

First Strong 751

Chapter 751 - Town ghost

The nine enemies of the real world, although maintaining a high degree of alert, but the speed of the waves is too fast!

And they have nine people, Shen Lang is the one who attacked, not a fixed number, so when Shen Lang shot, they still have no time to react.

Let them nine people themselves, let the ghost king, including the ice palace, did not think that, Shen Langyi shot, in less than a second, actually hit all nine people!

And no weapon weapon is used, it is done by hand!

Nine of them are in a state of silence, and they are unable to move. Others are watching.

In fact, the speed of Shen Lang is fast enough, but hitting nine people at the same time is actually not done by hand. Several of them were quickly hit by him, and a few others controlled the completion of the lunar needle.

It was only under the momentum of his quick attack that everyone did not notice the change of a needle. Only the person in the middle needle felt it, but there was no chance to express it.

The river and the canoe exchanged a look, and there were flaws in the eyes.

This big boy, when he first came here last year, is still far from them, and they have to rely on them. I didn't expect to protect them after one year.

Just nine of the strong enemies that the three of them were barely able to support, went to Shenlang here, and solved it with one shot!

The embarrassment of the two of them has nothing to do with the individual, but a kind of envy and jealousy as the identity of the palace. So, how can the Tianshan swordsman be treasured?

Of course, I can't help but regret it. Last year was a greedy greed of the canoe, and I offended the waves. Although Luohe resolved this kind of grudge, it is only a law-abiding treatment method, and did not pioneer the acceptance of this male disciple.

In the latter case, they all knew it. It was the Tianshan Jianzong who went to Shenlang after leaving the Ice Palace.

The opportunity was once in front of them, but it slipped away.

However, it is too late to say anything at the time. At that time, their handling was also based on the sect, not selfish, but also adhered to the principle. Fortunately, it still left the friendship of Shen Lang!

“What the **** are you!” The Ghost King has become a bit horrified from the beginning of scruples.

Just that hand, even if he came, it can't be done to this extent.

“Hundred Ghosts have always been unacceptable for the right path. You are squatting in seclusion. It is also poisonous. If you hit me today, then I will kill you!”

If the Shen Lang is welcome, let the ghost king almost be happy!

After all, it was just a group of his men who had just killed him. He could not compare with him at all. If he shot a little earlier, the Ice Palace would have been wiped out this time, and it would not give this opportunity.

Actually said to kill them!

“Your success has aroused my interest. You are a good choice when you come to our hundred ghost gates!” Ghost Wang smiled.

But soon he felt that something was wrong!

Whenever he says something, he will immediately have a group of people applauding. Just like those who have not played on the scene, they are all in the side to cheer.

When this accustomed to it was gone, he realized that a group of people he had brought was actually killed!

He couldn't help but glance at it. Those who had been swayed by the swordsmanship were still in the virtual world. This time, there was no sound. The nine realities that had just stood still were also falling down. Basically, they should not survive. Hope.

Even if they don't care about their lives and deaths, they can only be one or two. Twenty together die. It is really a blow to the smashing of the door!

There is only one person left at the scene. If he can't leave, there is no value left in the hundred ghost gates.

Shen Lang did not return to him, and went straight to him step by step.

Every step of his life has greatly increased the pressure on the ghost king.

When Shen Lang went to the fifth step, Ghost King's psychological defense was broken!

In their realm, no matter the distance between two people, or the distance from his entrance to the Ice Palace, there is no difference. The pace of Shen Lang is not shortened by reality, but by psychological distance.

When Shen Lang was about to take the sixth step, the Ghost King had already made a decision. The body suddenly flew out to the back, then flew high, and moved away from the valley directly!

The sixth step of Shen Lang still calmly stepped out, but the distance of this step has turned into tens of meters, and then the whole person is like a peer-to-peer, step by step to catch up with the past, but it is followed by the ghost king.

The ghost king who left the valley felt the pressure behind him. Since the other side is chasing after him, it is very likely that he wants to kill him here!

At that time, there was a flaw in his hand, and immediately formed a cloud like a cloud, wrapped him up and quickly flew away!

Seeing that he uses the magic weapon, Shen Lang also uses the cloud disc to directly approach the past at a faster speed.

The scope of the black cloud is not big is also the size of a house, but when the sun is approaching, I feel a burst of looming ghosts, sometimes sorrowful, sometimes sullen Hey.

This is the blood of Bai Guimen. The process of making it is very vicious. It is necessary to collect many souls and souls. In general, it is collected on the battlefield or when it hits the massacre. Of course, in their sectarian style, there is also the killing of a small martial art, or even the killing of a village ordinary person to refine.

This ***** blood can not only take him away, but also form a protection. Just like a ghost, when you are close, you must first pass the ***** attack before touching the ghost king inside!

For this magical weapon, Shen Lang is also a bit of a scruple. If there is something in it, there is no good fruit. When approaching, Juyue Sword has appeared in his hands and smashed out with a sword!

The sword of Shen Lang is directly swept away by the sword of the rainbow, and it is necessary to dispel this black cloud at any time.

But the result was a bit unexpected. The black cloud seemed to be spiritual. After being dispelled for a small half, it re-healed and turned into a sword to push forward and let it fly faster!

Shen Lang drove the cloud disc to catch up a little closer, and the hand of the giant Yue sword once again slashed out, but this time did not extend the magnificent sword, only a few feet of swordsman kept at the tip of the sword, equal to elongated The sword body.

This time he is going to use the sword to directly tear this bloody!

In the meantime, Juyue Sword has already opened a black cloud, and Shen Lang has also entered the scope of the original black cloud. The sounds around the ghosts became clearer and louder, but this time it was not the reaction of the active attack, as if it was a shocked feeling.

For a moment, under the same conditions of keeping flying fast, Shen Lang has torn this black cloud in half!

Chapter 752 - Battle of the Dark Clouds

Half of the **** black clouds have been opened, and they should have been to the ghost king in the middle of the bloody, but in front of Shenlang, it is still a dark cloud!

And at this time, the black cloud that had just been split by the Juyue sword was merged together in the back, and the Shenlang was completely wrapped up!

Although those fierce voices, with a hint of fear, did not completely approach him, but he had already wrapped him up and down, and all the visual observations were black.

In this black lacquer, not only the looming ghosts and screams, but also the phantoms of some evil spirits appear, blowing in the face, or biting from the left and right.

However, for Shen Lang, it is nothing at all. If you want to influence his mind, this ghost king's way is not enough!

Shen Lang's mind is clear and his eyes are obscured. He is the **** of knowledge and locked the ghost king.

The ghost king is now within the mystery of **** dark clouds, just a few meters away. But this **** is his magic weapon, he is driving at the moment, so it can be more relaxed.

At this moment, the ghost king is waiting for an opportunity in the black cloud. Try not to let his own shots trigger the fluctuation of vitality. When preparing to get close to the Shenlang, kill it in one fell swoop!

Shen Lang still holds the giant Yue sword in his hand, and continues to advance forward and open the black cloud. Otherwise, Ghost King will start directly when he enters the dark cloud range.

Now the Ghost King is on the side of Juyue Sword and will avoid the swordsmanship. This is also the opportunity he is waiting for, and the screaming and screaming of the furniture in the black cloud is exactly one of his kind to Shen Lang. attack.

The purpose is not to rely on this to kill and affect the Shen Lang. All that is required is to transfer and distract a little of the attention of the waves. His own offense is the key!

Shen Lang continued to maintain the cloud disk acceleration, and Juyue sword also went straight to the front of the ghost king, but always a little worse. This made him change his strategy immediately, and Ju Yuejian continued to attack, but only worked on the surface.

In the dark, the moon needle flew out, and the ghost king from the side to the front flew past.

Not to mention that it is in this dark cloud, that is, in the case of good light, the rapid change of a needle is also very difficult to capture the trace.

But what surprised Shen Lang was that the ghost king actually avoided the Yueyue needle and extended his fingers, just pinching the Yueyue needle!

“I thought you were really so powerful. It turned out that this month’s sneak attacked everyone. I didn’t expect anyone else to go to the moon!”

The words of the ghost king were introduced into the ears of Shen Lang. Even the south family did not know the moon needle. He could recognize it, but he still had a lot of knowledge.

But at this moment, Shen Lang has already understood it!

The reason why I almost catch up and hit the ghost king is not because the cloud disc is not fast enough, nor is it **** too fast, and the mind is not the parallel speed of the extreme acceleration.

But because it is now wrapped in this black cloud, it is equivalent to a **** field!

In this field, the control of the **** ghost king is equivalent to mastering the entire field, so there is always a little speed difference, which is the operation of the ghost king himself.

In the same way, the original action track is secret, the movement is very small, and because of the relationship in the **** field, a little bit of movement, let the ghost king find out, so he can calmly avoid, and clamp 鑿月針.

After the ghost king trapped the sinking waves, he thought that he would kill the Shenlang in the dark clouds, but for the giant Yue sword of Shen Lang, he was interested. This thing is huge, but it is too heavy. It is not cost-effective to use.

Now that I have found a lunar needle, my interest has increased. This thing is not only very good, but also very concealed, very suitable for sneak attacks. For them, the sneak attack is a sneak attack, which is the best at favorite.

After discovering this, Shen Lang immediately changed the strategy.

“Ready to die!”

He swiftly danced the giant Yue sword in his hand, even if it was surrounded by black clouds, this dance was also a gust of wind, and madly rolled to the front of the ghost king.

But the ghost king didn't care. Now everyone is in this bloody, everything is decided by him.

Whether the Juyue sword advances before or is now a mad attack, it is always a little distance from him. But he is also a bit helpless. Under the condition of not being able to grasp it, he dare not just approach the side of Shen Lang.

But the farther he leaves, the more confident he is.

But at this time, he suddenly felt a bit wrong, there is a very dangerous feeling!

Shen Yao's Juyue Jianming can't hurt him, and other magic weapons are the same. What else can he have?

In this dark cloud, others can't see clearly, but he is very real. You can clearly see that Shen Lang has more things in his hands. But still a little puzzled, even if it is a magic weapon, if you want to attack him, as long as you are within the cloud, it will be controlled by him.

Just at this time a white light appeared from the palm of Shen Lang!

Ghost Wang Ming knows that this white light is a bit wrong, but it just raises the alert and lets himself speed up and leave, keeping the distance of ten waves from Shen Lang.

In his imagination, Shen Lang should use this white light to dispel the shadow of the **** black cloud, and then inquire into his position, so as to attack him.

He was only a few meters away from the distance, and after pushing it to a dozen meters, he was sure to shine again, and he could not shine on him.

It is a pity that this white light is not only fast, but also not just a light, but also like a sharp laser beam. When he just retreated and did not find a way to stop dodging, white light quickly hit his body!

When this white light can shine on him, he has already made him a little curious, not just shining, but when he directly penetrated his body, he was even more shocked!

Shen Lang has a lot of methods to kill this ghost king, but Bai Guimen does have some strange magic tricks. He doesn't want to have long night dreams, and he wants to use Bai Hong.

At this moment, the effect is still quite satisfactory. Even in this dark cloud, the ghost king is quickly penetrated, and then with his hand fretting, the light moves quickly and cuts against the ghost king's body. .

A whole group of dark clouds quickly disappeared and everything became clear.

Ghost King is already full of blood holes, his face is also very incredible, but the blood is still in his hands, the dark clouds are dissipated, not blood is out of control, but he changed the field defense status to Active attack!

Without the support of the black cloud, and the injury is not light, let his body fall quickly, but the blood in his hand is a finger, but there are countless black lines, all entangled in the deep waves!

These black lines seem to have the same effect as the black clouds just now, but the white rainbow that Shen Lang just had, he hit the other party and was caught off guard, so he would not let these black lines touch the body.

Chapter 753 - What other means?

Without the shackles of the **** field, the effect of the cloud disc is even more exerted. The moment of the surging wave is already outside the kilometer, and when he is far away, the white rainbow in his hand is shot again!

This time, the ghost king can't dare to try the law. However, in the process of falling, he has no better way. Anything else that can be done is too late. The only thing that can only be used to cover the past with blood.

The black cloud just can't stop this white light, so now it can only be blocked directly with blood!

The **** blood was also quickly broken and opened a hole, but it was basically blocked, and he was not pierced.

Of course, the Ghost King did not wait, but quickly let himself fall to the snow, and quickly landed in the snow after landing.

This is a very coping style. If it is an ordinary person, you can hide it and wait for the enemy to leave. But this is the battle of the gods!

Not to mention hiding in the snow, even if it is hidden inside the mountain, it can be found.

After the blood was broken, the thousands of black lines released, and disappeared instantly, and Shen Lang drove the cloud disc, and quickly caught up with the snow pile hidden by the ghost king.

He did not have a direct past, but he still used the white rainbow to aim at the snowdrift, ready to sweep first!

At this time, the snow pile was splashed with countless snow particles, and then the ghost king who had just landed in it re-flyed.

At this time, the ghost king, there has been a huge change, the head has become very big, the green face is fangs, the clothes on the body burst, revealing the blue skin, and the wound of the blood hole has solidified from the outside.

He was originally a normal person, but now it is at least four or five meters, magnified two or three times.

“Do not have a magic weapon! Come to a hard battle!”

The sound was sipped, and the ghost king was also thrown into the ground without **** holes in his hand, looking provocatively at the waves.

Shen Lang is a little bit crying and laughing, playing to change?

“it is good!”

Shen Lang remained vigilant, but did not break the clothes, but quickly put the clothes off, including other items.

The ghost king originally wanted to attack, but watching Shen Lang take the initiative to undress, naturally there is nothing to hide, and then paused.

“It’s getting bigger, isn’t it?”

Shen Lang looked at him and sneered a little, and his body changed quickly.

The ghost king who turned into a green face and fangs was originally a small man who looked down at Shen Lang, but suddenly, Shen Lang quickly expanded, that is, his eyes wide open, he became a taller than him. Double the giant!

“Is it enough?”

Ten meters high is not the limit of Shen Lang, he did not stop, directly changed to a height of 20 meters, and then did not say anything, directly hit a punch!

The current Shen Lang is four times that of the ghost king who has become huge. This fist almost catches up with his head, and the speed of punching is still fast, so that he can't even evade it. After he punches a fist, he flies straight out. A few tens of meters, hitting a large piece of rock.

When his body jumped up, Shen Lang stepped over and reached the front of him. One foot flew over and kicked him out again for a hundred meters, hitting the hillside beyond the distance!

The ghost king made an unwilling arrogance. He had lost in the process of fighting the law. He was afraid of the magic weapon in the hands of Shen Lang. He also wanted to regain a city through such a strong body. He did not expect the other party to be more powerful than him. many.

“Are you still here?”

The speed of Shen Lang is actually faster than he fell off. When he just hit, his hand has already caught it, grabbed his body directly, and then smashed out to the opposite mountain!

The ghost king who was continuously attacked became very passive. At this moment, he was thrown out into the air, which was a perfect opportunity for him to take the opportunity to escape.

It is a pity that Shen Lang's throwing is just a look. The real thing is to catch up quickly. The huge fist, with the “Da Shoulong's like a magical power”, brings a punch of incomparable power!

This heavy blow directly cracked the wound he had just barely healed, and a large amount of blood flew out!

Then Shen Lang's body flew over him to the opposite hillside, and there was already a giant Yue sword in his hand, and he nailed him directly to the mountain wall!

The ghost king of the green-faced fangs, the body began to shrink, and after a few seconds, he returned to normal state, and his whole person became very weak.

He didn't expect his ghost king to be a god, and he would be beaten like this by his fist!

“You...what is it?”

Retracting the ghost king under normal conditions, and watching the Shen Lang, is even more of a giant.

“Shen Lang!”

During the speech, Shen Lang's body also retracted to normal, and pulled out the Juyue sword.

The ghost king who slid down the mountain wall couldn't help but be depressed. “Shen Lang! You are not the Tianshan Jianzong? Turn off your ass! I have not offended you Tianshan Jianzong!”

Just when Shen Lang had not responded, he opened his eyes fiercely and quickly spurted a burst of blue smoke!

Now the distance between the two people is very close, and Shen Lang has also restored the size of ordinary people.

This blue smoke was completely unexpected. It immediately shrouded the head of Shen Lang 嘿嘿嘿嘿...I didn't expect it! Laozi's bitterness in this place has finally come true! ”

Ghost King finally laughed. He just fell into the snow, on the one hand, he was transformed, on the other hand, he was preparing for this.

If the transformation can win, it is good, if you lose, it is the result of the present, taking advantage of the last sneak attack.

“Don’t you poison? What other means?”

“This is not a general poison, if you don’t have my antidote...”

“What is that?”

The calm voice of Shen Lang, let the ghost king stay a bit.

Carefully staring at it, under the gradually spreading blue smoke, he vaguely saw that there was a thin, flap-like helmet on his head, even the entire body.

“How come you, how can you...”

“Since it is so poisonous, it still leaves you!”

When Shen Lang spoke, the Ba Tian Tower had already sacrificed, and directly absorbed the ghost king of the lost god!

The Ghost King is not only a strong person who has turned the gods, but because he does not know how many people have absorbed the gods, he has cultivated his own soul to grow very strong. In this respect, it is not easy to control. If the body is weak now, the outside world is shocked and lost. It is really only killing. It is difficult to get him into the tower.

After collecting the ghost king, Shen Lang quickly went back to the place just now, and the blood was also collected into the tower of the Heavenly Tower. This thing is also evil. If there are countless souls, refining them together is considered excessive. .

Then he changed his clothes right away, flying in the air, and recognizing the direction.

Just flying fast on this road, he was wrapped in a dark cloud, not clear about the direction and how far he left. Now roughly judged, it may have flown a few hundred miles.

Worried that there are other accidents in the Ice Palace, I quickly rushed back.

Chapter 754 - coincidence? Premonition?

I was included in the Ba Tian Tower, including **** blood. As the ghost king of the hundred ghost gates, getting this end is also a cause and effect cycle.

When Shen Lang rushed back to the entrance of the Ice Palace, he saw that the corpses had been piled up together before, and the canoe had arranged for the Ice Palace disciples to clean up the battlefield.

She also had to coordinate the situation of everyone, and when she fell down and was injured, she did not wait outside. Only the rain fell here.

It is not just waiting for Shen Lang, she is the strongest one. If there are still enemies, she needs her to deal with it.

Looking at the back of the waves, the rain fell and ushered in the past.

“Are you OK?”

Both of them asked the same words at the same time.

Before they couldn't see it, the rain fell to see that the dark waves were wrapped in dark clouds, and he was worried that he would be counted by the ghost king.

Shen Lang was worried that she had been injured before. When she was here, it was not convenient to ask her separately.

After asking, both people shook their heads.

Then both people laughed.

“Nothing is fine, what about them?” Shen Lang asked again.

The smile just fell into the rain, and the brow shook his head tightly: “Not very good, Master, Sister and sister are both injured, and many people are injured.”

“Don’t worry! There should be no big problems, let’s go in and see.”

Shen Lang looked at the valley again. “I will handle it here.”

Twenty bodies were piled on the side, and it can be seen that the ice palace is not good. They are all women. They must have physical obstacles in dealing with the bodies. They can only wait for the past and find a place to bury them.

“They haven’t broken their breath... look...”

Rain fell and said softly, she did not know what to say.

These people almost wiped out the Ice Palace, and many of the sisters were injured, including the Master being injured. Of course, she can’t save them with kindness, but it is impossible to get rid of the one-on-one execution.

Shen Lang is a bit of an accident. It is normal for these people not to die on the spot. After all, it is only the swordsmanship of his group attack, and the other nine are the elites of Baigemen.

But he left for a while, and now he came back. They still have a sigh of relief, which proves that the sorcerer of the hundred ghost gates is still a bit special, so that their spiritual power is far better than the comprehension of the same level.

But even if you don’t die, you can’t live anymore. The difference is only a moment.

For these people, Shen Lang did not have any intolerable, but in the face of falling rain, he would not be punished like the two who had tried to humiliate the voice, or prepared to give them a happy.

“Nothing, I will handle it!”

Shen Lang once again took out the Ba Tian Tower and took them all. Burning and burying are troublesome, and the ice palace will be tarnished again, or they will be refining them directly.

The rain was a little surprised, but I didn't ask much about what it was.

“Right, how come you get here so well?”

Shen Lang suddenly saw a glimpse.

Yeah, why is it so clever?

Although he must have a glimpse of the Ice Palace, he is not in a hurry. It is impossible to come today, come tomorrow, or come early yesterday. Just arrived today, and just arrived at the time when the ghost king led the siege, it must be said that it is a coincidence!

If this is a coincidence, there will naturally be nothing, but a few days ago, he has experienced such a coincidence!

On that day, the whim was first used to find the wind in the city of Jingyang, and it was just when she was forced to die.

Both of these happened to catch up, but from the point of view of his departure, the enemy has not arrived yet, even if the letter is too late.

In other words, it is not because they are in danger that they have telepathy.

However, this did not make Shen Lang too confused.

Because when the “Yin and Yang Bo Ruzhen” is cultivated to the seventh weight, it can have a certain degree of hunch. It's just that he broke through to the sixth place now, so he didn't think about it.

Now, the situation of these two times is that he has a premonition of his subconscious instinct, and he will inadvertently make a decision in advance, which happens to reach the scene.

Of course, this coincidence is also very mysterious. For example, if today is not a voice to escape there, he is nostalgic in that cave, and it may be a mistake here.

For example, the last time the plane was delayed, or caught up with the traffic jam, when it came to the hunting company, it was already late!

This association made Shen Lang feel a little surprised.

Although it is a good thing to have a premonition ability in advance, it is not clear, but it is still unreliable to do it inadvertently.

And now he can't judge himself. For example, when I want to go back to visit my parents, is it a normal miss or a bad feeling?

“what happened?”

When I fell into the rain, I saw that the waves were stunned, and I hurriedly asked.

Shen Lang came back to the gods and smiled slightly: “I feel a little too clever. If it wasn't for me to come to the Ice Palace today, I might have a problem Right, when I came over, first Going to the cave where you let me recover, I saw your voice teacher...”

“My voice sister! It is the palace owner who sent her to the Jianzong to ask for help. How is she?” After the rain, I heard that the voice was in the cave, and naturally I guess it was definitely injured, or else I would not hide there. .

“She was chased by two hundred ghost gates. When she fled there, she was already injured. After I learned the situation, I took some medicine for her, killed those chasing soldiers, and then rushed over here.”

Although Shen Lang said that there is no problem, but the rain is still not worried about the serious injury of a person in the cave, in case there is still embers, is it not dangerous?

“Shen Lang, please come here, I will pick up the voice teacher!”

“it is good!”

Shen Lang decisively promised that he must also have him watched here, not going with her, nor for her.

After the rain fell and the magic weapon flew away, Shen Lang waved a gust of wind and wiped out the blood and traces on the ground.

Then came to the cave.

The magical array outside the cave here has been destroyed, directly revealing the entrance to the ice palace.

It is very dangerous to let the ice palace open such a hole. The slate hole door can only prevent ordinary small.

Considering the ice palace disciples inside, there is a problem in the treatment of the canoe, there should be a problem, and it should be able to delay a little, not bad, this time, Shen Lang did not rush into, but began to busy in front of the cave.

When the rain fell back and the sound came back, Shen Lang had already re-arranged two arrays for them. One was the outer magical array, hiding the entrance, and the other was the entrance guardian array.

Time, materials, environment and other conditions are limited. They can only be placed first and can't prevent the above, but as long as they are not a god, other things should be no problem.

Chapter 755 - Scramble for tokens

Seeing this result, it was very gratifying to drop the rain. When she was waiting here, she was very worried about this problem.

Entering the ice palace together, I saw the canoe.

When I saw the voice, the boat was also a little self-blaming, because her arrangement made the voice seriously injured, and even worse had more serious consequences.

Now that the ice palace is injured, she simply said to Shen Lang that there are more than half of the injured, and many of them are not hurt, including falling.

The problem of falling into the river is mainly that she was originally wounded by the gods, and the injury has not healed. Today's shots will not affect the old injuries even if they do not increase the injury.

Different from men and women, Shen Lang is not convenient to help them check the injury, or directly help the treatment.

However, he gave the healing materials given by Qiao's family to the ice palace. Although the ice palace also has its own medicine, compared with the Joe family, there is still a gap.

Although the healing medicine of Qiao's family did not reach the level of reducing the Dan in the South, it was a thousand years of inheritance. The prescription was not lost, and it was continuously improved, and the medicinal materials of Qiao's family were first-class.

Today, Shen Lang has completely saved the Ice Palace, and then accepts his gift of medicine. He did not verbally thank the raft.

Although Shen Lang is generous, it will not be unlimited.

For the Ice Palace, he has a deep friendship with the rain, and the second boat and the river are considered to be tested friends. So there is no such thing as helping them, but it does not mean that all the duties of all the disciples of the Ice Palace will be taken up.

Not to mention the other disciples of the Ice Palace, the disciples of the Tianshan Jianzong, he has no feelings – people can not recognize.

Therefore, even if there is still Lingquan, it will not be delivered casually, healing drugs can be given, others must rely on themselves.

The voice is slightly different. After all, there was a fate in the dead forest that year, and he just met it directly.

Then he fell to the raft and took a deep wave to see a river. The spirit of the river was very poor, but she still had her demeanor, and did not deny the waves through the injury.

“Predecessors, I just took the liberty to make some repairs to the entrance to the Ice Palace Gate, and I hope I will not be surprised.”

Shen Lang said something about the front door array, the specific opening methods, precautions, etc., have just been confessed to the canoe.

“How can I be surprised? I want to thank you very much for being old!” Luohe sighed: “The ice palace is in a big disaster. If it is not you today, it will be finished.”

“Don’t say, if you didn’t help us to be injured by Jianzong, I won’t give these small opportunities today.”

Falling down a smile, knowing that Shen Lang is comforting her.

The last time she injured her lord was a sacred god. Today’s ghost king is also a god. Even if she is not injured, she can withstand the siege of the nine ghosts. Once the ghost king is shot, the ice palace will still collapse.

“You two go to see other people! I talked to Shen Lang.”

Master said so, the boat and the rain fell immediately, knowing that they must have something to talk about, there are Shen Lang here, and there is no fear that Master will have any changes.

After they left, the river fell a lot more seriously, first arranged a sound insulation.

“You should also be curious as to why the Hundred Ghosts will suddenly attack our Ice Palace?”

Shen Lang nodded: “The ice palace has always been low-key. The seniors and the palace owners are all good people. There should be no life and death enemies, and the hundred ghost gates should not be seen for a long time.”

“Because there is no return to hell!”

Shen Lang was a little surprised. I didn’t expect the river to be so direct, and it was related to the return to the sea, she should have a confidentiality agreement.

“The last time I was in Haishan, I had the privilege of following a closed-door meeting. It was actually a development conference for all parties in the world.”

The river calmly stated that Shen Lang was not surprised.

She nodded. “It seems that you also know a lot of news.”

The current Shen Lang, and the Nantian family, Beihai Qiao family have a relationship, knowing a little news, she is not surprised.

Shen Lang nodded slightly, it was admitted, but did not explain more to her.

“Our Tianshan factions are remote, and the relationship with the Central Plains is still relatively light. Even Jianzong has not been invited, and our Ice Palace is naturally not qualified. I am personally carried into it.”

This is an explanation for her, so as to prevent the Shenlang Jianzong’s sinking waves from being unfair to the ice palace.

When Shen Lang hesitated, he simply said it.

“I just went to Joe’s house and I saw Joe Chau. He invited me to go with me and take care of me.”

“That’s it!”

Luohe used this as a source of Shenlang to know the news. Since she has joined the plan, she is even an exchange, and there is no risk of leaking it.

In fact, why the invasion of the Bai Guimen, including the death of the boat, is not clear, the only reason is that the river.

From their words, they can also guess that Bai Guimen is trying to surrender something, and the ghost king does not directly kill, but is putting pressure on her.

Such things, Luohe now told Shenlang is a token card!

The development plan for the non-returned Hell is actually not limited to the Pacific Rim region, and qualified strong people all over the world want to participate. As a result, the scope is large, the number of people is large, and many are not familiar with each other, and communication is limited.

In addition, there are obstacles in language, personality, etc., so it is impossible to identify by human beings. After the Haishan meeting, a batch of tokens representing the tokens will be made, and those who confirm the participation will receive a token.

When participating in the action, the token is the pass and the certification is not recognized.

Foreigners have some strength but have not been invited to participate. They think of joining the strong parties, and organizing a team to come out to fight against the court. That time, they also sent an invitation directly to Shen Lang.

And some of the domestic people who got the news but were not qualified are the idea of directly playing the token.

Luohe did not say which martial art took her in, nor did she say anything about her personal relationship. Anyway, she was given a qualification. But in the crowd she went to, she was definitely a weak one.

For example, if you also have a token, Bai Guimen wants to grab the token of Qiao Yuxian, not to say that he is looking for death. At least it will be a very difficult and very uneconomical behavior.

The weaker like the falling river has become their goal.

The distance plan begins, there are two or three months, and there will be more changes and adjustments. However, some people have been unable to hold back. The righteous people also estimate the impact, which is inconvenient, and may be discussed by means of inducement of “transfer”.

There are no more than a hundred ghost gates, and their principle is to achieve the purpose of unscrupulous!

If they are not representative of the big door, they may come directly. I don't know where they know the news. Now I am going to the Ice Palace to find the river and ask for her token.

Chapter 756 - Marriage!

Speaking of it, Luohe smiled.

“Actually, I haven't got the token yet. Otherwise, how can I just bury the Ice Palace for an opportunity like no return to Hell?”

It's just that her explanation is useless. The ghost king will of course think that she is a pretext, so she gradually pushes them step by step, constantly exerting pressure and letting her collapse and give up.

If it is not the sinking wave, in the absence of a token, she may end up only really pleading for mercy, or by death, to indicate that there is really no.

“Frankly, I have no illusions about no return to hell. The reason why I attended the meeting was because of vanity. After that, I joined the confidentiality. It is inconvenient to say more. I also considered giving up. I have to guard the Ice Palace. Can't really go.”

“Just just now, I thought that even if I give up, others may not believe it. If you are willing to go, it would be better to give you the token. Now that you know that you will be with Joe, you don’t need me to be a hot potato. It is.”

Shen Lang nodded: “I don’t know if there is a token. It should only be there, and Joe hasn’t got it yet!”

After finishing her situation, Luohe could not help but ask.

“It is said that the batch of people who went to Heilongjiang hundreds of years ago was the top powerhouse at that time. Now, even if they are not the strongest in the world, they are basically a hopeless age. I thought about it once. You are very young, the future is bright, why...”

Qiao Yu Xian Ning can bring Shen Lang this outsider, and will not let Joe’s children together; Ghost King will seize the opportunity, the same mentality.

Shen Lang smiled and said: “The opportunity is rare!”

“You have to think clearly.” It is inconvenient to ask if there is any agreement with Joe’s family, only one reminder.

“I know.”

Shen Lang did not say that she was in alliance with her. After all, he was with Qiao Yuxian, and she also had her friends. I can only say that I have encountered it in the inside, and I will help if I need help.

“Before this, you...”

The river suddenly stopped and stopped.

“What is the predecessor’s words, but it does not matter.” Shen Lang said faintly, she is the master of the rain, no matter what he said, he is not accounting.

Luohe said a little embarrassedly: “Well, we don’t need to pay attention to the superstitious superstition. I want to say... This trip has no return to hell, the danger is still very big, for this, have you arranged each? Aspects?”

Shen Lang nodded: “I know it will be very dangerous, but I will definitely come back safely, so I don’t need to arrange for future events.”

“No, no, it’s heavy. I don’t mean this. I want to say... Have you ever thought about getting married before you go?”

“Uh.....”

This time, Shen Lang was a bit embarrassed. He suddenly asked him to get married. This subtext is naturally too obvious. Will it be difficult to fall in love with him and Zheng Yumeng? Of course, it is a turn to ask if he has the meaning of marriage with the rain.

“We are not ordinary people, we don’t pay attention to what parents say, but marriage is a big thing. Young people also pay attention to their love...”

After saying a few nonsense, Luohe felt that it was too empty, just a little straight.

“I will tell you clearly. You and Xiaoxuan have also known each other for many years. Everyone knows each other and remembers each other. Have you ever thought about getting married?”

“Well, this is... we are still young. The classmates of that year have not graduated from college yet.” Shen Lang reluctantly dealt with one sentence.

He really doesn’t know how to say it. There are certain tacit understandings between the two people in this respect, but it is also false to say what it is to love the rain.

After all, he has not been the sinking wave of this world for a long time. The long life experience of his past life has long made him look down a lot.

“If it’s normal, I think it’s a little early. But isn’t it going to go to hell? You can definitely come back, but if anything happens, like last time in the dead forest, for a few years, You should give Xiaoxiao a little faith and hope.”

Shen Lang glanced at her and saw what she meant. She wanted to bring him and the rain together before going to the sea.

Since Luohe has this determination, it is not a perfunctory thing to deal with.

Shen Lang thought for a moment and asked seriously: “Predecessors, where is the rain? Her views are more important. I don’t want her to reluctantly because of the wishes of her elders.”

He emphasized that “the will of the elders” is actually a bit of a hint. Is this the meaning of falling rain? Still falling into the river for the ice palace to get his more care, and the decision made for the rain?

“You can rest assured! I will not do the little lord, but she is a girl, you are young, and some of you don’t know what to say, I will help you push it.”

Although she said it makes sense, Shen Lang still thinks that she is “utilitarian.”

Perhaps it is almost today to kill the door, let Luohe feel his power, and now help the ice palace to fall into the rain, but that is human nature, only they really marry, can be their own people.

It’s not right to say that it’s not right, but it’s not pure enough.

In order to test it, Shen Lang added a sentence.

“You must know that there is actually...”

Waiting for him to say it, Luohe has already smiled: “There is Zheng Yumeng Zheng girl I can see that the little girl is really sincere to you. And the girl in the West is right for you. general.”

Shen Lang's heart silently added a sentence: Dorothy did not say, there is no wind, and the relationship has gone further.

“so what?”

Falling into the river is amazing: “Your life will inevitably shine. There will be many excellent women around. This is the nature of racial evolution. The excellent and powerful males in the animal world can always get and have more females. “”

“...”

“I don't know what you have encountered in the forest of death, but you are welcome to say that before that, even if you are up-and-coming and genius, you can't think of anything. Look at the world and see everyone!”

“From the time you came back to the present, you have created one miracle after another in this year. It is the young genius of Qiao Shuyu, who has been suppressed by you. It is the master of the Master League. A strong man like the Ghost King of Ghosts is also crushed and crushed by you!”

“But you are not inflated! Your attitude towards Xiao Xiao is still the attitude of me who has already been surpassed by you. The attitude has not changed. This is very rare!”

This time, the river was very serious, and there was no such thing as a previous conversation. It also faintly pointed out – she felt that the sudden changes of the Shen Lang rockets should come from a year and a half that disappeared from the dead forest.

Listening to her compliments, Shen Lang is a little embarrassed: “I haven't changed for you, because you are the master of the rain, to others... It is estimated that everyone thinks that I am blind.”

Luohe smiled and said: “That shows that your feelings for Yu Yu are not ordinary. You are worried now, but at my age, that is nothing! Even... as long as you are willing, the canoe will follow You, I am happy to see.”

“...!”

Chapter 757 - Sooner or later, 1 family

I just reminded if there is any intention to get married first, and I have already made Shen Lang a little embarrassed. Now I suddenly said that as long as they are willing to go to the boat and follow him, they are happy to see it!

Even if Shen Lang had two years of experience, it was stimulated. Is it a way to increase the attraction, buy one get one free?

The raft is not only the sister of the rain, but also her cousin, and they are the daughters of their family. This is a river, but she is not afraid of her brother, nephew and her face...

“That... you are joking. Frankly speaking, being able to be with the rain is already an honor for the ordinary people out of this small place. I dare not expect the palace owner again.”

The river faint smile: “I am not kidding. Although the canoe is less than thirty, it is very young in the realm of cultivation, but in the world, it is considered to be older. She and Yu Yu have a common problem, the more The genius, the higher the cultivation, the higher the vision will naturally become higher!”

“I really don’t want her to become me like this. I pressed the burden of the palace to her body at a young age. I am sorry for her. How much can she see through the world? How much is she on her?”

“Hey, that Joe Shu Yu...”

Shen Lang opened a head, but did not say it straight.

“Yes, Joe seems to be interested in the canoe, but it is limited to interest! Of course, we can’t say that the son of Joe’s family must be a person of the heart, but the key is to see if the light boat has this meaning.”

“This is true.” Shen Lang nodded.

Recalling the previous month's getting along, Qiao Shuyu is interesting to the boat, it is obvious, but the boat does not reveal anything, I don't know if it is a woman's restraint, or no feeling.

“So you don't have to feel the pressure. I don't want to sell the canoe to you. After all, I am their master and their aunt's grandmother. It is impossible to sell them for the benefit of themselves or the ice palace. After all, they It is the future of the Ice Palace!”

Luohe simply said the thoughts that Shen Lang might have, stressing that she is not for the benefit.

“I hope that they all have a good life. Over the years, you have been the best and most suitable person I have ever seen. Of course, I only recommend and encourage you. It depends on what you mean.”

Shen Lang can only nod.

“I have a rest. I don't want to thank you. I can use it in the future. I can use it in the ice palace, but please speak. Just now I said, you also think about it yourself. It is my personal advice, and it has nothing to do with interest. It has nothing to do with repaying.”

After the river fell, he closed his eyes.

When Shen Lang withdrew from her stone room, she was thinking about this problem in her mind.

Although it is not convenient to emphasize too much unlucky words, it is clear that there is no certainty to return to the safe return of the infernal sea.

Normally, even if it is a boyfriend or a girl in this state, he should be persuaded to let go of the rain and break up, so as not to delay the apprentice.

Will also let him get married before going, it should be a bad way to persuade him to curve, through marriage let him feel the responsibility, it is inconvenient to let go of the newly married wife to risk!

I think that the old man had a good intention and was mistaken for him to be greedy for his interests, which made him quite embarrassed.

When they talked, the canoe and the falling rain did not stay outside. The two sisters split up and helped the injured disciples to heal and give them medicines.

Didn't let Shen Lang wait for a long time, they were temporarily busy, and then everyone went to the stone room of the palace.

The canoe was also equipped with a soundproof cover. She was not worried about Master or others, but to facilitate her inquiry.

“How is the situation of Master? Is there anything wrong with her?”

Both of them were staring at Shen Lang, eager to know from him the information that Master did not let them know.

Shen Lang shook his head: “Don't worry! Your master's main injury is still the same, and the rest is good, there will be no big problems. As for today's business... He talked to me and was not convenient to tell you that she naturally has her The reason is not convenient for me to tell.”

There are some disappointments in the eyes of both people. In their view, Master must have had a hard time, but they can't share it!

“But some can say.”

“What?” They asked both, although they didn't know the most secret secrets, but they knew something else and could help.

Shen Lang smiled and said: “The palace owner, the seniors of the river still care about your personal affairs.”

“I?” The canoe was a bit inexplicable. The question looked at the whereabouts of the rain, and it didn't know what it was.

“She said that she didn’t want you to take her way. I probably didn’t want you to dedicate his life to the Ice Palace! So let you enjoy the seat of the palace as soon as possible, and then find a suitable person to marry. Do you have... .. um? You know!”

Shen Lang was said to be joking, but in the view of the canoe, it was a bit of a scornful slap.

She immediately gave him a sigh of relief: “When is it! I don’t believe Master will be bored like you.”

“Oh... it’s actually true. The predecessors of the river also know that Joe Shuyu is interesting to you, but I don’t know if you have any meaning.”

“Nothing!” The canoe was still flat.

“I want to ask you, what do you mean to the sister? Is she really your girlfriend? Is Zheng Yumeng your girlfriend?”

The question of the canoe was let Shen Lang smash again.

Before the river was still their private inquiry, now, the rain is still next to it!

“Sister...” Rain took care of her. “Still ask about business!”

The boat was a bit unsatisfactory, but when it was still held back: “Master is not willing to say, we are not convenient to ask. But it seems that those people today want to get something, I am a bit worried that there will be other people coming! ”

Shen Lang nodded, and they really guessed it.

“It’s possible, but there is no way. Your master doesn’t have what they ask for now, and no one can give it!”

This answer makes both of them very helpless.

Listening to this, Master told the secret to Shen Lang, but why can he tell Shen Lang, but can't tell them? Is it because their strength is not strong enough?

“Say something else!”

Shen Lang was afraid of falling into a canoe and went back to that topic, and quickly shifted.

“It's a coincidence that I came here today, but it's one of the reasons to visit the injury of a fallen river. Another reason is that I got this thing and it is estimated that it will be used by the rain to achieve the maximum effect.”

Shen Lang took out the bottle, and the two of them immediately felt the chilly atmosphere.

“This is...!” The boat was very surprised.

“The good yin spring. It should be suitable for the ice palace's mind, suitable for the body of the rain!”

Shen Lang naturally handed it to the rain.

“This is too expensive!” In the past few years, Luo Yu had absorbed the Yinquan of Li Cao. I understand how big the gap is. I naturally know that this value is great.

It's hard to hide the color of envy, but it's still helping the rain: “You will have a family sooner or later, you don't have to be polite with Shen Lang.”

Chapter 758 - Shen Lang has done things again!

The ice palace is like this now, it is best for Shen Lang to stay and take care of it for a while.

But the Ice Palace is a female disciple. He is a man, and he is also anonymous. It is not convenient, so he left.

Others don't need him to be embarrassed. After he leaves, the canoe will only close the door. No matter what kind of provocation or visit to the door, it will not be received for the time being.

Now they need healing and rest and recuperation. As for how to use Yinquan, there is no need for Shenlang to give pointers. They will have the best way.

After Shen Lang left the Ice Palace, he did not return to Jianzong immediately, and did not continue to guard there, but went to a low altitude place.

After the mobile phone has a network, I immediately contacted the wind.

He directly let the wind and no Ji help him to publish and spread the news: Bai Guimen, the contemporary ghost king, led the public to invade the Tianshan Ice Palace, so the evil behavior, the righteous people are all stunned, Shen Lang has put the Bai ghost door up and down, including The ghost king of the gods, all in the mountains!

The intention of the ghost king cannot be directly stated, but can only be summarized as a general "evil behavior."

For those who don't understand the situation, this can be understood as the "show muscle" of Shen Lang. The scope of protection has been expanded from Tianshan Jianzong to Tianshan Ice Palace!

The person who can guess the inside story naturally understands who this information is for, and other people who want to break the river token idea, they have to carefully measure it.

Some days before Shen Lang killed the ancestors of Shuiyue Dongtian in Jingyang City, and did not publicize it. He and Feng Jiji did not say that Shuiyue Cave Nature would not even say this shameful thing.

Even Shuiyue Dongtian did not preach the things that their ancestors came back. They wanted to wait until the ancestors recovered, but they did not expect such things to happen later.

So for the outside world, I feel that Shen Lang has not come out to do things for a month...

Since the beginning of this year, Shen Lang has been doing all the way, almost no resilience during the retreat. There is no long interval between the others, so everyone is shocked.

Now, too, from the last strong killer of the realm of the gods, but for more than a month, they have killed a strong person of the realm of the gods, and this time, it is completely destroyed!

Ever since, within a short period of time, it has spread rapidly, and many people are discussing it.

This is different from the previous one. At that time, it was a matter of the Master League. Many martial arts people joined the Master League. The instinct had a psychological closeness, or feared that they would be found to be revenge by the Master League. They often did not dare to discuss it directly. .

The object that has been killed now is the evil sect, but there are a lot of taboos, so that everyone is standing on the moral high ground, stepping on a few feet to show justice, so the speed of communication is much faster than the last time. It is.

After a lapse of one month, Shen Lang became a topical character, and people wanted to ignore it. For many people who don't know much about Baigemen, there are some who know about it.

From the public level, Shen Lang has done a good thing this time. Bai Guimen is a lot of right-handed sects that want to be destroyed and not destroyed.

Even if privately envious of Shen Lang out of this limelight, I have to admit that others have this strength.

The deep-rooted martial art, the sense of smell will be more sensitive, it is not difficult to know the clue behind it. Not to mention the friend who brought down the river, it is the big sect who also joined the plan, and will feel uncomfortable.

Not for the ice palace, but also to maintain their own dignity!

If you really let the Bai Guimen get the tickets in this way, and treat them the same way, then you will not be embarrassed?

Therefore, for this kind of heat transmission gossip does not sound some heavyweight martial arts, family, and later screamed to condemn Bai Guimen, praised Shen Lang for the repair of the real world to cut off the public.

Since I feel qualified and have no chance, how can I have to be a god, at least it must be the peak of the truth? At this level, the intelligence is not likely to be worse. From this wind direction, the subtext of the warning behind it is heard.

The token system is convenient for comprehensions of different countries and regions. Within the same country, there are specific sects, and there are still many.

By taking the way to the token, it's not a bad thing. Now things are big, and then there are people who use this way, that is, they have committed public anger, and they have not been to the sea of innocence. They were first besieged by the major sects. .

This is the real purpose of Shen Lang's move!

Through publicity, let the major sects express their attitudes, and others who have this plan will not be able to take another shot. It protects the river and protects other weaker monks.

Including the Fuyang real people who will go with him later.

When I went back to Tianshan, I also contacted Fuyang Real People. For him, as long as I can go, it doesn't matter what name or identity I go.

Originally, I was ready to follow the instructions of Shen Lang. Now, as a member of Qiao's family, there is nothing unacceptable for Fuyang.

It's not the same in Feng Jiji. She doesn't know so much behind the scenes, and she only cares about the waves. Therefore, through her dissemination of information, it is the focus of the Shenlang "again" killing the gods!

This time, the emphasis is also to make up for the propaganda of Shuiyue Dongtian, who is inconvenient to open because of Zhuo Yuan's face. Let the outside world know that Shen Lang kills the gods, it is not a fluke, but has absolute strength so that many people who want to make a deep idea can retreat.

When the news was just spread, Nan Yiye and Qiao Shuyu both contacted Shen Lang, and expressed their admiration for his bullish behavior. He also asked if there was anything to help.

They are worried that Shen Lang has offended what interest groups. This secret Nanjia and Qiao family know, but the two of them are not qualified enough to know that Shen Lang did not say much to them, but expressed gratitude.

A few days after he returned to the Tianshan Jianzong, Qiao Shuyu personally came to visit and brought a gift that his grandfather asked him to hand over.

It was sealed and he didn't know what it was.

Even if Shen Lang didn't know the token of tokens, he knew that it was related to the plan of no-failed Haipong development, so he did not open it in front of Joe Shuyu, which made him curious and itchy.

In order to prevent Qiao Yuyu from inquiring with him, Shen Lang revealed a message to him that many people in the Ice Palace were injured. As a friend, he can send some healing drugs to the death boat owner.

Regardless of whether he is interested in him, the Qiao family's drugs still have an effect on the Ice Palace.

Qiao Shuyu was very upset and immediately left.

After he left, Shen Lang looked at the so-called token, only to know that this is the traditional description of Luohe before he saw the real thing. In fact, it is an electronic pass with NFC near-field wireless communication function, facing the NFC device. With a touch, you can transfer information completely.

Although he only has these two passes (the one he gave to Fuyang), he does not need a special card reader. He just reads it through the NFC-enabled mobile phone, which has all the passes. Brief information about people.

In other words, even if this is robbed, the information in the replacement is not submitted, and when it is verified, it is immediately known.

Chapter 759 - Seeking "premonition"

After Joe Shuyu left, Tianshan Jianzong ushered in another guest, Nanyiye.

When they came back, they came to Jianzong along with them, so when the contact was inconvenient, they went straight to the door. For the people of Nantian family, it is also a friend of Elder Shen Da, and the disciple of Jianzong is of course released immediately.

Shen Lang is a little helpless. He is also prepared to take time to cultivate, but he does not want too much communication to waste time.

Seeing that Shen Lang is not very welcome, Nan Yiye is also a bit embarrassed, can only say that it is because of his grandfather Nan Liuchuan's order. Because he was unable to contact him in time, and it was not convenient to leave a message to avoid being intercepted, he was asked to personally send a letter.

It is also helpless to say that the best descendants of the South are now the focus of training. There are many family things on weekdays, and they must also take care of their own cultivation. These thousands of miles run to send letters, and more time is delayed.

Shen Lang can only pick up the letter from Nanliuchuan. The content is actually relatively simple. It is that Nanliuchuan already knows that Qiao Yuxian is doing the protection of the waves, which makes him very regretful.

Because they had broken together with Shen Lang before, so the meeting was all responsible for Nan Qilin Nan Yuying. Without this vision, they did not dare to make a decision. When they came back, it was because the Emperor was weak. Busy to recover.

This allowed Qiao Yuxian to seize the opportunity, but the Nanjia and Qiao family had a good deal, so they also greeted Qiao Yuxian, and the two will take care of each other.

However, I have had a cooperation with Shen Lang, and I have benefited a lot, so that Nanliuchuan attaches importance to Shen Lang, and has surpassed the importance of Qiao Yuxian!

Therefore, this letter is a confession of the cause and effect, expresses the regret of missing the cooperation of the first wave of protection, and then expresses to him the meaning of the alliance.

There is no opinion on this wave. After all, Qiao Yuxian and Nanliuchuan are masters, and the family history is basically not a burden, far more reliable than Fuyang. And they are all good friends, then everyone will mix together.

What makes Shen Lang a bit tangled is the second half of the letter.

Nanliuchuan still couldn't swallow this breath. After this time came over, he thought about going to Siam to go to the Black Dragon King!

Although after Guon Peng went back, there was no more news. Heiwang Wang did not personally arrange or arrange for people to find troubles in Shenlang and Nanjia, but he could arrange the Nanjia in advance for many years, which shows the depth of the Black Dragon King City!

If you don't do it, you will be overcast when you are not. The South Brothers have been a bit shady, and they can't get through.

In the letter, Nanliuchuan is encouraging the Shenlang to act together. Otherwise, they are still a bit jealous about sputum.

They are not clear about how to solve the problem of Shen Lang, but since there is such a skill, it is a big advantage.

In the letter, he also said that Shen Lang can break the shackles, which is equivalent to the nemesis of the Black Dragon King. They will inevitably find ways to murder the Shen Lang. It is best to start with a strong one!

In this respect, Shen Lang is not interested at all.

He pursued the “people do not commit me, I do not commit crimes”, the killing of the disciples of the Black Dragon King is because of the need to harm him, but this is the result of Nanliuchuan’s confession as “the same party.”

In other words, the original Black Dragon King was only the South, and he had nothing to do with him. He just happened to meet him.

This attitude also brought Gupeng back. As long as the Black Dragon King can accept it, everyone can still make water without water.

If the Black Dragon King wants to take revenge for him, then it is a postscript, and everyone will do it directly. Now, because of the possibility of revenge, or possible murder, I will start killing people. It is simply an unwarranted crime, and let him renege on it – even if he and he only know.

As for Nanliuchuan, the Black Dragon King may have been hidden for many years, waiting for you to relax and be vigilant. Shen Lang is even less worried, because after waiting for many years, don’t say who the Black Dragon King sent, it is the Black Dragon King, and it is not enough for him to pinch.

What is needed for Shen Lang is precisely the time!

There is enough time for him to grow. The leap in this year has been extremely fast. From the illusion of last year to the realm of the gods, the time is still too short.

“Southern brother, go back and tell your grandfather, I said that the first thing he said, I am happy. As for the second thing, I am blessed, but I will not mix.”

The reply of Shen Lang, let Nan Yiye seriously listen and write down, there are secrets he does not know, but this must be returned to the original word.

“Okay. Thank you, Shen brother!”

Nan Yiye saw that Shen Lang did not have time to entertain him, and he left. His enthusiasm was completely incomparable when he went to his home with Shen Lang, but what could he do? Now Shen Lang is a grandfather who seems to fear him!

The south leaf of the Nantian family came to Jianzong, and the tea had not yet finished a cup. It was really “the time of a tea”, and it was sent away by Shen Lang. There is no unpleasant color...

This scene makes sighs, praises and other elders sigh.

If you don't see it with your own eyes, they really can't imagine the elders of Jianzong.

Shen Lang did not retreat, because it was only recently broken, and the retreat will not have much effect.

But he now needs time to study the “premonition”!

The coincidence between the wind and the ice palace is not a coincidence, it must be related to the hunch.

It is only the ability of the hunch, he must cultivate the “Yin Yang Bo Ruozhen” to the seventh, so he did not consider this problem.

But it has already appeared, or it is very likely to appear, of course, to grasp!

At a critical moment, you can have a hunch that it can be said to be a life-saving thing.

It is only this premonition that appears in advance that is not intentional for him to meditate under the meditation. It is a natural reaction in the state of not thinking at all. If it is not really an accident, it will not be linked together.

Now I have the heart to want a “premonition”, but there is no income!

Shen Lang is also very helpless experience let him understand that the more urgent this thing is useless.

After studying the breakthroughs for many days, Shen Lang gave up and prepared to let it go.

If you really have a hunch, you can naturally play a role at a critical time. If you can't do it, you have to force a "premonition", but it may help you.

During the period of the Tianshan Jianzong, Shen Lang will also check the injuries of Gao Li and Qi Sheng every day. After the encouragement of his return, the two of them will rush to cooperate with the treatment. They are also actively healing, and the effect is very significant. .

However, the injury is too serious. These two months are not enough to make them recover.

After all, they are different from the original, and they only want to save their lives, and they want to recover completely.

As time passed, Shen Lang also left Tianshan to return to Pingxi.

This is to celebrate the New Year. Last year, he did not have the opportunity to accompany him. He had to spend the New Year with his parents this year, and then waited in March for no return to Hell, and he did not know how long it would take.

Chapter 760 - Soul bead

Back to Pingxi Chinese New Year, Shen Lang did not contact the students of the past.

Although they also had a message to him, they asked him if he could not come back, have time to party, etc., but Shen Lang did not reply.

However, for Yue Zhennan, he still contacted him and gathered with him and Mo Qi.

After all, he is a marriage of Yue Zhennan. If he is unfortunate, he will be a bit unwilling. The time has passed, but the consequences should have been revealed.

The news that was obtained was to make him feel happy.

On the one hand, Ye Yao's capital is her own strength. On the one hand, she is from her teacher's door, and then she is calculating in the dark.

On New Year's Day, it broke everything about her. The strength of the individual has been abolished, and the entire Ye family has left Ye Shiguang a comprehension. Master also had a deep wave of sorrow, and the mind of the calculation was also revealed in front of Yue Zhennan.

So she almost has no way to go!

If at the time of the wedding, Yue Zhennan didn't want her, she couldn't mix in Pingxi, and she wouldn't want him to become a waste teacher. But she was tired, and Ye Shiguang might not let him go.

Therefore, Yue Zhennan continued to complete the wedding. In fact, it was a bit grievous, and it was a great tolerance for her. It also reflected her feelings for her.

She is a clear person, she can only bow when there is no better way to go. Otherwise, if you don't say Ye Jia, her mother, brother, the consequences will be very miserable!

And Ye Yao, a person with a deliberate mind, once turned around, often goes to the other extreme.

She was thinking about taking possession of the Yue family, for the rise of Ye Family. However, I felt that I was forced and gave up by the Ye family. I couldn't revenge the huge monster of Shen Lang. I counted this grievance on Ye Shi's only vested interest, Ye Shiguang.

Therefore, after the marriage, she quickly walked out of the haze, and changed to the power to assist Yuezhennan, to take the Yue family to a more powerful aspect, in the various businesses, are not giving Ye Family a little benefit.

She was able to do it, and it was of great help to Ye's recovery over the past six months. Now that she is married, it has already had a great impact. It does not help the Ye family to suppress it, but it also makes Ye Jia's business business under pressure.

On the contrary, Yue Zhennan is a bit too unwilling to go, so that Ye Jia can maintain the original level, instead of having problems.

Ye Shiguang has no ambition in his chest, and he is able to firmly control Ye Family, which is the most important thing. Ye Yao had an opinion on him, and he squinted and asked for Yuenan.

Because he is very clear about the reality, the superpower of Shen Lang is intervening because of Yue Zhennan, he can't get a deep wave, and if he gets a good job in Yuezhennan, there will be no big problems.

It's only a month or so before the Chinese New Year, but it has already undergone many changes. Fortunately, the final result is not bad, so Shen Lang will be relieved.

During the Chinese New Year, Shen Lang also looked at the Ba Tian Tower that had not been taken care of.

In fact, Shen Lang does not know how long it takes to refine the living people. It is estimated that the stronger the strength, the longer it will take. If the time is longer, the more people inside, the more painful they will die.

He still warned himself that this thing is a bit evil, still can not be used.

This time, in addition to a bunch of other things, the final black ball is much stronger than the last time the lord.

That time was a transformation of the realm of God, and this time, it was two transformations of the gods, plus a pile of still virtual and real.

The effect of this black ball is definitely not normal, but Shen Lang has not taken it for a while, or keep it, waiting for the opportunity.

When he used to collect people from the tower, he certainly didn't search. So now that I have refining, I have gotten a lot of things in it.

Things that are useless, such as clothes, are removed and thrown away, leaving only valuable things. The key is the collection of Ghost King!

The old ancestor of Shuiyue Dongtian is really poor. Originally, the water moon hole is not rich enough. He can cultivate to this realm. It has already consumed a lot. When he was finally wounded and robbed by the lord, the most valuable thing was The magic weapon of “White Rainbow” is left.

Others who are still in the virtual world can be neglected. The collections of the real world are also limited. They belong to the hundred ghost gates. Probably everything is in the ghost king.

That **** blood is not a living thing. It has not been refining into a single molecule with them. It is still the way it was thrown in before the sun waves, including the spirits inside, all still remaining the same, not completed. Excessive.

This is a little regrettable.

However, this thing he does not use, he is not convenient to give to others, because if one does not operate well, it may turn himself back. – The things of Bai Guimen need strong spiritual strength, so he can handle them with ease.

After considering it for a while, Shen Lang is still hands-on, and directly removes this bloody!

This process is more troublesome, because the key is to release all the ghosts and grievances inside. If you release them directly, even if he has no problems, it will affect the ordinary people around him.

He is at home for the New Year, and the closest is the parents.

Therefore, even if he was not thankful, he was careful, and the **** grievances were a little overdone, completely dissipated, and finally dismantled.

In the collection of Ghost King, in addition to Lingshi, there are some medicinal herbs that do not know the effect. It is estimated that they are not good things. Shen Lang is not afraid of waste, and these are ruined.

But the hundred ghost gates that have always been suppressed by the right path are also poor. The collection of the ghost king is not too much, and the magic weapon is not. It is estimated that only one **** one.

Seeing this, Shen Lang has a little understanding of why they studied sorcerer, and in the end it is still a resource issue. The famous Tianchuan Dachuan Cave Tianfudi has been occupied by the Dafa Giants, and can only go to more remote and barren places.

Bai Guimen is not reconciled to this will go the evil way, with such shortcuts to make up for the lack of resources.

In the end, Shen Lang saw a transparent bead, not a stone, nor a remedy. I don't know what it is.

He hesitated a moment, surrounded by a layer of energy in the palm of his hand, even if it was a poison, it would not hurt himself, and then took the beads and experienced it.

However, after he gripped the induction, there was an unexpected situation immediately, and there was a feeling of external force rushing in!

Shen Lang immediately wanted to stop, and loosened the bead. As a result, the bead was gone, but it was completely absorbed into the body.

This makes Shen Lang sternly wait, and the things of Bai Guimen can not be absorbed casually.

But soon he understood what it was, because the "external forces" that had just entered the rush were not aura, or other poisonous gas, but the power of the spirit!

This is the soul of a hundred ghost gates!
