

First Strong 521

Chapter 521 - Fighting

Not long after the time passed, Shen Langzheng and Zheng Yumeng said about her shot today, explaining her actual combat, and the phone call of Sheng Sheng came over.

“Master, there is a situation. The wind girl was taken away by the people of the Master League!”

Just like Feng Xiaoji said, this is not in Tangyuan. She did not publicly hurt the face of the Master League. It is impossible to see her because she came to see the waves.

Therefore, Shen Lang did not pay attention, I believe she should have no problem.

However, Yu Sheng is responsible for the safety of the downstairs to the guest room.

If he goes far, his knowledge will not be able to sense such a long distance, and he will not pay attention to it any more.

The result was that she had just come out of the hotel door, and immediately there were people from the Master League waiting to take her to the car and take it away.

Feng Wuji is entangled this evening and will not be left behind by Shen Lang, so no friends like Zhuo Yuan are accompanying him.

As far as she is, even if it is a master, there is no room for bargaining in the face of the Master League headquarters.

If I follow it secretly, I will intervene when I am at the beginning.

But others are also upstairs, but the gods are inspecting. If you want to rush, it is too late. He is also afraid of adjusting the tiger to the mountain. He must guard his own safety and avoid someone attacking the waves.

What I can do now is to immediately inform Shen Lang.

Shen Lang quickly cleared the situation and understood the intention of the Master League.

Originally, the Masters League did not have an excuse to move the wind, and it would be unreasonable to be ignored.

But the same can not be done to Shen Lang, and Shen Lang is the goal of Tang Banshan!

In comparison, on their sites, it is much easier to give the wind a plague. And she has to deal with it, and the direct threat is fine.

Even if there is anything wrong with public opinion, how many people will be in the limelight?

There is no wind in the wind, and the wind is not good. But no one can get her. If you can't eat the grapes, you can say that the grapes are sour. Don't say that she is in her early days, maybe a lot of people will still say that she deserves to live.

And as a result, the problem is thrown to the Shen Lang – can not save the people?

If you don't shoot, you will see that the wind is not taken away by the Masters Alliance. The consequences are unimaginable.

When they shot, they did not take the initiative to cause trouble, but they responded with responsibility.

The bureau that had been put out was waiting for Shen Lang to jump inside, which is why they would directly work at the hotel entrance.

If you are rushing to the wind, then chances are a lot.

Gao Lihe and Sheng Sheng came over soon, and everyone discussed together.

“They are forcing us to start first!” Sheng Sheng was a little angry, but did not say whether to do it.

Gao Li is also watching Shen Lang. If this is the Tianshan Jianzong, or Zheng Yumeng Dorothy, it is very easy to do, do not hesitate.

It is obvious that the wind is not the same, and Shen Lang is how to define the relationship with her, and then decide what to do.

If Shen Lang is just playing on the spot, then everyone can stay calm and wait and see. If you really have been there, or care about her, then the adventure can only be done.

“This wind girl... you are not familiar with her, will you...” Gao Lisu calmed down, and at this moment implicitly pointed out a possibility.

Zheng Yumeng’s experience is not as good as their own, but it does not mean that she does not understand anything. This is a little bit of a glimpse.

“It shouldn’t be possible! When I was in Tangyuan, it was her who taught me how to speak after the people. It shouldn’t be such a person.”

Shen Lang nodded: “The wind is not good at Mingzhe, and he does not dare to stand on our side and offend the Master League. It will not stand on the opposite side to offend us, let alone give me a rewarding errand.”

“Of course, of course... I am just because this girl is too active...” Gao is a little embarrassed smile.

“I understand that she deliberately found it today. If it is someone else, it is abnormal, but she is such a style. When she was anonymously trading in Tangyuan, she was so entangled in me.”

Shen Lang explained this doubt, and then said another sentence.

“However, I can only ensure the benefit of this. It is difficult for Tang Banshan to give her more. But if Tang Banshan is catching her, it is possible to seize the handle.”

Everyone is looking at each other. I just didn't think about this layer. I didn't expect that the waves of the authorities might be the clearest.

"I want to decide?" Shen Lang asked a faint question.

"Of course! Master, you have the final say!"

Zheng Yumeng and Gao Li also nodded together.

"Okay, then do it!" Shen Lang seriously: "Whether they use the wind to catch the wind, it is a bait, or the two sides collude. For us, it is a matter of luck!"

"Happy?" Zheng Yumeng is a bit puzzled.

Shen Lang nodded: "Fortunately, it is not for you to start, or other hands that we value more, the hands of the doormen."

Gao Li and Yu Sheng reacted, and it makes sense to think about it. If the Masters Alliance took advantage of them to leave, they would have conquered the Tianshan Jianzong. Or catching people such as Zun Zun and Zang Yang, naturally they must be more passive.

Zheng Yumeng understands the experience better, because the Chu family used to start with Shenlang's parents and friends!

Now the wind is not a friend, but everyone's relationship is not so deep, it is her loss, it is a kind of luck.

Of course, if Shen Lang decides to take the shot, it will not be ruthless.

"Tang Mid-Levels is iron-hearted to move us..." Shen Lang sneered.

"Before Tangyuan, I will extend the olive branch to Joe Shuyu and Nanyiye, that is, I want to increase the weight and let Tang Banshan dispel the thought. Since he still does not give up, then use the battle to solve it!"

“Yes! The rise of our Tianshan Jianzong revival is impossible to increase the influence by peace. We must rely on the blood to come out and glory!”

The sacred sacred has never been a happy one is a positive militant.

Gao Li considers more overall situation, but from the beginning of Yu Wenba’s siege of Tianshan Jianzong, to the empty island of Zetian Lake, and then to the Qingchuan Tangyuan, all of them show their incomprehensible grievances and must rely on greater warfare. Cleaning!

“Would we like to contact more friends? Or will we publish this matter and win the public opinion?” Gao Li asked for a sentence.

Shen Lang directly shook his head: “To fight and fight! If you lose, if you lose, even if there is any reason, it will be misrepresented. If you win, even if it is not reasonable, it will be beautified.”

“There is no need to find other people. Let’s do it together. At the crucial moment, we can still leave together.”

People are better at doing things, and people are less flexible.

Since Shen Lang made a decision, it really has to be shot and will not hesitate. But this does not require others to help the boxing. This kind of person is not good enough, only you can rely on it.

Chapter 522 - Fanfare

After the decision, they immediately acted and flew directly from the balcony!

Shen Lang did not pay attention before, but after receiving the call from the sacred sacred, the gods have quickly tracked the past and locked the wind in the vicinity of the hotel.

They invited her to a car, but someone looked at her and didn’t do anything to her. Then she called and asked for it. After confirming, she drove along the river, and the speed was not fast.

All performances are to allow Shen Lang to track them.

Of course, Shen Lang will not let them down, with the scope of his current knowledge, not to mention that they are grinding and walking slowly, that is, driving back to the Tang Park across the river, can also be sensed.

Now four people are flying from the upstairs and chasing the car directly along the river from the air!

Opposite Tangyuan has been paying attention to the movements here. It is also deliberately letting them drive the car to this side. Once they found their movements, they immediately acted.

However, in the middle of Tangshan, although I did not think that Shenlang would actually be hands-on, and four people shot together!

Originally expected to be a sacred shot, then they rushed over to suppress the sacred, and then waited for the waves.

Now that the four people are working together, they are a little unprepared. Although they are also acting immediately, it is still a slow step from the Tangyuan to the other side of the river.

There are three masters on the car. The driving is in the early days of the real world, and there is also a memory in the early and middle stages of watching the wind.

Feng Wuji is a brow in the car.

At the beginning, they blocked it. She thought she had found her guidance for Zheng Yumeng and asked her to settle her bill.

So she cooperated with the car and did not make trouble at the door of the hotel.

But with the behavior behind, she quickly realized that she was just a small fish and shrimp, and it was not worthy of the Master League to find her. The other party wanted to use her to fish out the waves!

At this moment, she is very entangled, emotionally hope that Shen Lang can come, this shows that whether it is a friend, or cover her "partner", they all value her.

On the other hand, she is sensible, she does not want to come to the waves, and the words of the Master League will undoubtedly come to them, giving them an excuse to do it!

It didn't take long for the time, and the four people in their car felt that a strong monk was descending from the sky!

In addition to the master who drove the car, the front and back of the two cops and the rear of the two monks, the mid-term monks quickly opened the door and flew out in the moving car.

“Who is here? We are...”

boom!

With the huge harsh sound, Gao Li and Qi Sheng were in front and behind the car, and the car was flattened!

Under strong crushing, the tire under inertia makes a harsh frictional sound, and it stops for a long time without continuing.

At the same time, the two who flew out first, saw that it was the sacred sacred in the late stage of the true state of the realm, and the high-level separation of the true peaks of the realm. They were desperate. They wanted to say that they were the identity of the master league.

“No matter who you are, it's a bad thing to swear!”

Gao Li first shouted a sentence and made his teacher famous.

The sacred sacred can't help it, and it's straightforward.

Not to mention the high departure, it is a person who is completely smashed, and they are completely crushed.

At this time, Zheng Yumeng fell to the side of the car, and the door was smashed down. The wind inside was not banned, and of course it came out immediately.

The swells that came with them slowly floated in the air for a while, and then landed on the roof of the car.

He is not as heavy as the high-altitude and the sacred sacred, and the lightness falls like a feather, but it immediately collapses and the roof collapses!

The driver in the front driving position, a master who lived in the early days of the real world, seemed to be tied by a seat belt, but did not escape, and was forced to die.

“Unspeakable!”

He did not need to send a sword, and they both flew out of the two with one hand. One broke a pole, and the people fell on the ground and died. The other one was thrown into the river far away.

“You... thank you!”

There was no wind in the wind, and I bit my lip, and the beautiful eyes filled with tears.

The kind of reputation that she has always shown is unclear. It is very clear. Why have they always cooperated with Zhuo Yuan, and because there are not many real friends.

Unexpectedly, after the Master League captured her as a bait, Shen Lang not only came, but also came brightly and made a big shot!

She doesn't believe that Shen Lang and Gao are far from the relationship behind them, but they are still here!

This is not only a response to the Tang Mid-Levels, but also a fear of the people behind it.

When the wind was unable to move, the people in Tangyuan crossed the Qingjiang River and quickly arrived here.

When people were over the river, they also saw the situation happening here. The three masters of their own have already lived and died.

“Bold mad!”

“In fact, in Qingchuan, killing people and goods, and ignoring the morality of the country and the law!”

“Please invite all parties to cultivate true friends, join us, defend the country’s laws, and take the culprit!”

Since it is a bureau, of course all the lines have been calculated. Although Shen Lang’s four people shot together and went straight to the scene, let them slow down a beat, but immediately followed the script.

The masters who came over immediately announced that they were the murderers of the murderers and started to use this name.

The shouts of the monks of all parties are just the same as the ones who have just left, and they are preoccupied with reason, so that they can be famous, and they do not expect anyone to take it.

“Let them roll.”

Shen Lang faintly told a sentence.

The strongest thing to come is the late stage of the real life, then the initial and medium-term, Shen Lang does not bother to participate, there is a high separation, you can give the sacred play, give Zheng Yu dream practice.

Of course, the two of them are also excited shots, and the high separation is to suppress the strongest and shock the scene.

“For someone like me... is it worth it?” Feng Wuji looked up at the waves standing on the roof of the car.

His eyes were a bit fuzzy, and under the lamp, he only felt that he was very tall.

“Which kind of person do you want? Don’t say that you are my friend I still have to do things for me. What is their purpose this evening, everyone knows.”

Shen Lang looked at the other side of the river and whispered: “You should go first! There may be a big battle tonight. If you are late, you may not be able to take care of you.”

The wind did not bite his lip.

She has just been saved, but she has to abandon them and run away. This is something that people with a little shame can’t do.

But she is more aware that what Shen Lang said is considered. She will not be able to help her, but she may become a hostage hostaged by the other party. At that time, she will be tired of the waves.

The gap in strength is not something that individuals can make up for!

The other person has a lot of people, but it can also be filled by human tactics. She is alone.

” Take care!”

After the wind was not finished, he gritted his teeth and quickly left the scene under the faint tears.

Chapter 523 - Shen Lang shot

The just-changing accidents also allowed the monks who lived in hotels near the river to watch.

Although they are inconvenient and afraid to participate, it is not too big to watch the fun!

The situation that occurred last night was that I was afraid that I was suspected. I wouldn’t dare to move, but it’s obvious tonight. It’s the Shenlang party and the master league.

There are some high-level ones that live next to them, which can be sensed by the gods or seen in the windows.

Some of them were quickly rushed out, and they were able to see the rooftop of the building.

It's even more interesting to see that the fuse is actually a windy day. People are always more interested in news in this area.

In the battle below, Feng Jiji actually escaped first! This makes everyone feel that the waves are not worthwhile, but also some gloating.

After all, there is no wind in the wind, and many people are coveted.

Now look at Shen Lang so protected, the guess is to get it, those who have a heart to the wind are inevitably unhappy, found that the wind has no guilty to run, leaving the waves to be a big head, it will also gloat.

When the leading forces of the Masters League gave Zheng Yumeng a good hand and a sacred acquaintance, their main force also rushed over.

Of course, the main force is Tang Banshan personally handsome!

Of course, Tang Banshan will not pay attention to it personally. In his plan, after the wind has been settled here, it is very likely that Shen Lang's side is a sacred shot, and then their first troops will come over and there will be a real world. In the later period, plus multiple in the early and middle stages, it is enough to trap the sacred.

Waiting for the big fish of Shen Lang, he came over again.

Just as the situation changed, the leading troops were also reporting, and they quickly rushed over, waiting for him to lead the team a little later.

"I don't know which friend is so arrogant! In the Qingchuan murder, this is not to give the Master League face, then don't blame us for taking you down first!"

When Tang Banshan came out with people, he had already spoken from the Tangyuan side.

He is deliberate. If he is not on the scene, he can pretend that he does not know that it is Shen Lang and Tianshan Jianzong. He can also pretend that he does not know what the specific situation is.

Let's define things first!

When I heard this in a lively neighborhood, I knew that Tang Banshan would never let them go.

Instead, we must "smash the people for the sake of the people" and "kill the country for the fierceness" in the name of the smashing of them!

When this sentence came, their group had already reached the middle of the middle of Qingjiang.

Gao Gao was still in the process of plundering. At this moment, he frowned slightly, thinking about whether or not to solve the problem in front of him. Otherwise, it would be difficult to clean up after the enemy increased.

If the ants are too much, they can kill the elephants, let alone these are masters.

When he hesitated, he turned to look at the waves and wanted to see if there were any instructions for Shen Lang.

It turned out that Shen Lang did not say anything, had already landed on the ground, and seized the flat-sliding car, and was smashing out against the top of the river!

The car crossed a large arc in the air, and the Tangyuan monks who rushed over quickly smashed past.

This scene makes the monks who are looking upstairs and rooftops look more real and ridiculous. I didn't expect that Shen Lang actually used brute force!

Such a big goal, a low-level monk is a huge momentum, for the master, is not easy to dodge?

After discovering that Shen Lang started, Gao Li also directly followed the hands!

He has the highest realm, and he saw it. When he threw the car out, Shen Lang himself was faster than the car and flew in advance!

The car was thrown out by Shen Lang, and the speed was very fast, but after all, the weight and resistance were great. When thrown to the top of the river, the main force of the Master League had already flown by two-thirds.

When such a big thing comes over, there is still time to react to them, and of course it is impossible.

But when they captured the trajectory of the speculative car and prepared to evade in the air in advance, they heard a rushing sound.

“Be careful!”

It was Tang Banshan who was warning the police. Unfortunately, between the electric and the Flint, he only had time to say two words and could not say more clearly.

Many of the masters who have just heard the sound and have not yet responded are hit by the sudden powerful force, or skyrocketing, or falling into the river, or flying far away!

These are the masters of the middle of the real world, and even there is the late stage of the real world. As a result, many of them have been turned over by Shen Lang!

Watching the lively monks around is like watching a football match, and the eyes are on the “ball” (car).

Waiting for this change, I feel that they are not as fast as they are, and they have directly shot multiple monks!

Who is this? How can it be so fast?

Who is this? How can there be such a strong force?

Even if it is a sneak attack, even if it is unexpected, these are the masters of the medium and late!

What they can imagine is definitely high!

Because Gao Li is a super-powerful person who is more than the peak of the real world, it is the existence that they can only look up to see the lively, only the Tang Banshan can rival.

If it is so high, it will be normal.

But when the speed of the figure slowed down and turned in the air, everyone could not help but be speechless.

It turned out to be a wave!

Isn't Shen Lang supposed to be in the early days of the real thing? Even if he said that he actually has the strength in the middle of the real world, is this too fierce?

Even if you see it with your own eyes, everyone is unbelievable, but would rather believe that Shen Lang is relying on the cover of throwing cars, attracting attention including them, and then attacking by speed.

If you face the game, he is definitely not an opponent!

Tang Banshan was able to see the sudden attack of Shen Lang, but the speed was too fast. At the same time he spoke, it also attacked a past in the air, but it did not play any role.

What appeared in the air at the moment was the Tang Banshan and Shen Lang, who had already rushed from behind, and the three men were facing each other in the sky.

The car that had just been thrown over, crossed under them and fell to the river.

The other people who came with Tang Banshan had just been away from the distance because they were far away.

They were the first to save the people who fell in the river, including the car that was thrown down now, and there was a person with unknown status.

There are also that woke up after falling into the water. But on the whole, their mighty “main force” was so dispersed by Shen Lang.

“When I am so blind, I am not afraid of it!”

Tang Banshan sneered and continued to buckle the big hat.

Shen Lang did not pay attention to him, but said to Gao Li: “Don’t be merciful, and work together to kill this cargo tonight!”

He did not pass the sentence, but said it directly, and the sound waves spread out so that the surrounding monks could hear it.

Everyone has just been shocked by his magical method, and when he heard this, he was taken aback.

Shen Lang actually wants to kill Tang Banshan!

No matter whether he is in the early or middle stage of the real world, even if he is a sudden change to the late stage of the real world, this is ridiculous.

Chapter 524 - Indiscriminate bombing

Do not say anything else to watch the excitement, it is Tang Banshan himself, but also by the words of Shen Lang to the gas!

This kid is simply daring, thinking that by relying on means to kill Yuwenba, is it qualified to fight against the real peak?

The gap in a realm is a divide!

“By you? Don’t say that you are not qualified, that is, the high separation that has just advanced, is also not qualified!”

When Tang Banshan said this, the momentum was like a rainbow, as if the entire Qingjiang River had been condensed!

Looking at the lively monks from a distance, at this moment, my heart trembled, it seems that Tang Banshan is staring at them in front of them to say this.

The strength of the true peak!

This is no longer the same as the later period of the real world. It can be said that only one step is required to break through the realm of the gods.

Tang Banshan has such strength, you can say such words.

Moreover, this is a high separation, and it is impossible to refute.

Because he was only advanced for less than a month, it is still far from being able to get the respect and attention of Tang Banshan compared with Tang Banshan.

Just after Shen Lang said that he had teamed up to kill Tang Banshan, it made him secretly smile. This is just a joke!

“High off!”

“in!”

Suddenly I heard the words of Shen Lang, Gao Gao looked positive and quickly agreed.

“Tang Mid-Levels looks down on you and says that you are not qualified to fight him. Do you dare to fight?”

“dare!”

What can you say at this time? Of course, I can only say that I dare...

Tang Banshan is a secret belly. He said that he is not qualified. He said that Gao Li is not qualified to kill him. The qualification for World War I is still there.

However, if you want to explain it, it is the long-term ambition to destroy your own prestige.

The high and decisive promise did not give him an opportunity to explain.

“Good! Then you fight with him!”

“...”

The attitude of Shen Lang’s sudden change, Tang Banshan and Gao Li are silent for a while.

If you look at the excitement in the distance, you will almost vomit blood.

what is this?

Do you think it?

Where did the hard work just go?

For a time, most people despise the waves at the same time.

Yu Sheng and Zheng Yumeng also worked hard in this time, and they packed up the enemies and rushed to the river.

But those main forces that have been rushed out, regardless of whether they have been injured or not, after rescue, they immediately went to the riverside and confronted them.

Shen Lang said this as a master. Gao Li did not have the opportunity to talk about conditions. Immediately, he was guarded by God. The Zhenhai sword of the ancestors of the sea appeared at the beginning.

His new top-level master, in the face of this veteran master of the peak, must play the spirit of twelve points.

Tang Banshan just said so proudly, but if he really wants to fight, he would not dare to care.

After all, the other is a top-level master, and the other is a very strange guy.

Of course, his main energy is still on the high-altitude body. For Shen Lang, all he needs is to be careful not to be attacked.

Just as Gao Li and Tang Banshan confronted the river, Shen Lang once again surprised everyone!

After his figure flashed, it disappeared from the top of the river!

“Be careful!”

Tang Banshan once again reminded the masters of the riverside and the sacred Zheng Yumeng, that they would not be squandered by the waves.

Even if there is no serious problem, it is very shameful.

These masters on the riverside are close to the enemy, and they are not able to take care of them. The quick backs are close together and they are consistently guarded against the outside world.

But what surprised them was that no matter which direction they were, they did not see the shadow of Shen Lang.

Nothing around, it can only be in the air!

When everyone looked up at the sky, the successive loud noises appeared!

This is not just for them, in the mid-mountain of the air, as well as the monks on the riverside hotel and the rooftops, all the eyes have looked.

It is on the other side of the situation. Needless to say, nature is Tangyuan.

Shen Lang is at the top of the Tang Garden. It seems that the magic and the magic weapon that seems to be used are mad at Tangyuan!

The previous batch of leading troops, together with the main force led by Tang Banshan personally, basically made the Master League headquarters elite.

Shen Lang suddenly left the river, did not attack other masters, but killed their nest, so that no one in Tangyuan could resist.

His behavior was completely unexpected, and his speed was super fast.

He started to be merciless and directly bombed!

“Fuck!”

Tang Banshan screamed, and he couldn't take it high. He didn't have time to make an order. He had to go back and kill the sinking waves.

Gao Li has just seen the scene on the other side, and is quite pleased.

Shen Lang is not a sinking wave, Master is a master!

Just not playing cards according to the cards, it is not a lie, but there are plans!

That made him fight with Tang Banshan, of course, in order to delay the Tangshan.

“And stay!”

Gao Li shouted, and Zhen Haijian had already swayed out.

This sword, originally belonging to the Bohai ancestor, is called “Zhenhai Sword”. It can be seen that there is a certain advantage in combating the surface.

A high-slung shot, it is almost the effect of the river cut off, the entire Qingjiang is like a water dragon stirred by him, and swallowed the Tang Banshan!

This is the shot of the master of the peak!

Seeing the onlookers of this scene, they couldn't help but scream, and when they came to the end of the real world, they were careful to observe and hope to gain something.

The group of masters on the riverside, after reacting, did not need the orders of Tang Banshan, and saw that he was dragged by the high separation, and quickly retraced.

Yu Sheng and Zheng Yumeng, watching Shen Lang's bombing in the Tangyuan, are very inspiring, chasing them out directly, trying to stop them from rushing back to Tangyuan.

Besides the other side of the wave, he certainly will not attack the masters who have already prepared. Since Tang Banshan has come out with the elite, he certainly will not let go of the opportunity to bomb the base camp!

Just like the original Xie family He just used the sacred armor, moved to the top of the Tang Park at high speed, and then used the sacred armor and the smashing magic weapon to fight against the Tangyuan!

Tang Yuan has already been there twice. Although it is not convenient to investigate carefully, the general layout is still known. Moreover, a bird's eye view of the upper level of the hotel opposite the river can also see a structure.

The current indiscriminate bombing, that is, targeted, every strike is very effective, even if there are still many people in the real world, can not stop and attack him.

Suddenly, a round of bombings from the air also made them instinctively escape from the Tangyuan and flew out into the air to see what it was.

When the bombing was soaring and the wall was broken, Shen Lang was directly hidden into the Tangyuan!

Since you have torn your face, there is nothing to be polite!

As Tang Banshan said, it is not easy to kill him, so Shen Lang decided to take the fire and take advantage of it first...

Chapter 525 - Dangerous situation

Last night, I slammed a bite and let Shen Lang be very interested in the Dragon of the Master League.

However, they definitely set up an ambush and waited for others to start again, so when they went to Tangyuan tonight, they did nothing.

If Tang Banshan does not engage in things, Shen Lang will leave and will not come back.

However, Tang Banshan did not want to let him go, but to kill Tang Mid-Levels, it is not so easy to do, this is a bit embarrassing.

I can't fight with the Master League's headquarters. Are you getting rid of the fat?

Even if he is sure that he can kill a lot of masters, these original identities are also the role of Tang Banshan.

They have no right to speak, and there is no good or evil. They just obey the orders of their superiors.

Killing these masters in the early and middle stages of the real world did not have the pleasure of venting anger. What makes him care is only one in the middle of the Tang Dynasty.

However, the strength of Tang Banshan is stronger than that of Gao, and even if he and Gao are united, they may not be able to kill.

Naturally, Shen Lang is prepared to disgust from the other angle to Tang Banshan.

He can almost certainly be sure that the ally of the Masters League is not here in the Tangyuan, or else the dragon will be stolen last night, and it is impossible to not shoot.

Just like the last time they hit the gate of the Tianshan Jianzong, if there is a high separation, it is impossible to squat.

This is the source of confidence that Shen Lang dared to scatter the wilderness of Tang Yuan.

And this plan, when he decided to save the wind, has already formed in his mind.

Just everything, for the foreshadowing of this step!

After a violent bombing, Shen Lang also knew that people on the other side of the river would come back, so he quickly sneaked into the Tang Garden.

After Tangyuan's last night, it has been adjusted overnight. It's not so easy to steal the dragon. Even the animal is not so easy, but it's hard to beat the waves!

When he was watching in the air last night, he had already seen it. He re-entered Tangyuan today. Even if he did not have deep knowledge of his knowledge, his eyes were still unrestricted.

And when he was just blasting above, he also took the overall situation. Looking at the people who fled out of the flight, there were people who went to guard wherever they were, and that was the key.

After sneaking into the Tang Garden, Shen Lang flashed rapidly, and in the blink of an eye, he searched several targets for locking, and finally determined a place.

It was an inconspicuous house outside, but surrounded by walls, the only one locked.

At the moment, the perimeter of the wall, as well as the surrounding, there are many masters who are in the early days of the realm.

It should have been a stronger person to guard this place, but just dispatched to fight the waves, these are backups.

The surrounding fires are getting more and more prosperous, and many wall houses have collapsed. The wooden pavilions and pavilions, in the dry weather of autumn, are more quickly caught on fire.

These all let the masters who stayed behind be nervous.

“who!”

When someone came over, one person whispered.

But no one answered him. Under the fire, a virtual shadow has just appeared, and there is no trace.

The opening has not yet seen what it is, the whole person has already flown out and stunned.

At this moment, the speed of the waves, such as photoelectricity, and the trajectory after the flash, are all like being crushed by tanks or being bombarded by artillery.

In a month, he can shoot the late-level master Yu Wenba, let alone the early days of these realities.

Refining the marrow fluid of the giant rhinoceros beast and the inner lining, his current strength is not comparable to that of a month ago.

These masters of the early days of the real world are really in front of him, just like the scarecrow.

Also lost to Shen Lang, the current mind is “Dragon Ball”, and they ignore these “喽啰” , otherwise they will all die!

Almost just an instant, Shen Lang had already leveled the masters and then kicked the roof of the building directly.

After the concrete roof flew away, it was a large piece of steel that was exposed!

This is to cover the house with steel, and it is estimated that it is chained under the ground and covered with concrete.

Shen Lang originally wanted to step in directly. Now, looking at the whole pile of steel shovel, it is estimated that if the powerful force is crushed down, it will really be flat and will not crack.

Time must be race against time. He didn't go to see if the lock would start even more. He didn't even have time to hesitate and took out the rust sword!

After the rapid slashing of the rust sword, a big circle appeared, thick steel flew out, and Shen Lang himself jumped inside.

By breaking through the light from the entrance, you can clearly see that the space inside the building is not much, and the outside looks big because the walls of the steel are very thick!

Here is the array of this array!

The dragon's arch of the group, Tang Yuan is where Dragon Ball is.

However, Tangyuan is a "Dragon Ball" relative to the entire Qingchuan pattern, and its footprint is not small.

And in this steel house, it is the eyes in the eyes, the fine core in the Dragon Ball!

Obviously, these steels should be controlled by the authorities and open at normal times. Otherwise, the aura will be isolated and the outside spirit will not be inhaled.

Its role is to absorb the reserves of the Tangyuan to gather the Jiangchuan Dragon!

Without it, the Tangyuan Aura will be far better than other places, and the people who come to the fair will have been able to sense it and will explore it.

The role here is to absorb the excess aura, so that Tangyuan keeps only slightly better than the surrounding, which is equivalent to the standard level of the general martial art family. Whoever comes here will not be surprised.

And this day after day, the aura of year-to-year reserves, now appears in front of Shen Lang!

There is nothing else in this house, it is a well.

Well, of course, is a specially built reserve pool. What is stored in it is not water, but a gathering of spiritual springs!

Shen Lang looked at it, these Lingquan are not like water, thick and thick like a pulp!

This is the key secret that the Masters Alliance can develop!

Because they can provide Lingquan This is far faster than the speed and effect that everyone can absorb when they cultivate.

Because of this, the masters are willing to sell their lives for this league headquarters!

And their lords can reach the realm of the gods, including the Tang Banshan can reach the peak of the real world, Lingquan is the key.

Last night, Shen Lang took a sip of the “Dragon Air”, which is derived from here. It is the gathering of the Dragon Balls, and there is still no aura that is completely confined to Lingquan.

Last night, it was like taking a deep breath of “burning chicken”, but now, it is a whole “burning chicken” in front!

This is the goal of taking the chestnuts in the swell of the waves. When it is said that it is too late, he has no hesitation at all, and directly takes all the spirits away!

Yuwenba’s piece of jade is a treasure of storage. After Shenlang was emptied, it was not given to anyone, and it has been kept. Now it is directly used for holding and filling the Lingquan!

Chapter 526 - Desolation on the line

“Shen Lang **** it!”

When the steel house was cut into a round hole, the aura was immediately leaked out. Other people may not feel it, but Tang Banshan is not only the strongest on the scene, but also very clear about what Tangyuan has.

So the slight difference, he immediately noticed.

Immediately a roar!

Tang Banshan, originally wrapped in “Qingjiang Hualong”, with his violent drink, countless waves of water rushed to the embankments on both sides. Gao Lizhen Haijian condensed the water dragon of the whole river and was forcibly broken by him!

Not waiting for the height of the sword to approach, Tang Banshan has quickly gone to the Tangyuan.

Everything is fast and fast, so you can see the excitement around you.

The other masters have just circumvented the water dragon crossing the river, and the sacred and Zheng Yu dreams are chasing them away. Gao Li is chasing the Tang Banshan.

Tang Banshan’s goal is not to say that nature is a deep wave. If he is allowed to catch up with the deep waves, the consequences will be unimaginable, and he will not dare to relax.

Onlookers of the monks, marvel at the power of Gao Li, but also know that Tang Banshan is even stronger, not to escape, but the Tang Garden was destroyed, let him burn in anger, to chase the sinking waves!

They don’t know, the Master League does not know how many years of accumulated Lingquan, the foundation of their alliance to build their own business, this time is being squandered!

God knows that Tang Banshan is going crazy now!

He slammed the idea of the family at the end of the wave, and wanted to do that and wanted to set up a memorial archway. So there was no direct looting in the cover, and it was until this evening that there was a game.

I didn’t expect Shen Lang’s counterattack to come so easily, not only for him, not for Tang Yuan, even the foundation of the Master League!

He must now leave the Shen Lang, and he can't take care of it. He must kill people on the spot!

If you can't severely punish, you can't get more compensation. This time, he can't explain to the lord!

Originally, he started with Shen Lang, and the items he got were more of his personal income. Turn in a part and give it to others.

Jade peach, two giant beasts, such as Nei Dan, etc., if these coveted things let him get, properly and surely promoted to the realm of the gods! That identity is a different day.

But now that this situation comes out, it will inevitably alarm the lord. These huge benefits, he can't finish it alone, must be honoured and come out.

Trouble, black pot, interest... I can imagine how angry he is.

The roar of Tang Banshan, and the destruction of the Tang Garden, were all seen. Everyone saw it.

Therefore, the masters of the main force, not only flew over the other side of the river, but also all cast spells together, attacking the past with high separation.

Gao Li wants to drag the Tangshan Mountains and fight for time in Shenlang.

They want to drag the high distance and fight for the time in the Tangshan Mountains.

Yu Sheng and Zheng Yu Meng can't see it in the back. If the high distance can't help the Shen Lang, then the Shen Lang will be in trouble!

“Zheng girl! Kill!”

Sheng Sheng snorted and let Zheng Yumeng fully play.

Of course, he himself also went out to fight the past!

When I went to Qiangjialing, the sacred sacred did not go, it was praised and separated. For Zheng Yumeng's situation, he heard it later.

So Zheng Yumeng is still practicing, and he doesn't feel too strange. Gao Li was attracted because of the rush, and soon they were attracted by Tang Banshan, and they did not notice the difference.

Now the "kill" that he shouted out is, of course, to let another Zheng Yumeng – Desolation play its strength.

Zheng Yumeng understands this very well. Now that the situation of Shenlang is in crisis, she can't let her practice. It must be accepted as soon as possible, in order to help more.

Ever since, she did not care about people in the air, directly let themselves "hibernate", replaced with a bleak "login."

This "switch" directly caused her body to quickly fall a few meters, almost to the river.

The bleakness that I just took over is almost a fog, and I don't know what it is.

However, she used to be a female sword fairy. The ability to adapt is extraordinary. It is to see if the body can keep up.

After discovering that she was about to fall to the surface, she quickly flew up.

God quickly observed the scene and let her have a general understanding of the situation.

In the distance, there is a man who goes to a manor in the sea of fire. Gao Gao is chasing after him, and they have already reached the other side of the river.

There are a group of people behind, who are casting high-spirited attacks, and there is still a person behind them who are attacking the masters.

Even if I haven't seen the sacred sacredness, I can see that this is the sword of the Tianshan Swordsman, knowing that this is my own.

Moreover, the battle situation is also very clear, which can make Zheng Yumeng's abrupt switch to her, which can make the high-speed desperate pursuit, the chasing of the front should be Shen Lang!

Not to mention that Qiu Shui Jian has already been in the hands of Zheng Yumeng, and is completely in a state of combat.

“kill!”

The bleak snoring, the autumn water sword swept out!

Although she is at the end, but the sword is full of first come!

And it was not a direct attacker, but flew past the crowd, and they first stepped in front of the riverside embankment.

Under the sway of her sword, countless rivers quickly splashed upwards. For a time, every water arrow has a sword, and it is like a sword!

These masters are all performing spells to attack high-scoring, slow-moving mid-term masters of the real world, in the back to deal with the sacred pursuit.

They have no time to take care of it, and they have never thought of it. They have already reached the riverside, and they will have countless water arrows, and these water arrows are filled with fierce swords.

They are powerful, but they are all overwhelmed by the tens of thousands of arrows. They are forced to carry a hand and wave their hands to open the water arrow in front of them.

The sacred sacred is behind them, looking at this scene, knowing that it is the shot of “Zheng Yumeng” behind, can not help but secretly applaud.

Because they are far apart, and the huge amount of dispersion, the swordsmanship contained in these water arrows is bluffing, and can't be how these masters are.

But the desolation is just such a trick successfully put them in control, so that Gao Li can catch up with Tang Banshan.

At this time, Gao Li has already chased the top of the Tang Garden, and Tang Banshan has already reached the top of the steel building, directly wearing it inside the round hole.

When I arrived in the near future, the aura of the leak was even more turbulent, and he was also nervous.

Last night's shot must be Shen Lang!

This must understand the preciousness of the aura. Even if it is too late to take it away, it is a big problem if it is ruined by him.

He leaped directly into the round hole from above, but did not control the Lingquan well below, but the killing was steep!

Shen Lang is definitely too late to go, this time it is a slap in the middle, it is very likely to lurk to want to attack him!

Tang Banshan, who will count on the plan, this shot is a high-scoring blow, and it is necessary to kill Shen Lang directly inside!

Chapter 527 -

A master of the peak level is furious and struggling, and its power is enough to sweep everything!

After the attack was over, he fell into it.

Then I almost vomited blood!

If it weren't for the steel building, it would be thick enough to add a resilience to the aura. The power he had just attacked would have to be overturned here.

But there is no one inside!

Instead, the well was destroyed, and when I saw the situation in the well, I was even more than a hundred years old. I couldn't help but marry my mother...

It was completely hollowed out!

Because of the particularity of this steel building, the aura will not be leaked out, and the gods will not be able to detect it.

When Tang Banshan came over, the gods had already locked the film, but he could only confirm that Shen Lang did not escape. He did not know how he was inside.

However, there is nothing else in the huge steel building. According to the estimation, Shen Lang is definitely making Lingquan, so he directly attacks.

Where did Shen Lang go?

Both sides are very urgent. When Shen Lang is "packaging" all of Lingquan, he knows that Tang Banshan must have come over, and his realm should soon arrive. He wants to escape from the front. I caught one.

Shen Lang immediately changed another idea!

He is waving a rusted sword, and on the other side of the door lock, he has cut a hole.

Then, waiting for the same time when the shock hit, I ran into the steel and went out.

The attack in Tang Banshan is exactly the cover of his collision. This is also the right thing that he has grasped. If he is a little bit worse, he will have to bear the attack of Tang Mid-Levels.

The Shenlang just after coming out did not escape immediately!

If he is alone, this may be a better way, at his speed, you can go.

But there are still a few people outside, and they are scattered. It takes time for him to escape.

Gao Li can also protect himself, and Qi Sheng and Zheng Yu Meng are very likely to become the souls of Tang Banshan.

These have already been thought of when I just planned.

So when Tang Banshan landed inside, and the situation of anger and depression looked at the well, Shen Lang immediately slammed it from the outside before he found the hole!

The hybrid bomb is too late, he is using the holy armor, and the most powerful weapon has been bombarded!

Thinking of the Tang Banshan, who was trying to catch the smashing of the waves, he became a shackle in the shackles, and he was thrown a string of firecrackers into the shackles...

That is so cool... let him directly want to get rid of this steel building, and let the smashing smash!

However, this huge steel building is not only casting hundreds of thousands of pounds, but also deep into the ground, there is also a suppression of the aura, he can not directly smash.

Want to come out and chase the sinking waves, there are only two exits, one is on the top, the round hole he came in, and the other is the round hole that Shen Lang is attacking now.

Needless to say before, Shen Lang didn't know what magic weapon he couldn't understand, and he could continue to attack with high intensity, so that he would not dare to confront each other.

His only way is to transport the body and then get out of the round hole as soon as possible, and grab the person before he has escaped.

The weapons inside the sacred armor are also recharged by the spirit stone. As long as they have the ability, the conversion speed can be continuous, and there is no shortage of ammunition.

However, Shen Lang is not lacking a medium spirit stone. He is usually filled with Lingshi.

This will finally come in handy, of course, not to be mad.

He also saw the situation of the bombarded Tang Banshan more clearly outside. When Tang Banshan was desperate to rush out from the top, Shen Lang immediately changed a way!

While continuing to bombard, he reached out and grabbed the iron piece that had just been knocked out.

Because the thickness of this steel building is almost one meter, so he cut out a circular hole, the so-called iron piece, can be regarded as a slightly flat large iron ball.

After grabbing the iron ball, the Shenlang people have already leapt, and they have poured all their strength into their hands. In the slam dunking posture, the iron ball is buckled against the top hole!

Whether it is the top or the current side, Shen Lang is cutting as soon as possible, and there is no beautiful and complete round shape. Of course, the specific size is not considered, just want to be able to enter.

As a result, the iron ball may not be buckled under the top, it may be embedded in it, or it may be deducted like a slam dunk.

But he took the time to calculate it very well. When it was just deducted, it was the time when Tang Banshan stormed up...

When the head just came out, it suddenly turned black, and the Tang Banshan was so angry!

No matter whether it is a deep wave or a high separation from the attack, it will not be better for him. This is to hit the head with his head, and he is also a master of the peak level.

Between the electric and the flint, he had to grab the first hand and take a look at the inner wall of the steel building, and pulled himself back hard!

The steel collided and sprinkled countless Mars, making a harsh sound.

The iron ball was hard-locked and embedded in the round hole above it!

Tang Banshan's ability to adapt is also extremely strong. When he was almost wiped out of his head, he already felt the firepower of the following.

Therefore, it can be guessed that Shen Lang is shooting, which means that no one is stopped by the hole on the wall!

He will not give the opportunity to Shen Lang again!

This time, he did not use his head to go out first, but quickly flew out, his legs in front of the power to protect the bang!

Even if Shen Lang took another iron ball, the strength of his legs could still fly! Even if there is a gunfire attack, he can withstand it.

At the same time, he also contains a full blow, as long as he waits for him to go out, definitely not to give Shen Lang the chance to survive!

What can he think of, can you think of it?

After the "dunk" success of Shen Lang, people have quickly returned to the wall hole just almost smashed his head, Tang Banshan will certainly not use the head first, so he directly rust sword Jitter, a sword net immediately blocked the mouth of the hole.

Almost at the same time, Tang Banshan's legs have also flown out!

In fact, in the mid-mountain of Tang, the speed of escape is now full, as long as he is given more than a fraction of a second, maybe it will come out.

However, Shen Lang did not continue to bomb, but he has already slashed his sword!

This mysterious rust sword is able to cut off the fifth star of the world. Just the thick steel is like tofu.

The legs of Tang Banshan Yungong's body can withstand a very powerful force attack, but in the face of such a sharp sword, it is also Mo Ke Nai!

Suddenly, Tang Banshan felt that his legs were cut off...

As he continued to fly out, a lot of blood was sprayed from the broken leg!

Chapter 528 - Smoked mouse

They simply clashed, and Gao Li has already arrived, just falling.

The masters who lived in the late period of the real world also rushed to the top of the Tangyuan from the riverside. They have not yet arrived but can see the situation here.

Seeing a pair of feet spurting out of the blood, and the sword is broken, it is a deep wave, everyone is incredible!

Other monks who watched the excitement, because they are on the other side of the river, the distance is a little far away, and the specific situation here is no longer visible, but it can be vaguely seen.

Tang Banshan is a few higher than Yuzun, and strictly speaking, it is only the foot that is cut off, and even the legs are not counted, and it is not as serious as it was at the beginning.

Even if this is the case, Shen Lang can still make a powerful attack, so the sword in his hand does not stop. If he wants to continue, he will completely smash his legs and legs!

At the same time, he took the time to gather the spewing blood, and increased the suction on the wound to extract the blood as much as possible.

Tang Banshan is really depressed at this moment to vomit blood!

He is a master of the peak level, and he has been so squandered. This is very faceless.

The feet were cut off, so that he also had to hold the hands ready to attack again from the inside, as much as possible to stabilize the body quickly rushing out, and then income back.

Shen Lang holds a sword that cuts iron and mud. He will quickly go out from this hole. If he does not hurry, he will only be broken into two pieces!

What makes him crazy is that although his body is stabilized and recycled, he has not been cut again, but he has a strong traction, sucking out a lot of blood from his wounds!

In his realm, there will be no death from excessive blood loss, but the blood of the person will be released, which will affect the exertion of strength to a certain extent.

Stopping the bleeding and relieving pain is not a difficult thing for him, but his feet are cut off, and the whole person is very inconvenient immediately.

After retracting, I saw that my feet were cut off from above the ankles, revealing the bones of the forest, and had dried up.

“Shen Lang! I am your ancestor of the Tianshan Jianzong!”

The roar of Tang Banshan was transmitted through two holes and floated from above the Tang Garden. Even the monks far from the other side of the river were faintly heard.

This surprised them very much.

Tang Banshan is a master of the peak, and the strength can be imagined. Just as he broke the picture of Qingjiang Shuilong, it was quite domineering.

But this sound and words, how can there be a feeling of squatting on the street?

How did Shen Lang do it, can he force him to this extent?

He has already stopped his legs and legs, and Shen Lang is still waiting for the sword at the mouth of the cave. At this moment, he heard his snoring, and did not probe to see the situation inside. He lifted his hand directly and slammed the weapon that protruded from the sacred armor!

At this time, Shen Lang is still a bit awkward. This is the holy armor of Bihaihuan. The equipment is only for self-defense, but it is equivalent to the level of guns.

If you have a lot of powerful weapons like the one you went to last time, even if you are the master of the peak period, you can kill it.

This also made him a little regret, at the time Bi Haihuan was full of joy and wanted to give him all kinds of good things. It's just that the big inconvenient belts of the UFO machine can cause too much world problems.

Some other powerful weapons, leaving the city of the river basin, some can not play a role, and some can only be one-off, he did not bring.

After all, the sacred armor is designed for portability and invisibility. Even with the dimensional folding technology, the weapons that can be carried are limited in such a thin situation.

But now Tang Banshan is the shackles of the middle of the shackles, casually banging, banging him without temper, stunned to the wolf, is still very enjoyable.

The Tang Banshan, which had just finished, found that it had started to bomb again, so that he had to hurry and defend himself first.

Now he is very passive, his feet have been cut, and one is not well protected, and may be blown up.

This steel building is very thick, but now there are two holes, and the roar inside will spread.

It's not clear what happened in the distance to the other side, but Gao Li and the masters who have just arrived are basically familiar with it.

The masters are all nervous. Although the Master of the Mid-Levels is very powerful, there are magic weapons that can continuously put bombs in the dark waves. If they are strong, they can't stop the endless bombing. As long as they are negligent, they may be blown up. Now!

Just now they have vaguely seen that the Master of the Mid-Levels was injured. If they were killed again, it would be hard to rectify them.

At this time, they are not listening to the order, not to the honor and face of the Master League, but to realize that there is no egg under the nest!

So after a moment of disappointment, listening to the sound of bombing, someone screamed, and everyone quickly approached the steel building.

Gao Li also reacted. He was supposed to hold down the Tangshan Mountains, and he could not let Tang Banshan hurt the waves.

I did not expect that Shen Lang alone trapped Tang Banshan!

The situation here, he also saw a general, it seems that can not escape, and there are two mouths, one was blocked by a large iron ball, and the other one was personally guarded.

It seems that Shen Lang can still hold for a while, he immediately blocked these sieges, lest they affect the Shen Lang behind.

The back of the sacred and desolation, because there is no pause, has already hit a few, crossed the masters of the middle of the real world, and later approached these several latecomers.

Shen Lang has no threat to other people behind him, but Tang Banshan is still a big problem.

A tiger with a claw cut, or a tiger!

If you can't kill it, you can still easily kill someone!

Shen Lang does not want to fall into a situation where both lose or lose the same.

The big iron ball above, even if it is embedded in the upper hole, is just an iron ball. It is not like the whole building is a whole of hundreds of thousands of pounds. Tang Banshan can easily fly it!

While Shen Lang continued to bomb, he began to try other methods, and reached out and took a shot of the nearby smoke from the burning, and poured it directly into the hole!

This is actually not to smoke the Tang Banshan even bombing him is fine, naturally the mana body, forming a protective cover around.

Smoke can't get close to him.

But the smoke can be dispersed in the iron house, disturbing his sight and making him unable to see the situation.

Even so, what can be caused is psychological interference, and it does not really affect Tangshan.

“Shen Lang! I swear! Just wait for me to go out, you will destroy your Tianshan Jianzong!”

Looking at the thick smoke, Tang Banshan anger again burning, what does this take him? Smokey mouse?

Although he was roaring, he still kept bombing his body, and violently reached for the top, and once again hit the top hole!

This time, he had to open the iron ball first, and he had to distract himself in the case of self-protection.

Chapter 529 - Race against time

The strength of Tang Banshan is undoubted, even if it is injured and broken, it is still one of the strongest on the scene.

However, his current situation is not very optimistic. On the one hand, the bombing of Shen Lang has not stopped for a moment. The impact of this hot weapon has made him unable to relax for a while, or else he will be injured.

Both feet cut off and there was a lot of bleeding, which also affected his lower body's actions.

In addition, the surrounding area was covered with thick steel, so that his advantage could not be fully exerted.

At this moment, you have to defend, while you have to go up, you must first hit the iron ball above, but also guard against the attack!

Of course, he also knows that Gao Li has arrived. Now Shen Lang does not need to stop the attack. There can be another ambush.

The slightly flat iron ball is not smooth, it is cut by the deep waves. It is hard to be embedded in the upper hole by the external force. Now it is necessary to knock it open, and it directly produces a very harsh sound of steel friction.

However, because the attack power of Tang Banshan is very powerful, it is just a moment, and the iron ball is shot into the air!

He himself quickly rushed to the hole above and attacked at the same time!

Take the attack as defense!

Shen Lang didn't wait to wait for this time, but the continuous sacred guns bombarded, but his other hand was already a tight rust sword, and the whole person quickly poured in from the hole in front of him. !

The sword is one!

In a hurry, Shen Lang can't reach this state; and it should be short, and there is not much room for swordsmanship.

But the light inside was limited, and he introduced a large amount of smoke, and the bombardment continued, which gave him excellent cover.

The short distance is not conducive to the display of swordsmanship, but it can have a great effect on speed.

When the iron ball was shot open, the body of Tang Banshan rushed upwards, and the body of Shen Lang flew in from the outside.

People have not arrived, the sword is first!

Under the cover of guns and bombardments, Tang Banshan waited until the rust sword arrived, and realized that something was wrong.

However, he can't take care of it now, as long as he is fast enough to go out from the hole, Shen Lang can't help him.

And even if Shen Lang stabbed him, his body had been uplifted to be protected by thick steel, and at most it hurt his feet.

His feet have been cut, and more cuts, and that's it.

Unfortunately, he still underestimated the speed of Shen Lang!

And he himself was cut off because of his feet, which affected the speed.

At such a critical moment, the gap of zero and one second is enough to change everything!

Shen Lang also placed great hopes on this sword. If Tang Banshan came out, it would be difficult to trap him again. Working with Gao Li, it will be very tragic to have a chance to win.

At the same time, Gao Li heard the movement behind, the gods flashed, and it was clear that the big iron ball was flying.

He immediately understood that it was not good. These masters of the post-reality period, although they are also very powerful, are still qualitatively different from Tang Banshan.

He immediately ignored the late masters of the orthogonal hand, and at the fastest speed, shot the Zhenhai sword back to the hole that was just exposed!

Just the harsh voice, let the sacred and bleak from the back of the bread to see this situation.

I don't have to say it, of course, I know the consequences of the release of Tang Banshan.

Although the desolation is not clear about the situation, I also know that it is the strong person who makes Zheng Yumeng temporarily switch her. It is the strong person who attaches great importance to Gao Li.

Therefore, when the high-returned swords were combined, the two of them were also crazy attacks, and the former masters were dragged and given a little more time.

Of course, the masters also realized that this is the key to saving the Masters of the Mid-Levels. Only the Masters of the Mid-Levels can come out to make them turn over. Otherwise, they will still be bad, and they will be desperate for a while.

It's too late to say it!

When everyone is fighting for time, Shen Lang and Tang Banshan compete for almost microseconds!

When the rust sword quickly hit the side of Tang Banshan, most of his body broke into the hole!

His head and hands have come out of the hole, attacking as a defense, and steadily blocking the high-altitude attack.

And his torso is protected by nearly one meter thick steel, his feet are cut off from the top of his ankles, and the rest remains below, but it is only a few inches.

This is really as he expected, so that the most will let Shen Lang cut a small leg, people can still escape. As long as he escapes, he still has a chance to turn over!

Of course, Shen Lang is not satisfied with this!

At the moment when the rust sword hit, he immediately converges on strength and avoids smashing his calves. And it is turning the wrist to adjust the angle of the blade.

Then the rust sword directly penetrated into the calf bone still below!

Pierced the calf bone, the rust sword immediately caught, coupled with the force of the Shen Lang, to some extent dragged the speed of the Tangshan Mountain.

“Hey...”

The drag is only a little bit of time, and the pulling of the two powerful forces is not something that the leg bones can withstand.

The body continues to rise strongly, and the rust sword immediately breaks the leg bones and pulls the body.

However, Shen Lang did not expect that the rusted sword piercing the calf bone could drag him down. The sharpness of the rust sword could only be broken.

All he needs is a little more time, so others will advance a little more.

The other hand lifted up, facing the leg bone that had just been broken, and slammed a shot!

Then he grabbed the other leg bone and slammed it hard, not letting Tang Banshan's body leave!

Tang's half-mountain and his arms went out. In his opinion, he had succeeded in ending his life and defended the attack of Gao Li. It is time for him to take revenge.

I didn't expect the body to be pulled by the huge force. Not only couldn't it fly out, but there was also a powerful impact that went straight up the leg bones...

Such a shot can not be protected by his protective cover. Under the premise of emergency sports, it can only protect the body a little more when the explosion occurs.

The explosion rang again This time it was drilled from his calf bones, probably exploding when the knees bent!

His leg is directly scrapped to the thigh!

The other leg and waist and abdomen received an impact.

And Shen Lang even violently screamed, his hands forced, and his body was slammed again!

It's hard to get to this step, but I haven't escaped from the birth of the day, and I've been smashed back into the iron hole, so that Tang's half-mountain roared.

“Fuck!”

As soon as the body fell, there was a one-meter-thick steel protection. He also temporarily ignored the high-altitude and fiercely attacked the waves below.

Tang Banshan can't break free, it is to let his body sink and take the initiative more quickly.

But Shen Lang just picked him up with one hand, and the other rusted sword in his hand was once again pushed in, and smashed into the hole!

Chapter 530 - man of Steel?

Shen Lang came back to Tang Banshan and got him to speed up and sink. The result was that when he saw a sword and so on, he found that there was no way to defend.

A rusted sword that can cut a meter of thick steel, licking time from the thigh up, straight obliquely until the groin waist, Tang Tangshan whole leg cut down!

“Give me to die!”

After cutting off both feet, Tang Banshan is already in anger. Now the two legs are completely abolished, one is broken, and one is directly cut...

With the sound of his violent screams, the frantic energy surges and slams into the center of the Tangshan Mountains that fall to the ground, and rushes around!

He is now no matter where the Shen Lang is, and the direct and indiscriminate mad attack must be carried out before the Shen Lang escapes.

Although I couldn't stab Tang Banshan, I could abolish both legs, and Shen Lang was satisfied.

Just succeeded, he knew that Tang Banshan would be crazy, and now he would not dare to fight the speed and then assassinate a sword, but to retreat to the back at the fastest speed.

The reaction of Shen Lang is very fast, and the speed of receding is very fast, but the madness of Tang Banshan, the speed of energy bursting, naturally faster than people!

When his body had just retreated to the mouth of the cave, the violent energy directly fell off him, and when he came out, he knocked the nearby wall down!

Although the steel building has hundreds of thousands of kilograms or even a million kilograms, a considerable part is buried under the ground, and not every place has reached a thickness of nearly one meter. After all, it still needs to be opened by the organs.

So after I did not know how many times of indiscriminate bombing, there were also many cracks.

At this moment, the madness of Tang Banshan, a powerful impact, is just two holes, but it is not too late to dump, but it is a moment of work, actually directly turned this steel building out!

The steel exposed above is probably the place where some organs are connected, directly broken, and then broken into several large pieces and turned to the side.

The energy that just rushed out, so that the masters of the nearby battles and the sacred sacred people could not help but stop. Everyone should take care of themselves.

A moment later, the monks across the river and the monks on the rooftops felt the tremendous energy shock and they were all nervous. I don't know what the consequences are.

After the steel building could not withstand the bursting, the remaining forces quickly spread out.

The Tangyuan, which had been bombarded with ruins and flames, and many of the tombs that had not collapsed, was also bombarded by this shock.

On the other side, the Shen Lang, who had just been smashed out, had spit a large amount of blood in addition to knocking down a wall.

Just in the battle with the Tang Mid-Levels, Shen Lang raised his defense to the highest level!

After refining the giant rhinoceros beast, his body has been forced to an incredible degree.

He is not arrogant, or he uses the “King Kong is not bad spirit”. With his current realm and physical strength, the effect of “King Kong is not bad spirit” is really not bad for King Kong.

In the end, of course, the Holy Grail opened the defense.

However, he undoubtedly also suffered the strongest attack in the Tangshan Mountains. Even if he flashed quickly, and he flew out of the force, he still suffered a huge impact without knowing how many pounds!

After all, the steel building was overturned, and his flesh and blood was not directly shattered, it was a miracle.

And when he vomited blood, a piece of tens of thousands of pounds of steel shards were coming over him!

The desperate blow of the Fengfeng master is certainly not so simple. Except for Shen Lang, the nearest distance is high, and he can only be a full-body protector, then go to the Shenlang side and prepare to save. people.

Others stopped fighting and defended all the way, but they were still uncomfortable after being beaten by the aftermath, but no one was injured because of the sharp drop after the distance and the flip.

The next moment, everyone is to smash the pieces of steel buildings that have been smashed down in the air. The density of steel, which is also a few thousand kilograms, and tens of thousands of pounds, is not fun.

However, there are some exceptions!

In addition to the high separation, the sacred and desolation returned to the gods, but also quickly rushed to the side of Shen Lang.

Just as Shen Lang flew out and crashed into the wall, they all saw it. Although they did not see vomiting blood, it was obviously not a good injury.

These tens of thousands of pounds of iron are smashed in the past, but the trouble is big!

The fastest speed of 裴焉 and 焉也 is also a little worse. The high detachment is straightforward. He did not stop the iron, but went to pull the body of Shen Lang.

But at this time, what he saw was that Shen Lang Huo Ran stood up!

“Roar!”

Shen Lang broke out with a mad rush, and suddenly rushed up, grabbed the steel that fell down, and lifted it up, and smashed the middle of Tangshan in the middle of the steel building!

After the fateful blow of Tang Banshan, it was determined to hit the Shen Lang.

For the power of his attack, he has absolute confidence, and the steel buildings behind him are fragile and faltering, which also proves his confidence.

Therefore, Gao did not care about the situation of chasing the past. Instead, he did not care about it, but first looked at his wound and searched for the leg.

Of course, there is no way to be shattered, but if it is cut off by Shen Lang, if you can find it, you may also try to pick it up.

It is a pity that the huge impact of the attack, of course, also completely smashed his leg.

Just such a self-confident slack, but found that Shen Lang not only stood up, but also caught a huge iron of at least tens of thousands of pounds, and then came over to him!

This time, not only the surrounding masters are screaming, but Tang Banshan is also very speechless.

What is the structure of Shen Lang? The body of steel should also be paralyzed!

Shen Lang has not been smashed directly. He is acceptable, but at least it should be a state of serious injury and sudden death.

It's so abnormal that this life is alive and kicking!

However, he didn't have time to think about it at the moment. These are just a thought. He must immediately greet the tens of thousands of pounds of iron that fell down. At this time, Gaohai's Zhenhai sword is strong. Incomparable swordsmanship, coming from the front!

On the side there is the sacred and bleak that just rushed over. For a time, the triple sword net swallowed him!

For the masters who lived in the peak of the realm, even if they were scrapped of their legs by Shen Lang, even if they were high, they would not dare to care. All three people played the strongest sword skills.

The other masters who reacted, want to attack them from behind, they don't care.

“Just by you!”

In the middle of the Tang Dynasty, the body has already vacated. I avoided the front and side of the triple sword net, and because it was faster, it also surpassed the height of the Shen Lang, and it would not be hit.

“Give me all the dead!”

Lost the Tangshan Mountain with his legs hanging in the air, this time he sacrificed his magic weapon!
