

First Strong 661

Chapter 661 - Shangnantian

Xia Yuntian is a master of the late real world. Although it is not like Tang Banshan, it is considered to be the core of the Master League.

There is only one in the Tangshan Mountains, and the monitoring and law enforcement elders are even more low-key, and even worse than their fame.

After the last Yuwenba was shot dead, Xia Yuntian came up with pressure and talked with Shen Lang. It also saw that it was a substitute, including in Haishan, he brought people.

After the death of the dead, he is already ranked the highest in the Master League, so there will be the spirit of self-sacrifice.

Now that he came out to speak, it became the most authoritative release of the Master League. The only problem is that you are not sure if this is what I posted.

Both text and screenshots can be faked, which is not a public release of authoritative media.

Therefore, many people are still questioning whether this sound is forged by people. However, because of the previous fermentation, many people believe that the Master League has been beaten. I think Xia Yuntian is a public surrender book representing the Master League.

Therefore, this information allows more people to find ways to contact and the members of the Master League. In order to allow members to respond, or even some of the head-level openings, or some near, and have a relationship, they will come directly to inquire.

However, the members of the alliance who have fled back are closed behind. This is a shameful thing, how can you see people?

In addition to being ashamed to see people, more is worried about the revenge of Shen Lang!

After all, they have heard the slouch, but there is a nickname for “killing the madness”, which is not merciless to the enemy.

Although the first siege from Tianshan Jianzong and the battle with Tangyuan, it is said that Shenlang is not a killer, but he did not lose anything twice, but it has received great benefits.

This time it can be different. Others don't know. They are very clear. The lord nailed Gao Li and Qi Sheng to the stone wall!

The two are called Shen Lang as the master, but also the masters of the Master League.

In addition, in the face of Shen Lang, the ancestral altar of Tianshan Jianzong was destroyed.

It used to be offensive and provoked. Now it is really bloody!

Therefore, the members of the alliance who returned to the division were not closed, and their divisions did not admit it.

For Xia Yuntian's voice, no one came out to oppose or agree, and even dare not return.

In case, Xia Yuntian is forced to make a sound by Shen Lang?

Or Shen Lang directly used Xia Yuntian's mobile phone, using his account to voice, it is not only to crack down on the reputation of the Master League, but also to lie to them to eliminate!

After the arrival of Shen Lang, all kinds of news is already flying, especially two shocking voices!

Qiao Shuyu of Qiaojia in Beihai and Nanyiye of Nantian Family said that they personally witnessed Shen Lang and killed the masters of the Master League and the supervisors and elders of law enforcement!

If Xia Yuntian's voice was heard before, everyone still doubts the authenticity, or is he being coerced.

No one questioned the voice of the two family members.

Who dares to fake?

Who can coerce?

Although there is also a suspicion, they seem to know with Shen Lang.

But the problem is that they open their mouths, whether they are emphasized or not, to represent the credibility of the two great families. They can't lie and lie because they help their friends.

What everyone is discussing is not whether the Master League is defeated, but how Shen Lang is trying to kill the lord.

After the First World War in Tangyuan, many people waited to see the enthusiasm of the lord coming back to abuse the waves. It's not necessarily hateful, but I don't know how long it's such a big excitement!

There must be some shots in the realm of the gods, but people are the same level of competition, and will not let ordinary people know and watch.

Now because of the dark waves, I am looking forward to seeing the gods. Although it may not be visible in person, this matter is bound to be open.

Half a month ago, when the ally appeared, everyone was excited, but it was far away from the Tianshan Mountains. No one was convenient to watch the fun, and it was extinguished.

Feng Wuji is also in the message to contact Shen Lang, want to know the most accurate information, in order to better follow the heat.

After Shen Lang came out, she revealed the approximate information to her, and confirmed the rumors.

And he himself, is to contact South Yiye, ask what kind of price, you can buy the restored Dan of the South.

When he waited for the return of Nanyiye, he also inquired about the wind and no sorrow. In all the martial art today, in addition to the restoration of Dan of the Nantian family, there is one of the best healing drugs.

This information surprised Feng Jiji, thinking that it was a time when Shen Lang was in the battle with the Alliance Lord, and he quickly dialed the video.

It was confirmed that Shen Lang was not injured. It was Gao Li and Qi Sheng who was injured. She was relieved and said that she would find out the best soon.

After contacting Feng Wuji, Nan Yiye also replied.

The restoration of their family, Dan, is a treasure, it will not be sold. It is usually self-use, and it is necessary to apply for a certain identity.

Just like the last trip to the dead forest, in addition to the identity of the South Leaf, it is possible to bring back a lot of resources for the family to get one.

The other is to exchange the form of Nei Dan with Shen Lang, which will give a reduction Dan.

He said that it would not be so easy to get, but he would still fight for it and report it to the family, but if he can get it, he will not be able to guarantee it.

Afterwards, Feng Jiji also replied. After her comparison of information, the best healing medicine is the restoration of the South.

Many other sects claim to have healing herbs, but many are boasted. Most importantly, many sects have been broken or declining.

To refine the superior healing medicine, we must first get so many raw materials. The Nantian family has this heritage!

In other words, some of the medicinal herbs that have been restored to the South with the South in history may now become very hydrated because of the scarcity of resources.

If you want the best, you can only find the South!

This makes Shen Lang a little helpless. The reason why I ask other people is to consider an alternative. If you are alone, the right to speak is in the South.

The last two exchanges that Nedan Nanjia gave were just like this. It is not so generous.

If it is to exchange with the inner Dan, he has no need to change. Besides, if there is a Nedan, why should I change the drug with them? Waiting for them to be stable, let them take the time to refine and refine, of course, more cost-effective.

It is best to be able to find more and use the Lingshi exchange, and use Lingshi to solve it. This is what he does not care about.

However, Feng Jiji is also responsible, she screened the best, although it is not a comparison of physical effects, but from an analytical point of view, the conclusion is not wrong.

Shen Lang wants to find medicine for them, it will only find the best!

At this point, Shen Lang decided to go directly to the Nantian family!

Chapter 662 - Icing on the cake

Xia Yuntian, Feng Wuji, plus Joe Shuyu and Nanyiye, have a clear, dark, objective voice, and Shen Lang does not have to personally publicize it.

After all, it's hard to be said, and if you say it yourself, it's relatively low.

Now the Master League has a loose sand, even if Xia Yuntian can gather together, it will not be a climate. Shen Lang has to start to adapt to the posture of the gods. In general, he has to start to disdain.

When Nanyiye had not asked for the situation at home, Shen Lang began to go to the Nantian family.

The South is not a self-sufficient Nantian family. It was originally honored as a Nantian family. In addition to their surnames South, it is also because they are in the depths of the 100,000 mountains in southern Xinjiang!

It can inherit the millennium, and to a large extent, it also benefits from this geographical environment.

If it is in the Central Plains, whether it is a commercial town or a military home, it will be the focus of the dynasties. Under the suppression of the imperial court, a strong family had to bow and crouch.

But in the 100,000 mountains in southern Xinjiang, the Emperor of Heaven is far away. Even if the war is burning, they will be the object of being drawn, and it will affect the existence of the local situation.

Of course, from generation to generation, they will be able to last forever, and certainly have made adjustments and changes in various adaptation times.

Today's Nantian family is actually very low-key. In the low-level comprehension world, the popularity may not be as good as that of Chu and Xie. After all, it is remote and biased towards birth.

But in fact, their power and influence are increasing!

In today's southern Xinjiang, although the development is getting better and better, the mountains are still sparsely populated, and the south is still the hero of the dominant side.

Only the times have changed, and the way is different. Thousands of acres of forest farmland such as farms, tea gardens, fruit farms, and forest farms are managed in the form of contract management.

On the one hand, it provides secular funds. On the one hand, all resources in the region are still under the control of the South.

Nowadays, the place where the Nantian family is located is in the form of an ancient village in which an ancient family has changed. This will not cause the relevant departments to be jealous.

In a large area, there is a complicated network of relationships in the South.

Shen Lang took them both to go directly to the southern Xinjiang.

However, it was too far from the Tianshan to rush to southern Xinjiang. They were only heard this morning because of this reason.

I stayed in a city for one night at night and continued on the next day.

In the evening, Nan Yiye also called and replied to the meaning of their family elders.

The South family did not accidentally emphasize the preciousness and scarcity of the restoration of Dan, but also must emphasize the rare, in order to appear the value they gave last time.

However, he said that Shen Lang is a friend of Nanyiye and a friend of the South. For this reason, the South is willing to give away two restored Dan.

Sending two, of course, is tailor-made for the sacred and high-altitude, there is a reduction of Dan, it is already very good effect, both will be a great waste.

Plus one of the ones that Nan Yiye gave up, this is three, and it is considered the sincerity of the South.

But in fact, Shen Lang wants three, including Luohe also wants to ask for her. Of course, the downfall is relatively light and can be self-healing by swallowing the myelin.

However, the stupid south home, this time actually willing to give two, but it makes him a bit puzzled.

The last two Nedans, they gave one, although there are other things, but also that they are very valued to restore Dan.

Now suddenly suddenly generous, really no other attempt?

However, on the spot of the phone, Shen Lang was immediately thankful, and I was able to get two. It was worthwhile, and I had any intentions.

Then he also promptly expressed that he would personally go to the Nantian family, thank you in person, and bring back as soon as possible so that the two injured can have one more guarantee.

Nan Yiye immediately stunned and immediately expressed his welcome to Shen Lang in the past, he will be ready to meet.

As a friend of his visit to visit him, there is no problem, there are also programs and places for reception. However, Shen Lang wants to express his gratitude in person, naturally his family elders, this is not his ability to be the master.

Shen Lang did not know, so he agreed with him, saying that he is already on the road, he should be able to arrive tomorrow.

As for how Nanyiye reported to the family, how would he understand his intentions is their own business.

After hanging up the phone, Shen Lang thought about it before and after, and immediately made a change.

Before, whether it was Joe's family or the South, he talked to him first, whether they would intervene and interfere with the Master League.

Although they did not ask for it at the time, as long as they agreed, it was a promise, a person. After all, if you want to interfere, it is equal to suppressing a strong person.

It's not that they can't afford to sin, but they're not guilty of Shen Lang's offense. At the very least, Shen Lang should be allowed to lead this feeling.

But now it is different. The death forest has a line, and Shen Lang has proved his value. When he returned to Tianshan, he killed the lord of the gods and proved his strength.

Not to mention the information of Xu Yuyue, so whether it is Joe's home or the South, I am willing to take the initiative to send a smooth and fluent person, and endorse the reputation of the family.

Of course, now that the lord is dead, the Master League collapses, and they do not have any risk or pressure.

Otherwise, it is impossible for Joe Shuyu and Nanyiye to make a public voice.

In this way, of course, I understand why they are willing to send two restored Dans now.

To put it bluntly, the value of Shen Lang is now different from that of a leap more than a month ago. The treatment is naturally different.

Before they didn't see the rabbits, they didn't scatter the eagle. They had to get help before they got the promise, but now they are willing to take the initiative.

From the perspective of normal people, Shen Lang can't say that they are not right. People who have no value can't invest too much.

However, from his personal feelings, is of course a partner in the snow, more valuable, and the icing on the cake is general.

Therefore, this line of Nantian family, he is still willing to give the price, Lingshi or other immediately, do not want to restore their reliance on the two people because of the district.

After a night, when they got up and had breakfast with them in the morning, Shen Lang was informed by the wind and no more information. He also understood the movements of the two days of comprehension.

Under the influence of Xia Yuntian, Qiaonan two, and Feng Wuji, they reached a new peak last night.

Everyone basically recognizes that Shen Lang is the lord who has killed the gods, and then in what kind of realm of guessing and gambling, what kind of way to kill the gods.

Chapter 663 - Starry array

People are not much.

Although Shen Lang has always been “red”, the headline circle is getting bigger and bigger, but this time it has turned over the Master League and killed the lord of the realm of the gods, so that he occupied the headline of the great circle of comprehension. “.

Nowadays, there are a lot of self-satisfied feelings. Some memories were sitting in the Tang Dynasty when they were bidding in the Tang Dynasty. Some said that they were sent out in the Qianglang Mountain. Some of them were boasted. At the beginning, with a group of Shen Lang, everyone “encourage and help” Shen Lang and Chu Mofeng, Xie Daoling battles...

Not only do many people take pride in being in contact with him, but some people come out to expose him. After he got the cow, he retired, didn't play with the friends who helped him, and even used everyone.

There is also his lace news, saying that he and Tang Banshan's grudges are because a woman, because the wind has no way to climb him, and Tang Banshan wants to fight the wind without a jade, let people catch the wind.

The result is that Shen Lang “rushed to the crown for a red face”, the blood washed the Qingjiang River that night, the high-level master of the Mid-Levels was killed.

Shen Lang was the first time in Tangyuan, an anonymous trade fair, and the contact with Feng Jiji, only the friends of the wind and no water.

The second time in the Tang Garden, the wind was not with him, but after all the journey, everyone looked at it. Later, when they were in Haishan, they also met together.

People are always willing to believe in false news, the problem of men and women, always the most interesting, willing to spread.

The goddess admired by the Master of the Mid-Levels ran with people, and sent people to forcefully take the beautiful people under the impulse!

The genius Shen Lang rushed to the crown and became angry, and he did not hesitate to fight in the end!

Master League is a big disaster!

Such a topic undoubtedly makes everyone talk about it with gusto, and even frustrated with a lot of so-called evidence.

However, Shen Lang is now a super monk who can be killed by a strong person in the realm of the gods. Since he has passed his anecdote, he certainly does not dare to stigmatize the protagonist. Even if he feels that the wind is not good, he only dares. Very familiar people talk privately.

In the case of WeChat group, etc., everyone only uses the sinister water to describe the wind and no sorrow, so as not to be slain by the spurs.

Any public opinion incident is most afraid of spontaneous participation. It is really viral, far more effective than guidance.

After the wind has found this situation, it has not been able to dilute, and her energy is limited. After all, it is impossible to suppress things. Moreover, she directly participates in greetings, but it will be more and more black and sit down.

Therefore, she can only divert everyone's attention by issuing more fierce materials.

These fierce materials are the brutality of the accused masters of the Alliance, the high-level separation of the centenarians, and the use of large iron cones on the cliff wall for more than ten days!

We will not be surprised by the strength of the alliance to transform the realm of the gods. But how to crush it, that is, the thing that stretches its head.

To abuse the enemy in this way is too much to respect people. After all, it is the master of the peak period and the centenarian.

It is too shameless to use such a way to force the waves to appear.

But there are still some people who don't believe it, and feel that the lord should not be so low.

As a result, Qiao Shuyu came up with an assist, put the photos taken at the time on the Internet, and witnessed that he was involved in the rescue process and had a sigh of relief.

I watched the chests of the two old men being nailed through the iron cone on the stone wall. Everyone was bleeding and lacking water. Everyone was unbearable.

And nailed to the wall for more than ten days, there is a sigh of relief, indicating that the lord is deliberately not letting them die, that is the torment of living on the edge of death!

This fierce material, let everyone be against the waves, not only to worship him, but also to have the legitimacy of the shot. Whether it is your own elders or disciples, if you encounter such a terrible situation, you will work hard!

For these exposures, rumors or something, Shen Lang is looking at other people's affairs, and will not mind, anyway, he is not in those groups, it is impossible to go to the news, it does not matter.

However, he took advantage of the horrors of Gao Li and Qi Sheng. He still had a bit of a mind. He said that he did not let her go; but the exposure of Joe Shu Yu did not pass his consent.

But again, now that he is personally red, Tianshan Jianzong has not followed the brush to feel a sense of existence, but also talk about the rise of ZTE?

Although the image of the victim is the appearance of the victim, the two battles that can be used to transform the gods are also defeated. And this horrible situation will also increase the impression of others, and brush up the presence of Tianshan Jianzong.

Therefore, he did not indicate that there was no other wind, and she was still arranged by her.

After eating, I also received a reply from Nan Yiye, saying that Nantian family welcomes him to visit.

He welcomes Shen Lang, and Nantian family welcomes Shen Lang's visit, the meaning is different, which shows that they have passed their family elders.

Shen Lang did not stop, with Zheng Yumeng and Dorothy, continue to fly to southern Xinjiang.

In the afternoon, according to the positioning of Nanyi Yefa, they came to the "Ancient Village" of Nantian Family.

Although it is now the name of the ancient village, it is actually built very well. In name, of course, the children who went out to the south home have made a living, and they have paid back to build their homes.

Out of respect for the Nantian family, Shen Lang did not fly directly to the sky, but landed on the ground several miles in advance and then walked along.

At the entrance to the village, I saw that Nanyiye was already waiting.

"Shen brother, Zheng girl, Dorothy girl. Haha, I know that you will fly directly. If I go to the nearest airport to pick you up, I will throw it away."

Nan Yiye chilled and took them to the village.

When it was almost arrived, Shen Lang had already reduced the speed and observed it in the air. Discover the nearby mountains, all of which have been transformed!

The boulders and pavilions that appear on different hills and ridges are intentional. The reclamation of the hillside and the planting of tea trees and fruit trees are also exquisite. The direction of the river, through the dam reservoir and other means, made adjustments to the original trend.

Although he only roughly observed a direction did not have a peek of the whole picture, but basically can be sure that this is a big array!

With hundreds of miles of mountains, farmland, and rivers, the whole world of heaven and earth is laid!

This is called “staring”!

No matter the momentum or effect, it is far better than the “Dragon Balls” of Qingchuan Tangyuan.

The position of the overall situation is naturally the area where the Nantian family is located.

This star-shaped squad will absorb the aura from the distance from the square, gather in a large array of hundreds of miles, and then pass through the convergence and transfer to the Nantian family along the vein!

Chapter 664 - Array family

As a result, the most profitable, of course, is the entire ancient village of Nantian Family. And hundreds of miles in this big battle have also benefited a lot. No matter what you plant, the harvest is very good. The average person will only feel that the environment here is a gift from heaven, and the mountains are good and the weather is good.

With the scope of entering the ancient villages, Shen Lang can be clearly seen, and all the buildings inside are very well-documented. Nothing is bad. They are both able to take into account the large array of stars and at the same time, and can zoom in and out.

And at a critical time, all the surrounding buildings can be very useful pieces in the formation.

These buildings are not left behind since ancient times. It seems that many of them have been newly built and rehabilitated in recent years.

It can be seen that there is a high school in the South!

The “Golden Dragon Ball” of the Master League was created by seniors.

The South is a contemporary and a high-ranking person. It is worthy of a family that has not fallen for thousands of years. After all, the things left by the ancestors are good, and they will change. They need to be adjusted and changed according to the times.

If no one inherits the knowledge, it is the ancestors who left the ready-made things. Once there is a problem, there is no way to continue.

The South is equal to a big ring with a small ring. The aura brought together will be more and more ways to place it. It is much more advanced than Tangyuan.

However, for these, Shen Lang can do a good job in mind, not to look at it, not to ask more, so as not to be suspected of ulterior motives.

Now he is a friend of Nan Yiye. He was taken with the courtyard where he lived personally. He has already prepared good water and good tea. When they got started, some people started to make tea, and they took a few seats. At the time, the right tea was also delivered.

“Taste, not bad, just our new tea in our own tea garden.”

Shen Lang simply tasted it, it is indeed a mouthful of fragrance, this is not only a good variety of tea, the key is the excellent growth environment.

“Good tea, for other places to grow, may not have this taste.”

Shen Lang simply commented that Zheng Yumeng and Dorothy did not taste anything, only that it was very good.

“I didn’t expect the Shenlang brothers to have a study on the tea ceremony. Just break the secret!”

Nan Yiye erected a thumb and immediately shifted the subject: “It seems that there is an anecdote about passing you and the wind, is there any pressure?”

He revealed the connotation of the smile, deliberately looked at Zheng Yumeng and Dorothy.

“There are little things that don’t have enough teeth.” Shen Lang smiled faintly: “I came to Nantian family this time and wanted to ask for the restoration of Dan. It is a big event. After all, you have seen the situation of Gao Li and Qi Sheng. “”

Seeing that he came to the door and said it, Nanyiye can only interrupt the chat.

“Shen brother, please be assured of this. Although reducing Dan is very rare and difficult for us to refine, but saving people like fire fighting, we are still very important. The elders of the family have already said that they will not ask you anything.” Is a pure gift.”

There is no elder here, and Nan Yiye also speaks directly.

Shen Lang is half joking and said: “The more I feel, the more I feel embarrassed. I prefer you to open a price, I use Lingshi to buy, or other resources to exchange.”

“We are all friends, there is a need between friends, of course, we can’t care about that much.” Nan Yiye said: “Like you got Nedan, because my family needs it, I can put two without mentioning any conditions. The pieces are all transferred to me.”

Shen Lang nodded, and my heart was a dark road. You have been in contact with each other. The elders of your family can be more careful than you!

Nan Yiye is not the master of the house, Shen Lang will not make him embarrassed, talk about conditions, just wait to meet with their family elders!

“I represent them both, thank you first!”

“Where! But you don’t have to worry, I can understand your heart, but don’t forget, they have taken a reduction Dan. In the short term, you may not be able to take the medicine. So even if you If you take it back now, you can’t use it. You are not in a hurry.”

Shen Lang sighed: “I know what you said, but in the end, it is hard to feel at ease. Drink tea! Calm.”

Continue to drink tea, Nan Yiye also said that it has been arranged, accompanied them to visit around in the afternoon, and then had dinner to visit the family elders.

Speaking of this share, Shen Lang will not be urging.

After drinking tea with peace of mind, I followed Nan Yiye and took a few big circles around the car until I came back for dinner.

I don’t know if the elders really didn’t have time, or they deliberately hanged. After a short meal, Nan Yiye said that he would take him to see his elders, but he only invited him alone.

Inviting him alone, there is nothing to say, Zheng Yumeng and Dorothy are not convenient to see the elders of Nantian family, they will feel unnatural.

Shen Lang followed Nanyiye and walked through the village to the most magnificent building. After entering, he had several weights.

The village of Nantian Shijia is a star-studded array of hundreds of miles and this building is the core of the village.

Although Shen Lang does not have a peep, but in the modern era, it is rare to see such a interlocking array of methods, instinctive or can not help but observe the key nodes.

After Nan Yiye led Shen Lang into it, he did not enter the center hall, but went along the corridor to the wing room.

“That is the place where our family members gather for the ceremonies of the ancestors, and they usually don’t clean up. The ancestors are here.”

Nan Yiye was afraid of Shen Lang’s heart and was busy explaining it. He said that it was not because he was not qualified to meet in the hall, but he did not use it normally.

Shen Lang smiled and nodded. In fact, it can be guessed. If it was more than a month ago, the South parents would not see him at all.

Although I saw him now, in their eyes, it is just a good young man with the potential to be top-notch. Of course, they will not let them receive a grand reception.

In this regard, he did not care too much, because he came to seek the drug, and it was not to show off.

And this can only say that the reception size of the other party is not grand enough, and the specifications are still high enough. Because the South Yiye said that he was a “home ancestor”, his grandfather should be the current owner of the Nantian family.

Shen Lang remembers that when he was in Tangyuan, he was mentioned as Gao Li or Feng Yuji. It seems to be called Nanliuchuan.

The uncles of Nanyiye, who are also elders, are now his ancestors, or the family owners personally receive them, and the specifications are very important.

In front of a room, Nan Yiye stepped forward and stepped forward, whispered a brief report, and after getting permission, he opened the door and invited Shen Lang to enter.

The room is large, but there is no imaginary mahogany home style imagined by Shen Lang, but a modern sofa with several people sitting inside.

Chapter 665 - Another purpose

“This is the most daring brother of the waves.”

Nan Yiye squatted to them and introduced them to Shen Lang, and then introduced them to Shen Lang.

“This is my grandfather Nanliuchuan, this is my second grandfather south of the water. This is my big Bennan unicorn, this is my father Nan Yingying.”

It is no wonder that he has to be serious and polite. Several of them are the core of the generation and the second generation of this millennial family.

They did not seem to leave Nanyi Ye to listen together, so after the introduction, Nanyiye nodded to Shenlang and then retired and waited outside.

Nan Yuying immediately arranged a soundproof cover, even if he was outside his son, he would not let him hear.

Apparently, when Shen Lang came in, he had already secretly paid attention to it, but now he is looking at it carefully.

Shen Lang also looked at the four of them.

According to Nanyiye's forty years old, his father must have at least sixty, his uncle is about seventy, and his grandfather Nanliuchuan is at least ninety years old. The south water is even smaller, it will be eighty. More.

Naturally, they are well maintained, and the two old men look like ordinary people around sixty. The South Qilin Nanyingying two, it seems that it is less than fifty years old.

Shen Lang can see that both the South Qilin and the South Yingying are at the level of the peak of the true state, while the two streams in the south of the stream are not very accurate. They can only be determined that they will not be weaker than the master of the Master League.

In other words, the two old predecessors of the South are at least the strength of the early days of the realm.

However, Shen Lang has seen a problem, that is, Nanliuchuan should have suffered a huge amount of damage. The inner Dan that has been obtained in these few months should be used on him!

Originally for the South to rush for Nei Dan, Shen Lang has also had speculation, the biggest possibility is to hit a higher realm, the need for resources to support. But now it seems that it doesn't seem like much.

But if it is injured, what about the reduction of the South?

Or is it that the injury to Nanliuchuan is that even the healing of the holy medicine in Nannan is not enough to cure, and it must be treated by Nadan refining?

“Sure enough, the hero is a teenager!”

Nanliuchuan showed a smile, a slow opening: “One leaf can know you, it is his luck.”

“You flatter me.”

Shen Lang slightly stunned, it is a salute to the predecessors, after all, he is talking with the South Yi Yeping generation, the courtesy still can not sleep.

“Don't be cautious, sit down and talk!”

Shen Lang also sat down in a big way.

“Kirin.”

“Yes.” Hearing the call of Nanliuchuan, Nan Qilin promised, and then took out two bottles that he had seen before, each with a reduced Dan.

“This is two restorations of Dan. I hope that the two high-ranking swordsmen and the two elders of the sacred sacred can recover soon.”

“Thank you!”

Shen Lang took over and immediately asked: “Before the South Brother has already given a remedy to save the first aid, I am really embarrassed to receive it in vain. Can you give me some medicine, or Lingshi? Is it really uneasy? ”

“Receive it! You are a young man and you understand people.” Nan Liuchuan smiled and shook his head.

“Before and after you generously exchanged three Nei Dan to give us a home. When we need it most, we don’t just have a big lion, but we take it on, and we don’t count the reward.”

“This makes us very moved, but to put it bluntly, you are not guilty of taking the opportunity.”

“Our South is fair. Since you borrowed our power, we can have reservations in actual interests.”

“And now it is different. The cooperation between you and Yiye has brought him great growth and brought harvest. And it shows your strength in Tianshan, and more importantly, your rapid growth. !”

“Now you don’t need to borrow our power, maybe one day we may have to borrow your power!”

“The relationship is turned or balanced, and the benefits are naturally different. You can think of it as compensation for you or for yours.”

In his capacity, it is rare to say such a pass, and it is also very straightforward – they do not know and have no friendship with Shen Lang, so directly talking about the benefits and values!

Benefits and values are the most direct and purest relationships.

Shen Lang likes this simplicity, just as he is willing to pay for the exchange of interests.

“Okay, then I will accept it. It’s better... give me one more!”

Shen Lang will receive, it is their expected thing, to give you benefits and help you find a reasonable reason, who can not receive?

I didn’t expect that this one would ask for one more!

In terms of proportion, this is an increase of 50%!

The two brothers of Nanxun Yingnan and Qilin all had a little frown. Obviously, he felt that he was a little ignorant of the lift, or he had to take a step.

Keeping the calm waters of the south, this time it reveals a look of appreciation and playfulness.

“You can come to the medicine in person, I believe you should know that the reduction of Dan in our south home is not the first in the world, but also a holy medicine with a reputation. Do you want one more, don’t give me a reason?”

Nanliuchuan is not angry, just looking at Shenlang, want to see what reason he is 裴圣和高离 is no longer a reason, they each served a reduction Dan, and then spared one If the treatment is not good, then there is no way to use it and take the third one.

“The predecessors of the Tianshan Ice Palace were rescued by the swordsmen. If there is no lord, this is a strong aid. The result...”

A few people in the South exchanged a look. Although they did not send people to Tianshan to understand the situation, the situation of the Master League is still somewhat understood.

If there is no ally, only the two masters of the supervision and elders of the law enforcement, Tianshan Jianzong can beat, and it is also aid. But the lord shot, they are all hitting the stone! (They don’t know that the sacred and falling rivers have also broken through the peaks of the real world.)

“Those who are loyal to the people, even if they face the realm of the gods, they have not retired. The ice palace falls, the towel does not let the eyebrows. Kirin!”

I can get an evaluation like Nanliuchuan, and I am naturally willing to give another reduction.

Nan Qilin did not just prepare two. He heard this, although he was a little reluctant, but gave the third bottle.

“Thank you!”

This is the purpose of Shen Lang, and now it has been reached, and I don't want to have more involvement with Nantian family.

As Nan Liuchuan said, I originally wanted to take advantage of the situation, and now there is no such need. However, just getting the drug, it is not convenient to leave.

“If you just want to give you a restoration of Dan, let Kirin, even let a leaf turn over to you, you don't need our two old men to come out. You don't feel strange?” Nan Liuchuan asked a question at this time.

It's just a matter of getting into the subject and putting the medicinal medicine into practice. But looking at him, the matter of restoring Dan is secondary.

Chapter 666 - Inviting cooperation

Shen Lang was not surprised.

“The two should have paid attention to me since I killed the ally. But I suspect that the South Yiye is overstated, so I have to observe it in close quarter. I should have something to help me!”

“But please bluntly.”

His calm attitude, and the analysis is almost the same, let Nanliuchuan exchange a look.

“In fact, you killed Tang Banshan. After breaking the Tang Garden, you valued you, but I didn’t expect you to grow so fast!” said Nan Liuchuan.

Shen Lang smiled slightly: “If this is the case, Tang Banshan, who was killed at the time, was only the master of the peak period. This strength is not enough for you to pay attention to. There is another reason. Tangyuan, Death Forest, Jianzong... I think I already know what it is because of it.”

These places have a common keyword, that is, the change of Shenlang strength!

From the Battle of Tangyuan to the Death Forest, he has an advanced step from the death forest to Jianzong, and there is another step.

However, if the Nantian family pays attention to the strength first, the other is related to the array!

The Tang Garden was broken, and the Lingquan, which gathered together the “Dragon Balls”, was taken away; the death forest needed to start the formation, and he also came out from the inside; in Jianzong, Nanyiye also saw When he went to “go back,” he re-arranged the mountain gate magic array.

Combining today’s insights into the Nantian family, they have a lot of research and rumors about the formation. What can be paid attention to by them is the rare talent of the formation!

The inheritance of the Southern Heaven family to the law also requires attention to the talents in the array, which is enough to show that they have encountered difficulties in this respect, and it is even likely that the injury of Nanliuchuan is related to this.

“Because what?” Nan Liuchuan asked.

The answer has already been determined in my heart. Shen Lang also evokes a little curiosity. The only thing that can hinder the formation of the tactics is that it is a complicated array. Such a large array, no matter where it is, will be related to big secrets!

“Stars.”

Shen Lang answered questions, but when they heard the four, the expression on their faces changed.

This answer is about the big array of Nantian family arrangements. Shen Lang can see through this array of methods, and they are not too surprised. But he can point out this one, indicating that they have already guessed their purpose!

This young man is really not easy!

“It seems that you are really the talent we are looking for. Do you know if you are interested?” Nan Liuchuan asked with a smile.

Shen Lang shrugged: “I don’t know anything, but what interests?”

Nanliuchuan and Nanliushui exchanged one look, and then opened by the south stream.

“We have an ancient squad that needs to be opened, but we can’t break it with our South China’s tactics. The Xiaoyou Tianzi Wizards, Tianshan Jianzong also have a good foundation, and may be able to help in this regard.”

After a brief explanation of the reasons, Nanliuchuan reopened the promise.

“Before I said, our South is fair. Since you want to help, you will naturally be rewarded. There are two ways to do this. One is that you believe that you will gain something when you start the big battle, and you will get a copy when you get it. One is that you are afraid that nothing is gained inside, we can pay you a reward.”

Nan Qilin added: “Of course, if it is the latter, the reward can not be given in advance, you have to prove that you have the strength to help get paid.”

Listening to their “price”, Shen Lang’s heart has already been counted.

The ancient squad that can make Nantian family so heart-warming will inevitably lock up a large treasure. Otherwise, why would Nanliuchuan be seriously injured and buy Nedan at any cost? These are expensive!

Normally, no one is sure what to harvest, just like a lot of money to buy a road into the Qiangjialing, and ultimately nothing. Choosing the latter kind is the way of drought and flood protection, which is more reliable and the benefits are visible.

However, Shen Lang is not lacking in Lingshi, and there is no shortage of medicine. In these two options, he is of course more willing to choose a slice of this opportunity.

Both sides are still skeptical and cannot be fully trusted.

The South is afraid that he does not have this strength, and Shen Lang is because the information revealed by the other party is too small.

However, from the perspective of the South, it is impossible to reveal too much. After all, it is not a partner now. If information is leaked, it may be a huge loss to them.

“I am interested. But if you want to pay, I definitely choose the former one. You won’t feel lost?”

Shen Lang’s answer, let Nanliushui look over.

“No problem. If you have the strength, it is also appropriate to divide your points at the time.” Nanliuchuan represents the South.

Shen Lang was silent and did not continue to speak.

“What?” asked the south stream.

“The Nantian family is so powerful, you have to open a big array, there must be a lot of secrets and treasures. When will it really kill me?”

Shen Lang said this and let them all miss it.

Then Nanliuchuan laughed directly.

“Kids! If you say this, you are not afraid of offending me. Is it mad to kill you directly?”

In the end, the friend brought by my son Nanying Yingying, still had to round the field.

“Shen friends, you are too small to look at our south home. The sign of Nantian family is unbeaten for millennium! We are not relying on absolute strength. If we are small and unbelievable, we don't know when. It's gone. We have our dignity!”

Shen Lang nodded. If they were angry or angry, they really wanted to stay one more.

But now their reaction is wrong. I did not expect anyone to look at the Nantian family. The interpretation of Nan Yuying also emphasizes the dignity of the South.

“Yes! I have a good cooperation with Nan Yiye and Qiao Shuyu. Although there is a vicious beast of the king, it is a bit regrettable that everyone has won the inner Dan, but the whole has something to gain. I am willing to go to the South again. Cooperation!”

The words of Shen Lang are said to make them feel better.

“Right, I heard that you met a friend of Xu Yuyue, don't know...”

Nanliuchuan is obviously a bit skeptical about Nanyiye. According to the description and estimation of Nan Yiye, that Xu Haoyue seems to be far from the realm of the gods. However, they have carefully discussed and have not heard of such a person.

“He and the swordsman's predecessors are old, and they have been in the forest for a long time. It should be more than a hundred years.”

Shen Lang revealed a part of it and said it is also true. It is indeed old with the predecessors, but not the previous generation and two generations. It is the cold autumn of hundreds of years ago. Xu Haoyue is indeed more than a hundred years in it, and it is more than a hundred years in a few hundred years.

Nanliuchuan and Nanliushui looked at each other and apparently still had doubts and disbelief, but they did not have a position to ask. This is an irrelevant person, and others can not answer it.

Chapter 667 - Billion ring array

The South is also refreshing. After the two sides reached a cooperation intention, they immediately revealed more information to Shen Lang.

Where is this big array specific, of course, did not say. The source of information is ancestral rumors, or modern development, and did not say.

The main reason for the disclosure is related to the formation of the law, told by the South Stream, that should be a “billions of ring array”!

Hundreds of millions of ring arrays, as their name suggests, are known for their complexity and cumbersomeness. They are intertwined and tens of thousands, and the array of laws and changes is ever-changing, so there are hundreds of millions of names.

In fact, of course, it is impossible to really be hundreds of millions, and even thousands of them cannot be done. But borrowing some size and algorithms can be very complicated.

If you are a person who understands the law but will not break it, you must find the correct way to open it in thousands of possibilities through exhaustive means.

The South has repeatedly cracked this battle, but often only advances the number of rings, there is no clue to the back, there are still many crises. And if you have never been, start with a different start, start again, and you can't continue the last time.

The last time, they entered the farthest distance, but there was no complete breakthrough. The result was that Nanliuchuan was seriously injured and had to return.

He was traumatized in the front, has used the restoration Dan, and can only rely on Nedan. On the one hand, it is healing, on the other hand, it is also trying to make a breakthrough, a higher realm, and naturally there is greater power to move forward.

This is also a family secret, only the four core people of them know. Like Nan Yiye, I just know that I need to collect Nedan. I don't know the reason behind it.

Shen Lang appeared in their eyes, that is, after the Battle of Tang Yuan.

Qingchuan's "Dragons and Dragons" game, the Nantian family is also clear. But that is the foundation of others' families. They will not go public and will not steal.

Because Nedan knew the Shenlang, and the battle of Tangyuan, let them collect more information from the side, and after in-depth analysis, there is a deeper understanding than the scene, guessing that Shen Lang discovered the bureau, and It is also taking Lingquan away!

Afterwards, Nan Qilin personally ran a trip to Qingchuan City, investigated the rebuilt Tangyuan ruins and confirmed their conjecture.

Continue to investigate the deep wave of Shen Lang, and found that this boy is very mysterious, completely like a pop out of the air, but then did not know how, actually became the chief elder of the Tianshan Jianzong, even the high-class such a famous I am willing to worship as a master.

And Shen Lang was trapped in the forest of death for a year and a half, but it was his own thing. Others only think miracles, they understand that it is sure that Shen Lang has found the entrance.

This is also the case, they first extended the olive branch and wanted to make a mess.

However, he was resigned by Shen Lang. Later, Shen Lang took the initiative to send two Nei Dan, which solved the urgent need and made them look forward to the death forest.

When they came back, the situation of Nanyiye's report, many of them surprised them, and they gave a good gift.

They originally wanted to invite Shen Lang to visit. After all, it was impossible for Nan Liuchuan to run over to find him. It was just that it was not good to open it. I thought about letting Nan Yuying thank him for his help to Nanyiye.

I didn't expect that Shen Lang actually took the initiative to visit and directly went on the road.

After meeting at the meeting last night, I had a meeting today.

As for the level of Shen Lang in the formation, they are not worried. Because when he was inferior in his strength, he was able to find his own transmission from the dead forest, which proved quite accomplished.

The "Dragon Balls" that can see through Qingchuan, including the one-hundred-and-a-half-mile situation, can prove the strength of itself.

Only those who have the strength can ask for a share without asking the specific situation.

So after revealing the information, the next step is to discuss the specific plan.

The South seems to be anxious, and it can be seen from the search for Nedan. What they mean is that it is best to stay now and join them to complete this mission.

Perhaps they are also worried that Shen Lang will leave secrets, or fears will not come. After all, Shen Lang is not like the dignity and particularity of their millennial family.

But now communication is developed, if you really want to leak, unless you disable all his electronic devices. That is not to talk about cooperation, and it is not happy.

Therefore, they used the way of twirling and hoped to move forward as soon as possible.

Shen Lang is thinking for a while, the master alliance is considered to be already, and Xia Yuntian can gather the rest of the people very difficult, let alone counterattack against the Tianshan Jianzong.

And the work of the reconstruction of the sect of the sect, it is better to praise them for their treatment. Gao Lihe and Sheng Sheng, as well as the injuries of the river, still have to look at themselves. His return to guarding can not play a big role.

After considering it, he promised the request of the South, but this time, he would not let Zheng Yumeng and Dorothy follow them to take risks, just let them send the restored Dan back.

In this way, the guest and the host are happy.

By the time he came out of the room Nanyiye looked relieved.

He is really afraid of the arrogant personality and will directly offend the elders.

As for what they specifically talked about, Nan Yiye is also interested in asking questions. It's definitely not as simple as sending a medicine, or you don't need two grandfathers to come out personally. Without letting him know, he can't ask!

They lived in Nanyiye's house tonight. After returning, they also discussed with Dorothy Zheng Yumeng, and gave them three bottles of reduced Dan, and sent them back to Tianshan Jianzong, two ice palaces.

Because they can't give them a specific satellite map, they can only describe the approximate route they have visited before, but they also need to search for themselves. Anyway, there is no rush, and Shen Lang is not worried.

The next day, when they knew that the two of them had to go back first, and Shen Lang did not leave, Nan Yiye also said that he would arrange a good trip for them.

He has already gone through it, and can take the car directly to the city with the nearest airport, then the airport to the nearest airport in Tianshan. There is no way to do it later, or you have to hurry.

Although there is still a task for Shen Lang to stay, Nan Yiye is very curious, but he does not dare to ask more, and will not say to Joe Yu, but also please, Zheng Yumeng Dorothy, they don't say it, this is related to them. Family secrets.

When Shen Lang re-visited them to Nanliuchuan, there were only two old men in Nanliuchuan and Nanliushui.

Among them, Nanliuchuan is more powerful, and Nanliushui is the tall man who is good at the South.

South Qilin Nanyingying their second generation of elites, not only not enough strength, but also must maintain a good family, naturally will not let them participate in the adventure.

The two old men, who are at least 90 years old, are full of energy. With the things that have already been prepared, they will take the waves and set off.

Chapter 668 - Competition speed

South Xinjiang is sparsely populated, and 100,000 mountains are far from being developed. The place where the Nantian family is located is already very good and modern.

The two brothers of Nanliuchuan and Nanliushui personally did not take a younger generation to handle some sundries.

Shen Lang followed them, but did not take care of them.

When he was in the South, he and Nan Yiye had a relationship with each other and could be like an elder. But now that it is a team, everyone is equal.

Moreover, although they are both older, they are at least the strength of the realm of the gods. The age of the face is only about 60. If the actual ability is normal, even young people do not need his care.

When three people set off from the Nantian family and rushed along the road, Nanliuchuan and Nanliushui both speeded up intentionally or unintentionally.

This is a mountain that they have been familiar with for decades. They also have strong strength. This consideration is also about the ability to see Shen Lang.

The result is that no matter how fast they speed up, Shen Lang is not slow to follow, will not be anxious because of their acceleration, and will not be pleased by the slowdown.

The two old men provoked the mind of not admitting defeat, and they had the heart to fight with Shen Lang. Every time they plucked, they were tens of meters, and more than 100 meters. Although they needed to borrow rather than complete flight. But the speed has actually exceeded the average flight.

Shen Lang is only speechless.

At the beginning, he thought that two people wanted to hurry, and now they are sure they want to compete with him.

Compared with him, isn't it boring?

Not to mention his "Phantom Meteor Step", which can speed up a lot. After refining the giant rhinoceros beast and swallowing the marrow fluid, his physical fitness has been very mutated, and the speed is far better than the same. Level of people.

It's not a problem to keep up with the speed of the two of them. What needs to be considered is, do you want to give two old faces?

If you don't give face, Shen Lang can directly open them far away!

However, after the acceleration surpassed them, Shen Lang discovered a problem. He did not know the route. He also needed two old men to lead the way, and naturally he could not open them.

This is not to give face, but also let them go first?

If this is the case, they estimate that the speed is just like this. If you are not good, you still have to test it, or you may have contempt in your heart.

After thinking about it, when Shen Lang was on a hill to borrow strength, he did not continue to fly, but stopped directly.

He didn't need to rest, but this time he deliberately exaggerated to take a bottle of water and drank it.

The shape of the two people in the south of the South Stream was soon to the distance. They had to compete with the Shenlang. Of course, they were always watching his situation. When he found that he did not follow up, both of them were secretly relieved. .

I exchanged a look at each other. I can see that both of them are already struggling. If the game continues to keep up, they will be a little embarrassed.

God sensed it and found that Shen Lang stopped to drink water, and both of them slowed down a bit.

Drinking water is definitely an excuse. Is it actually a break?

They were slightly smug and gratified, and they were prepared to wait for the waves to come, and immediately heard a voice.

“The two don’t have to wait for me, just keep up.”

For the words of Shen Lang, let both of them secretly frown.

I thought this kid couldn’t keep up, and he would give him face, not to expose it in person, just understand the situation, but I didn’t expect it to be reluctant!

Two people do not need to discuss, and immediately speed up the road.

This time, neither of them relaxed, and they went straight to the fastest speed. They are ready to pull the waves away for a while!

Young people should know how to advance and retreat. In front of their two old men, if they want to be reluctant, then don’t blame them for not giving face.

Between the time, the two of them were hundreds of meters more, and continued to move forward quickly, and soon became two black spots.

Between the mountains, if you open it a little further, it is easy to recognize.

However, Shen Lang did not move immediately, but continued to take a sip of water, and must give them a great lead in order to show his speed.

After a while, the two people in the south of the stream were far away from the waves, and Shen Lang did not follow the signs.

On top of a mountain, the two stopped and looked back.

“This kid won’t get lost?”

“According to the truth, it should not be so far away!”

Two people looked from afar, and no black spots were seen.

If Shen Lang is catching up in the distance, it is in their expectation. It can be their eyesight, even the shadows are invisible, only to show that he is either a road or a break.

“How did the two seniors stop?”

A voice came from behind, so that the Nanliuchuan brothers could not help but be shocked!

This is the voice of Shen Lang, how come from behind them?

They stopped and turned back to look at the way, Shen Lang talking behind them, meaning that they are not falling behind, but they are already in front of them!

Going back to Two people looked forward and saw that they were swaying in the wind above an old pine tree. Isn’t that what they are looking for?

The faces of the two people are a little bit untenable.

In their realm, in their status, they have been caught up in a very distant place, and they don't know if they go beyond it. This makes people feel so embarrassed!

“How did you get to the front of us?” Nanliushui could not help but ask.

He can be sure that Shen Lang cannot be surpassed by them, or else it is absolutely impossible to find it.

Shen Lang smiled and said: “I saw that the two went far, and I was afraid that I couldn't catch up. I went around from the other side and just came here in front of the two. Of course, the two mainly stopped and waited for me. Otherwise I can't catch up.”

“...”

Nanliuchuan two people are speechless.

If you walk in the city and follow the street route, you may also say that you are taking a shortcut. This is in the wilderness of the mountains, they have not turned, want to catch up with them, the line is the nearest distance.

It's actually going to run more roads around the circle!

This has basically been explained clearly. Shen Lang really did not go beyond them, so they could not be unaware.

However, the long waves that had been opened far away were not only catching up, but also surpassing them in front of them by the detour. They have not let them know that this is not only faster than them. It's also very good at hiding and sheltering.

As for the last sentence, it is the relationship they stopped, of course, just to find them face.

“The hero is a teenager! For your speed, we are both served.”

The south stream of water arched the hand to Shen Lang, and the generous smile admitted that it was not as good.

Nanliuchuan is a bit awkward.

Chapter 669 - Don't have a hole in the sky

The reason why the two of them will test the Shenlang is because they know that Shenlang broke through to the realm of the gods in the dead forest. According to Nanyiye, it is less than ten days before and after.

The ability to kill the lord, the key is still a huge contrast, let the lord overturn in the gutter.

So they want to see how many pounds two are in the end.

The speed of the road seems to have little to do with the strength, but in fact the speed has reached this level, but it is more real, because there is no way to cheat, it is entirely based on its own strength.

And even if there is a speed bonus, the key is to look at the strength. If the strength is only ten, even if there is twice the speed of the bonus, it is only twenty. If there is one hundred strengths, you don't need the footwork, it is still crushing.

When the expert takes a shot, he knows if there is any.

The temptation of this one face has already made them look at the waves and dare not despise the young man.

They also finally believed in the report of Nan Yiye – the more he gets along with him, the more mysterious!

However, the problem of this face, two people do not care. Although I am older and pay more attention to my face, there are no other people here. No one will know anyone, and that doesn't matter.

On the other hand, the crisis in this trip is heavy, and the stronger the strength of Shen Lang, the greater the help that can be given. On the contrary, it will be a drag on the hind legs.

The speed behind the road is still very fast, but everyone has not stormed, but a more even road.

Waiting for the two old men to stop, it is far away from the Nantian family.

Shen Lang took the time to look at the mobile phone map, and it was almost on the edge of the country.

The two old men paused and recognized the direction, looking for a waterfall above with the waves.

Then they slashed a piece of trees, cut them into three pieces, and then separated one.

“Jump from here?” Shen Lang took the “wooden board” that was cut out.

“Not bad!” Nan Liuchuan laughed, then jumped straight down the waterfall.

The range of this waterfall is not very large, but the height of the drop is very large, at least 100 meters. It is a specially trained extreme sports expert, and he dare not row a kayak from such a high waterfall.

Jump like a wooden board like them. If you are seen, you just think they are crazy.

Of course, for their realm, this is actually nothing. In fact, even if there is no board, there will be no problem.

Seeing that the south water has also jumped, Shen Lang has followed. Since Nanliuchuan will have a wooden board, it should be useful and it will not be thrown.

When Shen Lang followed the waterfall to the bottom, they saw that both of them were walking on the planks and drifting forward in the rapid water.

Shen Lang also dropped the top of the planks that the trunks had opened, adding a little speed and catching up with their drifting faster.

Under the roar of the huge waters of the waterfall, they drifted rapidly in the midst of a great drop, and there was quite a feeling that “the two sides of the strait couldn’t hold the canoe over the Wanzhong Mountain.”

Soon, the sound of the waterfall was already slight, and the river drifting down did not have such a steep drop, but the river was narrowed and the water flow was still impatient.

Going forward, there are jungles on both sides of the river. Because the river narrows, the branches of many large trees on both sides are crossed and dense.

In the process of rapid drifting, they must also kneel down to avoid the branches above.

Shen Lang knows why the board is used. They have been there many times before, and they have experienced it. Without such a support, even if you come all the way, it will be a bit wolf.

But he is a bit confused, why should he follow the river?

It’s faster to fly directly from the waterfall and walk from the side of the mountain. Or just here, it is more convenient to step on the fly above the trees above.

However, he did not ask, these two are the famous elders of the Nantian family. Naturally, it is impossible to be greedy and stimulating. This is the reason for them.

Continued drifting, thicker and denser forests, almost to the extent of hiding the sky.

“be prepared!”

Talking about the south water, in the process of moving forward, he is already at the forefront.

Although he did not say what to prepare, Shen Lang was immediately alert.

His knowledge spread out one step at a time, and he investigated the situation ahead.

The jungle in the front has come to an end, and then it is actually a mountain. The river directly rushes into the bottom of the mountain and goes deep into it.

It seems that the river enters the mountain, mixes the underground river, and then comes out from the other side. And where they need to go, it should be in this mountain.

Shen Lang followed them, squatting down and continuing to slide on the planks.

It didn't take long for the jungle to end, entering a large gap at the bottom of the mountain, and then the surroundings became darker and the temperature was significantly reduced.

At the forefront of the south, the headlights were prepared, and the water on the front was illuminated on the head.

Shen Lang looked at it, they still couldn't touch the head. But if they stood up, they would not be enough.

Looking at the traces of the rock above, it should be winter, not the season of rising water. Otherwise, it will be filled with water and will not give them space.

After a period of time in the mountain, there was a relatively large space.

Next to it is a subterranean river that looks like a thousand years of scouring, letting the rock fall down, and then gradually washed away, forming a space like this dome-shaped cave.

The distance between this space is limited, and the river channel that is going forward becomes more spacious. The direction to continue to travel should be to leave the mountain and continue.

The south water directly leapt up and took the wooden board, and the body was on the mountain wall.

Nanliuchuan is also following this, and Shenlang is immediately following them.

Although Shen Lang was coming for the first time, he also immediately discovered the mystery when he looked at the movement of the south water.

There may be thousands of years of natural fullness, but it has been a man-made transformation!

The south stream accurately printed a few palms in several directions, and a crack that was faintly visible on the top was actually slowly unfolding, revealing one or two feet for one person to pass.

“Faster!”

Nanliushui still does not let go, and Nanliuchuan is a quick flash, and Shenlang immediately catches up.

After the two of them entered, the south of the water was released, and then quickly flew over.

After entering the Nanliuchuan, Shen Lang observed by the shimmer, the thickness of the stone wall is at least a few feet!

As the south stream of water flew in, the unfolding stone wall seemed to be loosened and slowly closed. If the speed of the south water is slower, it will be directly caught in the huge stone wall!

Chapter 670 - Break through

As the south water came in, his headlights also illuminated the space that entered.

Nanliuchuan, who walked in front, continued to move forward and also put on the headlights at this time. They have been here long ago and they are all prepared.

I don't know if it is neglected or intentional. They didn't prepare anything for Shen Lang.

Shen Lang is now in the middle, and there is no need for a light source. They can be illuminated both before and after.

Going forward with Nanliuchuan, it is a narrow crack, artificially chiseled, or a natural gap. The age is too long, and the rough look is invisible.

Shen Lang did not care about this. This is just an aisle. It has not yet reached the trillions of ring arrays.

Shen Lang did not say anything and asked anything, but in fact, his mind did not stop.

He looked at the map before, and there is already a rough thread for the surrounding environment. Although the rafting is slow, it is also along the river, and the general direction can still be grasped.

Now entering the mountain, there is also a map in my head. Including the current move along this gap, he is silently calculating the distance and direction.

This is not to write down their map trajectory, but to come back later, but just in case, if there is any accident, there is a general direction, not lost.

Although limited by the environment, the speed of travel is limited, but they are still much faster than the average person, and there is no pause.

Finally, after a long walk, the front suddenly opened up.

In front of Shen Lang, it is a huge pit. The crack they appear is on the middle stone wall of the crater. The distance from the top to the top is similar to the distance at the bottom of the crater.

After arriving here, their two headlights didn't work much.

One is because the space here is too big, and a little light is limited.

On the other hand, there is a hole in the crater above the crater, and light leaks in from the outside. This huge pit was obviously artificially created. After the light came in, the stone wall shone, polished like a mirror, and reflected the light.

The stone wall of the reflection point is refracted again, so that it repeatedly turns the light that cannot be turned into a light source of the road.

The clever design, after years of corrosion, will be much worse. However, Nanliuchuan is not the first time they have come over. It should be re-polished to have a better refraction effect.

Of course, the key is to look at the light coming in. If it is just the right sun, the effect will be more obvious. Otherwise, it is a little bit lighter.

But they are not ordinary people, as long as there is a little light source to help, you can see clearly.

“Hundreds of millions of ring arrays are here.” Nanliushui said slowly.

The gaze of Shen Lang has been viewed around this huge pit. In the eyes of ordinary people, this is a natural miracle inside the mountain, but in his eyes, it is traces of artificial transformation everywhere.

After the south stream opened its head, it did not continue to say that it also tested the meaning of Shen Lang.

It can be found that the transmission array, the dragon arches and the stars are scattered, indicating that Shen Lang has a low base of formation. However, hundreds of millions of ring arrays have known little since ancient times, and many masters may not have heard of them.

In other words, Shen Lang just got the tickets they invited to cooperate, can you enter this door, or depends on the current test.

If Shen Lang doesn't know anything about the billions of ring arrays, there is no way to do it. It is equal to zero when he comes with him. Even if they have reached the door, they still have to retreat. Otherwise, if you take the Shenlang into it, you will still be unable to pass the road ahead, but you may be injured again.

Shen Lang knows this very well, and this is not the same as his speed of competition. When he really wants him to show his hand, it is directly related to whether this exploration can advance.

Billions of rings!

At the time of his observation, the two people in the south of the stream were serious and did not bother him.

At this moment, in their hearts, they hope that Shen Lang can show them a miracle.

But the situation that surprised them is still happening!

Shen Lang just looked at it a little, and then jumped directly to the huge pit!

“Wait.....”

The south stream wants to stop, but it is too late. The shape of Shen Lang has entered the giant pit and has already entered the battle.

He had a heart to follow, and if the Shen Lang was in trouble, he could save the man, but Nan Liuchuan had already stopped him.

“Slightly don’t worry! We don’t bother and influence him, and look at his means, especially you, maybe it will be inspiring.”

When Nanliushui thinks right, he does not follow, but keeps on top of the whole.

After the swells went down, the speed was so fast that the horses got up.

From the top, he looks like a headless fly, turning around in a maze without a route.

However, the south stream can be distinguished. The pace of Shen Lang's body is very fast, and every route is traceable and regular. It seems to be a mess, and it actually caters to the transformation of hundreds of millions of rings.

After watching it for a while, he frowned and thought about it.

It's really inspiring. The way that Shen Lang uses is completely different from his!

Because Shen Lang is the first time to come to there is no information here, so it is a brand new attempt, the method used, and the taste of trial.

But this is an ever-changing ring array. If you get a wrong ring, you will get the wrong ring. It is getting harder and harder to sort it out later.

Under his inconspicuous attention, Shen Lang relied on rapid temptations, and quickly found out the doorway of the billions of ring arrays, and then directly smashed Huanglong, looking for the key to the opening of the first level, directly opened the portal. !

"It seems that this kid really has two sons!"

Nan Liuchuan praised, although the formation is more in the South, but he also understands, and here more than once, there is experience.

The two immediately flew down and fell directly into the side of Shen Lang.

"Continue?" Shen Lang smiled and smiled.

Although he faced this formation for the first time, the law is still clear, and the rough eyes have actually grasped the key points in the overall situation. The specific operation is only the details.

Nanliuchuan raised his thumb: "Continue! You really have the ability!"

"The understanding of Xiaoyou's approach to law is quite insightful. I should learn from you." Nanliushui also praised.

Shen Lang said faintly: “Continue! It will become more and more difficult in the front, but also work together!”

This is a deep understanding of the two of them. Shen Lang is not a modest guest, but it is the key to seeing it.

The second ring is cracked, the south stream is still letting Shen Lang come, but this time he is assisted.

The strength of Shen Lang has been proved. Now let Shen Lang take the shot, it is to give him a little experience value, to understand a little more about the law, in the latter level can have more inspiration.
