

## First Strong 471

Chapter 471 - Past friends

Shen Lang then made some arrangements to let Yu Sheng and Gao leave the visiting friends to move around.

They usually do not come out in the Tianshan Mountains, and a lot of information is not smooth enough, and the popularity is slowly gone.

Geng Sheng is still very happy with this decision.

After all, after he broke through the post-reality period, there is always a lack of opportunities.

The last time in the Tianshan Jianzong, the limelight was all in the Shenlang. Today, the most important thing for others is the high separation. He also needs to show his strength.

Gao Li is concerned about what happened before Qiao Yong. This is not only related to the sense of responsibility of the comprehension community, but also affects the Tianshan Jianzong. It must be prepared for the rain.

Everyone agreed on the time and will meet in Qingchuan City.

As for where Shen Lang is going, they certainly don't ask much.

The last time I went to Dorothy's Dorothy and "Zheng Yu Meng", I separated them. It's been a few months.

After the decision, Shen Lang let them leave first, and he continued to stay on the island.

Gao Li felt that Shen Lang was a little embarrassed. After all, now is their master, so they immediately left with the sacred.

After they left, Shen Lang continued to stay behind the huge rock for a while.

However, it did not leave the floating island, and later followed the sun, began to observe on the island.

By noon, Shen Lang stopped in front of a rocky gap on the island.

This gap is slanting in. It is less than half a foot away, and it is impossible for people to get in. Because it is a diagonal relationship, the light is limited, and the inside is a bit dark.

And in the distance of one or two meters, there is a turning point, so you can't see how deep it is.

Such cracks are actually common on this rock-based suspended island, not the only one.

Shen Lang will stay here, and it is also repeated observation and comparison, and finally confirmed.

After confirming, he searched the storage space and took the small brass bell out.

Holding a small copper bell, injecting vitality, began to shake the rhythm on the edge of the gap.

If someone hears it nearby, it may be audible. Although it is just a simple sound of a bronze bell, it is still vaguely melody.

Shen Lang transmitted the sound waves of the copper bells and followed the regular rhythm, but it was not too aggressive, unlike the last time it was used to attack.

After a few minutes, with the center around Shenlang, there was a tremor!

The feeling of tremor is like an earthquake, but the scale is not so large, and the distance transmitted is relatively short.

Because this is an island in Zetian Lake, so when you reach the floating island, you can feel a little vibration in the distance. After Zetian Lake, there will be no obvious feeling on the land.

Shen Lang reveals a hint of gratification!

The energy of injecting the bell in your hand is a little stronger and more focused, so that the rhythm of the melody can be more clear.

Suddenly, the original tremors became fierce!

The crack that he chose was even more dramatic and the core. The huge rock burst directly!

The whole process was short, but it also caused the whole lake in Zetian Lake to fluctuate a bit. The residents along the shore of the lake may have felt the fluctuations just now.

When the Shen Lang burst, the man had already flew up and continued to shake the bell.

The cracked rock, a black hole in the abyss!

The copper bell in the hands of Shen Lang continued to sway, but weakened a bit of vitality, and people jumped directly into the abyss.

After a quick landing, his feet were solid.

But the place where he stepped on was a violent shock.

“Calm a little! Old friends!”

Shen Lang took the bronze bell up, and when he spoke in his mouth, he also communicated with the gods and the things under him.

Although he had waited until the sun was shining in the middle, but because it was relatively high, the light was still dark, and the illuminating spar brought out by the ice palace was taken out.

A dull grotesque sound appeared, like responding to the waves.

Shen Lang sat down, as if sitting on the rock, but under the soft light, it is faintly identifiable that this is the back shell of a giant tortoise!

In addition to the sound, Shen Lang's consciousness communicated with it, and there were more vague thoughts.

"I didn't expect that hundreds of years passed, you are old..." Shen Lang was a little embarrassed.

Of course, Shen Lang will not fight the unruly!

I will come to Zetian Lake to hang the island, because there is a beast of the big demon level.

In the past, he and the giant tortoise had a certain fate. The giant beast that was originally hunted by the monks was rescued by him and given some resources to make it cultivate.

The life of the turtle is long. The giant tortoise is a big monster. Even after hundreds of years, Shen Lang believes that it is still alive and should be cultivated even more.

So choose here, in case there is a big powerhouse in the Master League, if he can't solve it, he can call the giant turtle out to help.

But I didn't expect to find out now that it turned out to be the feeling of “耄耋耄耋”!

After he was jealous, he felt a sense of consciousness and vaguely understood what was going on.

It is unique in the entire waters of Zetian Lake.

It is not like people have all kinds of embarrassing affairs, the whole body is above cultivation, plus the relationship of Shouyuan, almost hundreds of years of hard work and hard work.

So a hundred years ago, it also ushered in a robbery!

But unfortunately, the robbery failed. Although it was not on the spot, it was hard to do anything.

It can last for a hundred years, or benefit from the vitality of the race.

But it is hiding in this rocky abyss, and dare not go out. After a hundred years, no monks have discovered and hunt it.

This place, Shen Lang can find it because it was arranged by him.

It is reserved for the giant turtles to hide and cultivate!

He used a copper bell to pronounce the rhythm of the melody of the sound wave, and of course it was left in the past.

“I? I am really different, because I was born again after reincarnation...”

“It’s almost like yours But I have been robbery for hundreds of years before you, and it has failed.”

“Haha, of course, it is very weak now. After all, I am only about twenty in this world, and the cultivation time is not long.”

“But since I was born again, of course I will continue to embark on the peak!”

For example, the old world of the world, let Shen Lang more than a different feeling.

Because in this world, his identity can not be said to anyone, perhaps desolation can guess a little, but there is no ditch.

Now I have met a friend of past lives. Although it is a fierce beast, it is also very cherished.

“What? Give me your repairs? No!”

The giant tortoise was very gratified when he saw the human grace of hundreds of years ago. However, he discovered that the difference was different. After understanding his situation, he immediately said that he would give him a practice!

Chapter 472 - Give back

Shen Lang is certainly not allowed!

He arranged to come here, really thinking about the time when the resistance could not be resisted, and the giant tortoise helped.

But I didn't expect the situation of the giant tortoise to be the same now. Of course, it can't be practiced, it will make it directly killed!

However, the consciousness of the giant tortoise is also very tenacious, and it is also insisting!

It also made its situation through the exchange of consciousness to let Shen Lang understand, when it was considered to hide back here to recover.

It has been practicing cultivation for a hundred years, but there is basically no hope of recovery, that is, the old man who is like a dying man is dying.

At the beginning, it still had perseverance. Thinking about relying on the advantages of Shouyuan, it took hundreds of years to possibly come again.

But after a hundred years, it has already had a clear understanding.

Of course, it is better to live a good life, even if it knows the solution, it still has not given up.

The practice is to change the life!

The ringtone that has just been familiar is a bit strange, and it evokes its distant memories.

It is hoped that Shen Lang can help it to survive, and the result is that it is far less than the original, and there is no familiar atmosphere and feeling.

After the communication of consciousness, I realized that Shen Lang was also a reincarnation after the failure of the robbery.

The hope that just ignited was extinguished again, and it wanted to complete the swell!

After talking with the giant tortoise, Shen Lang is also a little helpless.

In its case, he is deeply experienced.

It was robbed a hundred years ago, and he has experienced it for hundreds of years!

If he could re-cultivate at the beginning, he would certainly not give up. Even if he spared resources, he could return to it. Experience and friends are ready-made.

But in fact, even if you find the friend with the highest level in the realm, you can't repair the injury!

The best result is that you can barely live – like the current one.

Plus his situation was much more serious at the time, so in the end it was a rebirth, and the real thorough reunion!

Now the situation of the giant tortoise may still be able to survive, but even if he returns to the peak of his previous life, he cannot solve its problem.

Despair is a torment for the superpowers who have set foot on the peak.

“There is still a way... your life is longer than human beings. If you are alive, you still have a chance!”

This sentence of comfort, but no good effect.

The giant tortoise is again a pessimistic idea.

Just after his call, the giant tortoise is at its peak, and it is not enough to look at Tang Banshan.

The giant tortoise can respond to his call, so that he is a fairy, can be saved.

Therefore, neither side cares about the consequences. The average person can feel a slight earthquake near Zetian Lake, but like Tang Banshan, Gao Li, and Qiao Yong, they should all be aware of the same.

Although they left first, but by the approximate distance and direction, they can also guess that it is a floating island. Will inevitably return again!

Giant tortoises are now in the air, but to get them done, it's still a matter of words.

But what about the people behind them?

For example, the Master League headquarters is higher than the Tangshan Banshan, their lord, or Joe's Qiao Xianxian.

Such a high-level big demon beast is born, and may even make many eccentrics who have been hidden for decades come back!

To put it simply, the best ending of the giant tortoise is to continue to cultivate like this, but to climb the peak and hopelessly to live again.

The worst solution is that in a very short period of time, the hidden powers are hunted and killed, and finally they are divided!

It has been suffering for a long time, and Shen Lang was once the \*\*\*\*\* that it was pinned. Now Shen Lang can't help it. Under desperation, it can't hold on.

Instead of dying with a fierce battle, it is better to return the repairs to Shen Lang, all the love of hundreds of years ago.

Aside from the emotions to analyze, this is indeed the best result, but compared with Shen Lang can not accept or even uncomfortable, the giant turtle is a relief of ease!

It doesn't need to be desperate and tormented.

It can see the waves again, and it is also a long-cherished satisfaction.

Although the Great God has not brought miracles to it, it can help the great gods, and it is also a continuation!

When Shen Lang didn't talk, the giant turtle spit out a radiant ball and flew directly to the front of Shen Lang.

This is what it spit out of Inner Dan, who has been practicing for a thousand years.

Although it is very different from the peak crossing period, it still has a very powerful effect, and it is even stronger than the inner rhinoceros of the giant rhinoceros beast!

Forced to force out the giant tortoise after Nedan, the rapid decline of consciousness.

It has closed its mouth and buried its head in the rock, giving it no chance to give it back.

The last conveyance to Shen Lang's consciousness is to let Shen Lang take away all the useful things in it...

Take it away!

Shen Lang is definitely impossible to take away.

If you know that the giant tortoise is in its current state, he won't even bother it, let it continue so quietly.

Now that Nedan has been forced out by it, he has to accept it.

But this is his friend, of course, it will not be divided like the beast that is generally hunted.

Shen Lang wants to communicate with it again and finds that its consciousness has dissipated...

In desperation, he can only first take Nedan into the storage space.

The giant tortoises hiding in this rocky abyss have not had their slow heartbeat, and it is finally killing themselves.

Shen Lang's mood was not good, and he did not get the joy of high-end Nei Dan. There was a kind of uncomfortable feeling that killed his friend.

In fact, he can see through it. This is the best destination for the giant turtles. It is even gratifying.

This is also its choice, not his death.

But even if you can see through it, even if you have the mind of the previous world, Shen Lang is still uncomfortable...

However, even if the mood is not good, Shen Lang will only give himself a time to hang.

Even if there is no treasure inside, the shells and flesh of the giant tortoise are also precious to others. He won't take the flesh of a friend, and others don't have this feeling.

It is very easy to bury here, but if you are buried, you will be "digging a grave" to separate the body.

There is only one way to stop it, and that is cremation!

In fact, the cremation is burnt and broken bones. If you really have feelings, it is actually even worse.

However, just as Shen Lang cannot accept "take away" because of human morality, cremation is also a form of respect that is customary.

No more time!

He can only put away his mind, and then display three real fires, burning the body of the giant tortoise.

This process is actually not easy.

Because the giant tortoise is in the abyss of the rock, the flame from above, the first is to burn the turtle shell. With its repair for hundreds of years, it is all baby, even if the three fires are really hot, it is not so easy to burn!

It was at this time that someone appeared in the cracked rock above.

Then, someone immediately jumped.

Not a person, a group of people!

Chapter 473 - Shelling!

All the people who come here are familiar people. This group of people who are almost at the same time are three groups of people.

Qiao Yong and Qiao Shuyu, Gao Li and Qi Sheng.

In addition, it is the party of the Master League led by Tang Banshan, but those who follow the fun are not together, only Xia Yuntian and other four follow.

This rock abyss is still quite big, but now nine people have fallen and divided into three camps, keeping distance from each other, it seems crowded.

In particular, the turtle's back is still burning with flames. The deep waves are flying in the air. The people who have just fallen are also the places to find on the rocks next to them.

"Master Shen! Let us leave, you are left to eat alone, isn't that good?" Tang Banshan said with a smile, and quickly shot, extinguished the flame below.

Qiao Yong and Qiao Shuyu did not say anything, just pay attention to the following situation.

Gao Li and Qi Sheng are also somewhat puzzled.

In the words of Tang Banshan, the Master League is not qualified to question, because this is their own.

However, Gao Li and Qi Sheng, that is, Shen Lang first sent away.

Isn't Shen Lang really trying to stay alone?

They can come over so quickly, and it is also expected in Shen Lang.

Gao Lihe and Sheng Sheng have not yet gone too far, and the other two naturally used the flying magic weapon to come back.

"I am cremation of a friend, you bother me, don't blame me, you are welcome!"

When Shen Lang was in a bad mood, he didn't talk to them like he just smiled.

"Friends? This is obviously a high-grade beast!"

"You deserve the best? Can you take it with you, don't let others share it, and burn it?"

"This is really ugly!"

"Does people drink a little bit of the soup you eat, don't you like it?"

A few people in Xia Yuntian have helped Tang Banshan to condemn the sinking waves.

"What are you talking about? When is it your turn to point out that my master is doing something?"

The sacred sacred ones that have never been fired, they screamed at them directly.

They just have doubts, but they don't have any bad doubts about Shen Lang. After all, Shen Lang has benefited, and he will think about Tianshan Jianzong.

“This is the secret of your hanging island?”

Tang Banshan has already understood this point. He looked at the Shen Lang and immediately occupied a moral high.

“You learned that there are beasts here, and use all of us to suppress the beasts, and then send us away, one person monopolizes the beast... Hey, it really counts!”

“Fart! What pressure do you have in the town, what power do you have?” Gao Li directly squatted back.

“Go up!”

Shen Lang saw Gao Li and Qi Sheng, and ordered them.

The two people who are helping Shen Langwei are a bit wrong and unwilling. Do you want to be soft to them?

But Shen Lang is a master, and said that let them go up, two people can only fly up.

Tang Banshan smiled.

He came back to the team this time and naturally did the homework of Shen Lang. So after discovering the high point of breaking through the peak of the real world, he decided to give up the battle decisively.

Shen Lang is a person who will not suffer!

So if he had to fight before, the risk is great.

Because of this, Shen Lang will also scruple their strength!

He was able to give up before because there was no profit.

But now there is a huge beast here, when it is to compete for the benefit, the Master League will not give in.

His decision, he felt that Shen Lang can be calculated, and now the high-sex and sacred sacs are sent out, that is, the performance of concessions.

Not long ago, he took a step on behalf of the Masters League, so he was forced to come back so quickly, so that Tang Banshan was very comfortable.

Gao Li is his biggest concern. After Gao Gao went up, the remaining concerns were the two of Joe's family.

“The Qiao family has a big career and a deep foundation. Shouldn't we compete with us for this?”

When Tang Xiaoshan sent a message to Qiao Yongqiao Shu Yu, Shen Lang's body rose a few feet.

This fell in the eyes of a group of people in the Master League. Of course, this is that Shen Lang gave up and further weakened.

This made them very happy. Look at the beast that seems to be a giant tortoise. Shen Lang should have not broken the turtle shell and they were caught up.

The most precious Nedan, certainly not captured!

Waiting for them to be happy for two seconds, they found something wrong!

Flying higher and higher, there is something in his hand.

The magic weapon “mixed yuan bullets”!

In addition to the “mixed yuan bomb” against the bottom of the smashing, the sacred armor of the body, but also against the following bang!

Holy armor!

This thing is really very easy to use, and Shen Lang is also wearing it as the last self-protection line.

The last time outside the Tianshan Jianzong, the one who used the flying magic weapon to escape was bombarded with the holy armor!

Because it is the black technology of the river city, it is not like the artillery of the earth, so others think it is his magic, or what magic weapon.

It was because he could strike long distances, then he only ran out and counted him to lose.

When Xia Yuntian Yu Jian flew up today, he was shot down to the lake by Shen Lang.

The same is still used in the holy armor!

Because the spells are displayed, one speed is not so fast, and one will be sensed in advance. It is two consecutive shots, so that Xia Yuntian can hit the water.

This is still the case.

Now he is smashing the smashing of the smashing bullets and the sacred armor at the same time, that is, to have an accelerated cremation, and not to give them a chance to go out again!

In the rush, his body also flew upwards.

The impact of the mixed bomb is not small, especially in such a closed rock abyss, as well as the armor of the armor!

They were on the edge of the rock, and they just extinguished the fire, and some people landed on the turtle shell.

Sudden artillery fires, so that they are all caught off guard.

Gao Li and Sheng Sheng, who just flew to the top, felt the following movements, and quickly looked around, for fear that Shen Lang suffered.

They were shocked to see such spectacular scenes, as well as the shock waves and heat that quickly pushed up.

Master really does not eat a little loss!

Call them up just to enlarge the move, is this going to put them in a pot?

Looking at the Shen Lang also came up, and Sheng Sheng immediately asked.

“Master, are we going to seal this?”

The three of them are now at the cracks above, and with their strength, throwing thousands of pounds of boulder and plugging the cracks in the collapse can really be done.

Shen Lang only had time to shake his head, and several figures had quickly rushed up.

I can't help but regret it, he really wants to put them in a pot!

Put the ball in the Master League, and the arrogant Joes are buried under the rock. Think about it...

Gao Li is a decision in favor of Shen Lang.

Not to mention the forces of the Masters Alliance and the Qiao family, the innocent and innocent people have buried people, and they are not decent.

Chapter 474 - Joint pressure

The weakest of the following, Joe Yu, is also a master in the middle of the real world. Whenever he encounters such dangers, of course, each escapes quickly.

Although the shock wave is very strong, but in their realm, the instinct's protective ability is also very strong, and it feels self-protected when it feels abnormal.

Then no one can take care of the following things, and rushed straight out.

“Shen Lang! Do you want to kill us all?”

The first to come up is Joe Shuyu, it seems that Qiao Yong also helped him protect.

He is the relatively weakest one inside and should have been the most affected.

Followed by the two of them, is Xia Yuntian four people. Because of the “extinguishment” of Tang Banshan, they all fell on the turtle shell, so the impact was greater than that of Joe Shuyu!

Tang Banshan has not yet come up.

Xia Yuntian looked at it for a moment, the following is a heat, plus the height distance, can not really cut.

“I didn’t expect you to be such a person!” Xia Yuntian condemned it.

“The great elders of the Tangshan Tianzong! The two elders who are Gao Li and Yu Sheng are the masters! Actually so arrogant mouse generation!”

“What are you talking about?” “We have to be careful and we will not let you out!”

This said, let Xia Yuntian and other four people were taken aback.

They have seen the scenes of Shen Lang killing Yu Wenba, let alone the high separation of the peaks.

When they escaped, the condescending attack, and even the use of the magic weapon, it is really possible to kill them all!

It is the next side of Qiao Yong Qiao Yu Yu is also secretly surprised.

The two of them did not believe in the waves, but the realm of high separation was there, and it was not black.

At this time, Tang Banshan, who was a little slower than them, flew out.

Tang Banshan is the highest one in the realm of the scene. It is the high separation of the same realm, and it is also worse than him.

Just after the bombardment, he not only self-protected, but also robbed the past and searched, did not escape like everyone else.

He is still very confident about his ability to protect himself.

It is a pity that Shen Lang's shot is also well prepared!

The result is that the giant tortoise shells with flesh and blood, have been smashed and burned by high temperature flames.

It's a complete cremation!

Tang Banshan, who had no harvest, could only follow it.

"Excessive!" Tang Banshan's face was gloomy: "If you can't get it, you will destroy it. This is a psychological problem. If you try to put us together, it will be even more dangerous!"

Before Shen Lang said that "cremation friends", it is natural to blurt out, but now they are not willing to talk to them about the situation of giant tortoise.

He glanced at him and then quickly shot and pushed the collapsed rock into the abyss.

The following is already burning, it will not take long, and the most important thing is that they have already seen this scene. Tang Banshan also personally searched it.

So you can bury it.

Gao went to see them like Shen Lang, and did not ask more questions, followed by shots.

Because the cracked abyss is deep, they also threw some boulder from the side to fill it.

Both the Masters League and Joe's family were busy, did not stop, and did not ask.

"What do you think?" Tang Banshan said to Qiao Yong: "I suspect that Shen Lang has been better in the following! So I don't care about the harvest of the giant tortoise."

"I think it is possible. Do you want to test the Mid-Levels Master?" Qiao Yong returned.

This made the Tang Banshan secretly screamed at the old tycoon!

Let him go to temptation, that Joe's family is clearly trying to take advantage of the profit.

And he will discuss with Joe, naturally, I hope that Joe's family can shoot!

"There is no good temptation. Why don't we take the shots together and control them? Or else, with their strength, leave the floating island, but the sky is high!"

Tang Banshan said it is more straightforward. No one wants to do it by himself. Then everyone will shoot it together!

"This... We just felt abnormal and didn't think about what we wanted. We didn't have any grudges with Tianshan Jianzong, it was not easy to get started."

"And well! I am with Joe, not far from your strength, we are not high opponents. Or Master Mid-Levels!"

The face of Tang Banshan sank.

He invited him to share the risk. But Qiao Yong is too sullen, and does not want to pay at all!

“Then I will say it clearly! If it is a shot, then there is something to gain, everyone can also discuss the division. If it is only our hands... then you are welcome, please ask to leave first!”

Tang Banshan directly ousted the order, so that Qiao Yong is also a bit unhappy.

“The Master of the Mid-Levels is a joke. This Zetian Lake is an empty island. It is not the site of the Master League headquarters. You have to drive us away, hehe... I don't want to give Joe a face!”

Qiao Yong's words are soft and hard.

Tang Banshan listened, this is to take him to suppress him, and directly want to crush Qiao Yong!

However, he is a rational person after all. He can be summed with Shen Lang before, and he can also take care of the overall situation.

Otherwise, he and Qiao's family will do it.

“The words are heavy! Not to drive away, not to give face. I am afraid that when you will do it to us, if Joe can guarantee, I certainly won't mind.”

Qiao Yong immediately started Tai Chi: “We have always been a person who does not commit me. I don't commit crimes. Since Master Banshan has no opinion on us, there is no contradiction in thinking about us. You please!”

When they talked about the communication of my words, others were concerned about the actions of the three people.

To fill the entire abyss, you need too many rocks, so they will only fill a part of the rock and bury it below, and the crack will not be taken care of.

Seeing that they are going to be completed, the communication between the two men has come to an abrupt end.

“Master Shen Lang, are you really not going to explain it?”

Just after the busy Shen Lang, I was paying homage to the giant tortoise. Intersected by his words, I immediately responded with a cold sentence.

“To whom to explain? You? Why? You are old!”

Tang Banshan’s words to explain and Shen Lang directly repelled, are not voiced, everyone can hear it clearly.

When Joe Shu Yu looked at Shen Lang again, he had a little more appreciation in his eyes.

In the face of Tang Banshan, who is the peak of the realm, he is so arrogant that he can only honor the masters of his predecessors and dare not ask “you are old.”

“I don’t care if I am old. The important thing is that all the beasts, all resources, are shared by the Chinese comprehension community. You are not qualified to monopolize!”

Tang Banshan’s tone was also cold, and he first buckled a big hat.

“I don’t want to personally fight for the benefit, it is for the sake of comprehension. Also! Don’t transfer the topic. Your previous behavior can be counted as killing the Master League and Joe’s family! This is not clear, you can’t explain it. I can’t spare you.”

Qiao Yong wants to open? Pull you in directly!

Chapter 475 - In the end

Listening to the words of Tang Banshan, Qiao Yong is very speechless.

It’s too ugly to eat this!

Of course, the beasts and resources are the ones who belong to them, and they also share the true world. It is not a personal interest...

Of course, Qiao Yong is interested in this fierce beast, but it has just been clearly ruined, and I will ask for it later.

“I think it should be a little misunderstood. Tianshan Jianzong and Qiao’s family have no grudges. They should not want to kill us. Right?”

Qiao Yong can only be regarded as a wall-opening view, but for the current Tianshan Jianzong, it is even an olive branch.

Gao Gao was originally obeying Shen Lang, but Shen Lang was not afraid to offend anyone’s temper, for fear that he would collide with Qiao Yong.

Qiao Yong, he is not afraid, but the Qiao family and the masters union together are in trouble.

Gao was away from this active opening and arched his hand to Joe.

“Of course, it is a misunderstanding! We have absolutely no murder for the Qiao family, including the Master League.”

“This can also be squandered? We just felt it, and some of them are still injured!”

Tang Banshan pointed to Xia Yuntian and others.

“Okay! Highly we have known each other decades ago. Others believe, I believe you for the time being! But you really did the Lord of the little guy?”

Tang Banshan gave a high-profile appearance, while not forgetting to provoke a relationship between Gao Li and Shen Lang.

Gao Li really is a bit stunned.

Just now, it's just that he took the initiative to rush, and Shen Lang will not veto, it's really hard to say.

After all, when I saw Shen Lang for the first time last year, I was far from the strength of the present, but it was also arrogant.

Whether it is Master, Chief Elder, or the reincarnation of the ancestors, which identity is his inability to be the master.

"If it is a misunderstanding, then take your sincerity and take out the resources of the beasts you got!"

Tang Banshan seems to have succeeded in provoking and continues to fight hot.

"The two Joes are more generous and don't care about the resources of the beast. But our Master League has always been responsible for repairing the real world. For these big things, we can only do our part!"

After hanging up a name of Wei Guangzheng, he directly asked for it.

"There are so many resources under the beasts that have been bombarded and buried by you. This account can be counted, and I don't want too much. If you get half of it, give it to me!"

Shen Lang has been watching Tang Banshan coldly, until now that the "performance" is over, he asked.

"Share? Let's share the resources of your Master League headquarters first! Don't talk far, share all the things in your five people first!"

"Oh! Share it, then we all take things out together, all the resources are equally divided, how?"

Originally, Shen Lang was a satire. As a result, Tang Banshan was laughing and agreeing.

It seems that he should be from Yuwenba, and he knows that Shenlang Qianglangling has received a lot of resources. This time, he came to seek the waves, and the individual did not bring much.

“Do I admit that you are ignorant?”

Shen Lang sneered: “If you think that your fault is right, let’s share it first. We, and friends of Qiao’s family, can be welcome! But we don’t have to say stupid words shared by the real world!”

Tang Banshan was stunned.

Qiao Yong, who was watching next, could not help but sigh.

The behavior of Tang Banshan just now has been thick enough. I didn’t expect Shen Lang to cure him. I have to cure the thick skin, only the face is thicker! Yours is mine, mine... or mine!

He did not interject, it is the default of the words of Shen Lang, and then gloating to see Tang Banshan.

You are not saying to share? You are fulfilling your words!

Anyway, we did not say that we want to share.

“Well! Since you don’t want to listen to this unselfishness, then we are even private accounts. See you have a share! You can divide our one and convert it to the city spirit stone. I will leave without saying anything!”

Qiao Yong and Qiao Shuyu face each other, and they are the best in the real world! The owner of the Master League headquarters!

Even so shameless, directly said that “seeing people have a share” came.

In fact, they are born in the Qiao family, and have far more resources than the general martial family.

I don’t know the state that others can be shameless or even lifeless for resources!

In the realm of the Mid-Levels of the Tang Dynasty, whether it is in a martial art or a family, it is already the first person. Why do you have to work for the Master League? This lord must have been smashed up later.

In the end, it is for more resources, and perhaps because of getting more resources, let him break through the peak of the real world.

“Ancient text – roll!” Shen Lang directly screamed.

“It seems that you have eaten a single food!”

Tang Banshan is also unable to withstand, sinking his face, and then looked at the high.

“High Master! What do you say? I will give you a face!”

This is his strong position, because Gao Li is the only person he cares about.

Gao Gao stared at him and said slowly: “Master of the Mid-Levels, you are disrespectful to my Master, I have tolerated it again and again, you want to do it, I will accompany it to the end!”

“Come on! Whoever wants to come, I will accompany you to the end!”

He was excited, and he waited to prove himself. Who to fight with, because of what, is not so important.

“Good! What you said!”

Tang Banshan pointed his finger and said to Qiao Yongqiao Shu Yu: “Two friends of Qiao’s family, anyway, you said that you will stay out of things. Today’s business is just a testimony, this is what they force us!”

Qiao Yong shrugged: “Of course, we are objective and will not participate.”

Qiao Shuyu sneered aloud: “If you want to fight, you can do it directly! Actually, you don’t need to find so many reasons and excuses. If you have strong strength, whoever is powerful, you will dare to say that you are arrogant!”

Several people in the Master League stunned.

This is the attitude of “the real little man”, and Tang Banshan just wanted to be a “hypocrites”, or a hypocrite who is very obvious...

“Then let’s do it! Our two old guys go to the island side, lest your villain’s heart guess that I will sneak in a big bully!”

After Tang Banshan finished, he took the initiative to fly to the distance. This is also in line with the high-minded mind, he added worry that if Tang Banshan sneaked into the waves, he would be in trouble if he didn’t take care of it.

After all, he has just broken through, and the other side is a mature peak.

But I really have to go with the Tang Banshan, and I am a bit uneasy, the rest is four-on-two!

It is not known whether the two of Qiao and Tang Banshan have reached a certain tacit agreement.

“Master is careful!”

Thinking of the last domineering and crushing Yuwenba, he still had a little confidence, whispered a word, and put a “protective Master” look on the sacred sacred, and then chased it up.

The sacred sacred now burns up, and there is really a sense of responsibility to protect the master. After all, his realm is higher.

But the other four are all with him, and they are actually better than him. In theory, he can only resist one...

Chapter 476 - I don't want to kill

The sacred sacred heart is powerless, and even if there is a high-slung eye, it can only hope that Shen Lang can protect himself.

When Tang Banshan left, it was actually useful to see them in the summer!

With his realm of high and high, even if he hit the earth-shatteringly, the ruined island was destroyed, and it was difficult to separate the winners and losers at a time.

Calling Gao to the other side of the island to decisive battle is a function of mutual restraint.

The real combat power is given to Xia Yuntian.

After all, Tang Banshan does not believe that Shen Lang can really kill Yu Wenba.

He started from the logic of common sense, and felt that Shen Lang should have been achieved with the help of the mysterious array of Tianshan Jianzong.

I didn't do it right now. I was prepared to come to Tangyuan, Qingchuan City, half a month later.

Here is still the place that Shen Lang proposed, and when it arrives first, there may be traps.

Tang Yuan is his own territory and can be completely controlled.

But now it has been proved that Shen Lang's hanging island should be related to this fierce beast, so there is no need to worry about it.

According to his estimation, after the high-altitude branch, Xia Yuntian splits one person against the sacred sacred, and the other three together, is it still possible to make a deep wave in the middle of the real world?

This is precisely why he has to take words to live in Qiao's family. If Qiao Yong takes the opportunity to do things, he may reverse the situation.

"Hey! I have come to accompany you for a few tricks! Let's go over the rocks!"

At the time when the sacred sacred had not yet opened, there was already a person who had pre-empted.

Xia Yuntian and others could not help but secretly pity, was preempted.

Although they reasonably think that Yu Wenba's death is very embarrassing, there is still a bit of a lingering fear for Shen Lang.

The strength of the sacred sacred, can still be estimated, or a level with everyone.

It's so mysterious, it's even a mystery!

Since someone has robbed the first, then the three of them can only be a hard-headed scalp against the waves.

“Shen Lang! Since you are from the Tianshan Jianzong, dare you dare to use the sword to compare with us?”

Xia Yuntian is also a sword repairer. For the sword, he is more aware of it. If you propose a sword, you can have more confidence.

The other two people also took it for granted that the last time Shen Lang used no evil law, it was not a sword.

As for Yu Wenba who said that he killed Xuyangzi in the temple, he should still use the temple.

They were in the cracked rock above the giant tortoise, and the Tangshan Mountains and Gao were far away from the other side of the island. The two of them also reached a large rock in the distance.

The rest of the lively Qiao Yong, Qiao Shuyu two, in order to prove that they do not help each other, but also retreat far away, watching a battle on a high standing rock.

Now around this, Shen Lang is facing three people like Xia Yuntian.

“I don’t want to kill.” Shen Lang said with a blank expression.

“You don’t want to kill? Haha! You still think about how you can’t be killed!”

“Shen Lang! You are also exploding. Do you think that we are all paper? Do you think that we are in the late stage of the real thing, is it blown out?”

The two old buddies laughed, but Xia Yuntian was playing drums in his heart.

“In fact, everything is negotiable. If you make a small concession, we will not be excessive...”

For Xia Yuntian’s more twirling, Shen Lang still returned with a blank expression.

“You three are not weak. If you don’t kill, I will probably be killed by you.”

“You have a self-knowledge, and it’s not too late to realize it. You can still...”

Shen Lang waited for them to finish, and continued: “Think clearly, you are not easy to practice. Or withdraw! I will not pursue it. Once you start, don’t blame you for living and living!”

This completely warned them to be dead!

“Shen Lang! I also ask you to consider clearly, you are a genius, you must have room for growth, but your arrogance will make you fate!”

The words have already said this, and Shen Lang has no more nonsense.

Rust sword out of the sheath!

Looking at this scene, the three people, including the onlookers of the Qiao family, both lived up.

This sword is not carried on the body, which means that Shen Lang has a magic weapon for storage space.

If you take it over, can you divide the fierce beast resources that he has acquired, and a large number of medium-spirited stones?

“You really use a rusty sword like Ruwenba.”

Because Xia Yuntian is a sword repairer, and because he is more jealous of Shen Lang, he is the only one who pays attention to his sword.

What is the rust sword in the end, Xia Yuntian can not see.

In his realm, it seems that this is an ordinary broken sword;

With his understanding of the world famous sword, he has not heard of the famous rust sword.

“Xuyangzi is very lucky, there is a good sword. Unfortunately, the Xing Xingjian was actually destroyed by you, it is really violent!”

Hey and condemned it, Xia Yuntian said again and again: “I am not a sword, but in my opinion, what sword is not the most important, the important thing is the person who uses the sword!”

The original meaning of this is to say that he can fix the waves even if there is no sword in the world.

But because Shen Lang’s hand is a rusty sword, it is more suitable for him. If the sword is powerful, the rust sword can fix them!

“Do it!” Another person can’t stand it anymore.

Shen Lang and Xia Yuntian also want to have a sword, and the two of them have already prepared the spell.

At the time of speaking, I immediately let the surrounding dozens of feet become dark and flying, and flying sand!

It seems that the clouds in the sky have completely gathered, and it seems that the water of Zetian Lake has also fallen over.

All in all, the goal is just a small person – Shen Lang!

At the same time, Xia Yuntian's sword has also moved, with a strong and unmistakable sword, a wave of flying, all-round blocking the waves!

Although it is sensible not to believe that Yu Wenba's death is caused by Shen Lang's own strength, after all, they have seen the scene, and they dare not underestimate Shen Lang.

A shot is a big move!

A sword is a killer!

But at this time, the swells in the whirlpool disappeared in general, and even the shadows could not be seen!

Whether it's a maddening spell or countless swords, it has lost its goal and become confused.

At this time, all three of them felt strange ringing into the ear!

Sonic attack!

magic weapon!

For the sonic attack of the bronze bell, the people in their realm can still resist and defend.

But the premise must be a fixed attack point to defend against the sound source of the sound wave.

But now the ringtones come out in all directions, not auditory hallucinations, nor "like", but really moving fast, from different angles into the ear!

The sound waves just interfere with them, not the main force of the attack, not the crazy swords that have broken the waves!

That sweeping a large piece of momentum, forcing them three super strong, they have to move to dodge.

Chapter 477 - Broken magic

The realm of the three of them is very high. Even people of the same class will be able to find their whereabouts.

But the speed of Shen Lang is too fast, so fast that even in the late stage of their existence, it is difficult to capture!

When they just sensed, others went to another place, the gap may be between microseconds, but it has already determined the gap.

And because there are three people, Shen Lang is in the middle of the three people, around the front and rear shuttle, it is a bit unpredictable.

Keeping the distance and at the height of the two people, Qiao Yong Qiao Yu Yu, through the aerial view of the imaging, you can better observe.

But even if it takes a comprehensive view of the geographical location, the speed of Shen Lang is so fast that they are incredible.

In this faint and violent battle, the faint afterimages are fleeting, and they are hard to notice.

Although they have kept their distance, they are still in the battle circle and need to be distracted.

Under such a state, watching the two waves of the enemy, the two are shocked!

When the expert takes a shot, he knows if there is any.

What kind of vision is Joe's family, even if the battle has just begun, it is clearly aware of the strength of Shen Lang.

Qiao Yong was fortunate for his decision. This swell is really unusual. If you get involved, it will cause trouble to Joe.

Perhaps the whole Qiao family does not care, but at the moment only he and Joe Shu Yu are two, it is much more dangerous.

Qiao Shuyu is as dead as it is!

He is not a self-proclaimed genius, but a long-time, first-time genius recognized by outsiders.

Those who rank “the top ten outstanding young monks in the heroes list”, the reason why Shen Lang ranked first, on the one hand, Shen Lang is their group’s “self”, on the one hand, Shen Lang should be the youngest one. .

On the other hand, it is because those people have a lower level and cannot reach Joe’s family. For Joe Shu Yu, I heard it.

And because Joe Shuyu became famous for a long time, he was an example when he was young. He felt that he should be older, even if he could barely enter the list, at least 30 years old.

This made him the second.

In these cases, Qiao Shuyu did not care about himself, but naturally someone told him that some were for comfort and some for provocation.

But he always disdains to be with them.

Athletes like the tennis table tennis and other events have already been slammed, still care about the world rankings? (The ranking is based on points, in addition to winning more points, the competition is another important factor)

Until the day before, Shen Lang easily killed the Yu Wenba of the Master League headquarters, a young man who was at the initial level of the real world, and killed a veteran master in the late stage!

This also made Joe Shuyu mention interest, and felt that Shen Lang was worthy of a fight with him.

He did not want to run Tianshan to find and challenge, and he rushed to the empty island of Zetian Lake.

Even so, until the moment before, he felt that Shen Lang would not be his opponent.

As you can see now, even if the speed of light is just the tip of the iceberg, it makes him feel the power of Shen Lang.

He began to have a feeling of powerlessness, the feeling of being trampled down...

There are a few people fighting in the field, but no one has time to care about the feelings of the two Joes. They are all the moments of race against time. A little distraction may affect the situation!

“Receive!”

After discovering the speed of the Shenlang, Xia Yuntian decisively changed the strategy.

When he shouted out, the man had quickly moved closer to the other two, facing the outside with a sword.

The other two people also immediately grasped it, and they all quickly came together.

After the three people formed their back-to-back, Shen Lang could not interfere with them.

With such a formation, you don't need to take care of 360 degrees. You only need to be responsible for the fan-shaped range of 120 degrees.

Not only is it a lot less difficult, but it can also help the right and left partners at any time, and there is no worries.

No need to defend, but also greatly reduced the scope of the attack, not to mention the increase of several times the combat power!

When they change their formation, Shen Lang is directly looking for Xia Yuntian!

His first hand was still shaking, disturbing the thinking of the three of them, and the other hand rusted the sword, and went straight to Xia Yuntian!

At this moment, Xia Yuntian secretly smiled.

There are many advantages to the back-to-back formation, but at this time, the drawbacks are also reflected.

Because each is responsible for a fan-shaped face, so that a person is attacked in front of the other, the other two can only assist at most.

If it is in a state of dispersal, it is entirely possible for two people to attack from behind and form a joint force siege!

Now, he can only fight against himself.

In fact, there is no time for him to consider.

Shen Lang's sword does not have any sword skills, purely fast!

Almost no time for him to ponder, the sword has come to the head!

Xia Yuntian is a sword repairer. He is also a man and a sword. He doesn't need to think about it. He has already instigated the insufficiency, and the sword is on the block!

At the moment when the two swords met, he suddenly remembered the thing of Xuyangzi's star-studded sword...

If Shen Lang is not relying on the evil door of the temple, but relying on this rust sword to destroy the comet sword, then now...

When he was worried that his sabre was destroyed, he did not hear the cracking sound source, but he felt the power of lightning!

Lightning is a spell from Shen Lang's display. The sword is directly transmitted to Xia Yuntian's sword.

Xia Yuntian shook a little after being shocked, but he did not even transmit electric shock to the other two people back to back.

The two people did not look at it. Just after the spell attack did not work, they also sacrificed the magic weapon at this time!

One of them is a knife with a blue light, and the other is a pair of copper cymbals!

The Blu-ray knife is a direct aggression magic weapon, and the bronze cymbal is similar to the copper bell of Shen Lang. It is attacked by sound waves.

At this moment, the blue knives are spinning in the air, with the faint blue light following the body of Shen Lang, as if locked and tracked.

After the gongs, the gongs made a harsh “咣-” sound, which quickly scatters the sound of the copper bell.

“broken!”

Shen Lang violently screamed, back to the sword, the rust sword directly on the blue knife!

But he himself did not look back, the brass bell has been collected, and the fist directly crited to the head of Xia Yuntian in front!

Xia Yuntian which had just been hit by lightning, had a moment of disappointment. After discovering the fist in front of him, I couldn't help but feel a glimpse...

He will not forget that Yu Wenba is directly killed!

At that moment, Xia Yuntian disregarded the dignity of a master who was in the late real world, and could not care for the other people behind him. The sword pointed to the side and took the sword and flew out to the side!

He is about to win, and the fist of Shen Lang is still a high-speed impact. Without the goal, the object behind the target will naturally become a new goal!

The person who just slammed the gongs found that he was in front of him, and even the shackles were too late.

He wants to dodge and it is difficult to do it. At this time, he can only move the raised gongs to the side and block it in front of him.

!” The blue knives seemed to utter a cry, directly cut into two sections by the rust sword, lost the power of tracking, and fell to the ground...

Chapter 478 - Barbaric!

Then the gongs made a harsh “squeaky” sound...

Although the gongs in front of them are magic weapons, they have not been flattened by Shen Lang.

But it is just being held in front of it, but there is not enough power to fix it!

The result was that after the bronze gong was hit by the swell, the squatting squatted on the head of the master.

When Shen Lang’s fist was released, he immediately took the copper and took it directly into the storage ring.

After being stunned by his own magic weapon, the man was dizzy, but he was still awake.

When he discovered that the gongs were robbed, he could not help but be furious!

At this time, another person found that after the Blu-ray knife was sacrificed, it was cut off without any effect. It was also a sorrow!

Xia Yuntian, who barely fled, was also scared by the momentum of Shen Lang's forced closeness.

He did not dare to go forward, but sacrificed his little flying sword!

This time controlling the golden sword, it is much more cautious. The last time I was caught by Shen Lang, but I spent 50 medium spirits to redeem it.

In the face of the three sieges of the late masters of the real world, the situation of Shen Lang is certainly not good.

However, he did not care at all. After stealing the gongs, the fist had continued to smash out, and the goal was the head of the master!

His body turned faster, and the man had already arrived behind the two men!

Originally, Xia Yuntian's seat was behind them, but both of them turned their sideways, so they had to go around.

While circling, Shen Lang continued to hit and did not know how many punches went out.

Although some were shunned by the master, there were still many fists hitting their heads. It was only a moment after he turned to the two people, and the master was already stunned.

Another wave of Shen Lang can still carry a rust sword!

When he turned to the back, the sword also drew a circle, which was immediately placed on the neck of another master who was pressing.

The master's spells are just ready, and you can only squat first, or your head will move.

At this moment, the golden sword is also facing the front of Shen Lang!

Only this time, he didn't need to take a shot, but just looking at the past, Xia Yuntian, the bird of surprise, had quickly retracted the sword drive a few meters and turned into a cautious walk in the air.

He can only look for blind spots in the dark waves and dare not attack in front.

The rusted sword was placed around the neck, and the master was looking for an opportunity.

When the golden sword flew again, he quickly followed the direction of the sword and fell out to the side!

So even if the sword of Shen Lang continues to smash, it will sweep away.

And that flying sword, gave him a cover.

He plans very well, and with his realm, he can completely avoid it.

Unfortunately, he forgot the fists of Shen Lang at this moment!

He escaped the pursuit of the rust sword, but Shen Lang took a kick, and then sent it first!

When he had not yet fallen to the ground, he had already kicked his body and fell directly to the distance.

Xia Yuntian manipulated another attack on the golden sword, and did not seek merit, but sought to form interference.

When I found out that my partner had escaped, I immediately took the sword back, so as not to be caught by Shen Lang.

It is a pity that he escaped only half of the flight and was kicked out.

He thought of the death of Yu Wenba, and the feet of Shen Lang can not be ignored!

The three people can't pick up the waves together, but now he is left alone, what can I do?

At this time, I saw Shen Lang received a rust sword, grabbed a huge stone with both hands, and lifted it directly to him!

Xia Yuntian could not help but sneak a metamorphosis!

Everyone is a sword repair, where is it so brute force?

But now it is impossible to discriminate against brute force. If you don't hurry to dodge, you will soon become a meat sauce!

He had just shunned and had not heard the sound of the rock on the ground in the boulder. He found that the boulder had moved again and chased it again!

"Fuck!"

Xia Yuntian screamed at the side, and did not die quickly.

But holding a sturdy wave of boulder, but it is not slower than him, not giving him a chance to gasp, and then continually smashed over.

At this time, the sound of the ground in front of it began to come.

"Hey – hey!"

The loud bang screamed and the impact of the boulder on the side, the feeling of almost a little bit of sensation, made Xia Yuntian a cold sweat.

He is a master of the late real world, and he has to be stoned to death!

It's just enough to say that this fate is going out.

After a few dozens of differences, he realized that Shen Lang was not swearing at him, but intentionally spared his life, which was deliberately a little bit worse!

This discovery made him even more shocked and almost killed.

What does this \*\*\*\*\* grow up to eat! Holding a boulder, not only can catch up with his speed, but he can play with him with ease!

Two of them, Qiao Yong and Qiao Shuyu, who watched this all over the place, were even more emotional.

Just now they saw with their own eyes that Shen Lang had put two people down, and now there is no chance to catch up with Xia Yuntian's gasp.

Their fall, the spells have long been ineffective, holding the smashing waves of the boulder, the speed is slightly slower, the target is bigger, and the movement track is still very good.

Both of them secretly asked in their hearts, if they were forced to the extent of Xia Yuntian, can they escape?

The answer is not very optimistic!

Even if they are not willing to admit it, they have to accept the facts.

Qiao Shuyu is definitely not up to the extent of Xia Yuntian.

Qiao Yong's speed is a bit faster, but Shen Lang obviously charges the slow speed of teasing. If he is at full speed, or wants to kill him, he still can't escape!

metamorphosis! ...there are the same secrets in their hearts.

At this time, after the rapid wave of nearly a hundred times, Shen Lang threw the boulder to Xia Yuntian and the people did not chase it.

These hundred times were also completed in just a few seconds, just like a burst of firecrackers.

After the boulder fell, didn't move any more, and when there was no more sound, it had already escaped from Xia Yuntian, a hundred meters away, and I dared to look back.

Not chasing him again, he caught the two masters who were hit by his head and kicked.

Looking at Xia Yuntian's experience, Qiao Yong did not have to worry that Shen Lang would kill them.

However, Shen Lang did not conceal his actions at all. At this moment, in front of them, the two masters came to search.

They all have a storage bag on their body. At this moment, when they are in a coma, when the will is weak, they are severely cut off, become unowned, and then they are collected.

The situation here, only Qiao Yong and Qiao Shuyu are watching. The sacred priest and the master are also fighting hard, and there is no reason to care about the situation here.

But in fact, Tang Banshan and Gao Li, who are far away from the other side of the island, are all concerned about this side.

At this moment, I also understand the battle of Shen Lang!

Chapter 479 - Knocking Master League

Both of them are worried about the situation here, and they don't want to fight for life, so they are more like a balanced confrontation.

At this moment, I found that Shen Lang had cleaned up all three people, and the two of them looked at each other.

High in the eyes is full of pride!

He is a hundred years old and worships a 20-year-old boy. They are all mocking.

Now, Shen Lang proves that Master is a master. Even if you are a young man in the middle of the real world, you can get three strong players in the late real world with one enemy and three!

The look of Tang Banshan is a bit complicated.

This time I personally saw it, and the strength of Shen Lang is far better than the realm of appearance!

It seems that it is true to kill Yuwenba with bare hands.

The rusted sword is broken and the star sword is also true!

Now if you don't rush, Shen Lang will kill three people, including Xia Yuntian. This is also a huge homeopathic position for the Master League headquarters.

Strictly speaking, not three, Shenlang can quickly kill the fourth as soon as he intervenes!

Even if Shen Lang and Gao Li joined forces, it would be possible to hit Tang Banshan!

"Old high, I am old... The young people nowadays really can't understand." Tang Banshan smiled and gave up the confrontation.

"Jiangshan has talented people." Gao smiled lightly.

Shen Lang is the ZTE of Tianshan Jianzong!

"Man-made dead birds are eating and drinking. After all, what we are fighting for is a little profit. You can't fight your life, let's go!"

In order to show that he would not sneak into the waves, Tang Banshan made an invitation to let Gao go together.

Gao has nodded from the point of departure, and the just-coming opponent has already verified it. He broke through the Tangshan Mountain, which is the peak of the real world. He is really helpless.

There is no point in real spelling. He is also an important force in the Tianshan Jianzong. It can't be degraded at the time of ZTE.

When the two of them came back, Shen Lang had already threw two masters under his feet and stepped on both of them.

With the power he showed, no one can deny that he could trample two comatose people to death.

Xia Yuntian has been kept 100 meters away, and dare not be too close, so as not to have the opportunity to escape.

“Okay! Don't fight any more!”

Tang Banshan sent a call to the master who was still fighting the sacred priest.

After a while, the two of them also flew over from another rock.

When I saw Tang Banshan coming back, Xia Yuntian dared to approach.

Qiao Yong and Qiao Shuyu are also close.

The situation has returned to the previous confrontation, but now it is a bird that has become a scared bow, two are stepped on the feet by the sinking waves, the victory is self-evident!

He was just fighting well. In Tianshan Jianzong, he couldn't fight with his own people. His own only high is his opponent, but now Gao Li opened him and he couldn't practice.

It was a bit uncomfortable to be interrupted.

After seeing the situation in front of him, he almost scared his eyes!

The last time Shen Lang killed Yu Wenba, he also felt that it was the relationship of the attack, in the case of Yu Wenba or under the enemy, directly attack the killer.

But this time it is a hard time for both sides to prepare for it!

He can only cope with one, and the other three need to ask for more self-satisfaction. I didn't expect Shen Lang to return to an enemy three or a big victory!

I was too ashamed to think that he was excited about being evenly matched.

Master is Master!

It is worthy of the reincarnation of the founder!

Still high from the eyes!

"Now tell me the point is up?" Shen Lang taunted.

"What do the masters of Shen Lang want to deal with?" Tang Banshan became very amiable again.

"We just counted into three groups. Our two groups are all in a draw. The master of Shen Lang is an enemy, but it is a win. Let the old and the good admire!"

Tang Banshan said that it was a guest, but no one was not convinced.

In addition to the two places in the scene, the others are only awkward!

"I told them before, I don't want to kill, if you force me, the end will be very miserable!"

When I heard the words of Shen Lang, everyone's heart broke out, especially Xia Yuntian.

Could it be that he just left two people not to kill, not to be merciful, but to kill them in person?

The face of Tang Banshan smashed up, and in the late stage of the real world, it was already the core elite. If he had not died, he would not let him personally come forward.

Now there are two more at the foot of Shen Lang. If he dies two times, he will not be able to make a difference.

Xia Yuntian was very glad that he had not been stepped on his feet, but he also understood that he was just a sigh of relief, not that he was lucky or stronger.

He immediately wondered what could be changed back.

Recall that the last time outside the Tianshan Jianzong, Shen Lang can be redeemed by the way of Lingshi!

With the character of Shen Lang who is not afraid, I really want to kill people. I should have already started it.

Just now he also searched two people...

“Master Shen Lang! We have no contradictions that cannot be reconciled. Everything is for resources. If our alliance is willing to make a spiritual stone, can we redeem them?”

Although this time should be Tang Banshan to speak, but he did not object to Xia Yuntian's more and more.

Xia Yuntian first opened, he added a room for bargaining.

Even if the temptation fails, it is not that he is shameful!

“The two of them are worth, how much is it worth? Take your sincerity!”

Qiao Yong and Qiao Shuyu glanced at each other and could not help but sigh. It seems that the legend is not exaggerated. This kid is really arrogant!

The bamboo sticks of the Masters League are that they don't dare to knock, they must make big things happen.

Hearing the price of Shen Lang, Xia Yuntian was relieved a lot, but this time he did not dare to take the lead, but looked at Tang Banshan.

Tang Banshan nodded secretly and then slowly said: "They are not good at learning. Master Shen Lang educated them today and let them know that there are people outside the sky. I am grateful..."

"But you have to redeem their lives. Then you have to make it clear that you must be a good person. If you are seriously injured, there is only one life left, then it is worthless."

Tang Banshan, the old tyrant, There is no asking price, first ask the loopholes in the words.

If you don't buy it at the time, it's the waste person who has one life left, and it's pitted.

He thinks that it will be normal for Shen Lang to hang people!

Shen Lang slightly sneered: "I was stunned by me, but I still have to be intact. Wouldn't I look down on my fist? I can only guarantee that they are not serious and still maintain the original state."

"Good! I am relieved to have this sentence."

Of course, Tang Banshan did not expect to be intact, only need to be seriously injured.

"A price, 50 people in a medium Lingshi!"

Tang Banshan decisive direct price.

Shen Lang snorted: “Xia Yuntian redeemed his flying sword and used fifty medium Lingshi; the appearance fee for me to come here is two hundred medium Lingshi. Now they are two lives, you say Is it worth a hundred Lingshi?”

Chapter 480 - Prisoners of war and trophies

Tang Banshan was blocked for a while.

Xia Yuntian and the other one are also very embarrassing.

The last time I redeemed Feijian, and the Lingshi of the Tianshan Jianzong, they all paid for themselves.

And the appointment fee for this time was collected by four of them. Up to now, the Master League has not reimbursed them!

They are also looking forward to this time, they can kill the fat sheep, and get compensation from him, they can also reimburse them.

Now I have to go in two, and let them make up the Lingshi, and don't say how much they can't get it.

Can only wait for Tang Banshan to decide.

Don't you face Tang Banshan?

When the face of Qiao's family was ruffled, it was already very faceless, but it was also pretending to be benevolent and righteous, and to pose an atmosphere.

But if you want to be slaughtered, of course you can't stand it.

“How much do you want?” Tang Banshan slowly asked.

Shen Lang raised his hand!

The two people underneath woke up leisurely, but they were indeed banned. Just have consciousness, can't move, can't run the vitality.

"The two masters, you half-mountain owners are asking, how much are you worth? The price he just made is that you two are worth 50 medium-spirited stones."

The two just woke up and found that lying on the ground, surrounded by all parties, felt ashamed.

They can't wait to bury their faces in the rocks!

Then I heard the words of Shen Lang and realized that I was not only caught alive, but also asked for a ransom!

"The lord! Don't care about us, we are not good at learning. It is not an opponent of a young boy, \*\*\*\* it!"

"Yes, I can't make a spiritual stone for us."

The tone of the two people is very tough, because the face has been lost, and I really want to die.

"Hey!" Shen Lang sneered.

"Do you know how old you are? How much did you spend today?"

In the words of Shen Lang, let the two of them smash.

"From the very beginning, it was the pay of your parents! Have they already made an ancient one? Then they are the elders of the division, are they old?"

"You have today's achievements, it is decades, and you don't know how many people's dedication. Even my enemy, I have mercy. You want to die?"

The words of Shen Lang, let them both again shy!

It's just really emotional, and now these questions make them speechless.

In addition to the kindness of the parents, there are also teachers and families who need their care!

Working for the Masters Alliance, not only for themselves, but also for the same door to get more resources – including status, relationship and so on.

If they are so dead, what about others?

They are also nearly a hundred years old. It took a long time to come to the present. And after reaching this realm, Shouyuan will be far better than ordinary people.

In any case, I am not willing to die like this.

“Now ask you again, how much do you value? If Master Mid-Level thinks you are worthless, how much price can other martial arts accept to offer you?”

This is to differentiate them, so that they are more unwilling, so that Tang Banshan can not lose people.

If he killed two people directly, Tang Banshan had no responsibility, and he could provoke the Master League to pay more for him.

But if the two men voted for other sects in exchange for spiritual redemption, it is the problem of Tang Banshan.

In fact, even if they are very strong, there are not many markets!

Like the home of Xie Jia and Chu Jia, I can't afford him. I don't have much value. I can't expand to grab someone else's home.

If the strength of the Qiao family is strong enough, the talents of his own are enough, and he is not required to pay him a big price.

However, under the temporary, they have no more time to consider these. And... Shen Lang can also represent the price of Tianshan Jianzong!

“Enough! Master Shen Lang, I ask you not to materialize the insults of our elite!”

First, I buckled a hat, and then Tang Banshan looked serious.

“They are very good and very important, and our Master League headquarters will never give up. They are priceless in my heart...”

“Don’t talk nonsense! How much do you redeem them?”

Shen Lang faintly smiled: “We Tianshan Jianzong, but the strength is strong, raising a few masters who are in the late stage of the real world, is not a problem.”

This is a face-to-face digging wall!

And this corner, really can’t be dug!

Do not say anything else, now these two are at the foot of Shen Lang, release them, plus a spiritual stone. Can you not be moved?

The light sinks and earns at least a thousand medium spirit stones!

“The elite of our alliance must of course be redeemed. I want to declare that they are priceless, but I have limited spiritual stones...”

Tang Banshan bit his teeth: “One person is a medium-sized stone!”

“Complete!”

Tang Banshan was returned with Gao Li, and he directly gave him two hundred Lingshi.

Shen Lang also directly kicked one of them and kicked them both.

When they were kicking, they did not hurt them. Instead, they helped them lift the ban and let them land on their own.

The two masters were embarrassed and embarrassed, bowing their faces and looking at them in the middle of the Tang Dynasty.

“Master Shen Lang! You just searched for the items on them. Since we have paid 200 medium-spirited stones, should we still come back?”

Xia Yuntian couldn't help but say that their two collections were gone, and that was not a small price.

Those two were comatose before, and when they woke up, they were ashamed all the way. I heard it now and found out that I was staring at the waves.

“You have stolen our things and ransom, too much!”

“Return things to me!”

Shen Lang squinted: “Do you want me to say it several times? Like the last flying sword of Xia Yuntian, this is my trophy. You are a prisoner of war. Redeeming a prisoner of war is one thing. Redeeming a spoil is another matter. ”

The two were immediately speechless.

The last flying sword of Xia Yuntian was lost to fifty medium spirits.

Now they are empty, where do you raise spiritual stones to redeem? It is impossible to give them to including Tang Banshan.

It's strange to blame yourself for being incompetent, being stunned by people...

“That... the grievances of both of you seem to have been solved temporarily. I want to interject and ask, after half a month, the special trade fair of Tangyuan in Qingchuan City will continue?”

Qiao Yong saw that they were like this, and then they continued to fight, and they shifted the topic.

“Of course! We will continue to do so. Welcome friends from Qiao’s family. I don’t know if I don’t want to come here.”

Tang Banshan is staring at Shen Lang. This is for him. As long as Shen Lang is willing to go to Tangyuan, he may know that he has gotten the resources of the beast and has more opportunities for them!

“Look at the mood! Who is willing to take risks if you look like a rogue who doesn’t recognize people like you?”

Shen Lang said that he summoned Gao Li and Qi Sheng, directly using the \*\*\*\* boat, and flew away from the hanging island.
