

First Strong 651

Chapter 651 - Owner

Looking at them both have a little life, Shen Lang has been greatly relieved.

As long as you are alive, there is still a chance!

Just like last year, he turned a slap in the face and became a waste person or alive. The same is true for the sacred and the high, and they have been nailed to the stone wall for a long time. It is very miserable, but as long as there is still a breath, there is still a chance to save.

Among them, those who came after them, Dorothy Zheng Yumeng and Gao knew them. Looking at this horrible situation, they were both anxious and annoyed.

Qiao Shuyu and Nanyiye are two. I have seen no feelings, so I can calmly take out my mobile phone and take pictures of what they saw.

If this is not done, it will enable the Shenlang party to occupy a commanding height in morality.

Of course, this is not really objective and fair. Because Shen Lang kills the three masters, they will not take pictures of the surveillance.

Even if there is no public support, but still to a friend.

They have no friendship with the Master League. They have just stayed in the forest of death for more than a month, and they have fought with the blood of the swallows.

At this point, the elders of law enforcement still believe that the lord can kill the Shen Lang, even if others do not kill, there is nothing to worry about.

At this point, the lord himself is still as he is now in the same state of mind, or overlooking the sin.

“You are very poor, I am a little sympathetic to you.”

The sudden words of Shen Lang made the lord and the elders of law enforcement feel inexplicable and felt ridiculous.

“As the ally of the Masters Alliance, as a superpower of the realm of the gods, you are always on the top, let everyone admire the godlike character.”

“But you chose to be my enemy!”

“Ha ha ha!” The ally couldn’t help it. I thought that there was no reason to think that it was such a second reason!

“If you come out in time to find revenge after the death of Tang Banshan, you can still glory. But when you come out now, you will take a look at the existence of the days when I am not there.”

“Now I am back, you have not had time to show your arrogance in front of the world, you have to be a dead person.”

“You may be the one who died in the most divine state, the most grievous one. I can assure you that you will die very badly.”

Shen Lang followed by one sentence, as if it was just a calm statement, and there was no heated complaint.

This is heard on the side of the ally, and the unconscious is an unbelievable attitude. This is too self-contained.

Accompanied by Shen Lang in the dead forest, I saw him fight with swallowing the sky, I saw that he can surrender to the super powerful mysterious person Xu Haoyue, no one will doubt the words of Shen Lang!

“On the mouth, you have two...”

“Take this cockroach!” Shen Lang suddenly cold, raised his hand and hooked his two fingers, pointing to the law enforcement elder.

Hey!

Hey!

When I heard the adjective of Shen Lang, the lord almost laughed. The master who is the best in the world is actually described by him. This kid is really arrogant!

The elders of law enforcement are old-fashioned. Although he is low-key, he does not have the reputation of Tang Banshan, but the strength is not fake. It is the true old-fashioned peak master!

What makes his old face ugly is that Shen Lang is not going to shoot himself, but as his **** move, the two girls come directly to him.

“Be careful about the vampire!”

If it is only Zheng Yumeng, the lord will not pay attention to it, but Dorothy let him remind him.

Because he just shot a few pieces of chess on Dorothy, she was picked up by her hand!

The law enforcement elders immediately suppressed their anger and made themselves dignified. They must not be like the ones just being supervised. Because of the general intention, they turned over in the gutters of the Tianshan Mountains.

Zheng Yu Meng Qiu Shuijian immediately shot!

Now is not a dangerous moment, and there is Dorothy together, she does not have to worry about dragging her legs, so let go of the hands and feet to fight.

The strength of Dorothy is that it is not inferior to the monks of the gods. For this master of the real world, it is completely out of the question.

Just as the lords were ready to look at them, they found that the shape of Shen Lang was in the air.

“I came to kill you! You can be honored!”

“Don’t rush to death, I will nail you to this stone wall, let you watch them both die first!”

The lord said proudly, and then without any fancy, waved directly at Shen Lang.

Immediately, a powerful and powerful force directly rolled into the waves of the air.

However, Shen Lang did not dodge, and immediately attacked his attack in front of him, and the iron fist smashed over!

“Do you think I rely on a sword?”

This sentence has already been said in advance, and the lord has already heard it before attacking the ally.

The Shen Lang, who had just used the Juyue sword for the supervision, was a direct fist attack at the moment, and it really surprised the lord.

It’s not just that he gave up the sword, but the speed of Shen Lang exceeded his expectations!

In fact, Shen Lang just avoided his chess attack, which has already raised his expectations. He did not expect to be able to play in person faster!

However, in the end, he was a monk who changed his mind. His body shape directly and quickly shifted out a few tens of meters, avoiding the punch of Shen Lang to the front.

Seeing the punching of a wave on the stone wall, it was a fist to the palm, pressed on the stone wall, and the other hand waved the giant sword.

This time, the Juyue Sword did not rely on heavy force and chaos, but the sword and the air, and quickly dug the stone wall into two large pieces.

Nature is the stone wall that is stung by the sacred and high.

Because it is not clear how their situation is, but basically can guess the life hanging a line, can not afford to toss, can only be careful to cut the stone wall together.

This is to prevent the battle from hurting both of them and let them die in advance.

After waiting, look at the details of the big nails that nailed them to the stone wall.

In the dead forest, although there is not much time for everyone to really act, but after all, they have fought and died together. They have begun to have a tacit understanding. They don't need to say that the four of them immediately separated and leaped to the big stone with the wounded. Block by means.

After avoiding the lord, I found out that Shen Lang had just been almost unwilling to play, and wanted to avoid him from saving people.

This also proves that Shen Lang is very concerned about these two "old apprentices" who are obviously not his disciples. That is the piece that he can use!

"Get out!"

He also heard the origins of Joe Shuyu and Nanyiye just now, but with the strength of his transformation of the gods, he does not need to give them two faces. It's not Qiao Yuxian, Nanliuchuan, they are here.

This did not give the face a slap, and directly attacked the past, so that both Joe Yu and Nan Yiye were taken aback.

However, the two girls who lost the canoe and the rain fell, and they certainly could not let go.

Chapter 652 - 2 hands ready

Even though the lord has seen the speed of Shen Lang, he has underestimated the reaction speed of Shen Lang!

After he was forced to retreat, he immediately slashed the rocky cliff and then immediately returned to the fighting state, all in one go.

When the lords pushed down a few of them, Shen Lang had already waved the giant sword and shrouded it from above.

A sword net locked the omnipotent all-round, forcing him to deal with the attack of Shen Lang.

The heavy strength of Juyue Sword is not only the sword, but also the driving force is enough to cause harm to people. Of course, it is difficult for the superpower of the lord to be a supernatural person, whether it is the wind or the sword, it is difficult to hurt him.

Shen Lang also understands this very well, so Jian Wang Jianqi is only a persecution. If he really wants to defeat the lord, he still has to be as profound as his own body.

Juyue sword is very famous and its power is very big, but everyone knows that it is actually very tasteless. Because it is too heavy, the average monk can dance it, there is no speed, no flexibility.

And if there is no speed and sensitivity, the bigger the power, the more clumsy, the no effect at all, and it is very easy to limit yourself.

But from the time of Shen Lang's supervision, but now he personally played against him, he could not see the restriction of this giant Yue sword in the hands of Shen Lang, as if he was holding a light sword.

If you can't feel the power of a mountain like a close-up, you really doubt that this is a fake Ju Yue sword.

Shen Lang blocked the ally in the air, so that the four of them could catch the big stones, and together with the gliding forward, let it fall a little more away from the rock cliff when it landed on the ground.

Both the sacred and the high are both used to combat and stimulate the waves. At the critical time, they can also be threatened by adult quality.

Seeing that their rescue was successful, the elders of law enforcement wanted to help stop the past, but she was now entangled by Zheng Yumeng's Qiu Shuijian.

This is still Dorothy intends to let Zheng Yumeng shot, because she does not understand that Zheng Yumeng is sometimes like two people, so I want to see how it works.

Zheng Yumeng did not have the experience of working alone with the Fengfeng masters. It was not a bleak, and there was still some tension and panic. However, once the other party wanted to attack him, Dorothy released the rescue and gave her a peace of mind.

If the current shot is desolation, of course, you can fight with him, but Zheng Yumeng experience is too much, and the strength is not as good as it is obviously a little hard.

But Dorothy is comparable to the realm of the gods, and the words of the realm are still above the waves!

Although her combat experience is limited, she relies entirely on strength to suppress.

Shen Lang is now also breaking through to the level of the real world. Originally, he wanted to fight well with the ally. After all, the enemy of the sacred world will not be full of streets. It is very helpful to know and understand.

But now it is too late, and the two lives are dead and unresolved. Seeing this is the last breath.

The lord had just been attacked by direct lightning strikes, and it was the last time to return to the light.

Therefore, Shen Lang must now solve it as soon as possible!

The lord just said a message, revealing that he actually knows the other hiding point of the Tianshan Jianzong transfer, just too lazy to attack.

Now he has made the supervision smashed. Dorothy and Zheng Yumeng are only a matter of time before they kill the law enforcement elders. The lord naturally cannot be calm. If you just defeat him, it is very likely that he will kill the past and destroy the Tianshan swordsman!

Therefore, the solution of Shen Lang now has no retreat. It is necessary to kill the lord! At least it must be scrapped.

It is not so easy to kill a super-powerful person of the same level in a very short time.

But the Shen Lang is different!

His experience, his practice, or simply his comprehensive strength, allows him to reach the level of the challenge.

Of course, the risk of leapfrogging is still very large. But when the leap-level battle is over, it will also make the other party underestimate the intention, which is also an advantage.

When reaching the peak of the true state of the realm, Shen Lang has the confidence to call the ally. In the seamounts, he directly speaks to Xia Yuntian.

Naturally, let alone, the strength is completely different from what it was a few months ago.

But now he has disappeared and then suddenly returned. He is also fighting foreigners in Haishan. There is no direct comparison between domestic monks. Therefore, in the view of the Masters League, he should still be at the level of the late real world.

Of course, the gap has become bigger, and other masters can't see it, including the supervisors, the elders of law enforcement can't see it, but the lord can definitely feel it.

In just a few months, it's been an incredible progress from the late stage of the deposit to the peak of the real world.

It must be said that it has just broken through the peak of the real world, and it has not broken into the realm of the gods for a long time... If you say it to him, the lord cannot believe it.

This will feel insulting his IQ and common sense. Who is breaking through the first level is not difficult? And like a real world, it is not a resource that can impact success. Otherwise, Tang Banshan, a few of his old masters of the peak period, will not always be trapped.

However, this ally is not a concentrating practice, he is proficient in all aspects of the situation, or else it is impossible to sit on the throne of the lord for so many years.

At the beginning, he was underestimating the Shenlang. He felt that it might be a breakthrough in the realm of the realm, so it would be to arrange an old-fashioned peak-level master to take the lead, and he and the law enforcement elders played chess in the back.

But now that the battle has been going on, especially the successive attacks have been blocked by Shen Lang, he has paid enough attention. Even if Shen Lang is only the realm of the peak of the real world, there is also the strength to challenge the realm!

It can be seen that the elders of law enforcement can't help to take hostages, and there may be dangers, so that he is also anxious.

What kind of person is Shen Lang!

From the slightest change, the state and psychology of the other party have been analyzed, and the tactics have been adjusted immediately.

Since the lord attaches great importance to him, and he wants to display his killings, the time left for him is even less. Even if he can harden it, the cost will be great.

Just like the last time I killed Tang Banshan He was also very hurt.

To this end, Shen Lang directly implemented his planned plan!

The right hand Ju Yuejian danced fast, and used its “Da Shou Mi Long Xiang Shen Gong”, the advantages of Fang Juyue Sword once again got the effect of multiplication.

The gesture of the exhibition is as if you want to fight fast and use force to suppress the lord!

But this is an attack on the bright side, secretly in his left hand, it is running “Eight Moons”!

Prepare both hands, as long as there is a success, you can suppress the lord of this genius.

Chapter 653 - 8th needle

Although it is prepared by both hands, the bright side must be the other party’s key defense, and the secret can have the effect of surprise.

Shen Lang took out all the lunar needles this time, but when he was running, he did not use the “Eight Months”. It was not that he could not control the eight needles, nor did he have a bad effect, but he was prepared to leave a hand. .

In fact, it is six needles!

At this moment, the lord saw that Shen Lang was so stormy and felt that it was the greatest ability to display it. Originally, he was still preparing to shoot the magic weapon, but at the moment he wanted to clean up the Shenlang by hand!

In the twinkling of an eye, around the battle between the two of them, there was a field of about ten meters in length, width and height, which separated the outside world from the inside.

In addition to the difficulty of seeing each other inside and outside, the space inside this field began to show significant changes!

“In my field, what else can you do with me?”

The lord who manipulated this field of energy revealed a taunting color: “I thought you have much ability, but it is a coward of strength and skill! Come!”

The situation in this field is similar to the air state and the underwater state.

The huge Yue sword that Shen Lang swiftly swept, is not nowhere to borrow, the power is still extremely fierce. However, the surrounding space is no longer allowed to play. The Juyue Sword seems to be trapped inside the quagmire. The greater the power, the greater the resistance, and each becomes very difficult.

This is not a natural resistance. It was imposed by the lord who manipulated this field. It almost entangled the swell.

“is it?”

When Shen Lang spoke, the moon needle had already flown out!

The six lunar needles are arranged in a special trajectory, and the seats are changed in the air, forming a careful array. All the forces begin to interact with each other. In the short time from the shot to the target, it has been rapidly magnified. power.

Six 鑒 month needles, in theory, can achieve a power effect of six six thirty-six times!

Of course, Shen Lang is now showing up, it may not be able to reach 36 times, but even ten times twenty times, it is also very amazing.

This is a surprise attack, but unfortunately because of the field that the lord has displayed, this first control of the space energy, the effect of the 鑒月针 has also been greatly affected.

However, after all, the needle is a needle. Compared with the Juyue sword, it may be a size that is less than one-thousandth of a thousandth, so the resistance is not so great. Although the speed is not as normal, it is also Soon the flight shot in front of the ally.

In the face of the attack on the moon, the lord was surprised, which he did not expect.

But he still showed a proud color, this is his field!

In this small space, he can almost be regarded as the dominant, and Shen Lang was sealed by him, and he has already lost his chance.

At this moment, he immediately slammed the energy of Shen Lang with all his strength, and controlled the six lunar needles that were powerful.

“The beads of rice are also shining? You still go back to embroider!”

When he just finished speaking, he found that something was wrong. The sun waves that have not been twisted are a lot loose. Although you want to swing the giant sword, the greater the strength will encounter the greater resistance, but the light is his own body movement, there is not so much resistance.

Moreover, Shen Lang uses the “Phantom Meteor Step”, which is as muddy as the muddy, even if it is deep in the swamp mire, it quickly slides to the side of the lord.

The lord has already wrapped up six squatting needles, and is about to counterattack the swells in front of him. At this time, the two sacred needles left by Shen Lang have already quietly flew out!

These two lunar needles do not use the technique of “eight-monthly needles”. Without the power multiplication, the resistance encountered is also smaller, the speed is naturally faster, and it is even less noticeable.

But the lord is the lord!

After all, this space is the field he controls!

At the time of this life and death, he continued to control the sixty-six times of the attacking force of the moon, while extending two fingers, the strong straight directly to the eyelashes between the eyebrows!

“After relying on the sneak attack of the worms, you can make you succeed for a while, meet the real strong, you only have a dead share...”

After the lord caught the 鑒月針, he turned to the dark wave not far from the front!

The same one is a lunar needle, but because it is the field he controls, this time, not only does not have resistance, but also a certain bonus, almost with a strong momentum, directly to the sinking waves!

But the words just said, have not finished, the expression of the lord has solidified, and the whole person has begun to change a little out of control.

Shen Lang said faintly: “The reason why you use the small insects is because you are small! You are not worthy of my big trick!”

He just approached, just to take advantage of the last two attacks.

How could it not wait for the lord to hold the 鑒月針 counterattack?

The bright attack of Juyue Sword is the first cover;

The assault on the “six-needle of the moon” is the second cover;

The “Phantom Meteor Step” approached the leader and was the third cover;

The seventh root of the moon is shot to the eyebrows of the lord, which is the fourth cover;

There is no continued attack, as if waiting for the fruits of victory, and welcoming the counterattack of the lord of the moon, is the fifth cover...

All one after the other, one overlap with a heavy cover, in order to the end of the eighth needle!

When approaching him, the eighth moon and the seventh root were shot at the same time. The seventh one was a sharp attack, and the eighth one was as far as possible without his traces.

Everything, including using your own bait, is to divert the attention of the lord!

The eighth needle, when he caught the lunar needle and counterattacked, had already fluttered into his head, only at the last inch, only to accelerate rapidly, directly into the back of the lord, and then broke out The power of the needle!

From the attack power alone, the last 鑒 month needle, there is no previous control and acceleration, the power does not increase, only a fraction of the normal or even one tenth.

But because there was no strength in front, and all kinds of strong attracting attention, let it be ignored, and finally accelerate the penetration, it broke into the brain.

This is already in the back of the head, even if it is the power of one tenth, it is also a shock!

In the style of Shen Lang, will you stop here?

Just as the ally attacked him when he spoke, when Shen Lang spoke, he did not stop manipulating the lunar needle.

The six needles that were caught, the seventh needle that was shot at him, were taken back directly into the hands of Shen Lang, and the eighth moon needle that pierced the brain was in The rapid movement in his mind turned and turned!

Chapter 654 - Repression of the lord

The inside of the brain is punctured by a needle, and even if it is a god, it is unbearable.

The worst problem is that the needle is in the brain, unlike other parts of the arm, it can be forced out or forced to break the arm.

And he also discovered that this needle is not an ordinary weapon, Shen Lang can not only manipulate it, but also powerful.

Under such circumstances, there is only one road in front of the lord – a quick escape!

If you can kill the Shen Lang, of course, it is the best, but under the health conditions, he has not been able to kill the sinking waves. Now there is a needle in his head. He wants to quickly kill the Shen Lang. The bigger possibility is to find death. .

If you escape, you can increase the distance, so that Shen Lang can't control the needle. As for how to force it out, it is the problem behind, there will always be a way.

So he didn't care about the other, the law enforcement elders and other members of the Masters League were all by themselves.

The lord suddenly flew in the direction outside the valley!

It's time to escape, and the field he controls is of course dissipated.

Everyone was only looking at their decisive battle in the air. When they saw a clear picture, they found that the lord seemed to be escaping.

They are still very worried about whether there will be any problems with Shen Lang.

At this time, Shen Lang displayed the "Phantom Meteor Step" in the air, and at the extraordinary speed, he first came to the front of the ally.

The lord, who was bent on fleeing, was blocked from going, and he immediately sacrificed his magic weapon, a strange black cloth, and shrouded the past directly into the dark waves!

He can't kill Shen Lang now, as long as he can push Shen Lang first, even if he loses the magic weapon, it doesn't matter, escape first!

But what he didn't expect was that when Shen Lang came over, he had already made another preparation, the Heaven Tower!

The faster his body flies, the less he can't afford to dodge, and he is sucked in directly by the Ba Tian Tower!

That strange black cloth, just wrapped in the body of Shen Lang, suddenly lost the control of the master, immediately lost power.

Shen Lang grabbed it and grabbed the black cloth. Then he put the Ba Tian Tower away.

Being included in the Ba Tian Tower, even if it is the lord of the gods, it is impossible to break the tower. Since this black cloth is the magic weapon of the lord, it will not be junk.

Qiao Shuyu and others are below, and their eyes move with them. They see that the lord was actually thrown into the tower and was stunned.

The Ba Tian Tower did not show up for a long time. Only in the Qingyuan Tang Garden, Tang Banshan used it once, but it was killed by Shen Lang without success.

However, the power of the last show, the monks on the other side of the river are also feeling.

The lords who have just been able to take over the gods have taken over, and they have shocked them.

Shen Lang accepted all the items in Tang Banshan, which they could all guess, but did not expect that he actually mastered the Ba Tian Tower.

Nan Yiye still doesn't know that Shen Lang has injured the lord in the field, and forced the lord to escape. It is the low-grade magic weapon that they exchanged. Otherwise, it will probably not be a taste!

This change in the air has also allowed law enforcement elders to see it.

They are low-key and forbearing, and they move afterwards, just waiting for the allies to come back to fight back.

Now the old partner's supervisor has been divided into two, and the ally has just been received by the Dominean Tower in Tangshan, so that he is not only panicked, it is desperate!

For the Ba Tian Tower, he has to know more than the other masters of the Alliance, or to be straightforward. Tang Tangshan can control the two of them, and it is not unrelated to the magic weapon of the Ba Tian Tower!

Can the lord escape?

In the battle of life and death, it is very dangerous to receive such waves in the mood...

Zheng Yumeng's Qiushui sword directly cut his head.

Dorothy, who assisted in the rushing, was rude and quickly condensed his blood to consolidate a blood.

Shen Lang flew down and came to the two large stones that were dug out. I carefully examined the injuries of the two of them.

There is only one breath left in the sacred and high-altitude. Just after the movement around them, they are already unable to know. At this moment, they can't open their eyes and see the waves.

A large iron cone, piercing through their chest, has been nailed into the stone wall.

Everyone looked at it for a while, and if it wasn't the strength and vitality of the peak-level master, it should die on the spot!

Shen Lang took a deep breath, closed his eyes, and quickly thought about his memories in his mind to see if there was any way to save them.

At the beginning of the Tianshan Jianzong, he was taking advantage of the situation, conquering both of them, but also the elements of mutual use.

But after misunderstanding that he was a reincarnation of the cold autumn, they were really respectful and worshipped him as a master.

Shen Lang is still very good to the people around him, like Zheng Yumeng and Yue Zhennan, all of whom are helped and directed by him, but there are no famous teachers and apprentices. In this world, the two of them are really famous apprentices.

In fact, from another point of view, Gao Li and Qi Sheng are also famous people. They are 100 years old. When they encounter Shen Lang, they are already in the late stage of the real world. However, they can call a 20-year-old young man in public. Master, it is great sincerity.

Therefore, at this moment, Shen Lang wants to save the lives of both of them. It has nothing to do with the Tianshan Jianzong. It is not afraid of affecting the strength of the Tianshan Jianzong. Strictly speaking, the sentiment of Jianzong abandoning the cold and autumn is mainly a few of them. Other disciples, including Yang Yuansong and other elders, are not familiar.

“Shen brother...”

Nan Yiye screamed and Joe Shuyu was busy pulling him.

Shen Lang, who was interrupted by his thoughts, frowned slightly, but he opened his eyes and glanced at him.

“This is the reduction Dan of our south home. It has a miraculous effect on healing. It is true that it is exaggerated to return to life, but it should be able to help the two seniors.”

Nanyiye has pulled out a bottle, which is the same as the restoration of Dan before.

It seems that Nantian family shot him in danger in the dead forest, so he gave him a bottle of life-saving medicinal body protection, and now he took it out directly.

“The South Brother is kind, if the Shen Brothers have a better way...”

Qiao Shuyu saw the displeasure of Shen Lang. When he saved his life, interrupting his thoughts would really annoy him.

He suspected that the monitoring was made alive before Shen Lang, and he found that the two were crucified here. So at this moment, carefully explain to the South Yiye, so as not to anger the Shenlang.

“Thank you!”

Shen Lang solemnly thanked and immediately took out his small bottle.

I have already checked the reduction of Dan, and there is only one in the small bottle. The one in the south is also one. This is not refining, and even if it is a South, it is a treasure.

The value is not comparable to the inner Dan, but the healing effect is really extraordinary, otherwise, the previous wave will not stay.

Looking at Shen Lang promised, Nan Yiye is very happy, this is a time to save lives, can help a little busy, is a happy heart from the heart, and has nothing to do with utilization.

While explaining the usage, he gave his one to restore the sacred sacred service.

Chapter 655 - first aid

The one of the southern leaves gave the sacred sacred service, and the one that was reduced by Shen Lang gave the high to the service.

However, the magical holy medicine, it is impossible to live and dance immediately, and it takes a certain amount of time.

At this time, Shen Lang did not dare to get them out of the iron cone, and quickly found the ginseng in the medicinal herbs brought back from the dead forest.

They are unable to eat at this time, directly smashed the succulent juice and poured them on.

You can give them a spirit, or you can have a little more self-help.

Falling rain and falling canoe also have healing drugs that carry the ice palace, but since they used the holy medicine of the Nantian family, they did not come out.

When the drug was in action, Shen Lang had time to look at Zheng Yumeng and Dorothy.

“Is the law enforcement elder solved?”

“Yeah!” Zheng Yumeng nodded hard.

Shen Lang noticed that her hand trembled slightly, thinking that she saw the high separation and the sacred condition, and she supported her shoulder.

“They will be fine, I will save them!”

Zheng Yumeng looked at him and whispered: “I just... cut the man’s neck.....”

Shen Lang stunned and then reacted. She said that she is a law enforcement elder.

Then I immediately remembered that it was a bleakness to fight with him. Zheng Yumeng was a 20-year-old girl. This time she was the first to kill.

Although she has seen a lot of experience, but there is still a difference between killing himself.

Shen Lang touched her head: “It’s okay. You look at the horrors of the two people who are away from the sacred sacred. They are nailed to the stone wall. They are tortured and sighed, and they are not allowed to die. Who? Dry?”

“So, you killed, not only the enemy, but also a good person. There is no psychological burden!”

The horror of the sacred and high separation is in front of you, and the comfort of Shen Lang makes Zheng Yumeng’s state better.

Dorothy also hugged her aside and gave her some comfort.

But by this time, she is determined that Zheng Yumeng is a dual personality.

Because she had seen the other side of Zheng Yumeng's "desolation", that coldness is not something that can be pretending to be pretending. She is self-confident, not at all like this.

"Boss, their blood has gone a lot, we can try to give them blood transfusions."

Dorothy's two blood beads turned a little above the hand and made a suggestion.

Shen Lang hesitated, and now they took the two of them off the iron cone. It was very difficult to move them to the last breath.

However, the injury is serious, and the blood is really drained. If it is no longer added, it will not look down.

"Which medicine to use, we can pick it casually!" Qiao Shuyu immediately stated.

He did not restore the holy medicine of the same level as Dan, but before seeing the use of ginseng by Shen Lang, those herbs are evenly divided, not every one can be taken directly.

Several of them also immediately said that they can contribute to the medicine.

Shen Lang quickly made a decision: "The medicines are not used for a while. You help me to guard, there are many people in the valley, and don't let them alarm me."

"Understand!" They all agreed immediately.

"I came to take them out for treatment, Dorothy helped with blood transfusion, and the rain helped me freeze the wound."

"Understand!" The two of them were ready soon.

Shen Lang first came to the front of the sacred sacred, and at this time two are to be saved, not to be separated.

The first save can get a little more time, after the rescue can be a little more experience, the order is not much unfair.

I have just checked it out. This big iron cone is punched in from the outside. It seems that it is made of iron piles found in the valley. It is unlikely to be arrow-shaped.

If it is arrow-shaped, pulling it out directly will cause secondary damage and will expand the wound. Unless you are halved, you can cut the arrow from the other end.

This iron cone should not be used in this way, so the Shenlang did not first break the cut stone, directly grabbed the top of the exposed iron cone and pulled it out.

Dorothy is very “professional” in this respect, and she is very accurate. The blood of the sacred sacred is almost dry, and such a large wound is pulled out, and no blood is sprayed out.

As soon as the iron cone left, Dorothy immediately started, but she was sucking the blood from the gap!

This surprised everyone, including those around the guard.

The blood of one’s own people will certainly not suck. Is this in the spirit of not wasting?

But soon, everyone will understand.

The wound is covered with an iron cone, and the blood that is stained with it is likely to carry rust and is completely contaminated.

First, the iron cone twitched the wound, and then the blood was drawn out, so that the whole person had not shook up, and the whole person trembled.

At this time, Shen Lang was a hand caressing his head, pouring a lot of vitality into him, protecting his heart and trying to activate his vitality.

Dorothy immediately poured the fresh blood of the law enforcement elders back!

This process is actually very troublesome, and she is also doing this for the first time. Because for them, just sucking blood is enough. It is really difficult and unscientific to pour blood from a wound.

Moreover, this point has not been taken into account. It is not the complete collection of the blood of the monitoring and law enforcement elders, but the condensing and condensing.

It is impossible to infuse the blood beads directly at this time. It is also necessary to condense and absorb the moisture in the air, and then inject it after dilution with “water”.

After she finally finished, she hesitated again.

If you want him to recover, this blood is not enough, but if you give him the supervision, what should I do?

Dorothy is not an ischemic fluid. The blood of the swallowing scorpion has a large amount of concentrated blood beads, but that is the blood of the high-ranking beast, and I don't know the consequences directly.

At this time, Shen Lang is in the spirit of concentration and blood, and it should not be more than she knows.

So she secretly gritted her teeth and took her own ideas.

Then there was a ***** swallowing of the scorpion.

After the completion, Shen Lang can not care so much, just pull out their long hair, and then use the needle as a needle, put the bones together, and seal the inside and outside of the wound as much as possible.

The process of this step, look at the Qiao Shuyu South leaf and the falling canoe Zheng Yumeng they are scalp numb.

The process of this “surgery” is also simple and rude...

Finally, the rain falls to the end, and the wound is just frozen. This is of course unscientific, but there is no way. Only the wound can be stabilized, or else there will be a lot of blood loss, and there is no point in treatment.

After completing one, they continued their cooperation and began to rescue the high.

When Qiao Shuyu saw that there was no Master League, he had a kind of learning. Like the Shenlang, he squeezed the ginseng and squeezed it into the mouth of the sacred sacred, hoping to give him more energy.

In the same way, the high-altitude supplements the blood of the monitor and adds a **** swallow.

After doing all this, the two of them are still asleep, and they don't know if they can be rescued.

“You are here, I will come when I go!”

After Shen Lang finished, he went directly to the front of the Jianzong hinterland.

Chapter 656 - Xia Yuntian's life

Looking at the dark waves, everyone can imagine, the Master League is finished!

Even the two masters of the supervision and law enforcement elders, even the ally, have been killed by Shen Lang. Are the other masters not directly cut as before?

When Shen Lang rushed over to this side, in fact, the gods have already checked and understood the situation.

Just after they came over here, the other masters did not follow, but in fact they were far from observing the movement here.

After all, it is the lord who personally has a horse, and there are two hostages. It is impossible to be like a supervisor. They are all confident, not following, just afraid of being beaten.

But as long as the lords win, they will definitely come over and call.

But what I didn't expect was that the last lord actually had to run away!

What I didn't even think of was that the Alliance's masters could not escape!

At that moment, all of them were frightened and flew away directly outside the valley, and now they could not wait to disappear thousands of miles away.

If Shen Lang came over and chased at that time, they could not run, and all of them would be killed.

But the first task is to save people, and it takes a lot of time and energy to save the Holy Spirit and the high two.

When the time comes, the masters have long since known how far they have run.

However, Shen Lang has a geographical advantage over them, and he has come more often. And there is also a magic weapon, using the cloud to track, not to mention the whole, to kill a considerable part, it is still possible.

But he is here now, but he is another person.

Xia Yuntian.

A few months ago, when Yu Wenba brought people to besiege and denounced the Tianshan swords, there was Xia Yuntian. After hanging the island, he also followed the Tangshan Mountain.

Xia Yuntian was not in the back of Tang Garden, but in Haishan City, Xia Yuntian found Shen Lang in person.

When everyone just gathered around, Xia Yuntian was also there, but he did not rush in front.

But now that everyone has escaped, Xia Yuntian did not leave, but instead beside the smashed sword altar, facing the end of the valley.

Shen Lang said that he would “go to go”. Everyone thought that he was going to “kill and kill”. In fact, he just wanted to see what Xia Yuntian was doing.

Those who are expensive masters of the real world are not the strong enemies of Shen Lang’s need for life and death on New Year’s Eve. Now he can even suppress the lord, which has become a “squat”.

To kill these “masters”, the interest may be to provide Dorothy with some blood. They come to the expedition, sure that they will not carry any good things, other interests are not worth mentioning, but they will be for them at that time. The trouble of collecting the body.

There is not much refreshment in killing, and now there is no need to use their death to stimulate the lord.

Instead, let them leave, in order to promote today’s war. It is said by the members of the Master League that it is more credible than that announced by Shen Lang.

“Master Shen... Congratulations, you have become a master of the gods.”

Looking at the floating waves that came from the air, Xia Yuntian sighed sincerely.

“What do you say in Haishan?”

Xia Yuntian sighed and smiled bitterly: “Who can think that your progress is so fast, has it broken through the realm? The strongest group of people in the Master League are dead. The lord is the totem of everyone, even the lord

Shen Lang didn't want to listen to him nonsense, asked coldly.

“Everyone else has escaped. What are you doing here? Want to repent, or do you want to beg for mercy?”

Xia Yuntian closed his eyes: “It is meaningless to ask for mercy or apologize now. The apology of the loser does not have value and sincerity. But the Alliance of Good Masters has once been prominent, the trees are scattered, and there is always a Let's face it!”

“Master League and your grievances originated from Yu Wenba and Tang Banshan's greed for your resources. The two of them have already been killed by you. The vengeful lord and the two elders have also fallen, I beg you Let go of other people.”

“Everyone else is from various factions and has been the pride of the family. Now it is a big punishment for them.”

Having said that, he will bow down.

“You are afraid that I will chase them, so be prepared to sacrifice one, to delay the time for them, and to pray for them? I can promise you, will not chase them!”

“Thank you Master Shen, facing your pleading is one of the reasons I left behind.”

“The second reason is that I want to report a message to you. The owner of the Falling Palace of the Tianshan Ice Palace used to be a sword for the first time. But...”

“The lord read his female stream, wounded him, and blamed him for not going to take his life. But after all, the lord himself shot, the injury should not be light, so...”

Xia Yuntian said it was more subtle, but it was very clear that it was omitted.

Shen Lang just had doubts, did the river not promise to help? Why did the sacred sacred death die, but did not see the shadow of the river?

He is somewhat awkward, but his reason also tells him that if one falls, it can only deal with the supervisors and the elders of law enforcement. There are allies, and one of the top-level masters does not have much effect.

Falling in the canoe and falling rain should also be because they didn't see their masters, and maybe they were worried about the safety of the river, but let them not say anything.

Now the answer is clear, the river has come, but it is not the opponent of the alliance, but the attack by the lord and the expulsion to the ice palace.

Xia Yuntian can explain this point in particular, and it should not be lightly hurt, reminding him to treat him in the past!

"Is there?" Shen Lang asked.

Xia Yuntian shook his head. "No, I didn't expect that I witnessed the destruction of the Alliance... Do it."

He is already ready to make sacrifices. He used his death to win a promise not to pursue others for other partners. He also reported a letter to Luohe. He felt that it was worth it.

He didn't know the deal between Luohe and Shenlang. He didn't know that it was a rescue from the inner reserve of their alliance reserve. He thought that the river was from the friendship of Tianshan.

Therefore, even if it is unfamiliar, it is also a different camp. It is still quite respectful. It is considered to be a female middle-aged hero. Therefore, she insists on transmitting this letter to her. At the very least, she must let Shen Lang know the human life.

"Those I have let go of I will not kill you."

Shen Lang did not want to chase them. Strictly counted, Xia Yuntian has always been an accomplice of the followers, and there is no direct treatment for him, and from here to Haishan, he has contributed a lot of spiritual stones to him.

“Why don’t you kill me?” Xia Yuntian stood up.

The previous squatting was for all partners to plead, and his own life and death did not care, and it was not awkward.

“From the beginning here, to the empty island of Zetian Lake, to the seamount, and then to here today, there is me, I should be the one you hate the most?”

It is this that makes him feel qualified to die. If the average member, you want to give up your life, it is not necessarily valuable.

Chapter 657 - Going to the ice palace

“Do you qualify enough to make me hate?”

If you are in the dark, let Xia Yuntian scream.

He felt that he had to be qualified for his life. He did not expect to be hated and qualified.

“I won’t chase it in the end, the Master League will be dissolved, and you have to regroup. Learn the lesson, don’t provoke Laozi!”

After the hustle and bustle, Xia Yuntian also reacted. Shen Lang was disdain to kill him. He also promised that he would not chase other people. Now, this means that the Master League will continue to maintain and accept.

This made him a bit flattered, and he had prepared for the sacrifice, and thought that the Master League would die. Since everything has a chance, then of course he does not want to be scattered.

After all, he is also in the Master League for decades, and his feelings will not belong to his original sect.

“Thank you! You can rest assured, I know what to do.”

Xia Yuntian bowed and then turned and retired.

There are still a lot of things to be dealt with by Shen Lang. After he ridiculed Xia Yuntian, he immediately got busy. The first step was to reorganize the mountain gates and rearrange the illusion of destruction and the Guardian Mountain.

After some busy, I returned back.

When we saw Shen Lang coming back, everyone greeted them.

“Shen brother, how is that over there?” Nan Yiye asked.

“Do not worry! I am not killing God. I have not killed them. I have run away. I have let go of a beggar. I have cleaned up the gate and come back.”

Shen Lang knows how they will guess, and casually said one.

Then carefully observe the two people still on the slate.

“Give me the autumn sword!”

Shen Lang asked Zheng Yumeng to come over Qiu Shuijian, and then swiftly and carefully waved the sword, and immediately cut a layer of the large slab dug out of the rock cliff, leaving only the upper layer.

Just as the map is fast, it is necessary for them to go together one after another. Now it is necessary to transfer the sacred and high-slung back, and will not go to the production of stretchers and toss. Cut the big stone plate directly, leaving the upper layer and turning into a thin stone plate.

Because the Juyue Sword is too heavy, it is very difficult to shoot them, so they only need Qiu Shuijian.

Nan Yiye and Qiao Shuyu immediately carried one of them together. Shen Lang just gave the sword to Zheng Yumeng. The rain and the canoe had already lifted another slate, and everyone went ahead.

After the thinning, they were nothing to them. Shen Lang did not politely with them. They led the way directly in front and led them to carry the two people to the room of Jiange.

“Qiao brother, Nan brother, this time, I believe that the Master League will not dare to engage in the rain. Thank you for coming over to support, it is very chaotic, I am very busy, and can only entertain two in the future.”

Qiao Shuyu and Nan Yiye can hear that this is the truth, not the order.

They can only be regarded as a look around, it is not convenient to directly blend, now things are gone, when the Jianzong finishing, they stay here, but also others to be guests, is to help out.

“The sinking brother is polite, we are good friends.”

“Then we will go back first. Anything can be contacted at any time. Don’t treat us as outsiders, everyone is born and died together!”

I heard them say so, and they feel bad and stay here again.

“Shen Lang, then we also...”

“Dorothy, you and Xiao Meng are here, pay attention to whether they have changed.”

Shen Lang gave Zheng Yumeng a look she could understand – in case something happened to deal with it, let the sorrow deal with it.

“The Ice Palace is in Tianshan. I will send you both back!”

The five people came out together and saw the magical array of Taniguchi. They were all a little surprised. This is what was arranged when Shen Lang left!

This kid really feels more and more mysterious!

“Don’t go through this. You have been going in this direction. At a low altitude, there are cell phone signals, you can locate and view the map, and there are also transportation. I will not send you!”

“you are welcome!”

For Shen Lang’s “thickness and thinness”, the two of them did not feel that there was a problem.

After all, they are the children of the millennial family. Just said that it is the supervision that is also taboo. The two ice palaces will not have such a big face, but also a girl, it should be relatively close, it is normal for Shen Lang to send them back.

After watching them leave, Shen Lang took the two of them with the gods, first rushed to the secret base before, and notified others to return to Jianzong.

“Isn’t it already solved? Why do you want to send us back? Is there any problem?”

It’s a bit wrong to find the canoe.

“The current solution is to kill the lord and the two top-level masters. But they also escaped the masters of the late real world. If you encounter them and be besieged by them, it is still very risky!”

“The escaped people will not listen to your explanation peacefully. They will not believe that you are going back to the ice palace, not to help me chase them.”

Shen Lang’s words are not euphemistic, and it is very helpless to let the canoe.

Yes, even if it is upgraded to the first level, she is only in the middle of the real world. Even if there is still a rain, it is still dangerous if she encounters many masters who are in the late stage.

“In addition, they have been confessed. The seniors who came to the river came to the rescue. They were injured by the lord. They went back to the ice palace first. I have to go see it.”

“Master is hurt?” Both of them were surprised when they heard this.

They all know the agreement with Shen Lang. I didn’t see Master this time. I was very upset in my heart, or the Master was in trouble, or the Master did not come to the rescue despite the promise.

I have been hard to ask just now, and now I know this, I am in a hurry.

“Do not worry, you can be sent back to the Ice Palace, certainly not too high to leave them so bad.”

That being said, but both of them are in full swing.

However, no matter how anxious or useless, Shen Lang still had to go to the cave first, and passed the information to Yu Zun, who arranged for everyone to return. There needs to be rested there, and everyone needs to work together.

After the letter, Shen Lang took them both and headed for the ice palace.

Both Jianzong and the Ice Palace, although they all have the name of Tianshan, are also in the Tianshan range, but they are far apart. Last year, Shen Lang left the Ice Palace, and it took a long time to fly through the holy armor and search for this Tianchi of Jianzong.

Look at their eager look, plus three people, not so many people, Shen Lang also took the gods boat, changed the faster cloud disk, took them back to the ice palace.

When they were on the road in the air, they also had masters who had surpassed the mountains and snows in the snowy areas below. They were all mixed up poorly, and the flying magic weapon had already been used.

The ice palace valley is still the same, and there seems to be no change outside, but the rain and the canoe are still very worried, and rushed to the past.

Chapter 658 - Drowning

When the canoe and the rain fell close to the mountain gate, there was someone attacking it.

“It’s me!” said the canoe stopped.

“Is the palace owner back?”

I heard her voice clearly, and immediately remembered the sound of surprise, followed by a number of female corporal disciples.

Shen Lang also followed, and when they saw the opposite sex, they were all on guard.

“It turned out to be a sink...master.”

One of them recognized Shen Lang, and Shen Lang looked at it. It was the voice that had entered the dead forest with Rainfall, and had not seen it for two and a half years.

Shen Lang nodded and said hello to her.

“go in!”

Seeing that Shen Lang came here, it seems that he gave orders to the palace owner, and everyone looked at the canoe.

According to the rules, the Ice Palace is not allowed to enter the male, the requirements of Shen Lang, they can not do the Lord.

The canoe nodded and said: “You are here, I will bring Master Shen to see Master.”

Although she is the head of the palace, because of the relationship between time and age, authority is not enough to challenge the rules of convention. So she did not respond directly, but used such a sentence.

This sounds like it's going to see the sinking waves, and the river has this authority.

They dare not question anything any more, and quickly let them go in.

Entering the ice palace of the hustle and bustle, the canoe did not stop, and directly entered the depths with the sinking waves, and went to the stone room of the river.

They all know that Shen Lang came in last year, and there is no mood to introduce anything to him at this moment.

Before coming to the Luohe Stone Room, they nodded to Shen Lang and motioned to wait for them to let them go.

After all, men and women are different, usually the ice palace is a woman, in case of any inconvenience is not very good.

Then they heard their excited voices, and the river was the strength of the true peaks, even if it was injured, the foundation is still there, and it is in the familiar main venue disk, when they came back, they already knew.

"Master asked you to come in." Soon after the rain fell, it came out.

Shen Lang nodded and followed in.

Falling down is lying on the stone bed, looking at her, obviously more than the last time I met the seamount.

Shen Lang can also understand, why the female disciples of the ice palace, except for the voices they have saved, have a hostile attitude towards him, naturally because of the injury of Luohe.

“I was a predecessor, I didn’t expect it to be delayed for a long time, and the lord came back.”

Shen Lang bowed and said sorry.

Although a Neydan is precious, it does seem to be a life-saving.

Falling into the river and smiling and shaking his head: “Shenlang, in fact, I should thank you.”

Sitting in the canoe sitting on the edge of the bed, standing in the rain, standing next to it, no interjection, quiet listening.

“This trip has been delayed for a long time, but you have let the canoe and the rain, have got a leap. The light boat has become stronger, you can better control the ice palace, so that I have no worries. Rain has broken through the peak period, has been completed My lifelong wish, she is still so young, and there is a future...”

She was very pleased to see the two apprentices, who are also the granddaughters of my family.

“That is their own efforts, and ... everyone has made progress in this trip.” Shen Lang did not make a contribution.

The river shook her head and she was still sensible. If it weren’t for the two waves, they would not be able to take them.

“I am grateful, but also myself.”

Because they both thanked, Shen Lang and the canoe were all understandable, but she was injured and hurt very seriously. How can I thank?

“Without your inner Dan, I can’t hope to break through the peak period in this life. If I don’t reach the peak period, I won’t have the qualification to make the gods.”

Everyone understands that reaching the peak period has already made her very satisfied, and it is no suspense to be defeated in the hands of the gods. It is an honor to be qualified to fight.

The rain is good, the talent is good, and I still don't realize this feeling.

The canoe is more experienced, because she is not the first person in the palace, not even the younger sister, can get the joy of upgrading a realm, it is really exciting, even if it is not high enough.

"You... have been to Jianzong, the problem has been solved?"

Looking down on them, you can guess that things are over.

After Shen Lang's return, he will definitely know the news that Jianzong is trapped, and naturally it should end immediately.

The canoe nodded. "We and the two sons of Jonan did not directly shoot. Zheng girl and Dorothy girl solved the law enforcement elders of the Master League. Shen Lang solved the supervision and the lord."

Law enforcement elders and supervisors are masters of the peak period, but it is not surprising that the river is falling, because a few months ago, Shen Lang can kill the same level of Tang Banshan. Now it is not surprising that the strength is advanced.

But the lord is a god!

Actually solved? !

She couldn't help but ask: "What does the solution mean...?"

Falling in a canoe and saying "solving" is a subtle statement, but this makes her feel that there should be other solutions, or it is really difficult to convince.

"Killed."

“...!”

Falling into the river carefully watched the waves, long time no words.

She has just been proud of her fight for the lord of the gods. Even if she is defeated and even injured, she feels honored to have this qualification.

But now I can hear that Shen Lang, a young man, has directly killed the lord of the gods!

“You really make people... too many surprises.” Luohe smiled: “I saw you here a year ago, I know that you are not in the pool, but I still didn’t expect you to jump at the speed of the dragon door. fast.”

Her smile is not dissatisfied with Shen Lang, but for her own eyes.

It’s just her, and the canoe next to it is bitter in her heart.

Last year, she was still able to tease the waves. It was much stronger than Shen Lang. I didn’t expect that in a year’s time, others had already surpassed her in the speed of triple jump, leaving her far behind.

Even her first-level breakthrough is due to the relationship between Shen Lang.

“Right, how are the two elders, Gao Li and Qi Sheng?” It was only when the river collapsed that it was a matter of business. “When I rushed to the past, they had already occupied the sword, and I did not see the two elders.”

Her words, made a side proof, that is, the lord has already broken the Jianzong and nailed the sacred high two nails on the stone wall torment and death!

Rather than hearing revenge after the destruction of Tangyuan today.

This makes Shen Lang want to release the lord from the tower of the Heavenly Tower, and nail him to the big iron cone, and he will rule the person with his own way!

Seeing that Shen Lang did not speak, and there was anger flashing, the river has already understood a few points.

When I fell to the raft, I didn't say it, and explained it softly: "The two predecessors were nailed to the stone wall by the lord, and they were suspended. Now that they have been saved, it should be a while."

She said it was easier, but the river still felt it. It was nailed to the stone wall for so long, and the iron body could not stand it. Needless to say, they know that they are much heavier than her.

Chapter 659 - face the reality

Shen Lang rushed over here because it was learned from Xia Yuntian's words that the river was not hurt.

I see myself now, although I can see that her condition is very bad, but it is still much better than the high two, and she should be trying to self-medicate herself.

Shen Lang checked her injury and confirmed that she was not worried about her life. However, according to the current situation, her peak period has not yet stabilized, and she was hit hard. The actual strength has been defeated in the late stage.

Normally, the river should be cultivated for three or five years before it can be restored. If it is to recover completely, it may take ten or eight years.

"These are the medicinal herbs collected in the Mid-Levels of the Tang Dynasty. I want to come and have a certain origin. The seniors will leave a little. I will look for the Nantian family and seek to restore Dan, so that you can recover as soon as possible."

Shen Lang's solemn promise.

"Ah! Right!" The canoe screamed and took out some of the marrow.

"This is the marrow fluid we got from swallowing scorpio. I don't know if it helps Master's injury?"

The swallowing of the sky is huge, Shen Lang took away the brain, and the spinal cord fluid also made them all divided into six. Among them, Dorothy gave the desolation. Under the desolate refining and refining, plus the elixir resources given by Xu Yuyue, it took the lead to break through the peak of the real world and is stronger than the rain.

Falling rain has broken through from the late stage to the peak. Although there are talents for the sky, it also requires a lot of resources.

The canoe is from the early stage to the middle stage, and it needs a lot less, so there is still a part of the marrow fluid. Qiao Shuyu and Nanyiye also remain.

“Swallow the sky? You actually encountered the swallowing?”

Falling a little surprised, staring at the marrow fluid, is also incredible.

The canoe was put on the marrow, and then briefly described their experiences.

“There should be great help.” Shen Lang nodded.

At the time of the auction in Tangyuan, a small bottle of flying sperm of the beast, the so-called “phoenix”, the value is far better than the snow Linguo, you can imagine its effect. Even if it is not comparable to Nedan, it is also very valuable.

Falling river can refine and refine, naturally it is a defect that can make up for its own injuries.

But when I looked down at the marrow, I actually looked at the rain!

Obviously, her first thought is to leave this good thing to the rain!

“Master! You first think about the younger sister, I can understand, but now your body is tight, you can recover as soon as possible, to lead us better!”

The canoe couldn’t help but broke out. Although the tone was more embarrassing, it has already exposed resentment.

For a long time, Master's eccentricity of falling rain, even if he understood it, is still a little uncomfortable in his heart. Perhaps because of this, Luohe gave her the opportunity to pass the palace to her early, giving her a comfort and letting her think about the big picture.

But now, at this time, Master first thought of saving it for the rain, so that she did not control it, and it broke out.

Falling rain is also saying quickly: "Master! We have all these resources, this is saved by the sister, now it is for your healing, if you give me, the rain is really self-confident!"

Looking at their reaction, the river is also smashed.

She has just been an instinctive reaction, and she is already used to it. In terms of reason, she also knows that the rain has reached the peak of the real world. If she wants to break through the realm of the gods, it is not necessary for her to save a little resources. It requires long-term accumulation and opportunity.

She grabbed the hand of the canoe and sighed softly: "Master is not eccentric, but rain is a genius that we can't reach for generations. It is the pillar that can hold us up for the ice palace in the future. Master is already the sunset. I just want to pass the heat back to you."

Hearing that she used the "sunset" to compare, their two sisters are not a taste, it is a feeling of depression, worried that one day Master can not hold.

"You are all good children, I am very pleased, let me reinvigorate the wishes of the Ice Palace, have the opportunity to achieve. You still need to unite in the future..."

"Oh!" Shen Lang interrupted her words.

"Don't make it as if you want to deal with the aftermath, your injury can be treated, you should pay close attention to treatment. Re-energize the ice palace's heavy responsibility, can not pick a child to the young, but also need seniors to preside over the overall situation."

The words of Shen Lang are a bit harsh, so that the river is a bit awkward. It is also a slanting look at the boat and the rain, and he feels that he is not good.

“As for the extent to which they can grow in the future, they need to earn by themselves! They are not children, they are masters, they will have their own way!”

Falling down the river.

She really loves these two apprentices like the old hen, and does not even care that other disciples think she is biased.

But now Shen Lang’s words still let her understand, they grew up, she is old!

The resources they need to grow are not achieved by her savings. In fact, these two years have already proved that the rapid progress of falling rain is not based on her, but the opportunity brought by Shen Lang.

She did not want to admit that she had to admit it at this time.

“What you said makes sense. They are all grown up. I should feel gratified. I should keep a good state and support them later.”

The river fell to the raft and nodded, indicating that she was willing to use this beast.

At this point, Shen Lang has basically completed the responsibility here, and the river will not be killed, and other resources compensation is nothing.

Jianzong also needs to be busy, and he is not convenient to stay in the women’s ice palace for too long, so he will leave before leaving.

When he returned to Jianzong, the disciples of Jianzong were moving back and saw that there was no change. Everyone was very happy.

But when you entered it and saw the scene of the collapse of the sword altar, everyone was very angry.

And knowing that the two elders of Gao Li and Qi Sheng were seriously injured, and outside of anger, they were fears, but they were worshipping Shen Lang.

Originally, the disciples did not have much contact with the waves because they “sponsored” a lot of benefits and became elders. However, when the last Yuwenba led the siege, Shen Langzhan showed great strength and only convinced everyone.

Yuwenba was only in the late stage of the real world. At that time, it was the strongest high-altitude, but it was only in the late stage of the real world, so it shocked everyone.

But this time, it's the lord of the sacred gods, the enemy they can't even think about, and even the high detachment and the sacred sacred that have broken through the peaks of the real world have been seriously wounded, and their power can be imagined. .

After the return of the waves, still can turn them over!

Shen Lang is Shen Lang!

It is worthy of being the chief elder of Tianshan Jianzong!

Yang Yuansong Chen Yuhe and other elders have already sent the sage to the first step. At this moment, they are guarding the side of the sacred and high. Other things that are specifically moved back and sorted out are praised in a coordinated manner.

When I saw Shen Lang coming back, everyone looked at him respectfully.

Zheng Yumeng and Dorothy also watched it. They are not familiar with other people, and they must guard this place. It is also a bit unnatural.

Chapter 660 - Boiling

Shen Lang and their elders opened a meeting to present what happened here to them.

He himself has only participated in today, but in combination with the horror of the sacred, high-distance, and Xia Yuntian, the words of the river, basically have a general understanding.

For the two elders, everyone is sad and angry, and I am very grateful for the help of Luohe. The most exciting thing is the return of Shen Lang, this time actually can suppress the lord of the gods.

So even if the ancestral land was destroyed, the elders were hit hard, and everyone was not clouded, and more excited.

Just one year!

This young man who appeared only last year took everyone to complete the first step of ZTE.

The lord who was able to stifle the gods destroyed the roots of the masters of the eternal masters and fled, and this reputation was enough to make the Tianshan Jianzong resound.

Looking at their mood, Shen Lang is a bit speechless.

But if you think about it, you can understand it. Just like falling river, in order to revitalize the ice palace, you can be desperate. The Tianshan Jianzong has such a mind, the two elders have been seriously injured, and even if they are sad, they will not let them get better soon.

“If that’s the case, then let’s make a good publicity!”

Everyone knows what it means.

“The war against the Masters Alliance, since we won, we can’t miss this opportunity!”

“Yes!” Everyone was excited.

“I am responsible for the arrangement.”

Gao Li and Qi Sheng are not there, Shen Lang is too lazy to discuss with them so much, directly speaking his arrangement.

The elders assisted the lord of the lord, reorganized the interior, repaired the sword altar as it was, and then guarded the two high and the sacred.

And Shen Lang himself, must go out for a glimpse, propaganda is one thing, there is one thing, is to be able to retrieve some healing herbs back, for a high recovery from them.

No one has any opinions on this arrangement. Everyone is supportive.

Then Shen Lang was a big resource delivery: In addition to the large amount of medicinal materials brought back in the dead forest, except for the one that can be taken directly, the others were delivered to Yan Zun, and he was arranged to refine the medicine to the disciples.

Similarly, all kinds of medicinal herbs in the Tangshan Mountains were also given.

This is a huge gift, because Shen Lang himself got a gift from Xu Haoyue, and evenly divided one, Dorothy and Zheng Yumeng, in addition to leaving a part of Zheng Yumeng, they also gave him here.

In addition to these, Xu Haoyue himself has a gift to the Tianshan Jianzong, which is due to the return of the cold autumn.

So many resources have piled up, so that Yan Zun and other elders are thankful to Shen Lang.

This is something they haven't seen in decades. In addition to the resources contributed by Shen Lang in the past, let alone half of the country, it is the collection of the entire sect of Tianshan Jianzong from generation to generation, and it may not be worthy.

Although Shen Lang was only about 20 years old, although he was only one year in the Tianshan Jianzong, they have already thought about it as a Zhongxing ancestor of Jianzong!

Shen Lang took them to the scene of the sword altar and told the key points.

After all, this did not leave a precise drawing. Before everyone was familiar with it, it was only external. The details of the details were impossible to grasp.

Therefore, let them recover as they are. It is estimated that only a sword altar with a similar shape can be built. If the key places are not well grasped, the aura of the aura will not be achieved. The important role of the sword altar will be lost and become an empty shell.

After the arrangement, Shen Lang did not leave immediately, but continued to observe the night, to determine that the situation of the two people will not deteriorate.

Now it is to restore Dan and ginseng and other effects, stimulate their own potential, and let them form a self-healing process.

In modern terms, they can only be considered a dangerous period, and it is not certain when they will wake up.

Shen Lang continues to stay, and there is not much help. Even if it is injected into them every day, there will be no effect. The key is to rely on themselves.

When the next day at noon, Shen Lang left Doosan Jianzong with Dorothy and Zheng Yumeng.

When he was eating in the town that evening, he had already arranged for the wind. For the war of the Masters League, he is sure to win.

Not to mention that he has now reached the strength of the realm of the gods, that is, before the peak level of the real world, but also the strength of a war, but also the level of the same level of Dorothy.

Therefore, the first step of the wind is not in the middle of the night, and the base of the Masters of the Masters was destroyed. It is estimated that after Shen Lang has returned to Jianzong, he began to expose the material, saying that the Master League has been defeated by Shen Lang!

Shen Lang screamed at the lord's absence, and turned the Tangyuan to a bottom, everyone believed. This is a sneak peek, no master guard.

The ally is the one who personally besieged the Tianshan Jianzong, and Shen Lang can still defeat the Master League, which makes people doubt.

Feng Wuji is a continuation of the exposure, saying that there are two masters in the Master League, a supervisor and a law enforcement elder, who have all been killed by Shen Lang.

Then went on to say that the lord was also defeated!

These messages are more than an amazing one, but there is no evidence, just saying “according to reliable news.”

But no matter what, the wave of material from the early morning has already brushed the sense of existence, and all the eyes of the public have focused on it. Some of the news channels are big, and they have begun to arrange information to see what is specific. What a situation.

Later, someone found that the Master League people rushed back from the West, and it looked like it was like a escaping!

After such news came out, people who had relationships with the Masters Alliance and knew friends began to deliberately inquire. Although I did not get accurate information, I can also prove one or two from the other side.

In the evening, it will ferment even bigger. More people have provided information, saying that members of the Master League, some of them suddenly returned to the original martial art, family!

Although Tangyuan was destroyed, their base was based in Qingchuan City, where there were still a large number of industries, but suddenly they came back from the west, but did not go to Qingchuan, but returned to their own division.

This makes people think about it!

This is not a provincial pro, it may only be refuge!

In the middle of the night more such information came out, the outside world was full of enthusiasm, all sides have people to inquire about the news, but no people from the Master League came out to blame.

By the time this morning, someone finally voiced on behalf of the Masters League.

But the result of the sound is not a rumor, but a confirmation of the rumors!

Xia Yuntian, speaking on behalf of the Masters Alliance: The Alliance made a wrong decision. Sorry for the friends of Tianshan Jianzong, the Alliance itself has suffered great losses, including the supervision, law enforcement elders and allies, who have fallen into the Tianshan Mountains!

Now Tianshan Jianzong, who is already represented by Shen Lang, has dismissed the misunderstanding. Later, the two factions will not retaliate against each other. I also hope that the members of the alliance will continue to return and everyone will rebuild the master league.
