

## First Strong 611

Chapter 611 - Million year beast

After Shen Lang finished speaking, he immediately drove the gods and took them together and flew directly to the highest peak nearby.

Looking back in the air, I saw that the air they were in was already covered in a shadow!

The mountain-like swallowing of the sky, after the tongue did not shovel them in, directly flew over, not only the volume is huge, but the degree is also very fast, if you leave later, I am afraid that it has been swallowed by the mouth.

This result surprised everyone! Including Shen Lang.

Now that the goods are swallowing the sky, Shen Lang immediately greets everyone to flash, afraid that they are too late, and they will take them away directly.

But I didn't think that it was such a huge swallow, so it could be so fast.

If he hesitates a little, or just walks first, others may be swallowed up.

Originally he was prepared to look at the highest peak, but now he has changed his mind and continues to fly to the distance.

The swallowing scorpion that had just been emptied, when it fell, there was a loud noise, and the mountain that had been shoveled by its tongue had been thrown directly into a large piece.

Then kneeling on the top of the mountain, two huge red eyes were staring at the direction in which they flew away.

Obviously, whether the trade-off can be pursued.

Everyone looked at the "mountain heads" stacked on the hills and they all secretly vomited.

This is a high-level beast!

Shen Lang is also a bit embarrassed. When he was in the forest of death, he basically did not encounter high-level beasts. Originally thought to be close to the entrance to Death Valley, there were beasts that were killed by generations and did not grow up.

Now it seems that it is very likely that they are too weak, there are some high-level beasts, even the alarm can not be alarmed! Or people are too lazy to come and take care of them.

As far as ordinary people are concerned, if several ants are wandering around you, when you are busy, will you stop to chase ants?

But if it is a bigger one, the mouse is smashing, it will cause attention to eviction.

Although it is a bit ugly, in the eyes of the murderous beasts of this level, the monks who are still in the virtual world may be like ants! Now they are a few, maybe the mouse level in the eyes of ordinary people.

Swallowing the sky did not chase, let everyone feel a little relieved.

And as the dark red eyeballs closed, and then returned to the place where they had settled before, after flying far away, they could not see its trace.

In the middle of the night, the wave of the little corner of the dead forest did not cause much movement.

That is, the small animals in the vicinity are scared to escape.

Shen Lang chose to land on a mountaintop. Wherever you are, you can still look in the direction of swallowing the sky, so as not to have any movements, you can know the first time.

“It’s a big man!” Zheng Yumeng breathed a sigh of relief.

Dorothy nodded and said: “It’s bigger than the one we hunted in Qiandlingling last time.”

The canoe was asked: “The beast is called swallowing? Is it really?”

“Joe Gongzi said it!” Shen Lang gave Joe Shuyu a chance to show off.

Before Shen Lang first recognized, Qiao Shuyu also seized the opportunity to express his knowledge.

“Hey, it’s an ancient race. According to legend, there have been many big demons in the ancient times. What are the snow owls, gold owls, etc. The swallowing scorpion is a kind of Yi people. The beginning is normal size, and then the longer the cultivation, the stronger it will be.”

Qiao Shuyu shrugged: “The size of the big, just everyone has seen it.”

“Because of this characteristic, it will be called swallowing, meaning that if it goes on infinity, it will be able to swallow the sky.”

“The swallowing of the exaggerated meaning of the sky, but now the one we have encountered, like a small hill, is already very scary.”

Nan Yiye also said: “Although there are legends of swallowing the sky, there is no real record that no one has ever seen. Because in our world, human comprehensions have always been strong, whether it is robbing resources or for the people. Anything that hurts will not give the opportunity to swallow the sky to this extent.”

“In this way, should this swallow the sky have a thousand years?”

“More than! It may have been thousands of years, even years of years!” Qiao Shuyu said seriously.

“Wan years! It’s too exaggerated?” Zheng Yumen couldn’t help but scream.

“I don’t believe you ask Shen Lang, he must be more clear than we can see.”

Everyone’s eyes fell on the face of Shen Lang.

Shen Lang nodded: “Joe brother and Nan brother said yes, swallowing Tianzhu is just a name, growing up like a mountain, but only in theory, because there will be no environment for it to grow. But here is not the same!”

Everyone understands that the forest of death is a huge world. Occasionally, there are comprehensions to enter. It is necessary to be careful to be eaten by the beasts. There is no possibility of hunting them.

“Thousands of years, tens of thousands of years, for us is a long and long time. For it, it may be a long-term constant cultivation.”

Shen Lang is also a bit embarrassing.

“The terrain just now, and how it came out, you have all seen it. I estimate that this swallowing scorpion was cultivated to a certain extent and it was hidden in the rock.”

“Then, year after year, centuries and thousands of years have passed, it has gradually grown larger, and the soil has been propped up into a mountain.”

“It has only been practiced for thousands of years in tens of thousands of years... We killed it for Nedan, and it was a bit cruel.”

Falling rain whispered a word, it is a suggestion, it is also a feeling.

“Haha, Miss Miss is too kind! The biggest purpose we come to is for resources.”

“In turn, why did it wake up and attack us? After all, it also wants to eat us as a tonic! If we don’t move at all, we won’t notice it.”

The words of Qiao Shuyu, let everyone agree.

The eyes of the rain fell over and wanted to see what Shen Lang meant.

Shen Lang is naturally the core of everyone. Everyone looks at it and wants to listen to him.

“Revising the truth is a matter of going against the sky, and like any exhibition of things, to a certain extent, it is cruel and will plunder other resources.”

Shen Lang is very serious, and this opening is basically adjusted.

Qiao Shuyu breathed a sigh of relief, and he was really afraid that Shen Lang would support the attitude of falling rain let go of such a beast.

“There is a slogan called City to make life better. Whose life? Modernized and technological life is undoubtedly a better place for human beings. High highways, high-speed railways, etc. are all more convenient, but humans’ high exhibitions, The living space of other animals on the planet is getting smaller and smaller, and finally becomes the ornamental of the zoo botanical garden!”

“Unless we are only pursuing the liberation of the individual’s spiritual level, or else... the spiritual medicine is also grown up in the last few thousand years.”

Shen Lang knows that falling rain is a bit unacceptable, only a detailed analogy.

In the last sentence, it is said directly that “Snow Lingguo is also a long-term talent.”

Chapter 612 - Leader decision

Shen Lang is a side analogy, but the truth is that everyone is not a fool, just understand.

Rainfall had originally heard the idea of Shen Lang supporting Joe Shu Yu, and thought that he was also bent on killing the beast Nedan, which was a bit disappointing.

After all, Shen Lang can grow so fast, Nei Dan certainly plays a big role, which will also lead him to craving more Nedan.

Now that I have listened to this metaphor, I suddenly figured it out.

is not that right?

If we have to entangle this, she has previously captured the snow-fruit fruit, and in essence is no better than hunting for the beast. Even when she was at Licao Middle School, she absorbed the Yinquan, which was accumulated in the local area for thousands of years!

Like the Buddhist door that tells the cause and effect of compassion, killing is the first ring, but only some sects are vegetarian. The most common problem with skeptics is that because animals have life, they don't eat meat, but plants have life!

In fact, it is a kind of personal practice. The purpose of vegetarianism is to cultivate compassion. From the "sentimental sentient beings" (animals), and finally to the "ruthless sentient beings" (plants), to the realm of Luohan and Bodhisattva, that is, all sentient beings do not kill or eat. .

The seven people on the scene here are not practicing the Confucianism of the people, nor the Bodhisattva Tao of the Purdue, but the way to cultivate the truth!

If you still have to entangle so much, either don't ask for a higher level, or you can practice meditation honestly. Otherwise, resources such as Shen Lang give him Xue Linguo, in fact, it is the cruelty of others to replace her.

After thinking about it, Luo Yu nodded to Shen Lang and said that he had understood.

Shen Lang also nodded, she always wanted to pass this. Because he was born well, the family condition was excellent first, and then Master was escorting the whole process. Later, he also helped a lot, so she did not have much direct contact.

The state of mind is also an important part of such a trial!

"Joe brother, really want to fight this swallowing idea?"

Looking at Shen Lang's so serious look, Qiao Shuyu gave a slight glimpse.

"We stopped, isn't it necessary to get ready before you start?"

Everyone looked at Shen Lang together and wanted to hear his plans.

Shen Lang smiled and said: "I will stop. One is to confirm the direction. I said before, the night is biased, and the gap may be huge. We use the magic weapon, which is already a few dozen miles away, or can we calibrate the route. It's troublesome later."

Everyone was a little embarrassed, just stunned by the swallowing of the sky, really did not pay attention to the direction, did not pay attention to how far away.

“The second one, I can’t decide by myself, ask everyone’s opinions, do you want to swallow the sky.”

Everyone exchanged a look at each other, and finally, the representative of Qiao Shuyu spoke.

“Shen brother, you are not welcome. This time you are our leader, we all obey your arrangements. If it is not for you to take us away in time, maybe everyone will fall into the belly.”

“Right! Don’t worry that we are two older, we don’t have to care about the family. We are all friends and partners. I and Shu Yu, like a few girls, will completely obey your arrangements.”

Shen Lang nodded. “Well, since you value me so much, then I will do my best. Go around and swallow the sky!”

“Ah?” Although Shen Lang made the decision, but heard him say to circumvent, Qiao Shuyu was a little surprised and disappointed.

Just now, Shen Lang’s words about falling rain made him think that Shen Lang was going to do it.

“As you just said, it is very likely to be a beastly beast! It is not necessarily enough for us. It is dangerous to take life compared to the first level. I think I will go to the area you have identified and can hunt. It’s more reliable to get a few thousand years of fierce beasts.”

They can all be heard that the conclusion of Shen Lang is not a matter of mouth, but after recognizing the swallowing of the sky, it has already weighed the pros and cons.

However, everyone’s morale has been obviously affected. It is such a high-level beast that comes in the first place. It is exciting to think about it. Even if you can’t hunt, try it, it’s also a rare exercise.

Nan Yiye pondered a bit and asked: “Shen brother, do you think... try to be dangerous? If you find a crisis, decisively leave.”

Shen Lang could not help but sigh.

These two family members are usually held, and wherever they go, they are all on the top. I am used to giving orders, even if I give him the command right now, I still can't help but participate in the opinions.

Shen Lang actually wants to satirize them: You two are in the middle of the real world, and the seven people are better than the canoe!

However, since he is allowed to lead the team, he does not say friendship, and the morale and morality of the team members cannot be hurt.

“You just saw it. It spits a tongue. You can shovel the mountain and rush it over. It can crush a mountain to the top of the mountain. This power, this volume, can also have a very fast speed!”

After Shen Lang's example, I added another sentence: “By the way, everyone's birth is good. When you were young, you shouldn't touch it. The ordinary cockroaches are very strong, the skin is very tough, and you can bulge, you can't step on it. its.”

Everyone knows, comparing the ordinary squatting ordinary children, this defensive ability, even if they have not seen it before, but it is very powerful.

“I completely obey the arrangement.” Zheng Yumeng saw that they were still awkward and immediately expressed their support for Shen Lang.

Dorothy followed and said, “I am the same.”

The two of them expressed their attitude, and the Ladies' sisters must also support Shen Lang.

Qiao Shuyu and Nan Yiye were busy following the statement.

“Of course we also support the arrangement of the Shen brothers. There is no opinion.”

Even if it is a little regrettable, it will be collected at this time, safety first!

However, they all secretly recalled the terrain, and prepared to mark it on the map. If the waves are taboo, then report to the family, and come back with a strong team ready!

At this time, Shen Lang's face changed.

“Not good! It's catching up!”

They first saw the change of Shen Lang's face. When the ears heard this sentence, they also felt the slight gap.

Everyone's eyes look at the direction just fleeing.

Although it is dark, it is faintly seen from a few tens of miles away, and there are huge objects that make the ground tremble in a fast movement like a pile driver.

Because the swallowing sky moves too fast, the birds and beasts along the way have not had time to flee and flee, it has passed.

That is to say, they have felt and observed a few seconds of change, and the rapid approach distance is less than ten miles! If they are not at the top of the mountain, they can't even see the details.

“How to do?”

“move!”

“Do we have time now?”

Everyone spoke together and asked Shen Lang's opinion.

Chapter 613 - Combat plan

Qiao Shuyu 30, Nanyiye forty, they are the successors of the millennial family cultivation, there is not much training in all aspects, just they are also the main battle.

But on the real battle between life and death, the two of them add up to each other!

After all, training is cultivation after all, even if there are all kinds of cruel practical training, I dare not really kill the son, so this effect is different from the mentality of life and death.

Falling rain, falling canoe and Zheng Yumeng are also the flowers in the greenhouse. The difference is that Zheng Yumeng can “transform”. As long as the desolation is summoned, it is a real combat master.

Dorothy has not had much experience, but she has really died a long time, and her mentality is completely different. And the scene is the strongest in her realm, so it is also very stable.

When everyone is asking for Shen Lang’s opinions, Shen Lang’s mind is already planning a battle plan!

He has already flew a few dozen miles away. He didn’t expect that after swallowing the sky, he would chase it again. He didn’t even think that it was so far away and so fast. They used Bao Fei for a few minutes. The distance, it is just a few seconds to catch up!

So when everyone looked around, his mind had already been estimated from the first wave of induction.

If you fly with everyone, you can’t escape!

As for the cloud disc, the speed is fast enough, but the specific manipulation of the above, can not be seven people at a time, it is still unclear, there can be no delay in this case.

Seven people fled in different directions, perhaps someone could escape, including himself or with confidence to escape.

But as long as someone dies or even gets hurt, this is a failed trial.

In just one second, Shen Lang's mind had already flashed a lot of thoughts quickly. When they asked, he was not tangled to escape or fight, but had a specific battle plan.

“Play your strongest fighting power!”

“I and Dorothy are the main players!”

“Yu Yu Xiao Meng guarantees safety from the side to help the attack!”

“Joe brother Nan Xionggong is a long-distance interference attack!”

Shen Lang did not answer their inquiries, directly issued a command, and he himself was also quickly armed.

In addition to his body has been super invincible and powerful, but also the use of “King Kong is not bad body power”, plus a layer of bodyguards, after the last damage to the holy armor, he did not rely on it.

In addition, there is also a giant sword in the hand!

As a leader, Shen Lang must protect everyone's life, but first of all, protect your life!

So whether they can't listen to the order or react fast enough, he first prepares the strongest arm.

Zheng Yumeng saw this posture and knew that this was not something she could cope with. She almost never saw Shen Lang so eagerly waiting for it, and did not deal with Tang Banshan.

Therefore, she does not dare to be willful, and even dare not use such a time to train, decisively switch to bleak!

Their two souls have been working hard to communicate, and the results are quite effective.

“The cool sister is leaning on you!”

After taking out the Qiu Shui sword and sending out this strong signal, I also quickly shared all the memory efforts.

Dorothy also entered the battle state immediately.

The two of them have had combat experience with Shen Lang, so they can cooperate with each other and listen to his orders without any doubt.

Others have to be slow for a while, the fastest response, but the weakest canoe!

In the end, the canoe was the head of the palace. The responsibility of the head of the party made her far more mature than her peers. It was the weakest one. There was no bargaining place, so I immediately obeyed the order.

The slender chain that was used in the past with Shen Lang appeared in her hand.

Shen Lang is actually not aimless, let them interfere with the attack in three distant places, in addition to their weaker strength, but also because they are not familiar with Qiaonan.

The canoe was because she had seen her weapon, and the slender chain was several tens of meters long, which helped her to attack from a distance.

Of course, compared to the huge body of swallowing the sky, this remote is only close to them.

Falling rain is also immediately into combat, she has not encountered such a battle for a long time, must go all out.

Although Qiao Shuyu and Nan Yiye immediately took out their weapons and prepared for the battle.

But for decades of everyday habits, they are still talking at key moments.

“Shen brother! It should let the girls attack from a distance.”

“Yes! We can also attack the main force!”

What appeared in the hands of Qiao Shuyu is a square painting, with his body momentum, it is very powerful, and the main attack is indeed very handsome.

From the heavy and incomparable Juyue sword to the weapon of Fang Tianhua, it shows that the Beihai Qiao family has always been focused on the power of the fierce attack.

The weapon in the hands of Nan Yiye is much more exquisite.

It's a pair of gold rings. I don't know what material is made, but it seems to be suitable for long-term investment, like the 乾圈 circle.

The speed of Shen Lang's command is very fast, and the speed of speech reaches the limit.

But that is the time that everyone is slightly prepared, and when Nanqiao talks, there is no time to pay attention to them.

The swallowing scorpion has appeared a few miles away, and even in the dark, it can clearly recognize its huge body shape.

It didn't jump at all, it's not a slamming hill, it's destroying a large tower of towering trees, and its destructive power is amazing.

And now the remaining distance is estimated to be the distance it skipped!

“Desperate!”

“Life!”

Shen Lang had no time to pay attention to Qiao Shuyu. They only slammed two sentences quickly, and they took Dorothy directly to the front.

The scene is that they have the strongest fighting power, they must be involved in the front of the swallow, or else it will be overwhelmed by it, directly let everyone mess up.

Desolation “on the line”, took over the body of Zheng Yumeng, shared the memory of Zheng Yumeng, and let her immediately understand how severe the scene is.

And swallowing the sky is already in front of her, she immediately grasped the arrangement of Shen Lang, quickly flew to the right side of the oblique side, from the side.

At the rain, I saw and quickly took action, and immediately flew out to the left.

The canoe was the magic weapon that drove the ice palace. It was the rain that flew to Yunzhou that year and just saved the Shenlang. This danger is to make her use.

She flew into the air, a higher distance than swallowing the sky, the chains flying in the air, looking for opportunities, ready to attack the swallowing eyes.

Two people, Joe Shuyu and Nanyiye, are very embarrassed!

Originally, I wanted to ask for the main attack, but now everyone is moving, and no one cares about the feelings of their two sons.

At this time, it is not the time for the imbalance of psychological balance. Two people can only follow the orders of Shen Lang and join the ranks of long-range interference attacks.

Chapter 614 - Rage first battle

The swallowing of the sky is undoubtedly wise, but it has not been awakened for a long time, and of course the experience is also lacking.

It just paused for a moment, and it seems that it's how to devour all of them in one fell swoop.

When Shen Lang and Dorothy rushed over, the swallowing scorpion jumped up again!

Its jumping is a leap of a mountain!

The man who flew past the heights of the sky was not close to it. When he saw it jumped up, he quickly pulled his body up, or else he flew out without even swallowing her.

What kind of experience would it be when it was hit by a mountain?

It jumped up very fast, and when it was time, it had already met with Shen Lang and Dorothy who had leaped over and attacked.

Dorothy is very fast, and the turning point falls to the top of its head. The fingers appear claws and catch it directly to the cortex of its head!

She is trying to see how the skin of the swallowing skin meets, and also to let the body hang on top of it.

Shen Lang did not leave, but still quickly ran into his body, the giant Yue sword in his hand, has been slammed out!

Juyue Sword is not relying on sharp swordsmanship, but a heavy and powerful force to suppress.

However, in fact, if you attack the swallows, you will not have an advantage. It is tantamount to hard-hitting and confronting the strengths of others.

When Shen Lang's body is still a few tens of meters away from swallowing the sky, a forefoot of the swallow has already been photographed!

Dorothy and Shenlang are speeding away, but Dorothy is at the top of the head, and Shen Lang is in front of it.

Swallowing Scorpio has a great degree of self-confidence for its own physical strength, and is not in a hurry, but is fighting for a sword and a sword, but also pinching the death!

So it took the empty forefoot and received it straight back and pressed it in front of him.

Its forefoot is huge, and the driving wind has blocked the surrounding space. If the Shenlang does not hurry to escape, if you want to continue to slash the past, you will be photographed by the palm of your hand!

Besides, other people are a little slower than Shen Lang. After their two frontal main attacks, they immediately attacked according to his plan.

The main force, and the desolation is headed!

Desolation came from the right side, people have not arrived, Qiu Shuijian has drawn a series of swords, and directly hit the swallowing body.

Because the goal is huge, she doesn't even need to aim, just need to be fast enough and attack as much as possible!

On the other side of the rain, there is no weapon in his hand, but in her hand, there is a flower next to the sky!

These ice flowers have grown from small to large, and have been completely shot at the eyes of swallowing the sky!

The canoe in the air, although not yet stabilized, is also trying to use chains to attack its eyes.

Seeing that the girls are so fierce, Joe Shu Yu and Nan Yiye are two, of course, not to be willing.

This is the first battle. If you don't establish a brave image, these two older brothers will be embarrassed in the future.

The two golden rings in the hands of Nan Yiye also chose to attack the eyes of swallowing the sky!

There is no doubt that the bulging eyes are both the target of a better attack and a vulnerable place.

Qiao Shuyu is adventurously flying from below, ready to use the square painting to poke the swallowing ass!

Everyone is trying to attack as hard as possible in accordance with their own experience.

But there is still a deviation!

The speed of swallowing is very fast!

Their attacks are when it jumps up in the air, and their attack can't keep up with its jumping speed.

So when it was once again landing on a large forest, whether it was ice or gold ring, or chain, the attack was completely lost.

And in the lower part of Joe Shuyu, it is almost scared to death!

The \*\*\*\* is not poked, but it is almost under the pressure of the mountain!

With such a huge swallow, the square painting in his hand will definitely be poked, but it is hard to say if the poke is still broken. And he must be crushed to death, and it is very likely that he will be directly crushed.

It was not until this time that he realized how accurate the arrangement of Shen Lang was!

I finally realized that the positive attacks on people are even more dangerous. They need to be stronger, not arrogant.

Qiao Shuyu is below, and he only feels himself.

Everyone else was shocked at this moment!

Because the rain and the sorrow are separated from each other on the left and right, when the face is flying fast, you can also dodge to the side. The South One Leaf and the Canoe are attacks that are kept in the air.

But Shen Lang is facing the front of the swallowing sky!

The speed of Shen Langfei's past is very fast. The speed of swallowing the sky is also huge, so he can't dodge it. The front is the impact, and the back is covered by the huge forefoot!

The other people were immediately blocked by the mountain body and the huge forefoot. They could not see the situation of the sinking waves. They could only be sure that he was swallowed in front of it!

This guy can shovel the hawthorn to a large piece with a shovel on his tongue. The consequences of this shot...

Dorothy at the top of the head also found this problem. Her claws caught a few inches, but they only hung people on the epidermis, and did not hurt the swallowed leather.

At this moment, I was worried about the situation of Shen Lang. She swiftly slipped into the eye of one of the swallows, and then quickly punched out and screamed at her eyes!

Dorothy is now comparable to the power of the gods. Every punch is fierce and fierce. This is a more crazy blow than the hammer, so that swallowing the sky has to be closed after the first one. This one eye.

But its skin is really super anti-play, after closing your eyes, hitting the eyelids, it has not cared so much.

Was it taken in the chest of the chest, as seriously worried as everyone worried?

Standing on the chest of the giant Yuejian sword to swallow the sky, Shen Lang will be psychologically prepared.

The forefoot is followed from behind, and of course he is also clear. If you want to dodge, it is natural.

But he is going to take this risk!

This guy's defense ability is against the sky, the power is huge, and the speed is very fast. There is no weakness. If you don't risk close killing, you will soon be broken by one by one!

When Juyue Sword took great strength and reached the front of the fleshy meat there was no damage, so Shen Lang understood the toughness of its flesh.

At this moment, he did not evade escape, but changed the backup plan!

Between the electric and the flint, Shen Lang completed a program switch at a very fast speed, turning around and letting himself back against the swallowing chest!

Its body's fast-moving impact is a big impulse, but if it fits at the same speed, it is a "backing".

After leaning against the swallowing chest, Shen Lang is holding the Juyue sword forward quickly!

That is, let the forefoot that has been photographed in front of the hurricane, and shoot it directly on the Juyue Sword!

Chapter 615 - bloodletting!

In the shape of swallowing the sky, its palms are shot at the Juyue Sword. Although it is not like a person taking a needle, it is also a degree of shot to a nail.

It was shot back by itself, and it was intended to kill Shen Lang. Of course, it would not be merciless.

One thing that Shen Lang needs to pay attention to is to firmly grasp Juyue Sword so that it will not be shot out.

If you just smashed and flew, no matter whether it is a nail or a needle, the damage is not big. Only let it penetrate into it can achieve the effect.

Behind it is a solid backing, and at the crucial moment, Shen Lang has brought the power of the whole body to the extreme, and then used the "Da Shoulong Dragon Like a Power"!

Under this state, let alone only take a positive shot, even if you swallow the sky from the side, he has the confidence to seize the same!

When the body landed, everyone saw that Shen Lang was photographed on its chest.

In fact, Shen Lang still retains a crack and has not been photographed as a patties.

And as he expected, the Juyue Sword is like a nail, and he was swallowed into his forefoot!

The pain that penetrated into the flesh also made it instinctively stop the force, so the distance between the two was kept.

After piercing the tough outer skin, Shen Lang also screamed and used the “Da Shou Mi Long Xiang Shen Gong” to swiftly wave the heavy and huge sword!

He did not pull out the sword, and every dance was equal to stirring in the flesh of its forefoot!

However, it was only a few times to complete it, because the swallowing scorpion immediately opened the big mouth like the wall of the city wall, and the tongue in the mouth was quickly shoveled down!

Just like eating a mosquito, if its tongue is covered with a swell, it will not give him a chance to escape, and it will be swallowed in the throat!

Shen Lang quickly pulled out the sword and went up!

This is the last blow, neither in the middle nor in the middle. His body has fallen quickly, falling from the crack in the forefoot, and then the cloud disc that has already been prepared, and immediately flies away with him!

Swallowing a scream of “咕-!”, just a sword from the Juyue sword, although it did not completely break its tongue, but also hurt its tongue.

The one eye that was closed evenly opened directly, and the \*\*\*\*\* red eyeballs glared at the traces of the deep waves.

Such a small creature can actually hurt it and let it move.

Seeing that Shen Lang has flown out, no matter whether it is injured or not, at least there will be no danger to life. Everyone is cheering.

And Dorothy, who is hitting her eyes, just felt the \*\*\*\* temper, and immediately gave up the eyes that had no effect on the attack. Instead, she quickly vented the blood from the forefoot and absorbed the blood of the swallowing!

For swallowing, this is just a breach of the forefoot. But for Dorothy, it was a nearly one-foot wound that was twisted by Shen Lang, and the blood vessels inside it were also smashed by dancing.

So before she swallows the blood, she \*\*\*\* blood from this place!

Absorbing blood is not only a good resource for her own, but also a way to weaken her combat effectiveness.

This swallowing has proved its power and wants to hurt it externally, even if it is not easy. It's hard to get a wound from the adventure, and of course she has to seize this opportunity.

In fact, swallowing the sky will give her a chance of a second or two!

When she condensed a \*\*\*\* ball, the swallowing tongue had swiftly rolled over her head. At the same time, another forefoot slammed over to the top of the head and covered it.

“keep going!”

Driving the cloud disk turned a bit, out of the dangerous sinking waves, seeing everyone are stunned, and quickly reminded me.

In fact, everyone is not embarrassed, is worried about his comfort, so even the most experienced bleak, lost a moment.

When I heard him, everyone screamed!

Just sinking the waves is not only safe, but listening to its fury, it should also hurt it.

This greatly encouraged morale.

In the back of the swallowing ass, Joe Shu Yu is not clear about the situation in the front, but the psychological quality of Joe Gongzi is still very good. Since his task is to interfere, it can help this swallow, which is to help the teammates!

So after being lucky, he immediately stood up in the sky, and from the back he slammed into the sky with a huge force!

“Ding—!”

It's like a poke on the stone, so Joe's beam is a little desperate, this guy is too tough!

But he took a sigh of relief and continued to poke quickly. After a second of poke for a second, he was worried that he would crush him back and quickly retreat to keep himself at a safe distance.

When he poked the interference, the sturdy and sturdy autumn water sword, let the body rotate quickly, flying to the side of the swallowing ribs!

The Qiushui sword was originally sharp, but she was afraid of no effect. She formed a spiral force through rapid rotation!

After a while, the Qiu Shui sword is like an electric drill, and it has a wound under the ribs of the swallowing scorpion!

Swallowing the sky, “Hey!” yelled, and the body jumped up.

This time it didn't jump forward, but jumped up, and opened his mouth and rolled his tongue directly to the canoe!

Just now, Dorothy's head was very fast, and its tongue and forefoot did not hit her. She ran down its body and absorbed blood at a closer distance.

Now it is so smashed, on the one hand, avoiding the bleak attack, on the one hand, throwing Dorothy down, and then swallowing the canoe!

The ice palace's flying magic weapon, the grade is also limited, in front of Chu Yuxiong, you can calmly save people to leave. But in front of this swallowing, it seems too slow!

The rain fell and screamed, she was already unable to rescue, only a series of ice flowers hit the tongue in the air, hoping to have the role of Wei Wei Zhao.

Dorothy ran down the top of his body from the top of his head. It was originally close to the blood that sucked the forefoot wound in the past, but it has a strong ability to stop bleeding. After a little absorption, the effect has been greatly reduced.

After seeing the wounds made by Desolation, immediately ran to the wound under the ribs. She was bent on sucking blood to reduce the fighting power of swallowing the sky, and she did not care about the canoe in the air.

Desolation is trying to make a bigger wound. After it is picked up, it is like being shackled under the rain. It is too late to rescue the canoe in the air.

Qiao Shuyu is behind. When it picks up, I see this situation from below, but if I want to rescue, it is too far.

What Nanyue can do is the same as falling rain, using the golden ring to attack the sticking out tongue, hoping to fight back.

It is a pity that the power of the Golden Ring and the ice flower is not to be said, but the speed is too late to organize the swallowing of the tongue that can shovel the mountain!

Chapter 616 - Life and death

The canoe itself can only fly away desperately, and then solemnly control the chain in her hand. She is ready to use the chain to wrap the tongue at a critical time.

If necessary, give up the chain and escape!

In fact, it is only a matter of moments when she comes to her. No matter what she does or what she wants, she is just doing her best. Can she do it, it is not something she can control.

Can someone save the canoe?

Shen Lang!

When everyone is holding their breath, there is a person in the mind – Shen Lang!

Shen Lang is a person who has created many miracles. If he can't save the canoe, then she is hanging here today.

When Shen Lang was just letting everyone continue to attack, he himself flew up in the air and waited for an attack.

This sudden change made him a little too unprepared. I didn't expect this swallowing to actually make a few moves.

Fortunately, he is now driving the cloud!

Qiao's family exchanged the cloud disc with him because of its speed and hope that he could help him escape as much as possible in the battle with the ally.

Just after he flew away from the swallows, it was the cloud disc, and the effect was very good.

Shen Lang has just waited for an opportunity to move. It is a process of looking at the overall situation. Of course, the crisis of the canoe was discovered earlier than others.

When other people were helpless, when the rain fell and the south one leaves Wei Wei Zhao, Shen Lang drove the cloud disc, and had already arrived at the side of the canoe!

He rushed straight past, hugged her in the air, and then quickly flew out a few hundred meters in the direction.

At that moment, he had already felt the sharp wind blowing behind him, apparently only being attacked a little bit worse.

The raft that was held by Shen Lang was soft, and I thought it was dead. I didn't expect it to be saved.

However, she was held by Shen Lang, and the Shen Lang flew over and continued to fly forward. She saw the situation behind.

“Catch up!”

Shen Lang felt the strong wind from the tongue behind him, but did not expect that he did not retract in a single hit, but he chased it!

And swallowing the sky in the air, I recognized Shen Lang, the person who just injured him. So not only the tongue chased it, but also did not land in the same place, but in the air, flew directly to the side of the sinking waves!

Haven't rushed yet, its mouth is wide open, and it starts to \*\*\*\* in abruptly!

For a time, it became a triple attack. The front is the tongue. If it is rolled up, the consequences will be unimaginable. The second one is the inhalation of the mouth. If it is close, it will be inhaled directly.

The third weight is that the body is swiftly swiping, can swallow the mouth, can also slap the forefoot, the worst can also use the volume to press people.

Shen Lang is still flying fast, and the speed of swallowing has already been experienced. If it is not a cloud disc, the \*\*\*\* boat has already been caught by it.

But now the pressure behind him, he still feels clearly.

At the time of life and death, there is no other person who can rely on Shen Lang. Even if Dorothy and Desolation can hurt it, it can't be knocked down and killed in a short time, and nothing can be changed!

If you continue this way, the canoe will be swallowed and become both of them being swallowed together!

“go!”

Shen Lang quickly said, throwing out the canoe and slamming it up!

Throwing to the sides with a huge volume of swallowing, will not be waiting for her to leave, it will be hit. Needless to say to the ground, he was directly trampled to death. Going forward is also a dead end, only throwing it up.

She also has a flying magic weapon, and she will not fall to the ground in this air.

Of course, the key thing is that Shen Lang will not give the opportunity to swallow the sky again!

The action of throwing out the canoe left him a little slow, and the tongue shook the waves!

The people who chased from both sides, as well as the canoe that was thrown into the air, could not help but exclaim.

Shen Lang is the leader and the core. If he is swallowed, others will find it difficult to survive.

Dorothy, falling rain and desolate, and the relationship with Shen Lang are extraordinary, naturally it is red eyes, eager to save him regardless of his life.

But because this swallowing sky is too big, it is picked up in the air, they are below, it is simply too late. The only thing that can be done is to save Wei Zhao!

Falling rain and madness hit the ice, and the coolness is a violent scream, directly close to the swallowing scorpion, Qiu Shuijian deeply penetrated into the body, then flew up with the sword, and cut a hole in it Mouth!

Dorothy has just ran down from the top down to the mouth of the bleak, condensing blood, and now the crazy hands are inserted into the wound, and the wound is torn apart!

The canoe that was thrown up in the air, looking at the scattered waves, was blank in his mind.

It should have been her swallowing!

Because she dragged her hind legs, and Shen Lang just used his own life to change her life!

If it rains, she can understand it, but for her, Shen Lang can do the same, let her be really embarrassed!

When a few of them desperately attacked and wanted to attract swallows to attack them, the swallowing tongue had quickly shrunk back, and the sinking waves directly entered its mouth.

Since Shen Lang made this decision, he will ignore his own life.

It's not that the canoe is not worth saving, but that he has other plans to throw her away!

Of course, he did not dare to say absolute grasp, just a risky plan.

Just one adventure, let them hurt this for the first time.

And now this time, he decided to play bigger!

The story of Sun Wukong can be worth learning.

Of course, Sun Wukong was swallowed into the belly of the iron fan, and he could pull the liver and beat the heart. It is no doubt that there was no anatomy in ancient times, and the novelists still don't understand these common senses.

Being swallowed in the "belly" is a general statement, specifically in the stomach.

With this swallowing size, its stomach is definitely huge!

It doesn't know how many years it is sucking the wind and drinking dew to absorb the essence of aura, and does not eat any living things, nor what the stomach is now. If it is already degraded, it is good and safe.

If it is concentrated for thousands of years of gastric juice it is more troublesome, if it is contaminated, it will corrode.

However, Shen Lang did not want to be swallowed into the stomach!

When he was caught, he was ready for the Juyue Sword. When he was retracted into his mouth, his hands were lucky, and he was forced to put the Juyue Sword on his tongue. The hilt.

The swallowing of the sky will take the Shenlang roll, just like the common cockroach eating mosquitoes, it will be swallowed directly. However, when I swallowed my mouth, I found that my tongue was pinned by the shackles. Not only was it painful, but it was impossible to swallow people.

The sword is completely out of the tongue, and the sinking wave is holding the sword. It has to swallow the sinking waves and has to swallow the tongue...

Chapter 617 - Anti-seeking

Of course, at this time, the tongue mouth also has a large amount of saliva mucus secreted, almost wrapping the waves.

However, Shen Lang formed a protective cover around, which is close to the body.

Shen Lang just grabbed the hilt with one hand, and when the body was shaken and moved, his feet kicked out vigorously.

The other hand is a large number of three real fires that have been condensed in the mouth of the swallowing mouth!

In addition to the flame, he also refers to the sword, a sword is rampant!

The powerful defense of swallowing the sky is due to the thick tough outer skin. Now in the mouth, there is no such advantage.

Therefore, after insisting for a few seconds, the swallowing scorpion that had already landed, opened his mouth and spit out his tongue, proactively releasing the swell.

But please God is easy to send God!

Is it easy to catch such an opportunity, can you let go?

When the tongue spit out straight, he quickly stepped on his tongue and then took a slap in the face, grabbed the giant sword in his hand, and ran quickly in the direction of his mouth!

“brush—!”

Although Juyue Sword can't pierce its huge tongue, it is also very deep, and at this moment it is a crack of a few meters!

Dorothy, Desolation, they were desperately attacking, trying to attract swallows to attack them. At this moment, they found that Shen Lang was not swallowed, and they continued to shoot. They were all spirited and immediately continued to attack. Helping Shen Lang play a role of interference.

Qiao Shuyu, their southern leaves, are also coming back, and continue to maintain the distance of the attack, but their attack has no effect, even the interference is not.

“Hey!”

The swallowing of the sky can not stand the waves, the pain of the tongue, let it start to mad, and the palms began to slap quickly, forced to stagnate and fall rain have to retreat a long distance.

But Dorothy is staring at it, squatting fast enough, and the claws are fixed, moving quickly on its body, not only not being driven away, but also the cracks that have just been cut off, and then along Tear to a few feet wide!

A lot of blood was condensed by her, and it became a blood cell.

“broken!”

Shen Lang violently drank a body and grabbed the giant Yue sword. In the place where he had just opened a few meters, he once again crossed the past!

Because there are already a few feet deep cracks, let him directly press into the tongue this time, finally pierced the tongue, and crossed a few meters!

At the same time, when the forefoot was once again photographed, Dorothy had a kind of learning, and directly tore the wound, the whole person got into the wound!

This shot, not only did not hurt her, but sent her deeper.

For the blood of the wound, she is like a fish, directly grabbing the blood vessels while sucking, while condensing the blood ball!

I didn't think about how to swallow the scorpion. Actually, there is such an operation. It stops bleeding at a fast speed, and it can't stop pulling the blood vessels directly.

Even with its huge size, it also feels obvious blood loss...

After suffering these injuries, swallowing the sky is very angry, but wisdom makes it decide to give up.

Compared with eating these human tonics, it is still safe first!

So when Shen Lang pierced the tongue, it also felt a relief – this is finally not wrapped around his tongue!

Then I was afraid that the waves would come again, and I quickly shrank my tongue back, tightly closed my mouth and stopped talking.

As a result, the only one who is still attacking him is Dorothy. Others are not worried.

For this guy who hides in its wounds like a grasshopper, it decides to deal with it again, so he turns quickly and then jumps in the direction of the direction!

The whole process has not been maintained for too long, but it is a battle of life and death. Seeing this huge enemy retreat, Qiao Shuyu and Nan Yiye are all relieved.

At this moment, they have not dared to play the idea of Nei Dan, can let it retire, everyone is fine, it is fortunate. The scene that just fell into the canoe and the sinking waves, but they were all shocked.

But this time, the scene that shocked them has appeared again!

Shen Lang, who is not afraid of death, even chased it out!

Then I saw “Zheng Yu Meng” also chased out!

Then it was raining and chasing it!

From the air, the canoe, and seeing the waves, they all went. Even if they were guilty, they had to bite their teeth to keep up, or else they were too loyal.

Other girls have followed, what can Joe and Nangong say?

Can only catch up with the scalp.

It's a few miles away to swallow a scorpion, so the speed and distance, and the pursuit of them immediately opened the gap. The first is Shen Lang. Under the blessing of the cloud disc, when its second jump has not yet begun, it has already caught up, and then directly stands on its head.

The bleak and falling rains are chasing by themselves, and they are a bit worse, and if they jump a few times, they will open very far.

Then it is the use of the flying magic boat, the two sons are also using the flying magic weapon, the three of them will soon surpass the bleak and falling rain.

Shen Lang is chasing after him, of course not for its inner Dan, but because Dorothy is still on it!

It just turned around and left, just because they didn't kill and let it feel the threat, it didn't mean it really lost.

After waiting for it, only Dorothy is alone, and the trouble is big!

When Shen Lang fell on the top of the swallowing sky, the knowledge of the gods had confirmed the safety of Dorothy, and it was temporarily relieved.

Since she has caught up, she must save Dorothy, and she is now hiding in the wound and sucking blood. It is estimated that she will not be able to come out at any time.

Even if you can't take all the benefits of Nedan and get some blood, it is also a big gain for Dorothy.

But as long as the swallows stop and use the forefoot to go to the bruise, she is in trouble.

In order to relieve her pressure, she can absorb more blood, and Shen Lang began his movements.

Ju Yuejian is in his hands. He hasn't really played out the strength it should have. Although it's just a meritorious deed, it's a bit wrong!

To this end, Shen Lang stood on the top of the swallowing sky. When it jumped up again, it used the "Da Shoulong dragon like a magical power" and directly swung the sword to one of its eyes. Falling down!

Such power, let the swallows feel the crisis, it speeds up, want to avoid the shock of the waves.

But Shen Lang did not attack it in the air, but on top of it, stepping on its head before rushing to the eye.

Because its head is big enough, let the sinking waves be flat on the top, and will not fall down casually. And he also used the “Phantom Meteor Step”, even if it jumps, or shoots with the forefoot, it will not affect him.

“Hey-!”

When Ju Yuejian opened the eyes with a diameter of more than ten meters, a loud noise was heard and a large amount of liquid collapsed!

Chapter 618 - 1 person's kill

Swallowing a scream!

The injury just now is still a small problem for it. It takes a little time to carefully recover it.

But if one eye is smashed, it can't be recovered!

This also makes it crazy!

Since Shen Lang died and nailed it down, it turned over!

A jump, let the mountain's body leap into the air, then quickly spin in the air for a few weeks, then planted to the ground.

Every time it jumped to the ground, it could tremble on the ground. This leaps and falls after the rotation in the air. It directly crushed many big trees, and the nearby birds and beasts fled with trepidation.

But what makes it very depressed is that it can be clearly felt that Shen Lang did not leave his body, still on top of his head!

That's right!

Shen Lang has just smashed one of its eyeballs. After feeling its intention, he inserted the Juyue sword directly on the edge of its broken eyeball and then grasped the hilt, so the body just flipped in the air several times.

In the swallowing of the sky, the whole head hit the mountain in the past, it is ready to hit the head into the mountain, buried the sinking waves inside!

Shen Lang also shot at the same time!

The Juyue Sword was revived and then screamed with incomparable power and slashed directly into another eye!

Just one eye injury has already made the swallows have a huge sense of crisis. Once again, they closed their eyes.

The eyelids are much thicker, although they have been cracked by Juyuejian, but they have not hurt the eyeballs.

At this time, its head has already hit the mountain with a sinking wave!

The collision of the mountain directly caused a roar, and it spread far away, alarming more birds and beasts.

The two people behind them also chased closer, and saw that Shen Lang's fight on the swallowing head was all sweating for him.

If the whole person is hit into the mountain, it will not only hit the earth, but also go deep into it, hitting the rock without knowing how many layers!

Even if it is a copper-iron bone, it is estimated that it will hit seven hundred and eight.

But what they saw was that after swallowing the mountain, they swallowed their heads and then made a "hey!"

What about Shen Lang?

Has Shen Lang been killed by it in the mountain?

They are worried, but one is still a little distance, the other one is Shen Langshang and so, they arrived, and only sent points of death!

After a while, their hanging hearts were put down.

Because swallowing the sky is shaking his head desperately, and Shen Lang, it is the person in its smashed eyes!

At the moment of the impact, Shen Lang directly entered the wound of his eyes, so that its head is his protective shell, and as it retracts its head, it can immediately follow.

When he was inside the eyeball, he also quickly waved the giant sword, and constantly digging the eye into the depths!

This is why the swallowing of the sky is so fast, it is also why it is gimmick.

However, after discovering that it was impossible to take out the smashing waves, it immediately extended its forefoot and directly grabbed the eyes that had already been smashed, and directly dig out the swells in the eyeballs!

The attitude of such a strong man's broken wrist has to be moved.

Shen Lang's knowledge of the situation is based on the surrounding situation. After discovering this, I understand that once I am caught by it, I definitely don't want to live. So he quickly swung the sword and went straight inside!

Of course, there is no copper-iron bone in the depths of the eyeball. Under the swing of Juyuejian, it is basically like cutting tofu. It has just been dug up a lot. This is almost the same as digging through, let him go inside.

The swallowing of the sky was only the eyeball that it had already smashed, and it did not move the waves.

After deepening into the inside, Shen Lang opened up and closed, and quickly swept the sword, no matter what vascular nerves, or other things, all cut off!

Whether it is to the brain, to the mouth, or to another eye, all the cuts!

At the end of the day, he also made the body spin quickly like the previous bleak, and the Juyue Sword turned into a super electric drill, and the king directly drilled it over the head!

When he got into a place and found a large number of suspected brains, he quickly took the storage bracelet inside!

The head of the swallowing is huge, and the deep waves seem to be drilling a cave in a mountain. Outside, I saw the crazy dance of swallowing the sky, but I couldn't force the sinking waves. It was head-on collision with the ground, trees, and mountain walls, as if it were crazy.

This is a bleak, not dare to approach, waving in the distance to stop everyone, do not approach the past.

She can sense that Shen Lang is not dangerous. It should be when the attack is effective. Now everyone is going to go, but it may help.

On the other side, Dorothy is also following the blood vessels and desperately excavating in the wound. The madness of the recent shaking of the mountain made her very helpless. She thought that she wanted to force her out, only to grasp the blood vessels.

When Shen Lang did not empty all the brains, the swallowing scorpion was also heavily smashed on the ground.

The shock of the earthquake just now made everyone scared. All the living creatures nearby are escaping wildly.

In the depths of the dead forest, there is also a powerful beast that is watching the changes here.

After hunting the brain, Shen Lang felt that it had no movement, began to slash all the way, and then searched for a huge inner Dan. After it was obtained, he opened a hole from the inside out with Juyue Sword. Came out!

“Shen Lang!”

The rain screamed and cheered, and everyone cheered.

Just Shen Lang, this is a person who has swallowed into the head of the swallowing scorpion and killed the hill-like swallowing scorpion!

If it is just the time to swallow the scorio, Shen Lang kills it alone, and Qiao Shuyu is one of them. It will definitely not be too moving even think they can do it. This is the act of robbing credit.

However, after everyone’s seven human-powered battles, they almost died. After they struggled to attack, they could not hurt it. Only then did they understand how difficult it was.

For Shen Lang, I also sincerely admire.

At this time, let alone the inner Dan, even if Shen Lang does not allocate a little resources to them, they have nothing to say.

“I finally killed it. It was too big. It can be known hundreds of miles away. We must hurry to clean the scene!”

Shen Lang is not polite with them, the direct command: “Everyone works together! This resource is enough, I want to take what I want to break. As much as possible, I have already taken Nedan!”

Chapter 619 - The first big harvest

I heard that Shen Langming said that he had taken Nei Dan. Some of them did not respond. Qiao Shuyu and Nan Yiye could not help but regret it.

However, they are just envious of the eyes, just the people who are desperately desperate, and there is nothing dissatisfied.

This is a special situation. In this dark night, if you attract more high-level beasts, then everyone can’t go.

So they didn't have anything to offer, and they immediately started to act.

Qiao Shuyu and Nan Yiye are very experienced. They have already started searching for myelin before falling into the canoe and the sisters and the desolation.

That is not as good as Nedan, but it is also the most important in terms of cost performance.

They soon discovered that the brain has also been taken away by the waves, and they can only retreat to the next level, but because of the huge, the spinal cord also made them a lot.

Shen Lang has just been a force, so you can take the big head without politeness.

However, the role of the two of them is limited. Naturally, it is not good to take them all. After taking them with the bottles, they are equally divided.

Shen Lang does not want to, and Dorothy needs only blood. So they are divided into five people, and the harvest is not small.

In addition to the most important ones, the others are a bit sloppy.

This swallowed meat is no one interested in it. Various viscera naturally have no small medicinal value, but the block is not small, it occupies the place, and it is not too small to want to take it out.

Its skin is very strong, used to make armor protective gear, it is really able to pass the family.

But because the scale is too big, it is impossible to bring all the skins back, it is too occupied, and the stripping process is very time consuming.

Even if everyone has a magic weapon, space is limited and must be used to store more important things.

But this is the first harvest, and everyone is still the most interested time. Just like traveling, I always took a lot of pictures at the beginning, and when I saw more beautiful scenery in the back, I carefully selected them before I took them.

Now that the light is myelin, it can't be comforted by everyone, so under the guidance of Shen Lang, several people have cut a layer of skin in the abdomen.

The reason why I chose the abdomen is because the back is too hard!

It is not easy to strip it, it is not easy to bring it back, and it may be broken because it is strong. It is the abdomen, it is softer, it can be made better, and the degree of protection is also very good.

In this process, in addition to pointing out their points, Shen Lang did not mention Ju Yuejian to help them do their hard work.

It's not that there's a core boss's pretending fan, nor is it just tired.

Instead, as a leader, he must have the responsibility of the leader, and put his mind on the defense. God should explore as far as possible, what is moving, know as soon as possible, and make judgments.

Falling rain and falling canoe are a bit embarrassing. On the one hand, they don't have weapons to slash and slash. On the other hand, there is no such experience, and the ice palace has always been reserved.

However, Qiao Shuyu just can reasonably give due diligence, and Fang Tian's paintings, which have not played any role before, are used to be powerful.

And the rain is the bleak to help her busy, with a bleak base, the sword is like a god, before the live swallowing, you can pierce the scratch, let alone just peeling.

It's just that she has become a cool and capable style, completely different from Zheng Yumeng before, and everyone is a little surprised.

Dorothy is not to mention, from the beginning to the end is a fast blood-sucking!

Before, she wanted to reduce the swallowing power through such bloodletting. But the other party is too big, the blood is enough, and the time they really fight is very short, and it will not affect it.

After she fell, she didn't need to \*\*\*\* any more blood. It was too much trouble to temporarily \*\*\*\* blood. Now is the blood-staining blood ball, these highly concentrated blood cells, can let her slowly absorb later.

The whole process lasted for a long time, and when they were all finished, Dorothy was still reluctant to come out...

Shen Lang is concerned about the big environment, because all the living things in the vicinity have escaped as far as possible, except for the night wind, it is completely dead.

With the current realm of Shen Lang, it is naturally impossible to sense a few hundred miles away.

But he still has such a feeling, as if in the depths of the forest hundreds of miles away, there are some things that the high-level beasts have sensed the changes here, paying attention to this side!

In general, there is no danger of approaching for the time being, and he can only allow everyone to continue.

When Dorothy sucked the blood seven or eighty-eight, because a lot of water was also stripped and lost in the process, the hill swallowed the sky, and it was soft, and there was a certain degree of dryness.

"The harvest is not small?" Looking at a \*\*\*\* Dorothy, Shen Lang tweeted.

Dorothy saw everyone waiting for her, a little embarrassed smile.

"You wait, I change a suit."

She immediately flew into the darkness, and after a while, she had washed and changed her clothes back.

Although in the presence of so many people, she is a vampire, not so good about blood-sucking things, but Shen Lang from her expression, know that these blood is a huge gain for her.

In the past few days, she got the blood of Tang Banshan, Matthew, and Thomas, who had survived the peak of the real world, and advanced and upgraded to achieve the strength comparable to the humanized god.

But the more advanced the motor, the more power support is needed.

It was only after a bitter drink that she really stabilized her, and these resources should be enough for her for a long time.

“Shen brother, are we leaving here now?”

“According to what you said... The night is not convenient, we should stop and rest first?”

Before Joe Yu and Nan Yiye did not play the main role in the battle, they could not add a little speech on the itinerary.

In fact, this time, they have completely admire Shen Lang, that is, the son of the brothers are also used to collect, not subconsciously vying for the right to speak.

But after all, they are the young talents of the millennial family. In the people of the scene, they are also older, always face!

If it's just three of them, but it's all right, it's better to be mentally prepared than it's, and it's not a shame.

But there are four beautiful women present, and nature always wants to show it. There is no advantage in strength, I want to make up for it in other aspects.

Including the previous courtesy of Joe Yu, not only for the boat, but for a few of them.

See everyone saw it Shen Lang smiled and said: “What do you think?”

Just two people have already spoken, and Shen Lang will ask another question. It is obviously not accurate. The two people think about it again.

“We just flew far away and chased it here, so we must first determine the position and there should be no deviation.”

“Fortunately it traces all the way, we can find it back before it!”

Falling rain and falling canoe is not enough experience in this area, do not speak. Dorothy and Zheng Yumeng did not want anything, and completely obeyed the arrangement of Shen Lang.

But now it is bleak, she is seriously thinking and analyzing, and then decisively said: “Guard!”

Chapter 620 - Hiding

Suddenly I heard that “Zheng Yumeng” participated in the comments. Everyone was a bit strange, and the content was actually “guarding”, which made everyone a bit puzzling.

The gaze of Shen Lang’s past approval is very natural. Only the desolate thoughts on the scene can keep up with him.

“Good! Keep it!”

“Shou... stay here? What are you doing?” Everyone wondered, but watching the attitude of Shenlang is not a joke.

The experience and height of everyone are different. Shen Lang can only explain it.

“According to your map, we went to the high-level beasts, and there are about two or three hundred miles. In this dead forest, they are the masters, definitely more understanding of the environment than we do.”

“We haven’t had a big move or a publicity, but it’s not the same. It’s a big move when it wakes up. It’s a big mess to chase us.”

“Plus the battle we just had, its breath, its barking, will spread far away. Outside the range we can’t feel, there is a high probability that a high-level beast will discover the change here!”

When Shen Lang said here, everyone would like to raise the point and understand what it is.

“It makes sense! If high-level beasts are attracted, we don’t have to bother to find them.”

“We are here, we can wait and see, we can lie in sneak attack!”

Both Qiao Yuyu and Nan Yiye were excited. For Zheng Yumeng (Desolation), they could not help but look a bit higher.

Originally for Zheng Yumeng, they all felt that relying on the relationship of Shenlang’s girlfriend, they can now achieve their achievements. They may even get the essence of Shenlang through the double repair method.

The strengths that were revealed during the battle, as well as the current insights, made them look at each other.

Shen Lang looked at the swallowing of the mountains. “This is a huge resource for us. For the senior beasts here, it is also a rare resource for a hundred years!”

The higher the level of the beast, the larger the land, the better the resources. They all have wisdom, not to be forced, and they will not step on the border. After all, the result of the fight is both losses.

Just as Count Dracula had been guarding the golden giant for many years, and no other high-ranking beasts interfered with him because there were no other high-ranking beasts in that area.

The growth of swallowing scorpion is a little different from other beastly beasts. It may be the crouching of thousands of years.

When it first hides there, it may not be strong. After a long period of time, there may not be other high-level beasts who know its existence.

But the violent walk just now spread its information and let other senior beasts discover this situation.

It has now fallen to death, just like a beast, it does not care whether it is the same kind, other beasts, only think of eating it tonic, can practice for decades, or even hundreds of years.

So attractive, even if there is a certain danger, it will make them take risks.

The reason why it has not yet appeared, one should be the relationship of distance, the other, it is estimated that there is still a wait-and-see, so there is no direct rush to come over.

Shen Lang is serious: “The purpose of our coming is clear. Although there is a deviation now, it is actually a good thing. It is more worry-free than we are looking for, and we can have a certain geographical advantage when we guard the ambush here.”

“But the same problem is clear!”

“That is, we may be attacked by the enemy!”

Everyone listened to it first and then reacted.

If you can attract a senior beast, you may also attract two or even ten!

They can't be queued in such a good order, and won't wait for you to pack up for a rest and come back.

If they have the same wisdom as human beings, the normal should be to wait and see before they arrive, do not want to eat crabs first, wait for other beasts to start first, stay behind and cheap!

And they all maintain this mentality, and when they appear more, they feel that they are not enough, they will be rushing to shoot. At that time, it will become multiple parties at the same time, and the seven of them are afraid that they will not be able to escape.

“So I don't have a word about this issue. Let's take a look at it and ask for it. If you have time, we can think about other options.”

After seeing the reasons for Shen Lang, I left the problem to everyone and made them feel helpless.

Qiao Shuyu and Nan Yiye exchanged a look and then took the lead.

“Seeking in the rich and the rich! We are coming to the forest of death, it is a great adventure. Now the opportunity is in front of you, fight it!”

“I agree.”

Originally, Zheng Yumeng’s proposal, coupled with the approval of Shen Lang, is now in favor of both Qiao Shuyu and Nan Yiye. Naturally no one has any other opinions.

Now that it is determined, Shen Lang immediately began to arrange.

This goal is huge. If you really want to keep it, you can do it from a long distance. But there is no value. There are really high-ranking beasts coming. When they come over, they may have ran directly.

Keeping it close, it makes no sense. Because it can’t be dispersed, it is very dangerous. If you concentrate together, you can only swallow a corner around the sky, but you may be attacked by the beast.

In the process of letting everyone speak, Shen Lang has actually begun to deduct in the heart.

After considering it now, he made a direct decision.

“Since you have been asked for wealth, you should treat the most dangerous places as the safest place!”

After talking about Shen Lang, it refers to swallowing the sky: “We are hiding directly in its body!”

This decision made everyone stunned. The first thing that came to mind was that Dorothy was covered in blood.

“They will come, naturally coming to this swallow. So we will not attract them. But when we come, we will see this corpse, but we will check if there is danger nearby!”

“It’s the same for us, the body will stay in the final check.”

“Hiding around, it’s a threat that needs to be solved first – it’s dangerous for us!”

“From a hidden technical point of view this is also a better place to hide around. And the smell of the beast will cover our human breath.”

After Shen Lang finished speaking, he laughed again: “Know what you are worried about. Now hiding in, except for smell and psychological discomfort, there is not much difference with the cave, it will not make you full of blood.”

Because the blood, and even most of the water, has been drained!

“it is good!”

Desolation took the lead and flew directly to the swallowing eyes.

She took the lead and let other people have nothing to say, and quickly searched for a place to fly and hide.
