

First Strong 811

Chapter 811 - Massive information

But fortunately, the danger of worrying about Shen Lang did not appear.

The canoe that was beside him just played the role of protecting the law. This time, he was more serious and serious, and the time was spent longer. Naturally, he was even more alert.

The archbishop of Paul in the distance is another worry.

A person with a very strong mentality can be lifted by a spiritual ban. This is a theoretical speculation. In fact, it is really possible to do it. He does not dare to guarantee that the people of this world are stronger than the contemporary world of comprehension. many.

Therefore, Shen Lang's current experiment is basically working for everyone including him. He will not bother or let anyone disturb.

If there are other people who want to attack the waves, Paul will not be waiting in front of the canoe, Paul will be the first to take the shot.

Time passed by, and Shen Lang felt very long. The two observers also felt very long because they were guarded by God. But in fact, the absolute time was not too long.

Shen Lang has already had experience in this aspect. Now, in the state of suppressing the other's brain, the absorption of one side makes him efficient.

However, after grasping the progress, he did not do anything to make it happen.

Since this person is still a hostage, it can't be stupid. After absorbing most of his spiritual power, there is still room for it.

When Shen Lang opened his eyes and released it, the canoe was relieved, and Paul in the distance was relieved.

Shen Lang just handed his hand to the top of his head. The needle was pierced into the Baihui hole at the fingertip. When it was released, the needle was directly pulled out.

However, even if this did not wake up at all, and it was already overwhelming, but in the vicinity of the boat, it is still vaguely felt that he is much weaker.

Then Shen Lang took his bracelet and put it on his hand. Then he reconnected the bracelet that had no object, and turned it into his magic weapon.

After he finished, he didn't have time to look carefully at the specific resources in it, but to digest the memory of this person!

Shen Lang nodded to Paul in the distance, indicating that he had just gained something, and let the canoe continue to help him protect the law.

Then he closed his eyes, let go of his brain thoughts, and absorbed the full fusion of the information that had just been shared.

The memory of the other person's whole person enters his head. If it is ordinary people, it will not be able to withstand it, just as it was when the world just awakened a few years ago.

Now Shen Lang is experienced to face this aspect. At this moment, the process of fusion absorption is a process of screening. Some daily meaningless memories are not directly recorded. Only valuable ones can re-enter their memories. .

The integration of some has also given him a full understanding of the world.

Similar to what he had guessed before, the foggy space that entered from no return to Hell, known here as the "chaotic world," is an area that connects different worlds.

This world should be regarded as a high-level comprehension world, and there are many researches on various aspects, including the chaotic world.

They have their positioning methods and monitoring of the chaotic world. So once other people in the world are lost in the chaotic world, they will go to the past and catch people.

For prey, if it is a higher level, or the level is almost the world, there will be more research value, of course, this is not so easy to capture.

And to come from the earth world, it is much lower than here, they directly grasp the support, used to create spiritual power.

This pastoral garden, of course, is not specially built for them. It is already there, and there are many people who have lived there. Including those other worlds that are still alive, that is, they are raised here.

This city, and a number of cities within a certain territory, all belong to a country called Han.

It is said that it is a country, but in fact it is very different from the country. The territory is not small, but the population is not too large, all of which are self-cultivating population. Outside of Han, there is another one called Tang Guo, and there are many other kinds of organizations.

Shen Lang thinks that this may have some connection with the earth, but from the memory of this person, there is no clue to find, and it can only be ignored first.

One thing that makes Shen Lang surprise is that this man named Gu Jingfeng is responsible for catching the “scorpion”!

Those who were trapped in the waves before entering the city were all under the command of Jing Rufeng. They shouldered the problems of security in the city, including arresting the blind. So how to imprison these scorpions, how to control and operate, they are responsible.

From his memory, Shen Lang clearly knew the whole process of the other people being arrested, including being banned by them!

This result has helped him a lot, so that he does not need to spend more time to study how to lift the ban, the method has been roughly known, and all that is needed is enough mental strength to do it!

Although this city is a true population, it is not all masters.

I have misunderstood the whole process of being a master above the gods. It is because they met Jingrufeng. They were originally missions in this respect, and they were the same as the armed forces.

In this city, the strongest and most powerful is the Yuxianmen.

From the word “Yu Xian”, we can see how arrogant the ancestor of this martial art is, and it is not only the master of this city, but also the heavyweight sect in the whole of China.

Jingrufeng can play a very important role, just because he is the leader of the young generation of Yuxianmen, and the other ones are only foreign disciples of Yuxianmen.

To put it simply, there is not the lowest strength in the city, but there are also many weak ones, but there are also many super masters who are far better than Jing Rufeng!

This discovery also makes Shen Lang very helpless, just with Jingrufeng their hands, he mainly relied on the asymmetrical information attack!

If you don't suddenly change your body and let the other side catch your defense, if you fight against it, you can't beat the Jingrufeng with more than 20 people.

Now, let alone the masters of Jingrufeng's masters, and the old monsters of the ancestors!

However, these don't have to think about it for the time being. Let's solve the problem of everyone first.

In addition to the ban, the memory of Jing Confucian, of course, there are ways to open this array of methods, which also saves the time and energy of Shen Lang to study the formation.

This information, coupled with a lot of mental power, makes Shen Lang feel a little embarrassed, and has gotten too many benefits. So he took a treat and repaired some of the surface wounds of Jingrufeng.

Everything, in the eyes of others, is inexplicable. Only Shen Lang knows a lot of information!

Chapter 812 - Holy See

Jingrufeng was not hurt when it was originally injured. It was also confined by Shen Lang, inhibiting the brain, and then extracting a lot of mental power. In the end, even if he was treated for a while, he did not wake up so quickly.

Shen Lang also seized the time, not only improved his mental strength, but also knew the method, so he decided to first lift the prohibition to Archbishop Paul.

He was called over, and I heard that it started now, even if Paul's strength was completely stunned.

The current Shen Lang is very strong, but he absolutely believes that he will not be stronger than him. Especially in terms of mental strength, he is still very confident, because their Holy See is different from the general self-cultivation.

Countless believers, when they worship them, will contribute their spiritual power. To a certain extent, they can help them absorb quickly.

And he just contributed a spiritual bubble to Shen Lang. Even if the absorption of Shen Lang is very fast, all of it is absorbed, but this is too fast, right?

Even if Shen Lang has already tested this hostage, he does not dare to take the risk, if there is anything...

Seeing his concerns, Shen Lang could not help but laugh.

“Bishop Paul, this is your agreement and persuasion of my plan, not your own fear?”

After hearing this sentence, Paul smiled slightly: “I am not afraid, but your speed... To be honest, how confident are you? Even if I am the first to be a mouse, I hope I can have a bottom.”

“Should... no problem. If you can contribute more to me, I should have absolute certainty!”

The secret can't be told to him, so Shen Lang didn't say anything to death. The latter sentence is not a slap in the face, but a weight to give him a little trust.

Now Paul, like the family members of the patients before the operation, asks for a few grasps, and certainly feels that the doctors are talking. At this time, if the doctor is willing and willing to receive the red envelope, it will make the family more secure, indicating that the doctor is sure, and that the red envelope will be more dedicated.

Shen Lang is not asking for a red envelope, but in this way, give him a little more confidence.

After listening to Paul, he hesitated and gave one thing.

“This is...” Shen Lang took it a bit strange.

This is actually a painting!

Does Paul want to send him a picture? What does he want this thing to do, even if it is worth the price, it is equal to a piece of waste paper here, without any meaning.

Paul said: “You feel it carefully, and it actually contains a lot of spiritual power.”

Then when Shen Lang further observed, he would explain it briefly.

This is the painting of their Holy Land Cathedral. In addition to some murals, there are also some hanging religious paintings.

Believers who go to the Holy Land to worship are undoubtedly very religious, and under the solemn and solemn link, they are even more pure thoughts. Under such a state, even ordinary people can release the power of spirit far better than usual.

The construction of the church, the murals inside, etc., naturally absorb a lot of spiritual power, and also benefit a generation of clergy, which is needless to say.

However, they later discovered that the paintings hanging on the decoration, under the age of many years, began to contain spiritual power, so they began to put more. In the Holy Land, the core church in a country with many church members.

These paintings will be taken away after many years of hanging by the believers. Some are to change places, absorb different and more spiritual power, and some directly retracted to the Holy See.

The priests of the Guangdi Divines who have never repaired the parishes in the past have thought that such management is due to the protection of artistic works. After all, after a long time, the glory will be lost, the rapeseed will be oxidized, and the collection and restoration will be unified after recycling. storage.

Paul is now directly with Shen Lang and the plates, which contain spiritual paintings. After they are recovered, they are used for the cultivation of the Pope and the Archbishops of the Central Bishops.

Through such a medium, the spiritual power of absorbing the believers is actually not much different from the support of the people here.

However, one is the way to force a ban, and the other is a way for the believers to take the initiative to dedicate.

As the chief of the Central Bishops' Conference, Archbishop Paul is basically the status of the deputy pope. The power is above the 10,000 people in the family. Naturally, he is also the person who understands and masters this secret.

It is not known how many such paintings he carries, but now that it is related to his safety, I believe that it must be top-notch.

After Shen Lang sensed the mental power inside, there was no low-key, directly in front of his face, and quickly absorbed all the spiritual power inside.

He is not a member of the Holy See. He does not understand the teachings of the gods of light and the believers in all aspects, but at the level of spiritual power, they are essentially in common.

All devout believers, whether it is the religion of the East and the West, the folk beliefs of small areas, and even the fanatics of celebrity stars, are essentially the same in spirit and spirit.

For example, the launch of a certain head of World War II in the last century will allow the soldiers and civilians of a country to fall into enthusiasm. Stars in all fields of peacetime can also make some fans crazy.

Worship to the extreme, the spiritual power generated for the object of worship, is a very powerful energy, can understand the absorption of these energy, have cast an extraordinary life.

Even in the world, like a star, does not know how to absorb and use. When the spiritual power of these worships is strong enough, it will also affect many unrelated passers-by, and it can also promote the star's own air and prestige.

Religious believers are of course more unusual, especially to pilgrimages to the Holy Land. Many are the only opportunities for many years or even a lifetime. Basically, it can be said that the most devout moment of life is left there.

Therefore, the collection of these paintings is the most pure spiritual power of believers!

These pure spiritual powers help for Shen Lang is great. But because they are composed of countless people, they are not as powerful as the Jingrufeng, so they can be absorbed quickly.

There is nothing wrong with this pair of waves, but for Paul, it is incredible shock!

The spirit of the Holy See's spiritual painting is so vast and pure. He himself knows very well. Don't talk about outsiders, that is, he can absorb it, nor can he do it. Even the Pope may not be able to.

However, this magical young man in the East is absorbed quickly and easily!

This made him have to admire, some people in some respects, really have an unparalleled talent.

The performance of Shen Lang also increased his confidence, indicating that Shen Lang can really do it!

Ever since, Paul once again took out two holy paintings...

Chapter 813 - Spiritual shock

Paul's three sacred paintings are basically all the top-level sacred paintings that have been collected for a long time. The spiritual power supply inside is no less than the spiritual power absorbed by Shen Lang from Jingrufeng!

Compared to Paul's first speech bubble, the effect is much better!

This is another time to fully explain that Paul is not unselfish. Since you have to be shot for everyone, you need to contribute together. The collections he carries are used at critical moments.

It will now contribute to Shen Lang, also because he can lift the ban first.

After the absorption was completed, Shen Lang did not intentionally delay, and directly lifted the ban on Paul.

This process is actually a bit embarrassing. Because to lift the mental ban, you must first enter the spiritual world!

Just as Shen Lang can read the memory information of Jing Rufeng just now, Paul naturally has this kind of worry.

No one wants all his thoughts and memories in his heart to be exposed in the eyes of others.

But there is no way to do this. It can't be prepared. It will only have an impact. There is a slight deviation. It may cause big problems. I can only believe that Shen Lang will not snoop.

Fortunately, this is not his alone. In addition to him, there are still dozens of Shen Lang to be lifted. He himself has to do the same.

If you really want to absorb the memory of dozens of people, it will be a huge burden and impact!

For Shen Lang, I can only say that he really wants more.

Their secrets of the Holy See, Shen Lang is not interested to know, and everyone has no enmity in the past, although today "take power", but behind is also a win-win cooperation, Paul does not hurt his mind.

Even if someone really has a bad mind, Shen Lang does not need to use this way to get to know in advance.

Now Paul is his first experimental goal, lack of experience, more need to be strict and cautious, and the whole process is basically unbiased. Fortunately, there is a method of Jing Jingfeng, which makes his whole process very smooth.

At the moment when the ban was lifted, Paul was relieved and he was under great pressure these days.

If his mental strength is not strong enough to save others, he will not be able to save himself.

But the stronger he is, the only way to save people in the end, others can't save him.

He also does not have a perfect strategy. He can only hope that he can solve himself after being strong, or finally everyone will escape together. He will not attract attention alone.

Because of this, the arrival of Shen Lang, also from his opportunity, let him take the initiative to be honest and cooperate.

“There should be no problem.”

Shen Lang then passed the method of solving the problem, and told Paul in detail.

In the past two people have relied on research methods, even if the ideas are not wrong, there will always be a detour. Now Shen Lang not only knows the most direct method, but has already verified it, and there is no need to let him take another detour.

“Thank you!”

Paul bowed deeply to Shen Lang.

Shen Lang smiled and said: “The Archbishop is very polite. If you have not helped me, I have not helped you solve it so smoothly.”

“No, I am not talking about lifting the ban for me. I am thankful on behalf of others! You have told me your method unselfishly, and I have benefited a lot, and everyone has directly benefited, and the mind is vast!”

Paul is now awe-inspiring against Shen Lang. People are so genius, but also selfless, really rare.

Shen Lang Waver: “Tell the method to tell you, let your progress be faster, can you not lift everyone’s crisis faster? Otherwise, I will be busy with myself, all of them are fellow citizens, even if they are different, big The bottom line is still there.”

“Yes, I won’t say much if I am polite. I am going to prepare!” Paul nodded to Shen Lang and then went back to him.

Now his safety has fallen, and there is a stock of holy paintings, he can use it on his own, and some people have prepared mental bubbles.

Shen Lang is also here, there are some who are better at mental strength, and have prepared mental bubbles faster.

They have to hand in before, they are trying to delay the time, and now it is related to their own interests, all as soon as possible.

The consequence of quick completion is that they are directly indifferent and need time to recuperate. This is because Lingquan has limited help.

Shen Lang let the canoe help him to write down the order. Since it is an open rule, it must be fair.

Those who have contributed spiritual bubbles first will also lift the mental ban first.

In fact, the spirit of Shen Lang's absorption has been enough. He just helped Paul to lift it. His consumption is not too big, and he can continue.

But he wants to try it out and see how the dozens of mental bubbles absorb together, what kind of effect it will be!

He tried to get his mental power to break through a ceiling so that he could get the most benefit. Otherwise, it would only be a cycle of "consumption-recovery-consumption-recovery", which would be a waste of opportunity.

Others don't know how his situation is. After several dozens of points have been handed over to Shenlang here, everyone hasn't asked anything. They have to hurry to rest and try to restore themselves a bit. The whole state is very bad.

There is a canoe to help statistics, Shen Lang does not care about these, began to absorb these dozens of spiritual bubbles one by one!

This swell has already had experience. Before absorbing Jingrufeng and three sacred paintings, it is the first to absorb this. The whole process is very fast.

But now it's different, now it's dozens of continuous absorption!

Drink a glass of wine and drink a cup of black coffee. However, if you have dozens of cups, you can still do it at the beginning. When you get to the back, you will have a reaction and you will not be able to withstand it.

It is the spirit that Shen Lang is now under pressure!

His mental strength is already very strong. This is the capital that can be quickly absorbed by several mental energies, but there is no problem just now, but it has left an ambush for the present.

Just like drinking, he is equivalent to doing a few cups or even a few bottles of different degrees of wine. Now, continue to have a cup of glass to dry, naturally accelerate to the limit time and the need for Shen Lang is Breaking through the upper limit, so even if it is very uncomfortable at the back, the head seems to be exploding, but he is still in the order of the spirit bubble absorbed!

Finally, after the last one was not absorbed, Shen Lang's bearing also reached the limit.

When the brain is not in control, when the mind relaxes, the spiritual power of dozens of different people, plus the massive mental power of the previous Jingru style, and the spiritual power of the sacred paintings but countless people... all these violent walks shocked!

Shen Lang did not force control, but let them chaos, which is exactly what he wants.

If you are a simple individual, even if your mental strength is strong, it is also a single pure, lacking in collision. Now it is different, from the strongest Jingru style, to the dozens of parts of the gods, to the tiny collection of countless people.

Such a distribution of "primary, secondary, and scattered" is almost inevitable, so Shen Lang is letting them freely attack, and he only needs to do macro-control. As long as he is not shocked, he will certainly have Great harvest.

Chapter 814 - Small thing 1 pile

Around the Shenlang, the canoe maintained a high degree of alert. Although the Shenlang has never been disappointing, it will only be amazing again and again, but it is too exaggerated after all. She is still very worried and afraid of being disturbed. he.

Qiao Yuxian, Nanliuchuan, and Liu Yuchang, although they are resting, they chose to form a protective circle around Shenlang!

Zhang Zhuilang, Dao Cong and other Chinese comprehensions, in front of them, formed a larger circle of protection.

Before the black man said it, everyone did not dare to care. The current Shen Lang, but it is related to everyone's safety, can not be surrendered to the traitor to murder.

Paul did not pay attention to the side of Shen Lang, because he is now self-sufficient.

Smith and several other his teammates are also learning to form a circle of protection around Paul.

Time passed by.

After absorbing some of the spiritual bubble, Paul began to try to lift the ban.

There is a way for Shen Lang to teach him, so that his progress is very smooth, and the first one will not last long.

After the success of that person, although he was a young man, he would not be cheered out, but he also thanked Archbishop Paul.

Seeing that there is effect, everyone else is refreshed, especially when Paul first completes, and the Western comprehens who support him have a little more pride. Looking at the side of Shenlang, they are a bit lucky.

Although everyone is resting on the side of Shen Lang, but they are also aware of the situation that happened, it is a bit discouraged. I thought that Shen Lang should be able to be faster. After all, Paul's problem was solved by Shen Lang. I didn't expect it to be slower.

Then some people are also ups and downs, because they have two-thirds of them, they are twice as long, and it's already late in the turn. Now the waves are falling behind, and when is the end!

After all, no one is afraid of long night dreams. Those outside, whether they can observe the situation here, will certainly not give them too much time.

But impatient is useless. They can't force the waves. Now the waves at this time are undoubtedly uninterrupted.

However, after completing the first one, Paul began to take time to absorb the mental bubbles. This process is a little longer than the beginning, although the consumption is obvious and needs to be restored.

After this was lifted, Paul re-absorbed the spirit bubble, and after recovering, he continued to the next one. He chose a route different from Shen Lang.

Until half of his people were lifted, there was no movement on the side of Shen Lang!

These are not only those in other areas, but also those who are unfamiliar with Shen Lang. They are Qiao Yuxian and others. They are all unable to sit still. They have no peace of mind to rest. They frequently check the situation of Shen Lang and hope to see him. Already done.

The canoe is always on a high level of alert. This time, it took so long for Shen Lang to make her more cautious.

It must be a difficult time, or it will not be that long.

In fact, in the spiritual world of Shen Lang, it is not the same as the time outside. In his feelings, it seems to be infinitely long, but it seems to be just a moment!

When all the mental powers let go of the impact of freedom, his own spiritual power, from the perspective of macroscopic view, one by one to see their movements.

The spirit of Jingrufeng is undoubtedly the most powerful one. It wants to devour all other spiritual powers!

Although this spirit does not have a dominant soul, it still has an instinctive driving force.

If it really makes it successful, it will become even more powerful, and even have the opportunity to attack the consciousness of Shen Lang, which in turn wins the control of the body. Just because of the lack of a soul, you may become in a state of missing a lot of things.

Shen Lang certainly won't let this happen. He didn't completely melt the spirit of Jingrufeng before, so that it is now, through its power, to drive and shock other spiritual forces, and finally by himself. Come to unify the country!

This process seems to be very long, but under his manipulation, it feels very fast. As if it were only a moment's work, it has already solved other mental powers one by one.

The mental power of dozens of people is just too many and not too strong, and the same is true of the holy paintings. The overall is very strong, but it can't match the spirit of Jingrufeng.

But when the spirit of Jingrufeng's mental impact mixed all the spiritual power, Shen Lang's will began to control his own spiritual power!

From his point of view, these are not climates, they are used for him, just like the great flood formed by the rivers, he controls the floods like the gods, let them open the lake, but it will not flood.

After the goal is reached, it will lead to the main river and turn all the floods into one.

After completing this process, all so much mental energy, as expected, brought a spiritual leap!

This is no longer a simple superposition. Through a huge impact, it has broken through many limits that were originally limited by the body level and reached a new realm.

Shen Lang is absolutely awake and calm, but the dimension of time has changed at that moment, and the length of time perceived is different from the outside world.

He has not forgotten the task now!

After he finished, he immediately received the work.

Looking at Shen Lang's eyes and standing up, the canoe finally breathed a sigh of relief.

The long-term high alert makes her feel a little off force. After all, most people on the scene are higher than her. Once someone attacks, she must fight to protect the sinking waves.

"Is it okay?" Although she was used to the miracle of Shen Lang, she asked her again.

Shen Lang smiled and nodded, indicating that there was no problem.

"If you have nothing, hurry! People have already completed more than half of it, we haven't started yet!"

"That is, we have dozens of them, just like me, I will pay for it later."

"Master Shen Lang, we are not urging you, it is the current situation, no one knows when the people here will attack!"

Those who are unfamiliar with Shen Lang, have no patience. Seeing that he has no problems, he is directly urged.

Shen Lang looked at the past, and surely Paul has solved most of it.

He almost immediately knew the method Paul used, so that one can come one by one, so that everyone can ease the anxiety, but the time to recover later will be longer. After all, the spiritual bubble that everyone gives is only a part of the contribution. .

"What anxious, now is a small matter." Shen Lang responded faintly.

Those few openings urged, direct eyes.

When are you, don't forget to force it! A small matter, you are shooting!

At this time, they felt that the spirit was tight, as if the spiritual world had been invaded, and then Huo Ran relaxed for a while, and the layer of ban could not be felt without attacking, as if disappeared!

“Get it done.” Shen Lang patted the palm of his hand.

Chapter 815 - incredible

nailed it?

Just swelled in the waves, let everyone stop taking a break, want to see if he is going to start, first pay the spirit bubble, worry that it will not be in front; after paying, and worry about the time is too long, it will be their turn very late.

So some people are urging the waves, they are happy to see it.

I suddenly heard this sentence and couldn't help but stay.

Is this done?

Just the archbishop of Paul, who is just waiting for a solution, looks very solemn and is very reliable.

Shen Lang sent everyone a word, and people could not help but suspect that it was a flicker.

“Shen brother, you made it clear, what made it? You have already got those mental bubbles, can you start lifting the ban for everyone?”

Nan Liuchuan was the most familiar with Shen Lang. He asked for a message for everyone. He also wanted to give him a chance to clarify, lest other people misunderstand him.

“Southern brother, you can feel it, is it already lifted?”

Shen Lang looked at the first few: “There are a few people who provide the spiritual bubble first. I am a little sorry. I should have given it to you first. Now that everyone is in a hurry, I have just lifted it at the same time.”

just! Simultaneously!

All lifted!

This is not only the incredible people who have experienced their own experiences, but the opposite of the Paul camp, they feel that they are bragging.

What kind of character is Archbishop Paul, now he can lift more than half of it, and they have already made them very satisfied. Shen Lang can actually lift everyone in a flash, which is impossible!

only the guy drinking water knows it's cold or hot.

No matter what you say, everyone still has to rely on their own experience, so Nanliuchuan and others, whether they are skeptical or not at all, are carefully examined.

The ban they received was not known at first, but after being punished, it became clear that the days after that were also the shadow of everyone's mind. Without this layer of curse, no one would contribute spiritual strength.

After so long, even if there is no punishment for the state of the attack, everyone is still aware of its existence.

Now, after Shen Lang finished, they didn't believe it or didn't believe it. After carefully checking the induction, they found that the mental ban was really relieved!

“Shen, I just felt... I really have no problem. We are friends, don't you miss me, tell me the truth, is it really solved?”

Qiao Yuxian also felt it, but it was still unbelievable, so I couldn't help but make a guarantee with their relationship.

Shen Lang has no choice but to say: "Of course it is the truth. Many people on the scene do not know at all. I care first, of course, you old brothers."

"I am fooling what you do? If it is not solved, it is very dangerous. You are in danger, can I leave more easily? Of course, everyone is stronger!"

Everyone thinks that it makes sense. Shen Lang has no reason to kill everyone. Even if he wants to make a profit, he wants to let everyone contribute more spiritual power. It should also be an excuse for everyone to continue to provide, and it will not harm them.

And just after the inspection, they also believe that there is no problem.

So down, everyone is finally relieved.

Just looking at the opposite people one by one, they are not a taste.

In any case, Shen Lang is also their choice and support, and the East and the West, and so on, posted a "tag", how much will still have a little sense of identity, being overtaken by others, or not too cool.

But now it is different. The Archbishop of Paul needs one to lift, and each time you need to recover. And Shen Lang actually shot, almost instantaneous, all the problems of dozens of people have been solved!

Such a magical ability is simply too boring, so that they are both proud and honorable.

The people in the opposite camp are still completely unbelievable. Isn't Shen Lang seriously left behind? How can it be done in an instant?

"You can't be deceived. This is a matter of life! Need to wait for the Archbishop of Paul to help you confirm it?"

Smith couldn't help but ask, if Paul checks and confirms that they still have problems, it is equivalent to hitting the face of Shen Lang.

"It doesn't bother me! I have confirmed that my body has no problem. I am a godsman. I used him a little more time, but I believe he will definitely break into an incredible realm, so I can solve our problems in an instant!"

Nanliuchuan once again was the Shenlang endorsement platform.

His trust is actually from the previous cooperation. Shen Lang can solve the hundreds of millions of ring arrays that his younger brothers can't solve. He can kill the iron armor, and he can still wait for them to die. The Emperor's solution!

It is not so magical now that this mental ban is imposed.

Nanliuchuan has publicly stated that others have self-examined several times and confirmed that there is no problem, and they followed suit.

As more people confirmed, the opposite camp began to smash, especially those that have not yet been lifted.

"Master Shen! Are you not very powerful? Then you can help us without lifting them, and lift them at once!" Smith groaned again.

"Yeah, if you can solve it, we will believe you!"

Shen Lang slightly sneered, this is already divided, and did not receive the spiritual bubbles they contributed, why should they help them?

Do not say the benefits of spiritual bubbles, you are not a good word, you want to use the radical method to shoot.

"Who cares if you believe it or not?"

This sentence is said to immediately make them speechless.

“I have received their spiritual bubbles, which means that they have provided me with energy. I will solve them for them. It is the equivalent exchange of complementary arrears. What about you?”

The gaze of Shen Lang is directly to the Smith who is picking things up.

Smith had wanted to swear a few words. Anyway, he just said it, and he did not directly offend the waves. It should be no problem. But this time, a word suddenly came from his mind.

“Although your ban has been lifted, believe it or not, I can give you the same ban if you don’t have to be close?”

The words of Shen Lang were not transmitted by the air, nor were they directly transmitted to the ear, but they rang in the depths of his mind. It was obvious that they directly entered his spiritual world.

And Shen Lang is not close, he already knows that his problem has been solved. At this time, he also said that he would be given a new ban, and he immediately did not doubt that Shen Lang had this ability.

“Yes, I am sorry... I shouldn’t doubt you, and with the strength of Master Shen, I can definitely solve it easily.”

The nose that had been knocked down reminded him once again, letting Smith quickly apologize.

Others are unclear, but seeing Smith changed his mind, guessing if Paul had sent him a voice, or what he had discovered and confirmed. His number one skeptics are like this, and of course others have nothing to say.

Chapter 816 - Listen to Master Shen

After a while, the Archbishop Paul, who absorbed the recovery of the mental bubble, woke up.

Someone immediately told him about what happened just now, and Paul looked at it carefully.

There is still doubt, considering the relationship life, and whether or not it will make the waves uncomfortable, go directly to Paul's side, ask the Archbishop to help him check it out.

Paul is also unbelievable. Shen Lang can be faster than him. It is understandable. After all, it is the method that Shen Lang first explored, and he experimented on the hostage.

But if it is said that the problems of dozens of people are solved at the same time, he is also unbelievable.

So this is also a serious treatment.

However, the result of his inspection is that the person's mental ban has really been solved!

"There is no problem at all. Is Mr. Shen really done in an instant?"

Shen Lang smiled and nodded.

Archbishop Paul could not help but sigh: "Mr. Shen is really a god! It is our Pope, and may not be able to match you. Safety first, I hope you can help!"

During the speech, he flew the remaining spiritual bubbles in front of Shen Lang.

The meaning is obvious. If he continues to do this, the time required will be longer than one, and the whole will be delayed.

And every time he needs to absorb the mental bubble to recover, it can't be faster.

If Shen Lang can help him complete, he does not need to suffer from this.

Shen Lang looked at the spiritual bubble in front of him, and the number is the same as the rest.

Because Paul doesn't solve it like a one-time problem, he basically absorbs it once and then, so there is not much error left.

Of course, these are also very useful for Shen Lang. In the future, it is not always possible to have the opportunity to make the dedication of the spirit of God.

If one or two are missing, there is nothing to worry about.

“it is good!”

He decisively agreed, and did not worry, first collected these spiritual bubbles, and then quickly controlled the rest of the people, and immediately lifted their prohibition.

At that time, everyone was unprepared, so it was hard to believe.

Now this time, they are all concerned about the situation, especially those who need to be lifted, are concerned about their own body.

The result is still a moment, so that they have not realized how much change has been resolved.

Under the attention of everyone, they did not hesitate to start self-examination and see if there were any problems.

Some don't worry, let Paul help check, and naturally there is no need to say more, there is no problem.

This time, everyone was stunned by Shen Lang.

They don't say that they are self-disarming, and they don't even feel the progress of others. This gap!

Those who have contributed to the spiritual bubble, and think of the progress of Shen Lang, also have a credit for them, but also have a feeling of honor and glory.

“Mr. Shen, what do we do next?” Archbishop Paul, immediately came over.

Everyone knows that there are two problems. Since one core problem has been solved, there is another core problem left.

This is the key to trapping everyone in the pasture.

Shen Lang smiled and said: “You just finished the rest, I solved dozens of my side and helped you solve a batch. The speed is fast, but I consume too much. I have to give me some rest. time.”

When the Archbishop of Paul asked about it, everyone followed, and when they were not close, they also erected their ears.

It is very exciting to think that you can get out of trouble, no matter where you go, whether you can go back to the earth world.

However, I did not expect that Shen Lang actually said that I had to rest, it was a sigh of relief!

They actually don't believe it. After all, Shen Lang just showed it too easily, and solved dozens of bans in a flash!

And on the surface, they have contributed spiritual power, even if they have been resting for a while, it seems to be much more wilting than the sinking waves.

Archbishop Paul immediately laughed.

“Everyone should thank Mr. Shen, he is overpowered, not because he needs a break, but because everyone is in a bad state and wants to let everyone have more time to rest.”

His explanation immediately relieved everyone.

Although everyone is very energetic now, but the energy is indeed very wilting.

If you want to fight now, everyone's strength will be greatly reduced.

“That's the case, but everyone is also afraid of long night dreams. And... Shen brothers, you just came over, you can't appreciate the inhuman treatment of prisoners for so long!”

The emotion of Qiao Yuxian caused a tribute to everyone.

They are all big men on the hegemonic side. Now they are being held here, and being a beast is a humiliation!

If they can leave early, even if they are injured, they don't care.

Shen Lang nodded. “Well, since everyone looks at it like this, then I don't have a rest. I will study the method of leaving. You have to hurry and recover, how?”

“Listen to Master Shen!”

Someone immediately agreed to it, and everyone else agreed to “listen to Master Shen!”

Since there are Shenlang to study the way out, then of course they are taking time to rest, and they can recover a little more.

Paul opened his mouth, but he did hesitate.

“I also check the situation of everyone and see if there is any way to make them recover faster. If Mr. Shen needs assistance, even if he speaks.”

Shen Lang smiled and nodded.

In fact, he can guess why Paul just stopped talking.

Paul wanted to study with him. To put it bluntly, of course, I want to take the opportunity to learn!

After all, they have been here for so long, and there is no clue. If you can learn a little, it will be very useful.

But this is not the same as saving everyone, this is more privacy, and Shen Lang can do it alone. Since he was not invited, he would not be able to speak.

Otherwise, it will be difficult for people to do, and others will refuse to do so again, so they will change their mouths.

The seeing through the waves did not say broken. Although the cooperation with Paul is really good, but two people are only officially recognized today, there is no trust and personal relationship, why take him!

When everyone took time to rest and rest, Shen Lang came to the place where they entered with a canoe.

“give.”

The spiritual bubbles that Paul gave him just now, Shen Lang was first collected, and now directly gave the canoe.

“This... I can't do it, you give me a waste, you need to recover now...”

“Oh! Just when you were protecting the law for me, what kind of attitude is it, I know. There is nothing wrong with it. Since it was given to me, it is mine, I will control it!”

Shen Lang directly gave her: “Don't say anything waste, you should be very clear!”

When the light cane was remembered, on the night of the sea, it was because of the spiritual power that broke through to a new realm that she was able to use Nedan to ascend to the peak of reality.

Chapter 817 - Quick break

After hesitating, the ark was accepted.

Because of the help of Shen Lang, she is progressing fast, but Shen Lang has not stopped, and it is getting faster. If she wants to rely on herself, it is impossible to keep up with his rhythm.

Not to be a helper for him, at least not to be his burden?

Or if she can improve a little, the burden of Shen Lang will be smaller.

For example, under such a situation, if she reaches the realm of the gods and protects the law for him, she can grasp more.

Shen Lang pointed to the ground, indicating that she should not delay, and now sit down and absorb.

The canoe is silently nodded, and Shen Lang can absorb so much mental power in such a short time, she must at least absorb this spiritual bubble!

Shen Lang is really good for her, not to send her out.

If the light is to prevent her from seeing how he breaks, it can be done in one sentence.

In fact, what he needs now is not a real break, but a pretense.

Because from Jing Jingfeng here, he already knows how to open the array!

But this is a secret and it is not convenient to say it. If he shows that he can open, others may have to doubt him, it is not a genius to explain.

Of course, it is not just a pretense, but also a closer look at this array through close observation, including the world's array.

For Shen Lang, it is also a rare learning opportunity!

Other people, although they are resting, but some people are still concerned about the situation of Shen Lang.

Seeing the spiritual bubble, just throw it directly to a woman, let them be envious, it is a ruin!

If it is not given by Shen Lang, it is not a woman covered with swells. There will definitely be a large number of people rushing straight forward. This spiritual bubble can directly restore them to the best state!

Now I can only watch others use it, especially those who support Paul in the West, because this is what they have contributed.

The two shots of Shen Lang have not been consumed much, because he has reached a new realm. It is not the fusion of those spiritual forces, but directly expands his own spiritual strength to a great extent!

So for his current spiritual realm, it is not a matter of pretending to be forced, nor is it bragging. It is really a trivial matter.

And he is also a very realistic person. They have no good words, and there is no benefit. Of course, they will not help. Until Paul gave the benefits to him, it would be equal to Paul.

Nowadays, he does not need to rest at all. The remaining spiritual bubbles, although they are absorbed a few, are still reserved. The whole person is really observing the pastoral array that has trapped everyone.

The understanding of the law before Shen Lang is not a lot of methods, but the technology of the formation!

Just like driving a car, learning the technology of driving, not a specific model of a certain brand. Even if you change a car that you have never touched before, the technology is the same. You only need to explore it, you can master it quickly, and it won't equal zero.

But if you don't know how to drive at all, even if you look at him next to you, you don't know the specific way.

In the process of observation, in addition to learning and understanding, Shen Lang also pays attention to the movement of the canoe and gives her a little more time.

If her mental strength can be stronger, she will be safer. As for how much others can recover, he will not care so much.

In addition, Shen Lang himself is also trying to figure out the minds of those outside.

From the moment he entered, it should be said that it has been a long time, there is no calculation, but how many hours have it been?

They have no reaction at all. There are only two possibilities. One is like deliberately guiding him. It is certain that this pasture can completely control the sinking waves.

Another possibility is that they are preparing a perfect solution outside!

Of course, these two possibilities may be added together, which is even more possible!

Those people intentionally introduced them to the "graveyard" and "grazing garden", that is, they want to use this giant to trap the violent, and after the waves come in, they will not go out again, and they should meet their expectations.

But he still has the personality of Jingrufeng in his hand!

If there are no hostages, then they don't have to worry, waiting to trap him here. There are Jingrufeng, Jingrufeng or Yuxianmen, who are quite important in nature. Of course, they will not be abandoned.

So the longer you wait, the more prepared you will be!

This includes means of arranging heavy troops outside and recalling masters from outside, so there is not much time left for Shen Lang.

Of course, the canoe cannot absorb a spiritual bubble directly and quickly like Shen Lang. Even Paul is slowly absorbed.

However, she is also a persevering person, knowing that her strength is weak, so forcibly smashed this hard bone!

She spends a little more time, but it is still within half an hour.

Compared with Shen Lang, it is almost a moment, this is not worth mentioning, but in fact, in her realm, can be completed at this speed, it is already very remarkable.

Shen Lang didn't have a timetable to raise her. After confirming that she was okay, she immediately opened the order and let everyone prepare for the battle. He began to break up!

I used to rest and regain my mental strength, while secretly observing the many sacred gods of Shen Lang's movements. I heard this and could not help but feel the spirit.

After being trapped for a long time, I can finally leave. Everyone has such a slight excitement.

They are not at their best now, and the enemies outside are more likely to be far better than everyone. Even if they go out, it is not necessarily safe.

Therefore, they dare not neglect, prepare their own housekeeping skills, and carry the magic weapon that carries the final pressure box, etc., is also ready.

Shen Lang still gave the defensive reel to the canoe, and he quickly opened the array!

What he said is to start breaking. The difficulty of this formation is that everyone has checked it out Even if you discuss it, there is no clue. If the Shen Lang is strong, it still takes a little time?

Unexpectedly, they have not yet prepared their own magic weapon, this caged law of the pastoral garden, and quickly began to change!

They have lived for a while, and when those people come in to harvest the spiritual bubbles, it is such an open approach.

The situation that is now emerging is to open an invisible door!

Shen Lang even researched the method of opening up so quickly, so that everyone is in a hurry.

The quicker response is to hurry up to the Shenlang side, hoping to go out early and leave this ghost place. They also prepared flying swords such as Feijian, in an attempt to fly away directly.

“Don’t mess! Don’t fly alone! Unite like a chopstick!”

Shen Lang had to remind one, otherwise, under the danger of life and death, these old guys are as afraid of death as young people, and they are all different.

Chapter 818 - Strong enemy pressure

A chopstick was broken at a time; two chopsticks were broken at a time; but a large number of chopsticks could not be broken.

Although everyone does not come from China, the chopsticks still understand this thing, and there are similar fable stories everywhere. The reminder of Shen Lang is to let everyone on the scene understand what he meant.

It was really possible that people who were rushing to go out to each other would be slightly hesitant.

At this time, Archbishop Paul also exerted his influence in the West.

“Everyone gathers together and goes out with Mr. Shen! I am in the back!”

There were Shen Lang before, and then there was Paul, a situation of scattered sand, and immediately changed. Everyone quickly united and formed a square array and rushed out.

The people in other worlds that were originally held here have also been lifted and, of course, left with them.

When Shen Lang led everyone to rush out, he also caught Jingrufeng in his hand, directly at the forefront.

Although everyone hesitated and adjusted the team, it was only a matter of moments.

When Shen Lang went out, everyone basically came out, and then immediately saw the situation outside.

Not only are people guarding outside, but the number far exceeds their imagination!

When Shen Lang opened the array, the guardian was shocked at the forefront and quickly pushed away. Others were also very surprised.

It is reasonable to say that this method is known only to their talents, and now it is not violently destroyed. So, in surprise, they instinctively thought that Jingrufeng controlled the situation, and this came out from it.

This misunderstanding made them not stop the export for the first time.

After seeing the situation clearly, it was too late, and Shen Lang and others had completely rushed out, and the two sides became squatting outside the pastoral garden.

The number that shocked them is actually more than a hundred people.

Shen Lang was not surprised. The people who had been chasing him and blocking him had not been so much different.

But other people are hard to imagine, to know that these dozens of people are from the super powers of the world, this place, a small city, there are so many powerful people above the realm!

Even if Shen Lang had said it before, they felt that they were bragging, and now they saw it with their own eyes.

After seeing this situation, everyone is really awe-inspiring for Shen Lang!

What a talented person this is, in order to get out of the besieged by a hundred powerful gods!

Not only get out of the body, but also break through the cage, and lift everyone's ban, take everyone out together!

In the next moment of admiration, everyone put all hope on Shen Lang again.

If they can get out of here, it is impossible to rely on themselves. No one else can do it, including the alliance of Archbishop Paul. If anyone can create a miracle, it can only be the mysterious master of Shen Lang.

When everyone's mind turns, Shen Lang has directly spoken and negotiated with the opposite person.

“Who are the responsible people, stand up and talk to Laozi, and everyone else will go and go!”

The strength of Shen Lang also made the people who were half-hearted in their hearts more a little more imposing.

“You put people first, everything can be talked about.”

When the crowd let go, there was a long-haired old man.

Although the high-level comprehensions can't measure the true age by the appearance of the surface, but this person is showing such an old-fashioned appearance, naturally it will not be premature, or real reaction, but should be age and generation. Symbol!

After all, if you are in your 100s, you still have the face of 20 or 30 years old. Like the grandchildren, you will lose a little authority and seriousness.

This is something that other people on the scene can judge, just like themselves.

However, because Shen Lang obtained the memory information of Jing Rufeng, he immediately recognized this person.

This long-haired old man, named Changkong, is an important core of Yuxianmen and also the uncle of Jingrufeng.

Jingrufeng has the strength of the late stage of the gods, and he does not have to say that he is the peak of the gods!

This makes Shen Lang very helpless, and should even say depressed.

The strength of the sky is enough to crush them. Qiao Yuxian, Nanliuchuan and others, including Paul, including Shen Lang himself, will not be his opponent!

Not to mention that there are over 100 strong people in the realm of the gods, whether they are single-handed or group, they all have the upper hand.

Shen Lang's hand trembled and directly threw the Jingrufeng to his side.

"Can't put it! We will have no hostages when we put it!"

"Without the hostages, we will be finished."

Everyone anxiously yelled, but when their voices were spoken, the body of Jingrufeng had already been thrown to the opposite side.

Shen Lang will not be disturbed by anyone. He has his judgment. If he makes a decision, he will not take it back.

With the strength of this long sky, plus the strength of other people, if you don't want Jingru style, you can do it directly!

He quickly returned the Jingru style to the past, and did not ask for it. Instead, he was surprised by the sky and other people.

I don't need to pay attention to the sky, naturally someone has caught the Jingrufeng and began to check his body and find ways to wake people up.

“You put people out, aren't you afraid that I will kill you all right away?”

“You said, you can talk about putting people in everything. Shouldn't you just put your own words fart?” Shen Lang sighed.

Look at the long waves and stare at the waves.

What happened before, he already knew it, it really made him unbelievable, so he was also very interested in this young man who turned into a chaotic giant.

Whether Shen Lang is acting or talking now makes him feel a bit unusual.

“You should be very clear, you can't talk to us on an equal footing. The meaning of Changkong is obvious, but it is more subtle. If you use Jingrufeng as direct, you need to be serious about your nephew. ?

At this time, his eyes moved, and then waved his hand, the over-the-counter in the opposite camp, immediately separated from each other, and quickly surrounded the earth monks.

Shen Lang can guess that it should have been just checked the situation of Jingrufeng, knowing that Jingrufeng has no life and worry, except for extreme weakness, there is no black hand, so I am ready to turn my face.

“You are right, you are senior, we are inferior, or in your eyes, we are not even worthy of the Terran. However, if I am inferior, can solve the core problem of your Yuxianmen?”

Shen Lang is still calm, and after saying this sentence, there is still no reaction in the sky, and he has passed a few words in the past.

“Explosive body robbing.”

As soon as I heard these four words, the face of Chang’s sky changed dramatically!

Chapter 819 - Trading qualification

Explosive body robbing is a word that Shen Lang knows in the memory of Jing Rufeng. He also knows what this is all about.

The imperial gates that dominated the city were strong in all aspects, but they had a problem after they cultivated to the back. Many of them were dying in front of them, so they were called “explosive bodies.”

Because this catastrophe is to be encountered in a very high level, the general disciples do not understand or worry, Jingrufeng is a more important disciple, so even if it is younger, I heard about it.

For many years, Yuxianmen has always wanted to overcome this problem. If it can’t be solved, don’t say “Imperial Immortal”, it is impossible to become a fairy, and it is explosive and the result is very miserable.

So now, when I heard that Shen Lang said this, the face of Chang’s sky changed.

This is the secret of this door. He does not believe that Jingrufeng will be forced to say this. The young man in front of him now knows this problem. There are only two possibilities. One is to control and read the memory of Jing Confucianism, and the other is to discover the clues from the cultivation of Jing Rufeng.

The possibility of the former is of course the biggest. To be true, it shows that Shen Lang’s control of spiritual power is still very powerful.

And if it is the latter, it is shocking. If it can solve this problem, it will be a great opportunity for Yuxianmen for thousands of years!

“Why do you believe me? What are your conditions?”

This sentence is directly asked.

Although everyone is a bit unclear, but can also guess that Shen Lang is talking to him, what makes his face change so much, it must be very important!

“Let them go! You can bring people back, and certainly have the ability to send them to the place accurately. I stay!”

When this was said, everyone was taken aback. Shen Lang is going to sacrifice himself and send them back!

If they can return to the place, they still have the opportunity to return to Earth from no return to hell!

Everyone on the scene is full of energy. They have no deep friendship with Shen Lang, and they are more concerned about their ability to go back.

This time, the sway of the non-return to the sea, although it was disappointing, but as long as it can go back, it has already created history.

And after this time the prisoners, they have given up their yearning for the “Imperial World”, or go back to the familiar one-acre three-point land is more reliable.

However, Qiao Xixian Nanliu Chuanchuan and other Chinese comprehensions are not the same, although I also want to go back, but to go back should also be everyone to go back together. If you sacrificed the opportunity to exchange for the waves, even if you go back, can you feel at ease in the future?

“Shen brother, don’t say it, we won’t go, we will be with you!”

The representative of Nanliuchuan said one sentence, but it was over. Not to mention the monks in other areas, even if they are both Chinese, and a few familiar with Shen Lang will be attached, others have not made a sound.

This made him a bit disappointed, and he was disappointed in the canoe.

Shen Lang's move, whether it is really sure or through flickering, is to take himself as a hostage and cover everyone to go back first.

Even if they really want to go back, at least they will not let people feel chilly?

However, she did not say anything, although her strength is low, but the loyalty is still there, has been determined to stay with Shen Lang.

When Changkong did not pay attention to other monks, he only had one in his eyes.

“Great breath! Why do you think you are qualified for this negotiation?”

Shen Lang showed a smile: “You still feel that I don't have this qualification? Are your houses repaired? How many people are involved in the scene to chase me? And there!”

He pointed to the back.

“As for your wine bags, you still need to trick me into this, thinking that you can trap me. The result? If you are flat!”

He said this, all of them are facts, Jingrufeng is still not moving away at the scene, and many of the scenes follow Jing Jingfeng, all of them are hot on the face.

“If I take the shot, don't say that I will kill you, these rice barrels?” Shen Lang's eyes swept around. “With all of us taking the shot and destroying you seven seven eight eight, there is no problem!”

I am naturally very confident in the sky, and if he does, he can be sure that none of these people is his opponent.

But he also found out that the scenes were banned, and this is all right!

If they are all controlled, it is really that he can retake all of these dozens of people.

But now it has been out of trouble, even if the spirit is a little bit weak, it is not something he can do alone. If everyone is desperate, 7788 is a bit exaggerated, and dealing with them half may be true!

And this is on their site. If all the crazy violent, just like this kid has just turned into a giant, it will cause more casualties and cause more damage in the city.

“Good! I promise you!”

郗郗是 is a personal thing, do not need to discuss with whom, and almost no hesitation, directly decided.

After that, he immediately made an order publicly, and people were ready to take them away.

Qiao Yu Xiannan Ruchuan and others, anxious, have arrived behind Shen Lang.

“Shen brother! Let’s go together, what can you threaten them, or deal with them, wait for us to leave when we leave.”

“Yes! If all of us are gone, there is no helper when you stay, and there is no way out.”

“We can’t let you take risks alone, you can’t do this kind of thing without loyalty!”

Shen Lang glanced at them and said quickly: “Leave! I can act better alone. There are no more people. You are not the veteran of each faction, but the pillar of the earth’s comprehension! And it has to be down for hundreds of years!”

Paul, who was originally in the back, also came over.

I couldn't help but hear this.

“Mr. Shen is not worthy of justice. In your words, I really want to live with the world! I wanted to stay and die with you. Now it seems that leaving is also a kind of responsibility!”

When Paul said this, Nan Liuchuan and others directly looked at each other and felt that this was an excuse for himself.

Shen Lang saw a sincerity from his eyes.

“Very good Then trouble the Archbishop, and take everyone back!”

He is also a slap in the face. After all, there are dozens of people who are both a big man and a heart-wrenching time. It is easy for no one to serve anyone. There must be a backbone.

Paul nodded seriously.

Then Shen Lang stared at Qiao Yuxian and Nanliuchuan, and said softly but solemnly: “Let me take care of my friends and relatives before I go back.”

Qiao Yuxian and Nanliuchuan immediately stopped.

The emotions of the two of them also fell. When they heard it, Shen Lang himself was not sure. He just wanted to delay the time and give everyone a chance.

This is tortoise.

“You can rest assured.” Shen Lang has already said this, and then the mother-in-law is meaningless, and the two people solemnly promised.

Then Shen Lang looked at the canoe.

Chapter 820 - Livestock and beast

“You don’t have to say it, I won’t leave, I will follow you.”

The raft is very calm. If you say it, it is well thought out. Even if the tone is soft, it has a stubborn power.

Shen Lang frowned.

To be honest, for dozens of people on the scene, saying “the earth pillar” is just a little nice. Really he will care about and want to save, just a few familiar friends.

In a friend, the raft is the longest known, the closest relationship, if she is not willing to go, it is really a waste of pains.

“You can also take me away, but I will come back to you alone.”

Qiao Yuxian and Nanliuchuan are looking at Liu Yuchang next to her. I want Lao Liu to stun her away. Liu Yichang didn’t know if she realized this meaning. She said it first. .

As she said, a few people are gone.

In their view, young men and women must be for love to die!

Even if Liu Yuchang is responsible for the downfall, he will bring the canoe all the way back to the Tianshan Ice Palace. It is impossible to prevent her from falling all the time, and when it is not enough, he will leave.

When she goes to the sea of innocence alone, it may be a dead end. It is better to follow Shen Lang and how much can protect her. Or... even if it is dead, at least beside someone who likes it?

There are not a few old men who think so rich, but with his familiarity with the canoe, I know that since she said this, she is determined.

In fact, he can understand the heart of the canoe, not the love that is not dead, but the heart of loyalty and death.

She felt that this trip was a huge help for her, and Shen Lang stayed here, it must be a dead end, so I chose to face him. Otherwise, as long as she is sure that there is still a way to survive, she will not stay to be his burden.

Now, in the presence of so many people, Shen Lang can't talk to her one by one.

The monks of the earth are okay, and you can still watch it in the sky!

“Well, stay here when you stay.”

Shen Lang reluctantly sighed, and then nodded to Qiao Yuxian, they finished the farewell.

At this time, the person who commanded the sky has released a magic weapon, a large boat-shaped flying magic weapon.

“Go up! You can't have more people.” Shen Lang said simply.

“The one who is our people to ensure safety!”

This is true. If only one or two people drove the boat to send them to the past, then even the people with the magic weapon were made together? This is a few dozen people!

Shen Lang said from the people of the earth: “Have you heard? Everyone wants to talk about credibility. I want to make people less. It is for you to be able to go back safely. You have to talk about credibility and not how to behave. After all, I sacrificed myself to stay here. You don't want me to be taken by people?”

“Do not worry! We will definitely have credibility.” Paul made a guarantee on behalf of everyone.

Even so, I don't worry about the sky, after everyone boarded the ship, I sent dozens of people to escort, even if I have to fight, I can evenly match!

Originally, everyone gathered outside the pasture, a group of two hundred people, it seems more crowded, and now went to two-thirds, suddenly empty.

The original confrontation between the two sides was a minority and a majority, but the overall gap has not doubled. Now, although the total number is much smaller, the two sides of Shen Lang have left him and the canoe, but they have become disparate.

郗郗 长长长长长长长长长长长长长长长长长长长长长长长长长长长长长长

Before Shen Lang has proved his danger, but the addition of a weaker woman is a burden.

Jingrufeng and others can't grasp it, and the sky is completely sure.

“Speak somewhere!”

Since this has already happened, Yu Changkong has not maintained a hostile attitude. After that, he will fly directly to the front and lead the way.

Others are still surrounded by the waves and do not give him the opportunity to escape.

Shen Lang did not want to escape, but took the canoe and flew together in front.

When they moved, the dozens of people around them immediately followed, and basically kept an encirclement.

After the sky swept forward for a long distance, he paused in the air, waited for the sinking waves and the canoe, and then pointed to the broken wall below, which were all destroyed street buildings.

“Because of your raging, there are dozens of innocent people who are killed and injured today! It's all old and weak women who can't escape!”

His tone is very serious, with an angry condemnation.

Shen Lang is not ashamed. If he is allowed to attack the innocent old and weak women directly, he will not go to the hand, but he was besieged by more than 20 transformational gods, and there are more to come over. He is A slap in the face.

“They are all innocent, are we innocent? They didn’t come here at all, they were caught in captivity by the animals. When I came here, you came to arrest me.”

Shen Lang smiled faintly: “You regard us as animals, and the animals that have been escaped are trampled and hurt. Do you need livestock to confess?”

I was in the air for a while.

Although he did not directly use such words to describe it, obviously they are all the same mentality. And Shen Lang’s questioning also made him have nothing to say.

“Of course, the most common practice is to kill the animals and vent their anger. The people there are doing the same. So, there is no need to talk about justice, what is innocent, essentially who is powerful, who is the world. dominate.”

Speaking of this, Shen Lang is staring at the sky: “And I have to remind you that in the eyes of your senior people, I am only a farm animal, but it is a beast that can kill you so many animals that are so big and dead. ?”

Shen Lang is very calm did not bring anger.

The world is inherently more advanced, and discrimination is normal, just like on Earth, other animals are also lower than humans.

But even animals, beasts and animals have different threats to high-level animals.

The sky is also staring at the eyes of Shen Lang.

For this lower-ranking human race, it is worthwhile to be “having brave and conscientious” and the words are sharp, so that he has to pay attention to it.

If you want to condemn the failure of Shen Lang, you will not have to continue to look at the “mark of failure”, and fly forward again, leaving with the waves and the canoe.

The place where I walked in the sky, but I have already left the city, on the hill in the back, the architectural style here is similar, and there is no golden splendor.

Shen Lang has the memory of Jing Confucianism. He does not say that in the sky, he also knows where this is. This is where the ancestral gate of Yuxianmen is located!
