

First Strong 701

Chapter 701 - Leave

The holy armor is just a general term, and it is still commonly known as cocoa. It is not a kind of armor, it is a full-scale micro-combat system. In the river city, that is also a high-end goods.

For example, in this base, it is the general-level ability of the generals. Other senior officers also need to look at the identity and see the mission needs. For example, the war spirit team with special missions of the Deterrent Psionic Master is also equipped.

There will always be a sacred armor, which is also because his father is a common relationship, or else according to his level, it is not qualified.

The same is the holy armor, there are also many differences in model grades. For example, the generals should be more advanced, and then focus on confidentiality and functionality. The War Spirit team is a bit ordinary, with a focus on combat and defense.

Of course, the Bihai family is different. When Bihaihuan and Changyu went to the death forest, she was not only equipped with the holy armor, but also reserved. In case of problems, she could save another emergency.

Of course, even if the family is big, it is very precious to her. When I first met, I gave it to Shen Lang. It is not something that ordinary people can do.

After going back and forth, she also received the responsibility of the blue sea for this, but these will not talk to Shen Lang.

Later, the practice of the method taught by Shen Lang, after a few months, contacted Shen Lang again, and promoted her to the psionic master, once let Bihai become a scorpio, acknowledging that her daughter's generosity is also good.

This time, Shen Lang proves his super strength and great value. Bihai will not miss the opportunity again. The highest level is the latest and the latest.

When Bihai chased it, he said that the engineer at the base could not repair it. It took a long time to send it back to the original factory, and he gave another set to Shenlang.

And said that if Shen Lang has feelings for that set, he can send it after repairing.

After all, it was sent by his sister. He hoped that the repair of Shenlang was not directed at value, but meaning.

Although it seems to be random, but after so many days before and after, and Bihai chasing the family to send it, Shen Lang knows that this must be the higher value of the resurrection of the blue sea family.

This time gave the Bihai family a great advantage, and they didn't have anything to do with a holy armor. Although the strength of Shen Lang is getting stronger and stronger, the role of Shengjia will become smaller and smaller, but the two worlds are human beings, and one layer of protection is always wrong.

So he also generously accepted it, saying that the set does not need to be sent back.

After sending away the blue sea chasing, Shen Lang did not immediately test himself, but waited until the blue sea was happy to practice the work, and directly showed this to her.

"Is this what your brother gave you?" She was obviously surprised: "This is the latest and most advanced, much better than mine. My brother may have it, but he can't have spare..."

"It can be guessed that General Feng Yue should tell him, he told your father, this is your family agreed to ship it separately."

Shen Lang thought for a moment: "You said that it is much better than yours? Then give it to you, you will give me your own."

"No, this is for you, I can't." Bi Haihuan also blushed.

The teacher obviously didn't think much about it. If she could exchange with her, now she used it, but she was wearing it everyday. It was not like the last time, it was a little embarrassing.

Then she added another sentence: "This time because of the teacher's relationship, I have done a good job and improved my strength. I believe that the family will pay more attention to my value and safety. I will equip me with a new sacred armor. You will stay here. Let's go."

Seeing Shen Lang still has to give her the meaning, Bihai cheerfully opened his attention.

"I will check it for you first to see if my brother has done anything for you." Then she equip the sacred armor and began to check.

Shen Lang did not care much. Anyway, he would not be here for a long time. When he returned to the earth, the Bihai family would not find him with the most advanced scientists and the most advanced equipment.

After Bi Haihuan carefully checked it, she unloaded the holy armor and gave it to Shen Lang.

"Unsurprisingly, my brother really made people move. He should be malicious. He just wants to contact you at any time. But I have already done everything. Now it is brand new, only pre-store my contacts. ""

She did not say anything, just said that the meaning of the family, as the sea to chase, so as not to let Shen Lang dissatisfied with her family, to kill is also to prove that the Bihai family is not malicious.

Shen Lang thought for a moment, "You will pre-exist with Feng Yuegu and Bihai."

"Ah?" Bihai was stunned, and there was a pre-existing blue sea chase, which she had just killed.

Shen Lang smiled and said: "In the future, you will have more time to practice, and I will be out of my mind. It is completely out of date. When you can't contact you, you can try to contact them."

Bi Haihuan immediately awakened, she wants to practice, and her brother and General Feng Yue out of work, will keep in touch at any time. In the end, the teacher still wants to contact her, which makes her warm.

After re-preserving, her mood fell again.

“Teacher, are you... are you leaving?”

“Is this already finished? You will all leave here.”

“I am saying, you... are you going back?”

The first time I met, there was no parting feeling. The second time was only half a day, even if I didn't give up.

Now I have been with each other for half a month. Shen Lang is carrying her cultivation and helping her to improve. It is a completely different attachment. She is very sad when she thinks that Shen Lang is leaving.

There is nothing to disturb the waves these days. In addition to helping the blue sea to advance, he himself is also practicing. The inner iron of the iron armor is not used, and the marrow fluid absorbs a considerable part.

The effect after refining and chemical is that his body has been greatly strengthened and strengthened, and the flesh is quite strong like a “iron armor”.

In his spare time, Shen Lang is also a bio-light brain network. He has learned about the situation of many river-states and even the worldThe mountain outside Tallo that he once appeared, the last base, and the Luoyu Mountain The battlefield, and the forest that appeared in this billions of rings. Although the four points are far apart, they also have a general orientation.

Frankly speaking, he really wants to go there alone. Since the last time the forest encountered the armored red dragon, then the world must have many other beasts.

The information in these aspects is not found in a rough way, and he needs to go further to the site for investigation.

But this is not so easy. The last forest was a great scope. If it wasn't for the fear of the war, the spacecraft would be driven very fast, and it would take a long time for them to come out.

The territory of this world is also extremely huge, including the Central Island, which is a vast continent.

Sometimes Shen Lang thought, put it a few hundred years ago, from the earth inadvertently to here, perhaps everything is stunned, completely unintelligible, unimaginable, perhaps also think that this is a magical fairyland?

Chapter 702 - Bi Haihuan Colonel

Shen Lang smiled and said: "I am not leaving yet, I am ready to help you upgrade to a higher level."

Weighing the pros and cons of price/performance, Shen Lang gave up the idea of exploring alone in this world.

Originally filled with the ambiguous Bihaihuan, I heard this and immediately jumped up in surprise.

"Great! Great!"

Shen Lang will leave, it is a matter of time, she knows that it is impossible to let him stay. But it can be great to stay for a while.

"Next, where are you going?"

This question has made Bihai happy.

She has been concentrating on cultivation for the past two weeks, and has not considered other issues, including the wars in front of her, and did not consider the post-war arrangements.

“I was actually coming to the actual exercise. After I finished, I would go back to the base of General Feng Yue and continue to be trained. But now the situation here has changed a lot. I don’t know if I will arrange a position for me in this military field. of.”

She can’t have more decision-making power, and it is arranged by the family elders.

Shen Lang shrugged indifferently: “Nothing, whether you stay in this military field or go back to the training base before, I will stay with you.”

“Yeah!” Bihai was excited and excited.

As children of the Bihai family, they have shouldered heavy responsibilities since they were young, unless they are too sloppy, or they can’t be embarrassed.

This family needs everyone to work hard to maintain, to work hard for parents, to be responsible for future children, and to accept training far better than ordinary.

In the past year or so, Bi Haihuan has spent all kinds of training. In addition to the dead forest they met, they also traveled to many other no-man’s areas. But the environment is a bit hard, but it is still a patch.

In the training base, it is even more difficult, weapons, mechs, warships, spaceships, and strategic tactics. Exaggerated, it is almost General Feng Yue who led the entire base to train her alone!

Therefore, her pressure is also very big. After coming here, the real participation in the battle, the guns will bomb the enemy, and they may be bombed at any time, it is to face the dead and wounded.

But the arrival of Shen Lang, let her rest in peace, everything can be left unchecked, she only needs peace of mind to practice, there are teachers here, there will be no danger, including the brother, will not Interfere with and direct her.

Even with the help of Shen Lang, the continually improving cultivation process is very painful, but she is greatly relaxed and relieved in spirit, and her heart is eager to maintain such a state.

Soon, it will be finished here, Bihai Chasing is to stay in this military area to continue to manage, he and Bihai Huan Shen Lang met once and asked for the advice of Bi Haihuan.

According to their father's meaning, and his own meaning, I feel that I can seize this opportunity and let Bi Haihuan practice directly. There is no better exercise than personal practice, and this is an unexpectedly obtained army. Give her a toss, and it will not hurt if it is going to go wrong.

It's just that she is too young after all. This is also the first time on the battlefield. Although she has worked hard and has certain military strength, she still does not let her leap to the generals, so she can't directly give a large piece of land, or she has to be in another. The generals are experienced below.

This is also the best arrangement, can give her great exercise, and the old man checks, will not really toss out the problem.

Today's problem is the concern brought by Shen Lang!

Because of the existence of Shen Lang, let the sea and the blue sea chase is to arrange work for my daughter and sister, and must first listen to his opinions. If you want to let Bihaihuan stop the debris and go back to practice for a while, or have other arrangements, they can only listen.

The meaning of the father and the brother is very obvious, and Bihai Huan can not help but entangle.

She personally tends to go back and continue to be trained, because it is the team with Maple Moon who arranges everything, she is more passive training. If she is allowed to manage an army, then all the big and small things have to plan for themselves.

In this way, she will not have so much time and Shen Lang together, even if she stays behind, the time will not be too long, one day and one day less...

“I think the advice of chasing the son is good, the opportunity will not be there often, miss this time, you have to spend a lot of time.”

Shen Lang gave a pertinent suggestion. The road of Bihaihuan has already been decided, because his arrival has given a new opportunity. Now the biggest direct beneficiary is the blue sea chase, of course, can not let Bihai happy to miss.

“Then listen to the teacher.”

“Good! Good! Then I will arrange it right away.” Bihai chased a sigh of relief. “How about the generals in Mongolia?”

“No problem.” Bihai said faintly.

To arrange for the sub-domains of other generals, everyone is similar. The degree of loyalty and heart, certainly can not be compared with the maple moon, but Feng Yuegu has his own work tasks, just her early coach, not her personal.

Bihai chasing the other side is already ready, and it will be executed immediately.

Because it is the children of the Bihai family, in addition to the battlefield military skills, the qualifications of other military academies, all that can be obtained have already been obtained for Bihaihuan. So when she came here, she had already got a lieutenant degree, which was even higher than usual.

Of course, many military exercises have now been put on her head. For example, the change of the situation that night will count the counterattack, and the credit of Shen Lang will be counted as the strategy of Bi Haihuan. The rescue of the blue sea chase is also completed by Bi Haihuan.

As a result, although he was still unable to go straight to the general, he also took the opportunity to push her to the colonel and then to work under General Meng.

As a girl, even if she is on the front line of the battle, she will become a colonel in about twenty, even if it is the child of Bihaijia is very rare.

General Meng was called Menglu, the one who was in charge of the Battle Corps in the Changyi Army. Of course, he knows the inside story. He also knows that Miss Bihai is still a master of psionics, and there is a super-powerful teacher. Naturally, he does not dare to despise it.

He is a veteran, and it is a clear distinction. If it is not the case of growing up to the usual level, and there is a court of resistance, the Bihai family will not engage in these generals.

Bihaihuan is so young, so excellent, and has been trained by the Bihai family. It is the process of training and training that does not threaten to replace him.

After everything was done, Bihaihuan and Shenlang together, and Bihai chasing, Fengyuegu they bid farewell, followed the generals of the battleship, returned to his garrison sub-domain.

Along the way, Menglu is the highest general, but he is humbled, so to Miss Bihai, especially to this mysterious and powerful psionic master.

This is the power of one person to change the fate of a military field and change the situation of a war!

Chapter 703 - Top floor dinner

In the military division of Menglu, nature is not in the city, but it is not like the base of the Luyu Mountain Range, not far from the city.

So this time, Bi Haihuan also took him to visit the city of the river city, regardless of skyscrapers or various means of transportation, far more advanced than the earth.

However, Shen Lang also noticed one aspect, that is, gold is really rare here, and the jewelry created is high in price and rare.

Needless to say, of course, not for his own sake, but for the sake of Bihai's stay here, he can get better care.

Shen Lang is not coming to see the world. For the general urban scenery of science fiction movies, just strolling around will do, and there is no fascination.

This time, he has a certain interest in the advanced technology here, but considering that he has not developed into this aspect, even if it is brought back, it does not make sense, and he will give up.

Gold is rare, but when the sun comes, it gives a one-two pounds to Bihai.

When I came back to the city, I also found a chance to see Menglu and gave Menglu a gold bar.

“No, no, how can I accept the gift of the master?” Menglu quickly refused.

“Receive it! This is not a Bihai family, it is my own. It is not a temptation for you. It is for you to give Miss Lady a guilty guilty and create a little jewelry. It is my love with Bihai, I have to take care of you. Meet up!”

Menglu is really very nervous, not only does not dare to hand the gifts of the Bihai family, nor dare to accept the gifts of the waves.

But Shen Lang said so, he did not dare to refuse.

“In this case, then I am disrespectful, thank you for the gift of the master. I am actually relatively poor, and I really don’t have too much valuable jewelry for my family. As for the master and Miss Bihai, it is my pleasure to come to me. Take care.”

After Menglu was accepted, the rumors revealed that he did not search for corruption.

For these, Shen Lang does not care at all, and violent corruption does not matter to him.

When Shen Lang turned and left, Menglu quickly rushed forward and stopped him.

“Master Shen, I have a thing, I want to invite you and Miss Bihai in the past... I don’t know if I can enjoy a face to attend a dinner party?”

“Well?” Shen Lang looked at him and frowned slightly.

The people here don't know him at all, and they don't need to deal with them. They are too lazy to socialize.

Menglu's face was a bit embarrassed, and he quickly explained: "Because we won the victory, celebrities from all walks of life prepared a dinner. It was a celebration and condolence to the military, but also raised some money, donated to the soldiers who died and wounded, and the theater was damaged. People and places. So..."

Shen Lang understands this, Meng Lu actually does not want to invite him, the real want to invite, influential, of course, is Bihai Huan, but does not invite him to appear disrespectful to him.

He thought a little bit about it. Bihaihuan came to the beginning and wanted to get a better foothold. He still had to have a good relationship with Menglujun and the various areas of this area. At the very least, he could not be proud.

The dinner was a gathering of celebrities, but they squirted a little money and added up to make a real contribution to the casualties and the war-torn areas.

Not to mention the charity of charity, simply giving money is the easiest way to buy people's hearts!

If she wants to make this money personally, the burden will be heavy, and she can participate in the dinner, which is also a win-win situation. Celebrities from all walks of life must be vanity and face, and Bi Haihuan can bring real benefits to the military.

The blue sea is gone, and the waves are going to go naturally. At this sensitive time, she still has the risk of being assassinated.

"I can raise money for casualties. Miss Bihai is definitely willing. I certainly have no problem, but I am an irrelevant outsider, is it right?"

When I heard the words of Shen Lang, the heart of Menglu's hanging was put down and quickly nodded.

"Of course! You are a super psionic master, and it is an honor for us all to attend the dinner."

“Okay, there are no outsiders here, no need to come to the virtual. Ordinary people don’t know and don’t care about me, they will want to see Miss Bihai. You don’t have to worry about my feelings, I will be accompanied by Miss Bihai. People go forward and don’t need to give me a special greeting.”

“This...” Menglu was a little helpless and disappointed. “Okay! Master Shen is indifferent to fame and fortune. It is really a model for me to admire!”

Shen Lang secretly sneered, Menglu must be arrogant, but did not dare not pay attention to him. If you really want to be the protagonist, it will make them helpless.

Going back and talking to Bi Haihuan, she knows that she can raise money for the casualties. She readily agrees. Although the army did not wear a dress or something, but now the identity, it is good to wear military uniforms.

She would like to buy clothes with her own waves, but Shen Lang said that she was present as her entourage, and she did not want to attract attention, she could only give up.

This time, the dinner was started immediately after receiving the news of the victory of the battle.

Although it is still far from the front line of the Luyu Mountain Range, it is within the scope of the Changyi-controlled military area. There is no direct benefit to defeating it. If it is defeated, it will most likely spread.

So after the news of the victory, the preparations began immediately. And perhaps this may also have the influence of the Bihai family, releasing a signal that everyone feels that the war that has always been deadlocked is quickly settled after the sea has been chased.

Shen Lang and Bi Haihuan traveled together in the military vehicle of Menglu. There are also many soldiers who are protected. Menglu is also worried that the Bihai Chasing will become the target of assassination.

The destination of the dinner is on the top floor of the tallest hotel in the city. It is a revolving restaurant. Dining on it, the whole restaurant will slowly rotate to enjoy a bird’s eye view of the city from 360 degrees.

When their military vehicles arrived, local celebrities had already arrived. For security reasons, the organizers of the co-organizers did not let everyone wait outside, but first arrived at the restaurant.

Menglu did not carry family members. This time he had to socialize too much, but he also had to protect the safety of Bihaihuan and take care of his family.

They went directly from the underground car park to the top floor.

When they led the staff into the restaurant, they remembered thunderous applause. Although Shen Lang followed the identity of the followers, he also consciously walked on the side, but in the environment including the followers guards are military uniforms, he appeared to be special.

However, the beauty of the blue sea is beautiful, and the background of the Miss Bihai family has absorbed the attention of all people.

Originally, everyone came for General Meng. Today, I learned that Miss Bi Haihuan will come, and it is an unexpected surprise. After all, these celebrities are just local celebrities. Compared with the city-state giants of the Bihai family, the gap is too far.

Chapter 704 - Crystal spar?

After entering the restaurant, Shen Lang went to the corner alone. He wanted to protect Bihaihuan. He didn't need to be close to him, and he could pay attention to whether there was danger.

Two people, Menglu and Bihaihua, have undoubtedly become the focus of the audience and are surrounded by everyone.

In addition to all kinds of praises, everyone is proud to be able to speak up close to them.

And they all have psychological preparations. Today's dinner is also purposeful, and we can't be cold and arrogant.

After waiting for some enthusiasm, there are fewer people around. But it is not everyone's enthusiasm, not to eat, but a few of the most identifiable guests, through the way of discourse, so that you do not bother the two guests.

They are also toasting and then telling about the fundraising session later.

Fundraising is not for ordinary people, but the base is large. In fact, the total amount is limited, mainly for these celebrities.

To make them willingly donate money and donate more money, of course, it is necessary to give a certain exchange.

Joining General Monx and Miss Bihai at the dinner, this vanity and fame is the exchange they want to get. Going further, it will not be a direct donation.

The fundraising session will be an auction activity.

There are two types of competing products, one is donated by celebrities. For example, famous painting and calligraphy, on the money can not compare with the rich, you can donate your own paintings and calligraphy. As well as a variety of other works of art, collectibles, and then the rich are bidding for a lot more than the market price.

The artist who made such a contribution made a contribution, and the high price also raised his position; the rich man's money will not be just a short-lived reputation. The physical thing brought back is not cost-effective, but it has a witnessing significance.

The other competing products are from the military. Of course, they will not be weapons and equipment, but also the meaning of the figure, such as discarding warheads, military uniforms, some ordinary things that have captured the enemy, and some military forces that do not involve regulations and secrets. thing.

On the whole, Miss Menglu and the Miss Bihai family came in person, it is already a very large face of support, military supplies only mean something, mainly relying on other items.

These items are also already ready, and the price is set, and it is pre-determined.

Menglu is a general. Of course, it must be a little bit. When it comes, it is the latest. It will be the earliest. Therefore, eating is also a simple transition, and soon everyone will turn to the scene of fundraising auction.

When bidding, Shen Lang is next to Bi Hai Huan, and the other side is Meng Lu. Their position is the best.

The auctioneer, who is presiding over, will inevitably come to a set of words, praise the blue sea chasing, Bi Haihuan, Menglu, they will lead the army, and the enthusiasm of personally coming in, and then start bidding for various items.

Shen Lang has no interest in these things, nor will he pay much attention to the price. Who has bought it? He is paying attention to the entire venue, as well as the upper and lower floors, there are no abnormalities, so as to avoid danger.

However, no abnormalities were found around, but in the competing products prepared in the background, there was a little abnormality!

“What is the 17th competing product?” Shen Lang smelled Menglu from the side of Bihaihuan.

“Ah?” Meng Lu stunned. Of course, he didn’t pay attention to it. He just cared about how much money he could raise.

However, Shen Lang spoke, he did not dare to neglect, and quickly let the adjutant next to take the information.

“Hey! This is a spar.”

“Crystal?” Shen Lang frowned.

Menglu busy explained: “Similar to spar, it has a certain energy, but it can’t be extracted. The effect is much worse than spar, so it is called spar. Because there is no value, so only some people are rare. And the collection.”

Shen Lang nodded and said to Bi Haihuan: "I will take it for you later, I want to see it."

"Okay." Bi Haihuan nodded immediately and promised to do something for Shen Lang. She felt happy.

Not to mention the spar, the high-grade spar (the finest stone), she also sent a hundred waves before.

Menglu was standing next to his ear, and he said, "This is a smash! How can I let Miss Bihai come forward? I will let people come to the master in advance!"

This is to give them money. He asks for one, not a problem, but only a little less.

Not waiting for Shen Lang and Bi Haihuan to open, he immediately told the adjutant to go first. Since Master Shen Lang likes it, I don't want to go on stage to bid directly.

As for Shen Lang, he didn't pay attention to it. How could he suddenly ask the No. 17 competing product, and Menglu did not have any surprises. With his ability, what did this count?

Menglu spoke, and the adjutant personally passed, of course, it was done right away.

In a short while, the adjutant personally sent the box containing the 17th competing product to Shen Lang.

"How much was this originally prepared for bidding?" Shen Lang asked.

Meng Lu's anger's face was raised, and only a few of them could hear the voice: "Are you not playing my old face? If it weren't for you, we are still dragging on the battlefield. What is this?"

Next to Bihaihuan also said: "The crystal spar is not worth much, the teacher will accept it. If the value is extraordinary, I will make up the money."

Menglu whispered: “To be of extraordinary value, others will not be willing to donate it. Just say it!”

Shen Lang nodded and expressed his gratitude.

The process of auctioning behind has continued, and no other items have caught the attention of Shen Lang.

Bihaihuan and Menglu are very curious about why Shenlang is interested in spar, but Menglu does not dare to ask, Bihaihuan is also enduring.

After returning to the military camp dormitory, Bi Haihuan asked.

Shen Lang opened the box took the kind of spar out.

“This thing is useful to me, I like it very much.”

He just said a touch of faintness and did not elaborate. Because this thing... is the inner bee of the senior beast!

If you don't make it clear, you don't trust the blue sea, but you have to explain what is Nedan, and you have to involve the high-spirited beast and beast. There are more things to do.

There are a lot of spiritual stones here. Shen Lang has already known it, but I did not expect that the rare inner Nei Dan is more rare than Lingshi. It is actually regarded as a kind of “spiritual stone” material that is much worse than Lingshi. It is simply a violent thing. !

Useful to him, he likes it!

This reason is enough, Bi Haihuan did not ask more. Just like when I met in the forest, the teacher was in desperate need of a spar. It was not too good.

However, since she knows, of course, she will not forget it. She secretly decided to contact the family immediately and let the teacher collect some spar.

Chapter 705 - Collecting Nedan

When he was alone in his dormitory, Shen Lang carefully studied this “crystal spar”.

This is indeed a Nedan, but it is not newly acquired, but it is a collection of Nedan in some years.

Why do they say that they have the same energy as spar? It is because Nedan has a little spill of energy, which is why it can be discovered before Shen Lang.

In essence, Nedan and Lingshi are similar, but the way of formation is completely different. Their use of the energy of the stone is in a scientific way.

For Nedan, if you use the same method to extract, it is naturally impossible to extract. Probably because only a little energy of the spill is detected, but it is not extracted, so in the watershed city where the high-grade spar is a big one, there is no more research on this worthless thing.

Although its collection year should have been no less than ten years, because of the limited spillover, the energy value of Nedan is still more than 90%.

This is a windfall, but the value of one is still limited, but the reaction of Bihaihuan and Menglu is to let Shenlang inspire thinking.

Both of them know that this is called “crystal spar”, and many people should know that there is such a thing. In this case, even if it is rare, it should be compared with the spar that is common here. In terms of quantity, there must be a lot of “crystal spar”.

Where did these Nedan come from?

This is not the same as spar. When a spar discovers a mineral deposit, it can mine a huge amount. Can Dandan must be a high-level beastly beast with a certain degree and a long period of time to consolidate one.

The rogue “class spar” is the inner beast of the high-level beast that was hunted!

There are so many beasts here, and the waves are not strange, but they should be in the virgin forest far from the city. Who can kill them?

Master of psionics here? There should be not too much of this ability. Moreover, their living environment is very good, and the Lingshi is so big that they simply can't go to the virgin forest to try their luck.

Going to experience like Bi Haihuan and Chang Yao, killing with weapons?

In theory, it is possible, but the problem is that there is such a strength and qualification to go to the original zone to experience, basically have a lot to come, spar is not lacking, how can we deliberately bring back these "class spar"?

There is no reasonable explanation for how to think about it, but this situation is not good for him to discuss with Bihai.

On the second day, in terms of the preparations for the dinner, the money raised was sent to the military, and the media also reported the grand occasion.

Because of the appearance of Bihaihuan, everyone's enthusiasm is high, and they all want to show their financial resources in front of her. The younger one is to smile for Bojia people, and the older ones are eager to be favored by the Bihai family.

In general, the money raised far exceeds the tone of Menglu.

Menglu once again brought Bihaihuan, and all the officers and soldiers in the military divided the field, announced the news, stressed the concern of Miss Bihai to everyone, and said that they would distribute the money, all the dead and wounded brothers, the meritorious soldiers, including Everyone who returns from the battlefield has a copy.

No matter how much money is spent, it is also a comfort and a sense of belonging to the soldiers who return from the triumph.

There is no blue sea chasing here, Bi Haihuan is also a brush to feel the presence.

After they finished, Menglu knocked on the door of Shenlang.

“Master, do you bother to practice?” Menglu is still full of awe in Shen Lang.

When the whole head is blown up every day, it is next to him, and he is quite shadowy.

“come in!”

“This is the case...” As soon as he came in and closed the door, Menglu immediately offered a box.

“After returning last night, I asked who the kind of spar was donated, then contacted him and asked if he had more spar. Although the person did not, but knew other people and helped I finished the acquisition and just sent it.”

When he spoke, he opened the box with three spar.

“Since it is useful to the masters, Menglu is also a little bit of power, but also hopes to laugh!”

“I don’t have the money, I can only let Bihai Huan help me out...”

“Hey, what you said! When you sent me something yesterday, I was not polite with you. It is my pleasure to be here as a guest.” Menglu quickly said that he did not need money.

Shen Lang thinks about it, gold! The value here is even bigger, and it can also be used as a hard currency.

“Okay! I took it, this is my little return.” A wave of gold appeared in the hands of Shen Lang and was thrown to Menglu.

“No, no, I don’t mean this, you misunderstood...”

“I accept your kindness, this is not a transaction, just a little return to me.” Shen Lang raised his hand and motioned him to accept it.

“Thank you, thank you!”

If Shen Lang is high on the top, or even asking for him to search, he will be upset. Now I am so polite, do not say value, just use the “return ceremony”, let him feel a lot more comfortable, and leave with joy.

Shen Lang checked a lot, these three Nei Dan, are not new, and some may have been for decades. In general, the value is still well preserved.

Menglu collected three pieces so quickly, so that Shen Lang has a good heart to buy it here, it is almost to be sent!

Not to mention that it is not easy to get a Nedan. It is not easy to find a high-ranking beast. The last time they went to the death forest, they will get one.

However, if Monroe continues to collect it, it is estimated that some of the nearby ones have already been collected. Want more, only through the Bihai family.

Bihai’s family is going to open to Bihai, and he doesn’t feel very good. After all, when he first came, he gave him the hundred fine stones for his collection.

Last time he was embarrassed to ask her Santa, only to find the repair of Feng Yue.

Now it is not in a place. If you cross the blue sea and look for the blue sea to chase them, it will make her feel bad.

If you think about it, forget about it. Four inners are already a lot of surprises.

In the following time, Shen Lang continued to assist Bi Hai Huan to enhance his strength, and it took another half a month to upgrade her to the late stage of the virtual world.

This has already made her a huge difference, but it will be more difficult to raise it to the peak in a short time.

Shen Lang did not continue to absorb her attention to Lingshi Aura but began to teach her some of the methods used, many common small spells. In order to avoid her empty mana, it will be a pity that it will not be used.

“Teacher, this is what I sent to me at home today. Guess what is inside?” Bihai was excited to hold a metal safe.

Shen Lang looked at it and smiled and said: “Crystal?”

Bihaihuan couldn't help but grin: “Sure enough! There is nothing to win you.”

However, Shen Lang can guess that she can feel it, she would not have been surprised, and continue to be excited to open it.

“I asked my family to collect it for me. They have to inquire and collect it, and then transport it here, and it took a little time. Look!”

Open the metal safe, which is a dozen or so spar inside!

The Bihai family's handwriting is different.

Chapter 706 - Final must

Shen Lang was a little surprised at the blue sea family's handwriting, but Bi Haihuan was a little embarrassed.

The collection of Menglu has sent three, of course, will let her know that this is also sold to Bihaihuan.

Menglu added up to four, she used the relationship of the blue sea family, only got a dozen, of course, I can't say it.

“The value of this thing is not too big. There are not many people in the collection. It is difficult to find more in one time. But since the teacher needs it, I will definitely pay attention to it and collect it for you.”

Shen Langben wants to say no, but the words are held back.

“Well, collect it. If you can know their origins, you can also record it. But then try to keep a low profile, don’t make a sound. And... I am going to tell you the secret of this thing, but you have to promise not to say it!”

He didn’t want to say it. After all, there is no effect, and it is uncertain.

But Bihaihuan got him more than a dozen Nei, so he was too embarrassed to take such a big deal.

“The teacher is relieved, I will be confidential!”

Bi Haihuan is also judged. What should be said and what should not be said, I have discretion in my heart. On the one hand, it is related to her own value, on the other hand, it is also related to the safety of Shen Lang.

Shen Lang took Nedan all over, left one, and then shielded her around, let her get ready for the game.

This month, the teacher is carrying her cultivation every day, and she absorbed a lot of aura and instilled it in her, so she immediately cooperated.

However, her heart is puzzled. Even if the teacher has the means to extract the energy inside, this energy is not comparable to ordinary spar. Is this necessary?

“Take it down!”

“what?”

Bihai is a bit of a shock, spar is an energy ore, how can it be swallowed?

When she saw Shen Lang nod, she confirmed that she had not heard the mistake.

“Teacher, do you really want to swallow it? Will there be... stones?” Although it is completely obedient to Shen Lang, it is too unscientific.

Shen Lang ignored her pitiful eyes and pointed her mouth.

Bihaihuan was helpless, and she could only take care of her heart and swallow up her courage. The teacher will never harm her...

“Don’t think that it is a stone, now I teach you how to refine it, listen!”

Shen Lang seriously passed on the method of refining the inner Dan, and still took out the Lingshi, while instilling and instilling the past.

Bihaihuan has been swallowed up, and he has listened carefully to the teachings of Shen Lang. While listening and exploring the connection, he tried to refine the spar.

Time passed by little by little, when Nedan began to be refining, the energy that emerged gave the great shock to Bihai!

With the help of Shen Lang, through a whole day of hard work, she completely refining and absorbing that inner dan, plus a lot of aura filled with Shen Lang.

I have just broken through to the late stage of the virtual world, and now it has broken through to the peak of the virtual world!

“Teacher... I feel that I have made great progress, and that kind of spar has such a big magical effect?”

Shen Lang nodded: “So, this is a secret! When I am not there, only you know, understand?”

“understand!”

This is a project that scientists have long given up without scientific research value. The number is too small, and there is really no value other than scientific research.

Now I find that it contains extremely powerful energy, and it can be re-refined through swallowing. If it is transmitted, it will inevitably affect it.

“This is what I told you before. You can also collect it in a low-key way, but not for me, you can use it yourself. Also, pay attention to the source and write it down.”

Shen Lang solemnly confessed. But I don't know if she can accept it or not, saying that this is the inner beast of the senior beast.

“Happiness remembers!” Bihai Huan seriously agreed.

“Your strength is improved by four or five levels. The general psionic master is not your opponent at all, and you can walk sideways after walking.”

Shen Lang is pleased, let Bihai can't help but laugh, where she needs to go sideways, no one dares to stop her.

“I should go too...”

Her smile solidified, and it became clear that the teacher deliberately made a joke to make her happy, so as not to say that leaving her would be sad.

Although she had been prepared, and had been worried about his departure for the last time, she stayed for another half a month, but when she heard the message to go, her tears could not help but slipped down quickly.

“Teacher, can you not leave?” She whispered in a whisper.

“I have to leave a thousand miles for a long time. I have been here for a long time.”

“Send a thousand miles...you must have a different...”

This sentence makes the blue sea happy in the heart is extremely uncomfortable, to send a thousand miles to the end must be a different, indicating that it is destined!

Although she knew that everyone was a man of two worlds, she was able to accept it the last time, but this time it was really sad.

“but.....”

“But what?” She immediately grew her tears, hoping to hear a reversal of the left.

“However, there is no difference, how come the joy of reunion?”

Shen Lang reached out and wiped her tears: “You are very happy to see me because of expectations and surprises. If we are all together for more than a year, you will be bored with such teachers... ”

Bi Haihuan shook his head hard and his tears continued to flow down.

“Do not worry, I will definitely come back. Just like this time I want to train you to be stronger and more assured. I will come to see you from time to time.” Shen Lang gave a promise.

“Sure! The teacher must come, and not too long!” Bihaihuan said quickly.

“Well, I must come often, let you see bored.” Shen Lang then helped her wipe her tears.

At this time, Bihaihuan took a deep breath and greeted him with his hand. He looked up and kissed the lips of Shen Lang directly.

This is what Shen Lang didn’t think of. The lips not only felt the girl’s breath, but also the salty tears.

He sighed and reached over and grabbed her back.

He is also the way to let her express her feelings, but she did not take the initiative.

After a while, Bi Haihuan's mood stabilized a little Sorry to come out of his arms.

"I... I just... I will let them collect some for you, you will wait a few more days..."

Shen Lang grabbed her hand and said seriously: "I still have to leave in a few days. Just like this! Now I have something to tell you."

Bi Haihuan can only press away from the shackles and listen to his instructions.

"You have improved four or five realms in a short period of time, and your mood and operations can't keep up. In this respect, you need to train yourself. Otherwise, you may not be able to bear it. If you accidentally shot, you may also Let others can't stand it!"

"I know." Bihaihuag answered.

"There are other spells that I have taught you newly. These are the uses of your power."

"I must practice well. I can test me the next time I wait for you."

"it is good."

Chapter 707 - The original road cannot be returned

Shen Lang stayed for two more days, confirming that Bi Haihuan had a better understanding of her strength in the virtual world, and that she understood the magic and other learning, and then left Menglu's military division.

The last time I came, it was Bihaihuan who gave it to Fengyuegu. This time, she personally drove the spaceship and sent Shenlang back to the forest.

It is not difficult to find the area in the city of the river basin, but it is a virgin forest that does not know how many countries are so large. It is impossible to get to the point of hundreds of millions of rings.

If you can find it out slowly, even if you can do it, you will not know how long it will take. Fortunately, their positioning is very precise, Bi Haihuan directly followed the point where he first picked him up and drove the spacecraft.

After saying goodbye to Bihai, watching the spacecraft disappear into the sky, Shen Lang did not stop, and rushed back to the billionaires.

Feng Yuegu took his place, and there was a little distance from the entrance to the transmission array. At that time, I thought that I could not alarm the flow of the south stream of the red dragon skin.

And they are far from the entrance to the place where the iron armor is in the red dragon.

However, if it is reduced to a few tens of miles, it will not be a problem. If you go through it again, you will not get lost.

Going back again, he passed the place where the iron armor was the dragon, and he saw a large skeleton.

He left only a little more than a month. Normally, such a small mountain of meat is impossible to rot so quickly, let alone become a bone.

The skin, the gluten or something, it should be Nanliuchuan, they got rid of it, the blood was drained by him, and the rest is the dried meat. It can be said that it can stay longer.

Nanliuchuan, they should not have such a large space to move everything away, and the extra flesh should be smashed by other beasts in the forest.

Shen Lang simply looked at it and was ready to leave.

But immediately the eyes stayed on the ground below the skeleton.

There, he saw a piece of familiar stone.

In the dead forest that year, the golden giant scorpion guarded by Count Dracula squatted on a piece of such a spar, crouching in a cave to absorb cultivation.

There is also a stone like this here, not necessarily exactly the same, but still similar.

Shen Lang was a bit puzzled. When they came here, they were attacked by the iron armor Red Dragon. The scene was unchanged. The traces of the damage caused by the iron armor and the dragon, and the big tree that broke and burned the canopy were proven.

At that time, it was confirmed that there was no such stone at the scene. Otherwise, even if he was negligent, they could not neglect them.

Then why did this happen after a month?

This can't be self-emerged, nor can it be a beast to be hosted here.

Shen Lang carefully identified the specific position, and then compared the bones, there is a guess that may be more reliable.

This stone should have been in the body of the iron armor!

At that time, according to the ancient records of the iron armor, the dragon wave said that there would be a special special spring in the vicinity of the "iron-water magma" before it evolved into this way.

It seems that it should be the reason for this thing!

This fiery stone has great benefits for them. However, the gold giant is still not enough, but it is absorbed at a close distance, while the iron armor is able to directly swallow and absorb slowly.

Feel a bit, this fiery stone is also more restrained, just like the inner city of the rivers that have been collected for decades, there is not such a fierce energy spill, so he just missed it.

When the iron armor red dragons were killed on the same day, including when they peeled and cut the internal organs, they were covered up by the strong atmosphere of the armored red dragon itself, and did not find this. I wanted to be followed by other beasts, or carnivores ate the dried meat on it, and then the spar fell on the ground beneath the bones.

Shen Lang couldn't help but laugh, this should be considered very valuable, but the Nanliuchuan brothers have been busy for a long time, or missed it.

But that's just the surface, and there's still a lot of energy in it.

After collecting it, Shen Lang was afraid that he would miss something any more, and then spent another time, checking the bones of the iron armor from the beginning to the end, confirming that there was no other valuable.

Of course, this value is a rare and precious value, or else it is its dried meat, its bones, and it can be replaced with a stone.

It's just too big, and he doesn't have much room to carry these big bones.

Going back along the way, and then positioning through the towering tree that is cut into the flagpole, Shen Lang returned to the entrance of the billion ring array.

For more than a month, he really lived in another world. He was experienced in other people's technology, war and civilization. It is still a bit embarrassing to come back.

Shen Lang hesitated for a moment, want to use the sacred arm to give a message to Bihai, but think about it. She is now driving back to the spaceship, has already bid farewell to it, and dragging her more makes her more sad.

This is not a space transmission array, but a natural space crack. The billions of ring arrays that don't know when and where they are arranged are only used to hide this crack.

Although Shen Lang is now a single person, there are still no problems to solve the billions of ring arrays.

In fact, there is no south water next to it, he can even be faster. Because you don't need to prove anything like a dubious Nanliu water, you don't need to explain it, or you don't need to be afraid of being stolen.

The crack of one ring and one ring, the closure of one ring and one ring.

Walking to the back, Shen Lang is very admired by this predecessor.

Because this is not a trillions of ring arrays, but a trillions of ring arrays on both sides, or on the edge of space cracks, the entire project is bound to be vast, and the difficulty is very large.

When coming out of the last ring, Shen Lang once again reached the huge pit in the mountainside.

Although it is a little difficult to get out of here, the return of the original road also shows that there are no mistakes.

Flying in a huge pit, looking for a small crack from the mountain wall, Shen Lang went back along the crack.

Until I arrived at the gap blocked by the stone wall, it was the organ that opened the south water, and they should go out from here.

However, let Shen Lang use the ice of the ice palace to illuminate and search for it, but there is no gap in the stone wall gap downloaded here, looking for any organs!

This made him a bit sweaty. At that time, because everyone was together, they didn't think they would separate. And I also take it for granted that since there are institutions that have access, there must be institutions that go out.

But he was not discouraged, he returned to the crater and then searched along the surrounding walls. The predecessors designed such a huge project, and hid the entrance so deep, maybe even arranged the exit, and secretly hid it.

In this way, even if someone gets the news and finds it here, if you can't crack the billions of ring arrays, you can't go out again and avoid leaking more information!

However, the Nantian family clearly knows how to go out, and the south stream of the south stream has been here more than once.

Chapter 708 - Get out of trouble

The south stream can find the entrance and exit, which should be related to the information left by the ancestors they know.

But Shen Lang is not worried. If he only tells him that there is such a place to go to the whole country and even to the waterfall, he can not find such a deep entrance.

But now he is a person inside, but if you want to find an exit, the scope will be greatly reduced.

For this huge pit up and down carpet search, Shen Lang does not need to go through one by one, but a full-scale search of God.

The search was completed very quickly, and in addition to the crack, there were many cracks in the surrounding stone wall. I don't know if it is the relationship of the mountain compression, or the obstacle method that was originally arranged.

Now what he needs is to try one by one and see if the exit will be in one of the cracks.

The first crack, when it was not far away, came to an end, and it was carefully examined and there was no institution.

The second crack, too small, is not something that people can go in, and the knowledge of the gods is a very short paragraph.

third fourth.....

The inspection of the article, the result of all the cracks, is a "dead end." The longest extension is the crack in the entrance.

However, Shen Lang is still not discouraged, he looked the hole in the light above!

The design here is very subtle. Using a constant refraction of light, there is a faint light in the mountain crater that should have been black and majestic.

Since there is light coming in, it means that the hole is outside the mountain.

Even if it is a cliff outside, he can safely land as long as he can go out; even if the hole is not big, he can dig out.

After the crack was finished, Shen Lang flew to the hole of the light at the oblique top.

Because the crater is very tall, whether it is below or in the middle, the hole is very small. Now flying, I found that there is actually a washbasin size.

With this size, people can drill out, even if the top is getting smaller and smaller, Shen Lang uses the Juyue sword to make it bigger!

but.....

He didn't have time to be thankful. When you look closely at the hole, you will find the mystery!

This is not a hole leading to the outside of the mountain, but it is only a few feet deep. In fact, it is inlaid with a kind of glowing ore like the ice palace. In the inside, it is placed with a bronze mirror, which reflects the light through the mirror to other reflection points on the mountain wall.

Because the light of this ore is not strong, it is not like direct sunlight, but like the penetration of natural light outside.

In addition to feeling "pit", Shen Lang is more admired by this predecessor. Just a piece of ore, it achieves the purpose of illuminating the entire crater (although it is actually very dark), and it is also arranged so naturally.

But now, it is to increase the difficulty for him, carefully identified, in addition to the ore and bronze mirror, there is no road, there is no other institutions, directly to the end.

Shen Lang can only concentrate on the search for the entire giant pit cave.

The result is still nothing!

Is it the key point, or is it going back to the billions of rings at the bottom of the giant pit?

Shen Lang put away the thoughts that had just been big, and began to change his mind. Since you can't find the organs and exports, look for the traces of the two people in the south of the stream?

In fact, it is not very optimistic. If they left after they had finished the Ironclad Red Dragon, it should have passed a month, and what traces have faded.

And there are stone walls around, most of them will not stop dust, and you want to see if there are any traces that have been pressed. Really want the police fingerprint group method, and the amount of engineering is also huge.

Shen Lang once again changed his mind and let himself return to the original point!

The origin is the way to come.

Shen Lang remembered a detail. When the underground river washed into that space, the south water was not directly found in the cracks in the stone wall. Instead, after the organs were opened, they were advanced, and then they took time to come in. .

And just now he came to the crack in the end of the stone wall, if the opening mechanism is in the middle of the crack channel?

Now he will search the agency directly from the entrance.

According to the style of the predecessors, no matter which level, the time left for them to enter and exit is very short, perhaps the real mechanism is designed in front, need a person to press, or fly to go out.

With this idea, Shen Lang is not only to look at the traces, but also to ponder from the perspective of the array, slowly and gradually clear the surrounding, and then go forward.

This advancement is very slow, but it is also anxious.

There is no entrance, no middle!

After more than half of the journey, I still found no traces, so that Shen Lang could not help but take a deep breath and stabilize the mood.

Finally, when you can see the end, let Shen Lang discover a suspected institution!

Although Shen Lang did not know the order, but with the understanding of the law, even the hundreds of millions of ring arrays were cracked, he quickly grasped the law and immediately opened the organ.

Feeling the vibration in front, then the huge stone wall began to move slowly.

This time no one pressed, and the Shen Lang was not bad, so that after it was almost completely opened, it was released from the gap.

In fact, the crack that completely opened this huge stone wall, that is, the size of the passage inside, is very good by one person, and the two people squeezed in parallel.

So he actually has to pass this section before the crack is closed again. Otherwise, people may be squeezed. Although it won't be stuck, but a little bit of time, the space will be narrower and harder. by.

At the speed of Shen Lang, of course, there is no problem. After all, even the south water can be completed.

After coming out, hung in the water and watched the stone wall slowly close. Shen Lang is a bit embarrassed, can arrange such an organ, indicating that at least the size of this villa-sized megalith is cut off to use This is in the mountain belly!

Looking at the surrounding space, it is estimated that it should be artificial.

Shen Lang took out the previous piece of wood from the space bracelet, then stepped on it and ran back in the groundwater.

It used to flow down the river. In this underground river, you need to pay attention to the stone above, and the exact direction and position of the dock.

Now, in addition to paying attention to these, we must also go straight ahead to accelerate forward, there is no companion, and there is no headlight. This is already a month ago. It's half a black walk, and the difficulty is still a little bit.

However, compared with the lack of clues to find an exporting agency, it is much easier now, and only needs to be done with care.

After a sneak rush, Shen Lang felt bright!

Although the top is still thick jungle branches, but from the darkness of the underground river, it looks bright, you can put away the illuminating ore, but also speed up.

Chapter 709 - Siamese Black Dragon King

This is already close to the border line. They are so low-key in Nanliuchuan. In order to avoid unnecessary troubles, Shenlang did not fly directly from above, but it is still upstream.

I have been to the waterfall all the time, and all the waterways are along the way. Naturally, I will not see the traces of Nanliuchuan.

However, when going from the waterfall, Shen Lang has a warning sign.

He will lower the speed a bit, so that it will cross the waterfall and rise in the gap between the waterfall and the stone wall.

Through the investigation of the gods, I found that on the ground above the waterfall, there are seven men sitting on the ground at the moment!

What's happening here?

Shen Lang quickly thought about it.

This is a place where birds don't pull. There are no people in the big area nearby, and there is no development into a tourist area. Generally, no one will come here.

Nowadays, not only people, but also seven people, from their sitting, and they can make him a warning, not to mention the self-cultivator.

The question is coming, who are they?

Here is the South River flowing south of the river, is it that they stayed to meet him?

Shen Lang immediately denied this possibility. Since this is a secret related to the Nantian family, this time it will be two of their old brothers. There are no more children to follow. It can be seen that the level of confidentiality is high, and it may be known to Nan Qilin and Nan Yuying. Do not understand this situation.

How can it be arranged for seven people to meet here?

These seven people don't look like they are Nantian family.

Will it be the third-party killer they invited from Nanliuchuan, waiting to kill him?

The appearance of these seven people sitting on the ground is very likely to be waiting for someone, and there is still a possibility of meeting in the place where the bird is not squatting, but it is too coincident.

If you arrange a killer to come here and wait, just tell them that the goal will definitely appear. You don't need to explain why it appears here. It can be understood as a goal, so that the killers don't think about it.

Although everyone's cooperation was quite good before, Shen Lang was helping them a lot, found a way to safely open the billions of ring arrays, and was helping to hunt an iron armor.

But the South has kept secrets for hundreds of years, and certainly does not want to be taken over by others. As long as this secret is exclusive to the South, they can continue to pass on for hundreds of years and a thousand years.

It would be entirely possible to want to kill him.

And through the shots of the Iron Armor Red Dragon, the two of them should also be aware of the fact that they want to move the waves, and if they can't get it, they will be able to catch up with them, so it is ok to ask third-party people to hunt.

This conjecture makes Shen Lang feel a bit uncomfortable. At the beginning, he said that he had a good one, and he was on the other side. He also relied on his own ability to kill the Iron Armor alone, but the other gave them.

Although they know the location information, but the way to open it is his help, and how to count it is not owed to the South.

If it is really Nanliuchuan, they invite people to assassinate, and Shenlang will not care about the friendship of Nanyiye, which will inevitably cost them!

When it's said that it's too late, in fact, these are just thoughts between thoughts. Even if the speed of the Shenlang is reduced, people can still reach the top of the waterfall. After all, even if it's "three thousand feet flying down", it's only three hundred meters. Ah, let alone this waterfall is far less than that.

When he separated the waterfall and leaped to the top, the seven people sitting in the plate opened their eyes and looked at him.

There is nothing wrong with the place. Here is the place to come. You can also see the trunk cut by the cut wood.

After landing, Shen Lang glanced at them carefully. These seven people are all black and thin, and they seem to be more likely to be Southeast Asians.

They are different in age, in their twenties, and in their 30s and 40s, including a 50-60-year-old.

However, what makes Shen Lang pay more attention is not their age, but the position of their meditation!

Before the rough knowledge of the investigation, I felt that they were sitting and practicing while waiting, but now they have come up to look carefully, but it is quite regular.

Big Dipper!

They are seated in accordance with the position of the Big Dipper. Even if they are just sitting and practicing, they can help each other, and to a certain extent, they absorb the power of the Big Dipper.

This is the ancient method of the Central Plains. It is actually passed down by people in Southeast Asia. It makes Shen Lang feel a lot more, and his eyes are naturally concentrated on the face of the oldest person.

“Siamese Black Dragon King?” Shen Lang asked, can have this level, it should be this one?

At this time, one of the men in the position looked up at Shen Lang: “Master Shen Lang, I haven’t seen you for a long time. It turned out to be you.”

Shen Lang looked at the past, just this person bowed his eyes and closed, and they looked almost the same, and did not pay much attention.

Now I hear his opening, look carefully, and have identified it.

The last time I met at the Haishan World Comprehension Conference, Guesseng, the second disciple of the Black Dragon Throne in Siam.

Recognizing his identity, Shen Lang's just guessing has been confirmed.

This 50-60-year-old man should be the famous Black Dragon King in Southeast Asia.

The Black Dragon King opened his eyes at this time, and then looked at Shen Lang.

"I heard that you, the hero is a teenager, good."

His simple sentence, even if he completed the evaluation of Shen Lang, such a young comprehension person can get him to say "good", in fact, it is already a very high evaluation.

For other people, you have to be a bit flattered, but for Shen Lang, even if the Black Dragon King is really an old ghost who used the sorcerer to continue his life, he still can't get old in front of him.

"You are waiting for me here?"

Guesseng immediately said: "Everyone knows, I will say it directly. Let's take a trip with us. It won't be difficult for you."

"Okay. Where are you going?"

Guesseng just tried to ask as usual, and never thought that Shen Lang would agree. Now I am so quick to agree, but let him not know what to say.

"This... you will know when you arrive You have to ask me to take a trip, I have no opinion. But the location does not tell, the reason is not to tell me, it is a bit too much. Is it still to catch it? Shen Lang faint smile.

He said this, Guessing was actually normal. It seems that the promise is only to play with him deliberately, or to ask the reasons and whereabouts.

“The Nanliuchuan family of Nantian family wants to see you.” Guessing did not hesitate and answered immediately.

He will admit so directly that Shen Lang is also a bit surprised, saying that they should be directly involved. Does Nanliuchuan still want to “catch up”?

However, it is not surprising to think about it again. Nanliuchuan knows that there is also a Nei Dan in the iron armor and there are many Lingshi. Directly destroying the mouth, perhaps it is cheaper for the Black Dragon King, and bringing it back can still make a big gain.

“This is the case, then let’s go!”

Shen Lang and a happy promise, let Gu Peng can not pinch what he is thinking.

Chapter 710 - True and false

Guessing’s eyes looked at his master, and the Black Dragon King silenced and nodded.

“Let’s go!”

They were originally set up according to the position of the Big Dipper. They are both beneficial to cultivation. If they really want to fight, they can help each other and get a superimposed array effect.

Now that the Black Dragon King spoke, the others were ready immediately, but they didn’t get up until Master didn’t get up.

“Master Shen Lang, you are a person who is good at making miracles. We don’t want to be attacked by you on the road, so...”

Guessing the conversation, I have already taken out one thing in my hand.

“This is a small remedy for this door. If you are sincere and sincere, please take it, we must be treated all the way. After that, we will immediately release the medicine and never give up!”

Shen Lang smiled slightly: “I have sincerity, but you doubt me, this is boring. Besides, the poison can have antidote. But if this small medicine, what really works, is your locust, head down. What?”

Guessing a little stunned, but his face was darker and he couldn't see anything.

Just now he said that he was righteous and strict, and he would give the antidote at that time, but this is not an end in nature. To the level of comprehension of Shen Lang, the general poison has no meaning at all.

“Let's go! I am not afraid of you, I am willing to go with you. If I want to sneak attack, oh... you are the ones who have already fed the fish in the pool below!”

Shen Lang disdained and laughed, then added another sentence.

“No, you should not be a normal person. The body is poisonous. Throwing water pollutes the environment. Feeding fish will poison the fish, or you have to burn a fire.”

Guessing's face has become even more ugly. If it is his own, he can still bear it, but now he is degrading Master.

“Go!”

The Black Dragon King stood up at this time, then waved his hand to Guesseng, indicating that he would not continue.

Guesseng was slightly surprised, but did not ask much, and quickly followed up, the same was true of other disciples.

After everyone collected the Big Dipper seven-star array and gathered them together, the Black Dragon King looked at Shen Lang and seemed to say, “Can this be done?”

Shen Lang raised his hand and motioned that they could start walking.

The Black Dragon King did not say anything more. He flew directly to the front. The other disciples looked at Shen Lang. The master father took the road. They had to go to the temple and could not let Shen Lang run.

Shen Lang lifted his foot and followed it up and down. He followed the Black Dragon King and did not go with him.

Guesseng and others are scattered and form a semicircular encirclement. They follow Shen Lang.

The Black Dragon King is purposeful, but looking at the direction of progress, it is not leaving the border, but going to the domestic direction.

There are too many undeveloped places in the 100,000 mountains in southern Xinjiang. If it is not a familiar person, it is even difficult to distinguish the difference between this mountain and that mountain.

The Black Dragon King, who lives in Siam, seems to be no stranger. He doesn't need to look at the map, he doesn't need to use navigation, and he is directly carrying them. It is a few hundred miles away!

"There is work, the front is."

At a hill, the Black Dragon King stopped and pointed to the distance.

"There is a chimney ditch, and Nanliuchuan is waiting for you there."

Shen Lang looked at it, and a narrow long ravine below, at the end of the valley, stood a bit like a cylinder. From a distance, it really looked like a chimney.

Why does Nan Liuchuan choose here? He is not known. It is far away from the Nantian family here, but the Nantian family is in the south of the millennium, and everything is possible.

Especially in today's civilized society, it is really necessary to kill and destroy people. In particular, it will be turned upside down. Of course, it cannot be near the Nantian family. This remote and unmanned mountain area is a better choice.

The Black Dragon King took the Shenlang to the hillside and went to the ravine, all the way to the end of the front.

This zone should be counted as a chimney ditch, but the chimney ditch that Black Dragon King said refers to the valley at the end of the chimney ditch.

Under the cover of seven of them, Shen Lang followed all the way to the end of the chimney ditch.

Far from looking like a chimney, but actually entering the valley from the ravine, but another feeling, as if to the bottom of a huge mine, tiankeng.

After arriving here, the Black Dragon King did not introduce anything, and directly called into the valley.

Shen Lang can feel it, and those behind the Black Dragon King disciples are not so calm, obviously nervous.

What are they nervous about? Afraid that he started to turn his face?

Or is it... they are not so reassured about the Nantian family?

The valley is not flat, but the sarcophagus and vines are clustered. The Black Dragon King is familiar with the road and comes directly to a cave in the depths of the valley.

Because the surrounding mountains are rising, like a cylinder, the light at the bottom of the valley is already dark, and the inside of the cave is dark.

“Please!” Black Dragon King made an invitation gesture, and his face showed a hint of provocation. He seemed to say “Dare?”.

Shen Lang smiled. He had already seen something, but he did not say anything and went directly inside.

The Black Dragon King also followed him in, and Gu Peng and other six disciples quickly followed up.

After entering the cave, the Black Dragon King clap his hands, and immediately a disciple stepped forward, igniting a pile of dry wood that had already been prepared, and illuminating the cave.

“Is it really Nanliuchuan want to see me, or is your master Black Dragon King going to see me? I have already been here, do you want to be a god?”

The opening of Shen Lang is to make the face of the Black Dragon King slightly change.

“Not bad! Even let you discover.” The fake Black Dragon King admittedly admitted.

Before Shen Lang was only trying to ask if it was a black dragon king in Siam, Because of their long-term speculation, and can have this ability, there should be only the Black Dragon King. Among the seven people on the scene, his age is more like.

At that time, he used the default method. If he guessed it, he felt that he was the Black Dragon King.

But all the way over here, Shen Lang has not believed that he is the Black Dragon King, no matter the strength or the momentum and the faction, it should not be like the Black Dragon King that Feng Wuji told him.

Especially in the cave just now, but also with the expression of the radical, it is impossible to be the identity of the Black Dragon King.

Therefore, Shen Lang suspected that Gu Peng was the second disciple under the Black Dragon Throne, and that this can be respected by the disciples under the Black Dragon Throne.

“I am the chief disciple of the division, Yang Long.”

The fake Black Dragon King revealed his identity and said: “But... you are not qualified to see my teacher. You are here to let you see Nanliuchuan.”

There was a strange smile on his face.
