

First Strong 531

Chapter 531 - Super magic weapon

The magic weapon of Tang Banshan was sacrificed, and the night seemed to be full of light.

It is not the real light, but the monks of Tangyuan have gathered their eyes. The monks on the other side of the river also felt a different attraction.

It didn't look like an aggressive weapon, just a small tower with black and dark light, directly in his hand.

The emergence of this tower not only attracted the attention of everyone, but also under the drive of the Tang Mid-Levels, it was immediately full of attraction, and directly sucked people to his side!

“Batian Tower!”

When I saw this tower, some people in the Masters Union's monks exclaimed.

Then, no matter what you found, or what you heard, you don't want to attack them. You turn around and fly away in the distance!

It was the early masters who stayed in Tangyuan. After discovering this, they also fled in the distance, desperately. Some even jumped directly into the river!

When I was just driving, the suction was still very small, but in the middle of the Tang Dynasty, “I gave you all to die”, after the end, the suction quickly deepened.

This suction is targeted, not all civil and steel will absorb the past, but specifically for the monks who cultivated vitality!

Because it is an indiscriminate attack, the masters of this department know this situation and have to escape.

They were a few of them, and they were attacking the Tangshan Mountains. They were close to each other and quickly zoomed in. When the suction increases, they don't want to run too late.

Ba Tian Tower!

Even if they did not recognize the origin of the tower, when they heard the exclamation, they also knew that this was the Ba Tian Tower.

This tower can be regarded as a superb name. It is a simple and crude product compared with the mixed bullets of the Chu family.

What is the specific origin of the Ba Tian Tower? They are not very clear about the high sacred sacred. They can be sure that they have been handed down from ancient times, and there have been many heroic achievements. The legend is very magical.

The master of this generation is Tang Banshan, it is not clear, but the Master League headquarters seems to know.

The Ba Tian Tower is actually a bit like a storage magic weapon. It can directly inhale people into the tower!

Moreover, the tower is also very magical and strange. It is said that it can refine the people and become pure energy absorbed.

Incorporating the enemy into it may be a last resort, such as swords and other weapons, which are inherently neutral.

But the refining of the practitioners can be completely different, and the nature may be deliberately harmful for energy!

Because of this, it is also classified into the magic weapon of the evil faction, and the people who are generally obtained will not be used in the bright future.

Therefore, they do not know that this magic weapon is in the hands of Tang Banshan. Perhaps the monks of the Master League only know the sharpness of the Ba Tian Tower, and may not know that they are in the hands of Tang Banshan.

Tonight, Tang Banshan was irritated. He had not killed Shen Lang just after the Xeon strike, which allowed him to sacrifice this thing.

And this situation is very obvious, just killing the sinking waves, not enough to calm his anger, he wants revenge, must smash the waves to compensate for the legs!

“Quick withdrawal!”

When I said that it was too late, when I first discovered the Ba Tian Tower, I was immediately screamed at Shen Lang.

If it is the strength of her peak period, of course, it is not afraid, cracking or directly taking over is no problem. But now with the body of Zheng Yumeng, there is no way to be desolated.

In the same way, she also knows the consequences after Shen Lang is inhaled!

The three of them attacked the Tangshan Mountains on the ground. The Shenlang was smashing into the air, and the distance between them was much closer than them. If they sucked, they would absorb him first!

When the suction was strengthened, Gao Li also made a quick decision. He waved his hand and pushed the sacred and desolation farther. He himself took the opportunity to go forward.

He wants to pass the way of Wei Wei to save Zhao, and see if he can force Tangshan to operate the Heavenly Tower.

Of course, Shen Lang will not stop in the air, everything happens between the electric and the flint.

When Shen Lang discovered that Tang Banshan had risen to avoid the air, he did not continue to smash the giant iron, but turned hard in the air.

After all, holding a tens of thousands of pounds of giant iron shovel, with his strength, at his speed, there are still some delays.

However, at this time, the giant iron is both a burden and an advantage!

Other people will be quickly absorbed, because it is more than one hundred kilograms of weight. If the strength is not strong enough, it will be a lot of power.

But Shen Lang is now holding a tens of thousands of pounds of shovel!

This is like a natural disaster such as a super typhoon and a super tornado. A hundred pounds of people are blown away. A few hundred pounds of cars and sheds are blown away, but the same hundred pounds and several hundred pounds of stones are not. Will run away because the force is different.

The current Shen Lang, with these tens of thousands of pounds to add, even if it is the nearest, even in the air, but it has not been quickly sucked, let alone enter the Ba Tian Tower.

However, Shen Lang did not have a hard top, but instead pulled himself closer to the Tangshan Mountains along with suction.

Tang Banshan sneered, and did not care about the waves.

Tens of thousands of years of shovel, it's okay to lift it up in a bang, and it's okay to hold it all the time. Especially when people are in the air, there is no place to borrow power. One or two breaths will not hold back.

When the giant iron is first smashed, it is his own head. If he wants to be shackled, he can only abandon it. If you abandon it, you will be quickly inhaled into the Ba Tian Tower at the current distance!

So this is equal to the prey that is already in hand. Tang Banshan now pays more attention to the high-altitude attack.

After all, Gao Li is the peak of the real world, and there is a gap with him, but it is also a strong person in the realm.

At this moment, it seems to be desperately trying to save the waves in a life-changing way.

Now Tang Banshan has not been below the waist, and can not afford to lose both.

So before the high-definition has not attacked he first came a powerful wind-system spell, with the gust of wind approaching the high-sucking volume, with the absorption of the tyrant tower, by the way let the high away Since the investment network!

“Go to death!”

Already at the Shenlang near him, did not release the giant iron, and directly lifted him to him!

Dealing with Gao Li, Tang Banshan once again shocked the power of Shen Lang, which is no longer human, comparable to the power of giant beasts!

This time, the misjudgment made the tens of thousands of pounds of giant iron shovel directly in front of him.

He had to hurry to fly behind and avoid this brutal blow.

With his realm, you can avoid it without your hands and feet. This is very clear. So this brutal blow, more is just a bluffing attack!

In the dark, he became a hand holding a giant iron, and the other hand had already vacated, manipulating the sacred armor, and slamming the hand of Tang Banshan!

Chapter 532 - Killing

Fuck!

Tang Banshan couldn't help but yell at him...

Nima, is there a monk with a gun and a hot weapon?

Is this not cheating?

And where is the mysterious weapon from here?

In fact, even if it is only a monk who is returning to the Yuan Dynasty, the common pistols and the like are already injurious.

It's not that the speed is faster than bullets, or that bullets can't be worn or not, but that their speed and strength are far better than ordinary people, and they can also practice spells, and it's easy to get ordinary people who manipulate weapons.

But in the face of large firepower automatic weapons, tank aircraft cannons, no one has ever compared.

On the one hand, these are not available to ordinary people. Only at the national level, the self-cultivators are already low-key and evasive. It is not a last resort and they will not fight the official.

Just like the dynasties, there are not many monks who participate in the change of the court. For them, changing one emperor to a court is the same thing.

On the other hand, it is the Yuanjing monk who can't cope with it. You can also try it out in a virtual world. If you want to be safe and secure, you have to break through the realm.

It can break through the realm of existence, and it is already a master and a real person. In many smaller martial art families, it is the pillars, how can you do such stupid things?

The cultivation of the mind is also very high, and this aspect can be treated sensibly.

For more than 100 years, the development of hot weapons has made the power at the national level more and more powerful, especially the emergence of nuclear weapons!

The monks are getting more and more low-key, and try not to publicly display the extraordinary power. In ancient times, the miracle and the immortal law could be used to fool the past. Modernity will surely be traced to the end, especially when technology is developed and everything is invisible.

So in the back, many powerful sects and families have supported the power of the world. With power and money, they can solve some of the worldly troubles and erase many traces.

Under such circumstances, of course, the masters have no chance to exchange fire with guns.

He was trapped just now, in addition to the ingenious setting of the environment and the sinking waves, it was also because the bombing continued to make him unprepared.

Even if he has lived for a hundred years, he has no experience in this area.

Now, the same is true. He sacrificed the tower of the Heavenly Tower. It is expected that they will be desperate for the high and the deep waves. If the swords and magic weapons of the Tianshan Jianzong will be bombarded, he will also be budgeted.

The shovel can not be used as a routine, holding tens of thousands of pounds of iron and barbaric cockroaches, and then do not know where the huge micro-cannons are hidden, making him very passive.

In addition to the darkness, Tang Banshan can only give up the attack on Gao Li, and then dodge and protect the Ba Tian Tower.

Under such conditions, the Ba Tian Tower lacks the driving force and cannot ***** them well. The sacred and desolation that was pushed a little farther away were not affected by the impact, and the high and the deep waves were also very weak.

“Give me something!”

Under the wrath of the waves, the giant iron has been smashed in the past, with a screaming wind, like a gunfire, savagely hit the Tang Banshan!

Gao Li has always been calm, just a few times under the electric fire, let him understand it, the reason why Shen Lang is so close is not sucked away. In addition to his personal strength, it is also because of the help of the heavy iron.

This also gives him a self-protection and self-defense direction, but of course, when the suction is weakened, he will seize the attack.

Zhenhai Jianshi exhibited the highest sword skill of the Tianshan Jianzong, and the time of the sword changed to a hundred swords and became a sword. It was like a starry sword!

The sacred and desolate, knowing the consequences of the closeness, will maintain the distance, and concentrate the swords on one another, forming a containment and persecution on the Tangshan Mountains.

Of course, the shovel did not squat in the middle of the Tang Dynasty, and fell heavily to the Tang Garden below. But at the very least, the air rang with continuous thunder!

Everyone understands this, and Shen Lang's embarrassment is not to use iron to go to the middle of the Tang Dynasty, but to thunder!

Just the brutal attack, the cover is Leifa's attack!

Wan Jian is thunder!

Under such an attack network, Tang Banshan is also inevitable, this time it is not possible to hide in the air.

However, his power is still overbearing, and a hard cover has propped up a protective cover around it, and then fully control the Ba Tian Tower!

As long as it can block the attack, and fully absorb the underworld tower, it will definitely make Shenlang unable to support for a few seconds!

“Give you a jade peach!”

Shen Lang suddenly passed the message to Tang Banshan!

Tang Banshan is fully controlling the Ba Tian Tower. Originally, his determination, whether it is insulting or not, can't affect him.

But this time, I tried my best to move the waves. His purpose was to get the jade peach for the giant rhinoceros beast and the west gate!

Now I heard the jade peach, although I didn't believe that Shen Lang would give him this thing, but I couldn't help but look at it.

A little bit of influence on this mind has already made the Ba Tian Tower a little lax, and it gave the opportunity to Shen Lang!

Without the pressure of the shovel, the sinking waves of people in the air have already taken out the rust swords. This time, the real swordsmanship is quickly rushed!

Basically, when the sound was just heard in Tang Banshan, the rust sword had already arrived.

The rust sword directly opened the protective cover of Tang Banshan, and directly rushed to him with Shen Lang.

“You play...”

Tang Banshan was furious, but when he said it, he realized that he was not interested. Both sides are fighting in life and death. What do you have to do?

He directly directed the Ba Tian Tower to the front of the waves!

Since you are coming to the door, let people go in with the sword!

The protective cover that was broken by the rust sword made the attack of Wan Jian's thunder a breakthrough, instantly tearing a hole, and then completely collapsed!

Shen Lang has already reached the footsteps directly. The body feels a whirlpool and will immediately inhale him into the inner space of the tower. The sword naturally cannot penetrate the body of Tang Banshan.

Both the sacred and the bleak are exclaimed!

Tang Banshan can finally breathe a sigh of relief, finally finally...

At this time, the rust sword in the hands of Shen Lang suddenly broke hands!

It already contained a strong attack power, but because he was to be inhaled into the tower, the sword in his hand was the same.

Even if he still holds the tens of thousands of pounds of shovel will also ***** in, just because the heavy speed is slower.

But the sword is not the same, it is no longer a living body, and the Ba Tian Tower will not absorb this sword again.

Therefore, the rust sword will not be affected by the absorption space of the Batian Tower, and it will penetrate the past directly!

There is still a loose Tangshan in one breath. Between the feet, it is too late to react again. I can only see the rust sword piercing my throat!

A sword seals the throat!

On the spot!

Tang Fengshan, the master of the peak class, was killed in this way, and his throat was very dead, and there was no chance of remaining a moment to say the last words.

Losing the manipulation of the Tang Mid-Levels, the absorption of the Ba Tian Tower quickly weakened, and then he did not have a chance to live, immediately stopped absorption, and also slipped from his hands, falling to the ground like his body...

Chapter 533 - 1 person shocks 4 parties

Shen Lang actually killed Tang Banshan!

The two of them are fighting in the air, although not too high, but there is no occlusion of the buildings around the broken wall.

With the eyesight of the monks, let alone the few sorrows in the vicinity, they are the masters who have just fled the Tangyuan area. They are also very real.

It is the monks on the other side of the river who can see an approximation, but they are not clear about the specific situation.

Such a battle directly shocked hundreds of monks in Qingchuan.

How can Shen Lang kill the Master of the Mid-Levels?

His strength, full of calculations, is also the most in the middle of the real world, this growth rate is already rocket-like.

Even if you give him a crazy exaggeration, you can't kill the master of the real world!

However, it has just been suppressed in the Tangshan Mountains, and there have been several screams of grievances. It can be seen that the strength of Shen Lang is far better than everyone's guess.

The facts are in front of you, you don't believe it, you have to believe it.

In addition to some people who are determined not to believe this, most of them, such as the Masters League, have seen the process more closely, and they can only find the reason for Shen Lang in their minds.

Just half-mountain master released the magic weapon at the bottom of the pressure box, Shen Lang must also use what is more magical magic!

Only this is possible, can barely make everyone believe.

It's also very happy to let the hanging heart fall down.

When everyone is incredible, Shen Lang is not at all idle!

After killing Tang Banshan, he quickly condensed the sprayed blood, compressed it into individual blood beads, and collected it.

If ordinary people do not forget, this is the blood of the master of the real world. If you give Dorothy, you must be able to make up.

In addition, he even collected the Ba Tian Tower that had just become an ownerless thing.

Everything was done quickly, and when Tang Mid-Level fell to the ground, it had become a dry, headless body.

Shen Lang rusted a sword and picked a bracelet from Tang Banshan.

The treasures of his life collection should be in this storage bracelet.

“Master, are you okay?” Gao Li immediately came over and asked: “Hey, I was not busy at all...”

He is really embarrassed, because he has not been as good as Tangshan in the past. And for decades, he was in the Tianshan Jianzong, and he also had a serious lack of combat experience.

Usually deal with some people who are not as good as strength, then naturally do not need any experience, can also be crushed by strength, but when faced with stronger, there is no way.

The sacred and desolate are also quickly coming over.

“Master is too powerful, I really admire the five bodies!”

“How?” When Yu Sheng was sincerely praised, Desolation was concerned about the safety of Shen Lang.

At this time, Sheng Sheng and Gao Li saw the blood of the mouth of Shen Lang.

“I was hurt a little, not a big deal.”

Shen Lang nodded, saying that he could still hold: “Put it here!”

Of course, it's not about cleaning up the damaged Tangyuan architecture, but to clean up the remaining masters.

However, just after the Ba Tian Tower came out, they all scared them away.

Now even the Tang Banshan, which owns the Ba Tian Tower, has been killed. Who can dare to come back?

Therefore, when the four people who gathered together looked at each other and looked around, the masters who had escaped from the Tangyuan area and looked back, immediately ran wildly!

Even the masters of the Mid-Levels have been killed, and it is dead to go slowly!

At this time, I have a flying magic weapon, but I have to fly away, for fear of being caught up.

The monks across the river, this is sure that the Tang Banshan was killed by the Shen Lang, or else the Master League will not be so a bird.

The masters of the Masters League have their own strength in the early days of the real world. Although they are busy, although many of them are masters, there are also some that are still in the virtual world.

Especially with Shen Lang, whether it has been to Tianshan Jianzong before, or in the auction field and Shenlang gambling do not believe him, this time are afraid of Shen Lang killing addicted to find their troubles.

A person in the district, Shen Lang, actually killed the master league headquarters!

A group of people in the dark, actually let dozens of martial art monks shiver!

Tonight's battle, Shen Lang is famous!

It is different from the situation in Biyunfeng and Tiandong City of Yunzhou, and even the battles between Qiangjialing and Tianshan Jianzong are different.

The breadth and height of this diffusion can not be compared before.

The super master who survived the peak of the real world was killed by a rookie at the home of his own game and the number of people who were dominant. He also ruined Tang Garden with a seven-eight-eighth eight-eighth.

This record has never been seen in nearly a hundred years!

In front of the hotel's high-rise floor-to-ceiling windows, looking at this scene, Qiao Yong sighed.

"It seems that I have to raise him to several levels of importance and report it to the family."

"By... it seems that I have no chance to compete with him for the first time..." Qiao Shuyu sighed.

Even if the attitude toward Shen Lang changed, admire and even everyone is friendly, but he is not reliant for him who has been leading the genius for 20 years.

But this time, what I saw was not the end of the real life, but the Tangshan Mountain, which was the peak of the realm, was killed.

I don't want to be reconciled, it's not self-confidence, it's self-deception!

If you want to find another way to discuss the plan, it will be the result of self-deprecating.

"I have to remind you seriously, for Shen Lang, you should adjust your mentality as early as possible. Admit him and face him, you will not fall into sinking!"

Qiao Yong seriously reminded me.

If Joe Shu Yu is still obsessed with a victory or defeat with Shen Lang, even if it will not be injured, it will inevitably be directly hit.

Now that the strength of Shen Lang has been fully proved from the side, Qiao Shuyu must recognize the reality.

“I know...” Joe Shu Yu smiled.

Then he took out his mobile phone I can't be alone, I have to tell Nanyiye right away. ”

Nan Yiye got Nedan and immediately left under the ***** of Nantian family, missing this rare scene.

“I can adjust my mentality. This is not a crisis, but an opportunity!” Qiao Yong pointed out that he had another point.

In other hotels, or rooftops, the elders who led the various factions are seriously warning their own disciples. In the future, they must not provoke Tianshan Jianzong, and they should not provoke Shen Lang himself!

Today's business, everyone is clear, basically the Tangshan half step by step, repeatedly want to find the trouble of Shenlang, or else the Shenlang will not take the initiative to provocation.

Needless to say, the purpose is naturally for the resources in his hands.

This is understandable, but... the king is defeated!

Now Shen Lang has already shown his king's arrogance. If he still wants to hit their ideas, he will immediately follow the footsteps of Tangshan.

Chapter 534 - Back to the mountain

“Master is very powerful. I will scare them away when I look at it!”

He is very excited. He is a good fight tonight. Although the time is short, he has met with different levels of opponents.

“Master, are we going to chase?”

The high-minded masters who left the scattered, did not directly catch up, if they are going to chase, even if there will be a net of fish, killing half should be tomorrow night.

“Forget it, it’s all awkward, or leave here first!”

“it is good!”

Gao has been busy with the promise, he is a decent person, Tang Banshan is too aggressive, killing does not matter, but it is still difficult to kill the Master League.

“You are not hurt!” said coolly and seriously.

She did not understand the cause and effect. For the Master League, there was no anger, and the focus was on Shen Lang.

Gao Lihe and Sheng Sheng were taken aback and were busy looking at Shen Lang.

Shen Lang created too many miracles in front of them, and they all believed that Shen Lang was a reincarnation of the cold and autumn, and it was completely full of confidence.

Shen Lang smiled and said: “It’s okay. But when we come to a master of the peak period, we are in danger. So let’s leave!”

“Yes!”

Shen Lang glanced at Tangyuan, and now it is half a ruin, but the Master League has been in business for so long, and there are bound to be a lot of valuable things.

After all, when those people were playing, they were designed with a winning attitude, and they might not bring everything.

However, at this time, there is no time to look through one by one. The most precious thing is those spiritual springs. If you get these, there will be no white fight in this battle.

Shen Lang immediately slammed the boat and left the four people directly from the top of the Tang Garden.

What happened here must be spread soon. Nowadays, the information age should be fermenting at this time.

The strongest of the Masters League is not Tang Banshan, but their lord, that is the super power of the gods!

The lords are not here in the Tang Garden, or else they will not be able to go wilderness this evening, nor will they create miracles.

Of course, if the lord is in the middle of the Tang Dynasty, it will be another way.

Regardless of whether the ally is a friend of Yunyou or a friend who is retreating in a hole, the news will always be passed to his ears.

Perhaps it is a bit slower than the general sect of the world, but once you know it, it will definitely return with anger!

Therefore, Shen Lang did not stop this time, and went straight to Tianshan.

After the return of the ally, it is probably to summon the old department to understand the situation, and then it is very likely to kill Tianshan!

How long will this time be, and no one can say.

Shen Lang must hurry back and try to make more arrangements.

As a ally of this lord, he will not go to his classmates and friends to take revenge, but Tianshan Jianzong can't run.

If you can't beat it, just close the door and close the mountain!

Desolation and Zheng Yumeng, of course, are also brought together. At this point in time, she can't go back to Pingxi. Otherwise, not only is she dangerous, but she will also bring the information of Shen Lang's parents alive.

Persevere in returning to the Tianshan Jianzong. After everyone enters, immediately open the array and close the gate!

It's not too optimistic to find out the situation of Shen Lang. They were not hurt when they were injured. In addition, without timely healing, they have been dragging their backs and driving, and they have been dragged even more seriously.

After all, it is the full blow of the master of the peak!

Gao Li will immediately heal the Shen Lang, but it was stopped by Shen Lang.

The cultivation of him is not the heart of the Tianshan Jianzong. Gao can not help him.

What he needs is a retreat and quiet healing.

Gao Li immediately arranged the Jianling forbidden land!

In fact, if Shen Lang retreats, it is not necessarily in Jianling. The first two will choose to be there because it is not safe for them. Only there is a little safety.

Although I can believe them now, I can't say this, and I agree to retreat to Jianling.

Gao Li got rid of Zheng Yumeng to follow in the care of Shen Lang, and he himself and the sacred, naturally want to preside over the overall situation.

Shen Lang also smashed them. Before killing Yu Wenba, after they set up an appointment with Xia Yuntian, they were worried that they would be attacked.

However, it did not come in handy. Xia Yuntian did not bring more people back to the siege, but appeared in the Hanging Island with Tang Banshan.

Now it is completely open to open the array and close the gate. It is not known whether the attack of the Master League Alliance can be prevented.

As the highest in the age of Jianzong, Gao Li must be personally staring.

There are no more nonsense in Shen Lang, and you must take time to heal.

In Jianling, he can clearly feel that it is still bleak, and there is no “switching” back to Zheng Yumeng.

“I have a few in my heart.”

Shen Lang comforted one sentence.

“How come to this point?” Desolation is a bit helpless.

Gao Lihe and Sheng Sheng, I don’t know that she is another person. When she saw her temperament changed, she only thought it was because Shen Lang was injured.

Everyone was originally together, of course, they did not explain the ins and outs of her in detail.

Shen Lang shook his head, and now there is no such energy and time to say this.

“I want to start practicing healing, basically do not need any care. You can also hurry to practice, you should feel the progress of the body.”

After that, Shen Lang took out a lot of thick Lingquan and placed it in the cave inside the Jianling.

I have to say that the creation of the Master League, or the creation of the Dragon Ball, is really a talent.

They have to supply so many members, and there are so many and thick springs.

Here, the Jianling, and the cave of the Death Forest, are not as harvested for hundreds of years.

“This is...” Desolation was a little surprised.

Shen Lang slightly white eyes: “I am not trying to **** these deaths. It is the master alliance that we harvested in Qiangjialing. I want to take all of mine. Since I turned my face, I certainly took their precious things. “”

“Oh.”

“Cultivate it!”

Shen Lang pointed her finger and indicated that she could use it casually.

He himself also took Lingquan directly, and then refining it immediately.

At the end of last year He was looking for it here, but also for healing, but also lost the spiritual spring here.

I did not expect the strength to increase, the revenge also took revenge, and actually will come again like this.

His injury is not light, but he is still within the range that he can afford.

The three-tiered defense allowed him to escape.

Afterwards, he checked and the defense function of the Holy Grail was destroyed and it has become a defect. Fortunately, the attack was still there, and it played a disruptive role at the crucial moment.

On the night before Qingchuan, “Yin and Yang Bo Ruzheng” broke through to the fifth weight, and the help to Shen Lang was great. No matter the essence of the moonlight absorbed, or the dragon of Tangyuan, it is very good for him to fight in the back.

Now it is a strong Lingquan. Don't take it directly, and repair the internal injuries of the body.

But in fact, there is a bold idea in Shen Lang, that is, whether to refine the inner dragon of the giant tortoise!

Chapter 535 - Spiritual inner

The best things also need a gradual process, not too sloppy.

Yu Wenba got a Nei Dan in Qiangjialing. It may be because he wants to be alone in the relationship, so he is private. It may also be because there are too many good things in it, and I will leave it for the time being.

All the resources of Shen Lang are his own distribution, there is no such thing as a single swallow.

But what he has to worry about is the gradual problem.

The speed of his progress is already very fast. After returning from Qiangjialing, he began to retreat and gradually refine all the marrow fluids of the giant rhinoceros beast, including the recent refining of Nedan.

These good things have made him a quick upgrade, including the “Yin and Yang Bo Ruozhen” broke through the fifth.

But the overall speed is still too fast, from the fourth to the fifth, the time is only half a year.

If you continue to refine the inner turtle of the giant tortoise, it is very likely that it will become a destructive encouragement.

However, he has always been in a whirlpool, whether passive or active, because of interests and other relationships, there will always be many enemies and opponents.

Tianshan Jianzong can be used as his martial art backing, but the overall strength is still limited, can not protect his peace of mind for ten years and eight years.

Especially now, the Master League is offended, and their lords will come to the door sooner or later.

If you want to have a chance to live and want to prevent the Tianshan Jianzong from being burned into cannon fodder, you must try your best to improve your strength!

The opponent is as strong as the sea. If you just look up the lament, then there is no chance to cross.

Going to improve and try, there is still a line of possibilities.

Just like the League of Masters, in the temple of Thousand Grottoes, the Yuwenba in the late realm still holds a strong upper hand.

At that time, I had to deal with them, and I also used the wisdom and the export method.

After he came out, he retired and worked hard. After a few months, he could shoot Yuwenba unexpectedly.

At this time, it is able to suppress the late stage of the real life, but it is still uncertain about the Tang Banshan, which is the peak of the true state.

The reason why I dare to come is to want to see if I can gain something. After all, the next time I open it, I don't know if I will wait until the Year of the Monkey. After completing a transaction, I will get my satisfaction and I will not take it anymore. .

On the other hand, there is still a high separation, and the high separation is also the peak of the real world. Together, we can have a win.

However, in the process of returning to Pingxi, Shen Lang began to refine the inner Dan, also in order to grasp a little more.

In the end, on the night of Qingchuan City, he successfully broke through the fifth generation of “Yin Yang Bo Ruozhen” and greatly improved his strength. This made him dare to save the masters of the true peak.

The same is true now. It is only after the healing success that you want to compete with the lord. Naturally, you are not sure.

However, if you can refine the inner turtle of the giant tortoise, you should be able to improve the chances of success.

As for the risk of refining two completely different giant beasts in the short term, it is natural to eat salted fish to be thirsty.

Shen Lang is not a tangled person. After analyzing the pros and cons, he made a decisive decision!

He was born again, can not be ruined in the Masters League here, this strong enemy is bound to meet, it can only improve their strength as soon as possible!

powerful!

Only strong can have the right to speak!

If there is no current strength, the Beijia Qiao family and the Nantian family’s ancestors will not look at him, let alone invite cooperation.

But the strength is still not strong enough, if it has the strength to let Tang Banshan avoid jealousy, do not dare to step by step.

After the decision, Shen Lang began to refine the inner turtle of the giant tortoise.

Yuxi Tao is his last reliance. If he can’t be good at the time, he must use the jade peach to force a realm!

The inner dan of the giant tortoise and the inner dan of the giant rhinoceros beast are different in power and effect.

The first two are very powerful giant beasts, and the inner Dan effect is very strong.

Secondly, the giant rhinoceros beast was created because of the special environment, while the giant tortoise was built for a long time.

This condition makes its inner dan more suitable for human beings.

In addition, the giant tortoise has once touched the level of the robbery, but the defeat of the robbery has returned to the present year, otherwise, the giant rhinoceros beast is impossible to shoot, at least for hundreds of years of cultivation.

Moreover, the giant turtle was given the guidance of Shen Lang in the past, not to mention his disciple, at least with the “Yin Yang Bo Ruozhen” is also a homologous.

And the most important point!

The giant rhinoceros beast is the inner hunter that was hunt after the kill.

The inner turtle of the giant tortoise is that it is willing to contribute it!

The gap between living and dying, not to mention the comprehensible and the beastly beast, is that ordinary people also clearly feel it.

Ordinary people eat fish, hairy crabs, seafood or something, they are all fresh, and the taste of death is not right.

The demon and the beasts have direct choices for the comprehension.

Vampires are also the blood of living things.

The comprehension of the Terran is actually the same. For example, the Dominean Tower in the Tangshan Mountains directly refines the living.

Shen Lang got the inner rhino of the giant rhinoceros beast, and the inner altar that Yu Wenba saved, has already transferred to the inner one of Nanyiye. These are not fresh, but the second best choice.

But the giant tortoise is different. It is dedicated to Shen Lang. It is not only the grievances of death, but also the blessings of fulfillment and retribution.

This is not only the life of its cultivation, but also has a certain spirituality!

So when Shen Lang began to refine this inner Dan, not only the effect is much stronger, but also much faster and more secure!

The homology and the spirituality of retribution make Nedan almost actively participate in the deep waves, with his cultivation, healing him, strengthening his body, and pushing his cultivation to a higher level...

At the same time as refining the inner Dan, Shen Lang is also rudely absorbing a lot of Lingquan.

These are from the Tangyuan. It is impossible for him to keep them to the descendants of the Tianshan Jianzong. If this is not the case, there is no possibility of future generations!

And even if all of them are given to everyone, so that everyone has improved, the result is still unhelpful, one hundred return to the first level, or one hundred still to improve the level, for the real world, There is no difference.

Unless you can push the high distance one step further!

However, this is basically impossible. The high distance is over a hundred years old, and the potential has come to an end. Now it is considered to be the peak of the advancement of the seedlings, and then rely on time to smelt, and perhaps there is still a chance to break through the realm.

But let him make a breakthrough in the case of less than a month of advancement, it is only possible to ruin him.

Therefore, Shen Lang is not polite, but also eats a single food, use these on his own body, try to improve his strength.

Of course, with him, there is still bleakness. If their physical state can be improved one step, it will be of great help to the desolation.

Chapter 536 - Both breakthroughs!

The giant tortoise uses the final strength to make a dedication to Shen Lang, and the effect is very significant.

This makes Shen Lang's retreat this time, almost the shortest time.

It took a few months to refine the spinal cord of the giant rhinoceros, but now it only takes a day!

Of course, the marrow of the giant rhinoceros beast makes Shen Lang possess the powerful body of a giant beast, and refining and refining an inner dan, and breaking through the fifth weight, these are the foundations that have greatly accelerated.

But the will of the giant tortoise has played a huge role!

Refining, as the name suggests, is to refine it for its own use. The higher the grade, the greater the power, the more difficult it is to refine.

This time, the inner turtle of the giant tortoise, almost no need for "refining", the whole process is to cooperate with him, all that is needed is to absorb as quickly as possible.

In addition, there is a large number of Lingquan assistance. It takes only one day before and after the combination of the Shenlang. The will of the giant tortoise is completely dissipated. All the energy it has dedicated and the crystallized residue of lifelong cultivation have become the waves of Shenlang. portion!

This effect is incredible rocket speed!

Even if the robbery failed, it is also the great ***** who is close to the avenue. The power of the giant tortoise is too far away from the peak of nature. But for the current Shenlang, it is directly pushed from the real world. At the peak!

This is because the time is too short, and some of the power has not yet been fully absorbed. Otherwise, it is not impossible to push it into the realm of the gods!

As for the injury of Shen Lang, it has already completely healed.

This harvest, to Shen Lang, is not a joy, but a bit embarrassing and regret!

It is not what he wants to get the giant tortoise. If he knows the situation of the giant tortoise, he will not even bother it at this time.

This is the only friend he has seen in his previous life!

Now this friend is sacrificing himself to fulfill him, let him cost the price of soaring, and it will vanish!

If it is not for the moment, Shen Lang estimates that he would rather use the jade peach first, and he will try to keep the inner turtle of the giant tortoise.

Keeping it is equal to the friend still there, but now it is really dissipating.

However, he is not an ordinary person after all. The past life has seen more deaths and deaths, and regrets are only left in the bottom of my heart, and I still have to start my spirits.

“you succeeded?”

Feeling that Shen Lang stared at her, the bleak immediately restored consciousness.

Although Shen Lang allowed her to use Lingquan as much as possible, but where can she feel at ease, this day is mainly guarding him.

Shen Lang refining the inner Dan, she is also in the eyes, knowing that this is very critical, can not be distracted by the outside world, so she maintains the state of protection, and does not practice wholeheartedly.

However, on this day, she also made a clearer understanding of the changes in the body. She felt that Zheng Yumeng also refining a Nedan, allowing their physical state to be on the edge of breakthrough.

If Shen Lang uses a day to heal, she can recover, she will not be surprised.

However, refining a Nedan, actually only one day, this is really a bit unreasonable.

Shen Lang smiled a little, "Successful."

Then he looked at the Lingquan in the pool, most of which was absorbed by him. It didn't use much.

"The time is tight, there is not much nonsense to talk about, you must hurry and strive to break through a realm, in order to help more!"

"it is good!"

Desperate nodded, since Shen Lang is fine, she is relieved.

This state of the body is already clear to the heart, but it cannot be cultivated wholeheartedly.

Now that there is a sinking wave, she can rest assured. The intensity of these Lingquan is also a very pleasant surprise for her.

Shen Lang took out some of the pool and then went with her.

In the bleak cultivation, he also continued to absorb a lot of spirits.

The realm of his current body is the peak of the peak of the real world. It is much stronger than the high distance that has just broken through, and will not be inferior to the old Tangshan.

This naturally makes his body seem like a huge lake, which can accumulate a large amount of water. The more water it accumulates, the more energy it contains.

Now there may be a life-and-death battle at any time. He does not care at all that Lingquan's utilization rate is not maximized, but it is constantly absorbed.

The understanding of sorrow for cultivation is far from Zheng Yumeng.

Before it was a daily practice, then there was not much master control. In the end, she was a "guest" in the body of others, and she could not take the lead.

But like refining Nadan, in fact, if she is allowed to take the lead, of course, it will be better and faster than Zheng Yumeng.

However, Zheng Yumeng's body is too far-fetched. Even when he was in Pingxi, he still had a lot of sorrows with Shen Lang. He still had to accompany the Shennan couple for dinner. However, when he went to Qingchuan City, he still absorbed seven or seven. Eighty-eight.

Now the rest of the bleak is the finishing touch and the final sprint, she is very calm.

In less than half a day, the desolation has completed the refining and transformation, and successfully let this body break through to the realm of the late realm!

In the process, she also absorbed some of the Lingquan.

"Not bad!"

Shen Lang encouraged a sentence and then pointed to the remaining Lingquan.

"Is absorbed these, consolidate it!"

The speed of the stagnation that has just been broken is faster. The speed and effect of these spirits are much faster than that of Lingshi. The strong aura allows her to better secure the foundation.

One day and one night, Shen Lang and Desolation have completed a realm of improvement.

They are very satisfied with this result, and of course this is a limit. Even with more resources, the body can not absorb more.

Unless that magical jade peach!

“I... change her over? Change me when I want to shoot.”

Desolation was “switched” during the battle, and after the battle was over, the whole process was rushed back, and then the retreat was healing.

She and Shen Lang have almost no chance to communicate privately. Until now, they can only say a few irrelevant words.

And this man and a woman in this Jianling forbidden land she felt a while.

Shen Lang and others?

Naturally, I feel the sadness because of what is embarrassing.

That night and Zheng Yu’s dream, she did not discuss directly to quit “login”, “switch” into a bleak.

Just accepting the body consciousness, I still haven’t figured out the bleakness of the situation, I found myself being pressed by the waves, don’t mention more.

After Shen Lang found that she had changed her, she did not stop and continued. Although this is the same body, it can be different.

Desolation also believes that it is not the meaning of Shen Lang, just the trick of Zheng Yumeng. If Shen Lang wants to go to her, she does not need to play such a flower head, she can order it, and she will not refuse it.

But still decided to swear...

Both sides thought of this, and the atmosphere became a bit abnormal at one time.

Chapter 537 - I do not mind

After the day was over, Zheng Yumeng also asked him to be unhappy, and Shen Lang also admitted that it was very exciting. But when faced alone, it is a bit embarrassing.

After all, with Zheng Yumeng, I said first, and neither of them has any opinions. The bleak is completely unknown, and suddenly it was taken.

Even if the body is Zheng Yumeng, it is equal to strengthening people.

However, a little cold field, Shen Lang has decided.

Although this is only awkward, the bleakness is not very temperamental, but after all, it is that aspect, and she originally had a status. If it is not handled well, it is likely to affect everyone's relationship.

Today, after more than two years, Shen Lang is a real trustworthy person for her and Zheng Yumeng, and she will not let it go.

To solve this problem, we must first face it!

To face it, we can't let her avoid it.

"Let's talk about that night."

"..."

"I am not shirking responsibility. I really didn't think she would be such a prank. Let me be sorry for you..."

Shen Lang wants to explain, and finds that it is really bad, or just say sorry.

“It’s okay. It was originally the body of others.” Desolately said. “I am also yours.”

“Not the same, this is not respectful to you.”

Shen Lang sighed: “It’s been more than two years, and I have never been peaceful. I have no chance to find another body for you...”

Listening to Shen Lang’s self-blame, Shakelessly shook his head.

“It doesn’t matter, I can be very grateful in the body of Zheng girl. We can get along with each other and it is difficult to find such a good body.”

This is also the truth. It was to save Zheng Yumeng, but Zheng Yumeng’s body is really rare and rare. It is very special.

If you want to find an ordinary body for the bleak, it is not too difficult to use the power he has now.

But to be so good, it is impossible to meet.

It is not to say that the body of Zheng Yumeng, or must find such a good.

The problem is that in the past two years, she has also put in a lot of efforts. This body is not only Zheng Yumeng’s natural, but the “construction” process is the two people working together.

If you find another one, you need to repeat it again. If you don’t have such a good talent, it may take twenty years to achieve your current achievements.

The feeling of coming back again, Shen Lang is deeply experienced.

He definitely does not want to start from scratch, I believe that the same is true.

“but.....”

Desolation knows what he means, but smiles helplessly: “When I am her soul twin, or another personality! As for your relationship with her... I would not mind.”

She is also not good at how to say it, can only express it like this.

do not mind?

Shen Lang thought a little, didn't mind his relationship with Zheng Yumeng?

Still don't mind if he has a physical relationship with her?

Or is it directly that I don't mind having the same relationship with him?

However, he quickly figured out that Desolation is the same kind of person as he is, and the pursuit is to re-climb the peak, and ultimately. For men and women, this is a trivial matter!

As long as everyone makes it clear, no longer embarrassed, this is not a problem.

“Good. Then if you have another time, you have to be mentally prepared.”

“...” Desolate and a little sweaty, a little helpless said: “That should give me some time to understand the cause and effect, and it is already in that state... it is very awkward.”

“Ha ha ha!”

It's funny to think about Shen Lang. Don't say that she is a woman, that is, a man. Suddenly waking up and discovering that he is squatting, he will also feel inexplicable.

Even if the body is fully fit, and consciousness is to be integrated into the experience, it is still very difficult to do.

After finishing this problem, they did not stop at Jianling and went straight to the customs.

As soon as I sensed the movement of Jianling, Gao Li and Qi Sheng were quickly rushed over.

Other elders have other arrangements and perform their duties.

Going out so quickly, let them worry about the situation of Shen Lang's injury.

When they came under the stone wall, watching the waves and the bleak fall from the air, they immediately greeted them.

"Master!"

"Master! Zheng girl."

"The retreat is complete." Shen Lang faintly smiled: "Fortunately, we are not insulting, we both have a little improvement, can enhance a little fighting power."

Gao Li and 裴怔怔怔怔.

Upgrade?

Shen Lang's last retreat was more than a month ago, and the customs clearance has been greatly improved. The last time I was able to fight in Qingchuan and Tangshan, it was obvious that there was improvement.

When I come back now, I will retreat for one day, or will I raise it with a wound?

As for Zheng Yumeng, they are not too surprised because they don't know much.

Then two people carefully observed Shen Lang and Zheng Yumeng, and wanted to see how much this improvement was improved.

Soon after the high departure, he exclaimed.

“Master, you, you... have broken through the real peak?”

“Zheng girl also broke through the real life!”

The sacred sacredness was also discovered. The “Zheng Yumeng” that fought side by side in Qingchuan was originally in the middle of the realm of the realm.

The two of them can see it so quickly, one is that Shen Lang did not hide from them.

The other one is also because they themselves have just broken through, and they are still sensitive to this.

They are used to the shock brought by Shen Lang, but they are still shocked!

This is only one day!

One day, directly jumped to a realm, how could this be done?

No, not just a realm, it should be two realms!

The last breakthrough of Shen Lang was on the night before the fair, then the trade fair and the war behind.

They still have no time to understand the situation of his breakthrough, and they think that they will defeat Tangshan in the back, relying on his ability to fight against the sky and the use of various means.

How can a serious person suddenly jump into two realms?

And his woman, accompanying him to take care of his retreat, can even jump to a realm?

Is this a double repair?

Double repair is not so magical!

Originally, they were able to break through to the end of the real life and peaks at the age of 100. These have been trapped in their realm of more than ten or twenty years, and they are already very satisfied.

But compared with Shen Lang They are simply fools!

They have been trapped in their realm for a decade or two, but they have crossed over overnight.

People are more popular than people...

However, they did not envy hatred, but sincerely admire. And once again confirmed, Shen Lang is definitely the reincarnation of the alpine autumn ancestor!

How else might it be so amazing?

“Master can have such a realm, then we can rest assured.”

Gao is really relieved from the real, and this day, he is also constantly thinking about countermeasures.

In the middle of the realm of survival (they thought), Shen Lang can kill the Tang Banshan, which is the peak of the real world. Now it has reached the peak of the real world. Should it be a battle with strength and transformation of the realm?

Shen Lang has already become the hope of the Tianshan Jianzong and the pillars of the mountain!

Chapter 538 - Party news

The clearance of Shen Lang brought an inspiring news, and the Presbyterian Church of Jianzong was immediately pleased.

I haven't dared to say more about this matter. I can't let the following disciples know about it, so as to avoid people's heartache, affecting cultivation and not talking about it.

Everyone in the Presbyterian Church can't help much. It can only be seen if there is no other way to see Gao and He Sheng. If there is no way, then it will be desperate.

But gave them the miracle of the miracle again and again, and once again brought miracles to everyone!

Of course, the strength of the realm of the gods is not clear to everyone, and it is the same as the legend. Now Jianzong has two masters of the peak period. Can you fight for it? In fact, there are not many psychological ones. It can only be said that the grasp is a little bigger.

Shen Lang is only going out, and there is no arrogant going out to find a master alliance alliance.

He arranged for the desolation to continue cultivation, and also gave some high spirits to the high and the holy, let them refine and absorb, consolidate the realm and try to improve the strength.

The phoenix that was said to be left to the sacred priests was only given a little to his parents, and now he gave it to the sacred.

It is impossible for him to break through to the peak of the real world. The phoenix is used now, or if he waits to use it later, let him arrange it himself.

The arrangement of Shen Lang is nothing more than to let them have no other thoughts. Enwei and Shi are always needed. Together, we can work together to better tide over the difficulties.

Time passes by.

Shen Lang himself did not practice again, but rebuilt a large mountain guard for Tianshan Jianzong!

For the formation, he has a wealth of experience and choice. But the key must be the support of material resources, otherwise, it is difficult for a clever woman to be without rice.

In the earliest days, when he rented a house in Licao County, he arranged a simple magic array.

The barrenness of Zheng Man's burial palace was also taught by him that year.

Now that he has a large number of Lingshi, he can also call all the resources of Tianshan Jianzong, which is much more convenient.

The last time the film was still defensive-based, it was a bit of a haste. Now he is two high places, the range of choice is larger, and the power of the law is also greater.

The master of the Master League, he has known from the high place, is said to be a very mysterious person, the outside world is not clear what his name and origin.

A member of the Master League headquarters, or a member of the Union's surviving monk, said that he came, and he was called the "Lord."

So now, everyone is not clear what the lord is calling. Generally speaking, the lord refers to the ally of the Master League. In order to distinguish, the words "this generation of lords" and "previous generation lords" are often used.

No one knows where the master of the alliance is.

The Tangshan Mountain fell and the Tangyuan collapsed. This news should have been spread all over the world that night.

What is the fermentation now?

Does the lord know the news?

There is no news from Shen Lang and Tianshan Jianzong... because there is no satellite signal here.

In general, if you want to receive information, you must go out to a place with a low altitude to the foothills where the population lives.

Another point is that a disciple goes out to bring back the news, or the outside disciple returns to report the emergency.

Under this situation, it is not going to let the disciples go out, and the foreign disciples will not dare to come back to report.

After the big battle was completed, Shen Lang decided to go out for a trip.

Just look at him now.

Everyone is a little uneasy. If the lord is already lurking outside, isn't it a self-investment?

But if you don't understand the information, it's also a black eye.

Others want to accompany Shen Lang to travel, and the weight is enough to leave the three holy and desolation.

Gao Li and Shen Lang must have a seat, and the rest are two.

So in the end, Shen Lang decided to go out alone, and he went out alone in the Jianzongshan Gate.

After coming out, Shen Lang was driving away from the boat.

The sacred armor has been damaged, and the defensive aspect is the most damaging. He does not dare to consume excessively in flight.

In the realm of today's deep waves, the scope of the knowledge that can be explored is already very large.

After he came out, he first investigated the situation near Tianchi and determined that he would leave without a monk ambush.

Flying to a place with signals, Shen Lang stopped to open a mobile phone and logged into WeChat.

After the event of Tiandong, he is no longer keen on the exposure of the WeChat group, and the level of the young monks is still relatively low.

At that time, he could still use the momentum to create some public opinion. At this level, they have not been able to reach it.

Later, because too many people wanted to add friends, he directly retired.

Now log in to WeChat, there are still some people who can contact him and exchange ideas.

After the big move in Qingchuan City, there was no outcrop after so many days, and Shen Lang estimated that there would be many people looking for him.

After opening WeChat, I quickly received a lot of information, which was the message that was sent to him alone during these days.

Some of them are now different from the level of contact with him, just asking for concern from a friend's point of view, Shen Lang did not reply after reading.

For example, Zhou Yumin, when he first contacted, was also a good impression. However, this has only been more than half a year, and the gap has widened.

Zhou Yumin, who is still working hard to break through the realm of the realm, is completely different from the level and circle that Shen Lang has contacted.

It is not that the snobbery of the spurs, but not so much time, not a very important friend, will not spend so much time to go to the community, especially now that he has not figured out the situation.

There is a person's concern, he still pays attention to and returns one, that is, falling rain.

Rain fell and I thought it was also closed in the Ice Palace. This incident was too big. The news passed back to the Ice Palace, let her know, and then she came out to contact Shen Lang.

Falling rain is mainly worried about the safety of Shen Lang. Is there any injury in the battle with Tang Banshan?

Then it is suggested that he should not hide in the sword, wait until the matter has passed a paragraph.

In addition to giving him useful information, one is Joe Shuyu, and the other is Feng Wuji.

Feng Wuji collects all kinds of intelligence information then collects and analyzes it, and then summarizes it briefly, and updates the latest situation every day.

She is really good at this, and she has her channels and ways of working.

Qingchuan World War I, spread all over the world that night.

I have been to Qiangjialing. I have been involved in the siege of the Tianshan Jianzong. They are very nervous. I try to bring the disciples back together and start to close the door.

Worried that Shen Lang will go to the old account, will go to find revenge.

In addition, there are some ancient hidden martial art families, and they have begun to pay attention to the rising star of Shen Lang.

But the strange thing is that there is no news of the lord, but only the personnel of the Master League go back and rebuild the ruins of Tangyuan.

For the ally, there are two speculations in the outside world. One is that the news is not known at the retreat. The other is that the ally has already begun to move, but in the dark, waiting to kill the waves and the Tianshan Jianzong is caught off guard!

Chapter 539 - Joe's suggestion

The most concerned about Feng Wuji is the information in this regard.

Although the root cause is that Tang Banshan is going to move the waves, but after all, she took the lead, and if Shen Lang didn't care about her at that time, it would not be so fast.

Therefore, she still fully inquired about this information, but the lord is too mysterious, and at the level she can reach, no one knows the direct clues of the lord.

Shen Lang expressed her encouragement and gratitude to her, and reminded her to pay attention to safety.

Those who were dispelled by the Master League that night did not dare to find him and Revenge of the Tianshan Jianzong before the ally, but maybe they would find her trouble.

In addition, there is component information, which is Joe Shuyu.

The first information sent by Qiao Shuyu is to admire Shen Lang, the things he has done and the power he has shown are beyond his reach.

Later, on behalf of Qiao's family, he made an inquiry and asked if he would ask Joe to come forward and talk to the masters of the Master League to discuss whether he could dispel this grievance.

However, because Shen Lang did not go online, did not see this information, naturally did not return to him.

Qiao Shuyu and he are still not familiar with it. If you don't reply to this, you will inevitably have various interpretations.

Although there may be no signal in the place where the Tianshan Jianzong is located, this is something everyone can think of.

But anyone can think that they will go back to Jianzong to close the door, the Master League can also think of it. Maybe I'm hiding somewhere else?

So they are also guessing what the meaning of Shen Lang is.

Later, after commenting on the words more polite, he said that Qiao's family had no interest in him, but he only cooperated with him and Nanyiye last time, and did not want to be affected by this change.

And the Beihai Qiao family still has a certain weight. If they come out, the Master League may sell a face.

This subtext is, in other words, equal to letting Shen Lang owe a person to Joe, and he does not need to return anything.

Still did not get a reply from Shen Lang, so that Joe Shu Yu was very helpless, and finally sent a message to bless him to peace, there is no more to say.

This information allows Shen Lang to ponder over it carefully.

Why is Joe's family licking this water?

The ally of the Masters Alliance is probably not aware of the situation at the moment, and once it is known, it will inevitably be furious.

Not to mention the face of Tang Yuan's destruction, the people killed by Tang Banshan were lost. The Lingquan, which did not know how many years had accumulated, was absolutely unforgivable.

If the ally is really giving Joe a face, you can not pursue the Tangyuan, it should also be the price of his great compensation!

Complaints can be eliminated, as long as the benefits are big enough!

The problem is that Shen Lang does not want to and will not pay!

He was originally a bit of coveted dragons and dragons, but it was also a natural reaction after discovering good things, and did not try to win the battle like Tang Banshan.

If it wasn't for Tang Banshan who would force him to do it again, he wouldn't take the risk.

This is the price that Tang Banshan has to pay!

Now if he wants him to pay compensation, Lingquan has already consumed a part of it, and Nei Dan has nothing to do, and he can't satisfy any compensation.

However, in the end, Joe's family is safe, and for the time being, at least there is no need to offend them.

Shen Lang sorted out the wording and expressed his gratitude to Qiao Shuyu, and explained that it was because there was no signal, and now I saw the message.

However, the reply did not indicate recognition of their proposal.

Qiao Shuyu was on the side of the mobile phone and immediately saw his information. He was afraid of missing it and dialed the video directly.

"Shen brother, are you okay?" After the connection, Joe Shuyu greeted him.

Shen Lang smiled and said: "Nothing. Although I have played against Tang Banshan, I have some minor injuries, but I have recovered."

A little bit hurt!

Was attacked by a top-level master, this is only a little injury!

Qiao Shuyu feels that Shen Lang is pretending to be forced, but it doesn't matter. Their friendship has not yet reached the point where he will be worried about Shen Lang.

"It's okay. The ally, it seems that it hasn't appeared yet. I don't know if I didn't receive the information or plan it in secret. What did you think of our previous suggestions?"

Since the contact was made, Qiao Shuyu directly asked a question.

Shen Lang seriously nodded: "I am very grateful, and I believe that the millennium of the North Sea Qiao family, that is what the lord must also give face..."

"However?" Joe Shu Yu is arrogant and arrogant. The first day of his long time is not only a cultivation madness, but also a master of the world.

Shen Lang only expressed gratitude and compliment, but did not confirm the authenticity or excitement of the promise, indicating that this must have a turning point.

“But I can’t help you.” Let Joe’s family stand for me, I can’t afford it.”

“This...not only me and the Nanxiong, all the monks in Qingchuan understand that it is the Tangshan Mountain that is pressing on you several times. But the average person does not dare to stand up and speak out.”

In addition to Qiao Shuyu’s explanation, there is also a piece of pride: “Our Qiao’s family is hidden, but when it encounters big injustices, it will not shrink back! The husband’s intentions are not good, this thing can be used by us. Qiao’s reputation is guaranteed and explained to the ally.”

“...”

Shen Lang did not know how to respond.

If Joe Shu Yu, there is such a sense of justice and blood, can be believed, after all, he is still young, thirty years old has not been sullen.

However, the family that Qiao’s family can last for thousands of years will naturally weigh the road of diplomacy. It can’t be seen in the world. It can be said that it is indifferent to fame and fortune, but it can also be said that it is Mingzhe.

He did not believe that Qiao’s family was just to preside over justice.

However, since others are standing on his side, it is not good to face face to face.

“Qiao’s family is a thousand-year family!”

Shen Lang ambiguously praised one sentence.

Qiao Shuyu is very comfortable to listen to. After all, it is not easy to get the praise of Shen Lang. This kid is not dismissive when he compares his strength and strength.

“Or not! Let’s go to the Death Forest in advance Like you last stayed for a year or two, what the lord did not have this patience to search for you. By then, your strength is higher, come out There is also the weight of the negotiations.”

This suggestion of Qiao Shuyu, Shen Lang has actually considered it. If he wants to hide, he will not only die in the forest, but also go to the city of the river basin, and there is no way to find it.

“Look first! As you said, the truth is on our side. As for death and injury and destruction, it depends on personal strength. If I am weak, I don’t believe that Tang Banshan will not kill me, will not take me. Grab the light.”

“So why should I escape? Another one, I am not difficult to run alone, but Tianshan Jianzong is difficult to run together.”

Looking at Shen Lang’s serious look, Qiao Shuyu is a bit helpless: “Leave the green hills in the fear of not burning wood, you should have more experience than others. Who will tell you the truth, who is the big fist is the truth! ”

Shen Lang was silent for a moment, then smiled: “Yes, Tang Banshan is physically fulfilling this concept. But... For such people, I have always been ruthless to fight back!”

Chapter 540 - Revisit the Ice Palace

Two people exchanged for a while, and Qiao Shuyu did not over-enthusiasm to convince Shen Lang.

After all, the relationship between the people has not yet reached that level. If it is too enthusiasm, it will make people doubt whether it is ulterior motives.

However, this time, he also said that he would put Shen Lang’s attitude to their family and to the south.

After the video was over, I saw that there was a few messages back in the wind. In addition to worrying about his safety, he also reported the latest situation.

Shen Lang said that she did not know how to chill with her.

After understanding the current situation, he returned to the Tianshan Jianzong.

Gao Li, Yan Zun, etc. are waiting for the information of Shen Lang, and after getting the news, they have a little peace of mind.

Whether it is not yet connected, or if you have not sent troops yet, you can give them a little more time.

Although it is unlikely that it will be promoted in a short period of time, there is no real value in upgrading to the extent of Shen Lang, but more post-hand arrangements can be made. For example, dispersing people out, gathering together is protection, and being scattered everywhere is also a kind of protection.

For example, you can arrange another shelter, continue to practice there, and wait for the limelight to pass. Even if it is really a big battle, it will not be a disaster.

The following time, they really started to discuss from these aspects.

Tianshan Jianzong has been down for so many years, and certainly not ready to retreat. I have never experienced such a catastrophe, and generally do not need to use it.

Now that Zun Zun is the sovereign, he has raised this suggestion. The alternate place, that is, the environment such as Reiki is not as good as here. In terms of safety, it is definitely better than what everyone can find.

It's just a matter of cultivating the environment. It's nothing, and Lingshi can solve it. And this is not to be hidden there, just to avoid the limelight.

When Shen Lang and Qiao Shuyu said that it was external, there must be an attitude.

For the inside of the sword, he must respect the meaning of others. After all, the enemy is what he provoked. To avoid getting tired of other people, the first thing is to save your life.

Have life to have everything!

So after the Presbyterian meeting discussed, it was decided that the elders would lead as soon as possible.

And this base camp, of course, can not give up, except for a few disciples left to take care of, anyway, the deceased who has been abolished, decided to stay here.

Gao Li also decided to stay here, except for the other lord, he was able to keep it.

Yu Sheng represents the strongest of the other members of the Presbyterian Church, while the praise is the identity of the successor of the Sovereign.

This arrangement is not to exclude Shen Lang, but Shen Lang said that he will go to the expedition with Qiao Shuyu and Nan Yiye after the Mid-Autumn Festival.

Now from the sage to the high, everyone persuaded Shen Lang to go with them.

Shen Lang can see that everyone is sincere, not afraid of him.

Because of the benefits, fame and morale that he brought to Tianshan Jianzong, they are unprecedented in their life.

These elders, even the sacred sacred ones who once forced the palace, became his true supporters, and he hoped that he would lead the revival of the swords for a long time.

He had to come back to the Tianshan Jianzong before, and because of the injured relationship, he had to be treated in an absolutely safe place.

The situation is different now. Not only has it been healed, but it has also made great efforts. In any place, it is rushed.

The attack on Tangyuan seems to be with several people from the Tianshan Jianzong, but it is mainly the problem of Shen Lang and Tang Banshan.

If he leaves here, even if the lord is looking for it, he may open the door to others.

It may be safer for himself and safer for everyone.

Of course, I also agreed to this suggestion.

After guarding them to complete the batch relocation, Shen Lang left with a bleak.

In the end, I don't know how long it will take to return. He still left a lot of resources for Jianzong, mainly Lingshi.

Like the rare and powerful effect of Lingquan, he still carries it himself.

“where are we going?”

After saying goodbye to the high-sentence people who sent it out, Desolate asked.

“Go first to see a friend, female.” Shen Lang smiled.

Desolation is shrugging without saying that she doesn't care at all.

The friend that Shen Lang said is naturally falling rain.

This time he is going to the death forest, walking with Joe Shuyu and Nanyiye, and perhaps getting more exploration areas in it.

But this time he will not go alone, one is not worried about leaving the bleak and Zheng Yumeng outside, the other is to bring the rain to the rain.

The rainy body is just as special as Zheng Yumeng.

This is a great advantage, but it is also a big consumer.

Cultivated to her present position, the Ice Palace should have been struggling, it is impossible to take all the reserves out to make her alone.

But if she is not allowed to grow as much as possible in the best period of her body, it is unfortunately a pity, and it is a fallacy for her.

Shen Lang has already given a lot of help, especially the two snow spirits that were given last time.

But what is their relationship?

Classmates and friends who have saved their lives, male and female friends are still not.

In this case, he will not be able to help all the time. Even if he doesn't care, he can help, and he will be embarrassed to accept it.

So bring her directly, let her earn resources, and be safe.

Shen Lang likes her, but how to be unforgettable, of course, is also fake.

From the perspective of beauty, whether it is Zheng Yumeng, Dorothy, Bihaihuan, etc., it is also very good.

But it is very important that the rain has saved his life. It is also something that no one else has.

It was also the earliest contact, and the original classmates gradually drifted away. Everyone is already a different person in the world. Falling rain is also a memory and representative of the youth campus.

With so many complex emotions, it is not too easy for Shen Lang.

The last time I came to the Ice Palace or last year, when the rain fell and he was brought back to heal, now half a year has passed. Revisiting the old land, his identity and realm have a huge difference.

The obsolete observation ability is very strong. Although she has never been there, she has already seen the ice palace near the ice palace.

“Do you need me to avoid it?”

Shen Lang smiled and said: “Tianshan Ice Palace, they are all female disciples, I am not very convenient to go, it may be better to be with you.”

“But...” Desperate and stop.

She is not good at heart, you go to find a girl, but also with a woman, who can not be awkward? They are the same door of only female disciples, and they will mind more.

However, Shen Lang does not matter, she did not emphasize it anymore.

“Where is the high man, come to the ice palace?”

A voice came from the valley and went straight to them.
