Chapter 831 - Huoshan's attitude

After Jing Jingfeng had just finished complaining, he was overexcited and then passed out.

It looks like it was caused by the attack of Shen Lang, plus the stimulation of the exposure.

However, Shen Lang was very clear, so he did not look at the Jingru style on the ground. When he helped him in the sky, he looked at the buildings in the bamboo forest.

A long-haired old man slowly came out.

Needless to say, this is the elder of Huoshan.

When I saw him coming out, I was very respectful and salute.

“You go.” Huoshan waved his hand.

“Yes!” Changkong immediately agreed, then step back and leave.

He is actually tangled. After all, he just heard a dog's blood exposure in the door, which is bound to be unhappy by Huoshan.

He seems to emphasize that he has not heard anything or does not believe in these attainments. But if it is emphasized, it will prove that he really heard it clearly.

Finally he decided to be confused.

After leaving the sky, the scene left Shen Lang and Huoshan.

The coma of Jing Jingfeng was naturally caused by Huo Shan. Just after he had a hand, he had already thrown Jing Jingfeng back into the building.

“You are also a personal thing, but actually want to attack me in this way, I am a little disappointed.” Huoshan looked at the waves, shook his head and directly expressed his disappointment.

“You are also a character and make me unexpected. Originally I always thought that you would be revenge for Jingru, to kill us before we left. I didn’t expect to recover him and let him challenge me again.”

Shen Lang said that he is not humble or humble, this is his true feelings.

Huoshan slightly smiled: “Compared with the solution of the explosion of the fairy, what is the enemies of Jingrufeng in the district? What is the destruction in the district?”

Shen Lang stunned.

This is the reaction, or underestimate their mentality!

For them, the top character of Yuxianmen, the biggest problem is the sword hanging over the head!

As long as the sword can be lifted, not only will their personal destiny be changed, but the martial art will not be imprisoned and will fly into the sky.

Compared with this grand goal, the grievances of the younger disciples Jingrui are really nothing. It took nothing to replace a group of low-level comprehensions and ruin many buildings in the city.

Yuxianmen is the foundation of everything!

“The gift that the doorkeeper said today is to send you a mountain and invite you to stay and develop. You should be very clear that the resources for comprehension here are many times more than your original world.”

Shen Lang was once again surprised, I did not expect that they actually had a gift!

For an outsider like him, and a monk from a lower-level civilization in their eyes, he can give him a mountain and leave him to develop here. He has to say that it is a gift!

It is true that they have come all the way for half a month. There are no mountains and rivers everywhere. There is no problem if you want to occupy one or ten hills.

In Yuxianmen, there is not only a mature city, but also the scope of the martial art, the aura is stronger than other places, and there is a gathering method.

And even if it is a guest, there will be no other martial attacks.

Just like a person who ran into a big city, he wants to take up a place to develop. Even if he sells it early, he will not encounter protection fees, and he will also encounter the expulsion. But if Aboriginal is sent to a storefront, it is much safer to do whatever it takes.

“But... why are you doing this?” Shen Lang shrugged: “I passed the last secret to the defender yesterday. I don’t have the slightest hiding, because I am only one direction, and I don’t have it personally. Verified. In other words, I have no value.”

“You have helped us solve the millennium problem. No matter what the relationship is, it is now our distinguished guest. Even the benefactor can’t be overemphasized.”

Huoshan said it was natural, as if it were so.

“But what about Jing Feng?”

“Oh, he is not destined to be your opponent. But he needs to face you, you need to overcome the hatred and fear of you, as long as he can complete this step, once again you are defeated, the mentality is not the same, perhaps it can also stimulate him even more Hard work.”

It was a bit unimaginable to drop the canoe. I didn’t expect to not only chase them, but even the challenges of Jingrufeng were counted as defeated, not accounting.

It seems so unreal, so she wonders if she hasn’t woken up yet.

“What if we want to go?”

“Of course, there is no problem to go. But I think we can think about it. After all... there is competition in this world, and there is competition in the territory.”

Huoshan is a bit embarrassed: “Because you risk your life and fight for a rare opportunity, you have come to this world. Don’t you want better development? Going to a place with a low aura, what a pity?”

“Of course, the place where the aura is thin is probably much better than you. But if you can have ten times better places, why should you choose twice or three times? Good places are occupied. We don’t dare here. Say the best, but it is not a bad place.”

Huoshan’s analysis is actually quite reasonable.

This is a completely strange world, but when you come here, you want to make good use of the resources of comprehension here. If Yuxianmen can really treat it with courtesy, stay here, of course, it is much safer than re-walking.

As for why they are so generous, it is understandable. The guest, the benefactor or something, is just a rhetoric. The real intention is that the time is still short, and the explosion of the body has not been fully confirmed.

If Shen Lang is gone, they can only face it. When Shen Lang is here, it will be much easier.

Moreover, Shen Lang is such a young man who knows how difficult they can’t solve in the millennium, even if it only provides a way of thinking. It also shows that this low-level civilized world has indeed experienced high-level cultivation of civilization, perhaps establishing friendship Can get more useful information on him.

They have already felt that “the stone of his mountain can attack jade.”

Wherever people look at people, if they are just ordinary mediocrity, it is the fate of doing coolies and being slaves. If it is a talent, a genius, it will naturally be introduced to settle down.

Seeing that Shen Lang is still hesitating, Huoshan smiled and said: “You suspect that it is normal. After all, it was unpleasant before. But... except for Jing Fengfeng, who squats in the sky, I and Weimen, both are respectful to the husband. We can let go. Resentment looks forward!”

At this time, Huoshan’s face changed.

“There are outsiders coming to the city...” He raised his hand and said, “Would you like to go see it together? Maybe your compatriots have loyalty and still want to come back to save you.”

Shen Lang is here, it is not convenient for the gods to detect, and there is also a distance from the city, and there is no known situation.

Now that Huoshan’s attitude is exactly the opposite of what he expected, he can wait and see.

Chapter 832 - 2 strangers

At the entrance to the city, strangers came in again.

Because the Jingru style is not there, plus the destruction of the previous Shenlang, this time the team is directly in the sky.

The sky was just rushed from Huoshan. When he arrived, a group of people had already surrounded two strangers.

Originally, if it was a stranger in this world, whether it was Han or not. I will know the rules and come here to know that this is the site of Yuxianmen.

I don’t know everything that comes in completely. They are basically other worlds, and they are all lower-level civilizations.

Originally for such people, they often directly imprisoned, and even took the initiative to go to the chaotic world to “salvage.”

But the emergence of Shen Lang, let them have the feeling of mentioning the iron plate.

Now facing these two strangers, Yan Changkong immediately waved his hand, indicating that everyone would not move, and then his tone became more rigorous.

“In the next Yuxianmen 郢 sky, where do you come from, where is the purpose of coming here?”

It’s very interesting to say that this is a long-term move. Basically, this is treated as a person of this world, even if he obviously feels that this is not the native world.

He felt that it was probably a world with Shen Lang, but it was not the people who had been sent away before, and even those people did not have the courage to come back.

“Through.” One of the old-looking people said a simple one.

In addition, looking like a middle-aged person, there is no speech, staring coldly at the sky.

This kind of look makes you feel uncomfortable in the sky!

He is not afraid, it is instinctively uncomfortable, as if he was stared as a prey. On their site, they can only think of others as prey. This look is a provocation!

Because of the things of Shen Lang, he still kept calm, and in the event of the situation of Jing Rufeng, the world name would be ruined.

“The two passed by here, do you want to eat and drink and leave? Or do you need accommodation?”

“Accommodation.”

Still the old man spoke, his tone did not have any emotional fluctuations, but he did not know how, giving him the feeling of sky, but he felt that he was not a good person.

“Last time, we experienced a disaster here. As you can see, many buildings are destroyed and still being repaired. So if you are staying, I guess there is no inn. How about replenishing supplies?”

Today is a special day. The doorkeepers and elders have to deal with the waves. According to the understanding of the sky, it must be impossible to let go of the waves.

The last time Shen Lang has been a big trouble, this time the door owner or the elders personally shot, there may be some influence, so at this time, it is best not to make extra money.

These two strangers from unknown sources are still sending out as soon as possible.

“Are you driving us away? We don’t welcome us at all?” The middle-aged man spoke up. “Supply to eat and drink, do you really get it?”

The old man raised his hand and motioned him not to talk.

“No problem, let’s find a place to eat and drink.”

“There is no suitable place. It is better for you to talk about what you need. I am ready to pack it and let the two get on the road as soon as possible?”

“Is this your hospitality? I really need to live today!” The middle-aged man said coldly.

Someone was uncomfortable next to him, and immediately angered: “Don’t toast, don’t eat and drink fine wine! Please don’t leave, please don’t drive away, but you will be scrapped!”

Although the last time it was very devastating, only one person was injured, and everyone else was fine. Everyone felt that Jingrufeng was sneaked.

Otherwise, Shen Lang is a stupid big man. There is nothing to be afraid of. He has found the right way and will soon be able to clean him up.

After that, Shen Lang did not open up again, so they were more convinced.

And this is undoubtedly their shame, never been so.

Just as Jingrufeng is going to get up in a place where it falls, they lose face here, and they also hope to establish a prestige.

Usually I can't do it to my own doorkeeper. Just two other outsiders came. If it wasn't for the sky, they would just suppress it. They just started it!

Now it's polite to watch the sky, but the other party is rude again and again, making them unhappy.

With such a master sitting in the town, it is also the basis of other levels of the gods.

What he didn't think of was that his words had just been said, and the man came to him. He grabbed his neck with one hand before he had time to dodge, and gave him a punch in his face. He flew out!

Because of the things of Shen Lang, this time they all maintained a high degree of alert and did not dare to lighten the enemy.

But to say that, I think so, but in fact it is still a little underestimated!

Because after that day, they did not see the waves and then renewed their power. This time, there is even more sky, so it is still a bit of a big deal.

Who can think of the speed of this person's shot, it is so fast, the power is so strong!

The face of Changkong's sky has also changed slightly: "It seems that the two are not passing by, but they are interested in finding us the troubles of Yuxianmen! Please quote the name and tell us what we have!"

He really learned the experience, but also knows that there are still big events today, and I don't want to go into trouble again. Even if the other party starts to work, it still bears.

"Why tell you?" The middle-aged man who shot did not sneer.

He is still standing next to the old man, as if he had never moved at all. If he was not a master at the scene, he could not see the trajectory of his shot.

"If this is the case, then don't blame us for being unkind!"

These people, who were originally responsible for the safety of the city, This is not internal, mainly because there are enemies coming from outside. So don't look at young disciples. They are usually targeted training, and there are actual simulations.

Although they are not responsible for managing them in the usual days, in fact, they have done this position in the early years, and now they have been serving for more than a week. It is completely tacit.

In addition to these people, they are also the core people.

"As far as you are?" The middle-aged still maintains a disdainful attitude.

"Why do you want to do it?" The old man is a little helpless: "I have been very good."

"That blame you can't control your partner!"

Changkong decided to test the old man first, did not come up with the housekeeping skills, just raised his hand, a simple empty palm shot to the old man.

The old man is waving his sleeves, so that the sky and other people have not thought of it, just such a random blow, actually contains the strong power of the mountains!

Chapter 833 - They are my friends

I found out that the sky was wrong, I didn't dare to neglect, I quickly rushed to protect my power, and quickly evaded.

Unfortunately, it is too late, although the old man is also a strike, but the speed is much faster than his temptation attack, the powerful strength, directly sent him out of the air!

More than 20 masters of the realm who have already been eager to try, can not help but be dumbfounded when they see this!

is their uncle, a lot more powerful than them, to be two or three high, this is their source of enthusiasm.

But now I was shot by the other party when I shot it, and I didn't make a big move, just a shot.

Doesn't this prove that the old man is much stronger than the sky?

The last time Shen Lang, after turning into a giant, gave them a little impact, and their realm was not much stronger than them.

Now these two people have made them all guilty. The middle-aged man just flew people at an unbeatable speed. It can also be said that it is a sneak attack. Now the old man is a positive blocking counterattack.

The impact of the attack was originally to make the air of the cockroaches tumbling, but this time it was also calm.

Such a change, directly let the old man and middle-aged people look at the distance.

It's just natural that someone helped the sky, and the person who shot it was the elder of Huoshan.

As a great elder, Huoshan is one of the best in Yuxianmen. Just now he and Shen Lang, the canoe came over here, but also can understand the situation here.

The handling of Changkong's sky made him satisfied, so he did not rush to come over.

But there was a conflict in the back, and the other party's shot was so fierce that he had to shoot.

After a long-distance shot and sent back the sky, Huoshan also speeded up and quickly rushed to the gate.

Shen Lang, but still maintained at the same speed as him, arrived together.

This also makes Huoshan secretly surprised.

Although he did not do his best, Shen Lang is obviously very relaxed, and still pulls the canoe!

Even if the sky is still the same, other people certainly dare not do it again. Even if they come back in the sky, they are still on alert and ready to retreat at any time.

He did not do anything in the sky. Just as soon as he shot, he knew that the other side's strength was higher than him, and he was not able to deal with it.

Fortunately, Elder Huoshan rushed in time, so that he does not have to worry about losing control.

This is not the level he can resist, and he doesn't have to be ashamed.

"I don't know where my friend is coming? You should have no grudges. Why do you want to work for my disciples?"

Huoshan came across the air, and when everyone heard the sound, people also arrived at the scene.

I don't need to temper anymore. He knows the strength of Changkong. It is clear that the strength of the other side is very strong.

So after he arrived, he also directly bowed his hand.

Shen Lang also followed the canoe.

“They are my friends.”

If you are in the middle of the wave, follow the words of Huoshan and let the scene be shocked again.

Even though Huoshan has said something similar, it is also a joke. I don't believe it will be so smart. Those who have been sent away, even if someone really comes back to loyalty, may not be able to find it here.

I didn't expect it to be true now, and these two friends are obviously much more powerful than Shen Lang.

“It turned out to be Mr. Shen's friend. It was really a misunderstanding. Everyone is a friend.” It was originally two strong enemies. Since it was a friend of Shen Lang, he went down the steps.

“Sir, are you okay?” The old man ignored Huo Shan and went straight to Shen Lang.

Shen Lang smiled and nodded: “I am fine. How did you get together?”

“Previous generation is good.” The raft was busy greeting and saying hello, Xu Haoyue's strength for her, it was unfathomable, and was also taken care of before.

Say hello to the canoe, Xu Haoyue just nodded, but a little stranger to the other words.

“You know him?”

Shen Lang just said, “They are my friends.” In Xu Yuyue's opinion, just because of his relationship, I did not expect that Shen Lang actually knew another one.

“It turns out that the friend he is looking for is actually you.” Another middle-aged man also came over.

Seeing Shen Lang obviously made him very surprised.

For a time, all three of them looked at each other, and Huoshan was not so far suppressed. These two are friends of Shen Lang, but they don't know each other!

"Before I was in the middle of the dead forest, I was taken care of by him. You two... Haha, it's a neighbor, no wonder you know."

The other one is the Count of Dracula, which Shen Lang encountered in the dead forest a few years ago. This famous vampire is also a strange monster who has lived for hundreds of years. They are also in the forest of death for a long time, even if they are in a hurry. A thousand miles away, time is long and you may encounter and recognize.

"You used what I sent early, or else I would find it easier."

The relationship between Xu Yuyue and Shen Lang is quite special. The Count of Dracula is just a meeting with each other. At that time, he was also bored for a long time, and he would play with Shen Lang.

If only this kind of encounter, then he will not remember, but behind the waves to help him solve the golden giant, it is a deeper impression.

What he said was a drop of blood that was sent to Shen Lang at the time. Ben said that he could sense his existence. If there is a need to help, he can intensify it. If he is near, he can rush to help.

Shen Lang himself was not used for two years, but later it was to drain the blood of Dorothy.

Just when using that drop of blood He took Dorothy to the world of the river city, so even if Dracula is not in the dead forest, it is also not felt.

And Dorothy is a vampire family. After that, he can't sense it. He can only confirm that it has disappeared, but he doesn't know how to use it.

Because everyone is also on the side, he certainly did not look for the waves.

It has been three years since then. This time he also came to the sea without jail. The result was with Xu Haoyue. Xu Yuyue said that he was looking for a friend. He also followed the same, but did not expect to be the human being he had seen that year.

I didn't even think that the human child with low strength in that year had grown to such a state in just three years!

“Since it is a misunderstanding, let's change the place to talk about the old!”

The words of Shen Lang are said to Huoshan. Both of them have ignored him. Huoshan is also a bit embarrassed. At this moment, I just said along the way: “Of course, it is very welcome to visit us at Yuxianmen!”

Chapter 834 - Narrative

Before Shen Lang, they only had one room, which was obviously not convenient for visitors.

Now under the instructions of Huoshan, the sky quickly rushed ahead, arranged a living room to facilitate their conversation, and then cleaned up the room and the like.

In view of the fact that Xu Yuyue's attitude is not enthusiastic, Huo Shan also wants to face, do not want to offend two strong enemies, and will not be embarrassed.

郅郅已经 has already experienced the strength of the other side, if the door owner and elders do not shoot, he did not have the opportunity to revenge, of course, do not dare to have any disrespect, in addition to the arrangement, he did not dare to monitor.

Even so, in the living room, Xu Haoyue still arranged a sound insulation enchantment, in his realm, which even Huoshan and Wei Qingcheng could not find out.

After they were seated, they also briefly told us about it.

In the dead forest, Count Dracula began to search, and finally found the golden giant. In the past, the two of them had passed.

They found each other as old monsters, even if they were different from each other. They were also humans and vampires, and they did not fight. In the vast forest of death, they could fully accommodate one more person.

Later, it may take several years to encounter it once in a while, and the whole well does not make a river. But to say how good a friend is, obviously not.

This time, there was no return to the Haipong development plan. Shen Lang told Xu Haoyue that even though there was no specific address at that time, Xu Haoyue used his method to get the time to go to the sea.

But he is still relatively conservative. After all, his oldest man has a place where he has no return. He has a shadow in his heart for hundreds of years.

In the end, he actually caught up with the passenger ship, but his strength was too high and no one noticed him.

Xu Haoyue looked at Shen Lang and others into the non-returned sea prison. Paul was the latest to enter, but he accelerated very quickly. Basically, he watched the people go in and did not show any abnormalities.

After everyone left, Xu Haoyue discovered the Count of Dracula.

It turns out that Count Dracula is also the same mind as him. It is because he has lived for a long time and wants to know about it, but it is also conservative.

Watching everyone disappear, the two of them tangled for a while, and the two old guys finally came in.

After entering the no-failed sea, the two of them were powerful because they were already in the front. Many people had entered and dispersed many space shocks, so they did not suffer much impact.

The way they choose is the same as Shen Lang, sinking as far as possible, and finally to the bottom.

But Shen Lang, they have a fixed direction, following the direction of the Tianji Zong, and the two of them randomly chose a direction to go.

Because the strength of both of them is strong, the speed of walking is also much faster. Searching a large range is a lot of time, carpet search, and finally hit an exit.

Although everyone's direction is different, and the time to go out is different, but the export they encounter is also the world.

And closer to here!

That is the door to the space where Yuxianmen sent people back.

After arriving here, they have lived in the dead forest for a long time, and there is not much attraction for this world better than the dead forest.

However, Xu Yunyue's body was left behind in the spirit of Shen Lang, so he found that he was not far from nearby. Considering the degree of aura of the world, it will inevitably lead to the cultivation of civilization to overcome the earth, but now the Shen Lang has limited strength. .

Worried about the safety of Shen Lang, he rushed over.

It happened just now.

After listening to these narratives, Shen Lang understands that Xu Haoyue has not fallen behind, but he has dispersed in the chaotic space, and this time the two strongest masters who came in the strongest, but spent nearly a month in the chaotic space!

And Xu Haoyue, there is no long time to meet, it does not need to be old.

The Count of Dracula has not been seen for three years, but there is not much friendship between the people and there is not much old good.

However, Dracula at that time did not kill Shen Lang, but also when he was a sparring for a while, and finally gave him the spar, and sent the blood, this sentiment still let the waves Missing.

Seeing this time again, Shen Lang also found that his strength has increased greatly! It can even be said that the progress is no less than him.

At the beginning, Dracula was much stronger than him, but he still needed his help to deal with a golden giant. It was obvious that the strength at that time was at most equivalent to the realm of the realm, and would never go to the level of the gods.

Although it is worse than Xu Haoyue, it has now turned into a deep wave of Shenjing, and still feels that Dracula is stronger than him.

Dracula seems to see the amazement of Shen Lang. There are no friends and enemies in his Western world. Apart from the little girl, he is known in the dead forest. He is also a friend, so he rarely tells.

It turned out that Dracula was not a mess. They were actually human beings. They would become like this because of a disease and a virus.

Blood can make them strong, but if they don't **** blood, they become weak, including arrogance, suffering, and even death.

In the long years, Count Dracula was tired of this way.

So he would like to find a solution, his way is similar to the use of the sun, to treat vampire diseases.

The blood of the golden giant is the method he is looking for and an attempt.

In the case of Shen Lang, he has been in seclusion in the dead forest for decades, and he has resisted for decades and has not sucked blood.

Therefore, at that time, he was also the weakest state, so he would have to deal with the golden giants and need the help of Shen Lang.

After absorbing the blood of the golden python, Of course there are other methods, medicinal materials and the like. Before that, he may have tried many other methods, but he did not expand. .

In short, this time is a success, his problem has been solved!

Although he is still a vampire, he is no different from human beings. He can ***** blood, but he can also control not to ***** blood.

This time, after solving the problem, not only let him return to the peak, but also got a leap of evolution, he is not only the most famous vampire in history, but also very likely to become the strongest vampire.

After they talked about it, it was the turn of Shen Lang to tell us why they are here.

It was learned that this Yuxianmen actually took the monks of the earth as captives and used them to contribute spiritual power. Both of them were very surprised and very disgusted.

Although I have no friendship with other people, when I come out here, everyone is from the same one, and being abused and insulted will also feel the same.

Chapter 835 - Peer away

Xu Haoyue and Dracula are old guys who have lived for hundreds of years, of course, understand people.

Even if Shen Lang said that he was not abused here, but he abused others, but they still can hear a helpless.

If you really have done the entire Yuxianmen, you don't have to stay here to trade with them.

Xu Haoyue is even more clear. Shen Lang teaches them how to solve the crisis. It is based on the experience and strength of the great gods. It is very precious.

“Let’s go! Go back, go to other places, don’t stay with them!”

Xu Haoyue just finished, Dracula went on to say: “Yes! What kind of site do you need to provide? We all walk together, I don’t believe there is any place to get it!”

They just came over, and the understanding of this situation is still limited.

Shen Lang has more information these days, and it is certain that this is really a more advanced self-cultivation civilization.

Xu Haoyue and the current Dracula are of course very powerful, but they are basically the strongest in the world. On this side, just such a city, a Yuxianmen, Weiqingcheng and Huoshan, are likely to be a level with them.

“Yeah, let’s go, we are not free here.” The canoe also persuaded.

Shen Lang looked at them and nodded. “Yes. The world is very big. It is a bit unwilling to go back. If you come, how much you have to sway. Staying here is a bit wrong.”

Then he smiled and laughed at himself.

“But to be honest, it is because there are two of your brothers that you have this enthusiasm. Otherwise, if you and I are two light boats, you may really be unable to move!”

“Mr. is heavy, I am willing to follow you, no matter where I am, I will listen to it!” Xu Yuyue arched his hand and said seriously.

In this case, he said before in the dead forest.

However, for half a year, Shen Lang was not able to change the state of the gods to the late stage of the transformation. This growth rate is also to make him sigh.

This time, I came to Haikou without a return. Shen Lang also personally went to send a letter. It also strengthened his determination to visit. After all, following the footsteps of the old man's high and cold autumn is his persistent obsession.

Shen Lang's past life was once the boss of the cold autumn, and he surrendered to Shen Lang. He did not have any discomfort at all.

His strength, Dracula is very understanding, this attitude naturally makes him very surprised.

For the situation of Shen Lang in the past few years, he did not understand that Shen Lang's story was just a matter of this trip. He did not say anything after the death forest, just like he did not talk about it one by one. His situation.

So he didn't know what Shen Lang had experienced. Xu Haoyue said that they were friends and thought they were in the forest of death.

In the dead forest, there is endless loneliness, and there is a person to accompany, it is very easy to have feelings. But even if Shen Lang followed him for three years, there is the feeling of being a teacher and a friend. It should also be Xu Yuyue.

When I met, Xu Haoyue's respectful attitude, he thought it was for the sake of Yuxianmen. I didn't expect Xu Haoyue to be so respectful now.

Under the singularity, Dracula also stated that he could not do the younger brother who was willing to make a wave like Xu Haoyue, but as a partner, there is no problem at all.

"Little brother, let's go! We are all with you, and they are angry with them! As long as you say it, I have removed them all!"

Shen Lang was dumbfounded. "That doesn't need it, we just leave."

Xu Haoyue's speciality to Shen Lang was seen before, but it was not too strange.

But I just heard that this is Count Dracula, and listening to this meaning, it is probably the legendary famous vampire, which is amazed by her fear.

Now look at his attitude towards Shen Lang, and a little arrogant style, can not help but smile.

This is actually a style of Shen Lang!

Even if I am getting along with Yuxianmen now, it is just like making a big change here.

After the old one is over, and the discussion is good, everyone is ready to leave.

The group came out and squatted in the sky.

“Two guests, we have prepared rooms for the two, welcome to live here...”

“Daddy, don’t need it, we have to go. Say hello to the defender and the elders of Huoshan. I hope I will come back here later.”

Shen Lang knows that Wei Qingcheng and Huoshan are sure to pay attention to the movement here.

Therefore, he does not need to go to them again, it is not very convenient, Wei Qingcheng and Huoshan, watching him solve the face of the explosion of the genocide, can be a good word. But those two who are unfamiliar and who are coming to the door cannot be moved too much.

And the two of them, obviously, will not have good words. If you meet, you may reproduce the incident. Directly with the sky, he was replaced by him.

“That, how...” I was in a hurry.

Originally, Elder Huoshan was arranged to entertain him. He was also very dedicated. He did not expect that the other party was actually leaving.

However, the sky is not optimistic about the ending of Shen Lang. He always thought that today is to “handle” the waves!

Elder Huoshan let him entertain, naturally it is also watching these two powerful. He is also a strong person, can easily beat him, of course, will not be regarded as a low-level animal.

So now he is a little helpless, feeling that Shen Lang was rescued by both of them.

Since there is no need to say goodbye and no delay, the four people immediately flew away.

In the direction of the direction, Shen Lang refuses to take the initiative to guide.

Because he has the memory of Jingrufeng, it is equivalent to having a map of the world. It is true that at the level of Jingrufeng, the whole world may not be reached. But the nearby area is familiar, and he is familiar with the map of Yuxianmen.

They did not have a few words, and they followed the direction of Shen Lang.

The place where Shen Lang wants to take them to is the largest city in Han Dynasty.

This is the world of comprehensionThe Han Dynasty is just a general term in the region. In fact, there are no emperors or government courts. The cities are basically developed by some cultivists.

The inhabitants of the city are produced by some disciples who are not talented. From generation to generation, they rely on the gathering of the sects to form a city.

Just like Yuxianmen is here, but the biggest city is not a martial art, but there are many sects gathering, and that is the most prosperous place.

Other cities and sects in the Han region have some resources to trade, or need to purchase, and they all go there.

It will let Shen Lang decide to go there. In addition to this environment, he can directly understand the whole of the Han Dynasty and then understand the whole world. He also hopes to gain something there.

After all, coming to this “fairy world” has already made everyone very disappointed. The batch that went back is even more tragic. How much will he bring back a little hope!

Another reason is that the name of the city is very interesting – called “Tang City.”

Chapter 836 - Bold speculation

Han Dynasty, Tang City.

Is such a name just a coincidence?

In the memory of Jingrufeng, there is no clue to find. After all, people do not have this idea at all.

But Shen Lang has a bold guess!

He suspected that this Han country was the site of the ancient Chinese comprehension, who came to the world and created the site. For the sake of a few years, I used the name of the Kingdom of China!

This is very common in history. In ancient times, after the demise of many vassal states, the displaced people used the country as their surname to commemorate the country that was not forgotten. Many surnames evolved in this way.

It's no longer meaningful to compile the truth to another world. At that time, it may not be popular to say that the earth represents the world. It would be possible to use Han as the name of the country, which is very likely to be a memorial.

If it is such a light, it can be said that it is a coincidence.

But the biggest city, where many martial arts are gathered, is called Tangcheng, and this possibility is added.

According to Shen Lang's speculation, in history, many powerful gods have traveled through thousands of mountains and rivers, looking for a hole in the sky, or a broken blank day, and maybe there is a world in it.

After a thousand years, the accumulated amount will start to increase, especially in the last wave of a large number of people who have never returned to the sea.

If they are all in this world, when they come to the borders of the Han Dynasty, it is very likely that they will be unified in one place. In the era of hundreds of years ago, it is very likely to be commemorated with "Tang".

It is not surprising that there are so many large groups of developments that will become the largest city in the Han Dynasty after hundreds of years.

This bold conjecture makes Shen Lang have a little excitement. If it is correct, it means that it is very likely to be in Tangcheng, looking for traces left by some old friends!

This conjecture also has the confirmation of the real machine.

The celestial sneak peeked into the sky, and they had an extraordinary set, and sent the information back. This is how they found the crack according to their path.

It is highly probable that the last batch of the ancestors of the celestial ancestors also arrived here.

But now it is only Shen Lang's personal guess, so he did not tell this to them.

There is nothing in the count of Dracula and the canoe, but Xu Haoyue still has a obsession with Gao Hanqiu, and he has to give him a happy time.

From the perspective of Yuxianmen, the distance to Tangcheng is still very far away. Among them, there are multiple cities and multiple sects.

However, before the two waves and the canoe, it is not anxious to slowly hurry, and is not clear about the direction. Now there is a clear goal, plus two super masters, not afraid of any trouble.

So their speed is very fast.

Not one day, four people came to Tangcheng.

In the air that has not yet approached and swept away, I have seen a huge city.

The city of Yuxianmen is like a small town.

Although this is not the same as the style of a modern metropolis, it is not possible to compare with the modern metropolis in terms of size and population, but it is considered to be a super-large city.

No one is guarding here, and the whole city is an open area.

From the general map of Tangcheng in the memory of Jingrufeng, it can be guessed that the city was only the core piece at the beginning, and then as the population expanded and a large number of people migrated, it gradually spread to the surrounding area.

The city was originally built in the middle of a basin, surrounded by mountains, and the area of the middle plain is still very large. After the expansion, there is no congestion, and there is still a lot of space in the future.

The surrounding peaks are divided into several sects, which are the main gathering places of Tangcheng, and some small sects are directly in the city.

Come here, Shen Lang and Xu Haoyue have a sense of familiarity. Because whether it is architecture, clothing, or behavioral habits, it is the feeling of ancient China.

Dracula and the canoe are very novel.

This open city with no walls, there is also a avenue into the city, they are going in.

“Several people who look at it from afar are coming for the group. I guess a few guests have not yet settled in the hotel. How about staying at our inn? Our inn is the most representative of Tangcheng. Fair prices and beautiful environment...”

They are considered to be in the urban area, and some people will come over and sell it.

Pulling people to eat, pull people to live in the store, in some modern tourist areas, is also very common, but the modern hotel industry is developed, especially the network reservations, the need to pull guests on the spot, basically are not influx of small stores.

However, Shen Lang, they just came here, they still don't understand everything, and they heard that this person said that they came for the group and would like to know about it.

“How do you know that we are coming from afar, and how do we know that we are coming for the group?” Asked by the hustle and bustle, curiously asked She is a young girl, making her a little less. It will not cause other people's doubts.

“It's obvious! You can see that you can come from afar. The day after tomorrow is the ten-year Tangcheng Group, isn't it for the group?”

The one who pulls the guest is very polite and has no details to tell him, so as not to discriminate against the feelings of the foreigners. His judgment on him is very determined.

“Okay, we really haven't decided where to stay. If your store is right, then go to your store.”

Shen Lang made a decision on behalf of everyone.

There are four guests, look at them, at least two rooms can go out. The man was very excited and took the initiative to introduce himself. He said that he was Yan Xiaoqi, who was a guest of the VIP Building Inn.

When they took them to the VIP building, they also introduced them to the Tangcheng Qun Yinghui with enthusiasm, so as not to be impatient.

They found out all the way, and the VIP building would pull the guests in the direction of the entrance because their location was not good. Whether it is a large inn or a small hotel, there are roadsides. The average guest, even if they are not familiar with it, are more likely to choose those.

However, they are not in a hurry, do not mind to follow slowly, Yan Xiaoqi introduced the information, even if it is not too deep, but it is the local people's gossip.

Tangcheng's ten-year-old group meeting is not only a large-scale event in Tangcheng, but also in the memory of Jingrufeng. Before Shen Lang didn't think of it, after hearing about Yan Xiaoqi, he remembered it, and at the moment it coincided with the words.

Xu Haoyue and Dracula did not have much interest. They all passed the age of the fun, and the general excitement could not attract them. The excitement of this time has not been the biggest one.

Chapter 837 - Tangcheng Qun Yinghui

Tangcheng's group will be similar to the earth's "something" and "something", which is a collective term for a series of activities.

The name of "Qingying" means that in addition to Tangcheng, heroes from all directions are welcome. Because once in a decade, the initial influence is still small, and after a hundred years, it has affected the day, and the previous two sessions have already made a huge momentum.

This session is of course larger, and many people have specially rushed to participate in the group.

It is precisely because of this relationship that such a "hotel clerk" such as Yan Xiaoqi will run past the guest, if it is normal, it is not possible to wait every day.

The activities of the Great Britain Club include many activities such as "Lecture", "On the Road", "Appreciation", "Struggle" and "Transaction".

The "Lecture" and "On the Road" are invited by famous masters from various Chinese schools in the form of public lectures and forums.

For some disciples of small sects, or no sects, this is a very good learning channel. It is impossible to hear the lectures of the masters in peacetime. Even if they do not involve the secrets of the factions, they will be greatly inspired by many people.

So in addition to the city, other cities will come to the class thousands of miles away.

The activities of “Appreciation” include exhibitions and treasures. For many people who don’t have a big background, it is rare to see so many valuable exhibitions at one time, and some have won unnamed treasures, and they want to let famous people identify them in this way.

The baby that has been identified in such an occasion generally has an authority. Whether it is to continue to collect or sell it, there is a guarantee of value. If it is identified that there is no value, it will die early.

The “contention” link is also a long-awaited link, that is, an open collapse, and heroes of all walks of life can come to power.

For many young heroes, this is a great opportunity to make a name for themselves.

Even if there are some small sects and no backgrounds, as long as they can emerge, they may be spotted by famous teachers. Maybe they will jump to the gantry.

For some young disciples of the famous school, this is an opportunity for them to show their strength and debut.

In general, this link is very intense, and many people are fighting for you to die.

There have been some big people who attacked this activity, thought it was hurtful, and ruined many young people with good potential, or lost several years because of injuries.

But more big people still recognize this approach. This can stimulate the young people’s triumph and blood. If the young people are not bloody, the future of Tangcheng and even the whole of the Han Kingdom will be worrying.

As for many people who have been ruined and delayed, it is also a “cost”. It is a kind of screening. It is really promising. It can be re-emerged after being hit.

This activity is not mandatory and voluntary. If you feel that there is a problem, you can restrain your own doormen from going.

Of course, in order to encourage young people to compete for each other, Tangcheng’s major sects donate a lot of resources every time to implement generous prizes. It is precisely because of this that more young people are fanatical.

Every time except a few black horses, most of the up-and-coming and rewarded are the disciples of Tangcheng’s major sects.

This has also been criticized by many people, and it is suspected that the Tangcheng factions have made generous rewards, that is, they want to attract others to accompany their outstanding disciples.

Regardless of the controversy, whether it is a disease or not, after all, it is a willingness to fight.

The “transaction” activity is always accompanied by the activities of the entire group, and there will be a trading market. Whether it is Tangcheng or other places, you can arrange trades in it.

Because there is no threshold, there is no need for booth fees, no need to draw, so it is welcomed by everyone. Coupled with the flow of people here, there are always some buyers. Therefore, people from all over the world are usually pressed, and will wait until the group will take over the transaction.

Foreigners who come to Tangcheng in the long run will generally go to the trading floor to scouring, maybe they will meet any good baby.

In addition to this large public trading floor, there are also some small private transactions, some of which are organized by several sects, and some are small-scale invitations.

All of this information, Yan Xiaoqi revealed not much, after all, he is only a staff member of the inn, more inspired by his words, let Shen Lang think of the memory of Jing Rufeng.

When they arrived at the VIP Building Inn, they were quite satisfied with the Shenlang. Apart from the geographical location, it was good whether it was inside or outside the hotel.

From the memory of Jingrufeng, Shen Lang also knows the currency that is popular in the Han Dynasty. Among them, the daily use of a banknote currency can be used for shopping and shopping. In addition, Lingshi is a currency, mainly used in transactions of bulk goods and comprehension resources.

Staying at the inn and eating and drinking, etc., of course, using banknotes, there is no way for Lingshi people to find zero.

So after the check-in, Shen Lang looked for Yan Xiaoqi and asked him to help exchange some banknotes with Lingshi, so that he could cope with it in Tangcheng.

Now there are two masters, and it is not under the guise of Yuxianmen. Shenlang does not need to protect the safety of the canoe at any time, so it is directly to open four good rooms.

Yan Xiaoqi suggested that they should not pack a small building directly. It is only six or seven rooms, and there is a matching living room.

Shen Lang looked at the scene, did not care about a little more money, and then wrapped it down, so that several of his own people are also convenient.

Pulling into such a good business, Yan Xiaoqi is naturally very happy. When I exchanged money, I also earned a little commission for the difference. Now I am an enthusiastic service.

Not only did they arrange food and beverages for them, but they also offered them a schedule of the group's meetings, with specific time and address for each event, as well as an annotated map of each venue.

Shen Lang did not have specific goals. Since they caught up, they are ready to start from this group.

There are a large number of foreigners coming over can also give them a good cover, whether it is observing or inquiring about things, will not cause other people's doubts.

Xu Haoyue and Dracula are not interested in the general enthusiasm, including "contention", but there is still a little interest in "the pulpit" and "on the road."

Since this world is a more advanced self-cultivation civilization, even if it is publicly stated, it will not be the deepest secret, and there should be many places worthy of inspiration.

Shen Lang is of course different. He is a combination of the two worlds, and the hearts of young people. The key is that the realm has not reached their level. They are a lot of things that don't look good. He still needs too many things.

So the next two old guys stayed at home, and Shen Lang went to the trading floor with the canoe.

Although the group has not officially started, once they start, everyone is busy with various activities, but not so much time to go to the trading floor. Including some items for sale, you may not come over to set up a stall.

According to Yan Xiaoqi, the trading market often reaches a peak before the official start, and then waits until the end of the day after a few days.

Chapter 838 - Bought me, send her.

After many sessions, the Tangcheng host also has experience, so the trading floor is open three days in advance. The first place can be arranged first, the more powerful people have the rotation, and the position is not occupied. It is.

If you are alone, if you come late, you will naturally have no choice but to be in a position that is not so good.

On the first day of opening, it will still be in a state of chaos. It will only enter the state the next day. On the third day, the day before the official meeting, the first peak will be reached.

At this time, the people who come here have basically arrived in advance, and the activities have not yet begun. Everyone wants to go shopping first to see if there is any gain.

Only the peak of this day is often the peak of traffic, and the turnover is difficult to achieve. Because everyone thinks that good things will be behind, not the first to come out. I also feel that the price has been greatly high at the beginning, and until the end of the eve, I can only take it back if I can't sell it.

So basically today's peak is the peak of everyone walking on the trading floor, and it will be the peak of sweeping goods before the end.

Of course, the volume will not be too high, and most people still consider the price/performance ratio. But for those who urgently need something, or who have found a rare baby, they will naturally take it away as soon as possible.

According to Yan Xiaoqi, today is the day when local tyrants are shot.

From the standards of the earth, Shen Lang is definitely a big local tyrant, but from the memory of Jing Rufeng, the Lingshi here is not so valuable!

The area here is sparsely populated, and the light is the aura that is scattered in the air. It is not known how many times stronger than the earth. Naturally, there is no shortage of Lingshijing. As a result, the basic value of the elementary Lingshi is not large, it is used for secular trading, or it is used for "cultivating the poor". The medium Lingshi is not precious, and the fine stone is also everywhere.

After coming to the trading floor, just strolling around, Shen Lang is quite speechless, and the price here is really high!

"How expensive is the price here?"

The canoe couldn't help but spit it out. What is the effect? It's not clear what the effect is. Just look at the price tag, one by one is hundreds of medium Lingshi, and this is just a casual booth just entered, and there is no To the best location, the largest booth.

On the earth, whether it is in the Tangyuan or the last time on the passenger liner, hundreds of medium-spirited stones are the best items that can be bought at the inner level.

Like the ice spirits that are beneficial to their ice palace, twenty or thirty medium spirit stones are enough.

And here... just swept away, basically did not see dozens of medium Lingshi!

Shen Lang is also very helpless. I would also like to see if there are any good things. Buy a little here and let your strength improve. Or buy a cheap one to bring back, is it a “souvenir” hand letter is not?

But now I can see this situation. It is really embarrassing. Although he has hundreds of fine stones, he is not enough to see here. He can't buy much, and there is obviously a feeling of inflation depreciation.

Shen Lang has not opened yet, and one person next to it has passed.

“In fact, the prices here are very cheap. After all, it is not a bad thing to get here. Buyers are not all experts, but if there are fake and shoddy items, Tangcheng will be severely punished. Generally there is no such thing. People take risks.”

The boat was a bit awkward. She used to spit it out. I didn't expect others to explain it.

Shen Lang is also a bit embarrassed. I feel that the two men are the dumplings from the backcountry, and they are shown a sense of superiority by the locals.

Looking at the past, there are three or thirty young people, all of whom are handsome, like the son of a costume drama.

The one who spoke was one of the white men, and the other was a young man in black.

“This beautiful girl, what do you look at? Don't worry about the price, we bought it for you.”

The Jinyi man smiled and leaned closer to the side of the canoe, with a hint of contempt.

The white man who had just officially explained shook his head slightly, seemingly helpless. The black man, also a smile, looked at the men's play.

Both Shen Lang and the Canoe are silent. This picture is actually not common in life, but it is very common in costume dramas and novels. Isn't it a routine for teasing folks?

Looking at the other two, the Jinyi men are not the first time, they are used to it.

"Thank you. I didn't see anything, and I don't need you to buy it."

In this strange world, on other people's sites, the rafting is still polite, and there is no utterance.

Shen Lang has not said anything for the time being. If you just see the beauty of the girl, as long as you are not entangled, you can still understand, if there is any further behavior, then don't blame him for being unkind.

The white man patted the man's shoulder and signaled him to go forward.

However, the Jinyi man has not been rejected, and he is still interested.

"There is a vision! There is really nothing good here. There are some big things in the booths of the big households. There are more good things. I will accompany you to go shopping, see what you choose, I will pay the bill!"

He directly ignored the Shenlang next to him and further promised more directly.

The black man smiled and watched the excitement. The white man was a little embarrassed and looked at Shen Lang with a slightly sad look.

"Really? What did she look at, are you willing to pay?" In the fall of the boat, Shen Lang inserted a sentence.

“Of course, if you like, you can actually do it, but I guess... Hey!” He glanced at Shen Lang and sneered directly: “Is it really impossible to pay?”

“She has taken a fancy to me. You paid me and bought it for me. I am not worth any money, but in order to show you the financial resources, I will receive a million medium spirits.”

When Shen Lang opened his mouth including this Jinyi man, he thought that Shenlang wanted to compete with him. He was ready to use financial resources to crush.

If you are a beautiful woman, he will not get it. What is needed is the process of conquest!

Women who want to face, as if to crush her casual man, will naturally make her disappointed, and then financial attacks, often can capture the heart. Even if he can't capture it, he is thinking about the process of conquering and crushing.

It is necessary to install the squad, the stranger is not to bring a lot of refreshment, the friend has to look at something, like this kind of force, of course, you need a “beauty” catalyst, if you find a man to crush, Then he will not be interesting.

Or it is a beautiful woman, and there is no male partner next to it, it is also very boring, because he feels no difficulty.

However, he did not expect that Shen Lang would actually say such a thing!

I spent a million to buy him and give it to her. Isn't it a white one to send a million spirits?

Chapter 839 - Those who ruin the reputation of Tangcheng

“You don't want to face, but when I am an idiot!” Jinyi man sinks his face and glares at Shen Lang.

“Who is an idiot?” Shen Lang licked his head, as if he did not hear what he said.

“I am an idiot!”

The man in the brocade was taken under the routine, and he said it when he blurted out, and immediately realized that it was wrong, but it was too late.

“Oh! It turns out that you are an idiot. You can openly admit that you are an idiot. It takes courage. It seems that you are really an idiot.” Shen Lang looked deep and sympathetic.

Just after their situation, some passers-by seemed to be busy, and they laughed when they heard this.

No one really thinks that this man is an idiot, but when he is not in his own way, it is not too big to watch the fun.

“Kids! Where did you come from? Dare to run to Tangcheng to arrogant, you don’t want to live?” The Jinyi man was furious and directly screamed.

Shen Lang hands on his chest, a look of fear, but his mouth is not at all polite.

“It seems that Tangcheng is your home. If we come from other places, we must accept your death threat! God, I thought that the open Tangcheng is fair.”

The black man looked up and frowned, thinking about how to help.

The white man is the calmest of them. When he hears this, he knows that something is wrong.

Because the group will come to Tangcheng, even if there are more people, it is only a minority compared to the original population of Tangcheng. It is not a big deal to divide the entire Tangcheng.

But this is not the other place!

The group has not officially started yet, and most of them come from other places to come to the fair. Most of the passengers on the scene are people from other places.

Now that this is said, it is equivalent to dividing the foreigners into a camp, so that everyone has the same enemy!

“Hey! The monks in Tangcheng are really overbearing! When we were accidentally offended, we were said to not want to live!”

“Where is you offended? Brother, haven’t you seen the head? It is clearly the overbearing young master of Tangcheng. In an attempt to rob the women and women, they are angered by the male partner.”

“There is still such a thing? These few heads... not right, these few, not like animals!”

“Hey, this year, Sven has lost more!”

“Hey! Are we going to be careful when we talk? Otherwise we will warn us too!”

“You guys and grandfathers, there are no young girls, others can’t see!”

Seeing a wave of Shen Lang, the surrounding hostile emotions were mobilized. The white man could not help but secretly smile. Now it is better, even the two of them are considered beasts! And directly upgraded to “attempt to grab the women”!

“Roll! What are you doing? Dare to arrange Laozi’s rumors here! Believe it or not, I can’t leave you in Tangcheng?”

The Jinyi man has no good temper, listening to the people around him, the more difficult it is to listen, the direct spray on the group.

After all, they came from outside. When everyone said it together, they could follow a few words. When they were directly targeted, they still thought about more things than one thing. Watching the fun, don’t bother yourself and the teacher. It is.

However, the Jinyi men’s move undoubtedly made them feel that Shen Lang’s arguments made sense. These local children in Tangcheng discriminated against other places.

“What are you doing? It’s true that Tangcheng is your home!”

When everyone was dumb, Shen Lang responded promptly and went out.

What he wants is to take advantage of it. He does not expect to help passers-by, nor does he need any help.

“you you.....”

“You should be a bit of a family life? Is it true that the face of Tangcheng people has let your nephews like this! Don’t lose sight of others, go back and cry to your house, ask the grandfather to tell my grandmother to stop me from leaving. Go out of Tangcheng!”

Shen Lang just screamed at everyone’s silence, and it’s already soaring. Now it’s just a matter of justice and straightforwardness.

After a while, a good voice was heard.

The foreigners who had been made very embarrassed, seeing Shen Lang standing out and roaring, do not have to come out by themselves, everyone does not mind shouting loudly.

And some of the local Tangcheng, originally because of the Shenlang, will become the opposite, but the words of the Jinyi men are indeed too arrogant, so that they are also dissatisfied, but only because they are Tangcheng, not directly help the field people.

Now, if you are in the dark, you will be positioned as a family-owned child, and let others be stripped. Those who are not well-known and feel that they are not in the ranks; those who have a family background, who feel that they are not annoying.

So at this time they also applauded, not the Tangcheng people, but the scum of the reputation of the Tangcheng people.

“This Xiongtai, there is something to say. It is just a small misunderstanding, there is no need to upgrade to such a high level. I am apologizing to you on behalf of Fan Xiong!”

The white man's voice made a control and was heard around in a circle. This means that he is openly and honestly faced, rather than privately seeking forgiveness, and will not spread things even bigger.

"Dao Mao's apology! A country bun!" is known as Fan Yi's Jin Yi men, still uncomfortable to stop.

The man in white couldn't help but smile. He wanted to make a round trip, so he continued to add fuel, but it was even worse.

Shen Lang slightly sneered, the voice is a little bigger: "This is the name of Fan Yu, who is corrupted by the reputation of Tangcheng. I don't know which of the giants of Tangcheng is a child of the big school, or swindling and cheating. I also hope that local friends in Tangcheng will identify it. We are untouchable by foreigners, and we can't afford it!"

After he finished, he went directly to the trading floor with a canoe, regardless of the situation at the scene.

The monks from other places are inconvenient and direct, but they are all scornful and sneer, and stay at the scene to see the excitement of several of them.

The local in Tangcheng began to talk about each other, which is a big fan of Fan Yu. At this time, he already had a person who codenamed "Destroy the reputation of Tangcheng people."

When Shen Lang's hand was released, the rickshaw laughed: "You, I usually look like a cold, and have such a childish side."

"What! I clearly don't want to make things bigger. Is this a mature and smooth way to deal with it? According to my character, I dare to slap my woman in person... Female friends... Female companions, I directly slap him I flew out!"

Shen Langshun said "teachering my woman" and quickly changed his mouth. The result was not suitable for "girlfriend", and he quickly changed to "female companion."

Look at his stuttering look, and slam the grin.

“This is for you.” She suddenly handed over the same thing.

In order to avoid the shackles of the mistakes, Shen Lang took it over and then shifted the topic. “what is this?”

After seeing it clearly, he was a little dumbfounded.

Chapter 840 - Goodbye 9 times Zijinlian

The boat was given to him as a medium stone.

It seems that she is not worth anything, and wants to make a small wish, so she has contributed only one Lingshi.

“You have accepted it.”

“Okay, I have accepted it.” Shen Lang nodded, and did not want her to be embarrassed. Anyway, the mind would be fine.

“Then you are my person!”

“...?”

Seeing that she suddenly jumped up, Shen Lang was a bit puzzled.

“Don’t you just say that I am looking at you? Let the person help you buy it and give it to me.”

“What is the situation.” Shen Lang is a bit puzzling.

“I don’t need someone to help me buy, and I also think that you don’t need one million to buy, one is enough. Just you have already received it, so I have already bought you, you are my person. ”

The sleek smile said her logic.

Shen Lang is crying and laughing again.

But when it comes to this, he understands it.

The canoe is definitely not going to want to take advantage of him. It was only that night, she thought that everyone would start to attack them on the second day, and everyone was escaping, so I thought about fitting with him.

There is no such problem now. There are Xu Yuyue and Dracula, even in Tangcheng, their safety has increased.

The two people did not mention that, and stayed in the VIP building yesterday. Shen Lang wanted four rooms.

So, taking advantage of the things she just did, she used her jokes to express her heart!

What's the matter? Shen Lang thought that it was with the rain, and now it is so close, but the relationship with the canoe is so close.

In fact, people can not blame, after all, are young men and women, get along with each other day and night, it is easy to have feelings. The time to go to the death forest is different. There are many people in the same trade. This time they are mainly two of them. From the time of boarding, others have regarded them as a pair.

However, Shen Lang did not think much about it. This is not a big deal. Everything goes with the flow.

“Well, then you have to look at me, don't let the beauty here take me away.” Shen Lang did not sink, and immediately responded to her with a smile.

Everyone is a joke, but a simple temptation has already received a response.

This also gave the attitude of the boat, if he really did not feel anything about her, mind to develop, this will be seriously explained, she will of course return appropriately.

After the implicit explanation, the two people easily went to the trading floor.

The scope of this trading market is really big, like a big market. There is no fixed mode for booths and counters. Basically, whoever has more money and more people will be better arranged, otherwise it will be simpler.

And then look carefully, Shen Lang also found that the man in white is not wrong.

The things sold here are expensive, but they are not depreciated. Many things are placed on the earth and are top resources.

It is determined that it is not a depreciation, and Shen Lang is also relieved. After all, he has thousands of medium-spirited stones, and a hundred fine stones, most of which are far-fetched.

Although it is easy to get it, it contains a human condition. If it is devalued and does not work, he will feel sorry for the gift of Bi Hai Huan.

Just as he gave the blue sea a lot of gold, if she went to a place where gold is worthless, there will be a similar feeling.

After visiting the past, they also saw it. There are three kinds of booths on the spot. One is for the sects and the family, and the other is for the pure individual. There is also a booth for some institutions.

These institutions are operating a variety of resources, generally they are also two-way business, both for sale and acquisition, if you have good things, you can also sell them directly.

What Fan Fan said before is such an institution. In their booths, it is indeed a show of wealth.

And people are specializing in this business, and the people who come here are more professional, explain and recommend just right, keep polite and smiling, good attitude, and appropriate tout, people will feel more expensive.

Shen Lang is also at the booth of “Yi Pin Ge”, which directly spent twenty fine stones.

He bought four things, and on average they were more than five hundred. When they bought the bills together, they discounted and zeroed them, and settled two thousand medium-spirited stones, which were equivalent to the twenty-high stone.

Although this is the price of Nedan, Shen Lang does not feel that it is not a loss.

Among the four things, there is the same one that was bought for the canoe. The medicinal material of the extremely yin attribute is similar to the snow nectar, and it is of great help to her practice.

But on the earth, they are known as centuries-old, millennial elixir, and here it is said to be thousands of years, the perennial medicine!

Nature is also a boast of exaggeration, but it has a powerful effect, at least for a thousand or two thousand years.

The other thing is a big fire spar. This brought back to Zheng Yumeng, her body can be used.

There are two more, it is the use of Shen Lang himself, is the encounter of two nine Hui Zilian!

Nine times purple gold lotus has been very rare, there are actually two, and the price is still so cheap!

Yes, it's cheap, although it adds up to a thousand medium spirits, but this is a lotus!

At the beginning of the month, Xu was left with only one lotus seed, and the effect would not be worse than a Nei Dan. Inside a lotus can, at least a lot of lotus seeds can be opened, which is very cost-effective.

It is precisely because of this, Shen Lang will feel no loss, feel not expensive.

However, it is possible to collect two, and Shen Lang suspects that it should be somewhere, there are many nine purple lotuses!

Whether it is wild or planted, only a large number can be collected in a period of time. It can only be collected in a few years, or more than ten years, and it is possible to sell it, and the price is not expensive.

If there is only one plant and two plants, it will take nine hundred years to pick it. Even if the world is more advanced, it will not be so long.

Of course, has another possibility, that is, the nine-time Zijinlian is in the maturity period here, not as long as 900 years.

Anyway, this is a good thing that has been verified. Shen Lang is not willing to miss it. He bought both of them at once and is also ready to return Xu Haoyue.

The lotus seed that was given to him at the beginning played a very important role in helping him to ascend to the realm of the gods.

Probably today, everyone is watching more and buying less. For a purchase of four kinds of Shenlang, Yipine's salesperson can not be discriminated against outsiders, but as a local tyrant!

"Hey! How? The front can't look up, can you see it in one product? Can you afford it?" Fan's voice rang again.

The three of them left gray and gray, and went straight to the corners of people to avoid the limelight, let the people who watched the excitement disperse, and felt that they should leave after a while and then continue to stroll in it.

As a result, I saw that the waves and the canoe were in front of the stalls in the restaurant. Fan Wei couldn't help it. This is not to conquer the beauty, but to avenge!
