Chapter 681 - Give your face a shame

“Wait, there is someone coming over there. He is a regular reader. He has seen me. It can prove that I am a friend of Miss Bihai.”

Shen Lang said calmly, in order not to stimulate them, nothing moved.

Several officers were slightly surprised. Several people immediately split up. The two men stared at the waves with vigilance, and the officer who spoke looked at the other side.

After a few seconds, he saw the regular reading coming from the corridor.

I often read this is wearing the uniform of the city of the river basin, but it is obviously modified by various aspects, and there are a few points of the package. He came up with a box and looked like what was in it.

And when I came over here, I don't need to say that I was sent to Bihaihuan.

The two officers saw the strangeness of the man, and they turned around and looked at the past. As they saw it, they often read it and stayed for a while.

Changyou was walking along the corridor to the Bihai Huan room. Suddenly, the three officers in the rest area looked at him and couldn't help but stumble.

However, he immediately smiled politely and nodded, saying hello to the three of them. Don't talk, avoid the embarrassment of explanation.

“Ordinary major, can you come over?” The officer greeted him.

Seeing the usual reading and stopping, the officer said with a smile: “Miss Bihai is still in a meeting, and I should have not returned yet, and I will not delay your business.”

I often read it a little, but everyone knows that he also came over.

“What’s wrong? First declare! I don’t have to delay the business. These are some snacks that I want to get. I don’t think it’s too good to eat. You can’t make a decision...”

He was joking and said that he came over, and the natural relationship between the words was not obvious.

But as soon as he approached, the smile on his face solidified.

Because he didn’t know that the Shenlang came over, he never thought about it. He was just blocked by the three of them. Until now, he saw Shen Lang.

“Oh! No one beats the love you gave to Miss Bihai, saying good things! This person said to know you, saying that you can prove that he is a friend of Miss Bihai, but really?”

The officers also noticed the change in expression on the face.

When you meet twice, you will stun him twice. Can you forget it when you read it?

The first time was only stunned, but the second time he shattered his sacred armor and his body was not hurt!

What makes him even more concerned is that Bi Haihuan’s attitude towards Shen Lang is simply “recognizing into gray”.

However, at the moment I heard the officer’s question, but I shook my head decisively.

“do not know!”

The expressions of the officers were immediately complicated.

If you can become an officer, even if you rely on the background, you will not be the second nephew who you don’t understand.

I have just read the changes in Shen Lang's face. Everyone has already seen it. Now he has not asked much. He directly shakes his head and denies it. It makes everyone feel that there must be a flaw in it.

But for them, coming over and asking for Shen Lang is for security reasons. Now, no matter what problems they have, since they are often unwilling to admit it, nature is not a safe person.

“What else do you have to say? Please!” The officer made a gesture.

In fact, he is actually more polite. He often said that he does not know him, but he may actually know it. This is worthy of playing. In order not to sin, he is kind to ask Shen Lang to change places.

Specifically, you should contact Maple Moon and see if there is such a thing.

In fact, it is also a face to face, or else there are doubts, now directly in person to contact Maple Moon, everything is clear. But just after he refused to do so, the young people still have to be stubborn.

“Give you face, you don't want to face...”

Shen Lang shook his head and sighed. This is what I usually read.

The face that I read often changed: “What do you want to do? I warn you, this is in the military camp! If you come in chaos...”

When he hadn't finished speaking, the whole person flew out and directly hit the wall behind the corner of the corridor. The box in his hand was completely on his face!

The three officers were shocked, including the officer who had just been a little polite, and also pointed at the gun.

“Do not move!”

Shen Lang shrugged unscrupulously: “I moved? I have been sitting and not moving!”

The officer’s face changed again and immediately woke up.

“You... are you... the master of psionics?”

He immediately looked back, and the regular reading had fallen to the ground and did not move.

Can you knock people out to this level without having to get up, who else can you besides the Master of Psionics?

He felt awkward at first, and the two officers who had been holding guns next to them began to sweat.

Although the psionic masters also have high and low ranks, even the lowest level psionic masters are superior.

And not to mention who makes sense, who’s status is more respectful, just the one he just exposed, even if they have money in hand, they may be shot at any time, or even kill!

Unless you start with a strong direct shot!

But if there is no legitimate reason to shoot and kill a psionic master, it will be very big trouble!

Especially... if you shoot directly, can you really kill each other?

“What do you say?”

Shen Lang faintly hit a ring finger, and the three of them only felt an uncontrollable force, so that their bodies were reversed, and the muzzle in their hands aimed at the usual readings that fell there!

“Master of Psionics... please, please...”

The officer was shocked. In a short while, he was surprised by the continuous upgrade.

If the Master of Psionics controls them to shoot and kill them, then their troubles are very big!

Because they want to prove that they are not their own wishes and the monitoring records, the psionic masters did not touch them at all.

This is precisely why, as an officer, he has the power to focus on the real power of the fire, and also the master of the spiritual master.

There is no way to prove it by being overcast!

In order to avoid accidents, he decisively released his hand and let the gun in his hand fall to the ground. Just this is to control their body to turn over, if you directly control your fingers, you can't do it.

The other two rushed to learn the sample and threw the gun.

“I don't know what the adult called? It's our reckless offense! I am very sorry.” The officer felt a loose body and quickly turned to apologize to Shen Lang.

“Now I believe that I was picked up by Feng Yuegu. I believe that I am a friend of Miss Bihai?” Shen Lang asked faintly.

“I'm sorry! It's our eyes, and because of the special moment, for the safety of the city, to avoid the spies of the enemy... In short, we are missing!” The officer explained it and emphasized the mistake.

“What's going on there?” Shen Lang looked up and gestured.

They were busy looking at the past, it was the place where they often fell, and the box was still on his face.

They all groaned, and said that it was not your own ghost? Still need to ask us?

The officer who spoke on his behalf was eye-catching and quickly said: "It seems that someone just saw someone walking and accidentally fell. We don't bother you. How about taking the unlucky bad luck?"

Shen Lang nodded.

This is the role of strength!

If he is a weak ordinary person, even if it is really a friend of Bi Haihuan, then they will be arrested and questioned by them first!

Chapter 682 - Voluntary fan slap

Bihaihuan did not know what rank was hung, but she was a young lady of the Bihai family. This identity made her special in the military.

Even as Shen Lang suspected, this local war is not good enough to train her (plus other children) and fight!

Therefore, she is not qualified to attend the meeting, and she is the most important meeting with the senior officers of the base.

Shen Lang through the investigation of the gods, we can find that her look is a little intolerant, even if it is not convenient to call, I must have received the information of Feng Yuegu.

But this may be a summary of today's battles, and for the next battle layout, so the senior officers are very serious, and will not let her leave.

Helpless, Shen Lang can only continue to wait here.

Shen Lang has no military and political affairs. For everything in this base, there is no observation and learning. The high-tech weapons here are best not to flow to the earth, so as to avoid the imbalance of power and cause war.

After a few minutes, I rushed to the footsteps.

If you close your eyes and keep your eyes open, you don't need to open your eyes to know who is coming.

“It's him! This is a psionic master!” Everyone is careful!”

The roar that often read the low voice rang, and on his face, there were several blood marks, which were just the box.

The third time I saw Shen Lang, I ended up saying a word, and I was once again stunned by Shen Lang, and it was a shame in public, but nothing happened! This made him very angry.

The officers picked him up and woke up. I wanted to ask what the situation was, but I often opened them and immediately found two reliable helpers.

The three officers before, but also followed, but not close, just watching the fun from afar.

The psionic masters, they dare not intervene.

But in such a thrilling thing in the military, I couldn't help but want to take a look.

It's not the average soldier, but the two psionic masters!

“Bold! I even ran to the military camp in my river city!”

“Today, let you know the power of our city's psionic masters!”

As the two psionic masters who read it often screamed, they were also carefully watching the waves.

Obviously, they all have brains. Although they don't know the ins and outs, they are very cautious when they hear that they can hit the usual readings.

Shen Lang looked at it and could not help but shake his head.

The master of psionics here is similar to the meaning of the comprehens of the earth, and is not a master monk who has at least survived the real world.

As for the two psionic masters in front of them, it should be no more than the level of the late Yuan Dynasty.

“Just you? See me, or talk to you!”

Shen Lang's fingers moved, and the two psionic masters who were preparing for the war, found that the whole person had been imprisoned, and could not move at all, and could not help but be taken aback.

Immediately after the two of them, including the usual readings in the back, they were directly uncontrollable.

Several officers on the corner of the corridor in the distance, could not help but admire, and secretly glad. Just woke up the regular reading, and let them go to the military to suppress, if this is the case, then offended a super powerful genius master.

“Let's go! I am a great school! General Chang is my father! Do you dare to force me to kneel down to you?” I often sighed and sighed.

But the two former psionic masters can't move, how can he struggle and struggle?

“Forcing you to kneel down? Am I forcing you? I haven't moved, it's obviously voluntary.”

Shen Lang looked at them with a sly look. The presence of the few officers in the distance, of course, he was very clear, but it was not broken.

“Come! There is still no sincerity in the squatting. If you are willing, give me a gimmick and lick three heads!”

Ever since, I often read the power that I felt uncontrollable, pressed his body to bend, and directly slammed his head to the ground, and smashed three heavy heads on the floor!

Humiliation!

This is the strength of the psionic master!

But why is his two psionic masters useless?

“You see, you don’t want to say it, your body is very honest!” Shen Lang said to the two psionic masters: “Why don’t you swear?”

This time, I don’t need him to control. I know the two great psionic masters. I can’t help myself. I also smashed three heads.

At this moment they are very regretful, what to do!

Originally thought that the son of General Chang Jun was in the first place, there would be no problem. At most, it was just bullying the person. It was impossible for him to be tricked into a big hat.

I didn’t expect this to just come over, and I couldn’t show anything, but it was the biggest humiliation in my life.

“What is the consequence of offending the Master of Psychology?”

Shen Lang suddenly came to such a sentence, so that the three people who had been angry and regretted were all shocked.

In the city of the river basin, the Master of Psionics is superior. The reason why I often dare to provoke a few waves is because he knows the origin of Shen Lang, and it is faintly confirmed that it is not a person in the city of the river basin, so there is no fear.

On the other hand, he just thought that there are two psionic masters can always press Shenlang?

It is now useless, and Shen Lang himself admits to being the psionic master. It has made him a bit tricky.

“If you are willing, first make a few mouths yourself!”

Every word of Shen Lang seems to let them act voluntarily, but the three of them have no ability to control themselves at all. When they say this, they all raise one hand.

“Snapped!”

At the same time, the three slaps of the ring, the power is very big, directly hit the mouth of three people are bleeding.

“carry on.”

“Snapped!”

The hands of the three people continued to fan their faces, and the shots were very heavy, even if they were very reluctant, but the head could not be evaded, the palms could not be opened, and they could only slap their own.

Far from the side, they all played a ***** face, and the officer who spoke before did not dare to sit back.

He rushed out quickly, and then he bent over and walked over.

“Adult! They are more offensive, have voluntarily punished, and hope that you are a large number of adults, let them go! After all, these two are the psionic masters of the army, often Major is the son of the regular general.”

He is under pressure. If he does not want to kneel on the ground and fight his face, but if he does not ask for it, the consequences may be serious. If you come to Miss Bihai and General Chang's

"Let them go?" Shen Lang looked surprised: "Where does this start? This is their voluntary slap in the face. If I want to punish them, can I still keep their dogs? I will dump them directly." It is."

When they said this, the three of them slap on the face, the strength is bigger than before, and they directly patted themselves on the ground.

Chapter 683 - Deterrent general

The officer's back was cold and he didn't dare to say it, just standing around.

Shen Lang stood up and walked straight to the front of the regular reading, lifting his foot on his head.

"Do you have any cockroaches in your head? I didn't kill you last time, just don't want Miss Bihai to be embarrassed. What are you? You don't know that after you stunned you last time, you will pick up the maples that you have provoked. A meal?"

In the words of Shen Lang, I heard the officer next to the cold sweat.

General Feng Yue is the family of Bihai, and this time he is also responsible for the safety of Miss Bihai!

The two psionic masters are even more scared!

They originally thought that it was offended by the uncle, and now they know that there are still so many grudges, and this psionic master is not only extraordinary, but also the guest of Miss Bihai, even the generals of Feng Yue are not in the eye of!

"Take your father to scare me? What is that? Or, in that case, if you don't want Miss Bihai to be embarrassed, how about killing you?"

Shen Lang's words are very heavy. For Chang Yue, it was humiliated by being beaten three or four times. For Shen Lang, it was three or four times of unprovoked provocation. The death forest can be counted, last time and today, it is malicious.

Of course, he is also very clear. He is always pursuing Bihaihuan. He wants to engage him out of jealousy and worry, but from his point of view, it is innocent and innocent to be framed again and again.

Therefore, he is not exaggerating at all. If he is not afraid of Bihai, he will only stun him and kill him directly!

How about killing you? !

This is the disdain for General Chang Yi!

This made a few of the scenes, including the other two in the distance, were shivering.

Dare to say that killing a full-fledged general, even if it's just a matter of words, it's really a big deal, enough to use a malicious threat or even a deliberate murder.

Just when the scene was quiet, the wall next to the rest area suddenly flashed and opened a display.

“Great tone! Are you going to kill me?”

On the display, there was a solemn face, the top general in the senior officer's meeting.

When I checked Bihaihuan, Shen Lang noticed that he was the highest general of the base. Now he is open at this time, and he will understand it. Naturally, he is the usual general of the father.

With such a level of father, it is no wonder that this regular reading can be mixed with Bihaihuai brothers and sisters, and now it is already a minor.

As for why Chang Hao knows this, it is not difficult to understand.

When the officer came to plead, Shen Lang let them slap the last slap, and they did not control them again. They should immediately send a distress signal to his father.

Even if he is not wearing a sacred armor, the military uniform should have various functions, and like the display on the wall, other monitoring equipments are perfect.

Although Chang Hao is in an important meeting, the general information will not be taken care of, but the signal of his son's help is still taken seriously.

Through the black technology of thinking control, positioning the monitoring near the connection is just a matter of thought, so Shen Lang stepped on his head and read it.

In the capacity of his usual general, on his own site, he was said to be killing the whole family by an unknown person. Can you bear it?

This display is connected to the picture he is now in the conference room, and Shen Lang vaguely heard that Bi Haihuan explained to Chang Yi that there was a misunderstanding.

“If your dog son continues to provoke me again and again, how about killing him?”

“If you want to deal with me for your dog son, how about killing you?”

When the voices and pictures of General Chang's general appeared, the officer who was next to him was very regretted that he had just come out. Without knowing the cause and effect, the generals often think that he is the master of kinship!

Even if only the display appeared, even if he did not look straight up, that momentum has already made him sweaty, all in one breath, or else sitting down directly.

At this time, Shen Lang still said “how to kill him” and “how to kill you full door”, directly scared him down! Immediately fell on the ground, as if after a fierce battle.

In the conference room, I had encountered such a situation. The senior officers did not understand the specifics. The generals were furious, and Miss Bihai spoke again and did not dare to intervene.

However, the two words of Shen Lang directly detonated the entire conference room. Everyone thought that this was too arrogant, too big to reverse!

“War of the Soul!

Although General Chang Yi was very angry, he did not show too much on his face. At this time, he calmly ordered another order.

In the conference room, Bihaiuan, this is a headache, although she does not know the cause and effect, but according to the last situation, it is likely to be offensive to the teacher.

Therefore, her rumor explained that there was a misunderstanding. After the two arrogances of Shen Lang, she also heard it. I didn't know how to say it. This is not an affront to General Chang Yi, but a public anger.

But often the order still let her stand up quickly.

“Ordinary General! He is a psionic master I am familiar with, not a spy!”

The Battle Soul Team is not a regular formation in the army, but a special existence. It can be counted as a ace special team. In practical terms, the spirit team from the equipment to the tactics, to the ability of the soldiers, have a master for the psionics!

That is to say, in the great environment of the psionic masters, this is the military's counter-measure to the psionic masters.

As the last Shen Lang said, he alone cannot be stronger than the equipment of the entire base, but he can kill the warriors who control these weapons.

And the Battle Souls, they fight together, can kill and kill the genius master!

Because the psionic masters generally do not go to the battlefield, the usual sorcerer's team is known as a special combat team, and secretly is a counterbalance to the inner psionic masters.

Now I often see two psionic masters who have been together with the regular readings, and naturally understand that Shen Lang is the identity of the psionic master. – Only the psionic master, dare to talk to him so daringly.

So he directly ordered the Battle Souls to attack!

A general who ruled the war spirit team immediately ordered it through the light armor when he heard his order. When I heard Bi Haihuan's explanation, I couldn't help but blink.

However, in the face of Chang Hao, this order has already been issued, and I dare not take it back immediately. It can only pretend that I have not heard the explanation of Bi Haihuan, and I hope that Chang Hao will hold the pressure of Miss Bihai.

“Miss Bihai!”

Chang Hao manipulated the holographic picture on the scene to enlarge, so that everyone can clearly see it, and then ironically ask.

“As a person of unknown origin, sneak into the military camp and knock down the active junior officers. This is not a spy, is it a guest?”

Chapter 684 - War spirit team

“He is not an unknown source. He is my psionic teacher! It is not a sneak into the military camp. I asked General Feng Yue to come!”

Bi Haihuan's identity is special, and it is inconvenient to talk about personal relationships in this important meeting.

Now that Chang Hao has said this, she can't take care of it and open her mouth to protect her.

When this statement came out, let the commanding war spirit team even more entangled whether or not to withdraw the order.

Originally, the words of the smashing of the waves made the same generals, and calmed down a lot at the moment.

If it is the psionic teacher of Miss Bihai, it is not just a question of strength, can it be said that it is a confidant of the Bihai family?

If it is the confidant of the Bihai family, the speech will not ignore the consequences. Then, what do you say to General Chang Yi, is the insinuation of the Bihai family?

At their level, many problems will be complicated. The so-called “carrying one body and moving the whole body”, there are some minor problems that have not been noticed, and may be a big mistake.

So at this moment, I feel like I have to be more careful in the fog.

Only the general who has just ordered the Battle Soul team has the greatest pressure!

Suspension of the action of the Battle Soul team directly offends the generals; the master of the psionics may also offend the Bihai family...

The only thing that made him happy was that the general who had just said that he was “caught”, his orders were also captured, and there was room for manoeuvre.

“Even if you are a guest of Miss Bihai, so attacking active duty officers, shouldn’t you take it up and interrogate? Threatening to kill yourself, this should not be the meaning of Miss Bihai?”

Chang Hao has ordered that if Bi Haihuan is conscious, he should first bow his head and talk to him separately.

Now, in the face of the public, Shen Lang is guaranteed. In Chang Yi’s view, he is pressing the identity of the Bihai family.

The young man's **** side just wants to face, and the older one cares more about face dignity!

And like everyone else, he also began to wonder if this is the meaning of Bihai, so the dissatisfaction with Shenlang has extended to the Bihai family. If the elders of the Bihai family are here, he is inconvenient, but for a junior, it can also erupt directly.

This is very important when it comes out...

Even if Bihai is worried about the safety of Shen Lang, she must admit that the words of Shen Lang have been too much. She dare not and can't admit that this is what she meant, and then expand things.

"Of course not, Uncle Uncle, this is a misunderstanding... He doesn't know your identity, and he is also vocal. It should be that the regular brother angered him..."

She is a soft apology and can be heard in the ears of Chang Hao, but it is particularly uncomfortable.

"I was stunned by the usual reading of the blood on the ground, and angered you, the psionic teacher? Well! It must be his face, which stains your teacher's sole!"

This ironic words, make Bi Haihuan's face is also hot.

She felt that there must be some in the front, but when everyone saw it, it was already Shen's foot on the head of the regular reading, and it was also a rumor. At this time, she did not understand the situation and could not argue.

When Chang Hao ordered the Battle of the Soul, he had already closed his own picture and sound, but he still kept the scene.

However, this situation did not affect Shen Lang. When he saw his anger, he did not attack, but closed the picture. He immediately guessed that there was another situation, and the knowledge was immediately locked in the conference room.

So in this scene of their occurrence, Shen Lang completely fell into the eyes.

Sure enough, it is still difficult to make Bihai. Originally, he only wanted to warn him about reading it. He didn't expect to call for a live broadcast.

From the look of Bi Haihuan, you can also guess that this battle spirit team is not ordinary.

When the constant pressure of Bihaihuan could not be refuted, Shenlang's knowledge spread and immediately felt that a team of people was coming quickly!

This team in the base, immediately after receiving the order, is fully equipped, and then operates the holy armor, flying directly to this side.

Their manipulation of the sacred armor is much more familiar than that of Shen Lang. They are faster than the eagle, and they surpass the bat quickly. The base is originally very atmospheric, not a narrow space, so the time they come is also Calculated in seconds.

The combat response ability of the Battle Soul Team is also first-class. After receiving the order, it will not hesitate and think, and it will be executed directly. So after discussing a few words in their conference room, they have already flown one after another.

Looking at the black sacred armor that flew over, the warrior team members who had covered their faces, and the officer who had just scared the legs, feared being accidentally injured, immediately ran to the edge.

The two psionic masters are the same, reacting, and rushing to run, leaving the usual readings that have been stepped on.

“Let the hostages go!

The leader of the Battle Soul team gave a cold drink, and there were nine members of the Battle Soul who came over, quickly dispersed, and occupied in every corner of this rest area.

The former officer and two psionic masters quickly ran to the distant corridor.

In addition to being equipped with the holy armor, they also have different gun weapons in their hands, aiming at the sinking waves together.

“Ha ha ha...!”

The usual reading on the ground sent out a laughter Continue to arrogant! This is the Battle Soul Team. All the equipment is specially optimized for the Psionic Master. You will not be a strange surrender, and immediately make you a dead dog! ”

He stepped on the ground like a dead dog, and his face had already been swept away.

But I have already sent a signal to the father to call for help. Now the Soul Ghost team has come over and let his confidence come back. If there is a war spirit team, how about a psionic master? Can't escape!

And his face has been lost anyway, and the only idea now is to see Shen Lang being arrested, and then swearing revenge and shame!

Shen Lang stepped on the foot of his head and moved a little. He adjusted his angle directly, and let his face close to the ground, and turned into a positive face on the ground. He had already had a **** mouth and couldn't speak.

“stop!”

When the leader of the Battle Soul Team was screaming, the hand had already been lifted up, and as long as it was swept, it was the command of everyone to attack together!

At this time, he received further instructions from the general, so that he could not use force as much as possible.

“I will order you once again, let go of the hostages, and let your hands go!”

The other members of the war spirits were slightly surprised. They were all ready to attack, but they did not expect to call again.

“Command me?”

Shen Lang looked at the leader of the war spirit team. When he smiled slightly, the usual reading on the ground broke a thumb and then jumped up from the ground and flew to the front of the leader.

“Let’s relax!” Chang Hao’s angry face appeared again on the wall display.

He didn’t expect Shen Lang to be under the siege of the War Soul Team. He didn’t want to take it with his hands and even dared to commit a crime!

Chapter 685 - Dumbfounded

Genius one second to remember the address of this station: (Vertex Chinese), the fastest update! No ads! “War of the Soul! What are you waiting for!”

I often sighed with a sigh.

At this time, another finger flew up and floated directly into the air.

“what-!”

The screams of regular readings only sounded at this time.

Just because it was too fast, the thumb flew out, he did not realize it, and now he just called out, immediately felt the pain of the second finger break, so that his scream could not stop.

Watching his son step on the ground, now it is broken by a finger and a finger.

Chang Hao directly took out a cup of tea in front of him.

According to his character, he wants to directly urge the war spirit team to attack!

However, the two consecutive fingers have made him have to calm down, and the other party is also a sly character. If the battle spirit team really attacks, it is likely to kill the regular reading first!

Chang Hao once again cut off the picture of the conference room, and then the whole person opened the holy armor and rushed over here.

Originally, if it was not a special emergency, the generals would not use the sacred armor, and the rush of the momentum and image.

But now, Chang Hao has already flown out, and other generals are also catching up. Today, this has already made them invisible.

Needless to say, Bihaihuan is rushing over.

“This adult, don’t force us to kill you! You are a psionic master, you should know the hidden mission of the Battle Soul!”

The leader of the Battle Soul team said coldly.

Although the order he received was oysters, the supplementary order allowed him to understand Wu and try not to use force.

But just before the other party was in front of everyone, the **** of the hostage were continuously broken and flew up in the air. This is a serious provocation against the soul team!

Others fear the psionic masters, but they are not afraid.

“Listen to what you mean, do you want to be the first war spirit team to be destroyed?”

Shen Lang has limited understanding of the War Soul Team, but combined with the reactions of all parties, he can basically guess this special warfare team, and it has the meaning of the psionic master. There are not many opportunities for natural shots, and there will be no annihilation. .

Nine different guns with different firepower were originally aimed at different parts of the Shenlang in different directions. If they were shot together, even if he could escape a few, he would be killed by other guns.

At this moment, all the members of the war spirits were irritated. Under the premise that they could not shoot directly, they all opened the laser pointer. Nine red spots were aimed at Shen Lang.

Chang Hao rushed over and did not give up the attention here. At this moment, he was the first to arrive.

“Dare to threaten the psionic master of the soul team, you are the first one! Take him down!” Chang Yi arrived and immediately shouted.

I have to say that he is still very imposing. Let everyone on the scene feel his power. The soul team was originally entangled in the order. Now the highest general, General Chang, has opened up, and they have the same instructions.

But they also understood this time, the hostage being stepped on the ground, just broken two fingers, is the son of General Chang Yong!

So even if the order is down, the leader of the war spirit team has to weigh it again.

From a certain point of view, this should be the general tactics of General Chang, it is impossible to really care about his son's life and death!

If the regular majors are dead, even if they finally seized the psionic master, will the generals praise them? Still do not hate to die!

However, he has threatened the threat, and the other party can step on the son of General Toshiba. It is simply a desperate person who is not afraid of death.

At this moment, he can only drag, and one second can be dragged for one second.

Fortunately, their immediate superiors also arrived!

“After the words, you should let the colonel go first!”

The general was almost the second one, and the War Spirit team was in charge of him. If any of the two sides had an accident, he would be implicated. So not only are you desperate to come over, but you will play round when you arrive.

Bi Haihuan was the third to arrive, and smiled bitterly: “Teacher, no matter what misunderstanding, let’s put the regular reading brother!”

Then the generals rushed over one by one, but they were all watching and not talking.

The atmosphere at the scene made the two officers who were on the sidelines of the corridors scared a little too far. It was a battle with the enemy, and there were not so many generals coming directly to the front.

For Bi Haihuan and the general, it is for the person to put the usual reading first, so that Chang Hao feels a little better. But now, in front of more people, and directly facing it, he has not been smashed, of course, will not be soft.

Directly put another slogan: “If our active duty officer has one less hair, the Battle Soul team will turn you into ashes on the spot!”

“Is that right?”

Shen Lang smiled slightly and pointed to the usual readings at the feet. Everyone looked at the past, and immediately saw the hair that was often read and fired up automatically, and it burned!

I had just resisted the pain of the broken fingers. I felt that my father had arrived. I also wanted to make a slap in the face, and I heard the voice of Bi Haihuan, and I was ashamed to speak.

Suddenly, the fire broke out on the top of his head, and then he screamed again. He wanted to jump up and run, but he couldn’t move.

“You, you...” often sighed with anger.

He didn't dare to say anything to Shen Lang he could only transfer the pressure to the soul team: “You are all dead!”

“shot!”

The leader of the Battle Soul team immediately ordered all the players to shoot together.

Their equipment is for the psionic masters, and the sacred armor can be adjusted at any time. At the time of the oyster order, the bullets that can kill and not die are already adjusted.

At this moment, when the culprit repeatedly pressed, he had to shoot and save people, and he hoped to mess up the situation.

“Don't shoot!” Bihai was shocked and yelled.

But I found that the order was too late, and she gritted her teeth and went straight to the waves.

In her capacity, if I rushed to the side of Shen Lang, let alone the Battle Soul Team, it was General Chang's personally holding a gun, and it was not convenient to shoot at her.

But she just took out a couple of meters, and she felt that her body was solidified. When she paused, she could not move forward. She could only watch the bullets fall to the waves!

Bihai Huanmei is about to split, she doesn't know who is being pulled, how can it be like this, but even if she let her rush again, it is too late!

But soon, she saw a scene of joy!

Around the Shenlang, there seems to be an invisible wall. No matter which angle, what kind of gun bullets can't get close to his body.

The members of the Battle Soul team, dumbfounded!

They are all designed for the psionic masters, whether it is defense or weapons or tactics, but now the bullets are not close enough, which is beyond their understanding.

In fact, it is not their method that doesn't work. They are equipped with the holy armor and the people are well-coordinated. Just like the two psionic masters who have returned to the Yuanjing level, they really can't escape.

It is a pity that the current encounter is Shen Lang, than the general psionic master, I don't know where to go!

Chapter 686 - head shot

Genius one second to remember the address of this station: (Vertex Chinese), the fastest update! No ads! And in the next moment, the guns in the hands of the nine battle spirits were all rolled out strong, and they were shocked by the Holy Grail When the other guns were extended, the nine guns had already pointed to the generals!

At this moment, Bi Haihuan naturally knows that it is Shen Lang who just stopped her from coming forward.

The performance of Shen Lang also made her feel relieved. If she went forward, it might not help him, but let him tie his hands.

But this gun is aimed at Chang Hao, and it makes her very embarrassed.

The whole process is very fast, the hair that is often read below is still burning, just burned to the scalp, and the attack of the Battle Soul team is over.

At this time, his screams are even worse, because with the tingling of burning to the scalp, it is not only hurt, but also psychological fear!

The scalp is connected to the face. If it burns into a bald head, it will burn your face. Although medical treatment can be cured, it is absolutely unacceptable for him to drop such an ugly impression in the face of Bihaihuan.

I often struggled with hard work, and then I found that my hands were moving. I immediately smacked my head and smashed the fire above.

Watching his son being trampled, he often angered in the chest.

“Come! Shoot at me!”

Chang Hao immediately stepped forward, and several other generals quickly rushed to pull him.

But they dare not act rashly. This is not just the nine guns hanging in the air, but also from the hands of the war spirit team dedicated to the psionic masters!

Just the first hand exposed by Shen Lang, let them believe that the shot must be controlled by the air.

“Master of psionics, there is something to say, there is something wrong, we can solve it. I heard that you are the teacher of Miss Bihai, Miss Bihai is here, you don’t believe us, can you still believe in Miss Bihai?”

The superior general of the Battle Soul team tried to make his tone a little better, and then waved his hand to indicate that the Holy Spirit had taken out the fire fighting spirit team and collected all the weapons to show their sincerity.

“Shooting!”

Chang Hao opened other people and took a step forward. He roared: “What do you count? When I used to fight for the city, I didn’t even have a birth! Even today, even if it is When I am at the Bihai home, I have to ask for a fair!”

Everything is said in this way.

Although in the conference room, they guessed whether this would be the meaning of the Bihai family. If the Bihai family knocked on the mountains, they would not dare to talk about it, otherwise they would only get burned.

But everyone pretended not to think of this layer, and now often said this, it is clearly to the Bihai family.

Also, the Master of Psionics is more powerful, but it is only an individual. It can be such an attitude to the generals who have mastered the military power. Only the Bihai family may be.

However, the atmosphere is tense and nervous. Everyone is not worried that Shen Lang will really shoot.

After all, this is General Chang Yi. In this line of military work, it is extremely deep, and it belongs to the Bihai family. It is also the key to the courtesy of the three parties. It is that you want to change the Changyi, and it may not be easy.

This is obviously only to let a psionic master play the role of Shantou Qing, a beat to General Chang Yi, and now this attitude is already the ultimate.

“Put people out!”

Chang Hao looked at Shen Lang and did not say anything. He felt that he had already been stunned and immediately screamed.

He is now full of momentum, but in fact, he is still a rodent, and only after his son is asked to return, can he kill the battle spirit team!

As a result, he does not think that it is a battle spirit team. There is a difference between picking and killing. For the psionic master, it is necessary to get a hand to get the effect.

Just like what he just said, although it hasn't torn the face with Bihai, it is also ready to be placed on the countertop, so even if it is the master of the psionic master of Bihai, it will kill!

The Bihai family wants to knock him on the mountain and he will fight back to show his strong attitude!

“I count three times, you don’t let people go, I will destroy you nine people... three!”
Chang Hao continued to press, not giving the other party time to slow down.

“boom!”

Shen Lang did not say anything nonsense, control the nine guns at the same time shot!

In order to be effective, the War Spirit team is a different type of gun, also for different parts and scope. Now, with nine shots, all of them are concentrated in the head of Chang Hao!

Chang Hao is in a high position, and he is equipped with a high-grade sacred armor. If he is completely defensive in the face like the War Soul Team, even if he has nine shots, he can’t hurt him.

However, he and other generals thought the same thing, and this was the beat of the Bihai family, and he did not dare to start with him. Otherwise, this line of military and the entire base will become chaotic.

So when I just screamed at the waves, of course, I didn’t have a safety helmet, so I’m so imposing.

The result was that when he thought that the other party was being shackled, he shot directly!

The scene sounded amazed...

In the sound of gunshots and exclamations, the head of General Chang’s general was directly smashed into pieces by nine shots!

Immediately after the muzzle turned around, after everyone had not reacted, the nine shots continued, and the regular reading on the ground was also smashed...

The war spirit team that had just been ordered to put up the gun The instinct was equipped with the strongest force, and all became highly alert.

However, at this time, they did not dare to shoot at random. The generals were already finished, and now they are waiting for their superiors to command.

Shen Lang's decisive strength made the other generals completely shocked.

They all have the same thought in their hearts: the blue sea family has no sign of trouble, it should be dissatisfied with the generals of General Chang Yi, this psionic master is so determined, there must be a strong command!

Does the Bihai family do things, will leave loopholes? It is bound to be an all-round attack. Perhaps other aspects are ready, just wait for a command.

At this time, they can't have any hesitation. They must resolutely break the connection with the common, support the decision of the Bihai family, or else they will end...

"The War Soul Team listens!" The general's decisive opening.

"Meng General!" Bihai screamed with joy, fearing that he was going to order the soul team to open fire to Shen Lang.

"Miss please rest assured!" The General Meng immediately said with respect and respect, and then quickly ordered the Battle Soul team on the spot, let them immediately control the officers in the base who are in charge of the key departments.

Those who are often confidant, he is in line with the confession of the common shackles, to loyal to the Bihai family!

"French often colludes with the enemy, has been killed! Yu Yu immediately cleaned up. Also please Miss Wang to lead the army and lead us to continue fighting!"

The other generals also reacted. Someone immediately took the Changyi's soldier's tokens and offered them to Bihai. She was asked to replace Chang's army in charge of the entire base.

“Please Miss Huan lead us to continue fighting!”

Others followed suit, fearing that the attitude was slow and that the psionic master was a devotee to the city!

Chapter 687 - Old

Bi Haihuan is shocked!

It was just ordered by General Meng to fight the Soul Team, letting her think that she would attack the Shen Lang and instinctively interrupted, but in fact, everyone went to her to ask for her life, or the state of embarrassment.

General Chang Yi is the highest general of the base, and the highest general who masters the real power of this line. He is actually being smashed into pieces!

There are also regular readings, I have known since I was a child, and I have been smashed by the same teacher who has been a teacher.

In the base of the Luyu Mountain Range, the real power of the seat is a constant confidant. Most of the generals who just attended the meeting were dispatched because of this war.

Therefore, like Bi Haihuan, they are valued and respected and can attend the highest core meeting, but whether it is information or tactical arrangements, or specific combat execution, they are still in the hands of Chang Hao.

However, everyone has a tacit understanding, and knows that this is not a big battle with the overall situation, and no one is vying for merit. It is a witness, or a point to protect the children of the Bihai family.

But now the situation has changed dramatically. Of course, these old military leaders are more likely to think than the blue sea.

Regardless of how the blue sea is reacting, they are holding them up. But to eliminate the work of “Yu Yu”, you can’t count on Missy. In this base without control, it can only be controlled by the very means, the fastest speed, to control the situation!

However, there are two points to be thankful for.

One is just to avoid the son’s experience so that more people know, often knowing, immediately cut off the rest area with the highest authority, except that they can see the meeting room, others can not see.

Otherwise, it is certain that other cronies have seen Chang Hao being headshot.

The other one is to kill the psionic master, and directly transfer the soul team with the highest authority. Otherwise, it is the general who is in charge of the transfer, and also needs to give instructions.

Now is the time for them to hurry up. After letting Bi Haihuan take over, they are busy all the time. It is a very serious task to clear the power of Chang Hao in the time of minutes.

It is also a loss for a group of generals to jointly command the horses, and other low-level officers will be scared to do anything, and the ability can not be completed.

The three officers and two psionic masters, as well as the generals took them away.

The rest of the scene is Bihaihuan and two bodies.

Bi Haihuan has not recovered from the shock, and the soldier in her hand is actually not only a representative token, but also the key to the highest authority.

Shen Lang stepped to her side and directly poured a bit of energy into her.

Bi Haihuan immediately calmed down and calmed down.

“I was not very good when I was talking on the phone. I wanted to come over and help you solve the trouble. I didn’t expect to add a big trouble to you.” Shen Lang spit a sigh of relief, he really did not think.

Bihai smiled and said: “Teacher, I know that this does not blame you. The last time I read my brother, I have already offended. This time it must be that he is offended.”

The last time I used to read offensively, when Shen Lang was dealing with him, Bihai woke up and did not dare to speak. Afterwards, he also said that it was inconvenient to ask for sympathy for him. He could only pretend that he did not wake up.

It can also be seen that even if he is called a brother, or is often at her side, more often it is read up, she does not have any feelings for him.

To be really the person she likes, Shen Lang is not so good to start, so I will bear more, or change one way.

“Speak in another place, it affects the mood.”

“Yeah.” Bihai nodded and thought for a moment, “Go to the conference room!”

Originally as her personal friend, she took her dormitory, or just in the rest area, restaurant and the like.

But now it is different. There are big things happening. Whether she wants or not, as the most important member of the Bihai family in this army, she must bear this position. She must also go to the meeting to wait for the information to be summarized.

When two people were going to the conference room, they met Feng Yuegu who had rushed in.

Feng Yuegu did not attend the meeting, because the power here is in the hands of Chang Hao, he is a Bihai family confidant, simply take the initiative to avoid suspects, but is responsible for the safety of Bihaihuan.

Just picking up the waves and delaying the time, let him first understand the situation, I did not expect such a big thing happened here.

“Miss, General Meng told me! I will report to the family, and now I will help them to stabilize the situation!”

Fengyuegu did not have so many guests, and quickly gave a bliss to the blue sea, and then stunned Shen Lang: “Adult, Miss’s safety, please!”

When he cleaned up the Changyu Yu Party, he first wanted to guard the side of Bihaihuan. It is very likely that there will be loyal and close friends who will kill the Bihai family, especially Bihaihuan.

However, even if other generals have a total mind, they are still not as credible as their own, so it is also very important to participate in the elimination.

Fortunately, there are sinking waves, although Feng Yuegu did not see the scene just now, but before training base, he personally learned the secret of Shen Lang.

As long as it is not the intensive bombardment of long-range missiles, no matter how many people are often assassinated, the young lady will not have anything to do.

Coming to the conference room, two of them, Bi Haihuan also put down the pressure in front of him, and Shen Lang talked about the situation afterwards.

In recent years, she has actually made great progress. In terms of cultivation, it is probably supported by many resources of the family. From the beginning of the return to the Yuan Dynasty, it has been cultivated to the late Yuanyuan.

Compared with the speed of the rain and Zheng Yumeng, it is nothing, but it is an amazing achievement in the city.

Just like the two “psychology masters ” who have just read the reliance, it is only the return to the Yuanjing. The War Spirit team can deal with it, and it is basically the same.

Originally, as a child of the Bihai family, she was a woman, and she also received training from various aspects. When you are a little older, you will be better at each other and decide to focus on the direction.

Bi Haihuan is interested in adventures, battles, etc., so he accepts combat training in armor and battleships. Also, because I studied Shen Lang's cultivation method last year, she has performed very well in all aspects of manipulation and has received the attention of the family.

This has the last training camp at the training base, and the last Shen Lang directly promoted her to become a "smart master", which made her perform well and also made the Bihai family pay more attention to it. Child.

In the war of the Luyu Mountain Range, she was scheduled to come to the actual training of the Bihai family, and there were other children of the in-laws.

The real power of this line of military is in the hands of Chang Hao, but Chang Hao does not limit the blue sea Huan, on the one hand, it is only a small girl in the district, which does not affect his real power. On the other hand, his son often pursues Bihaihuan. He also wants to strengthen the relationship with the Bihai family through marriage.

Chapter 688 - Beautiful work

Bi Haihuan did not have that mind for the regular reading. Of course, for the military, he did not think about taking power. With her qualifications, it is far from enough, and it is also a time to study hard.

So this time, she has a high-level meeting and is studying hard. In the battle, it is also rushing in the first line.

When Shen Lang contacted her, the driving armor was fighting, and suddenly the incoming call screen almost made her accident. Because of the war, he hesitated to refuse to visit.

As a result, Shen Lang insisted on coming. She couldn't walk away. She could only shoot the confidant Feng Yuegu to pick up the waves.

The unhappiness of Fengyuegu is that he is afraid that when he leaves, Bihai will have an accident.

But they did not think that there was no accident when Shen Lang did not arrive, but instead came directly to make a big deal.

What is common now is already a foregone conclusion. What everyone has to do is to hurry.

With the old story, let Bihaihua slowly calm down. After all, she is the child of the super-gate valve, and the quality of all aspects is not weak.

“Right, does the teacher need energy spar? I have prepared some fine-quality spar for you this year.”

Bihai Huan put down the pressure and said something happy.

Her sacred armor also has a certain degree of space to fold the storage function. At this moment, it is not necessary to go back to the dormitory and take it out directly.

“I don’t know when I can see the teacher. I collect it and carry it with me.”

When Shen Lang saw it, it was a fine stone, and there were hundreds!

“Thank you for remembering.”

Shen Lang was a bit embarrassed. When he was in the forest of death, he was struggling to find a medium-spirited stone. He had been looking for a year and a half before meeting her.

Now he already has a lot of Lingshi, and he is so happy with Bihaihuan.

“Right, the metal I gave you last time, let you make jewelry, have you made it?”

Shen Lang is talking about gold, because the watershed city-state is relatively rare, and Bi Haihuan gave her a little bit of her collection last time.

At that time, Shen Lang got a lot of gold bars from the Chu family and sent her directly.

“No... I have been training constantly this year, and I don't have time to wear jewelry.”
Bihaiuan is a bit shy.

“Whether you have time to wear it. You remember my needs, I remember yours...”

This time, Shen Lang took out one or two hundred pounds of gold directly.

“So many!” Bihai has a big eyes, how many jewelry can this create?

“It's all for you.”

“Teacher...” Bihai's eyes are a bit moist. “Are you giving me a special offer? This is too valuable, and your mind is bigger!”

As a relative of the Bihai family, she certainly has nothing to lose. Even if it is rare, gold jewelry is rare, and it is not touched by a lot of gold.

What touched her is the intention of Shen Lang!

When she first saw what Shen Lang was like, she couldn't forget it. It was a wild man. It can be seen that “teachers are not well mixed”, and everyone is separated by two worlds. The teacher can use it for nearly a year, collecting so many precious metals for her, and still willing to send to the front line!

“Oh, knowing that it is your mind to accept it, it doesn't matter what you value. You can give it to the family and give gifts, but leave some to build your own jewelry.”

“Well! I remember.”

After all, Bi Haihuan was a girl. Shen Lang sent her to the highest commander in the army. She was not excited. The gold gift of this two hundred pounds made her feel moved.

This is still not prepared for Shen Lang, or else directly buy gold jewelry designed and made, the effect should be better than a pile of gold bars.

In the process of their recollection, the news has been continuously summarized.

Under the attack of the generals of the commanding forces, the confidants of the regular generals were taken down. Fengyuegu is one of the next children and cronies who arranged the Bihai family to take over these important positions.

I have not waited until the military has changed. I have been operating for 20 years and have become completely in control of the Bihai family.

It can be so vigorous and vigorous, on the one hand, because of the shots before Shen Lang, directly slashing the banner of Chang Hao, even if there are many cronies, it is also the leader of the dragon, and the information asymmetry is passive.

On the other hand, it is the confidant of the Bihai family, represented by Fengyuegu, and there are many, and the means are not bad. However, there is no such opportunity before, and the family does not have this order. Who is not willing to take over the real power?

There are also the help of other generals. Although they belong to the jurisdiction of the Bihai family, they also have their own sites, or they hold important positions in the Changjun army.

I just saw that Chang Hao was headshot by Shen Lang, and it was almost a loyalty to rush to the table. It was not a Thunder method, and it would not take the opportunity to seize power or insert cronies and hand over the confidants of Bihai.

When the overall situation was stable, Bi Haihuan also received a more important newsletter.

This made her not only understand the situation, but must be carefully connected, but still carefully talked to Shen Lang, this is her father's sea.

Then she was in front of the waves, and connected the call of the sea in the conference room, presenting the holographic picture in front of her.

“Hello, where are you now?”

Bihai Chengtian asked very cautiously.

Bihaihuan enhanced the picture to the entire conference room, confirming that there are no other people inside, and now the highest authority is in her, and no one can connect the pictures here.

There is only one other person – Shen Lang.

“Father, General Feng Yue should report the situation here to you. I am in the base conference room, waiting for them to deal with. This is my teacher – Shen Lang adults.”

Bi Haihuan kept a serious report to the father, and also briefed Shen Lang on the brief.

From her words, Shen Lang already knows that she has already reported his existence to the family. After all, that is the person who can turn her directly into the psionic master, and she has been let her in the past year. I received more attention than ever before.

The holographic image of the sea and the sky immediately turned to the direction of Shen Lang, and took a serious bow.

“Shen Daren’s long-awaited, thank you for your care of the little girl!”

“You are very polite.” Shen Lang arched his hand, it was a return.

He is also a bit surprised. Bihai is naturally not the head of the family of the Bihai family. However, from the perspective of Bihaihuan, a girl can be so valued. He is not the eldest son, but also the core figure in real power.

Even Bihaihuan can let the generals respect, let alone the sea!

Such a character can actually solemnly salute the young people who are “unknown” from Shen Lang. If the attitude is not normal, the city is extremely deep!

“Good job!”

When Bihai Chengtian saw her daughter, she wanted to like it, but first of all, she had to understand the environment. Now I can only confirm that there are only two of them. I can't help but praise it.

Chapter 689 - Picking peaches?

“This time I got the help of Shen Daren, the Bihai family is very grateful, there must be a thick report!”

Bihai Chengtian also knows that this is not what the daughter can do. It is entirely the master of this psionic master.

A strange man who dares to kill the highest general in the military camp base is not a madman or a superman, not just “dare”, but he can do it, it must be Superman.

Before that, I felt that Bihaihuan met a noble person. Now I feel that I am a noble person in the Bihai family. Of course, I can't offend myself, and I can't push it to others.

“General Bihai is very polite.”

Shen Lang has already done it. At this point, he explained that he is not a Bihai family. He is purely just because of the offensive and perpetual persecution that he often reads. I am afraid that no one will believe it, but it will appear to be emotional, so I have not said much.

Bihai thanked a few words, and invited Shen Lang to visit the Bihai family.

Shen Lang perfunctory a few words.

Of course, the time is precious, and there is no more confession. It reveals a confidence to Bihaihuan. After receiving the report from Fengyuegu, she has arranged for her brother Bihai to chase her to help her stabilize her army, so as not to cause chaos. The Luoyu Mountain Range is missing.

This is in the ear of Shen Lang, it is a secret sneer!

Even if he first came to see it, he didn't know much about the situation of the city-state. It can also grasp a rough estimate through the changes in this battle.

Obviously, Chang Yi is even led by the Bihai family, but now he has grown up, and he is in this position. Even if it is far from being able to compete with the Bihai family, or if there is no separation, it is not something that the Bihai family can master.

Chang Hao wants to marry, both to ease the heart with the Bihai family, but also to take the opportunity to improve the reciprocal relationship, from the sect of the sect to the family of the Bihai family.

But the Bihai family is unacceptable!

It's just that it's often too big to be replaced. And this line of military is built firmly, even if it is inserted, people can't get it. The battlefield of this local war will be in the Luyu Mountain Range, which may not be a coincidence!

In addition to the tempering of Bihaihuan and others, Bihai's family may not have the mentality to put in the hands of the war.

However, these can only be conspiracy, often seen, and will certainly be circumvented. Today is not the same, Shen Lang, who did not follow the rules, broke the balance, directly killing Chang Hao and smashing the water.

Originally, Shen Lang was the teacher of Bi Haihuan. Here, Bi Haihuan is also the most respected relative of his parents, so he is naturally superior.

After the sea was known, the first time was to arrange for his son to come over!

Is this not obvious? Bihai chasing is to pick peaches!

Even if the Bihai family has attached great importance to the blue sea, it is still more important to the son.

Bihai chasing here, although it is to assist Bihaihuan, he can be assisted, he will become the protagonist, Bihai will become secondary, and then edge.

“Teacher, are you a little unhappy? Is it dissatisfied with your father’s attitude towards you?” Bi Haihuan asked carefully after the end of the call.

Shen Lang gave a slight glimpse, but she did not expect that she was aware of it.

“If you are not happy, you can’t count it, and it’s not because you respect the attitude of me, but because of his attitude towards you!” Shen Lang said bluntly.

“Father’s attitude towards me?” Bihai stunned for a moment, a little bit puzzled: “Father rarely praises people so directly, I have excellent training results, and I am just saying that it is okay...”

“I am not talking about this, but he is arranging your brother to come over. Can you still feel it?”

Bi Haihuan was trained in all aspects, but she did not have much suspicion of her biological father. She was cleared by the onlookers and she immediately became awake.

“Today’s situation is caused by the teacher. The teacher wants to fulfill me. Huaner is very grateful.” Bi Haihuan expressed sincere gratitude.

“But you also saw that my age and seniority are still unable to sustain them. Now it is because the teacher is there. So I can’t blame my father. If my brother doesn’t come, I can only hold it for a while, and I can’t rely on killing. Not to let the teacher keep busy.”

Bi Haihuan’s explanation makes Shen Lang relieved.

I think it makes sense. She is a big lady of the Bihai family, but after a young age, this time it was the first actual combat. No matter whether it is military strength or qualifications, it is impossible to serve the public.

Maple Moon is not the same, it is a Bihai family confidant. If it wasn't for him that he had just done a strong job of the shock of Chang Hao, like General Meng, it would naturally be the sleek practice of the old fritters.

Bihai Chengtian let the blue sea chase, although it is picking peaches, it should also have the strength and qualification of picking peaches. What was missing before is the opportunity.

“It makes sense. I just know you and care about you. I naturally hope that all the benefits are you. In your father's and your family's position, you must be stable. But with today's pen, you will become a family. One more.”

Hearing Shen Lang said that he only cares about her, and Bihai smiled with a happy smile.

“Thank you teacher! You will definitely work hard and don't lose your face.”

At this point, they don't have much time to chat. It's not just the progress of the information, but a lot of need to ask for the blue sea.

Among them, the call from Fengyuegu came to ask, saying that the situation had been controlled, but it needed a reason to be able to serve the public to open up the problem. Otherwise, it can control the department, and the middle and lower levels and the majority of the grassroots are still unable to control.

Of course, this cannot be said to be the relationship between Shen Lang. The meaning of their discussion is that they can only make a fuss about Bi Haihuan. It is said that she often wants to go wrong, and she is killed by her hands; often, when she is angry, she will kill her revenge. Fortunately, Bihaihuan is a master of psionics, and she has killed her in order to protect herself.

Of course, Feng Yue Gu is not only asking for Bi Hai Huan, but also asking for Shen Lang. His strength gives him absolute right to speak.

Shen Lang feels that this rhetoric is feasible Chang Wei's prestige is extremely high, and he has been leading this military field for many years. He wants to say that he colludes

with the enemy and so on. Everyone will not believe it, and he will feel the whole army. The entire base of the domain has been stigmatized.

However, if it is because of the frequent reading of the blue sea, she was killed and killed, causing the violent anger to get out of control, and then be beaten by the blue sea. It is more in line with the psychology of ordinary people. It is easier for everyone to accept the lace news, and this will not make people feel that it affects the reputation of the entire military base.

The system of the river basin is different, but to be analogous, the Bihai family is not the king of the emperor, but also the king of the king. Bi Haihuan, on the ground floor, is almost the same identity as the Princess County.

And she is beautiful, and recently she is fighting with everyone. There is no prestige in the army, but there must be a lot of admirers. Regular reading is often followed by her, who will believe this.

But Bi Haihuan is resisting!

Chapter 690 - Authority comes from strength

This is the insistence of Bihaihuan, which makes Fengyuegu a little helpless, and can only look for help from the eyes.

Shen Lang is also hard to say anything, this time and the last incident, are often read and picked up.

The last time was in the site of Fengyuegu, and the first time I stunned the regular reading, Shenlang also quickly left, there is no following.

This time it was on the site of Changyi, and it was quickly revived after reading it. Only then did the genius master come to the scene to follow.

But this is a problem with Shen Lang and regular reading. The regular reading itself is only the pursuit of Bi Hai Huan. It is always to please her. She has not made things that make her unhappy. She does not want to deduct a stigma for regular reading. It is also worth understanding and respected.

Seeing that Shen Lang does not persuade, Feng Yuegu has no choice but to let them discuss it again and then complete the call.

“Teacher, do you think you should do this?” Bi Haihuan looked at Shen Lang a little confused.

She just noticed the reaction of Shen Lang and saw that he agreed.

Shen Lang smiled and said: “You have your principles and positions. Even the dead are not willing to hurt. I am admired and gratified.”

“But it must also be acknowledged that a big family born in you, who is a core child, must face the intrigue, for the benefit of the family, or even use whatever means. You can still keep the innocence is good, maybe your father is also because Know you, so take your brother to help.”

Bihai bites her lip bite and silences for a while before she sighs.

“Actually, I am often annoyed to read my brother. Although he is very good to me, he is too enthusiastic to pass. But when he is dead, I am still a little sad...”

“Of course!” She explained it quickly: “I am not blaming the teacher. He was punished when he fired at you last time. Once I learned a lesson, I said him afterwards, but still, I can’t blame you. “”

Shen Lang nodded slightly.

Regardless of whether it is a pursuit of interest or a spare tire with insufficient charm, it is a friend who has been familiar with Bihai for many years. It is cold-blooded when it is killed without any feeling.

Or because it is him, it is replaced by other people who don’t know, even if it is a psionic master, she will always read it.

At this time, Bi Haihuan’s face changed.

Then she quickly transferred the screen, and the generals of politics, housekeeping, operations, logistics and other multi-sectors jointly issued an in-house announcement. The content is just the suggestion that Feng Yuegu discussed with them.

“They are too much! Just when I am a beggar!” The highest authority key of the soldier is still here, she directly wants to use the permission to delete, and has issued a new announcement.

Shen Lang shook his head: “Maple Moon is not going to be, other people are afraid, I guess... this is your brother’s consent.”

The angry blue sea stunned for a moment.

Sure enough, I immediately received a sin message from Fengyuegu, saying that it was a matter of great importance. He did not dare to delay and did not dare to violate the wishes of the lady. Therefore, the Bihai chasing son who was coming to assist was asked for permission.

However, the request for this crossing was very rude to Bi Haihuan, so he felt that she had no face to see her and sent a message to ask her to sin.

Bihaihuan was discouraged...

Just now, Feng Yuegu reported to her father, and naturally knew the information that Bihai was going to be sent. Now this time, the request of the Yueyue is also for the sake of the interests of the Bihai family and for the stability of the military.

But as the one that was crossed, Bihaihua was inevitably very uncomfortable.

The problem now is that Shen Lang also agrees with their approach, otherwise they are really rude, he can still control the situation.

As for the fact that they are not worried about the tidal wave, it is because the father and son are often killed by Shen Lang.

“If you want to have absolute authority, you have to have absolute power!”

Shen Lang’s serious words made Bi Haihuan look a little confused.

“In your family, the generals and the eyes of Feng Yuegu, your authority is higher than you. So his opinions will be executed. Just let you lead because you are not Before my brother, here you are the most respected of the Bihai family, and of course because of my relationship.”

This is actually not very good, which is equivalent to the positive denial of the ability of Bihaihuan.

However, Bihaihuan also has self-knowledge, and has not thought of accommodating all the generals with their own strength.

“I am a nameless pawn, an irrelevant outsider, why come so influential? Strength!”

Shen Lang stared at her: “If you want to have a greater voice in the future, and let more people listen to your authority, you must have the strength to let them fear! Because qualifications and military skills are not immediately available, one It takes time, one needs opportunities, and strength is something you can master!”

Bi Haihuan began to recover from the state of being very sad.

“Thank you teacher! I understand, I will work hard!”

“It’s not enough to work hard. You can’t do anything without training. There are too many things to master and learn. If you don’t mind, I will stay for a while and raise your strength to a few more layers!”

“Really?” Just her statement was just a routine, but now when she heard Shen Lang say so, she was pleasantly surprised. “You can stay for a while, how can I mind, of course, I am very happy!”

What surprised her is not that Shen Lang wants to improve her strength, but to stay for a while.

They have seen two times before, the first time is very short, the second time is only half a day. Up to now, the time span is one year. Even if she is very respectful and expecting, everyone's familiarity is still limited.

“Now, they are already putting you on stage, and the play has to be done, but they should also be given a horse!”

After listening to Shen Lang's words, Bi Haihua nodded hard and then picked up all kinds of emotions and let himself enter another state.

She quickly checked the information gathered before, and the latest developments. After confirming that the military camp was stable, immediately issued instructions to let the senior officers of the former generals come to the conference room to meet. Well, the export gas is good, it must be completed before the blue sea chase, or else there may be no dominance.

For this order, the generals did not have any accidents. Just like the new emperor ascended the throne, the ministers should have worshipped the etiquette, so they soon came together.

Shen Lang, an outsider of unknown origin, sat in the conference room of the senior officers, and next to Bi Haihuan, everyone was not surprised.

After attending the seat, Feng Yuegu first stood up and pleaded guilty.

“Suddenly, in order to stabilize the military mind, under the decision of the young lady, I took the liberty to ask Bihai to chase the son, get consent, issued an announcement, and asked the lady to sin!”

The other generals knew this, but Feng Yuegu was responsible, and they did not dare to take it on their own.

“You let me lead the base, and the result will immediately disrespect me! The penalty!” Bi Haihuan said coldly, raised his hand, and flew out the maple moon.
