

First Strong 581

Chapter 581 - Magic weapon

Nan Yiye immediately went out to call.

At this time, Qiao Shuyu gave a thumbs up to Shen Lang.

“Shen Lang, this time down, I have added another layer to your admiration. I have to admit that you are really different. I thought I looked down on you, haha, now I think about it!”

Shen Lang smiled and said: “Are you really sincere? It seems a bit sad.”

“Of course the truth, how sad?” Joe Shu Yu puzzled.

“This time, Joe wants to marry the sword, I gave up the sword. When the South wants Nedan, I gave up Nedan. The performance seems very obedient, so you think I am different. If not Obedient, hehe...”

Qiao Shuyu frowned.

“Who do you think of me? Just like you said it yourself, you will let the sword go out because the uncle’s sincerity touched you. It will give up the inner Dan, also because of the South Brother. I don’t think you are afraid. Powerful people!”

“Just kidding. What is your admiration for me?” Shen Lang asked with a smile.

They are still not familiar with the jokes that can be used without any scruples. The words of Shen Lang have made Joe Shuyu serious.

“My admiration is your generosity! In the realm of comprehension, everyone knows the rare resources. Just like you made a lot of more than a thousand Lingshi today, you may not be able to buy a Nei Dan, a magic weapon. “”

“Zhu Xianjian and Nei Dan, for you, are more important than Lingshi. If you are afraid, it will be over. You are not afraid of Joe and South, so you can make such a decision, especially rare!”

“I admire myself too, haha! But I am a blessing, I believe I can get better.”

Shen Lang smiled and then opened the subject: “What do you think of Nantian family, what kind of things will be exchanged?”

Qiao Shuyu frowned slightly, then shook his head: “I can’t be sure. After all, it’s related to people’s secrets. I don’t know how to ask. And now it’s not the Nanxi can decide, depends on the importance of their family.”

Shen Lang is a bit speechless. Doesn’t that mean nothing?

However, it makes sense to think about it. If you change it to South Yiye, you won’t know the decision of Qiao’s family. Even Joe Biao Yu himself, it is not clear how many chips Joe has won.

After a chat for a while, Nan Yiye came back.

His look was a little excited and he should have gotten a pretty good license.

“Shen Langxiong, you have a grudge with the Master League now. I guess the most needed weapon is a weapon like a magic weapon, so I responded to the family.”

“Our family is very happy that you are willing to give up two inner dans, and let me express my gratitude on behalf of the family.”

“In terms of magic weapons, we have a few things that can be used to make you choose. But I am not taking it with me. I will send photos later, I will tell you more.”

He said excitedly, but Shen Lang shook his head.

“The magic weapon is all right.”

This is said, let the south one who is going to continue to talk about it.

The South is willing to come up with a magic weapon to change, Shen Lang actually do not want?

Qiao Shuyu also stunned. If the magic weapon is not needed, what does he want? That should be something more valuable than the magic weapon?

I thought about this before Shen Lang came over, of course, I was prepared.

The collection of Nantian family is definitely higher than the magic weapon of Chu Mofeng's collection, and the higher the level of the magic weapon, the more the treasure of the town.

Even if they have more than one magic weapon in their home, they will never be sent out easily.

Like Nei Dan, the magic weapon is also priceless and market-free, not to mention the high-level magic weapon.

Moreover, Nei Dan is a one-time consumable. If it is used up, it will be gone. The magic weapon is used well, and it can be passed down.

The most important thing is that, as they can go to the dead forest, and understand the range of activities of some beasts, it is necessary to use the advanced magic weapon to gain more inner alchemy!

Therefore, it is impossible for the South to use the treasure to change the inner Dan, or to be willing to take it out. It is a magic weapon with a low level.

The opportunity is such a thing, they have exchanged two Nei Dan, and Shen Lang certainly does not want to have some relatively low-level magic weapons.

Already prepared, now decisively refused!

“The magic weapon may be even more rare than the inner dan, let you use the treasure to change the inner dan, I am still too cheap, so forget it. Or change the other!”

The magic weapon refused, so they had to serve two, and they couldn't do it.

The excitement of Nanyiye was not because he wanted to send out the magic weapon, but because he felt that the family had enough weight to exchange items, so that he also had face.

Of course, because the magic weapon belongs to the family, if he is personal, he will certainly be reluctant.

I didn't expect Shen Lang to be so atmospheric!

"Shen brother, you are like this... let us feel so good! In fact, even if it is a magic weapon, it will not be anything to help you with our timely rain."

Nan Yiye was moved.

Shen Lang smiled a little and pretended to be a force: "The magic weapon! What is the comparison with the friend's sentiment?"

This made Nan Yiye and Qiao Shuyu really ashamed.

Friends love! For the sake of friends, people can pay for anything!

Qiao Shuyu immediately understood that Shen Lang said that he was looking at his uncle's sincerity, but he still looked at his friend's face!

They are embarrassed because they did not pay attention to this level at all. After all, it was only a few times.

But at this moment, their good feelings for Shen Lang are rapidly rising.

Shen Lang repeatedly stressed that it should be to prove to them that it is not to tie up their family, but to really regard them as friends!

Shen Lang sighed, half-truthed and said: “I don’t have many friends, so I value it very much. Others think that I am all bad, but I ask myself to be good to my friends.”

The two of them are also nodding their faces. These two times, they have already felt it.

“Haha, don’t say these lyrical words. Nan brother, you think about it, you have nothing to say to you, but it may be useful to me. As for Nedan, you must hold it first!”

There is no need to wait until the first hand delivers the money, and Shen Lang first pushes two Lingshi to the front of Nanyiye.

This made two people secretly admire, the two inner Danes are worth at least seven hundred and eight hundred spirit stones, but the Shen Lang can not look at the eyes, not afraid that the South Yiye will disappear, and make friends to achieve a high degree of sincerity!

“Good! I will respond to the family. Please believe in the reputation of our Nantian family. You are thinking about it for us, and we will not let you suffer.”

South Yiye seriously guarantees Qiao Shuyu gently applauds next to him: “Yes! The magic weapon is also very important to the South. The sinking brother may not be the most needed. If there is more suitable for him, it will be true. valuable.”

He thought of the Ju Yue sword and the cloud disc that he gave himself, and he also admired the uncle Joe.

Even if the Juyue Sword is not as good as the Sui Sword, for the Shenlang of the Tianshan Swords, there is still an alternative hand weapon. The cloud disc is the magic weapon that he can use and can play a big role.

No wonder it can be accepted happily.

This is a win-win situation!

Chapter 582 - Create a master

After that, they discussed the matter of going to the dead forest after the Mid-Autumn Festival. The time of the specific meeting was discussed.

For Nanyiye, this trip has unexpected surprises. There are many monks here, and there are many nights and dreams. After eating, I will leave soon. I should go home immediately.

As for the reward for Shen Lang, he will definitely not be reluctant. Even if you don't have time to see you again, you will take the dead forest.

With Joe Yu Yu left, I thought about whether to drink something with the canoe.

But he was a little embarrassed, so he went back first.

After sending him away, Shen Lang returned to the upper floor.

He already knows on WeChat that the three icebergs have not yet returned, because they have to participate in some banquet entertainment.

Dorothy and Fengji, who are centered on Shenlang, have of course heard the call and arrived at the hotel.

However, because Shen Lang and Qiao Shuyu had dinner, Zheng Yumeng had hosted them, and they sent food to the guest room.

In order not to let the Shenlang room taste, they ate in the room of Zheng Yumeng.

The three of them talked together easily, because only Zheng Yumeng's relationship with Shen Lang is not normal. Dorothy is willing to be a servant, and Feng Jiji is keeping friends and bosses.

Zheng Yumeng is a good person to get along with. He can see more things about Shen Lang. There is no arrogance, so the three people get along well.

It's just a little strange, because it's very unfriendly when Zheng Yumeng's attitude to the wind is not met.

However, from the beginning of the Chinese New Year, when they were overseas, they also came into contact with it. They were very familiar with Zheng Yumeng. They found that she was a little “two sides”. She did not think about double personality, and she thought that she would sometimes be more serious.

And this time before she saw Zheng Yumeng, Zheng Yumeng and Feng Wuji had seen it in Qingchuan. It was something she didn't know and didn't doubt.

When Shen Lang came back, he immediately went to his room.

Shen Lang so officially gathered three of them in the guest room, it seems more formal, everyone is slightly cautious.

However, under such circumstances, he would not think that he wants to have a four-person job.

“My current situation, you are also clear, and you are also the person I trust, and the people who will be hurt, so I want to improve your strength!”

Shen Lang went straight into the knife and directly explained the purpose.

For those who want to improve their strength, no one will resist it. After hearing it, they will all be bright.

“Little Dream and Dorothy go to another room first, be cautious, and help me to pay attention to the surrounding environment. Fengjie will come first.”

“Yes.”

“Ok.”

Dorothy and Zheng Yumeng immediately agreed, and then they went out.

Before going out, Zheng Yumeng also stunned Shen Lang, a hint that he could seize something to seize something.

“Sit. Tell me what you are doing now!”

Shen Lang did not waste time. The reason why she chose Feng Jiji was because she had more personal arrangements.

Feng Wuji is also not polite, after sitting down, she directly confessed her strength.

“When you first saw me, I was in the early days of the real world. I came back from Qiangjialing and helped Shuiyuedong Tianzhuoyuan to hunt a flying beast and got some phoenix. After I came back, Breaking through the middle of the real world.”

This is similar to the impression of Shen Lang. The first time, I knew she was already a master.

However, she later broke through the middle of the real world, but did not pay attention to it. After all, her figure is too dazzling, not good to stare at observation.

“Not bad!”

It takes a lot of time for her to cope with the situation. It is already very good to find ways to get resources and to cultivate to this extent.

For example, the conditions are much better than her, and it is similar to her age, but it is only in the early days of existence.

“Returning from Qiangjialing... It’s almost half a year. If I give you enough resources, do you have the confidence to break through the real situation?”

The wind did not shine before the eyes, a firm nod: “Yes! There are enough resources, I can pay double efforts, will succeed!”

Shen Lang can now treat her like this. She really regards her as her own. It has just been proved, and she is juxtaposed with Dorothy and Zheng Yumeng.

Therefore, she did not have any more concessions, or humbly to quit, but decided not to let him down, and in the days that followed, the powder was broken.

Shen Lang listened but shook his head. "I don't want you to succeed. I am talking about... There is no confidence here, just in this room, breaking through tonight!"

"...!"

This time, the wind is really a big eyes.

After watching it for a while, seeing him did not make a joke, only asked weakly.

"You... I shouldn't have such a good talent. After all, I've been less than half a year..."

"This one!"

Shen Lang took out an inner Dan.

Letting go out to two inners, it is not just friendship, but a big man, and maybe it can be exchanged for something useful.

But the premise is that he still has three, or else, even if it is the human condition of the Nantian family, he will not do it. Just like the inner giant of the giant tortoise before, it is impossible to give.

Looking at Nei Dan, the wind couldn't help but breathe and became rushed to make the waves in front of the body obviously ups and downs.

"You... want to give this inner dan to me?"

The last time I was in Tangyuan, she was at the side of Shenlang, and the price of the 410-year-old Zhongdan was auctioned, but I remember it clearly.

Regardless of how Shen Lang came from, this value does not differ too much.

This precious level is ten times more than the reward for ten medium-spirited stones before!

“I... no, it's too expensive...”

“I asked if you have confidence?” Shen Lang solemnly asked, “If you don't have this motivation, you don't have confidence, you waste it, then it's really not worth it. If you have it, it's worth it!”

The wind is full of breath, but even so, it is difficult to calm down, can not help but stretched out and patted the chest, let yourself calm down.

The swaying arc of the slap is also particularly attractive, so that Shen Lang must not pay attention.

“I have got!”

In the few seconds that the wind has been calm, the wind has flashed a lot of thoughts in his mind.

This is the chance that there is no such store after this village!

Will this be a test of Shen Lang?

Whether it is really to make her, or a test, she can not deny!

Otherwise, in the future, it will help to collect a bit of information and articles, and run the errands. It is impossible to follow him more closely.

She has already identified Shen Lang as an expensive person worthy of her follow-up, and today she has once again proved her concern.

If she misses it, she will regret it for a lifetime.

So I firmly agreed.

“Good! It's yours. Start preparing now, I will protect the law for you personally. When necessary, I will help you, you will be the time of this night!”

Chapter 583 - The realm of Dorothy

The wind has no chance to be overwhelmed by happiness!

I thought this might be a test, test her for her determination, ambition, and the like. I didn't expect to actually give this one to her!

This is a resource worth hundreds of medium spirits!

This is something that Nantian family has been searching for!

“Good! I will finish it!”

Since this is already the case, the wind has no way to let himself break through the boat, and it must be successful in the late stage of the real life. Otherwise, I am sorry for the waves.

Shen Lang immediately arranged an isolation method in the room, and then let her start swallowing Nedan to refine.

At the same time, she also prepared a cup of Lingquan with a cup of tea, which can have a good auxiliary effect.

Feng Wuji immediately entered the state, only one night at a time, that is, every minute and every second can not be wasted.

After she has entered the cultivation, Shen Lang's voice has brought Dorothy over, and Zheng Yumeng has played a good role.

After Dorothy came in, she saw that the wind was not in the state of cultivation, and did not ask much.

“Master, I haven't seen you for a long time, Dorothy misses you.”

During the day, the resort was in front of many people. It was not convenient to talk. Just two of them were there. Now they are two of them. She immediately took the time to express her thoughts.

I don't know if it is a loyalty.

Shen Lang smiled and said: "Let's say, how much progress have you made in the first half of the year."

After Qiangjialing, she sent her back.

At that time, someone discovered that she was a vampire. He said that he didn't care if he colluded with the alien evil spirits. But if he hunted Dorothy in the name of the right way, he couldn't protect him and go back to her place to be safer.

"The blood is so good, I am evolving almost every day..."

It was said that Dorothy couldn't help but stick out her tongue and lick her lips, as if there was blood on the lips.

When she was in the temple of Thousand Grottoes, she couldn't help but ***** all the blood of Xu Yangzi who had killed the smashing waves. Anyway, she was dead, don't waste it!

And more importantly, it is the blood of the giant rhinoceros!

From the level, it is not inferior to the gold giants that Count Dracula has kept for many years, and the amount of blood is much more.

At that time, she took out the water and condensed it into blood beads, which also made her almost full.

Vampires and humans have different ways of cultivation. After they are absorbed, they can evolve anywhere, anytime, anywhere.

And Dorothy, who has died once, is no longer like the past. The desire for power has reached a peak, and it has the power to control his own life!

Followed by Shen Lang's observations in the city's watersheds, it has greatly broadened her worldview and will not be satisfied because she is the strongest on a site.

Therefore, in this small half year, she is equal to retreating every day.

This time, the exchange of truth is also because her family is a member of the bat club. She took over Nicholas and must bring people to participate.

In addition, the super-powerful of the Kostina family was conquered by Shen Lang, and she was also in charge of her.

The dual identity has made her a big fan, even if she is young, she will be questioned, and she is also invited as an important representative.

This is also why in the Jinlongwan Resort, she directly took the superpower to fly, and the other party did not dare to anger.

If this is not the case, she will only fly when she gets the call of Shen Lang.

"Are all the blood you have absorbed?" Shen Lang was a little surprised.

However, it is normal to think again. The Lingquan of the Master League does not know how many years have survived. Relatively speaking, it is also a huge amount that is not dare to use, but he is not rude, and refining most of the night!

"Well. Thanks to the master's care, after absorbing these blood, Dorothy has evolved to a higher level."

"Well, your specific situation, you don't need to explain it to me. Just say, what level of superpower you are now!"

Speaking in her mouth, Shen Lang's heart is guilty. Who is stronger than her Count Dracula?

At the beginning, Dracula was able to abuse him at a speed. Although he was limited in strength at that time, Dracula also absorbed all the blood of the golden giant!

“I haven’t tried it with people, and I haven’t seen a strong enough superpower, but I guess it should be comparable to the A++ superman.”

A++!

According to their A-level superpowers, A- is the initial stage, A is the middle stage, A+ is the late stage, and A++ is the equivalent of the real world!

And listening to Dorothy’s tone is still a bit conservative, so as not to be considered as bragging.

“very good!”

After Shen Lang listened, I was in a good mood.

Originally, he himself was confident to do something with the ally. It is not difficult to have a high-street field and other people in the other side of the squad. This is also the enthusiasm he has always refused.

Today, I can learn from Feng Youji that there is also a law enforcement elder in the Master League, and a supervisory commander should be the strength of the real world.

In this way, the strength of one’s own side is not enough.

He thought about going back to the sacred sacred sacred sacred to the peak of the real world, but it was still not enough, so it would be cheap to see if he could push her to the peak level and get her help.

Now that Dorothy has reached the level of the peak master, the pressure has plummeted. In addition to the sacred, the two surviving masters of the peak can be offset.

Everything about the giant tortoise is wasted. It was originally intended to be donated to him. Like blood, it can also make Dorothy’s skill advance.

However, Shen Lang does not regret it, it is a friend.

But now he has another thing to keep.

“This is for you.”

This is the blood of the condensed blood. Later, a bottle was filled, and Dorothy felt the benefits.

“This is... human powerhouse?”

The blood of the human strong is no different for them, and the blood of the beast. Hesitation is because the blood of Xu Yangzi was absorbed last time, which caused trouble for Shen Lang.

Shen Lang nodded: “I killed a human strongman some time ago, it should be regarded as the level of A++ peak superpower. This can not be wasted, it will be collected for you.”

“Thank you for your master!”

In her current realm, let alone the blood of ordinary people, that is, the general comprehension, the low-level beast and beast, have no effect.

However, the Tangshan Mountain is a true peak, and it is a step away from the realm of the gods. It is equal to Dorothy to absorb the blood of a comprehension who is at the same level as her, and even stronger. Of course, the help is still great.

“What kind of superpower is above your A level?”

“S grade. But I shouldn’t be able to get it...” Dorothy was a little helpless.

Although she is now comparable to the strength of the A++ superpower, she can already make her stand out, but if she meets the S-class superman, there is no way.

But helpless is just a moment, she immediately laughed again.

“I have known you for less than a year, not only saved my life, but also made me break through the height that my father can’t reach. It is already very magical. I also believe that following the master, the future will catch up with S. Level is strong, it is not difficult!”

Chapter 584 - Sense of shame and then courage

Shen Lang nodded, and he was completely confident about this.

“Will you stay and help me?”

His question made Dorothy look happy.

“Can I stay?”

“Your strength can be left behind. It can help me, and few people dare to provoke.”

“Really? Of course I am very willing!”

Dorothy nodded immediately.

Before she knew very well, she and Zheng Yumeng’s situation, staying in the side of Shen Lang, limited help, but may need him to take care of, will be even tired of him, so they will let them leave.

Now let her stay, it is not a guest, it is really recognized.

For a time, she felt that the hard work of half a year is worth it!

“I am letting her fight for a breakthrough this evening. What about you? If you take these blood, is it possible?”

Dorothy thought about it and nodded.

“There will be great gains, but it may not be able to break through.”

Shen Lang nodded. "Then don't be reluctant. Just follow your rhythm. Your strength is enough. By the way, you can also take care of her here!"

"Okay. I must protect it!" Dorothy nodded and promised.

She knows that there is Zheng Yumeng, and Shen Lang is definitely going to improve her strength.

Shen Lang just asked the wind to break through the night, considering that it is not convenient to take her with her side. If he did not look after him, he was afraid of problems.

Dorothy is different.

After leaving Dorothy to look after the wind, Ji Lang came to Zheng Yumeng's room.

"How is the situation of Dorothy? I feel that she has made great progress."

Zheng Yumeng did not make a joke, but said something seriously.

Shen Lang applauded and nodded. "There is progress in your eyes. You are almost the same, but they have racial talent. The last time Qiankuling was desolate, hunting a giant rhinoceros beast, a lot of blood, let her progress quickly, already More than you."

Zheng Yumeng was a little shy and scratched his head.

"I am the most useless... The strength of the present is still cultivated by the desolation sister, or else I will be farther away."

"Your talent, in humans, has already envied me." Shen Lang comforted.

"But... If I have been practicing with a cool sister, should it be faster?" She sighed faintly.

Shen Lang silently nodded.

“It does, but the body is your body. She has been living in your body, and I am very embarrassed. It will not and will not be overwhelming. Don’t think too much.”

Having said that, Zheng Yumeng is still a little depressed.

“Shame and then courage.” Shen Lang looked at her, since comfort is useless, then encourage!

“You can’t compare with you, you don’t have the experience of combat, then you have to work hard. You have limited combat experience, you can still strengthen your cultivation. No doubt, I teach you that Liuyang has no merits, it is the best for your body!”

Shen Lang is so serious to talk to her, so that Zheng Yumeng is also listening and accepting seriously.

“You can rest assured! I will work hard!”

Sense of shame and then courage!

She has not been under too much pressure, because when she is in danger of life, she is relieved and solved. I have not experienced the impact of life and death, and natural pressure is not enough.

As for cultivation, in fact, compared to the past few years, it has been hard and hard to know how many times.

The experience of Shen Lang and Desolation is not the result of hard work now, but the accumulation of previous lives.

But now the progress of Dorothy has stimulated her and made her decide to strengthen her cultivation.

At this time, Shen Lang sensed the breath of the ice palace, and the gods swept away, knowing that the rain fell and the three returned.

“I have been following me recently. I have absorbed a Nei Dan and a lot of Lingquan. For the time being, I can’t improve what I break. What you need is consolidation.”

Shen Lang gave her another fine stone.

“Try this, it is faster than the medium Lingshi assisted cultivation.”

“it is good.”

After confessing it, Shen Lang came out and waited for the rain to smash them.

“Wait for us?”

Seeing the waves in the corridor, I dropped a boat and asked.

She looked at Zheng Yumeng’s room intentionally or unintentionally, and there was a room for Shen Lang.

“I have something to look for.” Shen Lang nodded.

“Come to my room!”

The canoe walked in front and took them to her room together.

In order to facilitate the convenience of staying, the people who booked the canoe before the trip were all scheduled for the suite.

Going in and sitting in the hall, she immediately added a layer of sound insulation.

“What is it? Is it made today, give us a little spiritual stone?” The empty boat was a half-joking opening.

“Canoe! Pay attention to your identity.”

The river snorted: “There are more harvests in Shenlang, and it is also his harvest. There is no need to divide anything.”

Then he smiled at Shen Lang: “Don’t mind, the light boat is a friend you know, so you can make a joke like this. It’s not really a spiritual stone that you harvest.”

Shen Lang said faintly: “There is only a Lingshi, how much is there.”

The canoe is slightly grinning, and this is too pretentious!

“You have to be careful, so many people know that you have harvested more than a thousand Lingshi.” Rainy reminded him of the that had been on WeChat.

Shen Lang nodded and said: “The predecessors of the river, and the master of the boat, I have something to discuss with you today.”

“Please speak.”

If you are in a canoe, if you have something to say: “Is it related to Xiaoyan?”

Shen Lang shook his head: “No, I have a special relationship with the rain. I have to discuss it directly with her. This time I am talking to you because you represent the Ice Palace.”

The raft was dignified, and if it was related to the Ice Palace, it was a business.

Luohe still maintains the original appearance, smiling: “What is the specific thing, talk about it.”

“I don’t need to repeat the grievances of the Master League. I got the news today. In addition to the Tangshan Mountain, the former headquarters of the Alliance has a supervisor and law enforcement elder...”

“Is there such a thing?” Luohe and the canoe were a little surprised, apparently they did not know.

“The supervisors and law enforcement elders are at the same level as the heads of the church. The responsibilities are like the names of the two positions. The actual situation is mainly to supervise the church owners. Therefore, it may be a bit embarrassing to get along with each other. Both are not in Qingchuan Tangyuan. There are few appearances and news.”

As the previous generation of the palace, Luohe not only has only the age and experience, but also has a familiar analytical thinking on the overall situation, and immediately associates with the purpose of Shen Lang.

“Everyone thought that the lord was their reliance, the lord did not return, and the Master League had to be low-key. It seems that it is also possible that the two top-level masters are secretly planning.”

Shen Lang nodded: “Beyond my expectations, so I have to sit more prepared.”

“Do you want the Ice Palace and the Swordsong to join forces against the Masters League?” When I heard the light boat, I understood the purpose of Shen Lang.

Chapter 585 - Do you think you are a god?

Shen Lang nodded and shook his head again.

“To make the Ice Palace team up, the risk is too great for the Ice Palace. Don’t say that you won’t agree, and I don’t want to be tired. I don’t want to be tired, including the Jianzong disciple.”

“Then what do you mean...?” The canoe was a little bit stuffy.

“Borrowing the soldiers! Just like the last time we were able to kill the Master League headquarters – the soldiers are not expensive.”

Hearing this, the canoe was a little depressed, and his eyes glanced at the whereabouts of the rain, and did not speak again.

She still has self-knowledge. Her age is already a master of the early days of the realm. It was a very proud thing. It can be compared with the rain, and nothing is counted.

Now that the rain has fallen, it is already in the late stage of the realm, and she has opened her many.

Shen Lang said that the soldiers are not expensive, and that the ice palace is worthy of his borrowing, and that the masters fell into the river and the cousin fell.

As I said before, the relationship with the rain is not normal, you can discuss it directly.

The purpose of today is to discuss with the river, and catch her because she is the nominal palace!

The river can't be calmed down anymore, and the canoe is not snoring, she must come out to speak.

“Small 荻 can have today's achievements, in fact, it is more beneficial to your care. If it is not the two snow nectars you gave... No, the snow nectar of that year was also obtained by helping you.”

“Just for this, not to mention the Ice Palace, at least three of us, are very grateful. Now you have trouble here, the rain should be helpful. But...”

The tone of the river turned a bit, and he immediately laughed.

“I am not looking for an excuse. It is a battle experience of the rain, and so on. It is a serious shortage. It is just a short time after the breakthrough to the real state. The realm is not stable enough. I mean, let her continue to practice, I will replace She helps you, how?”

Of course, she said that the reason is that she is not willing to venture into the ice palace for hundreds of years. To make the rain grow to a higher level, she does not mind replacing it.

This level of meaning can be heard by everyone, the rain is silent, and it is a bit helpless.

In the view of the Canoe, Master is definitely a very biased teacher, but there are people who are worthy of eccentricity! As a palace owner, she has to support even if she has a hint of embarrassment, and she has to take care of it.

Take care of the big picture!

Shen Lang smiled: "I can understand, this is why I am not looking for the rain, but with the two."

The rain fell and opened his mouth, and he did not speak.

Everyone used her as a rare flower to protect her, and she was very touched by her. Can you grow a towering tree in the greenhouse?

"Thank you for your understanding." Luohe also laughed: "You can rest assured that although the old body is old, but on the strength theory, it will not be worse than the rain, and it is still the first in the ice palace. I will not commit rape. If you play tricks, you will definitely fight for a fight!"

Shen Lang shook his head: "The predecessors don't have to be so tragic. I have all plans. The ally of the Masters Alliance, whether it is before or now, is what I deal with."

"You?" The canoe couldn't help but screamed.

The ally of the Master League, that is the super master of the realm of the gods, even if you can use all kinds of means to kill Tang Banshan, but there is no way to deal with the monks who have turned the gods!

"The original Jianzong had a high-level elder of the peak level, enough to survive the other squadrons of the Master League."

Shen Lang did not respond to her suspicions, nor did she explain why she should deal with the lord and continue to talk about his arrangements.

"Now there are two more peak masters, and I have to prepare two more."

The canoe is covered with black lines.

Master League! Master League!

This is the name that people call, the conditions for joining are masters, and the headquarters is more elite, mostly in the medium term. Actually he was called "distributed soldiers"!

This is going to be said, should the people of the Master League vomit blood?

But I think about it again today, Xia Yuntian, they face each other and Shen Lang, they are all eaten to death, that is the master of the late real life! The other is in front of Shen Lang, is it the same as the squadron?

Didn't say “喽” , is it that he gave face?

“But... Master and the younger sister are all in the late stage of the real world. If you want to fight with the masters of the peak level, don't you want to fight hard?”

Shen Lang said the key point of his intention: “I will raise the seniors of the river to the peak level.”

The mobile phone that was in the raft was in the palm of your hand and fell on the carpet.

This forced to listen too much!

You are a young man in his early twenties, actually said to raise a predecessor to the peak!

She is very clear that Master has been in the late period of the real world for a long time, unless it is used in the snow-like fruit treasure, or else want to break through to the peak period, it will take a long time.

“Can you not brag?”

The raft was back, and he gave him a look.

Falling into the river was a surprise, but did not speak, just looking at the waves, want to see if he is serious.

“In order to make the seniors of the rivers more reassuring, and for the sake of us to go out and experience can be safer, I am going to let the master of the boat to be promoted to the middle of the real world.” Shen Lang continued.

The boat fell hard and knocked on his head. “Shen Lang! You wake up! Do you think you are a god? Who can give you a realm?”

A rain without a mouth I asked softly at this moment.

“Are you still getting the snow fruit?”

Snow Linguo!

When I said this, I immediately let the canoe not sound again.

If Xue Ling’s single value is worth, it will take more than twenty medium spirits like the last two. The key to limiting the price is that the action surface is narrow, and a lot of medicinal materials are needed to refine the medicine.

For the general martial art, it is more tasteless. But for the ice palace, it is a very good medicinal material, especially for the rain of the pure Yin body, it is just the same effect of cheating.

If Shen Lang and Xue Lingguo, if they take it at a cost, they can really make a level of falling and falling.

Shen Lang earned more than 1,500 medium-spirited stones today, and buying is naturally affordable. But the problem is that even if the action is narrow, it is a rare thing.

The one they got in the forest of death, that is, they have been looking for and cared for for many years. The two that Shen Lang got were also auctioned by Tang Yuan. Usually want to buy, there will be no.

However, they all understand people, and think of the secrets of Shenlang’s sale today, all from the collection of Tang Banshan, and maybe there are snow Linguo!

“Shen Lang, you have done for Yu Yu, I am very grateful, I am willing to pay back. If there are resources that will enable me to ascend to the peak level, I can swear here, will defend you and Tianshan Jianzong to death!”

The river is very serious, the decline of the ice palace, there is not enough resources. She is now saving as much as possible for the rain. If Shen Lang can raise her to the peak level, the effect will be great.

As long as she has survived this battle, she will be able to protect the Ice Palace for a longer period of time, and she can cultivate the rain and the canoe to a higher level.

Chapter 586 - Gratefulness and principle

I think that there may be Xue Lingguo, and there is no more talk about the canoe. This is too attractive.

She has already taken over the class of the palace, but there is a big gap between the rain and the rain. Of course, I can improve myself faster.

It's not just a matter of talent, it's a miracle, and she can't keep up with it, let alone the resources that Shen Lang has given her.

Shen Lang directly took out two inner alchemies.

“Nedan!”

All three people snorted.

They have already guessed that there may be snow cherries, but they did not expect to be the inner dan, which is worth dozens of times.

Of course, because Xue Lingguo has a miraculous effect on them, Nedan has a miraculous effect, so the value is high, it does not mean that there will be dozens of times the effect.

But if there is a Nedan, they are really sure to upgrade to the first level.

“Shenlang, we can't accept this, the value is too big.”

The river shook his head and shook his head. According to the price of the previous Tangyuan auction, a Nedan had already reached the middle of the 400. It is really unbearable to send two Nei Dan to them.

Not to mention that they are two, that is, to give the rain, it will make her very tangled.

“Do not worry! I don’t want to include the Ice Palace. I have already said it very well.”

“I know, but I still can’t accept it. The value is too big. And this thing is too rare. Doesn’t it mean that Nantian family will have to work hard?”

Luohe looked very transparent: “You give these two inners to the Nantian family, you should be able to exchange them for the solution and the alliance of the masters.”

“My grievances, I can solve them myself, do not need to rely on others. To you, is a friend who can trust.” Shen Lang said sincerely.

“Then you keep it yourself, you need to ascend to a higher level and need more resources.”

The canoe also nodded. Although she was very hot, but this person is too big, how come?

“Do not worry, I still have arrangements. I just completed the breakthrough, it is difficult to go further in a short time, just like falling rain. So first for you, you need to use more resources in the future, you can continue to earn.”

The river is shaking his head, the child is still too young!

You got it from Tang Banshan. I don’t know how many years of collection, maybe not the Tang Banshan individual, but the collection of the Master League.

Do you think that Nedan wants to get it?

But she also quickly weighed it.

The enemy of Shen Lang this time is very powerful. If there is no such thing as a robbery, then there is no future.

Such a rare and valuable thing, I want to come to him is also repeatedly considered.

Just... Shen Lang is willing to give them, she is reluctant to give it to herself! Also reluctant to use for the canoe.

If you stay, wait until the rain falls and the future will impact the gods. If you have these two internal aids, the chances will increase.

But this thing is someone else's, Shen Lang is so arranged, she can't always say that it is left to the rain?

"Canoe, what do you think?"

Luohe actually asked about the meaning of the canoe.

This may be a bit tangled by herself, or it may be to test the wisdom of the successor.

When asked about the head of the canoe, she had to answer.

"I am very grateful to Shen Lang. Really, I didn't expect it at all... Secondly, this is too heavy, and I am very inappropriate. I am the owner of the Ice Palace. Even if I have the heart, even if I have this strength, I really don't. It is convenient to come out."

She is not a guest, but really very grateful.

Because the connection between the Ice Palace and the Shenlang is raining, and she actually had an unpleasant experience with Shen Lang.

This time, I don't say that I love the house and the Ukrainian. I just want a win-win situation for the exchange of interests.

However, Shen Lang has to pay a huge cost first, and this investment, used on her body, is not much reward.

Even if he is promoted to the middle of the real world, how much influence can he have despite the desperate participation in the war?

So it can be seen that this is to take care of her face and maintain a balance.

But this is the inner Dan who is worth hundreds of medium spirits! It is a thing that Nantian family does not want to get, just to take care of her face, it is very interesting.

The river fell and nodded, showing a glance of approval.

If, from the interests of the Ice Palace, the two of them get the inner Dan, it is a huge gain. If you don't need to leave the boat, you will leave it to the rain, and it will be of great benefit to the rain and the future of the ice palace.

However, the canoe can still be rationally and objectively rejected because she is the head of the palace and cannot personally participate in helping other sects.

The mouth of the person who eats the soft mouth is short, and the insider who accepts the family does not do anything. It is too unreasonable.

Falling into the river does not want to let the rain fall, she is willing to replace it, and she can't replace it in a canoe.

As the leader of a martial art, it is necessary to always think about the overall situation of the martial art, but also must have principles.

“How about this!”

Luohe made a decision: “Shenlang, since you can take out Nei Dan, I think it is well thought out. I also understand that this is indeed a win-win situation, although more is your contribution. I accept!”

She took Nei Dan over.

“But one, I will not save it for the rain, I will let myself as soon as possible to the peak level prepared for the defense master league.”

Then she glanced at the canoe, and there was love in her eyes, and there was a hint of embarrassment.

“The boat is really inconvenient.”

The face of the canoe is unchanged, and my heart is somewhat lost.

Her identity as the head of the palace must be said. But I still hope that Master can speak for her, even if she doesn't really need anything.

“However, you invited her to try it together, I agree. As a friend, you are willing to help her improve, I am also very happy. But it must be in the trial process, she also has the resources to participate in the acquisition, and can not be plain I was helped by you.”

She is very formal and reasonable.

Hearing here, the mood of the canoe was a little better.

These rains are all in the eyes, she is very clear that she has suffered a lot of resource tilt, which makes the strength increase quickly, but also with the sister began to be a little bit ridiculous.

People are like this, always the easiest to compare with the people around them. Friends, classmates, brothers and sisters have opened up a big gap, even if there will be no downturn, the backward will be psychologically imbalanced.

What is changing is not the mentality of both parties. The best way is to let everyone balance.

This is the mentality that all human beings around the world have.

The snow-fruited fruit of that year was entirely in the ice palace, but it was mainly used on her body. Later, she received a gift from Shen Lang. She also thought about leaving one for the Ice Palace, but Master's expectations were even greater and she insisted on using it.

At this moment, the rain fell dark and made up my mind. This time, I must help my sister to get more resources and improve her strength.

“it is good!”

Since this has been said, Shen Lang did not insist on politeness, took Nei Dan up, and then took out a number of Lingshi.

Chapter 587 - Foreigner's invitation

“The master of the boat, when the rain saved me, and the ice palace took me to take the risk of offending Chu. At that time, I had limited, now... haha, as you said, it was made today, this is a little bit of meaning!”

This is fifty medium-spirited stones, which are rainy and have a complicated mood.

At this moment, she suddenly understood.

The gap between her and the rain is not only the talent of physical fitness, but also the huge gap between seeing people and treating others.

When the rain fell, I was sincere, never calculated the gains and losses, even the safety!

Therefore, it will be reported that the waves are in different periods of time, and it is already outside the relationship between men and women.

She was too careless at the time, and it was doomed that she was getting a lot of rain and rain.

For example, today, Shen Lang took out Nei Dan, even if she really gave it to her, not including helping to shoot, she did not have that face.

“Thank you! You are very generous, enough man!”

These 50 medium-spirited stones are also a great harvest for the Ice Palace. Compared with the price-neutral Nedan, it is still acceptable, so she is not for the individual, for the ice palace, but also with a thick face. It is.

Then generous thanks, admit that Shen Lang is really enough to be generous.

After the matter has been finished, Shen Lang will not be able to continue to stay here for too long, so as not to spread the reputation of them.

“Predecessors are very experienced and don’t need me to protect the law. My friends are also improving myself as soon as possible. I have to go back and take a look.”

Shen Lang did not mind revealing it.

“You are really amazing.” Luohe smiled and praised, a pun.

The canoe is a sigh and envy, is it that Zheng Yumeng and other women, have got the inner Dan?

“Oh, the reason why there are more female friends around me. Just like my cooperation with the Ice Palace, it is because female friends are more sincere and more reliable. Like Joe Shuyu, Nanyiye, they are very good, and there are various resources. But for the time being I can’t go with them to such depth.”

There is nothing to be said about Shen Lang, even if they are falling, they are all the same.

“Right, the rain, the boat master, and Joe’s test plan have been further confirmed this evening. I wanted to invite you to an interview tonight, but you have a meal, they have already left.”

Shen Lang immediately said the time and place of the meeting, and then he left.

Luohe sighed: “Shenlang is too unusual.”

This feeling is deeply felt when it comes to canoeing and falling rain.

Falling rain and watching him suddenly “opened up” from an ordinary person, and then step by step to the present, it is like God help.

The canoe and the river were only seen at the end of last year. At that time, it was not the opponent of the canoe. Chu Mofeng was a strong enemy with great pressure.

What now? Not only is it true that the peaks of the realm are being killed, and even the gods will dare to let him go!

“Just heard it? Joe Gongzi, Nan Gongzi is coming over to see him here!”

The reminder of falling down, surprised the canoe, she just did not think of this layer.

“You have to think about the son of Joanna’s two thousand-year-old family. How high is the eyesight. Actually, this is a wave of sorrow. I can imagine his ability, his value. I don’t worry about rain, you have to go on a light boat trip. pay attention.”

“Know, Master.”

Qiao Shuyu and Nan Yiye did not say it. It was just a wave of Shen Lang, which had already given her a great impact, and there would be a proud attitude of the palace.

After Shen Lang came out of the canoe room, he found a powerful comprehension on the corridor in this floor.

The entire hotel has stayed in a lot of self-cultivators, and there are other sects on this floor, so Shen Lang will avoid suspicion of staying in the canoe room for a long time.

So whether you live here or visit a friend, it is not surprising to have a self-cultivation.

But he sensed that this person is very powerful and could not help but pay more attention to it.

“Excuse me... is it Master Shen Lang?”

The other party also discovered him. When he spoke, he had walked from the elevator to the corridor and appeared in the sight of Shen Lang.

A closer look is actually a foreigner, a black race, can not see the specific level, but the age should be more than 40 years old.

“You looking for me?” Shen Lang walked step by step.

The black man gave a ritual to Shen Lang to show that he did not offend, and then continued to explain when Shen Lang approached.

“Master Shen Lang, I have something to look for. First add you in the wechat group, but did not pass, so I heard this, take the liberty to visit, please forgive me.”

There are so many people in the exchange meeting, Shen Lang has a wave this morning, and a wave in the afternoon is already the most dazzling one. Of course, many people add him.

He thought about the matter and then retired, so there is no setting that does not allow group additions. Adding information to strangers is just ignoring.

“What?” Shen Lang did not talk nonsense with him, and did not ask him how to find it.

In fact, it is very simple. If this black uncle wants to grab the Lingshi, then go out!

“This morning, your shot at the beach has made many people stunned. It is said that you are the strongest among the younger generation...”

“Do not talk nonsense!”

Shen Lang interrupted his courtesy and revealed his incompatibility. If he wants to continue, he will leave.

The old black is a little embarrassed, can only express apologize, and then looked around, indicating that this is not a convenient place to talk.

Shen Lang stared at him not talking, stretched out three fingers, and then took back one.

Old black does not wait for him to count down, helplessly formed a sound insulation layer around, and then seriously said.

“The level of this exchange meeting is too low. It can only be said to be large, but no one is willing to communicate. I want to invite you to a real exchange!”

“A stage is not only a young person, it is not a stage to deal with, it is a stage for masters and geniuses!”

“Not interested in!”

After listening to him, Shen Lang directly refused.

The old black face groaned again, but his expression remained calm and humble.

“Our stage is not only a fame, but also a huge benefit...”

“Is it? There are thousands of stones in the bonus?”

The question asked by Shen Lang does not need to be explained, and the other party knows what he is talking about.

In the afternoon, he relied on the secrets to sell more than 1,500 medium-spirited things These foreigners must have inquired clearly.

Compared with his harvest, what kind of exchange meeting can have greater benefits?

Old black continues to swear...

“The benefits I am talking about will be other forms, not just spiritual stones.”

“For example?” Shen Lang revealed a hint of ridicule.

He does not look down on the real world of comprehension, but does not believe in the sky!

Heaven will only drop the trap!

Chapter 588 - Development Plan

On this part, the black man is also very clear. If there is not enough to attract the sinking waves, let alone impress the waves, this conversation will be suspended.

He still looked around, although it was already soundproof, but some people can still see it here.

“Development Plan!”

“What development plan?” Shen Lang asked again.

“Pacific... Hey, in your words, the development plan for no return to hell.”

“No return to hell?”

Shen Lang had an interest this time, but he had no special changes in his tone or expression, so as not to be aware of his mind.

Although he did not show anything, but did not show impatience, or willing to continue to ask, this has made the black people aware of his interest.

“I know, they didn’t invite you. This is a secret that you still don’t reveal. We think it’s too unfair. You are more qualified than many of them. You shouldn’t open it.”

Shen Lang slightly frowned: “I don’t know what you are talking about, have something to say, don’t talk nonsense.”

“Today, they have a closed-door meeting. It is the development plan meeting between the East and the West for the non-returned Hai Prison. It is good to say a little about the development plan. It is not good to listen to it. It is a meeting to grab the ground and divide the pork.”

This black man seems to be a bit uncomfortable, with a tone of sarcasm.

When Shen Lang's heart moved, did he not participate in any closed meetings before?

Originally she was with a canoe, but when attending the meeting, the canoe was still waiting outside.

At that time, he thought it was a gathering of the older generation. Now it seems that this is a closed-door meeting for the development plan for the non-returned Hai Prison!

Judging from the attitude of this black man, although it is said that the East and West jointly develop Pacific resources, both the East and the West are screened.

If you don't have strong strength or don't have a good relationship, you are excluded first!

This black person should be such a member, but he alone, or a group of them, can't make any climate, so come and pull allies!

"I don't know about the conferences, plans, and what seas you are talking about..."

"I can tell you in detail! How about speaking in a more convenient place? After all, we are here, it is easy to be mistaken."

The black man smiled a bit.

He sounded the surrounding area, but he could still see the situation here, and the knowledge can be found. I can't hear what they are talking about, and it's really possible to think that they are squatting.

This is on our site. As an outsider, he still dare not be too arrogant. Try to avoid misunderstandings. Just as he just greeted Shen Lang, he said that it is harmless.

Shen Lang thought a little, then nodded.

“See you in the lobby downstairs.”

“Okay, I will go on.”

“Just give me a cup of coffee, I will come over.”

“Ok!”

The black man immediately came to the spirit and promised him to change a place to talk, although it was not in the guest room, but another public occasion, but after all, it was Shen Lang’s statement.

Let him order the coffee together, just to save time, go straight to talk about business!

When he went to the elevator, Shen Lang turned back.

“Nothing?”

When passing the door of the canoe, the rain fell open and whispered.

Just outside the movement, they also found out.

Shen Lang shook his head: “I let them practice in my room. I will go out and you will help me to pay attention to the abnormality.”

“it is good.”

Rain fell and nodded, she did not ask more questions about Shen Lang, nor did she ask who they are. Since Shen Lang said so, there is his truth.

And this anomaly is obviously not an abnormality in cultivation, but whether someone will come over.

Shen Lang then came to Zheng Yumeng's room, she is working hard to cultivate.

Shen Lang did not say the specific situation, that is, let her go to his room to practice, three people have a photo of each other. Once there is any sudden situation, as long as one person receives the work first, there can be a buffer.

In fact, the three most need to guard the inside, that is, taking the wind in the end of the rushing pass.

After this arrangement, Shen Lang went on.

In the lobby bar, the blacks found the most inconspicuous corner.

Although the hotel has lived a lot of self-cultivators, everyone is not visiting other people, it is closed-door work, and rarely go to the lobby to have a tea chat.

There weren't many guests here, and the light was darker. The black man was sitting in the dark corner, and it was not easy to see it at one time.

"How do you call it?"

After Shen Lang sat down, he asked.

"You can call me Louis." The black man said with a smile, revealing a sharp contrast of white teeth.

"Yes, a++ superman."

Shen Lang nodded and expressed his recognition of his strength.

After hearing it, Louis was a little surprised. He didn't actually see Shen Lang and Yu Mu Cang's fight. The secret of selling is just a businessman, and he did not show his strength.

Therefore, his understanding of Shen Lang is inquired. The specifics are not very clear. They can only be described as “magic” and “mystery”. The previous guest set was mainly a friendly gesture, not a respect for the strong.

It is still a bit surprising to hear Shen Lang directly telling his realm.

But then he would like to associate in another direction, he can find out the information of Shen Lang, Shen Lang should naturally be able to find out his information.

Just after a long delay, I was already asking about his news.

So he immediately resumed as usual, calmly smiled: “After all, I am also a young man, not a thing.”

“It’s really nothing, like your level, I have killed it.”

The words of Shen Lang are welcome, let the chat atmosphere smash.

Louis has inquired about it. He is skeptical about Shen Lang who can kill the comprehension of the level of a++ superman. He thinks it is the bragging of the oriental people for the face.

After all, it’s just a young man in his early twenties. It’s good to kill a-level superpower. What is the truth? He doesn’t care. It’s the power to unite and unite.

Such a young person can have such strength, and there must be a strong family sect support behind it.

But now the attitude of Shen Lang makes him a little less appreciated. It is ok for others to praise and brag, but can’t boast that the Orientals should not be subtle and modest?

“Let’s talk about the situation of no return to hell, it is not the sea, it is hell!”

Louis did not understand Shen Lang before, and when he returned to this topic, he took the initiative.

“Say! Try to skip the useless, everyone’s time is precious.”

Shen Lang nodded and leaned back on the sofa.

This statement, this look, let Louis frown, this is not to take the initiative, but rather to report to the boss...

Chapter 589 - Comprehension secret

Louis heard that Shen Lang was a strange thorn and had a lot of strength, which would make him want to pull him into the gang.

As for the grievances of the Master League, there is no relationship with him, and he is not afraid of offending anything.

Because he was unfamiliar, Shen Lang’s attitude was resisting and skeptical. He had to lower his posture and come up with more sincerity.

There is no return to the sea, since it is in the middle of the Pacific Ocean, of course, it will not be all discovered by the Chinese monks, but the strong people in the Pacific Rim will find it.

The initial situation is not known. In general, with the development of the times and the increase of global exchanges, the whole world now knows this secret.

Of course, the secret is still secret after all, although the scope is large, but the number is still small. Just like this exchange meeting, only a handful of high-level people know this secret.

The family of martial art who hold secrets will not be allowed to leak out, and will be kept secret from generation to generation.

I don’t know when it will start, maybe it will be the promotion of the conference, and gradually let some people who know the secret begin to communicate.

The monks of the East and the West have privately exchanged legends and records of the mysterious sea. The “Road of Heaven” has been very attractive to humans since ancient times.

So after I don't know how much private communication or even temptation, I finally took the lead this time and wanted to develop a development plan.

Why didn't you develop before, of course, because of the stalemate between the two sides.

On the one hand, everyone wants to share a piece of cake, and they are not willing to let other sects seize the opportunity, let alone foreign self-cultivators.

But on the other hand, everyone does not want to be the first to eat crabs. After all, there is no return to the "no return to hell"!

This time the joint development plan, in the end, I think it will not be known.

But the idea should be to solve these two problems. The result of the compromise may be that everyone is a master of the game. Everyone has the same strength and together form an expedition, and enter together at the same time!

Like Louis, there is strength and ambition, but because of the factors, relationships and other factors, they have not entered the eyes of this group of people, and will not play with them.

But they have heard such news, of course, they are not willing.

They want to engage in a small but high-level exchange meeting like this exchange meeting. That is not everyone can participate, is invited to go, the purpose is to screen the qualified partners.

The ultimate goal is to set up a development team that has no return to hell.

As for when it is time to grab the development team before entering, or to follow the back, and specifically to discuss, now is the time to find a partner team.

"I should have said this than originally, because it involves the secret behind. If you meet the requirements, or do not have this will, you should not know this secret. But Mr. Shen, it is not ordinary, I still chose to tell the truth. ""

Louis also directly revealed his helplessness, because Shen Lang was unwilling to talk, and other interests could not attract him, and he had to release this final secret as a bait.

“Why are you looking for me? You are not familiar with me. Can people not get more benefits?” Shen Lang asked.

Louis’s face showed an incredible look.

“It seems that you don’t know the rumors of no return to the sea! Because it is a sea ***** that has no return, it was once hundreds of years ago that it ruined the top of the world’s top powerhouses!”

He became serious: “It is no exaggeration to say that it was not only a huge earthquake in the realm of cultivation, but also a pattern that affected the world!”

“Original self-cultivators all over the world are all kings and their own politics. Not to mention the general East and West, that is, many countries and regions are also divided into different sites, which cannot be easily crossed.”

Shen Lang nodded silently, and he was deeply aware of this.

He went to such a height in his previous life, did not go to the present West, and had never been to the black world. Far-off mountains and oceans are inherent geographical restrictions, and the unknown master is another limitation.

“The once-religious wars that everyone is familiar with, in fact, are actually the expansion of the secular forces through the secular. The winners behind them are all those who cultivate the true power.”

Some of the West, Shen Lang did not understand, but also learned the history of the world in high school. There are many religious wars, which really affected the rise and fall of the Empire and rewrote the civilized plate.

Behind the scenes, is there really a confrontational influence on the real strong? It is also unknown.

“Hundreds of years ago, after the return of the sea to the innumerable top powers, the power vacuum that emerged from another direction affected the ocean expansion in the era of great navigation and changed the world.”

Listening to his embarrassment, Shen Lang smiled slightly: “What you mean is that it is actually the separatist data of the realm of cultivation, which limits the progress of human civilization. The fall of a large number of top-level comprehension strongholds, but let humans make rapid progress and take off?”

Louis shrugged his shoulders.

“Who knows? For example, the stars affect humans. The ancients believed that modern people would think that they are superstitions of nonsense. But in the long-term history, the stars have affected the small ice age of the earth, and the cold temperature affects the cultivation of crops. There is no harvest. If there is a large-scale famine disaster, if the ruler is not able to rescue and manage, then there will be rebellion and eventually change the dynasty empire...”

This principle makes Shen Lang a bit of recognition. Of course, it is not that one reason determines the whole world, but many factors and variables that form our world.

It can only be said that the decline of the realm of cultivation has led to the lack of power blockades around the world, making the era of great navigation faster.

“Back to the topic, why are you looking for me?”

“Because the consequences are too serious, hundreds of years of the world’s top batch of self-cultivators have gone without a return. Now no one has absolute certainty. The mainstream is still the case, and our non-mainstream teams are even more Needless to say.”

Louis let himself show his sincerity as much as possible.

“You don’t know the magic of no return to the sea, it is not a treasure that a person, a group of people can get!”

“We are going to explore a golden mountain. We don’t mind how many people divide gold. We just want to have as many powerful partners as possible and can return safely!”

“The treasure is no better, but also has a life, return is our ultimate goal!”

He said so honest and straightforward let Shen Lang also believe a few points.

The news brought by Louis also made him go to the future with the Fuyang real person, and there was a sense of urgency.

But even so, Shen Lang is not moving!

Since no return to the sea has been able to make countless powers go back hundreds of years ago, it is hard to say whether the martial art that is going to be explored today can return safely.

“Jinshan... Is there really a treasure like Jinshan?” Shen Lang remembered the aura that could be felt at the height of 10,000 meters.

“Jinshan is just a metaphor, actually more than the sea!” Louis was busy adding a fire.

Chapter 590 - Old

Louis painted a big pie, hoping to move the waves.

But Shen Lang was laughing and asking questions.

“Since there are more than the sea, it is not a few people and few people can take it. Then why not wait for them to take the lead?”

“...”

“If they can come back safely, then they can rest assured. If their mainstream team can’t come back, the non-mainstream will still be eliminated.”

Louis smiled a little awkwardly.

“What you said makes sense. So we are not sure to grab the advanced, we can wait for them to confirm before we decide, but we will have to be a little more safe.”

“You will have no friends?”

“Of course, it’s not just someone who can do it, but a talented person. Just like attending the Olympics, anyone wants to go, but they must screen the best.”

“I understand, thank you for seeing me.” Shen Lang politely thanked and then refused.

“But I am more afraid of death. I am only twenty years old. I have not lived enough. Since even the world’s top comprehensions can go back hundreds of years ago, I still have to wait for the old age.” Go check it out!”

Louis couldn’t hide the disappointment on his face. He thought that young people were more likely to inspire. As long as he saw the splendid interests, he would be heartbroken.

I did not expect that this Shen Lang did not have the adventures of ordinary young people, but bluntly afraid of death!

“But... I want to say... If that is really the way to heaven? If that is the way to heaven?”

Louis still does not give up, continue to persuasion.

“Not a religious paradise, I mean... Hey, in your words, what if it is a fairyland?”

“The batch of top-level comprehenators who were hundreds of years ago did not have to go back, but they were reluctant to return.”

In order to give a clear example, Louis did not hesitate to refer to his own face.

“Those who are like our skin color, if they come out of the poor mainland, stand firm in the metropolis of developed countries, how many are willing to go back?”

“Even if you go back, you just pick up your loved ones. Is it going to be a big fan of the show?”

“So, danger is just our fastest consideration, and there may be no danger at all. I am afraid that you don’t want to return!”

Shen Lang shook his head: “I haven’t lived enough. I have to go to the fairyland and let you go! After a few decades, maybe I can’t help it.”

At this time, the waiter only sent coffee, Shen Lang said his room number, let her account in the room account.

“I still want to enjoy life with the beauty, I will not accompany you to drink coffee. Drink slowly!”

Shen Lang took a sip of his coffee symbolically and then left.

When he left to go to the elevator, his knowledge was still watching the movement of Louis.

He did not look after the past, but before he said goodbye, he had distracted the gods, so it would not be awkward and would not be noticed.

Louis is really quietly drinking coffee. He may not have a big expectation. After Shen Lang left, he took up the disappointment.

But this is the only unremarkable reaction, that is, silently tasted a cup of coffee.

I didn’t call or read information. When Shen Lang returned to the room, he had already finished drinking coffee.

It looks very honest and sincere, and in fact it is quite a city!

Although Shen Lang does not think that this Louis must be a bad person, he never believes in the initiative of others – unless it is far away to tie you up.

Just like Joe Shuyu and Nan Yiye, he also paid a lot of money.

For strangers of different races in different countries, it is naturally more important than Qiao Shuyu.

When I entered the room, I found four beautiful women inside.

Falling rain is actually there.

She is not practicing, just sitting and using as it was when I was at school.

This picture makes Shen Lang sway and return to the high school time a few years ago.

The memory of his two worlds has already been fully integrated, because the past life is too strong, too much memory, and naturally dominated.

This is the acquaintance – including the parents will increasingly feel that he seems to have changed a person.

But at this moment, he is touched, and has more than just memories and feelings. It is all owned by this world.

At that time, he was a low self-esteem boy who could not do everything, and she was the goddess of the school's male students, and she was deeply loved by teachers and students.

Because of the relationship between personality, it is all the boys who are learning to do, and only when they talk about the topic, can they make a few words with her. Most are immersed in her own world of learning.

Of course, there are not many opportunities for Shen Lang to communicate with her. Even if there is communication, such as when he meets on the road, he will circumvent his guilty conscience. It is only a long-term, secret gaze.

And time has come to the present, the two of them are a world of people, the former classmates, the previous high school years, have been like the world.

Looking at the scene that touched his heart, Shen Lang really had a while.

“Back? Master doesn’t need my care, let me come and help.”

Feng Wuji and Dorothy are practicing, and Zheng Yumeng is also practicing, absorbing the aura of the fine stone.

In order not to yell at them, the rain is directly transmitted to the ear of Shen Lang.

Shen Lang nodded.

For Luohe, it is a big event to shock the true peaks. It is definitely going to go back to the Ice Palace. After it is fully prepared, it will be closed, and it will not be temporarily shocked in this hotel room.

So there is no need to fall in the rain, you can come here to help.

“Is there any problem? You just got a little wrong?”

Shen Lang shook his head slightly and walked over, a little embarrassed.

“I just saw that you were reading a book. Although I didn’t wear a school uniform to look at it better, I still remembered the days I used to be at school.”

The rain fell a little, and then it was a bit fascinating.

“Before I had to learn to go to class, but also to secretly practice, it was very hard and full. Now I think of it, or the most colorful period of my life.”

“If you follow the normal path, you should have already entered the best institutions of higher learning, and you should also be a fan of countless school flowers. It will still be very good. In two years, you will also have an excellent job... ..”

Shen Lang smiled as if he saw a “normal road” of falling rain.

Falling rain is also a smile: “Now we are disappeared classmates probably only when the students are nostalgic, will talk.”

There are not many opportunities for them to meet each other. Every time there is something. It is also rare to have such memories of the past, the atmosphere makes both people very relaxed.

“Sometimes think about it, the life of ordinary people is actually quite good. It’s good to be rich and wonderful. Why is it necessary to be strong and live for a long time?”

She has become stronger and stronger in the past two years, and her expectations have become larger and larger, and the pressure of natural cultivation has also increased.

“Ordinary people also have the troubles of ordinary people. In general, it is not easy in the world to come. I still hope to live longer and be stronger!”

The goal of Shen Lang is still very firm.
