

First Strong 761

Chapter 761 - Ask the secret

In the past, the soul of the soul has heard of it. According to Bai Guimen's statement, the soul of the human being is taken out and held in the beads.

However, Shen Lang actually sees through the key. In fact, they extract the spiritual power of others, with a little shadow of the original owner, but it is not the real soul, or the soul.

The soul beads are not used for detention, but for collecting reserves. These spiritual powers are the supplies they use to improve their mental strength.

The ghost king who refines this soul bead has died, and it has become an object of no ownership. Just after the wave of waves inadvertently triggers it, and his mental power is strong enough, so naturally, the soul is inside the soul. The power of the spirit has been absorbed.

The reason why the reserve is collected by the soul beads is because the power of the spirit is others', and it is to suppress all the spiritual power of one person. Once absorbed, it takes time to digest and absorb.

If it is stronger than the person who absorbs it, it is not only difficult to digest, it is very likely to cause competition for consciousness, which makes people confused.

If you absorb more of the spirit of the spirit at the same time, it will naturally become more chaotic. If you accidentally make yourself an idiot or a madman.

So they just keep it up, and then use it for a long time and slowly turn it into their own use.

However, Shen Lang just now, it is to absorb all the spiritual power inside the soul beads!

Therefore, even if he is, he feels that it is a rushing force. If it is not the strong spirit of the last generation, he is already crazy.

However, the feelings of the present are also uncomfortable. These different strengths of strength and strength have not played a role in assisting the warming, but the impact on his personal spiritual will.

Fortunately, the spirit of Shen Lang is strong enough, and the impact of the mental unconsciousness, for him, is to destroy one!

He now seems to face countless surges, not only did not knock him down, but instead crushed these big waves and smoothed them down.

This process is not too simple, even if it is a deep wave, in the face of the impact of mental power, do not dare to care.

After a complete combing, all the spiritual powers that have been absorbed have become his supply, and his mental strength has been greatly strengthened.

This time, the accident also made him feel a little worried, and he was sure that he would not need to move the black beads that he had made so that he could not control the problem.

Shen Lang also informed the real person in Fuyang, let him come to Pingxi.

When he saw the real person in Fuyang, Shen Lang gave him the pass directly.

Fuyang real people are quite excited, and praised Shen Lang: "Master Shen is not a master of Shen, even the relationship between the North Sea and the Qiao family can be opened, and the next is the five-body investment!"

"At the moment, can you tell me more information?" Shen Lang looked at him with a slanting look.

"This..." Fuyang is a bit awkward. He still remembers the last time he gave a message to Shen Lang.

“The so-called open-air machine, but it was leaked before the time has passed. Now there is no way to go to Haikou, it is already to be developed on a large scale. There are so many people who know, and I have got more from other ways than you. Information.”

Shen Lang gave him a comforting excuse, and continued to incite: “Now the information you have is normal information. Waiting for us to go to **** next month, even your information has been lost. value.”

Fuyang real people are more stunned.

The last time he was able to move Shen Lang, he relied on he really knows some secrets!

If his information has no value, then his strength, for Shen Lang and Qiao Yuxian, that is no help, even if you go to the scene, it will be abandoned.

And he understands that the relationship between Joe’s family is that Shen Lang got it for him. Between Shen Lang and Qiao Yuxian, he must be more inclined to Shen Lang.

In the same way, he is the person brought by Shen Lang, and Qiao Yuxian cannot and will not regard him as a confidant.

In other words, his value has been determined in his last time and can only be sold to Shen Lang!

Now Shen Lang asks, he can only show his own value as much as possible. If the value of use is gone, why should someone who is not a pro-inferior help you?

Fuyang real people took a deep breath.

“Our celestial patriarchs, strength is not as good as other powers, but we also have our own secrets. When our ancestors went to the sea without jail, they were ready to go back, but even if they were martyrdom, they should The first hand information is passed back!”

“To find the first-hand information on the front line with life, your grandfather is really good.” Shen Lang laughed.

The real people in Fuyang are very serious: “Spying into the heavens is the purpose of our celestial patriarchs! Now we call it the non-returned sea prison. In that year, it was called the gate of the heavens, and it was the passage to the fairyland. Can we miss it?”

Shen Lang nodded and expressed his respect for his grandfather and told him to continue.

“The ancestors of that year were prepared to die, but as long as the information was brought back, the descendants were naturally able to prepare more fully...”

Having said that, the real person in Fuyang paused and felt the change of the body. He was very awesome about the secret of the world.

After a while, after confirming that he had not suffered a counterattack, he carefully continued to speak.

“Before our ancestors disappeared, the exact information was returned – everyone didn’t die, it should be the gateway to the fairy world!”

After he finished speaking, he gasped a lot and did not encounter any resentment, which made him very happy.

Shen Lang listened carefully and pondered the meaning of his words.

“What do you mean by saying that those big powers were not dead in the sea, but really went through the sea and went to the fairy world?”

The real person in Fuyang calmed down and found that there was no such problem as the last time. Let him make sure that this may not really be a secret, and he can talk better.

“The door to the heavens and the gateway to the fairyland are just a saying. In our current definition, it should lead to another world.”

Shen Lang nodded, which is the same as his conjecture.

“However, since the two worlds are connected, the aura that overflows can make the earth richer than several hundred years. The world, no matter what other space, other planets, from the perspective of cultivation, is called the fairy world. Not too much.”

“Is the earth’s aura more powerful than it was hundreds of years ago?”

Fuyang was a bit strange, but immediately thought of the identity of Shen Lang, shut up decisively, and then quickly changed the topic.

“Because we have this information, I want to explore the realm of the district. I want to explore it. Otherwise, even if it is a feast, it will be accompanied by high risks, and I will not be able to eat a little residue.”

Shen Lang patted the palm of his hand. “Yangyang is a real person. If you are today, I have settled a lot. I said it last time, I am a person who is afraid of death. I really don’t want to be killed.”

Fuyang lively smiled and said: “Master Shen, you call me Xiangyang, you call the real person is not to hit my face? Although it will not die in the sea, but the final situation, it is not known, At that time, I have to rely on the masters.”

Shen Lang glanced at him, and he knew very well that he must have revealed the information.

However, he did not force him to say more. After all, this is the value of Fuyang’s real people. If people are completely involved, what if you don’t bring people to play?

Being a person can’t be too greedy, or else he can say something false, but it may be misleading.

Although the information obtained is limited, it is worthwhile to look at the positive appearance of Xiangyang.

Shen Lang now does not lack Lingshi, and directly throws the spiritual stone obtained by the ghost king to the real people in Fuyang.

People have to pay for it.

“There is still more than a month, try to improve your strength, or leave a little bit to the disciple! I don’t know anything about it, I am still not optimistic.”

Fuyang was amazed for a while, but he did not expect that Shen Lang would give him so many spiritual stones.

“Nothing is unreliable, how can I do this...”

“Receive it! You can improve your strength. When I get a little less, I will settle down the door and I will not have any worries.”

“Thank you Master Shen!”

Of course, Fuyang real people can also think of Shen Lang’s intention to buy people’s hearts, but everyone has no friendship, of course, the exchange of interests. He is still very excited to get some Lingshi.

“Don’t thank you too early. You may not know. Last time I used your apprentice Ye Kuizhu to become an extraordinary warrior. I found out that his sister Ye Yao had some harm to my friend some time ago, so I basically put the leaf home up and down. I am an ordinary person.”

Fuyang really laughed and said: “I know this, the child of bitter bamboo has looked for me. But for us, everything is a chance. He is not a level with you, this is the reptile and Xianglong. The gap, you have to provoke you again and again, is a self-defeating opportunity.”

“You can see it.” Shen Lang laughed.

“Ye Kuzhu is a little talented In the place of Pingxi, it is not bad. Of course, it is the difference between you and the moon. But he has no big chance, but also There is no great wisdom, so he has never been able to let me teach the secrets of the secrets. It is also a pity.”

Shen Lang nodded. “That’s it. I deliberately explain this to you. I don’t want this to be your heart. If I am in danger, you will not save me, but you will also avenge your apprentice.” I am in trouble, I am in trouble.”

Fuyang is very embarrassed, and quickly stated: “Despite your reassurance, if I can help with any little help, I will do my best to kill even my life! Of course, even if it is really dangerous, it is me who needs help. It will definitely not be you.”

This time he is more respectful to Shen Lang’s attitude, no way! After more than half a year after the last time, Shen Lang is doing something bigger than one!

At that time, it was only killing the late stage of the real life. Now it is the destruction of the gods! According to his speculation, there seem to be more than two...

Just said that Ye Kuzhu and Shen Lang are the gap between reptiles and Xianglong, the pearl of rice and the moon, but it is also his own contrast feeling.

Chapter 762 - Re-enter the dead forest

After the end of the year, Shen Lang let Zheng Yumeng and Dorothy stay in Pingxi, or go overseas.

He didn’t know how long it came back in this trip, so they would feel bored in Tianshan. As for what they want to follow, the reason is simple – no more qualifications.

Zheng Yumeng and Dorothy naturally want to follow the Shenlang, even if there is danger, it is better to stay than to know when there is news.

However, since Shen Lang made arrangements, they still obeyed.

Shen Lang still has to go back to Tianshan, and he is not at ease. Xiangyang real people have long been in contact, and agreed on a time and place for convergence.

Although Gao Li and Qi Sheng did not recover, after two or three months of treatment and cultivation, a large number of herbs were left, and the effect was obvious.

When Shen Lang returned to Tianshan after the New Year, they could already live as simple as ordinary people, and they didn’t need to lie down to take care of them.

From injury to the present, it has been almost three months, and it's not easy to lie in a coma for almost a month. They have lived for a hundred years, and this is also the most serious injury.

“Master! If it is not your encouragement, even if we save us, we are still desperate.” High deviation is a little tearful.

Also, after the death, this experience of death, especially after lying for so long, has a huge difference in his state of mind, and his ambitions can be put down.

For Shen Lang, they have not respected him because he was the “reincarnation of the cold autumn ancestor”. This young man really made them feel the feeling of Master.

Not to mention a lot of gifts and the guidance of the cultivation methods, it is only when the teacher encounters the crisis of life and death, that is, Shen Lang comes out to turn the tide.

“Okay, don't be so good, you are all old guys who have lived for a hundred years. The dynasty has experienced the change. You should come up with the mentality of ‘what the storm hasn't seen.’ If you don't say anything else, you will see others.” Respect, I was injured in this way, and I was strong enough to adapt.”

In the words of Shen Lang, let both of them take it for granted, and then they will be embarrassed.

The front of the road is not to say, at least the deity is an example they have seen with their own eyes, was completely ruined, and did not abandon themselves, did not go to extremes, still dragging the body to contribute to the sword.

“I have to leave for a period of time next month. I am not keeping their rules. Let me tell you that I am going to nowhere.”

“No return to hell!”

It is normal for Shen Lang to leave for a while. He is often not on the mountain. Every time he brings huge gains or a huge leap.

Both of them were very understanding, but they were shocked to hear that they had no return to hell.

Because the high-cold ancestor of the year, after going to the sea of no-fail, there is no news anymore, until...

Recalling the current Shen Lang, it is very likely that the reincarnation of Gao Zu Shi was reborn. If they wanted to persuade, they would hold back.

Gao Zu Shi once went there once, even if he was reborn, he must have some experience. This time, the chance of coming back will be even greater. And this is definitely his heart, which is persuasion and can not be persuaded.

“Since you have decided... then be careful!”

“It’s a pity that we have already done this, or else we can help a little.”

Shen Lang shook his head: “You have to stay here, you still need to preside over the overall situation, and you have to hurry to recover your injuries.”

“Don’t worry about me, I am along with Qiao Xixian of Beihai Qiao’s family. Nanliuchuan of Nantian family also agreed to form an alliance. And this time not only the domestic martial art, but also the comprehens of other countries, this is a large-scale At the same time of development, I believe that some advanced modern technology will be prepared and kept as safe as possible.”

These words are said to give them two peace of mind, but it is impossible to completely rest assured.

After all, there is no return to hell!

It was originally Dengtianmen, it was Xianlu, and everyone had to go back without a return, only to drop a fierce name without a return to Haikou.

If they can, they certainly hope that Shen Lang will not go. If you really want to go, you can only hope that he will return safely, and at the same time let him have no worries.

Both of them immediately stated that they will settle down the swords and will heal them as soon as possible.

Their most dangerous and difficult stage is that during the coma, it is now possible to better heal themselves, and the speed of recovery will be faster and faster.

Shen Lang gave them some separate spiritual springs.

Just under the heavy blow, what is most needed is to restore the external force of Dan, and now I can heal myself. Lingquan is a very good thing.

I wanted to come to the Tianshan Jianzong when I was in the early days. I was looking for the Jianling, and I was able to quickly recover the injury by relying on the Lingquan that had been stored for hundreds of years.

At first, it was because of the cold autumn, but now, one year later, Shen Lang has really regarded this as his own martial art. Even if he has not taught ordinary disciples, he is still not familiar with other disciples, but he already has a Sense of belonging.

However, he does not let himself go to cherish the memory, this is not to return.

Except for the two of them, the other people have not said much about Shen Lang, including the deity, can not leak to them, when the time to leave their prestige, anything should be able to stabilize.

Then he left for a first time, not rushing to Joe's house, but heading to the death forest!

Shen Lang is going to see Xu Yiyue, no matter whether Xu Haoyue will go or not. The news still has to be notified. When I came to the death forest last time, although I knew the plan, there was no specific time.

When Qiao Yuxian invited him last time, he even considered Fuyang real people, and of course he would not forget Xu Haoyue.

But the identity of Xu Haoyue is too special That is the real old monster, the 100-year-old monk, in front of him, is still a junior who is too far away.

To let Xu Haoyue take the identity of Qiao's family, it is naturally insulting him, and it is not convenient to tell his identity. Whether it is to make Qiao Yuxian or Nanliuchuan to protect, at least there must be an identity.

Just like Shen Lang himself, if he is not the chief elder of Tianshan Jianzong, Qiao Yuxian wants to help again, and can only get the identity of Joe's family.

However, how did Xu Haoyue go, Shen Lang did not worry, with his strength, he couldn't stop him at all, and he could calmly follow it.

The reason why I rushed to the death forest in advance is that I am afraid that if I don't have a home in the next month, I will not know where to look. The time of Xu Yiyue's life is calculated in a hundred years. Even if it is not going to be a few months or even years, it is not a problem.

The last time I left, the Xuanhu finished eating the swallowed meat, still fainting and absorbing. This is the pet that Xu Haoyue attaches to. It should not leave too far, so it is only necessary to prepare some error time.

Chapter 763 - Xu Haoyue's decision

The road that Shen Lang went to was a familiar road. The valley where Xu Haoyue lived was carefully identified. After all, it was only once a few months ago. It was already a few months ago.

In the dead forest, there is no fixed road to be feasible. Even if they return, they can't do the original road. It can only be a general direction, and it needs constant revision.

The farther the distance is, the easier it is to have errors, and because it is difficult to have a reliable reference object, it seems to be almost the same virgin forest. It is very likely that the error is a big destination. It is very possible to get lost. .

However, Shen Lang has always lived here, and the experience is far better than the average person. And when I left last time, I got a map drawn by Xu Haoyue!

It was a character who lived here for hundreds of years and walked through many areas.

This trip is only a single person, and it avoids the interference of other people and can better identify the road.

When he had not yet reached the valley, he felt a glimpse of the investigation, and immediately knew that Xu was at home.

This is the gap in strength!

The last time I was guarding the scorio, Xu Haoyue was able to clearly understand their condition at a very distant place, and Shen Lang was not able to sense it at the time. It was found that there was a problem, or because Xuanhu was close. And the reconnaissance function of the Holy Grail.

At that time, he had the strength of the peak of the real world, and now he has come back here, he has reached the middle of the real world.

Although Xu Weiyue is still far away, Xu Yuyue's insights are also discovered by him.

When Shen Lang came to Dongfu, Xu Haoyue had already greeted him outside, and there was obviously fruit and water that had just been prepared.

“It's not a gentleman, even if it is reincarnation, it's still so fast. It's a big leap last time.”

Xu Haoyue couldn't help but admire it. He didn't need to see it now. Just after a long distance investigation, he already knew that Shen Lang had a breakthrough when he left.

Shen Lang smiled and said: “After all, the strength is still low. If I am in your realm, it will be difficult to fly again.”

Xu Xiaoyue smiled bitterly: “I have lived for hundreds of years.”

“How? What happened to the king of the beast?” Shen Lang asked.

Xu Haoyue shook his head a little helplessly: “I have investigated several times in the past, the power is absolutely overbearing, and I can’t grasp the other high-level beasts that can be ordered, but it also discovers my existence, some alert.”

Shen Lang nodded, although he is extraordinary in strength, but the king’s beast is also a big boss, and it is not so easy to kill it. It is often the case that the well water does not violate the river.

“It’s okay, it’s only three months. You should have enough patience to wait for the opportunity.”

For the comfort of Shen Lang, Xu Haoyue is a bitter smile: “It is not optimistic. It grows very fast. After a long time, it should be harder to have a chance. But everything must be seen, not my chance, but also my life.” I can’t ask for it.”

He has diminished all mentality for hundreds of years and let Shen Lang nod.

“Mr. Come alone, should there be any change in the sea area?” Xu Haoyue changed the topic of a person, and he was not polite.

Shen Lang nodded: “Yes, this time I came to you, just telling you about the non-refuge.”

He said this development plan and the current progress, since it will choose March, it should be the people of the relevant organizations, refer to the factors such as ocean current climate, or detect any changes in the return to hell.

Overall, the plan is progressing very quickly, but the time behind planning and preparation is certainly longer.

Then Shen Lang also said that he wants to participate, and the rest is very clear. If Xu Haoyue does not go, it is up to him to decide, just pass this information over.

Xu Haoyue did not think about it and gave the answer directly.

“Since Mr. is willing to go to risk, I am willing to go along! I was inferior in strength, and I was not enough to follow the steps of Gao Da Ge. After a few hundred years, I have not gone to explore, it is really lack of courage.”

He still feels a bit embarrassed to say that it has been so long, no matter what problems those people have encountered in the past, he will never see the cold autumn again.

“that.....”

Shen Lang has not said it yet, Xu Haoyue has already understood what he meant.

“You can rest assured! I don’t need tickets. I naturally have the means to follow my colleagues. You can give me a rough time and address.”

Shen Lang does not know where to board the ship, but he will talk to the place and time of the Xiangyang real person. Then he will follow the Joe family and follow the sea.

With Xu Haoyue’s realm, he wants to be undetected, and there is still a way to do it.

After finishing the business, the king’s fierce beast did not progress, and Shen Lang immediately quit, leaving Xu Haoyue’s own time.

The harvest of the medicinal materials here has to be collected first, and there is also a significant round of how to place the black tiger.

Shen Lang crossed the two circles and told him the news, and then he would go back and let Xu Haoyue be a bit embarrassed.

However, his best nine-time Zijinlian, the first time he met, gave Shenlang, and now there is no better way to get it. The most precious herbs are the only ones that Tianshan Jianzong can use. The value of Shen Lang is not great.

So he did not give any gifts, but secretly made a decision to go to the sea of innocence, if there is any danger, try to protect the back of the waves!

This is not for himself, but for the cold autumn, he can not do anything for the cold autumn, help to return the waves, it is also a wish.

When I returned, Shen Lang looked at the map and thought about the time. Since I came here, it was a bit regrettable to go back empty-handed. Do you want to kill one or two beasts?

With his current strength, even without the help of his teammates, there is no problem at all.

But after hesitating, I gave up. After all, he is not lacking in Nedan now, but he is still the first to be safe.

Returning from the dead forest, Shen Lang went to Jingyang City first. In any case, Feng Wuji is also his woman, or to say goodbye, and she can also disclose the news, she has received more information from other sources, but also can exchange.

Feng Wuji last time got his embarrassment, but also paid attention to this aspect, but after all, it involves the big family of the big door, and it is still the core high-level, this is a circle of friends that she can't touch, and the hackers can't penetrate it. There is no more valuable news.

She was also very reluctant to know the purpose of Shen Lang's trip, but she did not persuade her. Of course, she could not follow her. Only the time to cherish the time spent with him, and said that he will wait for him to come back!

Chapter 764 - Gathering and waiting for the sea

When leaving Tianshan, Shen Lang left a Nei Dan for each of Gao Li and Qi Sheng. At this stage, they could not use it. After the wound healed and recovered, Nei Dan would let them recover their strength more quickly.

This made them both more worried. Even the rare resources such as Nei Dan were given to them. Doesn't it mean that Shen Lang himself has no confidence?

They don't know that Shen Lang has got a lot of Nedan, so they can deliver it like this.

After meeting the Fuyang real person, they contacted Qiao Yuxian.

Because it is determined that the place to go to the sea is the Haishan City of the previous exchange meeting, and the Qiao family at the northwest end, it is the opposite direction, separated by thousands of miles. Although it is convenient now, it is not necessary to toss.

So they waited, and Qiao Yuxian soon came to meet, and then went to Haishan together.

For Shen Lang, Qiao Yuxian's polite attitude remains the same. The Fuyang real person who just came into contact with it is only a "real person" who lives in the realm. However, he is also polite to him in the face of Shen Lang.

However, the attitude of Fuyang is really a bit of an accident.

Because from the beginning, Fuyang real people are respectful to him. But now I have encountered a lot of Qiao Yuxian, regardless of age, generation or family history, but it is very calm, a bit unscrupulous.

When I arrived at Haishan, I still had to wait another two days. After all, some of the self-cultivators in the north and south of the country need to use the means of transportation. Even if they calculate the time, they may delay, so the days of collection are reserved for two days.

On the other hand, it is a ship that picks them up. It is from the Pacific Rim. It is possible to connect the comprehens of different countries along the way. There may be errors.

Did Xu Yuyue come out of the dead forest, did he come to Haishan from where they met, and Shen Lang was not clear, he could only say that he believed that Xu can be able to do it.

The Nanliuchuan of the Nantian family also arrived very quickly and merged with them.

Like the arrangement of Qiao's family, the South family also left the family. The backbone of Nanxun Yingnan Kirin did not carry one, but also left Nanliushui to sit in the town, but he went alone.

In the unlikely event that there is anything, the impact on the South will not be too great. Every family that inherits the millennium will have a choice.

The alliance between Qiao Yuxian and Shen Lang is a private alliance between the two of them. The same level of friends like Nanliuchuan are also willing to act together.

After Nanliuchuan knew that Shen Lang and Qiao Yuxian were together, they not only acted together, but also insisted on forming an alliance with them.

In the same way, for the real people in Fuyang, it is also polite because it is a friend of Shenlang.

In the face of another giant of the millennial family, the real people in Fuyang still remain unsettled. Shen Lang does not know whether this is a force, or can really keep it so calm.

When waiting for the boat, Qiao Yuxian and Nanliuchuan, naturally, there are many entertainments.

They are both Qiao and Nanjia contemporary owners, and they have not appeared casually for many years. Ordinary people, even if they have survived, they will not admire the entertainment such as flattery.

But this time it will come, quite a part of them are the same level of strong, they are the elders of all major factions. It is not to say that only the strongest people of the same grade can be seen, but these are the same generation and the same generation. In the past, they will be contacted.

For example, the high separation of the Tianshan Jianzong, although not as strong as Qiao Yuxian, Nanliuchuan, but also the same generation with them. Even if there is not a deep friendship, there are not many left now, and it is always a friend.

Moreover, there are still huge unknown dangers in this trip. For many years, we don't see the old ones. If we need to help each other, the giants can't avoid this social entertainment.

Qiao Yuxian and Nanliuchuan, of course, are willing to introduce with Shen Lang.

After all, Shen Lang has been in the last six months, but he has killed two metamorphos!

Those who can reach the realm of the gods are all respected by the faction, and they are often cultivated for nearly a hundred years, unless they encounter such a big chaos in the world, a war of righteousness and evil, or else they will not say a year or ten years.

Moreover, most of them are failing to die at the end of their lives or hitting higher realms. Those who have been killed are counted in decades.

In the first half of the year, Shen Lang killed the masters of the Master League and the ghosts of the Ghosts and Ghosts. He had to say that he was a popular figure with no two in the limelight.

In particular, he is still a young man in his early twenties, and he is even more topical. These months have already reached the front of their old predecessors.

To put it bluntly, Shen Lang is a friend who “gets the hand” and has a face with him. Also in their eyes, the Fuyang real person who is a nameless ***** does not have this effect. Of course, he does not want to introduce him with Fuyang.

In addition to this, there is also a vague meaning of “disclosure”!

After all, what kind of experience will happen in the no-failed sea, now everyone is still unclear. But people with strong strengths will always get more attention.

Once the group needs to be warmed up, the weak will be abandoned, and everyone is close to the strong.

And if there is no danger, in the face of the distribution of benefits, and other powerful people will be more estimated.

The Beihai Qiao family, the Nantian family, and the recent Fengyun characters, this combination can definitely be a loud one.

Shen Lang also needs the opportunity to show his face in front of the big man. His realm can already be seen in the realm.

In this way, in all respects, Shen Lang and their entertainment are all appropriate and beneficial. What they didn't both think was that Shen Lang was directly rejected!

The reason is that I am not familiar with anyone, too lazy to go to socialize.

This makes the two old men very helpless, but young people have the strength, they are willful, they have no way.

They are not familiar enough and close to Shen Lang, and it is not convenient to persuade them, let alone be reluctant.

Shen Lang is actually not arrogant, nor does it feel meaningless!

If this trip is dangerous then this can not establish a temporary social friendship, it is impossible to exchange for help; if there is no danger, to compete for resources, then each is an opponent.

The two people of Jonan had a friend's old-fashioned ingredients. It doesn't matter. He didn't know it at all, and he didn't want to entertain these "older generations."

Of course, there is no social interaction in Fuyang.

He was brought by Shen Lang and had no right to speak. He could not disclose information casually. This time, the giants who come to Haishan, naturally, may not be his friends. He is also bleak and stays in the guest room.

But what Shen Lang didn't think of was that he refused to go to Qiao Yuxian and Nanliuchuan to get to know the entertainment of various places, but he came to the door with entertainment!

If it is other sects that are not known or unfamiliar, even if they are personally visiting, such as the head, the family, and so on, Shen Lang will not care, and directly refused.

But this one is not inconvenient for him to refuse, and even a little curious.

Chapter 765 - Abandoned son, Yu Mo Liu Jia

The head that makes Shen Lang unable to refuse is the palace of the Ice Palace.

The canoe said that she also went to Haishan and asked him where he lived.

Just like this, you don't need to say more. If it is a river, she is carrying it by herself, and it is impossible to bring her disciple.

It is very likely that Luohe will exchange her quota for the canoe!

The river was injured twice. Now, although it has been more than two months, it should not be restored so quickly. It is also a burden.

But what makes Shen Lang curious is, why is it not raining?

In terms of strength, the rain has already been the peak of the real world. It is now the strongest in the ice palace. It will not be too different to go with it.

In terms of importance, the rain has always been a practice of concentration. From the successor to the contemporary palace of the Ice Palace, it is more important for both inside and outside than to fall.

These inconvenient chats on WeChat, Shen Lang directly asked her hotel, and then interviewed in the past.

Now, unlike the last time, there were all self-cultivators, but they were all big men. This is a big relationship. So they didn't go to the public places like the lobby bar or the coffee shop, and let the waves go straight to her. Room.

Shen Lang is very calm and has not avoided anything.

"Master told me about it and gave her the quota. I am familiar with you here, so..." The explanation was relieved.

Shen Lang nodded: "It's very good, we will take care of each other at that time."

The boat was slightly awkward and said that it was taking care of each other. In fact, it was Shen Lang who took care of and protected her.

"I am a bit strange, why did your Master give you the quota?"

"..." The face of the canoe was red, which is a bit too embarrassing!

"Don't mind, I'm not saying that you can't do it. This trip is dangerous. Compared with the group of predecessors hundreds of years ago, it is not a matter of turning the gods."

Shen Lang didn't think there was anything. "We are all so familiar. I have something to say. This is very dangerous. It is very likely that there is no return. It is reasonable to say that you are the Lord of the Palace. For the Ice Palace, it is better than the rain. This is more important."

The canoe nodded and let go. All are so familiar, Shen Lang's is to open the gap with her, will not dig at her.

She sighed: "That is only temporary... There is a master to look after, the younger sister has to manage the ice palace, it doesn't take much time. It is almost impossible to catch up with her, so it is..."

Shen Lang did not dig her, she really smiled.

After listening to this, Shen Lang is a bit embarrassed.

Indeed, the river is still alive, even if it is a palace owner, it is actually a management chores, and the big thing is still to be the master of the river – such as this time no return to hell.

It is only a matter of time to cultivate the rain and fall into the palace. It is not too old to fall, the rain is younger, and there is still a lot of time.

On the other hand, if the Ice Palace, a genius that has never been seen in a hundred years, has gone back, it will be a great loss to the Ice Palace!

Luohe saved the resources of herself and the ice palace, and let the canoe take over early, all in order to cultivate the rain, to make the ice palace a magical environment and revitalize the ice palace.

So don't let the rain go, it is in line with her plan.

However, this opportunity is very rare. Even the hundred ghost gates can be used to mobilize the public. If it is not after the collapse of the waves, then there will be more people.

It's also cumbersome to fall into the river and not want to miss the opportunity, so let the canoe be topped. She is the owner of the Ice Palace contemporary palace, and this identity is also plausible.

Although there are some people, it is a chance to snatch, but inside the ice palace, she is considered to be abandoned, it is inevitable that there will be a psychological gap.

It should be said that fortunately there is an acquaintance of Shen Lang, otherwise she will be even more sad!

This is the arrangement of the Ice Palace. As a foreigner, Shen Lang is not convenient to say anything, especially with the rain, and even if it is comforting, it is harsh.

So he changed a topic directly: "Which martial art did you come with? Last time your master didn't tell me."

The canoe was slightly hesitant, but I thought that everyone had passed together and there was nothing to hide.

"Liu family."

“Liu Jia?”

Shen Lang slightly frowns, thinking about what Liu is.

Both Joe and South have fewer surnames, plus the definition of Beihai Qiaojia and Nantian Shijia, it will be clear. However, Liu’s large number of surnames really do not know what Liu Jia is referring to.

“Yu Mo Liu Jia, a veteran family, should be almost at the same level as Nanjia and Qiao.”

After hearing the “Yu Mo Liu Jia”, the impression of Shen Lang is clear.

Yu Mogu was a small county town, and now it is a city, but it is not too big. But unlike Pingxi, there are talented people.

The most well-known thing in the realm of comprehension is Liu, which is basically a thousand-year family.

Because Yumo is in the east, there was a time when there were good people who gathered in the four major families in the southeast and northwest, Liu Mojia in the east, and Qiaojia and Nantian family in Beihai.

But the west side is hard to get together, can not convince the public, other families are also dissatisfied, no one mentioned later.

In general, Yu Mo Liu Jia, like Qiao and Nan Jia, is a veteran family with profound knowledge. It is precisely because of this that it is eligible to add a quota to the Ice Palace.

“It turned out to be Yu Mo Liu Jia.” Shen Lang nodded and said that he had understood.

“The Liu family came here with Liu Yichang’s predecessor and is a master’s friend.”

When she said this, she snorted a little and quickly skipped it.

Shen Lang naturally can hear that although there is a real friendship between men and women, it is also possible to have a relationship with Liu Yuchang when he was young. Really calm, Luohe should have told him last time.

But in fact, there is nothing Although the river is a master who falls into a canoe and falls, but it is not a middle-aged forty or fifty years old, she is the aunt of her two at the end of the house, at least There are also about 70 or so, and Liu Yuchang should be the same generation.

It's just that when I'm old, I'm not married, I don't know if it's related to this.

Falling in the canoe did not want to say more, Shen Lang did not ask more gossip. Talking about the topic, the team issues that come together.

Needless to say, the Liu family will not fight alone, they are also with the familiar martial art, old friends. Now, after he arrives, Liu Yuchang is also a friend of other peers. It is not convenient to bring the young man to the canoe.

Between talking, Shen Lang felt a few strong breaths close!

He was swept away by the air, and the breath came from the elevator. Several strong men were coming up the elevator. Because of the good convergence, he didn't feel it when he was downstairs in the hotel.

When he was aware of the facts, he also clearly found that his brow was slightly wrinkled, and he should have felt his investigation.

Chapter 766 - Manic?

Although I don't know who it is, it should obviously be the same person who wants to go out to sea this time, and live in the same hotel as the canoe. It is very likely that there will be Liu Yichang.

Shen Lang just started to be an instinctive reaction. After realizing that he was not an enemy, he immediately took back his knowledge so that others would not misunderstand.

"The Liu predecessor is probably back, ready to explain who I am." Shen Lang smiled at the stern, let her have a psychological preparation, so as not to wait for a while.

“It doesn’t matter? We have something that is sneaky and nothing.”

The canoe was originally very calm, saying “nothing to do”, feeling the atmosphere is a bit wrong, a little stunned.

“Haha, we really have to have any personal feelings. If he doesn’t manage it, he will be mindful that you are afraid of leaking it to others.”

The raft was white and he glanced at him, and then he sat up in danger, and he quickly thought about the rhetoric.

After they said a few words, the few people had come out of the elevator and came directly to the side and stopped in the outer corridor.

“Small, is it inside? Come over and introduce you to a few highly respected elders.”

The speaker, while opening the door to the opposite room, was advanced, but he did not go in, or waited at the door.

Obviously, they are all locked in. The people who searched for them are still here. Now it is necessary to grab people directly!

After the raft, I saw the waves and returned: “Liu predecessor, I have a friend here.”

“Is it a friend of the same class? Then come over together! They are all seniors with great identities. You usually have no chance to meet.” Liu Yuchang kept a calm tone outside.

He should have expected that the canoe would say this and be prepared to respond.

This “friend of the same kind” has two meanings. One can be the same person this time, and the other is the person who comprehends the truth. No matter which one, several seniors summoned, they should not deny.

If you refrain from resigning, then there is a ghost in your heart!

Both Shen Lang and the canoe took this into consideration, and immediately the waves waved her past.

When they opened the door, outside the door and Liu Yichang, several other seniors who had entered the opposite room, also opened the door facing this side.

“See you seniors!”

Shen Lang gave a greeting to all of them, and that was over.

If you are not related to him, can you still give them a gift? On the age of the case, Shen Lang counted from the previous world, several hundred years old. Even if this generation of the world is divided, he is the master of the high-sacred sacred priest, and he will not be lower than the Qiao 戮仙南流级 generation.

Therefore, it is already very polite to be able to say hello to “the predecessors”.

However, this is in the eyes of the other party, this kid is too mad!

This is totally disrespectful of the predecessors.

“Talk inside.” Liu Yuchang nodded politely, the corridor was inconvenient, and immediately led them into the opposite room.

The opposite is also a suite, and the space is quite big. Everyone enters it and it doesn’t look crowded.

But in the moment when Liu Yuchang closed the door from behind, the room seemed to be very crowded!

It was a repressed breath, as if time had become arrogant.

Naturally, these are the breaths of these great people. With their realm, this can actually affect a large range, and it can directly affect objects.

However, they were deliberate, well controlled, and did not leak out of the room, but only around the waves, and did not affect other things, including the canoe did not feel so much pressure.

“The younger ice palace is in a canoe and I have seen all the seniors!”

Falling in the canoe naturally did not dare to have a shelf of Shen Lang, and the courtesy of the courtesy.

“Liu predecessor, this is...”

When she wanted to introduce Liu Lang to Shen Lang, she was already interrupted.

“This afterlife, it seems that we don’t put our old things in our eyes.” One of them stared directly at Shen Lang.

The boat was a bit embarrassing and wanted to ask Liu Yichang for help.

Liu Yuchang was naturally stepping forward in the past, avoiding her eyes and then confessing one sentence.

“Small drop, give some seniors a cup of tea, there is tea I bring.”

The raft still wants to talk, and Shen Lang has already waved her hand, indicating that she should not say more.

In fact, Shen Lang is a bit uncomfortable at this time, including the disappointment of Liu Yuchang.

However, from a normal point of view, an elder who makes tea for the younger generation is not a big deal, it is a small matter. And the canoe is smeared with the Liu family, no matter which aspect is in a weak position.

If he intervenes, he will only let the canoe go along.

So he didn't say anything, and he didn't have to help him talk.

The rug looked at him seriously and sighed, only to move over to brew tea, but her mind was still in the situation inside the room.

Shen Lang reached out and applauded gently, then smiled.

Just under the tremendous pressure on him, the arrogance of the arrogant pressure After his gentle applause, it will disappear!

Although it is only an imposing manner, it is actually equivalent to the fact that several of them are jointly pressing the waves, and the gentle applause of Shen Lang is equivalent to dissolving them all. This hand is still a little surprised.

"I don't know who these old things are, and you respect your predecessors. Isn't it polite? Isn't it in your eyes? Should you kneel down and call your grandfather?"

The people who were a little surprised, including Liu Yuchang, changed their faces.

"Small, your friend is really not simple! So arrogant, it should be the swell of the wind!"

Liu Yuchang seems to be in the opposite side of the boat, but it is Shen Lang.

The other few people did not have any surprises, which made the canoe darkly frown.

Shen Lang last defeated Bai Guimen, which is for the ice palace. Everyone knows that the age and strength are right now. Guess can guess that this is Shen Lang.

But since they know that it is a deep wave, but still deliberately this attitude, what is the intention?

“Old Liutou, where am I going crazy?”

Shen Lang simply sat down directly, and then with Liu Yichang theory: “Compared with me, are you not old enough? And the old things are what he said!”

“I started to call my predecessors and said that I don’t put you in the eye; I follow your favorite words and say that I am arrogant, which makes it difficult for me.”

Old Liu head!

Liu Yuchang almost blew his beard and blinked his eyes, and several other people were almost laughed out by the name. However, the sentence behind Shen Lang is to attack them all.

“Kid! Don’t think that you can be a little bit capable of being able to bear the eye. It’s how you kill the gods. We have four realms here. How can you treat us?”

Chapter 767 - 1 up

For this provocative word, Shen Lang directly turned his eyes.

“Do you want to be respected by this quality? I have come to visit friends today, have you been provoked by you?”

After spitting a sentence, Shen Lang sank again: “But I am not afraid of you. If you really want to do it, how about the four of you? I was crushed by me!”

This made them all four people happy.

“Hey! It’s said that the newborn calf is not afraid of the tiger! The newborn chicken is not afraid of the tiger.”

“Boy! You look like a arrogant, quite a bit of my style!”

“The arrogance is not important, the important ones have strength, or else you are a silly dog!”

“Okay, look at your contribution to a small friend, you will apologize to everyone, we will not pursue you.”

Four people, you sentenced me to one sentence, and finally Liu Yichang made a summary, let Shen Lang bowed and apologized.

“I don’t know why some of your old ghosts are against me, but I can tell you that my patience is limited. Again, I am really welcome!”

Shen Lang is fully qualified to say this!

Except for his age, which one can’t compare with them?

He is also the head of the family and the owner. He is also the chief elder of the Tianshan Jianzong; he is a famous master of the realm of the gods. Needless to say, he has turned into a middle of the gods.

To say that they are famous all over the world, he has been a hot topic in the headlines in recent years.

To say what a disciple is, the sacred sacredness and the high escaping are the characters who have the highest peaks...

Therefore, they have to rely on the old and the old, and Shen Lang really wants to turn their faces. Now, if they endure, they still don’t want to make the canoe difficult.

“What are you doing with you?” One of the old men sneered with disdain.

But his words were just finished, and he found his nose was punched!

Shen Lang just took the speed to the extreme, and he was ready to do it when he spoke. When he finished speaking, he felt a punch.

“This punch is to hit your nose, and the next punch will directly blow your dog’s head!”

Shen Lang has already done it, and he is blunt.

Just that punch, he is only fast, the power is very small, just a warning, otherwise, even if the opponent evades defense, he can also collapse his nose!

The old man who turned into a godland immediately became very embarrassed and embarrassed.

Just now he did not expect that Shen Lang actually dared to shoot, did not think that the speed is so fast, plus Shen Lang did not use any strength, but not enough to make his sensitive self-defense.

Liu Yuchang and other three people, their faces have become serious.

Since Shen Lang has done it to one of them, it means that they have declared war on them!

“Shen Lang, you can think about it, you are telling the war to us!”

“Come on! Let’s get rid of you directly here, save you from going to hell, and you have a good name.”

Shen Lang stood up a little impatiently: “Don’t come one by one, let’s go together!”

The boat was very anxious. She had not boiled a pot of water, and it was already boiling first!

Shen Lang is only a person, and it is not easy to clean up the ghost king last time. How can we deal with the four powerful powers?

“You are all seniors! We are all going to the same goal. Everyone is a fellow person. This may be full of danger. Everyone needs to help each other at that time. Why bother to guilty?”

“If we have any problems, it will only be cheaper monks from other countries and regions!”

The persuasion of the canoe did not calm them down, but the four people had already stood up.

“Small fall, go back first, don’t accidentally hurt you! This person must teach us today, or else it will bring out a big disaster!” Liu Yuchang said quietly.

Shen Lang was originally impatient with them, but at the moment of persuasion, he calmed down.

The four of them are the strong ones who have turned the gods. The strength is not necessary to say, but they are all born in the famous door, the state of mind and so on, it is impossible to keep up.

In other words, people like them shouldn’t be so easily irritated!

Even if you feel that the waves are rude, it is good to ignore them and despise them. Do you have to do it at this time?

The three gods that moved in the first few months of Shen Lang, the lord did not have to say that it was the great grievances of the Master League headquarters. The ancestors of Shuiyue Dongtian were to kill the wind and no sorrow. The wave took the initiative to take the shot; the ghost king also because of the invasion of the ice palace, Shen Lang pursued the past.

If the four of them really want to do it, there must be other reasons!

Judging from the current situation, it is unlikely that the lords, ancestors, and ghost kings will avenge their revenge. If there is such a mind, they should have already let go of their words, and the public has been swaying.

In particular, Liu Yuchang, no matter whether he and Luohe have had a relationship, can be so good friends, according to the benefactors of the river and the ice palace, it should be polite.

But he clearly guessed the identity of Shen Lang, or such an attitude, it is a bit wrong.

After a quick analysis of these the kettle has tripped, and Shen Lang just took the opportunity to say to the canoe: “Miyazaki, continue to make tea!”

The canoe turned to look at him and couldn't help but glance at him.

This kid is crazy!

When is this all the time?

What kind of tea?

Can you still beat the four old predecessors in the time of making tea?

After finishing the work, drinking tea?

If it weren't for the current atmosphere, she would really have to swear a few words.

“I still can't see it? These old men deliberately scared me, probably want to see my courage!” Shen Lang said slowly.

When this was said, I was surprised by the canoe.

I have just said that I have already fought, and even said that it is scared?

And even if it's scary, you've just started to beat someone's nose!

It is inconvenient to talk to the canoe, and carefully turned to look at the attitudes of several older people.

I saw Liu Yuchang and several others watching Shen Lang.

“Good boy! How did you see it?” Liu Yanchang, who was sullen, suddenly smiled.

“Is it still used?” Shen Lang gestured to the old man who had just punched him. “First of all, I don’t have any grievances with you. I don’t think you will be motivated because I don’t have enough respect. Secondly, he just played me.” Nose, if you really want to do it, will you talk nonsense again? This is already playing!”

“Kid! You are wise, no effort!” The nose was beaten, and the old man who was licking the dog’s head snorted: “If I am really angry, I have been doing it for a long time!”

“Of course, there is a third point, that is, the four of you are together, and you can do the same for the most. Why bother?”

The last sentence of Shen Lang said, letting all of them look at each other without saying anything. Should the guy be arrogant, or is it self-confident?

Chapter 768 - Conspiracy

It has already been seen by Shen Lang, and after seeing it, there has not been much change in their attitudes, so many old people are helpless.

I can’t put it anymore, and I can’t hold it anymore. It can only be played by Liu Yuchang.

“Small tea leaves, give this kid a cup too!”

He has already considered that a friend will have tea, and the hotel will send another tea set and prepare pure water and tea.

Hearing here, the canoe was confirmed, it seems that it will not really fight, she quickly agreed.

“Yes, your name is so loud, we have heard of it, we have all seen your photos, of course, I recognized you.” Liu Yuchang explained with a smile.

“And, just a few of us have dinner with my brother, Liu Chuan, and I have talked about you. They originally wanted to invite you. It is said that you only go to the beauty, don’t want to mix with the old man, so there is no one. ”

Shen Lang smiled, but did not say anything harsh.

Liu Yuchang is also an old age, and they all put down their postures. They also said that they are friends with Qiao Yuxian, and even have a joke.

If he talks harshly, it will be a little unappealing.

“Although you are sponsored by my brother, but we all have a good relationship, and this time we go out and put aside the unknown danger. There are also a large number of outsiders from other countries and regions. I hope that all of us can unite and Help each other.”

Liu Yuchang also directly said their intentions, the value of Shen Lang, the popular fried chicken, of course, everyone understands, but they have no chance to contact.

Then he officially introduced the other three people, all of which are very popular. One of them is the son of Wuliangshan Wushuangmen, and the other is Zhang Zhanlang, who is teaching Tianshidao, and he is beaten by his nose. The old man with a fist is the way of the Kunlun Yuxu Palace.

Like Yu Mo's Liu family, these are famous big-name factions. Shen Lang is also revisiting to show respect for their teachers.

After the introduction, the canoe has already made tea for everyone.

She knew that she was very light, so she didn't talk with them, just sitting on the side and listening to them quietly.

“This time there is no plan to return to Haikou, how does Master Shen think?” Zhang Zhulang was asked.

After the question was over, he added another sentence: “Don't misunderstand, we don't want to set you up, it's sincerely asking for advice. After all, we don't even have seven or eighty, it's nearly a hundred years old, the mind is rigid, the concept is stale, you young people There should be a broader perspective.”

“Zhang Tianshi said that he can say such a thing. This proves to be very open-minded. As for this time, there is no return to hell...”

Seeing Shen Lang to say, some of them have been serious. The opinions of a younger generation can make the four of them pay so much attention. It is an unprecedented event.

“It should be a lot safer than the one hundred years ago!” Shen Lang said amazingly.

“How do you say this? I hope to elaborate!” Zhang Zhulang arched his hand.

Undoubtedly, they lived nearly a hundred years old, and they didn’t want to be confused and die, let alone dead bodies. It is already a blessing to be able to return safely.

Shen Lang shrugged: “I don’t know much about the information I know. I don’t know whether it was a few months, a few years, or a stage of decades. But one thing, from our modern perspective, we can see it. More real.”

“What angle?” A few of them were very curious, but they didn’t think what he was talking about.

“A few hundred years ago, we were still unable to travel freely across the ocean, let alone space landings, etc. Whether it is a world view or a technology, it is a great limitation, which will cause a lot of blind spots to some extent!”

Shen Lang is just an example, but it has made them understand a lot.

“From our point of view, it may not be the road to the fairy, the door to the sky, perhaps something that leads to another planet, another world’s wormhole, we can have more modern equipment to check. Exploring.”

“This development plan is initiated by foreigners. In terms of technology, they have been in the forefront for hundreds of years. Perhaps they also have specialized laboratories and scientists to study this knowledge and build equipment for detection. I have waited until now to take the shot and grasp the nature will be even bigger.”

Everyone nodded again and again, Liu Yichang sighed: “Yeah, it took a long time to go abroad to take a steamship. Only a few hundred years ago, only the royal-supported fleet could cross the ocean. Now ordinary people can fly quickly and globally.”

“It makes sense. There are some radars, sonars, technologies, and so on. It is also possible to detect deep areas without people.”

“I don’t know so much, just thinking that it would be nice if I could come back safely.”

“Except this? You should have other opinions?” Zhang Zhulang asked another question Shenlang hesitated: “I have not attended the meeting, and I am not a self-cultivator for foreigners from all over the world.” Understand. If they are really prepared to take advantage of the most advanced technology, why are they pulling us?”

“What do you mean... there is a conspiracy?” Everyone was careful.

“The conspiracy may be there, and the conspiracy may also be there.”

Shen Lang laughed: “If you can be sure that there is no big danger, they don’t need to unite the world together, they have been sneaking.”

They listened to nod and nodded. The older generation experienced the chaos before the founding of the People’s Republic. For foreigners, there is actually no good feeling.

“Put everyone together, it may be to fight against thunder, or it may be used as cannon fodder. Anyway, the common development of shared interests is selfless, it is a ghost.”

“But we can’t refuse, so it’s also a conspiracy.”

They looked at each other, yeah, even if you suspect that there is a conspiracy, can you refuse to go? Our self-cultivators don’t go. If there is no danger, isn’t it good for others to get there?

This is in the Pacific Ocean, and it is a dangerous area called “no return to the sea”. No one can stop the hegemony from prohibiting others from going.

“We talked privately, and there is such doubts. It may not be as clear as you said.”

“It seems that we must stay one more mind and not be the guns of others.”

“I am not afraid, our Chinese comprehension should be the strongest at that time. As long as we are not guilty, there is really a conspiracy, we can easily destroy them!”

Shen Lang smiled lightly.

The last words were said by Zhu Zikai. He saw that Shen Lang’s disapproval was made. “Shen Lang Xiaoyou, do you think it is wrong?”

“It’s a bit arrogant.” Shen Lang returned with a comment on his previous evaluation.

Chapter 769 - Boarding a ship

If you are in the dark, let them be a little embarrassed.

“I am serious.” Shen Langzheng said: “We do have a lot of very bullish things, but we prefer to close the door to YY the world first!”

“Our dishes, like to brag about the world’s first, foreigners have not seen the world’s earthen buns, eat a hot pot can drink the soup base, in fact, foreign countries are low-end specialties, can not afford the first-class grade.”

“When I saw foreign foreigners using chopsticks, many people were also excited to prove that this is our Chinese food. Instead, they are careful about eating Japanese food.”

“Our martial arts is also the number one in the world. We often invite some foreign masters to defeat the country’s boxing champion, and carefully check them out. They are some foreign amateurs.”

“There is no tree in the international arena, it is because of the rules, or we are absolutely the best in the world. Even if it is the challenge of the domestic people, using modern combat techniques to find the teeth, it is said that no real kung fu Or else you will kill someone.”

“There are still many aspects, this is the case. It is not that the recognition of foreigners is a cow, but it is boring to close the door to boast to listen to yourself, to use fakes and a few foreigners to prove that they are arrogant.”

Having said that, Shen Lang has returned to the topic.

“It’s said that the self-cultivator, some of you know that some don’t know, I’ve tried to smash some foreign-born A-class superpowers. But that doesn’t mean that we’re really bullish, they’re all rubbish.”

“On the contrary, I know less about them, and the danger may be greater than the domestic counterparts!”

These words are actually very harsh, and the old men are very unconvinced.

Our dish is the world’s number one. Can you tell the full man and the eight major cuisines, can the foreigner’s fries burger compare?

But after listening to the back, they all remained silent. They could only have a few impressions such as fries and hamburger steaks. They themselves showed that they didn’t know anything about others, and the information was extremely limited. The first comparison in this way is no different from YY.

The extension to other aspects is the same. For foreign A-level superpowers and S-class superpowers, several of them have not even seen it.

The waves that have been played and killed by foreigners have been consciously aware that there is very little information. They have never been compared. However, they feel that the Chinese comprehension is the strongest in the world, and it is still the old days of the DPRK mentality.

Liu Yuchang praised: “Shenlang Xiaoyou said it makes sense. We don’t want to be arrogant, but we can’t look at everything. Since foreigners are regarded as suspected imaginary enemies, they should pay more attention to them.”

Although Zhu Zikai has been stunned for a while, he can also hear that Shen Lang is not aimed at him, but points to such a state of mind.

“I accept Shen Lang’s criticism and correctiveness, or we must put our mentality right, or else we may lose our enemy. So we need your young people to express their opinions. We are old and easy to have some mentality.”

Shen Lang smiled and nodded. They could accept the best with humility. If they only said this on the surface, they would not agree with it. Even if they despised him, they could only be by them.

After all, he would be so blunt to point out the problem of this mentality, and more is to consider that the canoe and Liu Yuchang are together, they may also be private alliances.

If they have problems, it will directly affect the safety of the canoe. Otherwise, just know them, how can you say that you are disappointing, and you have a few words, hello, hello, everyone.

Shen Lang was here to see the canoe, and now they are here together, and naturally there is no space to talk to the canoe alone.

He didn’t want to delay too much. After simply drinking tea for a while, he gave his speech.

Liu Yichang, they are just a bit of a guest, not too much to retain.

After all, Shen Lang is an ally of Qiao Yuxian, who can only express a friendly gesture, not excessive enthusiasm, so as not to have the suspicion of digging the wall.

When I went back to see Qiao Yuxian and Nanliuchuan, Shen Lang also said this directly, lest Qiao Yuxian have their heart.

The people from all walks of life came in one after another. On the third day, the big ship arrived.

However, the big ship is parked on the high seas, and everyone uses the yacht to pick up and board the ship.

The place to go to the sea, or the beach resort before, the yacht is also a number of ships together.

The first come on these two days is private communication, and today is the first public meeting, and it is inevitable that many guests will say hello.

In addition to a few new ones, Shen Lang did not know anyone else, and he was not interested in knowing.

Most of the scenes are sacred, even if it is weak, it is the peak of the real world. Such a group of strong people gather, it is really a lame to let the whole earth tremble, and I don't know how long it is. .

Originally everyone has a flying magic weapon, Yu Jian, flying directly, is not a problem. But after all, people are concentrated and concentrated, which is a bit too shocking, so it is the use of yachts to send everyone to the high seas.

Liu Yuchang and others are really familiar with Qiao Yuxian who knows them When they are on the yacht, everyone is together, and the same ship is the same.

However, after getting on the yacht, because people are slightly crowded, everyone has not said much, except for a few chatful conversations, either to see the seascape or to fake.

The yacht has already verified its identity, and when it arrived at the high seas, it was a strict verification of their passes.

This is a large passenger ship. I don't know if it is rented or specially built. For the comprehension community, there is no problem with capital and influence.

According to the formation, the passenger ship was picked up by the Pacific Rim. When it came to the seamounts, many people from the countries and regions had boarded the ship.

After they boarded the ship, there were related people who arranged accommodation for them and introduced the general situation of the passenger ship.

The staff on board, except for a very small number of professionals, are basically replaced by self-cultivators, but the level is relatively low.

Because of this, they all know that these “guests” are first-class and strong, and they dare not sneak in all. They are all respectful and respectful.

They are all highly self-cultivators. Shen Lang did not use God’s knowledge to inspect the conditions of various areas on the passenger ship, so as not to be unpleasant. In the same way, if someone wants to check his situation here, it will also make him unhappy.

In the absence of official travel to the sea of innocence, when everyone still does not understand the depths, all parties are keeping a low profile and restraint.

As it was waiting on the high seas and was prepared in advance at the estuary, the whole process did not delay much time. After everyone boarded the ship, the passenger ship continued to move along the coast and pick up the next area. .

In some small countries, it is impossible to stay for one country, but the comprehensions of many countries and regions in the region gather in one place to log in.

Chapter 770 - Global event

Although this time is the grand event of the world’s top self-cultivators, there are actually many conditions.

The first is qualification. If your family is not there, you will not be eligible for an invitation.

The second is the relationship. Even if you have this qualification, there is not much interaction with others. Without this relationship, no one can contact.

These two points have screened a lot of people, and it is impossible to bring more people to participate in the opportunity of participation. Just like Joe’s family, the core still has to stay at home, only one of Qiao Xianxian.

This way, it is known as the Pacific Rim and even the world, but in fact there will not be too many people. This is a luxury large passenger ship, far from being full.

However, the equipment inside is very complete. Even if the self-cultivators don't eat much, they also prepare different chefs for people from different countries and regions. Of course, the chef is also a self-cultivator, not so powerful.

The Huaxia comprehension of the sea and the sea is considered to be the largest group. After boarding a ship in Southeast Asia, it is a comprehension of the relevant countries. In addition to the early convergence, in order to save time, it is also calculated, let their yachts go to the high seas in advance.

So it has been 7778, and Shen Lang was told that there was a party at night.

The purpose of the banquet is, on the one hand, the responsibility of arranging the itinerary, expressing welcome to everyone, and also letting everyone know each other and familiarize themselves with a simple buffet party.

On the other hand, there is a link to "resource circulation".

This link is a bit like the trade fair of Tangyuan. The circulation is the comprehension resources of all parties. Because this time is not a single country, there is a possibility of complementarity.

For example, for Party A's more ribbed things, it may be exactly what Party B needs urgently. A thing that B needs is not, but it may be C. Through trading and circulation, you can achieve a win-win situation.

As for the arrangement of such a link, it is also hoped that through the transaction, everyone can further understand and be close to each other. In addition, after a win-win situation, the parties will have more confidence in the non-return to the sea.

For the welcome reception, everyone is interested. It is not a young man of ten or twenty years, and no one is coming to make friends.

The link of "resource circulation" may bring real benefits. Anyone who is not familiar with foreigners may find something that they are satisfied with.

Unfamiliar to let everyone be alert, strange also let everyone have a sense of freshness and expectations.

Shen Lang also sorted out some of his own items. If there is anything worth shooting, whether it is to exchange goods or to exchange through Lingshi, he can get it.

After dinner, everyone came to the furnished ballroom.

Verification of the voucher pass, everyone got a nameplate with simple information such as name and country, and then a corresponding table.

A rule prompt that scrolls on a large screen also clarifies the details.

This will be done in two ways at the same time. One is to put the items that you want to trade and distribute on your own table, the name of the item, the item you want to exchange, or the transaction price you are willing to sell.

The other one is to go public on the stage.

The two methods are pros and cons. They are placed on their own desks. When the guests come to the door, the chances of meeting the right target guests are even smaller. After all, they are all people with identity. They don't really pick and choose the carpets, and some of them look far away. They don't want to go straight.

And many people have to take their own shots, which slows down the speed of circulation. The advantage is that it will be more private, and buying and selling will not be so eye-catching.

The advantage of bidding on the stage is that everyone can see and understand it right away, and can find the right target more directly. The bad place is to bid with others, the cost of spending may be greater, on the other hand, it is more open, so that others can know what you bought.

That is, all the experts who come here are not afraid of being robbed or remembered, but the situation is unclear, and most people do not want to show their limelight.

After seeing the rules, Shen Lang sat down at his desk and was not in a hurry to come up with something. He had nothing to sell.

However, you can see what you can buy. Anyway, he has a lot of Lingshi, even if there is no need for the other party, the price is too willing to sell to others – after all, it will be sold out, it must not be really love.

As everyone began to sit down, there began to be a variety of whispering conversations, everyone looked at it for a while. It wasn't until someone started to come up with something to start to get more people to follow.

But basically it was placed on the table, and the name and price, the transaction items were written, and no one went to the stage to openly bid.

“You can look at it. If you are interested, you can buy it back. At this time, you can take it with you. It should not be bad, and this trip is unknown It is not too expensive.”

After the Qiao Xianxian at the table next to him, he smiled and laughed at himself: “I can't do anything. The family is kept, there is nothing to bring out. I want to buy, I don't want to sell, haha!”

Hearing his words, the nearby Nanliuchuan, Liu Yuchang and other people responded with a low voice, and they all expressed the same mind.

For the family that they have passed down for thousands of years, sometimes it is entirely possible to abandon the individual to maintain the family. If this opportunity comes out, it is of course impossible to consume the family.

Shen Lang does not care whether they are true or not. He does not directly reveal his property, but he will not be low-key. He does not need to keep it for Tianshan Jianzong.

“Then you guys, the poor old men, just look at it! The younger brother will represent you and show our purchasing power!”

For the jokes of Shen Lang, they can only helplessly smile, can you still be more wide with him?

Shen Lang is not in a hurry. Although some people have started to stroll, the obvious atmosphere has not yet risen. If you buy it now, it will not be a big head, but it will not be cheap.

Of course, he is like a trade fair in Tangyuan. He has to go around and make a decision before deciding whether to start.

After simply reading one piece, Shen Lang couldn't help but sigh. As Qiao Yuxian said, at this time, he can still carry his side, even if it is a chicken rib, it is only a different kind of action, and there is no such thing as a low-grade item.

These include some extremely rare herbs, ores, or artifacts that have been collected for centuries. There is a lot of price in the truth, but there is really no direct help for going to the sea of innocence!

For them, there is a magic weapon for storage, which is not cumbersome, but everyone has the same purpose, that is, to replace it with an offensive weapon, or a practical item such as armor!
