

First Strong 631

Chapter 631 - Dongfu guest

Before Shen Lang had a few of them, he said that he would not be stubborn, and that Xu Haoyue's strength is clear and convincing.

Since Xu Haoyue got such real data here, of course, I have to adjust the plan immediately.

“In this case, then we are not wasting time here.”

They have two or two nights, and no other beasts come. There is a mysterious tiger today, there is strong pressure, but it is because of Xu Haoyue.

This is also proof of Xu Yuyue's words, other high-level beasts, if you really want to come, you will not miss the best opportunity. The longer you wait, the more resources that are not the most valuable are easy to lose, and the meat may not be divided.

“That's it. It's rare that we can meet here. I want to invite Mr. and your friends to take a break from my Dongfu. We will continue to hurry in the details. I don't know what the gentleman is doing?”

After Xu Haoyue issued this invitation, everyone's eyes all looked at Shen Lang.

Is there a problem with this?

Is it out of enthusiasm, or everything is pretending, the purpose is to lie to everyone?

But it is impossible to think about it with a little thought.

With this old strength, if they want to kill them directly, they should have no problem, and they will not be deceived.

If there is no problem, just by knowing, you can invite them to Dongfu, which is really a very high-standard treatment.

Needless to say, this is the face of Shen Lang!

Shen Lang saw everyone watching him. When he waited for his idea, he did not ask everyone, but decided directly.

“Good! Just decide.”

“That here...” Xu Haoyue gestured to the end of the mountain.

“This is not to take away. If you can’t attract more beasts, then there is no value.”

They did not want to take them away.

“If that’s the case, then it’s cheaper!”

After Xu Haoyue finished speaking, he smothered Xuanhu’s head and looked down at it and exchanged it for a while with the tacit understanding they knew.

Then Xuanhu excitedly went out and immediately began to find a place to go.

After appeasing the Xuan Hu, Xu Haoyue signaled everyone to leave here with him.

Xu Haoyue is slowing down and taking everyone on the road. He also introduced some environmental issues along the way. With his hundreds of years here, of course, he is very familiar with the direction and does not need to look for reference calibration at all times.

However, Shen Lang and others are different. Although they are following the guests, they still silently calculate the direction and approximate distance, so that there is anything in the hope of finding the direction.

The direction in which they walked was not the direction of the valley where the scorpion was swallowed. It was about fifty or sixty miles away. So far from where they camped that night, there was already a gap of nearly a hundred miles.

When we stopped, everyone was amazed, this is really the environment of the legendary paradise.

This is a quiet valley with rich trees and flowers. A little further away, there is a waterfall that is not too tall, and you can hear the sound of the waterfall, but it will not form noise.

The water flowing down the waterfall is so clear that the river can see the bottom directly.

Such an environment is naturally chosen according to the aesthetic preferences of the oriental human beings. There is no such a good environment in the dead forest, and there is no human competition. The beasts and beasts will not be such a standard, so Xu Haoyue is not disturbed here.

Xu Haoyue took them into the valley, and they looked at the flowers and plants along the way. Many of them were medicinal herbs with many years.

All the way to the past, Qiao Shuyu and Nanyiye are secretly embarrassed. As a family of millennial heritage, both Joe and South have their own exclusive medicine fields, which are better than the medicines of the outside medicines.

However, compared with the one here, it can be said that it is all rubbish, and there is no way to get it.

From the point of view of the randomness of this planting, this should not be the core of the focus, just planted casually.

It is even more evident in the depths of the valley. The ingredients in the ingredients for decades have not been seen, and almost all of them are more than 100 years old. From the point of view of the mistakes, it should be taken after some maturity.

They are deeply shocked by the identity of Xu Yuyue and his age. Not to mention his own strength, he also paid attention to the creation of a martial art with the resources of this valley.

At the end of the valley, there was a vine gazebo. The nearby plants were not all kinds of herbs, but some fruits and vegetables. It looked like the seeds that Xu Haoyue brought back from outside.

After all, it's too boring here, planting some short-term harvested fruits and vegetables, so that he can be a bit of fun, but also a little taste of the taste.

After Xu Haoyue came over, he moved a few trees and rocks in the past. Except for Shen Lang's glance, other people have not responded yet, and there is a cave entrance.

This cave is similar to the cave near the temple in the past before Shen Lang. The cave was also inhabited, and the array of condensed spirits was planted, and the first yang ginseng was planted.

The environment inside Xu Haoyue is also good. I can feel it when I go in. The aura is much stronger than the already dead forest.

"Oh, let everyone see the effect, saying that it is Dongfu, in fact, it is to cut an ordinary cave. It has not been arranged, and I am here with Xiaohe."

Because no one came here, only he had made a stone bench here. Now he is moving directly to ask Shen Lang to sit. Others can only sit on the ground.

For the special treatment of Shen Lang, of course, everyone will not be envious, but it is more proof of Xu Haoyue's respect for Shen Lang, so they want to ask them what is the relationship.

But not to say that it is not convenient to ask, even if it is convenient, it is not very easy to ask, this definitely involves secrets. Knowing the secrets of such a strong person may not be a good thing!

When Xu Haoyue greeted everyone sitting on the ground, he also took some fruit from the corner.

"There is nothing to entertain everyone Eat a little fruit first. These are the seeds brought back outside and will not be used."

The fruits outside are seasonal and seasonal, and the anti-season fruits are grown in temperature-controlled greenhouses. The fruit that Xu Haoyue took out is different seasons, but obviously there is no problem for him. With his realm, it is not a big deal to control the temperature difference in a small area.

Xu Haoyue does not go out often. The last time I didn't know how many years ago, this kind of child was certainly not the latest technology improvement, but because the environment here is so good, the taste of the entrance is still very good.

"Please come to the guest as a guest, not just the friendship of the landlord. But there is a business relationship!"

After some eating and drinking, Xu Haoyue said seriously.

Chapter 632 - 9 times purple gold lotus

Shen Lang just nodded and motioned him.

He didn't really care much about Xu Zhengyue's business. Because this is for everyone to say, it is bound to be no more than one. It is really important business matter, and it will be discussed with him privately.

"It's a very dangerous trip to the beastly beast area. Even if I go with me, it's hard to protect everyone."

He said that he was serious about business, everyone was sitting in a serious position, and when they heard the opening remarks, they were all sinking.

With the strength of Xu Haoyue, it should be stronger than all of them. It should be more powerful than that of swallowing the sky, but even he said that it is difficult to protect the whole, it is really dangerous!

Looking for wealth and danger, we must also see how many survival opportunities.

"Continue." Shen Lang nodded.

In fact, the visions seen at different heights are different. Some of them are young people who want to enter the edge of the beastly beast. It is good to hunt down a little beast. What Xu Haoyue said is much deeper, and the danger of seeing is of course greater.

"I invite everyone to come over to be a guest, but I want to stay with everyone and come to a short-term emergency retreat. If everyone's overall strength can be high, the safety factor will certainly be higher."

After listening to Shen Lang, he smiled and said to everyone: "I will translate it. We want to get rid of Jinsha. Lao Xu is going to take us deep into Jinshan, but the overall strength of disgusting everyone is too weak. It is easy to drag him. Hind legs..."

"I am not..." Xu Haoyue was not familiar with Shen Lang and explained it quickly.

"Haha, make a joke, but I think your suggestion makes a lot of sense. This time we are swallowing the sky, we also got a little resources, or will we retreat and go?"

Shen Lang looked at everyone and asked for their opinions.

Everyone understands people, and Xu Haoyue will say so, it must be the focus of safety. And Shen Lang will ask this question, it is equal to agree.

"Very well, I am very supportive. Actually, it is very embarrassing. Originally, we are the oldest, but it is one of the ones that dragged our feet. Not to mention how busy this trip is, I also want to improve as much as possible. Try not to be a burden for everyone, you can be safe!"

Nan Yiye immediately expressed his support.

"Yes. I think so too. We have seven people. If one person can improve, the whole team can improve by 70. Even if you can only improve one point, you can have a seven-point increase."

Qiao Shuyu also applauded immediately.

Several other people of course also nodded immediately.

"That's so decided. If you need resources, talk to me; if you need help, you can open your mouth."

Shen Lang is also a serious statement, so that everyone can upgrade a level, then regardless of whether there is any gain in the back, it is worthwhile.

Moreover, the algorithm of Qiao Shuyu is simple, but the idea is correct. They need teamwork, just join a super-strong Xu Haoyue. If others can't keep up, it is equal to zero. It will make him busy saving people.

I can increase the average score and the total score will go up.

“Inner and the like, I don't have much here. But I have a long time here, and some herbs that can be grown are worth a lot.”

Xu Haoyue said that after a wave of his hand, the same kind of medicinal material flew into everyone's arms.

Everyone took it and saw that it was basically a century-old elixir, and it was a medicine that adapted to their physique and practiced the exercises. For example, the fall of the canoe, the rain and the sisters get a snowy fruit, and the desolation is a first yang.

“Thank you for your predecessors!”

Under the leadership of Nan Yiye, everyone stood up and earnestly bowed.

This gift is too expensive. This is really practical. Take it out, claiming to be a thousand-year-old medicine, five hundred years of elixir, and selling dozens of medium-spirited stones without any problem.

Xu Haoyue waved his hand and said that this is nothing, so that you don't have to worry about it.

Then he himself, his hands put the same thing to Shen Lang.

“Sir, this is the same medicine I have collected, maybe it will help you a little.”

Shen Lang looked at the past and opened his eyes.

“Nine times of purple lotus?”

These nine times of purple lotus, is a very rare kind of elixir, the lotus is the color of purple gold, it takes a hundred years to mature.

After maturity, the lotus seeds can be taken and used as medicine. However, if they are not picked, they will wither and die. After several decades, the lotus roots will be re-grown again and mature again in a hundred years.

One time is the meaning of dryness once, meaning that it will be reborn once, and finally reach the nine-time purple lotus, the true medicine of nearly a thousand years.

Each time the purple golden lotus is reborn, the efficacy will increase greatly. After nine times, it is the best, but there are very few purple gold lotuses in the world.

Because the truth knows, but not everyone can afford it!

For example, someone encountered Zijinlian in the first time. If you missed it, it will take about a hundred years to wait for the next maturity. After a hundred years, people are old, even dead, and may not be used up.

From a practical point of view, it is generally encountered, just waiting for that time, whether it is just dry, or in the process of re-blooming, will be picked at the next mature. If it is the maturity period, of course, it will be planted directly.

Xu Haoyue nodded with a smile.

“Good luck, when I met, it was already eight times. Otherwise, I didn’t have the patience to keep the nine times. I also lost no one picking it here. After nine matures, the lotus seeds were picked, I have already taken many This is the rest. So the gentleman does not have to be polite to me.”

Shen Lang believes that he is telling the truth. Who can be sure that he can live for hundreds of years? Of course it is impossible to wait.

And Xu Haoyue can live to the present, hundreds of years old and still have no feelings, I believe that the use of these nine times Zijinlian is also huge.

“You still have to use it later, I...”

“You are not welcome with me.”

Xu Haoyue directly put it into the hands of Shen Lang, and then said to everyone: “Everyone is looking for a place to retreat, the cave can be inside, anywhere in the valley can be, I will be responsible for security issues. If you still need medicinal resources, can also open to me!”

Including Qiu Shuyu and Nanyiye, I have never heard of the nine-time purple lotus, but from the expression and dialogue of Shen Lang and Xu Yuyue, I also know that it must be very precious.

But what about that?

Xu Haoyue gave them a direct wave of each person to distribute. For Shen Lang is to put your hands on, even seeking to accept!

It should be said that to entertain them and give them the resources of medicinal materials, they are all the face of Shen Lang, or else Xu Yiyue will pay attention to them?

This makes them jealous at the same time is also a mysterious old man who is convinced of Shen Lang, but is curious.

Everyone immediately acted, looking for a place in the corner of the cave, eating the centuries-old elixir directly, and the marrow fluid obtained before, and began to rush.

Dorothy does not need herbs, but she did not return to Xu Haoyue. Among the people in the scene, she is familiar with Zheng Yumeng, and also knows the relationship between Zheng Yumeng and Shenlang, so she gave the one she got privately to “Zheng Yumeng”.

The current “Zheng Yu Meng” is bleak and not polite, because she has already discovered that Dorothy’s strength is much stronger than that of Qiangjialing. She also needs to speed up to catch up.

Shen Lang didn’t think about the impact, but got a nine-time purple lotus lotus seed, plus the swallowing inner Dan, so he decided to try it.

Chapter 633 - Overbearing breakthrough

This cave has been opened for a long time, and there are still masks at the door, and there is a super strong protector like Xu Haoyue.

Everyone can safely pass the customs. In all of them, the three people with weaker strength are most impatient and want to catch up.

In fact, Shen Lang is still a bit wary of Xu Haoyue. After all, through indirect friendship through the cold and cold autumn, it is still a matter of hundreds of years ago. Many people will change a lot in a few years, let alone hundreds of years.

But when I came here, I took the initiative to give the medicine, especially to give him nine times of Zijinlian.

Because of the nine-time purple lotus seed, it is already a great value, and on his body, Xu Haoyue can know the greatest value, that is, the inner thorn that swallows the sky.

When everyone started to practice the rush, Shen Lang also began to seize the time.

Originally, he felt that he had the strength and the gods of the gods, and they came to the death forest with them. It was also a chance to get Nedan better, but did not want to hit a higher realm.

Now it is not the same, directly take the swallowing one of the big inner Dan, together with the nine purple gold lotus seeds!

This is of course a very risky behavior, and it is very likely that the body will not stand and collapse.

However, Shen Lang is not worried, because after the transformation of the giant rhinoceros beast fluid, coupled with Thomas's lightning quenching, his body is tough, in fact not inferior to the superior beast!

Nedan and elixir are completely different types of treasures. Together, they may be complementary or mutually impactful.

Shen Lang just took it, and immediately felt a huge change, the effect of both is very overbearing.

But these two are not the same hegemony, swallowing the hegemony of the sky, is violent, even if it is a little refining, it is carrying extremely powerful information, in an attempt to engulf the sinking waves!

It's just a Nedan. Of course, it won't make a fortune against Shen Lang, but its powerful phagocytosis is instinct, and it is also the root of swallowing the sky to grow into a swallow.

Devouring all the energy to complete your own growth!

The current situation is that when Shen Lang refining it, it actually wants to swallow Shen Lang, even if it has no body!

Nine-time Zijinlian is another kind of hegemony. It is the arrogance that absorbs the essence of the millennium and the earth. It is as strong as a rock, and it cannot be refining it!

Now the feeling of Shen Lang seems to inject a wave of uncontrollable waves into the body, and there is a pin of the sea god. If they can't be refining them, they will make their bodies reversed.

Under such a state, Shen Lang did not choose a little bit of weakening, but chose another more extreme way!

He once again took a lot of the brains of swallowing the sky!

After ingesting the brain with the gene of swallowing scorpion, it is not the intensification of the third external force, but the inner end of the instinct, and feels a kind of intimate destination.

Nedan chose to receive the energy of the marrow fluid and wanted to combine it. Although there is no consciousness control, the direction of evolution is like to reinvent the soul by combining the two!

At this time, Shen Lang is the violent force that guides the swallowing of Nei Dan, to intensify the sturdy nine-time purple lotus!

Neidan's chaotic instinct will, in order to reshape the spirit of the body, in addition to the need for unity, also need more energy. During the process of intensification, it was discovered that nine times of purple lotus is very good nutrition, and it immediately attacked fiercely.

Nine times, Zijinlian can also counterattack, but will not actively attack. Therefore, under the action of the brain, the entire process is biased.

If it completely refines the nine-time purple lotus, it becomes a tonic, even if it does not necessarily reshape the soul, but it must have a stronger sense of autonomy, and it will have a greater impact on Shen Lang!

But since Shen Lang will have such an arrangement, of course he has his plan.

At this time, Shen Lang holds the fine stone in his hand and continues to absorb a lot of aura!

The aura absorbed into it is not transformed into its own vitality, but it is to attack the inner scorpion, and he is to confuse himself first.

Under such a state, the "Yin and Yang Bozhenzheng", which was cultivated at all times, began to show its fifth power.

When the inner brain mixed the brain and then intensified a part of the energy of the nine-time purple lotus, mixed with the aura of the fine stone, not giving the opportunity to absorb the inner, immediately refining into the vitality of the "yin and yang wave if true"!

This is equivalent to using Nedan to cut nine times of Zijinlian, but each time he cuts a little energy, and before it absorbs and uses it, it has been refining by "Yin and Yang Bozhenzheng".

This is the body of Shen Lang, but he has a wealth of experience. Although Neidan's chaotic consciousness seems to be a little irritating, its role is to accelerate the attack on the nine-time Zijinlian, hoping to get more energy.

As a result of this process, Shen Lang was under the cover of the aura of the fine spirits, followed by the cheapness of Nei Dan, the powerful energy of the nine Hui Zilian, was absorbed by the layers of the waves.

In this process, Shen Lang also began to directly refine the brain and inner Dan.

When Nedan found that something was wrong, instinctively gave up nine times of Zijinlian and tried to protect himself. However, it was discovered that the hegemony of “Yin and Yang Bozhenzhenzheng” is not only more fierce than it, but also the absolute advantage of the home court!

At this time, the swallowing of Nei Dan is still a raging wave, and it is time to go to the beat of the pinnacle. The Shenlang is the sea itself, how can you toss it, all in the sea!

The speed of a little layer is not fast, but it actually contains powerful energy. For Shen Lang, it seems that I don't know how many Lingshi injects aura into him.

Under such a state, Shen Lang can only go all out, can not be distracted from the surrounding situation, but also loses Xu Xuyue to protect the law, otherwise it is difficult to be consistent.

Time passed by, and the body of Shen Lang began to change.

The raging waves are still roaring wildly, but they are still struggling with fear.

The Dinghaishen needle was grinded a little bit more and more, and the wild waves gradually subsided.

Finally, everything has subsided.

Shen Lang has absorbed a large number of brain marrow, Nei Dan and Jiu Hui Zi Jinlian, completely refining and absorbing, and the auxiliary superior Lingshi also completely exhausted energy.

He still has not broken through the “Yin and Yang Bo Ruzheng” sixth weight but its own strength, it has already had a qualitative leap.

With the modern method of division, he should have reached the level of the initial stage of the transformation of the gods.

Nedan added Tianmudibao, the effect had to be served.

Shen Lang sighed and slowly opened his eyes.

In the process of refining and refining, it seems that after a long period of time. But in fact, it should not have been in the past, so after waking up, he immediately looked at the inside of Dongfu and wanted to see how other people were doing.

Unexpectedly, it was a surprise to him!

Chapter 634 - Comprehensive breakthrough

According to Shen Lang's own estimation, he should complete the retreat faster than others.

Although his breakthrough difficulty should be the biggest, because his realm is the highest, the harder it is to get to the back. But he has the strongest resources and his past experience.

What he didn't expect was that when you opened your eyes and looked at everyone's situation, you saw everyone staring at him in front.

"Are you all done?"

The big home was finished earlier than him, and Shen Lang was a little surprised.

Did they break through?

If you don't break it, you should be embarrassed to stop and see him.

"Shen brother... You just got this... is it... broke through the realm?"

When Joe Shu Yu asked this, the voice revealed incredible.

Shen Lang nodded: "It should be. What is your situation?"

Everyone is cheering up, because it is unbelievable, so surprise.

Desolation whispered a few words to him, only to understand what a situation.

It turned out that he had passed the retreat for a month!

During this month, everyone has completed the retreat and has made breakthroughs.

But he has not yet gone through the customs, and he is also waiting for patience.

Today, there was a lot of movement, and everyone was attracted. Later, Xu Haoyue added an isolation cover around Shenlang. Otherwise, his movements are estimated to be able to turn over this cave!

Everyone was worried that he would go into flames and the like, so he stared at him nervously until he calmed down, and Xu Haoyue just opened the isolation cover.

“After a month!”

Shen Lang is a bit embarrassed: “It seems that everyone is working hard, this time I am dragging my legs.”

“Congratulations Mr. Breakthrough!” Xu Haoyue smiled and congratulated him.

Although this is not a big deal for him, he is looking at Shen Lang to take Neidan and Jiu Hui Zijinlian together. It is not easy to complete refining and breaking through such a short time.

Others have also rushed to congratulate, Shen Lang has broken through to the realm of the gods, and is extremely inspiring to everyone.

After all, Xu Haoyue is unfamiliar. Even if he is a peer, it is only temporary. Everyone can't treat it equally, and Shen Lang is their friend.

Xu Haoyue, that is still strong, Shen Langqiang, is their team strong.

Shen Lang himself is very happy, then check and ask about the situation of other people.

When Dorothy was in the seamounts, she relied on the essence of the three masters of the real world to break through the strength of the early days of the realm.

This month's time is constantly absorbing the blood of swallowing the sky. This is a beastly beast, and it has a lot of blood, which makes her harvest huge.

To what extent she is now, even Shen Lang can't see it. She can only determine the realm and strength of the single theory. It is definitely the first of them.

Because of the imperative to Xu Haoyue, the desolation did not sleep and let Zheng Yumeng take over, the body is still her control.

Get two copies of the elixir, plus the swallowing of the marrow, and Lingshi, so that she also successfully completed a breakthrough, reaching the level of the peak period.

With the help of Xuelingguo and myeloid, it is also a breakthrough in the realm of the real world, but the strength is weaker than the bleak.

Qiao Shuyu and Nan Yiye, they were originally in the middle of the real world. After resources and efforts, they also broke through to the end of the real life in this month.

The two of them are very positive, in addition to the weaker cockroaches, but also because they have a strong family behind them. The huge harvest is also to be handed over to the family and rewarded again.

However, the retreat in this area is not the same. If you use it, it is used up. It is definitely more cost-effective than the family. The big reward is just a few.

Especially after the strength is improved, let them go back and get more attention. After all, even if they are younger brothers, they are not a single pass, there are still many cousins.

If you really want to talk about "the extent of improvement," you have to be a canoe.

She was originally the level of the early days of the realm, and it was the weakest among the people, but the resources she got were basically the same. This will work together, of course, the effect will be better. When others improve their level, she may be promoted to level one or five.

And in the rain, the part of her marrow was given to the canoe. The original canoe was also about to break through the middle of the real world, so in this way, she completed two breakthroughs in a month.

At the beginning, she quickly broke through the middle of the real world. After one month, it also broke through the post-reality period.

Of course, the same is true in the late stage, she will be a breakthrough. Two of them, Qiao Shuyu and Nanyiye, who have upgraded from the mid-term of the realm, are already very stable and still much stronger than her.

Overall, everyone's strength has improved by a level, but basically still maintain the same ranking.

If it is because of this effect, everyone is very satisfied, do not need to panic acid others.

After confirming these situations, I will discuss it immediately, relax and rest, and begin to hurry to the advanced beast area tomorrow.

Everyone practiced for a month, but also wanted to relax. Several girls said that they would go outside to pick some fresh fruits, and the other leaves of Qiao Shuyu went to hunt for a little game.

They are still young, although every ordinary person pays attention to eating and drinking, but there is still demand.

Xu Haoyue is the fun of planting itself, much more than harvesting and eating.

They are to express their gratitude, so this little work is done by them, and it is also a space for Shen Lang and Xu Haoyue to talk alone.

After they left, Shen Lang noticed that Xuan Hu was lying in the corner of the cave and asked.

“It won’t be eating all the swallows?”

Xu Haoyue glanced at him, revealing a pet-like smile, as if looking at his own child.

“Almost, it picks as much as possible to eat, and it has been eating for a long time. Now it can be absorbed by sleep for a long time.”

Shen Lang nodded, the way of the beasts is a little different from that of human beings, tending to absorb the nature, and the time will be longer.

“I used to go to bring it back. By the way...”

Xu Haoyue took out a small bottle and placed a soundproof cover to prevent them from talking to two people.

“There are still special and most valuable things that have been missed.”

“This?” Shen Lang took over the small bottle he had handed over and saw some glue inside.

“This can’t be taken directly. It was my past and refined.”

“What’s the use?” Since it was handed over to him, it would be very useful to say so grandly, but with the insights of Shen Lang, I don’t know.

Chapter 635 - Special substance

The so-called fierce beasts and spirit beasts are actually human beings. In the end, they are rare animals.

Some of them can be counted as the category of the monsters, and many are common to the common animal beasts.

Therefore, even if they are spiritual and powerful because of factors such as genes and environment, they are generally fixed. For example, Xuan Hu, although the color is different, very fast and powerful, but the head and the tiger are not much different.

And the giant rhino beasts that are encountered in Thousand Grottoes are because of the variability of the environment, not the racial innateness.

Because of this, Shen Lang absorbs all of its marrow fluid, which will make the body get super-powerful, but the general beast does not have such a function. It does not say that it absorbs the flying beasts. Long wings fly or something.

In the case of cockroaches, no matter what kind of cockroaches, how strong and change, the growth in the head is still limited. Like a fist, it is as big as a person, and it is as big as a person. It is ten times as large as a hundred times.

In other words, if it is not because of its particularity, even if it grows for 10,000 years, other beasts will not grow as big as swallowing.

The speciality of swallowing all the scorpions is the glue that Xu Haoyue now presents.

This is scattered throughout its body, which makes it so large that its body can not swell.

Xu Haoyue will be attracted to the past, that is, to go to this thing, because Nedan will definitely be taken away by the hunters, originally wanted to find food for the Xuanhu, and then condense these substances.

“What is this thing, I don’t know, I know because of the situation.”

Although Xu Haoyue couldn’t say a specific name, but after a few words, it also confuses Shen Lang.

Seeing that Shen Lang was going to return it to him, he shook his head again.

“This thing is new to me, but it doesn’t have much direct use. But you are different, it should be very helpful to you.”

Although Xu Haoyue is implicit, the meaning is obvious.

With his current strength, not to mention the invincibility of the world, it is estimated that there are not many enemies of the same level, so there is no need to strengthen the body.

Shen Lang is not the same. In his age, it is definitely the best in the world. But there are still many hidden old monsters in the world. The strengthening of the body can still bring great help to his combat effectiveness.

“If I refine it and absorb it, I will grow bigger and bigger and become a giant?” Shen Lang looked at the gel again.

He still has some doubts about things that are unfamiliar.

Xu Haoyue shook his head: “The particularity of this thing is magical in telescopic. The swallowing of the battle with you is so huge that it can be crushed. If it needs to escape and hide, it can be shrunk very small.”

“So amazing? If I succeed, when I fight, I can become a giant. After I finish, I can return to normal?” Shen Lang could not help but laugh.

Xu Haoyue did not laugh: “There is theoretically, although I have not tried it, and I can guess it, it will inevitably be a very painful strengthening process.”

“Hey. This is really a good thing, but it must be well controlled. For example, when it is in bed, if it is partially enlarged, it will tear people.”

Shen Lang smiled and opened a joke, opened the bottle, carefully observed and sniffed.

Xu Haoyue was a bit stunned. He didn’t understand why the bed was getting bigger and bigger, why did he tear people? With his hundreds of years of living alone, he has long since broken his thoughts and needs in this area. He did not expect this to be a dirty joke.

“Then I will hurry up!”

Since Xu Haoyue is so recommended, he should even be able to say that his hobby is allowed to come out. Shen Lang does not disobey his good intentions.

One month's retreat, nine times Zijinlian, has allowed Xu Haoyue to win the trust of Shen Lang. For this unknown gel, he did not hesitate and directly served.

I have to say that this thing has no meaning from the smell, and it doesn't even feel anything.

But just after going through the throat, I began to react immediately. Just after I got into the stomach, I was quickly absorbed by the body and then quickly spread to the whole body.

Shen Lang has already prepared for it. Now he is also a strong person in the realm of the gods, but still feels both inside and outside, and even the heart has been violently stimulated!

Within a few seconds, his body began to tremble and the muscles on his face began to squat.

What I feel now is that I am inside and outside, and I am being pinned by countless needles!

People who have had a needle can understand the pain of needle sticking, and the whole body is needled up and down. It is countless times of pain, and all the internal organs and blood vessels are needled, which is an indescribable pain.

Xu Haoyue has been watching Shen Lang carefully next to him. As soon as he saw him, he immediately reached out and injected a glimmer of energy from his head, preparing to relieve him by external force.

But after all, he has not experienced this thing himself. The power to help Shen Lang is very limited, or rely on Shen Lang himself.

The girls who pick the fruits outside, although they don't listen, can't hear what's inside.

However, when the body of Shen Lang was severely painful and uncomfortable, the desolation immediately had a feeling of empathy, and the most powerful Dorothy felt it.

The two immediately rushed to the cave in desperation.

When I first came in, I saw Xu Haoyue pressing one hand on the top of Shen Lang's head, and Shen Lang's body was shaking wildly. The whole person could see very pain and seemed to be unable to endure.

“what are you doing?!”

At the same time of sorrow and sorrow, Qiu Shuijian has been squirted and directly attacked the past.

Dorothy did not speak, it was a direct attack.

They are all dead people. Although it is not clear what happened to Xu Haoyue and Shen Lang, it can be seen that Shen Lang is almost in a state of sudden death!

He had just broken through to the realm of the gods. If it wasn't for the fight with Xu Haoyue, how could he suddenly die?

Both of them are desperate to save the waves.

The two people who fell into the rain and fell into the canoe, after seeing the abnormalities of the two of them, followed suit. Although they were one step late, they also saw this scene and were shocked.

At this time, Xu Haoyue did not look back, directly condensed the bleak and Dorothy in the air. But now Dorothy is more powerful than a month, he is so fixed at random. In the air, just a delay of a second or two, I immediately struggled to open, and the man rushed to the side of Xu Haoyue again, taking his throat!

Such an attack made Xu Haoyue have to dodge, and his hand could only loosen the head of Shen Lang.

This slack, let the bleak also loosen from the air, the sword is coming straight!

The two people who fell into the rain and fell into the canoe also joined the battle immediately. Although they all know that compared with Xu Haoyue, they hit the stone with eggs, but in order to sink the waves, they are still urgently shot.

They all have a thought, hold on! As long as you delay for a few seconds and let the Shen Lang slow down, he should have a better way!

Chapter 636 - Transform

They have a blind faith in Shen Lang, even if it is a less familiar one.

Because Shen Lang created too many miracles, the near is like killing the swallows, and magically let this mysterious Xu Haoyue convinced.

So no matter what the current situation is, they believe that as long as the sinking waves come over, they should still be able to control Xu Haoyue.

But what I didn't expect was that because Xu Xiaoyue was avoided by Dorothy, the result was that Shen Lang was out of control!

Although Shen Lang did not make a sound, the whole person was changing rapidly, letting them forget the attack on the strong enemy, but focused their attention on the past.

The pictures I saw were not only unbelievable, but also unforgettable for a long time.

But at this moment, they are shocked first!

The body of Shen Lang, after the uncontrollable jitter, actually burst into a fierce burst!

Their pause attack allowed Xu Haoyue to quickly reach the side of Shen Lang, and looked at his situation with solemnity. In order not to stimulate them, they did not touch the waves again.

In the meantime, the clothes on Shen Lang's body quickly shattered!

The piece of cloth made a torn sound, and the belt was a buckle. When it broke open, it made a crisp sound and it also popped away.

With these changes, the body of Shenlang is rapidly becoming taller and larger at a visible speed.

“How to do how to do?”

Dorothy yelled, and now she had no intention to attack Xu Haoyue, she must save the waves.

She remembered the first time she met with Shen Lang. At that time, he was out of control. He was surrounded by lightning on the plane. The plane almost crashed. Finally, she had to bite him and stop him by vampire. Practice.

It is also because of this past event, let her suspect that it is not a sinister injury, but may be a kind of cultivation out of control.

Desolation also stopped the attack, and the whole person stared closely at the sinking waves. This change was not seen by her.

Of course, the raft is just anxious, she can't escape more experience.

However, it is a quick reaction to the rain, and it flies directly to the Shenlang. People have not yet arrived, and a lot of cold has been waved to force the past!

Under the urgency, she also had no time to analyze more. From some common angles, she could only use the low-temperature freezing method to calm down the waves.

If it is his personal loss of control, calm should allow him to regain control.

However, she did not arrive, and the chill that was released first did not arrive, and it was directly blocked by Xu Haoyue!

Like the previous Dorothy and Desolate encounters, there seems to be an invisible wall in the air, completely blocking her with her ice energy, and trapping her.

“The key moment! Don't bother him!”

Xu Haoyue's cold opening.

Originally, in his capacity, he did not bother to explain. But just four of them were attacking him regardless of their lives, obviously to save the waves.

He is not afraid of being misunderstood, but now if there is too much interference, it may affect Shen Lang.

Not to mention a few of them, just his own, but also need more observation, in order to find a way to help.

A few of them heard this and couldn't help but see it.

Everyone understands the people and understands immediately. This should be the key time for Shen Lang to practice what is going on. It is not Xu Yinyue's conspiracy.

After such a second or two, they saw the body of Shen Lang, which had already reached the top of the cave directly, and all aspects of the body were also enlarged in the same proportion.

Originally, this cave is Xu Xuyue living alone in a mysterious tiger. Even if a few people are still spacious, the height is limited.

Shen Lang has expanded his body several times. The space is still spacious enough. On the top, he stuck his head, and then continued to expand and only bowed his head.

"How could this be..." The sullen murmur.

At this moment, the Shenlang, because it has expanded several times, the clothes on the body have been completely blasted, and there is no film at the moment. The picture is still a bit shameful, especially the ones that people directly look up to, which is a very spectacular natural weapon...

...

Or if everyone is worried about his safety, they must be embarrassed to see more.

"Control!"

"There is no space here, or you have to go outside to run around!"

Xu Haoyue speaks to Shen Lang, can be sure to transmit it to his ear, and even adjusts his brain through the sound, so that he can be awake.

But they are a few girls, but this time it is a little weird, Shen Lang is now without a film, this goes out to run, isn't it... streaking?

Of course, there is no problem with streaking here. It will not be seen by others, it will not affect other people, and many people will be insulted.

“call—!”

Shen Lang took a long breath and heard a lot of noise. Of course he is in the best control, but this effect is so amazing that he is also a bit unbearable.

The body is stretched and stretched extremely, it is simply re-shaping, and it is a non-stop change. Most people are unwilling to give birth to the shackles, not to mention the fact that all aspects are pulled and expanded... This experience cannot be described in words.

However, the oppression of the rock at the top of the head made his body unable to continue to expand. The help of external forces also allowed Shen Lang to increase self-control.

Xu Haoyue said that this mysterious special substance can be reduced in addition to the extreme expansion.

As long as he can control it, it should not be a problem to retract it.

In everyone's opinion, he is physically stuck in the cave and then does not move. But in fact, every second, there are countless times of manipulation, constant control, constant adjustment, and hope to find a safe method.

But this time, since he was born again and again, he has no experience and direction. He can only try his best in the past.

Everyone at the scene held their breath and stared at Shen Lang. Did not look at his slyness, and did not dare to help.

The action that just happened to be raining was organized, so that Dorothy, who had considered taking a bite of blood to help soothe the waves, could only cancel the plan.

One second, one second and one second.

The time at the scene is calculated in seconds. Shen Lang has tried many times. The people who watched it felt that every second was very long.

“Small!”

Finally, Dorothy was keenly aware that the body of Shen Lang was a little smaller.

Everyone is refreshed Then look at the giant waves of the giants, start to shrink a little bit, the speed is not as fast as the expansion.

No one has calculated how long it took, and finally waited until Shen Lang returned to normal size.

But he still closed his eyes, did not speak, Xu Haoyue did not let everyone close.

As a result, Shen Lang's body began to expand and become bigger!

However, the speed of this time was relatively slow, and his body did not show a scary reaction.

Desolate and sigh of relief, she can understand, no matter what kind of exercises are studied in Shenlang, this should be already operational and self-control.

Chapter 637 curtain

This time, it was a lot longer. Everyone looked at the body of Shen Lang and slowly became taller and bigger. It was also at the top of the cave, and then slowly retracted to normal size.

Then it started to slowly become taller and bigger...

In such a repetitive situation, it seems that the state is much better. Everyone is putting the hanging heart down halfway.

“Premier, I am very sorry, we have not figured out the situation before and misunderstood you.”

The desolation of taking the lead attack is also taking the lead to apologize to Xu Yuyue, and they are the same.

Xu Haoyue waved his hand and said that he did not need to apologize, but he continued to look at Shen Lang.

“And go out! Wait until the gentleman finishes and come in again.”

“We are still waiting here. If there is anything you need to help and run, you can help.”

A bleak sentence shows that there is still not enough trust in Xu Haoyue.

The same is true for other people. Although it seems to be a problem of Shen Lang’s practice, after all, Xu has had contact with him at the beginning. Who knows if they are only here because they are here?

Xu Haoyue shook his head and did not go to argue with them. At his age, he has already seen everything, and he wants to anger him.

Now he is concerned about the reaction of this mysterious and special substance. After all, he has not experienced it.

This time, letting Shenlang use it directly is equivalent to letting Shen Lang do the experiment. In case of an accident, he is unacceptable.

They are guarding together, but Shen Lang has not stopped signing, and continues to be bigger and smaller.

But everyone can see that he should be practicing, and obviously it is better than one control at a time.

As long as they are hard-working, they cannot understand and imagine.

Today's process is almost like reorganizing his body again and again.

Fortunately, this is not the first time that Shen Lang has encountered. After the awakening of the rebirth, the first day of tempering the body under the river, it is such a time to approach the limit, let the body grow fast.

Later, when practicing "Dazu Milong", "King Kong is not bad", it was such a round. Until the last refining of the marrow of the giant rhinoceros, the mutant gene was absorbed to make the body super-enhanced.

So the pain of tearing up the reorganization, he is also commonplace.

This experience is also a novelty to Shen Lang. Every time before, the result is to make the body stronger, and this time, it is really bigger!

This is not huge depending on the spell, it is really making the body huge.

The practice again and again, finally let him master it completely calmly. Considering that the last time the retreat was over, the month passed. In order not to let everyone wait, Shen Lang did not continue to practice after fully mastering it.

When he opened his eyes, he saw it as before. Everyone stared at him, and this time it was Xu Weiyue.

"Let you worry, I have no problem, I have just cultivated a new practice, and now I have mastered it."

With Shen Lang and their familiarity, they can see the nervous and worried eyes from their eyes, and they will comfort themselves.

“It’s okay. It’s very embarrassing, the heart of our villain, I thought that your situation is caused by the predecessors... the older generation is sorry!”

Desolation once again apologized, and now Shen Lang personally said, it is really safe to worry, and trust in Xu Haoyue.

A few of them also apologized once.

Shen Lang looked at them and looked at Xu Haoyue again. It is estimated that they had already moved.

Xu Haoyue smiled and shook his head: “I don’t get in the way, a few girls can be so anxious, that is also the concern for the gentleman. Knowing that it is not my opponent, but also to stop me, it is even more rare. They are all faithful and reliable people!”

Having said that, some of them still feel embarrassed and even a little embarrassed afterwards. In case he angered him, it might be that they even took the waves and attacked them together.

“We found some game, and in order not to dirty it, it has been baked outside. Everyone...”

Joe Shuyu rushed in from the outside and was excited.

But as soon as I came in, the whole person was stunned.

Shen Lang smiled and said: “Are you all already baked? Time flies so fast, but I finished it in time.”

When he said this, he actually lamented it. For him, it was not too long for a century. The pain of the reorganization and reorganization is hard to pass for a second.

“I said... Shen brothers, even if you are good in size and costly, don’t you have to show up in front of a few girls?”

When I heard that Joe Ue was a little embarrassed, Shen Lang looked down and noticed that he couldn’t help himself, and he couldn’t help but blush.

After he was awake, because of the long pain, he forgot that he would first blast his clothes. I thought that I had just calmly talked to you. I didn't know if he had this hobby, or if his face was really thick!

In fact, a few of their girls, who have been watching for a long time, are not so nervous about the back. Of course, they have noticed that there is no clothes, and even the key.

However, it is impossible to find something to cover him. In order to protect the safety of the waves, they can't run out because they are shy, so they can only ignore this.

Wait until the waves are safe and sound, they are all relieved, then the shackles of Xu Haoyue, and a trace of fear.

In other words, not everyone is fascinated, but has not yet reached this link.

As a result, Qiao Shuyu came in at this moment. If he didn't understand the cause and effect, he saw that there were no smashing faces in front of several girls...

After saying this, in addition to Shen Langqi, a few of them are also very embarrassed, and quickly excused to go out.

But then again, in the four of them, Dorothy has long recognized herself as a person of Shen Lang. Since she is a slave, she will not be resistant or unacceptable to the body of Shen Lang.

The rain fell, and I saw it once in the dead forest. That time, Shen Lang was cooling down in the pool. She and the sister-in-law's voice came in a difficult way. She also drank the bath water of Shen Lang. She also saw him "out of the water". The side of Hibiscus.

Of course, the current figure is much better than that of the year, and the scene just now is...very spectacular.

Needless to say, because she and Zheng Yumeng are a body That has already passed. Even Zheng Yumeng is very funny, switching to her on the line when she is embarrassed, which means she is also with Shen Lang.

The rest is only the most embarrassing of the canoe...

Shen Lang quickly found a dress to change, and then thought about a problem. When you really want to fight, you will “transform”.

Fighting in the light, even if you are tall, there is no momentum!

Qiao Shuyu was very puzzled, and he wanted to ask. When he was wearing clothes, he also saw the pieces of cloth shattering on the ground. He couldn't help but secretly: They just played games, why not? Will it be the old man?

Is it that the four of them shattered the clothes of Shen Lang?

Chapter 638 - Beast core area

Originally everyone was relaxing and then going to the adventure. As a result, they misunderstood the master of Xu Haoyue, and then Qiao Shuyu ran into the “sports figure” of Shen Lang, and the overall atmosphere was a bit embarrassing.

So whether it is melon or game, everyone just eats a little, and then it is an excuse to practice.

Finally, Xu Haoyue accompanied Shen Lang to walk in the valley. Shen Lang also officially thanked him and gave him feedback on the experience and feelings of the process.

All the way down, Shen Lang can see that Xu Haoyue is very affectionate about this valley.

Even if he did not live here for hundreds of years, the valley can be placed to the present size, at least for a hundred years.

The beautiful scenery has not been felt for a long time. In his state of mind, he is usually calm, but now he is about to leave. If the adventure ends, he will follow Shen Lang and then he will not know when he will return.

At the moment of separation, he was touched by the grass and trees here, and the sleeping tiger.

Shen Lang looked in his eyes and did not say anything. This is Xu Haoyue's own choice.

If you follow him, of course it is a very wonderful thing, it is almost a super powerful thug, the master of the master league, the president of the bat club, will not be his opponent.

However, after all, Xu Haoyue revered him, it was still the influence of the previous world. The current Shen Lang, the gap with him is still huge.

Other people's fear and worship of Shen Lang is because Shen Lang is more powerful than them, and they create miracles. When Xu Haoyue followed, everything was normal, and over time, it diminished the image of Shen Lang in his heart.

Based on this kind of heart, Shen Lang will not invite him to go. If he is willing to follow, he will not mind.

There was nothing to say overnight. When he left the next day, Xu Haoyue prepared a gift for everyone. It was basically a precious medicine of decades. It was also picked directly from him.

Including Shen Lang did not refuse, even if he could not use it, bring back to this Tianshan Jianzong is still very good. These herbs are refining medicinal herbs, which are more effective for the disciples in the door than for them.

Xu Haoyue also sealed the cave. Xuan Hu still slept inside and ate so much swallowing meat. It took a long evolutionary process to avoid being eaten by others.

However, he also said that Xuan Hu followed him for a long time, even if he was not there, know how to open it.

Going back on the road, there is Xu Zhenyue, the real indigenous lead, basically does not need to pay attention to the direction as before, everyone's strength has also improved by one level, and the speed and efficiency of the road are much faster.

The rough calculation of Shen Lang is probably after seven hundred miles. Xu Haoyue reminded everyone to start entering the area where the high-level beasts are infested.

But this is only the peripheral edge. Generally, they are active in this area. To find the higher-level beasts more easily, they must go deeper than three hundred miles.

It is flying over the tree, and everyone can feel it. After entering this area, the trees are more stout. The following are more exotic flowers, and the aura can feel a lot more.

Needless to say, senior beasts will occupy a relatively concentrated set of sites, naturally because the resources here are better and can evolve faster.

Two of them, Qiao Shuyu and Nanyiye, are all remembering all the way.

This time, Xu Haoyue's lead is more than a few hundred miles away from the maps that they have summed up!

According to the map of their family, even if the two are in proportion, they want to meet the high-level beasts.

Now they can remember this. Going back to the family, the map information of light is a great achievement, and it is good for future generations.

They are a family that has been passed down for thousands of years. When they were young, they were educated to take the long-term interests of the family as their mission. This is also the reason why they personally come out to act, but still have to hand over the harvest to the family.

No matter the good children, it is impossible to rely on their own talents and efforts. It is also cultivated by the family's resources. Naturally, it is also necessary to give back to the family. Only by letting the overall strength of the family be upgraded can it rise in height and be unbeaten in the millennium.

In the afternoon, they entered the core area where the beasts were active, and everyone remained on guard, then kept walking on the ground.

As I walked along the ground, I found a lot of precious herbs along the way, which have been everywhere for hundreds of years!

However, it is a pity that this is pure wild, and it is randomly encountered, most of which are not just due to the harvest period.

Many of Xu can be sent out because he planted it himself, and a few of them were harvested, most of which were picked first during the harvest period.

Therefore, they can only watch the eyes, and the early picking has no effect, or the effect is weak, and it is violent. Just like fruit, picking in advance is not cooked, and picking is also a waste. Expired and rotten, you have to look at the maturity.

However, there are also a few people who have no maturity, just like ginseng. The longer the year, the more effective the drug is.

After walking for about a few miles, everyone started to wonder.

Already in the core area, the aura and exotic flowers also prove that the environment is really very good, what about the high-level beast?

Not to mention the intensiveness of the abundance, not to reach a few in a few dozens?

Everyone is not good at opening, but only occasionally looks at Xu Haoyue.

Of course, Xu Haoyue didn't need to say it. He understood everyone's thoughts. This is the place he brought with him, but he did not encounter a beast. It was a bit shameful.

"Hey, I don't come here often. I don't have the habit of hunting the beasts. I just came here to pick the herbs. Many of the herbs in my valley were transplanted from this one. It was a few years ago... .."

Whether he is old or strong, he is far better than everyone. He heard his explanation and everyone is embarrassed.

"Predecessors have said that you can bring us, I am very grateful, I dare not complain." Nan Yiye said busy.

"Predecessors, when you came here, what is the situation, should there be no vicious beast to attack you?" Joe beam feathers on the side of the inquisition.

Although they did not encounter the beasts and did not take the initiative to attack them, they might have squandered the evolution of cultivation like the swallowing of the sky, and they did not pay attention to them.

In fact, Qiao Shuyu wants to ask if Xu Haoyue knows that some of the beasts of the beasts, so directly to the door, the opportunity is even greater. But this does not dare to open the mouth, unless it is the opening of the waves.

However, Shen Lang did not speak, and Qiao Shuyu did not dare to ask him!

Not waiting for Xu Haoyue to answer, Shen Lang was the first to speak.

“Everyone is careful, something is wrong here!”

Xu Haoyue’s words on Shen Lang, of course, paid more attention to it. I immediately ignored Qiao Shuyu and asked a question.

“Mr. What did you find out?”

Chapter 639 - nest

As soon as Shen Lang opened his mouth, everyone’s eyes gathered on his face, waiting to listen to his high opinion.

“I didn’t find anything.”

“ ... ”

Everyone was amazed, and when he heard that he said something was wrong, he thought it was something that he found. He did not expect to find anything.

However, I felt a sense of ease immediately. After all, the last time I swallowed the sky, but everyone almost died, and the second discovery of Xu Haoyue also almost killed everyone.

“Because I didn’t find anything, I have a problem!”

Shen Lang said this, Xu Haoyue nodded immediately, he began to answer the question before Joe Shu Yu.

“When I came over, I also need to be careful at all times. The beasts here are not good to deal with, especially when they are hands-on, they may also alarm more senior beasts.”

“Basically, I will avoid the nests of the high-spirited beasts, and will also pay attention to their movements and avoid conflicts with them.”

Xu Haoyue looked around for a while and said slowly: “I was very surprised that this road was down. I did not find the movement of the senior beast.”

“That is... we have a deviation, or what is the problem here?” Nan Yiye asked.

Originally, he and Joe Shuyu were both interested in it. They wanted to catch a batch of Nei Dan, and within the family, they must have the glory of supreme.

But swallowing the sky a month ago, they all let them down.

And now even Xu Yuyue said that every time he came, he tried not to provoke senior beasts, so that they had no bottom in mind.

No wonder the value of Nedan is so high, and there is no price!

Not to mention that the beasts on earth are hard to find, even the dead forests are not so easy to get here.

“There is no problem with the direction. I don’t dare to say that I walked through every area, but from my feet to the area, there is still no problem in the general direction.”

When Xu Haoyue said this, he was proud of his self-confidence.

In order to be rigorous, he added another sentence: “Of course, the deviation is a few dozen miles, this is not a problem, this big area is not a two-headed beast.”

Nan Yiye Qiao Shuyu quickly nodded and said yes.

Then everyone's eyes returned to the face of Shen Lang, want to see how he decided, or how he wants to discuss with Xu Haoyue.

Shen Lang pointed to the front: "Go ahead! Speed up a little speed!"

They have slowed down in these dozens of miles just because they walked on the ground, and all kinds of heaven and earth treasures along the way were not to be tasted, and they could not be picked.

Now that Shen Lang's words are spoken, it is necessary for everyone to speed up the speed of the road.

Everyone has no problem, and they immediately agreed.

In fact, as far as medicinal materials are concerned, even if most of them are not easy to pick, there are still many gains. Carrying them back, taking medicines, or selling them is a huge value.

But the three of them contributed to this trip, the main purpose is to harvest Nedan, now that Shen Lang has been passed, and Qiao Shuyu and Nan Yiye are inevitably obsessed.

After the new decision, everyone accelerated their walking, and they stopped looking at the medicines that were not sure.

This way, a hundred miles have been made. Everyone is trying to keep an eye on the movements around them. But the result was very quiet, just like the forest that was swallowed by the birds and the beasts.

Originally this piece is full of high-level beasts, the average bird and beast, and the low-level beasts are not here. Now there is no breath of high-level beasts, it is extraordinarily quiet.

This kind of silence is not the silence of the voice, but the state of no danger and no fluctuation.

"Look!" Joe Shu Yu was excited.

Needless to say, Xu Haoyue and Shen Lang are of course the first to pay attention.

“This is the trace of a high-ranking beast.”

Xu Haoyue identified it in the past, then drifted away in the distance and found the same traces dozens of meters away.

Everyone followed, and compared it, the determination should be the same.

“Is there a beast passing by here?”

Xu Haoyue looked in one direction: “Beside that side, there should be a beast of a beast. Before that, it quickly rushed to the side and left.”

“Leaving?” South Yiye couldn’t hide the surprise look: “Would you like us...”

“Go and see!” Shen Lang nodded.

In the direction after Xu Yuyue’s identification, I walked a few miles away and everyone saw a huge natural cave in the mountains.

When I get here, under the high alert, I can already feel the smell of a fierce beast. Strictly speaking, it is a residual breath!

“Go in and see, there are no beasts.” Xu Haoyue had already searched the gods.

“No? I thought there would be a small...”

Nan Yiye was a bit disappointed. What he saw just now, his first association was that the adult beast went out to prey, and the nest was most likely to have a cub.

The cubs of the advanced beasts, although Nei Dan may not have, or weak. But it doesn’t take too much to get it, bring it back to the captivity, it’s another layer of harvest.

Shen Lang took them in with them.

A fierce beast is a fierce beast. Even a wise, high-spirited beast will not be as stressful as human beings. This cave is a calm cave, far from being comparable to the valley of Xu Yuyue.

It's empty and there's nothing in it.

Everyone went deep into the bottom of the cave and saw the traces of the vicious beast living. It also felt the residual smell more obvious.

It seems that this is also a small beast. Although it will not be as abnormal as swallowing the sky, it should also have the size of a general elephant.

“This is also a harvest. If you want, you can take it away.”

With Xu Haoyue, everyone saw a bunch of Lingshi!

Basically, they are all medium spirits. The size of this pile should be several hundred. From the scene, this fierce beast is usually on the top to absorb the aura.

This way, including in Xu Yuyue, they have got a lot of valuable medicine, but after all, it is necessary to trade to be a stone.

Now looking directly at a pile of Lingshi, the impact is the same as the impact of a pile of gold on ordinary people.

“Buy you first put it up Go back and divide it.”

South Yiye maintains a demeanor, not rushing to install, but let Joe Shuyu do it, but first emphasize that it is good to give back to everyone, so as not to be misunderstood that they want to eat alone.

Don't say that Xu Haoyue, that is, Shen Lang, can also play the role of this team, where they dare to swallow.

“Leave half, don’t start too much... forget it, take it away!”

Shen Lang just blurted out and immediately changed his mouth.

Because he does not lack Lingshi, he naturally wants a high profile and gives a little. But then I thought that the key to everyone’s purpose here is to hunt and kill the beasts. Even the beasts must be hunted, and what is the good intention to keep the electricity stone?

Chapter 640 - Dangerous possibility

Other people are the same mind. Since they have to kill the beasts, Lingshi does not matter.

When Joe Shue had heard the words of Shen Lang, he was stopped. The next sentence made him speed up.

“Would we like to stay here to ambush?” Nan Yiye continued to ask Shen Lang and Xu Haoyue.

This is the method used before Shen Lang. At that time, I was still waiting for the rabbit. Now this is to guard the rabbit cave. It should be a bigger chance.

However, under Xu Haoyue’s statement, Shen Lang had already vetoed it first.

“Let’s check again and see if there are other valuable things. Let us leave without us.”

“it is good!”

Although Nanyiye is a bit strange, Shenlang can make Xu Haoyue respectful, and they are not allowed to question. After his decisive promise, he immediately began to search in all corners.

Because this natural cave is very simple, there is no other arrangement, that is, there is no hidden thing in the gap of the depression. Under the search of Nanyiye and several other people, there will soon be a result.

The harvest is the pile of spiritual stones.

“Let’s go! Can’t wait. The beasts here are hundreds of years old, and going out for a few months is not the same thing.”

Shen Lang looked at the distance, “Wait, catch up!”

“...”

Nan Yiye and Qiao Shuyu are speechless.

This is a very deep word!

When it comes to adventure, they are not comparable to the waves.

The chasing up of the variables, of course, is much more than the ambush here.

But now that there is Xu Haoyue, they are also relieved a lot.

And they have improved their strengths, and they are all eager to try, and they want to have a chance to show their hands.

Everyone left, returned to the place where there was a trace of footprints, and then chased it up.

Then obvious traces, as long as there is no rain, will not disappear for a while, and unlike ordinary people, you can infer the depth of footprints by reference to height and weight.

From the footprints of the light, they can’t judge how long the beast has gone, but from the cave, there is still a residual smell, it will not go too long.

Therefore, they must maintain a high degree of alert and always pay attention to the movements in front and on both sides.

As a result, this walk was a few miles away, and the traces were intermittent and did not disappear.

“This one!”

A fierce beast has not yet caught up, but there are traces of other beasts’ footprints!

After they stopped to look at it, the purpose was to look at the waves. The words of the two beasts are completely different from the risk of a beast, not simply doubled.

Like the last swallowing of the sky, if it is not one end, but two heads, even if the physique and strength are doubled, they can all be destroyed!

If there is mutual reinforcement, it will not give people a chance to take advantage of it.

Shen Lang looked at Xu Haoyue. “It’s a bit like I guessed.”

Xu Haoyue also nodded seriously, and Shen Lang did not need to say, he would understand it.

Everyone can’t help but sigh. You can’t blame Shen Lang for discussing with Xu Haoyue. They are a level. At this point, a few of them still did not think about the speculation of Shen Lang.

Shen Lang did not give them a riddle, and immediately said his conjecture.

“We walked down and down, it was less than a hundred miles away. It was quite long, but we were just a line with a limited width. There are too many possibilities for each hundred or so.”

“But on our single route, we still encountered traces of two beasts.”

Everyone has figured out the difference and has already understood a few points.

“This is no coincidence!”

“Even more than just two beasts.”

“God! Isn’t they... is it a meeting?”

When they have not seen the traces of the two beasts, they also suspected that the beast might meet other beasts, but not as far as the waves.

Now it is clear that in the forest, their single route, the width of the left and right can be seen a few hundred meters, even if Shen Lang and Xu Haoyue can find a larger range, up to several miles.

In the width of ten miles, if you expand to a hundred miles, it is ten times. In theory, there may be twenty beasts!

Of course, it is actually impossible to be so clever, but they have nothing to gain in the first few dozens. It is not a coincidence to see the traces of the two ends here. It is a necessity.

“This trend, combined with the signs we haven’t felt before, is very likely to be the high-level beasts of the entire region, all in the same direction!”

Shen Lang looked at the front: “They are impossible to party, the biggest possibility is two aspects. One is the emergence of a resource treasure, so that they are rushing to get a share. The other is the emergence of a world-wide ecological environment. The big crisis, let them all go to help.”

Some of them are okay. Anyway, they mainly come to see the world and exercise. Follow the advice of Shen Lang. Shen Lang will not hang them.

The expressions of Joe Shuyu and Nanyiye are embarrassing.

They want to do something big, but now the situation has made their imaginations have been wiped out.

Whether it is the former or the latter, there may be many high-level beasts, perhaps the top beasts of this area are all there. Then, if they have Xu Haoyue, they are also a lot of money.

Xu Haoyue said it, he generally does not want to provoke those beasts.

In view of his respect for Shen Lang, it is really dangerous to meet people who can save.

At this moment, the sons of the two great families have all retired.

To say that the harvest is not as good as expected, in fact, there is no endian. They have all raised a realm, and there are many precious herbs, which are no small gains.

“Shen brother, what do you think we should do?”

The expressions of both of them have basically indicated their minds, but it is still inconvenient to say them directly, or to seek advice from Shen Lang.

Shen Lang looked at them and there was no direct answer.

However, just like the two of them, the fact that Shen Lang does not say is equivalent to revealing his mind.

The faces of Qiao Shuyu and Nan Yiye are even more bitter.

Shen Lang should have guessed this possibility long ago, but just decided not to continue to catch up, it has already indicated his attitude.

Now that he has proved his conjecture, perhaps he wants to keep up with the drowning fish.

“I have a suggestion.”

Xu Haoyue said: “It should be safe here. It is better for everyone to stop and rest for a while. Let me and Mr. and Mr. explore.”

His suggestion is actually the best plan. It is his words, don’t go hunting, and it’s perfectly fine to retire. Even if Shen Lang can’t keep up with him, he will not be worse than him in all aspects.

Others followed, in fact, it was dragging their legs. It was good to meet one or two high-ranking beasts. If a group of people, then it would be a big problem.

That's right. They don't have opinions from a few girls But if they are listening to them, it's not a taste.

what is this?

Abandon them?

If they are willing to give them a reward, will they be willing to accept it?

The children of the millennial family still have to face.

Khan, getting something in these two days, attending the literary work symposium to get a manuscript, completely ignorant of the bureaucracy, and they are not satisfied. I got tonight and ignored them. They asked the staff to write another time. Error code words... The meeting is still delayed...
