

## First Strong 641

Chapter 641 - King beast

Xu Haoyue does not have to care about their feelings at all. The word “recommendation” will be used. It is already very euphemistic.

However, Shen Lang still has to take into account their feelings. After all, they were originally three of them. The four of them can be said to have been brought by his relationship. People did not say anything.

Xu Haoyue’s strength is strong, but he can’t be too arrogant.

“It’s not too late. Everyone is resting around here for a night. Wait until tomorrow, we will go forward together, the upper limit is a hundred miles. If there is no gain, or it is not a big move we can face, we will retreat!”

Shen Lang said this, Xu Haoyue of course understands his mind, and did not say anything.

When Joe Yu and Nan Yiye listened, they were greatly moved.

Shen Lang is not a sinking wave!

Even Xu Qianyue’s suggestion of such a strong person is a direct veto.

Shen Lang is even more worthy of being a righteous word!

The veto is a plan that is more beneficial to him, and it is still necessary to advance and retreat with everyone.

However, they were moved and moved. From a rational point of view, they did not have humility, and did not let Shen Lang explore with Xu Yuyue. After all, this is in the advanced beast area, and it is still under abnormal conditions.

In the unlikely event that a group of fierce beasts met, Xu Yuyue and Shen Lang were the two strongest and most aware of the dead forest. They could not escape without running.

“I insist on continuing to explore and catch up with hundreds of miles because it is a big deal! Whether there is a big treasure or a big crisis, the death forest will be shocked and it is very likely to affect it.” our world!”

Shen Lang seriously explained: “If there is a chance, we still need to know a little more information. Because billions of people around the world, maybe only a few of us happen to be close.”

After listening to this, everyone was amazed and awe-inspiring.

Originally, the pursuit of Shen Lang in the end is that he feels a little good and good, in line with his arrogant style that he has always been afraid of, but he did not expect to have a heart for the world.

It makes sense to think about it. In the unlikely event that there is an entrance to the outside world? The past words of these senior beasts are really messy!

Even if the human beings of the world are united, they can suppress them. At the density of the current population, the death and injury will be enormous.

Think about the previous swallowing of the sky, if it appears in the metropolis, with its block and degree, not to mention the intentional attack, just jump and move, do not know how many buildings will be destroyed, how many people are killed or injured.

Nan Yiye took a breath and prepared to let Shen Lang listen to Xu’s suggestion.

At this time, they have to consider their own safety, so there is no big meaning.

Shen Lang first shook his head to him: “It is so decided.”

Since he has already said it, he will not change it.

His explanation was that he wanted to let them understand, not fear that they misunderstood.

There are already traces of two beasts here, and it is unlikely that there will be beasts passing by here, so it is basically safe.

But in order to be cautious, everyone did not look for a cave, or if they were just coming out, they would get a wooden house, which is the tallest tree in the neighborhood. Everyone went up to the heights to pay attention to one night.

In the evening, it is mainly cultivated. It is impossible to have a swallowing place to hide here. The aura of this area is far better than the place where the swallows are located, and there will be no abnormalities due to their cultivation.

Early the next morning, everyone cheered up.

They have been in the forest of death for more than a month, but the time is really a few days.

If there is no gain in the future, or if you are in danger, you will have to retreat immediately and withdraw at the entrance. At the thought of this, everyone's mood is still a little excited, but also a bit sad.

They are still moving along the footsteps. There are any elixir along the way. They can be picked. Everyone picks them one by one. Even if the year is less, they don't pick them. If they go back, it's a bit more.

When I continued for five or sixty miles, I saw different footprints. It's not about fitting together, but the same route not far from nearby.

At this point, the basics can already be determined, similar to Shen Lang's conjecture, or else it is impossible for different beasts to go to the same place.

Then continue to move forward, the risk is very clear!

Everyone once again looked at Shen Lang.

This time, not only Joe Shuyu and Nanyiye, but they were rafting, and they were nervous.

She is the owner of the Ice Palace. She has a heavy burden on her body. As far as she is concerned, she must also ensure that the ice palace rises and hopes to fall back safely, otherwise she will be a sinner of the Ice Palace.

But yesterday, Shen Lang said, this may affect the outside world, which makes them inconvenient to persuade.

“Remove, safety first. What is really happening, you can’t change the fate of the world!”

Xu Haoyue gave a suggestion again, this time he is also a conservative proposal.

If it really matters to a world, it is not something that one can change. This is a comfort to Shen Lang.

“That’s to withdraw!” Shen Lang did not tangled, and smiled: “We keep the right direction, the route can be cheaper, everyone try to get a consolation prize.”

Everyone heard him say that the withdrawal was already relieved. Immediately understand the consolation prize, referring to picking up a little more medicine to bring back.

In fact, if the quantity is large, or if you are lucky, the value will not be worse than that of Nei Dan.

When they retire, they are cheaper than ten miles, and then retreat in the direction they are coming. The return journey has been determined to be risk-free. Searching and picking the elixir is even more careful and slower.

As a result, they did not go far, and they heard a roar from the distant direction!

This voice immediately surprised everyone.

“Ferocious beast! Senior beast!”

“Don’t they come in this direction?”

“Are we going to speed up?”

Everyone was nervous, and when they thought of a group of high-ranking beasts, they were all sinking. The mysterious tiger and the swallowing of the sky are very fast. If you want to come to other places, it is not bad. If you don’t hurry, it is estimated to be troublesome!

They looked at Shen Lang, but they saw Shen Lang and Xu Haoyue closing their eyes together and not bothering them.

After a while, Shen Lang opened his eyes.

Xu Haoyue also opened his eyes.

“Look at this, it should be...”

“The king’s beast.” Shen Lang nodded their two conversations, we can only guess from the literal meaning. But from their dignified expression, they are already very clear about the king of the king’s level.

Shen Lang simply explained to them: “The king’s level beasts are that they have the power to command the beasts and let the superior beasts surrender. In ancient times, there were also the names of the big demon and the demon king. In this realm, wisdom is no better. People are poor and can communicate with others.”

He then joked and said: “Do you know Sun Wukong? He once made six brothers and called the Seven Great Saints, the Bull Devil, the Peng Devil, the Lion Camel King, and this is the level.”

Such a metaphor may not be appropriate, but everyone will hear a more vivid image.

Chapter 642 - Return and stay

Sun Wukong will not say, after all, there is a protagonist aura, there are backstage mountains, the other few big sacred to make up a number, not how to appear alone, but the strength of the bull demon is still strong.

This metaphor gives everyone a clearer understanding of the beasts that now appear at this king level.

“The situation is clear. It does not matter to the world’s big treasures or big crises. Instead, there is a king demon. All the high-ranking beasts in this region are actively passively rushing to worship.”

“and so.....”

Shen Lang pointed to the front: “Hurry up!”

Everyone dreams of waking up, can’t take a look at the elixir, and quickly follow the Shenlang, speed up and go ahead.

Big treasures or big crises, these high-level beasts have a core concern, unless they are close to attack them, or else they have no time to take care of them.

But now it is not the same, this king-level big demon beast, God knows how much it senses! I can hear the roar of it here, so that all the high-ranking beasts can worship in the past, and the scope of influence can be very large.

If the king is the next demon, then a few of them will be besieged by a group of high-ranking beasts.

What Swan Lang said is irrelevant to the world, but there is still a hint of haze in my heart.

This level of fierce beasts will not suddenly emerge out of thin air, it must be after decades of retreats for hundreds of years, only to be born, like the swallowing of the shackles of cultivation.

After the appearance, it is so high-profile to summon all the high-level beasts of the entire region, not just to show off the strength of the division. Who knows if there will be greater ambitions?

However, Shen Lang immediately dispelled this idea. With his current strength, even if the king of the beasts really wants to invade the human world, he does not have the power to turn the tide.

And when it was just born, the first thing it needs is to conquer other beasts and determine the site of the king. This is not a day or two. It can be a day of invasion of the human world, or it may be a long time.

This news, Qiao Shuyu and Nanyiye will also bring back their family. With the status of Beihai Qiaojia and Nantian family, Qiao Yuxian will certainly consider this issue.

Worried about the pursuit of the king's beasts, everyone's speed has increased, and they have not stopped to search for elixir. They have been on the road for a hundred or two miles and left the active area of the high-skilled beast to relax.

Yesterday, I was on the road, went straight to the key, and did not search for elixir on the road ahead.

Now that I have left the high-level beast area, everyone is second to none, and then continue to go back thousands of miles, slower than yesterday, and start searching for valuable herbs.

The harvest of this road is actually not small. Although the concentration of medicinal materials is inferior due to factors such as environmental aura, it is still a matter of luck in terms of precious years. After all, the range of thousands of miles has increased, and it has increased opportunities.

A thousand miles away, I returned to the area where Xu Haoyue lived. Everyone still went back to the valley for a night.

This evening's rest is also to allow them to better sort out the harvest along the way. Until now, everyone is still a whole, and the harvested items are not those who pick them, waiting for the unified distribution.

This night, Xu Haoyue is also a tangled moment.

I was prepared to accompany them to the adventure, and I would consider it a little more time. But now it's back in three or two days, and then it's going to return, and he has to make a decision.

However, this is not a sudden to him, because when he first recognized it, he decided to follow Shen Lang's departure. When Shen Lang retired, he had already considered it for a month.

On the evening of the same day, Xu Yuyue accompanied Shen Lang to walk outside the valley, but also to make his final decision.

“Sir, I decided not to go out with you for the time being, stay here first. One is the situation of Xuan Hu now, I am not at ease. The other one is the new king of the beast, I am not at ease.”

Shen Lang nodded.

With his current strength, Xu Haoyue followed him. It really can help him a lot, but his role in Xu Haoyue is limited.

And the two points that Xu Yuyue said are also true. From the close relationship, Shen Lang is far less close to him than Xuan Hu. The king's beast must also pay attention.

Xu Haoyue had a hint of embarrassment. After all, he said that he wanted to follow Shen Lang, and now he has repented. Even if Shen Lang asked him to think carefully, it was a bit embarrassing.

“This is a map, which I have drawn some time ago. It is the area I have traveled for hundreds of years. The error is still natural, but the general reference function is still there.”

What Xu Haoyue gave was a map of the dead forest he had drawn himself, which was drawn when they closed the time ago.

Although there are still many unknown areas, many details cannot be considered, but compared with the maps of two people, Joe Shuyu and Nanyiye, it is like a gap between a sketch and a high-definition big picture.

Shen Lang is also not polite. If there is a map, he can enter the dead forest again, or he may not need to rely on Joe and Nan.

“I will try to go to the investigation. Most of the time, I will still be here. If the gentleman is useful in my place, I can send a letter.”

With the strength of Shen Lang, Xu Haoyue can really help him, and this promise is not a guest.

“Well, I will come to you.”

Don't say that he is asking for help, at least in the future, he will be called with him.

“This is a thin gift. I can't use it. I am bothered to bring me to the Tianshan Jianzong. For the sects and descendants of Big Brother, I haven't taken much care of it. It is also awkward.”

Shen Lang sees some herbs, which is much more expensive than the previous one.

Xu Haoyue gave the herbs, all of which gave Shen Lang the face. Together with the seven people, considering the average, there is no difference, and they are basically the same.

And now this one is that he is also prepared for the Tianshan Jianzong. After all, he has a deep relationship with Gao Hanqiu.

“I am now the chief elder of Jianzong. Thank you, Jian Jian!”

Shen Lang accepted and thanked.

On the return, Shen Lang sighed again: “You are also careful.”

Xu Haoyue was a glimpse first, and then revealed a trace of embarrassment and embarrassment.

That’s right! Shen Lang saw through him.

The reason why I choose to stay, is not to do the job of breaking the waves, not to take care of the mysterious tiger the biggest variable is the new king of the beast!

Xu Haoyue has lived in the dead forest for hundreds of years. He has not had much sense of belonging to the outside world, and he is not even familiar with it. Will you worry about the safety of the two worlds?

He changed his mind to stay, is the beast of the king – Nedan!

He did not go to the area to hunt the beasts before, because the harvest of Nei Dan has a limited effect on him. Like the nine-timed Zijinlian, he is used alone, and the effect is not bad.

Simply put, it is not very attractive to him. Picking the elixir is much more cost-effective than killing the beast.

But now it is the king’s big demon beast, this is not the same, this Nei Dan can also have a great effect on him.

Chapter 643 - Deja vu

Shen Lang just reminded me, did not persuade, did not change his mind, did not even give his personal advice.

Older people will have their own stubbornness, and some things that have been decided will not be affected by young people.

Although Xu Haoyue is not an ordinary person, but also a hundred-year-old person, it is hard for the king’s beast to make him tempted. This is a rare encounter in a hundred years, and will it change easily?

Shen Lang stayed and could not directly help him, so he did not say that Xu Haoyue did not invite.

After a restful night, Xu Haoyue said the next day, I will not continue to accompany you, so that everyone can be careful on the way back.

This result made Joe Shuyu and Nan Yiye a little surprised. I thought that Shen Lang would be invited back by Xu Haoyue. After all, he was the time to deal with the lord.

However, they are not very familiar, and their status has not reached this level. Naturally, they have not asked much.

This mysterious predecessor made them feel awed when they got along, but they felt a little bit sad when they were separated. After all, there is him, and at least everyone can be safe at all.

A few hundred miles after the return journey, everyone is much faster, because this piece of information is relatively scarce.

The resources of these hundreds of miles are of course much better than the entrance to the Death Valley, which has been developed for a long time, but they are returned one by one. After seeing more good things, they naturally cannot see it.

Returning to the huge and huge megalithic temple, everyone's spirit is a shock.

Although this time there is still regret, but after more than a month, everyone still wants to go back, after all, it is also a huge harvest.

They have already arrived here, and there is nothing to be embarrassed to say about Nan Yiye. He greets Qiao Shuyu and divides the already-prepared elixir and Lingshi.

Just when they were about to start, they heard Shen Lang open.

“Wait!”

The eyes of Nan Yiye and Qiao Shuyu were all over, and the expression was somewhat solidified.

Like before swallowing the sky, Shen Lang is the first to go to Inner Dan, they have nothing to say. This can be collected along the way, whether it is ground search or direct hands-on, Shen Lang and Xu Haoyue are on the side, did not participate.

Of course, there is no direct action, but it is also to help them guard against security. It is also necessary to share one. It cannot be said that it will not be given without picking.

But if Shen Lang wants to pick first, let them be a little uncomfortable.

“Someone is coming, hide it first.”

Upon hearing this, Nan Yiye and Qiao Shuyu almost shy and die!

When people are in the safe area, they still don't forget to guard around. They think that people need to take more and more, it is really the heart of the villain!

This temple is said to be a temple, in fact, it is a simple tall building built by huge stones. The inside is very empty and does not have a place to hide.

If they don't want to be discovered by the people, they must first quit outside and hide in the jungle.

Originally, with their strength, even if they encounter human beings in the dead forest, they will not be afraid of anything. However, because of the appearance of Xu Haoyue, they have become the birds of surprise.

When I heard that Shen Lang said that someone had come, I didn't think too much. I immediately thought of the mysterious powerhouse like Xu Haoyue.

Without the need to open the waves, they are ready to go, just wait for Shen Lang to say one direction, then everyone will run out first.

Because this is the empty temple built by the boulder, you must first confirm which direction you are coming, or you may hit it.

Shen Lang shook his head, straightened to a corner, and then arranged a simple magical array at a very fast speed as everyone passed.

This magical array has no effect on the super strong, but the strength is not strong enough and does not understand the array, it is difficult to see through.

They are secretly surprised by the fact that they are in the south of the mountain, and the more they get familiar with each other, the more they find the deep waves, and they seem to understand everything!

Several of their girls are also admired and curious, Dorothy is so strange, can it be hidden? In her opinion, there is no difference at all.

Although there was a cover for the waves, they all immediately held their breath and tried to keep themselves from doing a little bit of movement.

At this time, they also found that someone came, but there is still a little distance.

The other party was also on the fast track. As they found out, it was not long before they were close to the temple and ran straight in.

At this moment, everyone is secretly relieved.

I thought it was a mysterious powerhouse like Xu Haoyue. I didn't expect it to be just a group of hairy kids!

Falling rain and falling canoe are amazing, but also quite a touch of emotion.

Several people who came in were young monks, and all of them had not broken through to the virtual world. Needless to say, the age is still less than twenty years old.

They should have come in from the entrance to Death Valley, as they have experienced together, for three days.

Death Valley has the entrance and exit, and has set such rules. It is rumored that everyone believes in this rule. Of course, it is for monopolizing business, and it is not just a guest of Chu family, Xie family, and ice palace. .

Their group came over nearly two and a half years ago. When Shen Lang went back, Chu and Xie were the targets of revenge. Haitian Town and Tama are also affected by the side.

The people I see now don't know which martial art is coming in.

Shen Lang actually found out that when someone approached, he did not think much. He just felt that his strength was not high, so he did not take everyone out to hide, but simply arranged a magic array.

Now, when I look at the people who come in, I understand that the past is vivid, and he also remembered the scene that came in that year.

At that time, it was really terrible. Even the young people of the Chu family and Xie's family, they still need to break through and add wisdom. If you change to the present, there is nothing wrong with directly destroying their family.

Less than a year after going out from here, it is much faster than the previous one and a half years.

“Hand over that elixir! If not, don't blame us!”

“Here you are called every day, you shouldn't call the ground, and no one knows who killed you!”

A total of four people came in, and three young people chased the other one.

The young man saw these boulders and wanted to come in and hide. He didn't expect it to be empty, but he was trapped.

Seeing no way to escape He took a psychic to his lips.

“Don’t come over! If you come over, I will chew it and eat it!”

He wanted to use the elixir to let the other party vote for the mouse. I didn’t expect the three people to sneer directly.

“Try it! If you eat it, we will eat you!”

This made the young monk fight a chill, which is incredible outside, but here no one knows, maybe they are really no one, and eating him, it is not just a cure. Even he became a tonic!

The brows of the rain have already wrinkled, and this seemingly familiar picture reminds her of the time when the singer and the singer were chased by the people of Haitian Town.

Chapter 644 - "God" shows spirit

Falling rain 菵 because of the same feelings, I really want to stop, but it is inconvenient to affect the plan of Shen Lang, so I still looked at him.

Qiao Shuyu also showed a disgusted look and voiced Shen Lang.

“Come here to try, really come for resources, but exercise everyone’s cooperation and other means, instead of training them like this! Shen brothers, we should intervene!”

Intervention?

When Shen Lang was on the people of Haitian Town, he killed it directly. That is to say, Ma Yansong, who was a horse, left a life, which affected his memory. As a result, he became evidence that the horseman sent him to attack him.

With his current strength, if you want to intervene, you will naturally not live!

But looking at the partners in front of him, if he really is in front of them, directly destroy those three people, even if they don't say anything in person, they will feel that he is also not human!

And let Joe Shu Yu or the rain, they intervened, the most is to save the person, and then teach them a few. But this instead leaked their secrets here!

Death Valley preached the rules of not knowing how many years, that is, they want to make rules, and they can monopolize the business.

And the top family sects like Qiao Jia and Nan Jia, they know that this set is fake, and they know that there are other entrances, but they have not been publicly exposed.

Because everyone is a vested interest, it is difficult to completely conceal it. With a 20-year and three-day limit, the number of people coming in can be greatly reduced. And those who have methods can also get more benefits in the long run.

Shen Lang feels that apart from the vested interests, such rules are also good for protecting the dead forest. If a large number of comprehensions come in, this land will not know how many years it will last.

So you can't let them go through these people, either let them solve their own problems, or they have to kill them together!

Seeing that he has no reaction, it's a bit strange to fall into the rain and Joe Shu Yu. Doesn't Shen Lang think that this is wrong?

The canoe and the southern one are old-fashioned. Although they don't think much about it, they also feel that there are many problems with interference.

It's just that it's not convenient for everyone to discuss each other, so they didn't speak.

Shen Lang looked at the rainy eyes, although he can say that the shot is for her, but she will still be disappointed.

Slightly hesitated, he shrugged slightly and said he would intervene.

Then a direct Thunder, from the magic array, banged out against the three people.

With his current strength, it is not difficult to control the degree of injury. This thunder went down and split into three, hitting the three people separately!

This sudden change, not only the three thunders fell, but the one who was besieged also scared the legs to the ground. Falling rain and other people did not think that Shen Lang was intervening in this way.

“Showing... It’s obvious... There must be a \*\*\*\* here... There’s a \*\*\*\* in the head! You have no humanity, you should be thundered!”

The besieged one, while screaming at him, hurriedly climbed up and ran.

Just like “Ye Gong Hao Long”, even if “God Ming” has just helped him, he is afraid to see the real god, if the \*\*\*\* is not something else?

After he ran away, the three fallen monks who fell to the ground also ran out of the ground.

They were not drowned, but they were already scared, and when they fled, they felt very strenuous.

“I didn’t expect the Shen brother to start to shock me with the obvious spirit of God.” Qiao Shuyu laughed.

Shen Lang faint smile, did not say anything.

Nan Yiye was trying to understand this moment, and could not help but sigh.

“The Shen brothers didn’t want to intervene, that’s right. They all came in from Death Valley. If we saw our existence, we would break the rule of Death Valley and the consequences would be unimaginable!”

After listening to the South Yiye, Qiao Shuyu was stunned, and the rain was also a shock. They didn't think so much.

I haven't figured it out yet, and I understand it.

Because Zheng Yumeng and Dorothy, who have been exchanged for safety, do not express their opinions.

"Sorry, we don't think about it, it's awkward for you." Rain fell apologetically.

Shen Lang shook his head: "I will not say that I will ruin them. I really want to punish them. The best thing is to kill them all. The one who survived the disaster will spread these out and deepen the rule of Death Valley."

"Considering your acceptance, don't feel that I am also inhuman, so I just broke up their cultivation. This time I have already fallen under the guise of the Yuan Dynasty. I hope that after I pass it out, I will make everyone feel the forest of death. There are gods in the dark to maintain the rules!"

It's a bit of a surprise when it's raining. I didn't expect Shen Lang to maintain this rule, and it's still dying and dying!

She couldn't help but argue: "This rule is just the rule of Death Valley. Do you feel fair to the 20-year-old monk? If it were not their rules, you might not even have to be trapped here."

Shen Langzheng said: "There is no absolute fairness under the sun! This rule that limits the age and time is really unfair to other monks. But if there is no rule, there is no monopoly control of Death Valley, all monks can freely come here. Is that fair to all creatures in this world?"

"..."

Falling rain is silent. If there is no limit, it is almost equal to no upper limit. Anyone can come. It can come again and again. The creatures here are really troublesome.

“Well, even if the evil spirits here have no human rights. Is it fair to the other hundreds of millions of ordinary people in the same world? The wisdom of other people’s clusters and the power of the nation’s power may not be as good as the ordinary harvest here. Is it fair to them?”

“Without the rules, there is no death valley. At least there must be Lingshi energy in the entrance. For some small martial arts that cannot be found in the middle of the spiritual stone, they will still feel unfair.”

In the last sentence, there is no need for the example of Shen Lang. It’s been a few years in Pingxi City. The local martial art there may not be able to get a lot of medium Lingshi You are right, I Still emotional. ”

Looking at the cousin was hit, and the concept was affected, and the boat couldn’t help but help.

“This is a mistake in the rain, it is not easy to stand in the same vested interests as us, but it can also happen to other underlying monks.”

“As for what you said, you will amplify it. To be more realistic, the rapid development of mankind for hundreds of years is very unfair to other species on the planet, whether animals or plants.”

Shen Lang smiled and said: “Okay, let’s pack up and leave quickly! Now it’s just the theory. If someone comes over later, you have to face the problem!”

Chapter 645 - Siege sword

When they were resting in the cave house of Xu Yuyue last night, they had already sorted it out once. Today, the harvest is limited, so it is still relatively easy to divide now.

Because of the “heart of the villain” before, Nan Yiye and Qiao Shuyu specifically said that Shen Lang should be divided into one.

“Shen brothers, if you don’t have you and the predecessors, we can’t go so far, it’s impossible to harvest so much.”

“Yes, this one is a predecessor, and you will be the leader.”

Shen Lang looked at them. They had already divided eight points and they came over.

Because of the embarrassment before, seeing the next wave, the two of them are relieved.

“The Ice Palace has two people, the palace owner and the rain, and I have a little dream and Dorothy here, three people. This counts, it is both of you who are losing, this two of you are divided.”

After that, Shen Lang gave a lot of points to the hands of Nan Yiye.

“No, no, we haven’t done anything, so...”

“At the beginning of your map, the help is huge, or we will not touch Xu Haoyue, nor will we go deeper and know the existence of the king’s beast.”

Shen Lang intentionally or unintentionally mentions a king beast, so that they will not forget to pass this information back.

Look at Nan Yiye and deduct it. “Okay, it is so decided. You have to resign, and some girls are uneasy, and they are resigning.”

Nan Yiye looked at it. They are really a bit embarrassed. On the contribution of this trip, everyone is almost the same, only once a big battle. Among them, Dorothy has the strongest strength, and Zheng Yumeng (Desolation) plays the best.

But they did not contribute to the map and did not contribute to the entrance. Therefore, Nan Yiye and Qiao Shuyu have just had to give a point to Shen Lang. They have no opinion at all.

Now they quit, the weakest canoe is the most embarrassing, if it is not the palace owner she must raise resources for the ice palace, it really has to give up.

“Well! Then listen to the sinking brothers, if you let a few beautiful girls get upset, then my old South is too much.” Nan Yiye smiled and rounded.

The famous quotes of a rich man have such a saying: If you have money, everyone will earn it, and if everyone shares it, someone will be willing to cooperate. If you take 10% of the shares is fair, you can take 11, but only 9 percent, it will be a source of money.

(One said, “Seven points are reasonable, eight points are OK, then I only take six points.”)

Shen Lang is now implementing this set. With his contribution to this ambiguity, with his absolute mastery in this team, it is no problem to take more.

But once you have cooperated, you may not have the next time.

Qiao Shuyu and Nan Yiye, the sons of these two great families, in the absence of deep friendship with Shen Lang, can promote this cooperation, because he was “willing” in Qingchuan.

Willing to give up, there is room for it.

After the split, everyone left the transfer array in the center. Like the outside entrance, Shen Lang has also done a hand to the transmission array. It can only be completed once to ensure that they will not be inadvertently triggered by others after they leave.

When I left here last time, I have already dealt with it. I am also fortunate that if I encounter these young monks who come here to try it out, I might have inadvertently sent people away, and I discovered this secret.

It was still the top of the mountain, and the transmission array was still hidden.

In the dead forest for more than a month, everyone has become accustomed to the rich aura inside, as well as the extraordinary air quality, once returned, it is a very obvious gap.

This also makes the rain fall and sigh. It is true that the secret of Death Valley cannot be disclosed for the sake of “fairness” to other monks. It is good for many people, but the environment of the dead forest will definitely be over-developed. Withered.

Once again, Shen Lang did not have so much embarrassment. He is now very different from a year ago.

Because I haven't eaten and drank for a long time, Qiao Shuyu sipped and went to the nearest city to have a good meal. It was also a celebration.

This adventure is also a success, and he hopes that there will be another time.

However, after coming out, everyone started to turn on the phone one after another. After checking the message, Shen Lang shook his head directly for his dinner proposal.

“Everyone, I have something to go first!”

“What happened?”

Joe Shu Yu was amazed, and Nan Yiye was busy telling him to look at the mobile phone, and then said to Shen Lang: “Shen brother, let's go back with you!”

This is more than a month in the past, not only Shen Lang has been sent a message, but they also received information about their family and division after a delay.

Only Qiao Shuyu, just use the mobile phone to check the place that is suitable for dinner. Others understand the information that Shen Lang saw.

The Masters Alliance besieged the Tianshan Jianzong!

The news they are seeing now is already a message half a month ago, and there is no update in the future.

It is normal for Shen Lang to have no more information. Since the siege, the people there can't come out, and after the outside report, they dare not approach and cannot know more information.

And a few of them are irrelevant outsiders. It is not convenient to arrange people to stare at the scene, and it is impossible to leave them a message.

Shen Lang shook his head: “Little Dream and Dorothy go back with me Don’t get involved in the three of you, go back!”

“We are going! Even if you say that we don’t want to get involved, but we can also go to the scene to be a witness!” Rain said firmly.

“Not bad!”

If Nanyiye just got it, of course, there is still a set of ingredients. After all, I dare not really mix too much.

Now, if you listen to the rain, you will become more determined. Going to the scene to be a witness is nothing, as a friend of Shen Lang, does not represent the family. As long as you don’t take it directly, you don’t want to mix it in.

“The girl said that it makes sense. We don’t have to shoot, but we can keep it objective. Looking at the momentum of the Master League, most people are afraid and unwilling to offend them. The friends of Jianzong are bound to suffer from unfair pressure.”

Qiao Shuyu said it was very sensible, but in his eyes, there was a clear flash of eagerness to try.

It’s not that he’s disregarding the family’s chaotic shots, but he’s quite a bit like the previous sacred mind – eager to show the strength!

In the death forest and the swallowing battle, he did not send a big use, and Xuan Hu’s Xu Qianyue was strongly suppressed. After that, I upgraded a level, but I didn’t have a chance to fight with a high-level beast. It was a bit unbearable.

The canoe is also a serious nod.

She has some inconveniences to say – worry about Master’s safety!

Because according to the agreement with Shen Lang before, her master is going to help the sword.

Seeing that everyone is very firm, Shen Lang nodded.

“Then go to the town to have a meal!”

“what?”

“what!”

If you are in the dark, let them all be inexplicable, isn't it rushing back to the Tianshan War? How come suddenly to eat? How does this thinking jump...

Chapter 646 - Destroy the Tang Garden again!

Shen Lang, of course, didn't have a heart to think about it. He would eat with everyone first because he had to hurry and have no time to eat on the road.

On the other hand, he also needs a little time to make some arrangements.

There aren't many good restaurants in the town, it is difficult to meet the requirements of Joe Shuyu, but you can eat a little local farmer's flavor, and they can be regarded as adjustments.

A la carte and the like were handed over to Qiao Shuyu, and Shen Lang was contacted by Feng Feng.

The information he sees is of course more than their information. Among them, the information from the Tianshan swords is limited, and more is the information that Feng Wuji helped him collect outside.

Feng Wuji did not stop in the past half a month ago, and later came back to the latest situation.

To put it simply, just half a month ago, the ally of the Master League suddenly appeared, and when the news came out, the lord had already led the crowd to trap the Tianshan swordsman!

Feng Wuji could not rush to Tianshan, because going directly to the scene to inquire about the news, only the Alliance will arrest her. In order to be able to play her role, she rationally collects intelligence at the rear.

But because one is the remote environment of the Tianshan Jianzong, the average person wants to watch the excitement and it is difficult to pass. On the other hand, many people are jealous of the master league, let alone the lord of the realm of the gods.

Therefore, she could not get the information on the spot. She could only analyze the situation by focusing on the situation of the Master League.

According to her observation of Qingchuan Tangyuan, Tangyuan was still in the process of emergency repair. No obvious people came back. The alliance should not have won the Tianshan Jianzong.

However, Tang Yuan is an open goal, and the Master League will not understand the path of the road, and she will not know. However, there is no further information from other sources.

Shen Lang contacted her and made her very excited. She once worried that Shen Lang was not in trouble. After all, now the lord is back!

Before she had already got the two masters of supervision and law enforcement elders, it was just pressure, hope is still there, after all, Shen Lang was killed in the Tangshan Mountains.

But the gods of the lord...

The lord finally appeared, and she was always cautious. Even if she was promoted to the end of the real world, she would not be the opponent of the lord.

She hopes that Shen Lang will not appear, and that he will not be in trouble if he does not appear.

Now that he knows that he is safe, excited, he is also worried, and then introduce the latest situation.

Since they destroyed the Tangyuan, the Master League was repairing this base camp. Before the lord did not return, he did not find Shen Lang and Tianshan Jianzong revenge, but silently repaired it.

Up to now, she has been repaired and repaired seven or eighty-eight. As for the situation inside the Tangyuan, she is not clear and dare not approach. These days she lived on the other side of the river and also observed through a telescope.

What is certain is that regardless of whether the Master League is a dark-minded, they have not given up Tangyuan.

Shen Lang certainly knows why not give up. This is not a problem of the base camp. The key is the bureau of the “Dragons and Dragon Balls”. He did not destroy them, and they can continue to use them.

And now the Masters Alliance, there may not be people who can make such a game, even if there are such talents, they can't find a suitable place.

Shen Lang immediately made some arrangements for Feng Wuji, let her leave Qingchuan first, find a safe place to hide, so as not to be affected, and then cooperate with his actions through the intelligence network.

In the gap of the meal, Qiao Shuyu and Nan Yiye also contacted the family, reported that the people had returned, and reported that they were going to the Shenlang platform.

The Beihai Qiao family and the Nantian family agreed to go, but they did not say any further arrangements.

They are all trained elites, and they can immediately understand the meaning of the family elders.

Obviously, with two people raised the level, Shen Lang's performance is enough to make them look at each other and deserve to be friends with their family's outstanding children.

But both of them are trained as successors, not ordinary children, so they have to go through more things, but they must grasp the scale and not be trapped in the quagmire.

Can Shenlang be further affirmed, depending on whether it can pass the ally!

If it falls, then there is no point in being good. After all, Shen Lang refused two more investments, and he could not let Joe Shuyu and Nan Yiye personally invest too much.

Both of them have gained this time, but after all, the strength of both people has improved a realm, and the family background and self-protection ability are still no problem.

Before the South Leaf will be so nervous to leave, mainly because of the special nature of Nedan and the importance to the South.

The rain and the fall of the canoe also contacted their homes, and the Ice Palace was the same as the Jianzong.

Although Zheng Yumeng had no heart and lungs, he also contacted the family so as not to worry about her accident.

Dorothy didn't care so much. Her family is now in power and she doesn't need to tell anyone.

It was already night after dinner. Everyone did not stay at the hotel in the town, nor did they go to the city. Instead, they used the Shenlang boat to fly with them and took them away.

This flight is the fastest straight line and flies to Qingchuan City!

At the top of the riverside in Qingchuan City, Qiao Shuyu and Nanyiye I understand what Shenlang is doing.

What happened last time is still vivid. However, only Qiao Shuyu and Zheng Yumeng witnessed at the time, and the sisters of the canoe were falling, and the leaves of Dorothy South were not there.

“You are waiting here, I will come when I go!”

Shen Lang said it was very casual, but it was an unquestionable tone, so that they could not speak with them.

He has already let the wind go, and I believe she can also listen to her senses. However, it is estimated that there should be other people who inquire about the news on the riverside, paying attention to the opposite Tangyuan.

However, it is already in the middle of the night, and there is no concern about anything under the calm sea.

Shen Lang went straight across the river from the top of the building and flew over the opposite Tang Garden.

God knows everything, and Tang Yuan knows everything.

The workers who were urgently repaired were all built inside a plywood shed. In the Tang Garden, only a few masters of the real world stayed behind. It seems that the main force is still besieging the Tianshan Jianzong.

Shen Lang directly swayed the Juyue Sword, and then quickly swung and swung over the Tang Garden. Wherever he went, Ju Yuejian directly destroyed the block. Whether it is civil or masonry, it is a ruin!

The workers in the shed have just heard the noise and have not had time to get it.

The left-behind master found that something was wrong and just leaped into the air, and found that there was a high-speed flying bulldozer that pushed the Tangyuan into a ruin at an incredible speed!

“Who dares to...”

One of the masters had just had time to say a few words, and he saw a person standing in front of him, although he was a little dazzling because he was too fast, he immediately recognized it.

“Shen...the waves...you are back...”

Chapter 647 - Broken Dragon Ball Bureau

Shen Lang did not kill them directly. The information here needs to be passed on to the Masters Alliance.

Since it is left behind, there must be channels of contact. Everything tonight, only to give them a greater impact, can make their feedback more exaggerated.

The master muttered the name of Shen Lang and suddenly found that his body was rising rapidly!

Originally, he was leaping over the top of the roof to see the movement, but now he did not know how, so he flew straight up to the sky, and when he reacted, he felt the chill of the crowd!

I hurriedly looked down, but I saw the light of the entire Qingchuan City. They were very embarrassed. I don't know how many meters in the sky!

At this time, his body also lost support and fell quickly.

In a moment, it seems as if I saw a figure and went one step at a time. Needless to say, I also know that it was just a wave that lifted him to the sky.

Shen Lang first left, he himself fell in a hurry, in fact, it is a shock, to the strength of the real world, even if not prepared, the time of the fall, still let him control the safe landing.

Didn't kill him, the shock of pulling this high altitude is not too big, where is the intention?

At this time, there was a roaring sound, and the master immediately understood it – speed!

What Shen Lang just wants to show is the speed!

He is also a master of the real world. He has just been reacted and has been lifted to a height of several kilometers. Without waiting for him to fall, the Shenlang people have already come to the bottom, and a lot of destruction has begun.

As he descended to observe after the low altitude, he could not help but change his face.

In addition to him, several other left-behind masters have already flew out of the Tang Garden and landed on the ground. After the Tang Dynasty was destroyed and collapsed, it now seems to have been dig three feet.

The most crucial of these is not the destruction of the building, but the core forbidden land built with steel. This was originally to allow the specialized team to complete the reconstruction, but now it has been cut down.

The task of staying behind is to guard this place, and other buildings should supervise the construction.

Now it is already a failure!

The roaring sound is endless. Looking at the top, he found that Shen Lang was still swimming fast. Just a little while, he went to the mountain next to it, and destroyed the mountain of the Tang Dynasty directly, as if it had been bombed. General.

In addition to this, there is a hole in the place where he is indifferent.

Waiting for him to fall to the ground, the entire ruins of the Tang Dynasty, he is left alone.

The Shenlang has disappeared. The workers in the outside sheds thought that after the awakening, they were rushing to the distant fields in the distance.

This master can't help but smile. Shen Lang is just a person, but it can make Tang Yuan turn over!

The lord led the crowd to attack the Tianshan Jianzong, but this is to come over and give their nest to the end...

At this time, Shen Lang has returned to the top of a building on the other side of the river.

“Yes.”

Several of them have just paid close attention to the actions of Shen Lang.

“Shen brother, you have weighed before you started, did not affect the innocent workers, and even did not have the anger of the masters of the alliance, which I admire. But ... you re-destroy the Tangyuan, what use?”

The last time I destroyed the Tangyuan, Nanyiye did not see it. This time it was faster and more spectacular, and he saw the whole process.

“Yeah, this may be a tens of millions of losses. It’s a drizzle for them. At most, they have to wait a little longer to come back. You can find another base camp in Qingchuan.”

What they saw was the appearance. They felt that they only destroyed this empty shell Tangyuan and could not achieve the purpose of Wei Wei’s rescue of Zhao.

Shen Lang smiled and did not explain much.

The reason why Tangyuan became the headquarters of the Master League is not because of architectural style and value, nor because it is dominated by Tang Banshan.

The “Grand Dragon Arch” is the top priority and the foundation of everything!

Therefore, they want to rebuild the original site with low-key, because it is not a question of money to change another building. It does not achieve the same effect at all.

Just the Shenlang was the destruction of two rounds. The first round was the destruction of the appearance of the Tangyuan architecture. After the master was caught in the sky, the second round of the destruction of the dragon arch was started.

The steel building, the ruined hills, and the many holes that were blown up were the key to the battle and a key destruction.

At this point, the “Group Dragon Ball” that gathered the Qingchuan Mountains and the Qingjiang River was completely destroyed!

The building construction has to be re-installed. It is only a matter of time. The restoration of the original site is only the original site. It does not need to be done.

However, the game of the Dragon Ball is not the same. Once it is destroyed, if you want to recover, you have to have no gap before you can recover. Either the person who understands the law is otherwise arranged.

Before and after the destruction of the Tangyuan twice, it was a negative impact on Qingchuan City, and even a blow, but the bureau that broke the “Group Dragon Ball” was to return the Qingchuan gas to Qingchuan. Shenlang did not feel There is a slogan in Qingchuan City.

Before Shen Lang just came back, she also used the mobile phone to take photos and small videos of Tangyuan’s destruction, and sent them to the wind, so that she could cooperate with the momentum and spread the situation quickly.

Then I took everyone and went on to Tianshan.

The master who stayed in the swell of the waves, after a while sluggish quickly contacted and reported. He is unable to contact the lord directly, but naturally there is a layer of reporting mechanism.

He reported the time in time, and Feng Wuji began to follow the deployment of Shen Lang, quickly spreading the news.

“How about the lord of the sacred sect? It was severely beaten, and the headquarters of the Masters Union has just been rebuilt, once again destroyed!”

“The Tangyuan Trade Fair has become history, and the Master League headquarters has been ruined!”

“Half a month ago, the king of the lord returned! Tonight, the first day, Shen Lang was a strong counterattack!”

Through various channels, she spreads the changes in Tangyuan tonight.

Of course, the night owl is still young, and the young people will be more enthusiastic about chasing the gossip. This night’s shocking news will let everyone forward a lot!

Through the proliferation of their forwarding, more people will see it, but in addition to discussion and discussion, they will report to the elders.

Before dawn, this matter has far exceeded the expectations of the Master League. I thought it would happen suddenly and it will take a little while to spread out. I did not expect that they have not fully understood themselves, and the outside has already been raging.

Destroyed the sinking waves of Tangyuan, where have you gone?

This is the focus of everyone’s concern, and the answer is self-evident – Tianshan Jianzong!

Previously, because of the return of the ally, the Master League brushed a sense of existence, but because it was unilateral, and many people were scrupulous, they did not dare to talk about the things of the lord, so no more information came out, very It will soon subside.

Now, at that moment, the sinking waves that brought the aura of the material suddenly showed up again, and it came out to get the wind and rain, so that everyone wants to watch a big excitement!

Shen Lang, can you do the lord?

Chapter 648 -

Shen Lang actually thought about ambushing in Qingchuan City. When the news of Tangyuan was passed out, even if the lord did not come back in person, he would certainly arrange for one of the supervisors or the elders of law enforcement to come back and check it out.

After all, this is related to their roots!

However, their siege on the Tianshan Jianzong has reached half a month, and Shen Lang can't gamble.

If it is the fall of two peak-level masters, it is not surprising that the sword can hold for half a month. The ally will not be able to stand it.

It has not broken yet, it should be that the lord is waiting for his appearance!

Maybe the Tianshan Jianzong has already broken, but the Master League has grasped the news and has not released it.

The destruction of Tangyuan by Shen Lang is to chaos the opponent's position and declare his return. The main battlefield is still in Jianzong.

Because of the opponents he can see now, there are only the lords, and the supervisors and elders of law enforcement are no longer in his eyes.

The fall of the canoe and the rain, and the leaves of the south of the mountain, have never been to the Tianshan Jianzong. It is also awesome for Shenlang to find a hidden valley in the snowy mountains of the Tianshan Mountains.

But in fact, the place where Shen Lang arrived is not the Tianshan Jianzong.

It came to the refuge where the sword was evacuated!

This is also the site of Jianzong, which is inferior in all aspects of the environment, but last time for the safety of the disciples, to avoid them becoming cannon fodder, let the sages lead the people to come here in advance.

At this moment, I had already passed the agreed secret code, and then I opened the gate to let everyone in.

Similar to the Ice Palace, there is a huge cave hidden in the valley. On the basis of nature, the predecessors excavated it.

Sheng Yang immediately came over to meet Shen Lang, the environment here is not very good, the lack of the waist below the squat is not convenient to meet.

“You can come back to the elders!” Yang Yang was very excited.

He also saluted the people next to him. In the end, there were outsiders, especially strangers, so he didn't say much.

Shen Lang let him lead the way in front, with the seeing of the deity.

When letting Yang Yang arrange for everyone to simply eat and drink and rest, Shen Lang talked with him alone.

Seeing that Shen Lang is back, Yan Zun is also old and comforting. He has always worried that the sword will be destroyed in his hands, and he really has no face to see the ancestors.

He didn't have to ask questions, he said everything he knew.

Because it is not clear how long it will take to return, after he left, it was immediately pressing the mountain gate.

The ancestral ancestors of the swordsman only left the two sacred and high-departed, and the other elders also came here with the big forces.

According to the idea of high separation, Shen Lang is absent. He is the elder who is the most respected, and must act as a protector and face the enemy.

The sacred sacred man who broke through Neyal is a helper who can fight alongside him.

In the face of the lord and the top-level masters, other elders can't play much role, so they still retain their strength.

Because of the distance and isolation from each other, the information that the lord appeared and led the siege was sent back to the disciples who had arranged for the outside to inquire about the news.

I can't and can't arrange people to check it, and I can't let people know. Therefore, the disciple who inquired about the news was ordered to leave, and went to the outside with a high-departure account to pass the information to Shen Lang.

If there is no information on the outside world, don't come back here, lest it bring danger to both sides.

So now I see Shen Lang, and the message that you can provide here is less than the wind.

Shen Lang is only known from him. It is the second old sword, and his two old disciples are in the ancestral land.

This is a good news. Only two of them can prevent more children of Jianzong from becoming cannon fodder.

This is also a bad news. For ordinary disciples, it may be crushed, or the lord may not bother. If they are two top-level masters, then they will definitely shoot.

Saving people like a fire, Shen Lang did not stop, and immediately left with them.

Going to the ancestral home of Tianshan Jianzong, it didn't take long.

Shen Lang drove the gods and sailed on the top of the mountain.

Looking at it from above, there is no one below, not the one that was seen when he saw the last time he was out. Tianchi is also calm, as if there is no wave.

Because the last time he cut off the thick ice, it is now revealing the rocks.

Shen Lang pointed to the following and arranged it.

“This is the Jianzongshan Gate. After waiting for you to go down, you will wait for me on the slope. I will go in a glimpse...”

“We will go in with you!”

“Yes! It’s all here, of course we are going to go in with you.” Joe Shuyu is also keeping up.

Nan Yiye smiled and said: “Don’t worry! We won’t interfere with the chaos. You don’t have to worry about it. Maybe they don’t necessarily receive the news.”

Shen Lang then glanced at it again, and the canoe also firmly nodded to him, Zheng Yumeng and Dorothy would not have to say.

“Okay. Go on!”

You don’t need to use the gods to sail, everyone flies directly from the summit.

Looking at the Shenlang is directly to the surface of the Tianchi water other people are also following.

When Shen Lang had not landed on the water, he had already frowned.

It’s not a retreat... The Tianshan Jianzong Shanmen illusion was directly broken!

When he stepped up on the rock that was out of the water, there was no hiding inside, and he saw the road directly.

This is already the case at the door, and the situation inside can be imagined...

Shen Lang took a breath and went straight inside. Others have followed, and they have followed.

The first time they came, they didn't notice the difference. Seeing that there is a road to the mountain, they thought that it was a huge cave hidden in the mountainside just like the one just above.

They all walked in and found that it was not in the mountainside, but it was a valley with beautiful environment, which made them all amazed.

Both Qiao Yuyu and Nan Yiye have seen the world, and there is such a hidden portal. The Tianshan sword ancestors are also widened!

Going into the valley, the appearance does not seem to change, but Shen Lang has felt the incomprehensible atmosphere.

This ancestral home of the Tianshan Jianzong is now occupied by others!

“Shrink the turtles, come out!”

Shen Lang snorted coldly, and the following steps continued to go inside the valley.

“We are living here very brightly, and I am being smashed by the tortoise. Are you a tortoise's nest?” A voice passed from far, without anger and ridicule.

Shen Lang's mood at the moment is very unhappy!

After he came in, he was aware of the facts, and it was clear that there were people in the Jianzong Valley, who were densely covered with the Master League, and the Prostitute and Gao Li were not there.

Gao Li and Qi Sheng can not give up their ancestral escaping, this is dignity. And here is already occupied by the nest, there is only one possibility...

Chapter 649 - Surveillance

Shen Lang walked into the valley and went straight to the front of the sword altar, then stopped.

As they came, the members of the Master League, who had been here, were all surrounded by one by one.

At the moment, on the altar of the sword, stood an old man.

“Is this the place where you pay homage to the ancestor’s tablet? How do you feel when I step on my feet?” The old man above the sword altar is the one who just spoke.

The swords enshrined in the sword altar have been taken away, but the whole pattern has not changed. After all, it was the hard work of the predecessors. And if you keep it as it is, you can re-supply it when you come back.

After they occupied this place, of course, you can see that this was once a sacrifice, but it is only the ancestral tablet.

At this moment, he deliberately stepped on the top of the sword altar and deliberately said this, that is, intentionally to humiliate the Shen Lang from the spirit.

Shen Lang looked around in a circle, then looked at the direction of the sword.

This old man is not a supervisor, but a law enforcement elder, that is, one of their two peak masters. The lord is still here, at the moment in the squad, and the other is there.

“You are not qualified to talk to me, let your dog lord roll out!”

Shen Lang did not look at him, looking at the Jiange, this is also directly to the ally in the Jiange.

“Sure enough, like the legendary arrogance.” The old man still has no anger: “But you come to die, after all, you should be so, hide where you will be killed. But why bring so many children to die?” ”

His eyes glanced at the crowd behind the waves.

“Hey, these two men are gone. These girls are still so fresh, I am a bit reluctant, eh? This...”

His eyes fell on Dorothy and found that she was not human.

He is the veteran of the realm of the realm of the realm of the realm, and a few of them, the canoe in the middle of the real world, Qiao Shuyu, South Yiye just reached the end of the real world, is not worth a trip.

Falling Rain and Zheng Yumeng broke through the peaks of the true state of the world, but because they were the youngest of them, they didn't pay much attention to them at all, thinking that they would be similar to the canoe.

So only one Dorothy made him pay more attention because of his special status.

“Hey-!”

With the sound of a sword, the Juyue sword suddenly appeared in the hands of Shen Lang, and with the swordsing, the three masters who were close to each other, without any precaution, were directly smashed their heads. !

“Don't you dare!”

The old man who pretended to be the atmosphere on the altar of the sword could not help but anger. Seeing the three masters, just avoiding a sword, he is really shocked and angry.

Those who can come here are all in the middle of the real world. Even if it is a sneak attack, even if there is a sword, it is very incredible to do this.

Not only that, just in front of him!

Although he was staring at Dorothy, the Shen Lang was in front of them, completely within his field of vision, and he should have had time to stop it.

Just don't say stop, even watching him didn't see it clearly!

This is already a great shock to him.

“Juyue Sword!”

Looking at the giant Yue sword that Shen Lang did not close up, the old man also recognized the third sword in the world.

“I can hear that Juyue Sword is in Qiaojia in Beihai. Is this to support you for Joe's family? Or have you stolen the sword of Qiao's family?”

“Previous people misunderstood!”

Qiao Shuyu arched his hand: “Juyuejian was a thing of my family before, but it has already been traded to the Shenlang brothers. It is now the sword of the sinking brother.”

“Qiao Jia?” The old man re-examined Qiao Shuyu and then slowly nodded. “You are Joe Shuyu! Are you a southern leaf of Nantian family?”

“Exactly, I don't know how the seniors call it?”

The old man was not in Tangyuan before, and even did not mix things everyday, so it is not clear. Moreover, Qiao Jia and Nan Jia did not show anything on this matter, so he did not expect to come with Shen Lang.

Now confirm that this is the son of the two great families here, it is a little frowning.

He just said that this is a child who came to die, but now he found it tricky... Are they personal behaviors or represent the meaning of the family?

“Please monitor to kill this thief!”

Shen Lang's sudden abrupt shot killed three masters, allowing others to hurry and be on a higher level. But the three colleagues are gone, and they are still worried.

It's not that the feelings are deep, but these are just like them!

Like the last time Shen Lang killed the Tang Banshan, they would not feel scared after the panic, because it was Tang Banshan who first forced the waves, they did not, and Shen Lang did not bother to kill them.

But just that is the direct killing of three without warning, this is the same as them, which makes them feel the fear.

However, Shen Langyuan has the domineering ability to kill Tang Banshan. There is a shock that has just been hit and killed. Where can they stand up and declare war?

In the case of worrying that Shen Lang will still be shot at any time, some people ask for the old man to shoot, also called his identity.

The supervision of the Masters Union makes!

“Does the dog lord still not show up, waiting for me to kill ten more?”

Shen Lang's eyes still look to the side of the Jiange Pavilion and this sentence is to let the masters who have been surrounded by them, desperately quickly to the back, withdraw from the distance of more than ten meters, and then the whole \*\*\*\* alert.

Originally, they dared to surround the waves today because there was supervision to make a head start, and there were allies supporting them. I felt that this was already a matter of stability. I did not expect that Shen Lang would actually take them first.

No one wants to be one of the ten eight of the second wave of Shen Lang!

The look made by the monitor became hard to read.

“You are rude to the lord, you are looking for death!”

When he spoke, he opened his hands and showed a big axe in his hand.

Nan Yiye raised his hand to indicate that they had to retreat a little together. Although they have already said their identity, the other party may not be able to do it, but it is not good if it is too close.

After all, Juyue Sword is very heavy, and this big axe seems to be taking a fierce route. It is easy to hit the pool fish.

The gaze of Shen Lang turned over, and with the turn of the giant Yue sword.

Since the lord of the lord is still on the shelf, let the guards first come to sacrifice the sword!

At this time, sudden changes suddenly!

The monitoring made it imposing, and it seemed that he wanted to strike a full blow to Shen Lang, but the real intention was that he was in the altar of the sword, and at the same time his feet slammed.

Between the time, the attacked sword altar, collapsed from the top!

Shen Bo's pupil contraction, just did not patrol the nearby sacred and high separation, has made him very unhappy, is holding a fire, a sword killed three enemies, has not yet issued.

Now in front of his face, the ruins of the swordsman of the Tianshan Jianzong are not only a loss, but also a provocative act of his face!

Chapter 650 - 1 knife 2 break

“Ha ha ha!”

Surveillance suspended in the air, feeling the underarms that had been shaken by him, watching the anger of Shen Lang, could not help but laugh.

“I heard that you rushed to Qingchuan and destroyed Tangyuan. Now I am in front of you and ruin your place where the ancestral tablets are worshipped. How do you feel?”

“Do you feel angry? Don’t worry, you will ruin all the buildings and destroy the valley...”

The surveillance caused the sinking of the waves, and suddenly found that Juyue Sword had arrived not far!

In the end, he is a veteran of the old-fashioned master, and he can only be regarded as disgusting, and he will not let him forget. I found it wrong, and the big axe in my hand has quickly rushed out to the front!

The sound of the harsh gold stone sounded, and the big axe accurately smashed the giant Yue sword that was stabbed!

But let the supervision make a big blame, with his blow to save the life, not to say that the Juyue sword was cut off, actually did not hit the sword out!

It’s awkward, but it doesn’t affect Juyue’s sword and continues to stab it forward. At this time, the sword has already arrived in front of him.

Surveillance has quickly rushed back to the back at the fastest speed, and the body is also leaning back as much as possible, increasing the distance from the sword.

At this time, flying from the Jiange Pavilion, it was much faster than the monitoring, and it directly hit the Juyue sword.

piece!

Just a chess piece!

And it was shot from a farther place.

However, because this is the shot of the lord of the gods, the strength is actually much larger than the big axe, and it is actually a one or two feet of the giant sword of Shen Lang.

The shot of the lord made the inspection very gratifying, but it was also a cold sweat, almost turned over in the gutter... and so on!

Without waiting for his luck to finish, he found a giant sword that was one or two feet away. He even drew an arc and then cut it to his arm with a big axe!

This arc is so natural, it seems to be better than the straight spine. It seems that it has just been intentionally made by the chess piece.

At this moment, there is no time to think about it. In the face of Juyue Sword, he can't use another hand to grasp, and with a big axe, it is too late to want to dodge.

At this point he can only expect the lord to come back with another piece!

really! Another piece of chess, first hits the sharp break, and continues to hit the giant sword.

But this time, Ju Yuejian did not give face, not only did not hit the block, but directly shattered the pieces!

And then, the sword has crossed the arm of the monitor...

With the power of Juyue Sword, there is no suspense at all, and the arms of the surveillance are flying directly!

And because it is too heavy, while the blade cuts the arm, the powerful impact force pulls the remaining half of the arm straight out!

It is equal to interrupting the arm twice in an instant. The first time was to break the arm, followed by uprooting the shoulder joint.

“Do not waste.....”

Dorothy decisively condensed his blood from his broken arm.

Surveillance made the face pale, and quickly flew back!

The pain of just breaking the arm has already caused people to burst, and Dorothy's coagulation technique instantly pumped him a lot of blood, which made him cry.

Fortunately, his lord did not give up on him.

Just after the second piece didn't work, the lord had already flew out a series of pieces, attacking the waves in all directions, to prevent the squad from continuing to chase and kill.

It was only that he had expected to be able to smash the Juyue Sword, so that the supervision should be able to avoid it, so he paused a little, and soon after he found the failure, it was too late.

After a series of attacks, I found that not only was one of the waves, but also Dorothy participated, and several pieces were later attacked Dorothy.

At this time, a picture that no one had imagined appeared!

The shape of Shen Lang seems to have disappeared from the valley!

That series of very fast, very strong chess pieces, all empty!

Then everyone saw the shape of Shen Lang, and the first step appeared in the supervision of the body...

Everyone in the Masters League is watching the body of the monitor and smashing into the top of the Juyue Sword. It is directly stabbed by a pair!

This picture is too shocking, so let them look like slow motion. But in fact it was very fast, and it was almost time for the monitoring staff to find out that it was too late to dodge.

However, Shen Lang did not directly hold the sword and waited for him to collide. He pierced his body from behind, and then waved... The supervision made it immediately become two pieces!

But whether it was worn in the middle or the film became two sides, the blood did not splash, but all gathered together, and quickly sifted out the water, falling into the hands of Dorothy, became a blood.

Dorothy's other hand grabbed a few pieces that attacked her.

They are counting on the monitoring that can kill the waves, and they are actually being smashed by the waves!

And still in the case of the ally to help out the rescue!

This is going to kill them. Isn't that just cutting as casually as before?

The members of the Masters Alliance were immediately frightened and fled to the buildings.

The lord and the elders of the law enforcement were unable to calmly play in the sword of the sword.

The lord flew out directly, and did not manage other people, but went deep into the valley.

"Look at your two disciples!"

The lord spoke for the first time, and when he said this, it was undoubtedly very ironic to think about the age of Gao Li and Qi Sheng and the gap with Shen Lang.

Shen Lang eyelids opened a little God quickly went to the depths of the valley.

What he had just searched was only the place occupied by them. If he did not escape, it should be arrested and imprisoned. There is no trace at all, it may only have been dried up and buried.

But now that I heard the words of the lord, I immediately went to the end of the valley at the Sword Mausoleum.

This time, I immediately discovered that Gao Li and Qi Sheng were two people who were nailed high on the stone wall!

Judging from his knowledge, there is no breath, this is the hanging whip! Waiting for him to stimulate him again!

The speed of Shen Lang is very fast. When I just killed the surveillance, I used the "Phantom Meteor Step". Now I am eager to look at the situation of both of them and see if there is any lifeline. It is also directly used. Phantom Meteor Steps."

Others saw that although they did not understand the situation, they followed the direction of Shen Lang's departure and chased the end of the valley.

The lord was hung high in the air, and on the stone wall below and below him, it was nailed with two high and two.

Law enforcement elders are watching them below.

The elders of law enforcement are almost the same as those who have been killed. It is obviously an old man. And this lord, the appearance of the age, seems to be only about 50.

"I only took your life and handed over the items that I took away. But if you ruin my alliance, you don't blame me for killing the Tianshan Jianzong!"

"Do you think they are hiding another place, I really don't know? It's easy to destroy it!"

"They two, I am leaving a lifeline, not letting you watch death, don't you waste?"

With a wave of hand, two lightning bolts were created, and two people who had no life were killed. After being hit by lightning, they recovered a will.
