

First Strong 781

Chapter 781 - Is there a big BOSS on board?

The passes of Shen Lang and Qiao Yuxian and Fuyang live are connected together, and the arranged rooms are also together.

When I was not close, Shen Lang's knowledge was inspected and found that Fuyang's real person was sitting in the guest room. There was nothing unusual about it, and he was dismissed from looking for him.

However, when he just opened the door, the sound of opening the door sounded next door, and the real person in Xiangyang had already come over.

Shen Lang asked him to come in the room and then placed a soundproof cover.

"Is there something to talk to me?"

Fuyang real people smiled slightly: "Master Shen, I have a little discovery, I want to report to you."

"Speak and listen." Shen Lang nodded, and did not politely ask him whether the word "report" was appropriate.

Fuyang is a straight-forward person. Today's guests on board are some high-level comprehensions. No matter which country, they come from elites. Like him, they are also responsible for the logistics level.

So no matter where he goes, he will not be valued by others, including people in the same trade.

Liu Yuchang and others are valued by Shen Lang and Qiao Yuxian, Nanliuchuan, and the light boat because of Liu Yuchang's care, but also because it is a young beauty. Just like Qiao Yuxian, I didn't notice that Fuyang was not with them.

This kind of disregard, which is incompatible with everyone, is very embarrassing. However, the real person in Fuyang had been mentally prepared and did not feel that there was any problem, and he also used this “no sense of existence”.

From the time he boarded the ship, he continually walked around and collected a lot of information from close listening.

Especially the banquet tonight and the circulation of resources in the back have made him a lot of gains.

Now he reports to Shen Lang that he understands the movements of all parties.

After analyzing the information collected from the words, he analyzed that there was a big BOSS on the ship!

This big BOSS is not necessarily the bad guy, but this time it seems that the actions that many parties meet and negotiated are most likely to be facilitated by this behind-the-scenes boss.

As for why this trip was promoted, it is still impossible to conclude that it is possible that the other party has some secrets that are not known to the infernal, and it is also possible to make everyone a cannon fodder.

Therefore, the circulation of resources tonight should also be facilitated by his inspiration, including the defensive reel and the golden gun, which he released. Probably want to do a good job of bullying, but also let everyone win, so that you can play a better role in the return to hell.

After listening to the words of Fuyang, Shen Lang was a little disappointed.

“that’s it?”

“Master Shen has already known?” Fuyang was a little surprised.

Shen Lang shook his head: "I don't know, just want to say that this has no meaning and value. The West is more powerful, we may have more powerful here, keep a low profile, not necessarily have a bad heart, but know There is no practical meaning."

Fuyang really nodded and smiled: "You are right, but it is better to leave more thoughts. If you don't say anything that is different from my family, even if we come with us, it may be a set of behind us. ""

He was stunned, and Shen Lang could hear that he did not trust Liu Yuchang, Zhang Zhulang and other big sects.

"Then what about you? Is it the same?" Shen Lang asked in a joke.

Fuyang was shocked and explained: "I don't mean this. I have no doubt about you, and Joe Qianxian and other seniors."

Shen Lang nodded and then seriously: "Fuyang brother, we have already gone to sea, and I will not look back now, I hope you can give me a bottom!"

"..."

"You can rest assured that my alliance with Qiao Yuxian is allied, that is, I am with him, I am not bound by you, give you a place, but the incidental requirement of my cooperation. I have known you earlier, I have promised you, now It is also done."

"Yes, yes, I am very grateful to Master Shen for his integrity." Fuyang is a busy man, and he is a bit gratified that Shen Lang changed his voice from Fuyang to Fuyang. Even if it is a guest, it is a little closer. which performed.

"So, the transaction is good, the cooperation is good. If your secret is helpful to this line, I hope that you will tell me earlier. It is not good to say that your strength is basically the bottom of the ship guests. It is very dangerous to rely on yourself."

Shen Lang's outspokenness made Fuyang's real person silently nod.

Things are now a showdown, and Shen Lang promised to bring him over and has done it. Even if he is with him, there is no obligation to protect him.

If you want to get the protection of the waves, or you can share a piece of something, you must prove his value before you reach the sealess prison!

Seeing him like this, Shen Lang has already understood that it may be related to the secrets of the Tianji Zong, and the Fuyang real people have not yet prepared their mental preparations.

Shen Lang has expressed his attitude and has not forced him anything. This is his choice. It is really hard to say it, and it may not be a real secret.

After a few more words, I felt that the canoe had come over and sent him to leave.

Originally, two young men and women entered a room, how much should be avoided, but this trip does not know if they can come back, the canoe is also completely released do not care about others (Liu Yichang they) will How to look, come straight to find the waves.

When the canoe came over, I saw that the real person in Xiangyang had left. After coming in, he pointed to the outside.

Shen Lang shook his head: "Nothing, talk."

"You haven't been injured just now?" Although it seems that there is no problem from the state of Shenlang, he will come back to rest so soon, and I don't know if it is hurt.

Shen Lang shook his head: "Of course it's okay, a bat in the district will be president."

Hearing that he personally admitted, it would be reassuring to lose the canoe. After all, compared with Qiao Yuxian, Liu Yuchang and others, she also saw Shen Lang hands-on.

In the dead forest, in the face of the tens of years of fierce beasts, Shen Lang can almost be killed by his own power, and his body can transform into a huge secret...

When I thought of the change of the sun, I completely smashed the clothes. At that time, I saw something very big.

“Right, thank you just now.”

“Nothing.”

Shen Lang smiled and shook his head, but his heart was a bit strange, thank him, why did he blush? Is it wrong?

He knew that there was no attire after he turned into a canoe.

After letting the canoe sit down and arrange a soundproof cover, Shen Lang began to talk about business.

“I told you to come over and want to ask about your feelings.”

“Feel?”

“I know how many epiphanies you have just had, it should be a big gain, but what about it?”

“Specific... I don't know how to describe it. It's like a lot of things that I didn't understand before. It's all about it, including understanding of cultivation and understanding of various things.”

Since there was a fight between Shen Lang and Scott, she didn't have more time to experience it. She could only say a little about it.

Chapter 782 - Give Dan, draw

Hearing her saying so, Shen Lang has already had a bottom.

In fact, after the levy of the boat, the temperament of the whole person has changed. The waves in the table can be felt. They are the ones who know nothing about them. They all found something abnormal.

It is more a confirmation to hear her own narrative now.

“This is what I prepared for you.”

Shen Lang directly took out an inner Dan and sent it to the front of the canoe.

“This is... Nedan? Give it to me?”

The canoe looked at him with surprise, and then there was something in her hand, which was the stone of the frost that I bought before.

“You have given me such a valuable thing, you give me Nedan... I really...”

“This is a good method for you. It should have a strong auxiliary effect, but after all it is a stone. It takes time. If you absorb it quickly, you can refine it in one night, then it will let you Promote a realm!”

Shen Lang put Nedan into her hands: “It’s all for you! Don’t worry, there is no requirement for you, because there is not much loss to me, I am a lot.”

The canoe is biting his lip.

Shen Lang said that she gave her, and there was no requirement. She believed. Because of the strength and financial resources of Shen Lang, the ice palace and the family, there is nothing worthy of his plot.

The only thing that is her is, and Shen Lang is not short of beauty. Not to mention the younger rains than her, there are also Zheng Yumeng, Dorothy, and even the wind.

However, Shen Lang said that this has nothing to lose to him. He has a lot to do, and this cannot be believed.

Neydan said that it is the Ice Palace. It is a millennial family like Nanjia and Qiaojia. It is a rare thing. She was already seen in the dead forest last time.

Shen Lang said that he has a lot of money. He can only say that he is trying to comfort her and let him accept it without any burden.

“Hold it, practice it well, you can improve your strength. When you are not in the sea, you will be safer.”

Shen Lang said very seriously, “Because this is not the same as the death forest, I am still sure about the death forest; and no return to the sea prison, I don’t know what will happen there until now!”

“I will definitely take care of you, Liu Yuchang will take care of you, but if we don’t care about it, we can only rely on ourselves. Therefore, it is imperative for you to improve your strength.”

“okay, I get it.”

The canoe nodded and solemnly agreed, and did not say thank you. Such a gift is also a concern for her life safety. It is boring to say thank you.

“Right, just now, the Xiangyang real person who came with me, he was in the crowd on the ship, and he also heard a little news, saying that there should be a big man in the West, and there should be a low-key mixed in it. Maybe this time is his behind-the-scenes planning. The two things that I just auctioned may also be released by him.”

The canoe was shocked: “That is...”

Shen Lang shook his head: “There is nothing. Until now, there are no problems at all. We are waiting to see what has changed. I have not told anyone about this. I just remind you that you should leave more thoughts.”

“I know.” Rain fell quickly and promised.

Although she is stronger than the real people in Fuyang, she is also one of the weakest groups in this class and needs everyone’s attention.

“I don’t want to be late, I don’t want to be so much with you. Do you need me to protect the law for you?”

Shen Lang directly asked, the meaning of his protection of the law is to let the canoe practice in his room here, and strive for a night to break through.

He didn’t avoid this. When he was in Haishan, Feng Jiji also practiced in his room.

After thinking about it, I shook my head. “I will go back. There should be no problem, and Liu’s predecessors are nearby. What is really there, I can take it over at any time.”

“That’s fine.”

The raft was busy and explained: “I am not against you, nor is it afraid that the time is long and the impact is not good. When the wind is no girl, it is cultivated in your room. I am thinking that you are very good at this evening. In addition to Joe’s predecessors, there will be many people coming to visit you, I am not very good here.”

Shen Lang nodded: “You are right, you are here, but it interferes with you more. The people on board are strong and will not care about your promotion.”

The passenger ship is always sailing, and is constantly approaching the sea without jail. She does not know how long it takes to break through. Naturally, it is a race against time. After that, Shen Lang will send her out.

After opening the door, I immediately saw several people in the passage. When they saw that they opened the door, they immediately started to haha.

Say hello to the canoe, and then leave, Shen Lang can only let them in.

Come over is Qiao Yuxian and Nanliuchuan, and Liu Yuchang.

Apparently, Shen Lang made an excuse to come back first. They also wanted to find the Shenlang. They found that the canoe went to the room of Shenlang, and it was not very good to come over but I didn’t expect it so soon. The door opened.

“How? Liu’s predecessors were afraid that I would be uncomfortable with the downcomer, so I specifically followed and stared at it?” Shen Lang jokingly asked.

Liu Yuchang screamed for a while: “Hey, what you said! It’s a coincidence. We were originally looking for you. I didn’t expect the small one to come first, so we are not good.”

“Haha, Shen brother, don’t you blame Liu Xiong, he is a real person.” Qiao Xiaoxian laughed.

“We are looking for you in business.” Nan Liuchuan said directly and seriously.

Shen Lang nodded, indicating that they said directly.

Since they saw the canoe entering his room, they would wait outside not far away, and there must be something. Otherwise, even if he misunderstood him and the canoe, he could not imagine him as a fast-moving fast man. Naturally, there is something to discuss with him for the first time.

“Is such that.....”

Just after Shen Lang first left, first talked with the real people in Fuyang, and received the canoe. They will come over now, and besides being with other compatriots, they are also being talked by the Western comprehens.

And what they are looking for is the content of the conversation.

The foreigner who communicated with them said that although the bank strictly screened it, there were still dozens of people. Everyone is acting together, but there are small teams and small leagues in the interior.

They also don’t say that they already have one of the strongest minor leagues. Now they hope to get together with Qiao Yuxian, Nanliuchuan and Shenlang.

They have no requirements. If there are any conditions for the Shenlang party, they can talk about it. It is only a matter of time. After all, the passenger ship is advancing at full speed, and it will take a few days to return to the sea.

It is best to respond to them tonight, so that everyone can have further discussions on further cooperation, so Joe and South quickly came over to find Shen Lang.

Chapter 783 - Decisive rejection

“Obviously, they are because you easily defeated the bat club president, so they pay special attention to you. As for the two of us, it is to draw your way. As for Liu Xiong, he also really cares about you, wants to Let us together.”

Nan Liuchuan smiled helplessly.

The object to be wooed is not the Nanliuchuan of the Nantian family, not the Qiaoyuxian of the Beihai Qiao family, but a young man, and the two of them are just accompanying!

However, compared with them, Liu Yuchang is still more chilly, or actively posted it...

If a few months ago, who would say something similar... No, you don't need to say it face to face, even if it is rumored by others, he will be dismissed as mentally handicapped.

But now, he has to admit that the value of Shen Lang is really bigger than him.

They are not familiar with Scott, but the name of the bat club president is heard. Whether Shen Lang defeated him or killed him, it is enough to prove his strength.

Others will pay attention to Shen Lang, and it is understandable.

Shen Lang asked one sentence: “What do you mean? You come to me to discuss, do you want to form an alliance with them?”

His expression was calm and did not reveal any emotions, which made Qiao Xianxian and Nanliuchuan both cautious.

“According to our thinking, it is best not to have anything to do with them. After all, we don’t understand each other. It’s just a simple contact to talk about alliances. It’s a bit of a play.”

Qiao Yuxian seriously said his thoughts, which is also representative of the idea of Nanliuchuan.

Shen Lang smiled and said: “You can’t say that. Before I went to Joe’s house, we were the first time to meet. For purely simple contact, you invited me to form an alliance. When I went to the South, it was the same. I invited me to cooperate.”

This made both of them very embarrassed and wanted to refute it. This is another fact. Do not refute it, and it seems that they are like these foreigners, that is, they want to use the waves.

If they are both light, it would be better, but now it is in the face of Liu Yuchang, the old face can not bear it.

“That’s what... It’s still a little different. Before we got to know, there was a bunch of feathers. They knew you early in the night. It’s also known to you in the war, and I’m so sorry for you. It can be said that although we are I met for the first time, but I know you very well.”

Qiao Yuxian reluctantly explained, and his face still had a bitter smile.

Shen Lang laughed happily: “I am joking, don’t take it seriously. I agree with your views. I don’t know what to understand, but I can’t do it with them. Even if I promise, I will sell our sooner or later. “”

“Yes, we are also like this.” Nan Liuchuan was busy with the sentence.

I heard that Shen Lang said that it was a joke. The two of them were relieved. I really don’t want to use it to feel that he is using him!

Then they are also secretly laughing, they are the first contemporary people in the North Sea Qiao family, Nantian family, actually want to see the face of a young man!

Even the lords and elders of the Tianshan Jianzong era have not been able to look up to them, except for the strongest sect of the history, Gao Hanqiu.

But there is nothing to say about it. Now, they need the allies of Shen Lang.

And Shen Lang is obviously a fragrant scent. If they don't pay attention, others will dig it away! Even if he doesn't like to go with the foreigner, Liu Yichang has taken the initiative to follow it.

Therefore, the two heads also put down the shelf of the family, waiting to listen to the opinions of Shen Lang.

” Having said that, but how we refuse it is also a problem. If we don't get back, we will offend them, be regarded as competitors, or even imaginary enemies. Maybe we haven't gotten to hell, we will be them. Targeted and murdered.”

This point that Qiao Yuxian said is also the key to their discussion before the three.

Such an invitation is a hot potato!

How many people in this small league are the comprehension forces in the West, and whether there are other regions to join... They know nothing about it, and this time the action, from the current ship's operation to all the crew on board, It was arranged by others.

If you refute and tear your face, it would be really not easy. If they are forced to disembark, if you fly to the Pacific Ocean, can you fly back directly?

“How does Liu's brother look?” Shen Lang asked Liu Yichang, who had been inconvenient to interject.

Liu Yuchang slightly stunned. After all, Shen Lang came with Qiao Yuxian. He took the initiative to follow.

However, since Shen Lang asked, he did not say anything about it. He said directly: “We have just discussed it a few times. It is the same view. I also think that we should not be with them. We are our own people, but we still have to Respond well, don’t tear your face.”

Shen Lang then glanced at the three of them and then laughed.

“Afraid of a wool! If they dare to do to us, then do it with them! If you don’t return to hell, you won’t run. This time you can’t go, we can go by ourselves next time. If they do things in advance, then What about ruining this ship?”

Just three of their old predecessors, waiting to hear the decision of Shen Lang, is undoubtedly treating Shen Lang as a core figure.

Now that I heard him being so arrogant, the three people were speechless, but the guilty heart also gave a sigh of blood.

“Yes! I am afraid of him! Really want to do something, we will be afraid that they will not be?”

“We are not irritating, and we don’t want to offend them. That is to weaken our prestige.”

“It makes sense. It is not what we ask for.”

After they finished, looked at the old guy who was nearly a hundred years old, and Shen Lang laughed again.

“Oh, I can’t hang up your old brothers. Since they are looking for me, let me send it!”

Seeing that they are going to talk, Shen Lang interrupted: “I know that you don’t mind being pitted, but I am coming! I refuse them, and I can also think of being young and prosperous, and there will be no fears.”

The three people are a bit embarrassed, and their previous fears are due to mature considerations.

Like they are all old, they are all family leaders. They have been accustomed to making any decisions in the early decades and will consider them carefully. It is not a timid person.

Shen Lang then took a clap: “Go! Let them come and pass the message, I will fix them first.”

Shen Lang has already said this, and the three of them are not good at saying anything, they will leave and leave. Then I went to find the person who had been looking for them, and let the person who sent the message come to the room of Shenlang.

Chapter 784 - Strong League?

Soon after they left, someone came knocking at the door, and Shen Lang opened the door directly, letting the foreigner outside come in.

“Mr. Shen, Shen... Master Hello.” This foreigner learned to hold a fist, it looks a bit awkward.

Shen Lang nodded and motioned for him to speak.

Seeing that Shen Lang did not give up, and there is no such thing as a guest. He can only get to the point immediately: “This is the case. We are very respectful to Master Shen. That... there may be many uncertain dangers in this trip. We have the heart. Contact the strongest people to form an alliance, don’t know...”

“not interested!”

Before waiting for him to finish, Shen Lang directly refused.

The foreigner looked awkward and didn’t expect Shen Lang to say so simply, but still kept his scalp and smiled and continued to persuade.

“In fact, our alliance can have a good complementarity and cooperation. Everyone has different advantages...”

“I don’t need it.” Shen Lang shook his head again.

“in case.....”

“please!”

Shen Lang raised his finger and pointed to the door, and ordered the order.

The foreigner was very disappointed, but Shen Lang had said so confessingly that he could not give him a chance to speak at all.

“Bring the door.”

Shen Lang didn’t even send him to the door, let him go out and bring the door.

This is the result of Shen Lang’s desire. He will not leave room for the other party. Otherwise, he will be troubled again and again, and he will be thoroughly sent once!

But things didn’t go as smoothly as he expected, and soon after that person just opened the door, the sound of knocking on the door sounded.

Shen Lang estimated that he should discuss with other people and come over again.

But when he had no choice but to open the door, it was a glimpse.

There is still a foreigner outside, but not just the foreigner, and this time there is Chaucer accompanied.

“Shen brother, this Mr. Smith wants to talk to you.” Qiao Yuxian introduced it.

“Come in!” Shen Lang waved and gestured to let the foreigner come in, and gave Joe a fairy a look that didn’t come in.

Only then did he react. The foreigner who had just knocked on the door was not the foreigner who had contacted Joe.

He is also secretly funny, it seems that the crowd on the ship, not one or two, are in the gang!

And he just killed the strength of the bat club president, and it became the target of everyone's attention, and they all wanted to pull him over.

“Mr. Shen, our purpose has been discussed with Mr. Joe, I believe you should already know. We are very sincere, and...”

Mr. Smith said directly: “I just saw someone leaving here. Should I also invite you to join?”

“But I can believe 100%, you must have rejected him. This is a wise choice! They have no level, only some wastewood is united, our alliance is the real strong alliance!”

When Smith said, with a hint of pride, he was proud of being one of them.

“Strong alliance? Are you really strong enough?” Shen Lang asked with a hint of playfulness.

This attitude made Smith a little unpleasant, but he still kept polite: “Tell this to you! The strongest ones in this trip are definitely in our alliance. With our alliance, there must be the biggest. Safety factor. Otherwise, the consequences may not be the case.”

After he finished speaking, he smiled and said: “Of course, Mr. Shen is a smart person, your two friends are also smart people. I believe that you will definitely choose the strongest partner, and everyone can work together.”

“but.....”

“You said, there is nothing to say.” Smith kept a smile, and he obviously got a lot of authorization. He was qualified to agree on the conditions of Shen Langkai.

“But from your point of view, I can’t see where it is like the Alliance of Strong.” Shen Lang shook his head. “Sorry, I am not saying that you are weak. I mean what you call the strong alliance, in my eyes, They are all weak.”

Smith’s face, after listening to the previous sentence, has become ugly.

After listening to the last sentence, it is even more ugly. It is more than just him, but also the alliance he is proud of.

“Mr. Shen, let us invite you, it is your attention. You don’t... In your words, don’t toast and don’t eat fine wine!”

Shen Lang’s eyes became sharp and stared at Smith.

“You threaten me?”

The man just now, he just returned very simply, there is no room for it. I found out that Smith had already had a well-thought-out look and felt that they had already got Joey Fairy, so he had to say it more difficult.

The other party will be unhappy, it can be expected, it is the effect, but directly angry and angry, and threatened him, let the waves are unhappy.

“Sorry, maybe I used the wrong word.” Smith took a breath, kept himself calm, and apologized first.

“Of course I am not threatening you, just want to tell you a fact, we are the strongest on the ship, our alliance can control everything. If you refuse, you will regret it; you not only refuse, but also We are disrespectful, and afterwards...”

When he had not finished speaking, he found that one hand had grasped his neck and lifted him directly.

“I am now twisting your neck, don’t know if you will regret your disrespect for me?”

Smith has felt regret!

However, what he regrets is not disrespect to Shen Lang, but he is not prepared!

In fact, this is no stranger to him. The two armies are still fighting, but he is coming to invite Shen Lang, and he thought he had already said good things with Qiao Yuxian and Nanliuchuan. He just came to the scene to let Shen Lang agree.

If you come in, you still have to be on guard Isn't there any sincerity?

Therefore, he was not wary and alert at all, and the speed of Shen Lang's shot was not something he could defend. When the throat was caught, his whole person was also banned, and a mental force directly penetrated him. In the middle of the brain.

"It seems that you have not realized that you are disrespectful to me..."

The cold and cold words of Shen Lang were directly introduced into the depths of his mind, a kind of cold, which made him shudder.

"This oriental child, can you say anything? Even if you refuse his invitation, you can't make a rough move to him. You are the state of etiquette, right?"

A voice that didn't know where it came from, rang directly around them.

"I don't respect me, I can still ignore it. I dare to threaten me. I am basically dead!" Shen Lang did not find the source of the sound, nor did he manage whether the other party could hear it.

Chapter 785 - Throw the sea

"Being forgiving and forgiving, he already knows it wrong. And it is not a threat to you, but he is a little proud of his way of speaking. I hope you see everyone in the same way, spare him!"

The voice continued to persuade, there was a hint of majesty, but there was no fire, no anger, and there seemed to be no fear that Shen Lang would kill Smith.

“I won’t kill people, but since he dares to threaten me, I have to let him pay a price!”

When Shen Lang finished, he did not give the face of the mysterious person behind the scene, and punched it directly.

This S-class superman, who has always been a distinguished and powerful Smith, did not expect that he would have such a day, actually no resistance, so he watched a punch on his face, and this punch Force, already far better than the hammer, let his nose directly collapsed!

The iron fist of Shen Lang also made him dizzy.

“Since the Boss behind you are coming out to say something to you, I will spare you! In front of me, you are the weak!”

When Shen Lang talked again, he opened the window of the cabin of the room and directly threw the dead dog-like Smith into the sea.

Although the passenger liner is not full of people, the priority is for rooms with windows to see the sea. There are also some people living here, and some people are on the deck.

If it is a general tourist, of course, this movement may not be found, but for the true self-cultivation level, the natural movement can be perceived.

The change here was immediately discovered by many people. I was still thinking about whether there was any accident, whether it was saving people or the like.

However, through the observation of eyes, gods, etc., I recognized Smith who was thrown into the sea. It was not a low-end crew member, and his face was already hurt. Naturally, it was not accidentally dropped, but was thrown away by people.

No one has shot it, so as not to cause unnecessary trouble.

Of course, it only made Smith stunned and would not drown him. After losing the ban on the waves, he quickly flew up from the sea and returned to the boat.

After Shen Lang threw Smith out, the person who had passed the voice before did not speak again, and he never showed his identity.

However, in combination with the words of Fuyang real person and Qiao Yuxian and this Smith, basically one can guess one or two.

This mysterious person who pays attention to the situation here in other places should be the strongman in the strong league of Smith, or the boss, and it is very likely that it is the big boss of Shuyang.

Just now that person was only paying attention to this side, and did not directly intervene in anything, but his attitude, or people let Shen Lang pay attention to it.

After all, he just grabbed Smith's neck. If the other party is a warning of anger, or a bit nervous, it means that.

But the mysterious man is completely calm, although persuaded to put Smith, but the appearance of it, it seems that even if Smith is killed, it will not affect him.

This is not the same!

It is not only from the side of the mood that this person's strength must be far better than Smith, but also that Smith has not yet reached the importance of his right arm, then he may already have a strong alliance around him.

But how about that?

Shen Lang doesn't care, he just wants to slam the face, as if he wants to turn his face, who is afraid of who?

After Smith smashed his nose and threw it into the sea, Shen Lang won the silence. No other foreigner came to win him. It was the comprehension of China, and he was not familiar with it.

In everyone's impression, this guy is a murderer who doesn't speak directly. Even if he really pulls it up, he may not be able to hold it.

A calm night passed, and the next morning when I was eating, Shen Lang saw the canoe.

Her whole state has been obviously different. When she was enlightened last night, it was just a leap in her mood. Now, it is true that the whole realm has been upgraded.

"Fortunately, not to be insulted." She gratefully glanced at Shen Lang.

If it is not the inner Dan given by Shen Lang, then if she is trying hard to cultivate, it will never be able to break through to the peak of the real world.

She has not yet caught up with the progress of the rain, and the rain has already broken through to the peak of the real life in the dead forest. In the past few months, she has not stopped her efforts, and before Shen Lang gave her a yin spring, it is even more powerful.

If it is not for the river to want her to stabilize her mood, these two months can already break through to the realm of the gods.

However, the canoe has already been bearish on the contrast with the falling rain, and it is a great opportunity for her to continually leap from the beginning of the deposit to the peak of the real situation in the half year.

And all this can be said because of this man in front!

"Continue to keep. It is a little more to make progress." Shen Lang nodded and encouraged.

The canoe was slightly white and white: "Can you not be so old-fashioned! It feels like my master's old age."

Shen Lang is a bit helpless: "What should I say?"

“You should say: Wow! Congratulations, you have progressed so fast, I have never thought of it. I will definitely have a limited future. To celebrate your promotion, we can have a drink... Haha, I can’t make it.”

Obviously, the boat is very excited, she wants to share her joy with Shen Lang, even if this is what he created.

“Oh, the master of the boat, I am not attacking you. This boat is just grabbing one, the strength is stronger than you, and there is no return to the sea, maybe they will become your enemy, you really have no time to be happy.”

“...”

If you are in the dark, let the canoe be slightly white: “Hey scenery! But even if you pour cold water, I am still very excited.”

During the speech, Qiao Yuxian, Liu Yuchang and others who took the food also came over.

They are all veteran of the real power of the gods naturally also see the change of the canoe, they have congratulated her.

It is very good that the canoe is so old, and it is very good. As a female disciple of the Tianshan Ice Palace with limited resources, this has surpassed the successors of their family.

Of course, they can all see it. It must have something to do with Shen Lang. It is Shen Lang’s support for resources, but first of all, I must have talent.

Among them, Liu Yuchang is undoubtedly the most happy one.

He originally carried the river, and his identity and strength were able to pass. As a result, he couldn’t come, and the boat was much worse. The key was not strength, but generation and age.

Now the raft has broken through to the peak of the real world. On the one hand, the strength is getting closer. On the other hand, she also shows her talent, and the relationship with Shen Lang.

All of this makes him confessed to his allies, and does not feel like he is carrying a burden.

Chapter 786 - No return to sea

When no return to the sea was in the distance, everyone was excited.

The passenger ship did not approach the past according to the previous plan, but stopped at sea. Those who are going to explore without a return to the Hells are all those who are really strong, and the last one, they don't need to be sent by speedboat, they can fly by themselves.

Although there is still a little distance, it is obvious that the aura is very rich, far better than other places, and the sea in the distance, there is a rising aura.

Come here to observe, Shen Lang also proved that he guessed when he passed the discovery last year. It is precisely because of the continuous influx of a large number of auras in this sea area, and the average value of the whole earth's aura has been raised for hundreds of years.

For the large-scale exploration hundreds of years ago, there are various legends in the realm of comprehension in different regions. But after all, it is a long history, it is now the oldest, and has not experienced it personally.

At this moment, I came to this legendary sinister sea. Everyone is not only excited, but also a sense of holiness!

Regardless of the outcome of this trip, they are all pioneers, and like the former generations of great people, they will also be named history.

The self-cultivators who were far more powerful than those of the present are able to go forward and even directly lead to the fault and decline of the comprehens. The attraction of this sea area need not be said.

Now everyone's concept has been updated, and will not stick to the concept of "Tongtian" and "Dengxian". I wonder if this will be another crack in space.

Light is a little aura that overflows from the cracks. It is so vast and even affects the whole world. It is a beautiful existence that can be seen in the world over there!

This time, it's often very old, and the old man who has almost reached the end of the game, with the end of the tossing life, is better to beat, if it really leads to a "fairy world", it's not The late years are a new beginning.

Before the voyage was approaching, everyone finally had a meeting to discuss the order and rules of entering the sea.

But the same result as having been met many times before – there is no perfect solution that everyone is satisfied with.

Because everyone involved is with a tangled mentality: both want to let others go to thunder, but also for the benefit of letting others get first.

Fortunately, the sea area of this film is not small, even if everyone enters at the same time, it is nothing.

So at this moment, almost everyone went to the deck, and then outside the excitement, everyone prayed silently.

Even if they are all self-cultivators, they have already been in the eyes of ordinary people, and they are still willing to pray for peace in any of their own ignorance.

After all, life is only once, and the older the more you die.

Everyone is waiting, waiting for the whole point, everyone will enter at the same time!

Although the comprehensions are on the deck facing the direction of no return to the sea, but everyone is still in groups of three, according to their familiar friends.

Shen Lang was with the Qiao Yuxian Yuyang real person, and later added Nanliuchuan.

Later, Liu Yichang and Zhang Zhulang, their group, were also with Shen Lang. Although they did not form an alliance, they were considered a group of friends.

And those foreigners are the same, of course, there are many people who are not gregarious.

For example, the Black Dragon King.

He doesn't just have no friends together, and he knows his identity, he is scrupulous about him, and no one is close to him.

Shen Lang is paying attention to it. He wants to see if the mysterious big Boss is there, but the intuition tells him that the person is not on the deck!

I looked at it intentionally or unintentionally, and I didn't see any image. He is also not convenient for further investigation, because that person is also very powerful, and it is very likely that he is finding him.

As long as you don't come to him, you don't care what others are doing.

When the punctuality of the meeting was reached, the passenger ship rang a long time. Between the moments, the self-cultivators who had already prepared, immediately flew off the deck!

Everyone has their own means, some are flying directly from the air, some are Yu Jian flying, some use other magic weapons, but also directly run on the sea.

But no matter what means, everyone has a tacit understanding, no one is particularly fast, but keeps in a general range, keeping the overall pace of progress at the same time.

Still tangled!

Not only want to grab the first prize, but also be afraid to step on the thunder, so it is fair for everyone to enter at the same time.

The realm of the current canoe will not be able to keep up. Shenlang needs to pay attention to the real people in Fuyang. Fortunately, in the case of unsatisfactory speed, Fuyang real people can keep up.

There is also doubts about Shen Lang's heart. It is the mysterious person. If he is the core of the Western Union's strong men's alliance, what time is it that he is not with everyone?

Really he planned this action, want to treat everyone as a sacrifice? After dozens of comprehensions were sacrificed and he finished the discussion and murder, did he come in?

Or do you say that he will come first, do not bother to walk with everyone?

In any case, Shen Lang himself has done the most protection!

His body has undergone the transformation of the giant rhinoceros beast, and has been tempered by lightning. Originally, the defense power is far better than that of the average person. Later, he joined the swallowing scorpion and the iron armor, and it can be as good as steel. .

However, this is not enough. He still equipped the new sacred armor and opened the defensive to the maximum. In the moment before he was about to fly into the area of no return to hell, he even ran the "King Kong is not bad spirit"!

In addition, the defensive reel that I got last night is always ready, and I already know how to use it.

In fact, not only is he the protection of three layers and three layers, such as Nanliuchuan, their brothers brought back the leather armor of the armored red dragon, which was to make a soft armor, which was also worn on the body.

This is the time to fight for resources to fight for wealth like the "low-end" monks of the canoe, Fuyang real people, naturally there is no such thing as a hand-held armor.

Although everyone's speed has been suppressed, but after all, the distance is limited, and it is soon to the edge of no return to hell.

Far away, everyone can feel the rich aura. That time, the Shenlang is on the 10,000-meter high-altitude plane, and they all feel the aura.

Now that I am really close to this sea area, I have an unimaginable refreshment. I don't say anything else. The light is cultivated in such an environment, and I can't know how many years I can.

For a time, the self-cultivators who had to wait for everyone to arrive at the same time began to suppress an impulse and rushed into the past!

There is no physical separation in this sea area, but because of the aura, everyone can know where the dividing line is.

The error before and after everyone is only calculated in seconds. When someone sees someone disappearing in front of the sea, some people hesitate, and more are joined to fly into it!

Chapter 787 - Falling in the fog

They have already reached the edge of the sea, and Shen Lang did not think much about anything else. Whether it is the pit of the mysterious person, it must go in.

And if you really want to say pits, it is at most dangerous in front of them, let them advanced to the top. In this place, it is impossible to artificially set traps.

Even if they don't come with them, he has to go in to know what's going on behind him.

Now that I am ready to do everything, there is no hesitation, and I rush straight in!

However, before he went in, he still had a little concern, that is, it was a canoe.

Whether it is the identity of a personal friend or the sister-in-law who is in the rain, he can't watch her accident. Even if he is not sure about his own situation, he still told her to follow it casually.

Nothing else can be done, at least when the defensive reel is unfolded, she can still protect her.

The other one is Fuyang real person.

Of course, there is not much emotional friendship in Fuyang. It is purely because of the fact that there is a sense of responsibility. If you can protect it as much as possible, it will be close to him.

As long as Qiao Yuxian and Nanliuchuan, Liu Yuchang and others, they are the big men of the millennial family. Even if they can't do everything, there must be some means of self-protection.

And now, before he is directly at risk, Jonan and others can only be self-sufficient. They are incapable of protecting others.

When entering the apocalyptic waters, the feeling of Shen Lang is bathed in the aura, the surrounding aura, as if the feeling of wet and fogful substantive, is stronger than what I felt before coming in.

The second feeling is that everything around it has changed!

Originally, even if it is close to here, the light looks like it on the surface, and it is no different from other seas.

But now in this sea area, the eyes are no longer useful, nothing can be seen around, this is not dark, just like heavy fog, but the fog has been heavy enough to reach the depth of the fingers!

At the moment of coming in, Shen Lang had already stretched out his hands. On the one hand, he grabbed the hand of the canoe, and the other hand grabbed the clothes of Fuyang.

Now with the eyesight of Shen Lang, I can't see everything around me. I can only grasp them by feeling.

Except for the invisible eyes, no sound was heard, as if entering the vacuum world.

Otherwise, so many people will come in here together, even if they don't panic and scream, in the case of invisible, at least they will speak and tell each other.

“How are you?”

Shen Lang tried it, and the result was similar to his imagination. He did not get a response, and he did not hear the words that he said, probably the material that could not be transmitted.

As for whether he can breathe, he did not try this.

Everyone should be similar. Before coming in, it is certain that Kobe took a breath. With their realm, this oxygen can hold for a long time, and there is a strong aura around it. This is not a problem.

The more serious problem is that even if the static wave opens the reconnaissance function of the holy armor, it can only determine the two sides of the canoe and the Xiangyang real people with temperature and heat, and they can't detect it any more far!

Since it is already such a situation, it is imperative to figure out the surrounding environment!

In the case of invisibility and inaudibility, there is no other clue that can be referenced. It can only be speculated according to the sea surface.

Shen Lang grabbed the two of them as much as possible to let their bodies dive.

The aura that rises from the sky should come from the depths of the sea. As for how deep it is, I don't know it for the time being. But when they flew in, they were in the air, at least first standing against the sea.

But what he didn't expect was that although the speed of the body's dive was not fast, it was estimated that it would not be long before it could reach the surface.

But with the decline for a long time, the feet still float like in the air, and there is no sign of touching the sea.

If you don't touch the sea, you can't talk to the sea, and you can't touch the legendary "gate of heaven".

According to this understanding, it should have not yet reached the edge of the space crack, or in the outer ring!

Suspended on the edge, it is the most terrible state!

Wherever you are, the whole person seems to be in a vacuum, even if the surrounding aura is very rich, but it is not the gushing up on the sea and the air!

According to the history of no one has gone back, it is now time to go to another layer of space, not to go up or to the side to return to the Pacific Ocean.

So Shen Lang chose to go to the end in one direction!

That is the bottom that has been dive for a while.

The speed is not fast, but he still insists on dive a little. I don't know how long it has been. According to the feeling, if it is under the air of the earth, it should have dive tens of thousands of meters!

If it is in the water, it should be several kilometers.

Finally, there was a little change in the eyes. Shen Lang felt that the thick fog was weakening, and he could start to see his hands.

He used the sacred reconnaissance, but found that the canoe and the Fuyang real people were in a state of coma!

It is no wonder that in the process of dive, they did not cooperate at all, basically dragging them down by the waves.

There is no time to analyze why they are unconscious, but they can only continue to pull them down.

At the same time, he continued to scout, whether it is the Holy Grail or the sensory sense, the scope has become extremely narrow, and there is no other person around.

After another half an hour or so, the fog became lighter and thinner, and the line of sight gradually became clearer. The range of sensing and reconnaissance was also a little larger.

Finally, I saw that the ground is below, and then my feet are stable.

Now the fog around this is almost the same as the “British Heroes” in Qiangjialing. I can’t see it too far, but basically there is no problem nearby, just like the daily encounter is big. The foggy weather is about the same.

Shen Lang first put the two of them down and then checked the body of a falling canoe.

Her body did not suffer any harm, but the spirit seems to have a lot of shocks, probably the impact of entering this space is too great, so she can not stand.

The situation in Fuyang is almost the same, because he is lower than the real world of the canoe, so the situation is even more serious.

Shen Lang suddenly had a strange conjecture. If he didn’t catch the two of them in time when he came in, he couldn’t find them in the above environment!

And the two people who lost their consciousness, maybe they will always float in the thick fog that they can’t reach the five fingers. I don’t know how long it’s been floating, I don’t know how far it is...

The other people who came in this time, and the people who came forward, did they always float in the thick fog?

Chapter 788 - Heavenly compass

Soon, Shen Lang took back his thoughts and did not look up to the sky.

In the course of the process, he did not have anything, even the powerful impact was not felt. The explanation is still their own two problems, the realm is not high enough, and the mental strength is not strong enough.

The rest of the trip are more powerful and powerful, and should be similar to him, and will be safe.

As for not seeing other people now, it should be scattered.

After all, he made a downward decision and he has been diving. Other people may move forward and backward, even if they choose to dive, the difference in time will cause a gap.

And he dive for so long, and he can't keep falling vertically in the middle. Just like a group of people challenging at the same time, they can be fixed in a range in the air, or they will have a long way to go when they reach the ground.

The problem now is that the naked eye can't see too far, and the gods and even the holy armor can't detect the far-reaching situation.

In this way, it is unrealistic to wait for other people here. To find it is not realistic. You can only choose one direction to go forward. If you look at luck, you can see if you can meet an acquaintance.

When I was in Qiangjialing last year, I still had some experience. There are some things that I can refer to, but now I am completely blind.

Shen Lang's mood is clear, let his heart stop, and then confirm the direction with the feeling.

In the absence of any reference, it is not a good thing to follow the feeling.

He now hopes that his own predictive induction can play a role, but he has not yet reached the seventh weight of "Yin and Yang Bo Ruozen". He is not sure, and has no strong consciousness.

Therefore, it can only be in a state of relaxation, not deliberately thinking, not deliberately “predicting” the state, the natural feeling.

Then he rescued the canoe and the Fuyang real people. Because they are not physically hurt, but the impact of mental power, this time they will save them. What the sun needs is not to infuse, but to Use mental power to wake them up.

“Shen Lang? Where are we here? Is this no return to hell? We are... at the bottom of the sea?”

After the wrecked boat woke up, while asking the question of Shen Lang, while quickly observing the surrounding area, I couldn't help but feel very confused. I don't know how I got to such a place.

The real person in Fuyang also woke up. He didn't ask for it. He also observed the situation around him.

“Master Shen, just... thank you for your help!” The canoe is not polite with Shen Lang, he can't.

Shen Lang nodded. “Fortunately, I pulled you when I came in, or I have no choice but to save you.”

He pointed to the top, “We are down from above.”

Then I told them about the situation just now. Hearing the canoe and the Fuyang real people are cold sweats.

I thought it was the time to appear in this place, but I was stunned and rescued. I didn't expect that there were so many behind-the-scenes, there was a slight error, and maybe everyone could not find it anymore.

“This place is quite strange. Once you enter this sea area... you should have already reached another space. So even if we keep going up, we may not be able to return.”

Shen Lang was a little cautious, but he comforted them: “If you come here, you have come in, and you have not died. Then we will explore it.”

He has chosen the direction, and now they have no problem with both, they are ready to go ahead.

In front of Qiao Yuxian, Nanliuchuan, Liu Yuchang, etc., he also has an absolute core momentum, not to mention the two of them, Shen Lang is not modest, and he will lead the way.

“Master Shen!”

The real person in Fuyang stopped him.

“how?”

Fuyang real person hesitated a little, took out one thing, is a small object like a compass.

“You are right. If we don’t have a secret in our division, the strength of our district will not be able to come to the water. Our fathers have some secrets. According to the records of the founders, I finally developed this thing. “”

He took it to him and saw that the above is mainly a pointer to the direction.

“The two will treat it as a special compass! The orientation above is a safe position to leave this area!”

“Are you sure?” Shen Lang asked seriously.

From this point of view, the direction of the pointer is not the same as the direction he just felt.

“uncertain.”

The words of Fuyang's real people ushered in the double eyes of Shen Lang and the canoe.

"I mean... I haven't personally come and have not verified it, so I can't be sure. If I follow this direction, I don't necessarily have to rely on it. But since the teacher left a clue, he developed this thing deliberately. It has a role."

After explaining it, he pointed to the surroundings.

"If I change another place, I don't dare to come up with it. But there is a lot of fog here, maybe it's really a place to use it."

In the light of the boat, she looked at Shen Lang. For this aspect, she did not dare to take the idea, but she still had to let Shen Lang come.

Shen Lang nodded and began to think that Fuyang was playing with him. After listening to the explanation, he realized that this was due to caution.

To put it bluntly, Fuyang really has a slight whisper, fearing that if the road is wrong, Shen Lang will blame him, and he may be angered and ruined him. Therefore, taking a vaccination in advance can only be regarded as providing a direction, and it is not guaranteed to be correct.

Shen Lang has just carefully read, this is not an ordinary compass, it should be specifically tailored. Before you come here, no one knows what will happen, even if someone will carry a compass, it is also to avoid getting lost.

The Fuyang real people are prepared, and it should be true that their founders left clues.

There is no basis for his feelings. In fact, he is gambling on the premise of no direction. Since Fuyang can provide a direction, it is a reference!

"I believe in you, I believe in the ancestors of your heavenly machine."

After Shen Lang finished, pointed to the front, indicating that Xiangyang real people lead the way.

“Thank you!” Can get the trust of Shen Lang, so that Fuyang real people are a little excited, this is the respect that the division won!

Seeing that he was going to hand over this “compass”, Shen Lang shook his head.

“Or you come to operate! If there is any detail I don’t know, there may be errors. You go ahead and I will protect your safety!”

Seeing that Shen Lang is sincere, and the real person in Fuyang is not polite, he will be held by himself.

The three men began to move forward in the direction of the “compass”, showing a character shape, Xiangyang real people in front, Shen Lang and falling canoe behind.

With such a trip triangle, Shen Lang can protect both of them in time.

In the process of going forward, Shen Lang still maintains his own defense status, and uses the Holy Ghost to detect the surrounding situation.

Chapter 789 - Lightning area

Fuyang real people are very familiar with this “compass” that they secretly pass on. They must have been repeatedly studied before they are sure to come.

However, because the current vision is extremely limited, and there is a high probability that there will be various dangers, even if it follows the “compass” of the ancestral clues, it is not necessarily very safe, so he does not dare to take the speed, so as not to be too fast. There is no time to respond to the problem.

After walking this way, I walked for nearly an hour.

Because I confirmed that I was going in one direction, I did not encounter obstacles and basically kept going straight. Even if they don’t fly fast, the speed of travel is not inferior to that of ordinary people, so there are distances of twenty or thirty miles.

But in the process of doing this, nothing has been encountered, let alone those comprehensions who come in with the peers, that is, nothing in the local.

The real person in Fuyang stopped, and he had no bottom in his heart.

“Master Shen, will there be a problem?”

Shen Lang is also a bit dignified: “The scope of this place does not know how big it is. We don’t know how far it has passed. It is normal for dozens of people who come in. It is normal. But... we have gone so far, a little Nothing was found, it was a bit abnormal.”

“We are following in one direction. I believe that the compass of Fuyang’s real person is certainly no problem, but if the magnetic field of this film is disordered, we may not be able to keep going straight.” The canoe was also not polite, and expressed her views. .

Shen Lang nodded: “I may have considered this. If I keep a little bit, we think that we are going straight, maybe we have a big circle in the end. But I have noticed along the way, and this has not happened. It’s almost certain that we’ve been walking straight!”

He will be so sure, not because of the judgment of the human brain, nor the memory of the surrounding terrain, but the trajectory of the record of the holy armor!

This environment is quite special, that is, the scope of the reconnaissance of the holy armor is also much narrower, but the route of the walking, the trajectory of the holy armor record will not be problematic, and it is therefore that the swell can be sure that there is no circle, and It is a straight line.

In exchange for what others have said, some people may raise questions and raise questions. However, Shen Lang said that there is no doubt in the Canoe and the Fuyang real people. I believe he has this ability to confirm.

“Let me be a bit uncertain...”

Shen Lang pointed to the compass in the hands of Fuyang real people: “This should indicate to us that there is always a direction of export, but we are random, and now it is not a fixed route. Since this area is dangerous, we It is impossible to encounter nothing at all.”

“Then we... continue?” Since Shen Lang confirmed that they had no problem in this direction, the heart of Fuyang was put down.

But how to implement it, he can only ask the meaning of Shen Lang.

“Is there such a situation...” The canoe was inserted again: “If this area is already very large, it is far more than the area of the Pacific Ocean without a return to hell. So we walk for an hour, It may be just a small distance, not enough to meet any danger, or meet other people.”

Shen Lang nodded: “There is this possibility, so we will continue, but everyone can speed up a bit.”

“it is good!”

After getting the instructions, Fuyang real people began to speed up, and the use of this hour just made him more familiar with this compass, do not need to look at it at the same time, but also spend a little more time to observe the surrounding situation.

But in fact, he did a peace of mind, in the back of the waves, you can find a wider distance than him.

So I went back a few hours and there was no change here. It was still in a foggy state.

But now, they all feel abnormal!

With the deceleration of the last few minutes approaching, the truth of the anomaly was finally confirmed!

In the direction they are going, although they continue to be in a foggy state, they have thunder and lightning.

Checking the compass, they are going in this direction. Whether it is a **** or a sacred armor, the result of the investigation is still such a lightning area.

In other words, if you go forward, you don't know how long it will take you to walk through this minefield, and it's not clear how far you want to go around.

The three people are relatively bitter.

Before it was too calm, there was no abnormality. Everyone felt abnormal, but now they are anomalous and a little bit annoyed.

“You are waiting here, I have experienced it in the past.”

Shen Lang let them stay on the edge and then flew into the lightning area.

The lightning they saw was a random random state, and now as soon as he entered, he immediately attracted countless lightnings to him!

The canoe and the Xiangyang real people watching on the edge could not help but scream.

But the strength of Shen Lang is much stronger than them. If there is no way to sink the waves, they can't save people if they go in.

Fortunately, they all know that Shen Lang auctioned a defensive reel that night, and when necessary, it should be able to save lives. It can only be done before the speed of lightning.

However, when they exclaimed, their eyes saw a scene that made them stunned!

Shen Lang is so arrogant that there are countless thunder and lightning, but it is not broken, but it is keeping a calm attitude, as if it can't be like him at all!

“Shen Master is not a stranger of the two worlds!” Fuyang real people could not help but admire one sentence.

If you change to a god, you can't do it.

“What do you say?” The canoe was also amazed, but it seemed a bit strange to hear him, and I felt a little unclear.

Fuyang real person was shocked and hurriedly said: “I said that Master Shen is not a shocking person. Besides him, who can do this?”

The canoe was just a bit stunned. After he changed the “two worlds” into “shocking the world”, it was mixed.

“Yeah, he is really an amazing wizard...”

Seeing that she did not ask Liyang really sighed with a sigh of relief, and almost revealed the secret of Shen Lang, this is not a secret, if it is irritating, it will be worse than the anti-defense of the open-air machine!

After Shen Lang just attracted a lot of lightning, he did not continue to smash him. He moved his body again, and immediately there were countless lightnings coming over!

“Look at my foothold!”

Shen Lang reminded them of a sentence.

He has just tested it. Once he enters this area, it will inevitably be a thunderbolt pursuit. So if you want to go in the past, even if you use the magic weapon to fly, you will be embarrassed.

When he settled down, it was more concentrated. But after he passed, he didn't know if he would recover again. At least for a short time, there would be no more lightning chasing in the same place, or it might be because the thunder and lightning were chasing him.

So as long as they are two, follow the place where he settled, you should be able to avoid lightning.

Chapter 790 - By the way, I learned a skill.

I heard the words of Shen Lang, but the Fuyang real people and the canoe still hesitated.

They have just witnessed the crazy bombardment of lightning. They all witnessed it. Shen Lang can get through, they can be sure!

Now let them go along the sinking waves, it seems to be OK, but after all, only to verify the second step, in case this is not a rule?

Those who entered the minefield will be turned into coke!

But because they talked about Shen Lang, they still only slightly hesitated. When Shen Lang jumped to the third step, the canoe had quickly flew into the minefield and skipped the first stop. The second place to stay.

“Master Shen, this is for you!”

Fuyang real people also feel that they have entered the first place to stop, and then squatting to give the heavenly machine compass to Shen Lang. Now that Shen Lang is in front, I can't go wrong.

“No! I am confident that I will not be embarrassed!”

After Shen Lang smashed countless lightning, he leaped forward.

The canoe quickly followed the point where he had just left, and Xiangyang lived to the second point.

For the confidence of Shen Lang, Fuyang real people are actually a bit skeptical, because the scope of this line of sight is too short, it is not enough to see a straight line, and there is no reference.

But Shen Lang said so, can he still question? Can only follow the back, but also take the time to pay attention, in case of a turn, remind one.

What he didn't know was that the confidence of Shen Lang came from the holy armor!

They have been away for a few hours, and they are all straight lines in one direction. The longer these tracks, the more data they can refer to.

Here, the magnetic pole is not the same as the earth. It may be useful for a normal compass, or it is useless. It must be specially made by the celestial machine. However, according to the route just taken, the holy armor can already calculate the direction in front.

In terms of error alone, it is actually much smaller than that of Xiangyang's real human eyes!

According to the method of Shen Lang, they went all the way, this piece of lightning area, has reached a wide range of miles!

As for whether they are on the long side or on the wide side, they cannot be sure.

In short, using this method, it took a few hours to cross this area.

In front of attracting the thunder of lightning, each time it is a dense bombardment, let the canoe and Fuyang real people see the scalp numb. It will be released later, knowing that Shen Lang is definitely fine.

Just a few hours down, he was afraid that he had to bear millions of lightning bombardments, but he still had nothing!

Even if he creates miracles again and again, people still have to marvel.

Fortunately, the real person in Fuyang has already calculated the secret of Shen Lang. For such a person who can take the chance to change his destiny, it is naturally magical and acceptable.

"You...do you want to take a break? Is there any discomfort?" The canoe couldn't help but still care about Shen Lang.

Shen Lang looked at it and knew that she was talking about countless lightning bombardments and gave her a comforting smile.

“I’m fine. I have a guess. This area is so thunderous. It should be reasonable to have hidden treasures.”

“You don’t want to go in and search for it?” The canoe was covered with black lines.

It’s hard for everyone to cross the minefield. If Shen Lang wants to go back, even if he is alone, she can’t stand it anymore.

Fuyang real people hesitated a bit, and twirled and persuaded: “According to the reason that such extraordinary places, there must be a major opportunity. But we have come all the way, there is no sense and touch, maybe we do not have this opportunity, and may not necessarily Just fine.”

“I just said, I won’t really go back.” Shen Lang smiled, then raised his hand, a thunder and a flash of lightning!

“This is...!” Both the canoe and the Fuyang real people opened their mouths.

Everyone is there, they all see it. Shen Lang is a casual raise, not using any magic, as if he can release the lightning energy!

“With so many Thunder electric shocks, you can’t lose a little. I learned a little skill by the way, and I haven’t practiced it yet.”

Listening to the words of Shen Lang, the canoe and the Fuyang real people all smiled bitterly.

“Do you want such a genius? You make us very inferior, like you are a lower animal in front of you.” The boat was helpless.

Fuyang real people can’t help it: “Really, we don’t give us a little life. Even if I am old, I feel too shocking!”

Shen Lang slightly white eyes: “It took a few hours to learn a little skill. It has been slow. I just took the opportunity to learn, but did you have any gains?”

“...”

The canoe is directly white.

What is it!

After a few hours, it’s already very slow...

This is too pretentious!

They have just kept the alert at all times, for fear that they will be turned into coke if they are not careful, and where there is any thought and harvest.

The opportunity to learn, is Raytheon an opportunity to learn?

Xiangyang, who has awe and fear of Shen Lang, does not speak anymore. This is simply...

“Do you want to take a break? Or go ahead?”

Shen Lang smiled and did not say “skills” in this respect.

Whether it is forced or not, he is deliberate!

In order to let others believe in his super genius, not only doubt the suspicion so much.

The reason why he is not dying of millions of lightning, but also “by the way” to learn the lightning skills, of course, not because of genius, but also because of the rich experience of past lives.

Holy armor!

This time, the latest top-level sacred gift from Bihaihuan is really a big help.

When he entered the minefield, Shengjia was already starting to scout various data, and then calculating and calculating various strategies for coping. All of this can be done in microseconds.

When the introduction of numerous lightning supplies, Shen Lang has arranged a series of coping strategies for the Holy Grail!

He has a sacred armor, which is directly able to bring all lightning into the ground, but it is a bit wasteful, so the swell is through the rapid re-distribution of the sac, and it is harmless. State, the re-directed lightning is introduced into the body.

In the seamounts, he has already suffered a thunderbolt, and the body has a certain foundation. Now, under the intelligent distribution of the armor, the risk has been minimized, and it is optimized at any time according to changes in the body state.

Therefore, what he said just now is not bragging. In these few hours, he really practiced and developed the power of lightning.

It's just that these black technologies are too sci-fi for the self-cultivators. Plus the secrets of the city-states, of course, it's not convenient to say them, and they are pushed to the genius.
