

First Strong 711

Chapter 711 - Squat

Yang Long patted the palm of his hand and several disciples quickly went inside.

Where they are, the cave is not far away, the space is large, and now the burning bonfire is bright. On the inside, there is a narrow cave.

A few of them went inside, and then quickly lifted an iron shelf out.

In the iron shelf, two old people were held, and they couldn't help but feel surprised.

I thought it was Nanliuchuan who wanted to destroy him. He brought him here. He was also a brother of the Nanliuchuan South River, and the disciples of the Black Dragon King, set a trap to kill him.

Shen Lang was the daring of Art High, but did not expect to see such a situation!

If it wasn't for Yang Long, it would be hard to imagine that it was actually two of the Nanliuchuan and the Nanliushui brothers.

These two are masters of the realm of the gods, especially the Nanliuchuan, more likely to be in the middle of the realm. Even if you have a fight with the Black Dragon King, why not? How could it be that Yang Long and Gu Peng got them to this point?

Under the fire, their eyes are dull and ignorant. The whole person seems to be confused. The cultivation of nature is also abolished or suppressed. Otherwise, how can the traps be trapped?

“The strong deities of the Nantian family have been made into such a look by your jumping clowns. You have to say that your bad deeds are also poisonous.”

The sarcasm of Shen Lang is also a bit embarrassing.

This way, through the road, he already has a general understanding, Yang Long seven people, even if the use of the Big Dipper, will not be the opponent of the Nanliuchuan brothers!

It can only be a despicable means of causing this situation. The biggest possibility is to lower the head and the like.

At this time, Shen Lang was keenly aware of a slight anomaly around him!

Many tiny mites that could not be seen by the naked eye were scattered around him and quickly came to him in all directions!

Shen Lang will understand...

Their purpose from the beginning was to bring him here!

Even if he is unhappy, he will definitely throw out their message from Nanliuchuan, or use their secrets to make bait.

When I arrived at the chimney ditch, Yang Long intentionally introduced the destination in advance, which was to let Shen Lang be alert.

From the chimney ditch to the valley, there are no problems, neither artificial traps nor natural poisonous gas.

The same is true in the valley, and even into this cave, they piled up the dry wood in advance, and when they came in, they lit up and lit up.

There is really no problem in the cave. All the places where the trap can be designed prove that there is no problem, and then the two of them are brought out by Nanliuchuan.

This is the last key place. On the one hand, it proves to Shen Lang that they are capable. On the other hand, it is also a situation that makes this completely unimaginable, which shocked Shen Lang.

This is the opportunity for them to shoot!

What Shen Lang is sensing now is the locust that Yang Long has already prepared to release!

In the people on the scene, they should have their own defenses, or they themselves are the locust hosts; and the south stream of the south of the river should be controlled by the lieutenant.

As a result, the host directly searching for locusts is Shen Lang alone.

In the realm of Shen Lang, it is not difficult to avoid the clarity of locusts. As long as the protective hood is released, the locusts can be invisibly blocked.

But the problem is that this thing is invisible to the naked eye, so it is extremely easy to prevent. They are certainly not being attacked by a positive attack, but they are being attacked without any precautions.

If you want to rely on your own skills, Shen Lang must always be on high alert.

Shen Lang does not want to be so troublesome.

So, in an instant, he manipulated the sacred armor, entered the microscopic reconnaissance, and instantly magnified the surrounding situation in his mind. All the locusts were clearly visible. After they were identified, they were in different directions. Come to him, the near has arrived.

This function is not worth mentioning for the new Shengjia. At the same time as the reconnaissance and amplification, there are already various data and solutions.

The thoughts of Shen Lang spurred a command, and the holy armor immediately released a high-frequency ultrasonic wave for these mites!

In a moment, under the condition that everyone on the scene did not hear, all the mites released were not crushed by ultrasound!

“Jumping the clown? It doesn’t matter, the trick is evil, and the poison is good. After all, we are winning. Their famous Nantian family master is our prisoner. This is an indisputable fact.”

Yang Long is not angry, faintly responding to the waves.

He is delaying the time!

“But I am a bit curious, even I will not eat your remedy, Nanliuchuan, their two old guys, will be so fooled? I know their strength, I don’t think you can succeed in their presence! ”

Shen Lang directly asked the key to the problem, which is really unbelievable.

Yang Long needs to attract the attention of Shen Lang, so that he has no time to be vigilant, he must continue to throw the attracting material under the shock of this shock.

And even if the locust has been successfully invaded, it will take time to propagate the control of the host, so he still needs to delay the time.

The problem of Shen Lang is exactly what he wants. The fear is that Shen Lang is completely guarded by the departure of the gods, or directly hands.

“Tell you anyway, not now! We have infiltrated the Nantian family, and a long time ago, we succeeded in attacking both of them.”

“why?”

“Because... the teacher knows that Nantian family has a secret, and the family teacher wants to know this secret. Natural Nanjia will not say it, so it must be done with a little.”

In order to attract the attention of Shen Lang and let the locusts invade and proliferate, Yang Long does not hesitate to expose the inside.

“The family is superb, even if it is thousands of miles away, it can sense the situation of both of them. It is found that they will travel twice in a while, and the destination is still a place, that is the area that meets you.”

“The teacher guessed that this might be related to the secret he wanted to know especially this time, they found that they were missing for almost a month!”

Is it missing for a month?

Shen Lang is curious on the surface, and my heart is a quick analysis.

Since the Black Dragon King can sense them through martial arts, the disappearance is that they have arrived in the river city, another world, so he lost his sense.

He himself stayed for a few days or more, and thought that Nanliuchuan had left the skin of the Ironclad Red Dragon, and they did not expect that they would stay!

It seems that it was not long before I came back. Yang Long and Gu Peng did not wait for him for a month, but maybe for a few days!

“The teacher guessed that there were clues, but what is the status of the teacher? Can you run for them personally? So our brothers came.”

“Before the waterfall, we saw the south stream of Nanliuchuan. I didn’t expect to wait for us to ask, the two old boys actually want to kill us!”

Chapter 712 - Carving insects

The Black Dragon King found that he had lost contact in a month. It should be a little anxious. I don’t know if it was a flood in the south of the South Stream, or has cleared his cockroaches.

So I sent seven disciples and came to the place where the last accident happened.

Although he can sense it, it is also a very large range, not as accurate as satellite positioning.

After they arrived, they began to search. The result is that there is no trace in that area, the river needless to say, there is no trace of mountains and rivers. In the end, the only one who found someone to trace was the waterfall.

From the degree of dryness of the slashed branches, it is estimated to be about a month, which is consistent with what Black Dragon King said.

From this point of view, they also inferred that they might flow down the waterfall.

But from the scene, there are no other traces and roads. If they want to come back, they still have to come from here. And for the time being, I can't see what went wrong.

After Yang Long reported the situation, he stayed at the scene for a while.

As a result, they were lucky. They took a month of Nanliuchuan and Nanliushui in the watershed city forest. They didn't wait for a day and they met.

Nanliuchuan two people, the first thing that comes to mind is to destroy the mouth!

According to the guidance of the Black Dragon King, Yang Long began to command the locusts. At this moment, the Nanliuchuan brothers discovered that they did not know when they were in the middle.

The Black Dragon King is very powerful, and does not need him to come in person. It is the control of Yang Long's sorcerer's sorcerer, and it is also to take the two sacred powers of Nanliuchuan.

Then they forced them to ask what they were doing and why they had been missing for a month.

But I don't know if they are two strong willpowers, or because this secret has been secret for decades, the secret has been instinctively deep into the bone marrow, but it has not leaked at all!

It may be for the sake of the difference, they revealed that there is another important accomplice, and it will appear here.

After Yang Long reported the information to the Black Dragon King, he got the instructions to hold the Nanliuchuan to the chimney ditch, and then continue to wait for the rabbits, wait for the important accomplices, use them as bait, bring them here to control, and then together Brought back to Siemnan.

“What I said, what should not be said, has been revealed to you.”

Yang Long’s face showed a strange smile. After such a real exposure, he had already delayed enough time.

In the process of speaking, he noticed that Shen Lang only guarded several of them, but did not prevent the mites, so it was confirmed that it was successfully won.

“Now, it is the turn of your turn to us!”

“Wait, so far apart, how do you know that there is such a place here? Have you been there? Or the Black Dragon King has come?” Shen Lang asked again.

“You don’t have to worry about this, now is the time for you to obey!”

When Yang Long spoke, he began to use scorpion surgery to start mobilizing mites and affecting the mind of Shen Lang through locusts.

Guesseng and others were nervous and nervous at first. Later, when they saw Yang Long’s confession, they already understood that the master was successful and needed to shift the attention of Shen Lang.

Therefore, in order to let Shen Lang relax and be vigilant, they all spread a little, and there is no meaning to do it.

At this moment, the masters have begun to control their powers, and they are immediately guarded to prevent the enemy from struggling.

At this time, Shen Lang’s body moved quickly!

“I want to escape! You can’t escape!”

Yang Long is still the master of the control, saying that this is Gu Peng.

But after a while, Yang Long’s spirit was alive, and Guessing’s eyes were wide open and his mouth could not be closed.

Because Shen Lang is not escaping, his rapid movement is instantly appearing in the side of their younger brother, and the time for not responding to them, one punch and one shot, directly exploding their heads!

“You...you...” Guessing couldn’t speak, he just retaliated, but found himself unable to move.

Yang Long looked at a big sword and stabbed him in front of his abdomen. He was so shocked that he had to quickly retreat and could not control the locusts.

“You don’t have a lieutenant?”

“I said that you are a group of jumping clowns, this is a little trick, you can count the king in Siam, and dare to show off in front of your grandmother?”

Shen Lang talked to him while he was talking. The giant Yue sword in his hand pointed to the east, and the sword was forced to force him to limit Yang Long to a certain range. He wanted to escape from the cave.

The other guess is that it is directly imprisoned, and can only look at the blink of an eye.

When he said the last word, Ju Yuejian had sealed the throat of Yang Long.

“I said, you are not the opponents of the Nanliuchuan brothers. Let’s talk! How are you doing them?”

The whole person of Yang Long was still in shock. He had talked about it and thought that everything was in his own hands. He did not expect that there would be no effect at all.

He didn't think that Shen Lang could have nothing at all!

At this moment, I felt that he found that many of his techniques were not good, but he could not sense the locusts.

Shen Lang Shengjia reconnoitered several black dragon king disciples who had just been smashed their heads, and a large number of locusts were scattered.

He could only send another ultrasound to kill them, then reached out and fired a few flames to burn their bodies. Under the barrier of the body, the targeted ultrasound effect is insufficient.

“You really are some rubbish, you are poison.”

“You, you... know martial arts? Who are you?”

“It seems that you think I can't kill you...”

Shen Lang sighed and shook his hand. He did not give him the opportunity to speak again. He cut his neck and quickly burned his body.

After a sigh of relief, Shen Lang had already arrived at the suspected Peng Peng, and wiped the giant Yue sword, which had not been blood-stained, on him.

Guessing only felt that the sword was like a dermabrasion. If he was a little stronger, he would be able to separate him.

Just the means of Shen Lang has let him know.

The younger brothers and sisters are not talking about anything, directly smashing their heads and burning them into ashes. After the master asked after a question, he did not get the answer and did the same.

The reason why I didn't kill him, maybe I have seen it in Haishan, and I didn't do it at the time!

At the time, on the beach of Jinlongwan in Haishan, when the people of the Yumu family were eaten, he was determined not to pursue it. It is enough to show that he is a smart person who knows the current affairs. At this moment, he does not need to say more, and immediately confessed.

“Master Shen Lang, I said! I said all of them! We really didn't like them in Nanliuchuan. It was the brothers who used the martial arts to tidy them up, just like you said, otherwise we can't beat them both. Ah.”

“We really didn't ask anything, but these two old guys are not enough to sell you. If I knew that this buddy was you, I would let the brothers leave, it was really a misunderstanding.”

“I swear! If I have a half lie, let me die by my own locust!”

Chapter 713 - Change of life information

Seeing that Gu Peng was sweating and swearing out their most taboo locusts, I can believe that he did not lie.

“What secret do you have for Master? Why do you want to squat on the South family and block them? And here, how do you know?”

Guess the bitter smile: “How can Master know the secret of Master? I don't know, the master does not know. As for this place, I guess it should be Master's statement to the master, or it is with the master before. We are here for the first time.”

It seems that there is nothing to ask, and Shen Lang can only give up.

“The last question, the South has been squatted up and down?”

“No, no!” Guessing quickly denied that if he was not allowed to move, he would have to shake his head.

“Master’s secret is said to be only known to the south of the stream, and to control them, and to be able to know thousands of miles apart, is the most precious emperor, the average person is not worth using.”

“There is also that Nanliuchuan has a high level of realm. As long as they do not manipulate the Emperor, they will not have any influence on them. They will not be aware of it. But if other people in the South have low-level locusts, It may have been discovered by them long ago.”

“The Nantian family has been inherited for thousands of years. So far, the influence in the local area is also very large. The family is strictly managed. How can you penetrate it?”
Shen Lang couldn’t help but ask another question.

Guessing the bitter smile: “I don’t know. I heard the master’s brother say a word. It seems that it is arranged to contract people to plant vegetables near the Nantian family, to supply the best vegetables for the south, and to accumulate credibility for many years. And it is not close to the South family. Especially the Nanliuchuan, they are at this level.”

“The people who performed it were spent years with the chefs of the South. After leaving the task, they left, and now they may not be able to find someone.”

Hearing here, Shen Lang has confirmed that this should be the truth.

He was curious. The Nantian family was so strict. On the surface, it was a village with the same surname. In fact, it was a southern family. The outsiders could not penetrate.

In the position of the Southern Heaven family, whoever eats the bear heart leopard dares to poison them! The level of comprehension in the South is generally not very effective. And even if it is poisoned, it is more likely to be in meat or some precious ingredients. Eating fresh vegetables is not a good goal.

As a result, some people have eaten the bear heart and leopard, and they are going to grow vegetables. Through years of quality, they have accumulated credibility. Through the supply of vegetarian dishes, they gradually get mixed with the chefs and never touched the top of the South.

The chef who can be kept by the South is bound to be a loyal old man.

“It seems that you know everything, you don’t know much about your master! I have no problem with your life, and give me a reason to convince me.”

Shen Lang received Ju Yuejian, but did not say anything to death, if you can not convince, it will still kill!

Guess’s sweat almost fascinated his eyes.

“No return to hell!”

“what?”

“As you said, the magical skills we rely on are, in your opinion, a small skill, the top secret of our division, and I believe that I can’t move you. I can think of valuable information that is no return to hell.”

“Talk.”

When I heard Shen Lang say this, Gu Peng was slightly relieved and quickly introduced it quickly.

Although Shen Lang or the Central Plains sects feel that they are sinister, the status of the Black Dragon King in Southeast Asia is a senior and strong, and is an area that cannot be avoided.

So the last time Haishan, the Pacific Rim comprehension community for the development of a closed meeting of no return to the sea, is the same as the invitation of the Black Dragon King.

But just like this time the Black Dragon King did not come, Yang Long said that his master “what identity”, the last time the exchange of truth, even if there is this closed meeting, the Black Dragon King did not go in person.

At that time, it was the great disciple Yang Long who represented the Black Dragon King. Guessing was not qualified to enter at that time, so there would be time to appear on the beach.

Know more about the inner Yanglong, because Shen Lang knows that he will not confess, so directly kill it to scare the guessing, and the Black Dragon King will not talk more about the secret.

So now that Guon Peng can provide it, only the information that is heard occasionally.

Closed-door meetings in the realm of the Pacific Rim countries are just a liaison. There are separate meetings afterwards, and more than once, more detailed plans will be negotiated.

Guesseng vaguely knows that their action time may be in March next year!

In March next year, it didn't take long. In fact, after Shen Lang entered the dead forest, it was already after the Mid-Autumn Festival. The death forest was a month away. He came back to Qingchuan, Tianshan, and Nantian family. He was in the river city for more than a month. Now he is back. It is already ten. At the end of February.

“I really said, other high-value secrets, I have not.”

Shen Lang has actually considered it in his heart. Since the Black Dragon King is concerned about this big secret of the South, even if the person who had kneel down has withdrawn, there must be other similar infiltrations.

The three of them left the secret and were not tracked. However, when he first went to the Nantian family, he should have been known. If he did not leave, he should be collected.

Therefore, this time saved the Nanliuchuan brothers, killed all his disciples, and did not reach the effect of killing the mouth, he will still know.

In this case, it is better to put one back, you can also bring words!

Therefore, the order of his killing is exquisite, and the other disciples are not enough to kill. The younger disciple Yang Long, the idea will be more, not so easy to control, the best candidate is the two disciples he left behind.

Shen Lang indulged in a second or two, waiting for the death penalty, but it seems as long as a year.

“Good! I want to kill you again. It seems that there is no credibility. I can let you go!”

When I heard this, Gu Peng’s body was slack, and it was sweating.

Relaxed and almost let him find that he can move Hurry to thank Shen Lang.

“Go back and tell you the Master. People are saved by me, people are killing me. But that is why you are manipulating me, I have not taken the initiative to offend...”

Guessing the breath, listening and listening, did not dare to gasp, so as not to anger the sinking waves.

“If he is atmospheric, everyone can let go. He can continue to sit in Siem Reap and enjoy the reputation of Southeast Asia. I will help you to revenge the Nantian family. If you want to avenge them, then come on, I don’t mind killing. A trip to Siemnan.”

Shen Lang faintly smiled: “In the past more than a month, you should have heard the information that I killed the Master Alliance Alliance?”

Guess Peng’s answer: “Guesseng must bring the words to the teacher, and advise the teacher and you to turn it into a jade. Today is a misunderstanding, misunderstanding...”

“Take them a solution, you go on your own!” Shen Lang pointed to the south of the river in the iron cage.

Guessing is a bit of a dilemma.

Chapter 714 - "antivirus"

Looking at the embarrassing look, Shen Lang frowned.

Even the information of no return to the sea, Guesseng has come out to change his life, and certainly will not dare not do this, it can only be an answer.

“Master Shen Lang, I am not willing to refuse, but I can not solve their embarrassment.”

Guessing a bitter smile: “Not only me, even the masters have no way. This kind of emperor, only the master may be able to solve. The master is also the only way to get the master to control how to control, my sorcerer can not control them. “”

By this time, he is completely accounted for.

But I don't know how Shen Lang will deal with him, and my heart is still uneasy.

“Okay. Let's go! I will let you bring words, but also can dispel them.” Shen Lang waved his hand and motioned that Gu Peng could leave.

This made Chapeng a little surprised, but I didn't expect to let him go so easily.

He opened his mouth openly: “That... Master Shen Lang, I really left first?”

Shen Lang turned a blank eye. “Can I still kill you in the back? To kill you is not a matter of moving your fingers!”

“Yes, yes, thank you, thank you!”

Guessing did not dare to stay, and quickly left the cave.

Shen Lang looked at the two sluggish old men in the iron cage, pulled the locks off and took them out of the iron cage.

Seeing their appearance is the result of being controlled by Yang Long.

However, according to Yang Long's narrative, the Black Dragon King did not want to take their lives, which means that if they get or can't get their information, Yang Long can still let the Emperor not control them.

Now that Yang Long is dead, Black Dragon King is in Siam in Southeast Asia. They have been in this state. The activated and uncontrollable Emperor Huang may have completely emptied both of them!

Think again, Yang Long, they all continue to wait at the waterfall, there are hundreds of miles apart, and there is a lot of time left here.

And no one is guarding, it must be that the Emperor Huang has been controlling them, and I don't know how long the two old men can persist.

Shen Lang is also a bit embarrassed, thinking that they want to harm him, destroy his mouth, did not expect to be harmed by others.

His knowledge of the inside of the investigation, Gu Peng did not dare to stay, has gone along the chimney ditch to go far away, in addition to burning dead bodies, there are a few of them left.

Some of their bodies burned badly, and Shen Lang thought about it. They still shot their bones completely, and then they stuffed the two of them into the iron cage and left the cave.

Although there is no smoke around the chimney ditch, there are some outdoor friends who come to explore. When I look at the bones of a place and make a suspense, I will toss the local police.

So when you raise your hand, crush them, and when the firewood is burned, it will become ashes. When you look at the firewood, you will only know that someone has been here, and will not be nervous.

Take the iron cage out of the cave and out of the valley to the ravine.

Shen Lang re-released the two of them from the iron cage and threw the iron cage to the top of the mountain.

He said that he would save them back. Of course, confidence comes from the new holy armor!

Otherwise, even if he has the experience of the previous life, there is no way to solve this so-called emperor.

Just now, the Holy Grail can quickly analyze and arrange the ultrasonic waves of the corresponding frequency to kill all the mites.

For the inside of the human body, there should be a way.

After scanning the two people on the ground, the holy armor gave an analysis of their physical condition and various solutions.

If there is a need for network-based city-state networking or medical support, Shen Lang is of course a direct veto. The last thing that can be chosen is of course simpler and more rude.

The sacred armor selects different levels of penetrating sound waves and rays according to the degree of scanning, and begins to kill the mites in their bodies.

Guessing the Emperor in the mouth is nothing but the black dragon king who raises the most powerful aphids, but for the holy armor, there is essentially no difference, they are all “parasites”.

It's not difficult for the new sacred to do this. Before the smashing of the snails, all the mites were killed, but they did not affect the mites in their bodies. It was because the locusts in the air were directly Sex kills them all.

It is not the same for the human body. It must be precisely targeted. Otherwise, it may damage people or kill them.

Now it is aimed at the two of them, scanning the specific link, aiming at different penetrating sound waves and rays of different parts, try to kill the “parasites” without affecting the human body function.

In the face of black technology in the city of the river basin, the whole process is very fast, and even worse than the time of scanning analysis.

However, Shen Lang is not at ease, and has re-scanned once, and sure enough there are still a few who have not killed!

After all, these are the emperors in the mouth of Guessing, which are much more advanced than those released by Yang Long, and they have lived in the two gods for several years, and it is not so easy to kill.

And only need to leave a little bit, and soon will reproduce a lot!

Keep going again, this time, the number is much less, and the targeting can be more precise.

After the third scan, Shen Lang determined that there were no new nets, and the mites on both of them had been killed.

The sacral sound waves of the scorpion killing the mites in the body also have certain damage to the human body, but for the two of the Nanliuchuan, this is nothing at all.

They are still awkward coma, the result of the imperial concubine.

Shen Lang can wake them up at this moment, but I don't know if they have been hurt by others. If they wake up and can't make their way, they still have to help.

Waking up and squatting by him, it is estimated that the two old people's self-esteem will not stand. Simply take a stun or stunned state, bring them directly, and use the cloud disc to quickly go to the direction of the Southern Heaven family.

When I returned to the Southern Heaven family, it was already night. Shen Lang landed directly in the yard, then took them both and went to the wing where I had met him before.

“I don’t know where to visit the South?” The voice of Nan Qilin thought about it
Immediately, people have appeared in the yard.

Immediately afterwards, Nan Yingying, they all saw the sinking waves at the door of the wing.

“Master Shen Lang?”

“What happened to my father and uncle?”

Seeing that there are one person in the hands of Shen Lang, both of them are sinking in the heart, and the last time they are injured, they are not coming back!

I don’t want to take a look at the cold, and I’m next to Shen Lang’s side.

“They are fine, go in and say.”

They immediately opened the door, and Shen Lang took the two men in and threw them on the sofa.

South Qilin Nanyingying two did not care about the Shenlang, and quickly checked the situation of the south flow of the South Stream, to confirm that they are only very weak, but there is no obvious injury, it is a little relieved.

Chapter 715 - Kindness without saying thanks

“The situation of the two of them... is a bit special, not a general injury. Simply put, it is being shackled and tortured into such a way...”

The two brothers couldn’t help but scream.

“Lower?!”

“How can it be?”

“It is impossible, how has it been caused, and later, let them recover first.” Shen Lang can understand their feelings, how can they be shackled by the level of two old people?

“That can be troublesome, I don’t want you to say that although the reduction Dan of our south home is healing the holy medicine, it is not optimistic about the living locusts...”
The unicorn is frowning.

Shen Lang glanced at him: “You are all old, still sly, don’t listen to me. I have already lifted them. All I need now is to restore their strength.”

“Really!” Two people were pleasantly surprised.

In their capacity, they are also qualified to carry a Restored Dan with them. Of course, they will be taken out immediately, and they will be fed to the two.

Then they don’t care about themselves, they separately give them to Nanliuchuan to instill their vitality, which can help heal the wounds and stimulate the efficacy.

After a few minutes, two people from Nanliuchuan and Nanliushui woke up.

Restoring Dan is a miraculous effect, not so fast, or because of their two input skills.

“We are...”

After Nanliuchuan woke up, his eyes were still a bit sluggish. He looked around and muttered.

“The other party still wants to keep you working, and you should not control the locusts to devour your brain.”

In the words of Shen Lang, Nan Liuchuan was shocked, and the eyes of the south waters burst open.

“You said... Shen Lang?”

“You’re back?”

“If it weren’t for me to come back in time, your two consequences would be hard to say. By the time the South knows, I thought it was I killed both of you.”

Shen Lang tweeted.

“Help me get up!” Nan Liuchuan solemnly said, after the South Kirin is holding up, he will kneel down to Shen Lang!

“Get it, get it. When you are old, how can I bear it? Besides, we are the partners of our peers. When you have an accident, can I leave it?”

Shen Lang prevented the squatting of both of them.

With the mentality of his two worlds, I don’t think that the 80-year-old and 90-year-old man will be killed, but he should consider the feelings of the South family. South Kirin, Nan Yuying, how much they are!

“Da En does not say thank you! After the sinking brothers are useful, we are in the south, and we are going to go to the fire!”

Nanliuchuan also felt that the squatting was too deliberate, that is, holding a fist and a solemn promise.

They used to be “small friends”, respecting their identity but also emphasizing the difference in age, but now they are called “brothers” and their attitudes are different.

“Father, what the **** is going on?”

Nan Liuchuan waved his hand: “You two go out first! Let’s talk to Shen brother.”

Although Nanxun Yingnan Kirin was a little worried, but they had already woken up, and also served the restoration of Dan, and Shen Lang is also here, there should be no problem, they will go out first.

Shen Lang got a soundproof cover, and it was convenient to tell about the situation.

After the two streams of the South Stream and the south of the river, I really thought about going back. But think about Shen Lang alone, dare to continue to explore, what else can they be afraid of?

Besides, when they encounter the iron armor, they have not shot, so they are so smeared with the light of the waves, and it is embarrassing to bring them back.

So they also stayed. On the one hand, they were looking for possible spiritual springs that would cause the variation of the iron armor. On the other hand, they wanted to see if they could meet other beasts.

Not to mention, in the past month or so, they have actually hunted two high-ranking beasts. Although the level is not as good as that of the iron armor, there are also two inner alchemes. This is not a shame.

This makes them want to “eat” with Shen Lang and show their harvest. Why did they go to a large area and did not encounter Shen Lang?

But there is nothing so strange. After all, in the middle of a virgin forest that doesn't know much. If Shen Lang and they just go in the opposite direction, the longer they go, the farther they will be.

In the end, they thought that when they came back, they might still be able to bump into the waves, and they were afraid that they would come home.

I thought they had left for a month, but it was actually two days earlier than him. Because they were very cautious, there was almost no trace left, so Shen Lang did not find it.

Then go upstream, and once I return to the waterfall, I meet seven people waiting for Yang Long.

When you meet ordinary people in this place, they will be suspicious, let alone a group of self-cultivators, and immediately guess that information may be leaked!

Like Shen Lang suspected them, they also suspected that Shen Lang leaked, because they are ancestral secrets, but also have been there several times, there is no problem, only this time with Shen Lang only leaked.

I even suspected that Shen Lang said that he would continue to look for it. In fact, he was going back first, and then arranged for people to stay here!

The two were furious and unwelcome. They wanted to destroy this group of people directly, and then they would look for the sinking waves.

I did not expect Yang Long to directly manipulate the Emperor, and they were caught off guard. Who can think that the other party has actually bought the ambush on them in advance a few years!

The latter situation is almost the same as Shen Lang. Yang Long forced them to tell the secret of their trip. They didn't say anything, and they sold the squadron.

"It's really awkward. We thought it was the person you arranged..." Nan Liuchuan's face was ashamed.

"Nothing, after all, I have just met you, and there was a leak in the first action. I suspect that I am also normal. I will fill the situation with you!"

The situation that Shen Lang encountered after he came out including the question from the guessing mouth, one by one told them.

I heard that the two people were very angry. If it wasn't for the deep wave, even if it didn't die this time, it would be pinched by the Black Dragon King later. The old monster didn't know where to know the secret. This is to set this secret!

Shen Lang killed seven of them and left a message, which made them feel very happy!

"As for the forest... I didn't find anything about Lingquan, but I found this thing."

Shen Lang showed them the fire spar. "Iron armor should absorb this energy. If I found such a crystal mine, it was also made. But I didn't get it, only this one."

Feeling the hot energy above, they all believed in the words of Shen Lang, but did not expect it to be left at the scene of their peeling.

"Your things? Have you been robbed?" Shen Lang asked again.

The two people in Nanliuchuan changed their faces.

Chapter 716 - good news

Looking at the expressions of both of them, Shen Lang quickly stated it first, lest he should be on his head.

"I didn't move anything on you. The guys raised their own cockroaches. I had mites out of my head. They burned them directly into powder and didn't look at them."

Two people in the south of the stream of Nanliuchuan touched the body and then breathed a sigh of relief.

"Nothing, nothing has been lost..."

They are the magic weapon of the storage bag. They are personally collected. They are for information, they don't know the specific situation, and they have no body search.

"It's just not lost, or you have been working for a month."

Shen Lang will not care about what they get, and don't doubt that he will do it.

"Right, Shen brother. How did you lift the mites on our body? Has it really been lifted?"

Because there was no prior awareness at all, they did not know the locusts lurking in the body before they had manipulated the locust attack.

I don't feel it now, but I don't know if it's really finished.

Shen Lang said faintly: “Of course I have my method. I can only tell you that I am sure that it has been completely removed. How to do it is not convenient.”

The two of them exchanged a look, knowing that this must be related to the secrets of others, and it is inconvenient to ask again.

“Black Dragon King! We can’t let him go!”

“This is not just a hatred for us, he knows our secret!”

Nanliuchuan and Nanliushui together looked at Shenlang and asked for his opinion.

Because Shen Lang was talking about it before, he said it with the words of Guesseng. It is said that as long as the Black Dragon King is released, he can fix the South. If he wants revenge, he and the South will join forces to destroy the Black Dragon King.

Shen Lang knows what they mean, and immediately smiles: “Strictly count, this is your secret, I will be lucky to go with him, but I am not qualified to do it for myself. And this time they also started to fight for the two, I am trying to save You killed his apprentice...”

Nanliuchuan quietly waited for his conclusion.

“So, let me bring the words Black Dragon King, just my set of words. If the South family wants them to seek revenge, I will not interfere, but also support.”

Shen Lang did not say it directly, but the basic meaning has arrived.

The Black Dragon King does not come to revenge. He will not really convince the South to seek revenge. He does not interfere in the South, and he also supports revenge. But the Black Dragon King does not look for him, he will not take the initiative to provoke himself!

The number of people in Nanliuchuan is somewhat disappointing.

The foundation of the Southern Heaven family, of course, is not afraid of the Black Dragon King, but the guy is too evil, and the sorcerer of martial arts is invincible, even they are all in the way. If they want to fight, the younger son of the South is shackled, and the consequences are more troublesome. It is.

If you can let Shenlang together, it is not only a very powerful helper, but also a defense in the art of scorpion, which can be greatly relied upon.

But Shen Langqiu picks up the children, and they have no choice. This is not a matter of people. It is because they saved them.

But their disappointment is only a moment.

Who is the Black Dragon King?

The famous people in Southeast Asia for decades, this time did not say that he broke his business, just killed six disciples, including the chief disciple, it is almost a one-door!

Also let the disciples go back to the threat of warnings, can you bear this breath?

When the Black Dragon King finds trouble with Shen Lang, Shen Lang naturally has a front with them.

The first thing now is that they have to restore their strength immediately! Then it is to declare war on the Black Dragon King!

It's not just revenge and annihilation. It's also necessary to show this strength, otherwise Black Dragon King will think they are still controlled.

“Thank you for your support!”

“I sent you back, people are fine, and things are not lost. Then I will go back first. After all, I have been out for more than a month. I don't know what the situation is.”

It doesn't make sense to stay in the waves, can you take care of them and help them heal? The relationship can not be reached to this extent.

The Nanliuchuan brothers also need healing, and check to see if there is any loss in the harvest there, and they will not retain it.

“We don't leave you much like this now. Still, there is something to say hello!”

“It's so late, isn't it better to go tomorrow? You can also get to know the situation with Kirin and Yuying. If there is nothing wrong with this time, let a leaf send you back tomorrow.”

Shen Lang shook his head: “No, this trip is confidential, I will not disclose it to the outside world. It is not convenient for the South Brother to disclose it, so you can just say it to him. Yes, please rest assured. Hundreds of millions of ring arrays, this entrance, I will not go anywhere.”

“Thank you! Shen brother is a believer, we are naturally trustworthy!”

Nanliuchuan arched his hand, and they were afraid that Shenlang would use this as their own back garden to develop. Now, with this promise, it is half assured.

However, it is not the best promise, because it is said that “it will not go anywhere.” It can only be said that it will not go often. It does not mean that it will never go.

But there is no way. In the beginning, it was the need for the help of Shen Lang, and it was indeed the way for them to open.

In addition, the strength of Shenlang far exceeds their predictions. This is not to destroy the mouth, let alone the savior.

The two old people personally sent Shen Lang out of the yard, and then Shen Lang directly drove the cloud disc to leave.

Shen Lang did not drive the cloud disc back to the Tianshan Mountains. The magic weapon is not broken, you can buy it, or you have to use it at a crucial moment.

After leaving the Nantian family, he went on his own and went to the city with the airport recently.

Time is not early, this is not a big city, it is impossible to have a large number of flights, only to find a hotel first.

After everything settled down Shen Lang was free to check on the various messages on WeChat.

Although I told Zheng Yumeng and Dorothy in advance, losing contact in a month exceeded their expectations.

Fortunately, everyone has the experience of going to the dead forest. The conjecture is a similar situation, so there is no panic, just leave a message to ask him about the situation.

In addition, the situation of Tianshan Jianzong was reported to Shenlang, and after the restoration of Dan, the situation of Gao Li and Qi Sheng was significantly improved.

After a month of external treatment, self-healing, from the latest message, it is a good news: they have already awakened!

This information made Shen Lang feel relieved. If the two “old apprentices” were dead, he really didn’t know where to send them. The lord was taken over by the Heavenly Tower! Can’t you go to vent your anger at the rest of Xia Yuntian and other master leagues?

Counting it, the lord has been suppressing the Batian Tower for more than a month. I don’t know what the current situation is like?

Shen Lang could not help but take out the Ba Tian Tower.

Chapter 717 - Harvesting magic weapon

Before Shen Lang had studied the usage of the Ba Tian Tower, but in the past few months of fighting, I have never used it.

On the one hand, the Ba Tian Tower is more cruel, sucking people in, is suppressing the living and refining. This is somewhat inhumane. It is better to blast and dagger directly, and to die.

On the other hand, there are certain restrictions. If the opponent is stronger and breaks away from the suction, it may be countered, just like he and Tang Banshan.

If the opponent's strength is not as good as it is, then there is no need to use the Heavenly Tower.

Therefore, Shen Lang is basically doing it by himself. He will use the Heavenly Tower for the lord, which is because of the horror of Gao Li and Qi Sheng, so that he wants to torture the lord, or else it is okay to kill.

This is also the only one of Shen Lang refining.

He also has no direct experience, he does not know how long it will take, and what kind of pain the other party will have in the process.

Now take out the Ba Tian Tower, and the conscious connection has entered the world inside the tower.

The space inside the tower is not much. The people who are absorbed into it will be compressed to adapt to the space inside, but will not die immediately, but will refine and die in this small space.

Refining and chemicalization is just saying this, what kind of situation will be specific, and Shen Lang is not easy.

Now look at the situation in the tower, do not need to look at it, at a glance, you can see it directly.

There is no one in the space inside the tower, leaving some clothes that fall on the ground!

It seems that the living things are refining, but the outer clothes and the like are not affected.

Shen Lang's thoughts moved, and the clothes were all taken out, and then I looked at the ground.

I thought that in addition to the clothes, it would be powder ash, or even empty, I did not expect a few things on the ground.

One is the space ring, the lord's storage magic weapon, and the other is the magic weapon of the lord. It is not refining, and the rest is a dark ball-shaped object.

Shen Lang took them all out, and then determined that there was nothing else in the tower, and then collected the Ba Tian Tower and carefully examined these things.

Needless to say, the space ring is all in the capital, and it can be said that it is the home of the Master League!

There is a daily use of the Master League in Tang Banshan, and the lord here is the real high-end goods.

In this space, there is no even a stone, and it is the spirit of an altar!

Obviously, the group of dragons and arches condensed, the lord is going back to collect a batch of time, and at other times, it is supplied to the members of the Master League according to the rules.

These should include resources that the ally can call, as well as the strategic reserves of the alliance.

In addition, Shen Lang also found a batch of Nei Dan, there are as many as ten!

The origins of these inners are unknown. It is possible that the lord's experience of going out, but not so much, should be mainly the family left by the alliance, or the contribution of the members.

However, from the Tang Banshan and Yuwenba, there are private collections of Nei Dan. The possibility of members contributing is not great. There are good things like Nei Dan, and you should think about yourself first.

In terms of use, it is possible that the ally will keep its own breakthrough or leave it for later.

Shen Lang certainly does not care how they came from, how they are ready to use, and now it is his.

In addition, there are many precious herbs and medicinal herbs, which are higher than the collections of the Tangshan Mountain. There is also a booklet written by the predecessors of the Master League. Only the lords can collect them.

A brief look, these predecessors' intentions are good, that is, the masters who have no big backing, and everyone work together to help each other, so as to reach the big door and the big family, and to be able to get a piece of cake in front of various opportunities. .

These are not very interesting. What makes Shen Lang a bit embarrassing is that the space ring of the lord is bigger than the storage bracelet of Tang Banshan.

It's all over him now, of course, it's not too much, so I moved a lot to this big ring.

Then his attention fell on the magic weapon, which should be said to be a device, holding a bead in the middle, only one side is exposed, and the other side is a sharp cone.

After careful inspection, Shen Lang remembered what it was.

This magic weapon is called "White Rainbow"!

Its device is a set. When holding the hand, the sharp cone is the palm of the hand, it can pierce the blood, and the vitality will become the energy of this weapon, injecting the inside of the bead.

After the beads inject energy, they will erupt!

The objects that are embedded around are the grams of the object, which will compress and reflect the light, all concentrated on the exposed side of the front. So it shines like a flashlight, which is called white rainbow.

Of course, it is a magic weapon for aggressive weapons. It is not just a light. The power of this white light is huge. Just like the laser rays in science fiction movies, it can tear steel, crush mountains and rocks, and directly People cut points!

Shen Lang heard about this thing in the past, but he did not personally see it before. He did not expect to see it again now. This made him want to try it out and see how it works.

However, he is in the hotel, of course, it is impossible to really try it. It is no problem to control the cutting of a piece of paper. If it is not easy to control, it is troublesome to tear a building directly.

This magic weapon reminded Shen Lang of another magic weapon that was collected by the Tianshan Jianzong on the same day. It was a black cloth. The lord finally used the treasure, but it was too late.

At that time, the lord was suppressed, and the black cloth was also collected. He was worried about the high sacredness and did not look carefully. After that, I was busy and I forgot about it.

Now that the black cloth has been taken out, in fact, there is no suspense in this. When the owner used it out, Shen Lang knew that it was a “black curtain.”

The magic of the black curtain is that as long as the person is wrapped in a buckle, you are deeply trapped in a dark chaos, so that you can not see everything around you, can not hear the surrounding sound.

This is the same as the ordinary person is covered by the black cloth, and its special feature is that the shady black will only resolve the power!

In other words, no matter whether it is a slap in the face, or in any other way, if you want to open the black screen, the power is dissolved, and it is difficult to uncover the black curtain.

Of course, this is also to look at the target level, if it is a master, trapped for a few seconds, perhaps understand how to uncover the shady.

But the problem is that masters are tricks, and the winners are often in the blink of an eye. As long as the shady can delay the enemy for a few seconds, it is already the key to success.

At that time, the lord used a shady curtain against Shen Lang. This is the kind of thinking. As long as he can hold the sinking waves for a while, he will be able to successfully counterattack, and the worst will escape.

Received two magic weapons, Shen Lang finally looked at the black ball, do not need to guess, this should be the remaining after the lord was refining!

Chapter 718 - Crazy breakthrough

The rest of the “black balls”, the selling phase is really poor, it looks like the cinders of the cinder, and there is no special place.

But after he was carefully touched in his hand, he felt the difference!

It is a very strange feeling, as if... This is the inner Dan of the high-level beast, but it is more pure and even more embarrassing than Nedan!

After careful understanding and pondering for a while, Shen Lang had a general understanding.

Neydan is the source of strength for the high-ranking beasts. It is only to a certain extent that it can be condensed. The cultivation of Inner Dan is even stronger, and it will be even stronger.

But Nedan is only one of the highest value things of a high-ranking beast, not all!

For example, the recent Ironclad Red Dragon encountered by Shen Lang, when it has grown to this extent, even if you don't try the inner energy, the huge physique is also a very powerful force, almost the same as the weight of the dinosaur.

And this “black ball” is to completely refine the entire owner of the lord, and naturally it is stronger than a part of the inner dan.

If the iron armor is not only the inner dragon, but the entire iron armor red dragon is suppressed in the Ba Tian tower refining, the inner lily plus the marrow fluid, blood, muscle skin, and minions, etc...

Should this “black ball” refining it be several times stronger than the simple inner dan?

In any case, the ally has disappeared and has become such a black ball “human Dan”.

It’s wasteful to throw it, and it’s hard to explain to others what it is. He decided to eat it himself!

If the enemy is killed in the face, Shen Lang will let Dorothy take his blood, but even if he hates and anger again, it is impossible to eat the body.

But now that it is completely refining into such a “human Dan”, there is no psychological barrier. Of course, regardless of the effect, he understands that this is the evil spirit of the Ba Tian Tower, and it is not possible to directly arrest people for refining, that is the evil path.

Shen Lang directly swallowed, and then found that this person Dan Kedan Dandan effect!

I don’t know if he is the relationship of the master of the Ba Tian Tower, or because it is the relationship of human refining and transformation. After he took it, he did not need another refining and refining, and he could absorb it quickly.

This is a super powerhouse!

It’s just a rush of energy, and if it’s not prepared, it’s a bit unbearable.

Shen Lang simply stunned, and put the iron armor of the Red Dragon, which was also served together!

He decided to hit another one this evening. Even if he can't push the "Yin and Yang Bozhenzheng" to the sixth weight, he will strive to break through the middle of the realm!

The higher the realm, the more difficult it is to break through. It takes time to cultivate, or the energy needed to assist is getting bigger and bigger. This is the relationship between the number and the number.

The last time it broke through the realm of the gods, Shen Lang still relied on the swallowing of Nedan, the marrow fluid, and the nine Hui Zilian presented by Xu Haoyue.

From that time until now, it took only one and a half months to calculate the time.

Therefore, when Shen Lang was in the city of the river basin, although there were also cultivations, it was only gradually refining some of the marrow fluid of the iron armor, and trying to blend the changes in the body. I didn't think about taking the Nedan sprint because it was not enough.

But now it's not the same. It just means that all the cultivation of a powerful person is directly instilled!

Coupled with an iron armor of the Red Dragon, even if it is still not enough, he still has about 30 Nedan in his hand!

Although the "crystal spar" obtained by the river city is relatively old, the collection of the lord is the same, not necessarily the quality of the iron armor, but it is all internal, and the quantity is guaranteed.

At the same time, he also has a hundred elite Lingshi, and a large number of Lingquan, these are his daring of adventure!

After absorbing the person Dan, the strength of Shen Lang has almost doubled, and the speed of refining the iron armor of the Red Dragon is also faster. The spirit of the altar and the altar is also rude.

By the time of the morning, Shen Lang successfully refining the iron armor Chilong Nei Dan!

His energy has accumulated a lot, but it is not enough for him to sprint, so he continues to not continue to take Nedan!

One, another...

At five o'clock in the morning, in addition to the iron armor Chiron Nei Dan, the fifth inner Dan clothing went down!

The body of Shen Lang has finally come to fruition, not only to achieve the strength of the middle of the real world, "Yin Yang Bo Ruozhen" has also broken through the sixth.

He was born again and rebuilt, and the biggest reliance is the "Yin and Yang Bo Ruozhen" created by the former world's peak. This improvement of the ultimate practice can make him improve in all directions!

For example, the speed of automatic cultivation to absorb the aura of the weather and the power of the stars, such as the speed of ingesting the energy of the Lingshi, and the effect of refining the inner Dan.

Therefore, "Yin and Yang Bozhengzheng" can break through to the sixth weight, and it is more exciting than the strength to reach the middle of the realm.

From the early to the middle of the sacred world, for other masters of comprehension, it is likely to be a hurdle for a lifetime, it is difficult to cross the past, or there is a big chance, or it is ready for decades or even a hundred years.

For a month and a half, Shen Lang forcibly broke through the early stage of the transformation of the gods to the middle of the realm of the gods. This is to say that no one believes.

Of course, his method can be referenced and copied, but there should be few martial art to do it – a master of the real world of the gods, plus six inner dan!

This time, Shen Lang felt a kind of transformation and transformation, and finally felt the strength of a powerful force!

Although he was not afraid of beinghave in the past, he was always very cautious and used all the tightrope.

Now is the real capital of the world!

It was almost dawn, and Shen Lang didn't sleep anymore. I washed up some of the dirt and dirt that had changed on my body, and then looked at the phone again.

I just watched the situation of Tianshan Jianzong sent by Zheng Yumeng, and there was some other information. Then I thought of the Tiantian Tower and threw away the mobile phone.

Now look at the other message for this month while charging .

Take a cursory look at all the messages, not worth seeing, or don't care much, just keep one side, wait for your leisure time, or simply don't look at it.

Let him pay attention to the first look, is the message of the wind.

A month ago, because of their anecdote, she was allowed to carry out a certain degree of suspicion and became more low-key, so as not to provoke the right and wrong. However, she still collects various information and screens out some of the waves that may be of interest, and reports to him from time to time.

After reading the message of Shen Lang all the way, it is also to add a little experience. After all, he does not understand the real world of comprehension, especially the high level that ordinary comprehensions can't reach.

Finally, she also saw that she had received some fragments and asked if she needed to send it to Shen Lang and still have time to go to her.

Shen Lang was originally prepared to meet Tianshan, but since they both woke up from high, the state is better. He is not in a hurry, ready to go to find a hurricane without a piece of debris, after all, that is the debris of the artifact!

Chapter 719 - The enemy of the wind

After dawn, Shen Lang bought the ticket directly and went to Feng Wuji.

Address She had stayed before, he did not tell her first, lest she have to pick him up at the airport, ready to go straight.

Feng Wuji lives in Jingyang City. This is her root. She has a good relationship with Shuiyue Dongtian, or a good relationship with Zhuoyuan of Shuiyue Dongtian, because Shuiyue Dongtian is also in Jingyang City.

Therefore, according to her acting style, it is intentional to make friends. When necessary, Shuiyue Cave can cover her, and if there is any need to help, she also helps. Including the trade fair, as well as when I went to Qiangjialing, I went there together.

Feng Wuji did not have a strong family and martial art backstage, but she founded a “hunting company” and had her own office building.

This company is not large in scale, nor is it used for secular savings. On the contrary, she spends money to raise the company.

The purpose is very simple, the work of the hunting company, the external network company, is actually collecting intelligence!

In martial arts and film and television works, people who sell intelligence are easy to design as pubs and small inns in remote borders. However, it is illogical to use ancient information to circulate. It is really necessary to have such an intelligence expert. There are brothels, pubs, and inn chains in the world, and intelligence can be collected.

But now it's different. Ordinary people can get a mobile phone to know the world. For hackers, it really can be partial to the world.

Even in the realm of comprehension, they enjoy the convenience of modern technology. After all, no one can reach the level of a thousand miles of sound. Even if there is a magic weapon that can communicate information over long distances, it is far less convenient than mobile phones.

The wind has no image, like a social flower, in any occasion, will add and accept the addition of many people's WeChat, phone number and so on.

I have to say that most of them are male, and most of them are directed at her figure, or listen to her rumors to see if there is any chance to get it.

Of course, Feng Jiji does not really expect them to be friends, or can help with a lot of help, most of them as a part of the mobile phone information.

These WeChat, telephone, etc., all went through her mobile phone and went to the hunting company. Then there are hackers who black their chat information, but also responsible for accompanying chat, add them as young and beautiful sisters, side-by-side messages, or disguise their identity, mixed into various groups.

These people of the company, in addition to their respective abilities, are themselves extraordinary warriors, or admire the repair.

In addition to paying wages, Feng Jiji also promoted them to the realm of comprehension. This is help and control.

It is because of this kind of behind-the-scenes mobile intelligence information that she can have so much intelligence. However, because she has a wide range of contacts, everyone knows, and everyone has the image of contact, so that the outside world has no doubts, just think that she is good and inquire about intelligence.

Information can of course be sold and sold.

Today, at the Hunting Mansion where the company is located, it is a group of uninvited guests.

In the general manager's office of Feng Wuji, there are two distinct people, one of which has seven people, and the other one has only two people, Feng Ji and Zhuo Yuan.

The other seven people are masters of the real world, including Liu Zifeng and Yang You who once appeared in Qingchuan and saw Shen Lang together!

“Wind girl, this is our third sincere sincerity. Today, my ancestors are coming. If you still don’t know how to lift, don’t blame us!” Liu Zifeng is speaking. There is no wind in the wind, and his mouth sneers.

Zhuo Yuan frowned: “Liu Shidi! You don’t want to be aggressive! The ancestors, the wind girl is a friend of Shen Lang, and also a friend of our water moon, we can’t force her like this...”

“Zhuo Yuan, are you ready to betray the teacher?” The oldest white-bearer on the scene slowly opened his closed eyes.

Before Liu Zifeng opened, Zhuo Yuan still has room for manoeuvre. Liu Zifeng is only aiming at the wind, but not for him.

Now I heard the ancestors speak, and it was such a heavy tone that it shocked him to open his mouth.

Liu Zifeng showed a sneer, watching Zhuo Yuan is the brother’s share, he is not allowed to run, now, my ancestors opened!

“Old ancestor, me, I don’t have...”

“We came to find the girl, just to ask her for the information of Shen Lang. She refused to pass the message, and refused to go to the door twice. This time the ancestor came in person, and Zhuo brother still wants to protect her?”

Liu Zifeng hated the iron and did not become a steel, and then the sinister irony said: “Even if you have an affair with her, you can’t be a teacher!”

“You fart! What kind of private feelings? Wind girl is our friend, helped us to make a water hole! I don’t know what the ancestors are for, but Master Shen Lang also helped us. It wasn’t the phoenix that he gave up. Saved the ancestors’ urgency...”

“Let’s go! Do you want to teach me?”

The ancestors listened to anger, and when they spoke out, Zhuo Yuan was directly overturned, and the slammed bump hit the wall. When he fell, he spit a blood!

With the strength of his true masters, even if the wall is hit, it will not vomit blood, which is naturally the attack of their ancestors!

“Zhuo brother, your maintenance, no thanks!”

Feng Wuji stood up and turned around and bowed to Zhuo Yuan who fell in the corner. “I don’t have many real friends. Zhuo Xiong is always one of them. Shuiyue Dongtian can have such a righteous person as Zhuo Xiong, worthy of it. The identity of the famous group.”

“Bold! There is no wind in the wind, you are a girl! You are an affront to everyone in Shuiyuedongtian!” Liu Zifeng saw that Zhuo Yuan was beaten by his ancestors, and he also took away the guest set and directly scolded him.

The ancestor has an identity. Of course, it is not convenient to drink a woman. This should be done by him.

Besides, Feng Wuji is what he has long wanted!

Obviously it is a stockpile, but it is pretending to be a high-level look. If it wasn’t for Zhuoyuan’s protection, she would have already done it hard!

Shuiyue Dongtian is also uncomfortable for other people Feng Wuji said that Zhuo Yuan is a person of righteousness, and that he can make Shuiyue Dongtian worthy of a big name, not to bend others. Are they scum?

The ancestors knocked on the table and closed their eyes.

Everyone feels it, the ancestor is impatient!

Liu Zifeng continued to take the lead and patted the table hard, and screamed at the wind.

“The deceased brother is infatuated with you, but you are new and tired, hooked up the young guy! You are famous for the broken shoes in the world, it is simply losing our Jingyang face!”

“Today, you will not say the hiding of your little girl, but don’t blame us for the water and the sky to clean up the garbage for Jingyang. You don’t want to be taken by everyone?”

Upon hearing this, Zhuo Yuan was angry and angry, and couldn’t help but vomit a blood. He really didn’t expect that this would be what his younger brother said! And still the ancestors acquiesced!

Chapter 720 - Shuiyue ancestor

Feng Wuji did not go to Fu Zhuoyuan, she is very clear, the more she is worried about the tension, the more she will hurt her friends.

So after the thank-you and satire, she turned her back to Liu Zifeng and others, quietly listening to his foul words, and silently prepared.

When she turned and turned back, there were two more things in her hand!

One is a small copper bell, the other one is a mixed bomb!

Although Feng Jiji does not necessarily have the most extensive combat experience, the experience of dealing with people is definitely far better than the average person.

They want her to tell the whereabouts of Shen Lang. Today is the ultimatum, and even their ancestors came in person, basically it is impossible to delay.

It is impossible to use reasoning. Even Zhuo Yuan, the master of the realm of Shuiyue Cave, has come to this end. What else can she do?

Therefore, it was just a thank-you to Zhuo Yuan. It was also prepared for the battle. When he thanked him, he took out the two magic weapons that Shen Lang sent her to protect her body.

The speed of the hybrid ball was not timely enough, so she waited for Liu Zifeng’s reprimand in the back and did not look back.

Now when I look back, the smashing bombs directly blasted out, and the small brass bells also swayed and sent out a sonic attack!

Liu Zifeng is so arrogant today, of course, because there is a relationship with his ancestors behind him. Even so, the front is still politely called “wind girl” until the ancestors are angry.

Because Liu Zifeng was only in the early days of existence, this is still the breakthrough after the return of Qiangjialing after receiving resources. When he was in Qingchuan, he was still in the virtual world. At that time, he was already in the early days of the real world. He could give him a cold face.

Zhuo Yuan is in the realm of the real world, so he feels that the wind has no good relationship with Zhuo Yuan, it is snobbery, look down on him, just directly exposed such negative thoughts.

After the wind came back from Qiangjialing, he got the help of the phoenix marrow and broke through the middle of the realm. He told Zhuoyuan that they certainly knew it.

But three months ago, Shen Lang used her internals in Haishan to let her ascend to the late stage of the real thing, they did not know.

Originally, I needed to rely on the wind and the moon, and I had two magic weapons in my hand. They also didn't know it. They just thought that she had hooked up the waves.

Nowadays, there is no saying in the wind, and the direct magic weapon has slammed over, and immediately scared the front of Liu Zifeng!

Other people at the scene of Shuiyue Cave Day were also taken aback.

Although they are not very clear about what this is, they know that it is a magic weapon attack, so the instinct of the power of the body, and then a fierce palm to open the floor-to-ceiling window next to it, ready to fly out.

“Breaking!”

As soon as they heard a voice, they saw the ancestor who had just closed his eyes and held out his hand while blinking.

The smashing of the smashing bullets, at least could have blasted this layer, and even collapsed the entire building!

But the ancestors' unremarkable shots, but directly put the strong energy directly to the empty "grip"!

A more powerful hood directly wrapped the explosion, so that the explosion only exploded in front of him, but did not hit anyone.

However, this is so, everyone still feels an unusual fluctuation around.

As the ancestors spoke, his hand led to the side, the powerful energy that had already exploded, and the floor-to-ceiling glass window that had just been opened was vented to the outside and dissipated into the air.

"The ancestors are invincible!"

"The ancestors are invincible!"

Several people in Shuiyue Cave Day were ashamed of being scared to escape, and under the leadership of Liu Zifeng, they took a flattering.

"You, you turned out to be..." Feng Wuji could not help but be surprised.

The power of this magic weapon, she took the opportunity to find a place to try once, the effect is very good. Unexpectedly, it was actually under the preemptive system, but it was also directly destroyed by the other party!

It is the ancestor of Shuiyue Cave!

This ancestor is very high. It is the uncle of Zhuo Yuan's master. It is the only remaining generation of Shuiyue Cave, so he is honored as his ancestor. Everyone has rarely seen him for many years, and he does not know what strength he is.

The last time they rushed to Qingchuan, there was a need for the ancestors. In fact, of course, the best is Nedan, but the best one is the phoenix, so they are bound to win.

With the help of the phoenix, and the other elders of the ancestors and Shuiyue Cave, it seems that the ancestors have gone up one level and successfully broke through the realm.

Afterwards, I went to Qiangjialing, and my ancestors followed the low-key. The wind was no sorrow, that is, I saw the ancestors, and because of this ancestor, they not only returned safely, but also hunted a flying beast.

Feng Wuji does not know what kind of grudges he has with Shen Lang, but even if she does not know the whereabouts of Shen Lang, she will not sell a word.

Now, she realizes the gap. After all, she is not a villain like Shen Lang. Even if she is a sneak attack in the late stage of the real world, she is not an opponent in front of the gods.

“For a woman like you, that person can work hard to push you to the end of the real world, you really have a set.”

The cold enthusiasm of the old ancestors: “But even if you have reached the peak of the real world? Just pinch the ants and pinch you!”

Liu Zifeng and others, including Zhuo Yuan, were shocked to hear that after Qian Guling came back, she was promoted to the middle of the real world. When did she actually break through the post-reality period?

“Old ancestors, you are the old predecessor of Shuiyue Dongtian, why bother me a woman? I really want to find the master of Shenlang Why not go directly to Tianshan Jianzong to fight?”

The wind did not want to fight, but now that I realized the gap, I gave up. How can I beat everyone else? When the ancestor took the shot, she could suppress her, and she would only take her own insults.

For such an old predecessor, she did not show her merits, but only the last reason.

“Humph!”

The old ancestors snorted and waved their hands. The wind flew out of the window and slammed into the back wall. It was also blood coming out from the corner of the mouth. She is already stronger than Zhuo Yuan, but she is still injured.

“With you also with the excitement of me? Shen Lang is no longer in Tianshan Jianzong! He went to the Nantian family, but soon left the hiding, has been missing for a month.”

The ancestors apparently inquired about the information, and still very accurate information.

“I will give you the last chance. If you don’t tell the information of Shen Lang, there is no value of living!”

“Sorry, I really don’t know.” The wind against the wall was a faint smile, and his face was a bit pale.

The sorcerer died for the confidant!

Shen Lang’s emphasis on her trust and her trust, even if she really knows, would rather die than say.

“You don’t have to know all about it. Whereabouts, movements, and possible possibilities can make you live.” The ancestors did not say anything.

“I really do not know……”

When the old ancestors moved, a signature pen on the desk of Feng Jiji flew up and quickly reached her.

“My patience is limited. I won’t let you die so hard. Let’s make this face that makes you have the capital to attract the butterfly!”

Liu Zifeng is brave and half-joking and half-heartedly said: “Old ancestors, before the flowering, you can let everyone cool off.”

“A group of garbage!”

Suddenly a voice came and everyone was taken aback.
