

First Strong 451

Chapter 451 - Bullying the door

The Taniguchi illusion came out, and the rock that was originally located was half exposed in the water of the Tianchi Lake.

But now it is hanging up, the water in the entire Tianchi is dry!

At the bottom of the dried Tianchi, the fan-shaped surrounds the entrance side, standing is the disciples of the Tianshan Jianzong, each standing on the sword.

The rock that was originally exposed to the water was not very large. Now there is no water below, and it shows a lot.

There are three people standing in front of the rock. They are the Chinese military coaches of the disciples.

The most middle is the sturdy, still on the wheelchair, but covered the lower body with a cloth, can not see his condition.

He is left and right, and he is still a symbolic meaning. The real command is still high.

On the other side of the Tianchi, there are hundreds of monks.

They are almost overlooking the Tianshan Jianzong disciples at the bottom of the dry sky pool, both geographically and imposingly.

In the Tianchi, you can see the blood red everywhere, and you can see that there have been many battles.

In the camps of both sides, there are also many injured monks, including some of the higher levels.

In his own camp, Sheng Yang is dispatched below. The four elders of Chen Yuhe, Yang Yuansong and Song Tang Jiang Yu are also scattered leaders.

These are the short-term moments that Shen Lang learned, and when he appeared, his disciples had not seen it, and the enemy camp opposite saw it first.

Because of their eyes and exclaimed, most of the people in Tianshan Jianzong did not hold back and looked around.

Seeing the chief elders of their own family, the Jianzong disciples all cheered!

Although they have not seen the shots of Shen Lang, through the spread of praise, and the endorsement of the elders, everyone is very fascinated by this new chief elder.

The more I have never seen him, the more mysterious.

When I saw the emergence of Shen Lang, from high to strong, I was relieved.

They went to Qiangjialing together and saw the mystery and power of Shenlang. Although there are no help from the two women, but he leads, it is still possible to hold Jianzong.

“Shen Lang! Your shrinking tortoise, finally appeared!”

Gao Li has just come over to Shen Lang, and has not had time to explain what the situation is. Some people have been yelling at the opposite side.

The voice is very familiar. I don't need to know it, I know Yu Yuba from the Master League headquarters.

The natural steps of Shen Lang went to the front.

“Great elder!”

“Great elder!”

Both Zun Zun and Sheng Sheng were called.

Yan Zun is a little excited, I hope that Shen Lang can create a miracle.

裴则 is a little bit ugly, feeling like being tired of the waves.

Gao Li is a few steps from Shen Lang, and he explained it to him in a low voice.

In the days of Shen Lang's retreat, Tianshan Jianzong, who had received a lot of resources from him, was eager to go up and down, and all the hard work of cultivation, hoping to make progress faster, so that he could get more resources.

There are no sun and moon in the mountains.

On the day of calm and calm, when a disciple went out to inspect, he received a letter from a foreign disciple.

The Master League gave Tianshan Jianzong a month's time, let them hand over Shen Lang, or else, they must step on the door!

Gao was so scornful that he ignored them.

In the following month, the foreign disciples were interfered in the secular foundation. Many outside disciples have also died, and finally have the right to choose to escape.

Escape is not only a letter of reply, but also a call for help.

However, it was followed by people. The result was that the outside world locked the specific position of the Tianshan Jianzong.

After that, it was a period of calm. Tianshan Jianzong sent out to investigate the disciples of the secular foundation, and it was safe to go out.

I thought that the limelight would be over, and the decision of Zun Zun was forbearance first. Now it is the time point for Jianzong to go up and down again, and he will bear it.

I didn't expect that it was just giving the other party the opportunity to transfer troops!

The more time I spent, the more prepared the other party was, and more people joined in.

The result is the core of the Master League headquarters, gathered to the scale of dozens of hundreds of people!

The Masters Union still played a banner of justice. For example, the group that destroyed the Promise Gate was planted on the head of Shen Lang.

Dozens of sects who went to Qiangjialing could not return to the back.

The Masters Alliance took the opportunity to say that Shen Lang sold them, not a channel to live, but a dead end!

Those people did not come back, not to enter the thousand caves, but to die directly!

A normal dead end, you can also retire after hitting the wall to find it again.

And they are the dead end of death!

The rest of the martial art families are certainly not reconciled. A group of predecessors have fallen, or they have lost dozens of medium-spirited stones.

They were convinced by the Masters Alliance and came over to find the Tianshan Jianzong to discuss.

At the beginning, they gathered outside to call out. After waiting for more and more people, they will start to attack.

The Tianshan Jianzong is waiting for it, but because it can't surrender the Shenlang, and can't satisfy the compensation of one or two thousand medium-stones, they can only stand still.

After waiting for a few days, everyone couldn't stand the cold, and they couldn't help but attack.

By now, it is already the fourth day of the offensive and defensive war.

Tianchi was originally a line of defense outside the Jianzong. The result was that the monks who had been saved by the other side joined forces in succession, all sucked away and turned into an empty Tianchi.

After listening to Shen Lang, he glanced at it and said faintly.

"It's just a group of jumping clowns, and dare to go to the Tianshan Jianzong to come to the glory. It seems that we are really low-key for too long."

The voice was not loud, but hundreds of people at the scene heard it.

The disciples of the Tianshan Jianzong, although they feel a little bragging, are still very angry.

Hundreds of enemies on the opposite side listened, but they were all embarrassed and angry, and they all slandered at Shen Lang.

"Shen Lang! You killed all the elders of our division! Pay their lives!"

"You are a black heart! Deceive everyone's spiritual stone, but also ruin people! You must not die!"

"You finally dare to come out. If you don't give everyone a reply, go through the Tianshan swords today!"

"If you pay for compensation, don't blame us for not being moral!"

Yu Wenba, who was ignored, waited for everyone to smash the waves for a while, then raised his hand and signaled everyone to be quiet.

“Shen Lang! Last time in Qiangjialing, our Master League was supposed to be the master of the world, so why do you collude with the alien vampires, we are weak!”

These words Yuwenba have already said to the people of various factions. Today, when they say it in public, they must occupy the moral high ground.

“Today! Our Master League headquarters, there are five masters who are in the late stage of the real world, here will be fair for the world’s monks!”

Directly show the board face, so that the morale of the other party will rise.

These days, the offense and defense play against each other and understand each other’s cards. Tianshan Jianzong, also two masters of the late real world.

Chapter 452 - Powerful domineering

In the later period of the two realities, for the general martial art family, it is already looking up.

Like Chu, Xie, and Xuan Lingzong, this level is also the beginning of a real life.

If you are a single sect, you can’t go to the door if you borrow a hundred.

Now there is a master league headquarters support!

Coupled with dozens of sects, there are many people, including two to buy a place, including robbery with the bonfire.

At the beginning of the Master League, there were three masters, and there were two other realities in the real world.

I thought this was enough to suppress the high distance and the deep waves. The other two women, including the two women, were not worried. There were so many monks.

I did not expect to have a more sacred out, which is unplanned.

Therefore, in the process of the assembly of other sects, two masters of the late stage of the real world were transferred.

This time, not only the Shenlang retreat, but also the Dorothy and Desolation that appeared in Qiangjialing is not here.

Therefore, Tianshan Jianzong is not only falling into the wind, it is simply the point of recalcitrance!

Through the slow shooting of the Tianshan Jianzong, they prepared to push the waves out. If they did not come out, they forced them to confess.

Otherwise, the five strongest people will take the shot together, and the sword will not last for four days. On the first day, the whole army may be wiped out!

Of course, Tianshan Jianzong has the advantage of geographical advantage here. There are also many swords collected in the past, and with the play of the sword array, it is really a **** battle to destroy them.

After his repeated provocations, Shen Lang finally took care of him.

“Five lives in the real world? If they are as incompetent as you are, aren’t they all killing chickens?”

Shen Lang directly despised them in the late five realities!

This gesture made the disciples of the Tianshan Jianzong on the scene burned up.

The other person on the other side thinks this guy is a madman who is not dead!

What is this saying? It’s just looking for death!

People can put him a horse, and now he will not spare him.

“On the same day, under the innocence of the shameless Yuwenba, Xu Yangzi of the Master League headquarters, holding the sword of the world’s fifth sword, wants to kill us to win resources!”

“The result was easily killed by my sword!”

These are unfavorable to themselves. Of course, the Masters Alliance will not claim that the alliance that was seen on the day, the masters of the scruples, is only said internally, and they dare not rumor.

Now Shen Lang tells the story in public, and immediately let the sects who are flickering across from each other nervous.

In the following praise, after this time, everyone has been contacted.

At the moment, Shen Lang finished, under his organization, screamed in unison.

“The great elders are mighty!”

Being bullied to the door for many days, but also worried about the pressure of people to die, they are very wrong.

This sound is almost roaring out!

The sound waves not only shocked the opposite side, but also faintly avalanches in the distance.

“Nonsense!”

Yu Wenba quickly saved the momentum.

“At that time, it was a temple in the Thousand Grottoes! They first arrived and found that they would suppress the mana and attack the Xuyangzi with a sword...”

“You mean that you suppress the mana, I am not affected?”

“Or is it that the fifth star of the world is cut into three quarters by me? Is it because the Xuyangzi mana is not working?”

Shen Lang’s continuous questioning is what Yu Wenba did not expect, and it’s too late to deal with it.

“But it doesn’t matter. Everyone can hear it clearly. He just said the reason for the failure. There is no denying that he sent people to kill me.”

“You fart!” Yu Wenba was furious.

“Just reverse the black and white slag, what did he say, what do you believe in? Are your brains paste?”

Shen Lang directly ridiculed a lot.

“I know all about the purpose of being fooled here. I have to tell you that your martial art family is benefiting from me. If you can’t come out, they can’t do it or have bad luck!”

“Is the introducer also going to pack your son to take the university?”

“I explain this, I am not afraid of you, and I will not be pity for you as a fool of the gun! I am not carrying the black pot that you stupid!”

“You want to invade my Tianshan Jianzong, come and kill one, and help me kill a bunch!”

The Tianshan Jianzong disciples, who have been crushed by hundreds of people and who have been submerged in the mountains, are still not able to keep their mouths.

Now that Shen Lang came out, immediately screaming at the Confucianism, one person pressed them hundreds of people to swear, and they were speechless!

How mad at this!

Under the organization of praise, the disciples once again reunified.

“Great elders domineering!”

In fact, it is not that Shen Lang is good at truss, but he knows the situation best.

Gao Li and Yang Yang also understand, but they are still relatively gentle, can not come out.

The other one is that his realm is so high that he can really suppress the opponent from the momentum and pass it directly to everyone’s ears.

The other party is really rude, but also weaker and younger. The master level is still self-confident.

Before that, Yuwenba’s repeated pressure was exerted.

Not to mention that the disciples are elated, that is, the elders, but also a big breath.

Even if I feel that the sects have been squandered by Shen Lang, they have to take it.

This is really a force to quickly reverse the momentum, and just spent a little bit of tongue, has not yet shot.

“Let’s talk nonsense! You must compensate two thousand medium-spirited stones today, or else you will be able to level your Tianshan swordsman!”

Yu Wenba was forced to be rushed by Shen Lang, and he couldn’t care for so many words.

And in order not to let Shen Lang speak, he jumped directly from the opposite side and came from above the Tianchi.

“There is a fight with me!”

To deal with high separation, he can only draw at most, but against Shen Lang, Yu Wenba still has confidence.

Xu Yangzi was in the middle of the realm of the realm, and it was definitely a light enemy, and it was successfully attacked by Shen Lang.

Now that he is guarded by God, can he give him a chance?

After Yu Wenba finished speaking, people paused above the middle of Tianchi, and looked directly at them. The Jianzong disciples at the bottom were even more overlooked.

Everyone is staring at Shen Lang and wants to see if he will promise.

According to the legend, Shen Lang should be the level of the initial state of the real world then he has a sword, there is a wonderful sword, in front of Yu Wenba, can not eat and walk.

As a result, Shen Lang had already flew out when his voice just fell!

Because the speed is too fast, everyone sees the effect of his remaining on the rock, in fact, others have already arrived in the air!

Highly alert Yuwenba, of course, will not be as slow as the spectators, he is timely to detect and defend.

His reaction and speed are very fast!

Shen Lang is faster!

It was so fast that he could make half of it, and Shen Lang had already hit a boxing punch on his chest.

The feeling of that punch, Yu Wenba can't describe it, it seems that it can't be the power of human beings...

But this time, he didn't have time to think about it, because he was beaten directly to the bottom of the dried Tianchi, and disappeared directly into the bottom!

Chapter 453 - God's 1 hand

The Tianchi was dry, and only the water inside disappeared, and it was not dry and boring.

The disciple of Jianzong is at the bottom of the Tianchi, but it is also on the stone near the rock.

Relative to the rock that is out of the water, they are below, not really to the bottom.

Because of the bottom, there is still a lot of mud.

Yu Wenba will just be beaten by Shen Lang and slammed into the bottom of the Tianchi. It is not really deep into the bottom, but it is caught in the mud.

Of course, it still has a depth of at least a few meters, and it hits the rock layer and stops.

Under such a strong impact, the broken mud immediately flooded, and immediately made his shadow invisible.

“Not self-reliant!”

Shen Lang sneered in the air: “At this level, we Tianshan Jianzong casually an elder, can play him to find the teeth! Still dare to challenge Laozi?”

Just now, let alone the enemy opposite, the disciples of the Tianshan Jianzong, also feel that Shen Lang is still a bit pretending to brag.

But just after a punch, Yu Wenba, who was in the late stage of the real life, couldn't see it in the ground!

Even if it is to force the bragging, it is also qualified to have the confidence!

“I – fuck!”

Yu Wenba was beaten with chest pain, but his heart hurts even more!

The master of the late stage of his true existence, the elite of the Master League headquarters, was hit into the depths of the mud in the face of hundreds of monks!

Where is the face?

What's more, the mud is unreserved and wraps his body up and down.

Where does this come out?

Therefore, he did not rebound in the first time, but first moved the mud off his body and distanced it from the surroundings.

Shen Lang said that he is not self-reliant, saying that an elder can beat him to find his teeth. He couldn't keep his mouth back, because a mouth was muddy and it was imported.

This is exactly the case, so that Shen Lang calmly said the words.

Then he smashed out of the mud and burst into a roar.

However, the word “fighting” behind him was just exported, and it was suppressed!

Shen Lang seems to be easy to make, and it is easy to say, but would you really feel that he was killed by a punch?

The vibration of the mud, he is clear!

In fact, most people on the scene, who could have observed and found it, just had a sharp punch, and despised everything, so that their attention was in the air.

After the talk, Shen Lang did not return to the rock, but at the same time as Yu Wenba came out, he kicked his head in the air one step ahead!

Ever since, Yu Wenba, the super-powerful person in the late stage of the real life, just took the lead, and was once again smashed by Shen Lang into the depths of the mud!

It was just hitting the chest, and this time it was not only a stronger foot, but also a condescending squat on the head...

The huge force of the reverse collision makes Yuwenba's cervical spine unable to withstand the fracture dislocation!

Although there is no direct death, it is also a serious injury to coma.

After being planted in the mud, it was impossible to dispose of the surrounding mud and let him completely sink into it.

“The scum of the body and mind are dirty! Also match me?”

While Shen Lang spoke while slamming his fists, he slammed into the place where Yu Wenba fell.

“Let's be merciful!”

At the same time, one sounded.

And there is a little golden sword, flying faster than the sound to the front of the sinking waves, directly shot to the head of Shen Lang!

Shen Lang felt the coma of Yu Wenba, he will not give the other chance, it is to beat the dog!

The other party's surviving late-stage powerhouse also found this, so Feijianwei Wei saved Zhao and wanted to save Yuwen.

But at this moment, Shen Lang did not dodge, but his left hand reached out and quickly grabbed it!

The two of them, as well as the fights in the air, are all done at the same time.

When everyone heard the words, the eyes clearly saw the scene –

Shen Lang still completed the punch in the air, and the left hand was caught a few inches from the golden sword.

However, because the speed and strength of the golden sword were too fast, after he was forced to seize it, he still broke through a few inches, almost stopping with the forehead of Shen Lang!

“噤-“

A large amount of mud splashed, and Yuwenba, which was deeply immersed in the mud, was already in a coma and could not defend. This was a little bit of the mud that was blocked by the mud, and it still fell on his head.

This time, the neck of the cervical spine is broken!

Such a super strong, so grievous death in the depths of the mud!

“Xia Yuntian! The challenge of single-handedly fighting, you actually attacked my teacher! I have the ability to come to me!”

Just that scene, let Gao leave a cold sweat. Because the speed is too fast, he is only more clear than others, and can't help.

Seeing the little golden sword almost pierced the head of Master, let him furious and flew directly into the air.

The person who declared his war is naturally the master of the golden sword, that is, the one who had just opened the post, the name is Xia Yuntian.

Xia Yuntian is also clear at this moment that Yu Wenba has been killed and can only sigh.

Just after Shen Lang actually relied on the hand of the flesh and grabbed his sword, it was very shocking to him!

Because the golden sword first speed is very fast, the difference between microseconds may have made his head holed.

Secondly, the sword is very powerful, and the body can be worn through a large hole, not just the width of the small sword, but also the sword.

The attack on the golden sword can only be dodged, otherwise it will destroy the weapon even if it is blocked by weapons.

But Shen Lang actually grabbed it by hand!

This is not only very fast, but also very powerful!

It's just a few more shots...

From the sudden killing of Yu Wenba to the incredible power of "Shenzhen", it has made Xia Yuntian unbelievable.

And Gao is arguing from the anger, and the shouting is actually "sneak attacking my teacher"!

When did Shen Lang become a master of high separation?

Gao Li is already a hundred years old. His master is a predecessor of the Tianshan Jianzong who has already passed away. How could it become a hairy boy?

“Shen Lang! You are too much! Yu Wen is here to tell you the truth. You actually killed him in three or two! Little age is so ruthless!”

At the time when Xia Yuntian had not come out to fight, another strong man who survived the late period of the real world flew to Shen Lang.

The audience was also shocked by the scene.

Shen Lang actually killed Yu Wenba with one punch and one foot!

Shen Lang can actually catch the flying sword by hand!

Shen Lang is actually the master of Tianshan Jianzong's first chief elder!

Everyone feels a little crazy, and this time, another thing that made them crazy...

The man flew out while questioning, and the sacred sacred on the rock quickly flew out to block.

“My master killed him three or two times, and it is obvious that this Yuwenba is a generation of people who are deceiving the world!”

Chapter 454 - Can you run off?

Master!

It is Master again!

Although everyone is not too familiar with the Tianshan Jianzong, these days, the offensive and defensive battles, of course, all the information spread.

Qi Sheng is one of the two strongest of the Tianshan Jianzong. He has never heard of him reaching the end of the real life, and he is still concerned about Gao.

According to the gossip who knows the old and the old, Gao Li and Sheng Sheng are not a master.

Just Gao Li said that Shen Lang is his master, has already stunned the eyes of the land, and now Sheng Sheng actually called him a master!

Everyone started to think that the brain capacity is not enough. What magic is there in this kid?

Why can you make him the master of the strongest elders of Tianshan Jianzong?

The one who just came out to ask questions, paused silently in the air.

Originally, he wanted to say that Shen Lang's heart was hot, but he could find out that Yu Wenba, who was in the late stage of the real life, was killed by a person who was in the early days of the real thing...

Really funny?

Is there a face that is out of the way?

The realm of several of them has reached the end of the real world. Of course, it can be assessed that the realm of Shen Lang is definitely the level of the initial stage of existence.

But why can he kill Yuwenba?

This is simply incomprehensible!

Yu Wenba and he played against each other, and saw him killing Xuyangzi, certainly not to underestimate the enemy.

Even if you are a light enemy, you can't be a light enemy twice in a row!

And just they also looked at it, the speed of Shen Lang is too fast, it is almost unbelievable.

And his power seems to be very powerful!

It's just that the speed can be seen. The power they have not personally contacted can only be estimated. It is not clear about the specific situation.

It may be that the Yuwenba in the late stage of the real life is directly killed, and the power must be terrible!

Shen Lang is also in the air. He has just attacked Yu Wenba. In fact, he wants to verify the strength of the three-month physical evolution of the retreat.

Just the first time, it is the combination of speed and strength.

That foot is the interception of the enemy's first machine.

So count, you can easily kill Yuwenba beyond his two realms, there are still tactical skills.

But this strength and speed directly respond to the level of his physical evolution!

To know!

He just did not use the "Phantom Meteor Step" and did not use the "Da Shou Mi Long Xiang Shen Gong"!

If you cooperate with the use of these exercises, even if the other party is fully focused, even if you do not rely on surprise attacks and tactics, it is still a positive battle with the real life!

"Xia Yuntian is it? You actually attacked me with a sword! It's really awkward!"

Shen Lang looked at Xia Yuntian who did not come out.

"But don't forget, we are called Tianshan Jianzong! Playing swearing (swords) in front of us, isn't it a classman?"

“Swordsong play sword!”

“Banmen get axe!”

Sheng Yang immediately organized the Jianzong disciples to make a loud noise.

The disciples watched the mysterious chief elder of Shen Lang, and they shot the other top tyrants.

I don't know how excited I am, and I shouted loudly.

“I will confiscate this sword!”

Shen Lang bluntly put the golden sword directly into the storage ring.

The reason why Xia Yuntian was not listed was because he was surprised and did not figure out the situation.

On the other hand, it is because his golden sword is still in the hands of Shen Lang.

Gao Li said that Shen Lang was his master, and he also shocked Xia Yuntian, because looking at his expression is not like a camouflage tactic, but really comes out to maintain.

Therefore, he did not dare to recall the flying sword casually, but prepared to resolve it peacefully.

I didn't expect that Shen Langzheng's puns slammed his sword and suddenly confiscated Feijian!

When the income reached the storage space, he also cut off the connection with Feijian, and he could not do it if he wanted to take it back.

“Shen Lang...predecessors. Please return me to my sword!”

Since Gao Li and Qi Sheng are both called masters, Xia Yuntian can only say “predecessors”.

He is also nearly a hundred years old, and it is really awkward to call a 20-year-old boy a “predecessor.”

“Look at your respected name for my predecessors, attacking me, I will not pursue you. But the sword is confiscated!”

When Shen Lang spoke, he waved his hand and returned to the rock with Gao Li and Qi Sheng.

“But...that’s my flying sword!”

“It’s your flying sword, it’s also the weapon that you attacked me. I didn’t pursue you, you should be lucky to have a life, or else Yuwenba’s end, you are the end!”

The words of Shen Lang have not only said that he is one, but even the other three exist in the late stage of the real world, together with the group mocked up.

The one who came out to ask questions, this time is also going back.

However, he did not say anything again. Under the circumstance, he did not dare to despise this mysterious young man.

No matter how it is used to conquer the high and the sacred, but just killing Yuwenba, it is not a matter of strength and evil, it is upright to be their face.

The five masters of the post-reality period are the strongest of their camps.

Now that one has been killed by others, the other four seem to be afraid. If there are hundreds of other people, what is the use?

The military heart is scattered!

For a time, they all began to think about whether or not to run away.

Where are you going to run, there are thousands of miles in the Tianshan Mountains!

The four strongest masters should be able to run, who are these people?

This becomes cannon fodder!

For a time, everyone was blaming the curse of Yu Wenba, who had already died. It was so confusing that the result was hung up.

On the contrary, the disciples of the Tianshan Jianzong are proud and proud.

“This is the case today... How do you want to solve it?”

After a while, there was a late-stage powerhouse who came out and asked.

Originally Yuwenba was responsible, and now they can only come out to clean up the mess, and can't leave it.

Shen Lang looked at him, although he was still under pressure from a distance.

“I can easily kill Yuwenba. Do you think I can kill one more?”

When I asked this question, the atmosphere immediately became tense.

“Or ask, when the three of us teamed up with the siege, who of you can run fast?”

According to the current card died a Yuwenba, they have four late real life, Gao Li and Qi Sheng to deal with one, they have two to deal with Shen Lang!

Winning face is still on their side.

But it was just so easy to kill Yu Wenba, not to mention that other sects have already panicked, that is, the masters of the strongest, and no confidence.

Can the two unions block the waves?

Now that the last sentence is said, it is more direct to differentiate them!

If Shen Lang, Gao Li and Qi Sheng jointly attack a person, it is a kill!

Will the other three people save? Still hurry to escape?

They are still hesitating, others want to run right away!

Shen Lang said to everyone: "It is easier to kill you! If you run, you can run out of the Tianshan range and count as my loss, including the flying magic weapon!"

Chapter 455 - compensation

If you run, you can run out of the mountains and count me to lose!

The disciples of the Tianshan Jianzong, when they heard this, felt very domineering and very hateful.

The other sects on the scene originally felt panicked and wanted to escape without dare to escape.

Now when I hear the words of Shen Lang, the fire will come up.

People always have to be dignified. It's already embarrassing to be exposed by you, and you have to be laughed at!

They can climb over thousands of miles of Tianshan to the scene, and there are also the strengths of the virtual world. They are so ridiculed, and some can't stand it.

However, the current situation is that the four masters of the Master League have finally surrendered.

What can they do if they can't stand it? Still dare to come out and challenge the waves?

Who are they stronger than Yuwenba?

However, in addition to the fear of most people, there are a few who want to “try the law” and use action to fight the face of Shen Lang.

There is a sneak peek at the back, and I try to retire without being noticed.

This speed can be limited in the end, and the change does not know what will happen.

If you have a flying magic weapon in your hand, you will not believe in evil!

A magic weapon can often make a family sect for several hundred years, generally not at a critical moment, it will not be used.

For example, the Chu family has two magic weapons, such as “mixed yuan bombs” and “shenzhou boat”. In the early stage, it was also used to copy the one-time magic weapon, and did not ask for it.

Because the better the magic weapon, the easier it is to recruit!

The revealed result is easy to be remembered.

Now Shen Lang said such a thing, it is not only a critical moment to save lives, but also a face that wants to fight the waves.

So one of them carried the same magic weapon, gathered his own martial art, started the magic weapon, and flew directly!

This change has attracted everyone’s attention.

Looking at the start of the magic weapon, everyone is in two mindsets.

One is envy, if you have a magic weapon at home, you can leave directly.

The other is the gloating fun of Shen Lang. You are not saying that the flying magic weapon is not good either? People are flying away!

Shen Lang did not seem to care too much about this change, waiting for the magic weapon to start, only to wave.

When everyone was wondering, they found that the flying magic weapon that had just flown up was not as high as flying, nor how far it was flying, as if it had been bombarded!

Then, under the gaze of everyone, even the magic weapon brought people and fell directly into the ravine in that direction!

The avalanches that were alarmed by the sound directly covered them all.

For a time, everyone looked at Shen Lang again, full of awe, just thinking of a word –

Talking and laughing, the strong smoke and smoke are gone!

Before hitting Yuwenba, it's easy to raise your hand. Now you can destroy the magic weapon that flies out. It's also an understatement!

Is this just a master of the early days?

Everyone has a thought, isn't this a wave of pigs to eat tigers?

Deliberately revealing that only the strength of the initial state of existence, in fact, may be higher than the late real life!

If this is the case, then does he reach the peak of the truth?

too crazy!

In the past few days, their information about Shen Lang has been thoroughly developed. It was only two years ago that the grandson of Chu Mofeng was left behind in the dead forest.

It is said that at the time, the Chu family had also destroyed his parents and friends!

If there is such a strength at the time, it is impossible to hide it, indicating that it was really a small shrimp at that time.

After returning for a year and a half, I won't wait until Chu Mofeng's shot, and it's already miserable with the Chu family who are still in the virtual world.

Even so, the speed of progress has already made everyone wonder.

In the past six months, it has progressed faster and faster. Almost every time it disappears, it is a leap.

Half a year ago, and the peak of the virtual world, you can kill me and live;

Five months ago, taking advantage of the sword to kill the Chu Mofeng in the early days of the true state;

Four months ago, a person pressed a number of masters to help the boxing of Xie Jia;

Three months ago, killing the mid-master of the real world holding the fifth sword of the world...

And now, just now... He shredded the master of the late real world and waved the magic weapon!

What kind of adventure is it that makes him soar?

What happened to the dead forest?

Hundreds of people are silent, and the faces of several people like Xia Yuntian have become very unsightly.

Because they just took a look at the mentality of wanting to see the jokes, they did not expect him to shoot down the magic weapon from a distance.

So they didn't look at it, I don't know how Shen Lang did it.

In exchange for their words, unless in front of, or when the magic weapon has just started, it can shoot down, once it flies away, there is no way.

This again shows that Shen Langyuan is stronger than them!

The master who just asked Shen Lang how to solve this problem, this time is also re-adjusted mentality.

“Master Shen, you are alive, but the scene is the genre of the Central Plains family, destroying any pulse, is the loss of China's comprehension, but also hope...”

“and many more!”

Shen Lang interrupted his words.

“What do you mean, the sects of the Central Plains have been destroyed, which is the loss of our country's comprehension. Is our Tianshan Jianzong a savage savage in the Western Region?”

“This... I don't mean this.” The master was a little embarrassed.

“Don't you give me a hat! When you come to besiege us, don't talk about comprehension, light up the stone! Now give me less!”

The reprimanding of Shen Lang is directly addressed to everyone.

“It's easy to solve peace and compensate us for the loss!”

When everyone heard the compensation from Shen Lang, everyone was relieved.

As long as there is something to talk about, then everything is negotiable. I am afraid that this is not to kill!

Xia Yuntian quickly swept a few hundred of his own people, sensing that everyone is a relaxed attitude, understand psychologically accept compensation.

He sorted out his thoughts and flew to the air above the Tianchi to stabilize.

“Shen...master!”

Let him be a predecessor, still feel awkward, change the general name of the master.

“On behalf of everyone, I will discuss with you the compensation plan...”

He pointed his finger: “These days are under the control of several of us. Although there are frictions, both sides are very controlled, and there are no large-scale casualties. It is a blessing. It is a practical training for both sides. Let’s go!”

This is said to be The disciples of Tianshan Jianzong are angry.

In the past few days, they have been beaten and beaten. There is no death because the other party intentionally humiliated them, and most of the wounded and bloodshed are Jianzong disciples.

“You are doing a good job. This time the conflict is a practical exercise for both sides. Everyone is not going to investigate the consequences? Can you represent it?”

Shen Lang gently applauded.

Everything is not believed.

Just how can you let me go so easily?

Xia Yuntian looked back and was full of doubts and cautiously replied: “I can represent you, I will not pursue it. But you...”

“Of course I don’t pursue it!”

Although Shen Lang said very positively, everyone is still full of doubts, which is totally different from his style.

Chapter 456 - Lose my spirit spring

The disciples of the Tianshan Jianzong are also difficult to understand.

The performance of the recent Shenlang is extremely strong, and it is everyone's blood.

Why did you change your attitude quickly after the other party was soft?

It is a high separation and a sacred, but also a bit puzzled. However, they all believe that Shen Lang will certainly not make a loss of business.

Only I thought about it for a moment, and then I showed a smile.

“A Yu Wenba in the late stage of the real life was shot dead by me. You can all be a real combat and not pursue the consequences. If I investigate the wounded of the disciples below, I will see that my sword is too stingy.”

Shen Lang said this sentence, everyone responded.

“Yes! A master who lived in the late stage of the real world was shot dead by our elders. What am I doing?”

“The plan is! The elders have already avenged them.”

“Enough enough! Just got rid of their magic weapon.”

“Well! I have already promised, these can't be pursued!”

Many disciples immediately screamed, and Shen Lang just promised to make it easy for Jianzong to win back the public opinion.

The opposite of Xia Yuntian secretly smiled, and hundreds of other talents woke up – the original ambush here!

Everyone who has just escaped from a sect cannot be pursued!

Yu Wenba's death is also the death of "real combat training"!

However, the people of that martial art all hang together, and there are no friends and relatives of Yu Wenba at the scene. It is still not their business.

As long as you have nothing to do, what are they who are dead?

"Since we are not pursuing each other, can we leave?"

"Yes! Can we go now?"

"Speaking can't count!"

Xia Yuntian also returned to the negotiations: "Is that..."

Shen Lang raised his arm: "Who said that he can go?"

I had already started to move. When I heard this, I was nervous. Then I said that the words of Shen Lang were not counted.

"The personnel do not pursue the matter. Everyone does not pursue the case. Actually training the soldiers! There is no complaint about death or injury. It is not good for me to learn. I will not pursue compensation for medical expenses. But you have done tremendous damage to the Tianshan Jianzong. This is what I said. The compensation thing!"

"What great destruction?" Xia Yuntian frowned.

Everyone is also very unhappy. Everyone has not entered the Tianshan Jianzong. Why is it huge destruction?

The disciples of the Jianzong, including the elders and the sovereigns, are also groaning in their hearts. 'I don't know how to smash them at this time... oh, no, you should say how to make a reasonable claim...'

Shen Lang pointed to the Tianchi below.

"Since you have been here for many days, you should know what was the original situation here? What is the situation now?"

Just when everyone is puzzled, Shen Lang continues to play.

"This is not an ordinary Tianchi! This is the Lingquan Pool of our Tianshan Jianzong!"

Lingquan pool?

Half of the people at the scene have not responded yet, and they are asking others what Lingquan Pool is.

The other half are shameless!

It is obviously an ordinary Tianchi. These are the snow water that has been rained and peaked. It has a fart relationship with Lingquan!

"The spiritual spring of this pool is slowly accumulated by our Tianshan swords for thousands of years. It is not only the resources of our Jianzong disciples, but also the spirituality and foundation of our sects!"

"The elders are right!" Yan Zun looked serious and attached.

"The elders are right!" Under the command of praise, all the disciples and disciples roared together.

But this time, everyone is full of a smile.

I was a bit skeptical that the elders were going to swear, or when others said something good, they let go.

I didn't expect the elders of Shen Da's sorrow to far exceed their imagination. This Tianchi is a spiritual spring. How to pay?

Xia Yuntian directly eyes.

“What can you do more?”

“Where the Tianshan Swordsman came for thousands of years!”

“You might as well say that the entire hill is a stone, all stolen by us!”

“Too shame!”

“Shen Lang is not a big elder? Can you make a point?”

Shen Lang slowly said: “Our disciples are not good at learning. I have already cultivated them. I will go back and educate them to cultivate them. But the treasures left by the ancestors have been trampled on by you, but they have to be compensated!”

“If I take people to destroy all the ancestral ancestors, can't you bear it?”

Xia Yuntian looked back and talked with the other three people.

They all know that Shen Lang is just looking for an excuse to come out, it must be a claim!

But all of them are too dark! It was said that it was good to listen to it. The result was that the killing of Yuwenba was cleared, and now it is only because of the reasons.

“That is the meaning of Master Shen, how do we compensate?” Xia Yuntian asked again.

“We have such a huge day, the pool of springs, enough to last for a thousand years. But in the comprehension of the truth, seeing that you know the wrong, we also have a symbolic claim, in order to have a confession to the ancestors.”

The words of Shen Lang made everyone feel a little better.

However, his performance has been sinister, and no one can believe his words until the final result is not available.

“Sovereign, although we have suffered heavy losses, but we are not at the same time, we are not in a position to make a symbolic claim.”

For the inquiry of Shen Lang, Yan nodded solemnly, this is the face that was given to him in public, and it was also a performance of singing and singing.

He knows that Shen Lang definitely has a plan, so it will not blend: “Hey! Hey ancestors! Just listen to the elders!”

“There is a symbolic compensation. If the scene is below the real world, one person will compensate for a medium spiritual stone. If you live in the real world, one person will compensate for ten spiritual stones.”

As soon as this program came out, everyone fry.

“I know it’s not that simple! Is this still symbolic?”

“Compensate for a fart! It’s not me who dried the Tianchi!”

“That is, we are not involved at all, we have to pay for it!”

“Whoever is doing it!”

What is also true is that Tianchi is not what they do, so what should they pay for?

If you live in the real world, you feel that you have been smashed. You can knock on so many masters' bamboo sticks at once, and this is the first time in the past!

“High, sacred!”

“At!” Suddenly heard the words of Shen Lang, Gao Li and Qi Sheng immediately agreed.

“You have collected it now, compensated, and you can leave now.”

Shen Lang himself sits in the middle of the army is the two strong elders of the Tianshan Jianzong, the super strong in the late real life, they are absolutely no danger, there is enough Deterrence.

“Disciples listen to orders!”

“in!”

This time, there is no need to praise the organization, and all the people are eager to agree.

“The elders are leading, and the disciples are preparing for the sword! Don't let the family get angry and hit the door!”

“Yes!”

Chen Yuhe and Yang Yuansong were also infected and took the lead.

As soon as the Tianshan Jianzong made a deadly battle, the people of the major sects suddenly became guilty.

Xia Yuntian is a dark frown, and now the high left of the holy arm left the right arm, do you want four people to besiege the waves?

Chapter 457 - It's not that simple

What Xia Yuntian thought, the other three also thought.

Originally, Gao Li and Qi Sheng were able to hold back both of them. It was just the end of Yu Wenba. Just two people said that they were not confident enough to deal with Shen Lang.

But if there are four people besieging Shen Lang together, they still have confidence.

but.....

They can think of this, can this unexpected wave be thought of?

Isn't it a trap?

At that time, Shen Lang alone held them four, and the other elders of Tianshan Jianzong attacked from below, Gao Li, and Sheng Sheng copied from the back bread...

Although they don't think they will be killed, Yu Wenba's foresight is in front of him, and no one is willing to take risks.

Xia Yuntian is equivalent to no statement, neither agreeing nor opposing.

When the superpowers in the late period of the real world came to the front, the sieges attacked the sects of Tianshan Jianzong for a few days, and they were even more nervous.

The strongest of the sects is that they are still in the virtual world, thinking that they are just a few medium spirits, or they can afford it.

Compared with the consequences of the flight of the magic weapon, the decisive one compensated for a spiritual stone, and then allowed permission to start retreating directly.

When I saw someone leaving, the ones that were already flustered were relatively weak, and they immediately learned the same.

Where there is life, there is hope.

The hero does not eat before the loss.

There are still a lot of old words to comfort yourself, and it is not too shameful to let them leave.

When the departure of the door was added a few more, it was not individually affected, but hundreds of people were affected.

It's still not reconciled to compensation, but the price of a medium Lingshi is not too big, so they can quickly resolve to leave.

It's much more important to save the real world.

On the one hand, they are also master-level, but they have to be smashed by the waves!

On the other hand, ten medium-spirited stones are not reconciled to compensate for a pool of snow.

However, some of them have taken the lead in thinking about the future of the sect, or compensation for leaving the matter.

In a very short time, the sacred, high-scoring action, collected the spiritual stone of most people.

After more than half of the time, those who are more stubborn have become more shocked.

So it was collected by passive thousands, and they became active and squeezed into the spirit stone.

This scene makes Tianshan Jianzong very admired from the top down.

Before the Shenlang came out, everyone was still overwhelmed and forced to hold the Zongmen. This is still the room for the other party to reserve.

It can be a smashing wave, it is simply a gesture of sweeping the leaves, and in just a short while, the other party is forced to collapse.

Looking at these sprinting monks, it is hard to imagine that they were still invading the invaders half an hour ago.

The collection of Gao Li and Qi Sheng, of course, is to collect other sects first.

The remaining four of the Master League headquarters are all in conflict with their level, Wan, and they affect the plan of Shen Lang.

With the departure of these monks, several people who had been surrounded by stars and stars became more and more embarrassed.

“Summer, do you have any different opinions?”

The sudden opening of Shen Lang made Xia Yuntian look awkward.

“No, since everyone accepted it, I don’t need more than one sentence.” Xia Yuntian smiled bitterly, then added: “I don’t call Xia Liu...”

At first, he thought that Shen Lang remembered his name wrongly. When he repeated it, he realized that he deliberately said that he was “indecent.”

“My name is Xia Yuntian.”

Then he also became serious: “Since everything is negotiable. Then I don’t know what Master Shen wants to give me the confiscated flying sword?”

His golden sword is a flying sword that he has been raising for decades. He has been quite spiritual and has done what he wants.

It’s a big exaggeration to say that people are taking thousands of miles away, but within a kilometer, you are sure!

If it is within 100 meters, it is a master monk, he has the confidence to kill in one fell swoop!

There is no substitute for this flying sword. If you let him find another one, even if he can find a better one, he must repay a lot of effort and think big.

“The air of our lord just now, our swordsman atmosphere, symbolic income compensation. You have to redeem this, but it is not so easy. After all, you just want to kill me!”

Shen Lang embarrassedly shook his head: “I still forget it, don’t say I am pitting you.”

Xia Yuntian’s heart sank.

This means that you have to pay a huge price to redeem Feijian!

With the strength of Shen Lang, he wants to grab it hard, and there is almost no chance to grab it back.

“Master Shen, this is my personal flying sword. Compared to others, it is scrap iron... Well, it is not a scrap iron. It is a relatively ordinary small sword. I hope you can allow me to redeem it!”

Shen Lang smiled slightly: “You are right, this thing is worth a lot to you, so the high price will only open for you.”

Xia Yuntian was depressed for a while.

Originally, I wanted to emphasize that this sword is of little use to others, and the result is interpreted as having a great effect on him, and the same is true.

This is to hang him!

“Right, by the way, tell you something. For others, it has no special value. But don’t forget, we are Tianshan Jianzong! When it comes to playing swords, we still have a set.”

When Shen Lang spoke, he took out a golden sword and said it while playing.

“The spirit is full and the mind is not open. Just wipe out your traces. We can use an elder and spend some time to refine it for its own use.”

This is said, Xia Yuntian is not depressed, but a burst of tension!

Originally, he was still determined. Shen Lang could rob him of the fire, but he could not be too much because he was the only buyer.

Now that he can erase his traces above, he is shocked. If he can really do this, he will make a wedding dress for others.

I have a baby in October and have raised my son for 20 years.

Take away the memory and become the son of others. Who can be willing?

“He is swindling you!” Another master of the late real world flew to the side of Xia Yuntian, staring at Shen Lang.

“You can try it. I can catch it live and tame it.” Shen Lang sneered slightly.

Xia Yuntian is very entangled now, and he is not sure if Shen Lang can do it.

But the other party is indeed a sword repair sect, maybe there are really some secrets that can be done.

Just as others will get hurt, Shen Lang can easily grasp the same.

He didn't dare to gamble with his baby.

“How many Lingshi do you want?” Xia Yuntian's voice is a bit low He is ready to give in.

Lingshi is gone, you can think of another way. The Lingshi that is obtained everywhere is the same.

This flying sword is irreplaceable.

At this time, Gao Lihe and Sheng Sheng have already been collected, and other sects have already retreated.

Looking at the two people facing the waves, they are also standing behind the waves.

“You four, you have to pay compensation. I am very fair, but I have to pay ten. I have not claimed because you are the main destroyer.”

In the late stage of the real life, wherever you go, you are a huge monster, you can crush a martial art family!

Four together, we must be smashed by the waves!

They all feel shame!

Chapter 458 - Third party

But now they are four, really want to fight, not to mention the helper, that is, the cannon ash is gone.

Although they can also kill a large number of ordinary disciples of Tianshan Jianzong, but if Shen Lang does not care?

Even if Shen Lang cares, killing takes time, and masters fight, often the final victory is in the blink of an eye!

“Get it for medicine!”

One of them couldn't help it, didn't say it well, and threw out ten medium Lingshi.

Do not need to wave the hands, Gao Liyi raised his hand and took Lingshi into his hands.

The other three can only be given one by one.

“What about me?” Xia Yuntian asked again.

When things got to the present, he began to regret it.

I knew that Yuwenba would eventually be killed. I shouldn't be in the first place. Now that people are not saved, their flying swords have been lost.

“A thousand medium spirits...”

“What?” Xia Yuntian was discolored.

“You, why don't you grab it!”

“You are too dark!”

“There is no such thing as a robbery!”

Shen Lang waved his hand: “Listen to me, I mean, a thousand medium Lingshi, you can't get it out of Xia Yuntian. They seem to be your friends, and they may not help you.”

Everyone was silent.

This is Xia Yuntian's business. They can swear by their own words. If they want to raise a lot of spiritual stones, that is another matter.

“One hundred, you should have come up with it. But we are so atmospheric! You can't be too bad, fifty medium spirits.”

Shen Lang said, holding up the golden sword, indicating that he can take it back at any time.

Others don't know, but Zun Zun is secretly nodding.

He was originally a sovereign, and he was much more comprehensive than other elders. After the abolition, it is to rely on the brain.

Just because Shen Lang has not offered the price, he hinted that he would ask for a high price, and then deliberately said a thousand dollars.

These are all raising the psychological expectations of Xia Yuntian, and then say one hundred. It is reduced to 50, and the huge contrast gap often makes people feel cheap for a while!

Just like carrying goods to the ground, I feel that the 500-pack is expensive and not worth it.

However, if you visit a brand-name store of more than 10,000 yuan and then look at 500 pieces, you will find it very cheap.

At this point, Gao Li and others have not turned around, and they are all calculating the problem that fifty Lingshi values are not worthwhile.

The other party is also the same, and the target character's Xia Yuntian is completely calculated as Shen Lang.

“Good! I give it!”

I am afraid that Shen Lang will repent, not to mention the price of five hundred or one thousand, even if it is one hundred.

When Xia Yuntian spoke, he quickly took out fifty medium spirit stones and threw them out.

He really wanted to take back the flying sword right away, but he still resisted it. He waited for the height to confirm that there was no problem with Lingshi.

“Congratulations! It is yours.”

Shen Lang threw the flying sword back to him.

Xia Yuntian quickly recalled the sword to his hand, and finally he was relieved.

You can start to hurt now...

This is his own!

Now it has to be bought at a high price!

“Go!”

Xia Yuntian sighed and greeted several other people.

When they landed on the hillside opposite the Tianchi, they looked back at it.

“This is not over!”

“Today is for the safety of the various monks, we are not afraid to take risks.”

“How can you dare to go to the Master League headquarters?”

When they heard their provocation, the first one was not convinced.

“There is a kind of battle! If you don’t plant it, go to your headquarters. It’s also a turtle who wants to invite someone else to come out!”

A few of them directly ignored the sacred sacred and continued to shout at Shen Lang.

“Shen Lang! You are out of the limelight today, but it does not mean that you are invincible!”

“We are here to send out an invitation. After half a month, Qingyuan Tangyuan is waiting for you!”

“Do you dare to come?”

When I heard about Tangyuan in Qingchuan City, Shen Lang was slightly surprised, but I didn't care.

Tangyuan can hold such a big trade fair, which can convince everyone that in addition to their anonymous way of hiding, there must be a big force behind the platform.

Just did not expect to be the Master League headquarters.

“Roll your eggs!”

Shen Lang smiled and said: “Now fight me, do you dare? You dare not! What is your qualification to invite me?”

The master was humiliated by the words, and almost wanted to come back and fight with the waves.

But think about the end of Yu Wenba, if there is no partner's team, the heads-up will not end well.

“I want to invite me to Qingchuan, it is not impossible, let's give the first place!”

Shen Lang stretched out a lazy waist: “I want to ask me to play, but it is not cheap! You have to get together three hundred medium Lingshi, I promised.”

“Don't dare to say it! Nothing is too shameful. It's a shame to open the sky as an excuse!”

“Yes! You just didn't say that you have a fight with me? Why do you challenge me! If you can give me three hundred spirits...”

Just that one also countered with the routine of Shen Lang, but before he finished, he was interrupted by several people, such as Xia Yuntian.

Then he himself discovered the middle meter. What if Shen Lang really gave the three hundred Lingshi?

“Three hundred Lingshi is it! I can afford it! Although you are not worth the money, I don’t mind paying for it!”

Shen Lang said, directly leapt to Tianchi, to the opposite side of the hill.

Yan Zun is a little anxious, and Gao Li and Qi Sheng, also quickly catch up with the past, lest the other four people besieged the waves.

Shen Lang really came up and let the man red face.

Xia Yuntian is in front of him: “Private challenge and let go, we are the invitation of the Master League headquarters. It is not to fight with Master Shen, go to a group to discuss.”

Then he gritted his teeth: “We don’t have so many three hundred stone, two hundred Lingshi, maybe we can make it.”

Then he looked at other people.

It’s very uncomfortable to have just been topped by Shen Lang’s Lingshi. I also hope that the Lingling Stone will pull Shen Lang over their territory.

After he nodded, the other two also nodded and agreed.

“Master...” Gao Li immediately screamed.

Next to the sacred shrine also shook his head, indicating that the waves should not be fooled.

Once you get to someone else’s site, even if you are a great person, you can’t go to heaven.

Besides, they agreed for half a month, that would allow them to be fully prepared, and then they might have invited the masters of the real world to ambush.

Shen Lang nodded, indicating that he had a good heart, and he would not see the money to open for the sake of the stone.

“This time the conflict between you and me is that you are bullying the door. If I set foot on your master league headquarters, it is also my way to go to the door. It is better to change a third party!”

“Third party?” Xia Yuntian frowned slightly.

“Ze Tianhu! There is a floating island in the lake. It is a good place. Whether it is a negotiation or a duel, everyone can go there!”

“Ze Tianhu? Hanging island?”

Xia Yuntian repeated it and then decided decisively.

“Okay! Since you have promised, it will definitely appear at that time. If you want to play with us, it is that Tianshan Jianzong is ridiculous.”

“First give the appearance fee to say it!”

Shen Lang recruited and waved, indicating that they would come over and talk about Lingshi.

Xia Yuntian was helpless and could only join the three of them to join the Lingshi.

Chapter 459 - Rebuilding Tianchi

Looking at the four of them, they quickly went away, and Gao couldn't help but remind him.

“Master, you are still being motivated by them. They are absolutely uneasy.”

“Not bad! We don't need to be on them at all!”

Shen Lang shook his head: “Today, this is only to temporarily repel them. Master League will certainly not be reconciled, even if they don't go, they will come to the door.”

Looking back, I relaxed and checked the injured disciples.

“Don’t say that they are looking for stronger people, they are four, and everyone else except us three have resisted?”

This question makes Gao Li and Sheng Sheng a speechless.

Yes, there is no way to prevent thieves for thousands of days. Whether it is Shen Lang or both of them, it is impossible to maintain a high degree of alert every day.

With their ability, they can completely invade the Jianzong, engage in destruction, kill a few disciples and then withdraw.

Even the only need to guard, when a disciple came out to kill, but also locked the Tianshan swords.

The disciples of Tianshan Jianzong are monks with certain realms, and naturally they have heard their dialogue.

Their original joy is a shock!

The mysterious chief elder of Shen Lang was recognized by everyone for his generous gift.

Today’s domineering appearance also makes them very admired and admired.

But now that I hear this helplessness, I really let them return!

Can put the safety of all their ordinary disciples on their bodies, regardless of their own risks, such a great elder, is not worthy of the chief elder?

Yan Zun didn’t want to let the morale that had just risen broken. He signaled that everyone would gather and let everyone go back.

After Shen Lang named it, he did not continue to talk, but spoke to the Jianzong disciples.

“Yu Wenba has been shot dead in the ground, but this Tianchi is the face of our swordsman. How can I let his body be buried inside? He is not worthy!”

“He doesn’t deserve it!”

The disciples shouted, and now they have a very passion for Shen Lang.

“So, if anyone is free, help me to dig him out. Of course, it is best to help me clean up, not too stinky, I still have use.”

“Yes!” everyone shouted and promised.

Then there is no need to praise the arrangement, many people rushed to dig the body.

Shen Lang said, Xia Yuntian did not take them away, naturally it is a corpse, and there is no possibility of living, they are not afraid.

“We make up the Tianchi!”

The sentence of Shen Lang is about Gao Li, and there is a sacred saying. After that, he will fly directly to the top of the mountain.

Gao Li and Qi Sheng were a bit puzzled. There is no water source here. I can only wait for the rain. Where can I pump it?

Seeing the action of Shen Lang, I immediately reacted.

“After dig out the bodies, take them... when this is waiting!”

Gao Li immediately gave an order to Chen Yuhe, Yang Yuansong and other elders, and then went with Shen Sheng and followed Shen Lang.

I want to let everyone go ahead, but I want to let everyone see this scene, but also to increase the sense of belonging.

The monks started to dig up the people, and everyone went to the opposite hillside.

Has already leapt to the peak of the Shen Lang, after watching the following situation, go straight out!

Followed by the high separation and the sacred, also reached a different position, began to sword and ice.

Everyone looked up and saw that the waves seemed to open the iceberg!

I don't know the glaciers that have accumulated for centuries and thousands of years, with the snow above, quickly falling from the summit.

Huge ice cubes fell into the Tianchi, causing the ice to fly.

Everyone sincerely lamented that the admiration for Shen Lang has become more in-depth.

Chiseling icebergs, storing the sky pool... This can be regarded as a rushing sea!

The three people worked together, but in a dozen minutes, the Tianchi had been filled with a lot of ice and snow.

The mountain peaks can only be used in the face of this side, and it is much more troublesome to move in other directions.

Shen Lang estimated that although he could not recover from the original water level, he could still count as a "Tianchi", and then he would slowly recover.

Under his gesture, the three men landed together from above.

"The three great elders are too brave! One hand makes Tianchi!"

Yan Zun took the lead and praised it, and others praised it again and again.

Shen Lang looked at it and landed in Tianchi, all of which were a lot of ice.

Here, the Tianchi can be formed. The temperature is of course higher than the peak, but it is a few degrees above zero. It must be naturally opened, but I don't know how long it will take.

A low water level Tianchi is acceptable, and a pile of ice at the door is a bit awkward.

He hesitated for a moment, and did not call Gao Li and the two directly.

Everyone saw that Shen Lang suddenly rushed into the huge ice cubes of Tianchi, and did not know what he was going to do.

Then I saw his body moving fast, and in the process of moving, his hands quickly opened the bow!

Almost instantaneously, there are dozens of punches and hundreds of palms!

His body is also like a humanoid tank, and the ice that he touches is crushed!

Everyone saw only one beginning, and then was obscured by the scattered snow flakes.

After waiting for the rapid round of indiscriminate bombing of Shen Lang, the huge ice cubes that were not known for thousands of years have been broken and laid in Tianchi.

High, they did not look at the waves, and after understanding his intentions, the six elders joined forces!

After the smashing of all the giant ice, they displayed three real fires together, letting a dragon hang over the ice.

The disciples are really eye-opening today. They first saw the sinking waves. They cut the ice from the peaks and filled the pool. Then they were the broken bodies of the body. Now they are the elders who have ice together.

They witnessed that the Tianchi water was drained, and they were quickly filled up. They were sincerely proud of the strength of the division!

After rebuilding the Tianchi, Yan Zun asked the public to arrange for everyone to go back.

Their Presbyterian is the last to go back.

Shen Lang did not go in but pondered for a while, on the basis of the original magic array, made a re-arrangement, re-joined an early warning to kill!

Normal Jianzong disciples are in and out, there is no problem. If there are outsiders who want to fight hard, they will start killing!

Although the lethality is still limited, it is also effective to kill it by surprise. At the same time, it can also give the swordsman an early warning and a little more time to cope.

After the good battle, there are some details to let the praise of all the disciples, so as not to accidentally hurt their own people.

Qi Sheng, Yang Yuansong, and Chen Yuhe, after a battle in today, are also completely admired by Shen Lang.

They are also very glad that this time it's hard to go, there's no choice to sell the sinking waves, or else they don't know what the outcome is.

And just the layout of the array, let them also fully believe that Gao Li said.

If it is not the reincarnation of the cold autumn ancestor, which young man in his early twenties can make such a delicate array?

Chapter 460 - Group retreat

Back in the Jianzong Valley, the elders met again.

Yang Yang reported the loss of this time. There were more than a dozen disciples injured. Fortunately, when the other party has not yet reached the hand, there is basically no life worry.

Then there is a high statistical gain.

There are hundreds of people on the scene, mainly in the virtual world, but the real thing to compensate for ten Lingshi, and finally add up to nearly five hundred medium Lingshi.

Xia Yuntian and other four people compensated for forty. In addition, he personally redeemed Feijian, using fifty, and the final appearance fee was two hundred, a total of two hundred and nine.

All the gains add up, close to the eight hundred spirits, so that the elders are amazing again and again.

Originally, the other party came to ask them to claim one or two thousand medium-spirited stones, and they must have almost reached the road.

As a result, when Shen Lang appeared, he reversed the situation and made a fortune.

This ability is that the cold autumn ancestors of the year can not match!

At this point, it is no longer important that Shen Lang is a reincarnation of the cold autumn.

The important thing is that he cares about the Tianshan Jianzong!

To this end, everyone is truly surrendered.

“These are all included in the storage of Zongmen. If you need to cultivate, you should apply separately.”

Shen Lang simply said that he had placed all the Lingshi.

In three months, he contributed two hundred to Zongmen, and another hundred for the elders. Now, nearly 800, it is more than a thousand.

This is even awkward and unsatisfactory.

“Master! The spiritual stone harvested today depends on you. If you don’t have it, we will not be able to withstand the ancestral business for a few days. So...”

Sheng Sheng said that he stood up and bowed deeply.

“These stones should belong to you and beg you to accept it personally!”

Before his surrender, it was because Shen Lang could treat him well, but today he saw it with his own eyes. Shen Lang directly shot Yu Wenba who was not inferior to him!

He is a proud and emotional person, but he is not a traitor. Now he is convinced of Shen Lang and he has entered another extreme.

Very admired for Shen Lang!

This is completely from the heart, I think it is a wave.

Yan Zun and Chen Yuhe and Yang Yuansong also pleaded together.

“Yes, these should be the income of the elders, begging for it!”

Shen Lang hesitated: “Belonging to the Zongmen, it is also a reserve. No matter all the disciples, or the elders, they will not consume so much in a short time. There may be other uses in me.”

After he admitted this, he laughed again.

“Since I have regarded Jianzong as my own martial art, I will continue to contribute in the future. In this batch, I will accept half of it!”

Gao Li directly reached out and pushed the collected Lingshi into two parts.

“Half is too little! These six hundred are collected by Master, and the other sovereigns are kept.”

Everyone is also applauding together. In addition to the six hundred, there are still nearly two hundred spiritual stones, which are almost comparable to the gifts of the previous Shen Lang.

For the Tianshan Jianzong, it is already a huge gain.

This is earned by Shen Lang. If you contribute to Jianzong, you can even contribute half of it. If you change it, they will be unwilling, and they will be more than willing to insist that Shen Lang must accept it.

Gao Li is afraid that Shen Lang will not accept it, and he added a sentence with a joke.

“Master, you have to take the lead! After we have personally harvested resources, we have to look at you. You are selfless, we can have selfishness, I hope I can stay a little more.”

Say everyone’s mind, let everyone laugh.

“Okay. Then I am welcome.”

Shen Lang is also completely calm, after all, in addition to the name of the compensation for the sword, there are two hundred and five in his personal name.

“Master, half a month later, Ze Tianhu...” He was a little worried.

In front of many disciples, you can’t show too much, so as not to affect morale.

Now here are the Presbyterians, everyone must make a good sum.

“This is what I am going to say now!”

Shen Lang took a clap: “I said last time, you are trying to prepare for the problem. When I go out, I will give you a point. I hope that you will gain something. When someone can help me, I will help you.”

This is related to personal cultivation, and whether you can go to Zetian Lake for a battle, everyone is excited.

The first thing to point out is praise.

It is the best for him to listen to the higher realm issues, but it may also be misleading.

In order to be safe, it starts with low strength.

His question is relatively simple, and there is no need to say more about it. The other elders have enough to point out.

Then there are Song Tang and Jiang Yu, two elders who lived in the early days of the realm. They will also point to them before they leave.

In the past few months, I have studied the manuscripts of Gao Hanqiu, so that they have learned a lot of income, and now they have reached a bottleneck of breakthrough.

Shen Lang gave them a bit of advice.

It is much harder to go to Chen Yuhe and Yang Yuansong.

They have been preparing for many years, but they have also retired a lot. However, there is still a gap between them. If you take shortcuts like the sacred sacred, you can't break through the real situation for the time being.

However, their gains are also great, they can lay a solid foundation and make great progress.

The two sacred and high separations are the final instructions, and let others go first.

The sacred sacred is spurred by the use of poison, and it still needs to be treated by Shen Lang. There are also many places to be corrected.

Gao is not the same, he has long been trying to break through the peak of the real world. When Shen Lang explained his guidance for him, he was already quite rewarding.

Just because of the Thousand Caves, there is no retreat.

After returning, more research and learning, and more understanding, but afraid that the Holy Ghost will still chaos, in the days of Shen Lang retreat, he did not dare to retreat, but also had to preside over the overall situation.

After solving the problem with Shen Lang, the impact of the real world has become everything!

In addition to pointing them out, Shen Lang also let them hurry to retreat and see how much they can harvest. During this time, Jian Zong was brought to sit by him.

Among them, I can help him, of course, the first one is high.

Regardless of the realm or loyalty, Gao Li is the first.

Shen Lang also took special care for him and gave him a “phoenix marrow” directly. If he was in a bad breath, he would try the refining of the phoenix.

The elders are retreating Shenlang will not do trivial things, these are still to be responsible.

After everything was done, he only started to deal with the body of Yu Wenba.

The corpse is buried in the bottom of the Tianchi, and it is only one of the reasons.

Put him up, and Shen Lang has another effect.

No matter what martial art he was originally, since he is the headquarters of the Permanent Masters Union, he will not return to his original family sect.

From the contact of the last temple, as well as today's contacts, it can also be seen that the Master League headquarters is not a piece of iron.

After all, the divisions and families have brothers and sisters, not to mention such organizations, more of a colleague relationship!

In such an environment, can the precious resources harvested can be collected at the residence? Of course you have to carry it with you!

If Yuwenba still has a lot of good things, it will be wasted under the Tianchi.
