

First Strong 821

Chapter 821 - Your level is not enough

Those who surrounded them with the waves, after they arrived here, did not follow up.

Obviously, they have already arrived here. In their view, even if the waves can be turned into the sky, it is impossible to escape.

Shen Lang does not need to check inside, from the memory of Jing Rufeng, I already know that Yu Xianmen has a strong master.

Of course, the “land animals” in the district are not enough to let the masters of the retreat go out. It is a rare exception to take advantage of the sky.

The sky entered the room with Shen Lang, and there was no hospitality to look at him directly.

“Now that we have come to Yuxianmen, I have already expressed respect, you can say.”

He maintained the style of the first ritual, and after completing this sentence, directly added a threat.

“You can also choose not to say, but you should be clear, we have to learn your memory, it is not difficult.”

“Of course I know.” Shen Lang smiled slightly. “After all, this is not a difficult thing, is it? You are a senior in the sky.”

The eyes of Chang’s sky became sharp.

Before everyone had lifted the mental ban, he had already discovered it. He had been in detention for so long and there was no change. Shen Lang went in for a few hours. Of course, he played a role.

He did not personally check the situation of Jingrufeng, but from the observation and reporting information, he also suspected that he had been deprived of a lot of mental power and was most likely to have been extracted.

Otherwise, it is impossible to open the array so quickly – everyone in the world thinks it is a break, he is very clear and there is no crack, it is directly open the array!

Shen Lang also uttered the “explosive body robbing”; and he did not introduce himself just now – will people introduce themselves to the animal beast?

Now directly called his name, let him verify the guess, the other party has read the memory of Jing Rufeng.

When there is a murder in the sky!

If it is the “explosive body robbing” known from the memory of Jingrufeng, it means that this person is using this question to help others escape, not really a solution.

And even if there is a way, it can't be left after confirmation and getting, because this knows a lot of secrets of Yuxianmen!

His murder passed away, and Shen Lang was of course aware.

There is no emotional change in this wave – there is no expectation that the other party will let him go!

He has done such a great destruction here and saved dozens of people. From this, Yuxianmen will not let him go, it is the face and interests are damaged.

Because of this, he deliberately admitted to the acquisition of Jingrufeng's memory.

“Oh! Hey me!”

Shen Lang patted his mouth exaggeratedly, and shook his head and sighed.

“How can I call the predecessors? Although they are all human races, in the eyes of others, we are still uncultivated barbarians, animals, and the predecessors are high climbers, which is simply tarnishing the honorable status of others.”

For his satirical performance, he said coldly and coldly: “Say business!”

“Is it right?” Shen Lang also put away a joke: “The explosion of the fairy is the problem you encountered in Yuxianmen. This is a secret. There is no doubt that I know from Jingrufeng. But the solution, He doesn’t have it!”

The canoe is not talking at the side, she does not know how Shenlang knows the names of the sky and the Jingrufeng. There is no danger here. Her strength is far from enough, but she remains vigilant.

He looked at him coldly and looked at him coldly. He did not say a word.

Just because Jingrufeng can’t have a solution, it’s a good idea to verify whether Shen Lang is bragging!

“Let’s say it! Our group of people are relatively weak.” Shen Lang generously admitted that it is indeed weaker than the hundreds of years.

“Our world may be much weaker than yours. But our ancestors have also had genius figures, and they have been searching for thousands of years. We are not humble, we have had a peak of cultivation. of!”

Shen Lang is very serious, acknowledging the reality, but also must recognize history.

“When we were in ancient times, there were also many powerful people. I have heard that there are similar situations in ancient times that you broke the body. Everyone’s statement is different, but I feel it is one thing, or essentially similar. ”

Therefore, Shen Lang said that there had been a peak, and even that there was a similar situation in the ancient times, he still did not believe it.

“Get your plan out, I will give it to the elders to study, and naturally you can prove whether you are lying.”

“You are a fool when I am! I have given you the plan directly, is there any use value? Can I retire me directly?”

Shen Lang directly gave him a white eye, and then opened the conditions.

“Daddy, although your status is very high, it is also the person who is actually in charge of power. But in the case of explosives, your level is not enough.”

The words of Shen Lang, let the sky almost blow his beard and blink his eyes, actually called him “daddy”, also said that he is not enough!

“Let the owner of Weiqingcheng, or Huoshan elders come!”

“Let’s relax!” He stood up in anger and stood up. “The doorkeeper and elder, what do you want to see when you want to see?”

Shen Lang waved his hand: “Don’t be excited. Not only because their level of authority is higher than you, but also because they are the people who need to solve the explosives, you are still far from that level.”

But it is impossible to know that the doorkeeper and the elders are nearing the explosion of the genocide!

However, he immediately reacted, this kid must be speculated according to the strongest character of Yuxianmen!

“Qingcheng Gate Master, Huoshan Elder, can you wait for it? Even if you doubt, I will bring you a little hope. The dead horse will not be able to delay the time. I will kill me. Are you willing?”

Shen Lang suddenly smiled and talked to the air, letting the sky grow dark and frown.

The canoe was behind him, and there was no surprise. She would not be surprised if Shen Lang created any miracles. No matter how these names come from, how can they deal with these people, she completely believes in the waves.

I paused for a moment, and there was no situation. I felt that the waves were swindling him. I wanted to use the door and the elders to scare him. When I wanted to speak, there was a voice inside the house.

“In the sky, please come over to this guest! I want to meet him.”

When I heard this, the face of Chang’s sky changed.

Chapter 822 - Master of merit

“Yes, the doorkeeper.”

“This girl, please stay here for tea.”

His words were just spoken, and he was blinded by Shen Lang.

“You idiot!”

“You -!” Shen Lang’s words, let 鄴 sky wrath.

“This is your main door to see me, but also need to leave her as a hostage, do you look down on the strength of your door?”

“I...” I was in the air for a while, and I was anxious.

No matter how sinister and deceitful this person is, in front of the doorkeeper, it is certainly impossible to turn over the sky. If you still need to leave a girl to be a hostage, it is really unpleasant for the door owner to do it.

“please!”

He did not dare to explain more, let them go directly.

Going forward along the building, I came to the core area, and then I reported it to the sky, and another disciple took the Shenlang and the canoe into it.

When I came inside, Shen Lang looked at the situation here.

Although he has the memory of Jing Confucianism, Jing Jingfeng is not familiar with this place. This is the residence of the Imperial Palace in Yuxianmen.

“Welcome two guests from afar.”

There was a white-sold old man in the house where no one was originally, and three cups of tea had been prepared.

“The doorkeeper really has more heart and mind, can treat us as guests.” Shen Lang smiled into the seat, took the tea and drank.

He is not afraid that the tea will be poisoned. With the strength of Yuxianmen, he wants to move him. He does not need to poison. Not to mention the Weiqingcheng and Huoshan elders, it is difficult to deal with the sky.

“The disciples under the door are arrogant and rude, so that you can smile.” Wei Qingcheng arched his hand: “I haven’t asked two guests how to call it?”

“My name is Shen Lang, she is called a canoe.”

The simple and self-introduction of Shen Lang’s generous introduction.

Wei Qingcheng nodded: “I don’t know each other, I don’t know what to say, I can’t talk about mutual interest, and I don’t talk nonsense. How much do you know about the explosion?”

Wei Qingcheng’s attitude made Shen Lang very satisfied. No matter what he said, even if he apologized, he said that the pastoral things he did not understand were hypocritical.

“There are similar situations in the ancient sects on our side. I have not experienced it myself, but I know the method, and I may refer to you.”

Seeing that Shen Lang was serious, Wei Qingcheng also nodded: “But please say that as long as you don’t deliberately tease us, even if you can’t solve the problem, I won’t be embarrassed.”

Although he said it well, Shen Lang did not thank him, because this is conditional, “deliberately teasing”, the initiative is in them, if there is no effect, or effective, they can also say that they are deliberately teasing.

Moreover, Wei Qingcheng only said that “I” will not be embarrassed, and it is not a matter of his words.

Shen Lang did not expect to get any of his promises. After all, everyone is not equal now, and even can be said to be disparate. Why should people respect you?

To win respect, you must have great value!

Shen Lang did not brag, although he had not heard of “explosive body robbing”, but in a similar situation, it is really a sect in history. It’s just that in Huaxia’s statement, there is a problem with their exercises, which is “to escape the fire”.

Like Yuxianmen, the sects with such problems are all trying to delve into the generations and want to make up for the defects.

However, if there is such a defect that it is easy to repair, it will not be called “explosive body robbing” by Yuxianmen. The explosion is a sign, and it can be described by the fairy robbing, which shows its difficulty.

The problem of the ancient martial art known by Shen Lang is also not solved!

But he is still not bragging, because the problem that the martial art did not solve, there is a solution for him here!

To be precise, it is not him, but he was at the peak of his previous life.

In the peak period of the previous life, Shen Lang merged with the directors of many practice methods such as Buddhism and Taoism, and created the “Yin and Yang Bo Ruozhen”, which is a high-end system, which can directly reach the realm from the initial stage to the very high level.

To a certain extent, many problems are common, and there are similar places in nature.

To put it simply, the “explosive body robbing” is a defect, and this defect can be solved through the “yin and yang wave if true” approach. He did not directly solve the past life, but reached that level.

Just like a car with a design failure, it is very dangerous for new drivers. But for an experienced old driver, even if he has not driven this model before, it is possible to drive safely with experience.

Shen Lang does not need to know how to solve the defects of their cultivation system. As long as they can help them through that stage, it is also a side solution!

“Offended!”

Shen Lang has already arrived in front of him. After saying a word, his hand has already passed.

Wei Qingcheng nodded naturally and did not mind Shen Lang checking his physical condition.

He must now believe in “doctors”, so that people can know the crux of the problem, in order to prescribe the right medicine.

As for whether Shen Lang will take the opportunity to attack him, this is completely unnecessary. On the one hand, his strength is very confident. On the other hand, this is at the core of Yuxianmen!

If Shen Lang dares to attack the gatekeeper of Yuxianmen here, it is really impatient.

The inspection of Shen Lang confirmed his conjecture. They are signs of ignorance, and it is difficult to resolve the consequences of “explosion and death.”

If other times, Shen Lang is not interested in mixing such things.

But now it is different. This is a transaction. Someone else has sent away dozens of people on the earth. If he wants to default, it would be too meaningless.

More importantly, he and the canoe are still in the hands of others. If you don't go all out, there is no way to live!

“The way of the apocalypse, Guyang yin, full of surplus, if it exists...”

Wei Qingcheng, who was calmly checking Shen Lang's inspection, suddenly heard the words in the ear, not like the direct cultivation of the mouth, but it seems to have the meaning of the general outline, let him immediately get serious, while thinking and comprehending The words of the dark waves.

It is impossible for Shen Lang to teach him the “Yin Yang Bo Ruozhen”. Now he just gives him a way to give him some ideas, how to solve it, how to spend it, or need Wei Qingcheng himself. s hard work.

After all... Shen Lang's own strength is still far from being able to help himself.

He only said a few hundred words in a short time, but he let the master of the imperial concubine of this higher-level comprehension civilization fall into deep thoughts.

The profession has a specialization, and the stone of his mountain can attack jade... Although Shen Lang gives him a general theory, it is not a practical guide, but when he comes to this realm, as long as he can enlighten, he can have Great harvest.

Chapter 823 - Guest courtesy

The disciples who walked in the sky and served the doorkeepers did not come in outside, but they were all concerned about the situation inside.

Although they did not dare to use the gods to investigate the situation inside, but the door is not closed, so after feeling no movement, still can not help but look at the probe.

It turned out that the doorkeeper was thinking about closing his eyes, and Shen Lang and the two were sitting calmly, so that they wanted to figure out clearly and did not dare to open their mouths.

After waiting for a long time, Wei Qingcheng opened his eyes.

Although the time is short, the effect will not be obvious, but as long as the direction is right, it is a matter of time. Shen Lang believes that with his level, he should be able to feel comprehensible.

After seeing Wei Qingcheng “wake up”, Yu Changkong was ready immediately. If the door owner said that he would take Shen Lang, he would immediately shoot it!

Shen Lang is still very calm, “How do you feel?”

At this time, Wei Qingcheng made an action that made the sky and the other disciple never imagined. He stood up directly and bowed to Shen Lang!

“Thank you, your guidance, I have benefited a lot.”

They were stunned, but the Shen Lang was frankly accepted. It was a canoe, and it was only a secret sigh of relief, not too surprised.

“There is a bit of a puzzle. It is so subtle. It’s the age of Mr....” Wei Qingcheng wants to stop.

He obviously wants to talk! In his view, the 20-year-old Shen Lang is certainly not so capable, and there should be a famous teacher behind it.

“If knowledge is directly proportional to age, then you should know the most, and you don’t have to listen to me at all.”

After Shen Lang finished, watching Wei Qingcheng was a bit embarrassed, and added another sentence: “On our side, there is a saying: three people must have my teacher. That

is to say, everyone, in theory, may be worthy of us. Learning. Actually exaggerated, but I am also a genius in our world, you don't have to think incredible."

Wei Qingcheng smiled slightly: "I believe that you are here, and you can afford to be a genius. Three people must have my teacher... It makes sense!"

After he finished speaking, he immediately woke up.

"Mr. Shen, you and I are very different. I am still the master of Yuxianmen. It is not appropriate to take the teacher's ceremony, but I will treat you as a guest! I hope that Mr. Wang will spend a lot of time to solve this millennium for us. Worry."

After he finished speaking, he was embarrassed again.

In his status, this is already a very polite gesture, and it is enough to make the outside sky and other people stunned.

Shen Lang did not take any further gestures. Now, with the strength gap between the two sides, if he is overpowered, he will ask for it.

"The doorkeeper please rest assured that I have reached an agreement with your predecessor in the sky. His owner has sent my compatriots back, and of course I will certainly give the information of the burgeoning singer."

Wei Qingcheng nodded, and he and Yu Changkong, in fact, is playing a red face and white face. has already threatened the warning directly. If he uses the same method again, if the swell is bad, it will be his own death!

Compared with solving the explosives, it is nothing to let go of a group of slaves. The problem of the destruction of Shenlang is not a problem.

"The sky! You will arrange the room right away. Good life will welcome Mr. Shen and Miss Luo. If there is any scorn, I will ask you!"

Wei Qingcheng greeted the long sky outside, and directly expressed his sincerity and determination in the face of Shen Lang's face.

The door owner ordered that the sky would certainly not dare to say anything, and quickly agreed to it, and respected Shen Lang.

Shen Lang also understands that Wei Qingcheng is sure to discuss with Huoshan again, so they are rested and they have not stopped.

After coming out, even if you are uncomfortable with Shen Lang, you can only press it at this moment. In any case, let me know the secret of the explosion.

Prior to this, he was only able to treat the guests above Shen Lang according to the instructions of the door owner.

The rooms of Yuxianmen are also mainly Suya, placed on the earth, that is, the level of a small inn, can not be compared with five-star hotels.

However, compared with the previous earth, the male group can only be like a farm animal. It is a great preferential treatment to eat and drink Lhasa to sleep in a large piece of grassland without gaps.

Slightly inconvenient, they just arranged a room.

The canoe was not willing to let go of the waves, falling in the eyes of the sky, and thought they were a pair, so it was arranged directly.

In fact, Shen Lang is also hoping to arrange this. Because it is not so convenient to protect her safety by arranging a room in a canoe alone.

There is no acquaintance here, everyone is bright and open, and there is no need to avoid anything.

After waiting for the longevity to leave the question of living and leaving, Shen Lang put a soundproof cover.

“Are you sure?” The canoe lowered the voice.

Shen Lang smiled slightly: “Don’t worry. Their problems have been plagued for a long time. For my appearance, they are rather credible. As long as there is a glimmer of hope, they will never give up. Before that, we are all safe. “”

“So... you are not sure?”

He did not answer directly, but comforted her. The boat was immediately understood.

Shen Lang shrugged: “Even if they are their problems, I just have an impression and have not seen it personally. Not to mention that this is another world. Even if there are similar problems with the martial art on earth, the cultivation system is definitely different. I no guarantee.”

He said so directly that letting the canoe a little embarrassed, but comforted him: “Don’t worry, it should be fine. Look at the reaction of the Lord, it should be effective, otherwise we are not treated as a guest, but The prison is under the order.”

Shen Lang smiled and nodded.

He didn’t want to worry about the ruin. In fact, the guest and the prisoner are separated by a line. Now Wei Qingcheng and Elder Huoshan are studying and analyzing. If they find any side effects on them, they may not be able to throw them into them soon. Cage!

“Don’t think too much, take advantage of time, practice well!”

Before giving her a spiritual bubble has already made her a big gain, but still need to consolidate.

After Shen Lang finished speaking, he gave a canoe to the inner boat!

For his gift, coming down again and again, it’s no surprise to lose the boat. Whether it is his care, or the light of the rain, it is always a good return in the future.

However, Nedan is a rare thing. Even if there are a lot of Lingshi, it is not always possible to sell at the level of the Tangyuan auction. So many people went to the death forest and got one.

Shen Lang seems to be able to get it out!

“I don’t want! How come you have so many Neydan? It must be that you risked life and death, you keep it!”

“Give it to you. You know that I am not a saint who is self-denying. If I need it myself, I will definitely not give it to you.” Shen Lang does not care.

The canoe bit the lip and muttered: “Well, anyway, it will be a family anyway.”

Chapter 824 - Deeply dig memory

“A family? Hey...”

She didn’t have a big voice, but Shen Lang still heard it.

Hearing his retelling, he slammed the boat and explained it quickly: “I mean... if you are with Yu Yu in the future, then everyone is your own, I am her sister.”

Shen Lang was also a bit sweaty, and did not think much. He heard her explanation and made a joke.

“We can’t go back and don’t know. We are the only two Earth people here. For the race’s blood, let us get together.”

The canoe opened his mouth, but did not say anything.

Shen Lang is joking. When the atmosphere is a bit awkward, I will quickly open the topic, or else she will agree, and it will be even more embarrassing!

He has given her a lot of help benefits in succession, and because of repaying, the canoe may not be rejected. It’s just that there is a relationship with the rain, and if we can’t go back, then she might have promised...

“Right, you and Liu Yuchang, are there any contact methods?”

“what?”

The raft is thinking about the words that have just been said together, “two earth people in the second world” and “for the blood of the earth race”, this reason is still very comforting.

“Oh, what do you say about the contact with Liu’s predecessors? What’s the use? In the Pacific, there is no ground base station, the mobile phone has not received the signal, and now needless to say.”

Shen Lang is only to transfer the topic, nor really did not expect this.

“Also, they should return to the foggy space now! The people here, called chaotic space, is one of the many worlds of Unicom. In the pastoral garden, in addition to our planet, there are several other worlds. The human race was first arrested.”

Shen Lang took the opportunity to sort out the memory of Jing Rufeng and told her about some common sense issues on this side.

It is no surprise that he can read the memory of Jing Confucianism. Fortunately, even if everyone escapes from the pastoral park, it will soon be a life-and-death battle.

After simply saying it, Shen Lang urged her to start practicing.

Now, even if they are treated as a guest, they are actually under house arrest.

As long as it is safe for the time being, the cultivation environment here is much better than the earth. For the canoe, it is naturally several times faster than the ice palace cultivation.

But for Shen Lang, the environmental advantage is second, because he can’t cultivate here for a long time in a few decades, or he has to let the canoe speed up to absorb the inner dan, and if it can break through the realm, it will be safer. It is.

The canoe also understands this truth, so it is immediately invested in the intense cultivation, try to let yourself speed up to absorb the inner Dan.

This is a once-in-a-lifetime opportunity for her to stay in the Ice Palace. Master is focusing all resources on the falling rain. This time, not to mention the blessings of the disaster, it is also followed by the dark waves.

After the rafting began to practice, Shen Lang also sat down on the knees and put on a posture of cultivation.

However, he did not really start practicing, but was thinking about things.

I have read all the memories of Jingrufeng before, because time has not been able to digest, but a state of sequestration. Like the sky, it was recognized after seeing it, and Yuxianmen was here, but it was only after I came here.

What I said just now is a part of common sense. When I said it, I remembered it a bit more.

Now, he wants to thoroughly filter all the memories. If there are some insignificant ones, they will be completely screened out. Some things, such as the magic tricks and secrets of Yuxianmen, need to be well analyzed. It is possible It will make a big difference!

You will definitely monitor the situation here, and it doesn't matter if you are in the sky. You can't monitor his brain anyway.

Now for Shen Lang, not only is time full, but his mental strength is also great!

At the beginning, I absorbed the spiritual power of Jingrufeng, which is a huge gain, but it has a little impact on the absorption of all memories.

However, after the absorption of several holy paintings, dozens of spiritual bubbles, all the upgrades after the impact of mental power, let him have a big leap.

Just like the upgrade of the computer, the original program is a small meaning, and dozens of people's bans are instantly lifted. It is also a breeze to rescreen the memory of reading Jingrufeng.

After some filtering, it is irrelevant to eat and drink, and then some of the daily relationships are not obvious, and the focus is on the secrets and exercises of Yuxianmen.

In terms of secrets, in fact, it is still limited. Jingrufeng is excellent, and it is only a young disciple, and can understand it limited. But now I understand, he is a disciple of Huoshan elders!

It is no wonder that Jingrufeng can reach the level of the late stage of the gods at a young age, and is responsible for the security affairs in the city, and is also responsible for the pastoral.

This is a bit tricky. It should be that the Jingrufeng has been sent to Huoshan at this time, and the disciple's mental strength has been drawn seven or eighty-eight, which will inevitably make him angry.

Explosive body robbing may be able to balance, let Huoshan temporarily suppress the idea of revenge, but in the end will be hands-on, but also must be early to leave the plan!

After understanding the size of some Yuxianmen, Shen Lang concentrated on the cultivation system of Yuxianmen.

The difference is natural and large, but the essence of cultivation is the same. Just like different continents of the earth, there is a lack of communication in ancient times. However, there are developments in various places, and the routes are different, but there are some similarities.

Shen Lang's past life has studied a lot of exercises, and finally he created the "Yin and Yang Bo Ruozhen". At this moment, there is no difficulty for Yu Xianmen's exercises.

After all, this is something in the memory of Jing Rufeng. For decades of cultivation, this is something that blends with his spiritual memory. Shen Lang is very familiar even if he has not cultivated it.

Now what he needs, of course, is not the practice of practicing Yuxianmen but looking for their weaknesses!

With the high-level vision of Shen Lang's predecessor, the imperial power of Yu Xianmen is not difficult to find, but the result is not optimistic.

The problem is out of strength!

Just like Wang Yuxi, who knows all the martial arts, can see the flaws of the master, but he has no strength. If you do it, it is a passerby.

Another example is Linghu Chong's solitary sword that can break all moves, but under the unbeatable speed of the East, it is meaningless to see the flaws.

One force to drop ten meetings, in the face of other people's crushing strength, any weaknesses and flaws are not flawed.

This makes Shen Lang could not help but sigh, it seems to be wise to take!

Fortunately, he has already revealed his hand, although he still does not know Huoshan's reaction, but at least Weiqingcheng has been stunned. Shen Lang believes that after their research, there will be no problem. The next step will continue to "dig" the secret from him.

How much can this fight for a little time.

Chapter 825 - Please eat "scorpion meat"

I don't know what it's like, it looks like a warm hospitality, and it's like intentional interruption.

When Shen Lang and the canoe remained in a cultivation posture, he came over to invite and said that they had prepared meals and let them eat in the past.

Shen Lang will not be interrupted, but the canoe is really practicing.

If you don't go, or if you let people go to the room, it will look like a dim sum. And more contact with them, you can also get some information further.

But to leave the canoe alone, he is not at ease.

When he was a little bit tangled, the canoe took over.

“Go! We haven't eaten a hot meal for a long time.” She smiled.

Indeed, the last time I ate hot meals, it was still on the passenger liner. After entering the sea of no return, there is no more. In the foggy space, try not to eat.

When you come to this world, you try to eat wild fruits and the like. After all, dry food and water are just the strategic materials in case, and the key time is to decide what can last for a long time.

Now Yuxianmen entertains, not to mention big fish and big meat, at least hot meals will still be there!

Two people came out generously and went to the restaurant to eat with the sky.

I don't know if it was specially prepared for them. There are no other people in the restaurant. Just sitting in the room, the chef immediately started to serve.

Looked at them, let them be a bit surprised, not the light vegetarian dishes, but all the meat.

“Two guests please dine, this is a good thing specially prepared for you.”

Yan Changkong said so politely, his face was not angry before, but also with a smile like a smile.

This made the canoe not dare to chopsticks.

“You are treating the people of our low-level world as animals. This is a good thing specially prepared for us. It will not be a scorpion meat?” Shen Lang looked at the sky and asked directly.

The raft was immediately nausea.

Scorpion! This is the word used in the previous Jingru style, that is, they are called scorpions!

If this is the so-called scorpion meat, it should be human flesh!

The compatriots of the earth have left, because the time of detention is still short, their mental strength is still far from being drained, and naturally there is no dead.

But what about other people in the world? The rest of the pasture, they will not just come a few?

What is the other mental exhaustion? Will this be their flesh?

I think of this, she has an appetite to eat, and did not spit it out, it is already very calm...

“How come? I am not that kind of person. But...do you want to eat scorpion meat?” 鄒
The sky is not a hairy boy, or it is very smooth.

If he said that he decisively admits, it seems that it is not true, does not recognize, but deliberately said vague, it makes people discerning true and false. The latter sentence is the finishing touch and kicked the ball to Shen Lang.

“In any case, do as the Romans do! If you really eat, then I also eat. People’s flesh, I still have not eaten.”

Shen Lang said, just raise the chopsticks and eat it!

Falling in the boat, watching the stomach flip, he stretched and pulled him.

If you don't know this thing beforehand, you don't know it afterwards. If you eat it, you will eat it. But if you know it beforehand, or if you know it afterwards, how can it be so calm?

Legend has it that in the ancient times, Shangyu took the sorcerer of the son of Xibohou (Zhou Wenwang) into a meatloaf and gave it to the King of Wen in the prison. Wen Wang had already calculated it beforehand, but he still ate with tears...

Their current situation is naturally far from the extent of life and death. This should not be the order of the doorkeeper. It is just that you want to disgust them.

Therefore, the canoe is indicating that the waves are resistant to eating.

Shen Lang didn't stop, and he ate it with a big mouth, and yelled while eating, and raised his thumb.

"The taste is good, let us prepare this for you every day!"

The face of the canoe is a little white, and the waves are actually, actually...

However, she is the owner of the palace. She was cultivated as a successor from a young age, and all aspects are far better than her peers.

From Shen Lang's calm and self-contained manner, let her guess that this should be a swindle. Shen Lang must have seen it, or else it would not be so much.

She immediately looked at the face of the sky, and sure enough, he found that his face became a bit ugly, without the smile before.

If it is really "scorpion meat", then this should be considered to achieve his purpose, this time should be vicious and yin, right now, this expression is clearly planned to fall through.

Thinking of this, she secretly took a sip, pressed her bad association, and then began to eat.

Seeing that Shen Lang had eaten, the nausea and nausea that was obviously disgusting and nausea also ate, and the face of Chang's sky became even worse.

"Oh, the two slowly eat. What do you need to open up!"

He did not explain anything, did not say anything, and left directly.

The two of them left the restaurant. They stopped the chopsticks immediately after the canoe. She just went back and forth with the same line of Shenlang, otherwise it was difficult to eat.

"Shen Lang, do you think this... is it true..." Even if the guess is not human flesh, she still feels a little hairy.

Shen Lang could not help but laugh.

"What do you think? It is this guy who wants to disgust us, let us have no appetite to eat!"

"but....."

"We are here today. All the people are locked in the pastoral garden, but now we have been saved. Since we didn't know it before, they could not prepare meat for us."

"From another point of view, cultivation to their realm, there should be no such bad taste to eat human flesh, they want to absorb the spiritual power."

"Moreover, when the chef just served, there was nothing unusual. Unless they were often eaten by humans, how could they be so calm?"

Listening to the analysis of Shen Lang, the canoe nodded: "It sounds like this, but in case..."

"Well In order to let you eat, I will go!"

Shen Lang stood up and disappeared immediately. After a while, the chef had just been caught.

The chef of Yuxianmen, of course, is also a self-cultivator. It is only limited in talent. There is no future. With a little cooking, you can stay in Yuxianmen, but the strength is not strong.

Of course, this is not strong and it is relative. Actually, this chef also has the level of the original state.

I was caught by Shen Lang and made the chef very nervous. He heard that it was an extremely fierce madman. It was a wild beast. He turned into a giant and made a big destruction. It is said that one mouth can put People give it to eat.

“Don’t be nervous, you just served too fast, and you are not polite, you should give us a good introduction to these dishes.”

When he heard the waves, the chef was relieved and quickly introduced them one by one.

Of course, it is not “scorpion meat”, but some small beasts that support the supply of meat.

Chapter 826 - Overbearing "人丹"

Time flies, and I took a week at Yuxianmen.

In order to show sincerity, he also said the situation of the following disciples, the flying boat sent them back to the place where they found, let everyone go down, and then they came back.

All the people of Yuxianmen did not conflict with the monks of the earth. As for whether they can return to the earth, Weiqingcheng is not sure.

Shen Lang also showed great sincerity, carefully checking for him and answering him.

However, out of self-protection, there are still some content reserved, and not all the mouths are taught. Every time, a little bit, let him gain something, and continue to hang.

The elders of Huoshan did not see Shen Lang, and they all studied indirectly through Wei Qingcheng.

Undoubtedly, this is because of the problem of Jingrufeng. I am afraid that when I see Shenlang, I will not be able to show my murder!

Shen Lang and the canoe have not been under house arrest. They can go out to visit the city, but they will follow people in the sky.

But when they went there once, there was no meaning.

On the one hand, this city is quaint, and for the people of the earth who have seen the modern metropolis, it is nothing at all, that is, the level of an ancient city.

On the other hand, all the residents in the city are extremely unwelcome to them. After all, Shen Lang turned into a giant, but it was destroyed in the city, and now it is only beginning to repair.

However, this is a good place to cultivate. Originally, the aura of this world is very rich. The place where Yuxianmen is located is also equipped with a poly-matrix method, and the effect is doubled.

It took a few days for the canoe to absorb a complete refining of Nedan.

But it has not broken through to the realm of the gods.

This requires a chance and a miracle. Shen Lang did not give her pressure, but gave her another inner Dan.

For his big hand, the boat is completely convincing, I feel that this guy is a Doraemon, ready to pull out anything from the treasure chest pocket...

Shen Lang has not been practicing, because the sky is watching. Later, he used the gods to directly pay attention to the sky, which is an anti-monitoring.

This made the sky very annoying. It was because of the deep waves, let him get away from it, and every day to follow, it was a waste of time. It is also very uncomfortable to “dry your eyes” with each other.

The result is that he gave up the surveillance of Shen Lang, but kept the attention to the room, not letting Shen Lang leave, regardless of what they were doing in the room.

After the sky was forced to retreat, Shen Lang also felt bored, and it has been a week, even if he did not fully disclose, the other party is not an ordinary person, plus the discussion with Huoshan, will definitely give the opposite, breaking the body Bureau, may progress faster!

Therefore, Shen Lang also felt that he should be nervous.

The reason why he is not eager to practice is because the gap is too big. If the enemy is at the level of the sky, you can also hug your feet or think of a solution. But in the face of the unfathomable Weiqingcheng, and Huoshan, these are useless.

It's boring now, how much can improve a little strength, and it's a little bit useful!

He still has some cards, not all the inner dans, but the tyrants!

When the Ba Tian Tower first refines the ancestors of Shuiyue Dongtian, the ghost king of Baiyuemen, and the other twenty masters, they get a bead.

Shen Lang called this “People Dan”. At the beginning, the Dan of the lord, plus the Nei Dan of the Iron Armor Red Dragon, plus a number of Nedan, let the breakthrough of the “Yin Yang Bo Ruozen” sixth, strength It also reached the middle of the realm of the gods.

But this one of the beads absorbs more powerful people, at least two or three times the effect, Shen Lang has not moved.

In the Ba Tian Tower, the old vampire of the bat club president Scott was also received, and behind the minefield, the five powerful gods were received!

After that, Shen Lang did not look at the situation inside again. If refining, the black beads that were obtained would at least be five or six times the effect of the ally master Dan!

Now the two men in their hands are going to take it, and it may be close to the effect of the tenth of the refining of the lord, which is enough to push him to the late stage of the transformation.

After doing it, Shen Lang first placed a layer of isolation on the room, but the effect would not be too great. If Wei Qingcheng and Huoshan are much stronger than him, they can still find out.

Then I took out the black beads that I had left before. It was the two powerful gods, plus the 20 “human Dan” refining the real people...

As he expected, I felt the overbearing one under the service!

Shen Lang is also very fortunate, if he took it at the beginning, it really may not be able to control it. But now his mental strength is very strong, for this overbearing person Dan, can still be calmly controlled.

His experience and other aspects are far better than the canoe, plus the sixth power of “Yin and Yang Bo Ruozhen”, above speed, is much faster.

The last time he spent the night, this time refining and absorbing the effect of at least three times the effect of Dan, but it only took a few hours.

But in the end, there was an embarrassing situation...

This one person is refining and refining, but he still can't let him break through to the late stage of the transformation of the gods!

It's still a good result. If you take a two-inner, you should be able to rush.

The gift of Bi Haihuan, plus the ones obtained by the lord, has a total of about 30, but it has already been used a lot, and this is also used one less.

Since he still has a human Dan, he does not need Nedan.

But if this person Dan in the Ba Tian Tower is refining, the effect will be more than double that of this one, and it will be five or six times that of the lord... Shen Lang really has some doubts about whether he can control it. live.

But it has reached this point there is no retreat.

The difference is almost the same, it is not as good as the late stage of the gods.

When Shen Lang was stunned, he opened the Ba Tian Tower, which was filled with a lot of unrefined materials. It was Scott and five powerful gods. Now it can only be collected first, no time to check one by one.

The key is that black bead – Ren Dan!

This one is taken out, the atmosphere of overbearing is more obvious, but it is also full of attraction, so that Shen Lang wants to take it immediately.

The practice of the canoe has already stopped.

Although she did not know much about the situation, the movement that had just emerged from Shen Lang made her realize that he wanted to break through.

Nodded at the moment, indicating that she was next to Shen Lang.

Shen Lang is also not polite, just now he is still controlled, this time really worried about the scene can not control.

Chapter 827 - breakthrough!

However, the guardian of the canoe is just a form. It really needs someone to break in. With her strength, it can't be stopped. It can only be said that it will delay a little time.

Therefore, Shen Lang still needs to speed up, and after taking the second hegemony of the more hegemony, he will start to face the impact.

The collection of six people who are refining and refining the power of the gods is more powerful than before. However, Shen Lang's "Yin and Yang Bo Ruzheng" has reached the sixth weight, and the overall control ability is much stronger.

His physical strength is far superior to that of the same level. The inner rhinoceros and the marrow fluid of giant rhinoceros beast, swallowing scorpions, and iron armor red dragon have made him reborn in strength, defense and flexibility. Evolution.

And recently, it was tempered by at least a few million lightning in the minefield.

With his physical level, it is absolutely unnecessary to bear these shocks. If you can't bear it, it's not because of the physical, but it can't be mentally endured. It feels like it will collapse.

Just as many people can't stand to stop when they exercise, they don't really stand the body, but they can't stand it.

And this is also an instinct of the human brain, a kind of self-protection. Before you reach the limit, let you feel the limit and stop to avoid death.

The current Shen Lang is different. The leap in the spiritual strength of the pastoral garden has greatly improved his tolerance on the spiritual level.

Therefore, when this overbearing person Dan released the vast energy, it formed an impact like an explosion, but Shen Lang was still sitting on a fishing boat.

"Yin and Yang Bozhengzheng" has already been in automatic operation, absorbing the essence of the heavens and the earth, the power of the stars, allowing the aura to be madly poured into the body of the sinking waves, trying to make up for the energy he needs to fuse.

Looking at the falling canoe, I directly felt the aura like a violent wind, let her sigh, the light is quiet, she is far from comparable.

The soaring movement of Shen Lang has made such a big, naturally attracting the attention of many people in Yuxianmen.

Although the aura here is rich, but he is so absorbed by the cows and whales, the length of time will inevitably affect the entire Yuxianmen.

However, their realm is high, and they immediately see that Shen Lang is at a breakthrough stage, not the level of daily cultivation, so it is still waiting to see.

One minute and two minutes...

One hour and two hours...

After a few hours, Shen Lang finally stopped the absorption of the surrounding aura.

This is what Yuxianmen feels, but his condition is unclear.

In addition to the most direct feelings, the canoe can also look at the changes in the look of Shen Lang.

The sinking waves at the moment are already calming down. Before that, the whole person became very embarrassed and looked very scary.

She can't help but do not dare to influence him, but in order to let him calm down, he still tries to condense the ice, so that the surrounding temperature is lowered a little, and I don't know if it has any effect.

After a while, Shen Lang finally opened his eyes.

"Are you OK?"

Shen Lang gave her a smile when she heard the canoe.

The same is concerned, her concern is that he has nothing, not whether he has improved his strength, this is really concerned.

“Nothing, you’re done.”

Shen Lang simply said that it may be being watched now, and did not elaborate.

It’s really a good thing. Two people go down. He’s equal to the power of nearly ten powerful gods. It’s not only the breakthrough of the original, but also enough to make him strong. For the future breakthrough of the peak of the gods, but also has a solid foundation.

“Then I will be relieved.” The canoe was immediately put into cultivation.

She has not yet broken through the realm of the gods, and sees that Shen Lang has reached a higher level. If she does not work hard, the gap will be bigger and bigger.

The process of Shenlang’s upgrade and breakthrough has attracted the attention of Yuxianmen and the worried attitude, and naturally feedback to the doorkeeper Weicheng.

Therefore, at another meeting, Wei Qingcheng did not let Shen Lang check the physical condition first, nor did he ask about the content of the mouth, but directly talked about his problems.

“I heard that Mr. Shen had a big breakthrough yesterday and leapt to a new realm. It is really gratifying.”

“Thank you.” Shen Lang smiled lightly.

“But the movement of Mr. upgrade is quite large, and almost the aura of Yuxianmen has been sucked up. This makes the disciples in the door, there are some panic.”

At that time, the upgrade did not care so much, “Yin and Yang Bozhengzheng” is automatic operation, but in terms of the feeling after the event, there is no change in the surrounding aura, he does not believe that this effect can be achieved.

That Weiqing Qingcheng deliberately exaggerated its words, which is another intention.

“This is like drinking a few wells with me. I will be full again soon. Why is it panic? The defender is saying this, is it for me to compensate for the loss?”

Waiting for Wei Qingcheng to express his intentions, Shen Lang directly asked him first.

“That is not, but it is a matter of a while, even if it is consumed, it will make up for it. The disciples in the door are worried about the daily cultivation of Mr. Shen, will it consume so much?”

Wei Qingcheng stared at Shen Lang: “If this is the case, then it really can’t afford it, and I have to let Mr. suspend cultivation.”

Shen Lang shrugged: “The guest is with the Lord. Since the doorkeeper has asked for it, no matter how much aura is absorbed, I will suspend cultivation.”

“Hey, hey, we are just squatting at the guests.”

He praised him, but he did not change anything. Naturally, he said it.

“The problem of explosives and robbing, Mr. Shen’s method is really very effective for us. After verification of this period of time, basically confirm that there is no problem. If we speed up, Mr. passed all the swearing. We don’t affect the two places to practice. How?”

Taking advantage of such an opportunity, asking for all the mouthfuls, this is his true intention!

Shen Lang smiled and nodded: “Of course there is no problem. There is not much left, and I will say it all today!”

It’s a little anxious to listen to the canoe. If the secrets are passed on to them, then there is no value. Can the people of Yuxianmen let them go?

“Thank you so much.”

Shen Lang promised that Wei Qingcheng is also full of thanks, but he naturally does not believe that Shen Lang will really give a direct slogan. For today's content, he is especially prepared to take precautions, so as not to be mixed with dangerous content.

As usual, the inspection and telling, Shen Lang passed the last slogan to solve the burgeoning genocide to Wei Qingcheng.

Wei Qingcheng expressed his welcome to staying for a while. If you want to go to other places to practice, you can leave. But everything will be said tomorrow, they have to prepare a gift for Shen Lang!

Chapter 828 - It's better to eat young grass

"What should I do?" Back to the room, I was worried about the raft.

Not letting them go directly, but staying until tomorrow, naturally it is impossible to really be because of what kind of gift, but it will be to verify whether there is any problem with the slogan given by Shen Lang today.

After confirming that there is no problem tomorrow, it is time to go to the official showdown!

Although there are only two of them now, the canoe is also used in the way of sound transmission, so as not to be eavesdropped.

Shen Lang comforted one sentence: "To stay until tomorrow, we still have more time to react, or else we will just showdown directly. Tomorrow we will see the machine again."

"You...doesn't there be a safer way?"

Shen Lang smiled: "Do not worry! I have my own arrangements."

Hearing that he said so, the boat was relieved.

In the pastoral garden, but for a few hours, when he rushed out, he had already thought of countermeasures and successfully saved dozens of people back.

Now that there is more than a week, there will definitely be a more detailed plan.

In fact, Shen Lang is really just “seeing the opportunity to act”!

His strength is a great breakthrough, and his role is very obvious. There should be no problem in dealing with the sky. But it is not enough to face Wei Qingcheng and Huoshan.

Without strong support, all plans are equal to zero.

During this time, he also thought a lot of wisdom, and the same is almost impossible to use. Whether it is the secret of the law, even if it is selling the world of the earth, others may not be able to see it!

The only thing that can make a fuss is the explosion of the genocide.

However, Wei Qingcheng is very open, completely unprepared to let Shen Lang check the body, regardless of the face of shameless questions, coupled with their subsequent analysis and research, even if you want to deliberately get a wrong mouth today, it is not so foolish.

Shen Lang’s acting, including killing a ***** road!

In fact, if it is purely from a personal point of view, it will come out from the pastoral garden and cause a lot of people to fight. There are dozens of goals. It is very easy for Shen Lang to escape with a canoe.

After all, in addition to the sky, other people will not be his opponents, and will soon be able to kill the encirclement.

However, although he is self-sufficient in his own interests, it is difficult for him to face the survival of the earth, especially his life and death, especially Joe Qixian and Nanliuchuan. He even regards him as an ally and is extremely dependent on him.

Just like Fuyang real person, he saved the first time in Fuyang, plus the minefield can be counted twice, but the last time did not save, and it is also considered to be a real person for the Leiyang.

Therefore, there is a chance to save everyone, Shen Lang still stood up, and this is somewhat self-sacrificing.

Up to now, I know that he has extracted the spirit and memory of Jingrufeng, especially this time his upgrade will inevitably give Yu Xianmen more attention to him.

If you still shoot in the sky, even if there are still more than 100 people, it is not difficult to escape. If Huoshan wants to take revenge for Jingrufeng, then it will be troublesome.

On the last day, Shen Lang was still as usual, and let the canoe continue to practice.

The state of tightness in the outer pine is to look at the sky that monitors them. Calmly, it shows that he did not do anything on the mouth.

As long as there is no hand and foot, it really helps Yuxianmen – at least solve the problem of Wei Qingcheng and Huoshan. From a moral point of view, Wei Qingcheng can't put his face on it.

Huoshan can't avoid it. He hasn't come out yet, he is avoiding it. So he is the method obtained from Weiqingcheng, not directly owing to the waves.

Now Shen Lang can avoid one is one, I hope that Wei Qingcheng, as he has shown, does not say that at least a gentleman has basic morality. After all, he is also a doorkeeper.

When I was eating at night, the medicine was much more abundant than usual. It was obviously the long-term confession, the last supper!

Shen Lang is still very wide-minded, should eat, drink and drink.

On the last night, the canoe did not compete for time.

She has been working very hard these days, with the aura here, and the assistance of Nedan, the progress is fast, but after all, she upgraded to the peak of the real world, but for a month, it is very difficult to upgrade so quickly. .

“Tomorrow... we are leaving.”

Looking at the room where I stayed for a week, it was a bit embarrassing to go to the raft.

“How? Can't bear it here?”

Shen Lang couldn't help but laugh. On the way here, they are dining, but it is free. The living environment is better now, but the feeling of being monitored every day, how can it be comfortable?

The canoe shook his head: “I don't want to be here, but...”

She glanced at Shen Lang and did not say it directly.

“What's wrong?” Shen Lang looked at her and asked, she felt a bit strange, because the pressure is too big?

“I have never... lived with a man in a room, still for so long...” said the ark.

“Why do I want to.” Shen Lang dumbfounded: “We are cohabiting, but they are also respectful, but also limited to the environment. In general, you should be a lounge, train sleeper and the like.”

“Can it be the same?” The canoe was slightly white.

Shen Lang smiles and does not speak, of course not the same, but what can he say? If you don't say this, everyone is jealous.

“Tomorrow... if we can't go, what should we do?”

“...”

Shen Lang was speechless for a while. This topic obviously made her very heavy and worried. In comparison, it is better to say that men and women may have awkward topics.

“Do not worry! I won’t let you have anything. Just like last time, I will take you away.” He could only comfort himself with a soft voice.

The canoe nodded and said that he knew he would.

Both of them were silent for a while, and she took a deep breath and suddenly laughed.

“You said... If we can’t go tomorrow, we will die here, are we not so reconciled? We are still so young, I am still younger than you and have not yet reached thirty.”

She said that it would be like tomorrow’s death. Even if it is said with a smile, it seems to be a bitter smile.

“in fact.....”

Shen Lang’s words of consolation have not yet been said to be exported The canoe has continued to go on.

“It’s like this, it’s dead, not reconciled, but it’s also lost. Don’t sleep for you now, so for me, it’s a tender grass.”

She raised her eyebrows and deliberately said it in a somewhat scornful tone.

“...”

Shen Lang just woke up, her strange reaction, in fact, is not afraid of death, but because of this!

Entering the sea of innocence, I am ready to die. I have experienced the dangers of being there again and again. I have already looked down on the people who lived in front of me.

In particular, Shen Lang let her go back with Liu Yuchang and others. She insisted on staying and decided to go to die with him.

Just thinking that the already dead period has arrived in front of him, it is better to be crazy before death, which is not only a return to Shen Lang, but also to make up for his own unwillingness.

Chapter 829 - Meet the enemy

Faced with the gaze of the canoe, Shen Lang could not escape.

Since people have been talking about this as a girl, he has continued to be confused, and it is not enough for men.

He naturally extended his hand and sat down in the canoe.

This action made the breathing of the canoe spurt slightly.

Although they had had a more intimate contact before, such as when I arrived here that day, she was lying around his neck.

But that was forced by the situation and there was no heart. It's different now, I've just expressed that meaning, and then I've got more meaning.

“Your mind, I understand. If you die like this, I am not willing. If you can be with you before you die, you will leave with a good memory.”

The gentle words of Shen Lang are spoken, and the canoe is calm.

“but?”

“but.....”

“Because of the rain?” The light canoe is a bit complicated.

Triggering her to be able to speak out boldly is naturally because of the unknown timeliness of life and death tomorrow. But really just because you are not willing, or repay?

Does she like Shen Lang?

Is it like him, or is it because he has repeatedly asked for a return that has given a lot of help?

Is it purely like, or is there a feeling of competition with the falling rain, want to prove that there is no difference between her mind?

She can't say it herself...

The only thing she can be sure of is that she will fall asleep when she is asleep, and she will not ask for results. Even if she goes back without problems, she will not regret it!

Shen Lang shook his head: “It has nothing to do with falling rain. You have asked me before, and you should also see it. What is it with me and Zheng Yumeng.”

“Hey! It really has a leg.” The canoe could not help but snorted.

Shen Lang's heart is dark, and there is a leg. Zheng Yumeng has two souls in his body. What else is it?

“Since you are not a good thing, what else is it?”

It was confirmed that Shen Lang and Zheng Yumeng had a leg, but it was a lot easier.

No matter how she can see it, Shen Lang is in the forefront with the rain, and the relationship is not ordinary, she is the initiative to hook up her sister's boyfriend.

However, since Shen Lang was already Zheng Yumeng's girlfriend, and even if she was warm, she might not be a pair, and she would not have this guilt.

“surroundings.”

Shen Lang pointed to the surroundings.

“The environment here is good, but you also know that others are monitoring our situation. They don't need a camera, even if they turn off the lights. Do you want to do something for us to broadcast to them?”

“...”

For this reason, the canoe was silenced.

Although it's dead, you can ignore everything, but it's disgusting to broadcast the most private side to the enemy.

“So, I would rather wait to leave here, just find a cave, grass, and use the earth as a seat, and it is more fun than here.”

The eyes of the canoe turned away and muttered.

“I am also joking to say that you are taking it seriously. What do you think you really want to follow!”

Shen Lang smiled and said: “Yes, I thought more after listening to it, and even planned more. But you really want to be clear, when the environment is good, I will really be welcome!”

“Too lazy to care about you. Still think about how to get out of it tomorrow!”

This night, naturally, I can't sleep well.

Even if there is no way, it is still hard to think about countermeasures.

Shen Lang is recalculating the various plans over and over again to see which one is more likely.

In fact, he still has a lot of reliance, even if the strength is far less than Wei Qingcheng and Huo Shan, but Yu Xianmen wants to kill him, but also really has to pay the price of the entire city destroyed!

Specifically, it depends on whether Huoshan can put down the Jingru style.

Early in the morning, Shen Lang and the canoe came out.

also appeared in front of them in time.

“There are still things in the door, please wait for a moment.” The sky became cold as it was at the beginning.

Shen Lang faintly smiled: “No need, the solution of the explosive body robbing, I have told you the door owner without reservation. As for what he said to send a gift, it is not necessary, because it is the agreement between you and me. .unless.....”

“Unless what?” 郗 long sky or a question.

“Unless you didn’t send those people back at all, but the half-way of betrayal killed them.” Shen Lang said coldly.

The sky long cold snorted: “A group of ... low-level humans, I am guilty of perfidy?”

“You didn’t respond positively, but I believe in your character, and when you are positively responding.”

Shen Lang looked at the area where Wei Qingcheng lived, and directly spoke through the past.

“The keeper, although it is a contract, can be considered as a harassment for a few days. Today we two, we will leave!”

He directly spoke to Wei Qingcheng and made his eyes frown.

“Mr. Shen, please stay, we are the elders of Huoshan, I want to see you.”

It's natural that the sky has already been ordered, so when Wei Qingcheng's words came over, he immediately made a gesture of asking.

“Please come here!”

Looking down at the canoe and the sinking waves, and without fear, they went straight ahead.

The place where Huoshan lived was not with Weiqingcheng, but on another hill, and the whole past was very fast.

When they had just passed, a row of people in the bamboo forest came out of a person.

Jingrufeng.

The eyes of Jingrufeng are staring at Shen Lang.

Unlike the state of the day, the Jingru style has returned to normal.

His biggest problem is that mental energy is almost exhausted by the waves. In comparison, the physical damage caused by lightning and impact is not so much trouble.

“What should you do on your day, should you not forget it?”

“Why, you lost this hand, is this coming to greet me?” Shen Lang was smiling at Jingrufeng.

Jingrufeng snorted.

“Shen Lang! You attacked me on the same day and committed crimes in the city, hurting countless people, this is not only my personal grievances, but also let me lose my job!”

Having said that, there is a bit of resentment in his eyes: “You have also drained all my mental strength, and have stolen my memory, and released the ban on those scorpions, and let them go!”

“You said you want to do it! I want to cry to me, sorry, I have no compassion for the weak.”

Shen Lang exaggerated and dug his ears, and he was well-dressed.

Despise!

Jingrufeng felt the contempt of Shen Lang, which made his anger more uplifting.

“Folkwind, where to fall from, where to get up, or else you will never go to this hurdle, anger will only make you lose your senses.”

A voice was worn out of the building, and the Jingrufeng calmed down.

Chapter 830 - Dog blood 1

There is no doubt that this voice is the elder of Huoshan.

The restoration of Jingrufeng is naturally the help of Huoshan.

But traumatic internal injuries, and even mental strength can be repaired, psychologically frustrated, but he needs to overcome himself!

Whether it is to kill the Shen Lang, or to let Shen Lang leave, it means no chance in the future. And such psychological defeat, it is very likely to become a demons when the Jing style is upgraded.

Therefore, we must put an end to problems after several years and decades, and we must fight the irons hot, and solve the problem now!

His meaning is very obvious, let the Jingru Fengtang Church beat the Shen Lang righteously!

“Mr. Shen, your strength is indeed extraordinary, and the magical power of the giant is really amazing. But on my day, I care about it, you are a sneak attack, not an upright duel. Today, but I am fighting for a fair fight!”

After maintaining a calm attitude, he also bowed to Shen Lang and used this attitude to adjust his mind.

Shen Lang showed a smile.

It is possible to put down the humiliation and humiliation of life, and quickly put it down and adjust itself to a peaceful state. The performance of Jingrufeng is not bad.

But for Shen Lang, that is just the appearance!

At this moment, Jing Fengfeng is still a gunpowder barrel, just a little.

“You want to fight me fair?”

“Not bad.”

“Then go out with me now, we will leave here for five hundred miles.”

“...”

“Don’t leave the boundary of Yuxianmen, your master is watching behind, and the sky and other people are sharpening the knife next to him. Is this a fair fight? I lost and was killed by you; I won and was killed by them. This is fair. A battle?”

“...”

The atmosphere of Jingrufeng is a bit unstable, and there is a sizzling face on his face. Although he wants to deny it is not the case, but the current situation is clearly like this!

It is now that Master is sweeping behind him, giving him great confidence and letting him go out and fight again.

If there is no such advantage in the home and the home, he really does not have this courage!

“Don’t you dare? I don’t dare you!”

Shen Lang smiled with disdain: “What do you want to attack me? At that time, you still have more than twenty people around me. Why don’t you say it? Tell me fair! You are simply shameless! There is no real bone in the wild, you don’t even have bones!”

“nonsense!”

Jing Rufeng’s face was even more embarrassing. There were indeed many people who helped him together. This is an undeniable fact.

But he did his own thing, and it was true.

“I think you don’t dare to fight with me fairly, so it’s irrelevant! There is a kind of we will fight now!”

“War a wool, it’s almost like a bully. Of course, you want to come back with me. Your master hopes to win back confidence for you. I can satisfy you. But you don’t squint and say fairness, shameless. Just a little bit more.”

The left sentence is “deprecating”, the right sentence is “shameless”, and it is the calculation of his master, and the emotion of Jingrufeng is once again excited.

“Then don’t say anything fair, today is not your death or I am dead!”

Seeing that he was excited again, and Huoshan did not interject, then the sky immediately reminded me: “Confucianism! Calm! He is deliberately urging you, you don’t take his time!”

Although the sky is not as effective as his master, it is also a timely reminder to Jingrufeng.

But at this time, Shen Lang was laughing.

“Why are you laughing?”

“I laugh at your master!”

“Bold!” Jingrufeng angered, laughing at him, and actually dared to laugh at his master!

“You still have a sister? What are you calling her behind? Little teacher? Hehe...”

“The madman is arrogant!” Jingrufeng was furious and could not control it directly. He attacked Shen Lang.

I couldn’t help but sigh in the sky, no way! Shen Lang read the memory of Jing Rufeng. The information on both sides is completely inconsistent. It is too easy to stimulate him.

“Hey, do you want to kill people? But it’s a pity that you are not enough to kill me!”

Everyone listened to the words of Shen Lang, but found that in the time of this sentence, his figure has moved quickly to multiple positions. He repeatedly avoided the attack of Jingrufeng and tried many attacks.

And when the last word was spoken, a simple and rude punch was hit in his rib!

“There is a leg with the sister, that is nothing, and it is not very good with the younger sister.”

Jingrufeng was just a blast of wind and rain, trying to make Shen Lang unable to speak, but not only did not succeed, but because of the quick success, was hit by a gap in the gap.

This punch was only to knock him back, and he was not hurt too much, but the sentence that Shen Lang followed was to let him vomit a blood, and the whole person shivered.

The face of the sky has also changed.

“Let’s go! The **** mouth screams at my disciple, believe it or not, I will kill your kid now!”

Under the Huoshan Gate, is there such a thing in the end, and it is not clear that the sky is long.

But because everyone knows that Shen Lang has read the memory of Jing Rufeng, naturally knows the existence of the sister. As for the “Little Teacher” behind the scenes, is it true that there is such a thing, and it is difficult to talk about it with the “Little Teacher”.

But whether this is really the secret of Jingrufeng, or the accomplishments of Shen Lang’s current compilation, he must make this a rumor!

Otherwise, the impact will be too great. It is not something that Jingrufeng has to do with the sisters, but Huoshan and the female disciples have a leg!

The shape of Shen Lang was quickly flashed away, leaving the Jingru style and avoiding the sneak attack of the sky.

“Look! The blood is spurting him, isn’t it okay? Then again, I don’t know anyone, can I make it up? Of course it comes from his memory.”

Shen Lang is a very innocent look: “But I am still very admired to Elder Huoshan. After all, it is old age, and my heart is not the same. Even if there is a grassland on the head, I still have to be strong. child.”

Said that he applauded.

Followed by the canoe next to him is very speechless, I did not expect that there is such a scene of dog blood, Shen Lang did not say anything, I do not know if it is said.

But if you think about it, it makes sense. If someone else is hooking up on a relationship, how can you tell her? Doesn't that seem too cumbersome?

It is estimated that if they are forced to do this, Shen Lang did not think about it!

“I said Xiao Shi Niang again! But I didn't mess with my sister! I am very respectful to Master! You are a shameless bastard, I want to provoke our relationship!”

Jingrufeng roared and complained.

Just listening to the ears of the sky, I also understand that this is not a word. Even if it really clarifies that there is no woman who is not referring to Master, it is equivalent to indirectly admitting that Master has a leg with a female disciple!
