avoid an accident.

But finally I saw the “miracle” appearing, everyone is very excited, like a huge treasure, just beckoning with everyone.

In addition to going above, there are also masters who are self-sufficient and fly to the sky above the valley, wanting to see the specific changes more clearly.

Shen Lang took them to the top of the mountain.

He commanded to look for some stones and then closed his eyes.

All the monks present, on the one hand, looked at the huge changes in the valley below, on the other hand, watching the waves, don't let him run!

Seeing that he closed his eyes and meditating, although he felt weird, he did not say anything.

The first batch of people who bought, like Zhou Jia, are all close to Shenlang. In addition to fearing that he ran, he also wanted to get the top spot.

Finally, after a few minutes of landslides, the giant changes in the valley stopped.

What appeared immediately was a lot of dust.

There is also a strong man in the sky, but also shot together, cast wind system spells, blowing all the dust in the direction of the valley.

The valley of “opening a big mouth” appeared in front of everyone.

Sure enough, as legend has it, in the huge cracks, there are dense caves, which are close to the hillside, and the bottom of the valley is directly deep.

Just looking at the past from the top, including using the gods to detect, are not in the end, obviously not a short distance.

Everyone is secretly laughing, which is why it is impossible to explore them one by one with exhaustive methods!

When you come to the end is a dead end and then return, time is a lot of delay.

“Shen Lang! Can you?”

“Can you enter?”

“Do you want him, don’t hang us!”

The scene immediately became awkward, and everyone wanted to grab advanced.

“Quiet! Don’t bother Master Shen!” Several sorts were immediately sneaked at .

They are the first to enter, but they are the first to take the lead, but there is also the risk of eating crabs first! If the secret map of Shen Lang is not right, they will be pitted!

Shen Lang entered the state from the very beginning, while the gods sensed the shape of the cracked valley, and used the secret map branded in the mind to correspond.

At this time, I don’t need him to tell him. Desolation will naturally bring Dorothy to protect him, and Gao Li will also take a good job.

Therefore, he is fully devoted to it. When the dust settles outside, he is constantly adjusting and has a rough accuracy.

“Go! Go ahead to the advanced! The fool is waiting for the secret picture of the ***** stick!”

Seeing that Shen Lang did not move, the West Gate was so cool, and screamed, and the first step was taken with the Promise Gate.

Those who have not bought, are also the same mind, grasp the speed and explore a few more ways!

Chapter 412 - Fog world

Other flowers and spirits, are anxiously surrounded by the waves.

Although there are thousands of cave passages, what if everyone else is lucky?

The reality scene, and the secret scenes remembered by Shen Lang, are still different. Even if they are roughly right, they need to be fine-tuned carefully. Otherwise, there may be a slight deviation. There may be several or even dozens of caves. route.

Looking at a large number of people going down, many of them disappeared into the cave, so that everyone can not help but smash the waves.

After all, everyone is worth a lot of money, can not let a ***** stick to the pit!

Gao Li can only stand up and stay in the audience, so as not to cause people to hit the waves.

Finally, after those people disappeared, when everyone was jealous, Shen Lang completed the final fine-tuning.

Shen Lang reached out and said, “Stone!”

Although he did not understand it, he quickly handed over the stone he had prepared.

“First, get ready, follow the stone!”

Shen Lang fiercely opened his eyes, took the stone, and quickly threw it out.

Zhou Jia had already been ready, and when he heard this, he immediately flew out with the stone.

After they left, Shen Lang followed the second stone!

It was quiet, and the anxiety became excitement.

In order to have greater confidence, Shen Lang gave them a choice, separated by a little distance, to avoid adjacent errors.

When a family flew out of the stone, there was no turn behind. When they first entered the cave, someone came out and started looking for other caves.

It's not that simple to see luck, they are psychologically balanced.

Shen Lang went all the way, guiding all 30 into the cave.

When the last one entered, the first Zhou Yumin had not returned, and it is estimated that they should have gone in.

“Let's go!”

At this point, there are still some people left on the mountain, but basically they are young disciples who come to see the world.

They can only look at others when they are envious, but they can come to visit, which is also of historical value and significance.

The situation of the opening of the Qiangjialing, how long it took, how it was closed, how the people who came in came out, etc. These were all recorded.

Shen Lang, their team of five people, can not be regarded as the last team to enter.

Because the previous trials took chances, after the dead road, they came back and re-elected.

In fact, there is no way to solve the problem of Shen Lang. It can only be regarded as a channel, but it is not certain that it is the best.

The specifics will be transmitted to the ancient ruins, and there will be some gains. It is still to look at luck.

Before going in, Gao Li thought about whether or not to leave the praise.

In addition to recording this historical observation, it is also because the praise is the successor of the sovereign. Now that Zun Zun has already done this, it is very troublesome to re-cultivate if he dies in it.

But think again, if he and Shen Lang are both fallen inside, it is already a heavy blow to the Tianshan Jianzong, and there is nothing to enhance with the praise.

Besides, the original Shen Lang let him come, is to give him the opportunity to exercise.

In the thousands of caves, the one they chose was directly deep below, and it was all black and black. After a while, they walked on the ground.

The weakest tribute among the five people also has the realm of illusory peaks. Of course, it will not break the foot or something.

However, after arriving here, the cave mouth above the top of the head is no longer visible, and there are no fingers around.

Just as the high disclaimer praised that there was no lighting fixture, Shen Lang took out the illuminating ore that was originally made in the Ice Palace.

He walked directly in front, the cave is not very big, but one person is still no problem.

After walking for a while, there was a light in front.

Shen Lang stopped and waited for them to come behind, and then said: "Come together, be fast!"

After that, he took the lead and rushed to the front.

All four of them were unconditionally obeying the arrangement of Shen Lang. He said that Chong would rush along with him.

When they rushed over, they discovered that this was not the light source of the exit, but gave them a wonderful feeling, and then found that the body had been placed in another completely different place.

“This is... inside the Thousand Caves?” Yang Yang issued a question.

Others are also curious to observe that the place where they are now is a gray world, as if the fog is serious, and the visibility is very low.

The specific place where they stood was on a hillside.

“Yes.” Desolation said softly.

Shen Lang noticed that her eyes revealed a trace of embarrassment, it seems that her past life has come to Qiangjialing.

“Where are we coming... can we go back here?” Gao asked a question of more concern.

It used to be at the end of the cave. Now it is an empty hillside, and there is no way to send it out. It can even say nothing.

Shen Lang nodded: “There is a place to go out, but not here.”

Dorothy can't plug in, just curious to watch.

Shen Lang looked at the bleak: “Do you know where you can go out?”

The look of the bleak look at Shen Lang is also very meaningful.

For Shen Lang, she could not see him completely. His whole person was mysterious and seemed to know everything.

“It is said that... if you want to leave, you have to find the temple first, and there will be a transmission array in the temple.”

“Temple?” Gao was a little surprised.

Shen Lang smiled and nodded. Nothing was said in the public. “Then we will look for it. There is nothing near here. See if we can find a temple that no one has visited!”

Seeing that Shen Lang actually listened to the bleak advice, it was very curious to let Gao Li, but he did not ask much.

After coming in, Shen Lang did not have a map. Now he can only choose one direction, and then five people start to hurry.

It is not blind to hurry will search for search along the way to see if there are any good resources.

However, from the perspective of the environment here, it is not like a place where you can breed the treasures of heaven and earth, more like the relics of the predecessors.

There is no such thing as the orientation of the southeast and northwest. They have followed the direction of more than an hour at a relatively fast pace. There is a city in front!

This gray world has greatly reduced the visibility of the line of sight. When it was discovered, the distance was not too far.

“Go in and have a look! There is a city, there may be a temple inside.”

Desolation gave a suggestion, not only Shen Lang nodded, and it was meaningless to leave them.

They have been walking for so long, they have not seen a living thing, nor have they seen a plant!

This mysterious place is a bit embarrassing, or first find the way to leave and say.

Chapter 413 - Empty city

“Everyone is careful.”

When I came to the city, Gao Gao whispered a word.

Although it seems that Shen Lang and Desolation are more aware of this, after all, the scene is his oldest.

It can be seen clearly recently. The city wall has been mottled. I don't know how many years it is. The gate is also open, and the inside is gray.

And the silence of the outdoors and the silence of this city give people a different feeling.

There is no quietness of living things along the way, and everyone feels okay, but the silence of such a city is related to the scenes of horror movies and spiritual stories.

Shen Lang took the lead and walked in.

Gao Li let the two girls first catch up, he and praise the temple.

“Do you think...”

Dorothy whispered a word, seeing everyone's eyes looked over and shook his head again.

“What did you feel?” Shen Lang asked.

Dorothy shook her head a little awkwardly: “I feel that after coming in, I feel a bit wrong. I can't say anything...”

Everyone didn't care, not just her, they also felt this way.

However, it is caused by the particularity of this environment. It may not be true that something is wrong.

“Let’s go! There won’t be anything here.”

Shen Lang said, take them along the streets of the city.

“This is an ancient ruins. It is because of the numerous caves at the entrance that the name of the Qiangjialing is there. Actually, there is nothing to do with the Qiangjialing.”

“The city doesn’t know if any ancestors have come in. If not, then maybe we can find something.”

Shen Lang introduced them to the situation of Qiangjialing.

After they walked for hundreds of meters, they saw that the buildings on the side of the road did not lock the door, some were open, some were half hidden, and everything looked strange.

“Go in and see.” Shen Lang casually entered a building.

Outside is a layer of gray fog, entering the house, naturally more dim, and the waves are lifting the glowing ore.

“This should have been searched, and there will be no gains.”

I looked at it with a sigh of relief and immediately judged it.

Many things in the house have been traced, and there is a lot of dust. It is obvious that someone searched it a long time ago.

They circled inside, and there was really no gain other than feeling sinister.

Of course, if you are interested, if you move some furniture back, you can sell it by antiques!

After they came out, they didn't waste time going into other buildings and continued to go deep into the city.

When I basically went to the city, I saw a tall building.

"Will it be a temple?" Yang Yang couldn't help but get excited.

This building is taller than the buildings in the city you see all the way. There are five floors in total. And as you approached you can see that there is a river surrounded by four.

"No." Shake his head.

"According to the architectural pattern, we are entering the outer city, and this circle is surrounded by the inner city."

She reminded me that everyone except Dorothy understood.

This surrounding river is not natural, it is a man-made moat, and of course it is this inner city.

This inner city is not big, it is this building. It is estimated that the person who lived in the original is the character of the lord on this seal.

But what exactly is this, or what it used to be, it doesn't make sense to look at it now. Both the city owner and the civilians have turned into years of powder.

A few meters of moats in this area, and simple guardrails across the river, for them, are nothing at all.

"Come on, come on, check it out!"

After Shen Lang finished, he took the lead and leapt to the past and went directly to the main entrance of the building.

The four of them quickly followed.

The building that looks “short” outside, actually goes in and looks very wide. The first floor is basically empty, and everything has been removed.

“Would you like to go up?” Desolate asked.

“Go up!”

Shen Lang nodded, they all know that this building is once the capital of the city, and has nothing to do with the temple.

“It’s better to go out from the outside?” Desolate suggested.

Shen Lang thought for a moment, “Alright.”

Dorothy looked at both of them with a big eye. I always felt that “Miss Zheng” seemed to have changed a person for the past two days. Not only did she become very calm, but she seemed very sure about everything.

And it seems to be very tacit with the owner, just as if it is playing a riddle.

Just coming out, Sheng Yang is preparing to go up first, lest anything should be done by the elders personally.

At this time, Gao said to the opening.

“Come out! Ghosts are interesting? There is no living thing here, when you are dead, or when we can’t find anything?”

Gao Li was so surprised that he was shocked.

Because he is the weakest, in addition to relying on everyone, it is also extra care, no matter where you go, it is highly alert. Including here also try to find out if anyone is there, but there is no awareness.

After listening to the elders, Shen Elder and the other two beautiful women were not surprised.

He only understood this, everyone knows the feelings, he did not notice!

Is it true that Zheng Zheng will say that she is going up from the outside, obviously it is found that someone is lying on it.

After hearing the high leave, after the end of the fifth floor, a group of people came out.

“It turned out to be a friend of Tianshan Jianzong. We thought it was a ghost or something that was scared to hide. No malice!”

The one who spoke is the master of Xuan Lingzong.

They are second only to the Zhou family and will appear here, not surprising.

“Since you come early, this city is yours, we are not strong.”

Shen Lang certainly found them. He deliberately came here, and he also deliberately went up, that is, he is ready to count!

If they go up the stairs all the way and encounter the ambush of Xuan Lingzong on it, then he is welcome.

Desolation was the discovery of an ambush, so I proposed to go up and fly from the outside.

Then it is high and direct to break. It seems to avoid the ambush, in fact, in the view of Shen Lang, it is to save their lives!

“Master Shen has seen the outside, this city is not ours, we just sent it here. Just checked it out, empty city, nothing.”

Such a city, they first go to at least an hour, can search for it.

Xuan Lingzong does not want to be misunderstood. They have great gains. In such an environment, making a fortune must also be muffled, showing off the harvest meeting very early.

Shen Lang said the truth, and his explanation is also smiling. In fact, before they entered a building casually, they found it was empty. I believe that Xuan Lingzong did not have a complete search, and found nothing without wasting energy.

“Yeah. Good luck to you!”

When Shen Lang took a sentence, he would leave with others.

“Wait a minute!” Master Xuan Lingzong stopped at the top and jumped directly.

Chapter 414 - Get the road

“Master Shen, I have a question I want to ask.” The master of Xuan Lingzong came over quickly and arched his hand.

“We were transferred to this city, but there is no transfer method to go back. I don’t know how we will go back then?”

“Looking for a place to go out.” Shen Lang smiled and answered him.

But this answer is equal to nonsense! The question is how to find the exit.

“That also asked Master Shen to give pointers, where can I go out?”

Shen Lang shook his head: “I said that you bought my service, I should provide after-sales service, but you are buying the opportunity to enter, I have successfully let everyone in, should it be finished?”

“What do you mean... We want to go out and pay another stone to you?” His expression changed.

The other people of Xuan Lingzong did not come down, but here they are so dead, they can also hear their dialogue.

However, the strength of Xuan Lingzong can not be hard, they do not dare to mess.

Shen Lang smiled. “When I come in, time is limited, so I can sell secret pictures. But if I go out, everyone will have more time. I suggest that you search for exports!”

Then he pointed to everyone: “The place we sent is far from here, not all the way.”

This sounds like they are for them, but the master of Xuan Lingzong is unacceptable.

Now they are all coming in, proving that the secret map of Shen Lang is really there. He has the secret picture of coming in, and believes that there are ways to go out.

“How much do you want... After paying twenty, we don’t have much left. Can you pay after going back?” He had to bow his head.

Shen Lang looked at him and shook his head: “To be honest! It is the opportunity to open the Thousand Grottoes, but if we go out, even if we can find the transmission array, it will cost Lingshi.”

“Time is still there, come on, look for it! Maybe you can find a bunch of resources.”

If this is done, the master of Xuan Lingzong can’t stand it.

Just as Shen Lang was about to turn and leave, he slammed down!

This behavior does not say that Shen Lang was shocked, but the high-altitude person next to him was also surprised.

“Master!” “Uncle Shi!”

Behind him came the sound of calling, although there was his embarrassment, but the other Xuan Lingzong all leaped down and rushed behind him.

“Even if I come in nothing, I can’t break them all here, or else our Xuan Lingzong will be hurt. I still hope that Master Shen will pity!”

He is a young man, even if he seems to be sixty or seventy years old, so he is in front of a 20-year-old. As a master of the real world, it is really a fight.

In the experience of Shen Lang’s previous life, there is absolutely no burden to want to take a hard-hearted rejection.

But now, in the high separation and praise of the Tianshan Jianzong, as well as Dorothy and the bleak face, he still has to take care of the impressions of the people around him.

“Get up!”

Shen Lang reached out and waved the master of Xuan Lingzong.

“The transmission method will be in a temple-style building.”

“Temple? Thank you Master Shen!” The master of Xuan Lingzong was surprised and thanked.

This is no longer able to reduce twenty stones, but to save the lives of myself and several others.

After thanking him, he wants to stop and ask, and he wants to ask where the temple will be.

“Don’t ask me where there is a temple, you can’t go straight, or look for resources.”

“What you said makes sense, thank you very much. If there is a chance, my mysterious spirit will definitely return.” The master once again took a trip.

“Give you a back road!” Shen Lang sighed.

“Go out from the gate of this city, in the direction of the left hand, keep walking and go, I don’t know how far, there will be a temple. Remember the position, if you can’t find other temples, you can finally try it in the past.”

“Thank you! Thank you!”

The master’s semi-suspended heart finally fell, and this really gave a way back.

However, in this foggy world, there is no other way to use it. It is not easy to maintain a sense of direction. How do they search later, remember that this direction can not be messed up.

After that, Shen Lang took them to leave the city.

“Ugh.....”

Looking at the city behind the fog disappeared, Gao Li gave a sigh.

“This is the reason why our swordsman did not intend to participate. This is a great opportunity, but the opportunity is still a crisis, it is difficult to say. Safety first!”

Desolation is a thoughtful look at the waves, but she did not ask the doubts in her heart.

Gao Liyang and Dorothy do not understand Qiangjialing. They are completely convinced of Shenlang. But the bleakness is different. She has come in before.

It is not surprising that Shen Lang can know the exit of the temple, perhaps related to his secret map. But he can just tell the direction of a temple, it is incredible!

If you don’t count on it, it means that he has already had a position from the city.

And it is a more detailed understanding of the world of thousands of caves, in order to determine the direction through a small city.

From the attitude of Shen Lang, she does not think it is a flirtatious spirit.

“Where are we going now?” Desolate asked a question about the transfer of high-slung, so as not to affect morale.

“Let’s search for it, there is no direction anyway.” Shen Lang smiled.

Desolation certainly does not believe that he is searching casually, but he did not say it, and he will not ask.

The group went on and continued for six or seven hours. According to the time outside, it should be already at night. But there is no change here, it is still a gray fog.

In addition to the previous encounter with Xuan Lingzong in that city, for such a long time, after going so far, there is no more team!

In addition to the 30 that must come in, there should be some that can be hit by luck. So many people have not met each other. It can be seen that the scope is very large, and it can be seen that everyone is really being transmitted to a completely different place.

“Have a rest.” Shen Lang suddenly stopped, and then took out some water and food for everyone.

This is the dry food that was temporarily purchased last night.

With their current strength don’t say don’t eat anything, just don’t drink water for a few days and no problem. Be careful in the fog and direction and safety, do not dare to go too fast, this speed is limited to their physical energy consumption.

There is no problem with the high separation of more than one hundred years old, but Shen Lang let them rest and eat and drink, and everyone still obeys the arrangement.

After ten minutes, I have seen that everyone has solved it.

Shen Lang pointed to the front: “Now the spirit is coming, we may encounter a lot of dangers, and there may be great gains!”

When I heard this, everyone was refreshed. For a long time, they only slowly walked on the road. Even the scenery didn’t have to be seen, and it was really boring.

Desolation is a move in my heart.

Followed by Shen Lang and went further. About half an hour later, there was a depression in front of them, which continued to reach the gray line of sight and could not be seen. I don't know the depth and the distance.

It seems that this is the smallest as a dry lake. If it is big, it may be a basin.

Chapter 415 - Heroic chaos

"The heroic chaos..."

The bleak whispered a whisper, and then said to Shen Lang with a deep meaning: "Your secret map, recorded a lot of things."

Gao Li is also incredible. For six or seven hours, he asked himself that he did not relax for a moment, but with his realm, the scope of investigation was extremely limited.

But the waves are systematically bringing them to this place, he must have a purpose!

The bleakness actually said "the heroic chaos", it seems to be unfathomable.

"Zheng girl, you said this place... called the heroic chaos?" Gao asked the hand.

Since I came here, and it was found by Shen Lang, this is also the person brought by Shen Lang. There is nothing to hide in the bleak.

"According to legend, the ancient ruins of Qiangjialing is actually an ancient battlefield. The temples and towns inside are all secondary. The most crucial place is this heroic chaos."

Except Dorothy did not understand, Gao Li and Yang Yang immediately reacted.

This heroic chaos should be the battleground of this ancient battlefield. Perhaps the big basin in front of them to reach the edge is the trace of the battle!

“There is no name here. The predecessors are called the heroes, because there are many heroes who have been ruined here. There are no tombs to find, and there is no such thing as a mess.”

“It turns out that thanks to the girl’s advice, in fact, we are not clear.” Gao Li sighed.

What he said is true. The Tianshan Jianzong is a record about Qiangjialing, but it will not be much more than other martial arts.

The secret map of Shen Lang, whether it is a fake or not, is sure that it is not the Tianshan Jianzong.

Of course, he does not believe that Shen Lang really has an old martial art with the cold autumn ancestors. The biggest possibility is that the ancestors reincarnate to know so many secrets.

“Go in! This is our goal.”

Shen Lang simply told them about it. The most common gain in the heroic arrogance is that you can find some magic weapons!

If you don’t know how many years you are, you can still keep your eyes on the edge. It is definitely not a product. The owner has already dissipated, and it is easier to conquer.

But it is also very dangerous. Otherwise, the adventurous who is advancing will not go out inside. The carpet search can naturally hollow out all the treasures.

The result of the danger is that in addition to the ancient heroes, there are also the life-threatening commandments of the later generations who come in for treasure hunt, and the weapons and resources they carry have become one of the resources of the heroes.

As for the dangers inside, it is impossible to fully understand Shen Lang.

It is only known at present, including some undead anger, and fierce beasts!

Who is the first to fight this ancient battlefield, no one knows. But the people who participated in the war also have the support of the beasts. In the end, there were also beasts that survived in Qiangjialing.

The scene here, they have already seen it, not to mention the death forest, it is much worse than the outside.

If the beast is to survive, it may be the attack on the people who have swallowed the city, or the bodies of the dead heroes.

And people are eating up?

This heroic chaos is a special place in itself. With so many heroes' grievances, it is completely different from other places. Over time, it becomes a paradise for the beasts.

The predecessors who came here before are often under-prepared and cannot come out after entering.

Before Shen Lang told the direction of a temple, Xuan Lingzong did not tell them to come here, but also why they did not want them to die.

Now they are five people together, it is a weak team, in which Shen Lang and Desolation have a certain understanding, Gao Li has a strong strength, Dorothy and Yang Yang can also help.

It is not too late, I have just stopped, and I have already eaten and finished.

The four people followed the Shen Hao who entered the Shen Lang.

This place is really huge. Before it was on the edge, because of visibility, it was not too far away. How big is just a guess.

Now I really enter the inside, only to find that the light is going from the edge, at least there is a height of 100 feet!

And this is still only the edge of the heroic chaos, opened so many times, of course, there will be no good things to stay on the edge.

In the midst of the heroic chaos, in addition to being still gray, there is a feeling of sinisterness, always covering everyone.

After arriving here, everyone's speed is even less daunting, so as not to miss something.

But for the scope of the carpet search can be a little bigger, the team of five people together, become a word lined up, maintaining a distance of about ten meters between each other, convenient for mutual assistance.

However, this "one" word is not completely flat, but slightly curved.

The tip of the arrow is not a deep wave. This important task, Shen Lang entrusted to the bleak!

Around her, it is Dorothy and praise. And Shen Lang and Gao Li are behind them.

In this way, the front and rear distances are extended to 20 meters, the left and right are extended to 40 meters, and the one-time monitoring range reaches 800 square meters!

The strongest waves and high separations are on the left and the right, and the monitoring range can be larger.

However, although the scope of such a formation is much larger, it is still only the difference between "one line" and "a thick line" for this ambiguous hero.

Therefore, after adapting for a while, it is still speeding up a bit, and strive to explore a little more.

After a few hours of advancement, at least a hundred miles have passed, and there is still no gain.

Everyone's excitement has also dissipated, and it is as boring as the previous road.

Just as he was hesitant to take a break, his ***** realized that something was coming close!

“Come on! Alert!”

Shen Lang quickly made a sound reminded them of it, he himself was immediately approaching the Dorothy, a dozen meters away from the front.

High deviation is also very fast, from the other side to the close.

In front of the bleak, it is also kept alert and back a few meters back.

For a moment, the five people have grown from the previous formation to the same.

Shen Lang made a gesture. They immediately realized it and changed their direction. They turned back in one direction and turned into a ring.

In the course of their two changes, the objects discovered by Shen Lang have also appeared in the sights.

“This is, this is...” Yang Yang could not help but scream.

Although the actor of Shen Lang just reminded me, I really saw it, but it made him a little scared.

Chapter 416 - Yan Jun

Objects gathered from all directions are not considered living things, because they are all awkward!

What is even more incredible is that these cockroaches are not perfect, some lack an arm, some lack bones on the trunk, and some lack legs...

In terms of quantity alone, there is no pressure to go to sea. The total amount is about a few hundred.

However, hundreds of cockroaches stood up and gathered at the same time, and the scene was already very horrible.

“A bunch of cockroaches! Don’t make a fuss!”

High is the highest in the realm of the world, but also seen the world, immediately sighed and stabilized the military.

“Don’t be scared, but be careful, or else you will become awkward after you die.” Shen Lang smiled and snarled.

“Get started! Don’t wait for them to surround!”

The cool voice is calm, and the Qiushui sword has already appeared in his hand.

Just now they formed a ring shape in a back-to-back position, not knowing what the enemy is.

Now I see so many flaws. Once they form a circle, they are blocked in all directions. It is not so easy to break the encirclement.

“Hands!”

Shen Lang knows that everyone is waiting for his orders. After he opened his mouth, he himself rushed out first!

Five people rushed to the front. At the current scale, there are almost a hundred tasks assigned to each of them, and it is really impossible to relax.

When Shen Lang rushed out, he had already gathered his energy and displayed the “Da Shou Mi Long Xiang Shen Gong”. He took his hands out to the front!

These crickets have no life, but they have a certain spirituality. It seems that they have discovered their offense and they have accelerated their speed.

The current realm of Shen Lang, and the use of the “Da Shou Mi Long Xiang Shen Gong”, the strength of the blasting out, is already unbelievably strong, these cockroaches immediately fell a large piece, of which the most positive ones are directly Falling apart!

After the explosion, Shen Lang displayed the “Phantom Meteor Step”, the body seemed to be ghostly, and quickly shuttled between other cockroaches.

These cockroaches spontaneously attacked the “living things” that came close to them. Whether it was the bones of the hands or feet, the attacks were strong and strong, and the strength was very strong.

Perhaps there is no relationship between flesh and blood, they are pure bones faster!

Of course, it is impossible to compare with Shen Lang. He went to their side and waited for the attack to arrive yet, and the attack had already been transferred to another one.

The attack of Shen Lang is very simple. It is to directly or pinch or cut off their vertebrae and tear the skull off.

When the shot broke the first one, his hand grabbed a finger-sized black particle from the skull.

In addition to the first batch of being shattered and shattered, the latter also rushed over.

The shots of Shen Lang are dazzling, but after a while, the batch that has re-rushed to the front has fallen down.

As a result, the ground in front of him has already collapsed into piles of cockroaches, and the latter wants to come in again, it is not so easy.

After all, they are all awkward, bones and bones are still easily stuck.

Shen Lang did not stop, continue to kill the past!

He still used the “Phantom Meteor Step”, but his feet used the “Da Shou Mi Long Xiang Shen Gong”, which made his footsteps past, collapsed in the ground, directly smashed by trampling!

In the gap between the rushing and smashing, the knowledge of Shen Lang also pays attention to the entire battlefield. If anyone is in danger, he can easily rush to the rescue.

Needless to say, the weakest part of them is praise.

It is also better to praise the lower strength and experience and psychological quality. However, Shen Lang does not blame anything, it was originally to let him come to practice.

Unlike the entanglement of several crickets, Dorothy is also relying on the speed, in the non-stop shuttle, is not to knock down a cockroach.

Desolation and high separation are the other two main forces. Gao is the realm there, and these are pediatrics for him. His speed is a little slower because he is distracted to pay attention to praise.

Desolation is still the first time to cooperate with the Qiushui Sword. It is both a running-in sword and a quick-cutting sword.

There was no danger in the whole game, and Shen Lang also let go of it.

A few minutes later, Shen Lang killed nearly half of the cockroaches and took two or three hundred!

Then he didn't go to help other people anymore, anyway, they are about to finish.

He quickly walked up the ground and picked all the black particles inside the hoe.

Since Shen Lang had already come over to them, everyone looked at his behavior and began to pay attention to it before he discovered that there was such a thing.

After a few minutes, the cockroaches on the scene had all been knocked down, and the particles of the size of the fingers were collected. They all gave Shen Lang.

“Shen Elder, what is this?”

No one else has changed, only the praise is a bit wolf. However, he was still eye-catching. He saw that he was too curious and embarrassed to ask, and he asked.

Shen Lang has used a bag to collect hundreds of black particles.

After he heard it, he looked at it with enthusiasm and unconsciously. When he saw the meaning of bleak, he said it.

“It is this thing that makes these cockroaches come back!”

This heroic chaos is not only a huge space, but also a powerful energy field filled with aura and resentment!

After the death of the ancient heroes, the soul is not scattered, the breath that has remained, for a long time, is trapped in this huge pit.

Under the flow of time, the change slowly and turned into a new kind of energy, a strange energy that can make the living people shudder and let the dead bones resurrect.

When these living creatures die in the event of living things, they will combine with the grievances before dying and quickly absorb the cohesion. Over time, such particles are condensed in the sputum.

Black particles are the concentrated aggregates of these different energies. It is this that makes these cockroaches have a spiritual resurrection.

They attack the living creatures passing through here, whether they are humans or beasts, the living creatures that are smashed and killed, and they will combine grievances with this strange energy before they die, forming a new embarrassment!

When I heard the introduction of Shen Lang, everyone was both surprised and embarrassed. I also understand that the cockroaches that have just been crushed by them will not be the heroes of the ancient times, but the bones of the monks who have entered the adventure hunting treasures again and again!

It is normal to think about it. It can turn the battlefield into a huge pit that can't be seen in a few hundred miles. Those ancient heroes are shackles, and they can't be so weak.

Think again, just after the combination of their grievances and auras after death, they have given birth to such a strange energy, can make the bones come back to life... When the ancient heroes lived, how powerful it is!

For a time, even the high and the high are silent. He pursues whether there is a chance to break through the realm of this life. Now that he has seen the true relics of the ancients, he realized that the road ahead is long and the cultivation is endless.

Chapter 417 - Giant beast

The praise and high separation produced the sensation of the mountain, and Dorothy did not have much impact because of limited understanding.

The desolation and the same as Shen Lang, she had seen the world before, and was not shocked.

“Do you want to try to refine them?” Seeing that Shen Lang collected it, he asked directly without a word of sorrow.

Shen Lang smiled and said: “First, let’s take a day, maybe it will be useful?”

“Although... I have to admit that you are a genius, but I advise you not to touch it!”

Without Zheng Yumeng’s tens of thousands of talents, the speed of Shen Lang’s progress is not slow, which shows that he is a true genius and has countless secrets.

Desolation and serious said: “You also said, this is the crystallization of strange energy, but traced back to the source, is the combination of resentment and aura. If you go to refining, it is likely to be resentful!”

“Yeah, Shen Shen is cautious.”

Gao Li was also busy persuading him. If it was only the grievances of the former self-cultivators, it would not be anything, but in terms of roots, it is still the grievances of the ancient heroes!

His infinite confidence in Shen Lang comes from the cold autumn. But even the Zhongxing ancestor of the Tianshan Jianzong, Gao Hanqiu, and these ancient heroes should be incomparable.

And now the reincarnation of the ancestors, young age, the realm is still low, how can it bear such a heavy pressure? just in case.....

“Okay, I have a score.”

Shen Lang did not say more to them, but also knew that they were kind.

He took the bag of hundreds of energy particles into the storage ring and then signaled everyone to move on.

Just when they had just stepped out of the sacrum pile, they had not re-formed forward, and they heard the ground shocked!

Everyone is seriously vigilant.

In fact, the tremor is not so serious, but it feels slightly, but it is not an ordinary person. Not long ago, he encountered a great army. For this change, it is naturally highly alert.

“Trouble...”

Shen Lang smiled a bit, pointed his finger at one of the directions, and then quickly laid out.

“I am in the middle of the high, the two of you are in the middle, praise to the end!”

“Yes!” everyone whispered a word.

Desolation actually wants to go side by side with Shen Lang, but at this time, it is necessary to obey the arrangement, there is no time to temper.

Moreover, she also believes in the strength of Gao Li, and can help a lot of hardships.

In the Tianshan Jianzong, he was also the first person under the elders, but when he came here, not to mention the enchanting elders of Shen, the two girls were stronger than him, and how much was a little hurt and self-respect.

However, in the end it is the heir to the cultivated lord, he still has a big picture. Just a little bit of hands-on, has been used to prove that he is the weakest, and then the slightest unwillingness, will be the team's retreat.

Now he is very cherished the opportunity that Shen Lang gave him. The exercise of this trip is an experience that will not be experienced in Jianzong's re-cultivation for ten or twenty years.

In the "two two one" formation of five people just formed, the object that makes the ground tremble has reached the visible range of sight.

After everyone saw it, I couldn't help but take a breath.

No wonder it can make the ground tremble. This guy is basically the biggest animal they have ever seen.

In terms of looks, this is like a rhinoceros, but from a head, it is much bigger than an adult elephant!

Now appearing in front of them, it looks like a moving house, no wonder the ground is a little tremble.

Shen Lang hit a ring finger, and it was an offensive command to the high side!

Such a huge beast, if you are not careful, will be destroyed. The five comprehensible flesh and blood will become a tonic for its cultivation!

But in turn, once they can be killed, this huge beast is a very important resource for them.

Or simply, as long as you get this ticket, the trip is worth it, and you can even evacuate it.

As for the deer who died, is the beast destroying people, or people destroy the beast, then look at the strength of both sides!

"Hey-!"

At the same time as Shen Lang hit the finger, the giant rhinoceros in front gave a scream, and the sound waves rolled in, and they wrapped all of them in time!

Not only the sound waves, but also the gust of wind swept through, at the same time, the giant rhinoceros beast also took a big step!

When the madness rang, there was a small copper bell in the hands of Shen Lang, which almost swayed at the same time.

The crisp ringtones, as if they were spiritual, immediately formed a circle of sound waves around several of them, blocking the sound wave attack of the giant rhinoceros beast.

“Go away from the side!”

Shen Lang said this to the latter three.

Originally let them go to the back, to protect them, but now it is found that the enemy is such a huge beast, but also directly rampage. If he and Gao Gao are scattered, the latter three will be shocked.

While talking, Shen Lang people also quickly stepped forward and jumped directly to the rhinoceros horn in front of the giant rhinoceros beast.

This rhinoceros is also huge, and he can sit on it easily.

The copper bell in the hands of Shen Lang continued to sway, and the sound of the sound had changed direction and went directly to the ears of the giant rhinoceros beast.

He also holds Yu Hongjian in his hand, but he eats with Dorothy. He obeys the command of Shen Lang and quickly evades both sides to avoid the giant rhinoceros being smashed.

And the bleak is the sword rushing forward!

Before the high separation, the big army did not have a sword. Now the Zhenhai sword is also sheathed, and the desolation and the left and right have both killed the giant rhinoceros.

“Roar!”

Although the copper bell is an insignificant little thing, it is a real magic weapon. This non-stop sound wave attack makes the giant rhinoceros beast roar.

The body that rushed forward suddenly twisted, as if a “floating” came, and the huge body was shaken to hit the left and right bleak and high.

At the same time, its head is also quickly swaying attempted to fly the Shenlang.

Now the Shen Lang is above its rhinoceros, not only does it make it impossible to attack, but it can also continue its close-range sound waves to attack its ears.

Its horizontal body, coupled with the swing of the head, the impact is very large, but it is too big, the size of the light rhinoceros angle is enough to stand firm.

For its purpose, Shen Lang is very clear. While continuing to shake the copper bell, he fiercely uses the “Da Shoulong dragon like a magical power” and squats on its rhinoceros!

This time it was not a roar, but a painful scream.

At almost the same time, the bleak and high separation of the left and right attacks, both swept and flew out, their sword tip did not touch the body of the rhinoceros beast, and the sword that provoked out, but could not cut through its rhino skin.

The sinking wave was enough to kick the stone, but it was impossible to kick the rhinoceros. This made him continue to kick out with great enthusiasm, kicking one foot and one foot on the rhinoceros horn.

Chapter 418 - Cooperative group attack

The giant rhinoceros beast that was repeatedly attacked began to go crazy. It quickly turned to the body, brought a strong whirlwind, and pushed the re-approaching bleakness and high separation away.

Then it turned the target to praise!

This big man is also wise, and the deep waves and the bleak, high-spirited attacks on him are naturally the most difficult in the scene. And Dorothy began to attack after she dispersed.

Only in order to be afraid of dragging your legs and helping you to do so, dodge to a farther place, this makes the beast know that he is the weakest.

“not good!”

High and dark screamed, and immediately swayed with Zhenhai Sword, and raided from the rear to the back hip of the giant rhinoceros beast!

Desolation has gained a better understanding of it after being forced to open twice.

Knowing that its rhino skin is very hard, if it is directly stabbed, perhaps the Qiushui sword can only be scratched, and it is impossible to go deeper.

She decided to take the risk once!

The bones of this giant rhinoceros are very hard, but relatively speaking, there are still some places that are more vulnerable.

Generally speaking, this place is the abdomen!

But the abdomen is protected underneath, and if you want to attack there, you will have to take great risks first.

If a person is under the belly of this giant rhinoceros beast, don't say that there will be a risk of being flattened at all times. If it is no longer acting, it will not let you know how many pounds of meat will be pressed down, and it will make people unable to move.

Desolation still has confidence in himself, but there is no blindness, but to speed up the sprint, along with its speed, to the side of its body.

Then the rapid sword rushed to the other side!

Crossing from side to side, the advantage is that the distance is shorter and the risk of being crushed is smaller.

The downside is that it is moving fast, and the risk of being trampled by the back of the two feet is great.

If it is rushed from the back, it is just the opposite. The risk of stepping on is smaller, and the risk of being pressed long is greater.

Now is the time to grab the time, she also grasped the hilt with both hands, lifted Qiu Shui Jian Qingtian, and strived to cut off its abdomen as the person flashed from the belly!

Just when the sorrow came to the abdomen, when it was about to rush, the Zhenhai sword that came from the high spins also stabbed the back hip of the giant rhinoceros beast!

The copper bell in front of the waves is still shaking, and at the same time it is still rhino horns on the big feet...

And Dorothy, this time is also flying to its back.

A four-fifth attack!

But this giant rhinoceros beast shows the domineering of a very powerful beast!

It is obviously known to all kinds of attacks, but there is no special dodge. Until now, it suddenly flew up!

A rhinoceros and an elephant jumping into the air, it will already be a shock to people, not to mention the giant rhinoceros that do not know how many pounds.

Of course, its leap is limited, but it is a height of more than ten meters. But even then, it is a slap in the face of the double attack of desolation and high separation.

At the same time, the Dorothy on the back and the sinking waves on the front rhinoceros are also a bit unstable.

And its goal has not changed at all, it is directly to the back of the praise!

Holding the praise of Yu Hongjian, in the face of this almost black pressure over a large guy, it is almost impossible to dodge.

“Upper stab!”

The sound of Shen Lang suddenly blasted in his ear, so that a little desperate praise, simply can not think too much, directly jumped, and the sword stabbed out!

While pointing a sentence, Shen Lang himself slipped from the loss of the rhinoceros, and then used the “Da Shou Mi Long Xiang Shen Gong” to punch out his head at the fastest speed!

In the downturn, he also bite the brass bell in his mouth, trying to keep trying to interfere with it with sound waves.

Because he has clearly realized that if the sound wave does not interfere with it to a certain extent, it can also explode more powerful strength!

“Boom—“, the giant rhinoceros beast fell to the ground and made a greater shock.

And because it flew first, the praise was not suppressed by being trampled, but Yu Hongjian spurred up to the bottom of his neck!

This is a very fragile place, but the skin of this giant rhinoceros be too hard, and it may also have special protection for the neck. Yu Hongjian makes a harsh sound, like a thorn on the iron piece, there is no Pierce it.

Dorothy is flexible enough and fast enough, but now she has limited space to play, and she has a great backing, and there is no harm to the giant rhinoceros of the back like a rock.

Just a slap in the face and a high separation, continue to stab with a sword.

But the giant rhinoceros beast was not idle. When it landed, the neck was rotated, and the mouth was raised, and it was bitten straight into the jaw under its jaw!

With its teeth, it is possible to tear people directly into several segments, and that big mouth, it is very easy to swallow a person.

There is also a strained experience, but this time, when faced with such a huge thing, it has already smashed a few points. At this moment, the body that leaps and bounds falls, and it is too late to react.

Just as he was bitten by his mouth, he successively attacked hundreds of punches and swiftly rushed from the side and threw out the praised body directly!

“Shen Elder!”

The singer was thrown out in front of him, and when he saw the sinking wave instead of being bitten in his mouth, he could not help but scream.

He is the successor of the Sovereign, and he has a general enlightenment. It is clear that the value of Shen’s elders for Zongmen is much greater than that of his successor.

When he continued to fall back, he was very regretful. He knew that he had run far away, even if he had a reputation for being afraid of death.

If Shen Elder has three long and two short because he saved him...

Of course, Shen Lang will not sacrifice himself to save his life. He has just saved people and has the heart to go to his mouth.

The giant rhinoceros has a huge mouth, large teeth and large gaps.

What Shen Lang wants is this effect. When the teeth bite down, he is dodging in the gap between the teeth. But the figure is dodged, but it is not idle!

His mouth is still shaking the copper bell The sound waves layered into the throat of the giant rhinoceros beast!

And his hands, the use of “Da Shou Mi Long Xiang Shen Gong”, a punch and a punch hit the teeth of the giant rhinoceros beast!

His shot speed was too fast. Before he was bitten up and down, he had already hit dozens of punches on the same fangs below, and finally hit a fang to fly off!

The bite at the moment left him with a hiding place.

He continues to scream at a faster rate!

After a while, another fangs flew out!

After being attacked by sound waves, and then being beaten off the teeth, the giant rhinoceros beast could not see the situation inside his mouth. He had already given up the bite and slammed his mouth and slammed his head and tried to take him out.

The great restraint of Shen Lang makes the desolation and high separation both to the abdomen. Qiu Shuijian and Zhenhai Sword are much stronger than Yu Hongjian. They are all cut iron swords, and they all pierce into the rhino skin!

Chapter 419 - The first sword "extracted cattle"

How could Shen Lang be thrown out by it? He not only stayed in the teeth, but also prepared to fly it out.

However, there was a little change at this time!

Because the abdomen was pierced by two swords, the pain caused the giant rhinoceros to scream, and then, as they predicted, they waited for them to leave, directly slamming down!

Its purpose is very simple, but it is such a puncture, but it does not hurt its root bone, but it does not know how many thousands of pounds of body pressure, the human body wants to break free, it is not so easy.

Because it is the flesh is tough, and it will still be hard, which is more difficult to ask than the same weight of soil.

With the strength of desolate and high separation, it will certainly not be crushed to death, and even serious injury is not easy. However, after Shen Lang discovered it, he could not take the risk.

Let's not leave the area of Qiangjialing. It's also a problem to return this heroic road alone. It is impossible to hurt two people.

So Shen Lang didn't play anymore, and directly took out the rust sword!

It's time for you to taste the blood!

The shiver screamed and the wrist shook. The whole person, together with the sword, has become a huge ring that dances fast.

This ring is the sword body facing outwards, and why is the ring, of course, cut along the throat of the giant rhinoceros beast.

It was only an instant effort. The huge force of strangling had cut off the neck of the giant rhinoceros from the inside, and the whole head was swooped down.

If it is in the abdomen, back, legs, etc., the blade is pierced into it, even if it is at the hilt, it cannot be completely cut. But the neck is different, the inside is a hollow throat, almost the weakest link.

After Shen Lang cut it, he flew up from the blood mist and reached out. All the blood that had been sprayed from the ends of the broken ends was condensed together.

“give it to you!”

Shen Lang directly led the blood to the front of Dorothy.

“no problem!”

Dorothy flew down from its back and quickly reached the front of the broken head.

This large amount of blood, for her, is more than a tonic, it is a treasure!

But now in this environment, she does not dare to take food, after all, this is the blood of high-ranking beasts, in case it can not bear, this is not a good place to cultivate.

All her blood is condensed, squeezes out the water and solidifies into a highly concentrated blood clot, which can be better preserved and carried away.

Because this thing is too big, too much blood!

After slamming on the ground, he saw that Shen Lang was not dead. He was relieved. Then he saw Gao Li and “Miss Zheng” were crushed, which made him run over.

He has the heart to help, but his ability can't be done, and he is afraid that he will help more and more.

Fortunately, Shen Lang quickly got the behemoth.

At this moment, the head is still struggling, and the body is still struggling.

Shen Lang fell to the side, and then condensed his body into the palms, and applied the “Da Shoulong dragon like a magical power”, then screamed, and the palms pushed over the body of the behemoth!

“Give me up -!”

With the sound of Shen Lang, Sheng Yang saw that his feet had fallen into the ground a few feet!

And the body of the behemoth, who did not know how many thousands of pounds, was actually pushed over by the sinking waves, turned into a belly up, and struggled on the ground.

“High elders! Zheng girl!”

I am busy to help them both.

However, the high and the bleak are all quick. They have just protected their bodies and have not been injured for a short time.

I didn't see the high separation of the beheading scene. I was very surprised. I don't know how Shen Lang did it. They are two people together, but they just pierced a sword!

Of course, he does not believe that this is Dorothy or praise.

And Shen Lang can turn this giant beggar over to save them, but also shows the pure power beyond the limit!

Desolation was directly flying over and grabbed the sword that pierced the abdomen.

“This thing is too big! Even if you break your head, you can't die in a short time!”

“Don't worry, it's fine to leave it to Dorothy.” Shen Lang prevented her from continuing her laparotomy.

“Can Dorothy girl really do?” Gao could not help but a little doubt.

They looked at the book, but they saw that Dorothy didn't know what spell to use. It was actually cutting the wound and sucking the blood away quickly!

Not only the broken head, but also the chilly wound that just opened the sword, the blood is also flying fast.

When the movement was high, the Zhenhai sword was collected. Sure enough, I saw the wound that was not blocked, and the blood quickly flew over.

The blood that flew past Dorothy was also quickly concentrated, and finally turned into a solid blood clot.

Gao can not help but sigh, Shen Lang is not a sinking wave! The two young women around me are masters of stunts.

“Think about it, how to take it away! So big, no way to take it all away!”

Shen Lang said without regret.

He has a storage ring, and the bleak blood crystal bracelet also has a storage space. The ring for Dorothy is also, but the space is not infinite.

There is no problem in storing some things in peacetime. If you want to move the big behemoth of this house into it, you can't let it go.

“Dry! Abandon the bone!”

Desolation is very decisive.

Drying is inspired by Dorothy's current means, just as 50% of the body is water. If it can be completely dehydrated, theoretically at least half the weight and volume can be reduced!

The most difficult thing to carry with this behemoth is the huge skeleton. If you give up the skeleton, the other ones should still be taken away.

This is the opportunity!

This is the resource!

It's hard to come across, and it's hard to kill by the waves. Of course, Gao Li can't give up.

Let him drag, he is actually willing, but to combine the actual situation, not only the burden of the problem, but also very conspicuous, and can not be transmitted out.

After hearing the bleak advice, he immediately greeted him with a compliment.

“Zheng girl, you and Shen Elder, take a break, help us to rush, peel and dry these rough work, let the old man come!”

I didn’t help myself before I praised it. I always need everyone’s protection. I can work hard at this time. Of course, it’s very hard Gao Li’s knowledge of Tianshan’s swordsmanship is the first in Jianzong’s life. People, the Zhenhai sword in his hand, is also the sword of the predecessors.

He couldn’t think of it. One day, he would use the sword of the founder and use the Tianshan sword to “solve the cow”!

But when he was excited, he was also very motivated and didn’t think much.

He peeled and cut the large structure, allowing Dorothy to drain the blood faster, and it was easy to praise the details.

“It’s not enough to make people’s centenarians go to be a butcher to cut meat.” Shen Lang’s voice was bleak.

Desolation was originally calculating which color can be taken. I didn’t think much about it. I heard him crying and laughing.

“Would you like to go?”

“Forget it, I have already done the job of killing pigs. Let them do the meat. You see how happy they are!” Shen Lang shrugged.

Chapter 420 - Great harvest

The praise is also the peak of the virtual world, but also the heir to the sect. It is said that it is a level with Chu Xiangxiong. At the beginning, the Shenlang needs “blood madness” to lose both!

It is because of the strength of several of them, only to compare the praises as if they are dragging their legs.

Needless to say, Gao Zai, the master of the late real world, the first person of Tianshan Jianzong!

They are now doing this meat-cutting work, almost a knife to kill chicken.

And they also know that this place should not be left for a long time. When they are fighting, the voices of both sides should be transmitted far away, and there may be other beasts and shackles.

This sweeping battlefield must be fast!

I didn't feel that I was disrespectful to the ancestor with the Zhenhai sword and cut the meat. It was also the most exquisite sword method of the Tianshan Jianzong. It was used on the cut meat.

After Dorothy drained all the blood, the whole giant rhinoceros had dried up. The two of them cooperated and quickly cut it.

The high separation also uses the spell, once again dry all the meat, as much as possible to remove the water.

“Collect all the bone marrow spinal cords!”

Shen Lang found a bottle and threw it at high altitude, and then collected all the meat. Among them, ribs, skin, internal organs, etc., are more valuable.

The most valuable is the inner Dan of this giant rhinoceros beast!

This is much bigger than the gold giant that was encountered in the dead forest before, and the level is also more powerful.

Shen Lang will take the initiative to put these into his storage space. He is thinking about whether the girl is desolated. It is a bit uncomfortable for her to put it, and Dorothy is filled with blood.

Looking at the huge bones, including the fangs, are very reluctant, thinking about throwing them like this, it is a violent thing.

But they are all taken away, it seems that they can not do it, but also quite helpless.

In addition to the collected marrow fluid, Shen Lang also threw the rhino horns over, letting the chills come together, and the others can only give up.

“Shen Elder, or else... I am going back with a fangs?” He asked weakly.

This is not to say that you can go back to medicine, or even use it to create magic weapons and weapons. It is sold directly, and it is also a stone!

“Hey, you have this!”

Shen Lang smiled and said, “We must collect them. If you can’t take them, you can only throw them. You are too conspicuous, just tell others directly – come and grab us!”

“I’m sorry, it’s too short-sighted.”

Indeed, you can get such a big tooth decay, saying that it is embarrassing, can others believe it?

“Go! Don’t stay too long.” Desolation reminded me.

Shen Lang thought for a moment and looked around at them.

“After all, this is at least a once-in-a-century opportunity. I still want to ask for your opinions. Go ahead and go home?”

Only Dorothy was full of homage at the scene, because the harvest was too great.

High separation, praise, and even sorrow are entangled.

To say the harvest, today is already very huge, and other people may not have a better harvest.

That is, if they look forward, they may not be better, but they may encounter more dangers.

But this is an opportunity that has only been once in a hundred years. If you miss it, it will be almost impossible to have it next time. And already in the middle of this heroic chaos, maybe there will be more gains in the future!

“Shen, you don’t want to tease us, or you take your mind! We completely listen to your decision!”

Gao is a bitter smile, and feels that the cultivation of the heart is still not enough. In front of the lure, it is still impossible to calm down.

Shen Lang looked at the bleak, in fact, this is what he wants more opinions.

“Go back! Safety first.”

Desolate and sighed, to give up, she is also very sad. But compared with life, life is more important.

“Alright, since it is the legacy of the ancient heroes, we can’t eat it once. In time, we can grow high-level beasts. As for the other...”

Shen Lang is also a bit helpless: “If you can’t meet it, there is no chance.”

When he came here, it was actually purposeful. He wanted to look for the ancient gods and soldiers.

But this is really something that can be met, but today it is a reward.

Everyone felt that it made sense. They all followed his arrangement and immediately returned in the same direction.

When I came over, it was because I didn’t know how wide the heroic arrogance was, so I almost kept going straight. Now I am going back in the same direction.

“You said... will it become awkward in the future?” Dorothy couldn’t help but ask.

Shen Lang shook his head: "It's more difficult, other shackles, even if it's missing, the whole spine is still connected with the head. I cut it off!"

"If this turns into a cockroach, it is also very powerful." Dorothy is a bit lucky, but fortunately, I have not encountered such a powerful embarrassment.

"Who said it clearly? It's so weird here, maybe after a few hundred years, it really becomes a resurrection."

Shen Lang shrugged, let everyone maintain a good formation, and retreat.

Because it is the road that has passed, the retreat is undoubtedly much faster than when it comes.

There seems to be no day or night, they don't need to sleep, they are always on the road.

Finally returned to the edge of the heroic chaos!

After they climbed the **** of Baizhang, Shen Lang was preparing to take a break, but his eyes looked to the front.

"Who?" There was a low drink in front of him, and the other party was quickly guarded.

Because of the gray, everyone can't see clearly, but they all confirm that they have met human beings.

"Tianshan Jianzong. Which friend?" Gao Lilang said.

"Tianshan Jianzong?" The other party repeated, the tone was a bit wrong.

Shen Lang chuckled, he has already heard it, that is the voice of the Promise Gate West Gate Seal!

Is the road narrow?

“Looking at the past!” When he spoke, The person has quickly passed away.

A few of them are also very close to them.

They all know that Shen Lang and Ximen Feng have grievances. Now they are encountered in this place. Will anyone directly kill them?

The rapid past of Shen Lang is the opportunity not to leave the West Gate.

But in the past, he couldn't help but feel lost.

Looking at the past, the high thought that he is going to start, has prepared the Zhenhai sword, and secretly indicated that he is ready to attack.

Desolation and Dorothy naturally need not say more. In the days of Tiandong, only Shen Lang was fighting alone. Now they are, of course, they must help!

But after the past, they are all stunned.
