

First Strong 571

Chapter 571 - Follow the sinking waves and eat meat.

“Rao...Life...”

The three men struggled with all the cultivation, and they barely squeezed out the two words of mercy.

At this moment, they only know how powerful Shen Lang is!

When I saw the excitement, I felt that the strength of Yumu Cang was not good enough to be so swayed by Shen Lang. I didn't think that I could play for a few seconds. Now that Shen Lang doesn't need to do it, he can crush them directly. Only then can they understand the gap. They are even far away from Yumu Cang.

Just when they were about to endure, the body broke and collapsed, and the pressure suddenly disappeared.

In an instant, three people fell to the ground like a muddy mud.

It was suppressed before, and now it is really stumbling.

Although the pressure has disappeared, the sequelae of the pressure that has been under pressure have begun to manifest itself. It seemed to have paused for a while, and it suddenly slammed up, and the blood, bones, and meridians seemed to have been hit hard.

“Thank you... Master Shen is forgiving...”

After reluctantly insisting on the thank-you, the three of them heard Shen Lang reopened.

“I want to kill you, it is no different from crushing an ant. No one will be in front of you, your martial art family will only shrink, it is really worth your price, that is, destroying the family!”

“Yes, yes...we are wrong.”

They are all sweating, and they have experienced the fear of dying, and they are much more stressed than before.

That pass, this time the intestines are remorse!

I knew that Shen Lang is here, what are you doing here?

I knew that I would be discovered, what is forced, what is the cow?

The other two feel that they are being hurt, and they want to say that they don't know him...

"People are deliberately pretending to make a phone call, and you will hear the secrets of this stupid bird! Or else you can listen to the strength of the masters of the Master League?"

The person thinks that it makes sense. If it is really confidential, sending a message is safer than making a call, let alone without any protection.

"The Masters Alliance is my enemy. They want to engage in me. Everyone knows it. But before their ally is not back, in front of me, I can only bow down!"

"So I use a stupid bird like you to pass it on. Anyway, I won't find it on their heads. As for you, you guys, I'm irritated and killed by me, and I have no loss to them."

"I am wrong! Sorry Master Shen, I was used by them!" The man almost cried out.

I thought that I had inadvertently heard the big secret. I didn't expect to be a ***** that others didn't want money.

"Master Shen, the Master League is so savvy, it is too odious! Also use our innocent honest people! What do you have to say, even though we will help you!"

There is another eye-catching one. I heard it here and I already understand it.

Shen Lang should be trying to cure his own people with his own way, and he must launch a rumor counterattack against the Master League!

If this is the case, then the three of them will still be playing chess without money!

What can be done?

Before they were inadvertently used as pawns, they would die undead. Now I know at least the inside story, and how much can protect myself.

Shen Lang wants to use them in reverse, of course, already soundproofed around.

“I will tell you a message! The lord of the Master League has not come out to trouble me for so long, because he is already trapped in the Thousand Grottoes!”

This is what you want to pass!

I thought about it for a moment, and I processed it quickly.

“According to a reliable person... According to a singer-level master, the ally of the Master League, because of the deep core of the restricted area of the Thousand Grottoes, was trapped inside.”

Although Shen Lang let them pass on, but can not be said to be the instigation of Shen Lang, it is not convenient to say that Shen Lang said, or else others will not believe.

He exaggerated it into “thinking that the master of the peak level” said that it is to increase credibility. As for whoever, he would not say that he could not say it.

However, what he did not expect was that Shen Lang was really a master of the peak.

Shen Lang reached out and grabbed him directly from the air and grabbed his head.

This scared the striking person, “big, master... Rao...”

The other two people were scared and stunned.

This swell is really moody!

It is said that it is also murderous, will it directly twist his neck?

Just when all three of them were scared, the eye-catching man suddenly felt a burst of Shutai, a powerful force pouring into the body.

Then Shen waved his hand and let him fall back on the ground.

“Thank you! Thank you, Master Shen Lang!” He was excited about the girl. “Small Liu Qingfeng must do a good job!”

Although Shen Lang only permeated a sigh of energy, he did not help him to upgrade like Yue Zhennan and Mo Qi, but for this self-cultivator named Liu Qingfeng, at least he was added a year of cultivation!

It’s like Ma Shoufu throwing out 100,000 pieces, but he just pulled a hair. But for ordinary people, it is an extra year of income, so real benefits, can you not be excited?

The other two are not clear about the specific but I can see that he is getting the benefits. Fortunately, he is relieved and envious.

“Liu Qingfeng is it? You are very good. I will pay attention to you. If you do well, you may find you later.”

The sentence of Shen Lang, let Liu Qingfeng excitedly once again gimmick.

Thigh!

I did not expect to be blessed in disguise, and had the opportunity to hug the thighs of the sinking waves.

Although the risks are great, the gains are huge. Shen Lang debuted only two or three years, all the way to kill, from Chuzhou, Yunzhou, to the Master League, who can kill him?

On the contrary, he has gained more and more, and just leaking a little from his fingertips is a huge gain!

For example, today, the few guys who have gone out of the game are just a few stools, and they have got a medium spirit.

Just a word to satisfy him, he got the skill of at least one year. If the service makes Shen Lang satisfied, will the benefits be less?

“Others use you as silly dogs, I want to use you, except that you owe me, I will not owe you!”

During the conversation, Shen Lang threw out three medium Lingshi, one by one.

Everyone is overjoyed, and it's fortunate that they haven't been killed. I didn't expect to have a spiritual harvest.

This relatively eye-catching Liu Qingfeng just thought about the few people who got the Lingshi, and immediately got the gift of Shen Lang, more confident that there is meat to eat with the waves!

“Go!”

“Yes!”

Liu Qingfeng did not dare to leave a contact with Shen Lang. If Shen Lang is looking for him, he must find it. Now he must prove the value.

The one who passed the rumor is to redeem the sin, or else he will kill him, and Liu Qingfeng is bothered.

The three people quickly left the water when they climbed the ground, and Shen Lang returned to the original deck.

Chapter 572 - Bored and quit

Shen Lang just wanted to say that the master of the Master League, entered the “no return to the sea prison” can not come back.

But thinking about this rumor is to be spread well known. “No return to the sea” is still very high density, the general martial art do not know.

In the future, he will also go to see this “no return to hell”, or do not provoke more attention.

As for the Qiangjialing, it is confidential before it is opened. The general martial art is also unclear, but it is not the same after opening. The next time it is opened, it may take a hundred years, and it is not afraid that it will spread.

More importantly, Qiangjialing is one of the biggest events in the past six months. It is easier to be credible and more grounded.

After all, the martial art family like the Beihai Qiao family and the Nantian family will not believe that the lord is trapped in the Qiangjialing. They say that they have no return to the sea. They believe.

However, Liu Qingfeng’s several levels, as well as the public opinion that needs to be made now, are not the high-ranking martial art families, but the realm of the general public.

Falling rain and Zheng Yumeng also saw Shen Lang clean up a few of them. They did not care too much about what he said after soundproofing.

After returning to the rain, I told Shen Lang that the raft had replied, saying that they had completed the exchange forum, and then the master fell to the river with some seniors. In a closed meeting, she was still waiting for them to meet in the past. .

It can be seen that even if she replaces the palace of the Ice Palace, the status of the rivers and lakes is still insufficient, and others will recognize the river instead of recognizing her.

And this is also the reason why Luohe still wants to take her contacts. After all, the grade of the Ice Palace is limited, let alone her young palace owner.

However, the Ice Palace also has its own characteristics, because they are all female monks, and basically the appearance is pretty.

Such a “beauty sect”, even if the strength and the lack of foundation, the major sects are still willing to play.

After all, for thousands of years, it is a patriarchal society, and the realm of cultivation is even more dominated by men.

They don’t necessarily have low-level color, but they still have the nature of beautiful opposite sex, and “appreciating the vase” is also a way to make them pleasing and feel that they are self-cultivating and civilized.

This is the reality of the Ice Palace.

This is also the reason why Luohe passed the position of the palace owner to the canoe early and cultivated the rain.

Falling rain is a genius that has not been seen in the Ice Palace for hundreds of years. If you can cultivate a monk who is a god, you can directly raise the ice palace to a different realm.

When they were looking for a canoe, they learned that their closed-door meeting was still going on. There were quite a few predecessors who participated in the world. What is the specific agenda is not known to her.

Zheng Yumeng came down in the past few days, and he was also familiar with the rafting. The rain fell a little, but the two of them said a little more.

When bored waiting, Zheng Yumeng also said what happened before.

It’s not just a chat, she is deliberately revealing.

Because she is still a bit worried, although Shen Lang said nothing, but he and the experience of falling rain are not enough. The canoe is the head of the palace. It is well-informed. If there is any problem, it can be discovered as soon as possible.

After listening to the raft, I stared at Shen Lang for a while.

“Is it your ghost?”

“What?” Shen Lang is inexplicable.

Take the light boat and take out the phone, open it and show it to him.

The original exchange conference also has a WeChat group. In many places in the Golden Dragon Bay Resort, there are two-dimensional codes, and the scan code can be added.

The purpose of the group is to facilitate the release of some announcement information, and of course it is convenient for everyone to communicate.

Shen Lang did not join, naturally do not know the above situation, the canoe is joined.

Now the group is discussing a hot spot, that is, the mysterious lord of the Master League. One of the peak masters revealed that he was trapped in the core forbidden land of Qiangjialing.

After the news was released, it immediately triggered a lot of discussion. The scene was not only the headquarters of the Masters League, but also some members who joined the Masters League. They all denounced this as a rumor.

But the human mind is so strange, it was originally an unknown trumpet, and if no one pays attention, no one cares. As a result, the people of the Master League repeatedly reprimanded, but made the irrelevant people doubt.

In combination with the previous period, Tangyuan was smashed by the waves, and the lord did not appear until now. Everyone even doubted that the exposure had such a certain degree of credibility. After all, the source of information is the “master of the peak”, the closest superpower to the distance.

As long as this “master of the peak” is in the end, it is impossible to verify, and will not pursue so much.

It was a bit skeptical about the loss of the canoe. Why did this information appear to be beneficial to Shen Lang at this time? Now that I have heard the last thing, I immediately guessed it.

Shen Lang laughs without saying the default.

This Liu Qingfeng’s ability and speed of several of them also satisfied him. With the help of modern information media, he quickly spread the scene at the exchange conference.

Once this news is fermented, it will inevitably be spread by other people to other groups.

This point is believed that Xia Yuntian and others can also guess that Shen Lang is manipulating in the back. However, there is no direct evidence without finding out the first few of them.

Without evidence, it is impossible to publicly complain about Shen Lang, or else Shen Lang will start with them, and they will be embarrassed.

After the closing session, the river came out, and she did not talk much about the content of the meeting. It probably involved a certain level of confidentiality. The sects who did not participate in the meeting were not convenient to disclose.

Shen Lang is not interested in understanding. It is already agreed to eat together at lunch time.

In fact, for this exchange meeting, he has already seen it, it is a bit disappointing, and there is nothing too interesting. But when they come with the ice palace, it is not good to propose to go back first.

The result is a bit embarrassing to say that there are some predecessors invited to dinner, she wants to bring the boat together with the canoe, ask Shen Lang if you want to join together?

Can Shen Lang 岂 not hear the meaning behind it?

Those who are friends of Luohe, she wants to bring up the sisters of the canoes and promote their popularity, so that they can get to know more seniors.

They are her disciples and they are very good. Of course, there is no problem.

However, he and Zheng Yumeng are not convenient together. The invitation to fall into the river is just a guest.

Shen Lang did not feel that he was left out. He could feel a little bit of falling down. This is her social circle. I really want him to go. It is also a restrained constraint.

I believe that the rain and the canoe may not feel Shutai, but they will have to shoulder the heavy responsibility of the Ice Palace in the future.

He immediately said that he would not go, and he left to rest. I didn't say anything like Joe's Yu Yu and Nan Yiye's dinner.

After being separated from the ice palace, Shen Lang immediately contacted the wind and asked if she was still here or left.

Chapter 573 - The secret of the wind

Feng Wuji immediately responded, said to leave with them, there are things to report to him.

The three left the resort and took a taxi back to the city, but did not return to the hotel, but found a restaurant with a private room for lunch.

After ordering, the waiter retired. After Shen Lang made a soundproofing around him, he took out the small bag that was given to him before the wind.

"Fortunately, I didn't want to be insulted. Although I spent a little time and energy, I still collected a few."

Shen Lang saw three metal plates and one artifact fragment inside.

"These are all brought back from Qiangjialing. I have never found out what is useful. I feel very tasteless. So when I am willing to take out Lingshi, they all agree."

At the time of Shen Lang's review, Feng Wuji reported it.

"But don't misunderstand, I will come out with you, there are still things to report to you. It is not to take Lingshi, but actually you give it."

Feng Wuji was originally close to Shen Lang, saying that he was holding his thighs, in fact, it was to help the waters. When I posted it to the last Tangyuan, it was obvious that I wanted to hold my thigh.

However, after the hotel's trust and attention to her, and her being held by the Masters Alliance, Shen Lang did not sacrifice her fuse and directly brought people to save, so she completely changed her attitude.

So, every day, I helped Shenlang collect the trends of the Master League, including all the biases here today. All of them have already made Shenlang a true friend.

Instead, I don't want to think of her as a person who has the thigh of interest.

Shen Lang smiled and shook his head.

The metal card he got in his hand was chosen by Nan Yiye and Qiao Shuyu. They were all tasteless. The water moon hole, the original tying, is not worth the money.

But the key is that the water moon hole days also have a lot of gains, flying beasts are the focus of their concern.

If there is no other genre of great gains, you will get metal cards or artifact fragments, even if it is chicken ribs, you are not willing to sell at a low price. Keeping is also a qualification, a thing that motivates the younger generation.

Coupled with the wind and no Ji Ji to collect these, even if the channels of contacts are wide, it is not possible to be accurate in place, or to release the news first, it will inevitably let the people who know the price increase.

There are now three metal cards and one piece of debris. It is estimated that the total consumption is within ten medium-stones, but the price will only be higher and higher after the acquisition.

This is the mentality of people. It doesn't do much to him. I don't know what you use. But knowing that you are buying, you will definitely raise the price.

"Excessive, it is the difference you earned. You saw it today, I am now inflated by the nouveau riche! I have spent five stone stones to buy a seat. Of course, there is no need to lose you."

The wind did not open his mouth, and he wanted to quit.

But the "expansion" that he joked behind was also the fact that he saw it with his own eyes.

However, the last sentence that impressed her was "there is no benefit to her." Naturally, she is regarded as an unusual person.

"Okay. Then I will thank the boss!"

After she finished, she also habitually laughed: "The boss is so generous, you want to do whatever you want..."

I looked at Zheng Yumeng again, "haha, kidding."

The atmosphere of the three people was still a bit awkward, and now it is a bit more active.

Feng Wuji then reported to Shen Lang about some of the circumstances she had not had time to say.

The structure of the Master League is divided into two parts, the headquarters and the franchisees. The franchisees include the official members, and the peripheral members of the study.

The headquarters is the core of the alliance, and the foundation is the Tangyuan in Qingchuan City.

The reason why it is called Tang Yuan is because it is the industry of the Tang family in the name of the secular. Of course, after Tang Banshan was responsible for taking over, there were other names before that.

Tang Banshan is the owner of the headquarters. Joining that piece is not the responsibility of another owner, but the head of the department. For example, when the West Gate Seal was a member of the Ministry, you could invite people to join and inspect.

In fact, the ally is like the chairman of a company, and Tang Banshan is like a specific executive of the CEO, president, and general manager.

But even if one person is below the 10,000 people, the church owner is not the only one, and there are two at the same level as him.

It's just that ordinary outsiders don't know that they don't appear in the league's headquarters. One is called the supervisor, and the elder is a law enforcement elder.

These two are inward people, and the object of supervision includes the owner.

Generally, there is something wrong with the staff of this department. If there is any objection to the handling of the church owner, the response can be monitored, the supervision and supervision, and finally the elders of the law enforcement.

Nominally, this is for all internal personnel, but the specific power is in the church owner, the handling of the church owner, even if there is objection, the monitoring, law enforcement elders often end up agreeing with the owner.

Therefore, these two positions are relatively embarrassing, and the actual meaning exists in the supervision of the church!

So everyone in the headquarters, seeing each other in the morning is not very good. Therefore, in general, both of them evade each other. In addition to receiving the resources belonging to them, they are retired in other places.

This time the Tang Banshan was killed and the Tangyuan became a ruin. The outside world thought that the lord came out to preside over the overall situation But in fact, the above structure should be the supervisor and the law enforcement elders.

The lord came out, of course, everything that listened to the lord before he could find the lord. The supervision will temporarily replace the owner and become a temporary commander, so as to avoid the leader.

Because this is something inside the Masters League, and the two do not appear in peacetime, everyone almost forgot the existence, just like the name of the lord does not know.

Feng Wuji is also the news that she just learned. According to her previous information, she immediately reached a conclusion.

The Masters League is tight in the outer pines. It seems to be low-key, waiting for the allies to come back to counterattack. In fact, it is likely to be the intention of the supervisor and the elders of law enforcement. The purpose is to make a wave of Shen Lang and Tianshan Jianzong unprepared!

It is also the same level that can supervise the church owners. I believe that resource allocation will also be a level, and the realm will be similar.

In other words, even if it is not as good as Tang Banshan, this supervision and law enforcement elders must also be the monks who have reached the peak of the true state!

Under the sacred lord of the gods, there are three peaks in the realm of the realm, and a large number of strong people who live in the realm, this is their emboldened!

Shen Lang knocked out a church owner, which is equivalent to killing a president. The two vice presidents should take over the management immediately, and may not wait for the return of the chairman.

Combining today's Master League to find the door, or Xia Yuntian's representative, further prove that they may be in the dark!

"You are very important about this news, thank you!" Shen Lang said seriously.

He and Jianzong are both prepared, but the defense is only the lord.

The lord is a sacred god, and may not anger the ordinary Jianzong disciples, but if the supervisors and law enforcement elders fight back against the masters of the master league, they will soon attack the swordsman from the bottom up!

Chapter 574 - Weeping

This secret is really important, and Shen Lang immediately sent a WeChat to Gao.

The telephone is not available, but it is agreed upon when leaving, and the fixed time is high or the place where the sacred sac is out there is a signal to exchange information.

If Shen Lang is in trouble outside, he can summon the reinforcements. If the sword is attacked, he will report to him.

So now it is a message in the past, although it does not achieve the effect of instant messaging, but it is as soon as possible to inform the past, so that there is a preparation for Jianzong.

Strategy needs to be re-adjusted!

After that, Feng Wuji said in detail about the several things that the martial art acquired. If Shen Lang meets them in the future, he can pay attention to them, lest they may still have no transactions.

“this is for you.”

The wind did not pick up Ji, and immediately became surprised.

This is a storage bag, a magic weapon for storage space!

“It is yours.” Shen Lang nodded.

This is the spoils he took from the masters of the Master League in the late days when he was hanging on the island.

The resources of the two of them are not too much, and they are not comparable to Yuwenba. He can't use these two storage bags, and now he sends a gift to the wind.

“Well, I will not be polite with you!”

Feng Wuji thought that Shen Lang had sent it out, and he would not take it back. There would be no embarrassment, generous acceptance, and no verbal thanks.

But after injecting the spirit and the connection of the storage bag, she discovered that there was a pile of Lingshi!

“This is...”

“After a while, I may leave for a while. Something can’t be contacted with me. If you have any troubles, I can’t help it. Lingshi is not enough. I can’t help, so I will prepare you a hundred. Lingshi.”

“But not so much!”

Feng Wuji is very serious. Even if she wants to hold the thigh of the sinking wave and get some benefits, she has already given her ten spiritual rewards and paid the start-up capital of the previous 20 Lingshi. .

This time she didn’t want to take Lingshi again, but Shen Lang actually said that she was the difference she earned!

Such trust and generosity allowed her to decide that even if Shen Lang did not give Lingshi, she could continue.

I didn’t expect that Shen Lang was already ready, not only a hundred big ones, but also gave her a storage bag, and there were two other things inside.

“Leave it, it should be more and more difficult to collect later. Others know that you are collecting, it will definitely raise the price. You help me collect intelligence, inquire about the news, what are the expenses that need to be used, and they are also prepared for you. Lingshi.”

Shen Lang said again: “There is also a small copper bell, which is a sound wave attack magic weapon, so that you can carry it with you. If necessary, you may have a surprise effect.”

“Oh, there is another one. Many people have seen it. I got the bullet from the Chu family. Although this thing is not fast enough and the sustainability is not strong enough, the power of the bombing is still very good. When you can give them a good job...”

His words have not been finished yet, but the wind is no good, but it is full of tears!

“Cough! You don’t have to be wronged. You are not given the task of sending death to you. It is not dangerous to buy these. Just afraid that you are in danger. After all, you help me and stand the risk of my side, I can’t care.”

Shen Lang was a little sweaty, I did not expect her to be this reaction.

Zheng Yu Meng was busy giving her a paper towel in the past.

Feng Wuji twitched his nose slightly and took a deep breath.

“Not aggrieved, I am touched!”

“Really! No one has been so good to me!” She said with self-deprecation: “It’s okay, there’s a chest, it’s big! It’s sold by people who are popular, so the man who posted it is the river... ...”

“But what the purpose is, I can think of it with my toes. I want to pay a little bit of interest, I will sleep. I am not only sleeping in my body, but sleeping.” show off.”

“Whether you believe it or not, I am always a virtual and a snake, and keep it innocent.”

“So I know countless people, but there are not many real friends. Zhuoyuan of Shuiyue Dongtian is one, so I am willing to help him at the beginning, and I am going to go to Qiangjialing.”

“Mei Gong Gong, born with a good sense of smell, have provided great help for my self-protection.”

“It used to be straightforward. It’s not deliberate to say anything, it’s close to you, just want to get benefits from you. It’s like using other men to get benefits.”

“The last time you sent me to the hotel to find you, I actually hesitated, I guess you want to sleep me. I went, in the eyes of men, it is the default. Even if you really want Strong, I can’t escape, no one believes...”

She smiled a little, then smiled at Zheng Yumeng: “But there is Zheng girl, let me go.”

“Fortunately, I went! I didn’t expect to get your trust, but also get your maintenance A person like me, He De He!”

She took another deep breath and looked at the storage bag in front of her.

“Now, you are not only giving me the benefits of Lingshi, but also giving me three magic weapons!”

“Even if you can’t see it, this is also a three-magnific magic weapon! A good thing that a martial art may not have come up!”

“More importantly, you send me a magic weapon because I am worried about my safety, it is to give me self-protection ability!”

When she said this, tears still unconsciously fell.

Like her, the comprehension of the realm dominated by men, by himself mixing into the present, the pressures and grievances that he usually bears will certainly not be small. This time, because of the emotion, the emotions will be unrestrained.

After wiping a tear, Feng Jiji re-appeared a smile.

“I don’t say anything about it, so I can’t sell it for me, but it’s really broken! This life is handed over to you, Shen Lang.”

She said very seriously, this time did not call Master Shen Lang, just called Shen Lang.

Shen Lang drums applause: “Don’t say so grand, what is broken, what a life. But you call me Shen Lang, I listened very naturally, and later called, everyone is a friend you can trust. Wind sister! ”

In front of her, Shen Lang is always high-profile. Half a year ago, she appeared in Tangyuan. She is also seen by the current generation.

But whether it is to be a waiter of his predecessor, or to find his younger brother after the age, Shen Lang is maintaining a high profile.

Desolation is the same, but Zheng Yumeng has called her “wind sister.”

Now Shen Lang called her “Wind Sister”, let Feng Jiji feel that this time is truly recognized by her, can be regarded as her own.

Chapter 575 - The treasure of Tang Banshan

After the meal, Feng Jiji will return to the exchange meeting.

Because there are many places, that is, the places with the most information and intelligence, especially the world’s self-cultivators, can be described as a mixture of dragons and snakes. If you are inquiring, you can get a lot of information.

Although this information does not necessarily have to do with Shen Lang, for Feng Wuji, the more information she has, the better, maybe someday has value.

She saw Shen Lang, one is to hand over the acquired metal card to him, the other is the secret of this master league, just finished talking to him.

Shen Lang and Zheng Yumeng returned to the hotel.

Knowing that the Masters Alliance also had a surveillance ambassador and a law enforcement elder who secretly glimpsed, he became always cautious.

The lord will naturally not be so easy to raise his head, but it is also a great threat to have two people who are at the peak of the situation waiting for a sneak attack.

The last time I killed Tang Banshan, in addition to using the steel building, it was the enemy of the Tangshan Mountains.

And that battle, Shen Lang is almost always able to use the means used!

Now the enemy may be studying him in the dark. If he has thoroughly measured all his means, he will attach great importance to it and then sneak out from the secret...

Don't say these variables, it's just two masters of the peak level, that is, it is twice as strong!

After returning to the hotel, Zheng Yumeng naturally followed the room of Shen Lang.

After the spells were placed on the mask, she leaned over to Shen Lang and asked with a smile.

"There are so many things to send people, so big, and I have no idea what I have touched." I really have no idea?"

"What thoughts?" Shen Lang glanced.

"I mean, if you want to take advantage of the wind, it's already a matter of course, much easier than falling rain."

Shen Lang continued to give her a blank eye.

Zheng Yumeng said a little embarrassedly: "In fact, I can feel it, like me or Miss Luo, I was born with a golden key. I am very lucky. I met you early and got great care."

"The wind sister obviously doesn't have such a good background, and she doesn't have such good luck. The men are all people who have taken a fancy to her, and even to the back of her name, only you really care about her return, no wonder people will Moving."

Shen Lang touched her head: "Little guy, are you jealous?"

“No! There is a saying that Germany does not match, it is dangerous to say that your virtues are not worthy of status, enjoyment, etc. From that point of view, I am not worthy of monopolizing you, Miss Miss is not good!” So I have a self-knowledge.”

Zheng Yumeng really looked at it and didn't feel wronged.

Shen Lang helpless: “That can only say that you are not right!”

“What about that? I don't need to praise others for living. Then I said it again...”

She hugged the neck of Shen Lang: “I don't know how many young monks envy me, including the wind sister who can make countless men play around, even if her chest is so big, only envy my points.”

“...”

Shen Lang gave her a kiss and then got serious.

“You go back to the house and help me to pay attention to the surrounding environment. You must be careful.”

When I heard Shen Lang seriously, Zheng Yumeng knew that he had important things, and immediately agreed, and then went out first.

After she went out, Shen Lang was using metal cards and artifact fragments together with the previous ones.

But now that it is a metal card, there is still no clue. And the artifact fragments, one more piece, are also pieced together.

Last time, Zheng Yumeng struggled. Now it is just one more piece, and he is not in a hurry.

After the things were cleaned up, Shen Lang began to take out something else that he carried with him.

This is the storage bracelet of Tang Banshan.

After getting this thing, Shen Lang did not immediately check the gains.

Because it was a state of injury at the time, and everyone must leave the right and wrong as soon as possible, it is safer to return to Jianzong.

After returning, he was still busy with healing, and he got a lot of spiritual springs to make his breakthrough.

Therefore, he is not in a hurry to look at the collection inside, but instead to study the Warlord Tower magic weapon, it will be more practical.

Today, the bronze bell and the mixed-bull bomb will be sent to the wind without a scorpion, except that she is very likely to be hurt, but also because Shen Lang himself is not very useful.

With his current strength, it is better to use the copper bell or the mixed bullets.

But now that I know that there are supervisors and law enforcement elders, let him have a little more urgency after a period of calm.

If the two don't come to revenge, but wait for the ally, then the chance to give him is very small!

So he wants to see if there is anything more available in the collection of Tang Mid-Levels. Whether he is, or the person around him, you can improve a little more.

The storage magic of Tang Banshan is a bracelet. After the sinking of the waves, it is also worn on the hands, so as not to lose.

With his identity under the Master League, plus the style of Shen Lang's shot, there must be a lot of collections.

These days, the Shenlang is also forbearing not to look at it, so as not to be distracted.

Now open the bracelet and see it in the eye, so that he can not help but be surprised.

First of all, the space of this bracelet is very large, much larger than the one he left for Zheng Man. Now it is entirely possible to let the retired, mainly use this.

The estimate of Tang Banshan is also a small world like Qiangjialing, which is the object of the predecessors. Because the space is large, the inside is not full, but there are many things placed.

Also because there is enough space, there is no need for stacking, but it is well classified.

Shen Lang roughly scanned a piece and had a rough impression.

There are several big bottles inside, all of them are filled with Lingquan! I don't know if the resources allocated to him are still not used, or they are used to guard against self-stealing.

This is a huge attraction for everyone, but Shen Lang has put all the reserves in the Lingquan well, and these can certainly be treated calmly.

There are also some bottles and cans, which are labeled with different characters according to different purposes. They are basically healing drugs, scorpion venoms, supplements and other aspects of medicinal herbs.

The reason why the text is marked is because it is not his own refining, it may be supplied to him by the Ministry or other masters who joined. More than one different sects, in order to avoid confusion, it is marked.

There is also a two-box, a large one, filled with Lingshi, all medium-sized Lingshi, estimated to have about a thousand.

The small one is another ten fine stone!

He has been disdainful of the original Lingshi. Of course, these should not be his personal collection. It should be the reserve resource of the Alliance Headquarters, otherwise he may not have that much.

Chapter 576 - Giant bomb

Ten fine stone, plus thousands of medium stone, is equal to two thousand medium stone.

Not to mention the many Lingquans that were taken before, the light stones are enough to make the Master League come to the door to take revenge.

Of course, the value of these spiritual stones is also a huge increase in the price of Shen Lang's body!

Shen Lang is using this bracelet directly, all things do not need to move, just inventory one by one.

There is also a box with things inside, but it makes him surprised again!

It is actually the secret of a box!

The secret of a family or martial art is very normal. How can there be so many secrets in Tangshan?

Shen Lang took out the box and flipped through a part, and immediately understood the key.

These secrets are not the masters of Tang Banshan. They are considered to be master leagues, but they are actually various factions!

This is certainly not accumulated in a short period of time. It is not known how many generations have been collected. The route is likely to be contributed by the masters who joined.

However, it is unlikely that the contribution of the loyalty of the table is likely to be caused by the interest, or by other means of coercion.

In this way, it is equal to the Master League holding the door of the door that does not know how many sects!

I thought that when I was in Pingxi, Ye's yin palm, because I learned from the tomb of the king, I didn't know how to understand it. When it was revealed by Shen Lang, it was very important to let Ye Shiguang go back. Lingshi exchange, you have to accept.

The Master League originally had a powerful force, and all of them were joined by the various factions. There were also powerful sects like the lords.

When you are stuck with the secrets of the factions, when you really want to order them, or force them to do something, they are very likely to be afraid!

This discovery made Shen Lang quickly have a solution.

Continue to count.

It is a pity that in his possession, he did not find any magic weapon. It is estimated that some others are assigned to everyone, and his own is the Ba Tian Tower that was previously collected.

Surprisingly, however, in a box containing bits and pieces, found a few metal cards and artifact fragments!

These should also be brought back from Qiangjialing before the Master League. There is no use for chicken ribs. There are still some Shen Lang who have not seen it one by one. He has one thing to do now!

In the most conspicuous place, there is also a thick booklet, which should be the management book log of Tang Banshan. It was originally uninteresting. Now it is taken directly and carefully.

He then contacted Feng Fengji, let her pull him into the WeChat group of the exchange meeting, and found out Liu Qingfeng, add his WeChat.

This matter has not been handled very quickly. After he roughly looked at the management book, he has already entered the group, and Liu Qingfeng has already added it.

“Master Shen Lang, are you really a master of Shen Lang?”

Liu Qingfeng was very excited. The benefits that Shen Lang gave him before not only helped him improve his skill, but also gave him Lingshi. And there is an investigation. If things are done well, they will find him again.

Now, looking for someone through someone else, it should be to recognize his work.

“The performance just was good. I still have something for you to do now. The benefits are even greater!”

“The breeze must be properly posted!”

After Shen Lang confessed, he found Zheng Yumeng and returned to Jinlongwan Resort together.

He has already appeared on the beach in the competition field today, and the natural guards have not harassed him. They don't need to verify anything, let them go in.

After that, I found Liu Qingfeng.

Liu Qingfeng is too busy to be alone, or they are together, this is considered to be the “same thief boat.”

Just like the enthusiasm of Liu Qingfeng, the other two are a bit nervous.

“The table you want is set up and you have completed the momentum.”

In fact, I found some tables and put together a simple little stage.

On the way, Shen Lang has seen Liu Qingfeng build up in the group, saying that Shen Lang is going to sell a batch of secrets here.

Everyone at the exchange meeting will not show real strength. For the first time, someone has to sell secrets, which has caused heated discussions.

But whether it is suspected of hype or dubious, many people have gathered in front of the small stage.

“Put the second wave, I will send it to you now.”

Shen Lang sent the already edited content to Liu Qingfeng, and then walked past the stage.

“Ok!”

Liu Qingfeng replied excitedly, and after reading the content, he could not help but change his face.

“What’s wrong?” The other two people were busy asking him.

He smiled a bit: “This material... is a huge bomb!”

“What the hell?”

“Nothing, look at the group, you will know right away.”

Liu Qingfeng took a breath and carefully looked at the information of Shen Lang. On the basis of not changing the content, he changed the touch and changed it more and became more instigated, and then sent it to the group.

In the original group, I was still discussing the secrets of Shenlang’s sale. Suddenly I saw the message that Liu Qingfeng brushed out and stopped discussing.

It is not the secret of Shen Lang, but the secret of forty-five sects!

These secrets are obtained from the Master League Tangshanshan As for the way the Master League is obtained, each sect knows it or investigates it.

Now Shen Lang is going to sell these martial art publicly. If it is confirmed that it is the family of the secret owner, you can buy it back cheaply, otherwise it will be the highest price!

After a while of silence, it immediately exploded!

Involving forty-five sects, many people are not sure whether their family members are involved before they announce their specific names.

Of course, if it is the Beihai Qiao family, the Nantian family is such a level, naturally do not worry, they have no contact with the Master League.

Others are different, even if they have not joined the Masters League, do not know whether the Master League has stolen their secrets by other means!

Ever since, a lot of reprimands of the Masters League, there are also many reprimands of the waves and immorality.

Originally, everyone was dubious. Only part of them watched the lively mentality and looked at the secrets of the sale. Now it is immediately becoming everyone to rush to the scene.

And it is a rush!

Because there is a “high price”, if the secret of your own home is bought at a high price, it may be the impact of the destruction!

At the same time, there were always calls to go out, and some could not be the master, and quickly reported to the division.

When Shen Langfei fell on the temporary small stage, a large number of monks gathered together, more and more enthusiastic than the previous beach competition.

The person who arrived first, also learned what happened on the mobile phone, and was glad to come first and occupy a good position.

The people who came one after another, the screaming on the stage, also screamed, asked him credibility, asked him if it was hype, he should not sell it publicly, and said everything.

Chapter 577 - Sale tips

Shen Lang just looked down on them and then observed the crowds who came over.

Although he is selling things, but he doesn't want to sip it again and again, he will say it once, so waiting for most of the people to come and say it, then he will not care if he doesn't hear it.

“Shen Lang! You are too much!”

One voice overwhelmed the voices of others, Xia Yuntian, and there were several other masters of the league next to him.

“You used the trumpet several times today to frame our master league in the group. It’s true that the hero will be played by you on the day!”

Xia Yuntian shouted loudly that “the fall”, in front of everyone, the master alliance to steal the secrets of the various factions removed.

“Is it all right? If you haven’t come yet, don’t blame me for not saying it.”

Shen Lang directly ignored Xia Yuntian and said to everyone on the scene that his voice was of course to put Xia Yuntian down.

“Master Shen Lang, the Master League said that you are falling behind them. Is this true? Where did your secret come from?”

One person shouted a scorpion and let everyone hear it.

“They said it was a fall, you believe it? The thief shouted that the thief had not heard of it?”

Shen Lang looked at Xia Yuntian and smiled: “Xia Yuntian, you are in Tang Banshan, have you seen this thing?”

He took out the thick management book in his hand.

“This is recorded by Tang Banshan? It includes the origins of these secrets, how to trade, there are records. There are many insiders, even you don’t know!”

After seeing the things in the hands of Shen Lang, Xia Yuntian’s face has changed.

If you hear the words of Shen Lang, you can't calm down. If you can't bring this thing back, Shen Lang will announce it, perhaps the blow to the Master League is bigger than the destruction of the Tang Garden!

"Do you dare to say that I am falling? Do you believe that I will disclose it directly?"

Xia Yuntian was stared at by everyone at this time, and could not ask for it. It was only his own judgment and decision.

"What do you want?"

"Just open from you!"

Shen Lang took a picture of the book. "This is the book of Tang Banshan about your Master League headquarters, some secret transactions, and records of various major events. If you don't want to fall into the hands of others, or don't want to be public, Baizhong Lingshi buy it back!"

"Shameless! This is the master of the Mid-Levels. It belongs to our Master League. You have robbed us of things, and we have to buy them back at a high price. How can this be the case?"

The other person immediately called, and the other one followed suit to expand the momentum.

"Don't let him go! He steals the secrets of the various factions, and then buys them back at a high price. Is there such a cheap thing? We should unite to get rid of such a cancer scum!"

These two were stunned by Shen Lang and grabbed the storage bag. He was still very resentful.

"It seems that you can't do the Lord, then I will be cheaper, as a booster, and I will expose the Master League for a while!"

Shen Lang opened the book.

"Wait! We buy!"

Xia Yuntian has dealt with Shen Lang several times, knowing that this style is absolutely geese. If you don't give Lingshi, you are going to go back.

“Very good, thank you for the blessings of these two colleagues. Now it is two hundred medium spirits.”

When I heard this, the other one immediately roared: “You, he...”

“Shut up!” Xia Yuntian quickly stopped him.

“Hey! Continue to swear, you yell at me, provoke everyone to move me, this is all price, 骂加加加加加。。。。If you don't mind it at all, I don't mind losing a little Lingshi to announce it.”

Shen Lang looked at them coldly.

Xia Yuntian secretly smiled, and knew that he should have promised immediately, but it was cheaper.

In fact, he can still accept the one hundred Lingshi. At the beginning, they redeemed the two of them on the Hanging Island.

Now it has become two hundred, and it hurts a lot.

But he still decisively recognized it, or else according to the style of Shen Lang, it will be three hundred.

Once again, Xia Yuntian asked everyone to join in the Lingshi. Like the previous Shenlang's appearance fee, they collected two hundred medium-spirited stones and directly threw them up.

Shen Lang did not have any martyrdom. After checking and confirming, he threw the book back to Xia Yuntian.

This transaction, by itself, is equivalent to indirectly admitting that Shen Lang's materials are all obtained from Tang Banshan. After all, the major sects will definitely make trouble, and when they leave, they may not have gone!

So everyone will be suspicious, and when they have not started selling, they immediately left the resort with others.

They all looked at the words and looked at the confrontation between Xia Yuntian and Shen Lang. In the end, they had to smash two hundred medium spirit stones, bought the book, and then quickly left.

Everyone realizes that this is true!

Let the original luck, sink into my heart.

Now I am lucky, I hope there is no secret of my own.

“The Master League has bought it, and the rest of the secrets are the secrets of the dozens of sects they have collected by various means. This is equal to your core and has been caught by others!”

Shen Lang shook hands and a box appeared on the table.

“If I am really a traitor like the Masters League, I will not be vocal, just ask you for extortion, or directly to crack you and make you a mess.”

“But... no matter how others demonize me, I am actually a good person. So I chose the open way also proved that I will not stay at the end...”

His words have not been finished, and some people screamed.

“If you are really a good person, you should return it to the factions! Will the good guys scream for money? Don’t give gold to your face!”

Shen Lang’s gaze immediately locked him: “Which martial art are you? I can’t earn your money!”

“...” The man didn’t dare to scream.

“This is what I got in exchange for, why can’t I return? Or do you think that the secret of your teacher’s door is rubbish, worthless?”

In the words of Shen Lang, let the person bow his head and dare not speak.

But of course, this is to use the title, to let all those who have such a thought to die.

Otherwise, many people will have all kinds of wonders: I am a victim of the weak, you will not give it back to me in vain, you will be unscrupulous! We have many people, we represent justice, and if you don’t take it out, you are the enemy of the whole world...

After pressing down everyone’s momentum, someone asked weakly.

“Master Shen, can you tell me which specific martial art? How many Lingshi have been bought back, give us a preparation time?”

What he said is justified, but Shen Lang is still not polite to him.

“When you come here, I will be ready for you! With your busy mind, don’t say I didn’t give you time! As for the price...”

Shen Lang picked up a secret.

“You have just heard the price I sold to the Master League, the medium Lingshi, the price of one hundred, the counter-offer, the swearing, one plus fifty. As for everyone, since I am kind, of course not expensive. Can prove that If you are a teacher, take thirty. Otherwise, you will get the price!”

Chapter 578 - Huge harvest

Everyone really saw the price of the Master League before, from one hundred to two hundred...

Some people recognize them, and the enemies of the Masters Alliance and Shen Lang are well known. This is naturally not the childcare that Shen Lang is looking for.

So the price is very clear, want to counter-offer, or save it!

The gap is a comparison.

The secret that would have allowed them to buy their own 30 medium spirits would be too bad. It's not the secret that is not worth the price, but it is too wrong.

But now there are two hundred medium-spirited stones in the Master League, and thirty is too much to accept.

Shen Lang directly shows the secret cover in the hand.

"Come on! You can recognize it, you can also inquire about each other and see who it is. If you don't believe it, you can come up with a spiritual stone and give you the opportunity to verify."

Everyone is a self-cultivator, and their eyesight is very good. Even if they are far away, they can see the words on the cover.

In fact, there is no need to recognize it. There are small characters on it that indicate what martial art and family are.

"Treading the horse! Hehe..."

Shen Lang let everyone laugh after reading it.

"Maybe some friends know that I have a grudge with the horses. They have been conspiring to get through me, but... since they are sold publicly today, private grievances are not mentioned."

Shen Lang raised the secret of his hand. "Don't waste everyone's time. Is there anyone at the stage who is at the stage?"

Of course, there are also people on the scene who are parting the horse. It is Ma Shibin who used to deal with Shen Lang with Xie.

I just saw the first secret, that is, they stepped on the horse, he has been unlucky in his heart.

If it is mixed in the middle, he may still be able to mix, this is the first appearance, Shen Lang must remember him!

Compared with Shen Lang, he is more humiliating. He is more worried that Shen Lang will not sell his secrets to him, but will study the secrets. When the time comes to the horse, he will be in trouble...

Now that he heard Shen Lang say so, he is still not at ease.

“Forty or fifty secrets, one minute is almost an hour, and some may need to bid. In order to save everyone’s time, I am going all the time. If there is no one in the horse, then see who wants this. Secret?”

As soon as I heard Shen Lang’s bid to bid on the secrets of the Tamar, Ma Shibin ignored it and quickly jumped up.

“it’s here!”

As he said, he slowly flew to the stage. I dare not fly too fast, I am afraid of Shen Lang when he is a sneak attacker and shoot him!

At the beginning of the Thousand Grotto Temple, he saw Shen Lang killing Xu Yangzi.

“Master Shen Lang, can you let me see it first?”

Ma Shibin smacked his scalp and bowed slightly to Shen Lang to show respect.

“Of course.” Shen Lang directly threw it at him.

“This... there is indeed something that is our stepping horse, but it is not a complete secret...”

Ma Shibin quickly flipped through and made a judgment in his mouth.

“OK! Not so much time nonsense, if you don’t want it, go on! I see if there are other sects...”

Ma Shibin secretly complained that he had said this, thinking that the Master League may have leaked the secret. So deliberately saying that this is the secret of incompleteness, people do not know the depth, even if they get it, they will not go to practice.

It is a pity that Shen Lang does not give him these time, directly: buy it, don't leave!

In order not to be bought by other sects, he can only say quickly.

“Yes! Although it is not complete, it can't be leaked. I bought it!”

Ma Shibin bit his teeth and began to lick thirty medium spirit stones to Shen Lang.

When he got a loss, he still had a little preparation for the unexpected, or else he couldn't get the stone.

After the deal was successful, he decisively went on.

The secret is leaking things, looking for the master league to settle accounts.

However, what strength does the Tamar have to call the Master League?

Originally, he and Ximen Feng were enemies with Shen Lang. Now they can only hope that Shen Lang can find trouble with the Master League and indirectly avenge them.

It is ironic to think about it.

Someone started, and everyone else was well prepared for the spiritual stone.

Moreover, the Puma School has a grudge with Shen Lang, and the matter in Tiandong has also caused widespread concern and is found.

This also increases the credibility and allows others to believe in the waves.

The back of the secret repurchase is almost fast, basically just come out, the relevant martial art are ready for Lingshi, quickly on the stage to buy quickly.

Forty-five martial arts families, all of whom were on the scene, all bought one by one.

They feel very unfortunate and feel lucky that if they are not here today and bought by others, it is not a problem with more flowers.

In the back, everyone counted the accounts of Shen Lang. Although they were all sold by 30 Lingshi, all of them were added up to 1,350. Together with the 200 of the Masters League, this is one. Thousands and fiftys!

This makes everyone's eyes red, but also have to admire the waves.

In the rich and the dangerous, the income of the light is that the wealth accumulated by many ancestors has not matched.

Of course, it is inevitable that there is also a guilty heart.

More than 1,500 medium spirit stones, such a huge number of spiritual stones, enough to make people risk their lives.

But blame, the reality is still cruel!

Those who think about the idea of playing the waves, from the Chu family, Xie family, do not say, said that in the past six months, from Yuwenba to Tang Banshan, what is the end?

The end of the Tang Mid-Levels is enough to make them discouraged!

If you dare to risk your life, you must have a glimmer of hope. It does not mean that you are willing to die.

The real world has not been reached, just think about it Where to dare to think.

What is true is that there is more experience, and it is even more dare to act rashly. Unless you reach the peak of the real world!

But how many of the summits are there? To reach the peak of the true state of the earth, in the Master League is also the level of the master, but also will risk the reputation and life double risk?

This is a real problem, but Shen Lang still has to guard against it!

After the sale was over, he not only stayed in the middle of the Liu Lingfeng, but did not stop and went straight.

Did not leave from the main entrance, but found a corner, directly using the cloud disc, with Zheng Yumeng quickly left.

The wind did not come over, but just talked to Shen Lang on the phone.

Jokingly said that it is too easy for him to make money. The Lingshi that he gave before will not be polite with him.

Falling rain is reminding him to be cautious, and this wealth is too white.

Back at the hotel, Shen Lang is also on guard.

After counting the harvest, Shen Lang himself is a bit awkward, and the bracelets of Tang Banshan still bring huge gains.

There are two thousand medium-spirited stones in the light, plus this one thousand and five hundred, plus the previous ones, in addition to the spiritual stone of Jianzong, Fengjiji, etc., there are also nearly 5,000 medium-spirited bodies. !

Who can think of it, two and a half years ago, he is still guilty for a primary stone!

Now he is of course a medium-spirited stone, and it is only used for gifts and hard currency transactions. The ten fine stones are used for cultivation.

The absorption speed of the superior Lingshi and the energy of the Lingshi contained are not comparable to the medium Lingshi.

When sorting out a bunch of Lingshi, I found that there is a box in the bracelet that I didn't open before, not too big, but it looks very solid.

Chapter 579 - Distribution entanglement

Take this box out and look at it, and Shen Lang will be dumbfounded.

Hey! what is this!

In this box, there are five inner altars!

This is another huge collection. According to the price of the inner one that was auctioned by Nanyiye last time, the value of these five is able to reach two thousand medium spirits.

Of course, it is not necessarily the case, the auction price will be higher, the transaction will be reduced, and the price will be reduced. There is also a difference between Nedan and Nedan.

But in any case, these values are no less than 1,500 medium-spirited stones.

The key is that Nedan has no market price!

Like Lingshi, just one sect sent out thirty, and dozens of martial arts added up. But Nedan's words did not have to be combined.

Looking at five valuable Neydan, Shen Lang fell into thought.

Before Tang Banshan wanted to plunder him, in addition to Lingshi, it is very important to know that he hunted two huge beasts and smashed the two inner dans.

Shen Lang thought that he wanted to attack the gods and take risks. Now, watching him collect so many inners, there should be another reason.

Reminiscent of the original Yuwenba also has one, what is the situation?

Is the Master League collecting Nedan for the lord?

Or where they can find the beasts and beasts, and Nedan is also their resource. For example, sold to the inner one of the South One, perhaps they released it.

Otherwise, the Masters Alliance can buy it first, and it won't appear in the auction items.

Now that Yuwenba is dead, Tang Banshan is also dead.

The remaining supervisors and law enforcement elders will certainly not tell him these secrets, not to mention the lords.

It seems that this secret can only be pressed first.

But no matter what, now these five Nedan are in his hands!

Shen Lang will check this bracelet space today, just to find some useful resources. Compared with Dan Medicine and Lingshi, Nei Dan is the best!

Now that Nei Dan has it, it is a bit tangled to whom.

From a relationship point of view, it is no problem to give Zheng Yumeng and Luo Yuyi, but both of them have just broken through to the end of the real world, and it is very difficult to break through to the peak.

Besides, the continuous rapid advancement of too short a time does not consolidate enough foundations, and it is also easy to cause deviations in the foundation.

In addition, it is also possible to use the high and the sacred, and basically the same problem, two people have only broken through.

But if you really want to count it, it is more appropriate. When Qiangjialing was just back, he had already reached the end of the real life, and now it has been almost half a year.

In the past six months, the loyalty of the sacred sacredness has withstood the test. After they believed that he was the reincarnation of the cold autumn, they all became very loyal.

In the case of the enemies of the Master League, the other side has a lord of the realm of the gods. After Tang Banshan, there are two masters of the peak period.

If the sacred sacred can advance to the peak period, the strength of the Tianshan Jianzong will keep up, and Shenlang has no worries, as long as the original plan is prepared and dealt with the ally.

He himself also had the same problem. In Qingchuan, relying on the marrow fluid of the giant rhinoceros beast and Nedan completely refining, the “Yin and Yang Bo Ruozhen” broke through to the fifth weight and the strength increased greatly.

The injury went back to retreat, relying on a large number of Lingquan, plus the inner dragon of the giant tortoise. Let him reach the peak of the real world, and it is the peak of the peak, and it is a step away from the realm of the gods.

But this is almost the limit. In a short time, he wants to break through the realm of the gods, or break through the sixth weight of the “Yin and Yang Bo Ruozhen”, it is impossible.

There are not enough people available!

A loyal and reliable person should cultivate more!

Dorothy certainly has no problem, but her system is different. Shen Lang wants to see her and see her situation before deciding how to arrange.

More people... There are a few faces in Shen Lang's mind.

Falling in a canoe, falling river, no wind!

From Zheng Yumeng, Falling Rain, to Bihaihuan, Dorothy, and a few that have just been considered, they are all women.

This is not because Shen Lang is distinguished by the beauty of the color – Luohe is a grandmother who falls into the rain, but in general, women are better controlled and loyalty will be higher.

Relatively speaking, men's ambitions will be even bigger!

The most obvious is like the sacred sacred. After he reached the end of the real world, he wanted to force the palace to seize power.

Shen Lang can conquer him. In addition to his interests and abilities, he still thinks that he is the relationship of the reincarnation of the cold and autumn. Otherwise, God knows that they will not be countered after they have recovered their interests.

Of course, he also knows that there is no absolute loyalty, that he must be envied and he must be strong enough. If the strength of the two sides is not equal, the relationship will naturally be reversed.

It's even more impossible for him to use it for him. It's good to be a friend of cooperation. It's all about keeping one more eye.

From the present point of view, people are capable, and they have the heart of gratitude and can be cultivated.

Falling rivers and falling canals seem to be known for a long time, and the relationship is deeper, but actually it is even harder Because they are – ambitious!

They shoulder the responsibility of the Ice Palace, which is the ambition that has to be picked up. So accepting the benefits of resources is of course a pleasure. But to follow the Shenlang and the Master Alliance, you may not be able to do it.

That is not the personal will, they must consider whether the Ice Palace will be destroyed!

However, for the time being, the choice of Shen Lang is limited, and they can only consider them and look at it.

There is no way to fall into the canoe, but the river is in the late stage of the real life. She gave up the impact behind, and everything was used to cultivate the rain. If you give her enough resources, it is still possible to go to the peak period in a short time.

They will all come back here, Dorothy also told her about the hotel and will come over.

Shen Lang is now sending a message to the wind, and let her come back to the hotel.

At this time, Joe's phone call came, about dinner with Shen Lang, and Nan Yiye, everyone just talked about things.

Shen Lang had to discuss with them three waves at night, including "checking the body", there is no time to go eat with them.

But when he had not refused, Qiao Shuyu said that they were on the way to his hotel. They had already booked at the hotel restaurant and tried not to waste his time.

People's sons are like this, and Shen Lang can't make any more noise. It can only be promised.

Then he asked, would you like to bring the rain to the rain?

This made Joe Shuyu a little embarrassed, saying that he still didn't want to, and they talked about things first. There is still time after eating, you can drink something or something.

Talking about things, just to go to the dead forest?

Thinking of the South Leaf, Shen Lang thought about it, first made some preparations.

Chapter 580

When I saw Qiao Shuyu and Nan Yiye in the private room, both of them were amazed at Shen Lang.

“Shen brother, you are really a god! This will allow you to get a pen.”

“That is, if it is my words, even if it falls into my hands, I will never think of such a big sale.”

Shen Lang smiled and said: “Yes, I made a fortune. I will come and please.”

Both Qiao Yu and Nan Yiye said with a smile, in their capacity, of course, who pays the bill is nothing.

However, it is obvious that they have other attempts, not a meal to solve.

“That... Shen brothers, your secrets are from the collections of Tang Banshan, I don't know...”

Looking at the South Yiye's words and words, Qiao Shuyu helped him to say it.

“There is definitely a lot of other good things in the collection of Tang Banshan?”

Then he laughed again: “Reassured! This is what you exchanged for, we will not be brazen to say that the person has a share. The meaning of the South brother, or that, would like to ask if there is a Nedan inside. ”

Nan Yiye is also a sincere face. “After the last time, I believe that you also understand that our family urgently needs Nedan. It is not enough for the one that was obtained last time. So... I don't know if there is, if there is, Can you transfer it to me, the price is good!”

Shen Lang has already guessed that he will have this idea and he has already prepared.

“To be honest, I am not optimistic about the situation. The ally of the Masters Alliance may come to me at any time. It is said that they still have two levels and Tang Banshan. Therefore, I also urgently need Nedan to improve my strength, including several elders of the sword. Strength.”

The words of Shen Lang make it difficult for Nanyiye to disappoint the disappointment.

Before Qingchuan City, Nanyiye was the first to leave, and then Shenlang and his party left Xigui immediately, so that he would not ask for an inquiry.

It is not clear at the back that Shen Lang has not received the collection of Tang Banshan. This time I would like to find a chance to ask.

The sale in the afternoon just happened to have an entry point. It can be said that Shen Lang is now saying that there is a Nedan, but he has already expressed his unwilling attitude.

If Shen Lang is unwilling, he is not easy to force, and does not say that it has destroyed the friendly relationship. It is really impossible for the Nantian family to start, and it may not be able to win!

Qiao Shuyu is also a little anxious next to him, thinking that Shen Lang will be as happy as the ups and downs.

But he can't say anything. The last time it wasn't falling out with Tang Banshan, the current environment is really different.

"However, I am also feeling the urgent need of the South Brother. Since the Nantian family is in desperate need, as a friend, I will let it out!"

This wave of Shen Lang makes Nanyi Ye happy!

"Shen brother, you are really too interesting! Let me... make me really touched!"

It is related to the Nedan he urgently needs, so there is no humility.

Qiao Shuyu is also happy to breathe a sigh of relief. "Shen brothers, in fact, there is a master alliance. If we join forces with Nantian family, if we exert influence, it should be..."

"no no!"

Shen Lang interrupted his words, and he said: "Just like that... I am willing to let it out because the South Brother is really more urgent than I am. As a friend, I think I should do this."

Qiao Shuyu can understand what he said “that”, that is, to exchange the sword with the sword to them.

“But if I give up the purpose of Nei Dan, so that you can help me to defeat the enemy of the Master League, that is not enough for me. It is a robbery, it has been exchanged fairly, and it does not owe me anything.”

Nan Yiye erected a thumb: “Shen brothers really man!”

He sighed: “Honestly, if I said that I can help you get the ally, it is also bragging. I am sure not, I may not be able to influence the family to make this decision, so... you really have this request, I also I can’t guarantee it, I can only try my best.”

“But you are too interesting! I would rather solve all the problems myself, not willing to give trouble to my friends, let me admire and swear!”

Shen Lang smiled and said: “Oh! It’s a good time to get back to life. We only got to know it last time. Now we have more contacts. We can learn more about each other and don’t need each other.”

Then he took out a box and placed it on the table in front of him.

Nan Yiye wants to make himself feel a little calmer, but in fact he is still breathing fast.

The eyes of Qiao Shuyu are also staring at this box, which is another inner Dan!

Shen Lang said earnestly: “The last time you asked me about the inner beast of the fierce beast in Qiangjialing, I was really gone, not reluctant. Now, it is also really in the collection of Tang Banshan, so...”

After he finished speaking, he opened the box and showed them to them.

Even if she was psychologically prepared, Nan Yiye and Qiao Shuyu took a deep breath and their eyes shined.

“There are two!”

“Shen brother!” Nan Yiye came over to the front of the waves, excitedly holding his hand.

“This thing only you know, if you only say one, we are not clear. And you continue Let me one, leaving one is also a matter of course. But you still want to come out together It’s too derogatory!”

Shen Lang nodded: “Nan brother, you are my friend. Since I have it here, I don’t want you to look around again. Although I don’t know the situation clearly, I can see that one is not enough. So these two. Take it, take it!”

“I represent the Nantian family, thank you!”

Nan Yiye let go of Shen Lang’s hand and stepped back a little. He came seriously with a 90-degree squat.

“Southern brother is polite!” Shen Lang was busy helping him: “I am not generous to give you, exchange is fair, why should such a big gift.”

“Yes, it should be, you have helped us a lot!”

It seems that the last one of Nedan, together with these two Nei Dan, has already satisfied the Nantian family.

“Right, I am not polite with you, I began to ask for my request.” Shen Lang laughed.

“Please say.” Nan Yiye said busy.

The two inner dans are worth a lot of money. According to the last price, they are also eight hundred medium spirits. This is something that has no price and no market. It is also a big deal, and it is a bit confusing.

“Isn’t I got a lot of Lingshi today? Plus there is a bit in the collection of Tang Banshan, so I don’t need to be in Lingshi. I am also idle for my Lingshi, I am still so young, impossible. Think for future generations!”

“I understand!” Nan Yiye nodded immediately. “That way! I will discuss with the family and exchange other equivalents for exchange. If you are not satisfied, we will change!”

Shen Lang did not know whether Qiao Shuyu had exchanged the words of Qiao Zhantian with the sword of Nanxian, but Nanyiye was also proficient in the world and understood what he needed.
