

First Strong 791

Chapter 791 - Final encounter

Shen Lang was bombarded by lightning in front of him, and did not say that he had to rest. Where do they both want to rest?

Of course, it is directly said to continue moving forward!

It has returned to normal conditions, and Fuyang is also consciously leading the way.

But carefully checked the compass, he could not help but stunned...

Before because of the minefield, he thought about it, but he didn't have any problems, so he didn't say anything. It's incredible to calm down now and see this direction again!

"What's wrong?" He said that he was awkward and asked a question.

Fuyang real people gave her a look.

"What's the problem? I can't see it." The canoe shook his head a little.

"There is no problem!"

"No problem... isn't it?"

"I mean, we crossed the minefield and spent hours, at least a hundred miles. But Master Shen led the way, didn't look at the compass, but there was no deviation in the direction!"

After the real people in Fuyang said it completely, the boat was realized how amazing it was.

Just as she just followed her way, it was already a battle of thin ice, and there was no time to think about the direction.

Shen Lang is in front, and it is even more and more stopped by lightning. According to him, this road is also practicing, but he can still pay attention to the direction. Without any reference, there is still no mistake!

“How did you do it? Are you still a person?... Hey, I mean, you are also enchanting!” asked the canoe and couldn’t help but sigh.

Shen Lang smiled and said: “There is no difficulty in the world, only fearful people, intentions!”

“...”

This answer is too perfunctory, they do not believe it.

“Okay! Let’s talk a little more about it. When you reach the peak of the real world, how big is the difference between you and the beginning of the real world? If you reach the realm of the middle of the realm?”

This analogy, I will not ask about the canoe and the Fuyang real people.

Taking their own examples, they are the peaks of the real world. Of course, when they were in the early days of the real world, they were all too powerful. When the real people in Fuyang were still in the virtual world, they didn’t know how much.

And Shen Lang is the bottom of their relationship with him. He is not only a godland, but more powerful than the early days of other gods. He has reached the middle of the realm of the gods, plus his ability to create miracles... ..

After walking for a long time, confirming one direction, what is it?

Shen Lang refreshed their cognition again and again, leaving them without temper, directly determined by Shen Lang, they just followed.

Shen Lang is also not polite, in the absence of a better direction, then follow the direction of Tianji Zong!

I don't know how to do it before, so I've just got a big gain.

The three people continued to move forward. After the minefield, it was almost no danger of attacking for nearly ten hours, so their speed was once again accelerated.

After walking for less than twenty minutes, Shen Lang stopped.

“What's wrong?” asked the boat.

Time is so short, naturally it is not necessary to rest.

“Someone is ahead.”

The canoe was already open, and Shen Lang also answered her directly, no more.

After they both listened, they immediately woke up.

They have been out for ten hours, and the chances of meeting the same come will be getting smaller and smaller, and no matter who they meet, they must be on guard.

Shen Lang went back and took them directly to the past.

“It's them!”

When I could see it clearly, the canoe was surprised and called.

Although not familiar with it, there is still a bit of an impression. These are all from the same ship, but only the Western comprehens.

Here are five Western comprehensions. Shen Lang is even more impressed. One of them is to come to his room to win him. At that time, he just refused directly.

Because the other party did not threaten him like Mr. Smith, there was no unpleasant conflict.

These five Western superpowers also found that some people came over and kept their guards. It was a bit horrified to see that they were three of them.

“It turned out to be you.” They also said something similar.

“Mr. Shen, I didn’t expect to meet you here, I am very happy.” The super-power who refused by Shen Lang greeted him. “Where are you going?”

“Just go forward.” Shen Lang returned with a sentence.

This answer obviously does not satisfy them. When this person has not spoken again, another person has spoken.

“Kids! You rejected the invitation of our alliance that day. Have you thought that there will be today? Now we have five people in the league, and we are strong and strong! What about you? Two A-level superpowers!”

This opening seems to be the leader among them, and he is still worried about the things that refused them before Shen Lang.

Before the Shen Lang, there were also Qiao Yuxian, Nanliuchuan, and Liu Yuchang, so they did not dare to express. Now I can see that Shen Lang only has a canoe and a real person in Fuyang, and can’t help but directly turn over the old account.

Shen Lang smiled and said: “So?”

A few of them listened and bowed.

So?

The current Shen Lang, compared to the five people in their entire league, can be regarded as a single order! They are all S-class, and even if one of them is A++, it is not worth mentioning at all.

But what are you doing? Will definitely not want him to join the league anymore, forcing him to apologize?

“Mr. Shen, we need to be united now. You will tell us about the situation after you have entered the sea without jail. Where do you appear, where are you exploring, from there, whether there is any exploration of the lightning area... Say it out!”

The one who invited Shen Lang before was more organized.

This requires one to say it and immediately let the other four nod.

Now in this strange barren land even if they together kill the Shen Lang, in addition to a breath, there is no meaning. They just refused them, and they still couldn't commit to killing.

Shen Lang has a lot of resources, but before you can't go back, or can't get out of the ghost place, these are all robbed, and it doesn't make much sense.

So the most important thing is the information!

Everyone is sure to explore and harvest. If the information is provided to them, they can make a bigger piece of the puzzle. It may be of direct help to leave here.

After they nod, Shen Lang nodded.

“If you make sense, then share your experience!”

The direction of this trip is the secret of Tianji Zong; it is not convenient to tell them when they come here.

If the other party is really friendly, Shen Lang doesn't mind sharing something that can be said, but now it is obviously more people bullying people, forcing him to say that this makes him unhappy.

Chapter 792 - court death

The words of Shen Lang were said to immediately make the atmosphere smashed.

Originally, they were hostile to the side of Shenlang, but they did not think about how to deal with it. Now Shen Lang turned out to be like this, and they immediately made them unhappy.

The one who just opened it is also a bit regrettable. He thinks that he has already won an opportunity for Shen Lang to let everyone reconcile, and let Shen Lang follow them.

I didn't expect Shen Lang to be so ignorant.

So after he shook his head, he stopped talking.

Just the leader stared directly at Shen Lang: "Now, it is us, asking you to say everything you know!"

After a word and a word, he looked at the canoe next to him.

"This is your woman, right? If you don't answer honestly, you know what kind of experience he will have!"

They are all S-class superpowers, which is equivalent to the realm of the gods, although the actual age may be seventy-eight, or even nearly a hundred years old, but on the surface, it looks like fifty or sixty years old.

In such a realm, it is generally that one's own thoughts have been broken, and the male's function has not deteriorated.

Therefore, the meaning of this is very obvious. If Shen Lang does not honestly confess, they will take the boat together...

Originally, Shen Lang still had a hint of teasing. No matter what he forced him, he didn't care. But now that he said this, his face was directly gloomy.

The canoe is not his woman, but they think it is his woman, that is to say, this is the woman who wants to be so to him!

Besides, even if it's just a friend, Shen Lang will never forgive such behavior!

At this moment, the face of the canoe has become very difficult to look at. The other party is five old predecessors, which are equivalent to the realm of the gods. If you really want to do it, she and Fuyang real people can't cope with one!

Basically equal to relying on Shen Lang alone!

"I am only a threat when you are. If you apologize for your failure now, I can spare you a dog."

When Shen Lang said this, the tone was already cold.

"Do you know who you are talking to?" Another person yelled. "Mr. Walter, can you offend? I also told you that if you apologize now, we can still leave you a dog!"

The foreigner who had a relationship with Shen Lang shrugged his shoulders directly and said nothing.

In his opinion, Shen Lang is simply looking for his own death!

Originally, he has given goodwill. The result is not only not grasping it, but the problem is getting stiff. Now even if he asks for help, there is no effect.

Will he help? He can still remember that Shen Lang refused to get out of the house that night!

Shen Lang stuffed the same thing into the hands of the canoe. It was the defensive reel that was auctioned that day. It also told her how to use the method and then waved her hand.

“You two back!”

Falling canoe and Fuyang real people have to admit: this is very deep!

Never ask for the whole story, if you are unhappy, just start playing!

The two of them, also have self-knowledge, if staying beside this, not to help the waves, but to drag his hind legs. Rather than having side effects, it is better to leave early.

Shen Lang gave the defensive reel to the canoe, that is, if he could not defend it, the two of them could stop for a while.

The people on the side of Walter, originally looked at the one-sided strength gap, did not expect that Shen Lang actually dared to take the initiative to show the meaning of hands-on.

The attitude of Shen Lang is to make them entangled.

That night, the bat would be the elder Scott, and he flew out to fight at sea, and finally chased to the distance, and then only Shen Lang came back alone.

After that, they had a chance to contact Scott, but they couldn't get in touch anymore. It was very likely that they were at sea.

And the process, in fact, the time before and after counting, not long.

If this swell is really able to kill Scott, whether it is relying on his own strength, or the weapon of the weapon, it is a very dangerous person!

At that time, they would like to pull the sinking waves together, that is, they have taken a fancy to this point. If you turn your face directly, this becomes a scruple.

“Mr. Shen! Are you sure you want to be against us?”

I saw everyone's worries. The one who didn't want to talk, had to open it again. This time it was a harsh tone to Shen Lang.

"You don't forget! We have five people, you only have three, and there are two weak people! If you have a little skill, can you deal with several of us alone? If we go out alone, we can put them all. Caught!"

The more he said the more severe, it could be regarded as a resentment against Shen Lang.

"Don't think you have a helper! I know that Smith also invited you at night, but you knocked Smith's nose down and threw it into the sea. Everyone knows that you didn't join their alliance!"

"Now your other friends are not here, you have no chance of winning!"

"I advise you, or honestly apologize to Mr. Walter, and honestly tell the clues you know. We can not help you when we read them together!"

He said a series of words, let Shen Lang directly close his eyes.

"Noisy!"

When the words were spoken, Shen Lang's hand did not move, and a direct lightning flashed in front of that person!

Although the person is able to speak up, but the instinct of self-protection is still there. If you find something wrong, you want to defend, but it is too late. He was hit by lightning and directly let him squat for a while.

However, it is a superman of the S class. It is such a lightning bolt that it is not enough to make him heavy.

Shen Lang's move is to give him a warning and show his strength!

Originally, Walter and others wanted to rely on the eloquence of that person and directly convince Shen Lang to concede defeat. I did not expect that Shen Lang actually started!

They are still hesitant to do it, and now they are not considered, and they will be shot together!

“Dry him!”

“court death!”

“You go to I am going to catch the two!”

But when they started working together, they found that suddenly the arc flashed, and then there was a ray of thunder!

Between the time, Shen Lang alone blocked the four of them, plus the one that had just been struck by lightning.

“As for your weak alliances, I am enough alone!”

Shen Lang sneered, deliberately emphasizing a “weak alliance.”

At that time, he refused them, and now he said it, and it was a mockery and humiliation to them.

This made Walter and others angry, but also took out the housekeeping skills.

Suddenly there was a burst of roaring at the scene, and the five S-class superpowers went crazy, and immediately let the surrounding sands go dark!

Chapter 793 - All received

Each of them is very powerful, but at the same time, the experience of five people attacking one person together is almost nothing. After all, they are usually high figures.

So at this moment, there is a little bit of strangeness, and it is impossible to cooperate with it.

Top experts have a trick, as long as there is a gap, it is often a fatal loophole!

Originally, Shen Lang used the newly-controlled thunder and lightning to control the situation. When they did not cooperate well, they immediately flew out!

This time, Shen Lang still did not use the technique of “six-needle”, but only used the lunar needle for sneak attack.

The bombardment of the thunder and lightning is a huge momentum. For all of them, there is a certain resistance, and for the display of the moon, it is a very good cover.

When the five of them were doing their best and preparing to take down the Shenlang, it was almost at the same time that everyone was stunned.

When their attack on Shen Lang had not fully played out, they felt a pain in the throat, as if they had been pinned.

But then I felt it, not a pair of skins, but a needle directly into the throat!

The throat is undoubtedly the most important thing, but even if it is an ordinary person, this is within the scope of hands protection, and generally will not be attacked by this enemy.

But now they are all recruited, although it is only a needle, but the throat is broken, it is also a problem.

At this moment, everyone had to pause the attack and prepare to push the needle out.

At this time, the qi of the Yueyue needle broke out. Although there was no effect of the explosion, it was necessary to break the already punctured throat trachea and there was no problem!

It's in their throats, a little bit of a change, they can make them feel clearly, and can understand how serious the consequences will be.

Therefore, when the lunar needle began to explode, several people who were about to force the needle out were all quickly changing their way. Through their respective methods, they tried to suppress this qi in the throat!

The damage of a pinhole is not a big problem for them. If the throat is blown up, it will be a big problem!

Their means are also quite effective, just to suppress the strength of the moon needle!

But how can Shen Lang wait for their counterattack?

When they felt their back pressure on the lunar needle, Shen Lang's hands continued to release the thunder and lightning, and they could only be taken care of.

But even so, they insisted on pushing the needles of the throat first, because they realized that this is not an ordinary hidden needle, but should be the magic weapon that can be manipulated!

Pressing the explosion can only be a moment. If one does not control the result, it may cause them to burst their throats.

As for the lightning strike, as long as the defense, it can still withstand.

Shen Lang is now a person who has to deal with five S-class superpowers, and he does not dare to take it lightly. Both the bright and the dark continuous attacks are only effective, but they do not completely control each other.

This result made him a little dissatisfied.

These old people are not dead, but just bluntly want to be like a canoe, can you let them go?

In the next moment, Shen Lang has already reached the middle of two of them, one by one, directly holding their heads, and the thunderbolt blasted out without any obstacles!

And all the lunar needles, he also manipulated it away from the throat, and tied to the eyes of three other people!

I just felt the needle flying out of the throat. They thought it was forced out. I didn't expect to stab it again. This time it was pierced into the eyes!

From the throat to the eyes, the distance is too short, and there is no time for them to respond.

And they did not think that Shen Lang would actually attack their eyes. When they found out, they could only instinctively close their eyes, but this speed is not enough.

After Shen Lang bombarded both of them, he immediately took out the Ba Tian Tower!

Direct bombardment by lightning is not enough to kill them. If you want to kill, he must make up.

But anyway, people must be killed, or they will be killed, there will be no sinister poison, no sinister poison, and they will be directly taken into the tyrant tower, and Scott with the bat club!

After ingesting these two, Shen Lang immediately ingested the other two foreigners who had already stabbed their eyes.

In the end, there is one foreigner I have seen before. He has already been stabbed in the eye, and this time he is fully defending.

"I didn't expect you to be so poisonous! Everyone is coming together, you are actually..."

The man couldn't help but say angrily, and then found that there was no other person's voice around him. If he could not see it, he could not feel their existence.

“What happened to Mr. Walter?”

“What you just told me to say, let me talk about it first!” Shen Lang said coldly, and did not tell him what conditions.

“Ha ha ha... They have been killed by you? I said you will let me go? Even if you let me go, my eyes are smashed by you, can I still go, can I go back?”

The foreigner laughed and he realized his ending.

“I didn’t think that your strength is so strong... No! It should be said that you are so insidious and cunning. If you face each other, you can’t be the opponent of our five people! But I won’t tell you about our experience, you can’t get it. More information, you can’t live without this ghost place, will always be here to stop until death! You can’t go back!”

He said that behind, it is already a bit of a curse.

Shen Lang can be seen as it is, this person can not reveal anything, slightly hesitated, he directly took this foreigner into the Ba Tian Tower.

Seeing that the dust on his side was settledThe canoe and the Fuyang real people came over quickly.

In fact, for them, Shen Lang put the enemy into the magic weapon, the impact is far smaller than the direct killing.

And when it comes to this place, there is still the situation just now, they will not be soft, if it is not Shen Lang won, the result will be abused by them.

Shen Lang also has value in use, and the two of them can only serve as a threat to the sun.

So when I came here, they were very fortunate. They didn’t feel the cruelty and the boat was returned to him.

“Although they didn’t say it, I guess it is similar to us. They should also be involved in each other when they come in, so they are in the end. It is not important to fall here or come here.”

In the words of Shen Lang, let them nod and then comforted.

“Let’s go ahead! If you can meet them, you should probably meet more people.”

Chapter 794 - 0 o\\clock

Seven hundred and ninety-four chapters of the hundred hours

The three people in Shenlang continued to move forward. After this incident, everyone became more cautious and their emotions were lower.

Everyone is psychologically prepared. Like the huge minefield, it is not too unexpected, but first of all, they meet their own people, and in this mysterious and unknown place, everyone first targets each other.

This will undoubtedly make everyone less optimistic about meeting other people in the future, unless they encounter real acquaintances such as Qiao Yuxian and Liu Yuchang.

The speed of everyone’s progress has once again accelerated. According to the data recorded by the Serie A, Shen Lang has confirmed that there is nothing wrong with it and has gone out hundreds of miles.

But even if it goes so far, the holy armor can only be a line of trajectory, and it is impossible to simulate a map.

On the passenger liner, a lot of food and water are prepared, and you can get it free before you reach the sea.

That is mainly to let everyone bring a little backup resources, after all, do not know what kind of environment will be. Everyone has made a balance based on how much they can carry.

Fuyang real people and the canoe naturally did not bring much, Shenlang has a lot of storage space magic, honestly carrying a lot.

After all, he spent a year and a half in the dead forest, knowing the importance of hoarding food.

Although I did not see the black and white points of day and night, but for more than a dozen hours of continuous roads, he also stopped to rest, took out the food and water, let everyone add.

With their cultivation, don't say a dozen hours, that is, they can survive for ten days, but they have just started, and they have not yet reached a stage of hardship, so they are not polite in the canoe and the Fuyang real people.

“Yangyang brother, do you have any further clues?” Shen Lang looked like a casual question.

There is no doubt that Fuyang Real People must have not said all the clues left by Tianji Zong, but this cannot force him to say.

At this moment, he asked, and the real person in Fuyang was obviously ready for psychological preparation. He nodded immediately.

“According to the information from the ancestors, our past ancestors also conducted in-depth research and analysis and came to a conclusion...”

The real person in Fuyang pointed out around: “We will enter an infinite space. There are many unknown possibilities. Our direction is the result of the ancestors' deduction. Can we find the exit... or our ancestors last? I didn't know if I went out.”

“...”

Because he gave a direction, and also prepared “equipment” in advance, so that the canoe and even the waves, they have maintained a higher expectation for their clues.

Just asked, I want him to disclose further.

I did not expect it to be revealed now, but it is a pessimistic message!

“So... I was a bit hesitant when I said this clue, but I didn't have more clues to see Master Shen, so I came up.”

Fuyang is a helpless smile.

Shen Lang also smiled helplessly. At that time, his hesitation was naturally seen, but he thought that he was entangled in whether to share the secret of the celestial patriarch, who knows because it is not sure!

“Then we are... white walked all day long?” The sigh sighed and looked at Shen Lang.

Shen Lang made himself a relaxed smile. He is now the core of three people. If he is depressed, then the two of them will be depressed.

Fuyang real people have only said this until now, and it is obviously afraid of spurring everyone's enthusiasm.

“The time a few hundred years ago, the world's self-cultivators entered, and no one went back. The same is true of the predecessors of Tianji Zong. It is not easy to use your methods to send back information. It is not easy. The clue is even more difficult.”

“As for this direction, after all, can you go out and find a way out, I guess it should be a problem!”

“There will definitely be a way out, but the farther you go, the harder it is to pass on information.”

Fuyang real people grateful to Shen Langbao, he is not grateful that Shen Lang did not get angry, is to thank Shen Lang did not regard him as a liar!

Because it is not his personal, but the secrets and efforts guarded by generations of ancestors. If it is regarded as a liar, it is the credibility of the heavenly machine!

Others may not understand the celestial patriarchs and do not care about their credibility, but for the descendants of Tianji Zong, it is extremely important.

“Then we...”

“Continue to go in this direction! Since it may be endless, it is easier to go in one direction, and it has gone so far, and you can’t change the route.”

If you are in the dark, let them have a little peace of mind.

After a break, continue on the road, and then speed up a little faster.

The farther you go, the deeper the trajectory of the sacred armor, you can have a better direction to confirm. You don’t need the compass of Fuyang’s real person. If you wave your own way, you can go faster.

In fact, in the current environment, casually stopping to practice, the effect will be far better than the earth, is a very good place to retreat.

But Fuyang real people want to follow the footsteps of their ancestors, and there may be many secrets that are not revealed.

The Shen Lang and the canoe are all thinking about going back to Earth. Since it is difficult to turn back later, and there is nothing to gain, then go forward!

Shen Lang also has a secret that does not tell them, that is the holy armor. There is a sacred track, even if it has gone out for thousands of miles, tens of thousands of miles, it only takes time, you can still go back to the place where you landed.

If there is no way out after the future, go back to the original place and look for the opportunity to go back. This is his retreat!

One hundred hours!

It is no longer a distinction between day and night. Under the fog, in addition to Shenlang knowing the specific time, distance, trajectory, etc., Fuyang real people and the canoe can only calculate everything through hours.

One hundred hours down They are not used to sleeping, just about an hour off each time. So down, it has gone thousands of miles.

Shen Lang finally felt that the front was different. The fog was a lot weaker. The direct impact is that the scope of the knowledge can be explored even more!

Soon they both found out that everyone was refreshed.

This time I went on for another ten minutes and they stopped. There was a situation in front of everyone that surprised everyone!

There is still a faint mist, but there is a waterfall in front of it, the waterfall can't see the upper end, as if it came out directly from the fog, the spilled water can't see the place, as if it disappeared from the ground.

"Is this...the mirage?" Looking at this incomprehensible situation, the canoe can only be thought of as a mirage.

Of course, there is no sunlight refraction here, and everyone's distance is close. It is impossible to be a real mirage. It can only be said that the concept is similar.

"Let's see it in the past!"

Chapter 795 Another World

After approaching, the three people of Shen Lang are amazed, this can be felt, not like a virtual fantasy, very real, can also hear the sound of water, you can feel the water.

But it came out of thin air and disappeared!

"This should be the exit that the celestial founder found or estimated."

Shen Lang was a bit embarrassed. After knowing that he was not sure, he still insisted on walking thousands of miles, and finally did not waste his efforts.

“If I didn’t guess wrong, this should be a meeting point where space overlaps. This waterfall comes from another world and flows to that world, but there is such a passage to this space.”

“Perhaps there are many overlapping intersections in this boundless space, including the thousands of miles we have traveled, and we may have encountered them nearby.”

Shen Lang said that here, the canoe has already figured out one thing: “If the overlap is over, it is also a void, then we will not find it.”

Shen Lang nodded: “Because this is special, there is no space crack, crossing the door, it will have different fluctuations, it can be felt.”

After listening to the live-action of Fuyang, I have been thinking for a while. “If this is the case, then this is the way to another world. The ancestors of the year will find the entrance and enter the world?”

Shen Lang nodded and shook his head again.

“It’s possible, but not necessarily. Although we have encountered such a point in a few thousand miles, it is possible that we missed other points on the road, and there may be many such points. These overlapping intersections may not be a contact. The world! For example...”

Speaking of this, both the Fuyang real person and the falling canoe said in unison: “No return to hell!”

“Yes!”

Shen Lang looked back at the time and looked at the air again. “The intersection of this space and the space of the earth may be in the air, and the earth is in the Pacific Ocean, but the range is much larger than here, and the intersection is deeper.”

Both the canoe and the Fuyang real people took a breath.

The place where they landed is already thousands of miles away. It is impossible to have only one or two in a large range. According to the description of Shen Lang, it may be at an altitude of 10,000 meters. This height undoubtedly brings the plane world together. High to a larger three-dimensional space.

This made them look at each other and look at each other.

If you really don't know how much space overlaps the intersection, then if you go in from here, you may go further and further. Not to mention those hundreds of years ago, and other people in the same trade, may circulate in a world far apart from each other.

“I decided to go in and see!”

This time, Fuyang Reality did not wait for Shen Lang's opinion and took the initiative to say his decision.

He has been a non-return to the sea, from knowing secrets to planning, it has been decades, and this is already a obsession.

Now that no return to the sea has been explored in half, I have seen another different space, but this foggy world is still disappointing.

Hurrying thousands of miles, including lying in the minefield, finally saw such a place, and it is very likely that the founder of the Celestial Emperor found out, he must look at it.

It is very possible to find traces of their ancestors on there!

Shen Lang nodded, then looked at a falling canoe and asked her what she meant.

The canoe was hesitant.

She is a bit tangled. Since the trip, her harvest has come from Shen Lang, and there is no direct gain in the return to the sea.

But in her opinion, it is actually hoped to be safe and sound first.

After all, Shen Lang's youth is only this world. She is a real young person. She cares about life, is heavier, and has never experienced so many things.

From her eyes, Shen Lang saw the concerns in her heart and opened her comfort.

"It's okay, there is no return to **** for hundreds of years. I don't know how long it has been here. It is unlikely that we will have problems after we enter. If there is danger, we can still return, I still Be sure to return to where you are."

"Master Shen, the Lord of the Palace, let me try it first, I believe it should be no problem!"

Xiangyang real person once again took the initiative to say, and this time does not wait for Shen Lang to make a decision, he himself quickly flew into the past!

The concern of Shen Lang is falling here. I didn't expect him to do it. When he wants to stop, Fuyang has already flown into the waterfall!

"He...we are going to hurry up! Otherwise there is nothing too late."

The tangled knot of the canoe is just a little bit. Just after the swaying of the waves, she has been reassured. Now that I saw the real people in Fuyang, I was anxious.

Although they were not familiar with it before, but this time it was a hundred consecutive hours to advance together, and also had the feelings of teammates.

Shen Lang owns multiple layers of protection, then pulls the canoe in one hand and prepares the defensive reel.

He wants to stop the real people in Fuyang. Of course, he is not afraid that the benefits will be gone, but three people together. When necessary, he can protect them.

Now I can only hope that after the pilgrimage of Puyang, there is no danger, or what secrets are hidden by the celestial patriarchs.

The feeling of this waterfall, like the one that entered the sealess prison in the past few days, is a feeling of completely entering another time and space.

But only for a moment, I immediately felt that I was still in the waterfall and was falling down.

Shen Lang is to keep himself calm and absolutely calm, and try to let the holy armor record every detail. After all, this is related to the way back.

Still a waterfall, did not make him too accidental, because what he saw was a waterfall. Nothing can be seen in the sea of innocence, it is completely a sea area, it is because the overlapping meets the void.

The fog of the void, like the incomparable aura, overlaps and appears on the Pacific Ocean, and it quickly dissipates.

Now coming out of the waterfall, Shen Lang did not encounter any danger. There was nothing to do with the canoe, and the Xiangyang real person who came in first came, and now seems to be in a coma, and is falling down the waterfall.

Shen Lang is still pulling the hand of the canoe, speeding up to catch up, and catching him before the real person in Fuyang has not fallen to the bottom.

Grabbing them both, flying to the opposite bank, Shen Lang put the Fuyang real people on the ground, frowned.

It has been clearly confirmed that the situation of Fuyang is very bad, not a problem of coma, but it seems to have suffered a huge trauma.

I checked him carefully, and Shen's brows could not be stretched out, because the life of Fuyang's real life is already at stake!

Chapter 796 - Last words

Seven hundred and ninety-six chapters of the last words

After the landing of the canoe, it quickly spread a few steps, while watching the surrounding environment, while maintaining the alert, in case of any situation, she should first cope with it, and Shen Lang can save people with peace of mind.

Looking up, I saw the waterfall that just fell down. It is more than a kilometer. It is really “flying down three thousand feet”. The place where they just appeared is probably interrupted.

And besides the fact that this waterfall is very high, the surrounding conditions are not too magical. It is the waterfall that descends from the mountains, and they are already at the bottom of the valley.

But because I had been in the foggy time for a hundred hours, now there is no doubt that there is a sudden feeling of openness.

The air quality here is very good. Except for the water mist splashed by the waterfall, there is no slight fog, and the surrounding mountains are green and full of plants.

After the observation of the canoe, it is also determined that there is no danger around, and the canoe is returned to the Shenlang and Fuyang real people.

At this moment, Shen Lang has already checked the real person in Fuyang, and it is the brow that looks like a lock.

“How is his situation?”

“You can’t live.”

“Ah?” The canoe was shocked. It was obviously not attacked. It should be said that the coma should just be like entering the sea of innocence. How could it not survive?

“I predict.....”

Shen Lang thought and analyzed: “It should be rushing into this space, there will be a huge force, he walked in front, just like I attracted lightning before, it fell on him, although he has Defend, but I can’t help it.”

“But... we came in from nowhere to hell, and nothing happened.” The boat was a bit puzzled.

“Yes! The scope is even bigger. If the guess is correct, then the impact will be even greater when you enter. But don’t forget, we were not a few at the time.”

The reminder of Shen Lang, let the canoe react.

At that time, dozens of people came together, and most of them were super-powerful people above the realm of the gods. The tolerance of everyone is far from being comparable to that of Fuyang.

And at the time, the three of them were not the first wave to enter. In theory, there should be others who have suffered the most impact first. Even so, she and Fuyang real people, still fainted in the past, was rescued by Shen Lang.

This time, the scope is smaller and the impact is smaller. However, Xiangyang is alone in front of him, and directly bears all the impact, directly let him hang up.

“Is there no way? After all, it is also coming together.” The canoe was a bit unbearable.

Shen Lang shook his head: “If Nanliuchuan is here, and carries the restored Dan, there is still a line of life. Even if I give him a spring, or help him heal, his current state can’t stand it.”

The canoe can only nod silently.

Even if there is a real life, it should be a very troublesome situation, and it must be restored for a while. It’s not easy to come to a strange place now, and Fuyang’s real people have not yet reached a relationship that will allow them to take care of their lives.

Shen Lang is still slowly injecting vitality, so that Fuyang real people slowly wake up.

“This is...” Fuyang real people immediately felt the condition of the body, his face changed greatly.

Shen Lang simply told the situation to him, which made his face more ugly.

“I wanted to make a decisive one. I didn’t expect it to be such an effect...”

He smiled bitterly. “This is my life. I am destined to go here. Otherwise, be careful all the way. There are Master Shen asylum all the way. You should not be impulsive.”

“In my hand, there is a mysterious iron ring, which was passed down by the celestial predecessors. In my generation, the celestial ceremonies are small, and this is going to continue, but there is no suitable descendant. And...”

“It seems to have a relationship with Shen Lang!”

“After my death, please hold it, I can’t tell why. I even think that my mission is to accompany you here.”

Listening to the words of Fuyang’s real people confessing to the last words, it is not a taste of the raft. It is a partner who has been with so many days in the morning and evening. Suddenly, he will leave, and he will not be able to return to his homeland if he dies.

Tomorrow, or one day, will she also have such a home?

“I promise you. If that’s the case, thank you!” Shen Lang said seriously.

Fuyang real people showed a gratifying smile: “I hope you can go back, I hope you can reach your goal...”

This need not be said too clearly. He is the only person who knows the secrets of Shen Lang. Although he can’t preach it out, he is also proud of him, especially when the progress of Shen Lang is fast, which confirms his There is nothing wrong with the calculation.

After finishing this sentence, he directly suffocated!

“People in Fuyang! He, he...”

The slamming canoe was shocked.

Shen Lang shook his head: “It’s useless. He just made it clear, he didn’t talk pains, he didn’t get better, but he returned to the light. He insisted on confessing, and he couldn’t hold it.”

“...”

Shen Lang silently thought about the words of Fuyang real people. If this is true, then it should not be related to him, but what relationship he may have with Tianji Zong.

Did you have an intersection in the last world?

Still destined to have an intersection?

No matter what, now he still fulfilled the promise of Fuyang’s real person, took his mysterious iron ring and put it on his finger.

Other things in Fuyang’s real life, Shen Lang did not search again, directly frozen his body, ready to be included in a storage space.

Although the environment here is very good, but it is buried, it is estimated that he can not rest in peace, it is best to have the opportunity to bring back to the earth, it can be regarded as the return to the homeland.

As for when it can be done, Shen Lang is not sure.

“I think... let him be buried in the earth Since he has been searching for no return to the sea, he has been searching for the footprints of his ancestors, and he just couldn't wait, the land is him.孜孜 Pursuit of dreams in heaven.”

The canoe whispered a word and gave Shen Lang another idea.

Shen Lang thought about it for a moment, and it makes sense. If it is not because of the heart of Fuyang, it will not be so anxious, and there will be no accident.

And before he died, he emphasized that this is his life. He confessed his life.

“Also.” Shen Lang immediately flew to the height of the side of the mountain wall, dug a hole with the Juyue sword, put the body of Fuyang real people, and then re-sealed.

It is not realistic to set up tombs and tombstones here. It may be excavated and destroyed. It is better to bury them on the mountain walls.

“Yangyang brother, you will rest in peace! How is this world, can you meet the remains of your founders, let us finish.”

Shen Lang simply bid farewell to him, and then flew directly to the top of the hundreds of feet with a canoe.

Chapter 797 - 2 dice

Seven hundred and ninety-seven chapter two scorpions

Shen Lang and the canoe came to the top of the mountain and looked at the waterfall that fell from the opposite side of the mountain. It was the place where they crossed the foggy space.

Now that people are at a height, they are far-sighted and immediately see a wider world.

Contrary to the extremely short distance between the foggy space, there is no slight barrier, and the naked eye can see very far. In the eyes of the mountains and lush forests, they are like a dead forest.

“Is this going to be...the forest of death?”

When I was in the boat, I wanted to get a positive answer from Shen Lang.

Because the forest of death is even broader, they also know that there is an export. It only takes a lot of time, and after all, it can be returned.

But Shen Lang’s answer still disappointed her!

“It looks a bit like it, but it can’t be seen. Because we are in a place where we can only see a small piece. Don’t say another world, even if it appears in the original forest of the earth, you feel It will be similar to the dead forest.”

“So if I distinguish, I can only compare it by side. From the current feeling, I think the aura here is not only far from the earth, but the death forest is far from good.”

After Shen Lang finished speaking, let the canoe carefully feel a bit, and it is really true.

The concentration of Aura here is basically the same as that in the previous foggy space. She is familiar with the Earth, and the death forest is also waiting for a month. It can be compared sideways.

“That is... are we coming to the legendary fairyland?” After the disappointment, the canoe changed for an angle.

Shen Lang smiled and said: “From the perspective of cultivation alone, it can really be regarded as a fairyland. But there is no specific definition of the fairy world. Perhaps this is not a world of killing.”

“The fairyland...and the killing are not contradictory.” The canoe must also acknowledge this.

“You choose a direction, we will hurry!”

Shen Lang indicates that the boat is falling according to her feelings. After changing to this place, the direction and law in the foggy space can no longer be relied upon, and it has to be repeated.

The canoe took a breath, closed his eyes, kept himself calm, and then followed the feeling, raising his finger in one direction...

This time, the speed of the sinking and falling canoe slowed down a lot. Just like the previous trials in the dead forest, I explored the past a little.

After all, they don't have a clear goal. They will accelerate in the foggy space because the environment is too strange. At least it seems to be a normal environment.

Along the way, they also saw a lot of strange flowers and plants that they had never seen or heard, but they can judge that they have good effects, and they are also collecting some.

For the sake of long-term planning, they did not have day and night, but normal rest and cultivation, eating and sleeping. This includes bathing and changing clothes when there is water.

It's half a month to go, and at least it's a thousand miles away. It's not a single person!

Finally on this day, they watched a city in the distance, which didn't look too big, just like a small town in the mountains.

For the long-distance boat that has not seen people for so long, let alone a small town, even a small village, or just a simple one or two families, is very excited.

Shen Lang is secretly taking a breath, to start preparing to fight hard!

Those who survive in such an environment must be highly advanced; for these "indigenous", the two of them are foreign invaders and may not be very friendly.

Soon, the two people who came up quickly came directly to the city.

Recently, I have seen that this city is actually very grand. Many buildings are very tall, but the whole is very rough. The city is just a gathering name. In fact, there is no actual wall or the like.

Entering the city along the boulevard, the raft is full of expectations, and I want to see who I will meet here.

The worry of Shen Lang appeared!

There are no streets around the surface, but in reality many people are observing them in secret.

So less than a hundred meters away, there was a man in front of him, watching him look, whether it is clothes or hair dressing, it is like the costume drama.

“Excuse me...”

Shen Lang just opened his mouth, and the man waved his hand: “There are two more scorpions! Grab it!”

Scorpion?

When Shen Lang was a bit inexplicable, the people who had been hiding in the building quickly rushed out.

Good guy! When Shen Lang saw it, he had no temper, and even one of them was above the level of the gods.

This is the same as his guess. From an early age, in such a fine environment, the speed of cultivation is very fast from the beginning, so in the contemporary earth, it is already the genius of the masters, the S-class superpower, no matter here. What is the name, it has been everywhere.

There are more than 20 people who rushed out, and they directly surrounded Shen Lang and the canoe.

Even the sinking waves are helpless, not to mention the rafting, which is directly at a high level of tension and alertness.

At this moment, not only the man in front of the costume, but the other people who just came out are also taunting and watching them.

This kind of look is like the eyes of human beings watching animal animals!

The strength of Shen Lang, they can obviously see it, but there will be no respect at all, just like a cow is more powerful than a human, but people will not treat a cow equally.

These eyes make Shen Lang very unhappy!

Needless to say, this is naturally a world of comprehension that is higher than the earth, and strength speaks for itself. Their mentality is the same as that of human beings on earth. But as a party that is discriminated against, it is not a taste.

“I want this mother, who are you going to go!”

Around the crowd, one of them first smiled and pointed to the canoe, and regarded the canoe as his slave.

“Hey! Don’t grab it! The public is yours, the mother’s me too!”

In addition, some people immediately rushed to grab it, and then two people rushed directly to the side of the canoe, ready to grab her.

These seem to be the same human race, naturally distinguish between male and female, and deliberately use the male and female to call, is a contempt.

Everyone else smiled and watched the two of them compete for this “mother’s”. For Shen Lang, the “public”, he was not worried that he would escape.

The speed of the two of them is very fast, but Shen Lang is still one step faster than them. Juyue Sword has a strong hurricane and intercepted them in advance!

This time, Shen Lang did not have the slightest mercy, and the goal of the sword is to take them both!

Chapter 798 - Don't let him run

The higher level of the world of comprehension, as a low-end world, of course, is the hope to see and integrate, and the upstairs is to "go to heaven" into the "fairy world."

But will people who are in the higher world be willing to accept and receive warm reception?

Not to mention the world of disparity in civilization, is it the same on a planet, people in poor and backward countries, smuggling into the most developed countries, is it not the same?

Even in the same country, working in a poor mountainous area to a metropolis is a similar state.

The essence is the same, just the difference between the degree of acceptance and the degree of discrimination.

Therefore, under the pressure of the moment, Shen Lang must be shot out, fully demonstrate his strength, only strength, in order to win respect!

To take a step back, even if he has the strength at this stage, it is not enough to win the respect of the other side, then it is necessary to fight a dead battle, and killing two first can also play a deterrent role.

However, the people in this world are still very strong. In the face of Shen Lang blocking and killing, the two of them not only did not have the trick, but also counterattacked at the same time, and reached a tacit cooperation!

The two people who had to **** the canoe were turned into a sniper against Shen Lang. The giant Yue sword with a strong hurricane was lightly avoided by them. One of them directly reached for the sword!

Juyue Sword is the third sword in the world of contemporary Chinese comprehension, but in the eyes of these people, there is no special, directly empty-handed to win the white blade!

One of them directly attacked Shen Lang, and the other person's hand was caught by Ju Yue Jian, not only did not care about Jian Mang's hurricane, and even did not avoid Jian Feng!

Shen Lang vaguely saw that there was a trace of gold in the hand, which should be the basis for dealing with it.

He immediately shook his wrist and quickly turned a sword flower. The sword guarded the other's fingers and turned into a wrist.

At the same time, his other hand was attacking another person with a palm!

The speed of the three of them is very fast, but the distance is only a little bit, there is no time to change more, and they have already met.

The one who tried to win the white blade with an empty hand, after discovering the attempt of Shen Lang, could only take a quick grip and take the initiative to let the palm of the hand go to the blade.

The palm of another person is directly connected with Shen Lang!

Between the time, the three people quickly separated.

When the sword and the palm were handed over, a slight "beep" sound was heard, and the palm of the man was really like steel!

The Juyue sword is heavy, and the Jianfeng is not thin and sharp. However, under the Shenlang exhibition, the palm of the man is still split. In order to avoid the disconnection of the wrist with the whole hand, the person has to quickly retreat.

The person who was facing the front of Shen Lang, also flew out a few feet, did not think that the power of Shen Lang was so strong.

Shen Lang also stepped back two steps, but not because of the impact, but because of caution.

The canoe is still behind him, and there are so many gods around him. If they take a shot at this time, he is a little farther away and wants to protect it too late.

Originally more than 20 scenes, are waiting to see the excitement, there are two people to shoot together, even if it is not hand-to-hand, at least there will be no problem.

I didn't expect Shen Lang to be a person, but they both forced them to retreat directly. It really surprised everyone.

"Yes! This public scorpion has a bit of brute force, two are not enough, then four? Four can't, just eight!" The man in front of the costume, a simple comment, and then issued an order.

This is not to say that it is a raft, that is, Shen Lang is also sinking in my heart.

For the strong person who turned the gods, he has no problem with the two, two no problem, three can barely cope, but four? Four after eight? After eight, it's sixteen?

A few of the onlookers are cheerful and applauded. The two who have just been forced out are not discouraged, but more excited.

Their state is like the appearance of a human bullfighter who was almost injured by a bull, and he was not regarded as an equal enemy!

Shen Lang's footsteps have already retreated to the side of the canoe, and the defensive reel is once again given to her hand, and then ready to fight with four people.

Lost in the canoe is not polite, this time she must protect herself, not to drag the waves, is the greatest help to him, and she can't do anything else.

And her chain has also been taken out, even if it does not have much effect on these strong attacks, but also one more self-protection.

Four, just two more, and the two just now.

I was just repulsed by Shen Lang and injured a little, so that the two people were more vigilant and attached a few points.

“Where are you from here? Who is the person in charge here? I want to talk to you with the highest authority here!”

Shen Lang asked Juyue Jian to go up to the column, and asked in a deep voice, ignoring the surrounding couple and looking directly at the costume man.

“The scorpion is also worthy?” The man smiled contemptuously and then said to other people: “What are you waiting for? Four are not sure? That is eight!”

“Well!” There was some excitement to join, and the four became eight.

“Hook your neck with your chain! Jump on me, I want to get bigger!”

Hearing the sound of Shen Lang, the front said that the chain was hooked on his neck, and the boat was inexplicable. When he heard the back, he immediately understood what was going on. In the dead forest, she saw it with her own eyes.

The body that has been rumored in Shenlang has expanded rapidly!

The canoe was also decisively jumped to his back and quickly buckled to avoid falling. Her chain, which can be extended for a long time, immediately became like a necklace hanging on the neck of Shen Lang.

“Wow! What’s the situation?”

“This is not a nephew!”

“It’s a bit interesting, but it’s much better to work.”

“It’s got it! It’s a hundred heads!”

When people around them see the waves and transform themselves, they are also quickly retreating, as if humans are watching the variation of bullfights. But in addition to retreating from a safe distance, they did not have any fear, but they were full of enthusiasm.

Obviously This is a rare event for them.

However, the man in front of the costume is a bit more dignified than before.

“Don’t let him run!”

Hearing his reminder, other talents reacted.

“He wants to run away!”

“Enclosed!”

“Faster!”

When the costume man spoke, Shen Lang had already completed the transformation, and the whole person went beyond the surrounding buildings and went directly to them.

When they yelled, Shen Lang had already shot!

Don’t look at his body is huge now, but the speed is still very fast, a simple and simple one sweeping the legs, directly hit a group of gods around a chicken flying dog!

Chapter 799 - Runaway giant

Of course, this chicken flies, mainly because they are not prepared enough, just fly them backwards and can’t hurt them.

But Shen Lang is not just a shot!

He still has a giant sword in his hand, chasing those people who are quickly slashing!

Originally, the Juyue Sword is very heavy, and the requirements for the power of the user are relatively large. Now the body after Shen Lang's transformation is as easy as holding a small fork, swinging faster and moving more.

With so many enemies, he does not need to chase one to slash, and he can slash and slash, and make those flying sacred gods, have no chance to play their own strength, and can only be tired of defense.

The other hand of Shen Lang, even if you wave it out, you can shoot a few, and even directly grab the person!

His legs did not stop, and he kept sweeping out of the hall. This was accompanied by a turn and did not give the enemy a chance to attack from behind.

Under such an attack, these people of the sacred world can still stand by speed and ingenuity, and the surrounding buildings can suffer, and many of them are being swept down.

“A bunch of waste! Take him down!”

The costume man, I really couldn't see it. I jumped straight and jumped up to the height of Shen's head. In his hand, a thin sword appeared and it was directly cut out. There was a fierce sword. The neck of Shen Lang was cut!

Before Shen Lang could not see through his strength, but now, with one shot, there is basically a rough speculation. This costume man has at least the strength of the late stage of the gods, that is, a higher level than him.

Others around it are equivalent to the initial and medium-level levels of the realm.

For this approaching to the sword in front of him, Shen Lang can't dodish to the left and right, because the scope of Jianqi is very large, and can't avoid it.

It's useless to leap above, because the height of the body can't fly away before the sword arrives. At most, it is to the neck, and it is squatting at the waist, legs and feet.

So he has only one option – bow, or lean back.

Whether it is bowing or leaning back, the key is directly exposed to the opponent!

This is the gap!

This costume man shot his hand, showing not only his strength, but also his experience. Even if he didn't hit the Shenlang, he created an excellent advantage, and he was not idle, and he was approaching quickly. At the same time, he was swaying and further weaving a sword net that makes Shenlang nowhere to hide!

Between the electric and the flint, there is no other choice of sinking waves, and it can only be between the bow and the back, and choose a slightly better back.

However, even if it is forced to this extent, Shen Lang's rich experience is also a timely response, and strive to reverse the disadvantage.

When he leaned back, the sword gas caught up, almost across the face. However, he relied on the back, regardless of the possibility of the body directly planted backwards, quickly kicked out to the top!

When the body leans back to this extent, the one foot can no longer support the huge body, and the canoe on the back of his neck falls directly. Fortunately, it is holding the chain, or it will land directly.

But if Shen Lang's body falls backwards, she will also be flattened to the ground.

At the crucial moment, one of Shen Lang's hands has already supported the ground one step ahead!

At this time, the costume man also came close, although he had already laid a net of swords, and some of them fell on the body of Shen Lang, but he himself was also a huge foot from the bottom up, giving direct Kicked to the sky!

Shen Lang just had to dodge, because the target is the neck, but the throat is much more vulnerable. Other places, with his current multi-layered defense, can be hard.

After kicking the other side, his hand was supported, and the man immediately turned over and jumped up, chasing the man, and the giant Yue sword in his hand slammed up!

The bodies of the two of them have been in the air at a height of several tens of feet. Even if the person has not been kicked and stunned, there is no better dodge, and the sword is not hurting the waves, but also let him Surprised.

The volume of Shen Lang is so big, the speed is so fast, no matter how he evades in the air, he just catches up with his hands. This made him think too late, only to use his sword to block out.

“sulfuric acid–!”

A crackling sound, Mars shot, the thin sword under the bombardment of Juyuejian, although not broken, but also encountered a gap!

This makes the person feel very painful. The swords are always warmed up all the year round, and the swords are united. Once there is a gap, it directly affects its combat effectiveness. And this is also ugly and lost face!

But when he didn't even think about it, he had a chain hanging on the neck of Shen Lang, and it immediately stabbed him in front of him!

The canoe that “standing on the shoulders of the giants” helped an assist.

With her strength, it is impossible to attack this costume man in peacetime. Even now, there is no attack.

But under the distraction of the man, he directly attacked him in front of him, so that he had to stop and block, and how much was also a little time for Shen Lang.

The man quickly reached out and grabbed the past, and he was ready to grab the chain and pull the canoe directly. This also allowed Shen Lang to have a rat-like effect.

It is a pity that for an old hunter like Shen Lang, he was only slightly distracted and immediately became a disaster!

When his hand was about to catch the chain of the canoe, the other hand of Shen Lang had already grasped his feet, and then violently slammed him and directly brought him a big flip in the air!

Then Shen Lang quickly fell to the ground, hands like steel tightly crushed the other's bones, and quickly moved, let the strong experienced the taste of a big pendulum, roller coaster.

And he landed very fast, and directly pressed that person's body into the building on the side of the street, while running fast, almost instantly destroyed a street!

Just after the more than 20 transformational gods were attracted by Shen Lang, there was also a breathing space. They all came together together, but Shen Lang's hands were not only holding a hostage Also smashed the surrounding buildings and let the people inside escape quickly.

As a result, they can only chase after them, but they cannot directly use large-scale spell attacks.

However, some people put flying swords, taking the body of Shen Lang, and the canoe on the back of Shen Lang!

The size of Shen Lang is huge, and the target is obvious at this time.

It's just that he's very fast, and he won't let the attack behind him catch up!

“Bold mad!”

This movement has alerted more people. In addition to the killings coming out of the destroyed buildings, there are also rushing out to block the waves in the distance.

For a time, Shen Lang was chased by dozens of masters!

But he didn't care, he used the "Phantom Meteor Step" to fly in the city at a very fast speed, and avoided the street. His footsteps fell directly on the building, and he was a high-end world. He said it turned upside down!

Chapter 800 - Forbidden land? trap?

In the eyes of the comprehensions of these high-end worlds, Shen Lang and the canoe are low animals and animals. They can be slaves to them. They just wanted to tease them first, and they are not in a hurry to win them directly.

It is like discovering a wild boar, a wild cow, and letting them enjoy the fun of conquest.

But now, this situation has become a little lost their control, this is not a wild boar, a bull, but turned into a dinosaur into the city!

This speed and destructive power, even should be said that Godzilla-like monsters have entered the city!

As the scope of the damage of the Shen Lang is greater, the more people follow him and follow him, and the man in his hand is still in his hand!

The realm of the man in the costume is stronger than the sinking wave. Of course, it is only temporary to catch him. So whether it's a quick flip or a building that lets his body hit the ground, it's just a sneak peek at his surface!

What really made him have not escaped until now, when Shen Lang was hitting him in the building, he not only tightened his hand, but also directly had a large number of electric shocks!

In his realm, if it is attacked by lightning during a frontal attack, it may not be effective, and it will inevitably be evaded and defended. But now it is different. The high-speed

swaying and a lot of stunned collisions, although not letting him faint, but let his mind be on the escape, did not expect to be shocked suddenly.

And the effect of the electric shock is not the same, there is still a distance from the external attack, and now it is directly grasping his body, a large area of contact!

So when it came down, Shen Lang really stunned him by electric shock, and then continued to hit, even if the body is strong and not dead, it is also a terrible injury.

“Don’t let him go to the cemetery!”

“Stop him!”

During the fast running, Shen Lang heard the screams from afar, and then someone rushed over to stop him from running in one direction.

For the environment here, Shen Lang is naturally ignorant. He just wants to turn it upside down. It is also a completely irregular run, and because there are no rules, people who catch and contain are even more unable to master him. Whereabouts.

But now, watching some of the people who joined, obviously want to stop him from going in one direction.

Shen Lang is not interested in the cemetery, but since the other party is nervous, afraid that he will go there, it naturally shows that there is something important there.

Perhaps it is the cemetery of the big man, and there is not enough manpower protection, fearing that he will be ruined and can not afford the consequences!

Since it is necessary to get a turn of the sky, the ordinary building has been ruined a lot, of course, it is a serious ruin!

Under such circumstances, Shen Lang rushed straight in their direction, and before they had formed a close, they broke through the line of defense.

At his height, he also directly saw the location of the cemetery.

It was a building surrounded by high walls. There was a piece above it. I couldn't see what was inside. It seemed to have been protected by the Sphinx.

This also proves that it is indeed a relatively important place for the other party. At the speed of Shen Lang, it quickly rushed there.

When I arrived, I couldn't help myself.

It seems that the squad that I ran ahead to block, is the guard here!

After being broken by him, there is no guard here.

Those guards must have never encountered such a situation. Under the urgency, they thought about blocking in front and there was no time for them to close the cemetery first.

At this moment, the portal opened wide, and in the case of a few hundred meters in the back, Shen Lang directly rushed in!

bad!

Is this a trap?

At the moment of rushing in, Shen Lang suddenly wakes up. Although the incident is sudden, it is impossible to prepare such a trap in advance to bury him. This place is really protected by the law.

But if there are no people who come out to block and yell in advance, he may not come here; if those people close early, he will need some time to break through.

Now let him drive straight in, seems to wait for him to enter!

Unfortunately, it was too late. His speed was too fast. When doubts occurred, people had already broken the gate and the high wall and rushed straight into it.

As soon as I entered it, Shen Lang immediately understood it. This is not a cemetery, but a pastoral garden!

Just as those who used to call them “scorpions”, this is where they hold other “farms.”

This is not the same as what you see outside. It is a huge area, and the top is gray, obviously not directly seeing the sky.

There are no buildings in it, and those “scorpions” are in this restricted pasture.

The appearance of Shen Lang immediately made many people watch and be watched, and they still haven't figured out what the situation is.

Shen Lang did not see much, and immediately turned back.

Since it is a pastoral park, it means that his just worries are right. He has already counted it and entered a trap. The remedy, of course, is to take the hunter out of the trap before leaving the hunter!

However, what he is looking back now is not the high wall and the gate that were damaged, but the same as the sky, a gray.

Shen Lang quickly reached out and tried to test it. Unexpectedly, when it came to the gray place, it was blocked.

As a method of formation, he naturally knows what this is, and the entire pasture has been locked by a powerful array!

This array of methods is all-round, and the top, the surrounding, and even the underground are locked.

As for the fences seen outside, it is only for the locals to see that it is the boundary of the blockade, not the existence of the function.

“Although it is counted, it is good for us. They should not dare to come in here, we can think more about countermeasures.”

When the canoe was seen, the sinking wave was stunned and immediately comforted in his ear.

She is still on the top of Shen Lang’s shoulders really in his “ears.”

“Small fall?” Suddenly a voice of doubt came behind him.

The sinking waves facing the entrance turned around immediately, and as soon as he turned around, the gaze of the canoe was followed.

Looking at the sound along the way, they saw the familiar face in the “scorpion”, just a little doubtful voice, it was issued by Liu Yuchang.

It should be that when they came in, Liu Yichang saw the face of the canoe, then looked at the back, but saw that she was on a giant and could not confirm.

In addition to Liu Yuchang, other acquaintances have also seen it, Qiao Yuxian, Nanliuchuan, Zhang Zhulang... including the foreigners who came together before.

In other words, a lot of these “scorpions” are their boat people!

Shen Lang and the canoe were very speechless. When they walked out of the foggy space, they once suspected that they would not see them again. They did not expect to meet again, but it was such a prison environment.
