

First Strong 691

Chapter 691 - Behind the scenes master

Although Feng Yuegu has pleaded guilty, it is actually a process. According to the normal process, Bihai should be reprimanded and punishment should be drawn up.

Then he was willing to accept the punishment, while the other generals helped to express their feelings, saying that everyone is trying to take care of all the big things, and then Bihai changed to a one-month salary and other irrelevant punishment.

No one thought that Bihai Huan would actually shoot the maple moon!

And her shot, and the armor and other weapons have nothing to do, purely as the master of the psionic master!

“Get up!”

When I heard the coldness of the blue sea, Feng Yuegu, who was overturned on the ground, climbed up and had blood in his mouth.

“Thank you, Miss, lightly!”

Don't say that Feng Yuegu, who is a confidant, knows more about Bihaihuan. Other generals are all fine, can you not understand the meaning of this?

The public shot at the meeting expressed her anger, and the shot of Feng Yuegu was the confidant, killing the chicken and monkey!

No way to use routines, direct shots, but also to emphasize a message to them – she is not only the Miss Bihai family, but also the psionic master!

They are also very surprised, although the legendary Bihaihuan is a master of psionics, but many people feel that it is only boasted out, in order to increase her qualifications and prestige.

It's only now that I understand it. Bihaihuan is an uncompromising psionic master!

Everyone can also guess that this should be the instructor of the teacher next to her, and it will become more respectful.

As for Fengyuegu, it is certain that the accident is affirmative, but resentment is not enough. He is the loyal loyalty of Bihaijia. This year, Bihaihuan has been receiving his training at the base. In some respects, it can be regarded as her teacher. .

So it seems that he is making a fool of himself in public, but in fact he is using him to come to other generals to come down.

This is to make him feel gratified – just like the refusal of Bi Haihuan to make him a little disappointed, he can hope for the “growth”.

After completing this step, Bi Haihuan immediately asked them to report one by one.

In the evening, everyone was still meeting here. At that time, she was only attending the family background. She was a young man who was humbly learning from these generals.

Waiting until now, just over an hour before and after, it became a big deal to report the situation to her.

This scene makes Feng Yuegu very pleased, Shen Lang is also a bit embarrassing. Although he reversed the situation, but at the root of it, her background is deep. Otherwise, it is his pursuit of the entire base and the entire military.

The content of the specific meeting, Shen Lang will not have much interest.

When they reported one by one, Shen Lang closed his eyes and raised his spirits. His knowledge was spilled out and he patrolled the entire base directly.

So in a short time, they can control only the middle and high-level, and then layer by layer. Whether it can be really stabilized is hard to say.

Therefore, when everyone thought that the overall situation had been fixed, he instead raised his vigilance!

Chang's cronies, the high-ranking secrets that were taken, will not give them a chance. The middle and lower levels need to be linked and planned because of their abruptness.

But they have to speed up, because there is not much time left for them. When the blue sea family continues to air more people, they can really control them.

Tonight, even these two hours are their last chance!

Through inspections, Shen Lang discovered that these generals were aware of this and all aspects were on the alert. Including the Battle Soul Team, after taking the confidential officer, he did not idle, acting as a senior soldier, guarding the core building where the conference room is located.

However, the confidants of Chang Hao are suddenly incidental. For the generals who are now taking power, the same is true. Basically, there is no preparation, and the regular control is strict before, so that they are far from adequate.

Therefore, even if it is a resolutely controlled, it can only be reluctant to control the situation, and the announcement just released, so that most people are still shocked and digested, did not cause a rebound.

But a handful of **** confidants are still reacting silently.

In the corners they did not notice, some people sneaked into the parking mech, some people in the nervous monitoring room to check the monitoring of different places, and some people sneaked into the dormitory area...

Shen Lang sent his own knowledge to the situation, one by one to the listening to the return of Bi Haihuan, let her make arrangements. These are ready to take the plunge, he has no interest in personally to stop.

Bi Haihuan's worship of Shen Lang is from the heart and he will not doubt anything about him.

Therefore, when a general reported the report, she immediately suspended the meeting, opened the light screen, switched out the comprehensive monitoring, and released the areas that Shen Lang said, one by one, let them arrange the people to view!

The base is so big, it is the person who specializes in monitoring, and it is impossible to see the problems in every corner one by one. Many functions are time to watch. Bihai, who is in a meeting, is able to accurately point out these sneaky people one by one!

One can also be said to be coincidental, continuous in many places, can only be described as magical.

Before the shot of Feng Yuegu, it was considered a downhill horse, expressing attitude. The hand that is now exposed is to let them really admire.

It seems that Miss Bihai is very laborious, and she is very familiar with every corner of the base, and her reaction ability is even worse than them, so that she can find so many loopholes.

They don't dare to neglect, and they have to arrange for people to check.

In the process of their continued meeting and reporting, the results of the survey were also summarized one by one, and sure enough! Not wanting to **** the armor, or attacking with the bombs attempting to do the same.

This makes the cold sweats of the big brothers. If it is not discovered by Miss Bihai in time, there will be explosions or attacks on their own people.

Bihai listened to the voice instructions from Shen Lang, did not celebrate for him, did not explain, the default is her own.

Shen Lang does not need to show his own limelight, be a master behind the scenes, try to help her build momentum.

In the subsequent process, Shen Lang grabbed a few insects for them, and basically there was no change.

This meeting has not been maintained for a long time. In the short recall process, Bi Haihuan discovered so many crises that the generals could not sit still and needed to go back and sit down in person.

At this time, a warship came to the top of the base and entered the landing.

“It’s hard to be a general! I will go and meet my brother first. He will meet with you later.”

Everyone was surprised again. Miss Bi Hai was in the meeting, but also connected to the brain, always paying attention to all the movements of the base!

Originally, from Fengyuegu, I knew that Bihai was chasing the road. Everyone had a tacit consensus. It would soon be the blue sea to take over here. Now come over to meet with Bihaihuan, and it’s just a routine statement. Then I’m going to prepare to report to Bihai.

However, the process of the meeting, the ability of the blue sea show, but they surprised and admire them.

Chapter 692 - Single straight

Followed by Bihaihuan to meet the blue sea chasing, in addition to Shen Lang, there is Fengyuegu.

Although it was Shen Lang who asked Bi Haihuan to do this, she did the whole process in the process of the meeting, but only a few of them came out, she still could not bear it.

“General Feng Yue, how are you? Sorry, I just...”

Feng Yuegu immediately shook his head: “Miss, you can be tough and strong, it is exactly what I am happy to see, I am very happy.”

Then he gave a tribute to Shen Lang: “Thank you, I understand that you are encouraging and helping the lady.”

Shen Lang nodded and responded to him.

Seeing that he really has no emotions, Bihai Huan is relieved. As for the injury, in fact, she has started with her own. It looks serious, actually it is the blood that breaks the corner of the mouth, not the internal hemorrhage.

While looking at the blue sea, Feng Yuegu is slightly sinking in his heart.

The chasing of the blue sea can be regarded as what he promoted. Now it is not just a person, but a strong person who carries a lot of people. This is a good thing, you can more easily shake the base.

But his “assisted” on this trip, everyone understands what it means.

Just the blue sea Huan is strong!

If it is normal, even if she is angry and strong, she will not have a temper and will not affect the overall situation. But now, she has a super psionic master who can turn things around!

If with the support of this adult, let their brothers and sisters turn their backs and even upgrade to the extent of the wall... that is not a good thing for the blue sea family.

Worried about worrying, Feng Yuegu did not say anything, nor can he say anything.

He is loyal to the Bihai family. For Bihaihuan and Bihai, it is not convenient to support the team before the family has direct instructions. Bihai is now using the default rules, and there is no command on the plain.

On the other hand, Shen Lang is a powerful to the extreme, and even if he wants to deal with it, there is no way.

Under such circumstances, in addition to secretly praying, he also decided to look for an opportunity to remind the blue sea chasing, lest he would turn over.

“General Maple!”

“Follow the young master.” Feng Yue ancient handed a gift.

“It’s hard! The family asked me to come over and help. I didn’t bring a lot of people at the same time. I hope I can help a little.”

Bihai chased the hand of Feng Yuegu with enthusiasm, and immediately went straight to the theme, and then confessed to the Bihai family who came with him, let them quickly control the base with Feng Yuegu.

Feng Yue Gu Zhang opened his mouth, in the face of Bi Hai Huan, Shen Lang, and it is not convenient to say, can only be led.

The problems discovered by Bi Haihuan during the meeting just now made Feng Yuegu realize that the base is still far from being firm. The people who came here must be immediately involved.

After they left the line, there were three people left in the huge space around them.

Bi Haihuan immediately operated, and a signal shielding circle was formed around it, which would be ineffective for monitoring and monitoring. However, this is a technical shield. If it is not far away, it can still be seen and heard.

Unlike Shen Lang, their vitality is blocked. If it is strong, even the detectives of God can block.

“Brother!” Bihaihuan is also a respectful gift, and then introduced: “This is my teacher, Shen Lang adults.”

Bihai is much older than Bihai, and looks like 30 or so, similar to Joe Shuyu.

The difference is ten years old, and it is the biggest growth decade. For such a big family that values the cultivation of children, the gap in comprehensive ability will be huge.

Seeing the blue sea chasing, Shen Lang understands why Bihai Chengtian will let him “assisted”. Even if he doesn’t understand his situation, light can be perceived from the surface, his experience, ability and qualifications are far better than Bihaihuan. .

The Bihai family is coming to accept Changyi’s military field. Bihaihuan can only be temporarily over-extended. The blue sea chasing should be a little bit stubborn, and the family will certainly have follow-up assistance.

“Shen Daren, I represent the family and represent the family and thank you!”

Bihai chased a serious sigh of Shen Lang, but this point is not thought of by Shen Lang. But listening to this meaning, it should be the sea of heaven.

Shen Lang is also secretly nodding, or the blue sea is old! I didn’t say much when I talked before. Now let Bihai chase him and salute him, that is, to avoid conflict with him, and to leave this “sincerity” to Bihai.

“Happy girl, I have worked hard! This time, with the help of Shen Daren, I made great contributions to the family.”

“It is basically the teacher’s credit.” Bihai bluntly said.

“Let’s talk to another place!”

Going back to the highest conference room, only three of them, Bihai chasing and letting Bi Haihua confirm the security issue.

“Shen Daren, some words, I want to talk to you first.” Bihai chased a serious face.

“We all understand that your shot is for the sake of the girl, not for the Bihai family. But we all know that if the girl takes over here, the people who are often swearing will not be able to take it. Today you are here, you can suppress it. Living, it will be difficult to say long afterwards.”

“So my father and I discussed it. Let me expedite and say that it is assistance. In fact, I want to let me take over Huanmei to take over.”

“Speaking arrogantly, this is what you took. The decision is right for you. If you are willing to leave a helping girl, our Bihai family is very grateful, and we will fully assist her.”

Bihai is the day to arrange the blue sea to pick up the peaches, not only the Shenlang can see, the generals such as Feng Yuegu, also understand.

However, Shen Lang did not expect that Bihai chased him in front of him so low that he did not think that he had not turned around and swayed, but single-handedly straight into the spread.

From a subjective mood, no one likes others to pick peaches, even if they don't care about the peaches themselves.

But objectively, Bihai's decision is completely correct. If he does not stay to help and protect the blue sea, time is long there will be many assassinations against her!

There are so many people in the entire military field, and it is impossible to prevent them from being eliminated.

Of course, protecting Bihai is not the responsibility of Shenlang, but should be the cause of the Bihai family. Since it is a matter of the blue sea family, of course, it is adjusted according to their best plan.

“Brother, you don't have to let the teacher be embarrassed. I know what the family means, my brother is too strong than me, can take over better – not only the family interests, but also the entire military field, and now the Luyu Mountain War, brother Can handle it better.”

Bi Haihuan is also serious and serious, and she naturally considered this issue just now.

“I don't care about any merits. The teacher's immortal character in the island doesn't care much. I am a little angry. After I vetoed, you didn't discuss it with me. On behalf of the family, he recognized General Feng Yue. decision!”

She looked at the blue sea chasing: “General Chang is a political interest relationship, but often read the brothers, you can see him grow up, he is not such a person!”

Chapter 693 - Customized transformation equipment

The blue sea can't help but smash.

On the way, he decided to accept the advice of Feng Yuegu. In his opinion, my sister is unbearable in her heart. After all, she is familiar with regular reading.

That decision will be made by him.

I did not expect to ask him now!

“I know... I don't usually read people like this, but since he is already...”

“If you are already dead, can you make the best use of it? The dead will not refute, isn't the stigma more?”

Seeing her reasoning, Shen Lang sighed.

“One writer said: Children are right or wrong. Adults only look at the pros and cons. You are still innocent, and the brother and me are the mentality of the adults. This matter is pursued, or the problem I am shooting. From the right or wrong Angle, how often I read it, and I will not sin.”

In the words of Shen Lang, let Bihai stay for a while.

Before the teacher supported her, I thought that I would also criticize my brother together. I didn't expect it to be such an attitude.

Bihai chased it, and my sister was really angry and violated the principle. He also attached importance to it and stepped forward to support her shoulder, sincerely said.

“The teacher is right, you are still innocent. But not only us, often reading, often, are not the same innocence.”

“The last time I was at the training base, I often had a great offense to the teacher once. The teacher had already let him go. I was on the road and had already let them watch the monitoring. Today, his intention, teacher. Still let him go.”

“Frequent reading is not to accept the lesson. Instead, two psionic masters have been transferred to attack the teacher. This is on the site of Changyi! If it is not the teacher’s extraordinary strength, what will happen after being attacked by them?”

“After the usual attitude, you will see it yourself. If the teacher is not strong enough, you think...”

Bihai chasing is also using her “teacher”. On the one hand, it is the distance between the narrow and the deep waves. On the other hand, it is also to let the blue sea listen to the feeling of substitution.

Bi Haihuan, who was amazed at the attitude of Shen Lang, immediately thought about it.

Innocent is not stupid, she should understand the truth.

At that time, she was not on the scene. If the teacher was not strong enough, once the two psionic masters who were frequently read attacked successfully, the result would be reversed. And often angered at the back, the original shooting of the soul team in addition to the psionic master, is really ready to kill the teacher!

Now the teacher won, if it is the regular father and son to win, what about this?

Bihai chasing knows her sister very well, did not talk more, give her time to digest herself.

Then I reported to Shen Lang and said that they had no rest on the road. They have already mobilized the information on this side. Everyone has a certain understanding and preparation, so it is not a problem to take over now.

Shen Lang is from his words, heard more information!

Bihai home must have long wanted to move often, but there is no chance, it must be prepared, perhaps Bihai chasing his team, is doing this. This preparation is not the homework that I did when I first came, but I was prepared.

In addition, when Bihai Chasing was talking to Bihai, he accidentally said that people had sent monitoring information to him.

This shows that there are many insiders in the Changyi Army, or the inside line of the Bihai family. It also shows that he respects Shen Lang because he has watched the video and realized the power of Shen Lang!

Since Bihai Chasing is such an attitude, Shen Lang will be indifferent.

If Bihai pursues that he will help him and wants to get rid of him, even if it is a blue sea family, Shen Lang will not be polite to them.

But in that case, it is not to make Bihai happy, but it will be sad.

Now that Bihai is pursuing a sincere stance, Bihaihuan does not have this ambition for the time being. Shenlang can't support her to do anything for a long time. Then this peach will let Bihai pick it up.

Anyway, he himself is not likely to take over, and the blue sea is happy, it will certainly be a great achievement.

He completed the handover and made Bihai chase. He immediately entered the state. He did not call everyone to have a meeting. Instead, he took over the military key, had the highest authority, and ordered the way.

They had been fully prepared, and on the way, they added news of the inside line, mastered the current situation, and discussed a lot of countermeasures.

Nowadays, coupled with the execution ability of the people he brought, the situation that has been basically controlled has been further stabilized.

Originally, the announcement information they gave before, so that most of the bottom soldiers are just gossip, and there is no anger. A small part of the frequent confidant of the mess, was also caught by Shen Lang, pointed out by Bi Haihuan.

Now that Bihai has been chasing, not only is the instruction in all aspects more professional, but his influence is much greater.

Bihai has the same status as the princess and the county owner. Bihai chasing is a prince and a son. It is also a military martial art. It is quite famous in the military.

Now he shows that one is to stabilize the military, and the other is to lead everyone to continue fighting!

Most people are recognized for his airborne, which is more reliable than Bihaihuan.

There are also a few regular cronies, and I know that the general trend has gone, and I can only protect myself.

Bihaihuan did not feel the possibility to learn from all aspects of his experience to the elder brother. After chasing the palm of the sea, he left the meeting room with Shen Lang and returned to her dormitory.

The dormitory of this base in the Luyu Mountain Range is naturally not comparable to her dormitory in the Bihai home training base, but she enjoys the highest level of treatment at the general level.

In order to transfer her emotions, Shen Lang asked her to help, and asked her if she could find someone to design and make several sets of ultra-high-elastic clothes. If it is difficult or costly, just make such shorts.

This bizarre request has made Bihai curious, but I am embarrassed to ask why, especially shorts. It's easier to make people think. Is there something in it that can be dozens of times longer?

However, in addition to the first time to meet her to ask for a spar to help the teacher did not ask her for help, but gave her great help. This time, I can help the teacher. Of course, she is full of promises.

After carefully asking the details of the request, she contacted her familiar designer and asked to design and make it as required.

It is not a joke that Shen Lang wants this. It is really necessary.

When the underwear is worn inside, when you encounter a change, you can take off your clothes directly, or you don't care if you burst into it. It won't become a "primitive" giant.

He cultivated this magical power in the dead forest. After he went back, he did not stop and did not pass. It was the first time I used it to fight with the Iron Armor Red Dragon today. It doesn't matter if I am with the two old men. If I am with the girls, I will be embarrassed.

Not only embarrassing, so some of the spectacular pictures will scare people out of the shadows!

The technology of the river basin is much higher. If you make it here, it will definitely be much better than going back to find someone.

Chapter 694 - Yano Base

Later, with the example of today, Shen Lang told Bi Haihuan the importance of personal strength.

Even in the entire military area, in the base, you can take the first level of the highest general. Did not cause a rebound, because of the relationship between the home of the sea, but one person changed the situation, but it was a nail.

If there is no Bihai family's intervention, the commander suddenly dies, even if it does not go to a plate of sand, there must be all kinds of chaos, this battle can not continue to fight, that is, one can affect a war!

Bihai Huanyuan is not as good as Shenlang's strength, but the truth is still heard.

"You don't need to reach my level, because you have the background of the Bihai family. Even if you are an ordinary psionic master, you can have an advantage over the general generals and the general family."

“Teacher, I understand, I must work hard to cultivate!” Bi Haihuan solemnly promised to Shen Lang.

Shen Lang was originally in the forest of death. What he needed was a medium-spirited stone. In addition, everyone’s origins were unclear, and they did not know what the ghost city-state was.

So at that time, what was taught to her was the practice of getting started. Waiting until the last time, she was promoted to the Yuanyuan.

But she didn’t have anyone pointing around. It was only a half-day time to add up to the two waves. It would not be easy to practice in the late Yuan Dynasty.

This time, Shen Lang is ready to give her more feedback, and decided to stay for a while.

Now that she has explained the importance with her, she immediately began to teach her a higher level of practice, especially his unique way of absorbing the energy of Lingshi.

There is no shortage of Lingshi here. The Bihai family can master a large number of Lingshi, so that she can absorb energy from the finest stone. The speed of progress will undoubtedly be fast!

After she mastered it, Shen Lang gave her some of the myelite of the iron armor, and some of the remaining medicines were given to her.

There is himself here, and she is not afraid that she will burst. In addition to the method of teaching, she is personally infused with vitality and guides her to ascend.

Soon it was directly upgraded to the peak of the Yuanyuan, and then gave her a little time to refine and absorb, but also stabilize the realm.

Bi Haihuan is the big lady of the Bihai family, the general character of the Princess County. The public concept here is not clear, so after she practiced, she did not stay in her room to avoid gossip.

However, he first said it to Bihai, so he took her identity card, can leave the dormitory, and can open it again.

After he came out, he saw that the moon was not far from the rest area, and he went over.

At the scene, only Feng Yuegu was alone. When he saw him coming over, he quickly stood up.

“grown ups.”

“Don’t worry about me, monitor here.” Shen Lang signaled him to sit down and sat down next to him.

Feng Yuegu quickly shook his head.

“If you don’t trust, you won’t be worried about you!”

Then he quickly explained that he was the general manager of the Bihai family training base, this time in the name of protecting Bihaihuan. In order to avoid suspicion in Changyi, in addition to protecting Bihaihuan, do not participate in high-level military affairs.

So he can arrange to go out to pick up the waves and not attend the high-level meeting. After the incident today, he immediately participated, but now it is solid, especially in the blue sea chasing a lot of people to join, he can also withdraw.

He also has his “land”, will not be involved here, still still fulfill the role of protecting Bi Haihuan.

Just before Shen Lang was in the room of Bihaihuan, he was waiting outside. If there is anything he needs to do, he can find it at any time.

Shen Lang can see that Feng Yuegu did not lie, perhaps referring to his last experience of leaving soon, waiting to send him to leave!

“This will happen today, but you should blame you.”

Suddenly, a word suddenly made Feng Yuegu surprised.

“what do you mean.....?”

“If it weren’t for you to hang me here, there would be no officers who suspected that I would ask me, and I wouldn’t encounter regular readings. The latter things would not happen.”

After listening to this, watching Shen Lang is not really angry, Feng Yuegu was relieved.

He smiled bitterly: “Who can think of it? Always read... Hey.”

He did not say much, Shen Lang can see it, in fact, he should be familiar with the regular reading. This year’s regular reading should be followed by Bi Haihuan at the base, and the relationship with him should be done well.

“How long do you have to fight this time?” Shen Lang asked again.

Feng Yuegu hesitated a bit. This is a military secret. It could not be leaked to the outside world. But today Shen Lang gave them more military aircraft. What else is it hidden?

“In fact, I wouldn’t have been playing for too long, but now I have a variable. If the chasing son is just new, I should take the opportunity to polish my troops.”

Shen Lang nodded, which is understandable.

Now replaced, at least the middle and upper levels, there are many officers in the middle and middle, and they are often supported. You can’t pull it out, just use the war, discover alternative talents, use military power, and cut off extreme cronies.

Extend the day that cannot be finished today to one week, or one month.

Wartime status is the best time.

Later, Bihai chased a letter to Fengyuegu, and asked him to invite Shen Lang to dinner. This is to contact Bihaihuan, because I can't contact you, I only look for Fengyuegu.

Shen Lang is also not polite, indicating that Bihaihuan is practicing and going to dinner.

Because in the military, and in a hurry, the blue sea chasing tonight is estimated to be wanted, so everything is still relatively simple, but he is very humble throughout the whole process.

At the dinner party, there are other generals. Of course, when Bihai chased the representative family to release goodwill to everyone, he expressed his gratitude to everyone for their assistance today, and will give more care to them in the future.

After the meal, Bihai Chasing also arranged for the dormitory to stay in the dormitory, just next to the dormitory of Bihaihuan.

Although I saw that it has been completely sorted out as new, Shen Lang is still estimated to be the one that I used to read. Chang Hao is sure to make his son close to Bihai Huan.

Since Shen Lang decided to stay for a while, of course, he did not want to revolve around Bihaihuan. He also decided to refine the inner Dan and the marrow liquid of the newly obtained iron armor.

However, for the time being, he still has to pay attention to the situation of Bihaihuan. It is not convenient for him to retreat. Therefore, he did not take the internal Dan, but took a part of the marrow refining.

When he practiced in the middle of the night, he was aware of something abnormal!

The self-cultivator, the high-level comprehension is at the base!

Shen Lang immediately received the work, and God quickly investigated and found the self-cultivator he had sensed.

Is the psionic master who often raises vengeance for him?

Or is Bihai chasing to secretly cut him off?

After the inquiry, Shen Lang also found out that it is not one, and the strength is far better than the two psionic masters brought by the previous reading!

Chapter 695 - Assassination

After locking them, Shen Lang didn't hurry to go out, but to see what they wanted to do and determine if it was for him.

If you want to assassinate him, then whether it is revenge for Chang Hao, or Bihai chasing is behind the scenes, he will not be polite, will definitely open a kill!

Throughout the military camp base, he cares about the blue sea!

After careful investigation by Shen, Shen Lang discovered a situation. These "psychic masters" actually wore the sacred armor, and should have used any interference shielding function, so they did not alarm any warning all the way. The soldiers did not know anything.

They have a certain understanding of the base, but they are not very familiar. They should have seen the map first, and the real person came in for the first time.

This immediately made Shen Lang adjust a suspect direction!

It is not surprising to be able to support a group of psionic masters with the constant power of identity. But after he fell down, it was especially obvious that the blue sea family had fallen down, and the possibility that such a person would avenge him was very small.

But if there is such a batch and follow the army, Shen Lang should have already discovered it. The military camps he had discovered before were the same as the previous two, and they were low-level comprehensions.

It's a constant person, and you should be free to go to the base. It's impossible to be strange.

It's no surprise that the blue sea chasing can bring together the psionic masters. But he should be assisted in rectifying the cause, and Zhengda's brightness will come over and not sneak into the base at night.

Combined, another possibility came out – the enemy!

There are many people buried in the army of Changhai, and there should be other big forces, including the spies of the enemy, but the number is small.

Today, there has been such a big incident. Although the military is not open to the public, it is necessary to stabilize the use of the enemy and let all soldiers not leak. But certainly not to do not leak, even if it is done, all kinds of spies will inevitably spread the information.

The enemy will take advantage of the opportunity they have to rectify tonight, and it is entirely possible to arrange the Master of Psionicism to kill the generals!

And if it is an enemy, then they should be assembled at this time, followed by a large army raid!

Shen Lang continued to lock in and wait and see, he did not move until he did not directly target him.

Soon, he figured out their goals with the routes of these psionic masters who sneaked in!

They interfered with the monitoring of monitoring, alarms, etc., and on the road, they also encountered soldiers who were stationed in the post, all of which were laid down in advance. And the check-up route points to the dormitory that Bihai chased!

Bihai chasing is only tonight, this dormitory is also arranged later than Shenlang. It seems that ambush here is more spoiled.

After the basic determination, Shen Lang took out the communicator that Feng Yuegu gave him. He did not need to open the sacred armor, and he could contact at any time. In addition to Bihaihuan, he also joined the contact method of Fengyuegu and Bihai.

This is convenient when the sun is here, and you can contact them at any time.

Now, Shen Lang directly contacted Maple Leaf.

“Shen Daren, what do you have to tell?” Feng Yue Gu is not the essence of Bihai’s family. Even if it is awakened in the night dream, there is no sleepy eye. When it is connected, the holographic image appearing in front of Shen Lang is already A clever look during the day.

“There are a group of more advanced psionic masters who sneak into the base. Look at this, their goal is to chase the sea, and they are already going to the sea to chase the dormitory, giving you a chance to save the car.”

Feng Yuegu was shocked, and he was not polite. He hurriedly hanged up and then contacted Bihai.

Shen Lang is observing, their dormitory, a little distance from the dormitory of Bihai. Bihai chasing is probably to show his reassurance, let him rely on his sister’s dormitory, but he is far apart, but not leaning next to him.

For the time being, it will not spread to Bihaihuan here.

Shen Lang thought for a moment, or went out on his own.

Although there is no obligation to save the blue sea chasing, the warning police is already enough. However, if Bihai pursues the attack, on the one hand, it will continue to be chaotic, and on the other hand, it will make the sea and sea happy.

Since you have met, then he will intervene again!

When he came out, there was still no alarm, but Feng Yuegu had already contacted Bihai.

Bihai did not fall asleep, and several cronies were studying the strategy. They got the news and immediately mobilized the Battle Soul Team with the highest authority. They also prepared for the enemy in the house.

“Adult! Please look at Miss Huan’s face and help chase the son!”

Feng Yuegu also came out, and rushed over to Shen Lang here, saw him out, and quickly made a request.

“I am not coming out? Let’s go!”

Having said that, Shen Lang did not rush to the past, just following the speed of Feng Yuegu.

When they haven’t arrived yet, they hear the gunshots from the front!

Shen Lang’s knowledge is always on the lookout, and it’s very clear.

The house has a prepared blue sea chasing a few, directly equipped with the holy armor, first opened the defense mode, and then connected to the monitoring screen, watching the outside movement, and has contacted the outside guards.

When the psionic masters are preparing to lay down these guards, the prepared guards will shoot first!

Then the blue sea chasing the family came out with him, and together with several of his cronies, used the sacred armor to fight against them.

The sneak psionic masters, sneaked into the process all the way smoothly, did not expect that when the door was kicked, they would be counted by the other party, and they were attacked by a surprise.

However, they are not equipped with personal abilities, or equipped with sacred armor, so even if they are attacked, they have not been killed.

Then they immediately launched a counterattack!

Probably Bihai chased the base that was nervous for one night and then chased the nearby alarms and monitoring in advance, but he personally led the team and arranged the resources of the Battle Soul team, and did not let the alarm alarm more people.

But they immediately discovered the seriousness of the situation!

This is not a two-time assassination, it is a real team! And it is a powerful genius master who is also equipped with the Holy Grail!

For a moment, several guards have been killed. The blue sea chasing and a few confidants, but also by the strong attack power of the other, forced to rely on the protection of the sacred Azerbaijan in advance.

Because their attack weapons have just been extended, they have been inexplicably transferred to the muzzle, and they can't complete the completed attack!

Shen Lang and Feng Yue Gu are already close, and you can clearly see the scene.

Shen Lang has even seen them all. There are eight of these psionic masters, and the last one is the strongest, which is equivalent to the real strength. It is also that he controls the gun weapons of the Bihai chasing and others, while the other seven are still in the midst of the virtual world.

The light is the number of weapons, it completely suppresses the blue sea to chase them, not to mention their weapons can not be used. So in a matter of seconds, it is already very embarrassing.

It's still time for the War Soul team to come over...

“Let the adults help!”

Feng Yuegu said that while running, he had already shot and relieved the pressure there.

Chapter 696 - Beautiful shot

When they appeared on both sides, they were not close, and they were noticed by the other side. Someone immediately attacked them with intensive firepower!

The attack of the fire on the edge of Feng Yue's ancient side, with the calmness of others, is not an order of magnitude.

If he did not have the Holy Grail, and he had already opened the defense, he was directly smashed.

However, Shen Lang did not equip the sacred armor. Feng Yuegu personally saw him and knew his strength and did not worry about his safety.

“Are you a few?”

As the sound of Shen Lang passed, others have already led the way, and they have stepped into the scene.

The psionic masters who were attacking all the way, found that they could not move!

On the spot, the fire was used to suppress the blue sea to chase a few, while the other people approached their side, ready to destroy the sacrificial armor, and then complete the assassination!

But now they seem to have been settled, the whole body is very stiff, and it is very difficult to move one or two centimeters.

“Shen Daren!” Bihai chased a surprise.

Just the warning officer of Fengyuegu has already said that it was discovered by Shen Lang. However, he felt that several of his own people, plus the guards, would count on the anti-sneak attack and should have a good attack effect.

In addition, the Fengyuegu and the War Soul team that came over from the outside can be destroyed by the genius masters of this assassination group!

Turning off the alarm, in addition to not wanting to confuse the base, he also wants to rely on his own ability to break the assassination of a group of psionic masters, and to let the whole army admire the fierceness.

Unfortunately, it took a few seconds to feel the pressure of life and death. Maple Moon and the Battle Soul team came, and it is estimated that it is difficult to ease them. Because the Master of Psionics has already been killed!

Fortunately, Shen Lang shot!

Once imprisoned, the psionic master who is equivalent to the real world immediately feels bad.

If the other party only comes to a psionic master, they are a team of psionic masters, of course, not afraid. But with his feelings, the other person is that they are all worse than each other!

He responded very quickly. Since the body couldn't move, he immediately sent instructions to accelerate the sacred armor and flee with his body!

In fact, his strategy is no problem, as long as his body has left a certain range, Shen Lang can not control him. It is not impossible to let the Holy Grail do this.

Unfortunately, he still far underestimated the strength of Shen Lang!

Shen Lang just banned them from eight people, but they didn't go all out. When he let the sacs speed away, Shen Lang had already stepped over and grabbed him with one hand. Even if the sacred armor was fully activated, it was impossible. Break free.

“Let me fall down!”

In Fengyuegu and Bihai, when they heard the sound of Shenlang, the other seven sensible masters who could not move, immediately fell to the ground and fell directly on the ground. It seems that people have completely stunned in the past!

This scene shocked them all, and did not know how Shen Lang did it. If this is an ordinary person, then it is understandable, after all, the Master of Psionics is superior.

But these seven are masters of psionics, and they are equipped with the sacred armor and opened the defensive state. Even if they are silent, they will be fixed in a sentence, and they will be allowed to fall to the ground without even moving their hands!

There is another one who is about to escape. It was actually caught by Shen Lang.

If ordinary people are not qualified and can't afford the holy armor, they will not realize this shock. They are very clear that the Holy Grail is almost the best in terms of flexibility, that is, the mech is incomparable.

However, it was still caught by Shen Lang!

Just when everyone was stunned, Shen Lang made an action that made them even more incredible!

He actually put the master of psionics!

Shen Lang will be so determined to put the seven people down first, because the discovery of the soul team is about to arrive.

Since he has intervened, of course he has to do a beautiful job. If the War Soul team and the like come to help, he has lowered his style.

After revealing one hand, the Battle Soul team also rushed in, and he had to show another hand.

“No one else is allowed to do it.” Shen Lang said something, then said to the psionic master: “Give you another chance, as long as you can escape this range, even if I lose, there will be no missiles. Class kills you.”

The Soul Ghost team that has just arrived has been quickly deployed around. This time the enemy is equipped with the genius master of the Holy Grail, which makes them more cautious.

Just unbelievable Bihai chasing, I thought it was the Battle Soul team, and Shen Lang was relieved.

I didn't expect that Shen Lang would actually open such a condition, and immediately let the War Soul team cast a look at him.

Bihai chased a slight nod. Since Shen Lang said so, there should be some confidence. Even if he can't succeed, then go back together and kill. Anyway, this is Shen Lang's promise. He did not agree, but he did not lose faith.

The psionic master was originally unpredictable. I did not expect that there is such a powerful psionic master here. It is estimated that this evening is going to fall here.

Can Shen Lang actually gave him another chance to escape!

He immediately extended a gun from the sacred armor, aimed at the Shenlang, and at the same time began the instruction to accelerate the departure.

But he immediately discovered that this time, not only is the body stiff, but even his consciousness is out of control! As if there is a strong external spirit, directly occupy his head!

This makes him very scared. Does the other side have a sorcerer, can he erase his consciousness and occupy him?

No one can see his thought changes. In the eyes of the blue sea chasing and other people who are nervous and suspicious, they are seeing this most powerful psionic master. Under the preparation of the gun, the Shen Lang is moving without moving!

Shen Lang can not be equipped with the holy armor defense!

When everyone squeezed a sweat, they saw this psionic master, and they stumbled directly.

“I lost.”

When he said this, he lifted the defense and opened the holy armor to let himself appear in front of everyone.

Shen Lang waved his hand gently: “You also give me a fall!”

The genius master of the real-world level immediately fell down, but he did not lose consciousness, but could not control the holy armor.

“You are the strongest of them, keeping you all unsafe. But I will not kill you, just make you a mortal!”

With a wave of Shen Lang’s hand, the Master of Psychic immediately felt that he was shrouded in a force. Then there were movements in various places like blue sky, so that he only felt the power of cultivation for decades. collapse!

“No!” The psionic master screamed and then everyone watched him desperate and collapsed.

Soon, his state was very wilting, and his mouth whispered: “The Bihai family is worthy of the blue sea family...”

Shen Lang secretly white eyes, thinking that this is the psionic master of the Bihai family? Laozi is not theirs!

“You, you are Nakajima...Is the immortal coming out...”

Shen Lang clap his hands: “The War Soul Team, what are you doing? You will be handed over to you later.”

Chapter 697 - Pointing fighter

Bihai chased inside and ordered: “You must grab the people quickly! Be sure to take a good review! Be careful, if you have a problem, ask you!”

It's really a life-saving, or else wait until the War Soul team comes over. They are not killed, they may be stunned, they are taken away, and the consequences are serious. It is also a very shameful thing.

The Battle Souls usually have no chance to really engage the psionic masters. Today, there are two chances!

It took a while to raise soldiers for a while, but unfortunately did not give them a chance to show their talents. For the first time, Shen Lang gave them no way. In the face of their siege, they killed the highest commander in the army.

It is him now!

When they rushed to the scene, others had already fixed all the invading psionic masters. This is eight! And they are all psionic masters equipped with the Holy Grail!

For Miss Bihai, the mysterious teacher, they also feel like a fairy, no one dares to be a little disrespectful.

“Teacher please speak inside!”

Bihai chasing still followed her sister as a teacher, and her attitude was very respectful. She invited Shen Lang to enter the house.

As long as the person is fine, the damage and damage left by the guns here can be repaired later.

Several of his cronies, as well as Feng Yuegu, entered the house together.

“Thank you for the help of Shen Daren!”

He was chased by Bihai, and several other people joined him and thanked Shen Lang for his courtesy. Feng Yuegu is also accompanied by him. He is also very grateful. It can also be said that it was saved by the way.

Shen Lang puts his hand on the wave: “There is no need to talk about the guest, the son has something to do first!”

“What you are saying is...” Bihai pursued a slight glimpse. It is important to interrogate the psionic masters, but it should be handed over to the war spirit team.

However, Shen Lang said so, it must be important. He immediately ordered a close confidant to let the confidant supervise the interrogation.

“I am not talking about this.” Shen Lang shook his head: “You have been coming for a few hours? They can so assassinate you so much, they must have received accurate news!”

“Yes! There is a traitor in the base! It is the most important thing to catch the traitor!” Bihai chased after a dream.

“That’s not the most important. These assassins are sent by the enemy. Their purpose is to cut off your new boss, and then take the entire Luoyu Mountain base directly when you are in a mess. !”

Bihai chased a cold sweat, if this is the case, even if he can still respond, it will be very embarrassing.

“Thank you teacher for pointing! I really fainted, I didn’t think so much!” Bihai chased did not feel ashamed, but seriously thanked Shen Lang. “Seeking teachers for more guidance!”

“After you received the alarm, didn’t you react immediately? They will count on them, the direction is correct, but they underestimate the power they come from. This is what you need to pay attention to!”

When it comes to this part, Shen Lang is already very detailed. If Bihai is still unable to understand, it is a straw bag, and there is no expectation.

Bihai chasing is of course not a straw bag. He learned that a psionic master attacked the door, but he was not in a hurry. He was not in a hurry to rescue the soldiers. Instead, he could calmly order and personally count the plans. This shows that one or two.

Just the result just now, almost killed him, and then saw the shocking shot of Shen Lang, so that he has not recovered from the excitement.

At this moment, I was awakened by Shen Lang and immediately understood what to do.

He immediately bowed to Shen Lang and said a sorry. Then I began to arrange the battle plan. With the lessons I have just learned, let him understand that it will be backed up by the need to have a strong strength, or else it may be shredded.

Shen Lang left with Feng Yuegu, and they said they would protect Bihaihuan.

“Today, I am really grateful to the adults!” When he walked toward the dormitory, Feng Yuegu thanked him sincerely.

He was a little scared in his heart. If the chasing of the son had an accident, the direction of this war would be difficult to predict. On the one hand, this side will be occupied, and on the other hand, under the wrath of the Bihai family, it will inevitably be a crazy counterattack!

To the last dead soldier and affected ordinary people, there may be tens of thousands, or even 100,000!

Therefore, Shen Lang not only saved the blue sea chasing, but also because of this shot, indirectly did a good thing of merit.

“Give you another credit!”

In the words of Shen Lang, let Feng Yue laughed.

“I can’t really do it because of the merits. It depends entirely on the shots of adults.”

“You don’t want to take that spy out?” Shen Lang looked at him like a smile.

Feng Yuegu was taken aback and quickly asked: “Is the adult already discovered?”

He did not ask how Shen Lang discovered it. Before the meeting, Bi Haihuan had a point out. With his understanding of Bi Haihuan, I believe that she did not deal with it, but Shen Lang discovered that she was taught.

Plus, just after the first wave, they found the intruder, and it would be strange to find the spy.

“There must be spies, but the one that is related tonight is showing the horse.”

Shen Lang said a place to let Feng Yuegu go to arrest people.

It was very easy for him to do it beforehand. When he was after the blue sea to chase them, the gods still scanned the entire base from time to time to avoid other problems.

The result was a suspicious person!

It is late at night, and in addition to being on duty, they are falling asleep. That person is not on duty, nor is he standing guard, but it is sneaky waiting for something.

Still use it? Obviously waiting for the sneak attack to do the war!

At that moment, the man is still waiting for information. He has just heard the gunshots of the war. Although the results are not clear, I believe it should not be bad.

However, he did not think that he completely avoided the monitoring, and no one saw him. General Feng Yue suddenly brought in and directly arrested him!

After basically confirming that there is no problem, Shen Lang went back to the house. Then I paid a little attention to the spirit spirits who had caught the psionic masters. After all, they are extraordinary, if they break free, as the internal response, Destructive power is still not small.

All the people in this base were suddenly awakened and then immediately entered the battle.

The enemy troops approaching late at night are waiting for the reply of the assassination of the troops. Once they are confirmed to succeed, they can kill them with chaos.

The result was a raid by the blue sea, and a headache was hit!

After eating a loss of the blue sea chasing, neither want to fall again, but also need to pass the battle command, regaining a point in front of Shen Lang. Otherwise, he will be regarded as an incompetent generation relying on his family. He is incompetent and shameless when he is incapable of robbing his sister for his brilliance as a brother!

Shen Lang is thinking about a problem.

What is the immortal from Nakajima?

Before Bihai Huan seems to have mentioned it once, and the strongest psionic master just now is also questioning.

Chapter 698 - Nakajima Immortal (on)

Nakajima? Immortal?

These two keywords have no help for Shen Lang. He does not understand the situation of the city.

However, from the context in which they have spoken twice, one can still guess one or two.

Nakajima should be somewhere in the city of the river basin, where it should be the place where the comprehens gathered.

Immortals, it should be that the comprehensions there are more powerful, and have surpassed the secular masters of the world, even their high-tech places can be called immortals.

Such an analysis makes Shen Lang a great curiosity.

Originally, there are many places in the world that make him curious. For example, the scientific and technological civilization is so developed, and the self-cultivation civilization has a very good soil. The self-cultivators are all bright and existed in harmony with the scientific and technological civilization.

Judging from the status of these “psychic masters”, the cultivation of true civilization is still respected by scientific and technological civilization.

However, there are not many time for Shen Lang to be here. The most powerful genius master is the one that is equivalent to the real world.

Now there are places where they can be called immortals, so that he wants to feel and appreciate it, to see what the so-called immortals in this high-tech civilization world are.

However, curiosity is curious, Shen Lang did not report too much expectation.

Because he can be regarded as a fairy in Nakajima, it can be seen that these “immortal people” will not be the level of true immortals, but only the more powerful comprehensions.

The Luyu Mountain Range began to fight in the middle of the night, and the Shenlang was a good night’s sleep.

He does not pay attention to the situation of the war. If he is not sure, it is a question of chasing the blue sea. He will not be excessively involved. As long as he does not extend to him, he will not disturb the Bihaihuan who is practicing next door. He will not shoot again.

When it was dawn, Shen Lang predicted that it was almost time, and there was no scruples. She opened the door directly into her room with the identity card of Bihaihuan.

Hearing the movement, Bihai opened his eyes.

“Teacher,” she screamed immediately, and then said with delight: “I feel like I have gotten a lot of improvement now, it is your help!”

Shen Lang is of course very clear. She was promoted to the peak of Yuanyuan in the evening of last night. She only knew and stabilized this night.

“Don’t be too happy.”

“Ah?” Bihaihuan was slightly surprised. Is it still not successful?

“I will let you make a few big steps, and you will be happy behind.”

Bihai has a big eyes, “You, you can let me...”

Shen Lang made her leap once in a short time last time. This time she jumped again, she did not doubt. But it is really shocking to say that we have to make several major steps in succession.

After all, nothing can be done overnight. Just like going to school, jumping to the first level is very powerful. Just after jumping to the first level, they are still not familiar with it. Then they continue to jump, which is too exaggerated.

“Yes! You can! You can do anything!”

She soon became full of admiration and said that Shen Lang was a man who had created miracles in her life. It is not surprising that there are more miracles.

“A little bit of movement happened here last night. There should be a result now. You sort it out. Let’s go out to eat together, and go see them and find out, wait until they are empty and practice.”

“Yeah, wait for me!”

Bi Haihuan did not know the situation last night. Since the teacher said that it was an understatement, there was absolutely no problem. She did not expect her brother to be assassinated.

She wants to wash her clothes, and Shen Lang did not stay here, but went out first, sitting and waiting for her.

Feng Yuegu did not participate in the battle, his mission is to protect Bihaihuan.

Under the situation that he was almost assassinated, Bihai pursued more safety for his sister's safety. Even if there were swells, he would still protect the confidant's maple moon.

Shen Lang got up and went to the room of Bihaihuan, and Fengyuegu, who also lived in the nearby dormitory, was found right away.

When Shen Lang came out, Feng Yuegu also came to the rest area.

“Adult, last night chasing the son to lead...”

Shen Lang waved his hand: “I don't have to report to me. I asked Bihai to practice for one night last night. I just finished it. You are ready to eat. If you need it, let me talk to her later.”

Although he does not need to explain to whom, Bi Haihuan would not mind anything, but he still clarified it intentionally or unintentionally.

Let Feng Yuegu understand that last night was to let Bihai Huanhuai practice, just entered her room, but also to check the progress of her cultivation.

After all, he now shows a strong strength. For the Bihai family, he was just a person of unknown origin in the world. He was curious about investigating factors such as taboos, but now he has a strong “value”!

In the face of value, they may use methods to draw together, such as the reverence of the blue sea chasing, the warmth of the blue sea.

It is also possible that... Bihai Chengtian will take the opportunity to call him into the shackles because he misunderstood their relationship.

Shen Lang will not stay here for a long time. Once this is said, if he refuses, it may make Bihai doubtful.

So now I still clarify that he and Bi Haihuan have only the relationship between “teacher” and “student”, but there is no affair.

“Yes. I will do it right away!”

Feng Yuegu respectfully said, then hurried away.

Soon the blue sea came out, then led the waves and went to the restaurant to eat.

Fengyuegu has been arranged, and in the private room of the restaurant senior officer, they have just entered the restaurant, Bihai chasing has arrived.

When Bihai chased him in, he performed a respectful respect and then greeted him with enthusiasm.

“The teacher tutored the sisters to practice, and saved my life at night, did not rest?”

Shen Lang smiled in the heart, this kid is actually a bit of a chicken thief. On the one hand, he is very respectful, as if he is also a student, but on the other hand, he has consciously or unconsciously avoided other people, just in front of the cronies. Like the other generals, they will still consider the identity of Bihai.

“Save?” Bi Haihuan was a little surprised: “Is my brother in danger last night?”

“Happy sisters are practicing for one night. I don’t know if I had a big event last night. If it wasn’t for the help of the teacher, we would be in trouble Bihai chased a bit of awkwardness, also in the room of Fengyuegu, Immediately whispered to her about the situation last night.

Then Bihai Chasing also introduced the results of their layout battle last night. Under the plan and the all-out effort, the enemy suffered a head-on attack. The troops attacked last night were beaten by a seven-eighth-eighth. !

This is the biggest victory since the fall of the Luyu Mountain Range!

The chaos that was originally from the evening of the evening to the evening was so popular that the military was up and down. I don't know what the situation would be after the Bihai family took over.

I did not expect that chasing the son is chasing the son, and once I broke the enemy's night attack, I took a fight with everyone. In addition to high morale, there are also many people who have established military strength.

Of course, the blue sea chase is not waiting for the dawn. Come back and announce the reward directly. Many people have been promoted, and they have announced their merits. They have been hand-shocked and encouraged by Bihai.

Let's gather people's hearts together.

Chapter 699 - Nakajima Immortal (below)

Bihai did not sleep for one night, and now it is just coming from the scene of the award.

Such a large-scale promotion of honours and interviews with meritorious soldiers is naturally due to special periods, and the effect is also very obvious. As we get to the grassroots level, the farther away from the vested interests, the more likely it is to be a direct cronies, and the loyalty is limited.

This time, they did not give them a sense of collective humiliation. Instead, they quickly brought a sense of honor, and many people were able to see the benefits, so that everyone would embrace the blue sea.

Bihai chasing is to thank and talk about the current situation, and there is no time to accompany Shen Lang to eat. He must also continue to implement all aspects, hit the iron and hold the entire army in his hands.

And the external is also to use the high morale, continue to rush into the enemy.

Shen Lang will not care about his companionship. With his identity and his busy schedule, it is not easy to catch up.

However, before Bihai chased the words, Shen Lang let him come close, then reached out and took his head!

This action made Feng Yuegu startled, even if he chased the priest Li Xian, but this also has a light insult, even if it is not on the spot, it is hard to say afterwards.

But he saw Bihai chasing his eyes and became brighter, and then immediately thanked him for leaving, which made him very puzzled.

In fact, there is no problem, Shen Lang shot his head, is a glimmer of energy for him!

Bihai chasing is not a master of psionics, that is, a well-trained and strong ordinary person, but yesterday, after receiving the news, the warships came over immediately, and the countermeasures were also discussed along the way. After that, there was no pause for a while.

Last night, I was beaten by a beggar, and I almost lost my life. Then I went from late night to early morning, and then I organized my merits. All of them are personally involved and have been busy until now.

So even if he is mentally excited, his physical condition is a bit wilting because of fatigue. Shen Lang is through the infusion of vitality, allowing him to quickly restore his state.

The taste of the whole, only Bihai chasing his own experience, so Feng Yuegu is a bit puzzled.

And for Shen Lang, it is just a little effort.

After chasing away from Bihai, Feng Yuegu realized that it was inconvenient to accompany him, and then urged him to go out and guard the guard.

This is a private dining room for private officers, and it must have good results in terms of safety and sound insulation. However, Shen Lang still arranged a soundproof cover, which is convenient for talking with Bihaihuan.

“I don’t know that there have been so many things happened last night. Thanks to the teacher for helping my brother.” Bi Haihuan was quietly listening. Now they only have two of them privately, but they are serious thanks.

She understands that Shen Lang and Bi Hai Cha Cha were only met yesterday. There is no friendship. Everything is seen on her face, which makes her very proud and very moved.

“Nothing, right. I listened to the psionic masters yesterday and mentioned a word. You seem to have said it. I have a bit of a puzzle. What is Nakajima?”

This is the place where Shen Lang thought about it last night. Now, there is no winding around.

“Nakashima Immortal?” Bihai Huan first stunned, then immediately laughed. “I forgot that the teacher came from another place.”

Similar to Shen Lang’s conjecture, Nakajima is a place where a comprehension is concentrated.

But Shen Lang did not think that the scope of Nakajima is great!

This world is not called a country. It is made up of some city-states. The city-state is not the name of the world, but one of the big city states.

In the world’s largest sea area, one of the islands separated from other continents, from the islands in the middle of the ocean to other continents, is the same distance.

In this way, it is like the center of the whole world, and it is also in the center of the largest sea area, so it is called the Nakajima.

It’s just that the average island can describe its size. In fact, it should be regarded as a continent and a continent.

The most amazing place in this island is that the surrounding city-state technology is more and more developed. Until today, it is still impossible to explore and explore!

In other words, like Bi Haihuan, they don't know the specific situation on Nakajima.

But there is no doubt that since ancient times, major city-states have not given up their exploration of Nakajima. It is just that no matter the previous ship or the current spaceship battleship, it is impossible to land on the landing.

Through various scientific means, it is impossible to detect the above situation from a distance.

The more this is, the more curious everyone is.

Since ancient times, Nakajima is the legendary overseas fairy mountain. Later, the mainland and the city-states had more contacts, and everyone found that they all had the same legend, and the legendary places were most likely the same place.

This also increases the credibility of the legend, saying that the island is the place where the immortals live and is the center of the world.

Later, sailing and aviation development have proved that it can indeed be regarded as the central part of the ocean and the center of the world, but there are no immortals on it, but there is still no way to prove it.

It is still possible for everyone to believe that the mainland of Nakajima is a fairy world. On the one hand, it is impossible to explore. On the other hand, it is the existence of a master of spirituality.

The early masters of psionics claimed to be disciples of the immortals of Nakajima. They were sacred and superior.

With the development of the times, there are more scientific analysis and deconstruction for the Master of Psionics. Everyone admits that they are superior, but they will not believe that they are really descendants of immortals.

Just like the performance of Shen Lang, it is far better than the existence of the psionic masters that everyone has seen, so Bi Haihuan and the powerful psionic master last night will say that he is like a fairy from Nakajima.

It is the same mind to explain the magical ability that cannot be understood by ordinary gods and superhumans.

But Bihaihuan is of course only a metaphor. She knows that Shenlang is not from Nakajima, because she first encountered a swell in the dead forest. At that time, Shenlang was still trapped there.

After Shen Lang listened, I couldn't help but have a trace of fascination. If there is an ancient Xiandao and Xianshan, as long as it is powerful enough and understands the law, it will be blocked. In fact, it is not difficult, just like the Tianshan Jianzong and the Tianshan Ice Palace, all use the magic array to hide the mountain gate.

But this is harder as the range is bigger!

For example, Jianzong is not only an entrance, but also an entire valley is hidden. It is more difficult to hide the entrance to the cave than the Ice Palace. It is harder to hide a mountain or an island.

And this Nakajima, according to Bi Haihuan's description, is a mainland plate in the middle of the ocean, that is how huge!

What is even more unbelievable is that the "Imperials" are not hiding this continent, but they still exist, but you can't land on the ship in the past, or the plane battleship in the sky.

With their current technology still forcibly landing, Nakajima still maintains this style, showing confidence and power!

But now there is another question.

Chapter 700 - Armistice, new armor

The entire continent, or a larger continent, can know its existence, but can't climb, can't see the specific situation above...

Such a situation, think about it is fascinating.

However, Shen Lang has a new question. This Zhongdao relies on the magnificent array of thousands of years and tens of thousands of years ago. Or are the ships and warships explored today being killed by the “Imperial Man” now?

So a huge piece of the mainland, if there are many powerful comprehensions living on it, it is not too strange to kill the equipment of exploration without the detection of science and technology.

If there is a grand array, like a giant protective cover to protect the entire continent, then this scale is really amazing, just energy consumption, but also astronomical figures!

This information makes Shen Lang very want to explore the island.

However, since the problems that the major city states have not solved in countless years, nature is not something that he can explore with an outsider.

However, they use a direct method, and Shenlang guess may have another way!

For example, coming from the earth world, or going to a place like a dead forest, if you don't find a space transfer array, whether it is human search, high-tech exploration, or violent bombing, there is no way.

This Nakajima is so huge, of course, it does not require external material resources, and even the vastness of the people and the richness of the material.

But there may still be a transmission matrix that can lead to other mainland sections.

It is very likely that the original psionic masters, the source is the evolution of the practice of the comprehensions on the island.

Of course, this way will not let ordinary people know, will not let the major forces know, the general psionic master can not know.

If you really want to find out, you must have a very high-level, long-established martial art family to know. This is awkward, and Shen Lang can't stay here for so long, and others won't believe him.

However, knowing such a confidence can be regarded as broadening the knowledge, and there is no loss in exploration.

Shen Lang did not appear in front of Bi Haihuan, and it seemed to be a random inquiry.

After the meal, Bi Haihuan also went to understand the battle, and was asked to show her face as a mobilization.

After all, the prince can only play the role of a hero at most, and the princess is a beautiful woman.

Bihai chasing them naturally has prepared a mature copy, Bihaihuan only need to follow their arrangements and lines.

This mobilization is to make everyone feel close and to show sincerity. It is not sent to everyone through videos everywhere, but in addition to some confidential personnel can not leave, others are gathered, personally Face-to-face mobilization.

The soldiers who had just passed through the night battles were very tired, and there were also grief and sadness of soldiers. But after all, it was a fight to win, and there was an incentive for Bihai to follow up.

Now the blue sea is coming out, so everyone is very excited.

They did not have any novelty in setting up Bi Haihuan's copywriting. It is a very traditional approach.

Use the identity of young and female to show up as a victim. Originally, she was very beautiful. Coupled with the recent battles with everyone, there have been many fans. Now I see her pitiful appearance, and I have to come out to apologize for the accidental killing of Changyi and his father, so that everyone will feel pity.

Bi Haihuan's opposition to the idea of reading the stigma has been solved last night. This time she also understood that her appearance was not only for the benefit of the Bihai family, but also for Shen Lang's responsibility to kill the father and son.

Although in a certain channel, information will still be transmitted, but the scope of the spread will be relatively small, the majority of soldiers will not know that it is a smashing wave, will not find the trouble of Shen Lang.

Although she knows that Shen Lang doesn't care, she can avoid being disturbed. She is very happy to do something for her teacher.

Less than a day before and after, the Bihai family took advantage of this once-in-a-lifetime opportunity to completely control the army of Changyi by means of thunder.

Afterwards, Bihaihuan did not participate in the management too much. She also understood that it was useless to work hard with her brothers or other generals to fight for experience and fight for qualifications.

Her specialty is the Master of Psionics! It is her way to take her unique cultivation to be more powerful.

She is no longer on the front line. It is understandable to the soldiers in the army. It must be because of the frequent reading of father and son, and there is a psychological shadow.

In the eyes of the grassroots soldiers, Miss Bihai still insisted on the base, but did not leave, it is already insisting on progressing with everyone.

In fact, Bihaihuan, with the help and support of Shenlang, broke through the realm.

Her current strength is not very strong, it will not consume too much, and there are rich Lingshi here, Shenlang did not use Nedan and more marrow liquid on her body.

It is through his own absorption of the vast aura inside the fine stone, and then instilled in her. This process is more than a hundred times faster than her own cultivation!

From the late period of returning to the Yuan Dynasty, to the beginning of the virtual world, Bi Haihuan has already felt a big leap. But Shen Lang thinks it is not enough!

If you only see the two that you usually read, he will feel that this is still very strong. But the assassination of the group that night, there is a strength comparable to the real world, which shows that this is not strong enough.

Of course, he can't directly promote Bihaihuan to the real world, but he still spends a little more time and try to improve her.

Two weeks later, Bi Haihuan successfully advanced to the middle of the virtual world.

After two weeks of stalemate, Bihai chasing has firmly controlled the army of Changyi into his army, and also played the enemy without temper. The higher level has also been reached. A tacit agreement, signed an armistice agreement.

In the following time, Bihai chasing is still very busy. It is necessary to unify the military strength of this military field. Through the two weeks of scheduling and promotion, it is also disrupted in the middle and upper arms, so as to avoid a rebound.

Bihaihuan was looking for someone to make a hundred times of ultra-elastic clothes made for Shenlang. It was probably taken into consideration that it was rare to see him once, so it was a lot of replacements.

Although Shen Lang did not directly put on the transformation, but tried it with his hand and did not know what high-tech materials, the elasticity is really amazing.

Shen Lang privately gave the Holy Grate to Maple Moon, let him see if the base will be repaired, or else he will be more rude and pity.

After Feng Yuegu learned that his sacred armor had been damaged, he immediately reported the matter to Bihai.

Bihai chased immediately realized that this is a rare opportunity to be close to the world. He did not talk to Bihai Huan, and did not talk to Shen Lang. He directly discussed with the family. I also got support from the family, and then in the past two weeks, I got a set of the highest level of sacred armor!
