

First Strong 621

Chapter 621 - Nanjia Huili (on)

After hiding in the body of the swallowing, although everyone had a little discomfort at first, it was like Shen Lang said, it was already dry like a cave, and it was not as difficult as it was imagined.

And the smell of swallowing the sky will really cover up the human breath completely.

Although it was already in the middle of the night, and after a series of escapes and battles, everyone did not sleep and fell asleep.

In addition to being careful of the high-level beasts that may come at any time, today's harvest is also silently organized.

I have never encountered this level of beasts before falling into the boat, and now I silently recall every detail. The swallowing action trajectory, momentum and attacks can give them a great insight.

With the masters, you can bring a lot of inspiration, let alone this life and death contest.

Qiao Shuyu and Nanyi Ye are also. They are shouldering the responsibility of the family. In addition to their own comprehension, they need to describe these as much as possible, and they can have a reference to other family members and future generations.

This makes them need to look at the detailed memories of the memory before it has faded, let yourself deepen the impression, and organize the vocabulary of the description so that after going back, you can repeat it.

Desolation and Dorothy are different.

Dorothy has already absorbed a lot of blood, so the blood of such a high-ranking beast is a big supplement to her. At this moment, I will take time to absorb and digest.

Desolation is very clear, Shen Lang will certainly observe the situation, once a beast comes, he must be the first to discover.

Therefore, they only need to completely obey the arrangements of Shen Lang. At this time, she is not distracted to pay attention to the surrounding movements, directly taking some marrow fluid, and then starting refining.

She lives in Zheng Yumeng's body. Only the stronger the body, the more powerful she can exert, the more she can save her life.

The sinking wave is above the top of the head, inside the hole that was drilled by it.

He did not use the gods to investigate at this time, but used the holy armor!

When the Holy Grate was struck by the Tangshan Mountains, he caused considerable damage, so that he did not dare to use it to fly and defend, so as to avoid unexpected situations.

However, in the end, it is the essence of the city's black technology. Even if it is damaged, there are still many functions that can be used.

For example, the reconnaissance function used now does not require Shen Lang to concentrate on himself. Instead, he can explore a large scope and then connect everything to make him feel.

It is no better than efficiency in his use of God, but it saves his mental power so that he can concentrate on others.

It is a pity that in this dead forest, it is also impossible to connect to the network system of the city-level city. Otherwise, not only the scope of investigation can be larger, but also the complete data analysis of all terrains and enemies can be analyzed in detail. Arrange the response.

For example, how far is the enemy found in a long distance, whether it is to arrange a mech attack, or to directly fly a bomb, etc., can be calculated, and directly manipulated.

The energy from Shenlang Province is also prepared for cultivation!

Originally, he lived in this dead forest for a year and a half, and encountered the greatest danger, or the golden giant ambush of the earliest Count Dracula.

Therefore, let him be somewhat lax in the danger level here. He was prepared to go to the dangerous area where Qiaonan had discovered, and he would be highly alert. I didn't expect a big "surprise" tonight!

Although the harvest is not small, but it was really just to fight for it, a little flash, it may have been shot dead.

So he once again has a greater desire for strength!

If he can be strong enough to easily suppress this swallowing... then the dead forest is also casually walking!

Of course, this is just a yy fantasy. It is imperative now that it is a point that can be improved. At the very least, it must be at its peak.

In the bracelet of Tang Banshan, I found Tang Banshan – or the inner Dan of the Master League collection. Shen Lang did not have his own exclusive, but divided two to the south, and boldly invested in the wind. One fell into the river, and the last one gave the emperor's disciple.

As a result, he has no special resources. So today he will not be modest, and he will directly accept the brain and the inner Dan, and will not give it to anyone.

Thinking of Nei Dan, I remembered that I had to give two Nei Dan in the south. I didn't say anything about the exchange at that time, so they decided to make their own decisions.

And at that time, it was very generous, even the magic weapons they took out on their own initiative, let them look at what he needed, and first sent two inner alchemies.

At that time, Nanyiye left early. This time, Nanyiye also brought the Nantian family to Shenlang.

However, when Shen Lang started with Zheng Yumeng and Dorothy, it was very quick to fall into the canoe, and there was Joe Shuyu. When it was time to meet, it was not convenient to give it directly.

Although he must have a face when he comes out, he does not need this face. Exposing in front of more people, there is the risk of leaking the bottom of the family!

After all, when I talked about it last time, only the same level of the family, Shu Shuyu. The Ice Palace is different. Others are not familiar with him, and even vampires.

So he spoke to Shen Lang and said that when the two people were alone, they would give him the items given by the family.

Shen Lang is also a dagger and said no problem.

Then everyone came to the death forest together, and then continued to hurry.

When camping in the evening, Nan Yiye and Qiao Shuyu hunted wild game, and Shen Lang had a camp. This is an opportunity. However, Nanyiye experienced this environment and was excited. He did not rush back to Shenlang in advance.

Just when Shen Lang was going to take some brain marrow cultivation, I felt that Nanyiye came over.

“Shen brother.” Nan Yiye fell in and took out one thing in his hand.

It was actually a portable charging light, and the hole was illuminated.

Shen Lang smiled and said: “The South Brother is the son of the Nantian family. I thought that you should bring the lighting, it should be the night pearl.”

Nan Yiye can't laugh and cry: “Night Pearl, etc., is a very valuable rarity. It is also a collection of play, and it is too extravagant to take out the field lighting. It is a good energy-saving lamp that consumes a small amount of power for a long time. Hundreds of pieces will not be distressed if they are destroyed.”

After the joke, he immediately arranged a soundproof cover. Everyone is on this hill. Many of the holes are broken by swords. They are all open and can hear.

“The last time I really appreciated the great grace of the sinking brother!” Nan Yiye solemnly glanced.

“Look at you, come again!” Shen Lang shook his head.

“One yard is one yard, you are loyal, I should be grateful, and this is also a thank you for the South.”

Shen Lang smiled and said: “Yes, I have already thanked you. I have accepted it. I don’t need to be polite in the future.”

“I also brought exchange items for my brother at home this time!” Nan Yiye said the topic.

Chapter 622 - Nanjia Huili (below)

After that, Nan Yiye took out a box and held it in his hand, and then sent it to Shen Lang.

“Shen brother, you are so interesting, don’t want us to join the master league, and don’t want us to use the treasure, it really makes me jealous. After going back, I told the family about this situation, and the family also considered something that can be of some use to you. ”

Shen Lang was not polite, picked it up and then opened the box directly.

The box is luxurious and simple, but the things inside are very simple.

“This is a set of flying needles. It can also be regarded as a magic weapon. The grade is not very high. However, when you are in close combat, or when you are trapped in prison, you can have amazing effects.”

This set of things makes Nan Yiye still a bit shy.

People’s swells are enough to say that they can change anything they can’t use, and the family really gives them a magic weapon!

However, thanks to the inspiration of Qiao Jiayun, this also has a good head – practical for Shen Lang, in case of defeat with the Master League Alliance, this flying needle may be able to save lives.

When Shen Lang opened, he smiled. When he saw the things inside, the expression on his face was unchanged.

“Very good, I am also very grateful to the South family for their intentions. This flying needle does have a miraculous effect. As a supplementary weapon, it is very easy to use.”

Nan Yiye always pays attention to the expression of Shen Lang. Although he seems to be satisfied from his expression and tone, he still thinks this is a guest.

“It’s really from a practical point of view... But that’s true, their value isn’t big enough to compare with your generous two inners. So there are a few small items in the house to serve together...”

Nan Yiye said, took it out together.

“This is the ancient sword spectrum, brother you are the great elder of Jianzong, it should be the party in this respect, and may have reference value.”

“This is our healing medicine in the south of the country – restore Dan, within a certain range of internal and external injuries, can quickly repair and restore.”

“This is a collection of unicorn bones for hundreds of years...”

Shen Lang didn’t talk, but still kept a faint smile, but Nan Yiye felt that his face was hot.

For the kendo, everyone sent an ancient sword score, it can be said that it is a good match for the other, the South China’s healing holy medicine, no matter how good, but also can not compare with Nedan.

As for the Kirin bone, of course, it is impossible to be the bone of Kirin, that is, a fierce beast bone. For hundreds of years, the unicorn is blown out.

The bones of the beasts... The fierce beasts that were auctioned in Qingchuan Tangyuan, but Shen Lang threw away no! Then the rhinoceros that made Joe Shue spent a hundred medium spirits was also given directly to him.

“Isn’t this sword spectrum? We are still not very convenient to refer to the swordsmanship of others. Just like the last time I got dozens of tricks, I gave them back without looking.”

Shen Lang certainly sees it at a glance. The so-called ancient swordsmanship is just a rhetoric. This is a new copy. It is estimated that it is to cope with it.

This made the face of Nanyiye hotter.

is not that right? When people have to sell dozens of martial art secrets, how can they care about their ancient swordsmanship?

“The unicorn bone is too precious, but it is still kept by the Nantian family. And it has no effect on me, but it occupies the place.”

This is only said that “the fierce beast bones I can get anywhere, staying in the occupied place!”

“I will accept the restoration of Dan.”

Shen Lang reached out and took the same. On the one hand, the restoration of Dan of the Nantian family is indeed a miraculous medicine. He can also prepare for others. On the other hand, if you don’t take the same thing, then it is too obvious.

The words have already been said so clearly, Nan Yiye is also embarrassed to insist, and then insist on self-deprecating.

He also thinks that the family is not very interesting. Compared with the sincerity of Shen Lang, this is too perfunctory. But he is also only a junior, no decision.

In fact, when I called to ask for help, the South family decided to change the magic weapon. It was probably that Shen Lang was so good to talk, and he wanted to tie them up, so he took the gesture.

“Thank you! Then I will leave.” Nan Yiye expressed his respect and coziness to Shen Lang, and then retired.

After he left, Shen Lang looked at the set of flying needles in his hand, and restored Dan, smiling.

He did not feel chilling!

Because this is his own wish, I did not ask for a high price at the beginning, let people look at it, others are not satisfied enough, it feels uncomfortable, the sincerity before that is inevitably hypocritical.

He paid two inners, including the one that was previously transferred, which is considered a cost to make a South.

Nantian family really has this value!

Like the North Sea Qiao family is not willing to take advantage of the cheap, got the sword, exchanged the same value of the world's third giant Yue sword plus cloud disk, that is, Qiao Yuxian, Qiao Tiantian they pay attention to.

The accounts can't be directly calculated and lost. If you didn't give up Nei Dan in Qingchuan last time, there would be no trip to the dead forest now, and you won't get the resources to swallow.

Of course, in addition to the first to say that you can give it casually, it is still a set of flying needles that can calm the waves!

This set of flying needles, in the mouth of the South Yiye, including in the eyes of the South parents, is a set of low-level magic weapons, but there are special effects when the close-up surprise.

In other words, for those who are very powerful, they are simply not used. This is why the South will feel the tasteless.

But in the hands of Shen Lang, the value is different!

Because he recognized it at a glance, this set of flying needles actually has a name, called “鑿月针” , also called “鑿月八针” .

There are a total of eight needles in the lunar needle. The surface looks like the difference between the length and the length. For weapons, it is just an unexpected surprise.

But in fact, the power of the moon is far more than that!

Because of its power, it is not the flying needle, but the array!

A single shot is the effect of a flying needle. But through different needles and different numbers of needles, there is a set of attack methods, which is combined into a matrix method to achieve the power of geometric overlay!

Suppose the attack power of a needle is one. The two needles can not only stack the power of two or two! Three are nine times, four are sixteen times... until seven forty-nine times, eight sixty-four times!

In terms of specific operations, eight can produce sixty-four effects, and can also be combined into a needle sixty-four times the power!

Of course, this is the theoretical value, the specific effect can be exerted, or it depends on the person who applies the needle, the skill level of the manipulation of all the arrays of the Yueyue needle, and its own strength.

Just like “four or two dials”, it must be a master with a strong skill. If you change the average person, you can use the same tricks. You can dial ten pounds or even a pound.

In exchange for this set of the South feels that it is a big bargain, and Shen Lang feels no loss.

Chapter 623 -

From Qingchuan to Haishan, Shenlang took the initiative to exchange some valuable but relatively chicken resources for the South, and hoped to have surprises.

Like the fair, the fact that the martial art thinks that the chicken ribs are to be sold may be just what the sects need. The transaction can be used as needed, and a win-win situation can be obtained.

If you open a high price to the South, ask for some high-level magic weapons, and do not say that the specific conditions of the Nantian family, will simply leave a bad impression – not afraid of them, but business can not be long-term It is.

This time, the moon is the surprise of Shen Lang's expectations.

He himself did not know what he would give, perhaps it was the swordsmanship, the remedy, the animal bones, and it was also tasteless to him. Fortunately, there are a few valuable things in today.

However, because I did not think that I would get it, even if I knew the situation of the moon, he did not study it.

Originally, he wanted to take some brain refining and refining. Now it is a bit tangled. Do you want to practice this lunar needle first?

After weighing a bit, Shen Lang decided to practice the moon!

Because even if it is the refining brain, it will not let him suddenly improve. However, if the "Eight Months" is used well, it can exert its miraculous effect.

The reason why the use of "practice" rather than "learning" is because of the intensive study of the wonderful use of the "eight-needle".

It's just because I got a lunar needle and I haven't practiced it.

What is needed now is to practice the manipulation of them while recalling.

This process has not alarmed other people, because everyone is taking the time to improve the strength. Qiao Shuyu and Nan Yiye are also stepping up cultivation for the sake of family face and male dignity. I hope that there will be a breakthrough in the temporary.

The Shenlang practice is just manipulation, and does not use how powerful the needles are. These needles also have ready-made targets. Just put them into the swallows and flesh.

Time passes by.

Until dawn, there are no high-level beasts looking for it!

This makes everyone a bit unbearable because it is not enough. Or because the distance is too far apart, other beasts only found the movement, not clear about the specific situation?

Everyone met and ate something, and also asked about the arrangement of Shen Lang.

Shen Lang's suggestion is to continue to guard. If there is no beast of the same level, if you feel that there is no danger, the lower-level beasts in the nearer range should come to take risks.

For everyone, it is always a good choice to stay at ease.

Besides, it is not like the entrance and exit of Death Valley, there is a three-day time limit. If nothing is finally achieved, you can continue to follow the original plan.

And it won't delay time here, the progress of cultivation here is faster than the outside. Everyone has harvested marrow fluid, which can be used to enhance strength.

If you don't feel sick and don't mind the taste, eating the swallowed meat is quite good.

Taken together, this is a cost-effective deal, you can stay for a few days. Anyway, because of the relationship of drying, it will not rot.

Everyone has no opinion and will continue to cultivate in the swallowing body.

For the meat, several girls are not trying to appetite, and Qiao Shuyu wants to install Sven and does not eat. However, Nanyiye tried it and said that the taste was not very good.

In fact, Shen Lang has already familiarized himself with the manipulation of the array of “Eight Months”.

After that, like everyone else, he also absorbed the refining brain. However, he is not trying to improve his strength as much as possible, but to consume more, so that he can free up more space!

After all, he alone took all the brains away.

There was no movement all day long the next day. The birds and beasts who had been scared away before did not dare to come back. Only the sound of the wind blows the trees, except for them, there is no living thing nearby.

When the next night, everyone began to feel the pressure!

It is not clear that there is something in the dark, but a feeling similar to the sixth sense.

Everyone is a self-cultivator. I know that this is not a psychological act, but I really feel it. It is a dangerous thing that is close, but the distance is outside the scope of perception, so it is not clear.

This night, everyone did not dare to relax, sleep is not dare, that is, cultivation is always cautious.

The third day of the day.

Shen Lang has already detected the enemy through the sacred armor, and it really is a high-level beast – Xuan Hu!

The shape of the Xuanhu is similar to that of the general tiger. It is not the general golden or white skin, but the whole body is dark, so it is called the Xuanhu.

The number of mysterious tigers is extremely small. There are few records in the ancient official folks, which are generally found in the collection of geeks and geeks. However, in the realm of comprehension, there are still some ancestors who have seen it.

Shen Lang made an analysis of the shape and other aspects through the reconnaissance of the Holy Grail. The information is limited and it is impossible to judge how many years it is.

But as far as it can make everyone feel dangerous, you can know that the strength is extraordinary.

“Be prepared, it comes to a mysterious tiger. The distance is getting closer and closer, it is estimated that it is only a temptation, and there may be other beasts watching.”

Shen Lang gave a voice to everyone, so that everyone can be prepared.

When I came to eat before, everyone had already touched the issue of resource allocation in a way that was easier and more fun.

It was originally three of them, so I could do much better. But now there are a few more women, and after Shen Lang's injury has been injured, the strength has increased. The strength of everyone is uneven, and the strength of Joe and South is still behind.

If they are divided according to the strength of strength, then the two of them will suffer, but they paid the important information of the map.

But if you don't follow the strength, strong people don't contribute, and weak ones may not be able to hunt. The canoe may be seen as coming to see the world, and the two of them are clear-cut!

They have already agreed in advance to retreat, saying that everything is easy to say, and listening to the arrangement of Shen Lang can also be divided according to the amount of output.

At that time, they did not fully convinced Shen Lang to be the leader of the team thinking about the experience of their two families, even if the strength is slightly less than, they can make great efforts to make a big contribution.

It is precisely because of this, so Shen Lang almost defeated the swallows after his own efforts, emphasizing the occupation of the best resources, they have no words.

Shen Lang is very angry in this aspect and will not want to be alone. So after I finished speaking, I immediately added one sentence.

“I guess you can handle this Xuanhu, and considering that there may be a oriole in the back, I and Dorothy will not shoot, see you!”

This arrangement, the bleak is indifferent, the rain is falling and the boat is a little excited and a little nervous, worried that it will drag down. And Qiao Shuyu and Nan Yiye are excited, and the opportunity to make meritorious deeds!

Chapter 624 - Hunting

“Get it! Quick battle!”

Shen Lang just made such an order. Without more detailed arrangements, he and Dorothy kept their lurking.

Such an arrangement, of course, does not give them more restrictions and allows them to play freely.

After discovering the enemy's situation, with the closeness of Xuanhu, Shenlang has already been examined by the gods. Even if it is not clear about the specific age, it can be determined that the strength is not as good as swallowing.

They are trying to make a difference in resources. If he arranges, they may make them feel that they are taking care of them.

Unless you encounter the level of swallowing, it is unconditional to give way to victory. It's just this head of the tiger, there is a bleak, he is not worried.

Dorothy had a good time, and before Shen Lang had instructions, she continued to absorb the blood of swallowing.

The five of them flew out in succession and chased the past directly to the goal!

The Xuan Hu was just coming close, and he was still looking under the tree a few hundred meters away. It was obviously a huge coveted for the swallowing body.

But is this behemoth really dead?

Will it be injured and disguised?

Even if it is really dead, if you can kill this monster, it is certainly not a problem.

With so much suspicion, it is not in a hurry, but waiting patiently, want to see if there is any other movement.

In the long years of Xuan Hu, there is enough hunting patience, compared with the danger, waiting for nothing.

As Shenlang estimated, the wise tiger knows that there may be danger of ambush around, but the thought is only to hide near the swallow, so it maintains a safe distance and is not directly close.

When the five of them suddenly appeared from the swallowing body, let Xuan Hu also be taken aback, and while paying attention, step back!

It can't take risks before it can be specifically assessed for these five human levels.

People have not arrived, the golden ring of the South Yiye has been beaten in the first step!

He is quite skillful. He does not directly attack the body of the Dark Tiger. Instead, he strikes ahead of it in advance. If it continues to run away, it will automatically hit the golden ring.

The speed of his pair of gold rings is different. Even if he does not evade one, there will be one in front.

This kind of effect naturally wants to stop it. Stopping is impossible, so let it pause for a while, and when you turn to the side, you can delay a little time.

At the speed of several of them, as long as the distance of a few hundred meters is caught up, self-confidence will not let the mysterious tiger run.

There was no arrangement for this time, but everyone had a fight, and I had a little understanding of the situation of other people. Moreover, Shen Lang said that the speedy decision is quick, so everyone is thinking about how to win, instead of taking the lead.

Nan Yiye's move is to fully play the role of remote containment.

Like him, the rain is also attacking in advance, but her ice is chasing the past from behind.

As a result, although there is no discussion, it has formed a one-on-one attack.

Qiao Shuyu is carrying a square painting, as soon as possible to the left to block the past, desolation is to hold the sword to the right to block.

The canoe is also as fast as possible, and the chain that can extend the attack distance of tens of meters for her is also in the hands.

Shen Lang did not come out, but it was already through the knowledge of God that they fully observed their combat situation, while the reconnaissance of the Holy Grail continued.

The speed of the five of them is very fast. The distance of a few hundred meters is nothing for the masters, but once they chase, they discover that the speed of the Xuanhu is far better than their expectations!

At the beginning, everyone just followed the level of the tiger, and after an upgraded pre-judgment, I didn't expect this dark black tiger to act like lightning.

And it is not a style of swallowing the sky, swallowing the body is huge, jumping a few kilometers away, Xuan Hu's body is not much larger than the average tiger.

Therefore, its body can take advantage of the cover of trees and rocks in the forest, making it more difficult to capture success.

However, all five of them got the shackles before Shen Lang, so the shot is extremely fast and does not give the opponent a chance to run far.

Once you are too far away from here, in this forest full of unknowns, they will be exposed to various dangers.

Don't say anything else, if there are powerful beasts watching from a distance, then they will catch up with the past and don't hesitate to send the sheep to the tiger's mouth.

After a quick evasion to catch up for a while, they have reached a few kilometers away, but they also succeeded in encircling the black tiger.

This time it was because the bleak rushed to the front of it, blocking the way of the black tiger, and finally formed a circle of five people.

With their strength, since the formation of the encirclement, they are naturally able to perform their duties, guarding the left and right, not letting the black tiger break through, and then quickly picking up the net.

Trying to try to escape the unsuccessful Xuan Hu, changed a style, no longer wants to escape, but began to reveal the fierce, and looked at them.

“Roar—!”

The mysterious tiger, who had never been open, screamed and slammed into the canoe.

It's very fast, its claws and fangs are sharp, and the momentum is very compelling. Once it is bitten by it, there is a risk of being shredded and swallowed.

It can also be seen from its counterattack. In a short period of time, it has already been detected. The canoe is the weakest link. If it is torn open, it can be allowed to escape.

It was considered to be discriminated against by this Xuanhu. The raft was of course a sigh of relief. The chain of her hands danced quickly, forming a tiny chain of dragons, madly rolling over to Xuanhu.

Want to tear her as a flaw, then she has to prove her ability!

It is a pity that although her chain danced very quickly and formed a layer of traps, the Xuanhu's speed was faster, and she did not evade it. She was caught in front of her directly before being caught!

At this time, an ice flower appeared in front of the canoe. When it came over, it had become a face-sized size, and it was just right before the black tiger. If Xuanhu continues to go Before the past, it will hit the ice, and even if it is not dead, it will be blocked.

The speed of this mysterious tiger is really fast enough. After discovering it, even if it has already arrived in front of him, it is before the impact, let the body force a turn to the side!

The big ice flower hit an empty space, but it did not fall through.

The canoe was waved and pulled, and the ice flower was directly chased along with her hand, and it was chased by Xuanhu, and it was bursting open without being close to it. It turned into countless pieces of ice **** and flew to the head of Xuanhu!

Xuan Hu, who had just barely avoided, immediately chose the most economical solution – gave up the canoe and walked quickly from her side, ready to escape!

Chapter 625 - Mysterious old man

The cracked ice flower, although not directly put down the mysterious tiger, but still delayed its speed.

At this time, the chain of the canoe has been recovered in time, and it is wrapped around it!

This time it was **** with a solid, but in terms of strength, it was still impossible to control the Xuanhu. It was still moving forward, and it was almost unstable with the canoe.

“Death!”

At the time of this sound, Joe’s Fang Tian’s paintings have been smashed in the back!

The golden ring of the southern leaf is also coming over, and it is lying on the head of the black tiger.

And the rain is worried about the safety of the cousin. In addition to just playing a big ice flower, people are also approaching quickly. At the same time, a cold air is forced to come over, directly

concentrating the black tiger, and the injury is still in inertia. The mysterious tiger that quickly rushed to the ice!

Finally, it was the power of the siege of the four people to subdue Xuanhu.

First, the bundle of the canoe was difficult to restrain. Then, both Qiao Yu and Nan Yiye hit each other. They were all ready to attack again. The result was frozen and they were suspended.

“Be careful!”

They just fell to the side of the black tiger, but they didn't have time to look at it. They suddenly heard the bleak voice, and they could not help but immediately stop and retreat a few meters.

In the hands of the falling canoe, the chains were still caught, and the chains tied to the Xuanhu were frozen together. At this moment she also retired a bit, fortunately the chain is long enough.

But they are a bit puzzled, Xuan Hu is really frozen, not installed!

Just when they looked suspiciously, they saw the autumn water sword in the hands of the desolation, and quickly swung a sword net, directly shrouded the middle Xuanhu together with the four of them!

Qiao Shuyu and Nan Yiye could not help but be amazed!

Although they have seen Zheng Yumeng in Qingchuan, they are not familiar. From the beginning of the night before, I felt that her temperament style and attitude towards everyone changed.

But don't you kill them all?

Isn't it a beast? If Shen Lang wants, or she wants Nedan, they can all discuss it, and it is not just after the light is finished.

It is also very strange to fall into the rain. She knows that Zheng Yumeng was the first time Shen Lang accepted it in Pingxi. There is absolutely no double heart for Shen Lang. And her friendship with Shen Lang is definitely her own.

How could Zheng Yumeng even attack her together?

Falling in a canoe is a cold look!

As a woman, she has long been instinctive. It is estimated that Zheng Yumeng has a leg and a leg, but there is no direct question.

Now this scene, in her opinion, is definitely the time when Zheng Yu dreams of encouraging the beasts, killing the fallen enemy who threatened her status!

And a few of them, just by the way.

It's already a few kilometers away from the body of the swallow, and Shen Lang estimates that he doesn't know anything.

Everyone has different minds, but they are just a moment of thought. It is the first thought of instinct, and there is no time to think carefully.

And at this time, they don't have time to think about why Zheng Yumeng wants to do it to them. The first thing to face is self-help!

Zheng Yumeng's sword power, they have all seen, the sharpness of the Qiushui sword, it is able to break the skin of the swallow. Therefore, under the loss of the opportunity, they did not dare to neglect, nor dare to be hard.

In case their weapons can't hold back, there is no chance to escape!

So at this moment, they quickly dispersed, and they tried to fly as short as possible, even to the ground, and to fight for a few feet of space.

“coax-!”

A loud noise was not only shocking, but also above the crowd, so that their eyes could not help but look over.

In an instant they felt shocked and shy!

A slate, probably like the size and thickness of a one-story ceiling, flew from a distance.

Because it is a thin flat shape, it can break the wind very well, the speed is fast, the sound is small – strictly speaking, the speed it flies over, has exceeded the speed of the sound of breaking the air!

Before they can hear the sound, the big slate will hit them first!

Desolation, because watching the four of them are sure, they did not come close, but kept the alert around them. After discovering this problem, they only had to pay attention and then quickly shot.

Because she was closer, the reminder of “carefulness” reached everyone’s ears. Everyone saw her sword net, but she misunderstood her to kill.

When they fled, the huge slate that came from the supersonic speed had already collapsed.

And the bleak sword net is just a good cover.

Just the loud noise, both the sound of the back and the sound of the shattered slate.

The four people who have escaped have reached the edge of the slate, and with the sword net blocking, the gravity of the big slate has dissipated, and they are all sheltered from the calm defense.

The mysterious tiger that was frozen was smashed into a large slate, but it was to open the ice and let it re-activate.

At the moment, the chain in the hands of the canoe was left. She had just shunned away, and had no time to control it.

Desolation at this moment is already on a big tree, armed with a sword.

The four people who responded were gratified and grateful, and they immediately plunged into the alert.

It is obvious that some people are trying to save the black tiger in the distance, and the black tiger who escaped can't directly pursue the past.

Just when everyone was on the alert, they found that an old man in a costume robe was on top of a big tree 100 meters away. It turns out that "Zheng Yu Meng" is not in the direction of alert, but has already confronted people.

When did the old man appear, they didn't know it at all, as if it had been there all the time.

But from the speed of flying just a huge slate, he should have been at a considerable distance before.

Just as the four of them were going to fly on the tree, the old man floated from the top of the tree.

Desolation with an alert, also followed by landing on the ground.

Five people quickly formed an arrangement to face this sudden mysterious old man.

"Talk about why you want to kill my little black?"

The old man spoke to to make everyone feel relieved, but at the same time was taken aback.

Rest assured that it can be confirmed that this is also a human being. Everyone comes from the same world. Everything can be talked about, unlike a beast.

But what he said is to ask why he wants to kill him!

Isn't the little black cockroach just talking about the mysterious tiger?

Is this fierce beast, Xuan Hu, actually not the pet he raised?

It is a strong strength to be able to raise a high-ranking beast as a pet.

Chapter 626 - Why

“I don’t know how the seniors called it? We just thought that the fierce beast would attack us. It was only because of self-protection that we didn’t know that Xuanhu was a predecessor.”

Nan Yiye slammed his hand and performed a gift for the next generation, and then explained the matter just now.

The other party has already arrived in the vicinity without a word, and they really want to sneak up on them. They have already fallen. Can conquer the mysterious tiger, the strength naturally need not say more.

Therefore, even as a child of the Nantian family, he still put his posture low.

“Because of self-protection? It is obvious that you are chasing directly! If it is not me here, Xiaohe will be separated by you!” The tone of the mysterious old man is a bit uncomfortable.

But I can hear that he is not very angry, or he will not talk to them more, and he will be held accountable directly.

“You are right... I just beautified, in fact we thought it was to kill the beast.”

Nan Yiye saw that the other party did not eat this set of explanations, and the bachelor’s recognition.

“Why?”

Why?

Do you still need to say this?

Of course, it is directed at the enormous resources they have, and everyone answered them silently.

But this is tacit, and you don't need to say it.

“Is it a strong meat? You feel very powerful, so you can hunt and kill the beasts, eat their flesh, sleep their skins, and win their inner dan.”

After the old man in the robes slowly finished speaking, the words turned.

“Since you recognize this one, now I am stronger than you, can you catch you and feed the black?”

Everyone did not respond to him, just prepared for the battle.

The other party is stronger than them. What they wanted to be, they have no choice but to resist.

Of course, there will be no debate with him at this time.

Seeing that they were speechless, the old man did not continue to ask, and then stared at the bleak.

“The little girl is good, and I have a state of mind that you don't have at this age and realm.”

These words are very old-fashioned, but none of them feel that something is wrong, the other party really has this qualification. It should even be said that “Zheng Yu Meng” can get this good evaluation, it is already glory.

Others are not convinced. If she was not her, even if they would not be killed, they would be injured and very embarrassed.

Looking at him with a bleak and cold look, he did not show his courtesy or flattering look.

The old man seems to have confessed to a boring, and then transferred the topic.

“That big guy, are you killed?” Although there is no good face in the bleak, but in the five people, only the bleak can make him look good.

Yes, it's bleak, not the physical state of Zheng Yumeng.

Desolation finally opened: "Not bad."

"On this combination of you? It is impossible to kill the big guy." The mysterious old man shook his head directly.

Everyone did not speak. At this time, everyone understands that the strength of this mysterious old man is not under the swallow, and he has the wisdom of not being able to swallow, and human flexibility.

In other words, this old man is more terrible than swallowing the sky!

The five of them will not be opponents at all. To be safe today, they have to rely on Shen Lang and Dorothy to play a raid in the dark.

Of course, they can't reveal their information.

But everyone will soon get up...

"The two little guys hidden in the body are the main force?"

When this is said, everyone is not only embarrassed, but the heart is also beginning to sink.

It is a few kilometers away from the swallowing scorpion. Its body is naturally visible at a glance, but the Shenlang and Dorothy hidden inside can also be found. It is different.

The old man's gaze looked at the distant swallows: "The corpse is seduce and the other beasts are hunted one by one. You are courageous, that is, you are a little bit desperate."

"..."

This evaluation can only be recognized by everyone. It's really courageous, and it's really a bit ugly – for example, it now attracts the powerful master behind the beast.

“I don’t know what the predecessors call it? The evening of the North China Qiaojia Qiao Shuyu, say hello to you.” Qiao Shuyu took a serious bow.

The ceremony is not the focus, the focus is to reveal the background of the North Sea Qiao family!

This old man obviously is not good, but he does not know what he will do.

First of all, the background of the Beihai Qiao family and the Nantian family will be said, and maybe they can sell a few faces. At most, Shen Lang will give him Nei Dan, and don’t lose his life.

In his realm, should you see the inner Dan at most?

“What? You want to use the North Sea Joe House to press me?”

The mysterious old man glanced over, and Qiao Shuyu immediately felt that his throat seemed to be shackled, unable to breathe, and then the whole person was hanging off the ground.

At this moment, he just wanted to explain, and he couldn’t open his mouth.

Nan Yiye was taken aback and hurried to swear: “Predecessors are angry! Joe brothers don’t mean this. They just want to show their identity and see if their predecessors are old with Qiao and our Nantian family. I hope you can Let us have a horse...”

Although there is already a precedent for Joe Shu Yu, he still has to carry out the Nantian family’s signboard to get a little more weight.

“Southern world family? Hey, good prestige! What else? What are the three girls who are coming to the head? Let’s talk together and see if the old man is afraid!”

Nan Yiye could not help but secretly smile.

Although he has not been attacked, it is already obvious that the other side does not even give the face of Nantian family!

Desolation is still cold and does not speak.

The canoe took a deep breath and although it continued to self-report the door, it might make the other party unhappy.

But Joe Shuyu is now controlled, she can't be without loyalty!

“Predecessors, we really did not lift the teacher to suppress you, just do not want to hurt. The little woman is the contemporary palace owner of the small gate of the Tianshan Ice Palace, this is my sister, this is the Zheng girl who came back overseas.”

She said that she was still advancing and retreating. She explained it and said her own home. By the way, she helped Zheng Yumeng to mention it, lest she refused to answer and attracted the old man.

“Tianshan Ice Palace? Are you the head of the palace at this age?”

The tone of the mysterious old man makes the canoe very embarrassing. No matter what, no matter what, she said that she was young and kind, and the old man seemed to laugh at them.

“You are coming back overseas, where is it overseas?”

The mysterious old man did not pay much attention to their words, but focused on the desolation.

“Why do you tell me what to listen to?”

This opening let Nanyiye secretly complain, and sure enough, it is a woman who is Shenlang, completely damaged by the goods, this tone, this attitude, is not a plain offender!

“Why? The little girl is a little old-fashioned, I don't think you will move you?”

“No, I am always ready for battle!”

Desolation and coldness, the autumn water sword in the hand is also a bit cold, as if responding to her words.

Nanyiye and the canoe are a little anxious, not to mention the Joe Yu, who is controlled by the neck.

They are all big heads, secretly blaming Zheng Yumeng, and it's too late to explain it. You are provocative and arson!

Chapter 627 - More and more arrogant

“fighting?”

The mysterious old man showed a disdainful look. “You ask him, are you qualified to fight me?”

Of course, he said that Joe Yu Yu, even if he could not see the traces of his shots, but Qiao Shuyu could not move and hang up, it seems that it is very difficult.

“Oh... I should let you experience it, know what is the gap...”

His words have not been finished yet, and a voice has passed.

“A young man is bullying a group of juniors. You are also very embarrassed, and your face is thick enough.”

Everyone has heard it clearly. The sound comes from the direction of swallowing the sky. It is naturally a wave.

Only Shen Lang will be so arrogant, and against the powerful enemy, it is contemptuous.

Everyone is also a cold half, look at this, a fight is inevitable, Shen Lang this is the fire on the fire!

By this time, Qiao Shuyu and Nanyiye had no temper, and the signatures of Qiao's family were also sacrificed. But people didn't care at all. Now they can only be resigned.

The eyes of the mysterious old man looked at the side of the swallowing sky, and Qiao Shuyu fell down immediately, then coughed up and gasped. It was just completely suppressing him, and he suspended all aspects of his functions for a while.

“I am thick skin. Then bully you!”

The mysterious old man muttered a word, and then disappeared.

With the bleakness of the autumn water sword, when the old man disappeared, he did not say hello to other people, and flew directly to the swallowing sky to chase the past.

The other four people also reacted, and quickly kept up, no matter how arrogant the swells were, they were all of the group’s own people, and they could not escape alone at this time.

This mysterious old man is indeed at a relatively long distance, and he is the source that made everyone feel pressure before.

Just now they were besieging Xuanhu a few kilometers away, and Shen Lang was aware of it.

But the place where the mysterious old man is located is also inaccessible to him, and he knows that it appears in front of them.

As for the mysterious old man, he already knew that Shen Lang and Dorothy did not come out inside, but they only found it when they were close to a few kilometers away. Only he himself knew it.

Since everyone has said it, Shen Lang will not hide again. After the sound has passed, he will wait with Dorothy on the head of the swallow.

As the mysterious old man came to the front of the swallowing scorpion, the mysterious tiger that had just ran away quickly ran from another direction and stopped at his side, as if it were a dog-like tame.

The mysterious old man after coming, but did not observe the above waves and Dorothy, but was watching this swallowing.

Such a beastly beast, the far-sighted and close-awaited, the feelings are still different.

Shen Lang landed from above, and the mysterious old man was only a few tens of meters. Dorothy followed and stood beside him.

And this time the bleak is also quickly rushed over, she came from behind, and did not come directly to the side of Shen Lang, but stood behind, forming a front and rear pinch state of the old man.

The other few are also chasing the past one after another, and watching the desolation station is also with her.

Shen Lang waved at them and signaled them to come directly here.

The strength of this mysterious old man is extraordinary, far from being comparable to that of the mysterious tiger. Such a siege does not have any meaning to him. Instead, it distracts the power and makes them vulnerable to defeat.

Everyone immediately wandered around and went behind Shen Lang.

Seeing the old man carefully is observing and looking at the swallowing of the sky, completely ignoring the Shenlang, so that everyone does not dare to speak.

“Is there enough?” Shen Lang interrupted the observation of the old man.

The eyes of the mysterious old man, this was transferred from the swallowing to the face of Shen Lang.

“You can give your dog a little bit of meat, just take it.”

When Shen Lang spoke, he glanced at the Xuanhu.

Xuan Hu has some wisdom, but he does not know what to say. He does not understand that it is the feeding dog.

After the mysterious old man looked at the waves, he slowly opened his mouth.

“The milk is not dry! You have to say that I am bullying the junior... I will hand over the inner Dan! I can let you go.”

He obviously with the disdain for the Shen Lang, and also directly pointed out his request.

When I heard that I had to hand over Nei Dan, Qiao Shuyu and Nan Yiye were relieved. They originally lifted the background of their family, and they did not want to hold on to each other.

As for the inner Dan, in the face of such a strong, they did not dare to expect to be able to keep.

What do people want to do? Really cut a few pieces of meat and bring it back to feed the tiger?

Another point is that this Nedan is on Shen Lang's body. They haven't even seen it. Of course, there will not be much distress in handing over.

Shen Lang smiled and nodded: “Do you hand over the inner dog of this ***** dog? Well, I can let you go.”

When I said this, let Joe Shuyu and Nan Yiye almost sit on the ground with two legs softly...

Little ancestors! Do you want to be so arrogant!

You don't look at the object!

No... After he discovered that he had swallowed the sky, he was very cautious and decisive. Now, for the strong human beings, this is the attitude.

It's not like this!

“If you have this ability, don’t say that you can take away the dark inner Nei Dan, you can dig out the old man’s heart!” The mysterious old man with disdain, the big words of Shen Lang, the difference is too far, it is impossible to inspire him. The anger.

Shen Lang shook his head: “What do I want your black heart to do? Feed the dog? I have no dogs.”

The mysterious old man showed an impatient color. “It’s useless to talk nonsense with me. I will give you two more words. It’s just that I’m going to do it myself. It’s not just for Nedan, all your items, including Your life must be left to feed the little black!”

Everyone was surprised when this statement came out.

It is better to be able to let Nei Dan avoid disasters. Everyone in Nedan still has the opportunity to continue to win. If life is lost, then nothing will happen!

“Shen brother, I see... that...”

“Shen brother, please think twice! Not to mention a few of us, at least for a few girls to consider.”

The girls looked at the waves and did not persuade them. They completely obeyed his arrangement. Desolation and Dorothy were always ready to fight. There are two leaves in the south of Qiao Shuyu, and they can’t help but persuade.

Shen Lang’s eyes patrolled them to see their different reactions.

Then his gaze returned to the face of the mysterious old man, and he saw pride and disdain.

This mysterious old man can completely crush their realm, so there is no need to sneak into the waves and pay attention to the sneak attack, and now he will wait for him to yield.

“Two sentences? You are getting more and more arrogant.” Shen Lang shook his head and whispered.

The expression of Joe Shuyu and Nanyiye at the moment is more ugly than suffering!

Big brother! Who is arrogant, is there anyone more arrogant than you?

Chapter 628 - Who are you?

It is a bit ridiculous that the mysterious old man heard the words of Shen Lang.

The temperament revealed by the bleak exhibition made him appreciate it. Shen Lang is not the same, although he can feel the stronger waves, but this face is too arrogant.

Now he is arrogant to say that he is arrogant!

“I doubt very much, how did your teacher teach you?” Even his high-profile gesture could not help but ironically.

Shen Lang proudly smiled: “I am now a Tianshan Jianzong, but I am the chief elder of Tianshan Jianzong and the highest status. The two strongest elders worship me as a teacher. Who else dares to teach me?”

“...”

Both Joe Yu and Nan Yiye are full of black lines, what is this with!

Nantian family and Beihai Qiao family are not in the eyes, you brag about the chief elder of Tianshan Jianzong.

It is also a bit embarrassing to fall into the canoe and the rain, but this resume is certainly not the same, but now it is out of place, others will not believe.

Only the bleak and Dorothy look the same, they are whatever, completely support the decision of Shen Lang, is the peace and war, which to play!

“You? The chief elder of Tianshan Jianzong?”

The mysterious old man showed a look of extreme suspicion.

Nan Yiye's heart moved, although the Tianshan Jianzong had already fallen for hundreds of years, but the ancestors used to be wide.

Just this old man disdains him and Joe Shuyu, perhaps only because they are children of the next generation, Shen Lang is the chief elder of Tianshan Jianzong, this identity is still different.

“Back to the predecessors, the Shenlang brothers, is indeed the chief elder of the Tianshan Jianzong. The Presbyterian Church's Gao Li and Yu Sheng, two great elders, are disciples of the Shen Brothers.”

When this came out, Nan Yiye felt a little ridiculous!

In fact, how can Shen Lang become the chief elder of Tianshan Jianzong, why Gao Lisheng and his two senior elders and 100-year-old masters called Shen Lang as a master. It is also unclear.

The mysterious old man shook his head and sighed: “Sadly, the Tianshan swordsman is so ruined...”

“...” Nan Yiye is very embarrassed and dare not answer.

At this time, Shen Lang was frivolous and said: “Xu Yanyue bully the junior, isn't it more degrading?”

This sentence is said, Nan Yiye and others are inexplicable, I don't know what Shen Lang suddenly said.

Is this old man called Xu Haoyue?

When they thought about the predecessors of Xu Yuyue, the mysterious old man's eyelids lifted, and his eyes stared at Shen Lang.

“Do you know Xu Haoyue?”

Shen Lang smiled slightly: “Just know.”

When everyone has not reacted, Shen Lang's body rushed forward quickly and rushed to the old man's face.

“Shen Lang!”

Several of them cried and immediately wanted to go to the rescue. At this time, I saw a whirlwind of mud and dust, completely covering them, and I could not see the situation inside.

“and many more!”

Desolation quickly stopped Dorothy who had rushed out.

“It should be a secret talk.”

The bleak eyes are higher than them, so she is not in a hurry to shoot.

They also quickly stopped, and still a little relieved. If even Shen Lang is arrested without any resilience, then count them together, and also hit the stone with eggs!

In the whirlwind, it is a quiet, and there is no change, just the distance between two people is close to two or three meters, blocking the horizons of others.

“You are the chief elder of the Tianshan Jianzong?” The mysterious old man asked again.

Shen Lang is asking a question: “You just bullied the little and played against my people. Didn't you see that she used the Qiu Shui sword?”

“Autumn Sword!” The mysterious old man was slightly surprised, and then quickly recalled, his face became complicated.

His more important point for desolation is her resilience, swordsmanship and calmness in the face of his pressure, not because of Qiu Shuijian.

Even because she first saw her swordsmanship, she did not pay attention to the sword.

“She is not using the sword of the Tianshan Jianzong.” The mysterious old man is staring at Shen Lang and wants to get an answer.

Shen Lang nodded: “She is my woman, but she did not join the Tianshan Jianzong. Of course, it is not the sword of the Tianshan sword.”

“Yes,” is not disrespectful, but the current “she” is desolate, can only be “calculated”, can not be confirmed like Zheng Yumeng.

“Then you gave her the sword of autumn water! You gave your saint’s sword of Gao Hanqiu to your woman!”

The words of the mysterious old man are full of anger, and from now on, this is the first time to irritate him.

Shen Lang looked at him like a smile: “It really is Xu Haoyue. After so many years, it is still so maintained for Gao Hanqiu.”

The mysterious old man he called Xu Yuyue was shocked and then re-examined Shen Lang.

“What the **** are you? You are not the Tianshan Jianzong!”

“You just heard it. The children of the next generation of Qiaojia Nantian family in Beihai can testify for me because everyone knows that I am the chief elder of the Tianshan Jianzong. By the way, I will tell you that the high separation he just said is The offspring of the cold autumn.”

Xu Haoyue stared at Shen Lang: “Who are you in the end? How do you get into the Tianshan Jianzong to confuse everyone?”

His eyes moved, and he wanted to fight against Shen Lang, but he couldn’t stand it if he saw the momentum of Shen Lang.

“Hundreds of years have passed. How can the descendants of Tianshan Jianzong know Xu Yuyue? How can you know the relationship between Xu Yuyue and Gao Hanqiu?”

This question is also Xu Yuyue's doubts, so he has to ask another question: "What the **** are you!"

Shen Lang put up a smile and his look became a bit vicissitudes.

Xu Xiaoyue frowned slightly, and the boy in front of him suddenly seemed to have changed.

"In modern terms, Xu Haoyue is the younger brother of Gao Hanqiu. You have followed the cold autumn..."

"Not bad! But I am asking you! My patience is limited."

Xu Haoyue was a little impatient. He originally said that he would give Shen Lang two words. Now, after asking for the identity of Shen Lang, I have repeated several sentences.

"So... you should not forget that Gao Hanqiu has also followed a person."

The sound of Shen Lang's words is not big, Xu Haoyue listens, but it's like a blue sky!

"You, you... you are... waves of gods? How could it be... how could it be!"

As a comprehensible creature who has lived for hundreds of years, it is to see that the murderous beasts such as swallowing scorpions have been killed, and he is calm and calm. But now it is a sentence that makes him dysfunctional...

"You can live to the present in Xu District, where you live. I am reborn and there is nothing impossible!"

Shen Lang's plain words demeanor, but it is entirely the tone of the younger brother.

Xu Haoyue did not feel that Shen Lang was arrogant and over-exaggerated, but completely overwhelmed.

“You, you... are you really a reincarnation of the waves?”

“I am another life, and you... except for getting older, the appearance is not much changed, so I can still recognize it. When you followed Xiaogao, how old is my age?”

Shen Lang is remembering the past, a bit embarrassing.

When Xu Haoyue listened, it was a trip, and the whole person shivered!

Chapter 629 - Narrative, follow

At that time, as a younger brother of Gao Hanqiu, Xu Haoyue had seen Shen Lang, but at that time the gap was too big. He was completely looking up and was not familiar with it.

To describe it simply, it can be said that Shen Lang is the boss of his boss, the worshipper of the worshippers.

It has been hundreds of years now, the past is like a smoke, and the cold autumn does not know how long it has disappeared. Suddenly, when Shen Lang called his name and told him the past, he really had to move.

Looking at Xu Haoyue almost tears, Shen Lang reached out and helped him get up.

“I am also an adventure. If you admit it wrong, you are not Xu Haoyue. Or you don’t remember me, or you don’t directly give me any face, it should have been killed by you.”

Shen Lang half-smiling half self-deprecating.

“Long days, meet each other. I was not too familiar with you in the past, but I can see an acquaintance again, I am very excited.”

This sentence is not an exaggeration, nor is it to close the relationship. It’s true, let alone a human being, even if it’s a giant turtle that has passed the law, it gives him great kindness.

In the time of these two sentences, Xu Haoyue completed the adjustment of his mood.

He is also very embarrassed: “I can see the waves again, I am even more excited. I think that the year was full of enthusiasm, and now you are younger, and I am already old.”

After Shen Lang said this relationship, he had no doubts about Shen Lang. Since it was the reincarnation of the gods, it was too normal to be able to serve the descendants of the Tianshan Jianzong.

“In the past, I failed to rob the old friend, unable to find the old friend, and forced to lay down the rebirth of the bureau, and then died. For Xiao Gao, they only recently learned that there was no return to hell, can you know the specific details?”

When I heard the question from Shen Lang, Xu Haoyue was a slap in the face. It was a past for hundreds of years, but he still remembered it.

“Yes! It was later called the return of the sea, and it was said that it was a shortcut to the fairyland, which led the world to go.”

“Gao Da Ge thought that Lang Lang had successfully sneaked into the body, but his heart was longing for it, but he could not reach it for a while. After knowing this shortcut, he also went.”

“My strength was still relatively low in the past, far from reaching the realm of travel. Considering the top talents at that time, it is very likely that there will be no return, even death. So tall brother will not let me go. Let me practice well, and wait until the conclusions of your exploration come out, no longer.”

“There was no one coming back, and there was no return to hell. Everyone expects their predecessors to come to the fairy world, but the reason is clearer, it is probably already...”

“You know, I am not a disciple of Jianzong. So I have not stayed in the Tianshan Jianzong. It is difficult to get more resources and it is difficult to break through to a higher realm.”

“There was a chance to come to this world. There is no smoke in this place. It is a good place to live in seclusion. I am used to living.”

“After that, I also went back a few times and wanted to see if there was any news that Gao Dage had returned from no return to Hell...”

“There are changes in the world, and the dynasty has changed. There is nothing that I am familiar with, and there is nothing worth remembering. The age is high and the leaves fall back to the roots. In recent years, the world has become very strange.”

Xu Haoyue didn't know how many years have said so many words, and there is no one who knows him. This time, it is rare to talk about it. It is a little endless.

For his situation, Shen Lang can probably analyze it. There is no sun and moon in the mountains. In this dead forest, he retreats and retreats over the past few decades. Because the realm is getting higher and higher, and various resources, his life is also greatly extended.

In modern times, Xu Haoyue does not have the experience of growing up for more than ten years. He is returning to a world that is completely unsuitable for change.

Shen Lang thinks of Count Dracula, it should be similar experience.

“It's very good. If you don't live here in a retreat, you can't live in the outside world.”

“That is also true. But... the road to repairing the road is to be pure and heartfelt, but it is too lonely.”

Speaking of this, Xu Haoyue stretched out his palm, and Xuan Hu immediately passed his side, letting him reach out and touch his head.

Because of loneliness, he conquered the head of this mysterious tiger, and it is a pet and a partner.

“I am more troubled than you. It is from scratch, and I will go back again. Although I can avoid a lot of detours, it is also rough and bumpy!”

Listening to the feelings of Shen Lang, Xu Haoyue can feel it. If he is allowed to start from scratch, he will be crazy.

“When the waves are coming, it is for Nedan resources! I don't know what to do?” When asked this, Xu Haoyue's eyes showed a glimmer of hope.

Shen Lang also took it seriously. “I will eventually step on the peak and go to the sky!”

If you say this to other people, you will feel that it is a bragging, or a great ideal.

But Xu Haoyue heard it, completely believe it. Since he can rob the first time, with a summary of experience, it will certainly be the second time.

“For the return to hell, I will also explore. I want to see where it is, whether it has ruined countless comprehension power, or really led to another better world!”

Xu Yiyue’s heart moved. He noticed that Shen Lang’s was not “the fairy world” but “a better world”.

Strictly speaking, this is another world, a world that is much better than the outside world. From the perspective of comprehension, it can also be regarded as a fairyland.

Does the return to the sea have led to such a world?

For so many years, he certainly considered this, but did not personally go to verification.

“Xu Yuyue is willing to follow the waves, don’t know... can you...”

The sinking wave in front of him is far less powerful than him, but he was far better than his character, and he was worshipped by the admiring autumn.

Today, he has no desire, no direction of struggle, the emergence of Shen Lang, everyone can see each other, and still in another small world, he thinks it must be God, but also his creation!

Shen Lang smiled and said: “I can make you a lot now When your disciples don’t deserve.”

“The waves of the sea laughed.” Xu Haoyue was a bit embarrassed: “Looking at the year, you have a lot of guidance for the big brother, I have to get the guidance of the big brother, I got your guidance. It is your address, I am dimmed. “”

Look at his serious look, think about his loneliness spent hundreds of years, Shen Lang also seriously.

“Don’t talk about it, it’s not a good thing to practice together. But I won’t stay here for a long time. If you want to go out with me, you have to adapt to the world again, and your little black can’t take it out.”

After listening to this, Xu Haoyue also stunned. At the age of hundreds of years, it is really difficult to get used to the adaptation of the fast-changing world. It is really tired and troublesome. It is difficult to get used to the mysterious tiger that has not been with you for a hundred or two years.

Chapter 630 - Shocked everyone

After a little tangled, Xu Haoyue came up with a compromise.

“In the time you are here, let me follow you first. When I go back, I believe it should be considered clearly.”

Shen Lang, since they came here to hunt and kill the beasts, naturally they will not go back in a day or two, then he will have more time to consider.

“it is good.”

After agreeing, Shen Lang added another sentence: “If you have any problems in cultivation, you can ask me. Although I am far from you, everything in the past is still here!”

He pointed to the brain.

Xu Haoyue couldn’t help but have a good time, thank you quickly: “Thanks to the gods, I will.”

When I saw the age of Shen Lang, when there was such a strength, Xu Haoyue had to take it. Now it has been confirmed from Shen Lang’s mouth. Even if he is coming back again, he also has various experiences of past lives.

For his realm, cultivation and resources are not the most important, and the direction of the road ahead. It is difficult to understand by the strong people who have no higher realm.

Shen Lang will mention this, of course, deliberate.

Their two sentiments, the ties are the cold autumn that has long since disappeared for hundreds of years, and there is no deep friendship. Even if you rely on the friendship you met hundreds of years ago, you can be excited for a while, but not for a long time.

Today, the disparity of everyone is reversed, and the mentality will naturally change.

To allow Xu Haoyue to maintain respect, Shen Lang is naturally based on the old feelings, plus a relationship of interest.

The benefits can last longer.

“Since the peers, then I will say a few more words. Because I know the cold autumn, Tianshan Jianzong is away from them, mistakenly thinking that I am a small reincarnation, it is not convenient to explain in detail, in order not to let them misunderstand me with ulterior motives, The default is.”

Xu Haoyue nodded. It is no wonder that Tianshan Jianzong can serve him as the chief elder.

“I will call you an old man, you also change the name of a suitable one for me, and call me a stranger.” Shen Lang mentioned them both.

Shen Lang is able to call his boss Gao Hanqiu as a small high, and now he is called Lao Xu, because he is old, but he can not rely on the old selling old called Shen Lang “small Shen” and the like.

“I call you Master Shen?”

This is a respected name, and now many places are used to refer to unfamiliar uncles, or some professional workers.

Shen Lang thought for a moment, "Call Mr. Shen."

This is still neutral and will not let others guess too much.

"Yes!"

After that, Xu Yiyue waved his hand and the surrounding cyclone disappeared completely.

During the time they talked, although the bleak first said, but everyone is still very worried, do not know how the situation of Shen Lang.

Now I will see them again, and I will hurry up a bit and want to come to meet the waves.

Then everyone saw a scene that made them stunned!

I saw that the powerful and mysterious powerhouse, even respectfully bowed to Shen Lang!

How did Shen Lang do it?

Is he going to be ecstasy?

Everyone wonders if the eyes are wrong.

"You little friends, before the old man did not know Taishan, did not recognize that Mr. Shen came to visit, more offended, but also forgive me."

Xu Haoyue said a word to them, and he also arched his hand.

Everyone didn't know what the reaction was. It was an apology to them, so they could kill them, and they apologized to them because of the waves!

His wording is "I don't know Taishan"!

How did Shen Lang defend him?

“This is Lao Xu, I have a relationship with him. I have just invited him to walk with us, no opinion?” Shen Lang introduced it.

“No, no!” Nan Yiye said quickly: “It’s our pleasure to be with our predecessors!”

Can such a powerful person have opinions? Not afraid of being shot dead!

Qiao Shuyu is also busy nodding, and dare not say more.

There are of course a few other women.

“Xu seniors, my name is Nanyiye. This is Joe Shuyu. This is the two girls who fall into the rain and fall into the raft. This is Zheng Yumeng girl. This is Dorothy girl. We are all based on the sinking brothers! ”

Nan Yiye was busy introducing himself and introduced everyone to let Shen Lang save his tongue.

Xu Haoyue nodded slightly to them, even if they had said hello.

Among these people, he did not pay much attention to the ice palace, the Lord, and the sons of the South. I saw more rain and more, because I saw her extraordinary physique.

The other is Zheng Yumeng with a physical constitution and a desolate soul. In addition, Dorothy is a vampire. The realm is the highest on the spot, and he also has to look at it.

“Go back to business, I will not let you in Nedan. There is something here, you want to let Xiaohe eat and drink casually.”

Shen Lang re-examined Xu Yuyue and did not hide their intention to stay here.

Xu Haoyue hesitated a little, and directly suggested it.

“Sir, your plan is this, but the environment here is a bit special. Although the world is basically quiet and peaceful, there are certain geographical divisions, and the fundamental key is environmental resources.”

“This band... refers to a few hundred miles, and the environment is general. This swallows the sky in this area, I guess it was because it was limited in strength, and because its cultivation method is different from other beasts. What is needed is a long time to grow.”

“Because of this, it is free from interference and attacks. It can be quietly lurking for a long time. Like me, I didn’t know that there was a huge swallowing here.”

“And where the high-spirited beasts gather, it is in that direction, probably thousands of miles away. So swallowing the beasts that can be attracted here, there are, but the level is not high, you will feel chicken.”

“It’s really powerful, because the distance is too far, and it doesn’t sense what’s happening here. Or if you know it, you’re too lazy to take risks.”

Shen Lang lived here for only one and a half years. Xu Haoyue lived here for hundreds of years and can truly be regarded as an indigenous person.

And his thoughts on Shen Lang are not murdered. This suggestion can correspond to the maps of Qiao and Nanjia. According to the previous evaluation of the map, plus the already rushed road It is expected to be two or three hundred miles. But that should only be on the edge of the area, and the maps of the two of them, the estimates of the Shenlang, may have more errors.

Xu Haoyue said that although it is a distance away from a thousand miles away, it should be more accurate than they had before.

His remarks are very detailed. Not only are the waves, but everyone can hear it clearly.

Everyone did not have much disappointment, because it was expected that the road to continue would be stopped before the harvest.

But they are very surprised that Xu Haoyue’s attitude toward Shen Lang is not only a respectable mouth called “Mr.”, but also quite a bit of a sneak peek.
